HAMLIN PIED PIPERS HERE FOR GAME; HAWKES' 11 READY

The home football season opens Friday night, Sept. 24, with the Spur Bulldogs meeting the invading Hamlin Pied Pipers in Jones Memorial Stadium with kick-off time set for 8 p. m.

An overflow crowd is expected by school officials as the charges of coach Hawkes and Hahn will be trying for their first victory of the season. They have lost two tough ones, to Haskell, 26 to 6, and last Friday night to Post Antelope by a close 13 to 7 score.

Spur mentors have been working the Bulldogs hard this week in an effort to iron out the bad points shown in the preceding games. Coach Hawkes expressed praise over his charges in the game with Post last week, and gave special mention to Neal Chastain for his excellent work at tackle position, and to backs Allredge and Blair. Simpson's passing was good in that he connected with 3 for a total of 40 yards. Statistics showed that Spur had 9 first downs to Post's 12; 175 yards from scrimmage to Post's 190; 0 in penalties to 25 yards for Post. Spur lead in the game by a score of 7 to 6 up to five minutes before the game was over. A kick that was caught by the wind, gave the Antelopes the ball on Spur's 20, where they pushed across for their second touchdown and the game by the score of 13 to 7.

Coach Hawkes stated that all his team are physically fit and are in good spirits for the game Friday night.

The invading Pied Pipers are coached by Jess Burditt, and have looked good this season. They played Stamford in the season opener to a 7 to 7 tie, and last week defeated the Abilene "B" team by a score of 18 to 6.

The two teams are about evenly matched in the weight division averaging approximately 148 pounds per team.

Virgil Rogers returned last week from Madera, California, where he spent two weeks visiting in the home of a brother, Mr. and Mrs. C. O. Rogers and family. His mother, Mrs. B. Rogers who accompanied him there remained for a longer stay in California.

Recent articles by ranchmen and others on the value of the eradication or control of mesquite on grasslands in Texas are heartening and stimulating to the personnel of the Texas Agricultural Experiment Station at Spur, Texas. Since 1938, this station has tested various mechanical and chemical treatments in hopes of developing both a practical and economical way of removing mesquite from range and pasturelands.

FISHER GIVES METHODS OF ERIDICATING MESQUITE ON LANDS

By C. E. Fisher Associate Agronomist Spur Experiment Station

Recent articles by ranchmen and others on the value of the eradication or control of mesquite on grasslands in Texas are heartening and stimulating to the personnel of the Texas Agricultural Experiment Station at Spur, Texas. Since 1938, this station has tested various mechanical and chemical treatments in hopes of developing both a practical and economical way of removing mesquite from range and pasturelands.

Experimental work was undertaken after favorable results were obtained by clearing a 45-acre mesquite thicket at Spur with WPA labor in 1932, and when over 100 ranchmen in Northwest Texas requested and obtained funds for research work on methods of eradicating mesquite.

Results of experimental work at the Spur station for 10 years were summarized and published as Progress Report 1056 of the Texas Agricultural Experiment Station, and copies are available to the public. This report was prepared after hundreds of chemicals and methods were tested to determine their value for killing mesquite. It also gives results of grazing trials on cleared and uncleared pastures and the effect of shade on yield and quality of grasses produced.

Recent reports of the use of 2,4-D applied by airplane are interesting but the use of this

Area Employment Office Set-Up for Harvest Helpers

Temporary cotton harvest labor offices have been opened in Spur by the Texas Employment Commission. It was announced this week, Ernest Fitzgerald of Borger, has been assigned as manager of the local office. The office is located at the Farmers Co-op Gin.

Mr. Fitzgerald told the Texas Spur that the purpose of his office was to direct workers and crews to sections where they are needed.

Twenty-five working crews, or about 340 persons have been sent out this week to areas over the county where pickers are needed.

A survey conducted by Mr. Fitzgerald over the Dickens County area showed that approximately 125 bales of cotton are being ginned daily. His figures further showed that about 757 bales of the estimated 15,000 bale crop have already been ginned. The heaviest ginning has been found in the north area of the county.

Farmers of Dickens County that need labor for harvesting, are urged to contact Mr. Fitzgerald listing their needs, and prompt attention will be given in securing crews.

Officers elected last week and to be installed Monday are: Mrs. Larry Boothe, president; Mrs. Kelly Marsh, 1st vice-president; Mrs. Weldon Grimes, 2nd vice-president; Mrs. Joe Jefferies, secretary and Mrs. C. B. Chandler, treasurer.

Legion Auxillary To Meet Mon. Nite

The Ladies Auxillary of the American Legion will meet in the Legion Hut Monday night, Sept. 27 at 8 p. m. for the installation of officers.

Mrs. Albert Morrow of Morton, Texas, president of the 19th auxillary district, will be the installing officer.

Officers elected last week and to be installed Monday are: Mrs. Larry Boothe, president; Mrs. Kelly Marsh, 1st vice-president; Mrs. Weldon Grimes, 2nd vice-president; Mrs. Joe Jefferies, secretary and Mrs. C. B. Chandler, treasurer.

Electric Advisor For REA Named

Mrs. Van North of Spur, has been recently employed by the Dickens County Electric Co-op, Inc., as Electrical Advisor, for this area. It was announced by Bynum Britton, manager of the local REA Co-op.

Mrs. North is well known in this area, having been reared in Kent County. She has been a resident of Spur for some time.

Mrs. North's duties as advisor will take her over the rural areas served by the Dickens Co. REA, and her time will be devoted to working and advising individual members, as well as conducting group meetings in the various communities. She will be available on such subjects as adequate wiring, lightning, water pumping, electric cookery and the installation of electric service on the farm in general.

Mrs. North may be contacted at the Spur office of the Dickens County REA Co-op.

Duck Creek Soil Conservation District News Notes

Holding the soil in place and improving its fertility is the objective of ten farmer co-operators of the Duck Creek Soil Conservation District who have secured 100,000 pounds of 20 per cent super-phosphate which will be applied to their soil in preparation for the planting of rye and hairy vetch.

D. L. Pace, Ben Lee, Wayne Beadle, Virgil Wilson, Ted Goodwin, Charley Witt, Oscar McGinty, E. C. McInroe, Clark Forbis, Dr. Blackwell and Penn Shugart are some of the Duck Creek District co-operators who are this year using 200 pounds of super-phosphate per acre under rye and vetch. These farmers plan to apply the super-phosphate with a common grain drill and some are putting it into the soil directly as they haul it from the railroad. This saves time and labor in handling, and the results should be as good as it would be if put out just ahead of seeding. Rye has been used as a cover crop for the prevention of wind erosion by several co-

720 Register for Draft in District 80; 404 in County

A total of 720 youths from Dickens, Kent and Stonewall counties, comprising District 80 of the Selective Service Draft Board, registered for the peacetime draft that ended on Saturday, Sept. 18.

The announcement of the total came from B. J. Kellett, Chairman, from Jayton, and showed that Dickens County lead with a total of 404, Stonewall County, 212, and Kent County with 104.

Mr. Kellett stated that questionnaires are being sent out to the youths over the three county district, and registrants are urged to prepare and return them as soon as possible to their respective registering places.

He further stated that no call for men had been received for this district, also a call has been issued by the state department.

Other members of the three county board are: H. A. C. Brummitt, Dickens County and Barney Umbert, Stonewall County.

Sarah Bernhardt, a famous French actress, was called "The Divine Sarah."

Spur Fire Dept. Answers 2 Alarms

The Spur fire department answered two alarms this week, Monday night, when an automobile caught fire at the Hill Top Cafe and Tuesday night, when an alarm was turned in that proved to be a false alarm, according to Fire Chief, Lewis Lee.

