Chamber of Commerce Doings: Committees Named For 1951 Betterment; Cooperation Stressed In New Projects

The new 1951 membership committee list has been approved and will begin work on the 1951 program of work for the Chamber of Commerce next month. J. D. McCain, President of the Chamber for 1951, will meet with all committee chairmen January 23 and outline the new projects for the committees. It is necessary for each chairman and committeeman to work together on the large program this year, states McCain. Many of the projects for the City will need personal attention and each committee will be responsible for the promotion of its project.

New officers and committees for the 1951 year are: J. D. McCain, president; George Gabriel, vice-president; Leon Huff, executive vice-pres. and general manager; Lester Garner, director; E. K. Godfrey, director; W. T. Andrews, director; Joe Long, director; Coy McMahan, director; R. K. Blackshear, director; O. L. Kelley, director; D. J. Dyess, director; M. H. Brannen, director; Lawis Lee, director and E. E. Caudle, director.

Budget and Membership Committee members are Larry Boothe, chairman; Fred Jennings, vice chairman; and V. C. Hoover, O. W. Young, C. B. Chandler, Joe Grimland, Billy Bigham, W. T. Kizer, S. C. Reynolds, Kelly Ramsey.

Merchants Committee members are V. S. Smart, chairman; Cecil Godfrey, vice chairman, and Lee Snodgrass, Dillard Williams, Dempsey Simms, W. R. Weaver, C. D. Foreman, Carl Murray, Mrs. Nona Starcher, E. A. Brashear, W. B. Jones, Lynn Buzbee, Monk Rucker, C. N. Ticer, S. H. Scales, Jerry Ensey, Doyle Scott, Tang Smith and Slim Meteer.

Civic Improvement Committee

Presbyterian Hour Broadcast In Texas

The Protestant Radio Conference (formerly known as the Southern Religious Radio Conference) will present the Presbyterian Hour Series during January, February and March, over 140 cooperating radio stations in the South and Southwest.

The Presbyterian Hour is a part of a year-round program participated in by five denominations that are members of the Protestant Radio Conference. The theme, "The Call of Christ and His Church," will be a part of the nation-wide evangelistic emphasis by all the churches.

DR. YOUNG

Dr. T. K. Young, pastor of the Idlewild Presbyterian Church in Memphis, Tenn., will be the speaker during January, to be followed by Dr. W. T. Thompson, Richmond, Va., during February and Dr. W. A. Alexander of Shreveport, La., during March. Dr. Young is a native of West Virginia and was educated at Hampden-Sidney College, Va., Washington and Lee University and Union Theological Seminary. He was awarded the degree of Doctor of Divinity in 1920 by Hampden-Sidney College. Dr. Young has served prominent churches in Logan and Holden, W. Va., Covington, Lexington and Roanoke, Va. and is considered one of the outstanding pastors and preachers in the Presbyterian Church in the United States. He serves on the Board of World Missions and the General Council of that church and was Moderator of the General Assembly in 1945.

The Presbyterian Hour began January 7, and can be heard over Radio station KGNC, Amarillo, Amarillo, at 10:15 a. m. Dr. Young's topic for this Sunday, January 14, is "One-Mile, Two-Mile Christianity." Radio Stations WFAA, Dallas, WOAI, San Antonio, and KOMA, Oklahoma City, will broadcast the programs at 7:30 a. m., each Sunday.

BULLDOGS DEFEAT PADUCAH 5; HOST CROSBYTON CHIEFS FRI. NIGHT

The Spur Bulldog basketball teams brought home two impressive victories from their trip to Paducah last Friday night to open the 1951 district play. The A boys defeated the Paducah A team 46-18 and the B boys won theirs 46-10.

The A team boys had full control of the situation from the first jump at center. Assuming an early lead, the first stringers watched much of the game from the bench as reserves and B team boys acquired experience on the hardwood.

D. S. Cargile, 89, Dies On West Texas visit

Funeral rites for Daniel Stutman Cargile, 89, were held at 3 p. m. Jan. 10, 1951, in the First Methodist church, Spur. Rev. W. J. James officiated, with Rev. W. J. Knoy and Rev. Cal C. Wright assisting.

Cargile suffered a heart attack Tuesday morning at his son's residence in Muleshoe. He had been a resident of Stockton, Calif., for the past five years, and returned only last week to West Texas.

He was born May 6, 1861, in Arkansas, and for the past several years had lived as a retired farmer. He is well known in Stoneval, Kent, Dickens, Motley and Floyd counties.

Pall bearers were Martin, Harold and Preston Cargile, R. D. and Lindell Holly, and James Faubus, all grandsons.

Survivors are six daughters, Mrs. Elma Woods, Strathmore, Calif.; Mrs. Ethel Jones, Modesto, Calif.; Mrs. Loys Basham, Stockton, Calif.; Mrs. M. O. Guilan, Medford, Oregon; Mrs. Ted Rupp, Los Angeles, Calif.; and Mrs. Watt Holley, Dickens; five sons, C. B. Strathmore, Calif.; J. A. Crane, Missouri; J. H. Abilene; D. W. Muleshoe, and H. P. Roaring Springs. One sister, Mrs. Sarah Baker of Ozark, Ark., also survives, as do 33 grandchildren, 29 great-grandchildren and one great-great-grandchild.

The body was brought overland from Muleshoe to Campbell Funeral chapel in Spur, who directed all arrangements. Burial was in Spur cemetery.

Mr. and Mrs. C. A. Fagan visited during the New Year weekend with friends and relatives in Fort Worth, Ladonia and Dallas.

County Officials Sworn In Jan. 1 At Court House

County officials for the 1951-52 term of office were sworn into their offices in the Dickens County court house January 1, 1951.

In the swearing-in ceremony, county clerk L. J. Varnell, Jr. swore in the incoming officials and then county judge W. H. Hindman swore in Varnell.

The county officials who were elected for the two-year term are county judge Hindman, county attorney A. W. Walker, school superintendent Robert Williams, sheriff C. C. Kimmel, clerk Varnell, treasurer Mrs. Ava Johnson, commissioners Roy Ward, E. J. O'field, Arner Watson, and George Pierce, Justice of the peace W. M. Malone and A. B. Winkler, and precinct 3 constable George C. Robinson.

Robinson is stated to be the only new-comer to county politics. Although some are in never-before-held offices, the rest of the newly-sworn-in officials have served in some political capacity in the county before this year.

Traweek Infant Rites Held Jan. 5

Grapevine funeral rites for Patsy Jean Traweek, infant daughter of Mr. and Mrs. Dick Traweek, were held on Jan. 5, 1951.

The baby died Jan. 3, in the Crosbyton clinic-hospital.

Rev. Cal C. Wright officiated at the service, and burial was in Spur cemetery.

Survivors besides the parents are a sister, Elizabeth Ann, and grandparents, Mr. and Mrs. Clifford Hightower, Spud and Mr. and Mrs. D. B. Traweek of Trustcott.

Chandler Funeral home directed arrangements.

COMMUNITY ACTION PAYS.—The complete answer to profitable cotton yields lies in community cooperation. By community action we will gain effective insect control at the minimum cost.

URGENT NEED.—A big cotton crop in 1951 is an urgent need. "Farm and Ranch-Southern Agriculturist."

City's New Disposal Plant Ready Soon; New Lines Extended

The new city sewage disposal plant, a major part of the City of Spur's \$90,000 sewer and water project, is expected by city officials to be ready for use in approximately thirty days, it was reported this week.

The new plant, adjoining the old one on Dochum Creek south of town will be capable of handling approximately 3700 sewer connections, states City Manager James Cowan, which is over twice the number of connections now in the city. The plant will offer approximately 95% treatment of sewage as compared to 30% treatment by the old plant.

Other major city projects now underway are water mains and sewer lines. City officials state that water mains and sewer lines to serve approximately ten city blocks have been installed in the last ninety days. The projects served mainly the Smart Addition and the Gabriel Addition.

Tie-ins on the newly constructed lines have not been completed and the new sewer lines will not be placed into operation until after the installation of two lifter pumps—one on the east side of town and one on the west. These pumps have been ordered and will be installed as soon as they arrive, states Cowan.

The two new additions to the City Limits of Spur are also now getting city garbage pick-up service, states Cowan. This service went into effect January 1, 1951.

Of the \$90,000 being used by the city on the current projects, \$80,000 is bonded and \$10,000 worth of time warrants have been issued, states Cowan.

Joe Bell got hot in the B team game and cut loose for a total of 29 points. He started from the center position. Lindsey was second for scoring honors with 10 points. Half time score in the B team game was 19-4.

Starters for the B team were Bell, Herschel Wade and Charles Watson, all forwards, and Curtis Blair and Chester Lindsey at forwards.

The Bulldogs will play hosts to the Crosbyton Chiefs tomorrow night in the high school gym with the B team scheduled to play at 6:30. The girls will play at 7:30 and the A team at 8:30. Admission for the game adults 50c and students 25c.

Dickson Memorial Planned At A. & M.

(College Station, Special) A plaque to be placed at the Spur substation of the Agricultural Experiment Station in honor of the late Ray E. Dickson, superintendent of the substation for 36 years, was authorized by the board of directors of the A. & M. College system Sept. 30.

The board also authorized establishment of a Ray E. Dickson memorial fund, to be used as a loan or direct aid fund for worthy boys seeking to prepare themselves for careers in agriculture.

The authorization was sought by Dr. R. D. Lewis, director of the Agricultural Experiment Station. Dr. Lewis described Dickson as "one of the great agricultural leaders of Texas." He said farmers and ranchmen of the entire Southwest have benefited from research he performed or directed, especially in water and soil conservation, in control of brush and in converting plant materials that can be grown in the Rolling Plains into meat animals.

At the time of his death, June 26, 1950, Dickson was one of the oldest active workers of the Experiment Station in point of continuous service.

Bill McAlpin, son of Mr. and Mrs. Chester McAlpin, will take physical exams prior to his entrance in the Army Air Force.

J. M. Steele of Lubbock was visiting friends and transacting business in Spur today.

O. E. Minix Dies; Rites Held In Spur

Traweek Infant Rites Held Jan. 5

COMMUNITY ACTION PAYS.

URGENT NEED.—

Dick Gibson, 16, son of Mrs. Richard Gibson of Spur received a broken and crushed leg in an automobile accident involving three Spur youths last Sunday night, January 7, 1951, on the Girard Highway.

Robert "Soapy" Stewart, driver of the automobile, received a broken chest bone and minor cuts and bruises. The third youth, Robert Bradshaw, received minor injuries on his legs.

Guest Minister Is Missionary To Africa

Rev. Glenn Murray missionary Congo Mission in Africa, will speak at 7:30 p. m. Jan. 18, at the First Presbyterian Church in Spur.

Rev. Murray, whose home is in San Antonio, has been in the African field the past eight years. While in Fort Worth this week at St. Stephens Presbyterian church he showed moving pictures of Africa and the Mission work there.

A large attendance saw these pictures which he will also show while here. Those of neighboring churches and the public are cordially invited to attend this service and hear Rev. Murray, states Rev. T. R. Elder, resident pastor.

DICK GIBSON—INJURED

Gibson is now in an Abilene Hospital. He underwent surgery at 1:00 a. m. Tuesday morning during which a steel rod was inserted above the knee of the injured leg, according to reports from Abilene.

Stewart was X-rayed and treated in the Abilene hospital and was released.

According to Stewart, the three boys were approaching Spur about 11:30 p. m. Sunday night on Highway 70 when the accident occurred. He states that he turned his head toward the back seat of the car and momentarily left the pavement. Seeing that the car was going to strike the side of a bridge, Stewart states that he swerved to the right trying to miss the bridge but his momentum carried the car into the concrete wall on the right and then threw the car back to the left and into the other side of the bridge.

Gibson was thrown out of the car and onto the pavement. The other two youths stayed in the car.

Soon following the accident, two negro men and a negro woman, believed to have been a nurse, stopped and offered aid to the boys. They brought Gibson and Stewart to Spur to the Nichols Hospital where they were treated by Dr. Nichols.

Monday morning the two injured youths were taken to Abilene by Campbell's ambulance. Stewart was treated and released and Gibson was hospitalized.

Reports from Abilene state that Gibson will be able to walk on crutches in approximately two weeks, but that it will probably be six months before the injured leg will heal to the extent of carrying weight.

New Arrivals

Mr. and Mrs. Spencer Campbell announced the birth of a son, William Spencer, III, born January 2, in the Nichols hospital. The baby weighed 8 pounds 8 ounces. Grandparents are Dr. and Mrs. P. C. Nichols and Mr. and Mrs. W. S. Campbell.

Mr. and Mrs. William David Hale are parents of twin girls, Peggy Dell and Judy Nell, born Dec. 31 in the Crosbyton clinic.

Mr. and Mrs. Randolph Clifton announce the birth of a daughter, Vicki Lee, on Dec. 29 in the Crosbyton hospital.

Mr. and Mrs. Orville White are parents of a son, born Dec. 18 in the Crosbyton hospital.

Members and officers of the local VFW report that a total of \$106.74 was collected during the recent drive for funds for the Gonzales Foundation. Those in charge express their thanks and appreciation to all who contributed and helped in any way to make this drive a success.

Mrs. Lula Martin is visiting for several days in Plainview with her son and family, Mr. and Mrs. Grady Martin.

Mrs. George Link was a business shopper in Lubbock on Tuesday of this week.

The Farm Bureau will have an income tax return assistant in its office at Spur on Monday and Tuesday, Jan. 15-16 to assist members in making their income tax reports. This service is free to all Farm Bureau members. If you wish help in this matter, come Monday to avoid the last minute rush on Tuesday.

Farmers who do not file an estimated report by Jan. 15 must make their full report by Jan. 31 if their taxable year begins on Jan. 1. Apparently most farmers in this county make their taxable year from one January to the next, and most of them do not file an estimated report, therefore their full report is due Jan. 31, and not March 15.

