Chamber of Commerce Doings: **MORE MEMBERS NEEDED IN RURAL** TELEPHONE CO-OP STATES MGR

RURAL TELEPHONE SERVICE NEEDED IN SPUR:

The new Rural Telephone Co-op which is being organized in Dickens and surrounding counties, will mean much to the future growth of Spur and the surrounding territory. It will bring the rural farmer into closer contact with the city and will provide a cheap and quicker means of communication. It will create a new business with additional payroll and will provide the farmer with a modern convenience which has been un-heard-of until recently.

Many surrounding counties have realized the importance of this new service and construction of many of the new Rural Telephone Co-ops is underway. Dickens, Kent, King and Crosby County rural residents could have the same service, if the people will get behind the organization and promote more memberships.

ans hospital, Temple.

However, the question usually arrises, "How would a new business of this type effect Spur?' Since figures are usually a reliable Auxiliary Maps source of information, look first at the growth of Dickens County Gift Giving Plan for the past 30 years.

In 1920 the county population was 5,876, in 1930, which was our For War Veterans peak year, the population was 8,601, decreasing in 1940 to 7,847 and still decreasing in 1950 to 7,248. Looking from the standsame gain until 1930 and slowly decreasing since that time having a retail sales figure of \$6,130,-000.00 for 1950. "What does this show?" One point that should be emphasized, is that none of the growth of this section has been the veterans in the hospital center; due to industries, manufacturing to mail to their friends and rela- either at their door or in a box. or any type of business enter- tives at Christmas, explains Mrs. prize. This give the City enough time to il the decorations prior to the ristmas parade which is to be ld December 9, in Spur.

City Mail Delivery

"It is beginning to appear evident that the citizens of Spur want city mail delivery," states Postmaster Guy Karr this week after the response of readers to the questionaire published in last week's Texas Spur.

Karr states that several have commit oneself to use the mail delivery if and when it is established. He explains that this devise is being used only to determine the general attitude of the citizens toward the service, the Agricultural Experiment Staand is in no way binding.

With the aid of the Spur Lions club, Karr is now directing a personal contact canvass over the city asking housewives their opinion on the matter.

According to Post Office of-Members of the American ficials, city delivery can be had Threefourths pound acid of 2, 4, in Spur's city limits where there 5-T in three gallons of water and Legion auxiliary met at the Lelection of gifts to be sent to mail delivery to the doors of citi- sults in all the tests studied. "If the 'pros' and 'cons' of important issues which have been flashing from county to county the last two months can be used as a barometer," says S. L. Benefield, county chairman, "organized agriculture for Texas could soon become a greater reality. The 'pros' instigated a move for a stronger organization and the farther it went the greater momentum it gathered. This movement carries higher membership dues and more local as well as state activities. Farmers feel that there farmers who can possibly attend should be at the convention and Approximately 200 farmers of register their views on this moveappropriately set for farmers to crystallize an organization for greater service."

"The membership drive is going well," states Benefield, "but to the releasing of cotton for exin price was not just a harpen so. County groups throughout the South including our own county worked with our congressmen and others to bring this about. Now, if you want this group to be ready at all times to go into action you must keep your membership in good standing and get others to join. Not only your membership is needed but your ideas are also Mr. and Mrs. Rex Merriman solicited. Workable ideas often

No other disease condition has be carried in an automobile. The presented a more stubborn control problem to the dairymen than mastitis, say Dr. R. A. Goodman, veterinarian for the Colorado Extension service. The drain of this includes using the right gun for the hunter always has control of disease not only involves uneconomical milk production but also necessitates making frequent replacements to maintain the mlik-

He cites a survey conducted in 1946 among 131 Colorado dairy herds by the experiment station never be left unattended and that and extension service which refound cigarettes and campfires, breaks the hunter should unload his gun vealed that mastitis was present matches before dropping them and before climbing a tree or over a in 88 percent of the herd and 29 percent of the 2,186 cows checked types of mastitis.

Two types of mastitis are generally described, non-infectious hazards as deep gutters, high barn and infectious, which on many occasions are difficult to differentiate without the aid of the laboratory, Goodman reports.

surfaces, or at objects on the surface of water may ricochet and hit objects not thought to be in the line of fire. Last but very important, he says gunpowder and alcohol should never be mixed for the results can be disastrous.