The fire Monday night resulted in damage to the glass, paint and upholstery of the automobile.

Grandmother of Local Woman Dies

Mrs. R. C. Thompson, age 85, of Cross Plains, grandmother of Mrs. Lester English of Spur, passed away Monday night.

Mrs. English left Spur Tuesday for the funeral services that were conducted in Cross Plains, Wednesday at 3 p. m.

12 Ropers Vie For Roping Club Championship

A roping contest that is expected to be the best seen in this area in a long time will be staged Saturday at 2:30 p. m. at the Spur Roping Club Arena, Airport road, when 12 ropers for a six-county area will meet to determine the "best" of this part of the county.

Chairman Eric Swenson stated that arrangements had been completed whereby ropers from Short Grass (Leuders), Clairemont, Dumont, Crosbyton, Post and Spur would spin the lariet for the Roping Club Championship. The ropers will represent their respective clubs: Jimmy Bird and Sonny Vance will represent Post; Swede Swenson and John Swenson will represent the Short Grass Club; Jordan Rogers and Billie Hand, Dumont; C. W. Rogers and Bobby Bird, Clairemont; The Bronson Boys, Crosbyton; Neil Love and Buck Thompson, Spur.

The show is being sponsored by the Spur Chamber of Commerce. Cash prizes will be awarded the winners. An added feature will be a Jack-Pot Roping event and Ribbon Roping.

Judges for the event are: Jannie Koonman, flag judge; Bill Rucker, starting judge; Bob McAleer, and Billy Hahn, timekeepers. Fred Kinney, announcer; Cliff Bird, arena director; John Moore, admissions and ticket sales; and Olney Walker, general superintendent.

Roping fans have been promised a show they long will remember.

Spur Fire Chief, Lewis Lee, and his "boys", along with others, and the city of Spur were given nice publicity in Sunday's Lubbock paper.

The busiest man in town today was Carl Proctor as he showed people of this area his beautiful new store. JOTS offers his congrats to Carl and his gang on a job well done.

JOTS BY JOE

Wednesday was the official day of fall, according to JOTS calendar... no definite change was noted in the warm weather...

Eric Swenson told JOTS that if you good people of this area want to see some roping-what will really be roping, come out Saturday P. M. to the Roping Arena... 12 of the best ropers in this area will compete for the championship... time is 2:30.

Well, coach Hawkes will show his boys to the home-town folks for the first time Friday night at Jones Memorial stadium... they play host to the Hamlin Pied Pipers... game time is 8 p. m. and let's fill the stands... give the youngsters a boost for their first victory this season...

FUNDS TO BE USED FOR NEW BUILDINGS

Young Acrobat Entertains Spur Rotarians Club

Miss Mary Aster Garner, four years of age, gave the Rotarians an unusual bit of entertainment at their September 16 luncheon. Miss Garner's first number was a toe dance followed by a tap dance, both of which were well received and applauded. Then the little lady executed a series of acrobatic stunts, each of which brought enthusiastic applause from her audience.

Miss Ernestine Berry accompanied Miss Garner at the piano and was requested to play a solo during intermission. She played "Music Box" which was enjoyed by every one present.

Visitors were Mrs. Ocasene Garner, Mrs. Elton Garner, Fred Kinney, Lewis Dawkins, Carley Williams, Little Miss Susan Sargent and H. M. Christian.

Pioneer Dickens Resident Dies

Funeral services for James Madison (Uncle Jim) Askin, age 88, pioneer Dickens resident, who died last Friday, were conducted at 3:00 o'clock Sunday afternoon in the First Baptist Church at Dickens, with Rev. C. F. Stoncipher of Dickens and Rev. Hill of Abilene, officiating.

Burial was in Dickens Cemetery under the direction of Chandler Funeral Home.

Mr. Askin was born in Crawford County, Missouri, on August 3, 1860, and came to Texas in 1881, settling in Dickens. He was married to the former Flora McCarty in 1898.

Active pallbearers were: S. H. Collins, Hubert Collins, Jay Selma, Paul Bennett, Frank Murphy and Gene Carroll.

Survivors include his wife, one daughter, Mrs. G. A. Turselley of Welch; two brothers, Thomson Askin, Post, and Bud Askin of California.

The symbol of rugged strength is the oak tree.

\$435,000 REA Grant To Dickens Co-op

A \$435,000 federal grant that will mean electricity to 350 farms and ranch families in six counties was made by the Rural Electrification Administration to the Dickens County Electric Co-operative, Joe M. Rose, president of the board of directors, was advised by a telegram from Sen. Tom Conally.

According to C. Bynum Britton, manager of the co-operative, the funds will finance construction of 360 miles of lines in Motley, Dickens, Crosby, Garza, Kent and Stonewall counties.

Already under construction is the "D" section of the co-operative's line building plan, which totals 365 miles. The co-operative is now serving 730 farm and ranch families and the "D" section, for which the allotment was made, will nearly double the number of members.

A Lubbock engineering firm, H. N. Roberts and Associates, will prepare maps and plans for the project, and a Spur contractor, E. G. Ericson, is already at work on the "D" section, with temporary headquarters at Aspermont.

Members of the co-operative's board of directors are Mr. Rose, S. L. Benefield, secretary, W. L. Buckelew, vice-president, Charlie Witt, Bill Wyatt, A. L. Smith, Elmer Cade, Ben Lee and Melvin Thacker.

Higgingbotham Named on Board

In the regular meeting of the Spur Independent School District Board, held Monday night, Raymond Higgingbotham, was named as a member of the school board, succeeding H. M. Chastain.

Mr. Higgingbotham will serve as an appointee and will be up for election at the next regular election of trustees.

Other members of the board are: G. C. Godfrey, pres; D. J. Dyess, sec.; Horace Woods, Dr. W. K. Callan, Oscar McGinty and Jerry Ensey.

7 DICKENS COUNTY FAMILIES ELIGIBLE FOR FARM AWARDS

The State Fair of Texas has designated Wednesday, October 13, 1948, as Farmers Home Administration's Farm Ownership Achievement Day.

Suitable certificates in the form of Achievement Award are being prepared by the State Fair of Texas for presentation to those Farm Ownership Families eligible to receive them. The awards will be presented to those families who have repaid their loans in full and continue to own and operate their farms.

Seven Dickens County families and two Kent county families have been certified to the State Director of the Farmers Home Administration by the Dickens-Kent Supervisor as eligible to receive such awards.

These paid-up loans represent about 25 per cent of the total number of Farm Ownership loans made in the two counties since the Bankhead-Jones Farm Tenant Act was passed by Congress in 1937. This is an outstanding record particularly when coupled with the fact there have been no foreclosures, nor have any farms been sold outside the program.

Recognition of Farm Ownership County Delegations and individual F. O. Families has been scheduled on the program in the Hall of State beginning a 12:00 p. m. The main address will be by Honorable Marvin Jones, Chief Justice, Court of Appeals, one of the authors of the Bankhead-Jones Tenant Purchase Bill.

Proctor Store Re-Opens Thurs.

Spur's building gets another look this week with the announcement from Carl Proctor of the formal opening of their newly-renovated and modern store.

Remodeling has been going on for several weeks in the change over of the store, and the announcement this week of the completion gives Spur another completely modern department store.

Several new departments have been added and all new fixtures throughout the store mark it as one of the most modern in this area.

A style show held by Proctor's on the stage of the Palace Theatre Wednesday, gave the people of this area a pre-view of the new merchandise offered by this store.