All members who enrolled in November and December received their state membership cards this week. If you failed to receive yours, contact your local office. Floy Watson, S. L. Benefield

The sixteen-unit project features clean, comfortable vented heat, kitchenettes, and all new and modern fixtures, states Mrs. Smith.

The new business includes single and double units, and sleeping rooms with rates by the day, week or month, according to Mrs. Smith.

Mrs. C. H. Elliott, Don and Virgil Burt, former Spur residents now living in Paducah, were visitors in Spur recently. They attended the Hindman-Tyler wedding Dec. 31.

Nation's Airforce pilots have selected little Bobby Alford, son of Lt. W. E. Alford of Waco, N. Y., now overseas, as this year's No. 1 fledgling. Young Bobby shows that he appreciates his weekly allowance aside for U. S. Savings Bonds. Bobby now has \$300 in Bonds of his own thrift. Bobby's father allots part of his army pay for Bonds which he hopes to pay for the fledgling's future education.

Booby Trap

Modernization Bill For U. S. Air Force

Broad legislation to modernize and streamline the Air Force was introduced in Congress recently. Sponsor of the measure, Rep. Vinson of Georgia, said the House armed service committee, of which he is chairman, will begin hearings this week on the proposal.

Each would be headed by a four-star general. In addition, the secretary of the Air Force would have authority in emergencies to set up new major air commands.

He also would have the power to discontinue or consolidate the five major air commands set up by the measure.

The Air Force reorganization measure is comparable to that passed by the last Congress in modernizing the Army Department.

It would give statute recognition to many procedures now done under authority of emergency war powers.

Gulf Aids Farmer With Tractor Guide

A new Farm Tractor Guide, with a wealth of valuable ideas for making farm tractors last longer and perform better, has been published by the Gulf Oil Corporation and is ready for free distribution.

In addition to the photographs used for illustrative purposes, the Guide also carries complete, easy-to-read diagrams covering every phase of farm tractor lubrication. Included are sections on lubrication and maintenance of engines, crankcases, oil filters, carburetors, fuel pumps, valves, transmissions, air cleaners, etc.

Complete sections on the care of the cooling and ignition systems are also included, as well as well-illustrated sections on the care and maintenance of tires, tubes, and batteries. Of particular interest to all owners of farm tractors right at present is a section containing tips on cold weather operations and storage for winter.

The new Gulf Farm Tractor Guide may be obtained free of

charge by contacting Larry O. Boothe, local Distributor of Gulf Oil Products.

Roy Stovall, F. W. Jennings and Rev. T. B. Elder will attend the Presbyterian meeting at the Presbyterian church in Rule on Jan. 16. The meeting is scheduled to begin at 9:30 a. m.

Mrs. C. H. McCully and Mrs. Cal C. Wright were shoppers in Lubbock on Wednesday of this week.

Go to church Sunday

Income Tax Return Estimates Due Jan 15

More than 1,000,000 North Texas income tax payers are receiving greetings from Uncle Sam this week.

In the mail are forms for filing the 1950 return due, in most instances, March 15.

January 15 will be the deadline for filing amended estimates on the 1950 income. Payment may be made March 15 but taxpayers with complete records may file final returns Jan. 15 in lieu of the amended estimate for the final quarterly installment, if they choose.

Persons with incomes not sub-

ject to the withholding tax, and many salaried persons in the upper brackets, must make the quarterly estimates.

Also, subject to that provision are persons who made \$100 or more from Sept. 1 to Dec. 31 on which no withholding tax was levied. An example would be a salaried person subject to withholding tax who had made additional income in that quarter through sale of property.

Severe penalties are provided

by law for those failing to make the estimates as required. One penalty is for substantial under-estimation of income and the other is for failure to file the estimate and pay the quarterly installments as due.

An improved cottonseed meal has been developed that can be fed to hogs, chickens and other farm animals as well as to cattle.

RICHEYS VISIT CALIFORNIA DURING RECENT HOLIDAYS

Mrs. A. J. Richey and Howard K. Richey and family spent the Christmas holidays in Richmond, California, visiting in the homes of relatives and friends. All the children of the Richey family were together for the first time in 8 years. They visited Leon Graves and family, W. N. Graves and family, Edith Britton and Myrtle Trippe.

Who in your family has a birthday this month?

Make your birthday gift the present with a future!

CANDLES ON the cake this month for someone close to you? One of your youngsters, or a favorite niece or grandchild? Make your gift the one that keeps on growing birthday, after birthday. A United States Savings Bond, the present with a future!

Bond buying is the easiest gift shopping in the world. You can make the purchase conveniently at any bank or post office or at your place of employment. There's a price for every pocketbook—from \$18.75 to \$375. And bonds are always on sale at 25% off (\$18.75 buys a bond worth \$25 at maturity).

Make it a habit to give U. S. Savings Bonds—for birthdays, for Christmas, or for any special occasion.

Put yourself on your gift list, too!

Start now to give yourself the gift of future security. Start saving regularly, safely, systematically, by buying U. S. Savings Bonds in your own name. Use the Weekly Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

Your bond gift grows from birthday to birthday

(For simplicity, the table below shows only bond value increases at two-year intervals. Actually, the cash value of a U. S. Savings Bond increases every year after the first year.)

YOU PAY	BOND IS WORTH				
	3 yrs.	5 yrs.	7 yrs.	9 yrs.	10 yrs.
\$ 18.75	\$ 19.25	\$ 20.25	\$ 21.50	\$ 23.50	\$ 25.00
37.50	38.50	40.50	43.00	47.00	50.00
75.00	77.00	81.00	86.00	94.00	100.00
150.00	154.00	162.00	172.00	188.00	200.00
375.00	385.00	405.00	430.00	470.00	500.00

For your security, and your country's too, SAVE NOW—through regular purchase of U. S. SAVINGS BONDS

Bing Rings Bell in Big, Joyous Musical Romance, 'Mr. Music'

There just aren't enough adjectives to describe adequately Bing Crosby's latest Paramount picture, "Mr. Music," which opens Sunday and Monday at the Palace Theatre. If the crooner has been great before, he's positively sensational in this wonderful song, dance and romance packed musical that boasts one of the most talented casts ever assembled for a motion picture.

Nancy Olsen, Charles Coburn and Ruth Hussey match Bing's terrific performance, while guest stars Groucho Marx, Peggy Lee, The Merry Macs and Dorothy Kirsten contribute in spectacular fashion to the film's overflow of entertainment.

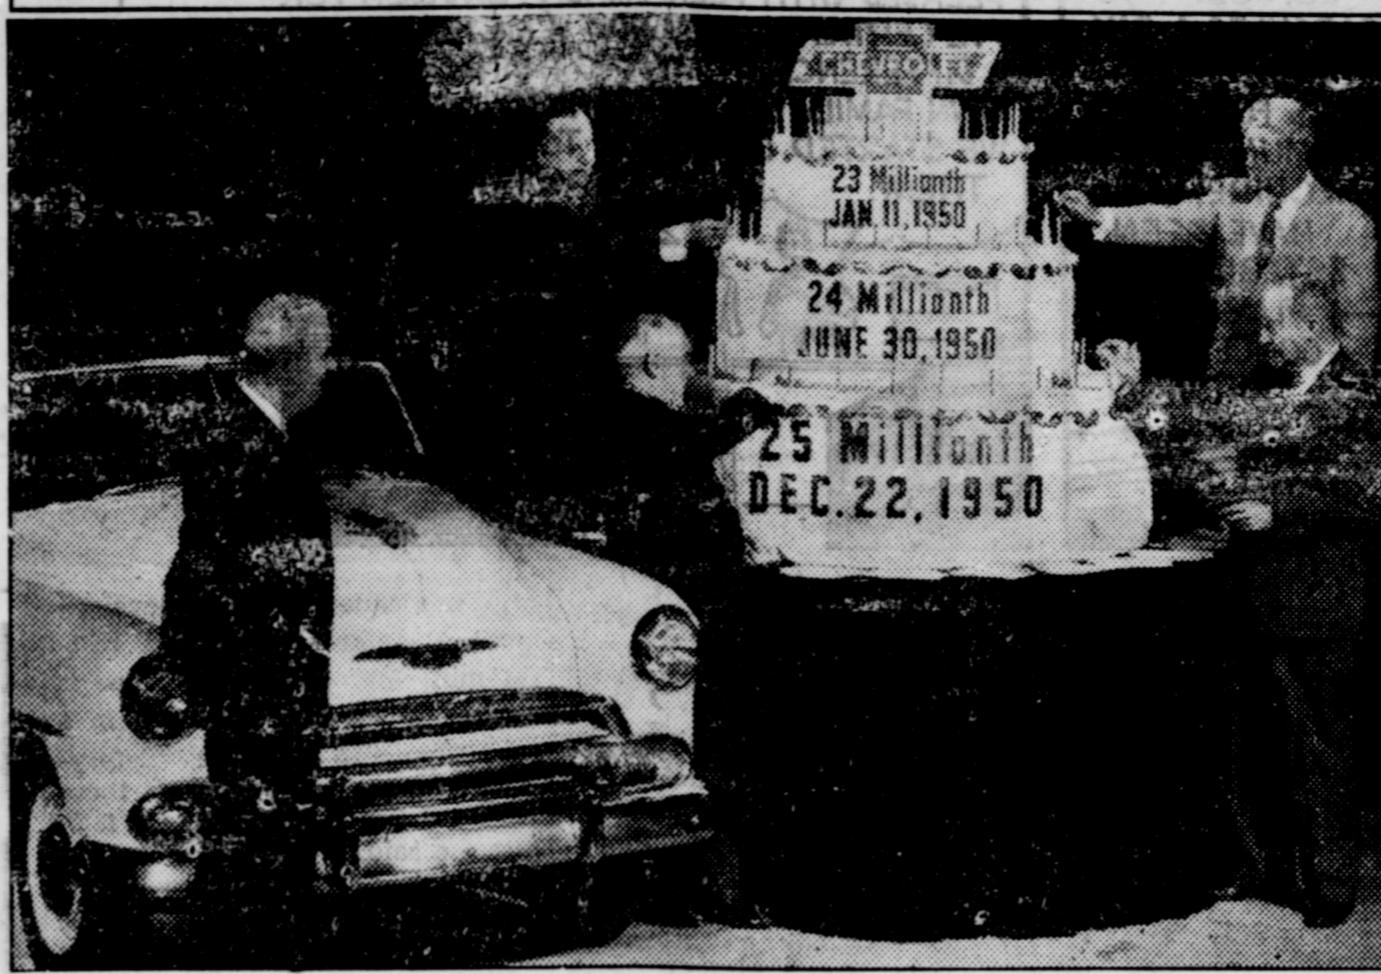

Boasting nine new songs by Johnny Burke and James Van

Heusen, and the magnificent dancing of Marge and Grower Champion, "Mr. Music" casts Crosby in a role that's a natural for him. Der Bingle plays a songwriter who spends more of his time on golf courses and in night clubs than at a piano. This routine, of course, leaves him badly in need of funds which he gets from producer Charles Coburn on the condition

he compose a new show. Coburn hires Nancy Olsen to check on Bing's activities and to keep him working instead of gadding about with glamorous Ruth Hussey. The plan proves successful, but a hitch develops when the show is completed—Coburn is unable to find backers for it. But Miss Olsen saves the day when she arranges a special production at her college with an all-star cast as performers.

Packed with hilarious dialogue and situations, "Mr. Music" is one of the most genuinely entertaining movies to come out of Hollywood in a long time. The Crosby-Groucho Marx routine alone is worth the price of admission, to say nothing of the crooner's stunts with songstress Peggy Lee, The

Car Maker Boosts Record to 25 Million

A giant cake lettered with the production milestones of the company marked Chevrolet's observance of its twenty-fifth millionth automobile. Above, T. H. Keating, general manager of the division, watches his top assistants light the candles (l. to r.) E. W. Ivey, administrative assistant to Keating; W. J. Scott, general manufacturing manager; W. E. Fish, general sales manager, and E. H. Kelley, chief engineer. Registering an achievement without precedent in the history of the auto industry, Chevrolet built its 23rd millionth car on January 11, its 24th millionth June 30 and the 25th millionth December 22. The last milestone was reached with new 1951 models.

Merry Macs and Metropolitan Opera star Dorothy Kirsten, who makes her motion picture debut in the film.

The featured roles are handled to perfection by Robert Stack, Tom Ewell and Charles Kemper, while Ida Moore turns in a gem of a portrayal as Miss Olsen's aunt.

Highway News

Highway Community Christmas tree and program was changed because of the death of a very dear friend and loved one, Grandmother Martin.

Mr. and Mrs. Preston Smith were in Crosbyton Monday where she is under treatment of doctors there.

Mr. and Mrs. Jimmie Hahn plan to move into their new home this week.

Mrs. Ray George sponsored a house warming for Mr. and Mrs. Noel Shaw last Friday night. Annetta Putman of Dallas spent the Christmas holidays with her parents, Mr. and Mrs. Kelcy Putman.

Larry Hahn of Lubbock spent last weekend visiting his parents, Mr. and Mrs. Jimmy Hahn, and grandparents, Mr. and Mrs. M. E. Tree.

Several families held reunions in this community during the Christmas holidays when most or all of the children were home.

Navy Develops Wind Tunnel For Study

The Navy has achieved a wind tunnel air flow more than eight times the speed of sound and about three times the velocity of World War II projectiles, according to a recent naval announcement.

The accomplishment, disclosed by P. P. Wegener of the Naval Ordnance laboratory, is aimed at producing "Essential design information for vastly superior weapons" in the guided missile field.

To further its research in this field, the Navy said it has combined two sciences — aerodynamics and ballistics — into one new study which it calls "aeroballistics."

Wegener's wind tunnel work was discussed at an international gathering last November at the University of Texas defense research laboratory.

The Navy said that 275 top flight scientists from the U. S., Britain, Canada and Australia took part in the symposium.

