## Fireboys Sponsor Wagonmasters In Spur Friday Night

The Spur Volunteer Fire Department will present the Wagonmasters from station KWPT, Wichita Falls, in a program of song and laughter at the East Ward Auditorium tomorrow night, Friday, March 23, at 7:30 p. m.

With Dusty Rivers as master of ceremonies and Speedy Ross as vocalists, the Wagonmasters are said to be made up of stars of stage, screen and television. Speedy Ross is said to have the "finest voice in radio."

## Local Delegation Attends Scout Meet

Scouters of the Haynes District met Thursday, March 15, at 8:00 p. m. at the Smith House in Crosbyton. Twenty-five men from Ralls, Petersburg, Lorenzo, Floydada, Spur, Crosbyton and Hale Center attended the meeting.

The Smith House served the evening meal before the meeting. O. H. Kemp, vice-chairman from Lorenzo took the place of District Chairman Earl Tinnin from Ralls. Invocation was asked by Paul Marion of Spur.

After the meal Kemp suggested that each man stand, introduce himself, tell where he was from and state his job in Scouting.

The report of the Organization and Extension Committee was given by Charles E. Weadt, in the absence of A. W. Lott, O. & E. chairman. He stated that plans were underway to organize about five new units of the Boy Scout program, which included Cub Packs, Boy Scout Troops and Explorer Posts.

John Thomas of Ralls, chairman of the Finance Committee, reported the effect of the last finance drives. The finance drives for next year were discussed and outlined.

Chairman of the Camping and Activities committee, Al Cooper, of Ralls, received a vote of confidence for the setting of April 20th and 21st as the dates for the District Camporee. Terry Edwards, scoutmaster of Crosbyton and Cooper made plans to secure permission to have the camp in the neighborhood of Crosbyton. Discussion of the summer camping and activities followed with emphasis on Philmont, Reese Air Force Base, Operation Brazos and Camp Post.

## County Red Cross Drive Enters Second Week With \$1318.53 Reported Given

### NEW C. OF C. MANAGER TO BE EMPLOYED SOON

J. D. McCain, president of the Spur Chamber of Commerce, states that a manager-secretary to succeed L. M. Huff will be employed by the board of directors in the very near future. The selection committee has interviewed several applicants for the job recently.

## Methodist Revival Opens Easter Sunday

The annual Easter Revival will begin at the Spur First Methodist church on March 25 and continue through Sunday, April 1, states Rev. Cal C. Wright, pastor.

REV. CHARLES FIKE

Two services will be held daily at 7:30 a. m. and 7:30 p. m. during the week days.

Rev. Charles Fike, pastor of St. John's Methodist church Stamford, will be guest speaker, and Jackson East will act as song director. Available at the organ and piano will be Misses Margaret and Beverly Wood and Myra Ratliff, and Mrs. W. F. Gilbert and Mrs. J. W. Henry.

Rev. Fike is a sound, forceful and spiritual preacher. Also, he is very effective as a personal worker, soloist, active in duet or quartet work and directs congregational singing.

## McAdoo Club Will Sponsor Fun Night

A fun night will be held in the McAdoo gym on April 6 under the sponsorship of the McAdoo Home Demonstration club, it was announced this week.

Games will begin at 8 p. m., and will include 42, canasta, bingo and other favorites.

A quilt made by the club members will be given to the winning person. The coverlet will be on display this week in Spur.

The public is extended a cordial invitation to attend.

## Brashear Home Is Damaged By Fire

A loss amounting to approximately \$500 was estimated in a fire which damaged the kitchen of the E. A. Brashear residence at 121 East Hill Street early Monday morning.

The greatest damage was reported to be from smoke, stated Norton Barrett, fire chief. No definite ideas were expressed as to the cause of the fire.

## License Plates Will Be Issued In Spur

A county official will be in the Justice of Peace office in Spur to register vehicles for 1951 license plates on Friday and Saturday of this week, according to C. C. Kimmel, sheriff.

The Dickens county Red Cross drive passed the half way mark toward its goal of \$2500 this week with a total of \$1318.53 already in, states funds chairman A. J. Harvey.

This amount has been collected in the city of Spur since last Thursday morning and at present no report has been received from other county towns and communities.