The intelligent hunter will be thinking about how he can aid in conserving the wildlife of the land so that he and other hunters will have areas where they can continue to enjoy one of America's greatest sports in the years ahead. Wasteful and careless hunting habits on the other hand, says Callender, can destroy the protection, vegetation and even the wildlife itself. It's up to every hunter, he concludes to see that this situation does not exist in the areas where he hunts.

YOUR ONE TIRE INVESTMENT. FOR MANY YEARS TO COME

"CAN WE MAKE ENOUGH OF THEM?"

Never in our history has there been such demand as we have experienced for the Mid-Century ROYAL MASTER and the new U. S. NYLON LIFE-TUBE!

People have asked us whether we'll be able to make enough of them to go around.

The answer is—we have never been able to make enough of them. They have been "selling out" as fast as we could make

make all of them we can in keeping with all official limits on rubber supply.

OUR BEST ADVICE WOULD BEkeep in close touch with your own neighborhood U. S. Royal Dealer. He will do his utmost to give you these exclusive Master and Life-Tube qualities - never

known or possible before. He will see you safely and comfortably through the months and years ahead and we, of course, will do our utmost to

Of one thing you may be sure—we will help him. IR COMPANY America's Largest Maker of Tires

S. ROYAL TIRE SERVICE... RICHT WHERE YOU LIVE

200,000 freshmen can't be wrong!

We believe that something has happened in 1950 that you should take to heart.

Ever since this year's Buicks were introduced, their big bulge in sales has come from people who traded other makes of cars for this bounteous beauty.

The total is more than 200,000.

That's 200,000 "freshmen" added to the roll call of Buick owners-200,000 people who must have sized up the current version of the cars they owned, and decided that Buick offered more thrill, more comfort, more satisfaction for the money.

Beyond that, of course, there were other hundreds of thousands who already owned a Buick and bought a new one

this year. But we're speaking here of new owners only.

We can name many reasons for this landslide - including Fireball power an incomparable ride - and Dynaflow Drive.*

We can remind you that the Buick SPECIAL, SUPER and ROADMASTER just about blanket the range of a car-owner's aspirations-matching prices with many sixes in the lower brackets-matching distinction with the finest in the fine-car field.

We might add that Buick prices are doubly attractive-since their list prices include many features customarily on the "extra" list.

But why try to spell out all the reasons Buick wins in a showdown? The proof of the pudding is in this great car itself. Better

come in-look it over-and find out what an unbeatable buy it is.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Chamber of Commerce Doings: MORE MEMBERS NEEDED IN RURAL TELEPHONE CO-OP STATES MGR

RURAL TELEPHONE SERVICE NEEDED IN SPUR:

The new Rural Telephone Co-op which is being organized ickens and surrounding counties, will mean much to the future growth of Spur and the surrounding territory. It will bring the rural farmer into closer contact with the city and will provide a cheap and quicker means of communication. It will create a new business with additional payroll and will provide the farmer with a modern convenience which has been un-heard-of until recently

Many surrounding counties have realized the importance of this new service and construction of many of the new Rural Telephone Co-ops is underway. Dickens, Kent, King and Crosby County rural residents could have the same service, if the people will get behind the organization and promote more memberships.

However, the question usually arrises, "How would a new busi-ness of this type effect Spur?" Since figures are usually a reliable **Auxiliary Maps** source of information, look first at the growth of Dickens County for the past 30 years. In 1920 the county population

was 5,876, in 1930, which was our peak year, the population was 8,601, decreasing in 1940 to 7,847 and still decreasing in 1950 to 7,248. Looking from the standpoint of retail sales, we find the same gain until 1930 and slowly decreasing since that time having retail sales figure of \$6,130,-900.00 for 1950. "What does this ans hospital, Temple. show?" One point that should be emphasized, is that none of the members collect suitable fifts for growth of this section has been the veterans in the hospital center due to industries, manufacturing to mail to their friends and relaor any type of business enter- tives at Christmas, explains Mrs. prize. We do not have any in- Larry Boothe, local auxiliary dustries or business enterprizes member. in Spur: our main source of income is derived from agriculture.

We depend on each other and a serving someone who has served small amount of transit labor to us," support the entire population ap-proximately four months each bers of the auxiliary aid in makyear. These months are usually ing Christmas brighter for hospifrom September through Decem- talized veterans, she added.