Concerning the development, the Navy announcement said:

"This tremendous speed was obtained by causing air at considerable pressure to flow through a rectangular nozzle, scarcely wider than the thickness of several sheets of paper, into an expanding throat."

ed to liquefy the oxygen and nitrogen in the air and Wegener had to preheat the gas to 900 degrees Fahrenheit — above the temperature needed to make steel red hot.

The Navy said it is already moving beyond the eight time the speed of sound mark and is considering construction of a conical nozzle for an airspeed of 10 times the speed of sound.

CLARK MORGANS ARE HOSTS TO RELATIVES

Mr. and Mrs. Clarke Morgan were hosts to several relatives during the Christmas holidays. Guests were Mr. and Mrs. Lem Walden, Mrs. Mollie Walden and Miss Ada Mitchell, of Spur; Ted Walden, Crosbyton; Mr. and Mrs. E. B. Walden, Lubbock; Mr. and Mrs. L. D. Walden and son, Lonnie Dale, Tech. Sgt. and Mrs. Lee Roy Walden, Wichita Falls; Mr. and Mrs. Grady Hunt and daughters, Betty Sue and Carolyn, and Billy, Bob, David, Shirley and Sharon Morgan; Mrs. Lela Morgan, and Miss Viola Morgan of Angleton.

Syrup processors have developed a new method of strengthening the natural flavor of maple syrup, says the USDA.

Spur, Texas

Get Your Plenamins at The City Drug Company Spur, Texas

FD LIKE TO BUY SOME VITAMINS, PLEASE.

CERTAINLY, MRS. JONES. WE RECOMMEND REXALL PURETEST PLENAMINS.

DO THESE PLENAMINS CONTAIN ALL THE VITAMINS MY FAMILY NEED?

THEY SURELY DO. JUST TWO CAPSULES A DAY SUPPLY ALL THE VITAMINS FOR WHICH MINIMUM DAILY REQUIREMENTS HAVE BEEN ESTABLISHED. PLUS LIVER CONCENTRATE AND IRON.

I'M SURE YOU'LL BE PLEASED WITH PLENAMINS. I'VE CERTAINLY NOTICED A DIFFERENCE IN MY OWN FAMILY SINCE WE STARTED USING THEM.

THAT'S GOOD ENOUGH FOR ME...AND THANKS FOR PUTTING ME WISE TO THEM. I'LL BE BACK FOR MORE WHEN THESE ARE GONE!

OIL PUBLICATION FEATURES SPUR EXPERIMENT STATION

Mesquite control work at the Spur Agricultural Experiment Station is featured in the December issue of the Farm Family, monthly farm and ranch publication of Humble Oil & Refining Company.

The article, titled "Mesquite Menace," tells of the valuable experimental work carried on by the staff at the Spur Station, first under the late Superintendent

Ray Dickson, and now under Superintendent C. E. Fisher.

Several photographs, made in the vicinity of Spur, are used to illustrate the article.

Mrs. J. B. Wright, presently employed at Hill Top cafe, was called to Fort Worth Monday after the tragic death of her brother, Gordon Judkins. Judkins was killed when struck by a car in the street.

SUNDAY SINGING AT SOLDIER MOUND CHURCH

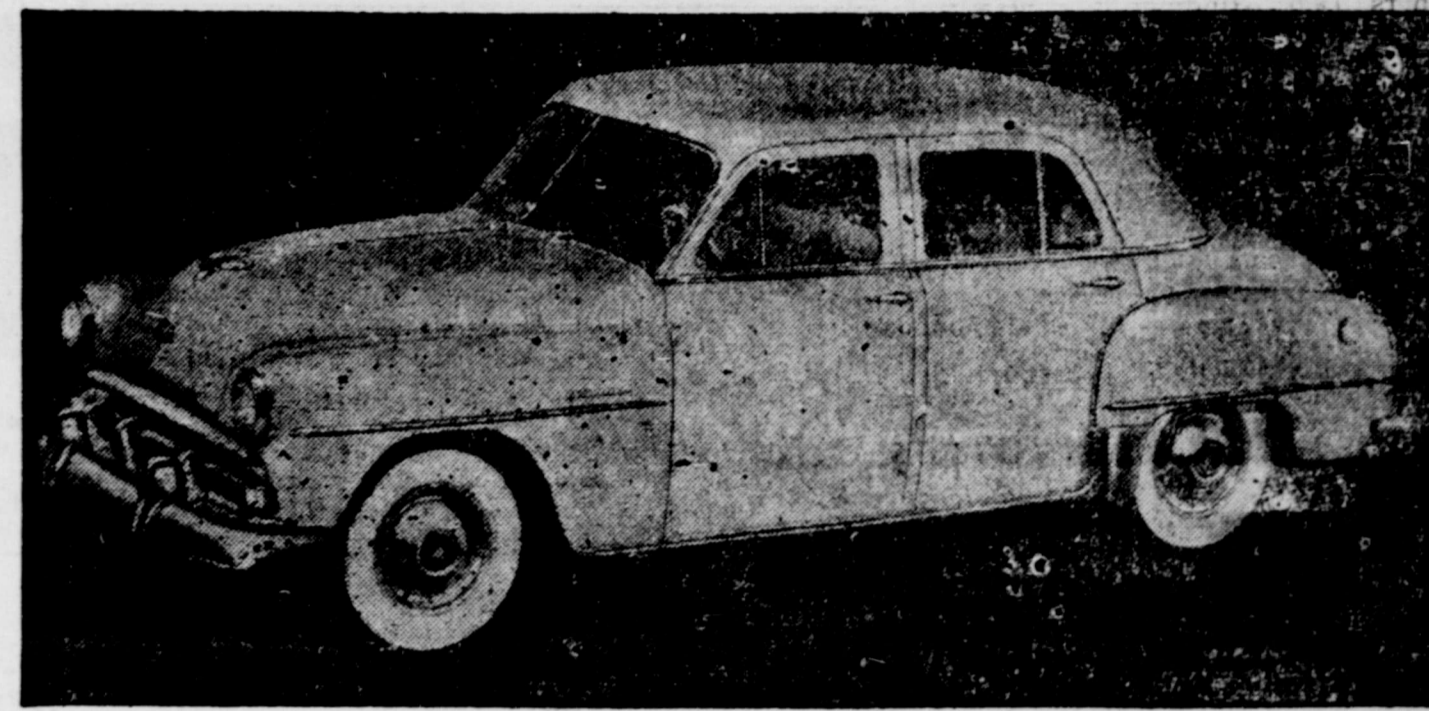

Several West Texas quartets will be guests at a singing to be held at 2:30 p. m., Sunday, in the Soldier Mound church.

An almost record attendance was set last Sunday at the singing held in the Mission church near Spur. The public is extended a cordial invitation to attend, and to join the singing.

Go to church Sunday!

Want ads get results

The New Plymouth Cranbrook Four-Door Sedan

Featuring improvements which produce unprecedented roadability and riding qualities, the beautifully redesigned 1951 line of Plymouth cars have numerous mechanical improvements and have retained their traditional roominess. Shown above is Plymouth's Four-Door Cranbrook sedan.

Guild Members Study Stewardship

Wesleyan Service Guild of the First Methodist church met in the home of Mrs. John Webb on Monday evening, with Mrs. James Cowan as co-hostess.

Mrs. Lawis Lee directed the worship program on Stewardship. Mrs. Carl Murray gave "Stewardship or Personality," and Mrs. Cal C. Wright discussed tithing.

A letter from the Navajo Indian Mission school in Farmington, New Mexico, was read by Mrs. C. O. Fox, thanking the organization for its holiday gift to the school. A pledge and prayer of stewardship were also given.

Cake and coffee were served to Meses: D. E. Corlev, Wilburn Ball, S. W. Flournoy, Cal Wright, Raymond Higginbotham, Jack Rector, Carl Murray, Harry Miller, Lawis Lee, Nina King, J. W. Henry, Andy Hurst, Vivian Gibson, Marion Hurst, C. O. Fox, Raul English, a new member, Mrs. Lamb, and the hostesses.

A covered dish dinner will be served to the members at the next meeting at 7:30 p. m., Jan. 22, in the home of Mrs. Raul English.

Eddins called the new development a major step toward restful motoring. More confidence is gained by driving or riding in a new Plymouth with the "Safety-Flow ride," and as a result there is less driver and passenger fatigue, he said.

The lines of the new Plymouth have been beautified. An appearance of massiveness combined with smart streamlining is induced by a new grille, beautifully redesigned front fenders and hood, a wider windshield and a larger rear window. Narrower windshield pillars together with the wider windshield provide additional lateral vision. To utilize fully the greater vision through the new rear window, the rear view mirror is two inches wider. The chair-height front seat and the new design of hood and front fenders permit the driver to see the road nearer the car.

Local Car Dealers To Display New Plymouths Saturday

Spectacular engineering advancements which produce driving and riding ease heretofore unknown in automobiles of any price class, feature the new line of Plymouth cars. Combining smart new body lines with matchless interior luxury, the 1951 Plymouth will go on display here and throughout the United States Saturday, January 13, 1951, announced today.

C. Jones of Jones Motor Co., and A. R. Rickels of Rickels Motor Co. announced today.

Designers have given the Plymouth a striking new silhouette, and interior refinements are innovations in the lowest price field. The styling improvements retain the traditional roominess of the cars.

The new Plymouths may be seen here at Jones Motor Co. and Rickels Motor Co.

Easier to drive and more comfortable, the new cars have greater beauty, more safety features and broader ranges of vision than ever before.

Engineers say the new "Safety-Flow ride" takes the bounce and wallop out of bumps. A new application of hydraulic flow control in the shock absorbers provides a more gradual change of resistance during spring deflections and thus a softer ride when driving on average roads. It also exerts extra resistance on rough roads to a degree where driver and passengers are almost completely freed of the discomfort of being jolted around.

The "Safety-Flow ride" is one of the greatest contributions to driving comfort and safety in recent years, according to D. S. Eddins, president of Plymouth Motor Corp.

"The new Plymouth gives you roadability never before offered in any car," he said. "There is no necessity for steering-wheel fatigue to control the car on difficult roads. The driver is no longer required to focus full attention on the condition of the road. He may be more watchful of oncoming traffic, pedestrians, curves, crossroads and other potential hazards."

Nelda Hindman And Ronald Tyler Are Wed In Candlelight Service At Methodist Church

Miss Nelda Jo Hindman and Ronald T. Tyler, Jr., were married in a candlelight ceremony at 8 p. m., Dec. 31, in the First Methodist church, Spur. Bro. Cal C. Wright, resident pastor, read the double ring vows as the couple stood near baskets of rose carnations.

Parents of the couple are Mr. and Mrs. Ollie Hindman, Spur, and Mr. and Mrs. R. T. Tyler of Electra. Rose candles were lighted by ushers Don Hindman, brother of the bride, and Gene Paul Isbell of Paducah. Rose satin ribbon marked the aisle.

Traditional White
Gowned in a white moire taffeta dress, simply styled with voluminous gathered skirt which fell to the floor and bodice centered with tiny buttons to the waist from Peter Pan collars and with short puffed sleeves, the bride entered with her father. Long white kid gloves worn by the bride's mother at her wedding, and a single strand of pearls, gift of the groom, were worn.

Her veil of nylon illusion fell from a tiara encrusted with seed pearls, and borrowed from the matron of honor. She carried a bouquet of white roses. Attending as matron of honor was Mrs. M. L. Walling of Waxahachie. She chose an aqua taffeta

gown, styled similar to the bride's, with heart shaped neckline and wide waist yoke. She carried a bouquet of rose carnations.

Virgil Elliott of Paducah served as best man. Miss Margaret Wood, organist, accompanied Clifton North of Paducah, who sang "No Other Love," and "Lord's Prayer," by Malotte. She also played "Because," "D Hardelot," "Bach Chorales" and "Let Me Call You Sweetheart." Whitson and Friedman, preceding the ceremony, and "Traumerei," Schumann while vows were repeated. Traditional wedding marches were also used.

Parents of the couple assisted in receiving guests at a reception which followed the ceremony in the home of the bride's parents. The bride's table was covered with a white organdy cloth accented by rows of insertion. The bride's bouquet was placed on the table, and rose colored tapers burned in crystal holders. A silver coffee service with other silver appointments and a three tiered wedding cake completed the arrangements.

Mrs. Graden Bass, sister of the bride, served coffee, and Mrs. Roy A. Tyler, sister-in-law of the groom of Fort Worth served wedding cake to guests.

To Albuquerque
When the couple left for a wed-

ding trip to Albuquerque, Mrs. Tyler wore a brown suit with brown gloves and hat, and green blouse. Her corsage was of white carnations.

Mr. and Mrs. Tyler are living in Paducah where both are employed.

Out-of-Town guests who attended the wedding were Mr. and Mrs. Don Moore, James Moore, Farris Brock, Mrs. Dorothy B. Moore, Mr. and Mrs. J. C. Hindman, Mr. and Mrs. Euwell G. Hindman, and Claudia, Mr. and Mrs. V. L. Graves, all of Lubbock; Mr. and Mrs. George M. Rick, Jr., Lawton, Okla.; Mr. and Mrs. H. L. Hindman, Austin; Mr. and Mrs. John William Lilly, Throckmorton; Mr. and Mrs. Henry Tyler, Chillicothe; Mr. and Mrs. R. A. Tyler, Ft. Worth; Mr. E. E. Asher, Electra; Mr. and Mrs. R. A. Tyler, Fort Worth; Mrs. E. E. Asher, Mrs. Ira Bohner, Miss Marguerite Mathis, Mr. and Mrs. J. L. Hindman and Diana, Mrs. J. H. Elliott, Mr. and Mrs. Clifton North and Donald Wayne, Don H. Elliott, Jean Isbell and Virgil Burt Elliott, Miss Onita Gibbs, all of Paducah; Mr. and Mrs. C. M. Vaden, Jr., Abilene; Mr. and Mrs. M. L. Walling, Waxahachie; Mrs. M. L. Walling, Waxahachie; send, Benjamin.