County chairman George S. Link, Jr. states that although the city is within \$200 of its \$1500 goal, the drive will be extended extensively through March 31. Link and Harvey urge everyone who has not yet given to the Red Cross to do so this week not only to reach a goal but to prepare our county chapter to meet the expensive needs of Red Cross.

Local ladies' clubs aided in the drive last Saturday with booths set up over town. A total of \$239.00 was collected in this manner. Plans are now being made for local girls' scouts to make a door-to-door canvass of the city to give everyone an opportunity to give.

In its service to needy civilians, veterans and service men, the local and national Red Cross is striving for its highest goal since the war. The national goal is \$85,000,000.

## Abilene Evangelist To Conduct Revival At Church of Christ

The annual spring Gospel meeting of the Spur church of Christ is scheduled to begin at 10:50 a. m., Sunday, March 25.

YATER TANT

GEORGE HALFORD

Fanning Yater Tant of Abilene, who preached in the spring revival for the local church last year, is to be presented this year in a return engagement as the principal speaker. He will arrive for the Monday night service and continue through the meeting ending on April 4. Services are scheduled twice daily, 10:00 a. m. and 7:45 p. m.

Evangelist Tant is well known in the ranks of the churches of Christ as an outstanding speaker and writer. He has served as lecturer at Abilene Christian College and Florida Christian College, and is at the present time editor of the "Gospel Guardian," a publication of national scope.

In addition to the message of Tant, the meeting will feature congregational a cappella singing under the direction of Gerald Halford of Abilene Christian College. Halford is a senior at Abilene and is a member of the College a cappella chorus. He will arrive on Sunday morning.

Both Sunday messages will be delivered by the resident minister, Willis G. Jernigan, while the Monday morning sermon will be delivered by Harvey Pearson, minister of the church of Christ, Dickens.

JOIN THE RED CROSS!

## Easter Bestows Its Blessings and Beauty

### "He Is Not Here, He Is Risen"

Luke 24:6

Sunday is Easter. All in all it will be a beautiful day, for there is no time when the soul is so uplifted, and the soul of nature so expansive as at Easter time. It is a day of bright colors and new clothes and tight shoes. It is a time when the flowers smell the sweetest, birds sing the lustiest and all nature parades before us in all her finery. But it is more than that.

It is the crown of the Christian's year. It is Christianity's holiest ground. For it is the climax of Christian faith. It commemorates the final day of a week that began some nineteen hundred and eighteen years ago with treachery that was marked by falseness and brutality. It was a week that was highlighted by the crucifixion, but one that ended with the resurrection. The Son of Man was nailed upon the cross by sin and stupidity. And when the day was done, He was taken down from the cross and laid in a borrowed tomb of Joseph's private garden at Calvary. Watched by weeping women, they closed the doors of the tomb, and a Roman officer came with the governor's seal and affixed it on the tomb's door. Death was the penalty to anyone who would break the seal or take away the dead.

A new dawn breaks in all of its glory, and as light comes to Joseph's garden, women find an open and empty tomb. There at the door of the tomb, was an angel of the Lord who uttered the words:

"He is not here, for He is risen." So we behold our Lord's epitaph not written in gold or stone, or carved upon some tomb: "Here lies Jesus of Nazareth." Rather it says: "He is NOT here, He is risen."

It has been and is the imperishable faith of the Christian Church throughout the Christian era, that our Lord, having triumphed over death, has become the forerunner and pattern for us all. That as He died so shall we. We have a rendezvous with death. But as He LIVED again, so shall we, who in that day shall be found worthy to live again.

Life is not defeat. Death is not defeat. The only defeat is when a man or a woman settles down and becomes satisfied with a low-grade, shabby way of thinking and living, so that death holds for him or her no new adventure. He triumphed over life. No tomb can hold Him. Bury Him and on the third day He will rise again.

"He is NOT here, He is risen." Our men who are so gallantly fighting in Korea for something that is deeper than a thought or gesture will, where it is possible, attend an Easter service. Some cannot and some may not care to, as it is here. Regardless of what church you prefer to attend, the doors will be opened to you. TO YOU who cannot attend, this brief message comes that in this world, the Resurrection Hope may be yours.  
Rev. T. R. Elder.