Formal opening was held this morning at 10 a. m.

"The people of this trade area have made possible our new and modern store, and we wish to extend to them an invitation to come in and inspect it," Mr. Proctor told the Texas Spur.

Free coinage of silver was the main issue in the presidential election of 1896.

St. Augustine, Florida, is the oldest town in the United States.

The Republican standard bearers, Governor Thomas E. Dewey of New York and Governor Earl Warren of California, are shown here on the Dewey farm near Pawling, N. Y., as they made plans for the Presidential campaign which will take them to all parts of the U. S. In the background is the dairy barn in which the Dewey herd of approximately 50 cows—mostly Holsteins—is fed and milked. His farm neighbors credit Governor Dewey with a well-grounded knowledge of farming and the farmer's problems—knowledge gained from first-hand experience. National farm policy is expected to be one of the major campaign issues.

Old Judge Early's FAMILY COURT

Mom vs Dad
Docket:
Shall Mom tell Dad what to wear?
Dad:
"Every time I start to leave the house, Martha says things like, 'You surely aren't going to wear that tie, I hope,' or 'Please, Will, try suit but that one. I want to please her, but this nearly drives me crazy.'"
Mom:
"Will simply has the wrong idea, Judge. I'm only trying to help him. He should appreciate my advice and not argue about it."
Findings and Verdict of Judge Early:
This case is a pretty serious one folks. For it's directly concerned with home harmony.

Many husbands and wives needlessly jeopardize family happiness by trying to force trivial or unimportant whims on the other. Martha's and Will's case is a good example of this.
Martha's sincerity in "wanting to help Will" is unquestioned by the court. She's proud of Will and wants him to make a fine appearance in public. Trouble is, her wifely pride is innocently annoying Will and causing him unhappiness.
Further, unless a person is somewhat of a fashion expert, the decision as to which "tie" or "suit" to wear is frequently guesswork and unimportant as long as the choices are in general good taste.
The court, therefore, recommends Mom let Dad wear his personal choices.
Next week's case:
Shall Emma accept a sorority bid?
"Just Before the Battle Mother" was a popular song during the Civil War.
Rabbits and squirrels belong to the same order of animals as do rats and beavers.
Prior to World War I Great Britain, France and Russia comprised the Triple Entente.
Between Czechoslovakia and Poland are the Carpathian Mountains.

VETERANS NEWS

Thousands of veterans who contracted malaria overseas during World War II have been cured, the Veterans Administration reports.
Within the next few years, the problem of relapse from war-acquired malaria will be an insignificant one, VA added.
The rate of cure is indicated by VA statistics. During June, 1947, approximately 130,000 veterans were receiving compensation for malaria incurred in service. Nine months later, in March 1948, this number had dropped to 32,000. It is still declining.
The number of relapses also has declined—from approximately 500,000 cases infected during the war to less than 10,000 at present.
The parasite eventually "burns itself out" in human bodies in from one to three years, although some cases are known to have remained infected for as long as 20 years.
Use of drugs chloroquine, (plasmochin), and the more recently synthesized 8-amino quinolines, such as pentamidine and isopentamidine, have given splendid results, VA said.
Nearly 5,000,000 veteran holders of National Service Life Insurance have not yet converted their term policies to permanent forms of insurance.
The term policies in force represent more than \$3 billion.
More than half of the veterans holding converted NSLI policies have selected 25-payment life plans. These number \$2,190, or 55 per cent of the 1,312,150 permanent NSLI policies in force on June 30.
Permanent NSLI policies amounted to more than \$6.50 billion worth of insurance.
Juliet's family name was Capulet.

Boyce House "Gives You Texas"

San Antonio:
A tiny hat shop where the customer occupies a chair in front of a mirror, in full view of the passerby—like a window display.
The Medical Building, its graceful summit is subdued gold, like a crown.
An old Mexican musician, so bent with age that his primitive harp fits in the curve of his shoulder.
A gray-haired fiddler who strolls as he plays.
A crippled beggar who smiles after a little curly-headed girl has skipped by.
The display of trinkets in silver and semi-precious stones in the curio shops.
The parks where the checker games and the arguments on predestination by old men were not interrupted even by two world wars.
And the sweeping banks of the blue-green river, with canoes and decorated barges, the banks lined with palms and banana plants, a silvery waterfall adding the final touch of poetry.
Some Irish sayings:
Even contention is better than loneliness.
The covetous man is always in want.
The losing horse blames the saddle.
He who is bad at giving a lodging is good at showing the road.
An Irishman is never at peace except when he is fighting.

Save \$30. PER BALE
IN COTTON HARVESTING COSTS
With a JOHN DEERE TWO-ROW COTTON HARVESTER
The easiest way to boost your cotton-growing profits is to use a John Deere No. 15 Two-Row Cotton Harvester. Based on 1947 labor cost, it saves \$30 or more per bale over hand pulling... does an excellent job in any crop that's suitable for mechanical stripping.
Handling two forty-inch rows at a time, the No. 15 does a clean, efficient once-over job of saving bolls. Its work is considered by many gin operators superior to cotton stripped by the average hand puller.
With the John Deere, you, too, can make short work of your harvest... get all your cotton to the gin before bad weather causes crop losses. For details, see us the next time you're in town.

OF INTEREST TO WOMEN

Local Ladies Guests Of Lubbock Club

Mrs. W. T. Andrews and Mrs. George Gabriel were guests of the Allergo Club's Musical Tea at the Hilton hotel in Lubbock last week.

They enjoyed a violin solo by William Harrod, Conductor of the Lubbock Symphony Orchestra, several selections by Mrs. Joe Kelly and Piano renditions by Bill Murphy.

Mrs. Andrews was Luncheon guest of Mrs. Newton Walton, president of the Club, before the program.

Training Union Will Install 1949 Officers

In a special meeting Sunday, Sept. 26 at 7:00 the Intermediate Training Union of the First Baptist Church will install the following officers: J. E. Berry, president; Carolyn Henshaw, vice-president; Virginia Ruth Shugart, Secretary; Dorothy Williams, assistant secretary; Doris Gibson, Bible leader; Tommy Allredge, Missionary leader; Virginia Dunwoody, pianist; Mrs. George Gabriel, song leader; William North, assistant song leader; Ronald Comer, treasurer; Zeila Watson, Darvin Callihan and Beryl Durham, group captains; Margie Campbell and Betty Scott, social leaders; Dwane Durham and Wayne Smith publicity chairman. The parents of all the Intermediate Training Union members are invited to attend the meeting.

Linda and Donna Hinson Honored

Mrs. Douglas Hinson honored her daughters, Linda and Donna, on their fifth and sixth birthdays with a party Saturday afternoon at the home of Mrs. Ellie Reed. After an hour of games and picture taking the little guests were served birthday cake, ice cream and punch. Donna's cake was white with yellow candles and Linda's was chocolate with pink candles. Plate favors were little doll harmonicas for the girls and harmonicas for the boys.

Guests attending and sending gifts were: Sandra Rae Coplinger, Dale Busher, Karon and Sue King, Ann Godfrey, Nancy Johnson, Sheila and Benton Watson, Jerry and Mike Proctor, Sandra Sue Foreman, Marilyn Hagins, Sandra and Becky Reed, Kathy and Alton Sparks, Gery Herring, Irish Gene Mounty, Wanda Gene Chandless, Jerry Lynn Williams, Mike Kenney, Mary Ann Gregory, Linda Beth Morrison and Sammy and Patsy Jones.

Bridge Party Held At Swenson Home

Mr. and Mrs. J. E. Swenson and Mr. and Mrs. H. Hodges were co-hosts at a dinner bridge in the backyard of the Swenson home last Saturday evening.