Shower Compliment
The recent bride was complimented with a shower courtesy in the home of Mrs. W. F. Gilbert, 618 North Carroll, from 3 until 5 o'clock Monday afternoon.

Assisting the bride in receiving guests were her mother, Mrs. Ollie Hindman, and Mrs. Gilbert. Hostesses for the event were Mmes. Floyd Barnett, Hade Condon.

Dee McArthur, John Aston, Mayne Bachman, Horace Wood, C. H. McCully and W. F. Gilbert. A white Irish linen cutwork cloth covered the serving table.

A centered flower arrangement of rose carnations and white stock was flanked by rose candles, featuring the bride's chosen colors, rose and aqua. Crystal and silver appointments were used with a silver coffee service.

Mrs. Graden Bass served coffee, and Mrs. Dee McArthur served pink iced angel squares topped with aqua confection flowers.

Guests calling during the afternoon were Mmes. F. B. Crockett, R. T. Crawford, C. F. Cook, Joe McDaniel, Lela Evans, J. C. Payne, Cal C. Wright, Sam Garrison, Lon Bass, George Link, Neitha Campbell, Buck Ballard and Sandra, Henry Gruben, W. S. Campbell, and Misses Margaret and Beverly Wood and Byrdan Roberson.

Several others sent gifts.

Circles Meet In Royal Service

Members of First Baptist WMU circles met Monday afternoon at the church for a monthly business meeting and Royal Service program.

Reports on the Christmas offerings and gifts which were prepared were given by committee chairmen.

"God Is Moving-Who Can Hinder," the program topic, was directed by Mrs. Grady Lackey. Others on the program were Mrs. W. T. Buckingham, who gave the devotional; Mrs. E. E. Caudle and Mrs. W. F. Patrick, who presented an informative conversation story on "Look at Today's World," Mrs. C. P. Scudder, who gave "Isiah Presents God's Plan," and Mrs. Elmer D. Hagins with "We Know the Way."

Miss Jennie Shields gave the closing prayer.

Epiphany Service For WSCS Meet

Members of First Methodist WSCS met in the Roundup on Monday afternoon.

Mrs. C. O. Fox led the Epiphany program, following a short business session directed by Mrs. J. C. Payne, president of the organization.

Attending were Mmes. J. C. Payne, P. E. Gollihar, Lel. Evans, Cal C. Wright, Tom Johnston, J. W. Carlisle and George Link.

Bible study will begin at next week's meeting, and all members are urged to be present.

Twentieth Century Records History At Recent Meeting

The Twentieth Century Study Club met in the home of Mrs. George S. Link on Jan. 2.

During a business session officers for a new year were elected, and facts of history were recorded on a wire recorder, under the supervision of George Link, Jr.

Each club member contributed to the historical record, using as subjects hobbies, accomplishments and individual interests. A review of newspaper headlines of the past year associated the program with world history. Each subject discussed demonstrated the value and cultural benefit of the club's Federated programs.

Among the topics discussed were "Flowers, my Hobby," "My Neighbors," "I Came to Spur a Stranger," "Why I am Busy," "My Family in Europe," "Our Guest of the Year, Miss Amelia Anthony," "Art in Public Schools," "Our County Library," "My New Neighbor," "My Life in the Country," "Current Events," "My Granddaughter," "What's New in Homes," "My Trip," "Next Year's Programs," "Our Members Thirty Years Ago," and "Keeping You on Your toes."

Mrs. O. C. Arthur, president of the club, presented a summary of the past year's work, and Mrs. O. M. McGinty, district officer, reviewed the District program of Federated clubs in Texas.

New officers elected were Mrs. O. C. Arthur, reelected president; Mrs. O. L. Kelley, first vice-president; Mrs. Cliff Bird, second vice-president; Mrs. Henry Gruben, corresponding secretary; Mrs. A. M. Walker, treasurer; Mrs. Eric Foster, reporter, and Mrs. O. M. McGinty, delegate to City Federation.

Attending were Mmes. O. C. Arthur, T. H. Blackwell, Cliff Bird, F. L. Caraway, F. B. Crockett, Eric Foster, Henry Gruben, O. L. Kelley, E. S. Lee, F. A. Mannley, O. M. McGinty, Fannie McNeill, L. D. Ratliff, A. M. Walker, George Link, B. F. Hale and Miss Margaret Elliott.

Congressman Sends Letter To Couple

Mr. and Mrs. S. T. Battles, who celebrated their Golden Wedding anniversary on Dec. 9, 1950, received a congratulatory letter this week from George Mahon, U. S. congressman from Texas' 19th district.

Mahon's letter read in part, "There are few really special oc-

casions in a lifetime, but one of the events that can be truthfully called "special" is the celebration of one's Golden Wedding anniversary. I congratulate you, and send every good wish for your health and happiness."

Mr. and Mrs. Battles were married Dec. 9, 1900 in Tyler. They marked the fiftieth celebration with an open house at their home in Spur.

Mrs. Boothe Elected 1933 Club President At Tuesday Meeting

Officers for the club year beginning in September, 1951, were elected at the meeting of the 1933 Study Club Tuesday afternoon. The club met at the home of Mrs. C. H. McCully, 617 N. Willard.

Mrs. W. F. Patrick presided for the business session. Names presented by the nominating committee for new officers and elected by the club were Mrs. Larry O. Boothe, president; Mrs. C. P. Scudder, first vice-president; Mrs. Leon Huff, second vice-president; Mrs. Cuy McMahan, recording secretary; Mrs. Walter Carlisle, librarian; Mrs. Everett McArthur, treasurer; Mrs. C. F. Cook, corresponding secretary; Mrs. Grady

Lackey, reporter; and Mrs. Patrick, delegate to the City Federation.

The program for the afternoon, "Poetry, Woman's Musical Language" was led by Mrs. Lackey. Mrs. McArthur gave a sketch of Elizabeth Barrett Browning's life and read "How Do I Love Thee" from her "Sonnets from the Portuguese." Mrs. Geo. Gabriel sang Joyce Kilmer's well-known poem "Trees" that has been set to music. Concluding the program, Mrs. Scudder gave a sketch of the life of Emily Dickinson and read two of her poems, "Myself" and "Because I Could Not Stop for Death."

Chicken salad, frosted cake squares and coffee were served to members by the hostesses. Mmes. McCully and McMahan. Attending were Mmes. Cal Wright, R. L. Walker, J. C. Payne, Boothe, Carlisle, E. E. Caudle, Cook, Gabriel, Lackey, McArthur, McCully, Patrick, Scudder, and McMahan.

The next meeting will be January 23 at the home of Mrs. C. F. Cook.

GOOD HEALTH

Answer to Question No. 1:
1. Yes, especially if they are good students. As a group college graduates are considered unusually good insurance risks. A recent study showed that college graduates (both athletes and non-athletes) whose scholastic achievements brought them honors lived longer than did other students.

Answer to Question No. 2:
2. In recent years the proportion of rural babies born in hospitals has increased more rapidly than the proportion of city babies. A good part of the increase is because of the spread of health information through

schools, newspapers and magazines, which emphasize the advisability of hospitalization for maternity cases.

Answer to Question No. 3:
3. Goiter is caused by a lack of iodine, which is required for normal functioning of the thyroid gland. In areas where the soil and water lack iodine goiter is most prevalent, not only among humans but among dogs, cats and fish. The addition of iodized salt to the diet in these areas is one means of correction. Not all forms are so serious as to need surgery. Consult your doctor.
(Copyright 1950 by Health Information Foundation)

"SMALL BUSINESS"

Watch for investigation of tin plate situation, especially if the recent order curtailing tin usage results in small canners and packers having difficulty in getting tin cans.

Among other questions will be this one: "Why, when the tin reduction rule was announced, did ECA Bulletin #1937 announce almost concurrently that there is to be a French North Africa?" This could be an entire year's supply for 15 to 20 C. W. Harder medium small fruit and vegetable canners.

During World War II many small food packers lost markets to big corporations because they could not obtain sugar.

Yet, with the nation presumably on the verge of a global war once again, Agriculture Secretary Brannan reduces the amount of sugar that can be marketed in the nation during 1951 to 8 million tons, or 700,000 tons less than in 1950.

There is no shortage of sugar. The ruling was made to stabilize prices, the Secretary says.

Housewives may panic for lb. for sugar in 1951 will continue to

pay 12c or more. If total war comes the Sugar Trust will once again determine who will stay in business. This upholding of monopoly by bureaucracy will get close scrutiny in Congress.

Alcohol befuddles many, but in high officialdom alcohol seems to be especially befuddle. That's the substance of a Senate preparedness committee report on the amazing deal whereby Schenley secured a government industrial alcohol plant in Kansas City valued at \$2,500,000 for \$700,000.

A month after Korea, the Government Surplus Administration opened bids for the plant. Schenley won with an offer of \$701,000. Three days later Sen. Johnson, chairman of the Committee, and Jess Larson, GSA head, conferred. Three days later a "freeze order" was issued. But on the same day, August 17th, GSA wired Schenley acceptance, who took possession of the plant on August 22nd. No one knows yet how it happened.

But this is known. The synthetic rubber program needs 125 to 135 million gallons of alcohol.

On the first request, Office of Rubber Reserve did not receive a gallon from distillers. For the last two months of 1950, 19,000,000 gallons were requested. Prices ranged from 90c to \$1.25 per gallon. So the government bought French alcohol at a price of 48 1/2c per gallon. Sen. Johnson will undoubtedly carry this probe further... watch for developments.

Revised Schooling Takes Less Money

One-half cent less of each state tax dollar went to support Texas' public-schools last year than in 1939-40 despite the tremendous strides made in the school system since the Gilmer-Aikin laws went into effect.

"Not only has Texas climbed from very low on the national ladder to near the top in public school education in the first year under the Gilmer-Aikin program, but the state accomplished what amounted to a near-revolution in education without taking a big bite out of each tax dollar," Dr. Mortimer Brown, president of the Texas State Teachers Association pointed out recently.

"In 1939-40 the public school

support totaled 30.31 cents of each state dollar expended. During the last school year the school's share of that dollar was 29.67, or exactly .54 of a cent less.

"At the same time, enrollment greatly increased, the number of teachers employed went much higher and the average daily attendance skyrocketed.

"The average daily attendance jumped in one year 35,709 under the new school program. Too, it is pertinent to point out that every child in Texas is guaranteed the opportunity of having 175 days of actual instruction per year.

There are now 49,628 classroom teachers in Texas schools, Dr. Brown pointed out. That is 4,225 more than in 1939-40. That makes for better education of our children," Dr. Brown commented.

"Classes are now smaller, allowing for more individual instruction. Too, there were only 156 supervisors, counsellors and special services personnel, such as nurses, available in 1939-40. Now there are 2,181.

Charles T. Tennyson, executive secretary of the Teachers Association, commented that until the Gilmer-Aikin program gave Texas a position near the top in the national education field, a proportionate share of the state dollar was not going to the schools.

"We are delighted to find that the vastly-improved school system, and I believe everyone will agree that our schools are far superior to those of such a short time ago as 1948-49, is taking less of the state dollar," he said.

The total cost of state government during the 1949-50 fiscal year was \$527,252,453. Of that amount, \$156,430,559 went to the vast network of schools. A total of \$145,350,068 was used by the per capita apportionment, the supplementing foundation program and for administration, Tennyson reported.

Textbook costs and distribution accounted for \$3,410,723. The lunch program cost \$3,758,361. The State Commission for the blind used \$117,006. Vocational education cost \$3,794,401, of which \$2,018,657 was federal funds, Tennyson said.

More than 5,000 pastors and laymen from all over the state were present to hear Graham and 30 other denominational speakers. The purpose of the conference is to explain the need and methods for winning 250,000 new Christians in 1951.

Graham spoke January 9, before the annual statewide Baptist Evangelistic Conference. The conference met from January 8, to Wednesday noon in Dallas' First Baptist Church.

That in itself is significant, for not a single week passed that didn't see at least one case of the so-called hot weather disease being diagnosed in some part of the State.

The total 1949 incidence of the dread disease reached 2355 cases, establishing a record up to that time. But there were 43 weeks in 1949 instead of the normal 52, and that figure includes cases occurring all 53 weeks.

Two hundred and 3 counties

out of the state's 254 were involved in the 1949 outbreak. That's comparable to the 201 counties which experienced polio in 1950.

The disease reached its peak on August 12, when 131 Texans fell ill. That marked the greatest single weekly incidence ever to be reported.

At that time State Health Officer George W. Cox ruefully predicted that 3000 cases would be diagnosed before the year ended. He missed his estimate by 222.

Twenty-eight counties had 20 or more cases; ten had more than 50 cases; six had more than 100 cases; and three counties—Dallas, Harris, and Tarrant—had more than 200 cases each. Those three areas represent the most populous regions in Texas.

Early in the polio season, Dr. Cox pledged the facilities of the entire State Department of Health to local communities in combatting polio. The health agency's laboratory and field personnel, working in cooperation with civic organizations and local health units, were credited with keeping the epidemic from reaching even greater proportions.

State health department death records show 201 polio deaths through the first 11 months of 1950, and 192 deaths from that cause during all of 1949. Complete death figures are not yet available for December, a department spokesman said.

February, 4,137; and March 4,145. There is no indication yet as to size of the April call.

Local board quotas for the March call will not be made up until the latter part of January or the early part of February, the state Selective Service director said. Quotas and calls section of state headquarters must figure local board quotas, giving credit for enlistments from each area.

The men called up for the March quota will be furnished for the Army, as well as those for January. All those called up in 1950 were furnished for the Army. So far only the Army has requested manpower under the Selective Service Act.

Calls are made by the Secretary of Defense on the director of Selective Service in Washington, who allots quotas to the states on the basis of federal draft law regulations, giving credits for enlistments of men from the states. The state draft directors under these same regulations assign quotas to their respective local boards.