## Meeting Called To Organize Softball League Tues. Night

Plans are now underway in Spur to formulate the City Softball League for 1951. Players, managers and sponsors of last year's team have called a meeting for 7:30 p. m. Tuesday, March 27 to organize.

The meeting will be held in the Lions club hall over the bank. The six-team league last year—the first in several years—met with good success and large crowds for the entire season. The loosely organized group played a double round robin with Proctor's and the Farmall House meeting in the playoff.

Plans are this year to create a closer organization within the league to insure promptness in starting games, proper use of league equipment and grounds, and other matters which will arise during the playing of the schedule.

All players, managers and sponsors are urged to attend this meeting. Newcomers to the city and men who didn't get to play last year and would like to play this year are also invited.

## COWBOY IS SCRATCHED IN FALL WHICH KILLED HORSE

Does he feel lucky? While riding herd on the Matador Ranch last Wednesday 17-year-old Tommy Hemphill was pitched from his horse off a 40-foot bluff. The horse was killed while Tommy received only a few scratches and a good shaking-up.

He is a son of Mr. and Mrs. J. H. Hemphill of the Highway community near Spur who are mighty glad of his miraculous escape.

## Baptists To Stress Enlargement During Study Course Week

The First Baptist Church will hold an Enlargement Campaign from March 26 through 30, states J. Malcolm Edwards, educational director.

During the evening sessions study course books for all ages will be taught. The elementary children will be led by Mrs. Tang Smith in the study of Bible Stories.

Mrs. C. Melvin Rathel will teach the Junior book "Jesus Saves." Edwards will teach "Intermediate Fishers" to the Intermediates. The young people and adults

will be led by Mrs. C. P. Scudder in the study of "Building a Standard Sunday School."

Edwards will be in charge of the assembly programs each night. Meeting time is from 7:30 until 9:15 each evening.

## LOCAL GIRL TAKES POSITION WITH SHELL IN MIDLAND

Miss Patsy Turpen has moved to Midland to take a job with the Shell Oil company.

A Spur high school and Mill's University graduate, Miss Turpen has called Spur her home all her life. She was formerly employed by the State Department of Public Welfare and worked in the local Welfare office. She had held

## Members, Guests Attend Annual C. of C. Banquet; Rev. Leon Hill is Main Speaker

Approximately 155 members and guests attended the annual Membership Banquet of the Spur Chamber of Commerce Monday night in the high school gym.

Marking the end of the first year since re-organization, the chamber reported to its members forty projects accomplished or initiated.

### GOLFERS TO MEET TONIGHT FOR RE-ORGANIZATION

Frank Graham, last year's president of the Spur Golf Club has called a meeting of Spur golfers for tonight, Thursday, March 22, to elect new officers and to make plans for the coming golfing season.

The meeting will be held in the directors' room of the bank. All of last year's members and others who enjoyed playing golf are urged by Graham to attend.

## Marvin Carlisle Dies In Fall From Horse

Marvin Rex Carlisle, 11-year-old son of Mr. and Mrs. Rex Carlisle, was killed about 12 noon Saturday, March 17, when he fell from the horse he was riding after an attempt to ride beneath a clothesline in the Carlisle yard.

The boy was rushed to Nichols hospital where he was pronounced dead.

Funeral services were held at 3 p. m., Sunday, in the First Baptist church, with Rev. C. M. Rathel officiating.

The youth was born June 5, 1940, in Spur, and had lived here always. He joined the Baptist church this year.

Pall bearers were Guy Karr, Leon Reagan, A. V. Hoover, Marlon Jordan, Bruce Browning and Joe B. Long.

Survivors include the parents, Mr. and Mrs. Rex Carlisle, and four sisters, Maroi, Marian, Janie and Nan L.

## School Census Will Close Here April 1

"It is necessary that we have the help of every parent friend and neighbor within the next week in order to complete our school census by April 1," states C. F. Cook, school superintendent.

Children who are six years old and who did not attend school last year must be counted, he said. Census taking in Dickens county opened March 1, with school officials Bruce Browning, Dean Duffie, Wayne McDaniel, Joe Grimland and Cook assigned as enumerators.

Parents are requested to contact any one of these officials at the earliest date, added Cook.