Six bridge tables, decorated with bouquets of zinnias and peonies, were arranged in a circle around the backyard swimming pool.

The dinner menu consisted of baked ham, fish with tartar sauce, baked beans, green salads, garlic bread, fresh peach cobbler a la Mode and punch.

Guests enjoying the dinner and bridge were: Miss Julia Hickman, Mrs. Carl Proctor, Messrs. and Medames, Riley Wooten, Tom Johnston, V. C. Smart, Jr., Bob Conner, John Kink, Jr., and Jim Barron.

Mr. and Mrs. Leon McClurkin took their daughter, Dein to Lubbock last week. She is a student at Texas Tech this year.

Automobile Trails of Tomorrow

THE FIVE BEST youthful automobile designers in the country are shown above with their model cars which won national awards of university scholarships in the 1948 Fisher Body Craftsman's Guild competition just completed. They are (left to right) Tom Good, Birmingham, Mich., \$4,000; Howard Eichen, San Francisco, \$3,000; Harold Simon, San Antonio, Texas, \$2,000; Harvey Whitman, Jackson, Mich., \$4,000; and Ronald Johnson, Portland, Ore., \$4,000. These futuristic models might well be seen on the highways a few years hence if the boys make careers of automobile designing.

20th Century Club Meets Sept. 21

Mrs. L. D. Ratliff was hostess to the Twentieth Century Study club in the first fall assembly meeting Tuesday afternoon of this week.

The president, Mrs. Cliff Bird presided during the brief business meeting and graciously extended greetings to those present. Mrs. Ratliff passed out the new year books.

Mrs. T. H. Blackwell has been elected chairman of cancer control in the seventh district, a place previously held by Mrs. Jack Reitor who recently resigned.

A most interesting feature of the program was the report given by those who had heard from their foreign correspondents, the project was carried over from last year's work.

Refreshments of mint punch, stacked sandwiches and cake were served to the following members: Mesdames Eric Foster, Cliff Bird, T. H. Blackwell, Mansell Bragg, F. B. Crockett, Page E. Gollohar, Henry Gruben, B. F. Hale, O. L. Kelly, J. A. Koon, E. S. Lee, George S. Link, O. M. McGinty, J. C. McNeill, W. S. Patrick, A. M. Walker, one visitor, Mrs. F. W. Melinari, California. Niece of Mrs. J. C. McNeill and the hostess, Mrs. Ratliff.

Harmony Club to Meet Sept. 28

The Harmony Club will have its regular meeting Tuesday, Sept. 28, at 7:45 in the Methodist Roundup. Mrs. H. C. Goldwire will be the hostess for the evening. A program of popular and semi-classical music will be presented.

NEW ARRIVALS

Mr. and Mrs. J. B. Albritton of Beaumont are the parents of a 7 lb. 5 oz. girl born September 20. The baby's name is Susan. Mr. and Mrs. W. C. Gruben of Spur are the Maternal grandparents.

An 8 lb. son, Herbert Roy, was born to Mr. and Mrs. Walter Farmer of Calgary last Saturday, September 18.

Personals

Mr. Henry Elliot of Paducah, formerly of Spur, had an appendectomy operation last week. He is reported to be doing nicely.

Mr. and Mrs. W. T. Andrews were Saturday night guests of Mr. and Mrs. Roy Riddle of Lubbock. They dined at the Hilton attended the Tech WTSTC game and were entertained later with a party at the Hotel.

Bobby Morrow, daughter of Mr. and Mrs. Thurman Morrow, a student of Wayland College this year, was home over last week-end.

Don's apply liquid wax by pouring it on the cloth you intend to use, pour out the wax into a pan or dish first. Never pour the remainder back into the can. Contamination may cause the wax to spoil.

Don't apply liquid wax with a wadded cloth. Fold the cloth into a neat pad so that you'll have a flat surface with which to apply the wax.

Finally, don't apply the wax with haphazard strokes or circles. Put it on with straight, even strokes as you would paint.

Mrs. Clayton says that aids in floor waxing are: floor cleaners for removing old wax and dirt and these are on the market now. Also most floor wax is said to be more resistant to water, wear, dirt and slipping than formerly.

Nancy Holmes SUGGESTS

SUMMERS heat offers such opportunity for procrastination that one thing after another is put off till cooler weather. That generally goes for better breakfasts as well.

No reason now to short-change the family on their morning meal, prompts Nancy Holmes of the Best Foods consumer kitchens. Cool weather here, besides the fact that appetites are naturally larger when the temperature drops. So why not start the better breakfasts rolling with this suggestion?

Scrambled Eggs De Luxe
8 eggs, 4 tablespoons vitaminized margarine, 1/2 teaspoon salt, 1/2 small tomatoes, pepper

Beat eggs well. Blend in sour cream, salt and pepper. Melt vitaminized margarine in skillet over low heat. Pour in eggs. Cook slowly, stirring gently. When beginning to thicken, stir in diced tomatoes and continue cooking until eggs are set. Serve with little sausage. Yield: 4 generous servings.

Cinnamon English Muffins
Break English muffins apart with a fork, toast until golden brown, then spread with a mixture of 4 tablespoons soft vitaminized margarine, 4 tablespoons confectioners' sugar and 1/2 teaspoon cinnamon.

Girl Scouts Hold Meeting Sept. 15

The Girl Scouts elected secretary and treasurer for each patrol in a meeting Sept. 15.

The demonstrator, Betty Sue Gregory, gave demonstrations for a triangular bandage, a hand bandage, first aid, two types of head bandages, a face bandage and many others.

They received a suggestion for a handicraft project from Mrs. H. L. Miller.

Pointers Given Floor Up-keep

How far do you walk in a year? It's probably up in the thousands of miles all told. But just around inside the house the average family walks several hundred miles in a year's time over the same few hundred feet of floor space.

And much of this walking means that the floor requires considerable upkeep, especially for the certain avenues which get the most traffic.

Much household flooring, whether hardwood or linoleum, is protected with wax. There are right and wrong ways to apply wax, according to Bernice Clayton, extension home management specialist of Texas A. & M. college.

Mrs. Clayton gives housewives these five "don'ts" on floor waxing:

Don't ever puddle wax on the floor unless you pick it up immediately. Otherwise that puddle spot will show on the finished floor.

Don't ever use a mop which contains traces of oil in polishing your waxed floors. Even a trace of oil will soften the wax film and make dust and dirt stick to it.

FOR YOUR CLEANING

and PRESSING NEEDS . . .

We have constantly reminded you of our Good Laundry Service and the way the Laundry does its best.

Now we want to tell you about our Cleaning and Pressing service.

SPUR LAUNDRY AND DRY CLEANERS

Phone 62 Spur, Texas

Mr. and Mrs. J. D. Hagins left last Thursday on a business trip to Brownwood and a week-end visit with friends.

Marlene Rogers and Sue Davenport of Lubbock were here over the week-end with their parents, Mr. and Mrs. Marlin Rogers and Mr. and Mrs. W. O. Davenport.

Bynum Britton was in Stanton Monday for the REA district meet.

Mr. and Mrs. Clifford Leidy are visiting in San Angelo this week.

Guest of Mrs. I. J. Hahn this week is her nephew, Berry T. Johnson of Odessa.

Mr. and Mrs. Jack Darnell of Chicago and Mrs. Clara of Stamford were guests in the home of Mr. and Mrs. W. T. Andrews last week-end.