General Wakefield expressed confidence that "Texas will be able to fill the March quota. So far we haven't failed the country," he said.

Sudan grass seed production in the nation in 1950 is reported to be far short of anticipated needs, but in Reeves county, it is estimated that farmers harvested 700,000 pounds during the last season.

Since the Universe is always in motion, astronomers sometimes have to track heavenly bodies for hours to get their image firmly fixed on a photographic plate.

Young Evangelist Is Convention Speaker

Billy Graham, dynamic young evangelist known for preaching to huge crowds from coast to coast, has added Dallas to the list of Texas cities where he will speak early in 1951.

Graham spoke January 9, before the annual statewide Baptist Evangelistic Conference. The conference met from January 8, to Wednesday noon in Dallas' First Baptist Church.

More than 5,000 pastors and laymen from all over the state were present to hear Graham and 30 other denominational speakers. The purpose of the conference is to explain the need and methods for winning 250,000 new Christians in 1951.

Polio Sets Record In 1950 Incidence

Polio wound up 1950 by setting a grim new record in polio incidence—2778 cases for the year. Never before in state history have so many cases been reported during a 12-month period. Eight cases occurred during the last week in December.

That in itself is significant, for not a single week passed that didn't see at least one case of the so-called hot weather disease being diagnosed in some part of the State.

The total 1949 incidence of the dread disease reached 2355 cases, establishing a record up to that time. But there were 43 weeks in 1949 instead of the normal 52, and that figure includes cases occurring all 53 weeks.

Two hundred and 3 counties

Texas Draft Quotas Raised For March

Induction of 4,145 men for March was received by state Selective Service headquarters on Jan. 2, Brigadier General Paul L. Wakefield, director of Selective Service for Texas, announced.

The call, Texas' part of a national quota of 80,000, compares with a state quota of 4,137 for February and 4,142 for January. The March call brings the number of men called for since the beginning of the conflict in Korea to 22,912.

Calls by month have been as follows: September, 2,513; October, 2,514; November, 3,453; December, 2,008; January, 4,142.

Life of Action

Lesson for January 14, 1951

SCRIPTURE: Mark 1:21-29. DEVOTIONAL READING: Psalms 145:10-21.

THEY say that in four regions of the United States there are four different questions which are asked of newcomers. In the New England states they ask a stranger "How much do you know?" In the wealthy northern states they ask, "How much have you got?" In the South where pedigrees are so much treasured, they ask: "Who was your grandfather?" But out in the wide-open west they have only one question: "What can you do?"

Action in Religion

It is a fair question. If the answer is "Nothing," then it does not make any difference at all what a man can answer to the other three questions.

To be sure, they look at this differently in the Orient. According to the ancient philosophy of the East, it is only the inferior man who rushes around doing things. The superior man sits and thinks. The West's admiration for action, and the Orient's admiration for contemplation, enter into religion itself. The typical Oriental "saint" may be a man who never turned his hand to a piece of work in all his life. The typical western "saint" is likely to be a very busy and active sort of person.

It is all the more interesting that Jesus combined both the western and the eastern ideas of religion. He was a man of prayer and meditation, yet a man of strenuous life too.

Spur Security Bank

at the close of business December 31, 1950, a State banking institution organized and operating under the banking laws of this State and a member of the Federal Reserve System. Published in accordance with a call made by the State Banking Authorities and by the Federal Reserve Bank of this district.

Built in Texas... and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford... and in the process Ford is helping to build Texas, too!

WHEN YOU BUY FOR THE FUTURE—BUY FORD

There's a Ford in Your Future!

Life of Action

THE Gospel by Mark, reliable tradition claims, actually comes from Simon Peter. During Peter's missionary travels he used to speak often about the life and work of Jesus, and young John Mark would take down notes of what he said. Then later Mark worked up into a connected "gospel" many of those story-sermons. It is easy to believe the tradition, because this gospel sounds so much like what would appeal to Peter, a man of action.

At any rate, in Mark we have very little said about Jesus' teaching, a great deal said about what he did. Jesus does not have a spare minute, not a day off.

What about the rest of us? Suppose some biographer were to write up you who read these lines. Suppose he could use in his story only your actions, not your words or ideas. Would there be enough material for him to write a book?

Words of Power

WHILE Mark almost never tells us what Jesus taught, he does tell us that Jesus was a teacher. In describing the synagogue-service in Capernaum Mark tells us the people were astonished, and even two demon-riden men were struck down with terror.

What Jesus said that astonished the people and alarmed the demons we do not know. Possibly Peter, who was there, may have been too busy watching people's faces to hear what Jesus was saying. However that may be, Jesus is here introduced to us not only as a doer but as a thinker and teacher.

Life is not all action; it is also thought. Jesus' acts were full of power; so and not less so were his ideas, words, teachings. Look at the rest of us again: We may be full of talk, but how much power is there in our ideas?

Straightway

ONE word is found many times in Mark's stories of Jesus: "Straightway" as the older versions have it—that is, immediately. It is not just Mark's style. It is his way of bringing out something important about Jesus' life and habits.

There were no blank spaces, no pages unwritten, no empty gaps, no waiting-around, in Jesus' life. In his life one actively followed on the heels of another. He had no time to waste, and he wasted none.

Let the honest reader try to make a realistic budget of his time. At the beginning of a week let him draw up a kind of chart showing how he expects to spend his 16 waking hours each day,—so much for work, recreation, study and so forth. Then at the end of the week let him ask himself: Where did my time go? He will often have to admit that he did not really live the whole day, any day,—only parts of it. Living as a Christian means living one's full time, living one of those 16 hours a day.

Governor Sanctions Polio Campaign

Governor Allan Shivers emphasized the impact of polio on the family, community, state and nation in officially designating the period from January 15 through January 31 for the 1951 Texas March of Dimes.

"For three consecutive years," said Governor Shivers' proclamation, "Texas children and adults have been heavily attacked by the virus of poliomyelitis. The record shows that 423 more polio patients were reported in Texas during 1950 than in 1949, with 2,778 cases in 1950.

By Hugh Williamson

Austin, Tex., Jan. 10—Your state's capitol city will be an exciting and colorful place for a while. With the Legislature's session beginning January 9, the town will be packed with people.

There are only 181 members of the Legislature—50 in the House of Representatives and 31 in the Senate. But there are hundreds of others who come here when the lawmakers convene.

Each legislator has his secretary. There are dozens of typists and clerks. Many of the solons will bring their wives and children for the duration of the session.

And then there is what's called the "lobby."

The lobby is divided up into many classes. A lobbyist may be one man who comes to Austin to see his representative and senator about a bill affecting a single county.

are three major subjects to which the Legislature must give considerable attention. These are:

1. Re-districting. The state, according to the Constitution, must be divided up every ten years into districts from which senators and representatives are elected.

Despite the constitutional requirement, the Legislature has neglected for many years, to get the redistricting job done. But now there is a board whose business it is to undertake the chore if the Legislature fails again.

2. Financing. The cost of government keeps going up because the people keep demanding more services—mainly in the field of welfare programs, such as old age assistance; highways and roads; and education. All this costs millions.

3. A fight between the trucks and the railroads. The railroads claim that big trucks damage the highways. Thus it may be that the railroads will call for a reduction in the truck gross load limit of 48,000 pounds.

As one editorial writer has said, the factor that should and doubtless will decide the truck-rail fight is the public interest.

CROSBY'S NEWEST HIT

BING CROSBY and NANCY OLSON make sweet music together in this scene from Paramount's "MR. MUSIC."

Hybrid Onions Are In Commercial Field

Hybrid onions are moving into the commercial field, according to a report by Dr. Henry A. Jones, Agriculture department plant breeder.

It is expected to "take years" before good hybrid onions are available to all farming districts, however. Federal agriculture workers have been working on the development and distribution of hybrid onions for about 25 years.

Experimenters decided the most rapid progress would be made and the best hybrid seed produced at reasonable prices if the seed industry were on a competitive basis.

In 1944, after the department and the California experiment station had developed the first hybrid small quantities of seed and bulbs were released to seedsmen and various state experiment stations.

Many Tests Underway An indication of the extent of hybrid onion research is that in 1950 there were test plots in California, Connecticut, Colorado, Idaho, Illinois, Indiana, Iowa, Louisiana, Massachusetts, Michigan, Minnesota, New York, Ohio, Oregon, Texas, Utah and Wisconsin.

Jones emphasizes that successful hybrid onions do not always give greater yields than ordinary varieties.

A hybrid that matures a month ahead of a standard variety cannot be expected, Jones points out, to give as high a yield but there are other advantages.

He says that in some districts attempts are made to develop adapted hybrids that mature early and avoid loss by blast, and disease that often reduce yields. In a "blast" year such a hybrid would be of great advantage.

Elementary Teachers In Texas Are Scarce

Texas colleges are producing five times as many high school teachers as are needed and only one-sixth of the elementary teachers needed, the states legislative research expert said recently.

Research by the Texas Legislative council indicates that the demand for elementary teachers is five times as great as for high school instructors, John D. Moseley told delegates to the mid-winter education conference.

Moseley is executive director of the council.

Waurine Walker, former Waco public school teacher now with the Texas Education agency, presented a five-point program for raising the professional ability of teachers.

She recommended definite standards for admission and careful selection of education students by colleges, better teacher education programs in colleges, improved and expanded programs of in-service education for teachers, higher teacher certification standards, and higher standards for colleges preparing teachers.

Miss Walker is assistant director of professional standards for the education agency.

Tailoring Courses Aid Sewing Ability

COLLEGE STATION, January—The climax to a successful tailoring school in Lampasas county came recently when 72 suits and coats were modeled by home demonstration club women in that area.

The "grandmother" of the tailoring project was Mrs. M. W. Crider, who less than a year ago enrolled in a tailoring course.

Mrs. Crider's class in tailoring produced 10 suits. These women went out and taught others. Soon tailoring schools at Nix, Pecan Grove, Friendship, Adamsville, Atherton, Ogles, Kempner, and other communities developed.

The suits and coats were made of 100 percent pure virgin wool and ranged in cost from \$7.78 to \$23.40. But the value of the garments they made is far above these figures.

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

NEW! AMERICAN BEAUTY DESIGN
Brilliant new styling... featuring entirely new grille, parking lights, fender moldings and rear-end design... imparting that longer, lower, wider big-car look which sets Chevrolet above and apart from all other motor cars in its field.

NEW! AMERICA-PREFERRED BODIES BY FISHER—With new and even more strikingly beautiful lines, contours and colors... with extra sturdy Fisher Unisteel construction... Curved Windshield and Panoramic Visibility... the smartest, safest, most comfortable edition of Chevrolet's America-Preferred Bodies by Fisher.

NEW! MODERN-MODE INTERIORS
—With upholstery and appointments of outstanding quality, in beautiful two-tone color harmonies... with an even more attractive steering wheel embodying a new full-circle horn ring (in De Luxe models)... and with extra generous head, leg and elbow room for driver and all passengers.

NEW! MORE POWERFUL JUMBO-DRUM BRAKES (with Dabi-Life rivetless brake linings)—Largest brakes in the entire low-price field... extra-safe, extra-smooth, extra-durable... with both brake shoes on each wheel self-energizing for forward and reverse operation of car... providing maximum stopping-power with up to 25% less driver effort.

NEW! SAFETY-SIGHT INSTRUMENT PANEL—Safer, more convenient, more efficient... having an over-crown to eliminate reflections in windshield from instrument lights, and lower edge of panel recessed to provide a safe, convenient location for control knobs... with plain, easy-to-read instruments in two large clusters directly in front of driver.

NEW! IMPROVED CENTER-POINT STEERING (and Center-Point Design)—Making steering even easier at low speeds and while parking... just as Chevrolet's famous Unitized Knee-Action Gliding Ride is comfortable beyond comparison in its price range... additional reasons why more people buy Chevrolets than any other car.

Here's America's largest and finest low-priced car—the newest of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain.

New with that longer, lower, wider big-car look! New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after feature!

Moreover, it's thoroughly proved in all things, from the finer no-shift driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

Come in—see and drive America's largest and finest low-priced car—Chevrolet for '51—the only car that brings you so many big-car advantages at such low cost!

PLUS TIME-PROVED POWER *Glide*

AUTOMATIC TRANSMISSION
—proved by more than a billion miles of performance in the hands of hundreds of thousands of owners.

*Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Triplet Bear Cubs Born At Baylor

WACO, Texas, Jan. 11—Baylor University's bear mascot population had increased by one (net) at last count today.

Triplet cubs were born Sunday to Josephine, the most prolific of Baylor's two female bears. Their cannibalistic father and big brother grabbed one each for an unscheduled luncheon before help arrived.

The third is reported doing nicely, with the exception of two missing toes—indicating that rescuers Tommy Lochridge of Houston and Ben Ferrell of Tyler got there just in time to prevent total annihilation.

The event was a surprise repeat performance of annual—January tragedies which started in 1949. Josephine delivered twins in January of that year, but Joe, the father, devoured both. Chita delivered her firstborn in January 1950, and it met the same fate.

Barney and Bailey, the celebrated twin cubs born to Josephine in January 1950, were saved simply because alert keepers had placed the expectant mother in a solitary maternity pen.

It was Chita who had been given the privilege of the solitary pen this year in anticipation of her again becoming a mother. Josephine, who had shown no signs of pregnancy this year, was with Joe and her two male offspring of a year ago when her 1951 tragedy occurred.

Joe and Bailey were credited with the most recent deaths. Josephine and her lone surviving baby are now in the maternity ward. Chita has been moved to one of the men's dormitories until better accommodations can be provided for her expected delivery.

And meanwhile, Baylor administration personnel is becoming worried about additional mouths to feed.

MUST PRODUCE ENOUGH—

"The responsibility for producing the quantity of fiber which this country and its allies desperately need goes back to the American cotton farmer. From dangers of a surplus we have changed temporarily to dangers of a shortage." Harold A. Young, President, National Cotton Council.