## Womanless Wedding Staged By Civic Club

The Dickens' Civic club will stage a "Womanless Wedding" at 8 p. m. tomorrow night, March 23, in the Dickens High School auditorium.

The play will feature C. C. Kimmel as Tiny Oats, the bride; Claude Swaringen as the groom; Louis Richards, father of the bride; Fred Arrington, mother of the bride; Charles Taylor and Ben Overstreet as Uncle and Aunt of the bride; Keith Garner as Miss Ubika Scratchfield, a jilted sweetheart; and Roy Ward will be the Official Splicer. These are only a few of the 32 persons cast in the play which should produce laughs from start to finish. So come and bring your smelling salts, advises a spokesman.

After the play the ladies of the Civic Club will sell coffee and cake in the school lunch room.

## REV. PAUL MASON TO PREACH AT BAPTIST CHURCH SUNDAY

In the absence of the pastor, Rev. C. Melvin Rathel, Rev. Paul Mason, church administrator of the First Baptist Church, Lubbock, will preach at both services at the First Baptist Church Sunday, March 25.

Rev. Rathel is leaving today for revival meeting in Martha, Okla. Dewey Ijames, layman, will be in charge of the morning worship service next Sunday, April 1, and the pastor is expected to be back to Spur before the evening service.

Go to church Sunday!

## Board Elects Cook As Superintendent For 3 More Years

C. F. Cook was recently elected to another three year term as superintendent of the Spur schools by the board of the Spur Independent School District.

C. F. COOK

Cook has had 24 years experience in Texas schools, serving 15 years with the Peacock school, one year at Loraine and eight years at Spur.

He is a 1927 graduate of Howard Payne college, receiving his B. A. degree from the Brownwood school. He received his M. A. degree from Hardin-Simmons University in Abilene.

Last year Cook served as vice president of the West Texas State Teachers' Association and is this year a member of the executive committee.

During his eight years in the Spur schools, he has served diligently as superintendent and has overseen many improvements and expansions in the local educational facilities and program. Among the major projects during his administration was the recent construction and equipping of the new East Ward school and the new negro school.

## Six Candidates On School Board Ballot

Interest arose in the coming school board election this week with the announcement of three more candidates for the board positions.

Fred Neaves, Leon Reagan and A. V. Hoover officially applied for a spot on the ballot this week, according to Mrs. Vivian Gibson, board treasurer.

Present board members whose terms expire this year and who have been placed on the ballot for reelection are O. M. McGinty, Dr. W. K. Callan and D. J. Dyess.

The election will be held on April 7, 1951 at the city hall. If any person or group of persons desire to submit further candidates they may do so by pursuing the proper procedure through Mrs. Gibson not later than March 29.

Mrs. W. H. Suddeth has returned from a two months visit with relatives in Coleman and Hill counties.

Assembly of God To Hold Sunday Singing  
A singing will be held at 2 p. m. Sunday in the Assembly of God church in Spur, according to announcement made this week. The public is extended a cordial invitation to attend, singers will be present from towns over West Texas.

Gabriel's

MR. D.A.'s  
CRIME  
CALENDAR

MARCH is the Month for . . .

**RURAL CRIMES:** Farm-bound (and often snow-bound) through the long, winter months, rural dwellers now find themselves out-of-doors and rarin' to go. Pent-up emotions are suddenly loosed, old flames and animosities recalled. Result: violence, burglary, aggravated assault and purple crime keep country law enforcement officers hopping. You can name an uprising in rural infractions in almost every crime category. This is not merely the hazard of a guess: crime reports covering farm areas jumped 7.4 per cent this time last year and are still on the rise. Homicide and auto thefts, oddly enough, drop noticeably in rural areas.

**THE EQUINOX:** Crimes are seasonal. Later this month, the sun's center crosses the equator and days and nights become of equal length. In many ways the seasonal change affects people strangely. In some respects the personality change takes a trend toward rash, ungovernable action — and law-breaking. Persons never before involved in such matters are suddenly—but here predictably—mixed up in violent physical outbreaks influencing their entire lives.