Mr. and Mrs. W. E. Ball and Mr. and Mrs. W. A. Avara visited in Stephenville with their children, Mr. and Mrs. Loyd Ball and Barbara last week-end.

Mr. and Mrs. J. S. Callihan, Mr. and Mrs. Don Ramsey and Mr. and Mrs. Cecil Ramsey of Post were visitors in the home of Mr. and Mrs. G. D. Callihan over the week-end.

"Pop" Clay Better

Friends of W. H. "Pop" Clay will be glad to know that he is reported to be rapidly recovering from an operation he underwent last week in the Hendricks Memorial Hospital, Abilene.

Mr. Clay was able to be brought to his home in Spur on Tuesday, this week, and friends are invited to visit with him.

He was stricken Tuesday night, Sept. 14, and was rushed by Campbell's ambulance to Abilene, where he was operated on Thursday.

Mr. Clay's daughter, Sybil, of San Antonio, who has been at his bedside in Abilene, returned to Spur for a visit with family and friends.

Mrs. D. I. Lee was in Dallas with her daughter and her husband, Mr. and Mrs. Billy J. Stark, last week-end.

Mrs. Dollie Welch, Como, Texas and Mrs. Ellen Landrum of Linden, Texas were visitors in the home of Mr. and Mrs. L. C. Ponder last week.

Mr. E. S. Lee was in Abilene Monday for the semi-annual meeting of the A C C Board of Trustees.

**Saturday, Oct. 2
Spur Day at Fair**

Spur citizens will have a special day at the Panhandle South Plains Fair, Lubbock, according to an announcement from A. B. Davis, manager.

The day for Spur at the 1948 exposition has been set for Saturday, October 2. A special invitation has been extended to the Spur Band to attend on this date, and arrangements have been made for them to play at the Fair bandstand. The Fair is expected to be the best ever this year. Included in

the attractions are, "Queen for a Day" radio show, Water Follies, Forsythe and Dowis Shows and Rides, with Sleden, the Stratosphere man, who will be seen twice daily. Ringling Brothers and Barnum Bailey circus will show on the fairgrounds on Wednesday, Sept. 23.

**Spur 18-year Olds
Enlist in Army**

Two Spur youths, Leland Ray Calvert and Billy Wayne Dyess, both 18 years of age, enlisted in the United States Army at Lubbock last week.

The boys have been assigned to the 2nd Armored Division, Camp Hood, Texas, and will receive their basic training there. The youths will not be sent outside the United States during their one year enlistment period, but will be required to serve 4 years in the active reserve unit, or six years in the inactive reserve, after completing their tour of duty.

Calvert is the son of Mr. and Mrs. Willie Calvert, Rt. 1, Spur, and Dyess is the son of Mr. and Mrs. Delma Dyess, Spur.

**Spur FFA District
Meet Held Tuesday**

The initial meet of the Spur FFA District was held in Spur Tuesday afternoon. The following officers were named for the year: Lewis Blevin, Matador, president; Don Weems, Ralls, vice-president; Charles Foster, McAdoo, 2nd vice-president; Grover Wilson, Paducah, 3rd vice-president; Malcolm Rollins, Spur, reporter; Harold Thomas, Jayton, secretary; Jimmy Marlair, Loring, treasurer; Joe Hargraves, Crosbyton, historian; Red Wilson, Aspermont, parliamentarian; Jack Frazier, Patton Springs, sentinel and N. L. Moss, Matador, adviser. The district program for this school year is as follows: 1. Junior Chapter Conducting contest, to be held in Spur on Nov. 20. 2. Junior farm demonstration contest. 3. Public speaking contest. 4. Dairy judging contest. 5. District FFA banquet.

**Duck Creek—
(Continued from Page 1)**

Soil Conservation technicians, John Moore and Jack Simmons, District Supervisors held their regular monthly meeting last Thursday in Spur. Attending were Supervisors R. R. Wooten, O. M. McGinty, Will Wright and C. P. Witt; Louis B. Dawkins from the State Soil Conservation Board; County Agent Chas. Taylor; Voc. Agr. Teacher Walter Labay; and District Conservationist, J. H. Taylor.

Business transacted included the approval of applications for assistance from E. P. Cross, J. B. Montgomery, Willie Eldridge, L. E. Grogan, Elmer Frazier, and W. P. Shugart; plans to purchase a camera and projector for use in the District in conservation work; granted R. R. Wooten authority to sell caterpillar tractor, and plans for educational work with 4-H Club and F.F.A. boys in grasses.

Supervisors from twelve soil conservation districts in this region of Texas met in Post Wednesday afternoon with the directors of the Association of Texas Soil Conservation District Supervisors headed by Waters S. Davis of League City, Texas. Attending from the Duck Creek District were R. R. Wooten, C. P. Witt, O. M. McGinty and Will Wright.

**Fisher Gives—
(Continued from Page 1)**

growth of mesquite is rather easily killed but that in less than 5 per cent of the cases has 2,4-D ever killed the sprout buds on the roots of mesquite. Under highly favorable conditions, that is, when the plants are making rapid growth, soil moisture is abundant and the humidity of the air is high, certain formulations of 2,4-D have killed the top growth of mesquite and have delayed regrowth from the roots for two years or more. Under less favorable conditions the top growth or some times only the leaves are killed and vigorous regrowth takes place 30 to 90 days later. The use of various oils alone to overcome the effects of undesirable plant and weather conditions have not been successful when 2,4-D formulations are applied to the leaves of mesquite.

Until these new chemicals can be developed or improved to the point where consistent kills are obtained of both the topgrowth and the roots of mesquit, only small test areas should be treated and results should be observed for the next 12 to 18 months after treatment before any large scale plans are made. Killing the topwood of mesquite without destroying the sprout buds on the roots may easily multiply by 20 times the undesirable nature of mesquite on pastureslands.

The use of the airplane to control mesquite may well have a place in future work, but until a method or chemical is developed that will give consistent kills under existing weather and plant conditions, 2,4-D and any of its formulations now known either in oil or water solutions cannot be recommended to the ranchmen and farmers.

A cheap, effective method of eradication is necessary because of the low value of the land that is generally heavily infested with mesquite and also because the land that is cleared is soon reinfested by seedlings, by seed in the soil and those brought in by grazing animals and other means. Every effort is being made by all agencies concerned to develop such a method.

**FEED GRAINS AND LAMBS
DROP ON MARKETS
CATTLE - COTTON GAIN**

Feed grains and spring lambs supplied the main weak spots in southwest farm markets during the past several days, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Yellow corn values slid downward 2 1/2 cents a bushel. White corn dropped 12 to 18 cents, and sorghum grains lost 12 cents a hundred. No. 2 yellow corn prices delivered to Texas common points ranged from \$1.77 to \$1.82 Monday. White corn closed at \$2.15 to \$2.35, and milo \$2.48 to \$2.53.

Rough rice price settled close to the support level last week. Feed markets strengthened after several weeks of falling prices. Hay demand improved so as to absorb increased offerings at steady prices. Peanuts sold at support levels.

Poultry market of the southwest paid slightly higher prices for hens this week with supply scarce. Heavy hens ranged mostly from 30 to 34 cents a pound, and light hens 27 to 32, at Fort Worth and Dallas. Fryers remained plentiful at unchanged prices.

Eggs held firm, with many being brought in from the mid-west. Southwest fruits and vegetables enjoyed fairly active trade at most terminal markets during the week. Steady to stronger prices prevailed at principal shipping points. Cauliflower found very good demand in Colorado's San Luis Valley. Inquiry improved for Arkansas Valley onions. Colorado potatoes met dull markets, with many sales going to the government purchase program. Louisiana sweet potatoes strengthened to sell around \$2.40 to \$2.55 per 50 pound crate of No. 1 Puerto Ricans.