MILLS NEED MORE—

"One of the main economic problems of the Southeast is to grow enough cotton to keep the textile industry here. We must produce more cotton to keep the textile industry in the South."—John A. Sibley, Board Chairman, Trust Company of Georgia.

PLAN AHEAD—

"Whether there is peace or war, rain or drought, bad times or good, the farmer who plans ahead realizes the most from his efforts. Fit cotton into a balanced farm program and follow the seven steps to higher profits."—North Carolina Cotton Growers Cooperative Assn.

WELL DONE, SAYS SECRETARY SNYDER

Pittsburgh, Pa.—Workers of Carnegie-Illinois, one of the country's great steel producers, are congratulated by Secretary of the Treasury John W. Snyder (third from left), and Clifford F. Hood, the corporation's president (extreme right), for successful payroll savings campaign during which 59,000 more employees signed up for saving bonds regularly. Appeal was based on the theme: "Save for your independence, national and personal." Glen Saunders (at extreme left) is shown shaking hands with Secretary Snyder while a fellow worker, Andrew Danekah, looks on.

ONLY ONE WAY.—"From now until the 1951 crop is in the bag, the one big thing that is likely to determine the size of the crop is now well we fight insects. The only way to kill a cotton bug is to kill him, and it takes poison on the plant to do it."—The Progressive Farmer.

Modernization Bill For U. S. Air Force

Broad legislation to modernize and streamline the Air Force was introduced in Congress recently. Sponsor of the measure, Rep. Vinson of Georgia, said the House armed service committee, of which he is chairman, will begin hearings this week on the proposal.

Each would be headed by a four-star general. In addition, the secretary of the Air Force would have authority in emergencies to set up new major air commands. He also would have the power to discontinue or consolidate the five major air commands set up by the measure. The Air Force reorganization measure is comparable to that passed by the fast Congress in modernizing the Army Department. It would give statute recognition to many procedures now done under authority of emergency war powers.

Gulf Aids Farmer With Tractor Guide

A new Farm Tractor Guide, with a wealth of valuable ideas for making farm tractors last longer and perform better, has been published by the Gulf Oil Corporation and is ready for free distribution. In addition to the photographs used for illustrative purposes, the Guide also carries complete, easy-to-read diagrams covering every phase of farm tractor lubrication. Included are sections on lubrication and maintenance of engines, crankcases, oil filters, carburetors, fuel pumps, valves, transmissions, air cleaners, etc. Complete sections on the care of the cooling and ignition systems are also included, as well as well-illustrated sections on the care and maintenance of tires, tubes, and batteries. Of particular interest to all owners of farm tractors right at present is a section containing tips on cold weather operations and storage for winter. The new Gulf Farm Tractor Guide may be obtained free of

charge by contacting Larry O. Booth, local distributor of Gulf Oil Products.

Roy Stovall, F. W. Jennings and Rev. T. B. Elder will attend the Presbyterian meeting at the Presbyterian church in Rule on Jan. 16. The meeting is scheduled to begin at 9:30 a. m.

Mrs. C. H. McCully and Mrs. Cal C. Wright were shoppers in Lubbock on Wednesday of this week.

Go to church Sunday

Income Tax Return Estimates Due Jan 15

More than 1,000,000 North Texas income tax payers are receiving greetings from Uncle Sam this week. In the mail are forms for filing the 1950 return due, in most instances, March 15. January 15 will be the deadline for filing amended estimates on the 1950 income. Payment may be made March 15 but taxpayers with complete records may file final returns Jan. 15 in lieu of the amended estimate for that quarter through sale of property. Severe penalties are provided

ject to the withholding tax, and many salaried persons in the upper brackets, must make the quarterly estimates. Also, subject to that provision are persons who made \$100 or more from Sept. 1 to Dec. 31 on which no withholding tax was levied. An example would be a salaried person subject to withholding tax who had made additional income in that quarter through sale of property. Severe penalties are provided

by law for those failing to make the estimates as required. One penalty is for substantial under-estimation of income and the other is for failure to file the estimate and pay the quarterly installments as due.

An improved cottonseed meal has been developed that can be fed to hogs, chickens and other farm animals as well as to cattle.

RECEIVE WEST CALIFORNIA DURING RECENT HOLIDAYS

Mr. A. J. Richey and Howard K. Richey and family spent the Christmas holidays in Richmond, California, visiting in the homes of relatives and friends. Who in your family has a birthday this month?

Make your birthday gift the present with a future!

CANDLES ON the cake this month for someone close to you? One of your youngsters, or a favorite niece or grandchild? Make your gift the one that keeps on growing birthday, after birthday. A United States Savings Bond, the present with a future!

Bond buying is the easiest gift shopping in the world. You can make the purchase conveniently at any bank or post office or at your place of employment. There's a price for every pocketbook—from \$18.75 to \$375. And bonds are always on sale at 25% off (\$18.75 buys a bond worth \$25 at maturity).

Make it a habit to give U. S. Savings Bonds—for birthdays, for Christmas, or for any special occasion.

Put yourself on your gift list, too!

Start now to give yourself the gift of future security. Start saving regularly, safely, systematically, by buying U. S. Savings Bonds in your own name. Use the Weekly Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

Your bond gift grows from birthday to birthday

(For simplicity, the table below shows only bond value increases at two-year intervals. Actually, the cash value of a U. S. Savings Bond increases every year after the first year.)

YOU PAY	BOND IS WORTH				
	3 yrs.	5 yrs.	7 yrs.	9 yrs.	10 yrs.
\$ 18.75	\$ 19.25	\$ 20.25	\$ 21.50	\$ 23.50	\$ 25.00
37.50	38.50	40.50	43.00	47.00	50.00
75.00	77.00	81.00	86.00	94.00	100.00
150.00	154.00	162.00	172.00	188.00	200.00
375.00	385.00	405.00	430.00	470.00	500.00

For your security, and your country's too, SAVE NOW—through regular purchase of U. S. SAVINGS BONDS

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donations, FORTY, CONE & BIRDING, INC.

Bing Rings Bell in Big, Joyous Musical Romance, 'Mr. Music'

There just aren't enough adjectives to describe adequately Bing Crosby's latest Paramount picture, "Mr. Music," which opens Sunday and Monday at the Palace Theatre. If the crooner has been great before, he's positively sensational in this wonderful song, dance and romance packed musical that boasts one of the most talented casts ever assembled for a motion picture.

Nancy Olsen, Charles Coburn and Ruth Hussey match Bing's terrific performance, while guest stars Groucho Marx, Peggy Lee, The Merry Maes and Dorothy Kirsten contribute in spectacular fashion to the film's overflow of entertainment.

Boasting nine new songs by Johnny Burke and James Van

Heusen, and the magnificent dancing of Marge and Grower Champion, "Mr. Music" casts Crosby in a role that's a natural for him. Der Bingle plays a songwriter who spends more of his time on golf courses and in night clubs than at a piano. This routine, of course, leaves him badly in need of funds which he gets from producer Charles Coburn on the condition

he compose a new show. Coburn hires Nancy Olsen to check on Bing's activities and to keep him working instead of gadding about with glamorous Ruth Hussey. The plan proves successful, but a hitch develops when the show is completed—Coburn is unable to find backers for it. But Miss Olsen saves the day when she arranges a special production at her college with an all-star cast of performers.

Packed with hilarious dialogue and situations, "Mr. Music" is one of the most genuinely entertaining movies to come out of Hollywood in a long time. The Crosby-Groucho Marx routine alone is worth the price of admission, to say nothing of the crooner's stints with songstress Peggy Lee, The

Car Maker Boosts Record to 25 Million

A giant cake lettered with the production milestones of the company marked Chevrolet's observance of its twenty-fifth anniversary. Above, T. H. Keating, general manager of the division, watches his top assistants light the candles (l. to r.) E. W. Ivey, administrative assistant to Keating; W. J. Scott, general manufacturing

manager; W. E. Fish, general sales manager, and E. H. Keller, chief engineer. Registering an achievement without precedent in the history of the auto industry, Chevrolet built its 23rd millionth car on January 11, its 24th millionth June 30 and the 25th millionth December 22. The last milestone was reached with new 1951 models.

Navy Develops Wind Tunnel For Study

The Navy has achieved a wind tunnel air flow more than eight times the speed of sound and about three times the velocity of World War II projectiles, according to a recent naval announcement.

The accomplishment, disclosed by Dr. P. P. Wegener of the Naval Ordnance laboratory, is aimed at producing "Essential design information for vastly superior weapons" in the guided missile field.

To further its research in this field, the Navy said it has combined two sciences — aerodynamics and ballistics — into one new study which it calls "aeroballistics."

Wegener's wind tunnel work was discussed at an international gathering last November at the University of Texas defense research laboratory.

The Navy said that 275 top flight scientists from the U. S., Britain, Canada and Australia took part in the symposium.

Concerning the development, the Navy announcement said: "This tremendous speed was obtained by causing air at considerable pressure to flow through a rectangular nozzle, scarcely wider than the thickness of several sheets of paper, into an expanding throat."

The expansion, however, tended

to liquefy the oxygen and nitrogen in the air and Wegener had to preheat the gas to 900 degrees Fahrenheit — above the temperature needed to make steel red hot.

The Navy said it is already moving beyond the eight time the speed of sound mark and is considering construction of a conical nozzle for an airspeed of 10 times the speed of sound.

CLARK MORGANS ARE HOSTS TO RELATIVES

Mr. and Mrs. Clarke Morgan were hosts to several relatives during the Christmas holidays. Guests were Mr. and Mrs. Lem Walden, Mrs. Mollie Walden and Miss Ada Mitchell, of Spur; Ted Walden, Crosbyton; Mr. and Mrs. E. B. Walden, Lubbock; Mr. and Mrs. L. D. Walden and son, Lonnie Dale, Tech; Sgt. and Mrs. Lee Roy Walden, Wichita Falls; Mr. and Mrs. Grady Hunt and daughters, Betty Sue and Carolyn, and Billy, Bob David, Shirley and Sharon Morgan; Mrs. Lela Morgan, and Miss Viola Morgan of Angleton.

Syrup processors have developed a new method of strengthening the natural flavor of maple syrup, says the USDA.

Guild Members Study Stewardship

Wesleyan Service Guild of the First Methodist church met in the home of Mrs. John Webb on Monday evening, with Mrs. James Cowan as co-hostess.

Mrs. Lawis Lee directed the worship program on "Stewardship, Mrs. Carl Murray gave "Stewardship or Personality," and Mrs. Cal C. Wright discussed tithing.

A letter from the Navajo Indian Mission school in Farmington, New Mexico, was read by Mrs. C. O. Fox, thanking the organization for its holiday gift to the school. A pledge and prayer of stewardship were also given.

Cake and coffee were served to Mesas, E. E. Corley, Wilburn Ball, S. W. Flournoy, Cal Wright, Raymond Higginbotham, Jack Rector, Carl Murray, Harry Miller, Lawis Lee, Nina King, J. W. Henry, Andy Hurst, Vivian Gibson, Marion Hurst, C. O. Fox, Raul English, a new member, Mrs. Lamb, and the hostesses.

A covered dish dinner will be served to the members at the next meeting at 7:30 p. m., Jan. 22, in the home of Mrs. Raul English.

Local Car Dealers To Display New Plymouths Saturday

Spectacular engineering advancements which produce driving and riding ease heretofore unknown in automobiles of any price class, feature the new line of Plymouth cars. Combining smart new body lines with matchless interior luxury, the 1951 Plymouth will go on display here and throughout the United States Saturday, January 13, 1951, R. nounced today.

C. James of Jones Motor Co., and Adolph Rickels of Rickels Motor Co. announced today.

Designers have given the Plymouth a striking new silhouette, and interior refinements are innovations in the lowest price field. The styling improvements retain the traditional roominess of the cars.

The new Plymouths may be seen here at Jones Motor Co. and Rickels Motor Co.

Easier to drive and more comfortable, the new cars have greater beauty, more safety features and broader ranges of vision than ever before.

Engineers say the new "Safety-Flow ride" takes the bounce and wallop out of bumps. A new application of hydraulic flow control in the shock absorbers provides a more gradual change of resistance during spring deflections and thus a softer ride when driving on average roads. It also exerts extra resistance on rough roads to a degree where driver and passengers are almost completely freed of the discomfort of being jolted around.

The "Safety-Flow ride" is one of the greatest contributions to driving comfort and safety in recent years, according to D. S. Eddins, president of Plymouth Motor Corp.

"The new Plymouth gives you roadability never before offered in any car," he said. "There is no necessity for steering-wheel fatigue to control the car on difficult roads. The driver is no longer required to focus full attention on the condition of the road. He may be more watchful of oncoming traffic, pedestrians, curves, crossroads and other potential hazards."

OIL PUBLICATION FEATURES SPUR EXPERIMENT STATION

Mesquite control work at the Spur Agricultural Experiment Station is featured in the December issue of the Farm Family, monthly farm and ranch publication of Humble Oil & Refining Company.

The article, titled "Mesquite Menace," tells of the valuable experimental work carried on by the staff at the Spur Station, first under the late Superintendent

Ray Dickson, and now under Superintendent C. E. Fisher.

Several photographs, made in the vicinity of Spur, are used to illustrate the article.

Mrs. J. B. Wright, presently employed at Hill Top cafe, was called to Fort Worth Monday after the tragic death of her brother, Gordon Judkins. Judkins was killed when struck by a car in the street.

Go to church Sunday!

SUNDAY SINGING AT SOLDIER MOUND CHURCH

Several West Texas quartets will be guests at a singing to be held at 2:30 p. m., Sunday, in the Soldier Mound church.

An almost record attendance was set last Sunday at the singing held in the Mission church near Spur. The public is extended a cordial invitation to attend, and to join the singing.

Nelda Hindman And Ronald Tyler Are Wed In Candlelight Service At Methodist Church

Miss Nelda Jo Hindman and Ronald T. Tyler, Jr., were married in a candlelight ceremony at 6 p. m., Dec. 31, in the First Methodist church, Spur. Bro. Cal C. Wright, resident pastor, read the double ring vows as the couple stood near baskets of rose carnations.