**ADULT DELINQUENCY:** The kids are well into the year's first semester after an early revolt against the discipline of the classroom. Sporadic incidents of juvenile delinquency will continue to crop up but on the whole, with mid-term exams staring them in the face, the youngsters will not break out of their rebellious shell until summer vacations. But parental delinquents will be up and doing! The children being occupied removes that aspect of their own obligations—so the grown-ups step out, have a good time, become careless, and get into trouble!

Watch For "Mr. D.A.'s" Calendar For Crime in April!  
Mr. District Attorney heard Wednesdays on NBC

Hobbies Urged For  
Middle Aged Group

Nearly "forgotten" in the recent pre-crises emphasis on youth and old age, 31,000,000 middle-aged Americans, growing older in record-breaking numbers, are now due for national attention as the important one-fifth of our population charged with the major part of defense production.

A survey just completed shows that if the pattern of World War II is repeated on the home front today, the middle-aged group too old for the draft, but at the peak of production, will be rushed so hard with necessary defense work that its members will be old and nearing retirement before they realize it.

Americans are already growing

older in the greatest numbers in our history, according to the survey-conducting Mutual Benefit Life Insurance Company, Newark, N. J. People 65 years old and over stood at nine million prior to Pearl Harbor. Today, there are 11½ million of them and, by 1960, 15,000,000 are expected.

In a sort of reverse to "in time of peace, prepare for war," Mutual Benefit Life is quickly readying a guidebook for the middle-aged to use now in charting what to do and how to do it when they suddenly find themselves old and retired in a more peaceful world. The plan is to help soften what

thians 15:20-28.

Death to Life

Lesson for March 25, 1951

THE FLOWERS in the church on Easter morning will not have been there long. Less than 24 hours before, the church was dark and empty. At no time in the year does the church look gloomier than on Easter Eve. In many a church the Easter Eve service is draped in black. Good Friday commemorates the saddest day in earth's history. Easter the most joyous. Yet they come only 48 hours apart. This reminds all Christians that neither Good Friday nor Easter stands by itself, but each gives meaning to the other.

**Cross and Crucifix**  
THE Protestant churches usually have a cross. That is because Protestants wish to remember that the Cross is empty, that it is not a dead Jesus whom we worship, but a living, risen, reigning Christ.

Even in the churches where crucifixes are numerous, there may be pictures or statues representing the risen Christ. Suppose there had been only Good Friday, suppose that had been the end of Jesus? Then there would have been no particular point in the cross. It would have been the mere instrument of one more violent death, another case of justice gone wrong, another tragic failure.

The Resurrection showed who it was that hung upon the Cross; the Resurrection showed that the Cross was not a scene of failure but of victory. "Death could not keep its prey; He tore the bars away!" But on the other hand, what would the Resurrection have been without the Cross? Just another miracle—something to make our eyes pop, but not to make us grateful. The New Testament tells of or hints at many resurrections during the time of Christ; but it is not enthusiastic about any of them, with this one exception.

THE N. W. Testament represents the Resurrection in many lights. One of the most striking is that it was a reward, a reward for the Cross. That is, God "highly exalted" Jesus because of his willingness to die on behalf of others (Isaiah 53:12; Phil. 2:8). The Cross was the battle with the dark powers, and the victory; the Resurrection was the march of triumph.

On the Cross Jesus was both victim and victor; on Easter morning he was all the victor. The Cross was a perfectly natural event; by it Jesus underwent the worst that nature, and human sin, can do. On the Cross Jesus was murdered, for murder it was, however "legal" it was made to seem; and he called down no miracle to save himself.

But at the Resurrection Christ rose above nature, as nature's Lord. The early church preached both Cross and Resurrection; and it has never forgotten either one.

"As He is, so are we . . ."

THERE is another important truth about the Cross and Resurrection. From the very beginning, the church has refused to think of these events as concerned with Jesus alone. The Christian who has begun to work deeply into the meanings of his faith will see farther than the child does. He will see both Cross and Resurrection from the inside.

The church has long taught that on the Cross God was doing something for us, and that through the Resurrection God is doing something in us. Paul expresses the life of a Christian as of one who is "dead with Christ" and "risen with Christ." The Christian life is thought of as one which has undergone both death and resurrection. Death to sin; rising to a new kind of life; death to a kind of existence in which we are slaves to what is worst in us; rising to a kind of life in which we are "more than conquerors."