Sharply increased marketing of spring lambs at Denver and Kansas City brought lower prices at these terminals. Other markets recorded only moderate price changes. Medium and good spring lambs brought \$22 to \$23 at Ft. Worth and San Antonio Monday. Denver paid \$23 mostly for good grades.

Twelve months wool sold firm in Texas at 65 to 73 cents per grease pound. Hog prices rose to higher levels for the week. Good and choice medium weight hammers sold at \$23 a hundred at San Antonio, \$29 to \$29.50 at Fort Worth and Oklahoma City, and \$29 to \$30 at Kansas City and Denver. Sows ranged largely from \$27 down.

Cattle prices held fairly firm, and some spots strengthened under greatly increased receipts at principal southwest terminals. Beef cows took the lead in the price advances. Common and medium grades moved in a spread from \$17.50 to \$20 at San Antonio while medium and good kinds drew \$18 to \$21 at Fort Worth and Oklahoma City. Cood cows ranged from \$21 to \$23 at Kansas City, Wichita and Denver.

Cotton gained 50 cents to \$1 a bale at most southwest markets but lost 75 cents at Little Rock. Spot middling 15-16 inch closed Monday at 31.20 cents a pound at Dallas and Houston, 31.15 at New Orleans and 30.95 at Little Rock.

**Methodist Church
To Have Rally Day**

Sunday, Sept. 26, has been designated as Rally and Roll Call Day at the Methodist Church, according to an announcement from Rev. Lester Hill, pastor. Rev. Hill has urged a full attendance of all Sunday School Classes, and a special program will be given in the church auditorium at 10:35.

Members of the Church are asked to bring a pencil with them to the services Sunday in order that they may sign their names to "Roll Call", which will be given out along with the Church programs for the day.

William Pitt "the younger" became prime minister of England at the age of 24.

**Now is Time
For Fall Planting**

Fall planting time is here again, and that means farmers and stockmen will have to begin deciding what they will need in the way of temporary pastures for this fall and winter.

Oats, barley, wheat, rye and emmer are the small grains commonly grown in Texas for forage or a combination of the two. Robert C. Lancaster, extension pasture specialist of Texas A. & M. College, says if you're looking for a good, winter-hardy small grain try barley, wheat or rye.

Barley produces big yields of forage early in the fall. Wheat, rye and emmer don't get off to such a good start, but will produce forage later on around springtime if used for grazing altogether. Oats fits right in between these crops after hay begins to fade out, and before the wheat, rye and emmer get started. As a straight forage plant, oats is picked over barley or wheat because cattle like the structure heads better than the soft grown barley or wheat heads.

Rye is best adapted to the sandy land soils of the state.

September planting of small grain will produce plenty of early fall and winter grazing if you get some good weather. Higher yields are made with plenty of soil nitrogen. A legume crop ahead of the small grain will provide this nitrogen, or it may be applied as commercial fertilizer when the grain is planted.

New ALLIS-CHALMERS

Of the 17 major improvements built into this tractor, here are three which in themselves place the WD in a class by itself:

POWER ADJUSTED WHEEL TREADS
Power of the engine is used to adjust rear wheel treads to 10 different spacings.

TWO-CLUTCH POWER CONTROL
Two clutches permit continuous operation of power take-off and hydraulic system — independent of tractor motion.

FIVE-WAY HYDRAULIC SYSTEM
Complete hydraulic control of mounted and pull-type implements.

FULL LINE OF IMPLEMENTS. A complete new line of hydraulically-operated, quick-hitch companion implements — both mounted and pull-type — all matched to the power, speed and weight of the WD tractor.

CROSBY, FONTAINE STAR IN LAVISH FILM

The Palace Theatre will roll out the red carpet next Saturday night for Paramount's Technicolor romance-with-music, "The Sign of the Cross," with the King of Song, Bing Crosby, and lovely Joan Fontaine in the starring roles. The film is the most lavish and elaborate to come out of the Paramount Studio since before the war and the report has it that nothing to equal it has yet come from Hollywood.

Southwestern Area Cottonseed on Move To Crushing Mills in

The movement of cottonseed to crushing mills has been heavy in volume in areas where ginning is in progress. In the western part of Texas and Oklahoma picking is now beginning and mills in that section are beginning to receive current crop seed.

According to the certificates received by the U. S. Department of Agriculture, grades of cottonseed are about the same as last year covering the corresponding period.

The average price for cottonseed in a b. g. bin was \$69.50 per ton. The price ranged from \$65 to \$75 per ton. Oil mill prices ranged from \$70 to \$75 per ton f. o. b. mills.

Cottonseed crushed during the month of August totaled 173,000 tons. This was 70 per cent larger than crushings of 102,000 tons during August 1947 and the largest August crushings since 1938. Receipts at mills during August were 373,000 tons. This was more than twice as much as the 167,000 tons received at mills during August last year.

Stocks of cottonseed in mills at the end of August were about 189,000 tons compared with 165,000 in mills at the end of August last year. The production of 53,000 bales of lint during August was the largest for any August on record.

Exports of soybeans, soybean oil, peanuts, cottonseed oil, linseed oil, and tallow were much larger during the period January through July 1948 than during the same months of 1947. Exports of fats, oils and oilseeds (in terms of oil) from the United States during the first six months of the present calendar year were over 440 million pounds compared with about 378 million during the same period in 1947 and the prewar average of about 242 million.

The sampling and grading of cottonseed is under the supervision of the Production and Marketing Administration. From reports received during the period August 1, 1948, to September 15, 1948, the following data are given relative to grades and prices of cottonseed in the counties named:

Dickens County, District 1:
U. S. Std. Grades
LOW HIGH MEDIUM

Prices per ton Paid by Gins:
Dollars
65-70

Louis XIV was a member of the Bourbon family.

Recommended varieties in the main wheat area of Texas are Westar and Commanche for baker's flour, and Wichita and Triumph for family trade flour. Tetanarq and Turkey varieties are excellent quality, but do not yield as well as Westar and Commanche.

Any new way of cooking meat loaf is always a welcome addition to the recipe file. *Broiled Meat Loaf* uses only six ingredients and can be popped under the broiler flame for quick cooking. Mix together 1 lb. hamburger, 1/2 cup bread crumbs, 1 egg, 1 tbsp. grated onion, 1/2 cup tomato soup, 1 tsp. salt, pepper. Shape into two firm loaves and place on broiler grid. If you broil with the thermostat wide open, the loaves should be at least 2" from the flame and broiled about 12 mins. on the first side, 10 mins. on the second side. If you set the thermostat at 350°, place meat 2" from flame and broil 15 mins. on each side, which cooks it to well done.

If there's not quite enough batter to fill all the cups in muffin tins, pour water into the empty half, placing in the oven to prevent burning of empty cups.

Any cooking food creates smoke and vapor of varying degrees. Many modern ranges take care of this problem with "smokeless" broilers which means, literally, that smoke arising from cooking food is smothered by the broiler flame.

Crackers spread with peanut butter and broiled until bubbly make excellent appetizers.

In 1855, reported *The American Gazette*, one hundred families used gas for cooking. Today two out of three of the 28,000,000 families in this country cook with gas.

Leftover bread crusts cut into small bits, browned with butter or margarine in oven or frying pan, make economical croutons for soups.

News From Duncan Flat - Glenn

Mrs. Glenn Jones Correspondent

Despite the fact that hot weather is still here the farmers are very busy, many are cutting feed, while others are heading maize. Countless white trailers about 12 feet in length and pulled by man power, dot the fields.