Parents of the couple are Mr. and Mrs. Ollie Hindman, Spur, and Mr. and Mrs. R. T. Tyler of Electra.

Rose candles were lighted by ushers Don Hindman, brother of the bride, and Gene Paul Ibell of Paducah. Rose satin ribbon marked the aisle.

Traditional White
Gowned in a white moire tulle dress, simply styled with voluminous gathered skirt which fell to the floor and bodice centered with tiny buttons to the waist from Peter Pan collar and with short puffed sleeves, the bride entered with her father. Long white kid gloves worn by the bride's mother at her wedding, and a single strand of pearls, gift of the groom, were worn.

Her veil of nylon illusion fell from a tiara encrusted with pearls, and borrowed from the matron of honor. She carried a bouquet of white roses.

Attending as matron of honor was Mrs. M. L. Walling of Waxahachie. She chose an aqua tulle

ding trip to Albuquerque, Mrs. Tyler wore a brown suit with brown gloves and hat, and green blouse. Her corsage was of white carnations.

Mr. and Mrs. Tyler are living in Paducah where both are employed.

Out-of-Town guests who attended the wedding were Mr. and Mrs. Don Moore, James Moore, Farris Brock, Mrs. Dorothy B. Moore, Mr. and Mrs. J. C. Hindman, Mr. and Mrs. Ewell G. Hindman, and Claudia, Mr. and Mrs. V. L. Graves, all of Lubbock; Mr. and Mrs. George M. Rick, Jr., Lawton, Okla.; Mr. and Mrs. H. Lawton, Okla.; Mr. and Mrs. H. Lawton, Okla.; Mr. and Mrs. H. Lawton, Okla.

Parents of the couple assisted in receiving guests at a reception which followed the ceremony in the home of the bride's parents.

The bride's table was covered with a white organdy cloth accented with rows of insertion. The bride's bouquet was placed on the table, and rose colored tapers burned in crystal holders. A silver coffee service with other silver appointments and a three-tiered wedding cake completed the arrangements.

Mrs. Graden Bass, sister of the bride, served coffee, and Mrs. Roy A. Tyler, sister-in-law of the groom, of Fort Worth served wedding cake to guests.

Twentieth Century Records History At Recent Meeting

The Twentieth Century Study Club met in the home of Mrs. George S. Link on Jan. 2.

During a business session officers for a new year were elected, and facts of history were recorded on a wire recorder, under the supervision of George Link, Jr.

Each club member contributed to the historical record, using as subjects hobbies, accomplishments and individual interests. A review of newspaper headlines of the past year associated the program with world history. Each subject discussed demonstrated the value and cultural benefit of the club's Federated programs.

Among the topics discussed were "Flowers, my Hobby," "My Neighbors," "I Came to Spur a Stranger," "Why I am Busy," "My Family in Europe," "Our Guest of the Year, Miss Amelia Anthony," "Art in Public Schools," "Our County Library," "My New Neighbor," "My Life in the Country," "Current Events," "My Granddaughter," "What's New in the City," "Next Year's Programs," "Our Members Thirty Years Ago," and "Keeping You on Your toes."

Mrs. O. C. Arthur, president of the club, presented a summary of the past year's work, and Mrs. O. M. McGinty, district officer, reviewed the District program of Federated clubs in Texas.

New officers elected were Mrs. O. C. Arthur, reelected president; Mrs. O. L. Kelley, first vice-president; Mrs. Cliff Bird, second vice-president; Mrs. Henry Gruben, corresponding secretary; Mrs. A. M. Walker, treasurer; Mrs. Eric Foster, reporter, and Mrs. O. M. McGinty, delegate to City Federation.

Attending were Mmes. O. C. Arthur, T. H. Blackwell, Cliff Bird, E. L. Caraway, F. B. Crockett, Eric Foster, Henry Gruben, O. L. Kelley, E. S. Lee, F. A. Mannley, O. M. McGinty, Fannie McNeill, L. D. Ratliff, A. M. Walker, George Link, B. F. Hale and Miss Margaret Elliott.

Mr. and Mrs. S. T. Battles, who celebrated their Golden Wedding anniversary on Dec. 9, 1950, received a congratulatory letter this week from George Mahon, U. S. congressman from Texas' 19th district.

Mahon's letter read in part, "There are few really special oc-

casions in a lifetime, but one of the events that can be truthfully called "special" is the celebration of one's Golden Wedding anniversary. I congratulate you, and send every good wish for your health and happiness."

Mr. and Mrs. Battles were married Dec. 9, 1900 in Tyler. They marked the fiftieth celebration with an open house at their home in Spur.

Mrs. Boothe Elected 1933 Club President At Tuesday Meeting

Officers for the club year beginning in September, 1951, were elected at the meeting of the 1933 Study Club Tuesday afternoon. The club met at the home of Mrs. C. H. McCully, 617 N. Willard.

Mrs. W. F. Patrick presided for the business session. Names presented by the nominating committee for new officers and elected by the club were Mrs. Larry O. Boothe, president; Mrs. C. P. Scudder, first vice-president; Mrs. Leon Huff, second vice-president; Mrs. Coy McMahan, recording secretary; Mrs. Walter Carlisle, librarian; Mrs. Everett McArthur, treasurer; Mrs. C. F. Cook, corresponding secretary; Mrs. Grady

Lackey, reporter; and Mrs. Patrick, delegate to the City Federation.

The program for the afternoon, "Poetry, Woman's Musical Language" was led by Mrs. Lackey. Mrs. McArthur gave a sketch of Isabella Barrett Browning's life and read "How Do I Love Thee" from her "Sonnets from the Portuguese." Mrs. Geo. Gabriel sang Joyce Kilmer's well-known poem "Trees" that has been set to music. Concluding the program, Mrs. Scudder gave a sketch of the life of Emily Dickinson and read two of her poems, "Mystery" and "Because I Could Not Stop for Death."

Chicken salad, frosted cake squares and coffee were served to members by the hostesses, Mmes. McCully and McMahan.

Attending were Mmes. Cal Wright, R. L. Walker, J. C. Payne, Boothe, Carlisle, E. E. Caudle, Cook, Gabriel, Lackey, McArthur, McCully, Patrick, Scudder, and McMahan.

The next meeting will be January 23 at the home of Mrs. C. F. Cook.

Proctor's

Watch for investigation of tin plate situation, especially if the recent order curtailing tin usage results in small canners and packers having difficulty in getting tin cans.

Among other questions will be this one: "Why, when the tin reduction rule was announced, did ECA Bulletin #1927 announce almost concurrently that through the March-11 Plan, 125,000 words of tin plate were to be cut in 1951?" This equals an entire year's supply for 15 to 20 medium small fruit and vegetable canners.

During World War II many small food packers had markets to big corporations because they could not obtain sugar.

Yet, with the nation presumably on the verge of a global war once again, Agriculture Secretary Brannan reduces the amount of sugar that can be marketed in the nation during 1951 to 8 million tons, or 700,000 tons less than used in 1950.

There is no shortage of sugar. The ruling was made to stabilize prices, the Secretary says.

Somehow, we had to get it for sugar in 1951 will continue to

schools, newspapers and magazines, which emphasize the desirability of hospitalization for maternity cases.

Answer to Question No. 2: 2. In recent years the proportion of rural babies born in hospitals has increased more rapidly than the proportion of city babies. A good part of the increase is because of the spread of health information through

schools, newspapers and magazines, which emphasize the desirability of hospitalization for maternity cases.

Answer to Question No. 3: 3. Gout is caused by a lack of iodine, which is required for normal functioning of the thyroid gland. In areas where the soil and water lack iodine, gout is most prevalent, not only among humans but among dogs, cats and fish. The addition of iodized salt to the diet in these areas is one means of correction. Not all forms are so serious as to need surgery. Consult your doctor.

(Copyright 1950 by Health Information Foundation)

SMALL BUSINESS

pay 12c or more. If total war comes the Sugar Trust will once again determine who will stay in business. The upholding of monopoly by bureaucracy will get close scrutiny in Congress.

Alcohol befuddles many, but in high officialdom alcohol seems to be especially befuddle. That's the substance of a Senate preparedness committee report on the annual deal whereby Schenley scored a government industrial alcohol plant in Kansas City valued at \$2,500,000 for \$700,000.

A month after Korea, the Government Surplus Administration opened bids for the plant. Schenley won with an offer of \$701,000. Three days later Sen. Johnson, Chairman of the Committee, and Jess Larson, GSA head, counter-ordered. Three days later a "freeze order" was issued. But on the same day, August 17th, GSA wired Schenley acceptance, who took possession of the plant on August 22nd. No one knows yet how it happened.

But this is known: The synthetic rubber program needs 125 to 150 million gallons of alcohol.

On the first request, Office of Rubber Reserve did not receive a gallon from the plant. For the last two months of 1950, 18,000,000 gallons were requested. Prices ranged from 53c to \$1.25 per gallon. So the government bought French alcohol at a price of 49c per gallon. Sen. Johnson will undoubtedly carry this probe further. Watch for developments.

GOOD HEALTH

Answer to Question No. 1:
1. Yes, especially if they are good students. As a group college graduates are considered unusually good insurance risks. A recent study showed that college graduates (both athletes and non-athletes) whose scholastic achievements brought them honors lived longer than did other students.

Answer to Question No. 2:
2. In recent years the proportion of rural babies born in hospitals has increased more rapidly than the proportion of city babies. A good part of the increase is because of the spread of health information through

schools, newspapers and magazines, which emphasize the desirability of hospitalization for maternity cases.

Answer to Question No. 3:
3. Gout is caused by a lack of iodine, which is required for normal functioning of the thyroid gland. Revised Schooling Takes Less Money

One-half cent less of each state tax dollar went to support Texas public-schools last year than in 1939-40 despite the tremendous strides made in the school system since the Gilmer-Aikin laws went into effect.

"Not only has Texas climbed from very low on the national ladder to near the top in public school education in the first year under the Gilmer-Aikin program, but the state accomplished what amounted to a near-revolution in education without taking a bigger bite out of each tax dollar," Dr. Mortimer Brown, president of the Texas State Teachers Association, pointed out recently.

"In 1939-40 the public school support totaled \$0.31 cents of each state dollar expended. During the last school year the school's share of that dollar was 29.67, or exactly 54 of a cent less.

"At the same time, enrollment greatly increased, the number of teachers employed went much higher and the average daily attendance skyrocketed.

"The average daily attendance jumped in one year 35,709 under the new school program. Too, it is pertinent to point out that every child in Texas is guaranteed the opportunity of having 175 days of actual instruction per year.

There are now 49,628 classroom teachers in Texas schools, Dr. Brown pointed out. That is 4,225 more than in 1939-40. That makes for better education of our children," Dr. Brown commented.

"Classes are now smaller, allowing for more individual instruction. Too, there were only 156 supervisors, counselors and special services personnel, such as nurses, available in 1939-40. Now there are 2,181.

Charles T. Tenneyson, executive secretary of the Teachers Association, commented that until the Gilmer-Aikin program gave Texas a position near the top in the national education field, a proportionate share of the state dollar was not going to the schools.

"We are delighted to find that the vastly-improved school system, and I believe everyone will agree that our schools are far superior to those of such a short time ago as 1940-41, is taking less of the state dollar," he said.

The total cost of state government during the 1940-41 fiscal year was \$527,252,453. Of that amount, \$156,430,550 went to the vast network of schools. A total of \$145,350,088 was used by the per capita apportionment, the supplementing foundation program and for administration, Tenneyson reported.

Textbook costs and distribution accounted for \$2,410,723. The lunch program cost \$3,758,361. The State Commission for the blind used \$117,006. Vocational education cost \$3,794,401, of which \$2,018,657 was federal funds, Tenneyson said.

Young Evangelist Is Convention Speaker

Billy Graham, dynamic young evangelist known for preaching to huge crowds from coast to coast, has added Dallas to the list of Texas cities where he will speak early in 1951.

Graham spoke January 9, before the annual statewide Baptist Evangelistic Conference. The conference met from January 8, to Wednesday noon in Dallas' First Baptist Church.

More than 5,000 pastors and laymen from all over the state were present to hear Graham and 30 other denominational speakers. The purpose of the conference is to explain the need and methods for winning 250,000 new Christians in 1951.

Two hundred and 3 counties

Polio Sets Record in 1950 Incidence

Polio wound up 1950 by setting a grim new record in polio incidence—2778 cases for the year.

Never before in state history have so many cases been reported during a 12-month period. Eight cases occurred during the last week in December.

That in itself is significant, for not a single week passed that didn't see at least one case of the so-called hot weather disease being diagnosed in some part of the State.

The total 1949 incidence of the dread disease reached 2355 cases, establishing a record up to that time. But there were 43 weeks in 1949 instead of the normal 52, and that figure includes cases occurring all 53 weeks.

Two hundred and 3 counties

Texas Draft Quotas Raised For March

Induction of 4,145 men for March was received by state Selective Service headquarters on Jan. 2, Brigadier General Paul L. Wakefield, director of Selective Service for Texas, announced.

The call, Texas part of a national quota of 80,000, compares with a state quota of 4,137 for February and 4,142 for January. The March call brings the number of men called for since the beginning of the conflict in Korea to 22,912.

Calls by month have been as follows: September, 2,513; October, 2,514; November, 3,453; December, 2,008; January, 4,142.

Life of Action

Lesson for January 14, 1951

SCRIPTURE: MARK 1:21-28. DEVOTIONAL READING: Psalms 145:19-21.

THEY say that in four regions of the United States there are four different questions which are asked of newcomers. In the New England states they ask a stranger "How much do you know?" In the wealthy northern states they ask, "How much have you got?" In the South where pedigrees are so much treasured, they Dr. Foreman ask, "Who is your grandfather?" But out in the wide-open west they have only one question: "What can you do?"