Not all Christians have understood this, to be sure. Perhaps the greater number of Christians think of their life as one of simply trying (not very hard) to do the best they can, and usually failing. But the really high-level Christians have discovered something more profound: that the Christian actually has access, by faith, to an inner power which is the very same that raised Jesus from the dead. Every Christian can share, now, in the resurrection-life of Christ. And this is the secret of Easter.

medical science calls "retirement shock," by stressing the importance of hobbies and other diversions.

Industrial Week Is  
Proclaimed April 1-7

Every governor in the United States is continuously besieged with requests to issue proclamations establishing "days" and "weeks" to promote various causes. Generally, the promoters of the "days" and "weeks" are merely seeking publicity which such proclamations almost automatically assure. But occasionally one comes along that is worth thinking about.

Such a proclamation has been made by Governor Shivers. It establishes April 1-7 as Texas Industrial Week. The Texas Legislature is also interested in this week and has passed a concurrent resolution, sponsored by Senator Keith Kelly and Rep. Bill Abington of Fort Worth, establishing

Range Reseeding  
Is Wise Investment

A million acres of depleted sagebrush rangeland in western Colorado can be reseeded to increase

Texas Industrial Week annually.

One of the purposes of the week is to focus public attention on industry and business. But the governor and the legislature realize that all segments of the state's population should be given an understanding of the basic factors that have led to the tremendous industrialization of Texas. There are three such factors: (a) the attitude of encouragement the state and local governments have maintained toward industry; (b) the policy of responsible taxation which permits industry to re-invest and expand; and (c) the policy of minimum controls and regulations which permits industry and business to operate without excessive harassment from the state and local governments.

by several times the amount of grass now present.

In addition to boosting forage, well-established stands of grass would contribute to soil stabilization and to reduction of siltation on western watersheds, say authors of a new bulletin, 413-A, published by Colorado A. & M. College at Fort Collins designed to help livestock men and range administrators do a better job of seeding depleted sagebrush lands.

Seeding trials on the more productive sagebrush lands already have resulted in greatly increased grass production with herbage yields of from 500 to 3,000 pounds per acre being recorded.

"Range reseeding properly done is a wise investment, while haphazard reseeding is often a waste of time and money," the bulletin states. Authors also recognize that some sagebrush is valuable winter forage for sheep and game so complete eradication may not be practical in certain areas.

The bulletin describes sagebrush lands ranging from 4,500 to 10,000 feet altitude. It tells where to reseed, methods of sagebrush re-

moval, seedbed preparation and methods, what, when and how to seed, and how to graze reseeded areas.

A clove of garlic in olive oil, mix in ½ tsp. paprika, let set for five minutes, then brush over thick steak. Slide into broiler 3" from flame. Out of this world for flavor and crusty finish!

If it's washday in your house and you need plenty of hot water, don't worry about the 15 gals. of hot water your man uses up for his morning shower because your automatic gas water heater immediately starts to replace hot water as it is used.

Gentle reminder: Tepid spiced water and a cloth wipe up spilled food in your gas refrigerator more easily than if you wait for the food to harden.

Butterscotch toast: Spread toast with butter or margarine, sprinkle with brown sugar. Keep under broiler about 4" from the flame until it bubbles.

Go to church Sunday

**or Output Is Apply Down**

Increased production of farmers on the South is liable to find tractor

among major shortages as they begin another year of farm production in which record-high crops are asked.

This report is from a business paper of the farm equipment industry, which also cites under current conditions that tractor production was up 30 percent in January, 1951 as compared with January, 1950.

Retail sales of tractors also were \$18 million ahead of last year's January record, but were below December largely because of low inventories by dealers that resulted from fall and winter strikes, the paper said.

Prices for farm equipment have been advanced four to six percent by several manufacturers following the rollback to December 1 levels and the price freeze of January 26.

Thus it is important that farmers conserve what machinery they have, keep it in excellent repair at all times, and operate it to save undue wear and waste. The supply of tractors and field equipment is well ahead of the situation at the start of and during World War 2, but the big job is to keep 'em running efficient and profitably.