People from Duncan Flat and Glenn seen stopping or on the streets in Spur Saturday were: Mr. and Mrs. Doyle Cagle and son, Miss Juanita Rasberry, Mrs. Henderson Bateman and Tiny Beth, Mrs. Wayne Bateman and children, Mr. and Mrs. D. W. Hughes, Mrs. W. F. Ragland and daughter, Harley Ragland, Mrs. Grace Shaw and family and Mr. and Mrs. H. I. Yeates.

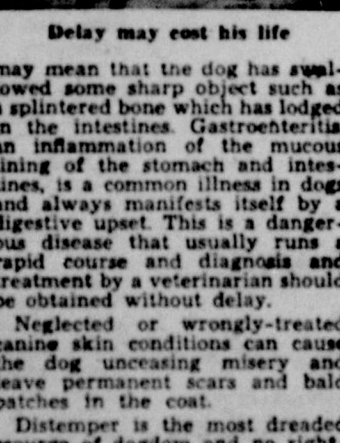

Mr. and Mrs. Veal Hinson visited in Lubbock Saturday and returned via Spur.

John Alvin Hinson and Sinclair Hughes entered Texas Tech as freshman students this year. B. F. and Geryl Yeates are sophomores there.

Doc Baxter, John Show, Jack Phillips and John Alvin Hinson attended the football game at Dickens Friday night.

Mrs. R. V. Pennington and Phillip of Rushing, Arkansas visited from Tuesday until Thursday in the home of Mr.

Digestive disorders in a dog is sometimes due to his overloading his stomach with indigestible rubbish, but any prolonged vomiting spells or violent bowel upsets should not be ignored, as these symptoms are often the danger signals of some serious ailment or

Soldiers Mound HD Club Meets

Members of the Soldier Mound Home Demonstration Club answered roll call by naming an outstanding achievement when they met in the home of Mrs. Ollie Hindman, Sept. 16.

Mrs. Dee McArthur presided during the installation of officers. Elected were: Mrs. John Aston, President; Mrs. W. T. Williams, Vice President; Mrs. Ollie Hindman, Treasurer; Mrs. Joe McDaniel, Reporter; Mrs. Floyd Barnett, Secretary; and Mrs. Dee McDaniel, council delegate.

Former Spur Man Wed in Amarillo

J. B. (Buck) Robertson, son of Mrs. Jennie Robertson of Murphy, Oregon, formerly of Spur, and Micky Tipton, daughter of Mrs. J. L. Sprouse of Paso Robles California, were married Sept. 16 in the home of Ivey Wilkison, 24-08 Taylor St., Amarillo, Texas.

The wedding trip will extend through Oregon and California.

A. C. A. News

The A.C.A. Office has recently been issuing Approvals and Purchase Orders for 20 per cent Superphosphate on Winter Legume Cover Crops, Legume Hay Crops and permanent pasture.

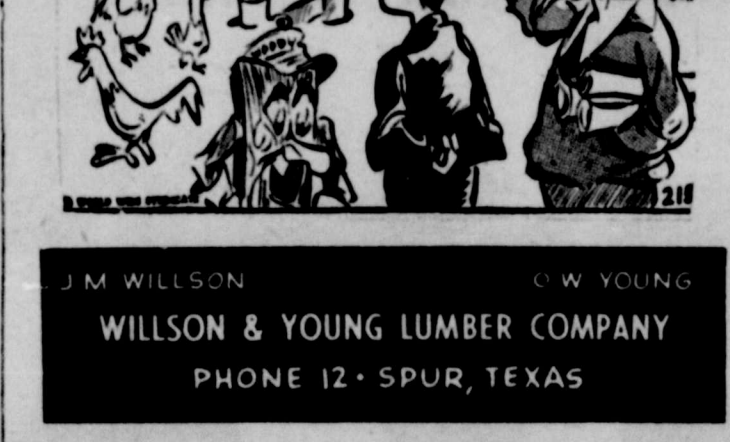

We have also issued an approval for winter cover crop of Rye seeded in the Fall of 1948 at a rate of \$1.50 per acre. However this crop is not eligible for use of 20 per cent Superphosphate until the 1948 program.

Quite a number of approvals have been issued for leaving stalks of grain sorghums on the land until January 1, 1949 as protection against wind erosion.

There have been a number of inquiries regarding the Loan Program on Grain Sorghums. We will be glad to answer any questions on loans and hope farmers are making arrangements to store a large part of the grain on the farm. Farm stored grain is eligible for Loan or Purchase Agreement.

There is still time to do Terracing, Build Tanks or Spreader Dams. Approvals can be given for Wells on farms and ranches with 1280 acres or more of non crop pasture or range land. The A.C.A. can help provide an adequate water supply on your place.

State Health News

AUSTIN, Sept. 22—Comparing morbidity reports from ten Texas Counties where there are no full-time local health units, with those from ten other Counties where these units afford efficient health protection, reveals a startling difference in the incidence of communicable diseases, according to a survey released by Dr. George W. Cox, State Health Officer.

Using as a base of comparison whooping cough, Dr. Cox said that this survey showed that the common childhood disease of Counties where local health units availed themselves of biologics

from the State Health Department were able to hold this communicable disease to a desirable minimum.

"For instance," Dr. Cox said, "take these figures for comparison. In these Counties where there are no health units and therefore where no biologics from the State Health Department were used, the following rates of incidence apply, per 100,000 population: Gains and Floyd, above 100; Hale, Dallam, Castro and Cottle above 30; Carson above 40; Bailey and Hartely above 60; and Lipscomb above 750 cases."

By way of contrast to these high rates of incidence, Dr. Cox pointed out that in a representative group of Counties where full-time health units made use of the biologics available from the State Health Department, the following much lower rates prevailed: Bell, Wichita, Bastrop and Hidalgo, less than 300; Travis less than 200; Smith and El Paso less than 150; Bexar, Dallas and Tarrant less than 100 cases per 100,000 population.

"It is plain to be seen," Dr. Cox said, "that the counties receiving the benefit of a full-time health

protection, enjoy a much lower incidence of disease and the resulting lessened danger of death. Public health protection can be had for every citizen of Texas, but only when sufficient funds are appropriated to make possible a full-time local health unit in every one of our 254 Counties," Dr. Cox declared.

Storage Space Available on Air Field at Lubbock

More than 100,000 square feet of grain storage space are still available at the South Plains Army Air Field near Lubbock despite leasing of several of the larger buildings this week, the regional office of War Assets Administration reported today.

Duncan D. Myres, official in charge of the WAA program for emergency use of government facilities in alleviating a critical grain storage situation in the southwest, said that fourteen of the installations larger buildings are available to bonded warehousemen, agricultural cooperatives and other organizations. In addition, he said, many of the field's smaller buildings have concrete floors and will be suitable for storage by individuals growers of the South Plains area.

Former R. Springs Supt. Accepts Job in Dickens Schools

ROARING SPRINGS SUP.—W. A. Lewis, superintendent of Roaring Springs schools for seven years, who moved away six years ago, has returned to Roaring Springs to make that his home.

Mr. Lewis has accepted a place as math teacher in the Dickens school and Mrs. Lewis has accepted a place as English teacher of Lockney.

in the Patton Springs school. Their daughter, Sandra Kay, will commute with her mother and attend the Patton Springs school. Visitors in their home last week included their son, W. A. Lewis, Jr., of Claremore, Okla., '37 graduate of Roaring Springs high school and class of '41 graduate of Texas Tech engineering school. He is now employed by the Stanoline oil company. (Matador Tribune)

Tech Enrollment More Than 6,000

LUBBOCK, Sept. 22—Enrollment at Texas Technological college for the 1948 fall semester reached 4,186 Friday afternoon with 2,000 additional applicants expected to complete registration in time for classes Monday morning.