Action in Religion

It is a fair question. If the answer is "Nothing," then it does not make any difference at all what a man can answer to the other three questions.

To be sure, they look at this differently in the Orient. According to the ancient philosophy of the East, it is only the inferior man who rushes around doing things. The superior man sits and thinks. The West's admiration for action, and the Orient's admiration for contemplation, enter into religion itself. The typical Oriental "saint" may be a man who never turned his hand to a piece of work in all his life. The typical western "saint" is likely to be a very busy and active sort of person.

It is all the more interesting that Jesus combined both the western and the eastern ideas of religion. He was a man of prayer and meditation, yet a man of strenuous life too.

General Wakefield expressed confidence that "Texas will be able to fill the March quota. So far we haven't failed the country," he said.

Sudan grass seed production in the nation in 1950 is reported to be far short of anticipated needs. But in Reeves county, it is estimated that farmers harvested 700,000 pounds during the last season.

Since the Universe is always in motion, astronomers sometimes have to track heavenly bodies for hours to get their image firmly fixed on a photographic plate.

Calls are made by the Secretary of Defense on the director of Selective Service in Washington, who allots quotas to the states on the basis of federal draft law regulations, giving credits for enlistments of men from the states. The state draft directors under these same regulations assign quotas to their respective local boards.

Words of Power

WHILE Mark almost never tells us what Jesus taught, he does tell us that Jesus was a teacher. In describing the synagogue-service in Capernaum Mark tells us the people were astonished, and even two demon-ridden men were struck down with terror.

What Jesus said that astonished the people and alarmed the demons we do not know. Possibly Peter, who was there, may have been too busy watching people's faces to hear what Jesus was saying. However that may be, Jesus is here introduced to us not only as a door but as a thinker and teacher.

Life is not all action; it is also thought. Jesus' acts were full of power; so and not less so were his ideas, words, teachings. Look at the rest of us again: We may be full of talk, but how much power is there in our ideas?

Straightway

ONE word is found many times in Mark's stories of Jesus: "Straightway"—that is, immediately. It is not just Mark's style. It is his way of bringing out something important about Jesus' life and habits.

There were no blank spaces, no pages unwritten, no empty gaps, no waiting-around, in Jesus' life. In his life one activity followed on the heels of another. He had no time to waste, and he wasted none.

Let the honest reader try to make a realistic budget of his time. At the beginning of a week let him draw up a kind of chart showing how he expects to spend his 16 waking hours each day,—so much for work, recreation, study and so forth. Then at the end of the week let him ask himself: Where did my time go? He will often have to admit that he did not really live the whole day, any day,—only parts of it. Living as a Christian means living one's full time, living one of these 16 hours a day.

There's a  in Your Future!

Built in Texas... and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford... and in the process Ford is helping to build Texas, too!

WHEN YOU BUY FOR THE FUTURE—BUY FORD

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

Governor Sanctions Polio Campaign

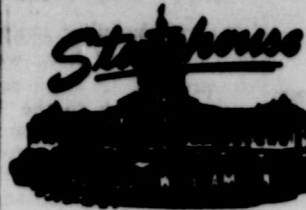

Governor Allan Shivers emphasized the impact of polio on the family, community, state and nation in officially designating the period from January 15 through January 31 for the 1951 Texas March of Dimes.

The Chief Executive elited the exhaustion of National Foundation for Infantile Paralysis funds by the record 100,000 cases the last three years. He stressed the state polio fund deficit in caring for almost 2,800 new cases in 1950 alone.

"For three consecutive years," said Governor Shivers' proclamation, "Texas children and adults have been heavily attacked by the virus of poliomyelitis. The record shows that 423 more polio patients were reported in Texas during 1950 than in 1949, with 2,778 cases in 1950.

"Every penny raised in Texas during the last three March of Dimes campaigns has been spent for patient care of Texas patients and supplemented with \$377,000 sent into Texas from other states by the National Foundation for Infantile Paralysis.

"Not only was the last year the second worst polio year in the nation's history, but the cost of providing treatment for these

By Hugh Williamson

Austin, Tex., Jan. 10—Your state's capitol city will be an exciting and colorful place for a while. With the Legislature's session beginning January 9, the town will be packed with people.

There are only 181 members of the Legislature—50 in the House of Representatives and 31 in the Senate. But there are hundreds of others who come here when the lawmakers convene.

Each legislator has his secretary. There are dozens of typists and clerks. Many of the solons will bring their wives and children for the duration of the session. And then there is what's called the "lobby."

The lobby is divided up into many classes. A lobbyist may be one man who comes to Austin to see his representative and senator about a bill affecting a single county.

There are frequent delegations of varying numbers of citizens, interested in this law or that.

And there is the more or less permanent "third house" as the lobby is sometimes called. This is composed of persons who either live in Austin, or who come here to stay through every session. These are people who perennially represent one or more interests, such as oil, public utilities, farm and ranch groups, and so on. The list is long.

Dozens of bills, or proposed laws, will be introduced, but there

patients continues upward along with the tremendous costs of caring for patients of previous years. Funds of the National Foundation for Infantile Paralysis must be replenished in the 1951 March of Dimes.

"Therefore, as Governor of Texas I hereby designate the period January 15 to 31 for the 1951 March of Dimes in Texas, and urge every citizen to contribute as he is able to the success of this worthy campaign."

are three major subjects to which the Legislature must give considerable attention. These are:

1. Re-districting. The state, according to the Constitution, must be divided up every ten years into districts from which senators and representatives are elected. The reason for these ten-year changes is that the population shifts, and the various parts of the state should be equally represented, according to the number of their inhabitants.

2. Financing. The cost of government keeps going up because the people keep demanding more services—mainly in the field of welfare programs, such as old age assistance, highways and roads, and education. All this costs millions. The question always is: Where is the money coming from?

3. A fight between the trucks and the railroads. The railroads claim that big trucks damage the highways. Thus it may be that the railroads will call for a reduction in the truck gross load limit of 48,000 pounds. The truck men point out that Texas now has an axle-load limit of 15,000 pounds, and that according to highway engineers, this weight does not damage the roads. The truck people want truck length increased from 45 to 50 feet, and they want the 48,000 pound gross load limit removed. Gross load will be determined by the 18,000 pound-per-axle regulation.

As one editorial writer has said, the factor that should and doubtless will decide the truck-rail fight is the public interest.

At any rate, these are some of the things that will make news in the Legislature during the next few months.

Plans have been announced for early start on construction of a \$2,000,000 plant near Liberal, Kansas, that will convert wheat into alcohol, and produce by-products of cattle feed, gluten and other grain by-products.

CROSBY'S NEWEST HIT

BING CROSBY and NANCY OLSON make sweet music together in this scene from Paramount's "MR. MUSIC."

Elementary Teachers Tailoring Courses In Texas Are Scarce Aid Sewing Ability

Texas colleges are producing five times as many high school teachers as are needed and only one-sixth of the elementary teachers needed, the states legislative research expert said recently.

Research by the Texas Legislative council indicates that the demand for elementary teachers is five times as great as for high school instructors, John D. Mosley told delegates to the mid-winter education conference. Mosley is executive director of the council.

Waurine Walker, former Waco public school teacher now with the Texas Education agency, presented a five-point program for raising the professional ability of teachers.

She recommended definite standards for admission and careful selection of education students by colleges, better teacher education programs in colleges, improved and expanded programs of in-service education for teachers, higher teacher certification standards, and higher standards for colleges preparing teachers.

Miss Walker is assistant director of professional standards for the education agency.

Hybrid Onions Are In Commercial Field

Hybrid onions are moving into the commercial field, according to a report by Dr. Henry A. Jones, Agriculture department plant breeder.

It is expected to "take years" before good hybrid onions are available to all farming districts, however. Federal agriculture workers have been working on the development and distribution of hybrid onions for about 25 years.

Experimenters decided the most rapid progress would be made and the best hybrid seed produced at reasonable prices if the seed industry were on a competitive basis.

In 1944, after the department and the California experiment station had developed the first hybrid small quantities of seed and bulbs were released to seedsmen and various state experiment stations.

Jones says that this distribution led to the development of a number of hybrids that now are appearing from commercial sources.

He adds, "Some of them look very good, and seed of a number of them is listed in the 1951 catalog."

Jones says that as new improved onion breeding lines are developed by the government, they are distributed to seedsmen in lots of a few hundred seeds to speed development of more hybrids adapted to various areas and conditions.

Many Tools Underway
An indication of the extent of hybrid onion research is that in 1950 there were test plots in California, Connecticut, Colorado, Idaho, Illinois, Indiana, Iowa, Louisiana, Massachusetts, Michigan, Minnesota, New York, Ohio, Oregon, Texas, Utah and Wisconsin.

Jones emphasizes that successful hybrid onions do not always give greater yields than ordinary varieties.

A hybrid that matures a month ahead of a standard variety cannot be expected, Jones points out, to give as high a yield, but there are other advantages.

He says that in some districts attempts are made to develop adapted hybrids that mature early and avoid loss by blast, and disease that often reduce yields. In a "blast" year such a hybrid would be of great advantage.

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

NEW! AMERICAN BEAUTY DESIGN
Brilliant new styling... featuring curvilinear new grille, parking lights, fender rest-and-design... imparting that longer, lower, wider big-car look which sets Chevrolet above and apart from all other motor cars in its field.

NEW! AMERICA-PREFERRED BODIES BY FISHER—With new and even more strikingly beautiful lines, contours and colors... with extra sturdy Fisher Unisteel construction... Curved Windshield and Panoramic Visibility... the smartest, safest, most comfortable edition of Chevrolet's America-Preferred Bodies by Fisher.

NEW! MODERN-MODE INTERIORS—With upholstery and appointments of outstanding quality, in beautiful two-tone color harmonies... with an even more attractive steering wheel embodying a new full-circle horn ring (in De Luxe models)... and with extra generous head, leg and elbow room for driver and all passengers.

NEW! MORE POWERFUL JUMBO-DRUM BRAKES (with Duralife rivetless brake linings)—Largest brakes in the entire low-price field... extra-wide, extra-smooth, extra-durable... with both brake shoes on each wheel self-energizing for forward and reverse operation of car... providing maximum stopping-power with up to 25% less driver effort.

NEW! SAFETY-SIGHT INSTRUMENT PANEL—Safer, more convenient, more efficient... having an overhanging upper crown to eliminate reflections in windshield from instrument lights, and lower edge of panel recessed to provide a safe, convenient location for control knobs... with plain, easy-to-read instruments in two large clusters directly in front of driver.

NEW! IMPROVED CENTER-POINT STEERING (and Center-Point Design)—Making steering even easier at low speeds and while parking... just as Chevrolet's famous Unitized Knee-Action Gliding Ride is comfortable beyond comparison in its price range... additional reasons why more people buy Chevrolets than any other car.

Here's America's largest and finest low-priced car—the newest of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain.

New with that longer, lower, wider big-car look! New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after feature!

Moreover, it's thoroughly proved in all things, from the finer no-shaft driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

Come in—see and drive America's largest and finest low-priced car—Chevrolet for '51—the only car that brings you so many big-car advantages at such low cost!

PLUS TIME-PROVED POWER Glide

AUTOMATIC TRANSMISSION—proved by more than a billion miles of performance in the hands of hundreds of thousands of owners.

*Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Triplet Bear Cubs Born At Baylor
WACO, Texas, Jan. 11.—Baylor University's bear mascot population had increased by one (net) at last count today.
Triplet cubs were born Sunday to Josephine, the most prolific of Baylor's two female bears. Their cannibalistic father and big brother grabbed one each for an unscheduled luncheon before help arrived.
The third reported doing nicely, with the exception of two missing toes—indicating that rescuers Tommy Lochridge of Houston and Ben Ferrell of Tyler got there just in time to prevent total annihilation.
The event was a surprise repeat performance of annual-January tragedies which started in 1949. Josephine delivered twins in January of that year, but Joe, the father, devoured both. Chita delivered her firstborn in January 1950, and it met the same fate.
Barney and Bailey, the celebrated twin cubs born to Josephine in January 1950, were saved simply because alert keepers had placed the expectant mother in a solitary maternity pen.
It was Chita who had been given the privilege of the solitary pen this year in anticipation of her again becoming a mother. Josephine, who had shown no signs of pregnancy this year, was with Joe and her two male offspring of a year ago when her 1951 tragedy occurred.
Joe and Bailey were credited with the most recent deaths.
Josephine and her lone surviving baby are now in the maternity ward. Chita has been moved to one of the men's dormitories until better accommodations can be provided for her expected delivery.
And meanwhile, Baylor administration personnel is becoming worried about additional mouths to feed.

WELL DONE, SAYS SECRETARY SNYDER
Pittsburgh, Pa.—Workers of Carnegie-Illinois, one of the country's great steel producers, are congratulated by Secretary of the Treasury John W. Snyder (third from left), and Clifford F. Wood, the corporation's president (extreme right), for successful payroll savings campaign during which 50,000 more employees signed up to buy savings bonds regularly. Appeal was based on the theme: "Save for your independence, national and personal." Glen Saunders (at extreme left) is shown shaking hands with Secretary Snyder while a fellow worker, Andrew Danachak, looks on.

MILLS NEED MORE—“One of the main economic problems of the Southeast is to grow enough cotton to keep the textile industry here. We must produce more cotton to keep the textile industry in the South.”—John A. Sibley, Board Chairman, Trust Company of Georgia.

PLAN AHEAD—“Whether there is peace or war, rain or drought, bad times or good, the farmer who plans ahead realizes the most from his efforts. Fit cotton into a balanced farm program and follow the seven steps to higher profits.”—North Carolina Cotton Growers Cooperative Assn.

Read the Want Ads
ONLY ONE WAY—“From now until the 1951 crop is in the bag, the one big thing that is likely to determine the size of the crop is now well we fight insects. The only way to kill a cotton bug is to kill him, and it takes poison on the plant to do it.”—“The Progressive Farmer.”