If we are to expand our facilities and understand what is here now and how much more will be here in a few years, we must first

Hunters Asked To Take Precautions

when hunting accidents take their heaviest toll of lives. Most acci-dents could be prevented if the simple rules of safety with firehunters, says R. E. Callender extension specialist in wildlife conservation of Texas A. & M. College, endanger the lives of every other hunter in the woods and also cause much damage to wildlife. Their wild shooting leaves many birds and animals crippled and these are lost because they are not usually found until they are dead.

Practicing safety with guns in leaves the area where he has leaves the should stumble. The good hunter never pulls the trigger huntil he is sure of his target and hunter never points a gun at anything he doesn't intend to shoot.

He cites a survey conducted in never points a gun at anything he doesn't intend to shoot.

He says loaded guns should never be left unattended and that hunter should unload his gun before climbing a tree or over a fence. Bullets fired at flat, hard in the direction of the should stumble. The good hunter never pulls the trigger until he should stumble. The good hunter sever pulls the trigger until he is sure of his target and hunter never points a gun at anything he doesn't intend to shoot.

He cites a survey conducted in sever be left unattended and that hunter should unload his gun and extension service which revealed that mastits was present in the should unload his gun at the hunter should unload his gun and extension service which revealed that mastits was present in the should unload his gun at anything he doesn't intend to shoot.

He cites a survey conducted in should unload his gun at anything he doesn't intend to xtension specialist in wildlife

the fields or woods then, says Calender, is just a good conservation practice and it applies to both human and wildlife. He reports that almost two-thirds of all hunting accidents result from three causes: humans in line of fire,

Nurse Tells How Hadacoi Was So Helpful To Her

polied Vitamins B1, B2, Iron and Niacin Which Her System Lacked

Why HADACOL Gives Such Fine Results

Mrs. Jennie Lee Adele, 412 N.

27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins Br., Niacin and Iron which HADA-COL she you should buy and the kind you should buy and the kind you should start taking immediately!

Here is Mrs. Adele's own state-Sold On A Strict Money-Back Guarantee ment: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADA-COL. I tried it and after 3 bottles

HADACOL even helps build up the hemoglobin content of your blood (when Iron is needed) to course through your body, carry-ing these great health-building ele-ments to every body organ. No wonder HADACOL helps you feel

I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy." Be fair to yourself! Give your-self a break if you have such defi-Why HADACOL Gives
Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B., B., Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B., B., Iron, and Niacin but also helpful amounts of manufactured amounts of manufactured

R COMPANY

200,000 freshmen can't be wrong!

We believe that something has happened in 1950 that you should take to

Ever since this year's Buicks were introduced, their big bulge in sales has come from people who traded other makes of cars for this bounteous beauty.

The total is more than 200,000.

That's 200,000 "freshmen" added to the roll call of Buick owners-200,000 peoole who must have sized up the current version of the cars they owned, and decided that Buick offered more thrill, more comfort, more satisfaction for the money.

Beyond that, of course, there were other hundreds of thousands who already owned a Buick and bought a new one this year. But we're speaking here of new owners only.

We can name many reasons for this landslide - including Fireball power an incomparable ride - and Dynaflow Drive.*

We can remind you that the Buick SPECIAL, SUPER and ROADMASTER just about blanket the range of a car-owner's aspirations-matching prices with many sixes in the lower brackets-matching distinction with the finest in the fine-car

We might add that Buick prices are doubly attractive-since their list prices include many features customarily on the "extra" list.

But why try to spell out all the reasons Buick wins in a showdown? The proof of the pudding is in this great car itself. Better come in - look it over - and find out what an unbeatable buy it is.

come from within the body,

Time to buy trucks on something besides hearsay!

You can't afford to buy trucks by guesswork today. What you carryhow far and fast you carry it-under what road and traffic conditions-all must be considered in specifying the right truck for you in times like these.

That's our specialty as a GMC truck dealer - we are first and foremost transportation engineers. Our one aim is to recommend the exact combination of engine, frame, axles, transmission, cab and optional equipment that is best suited for your year-round needs.

Come in and see us-whether you want a 1/2-ton pickup or a giant Diesel 90,000 lb. GCW six-wheeler. We can give you exactly the right truck - designed for longer mileage with less maintenance expense - and it will be a real truck, engineered for your type of work.

That's why GMC sales are greater today than ever before. Truckers find they are best in the long haul. Let us show