Approximately 2,000 students a day were registered under the new system instituted by the registrar's office this year, eliminating long lines and the usual "bottle-necks".

W. P. Clement, registrar, estimated the enrollment will reach 6,500, which is almost 400 students more than attended the first term last year.

A unofficial count of new members indicates the freshman class will have 1,300 members, and about 1,200 of the new students on the campus are transfer students from other colleges in Texas and out of state.

Warning Issued to Butane Users

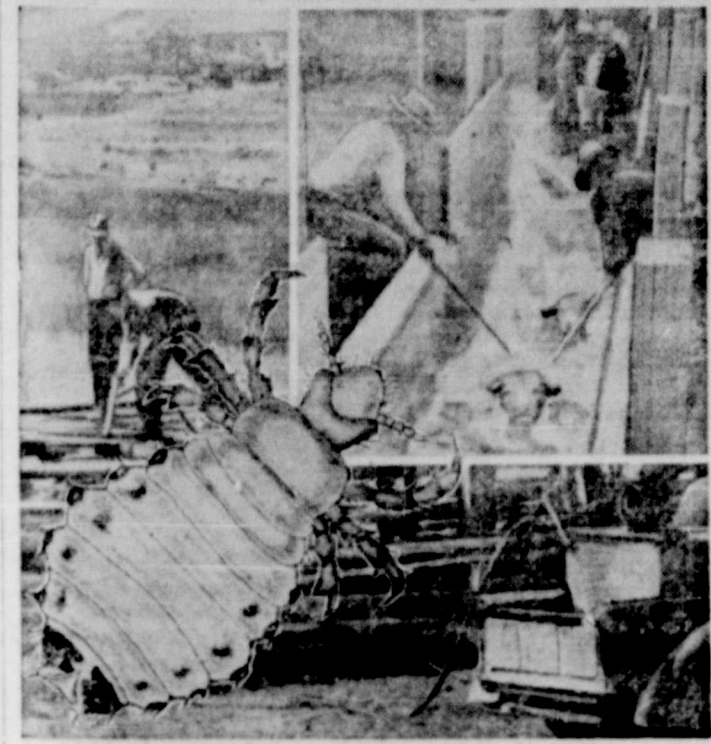

With the coming of cool weather, J. E. Walling, Jr., president of the Texas Butane Dealers Association, issued a warning to users and prospective users of butane and propane, gas against trying to convert natural gas appliances to the use of butane and propane, due to the radical differences in the two gases, and the difference in design of the two types of appliances.

"Not only is this practice illegal according to the regulations of the Texas Railroad Commission, but it is also unsafe and minimizes the efficiency of such appliances," he explained.

"Since butane and propane both have certain characteristics which require special engineering adaptations in burner construction, it is considered unwise and hazardous for inexperienced and non-licensed persons to install or adjust appliances using these fuels. Persons getting ready for the winter should have a licensed fuel dealer check their installations and appliances first," stated Walling.

He pointed out that all crews would be extremely busy during the first cold spell and suggests all persons have their equipment checked early.

"One Shot" Insecticide Treatment Licks Weight-Robbing Cattle Lice

The Short Nosed Ox Louse, Inset, Stands Little Chance Against Pyrethrin Insecticides Applied as Spray or Dip

NEW YORK, N. Y.—A little louse by the name of Haematopinus eurysternus, alias the short nosed ox louse, is being evicted from his home on the range. He has been having a time of it for too many years, causing weight losses to range cattle running into hundreds of millions of pounds every year, but now a way has been found to beat the little devil, and economically, too.

Practical large-scale tests in the Rocky Mountain and Great Plains areas during the 1947-48 winter season demonstrated the effectiveness of a new insecticide material, Pyrethrin, against the short nosed ox louse, as well as the long nosed louse and several varieties of red biting lice. They showed that a single, "one shot," treatment was enough to lick the lice, bringing seasonal control, and weight gains running over 70 pounds per animal.

The investigations were made on over 8,000 beef cattle in seven states of the areas mentioned. The new-type insecticides, developed by U. S. Industrial Chemicals, Inc., combine pyrethrins with piperonyl butoxide, a new chemical. They were used as dips, sprays or dusts, with equally satisfactory results.

The material was shown to have

Cattlemen Urged To Control Mastitis

COLLEGE STATION, Sept. 22—The stockman says, "No foot, no horse." And the dairyman says, "No udder, no cow."

Mastitis, which causes inflammation of the udder, is present in about two-thirds of the dairy herds. Surveys in several Texas areas have shown about 30 per cent of five cows affected in one quarter. G. G. Gibson, extension dairy husbandman of Texas A&M College, estimates that when mastitis shows up there is often a 25 per cent loss in milk production.

And with milk prices and cost of cow replacements what they are today, it's much cheaper to keep the cows free of mastitis.

A good mastitis control program is simple. First make an accurate check on the condition of the udder of every cow in the herd. Handle the cows so as to avoid spreading the disease from an infected cow to healthy ones. Treat those cases that look like they can be treated, and those that are too far gone should be removed from the herd.

Your county agent and local veterinarian can help in making the mastitis test of your herd. It is important that you make such a test, especially if there have been reports of mastitis in nearby herds in the county.

The dairyman himself can go a long way in reducing chances of mastitis on his own place by getting rid of hazards such as water and mud holes in the lots, sharp snags and brush, high door sills, and slick barn floors that may cause falls. Repair the broken fences and gates around the place, and avoid pouring or

milking milk from cows with mastitis onto the floor or the gutter.

Cows which have had mastitis before should be treated when they are turned dry, and the medicine left in the udder, says Gibson.

Early detection is highly important in the treatment and control of mastitis.

Romance of N. York In "Glamour Street"

The romance of New York City is summed up in its most famous street, Fifth Avenue, according to "Glamour Street", latest RKO-Pathe "This is America" short to be produced by Jay Bonafide, playing at the Palace Theatre, Tuesday, Sept. 28.

Tourists from all over America have brought home memories of the most famous street in the world: Washington Square, with its shady trees, fountain, and archway is like any village green. Rockefeller Plaza has been the background of millions of snapshots mailed back to friends and relatives. Skating on the Radio City Rink and a trip in a horse drawnansom also form part of every trip to New York.

In Hospital

Wayne (Tony) Edenburg of McAdoo, Vice President of the newly organized F.F.A. chapter and half back on the football team suffered a broken leg in the McAdoo and Patton Springs game. He was rushed to the Nichols General Hospital and is doing nicely.

Why is the **GAS** Refrigerator Texas' growing favorite?

Only Servel gives you a 10 year guarantee

Only Servel STAYS SILENT LASTS LONGER

EVERYWHERE, more and more Texas families are discovering... you get the biggest refrigerator value in the famous Servel Gas Refrigerator. For Servel—and no other refrigerator—guarantees silent, trouble-free performance for ten years!

The secret? It's Servel's different, simpler freezing system—with no moving parts. No machinery that can wear, no motor that can get noisy. A tiny flame of natural, butane or propane gas does the work. So Servel stays silent, lasts longer. (In fact, thousands of America's more than 2,000,000 Servel owners say their Gas Refrigerator is still doing its job after twenty years!)

You'll be delighted with Servel's new features, too. There's every one you've wanted for keeping fresh and frozen foods. Choose your Gas Refrigerator today.