Picking machines will not successfully harvest stormproof cotton. During the past few years mechanical pickers have been used in South and Central Texas to pick cotton of open-boll varieties. Approximately 300 of these machines were used in Texas in 1949 and 1950.

Plants should also be spaced evenly. Hill-drop planting is not advised if harvesting is to be done with a stripper. When the picker is to be used, cotton may be hill-dropped with short spacing. For the late cultivations, sweeps should be set so as to leave the middle lower than the ridge of dirt at the base of the plants.

**CIVIL DEFENSE**

**All Communities Will Care Evacuees of Bombed City**

By Walter A. Shead

This is the second in a series of five articles on the all-important of civil defense.

YOU WERE ONE of those directly beneath the explosion of atomic bomb over your home town tonight, there would be little hope of your survival. Even if you lived anywhere a half-mile from the center of the explosion, your chances of telling the tale would be about one in ten. From a half-mile away, you would have about a 50-50 chance, and farther than that your chances would be pretty good that you would survive to help your less fortunate neighbors.

The situation on materials for use by manufacturers was reported as perceptible tightening due to increasing defense production, but "essential industry" recognition for farm equipment seemed assured.

Under the Controlled Materials Plan of allocation of materials, now in process of development, farm equipment is among the major industries listed in "H" class, which includes only those considered essential to the defense program. The plan, scheduled for July 1 would allocate all materials in proportion to industry needs, as far as supply will permit, and farm equipment's "B"

Here are a few musts in preparing your house after an air-raid warning: Don't let trash pile up; shut doors, windows and pull down blinds; throw your electric switch; if you burn coal, close draft doors; keep a flash-light handy; don't light a match; have a radio, first-aid equipment and a supply of canned goods; don't eat open food; don't rush outside after a bombing; drink only bottled water or other bottled liquid; don't start rumors and use the telephone only for emergency.

There is little danger of radioactive clouds after the first two minutes after the bomb burst.

**Mechanical Harvest Can Be Efficient**

Cotton can be harvested efficiently with mechanical pickers and strippers—if proper methods of production and preparation for harvesting are used.

The results of mechanical cotton harvesting experiments conducted by the Texas Agricultural Experiment Station in 1948, 1949, and 1950 at Lubbock, Temple, Denton and College Station are given in Progress Report 1337 and are the basis for the above statement.

Stripping machines are generally used on stormproof or storm-resistant varieties of cotton with a stalk height of not more than 30 inches. Approximately 50 percent of the cotton grown on the High Plains in 1949 was harvested with mechanical strippers.

## ANOTHER STEP TOWARD SLAVERY

EDITOR'S NOTE: Alfred P. Haake, Ph. D., Mayor of Park Ridge, Illinois, is a noted Economic, Business Consultant, Lecturer and Author.

The recent government action in Bonn, Germany, giving half of the management of industry to labor unions, is significant as a step in the direction of destroying the right to own property, and leading up to eventual drying up of capital, lowered production of goods and reduced standards of living for the very people who have bludgeoned the owners into giving up half of their property.

The issue at stake is what the New Dealers used to speak of as "property rights versus human rights," a sentiment glossed hypocrisy hiding the real issue of whether individuals shall be permitted to own property, and be protected in that right by their government.

The radical will hail the advent of destroyed property rights. "At last," he may exclaim, "Justice has arrived. Now property rights are reduced to their rightful position subordinate to human rights, and human beings need no longer bow before the tyranny of soulless property. The day of emancipation and property has arrived."

Ironically enough, that is sometimes the position of men who should know better,—among them clerks and even educators along with the politicians whose conviction spawn with the prospect of votes. We might laugh off the ponderous pompousness of their righteousness, were it not that sheer stupidity seems to strengthen their conviction.

The simple truth is that there is no such thing as "property rights" as opposed to "human rights." Rights can belong only to human beings. The struggle between communism and our own representative form of government has to do largely with the rights that an individual human being may possess and from whom he receives those rights.

What is thought of as a "property right" by those who would confiscate the property, is really a "human right." It is the right of a human being

to own property. When any society or government limits or destroys "property rights," what it actually does is to limit or destroy the rights of human beings to own property. There is no other way to limit or destroy property rights.

We speak of the right of a man to work, and we recognize that right as being very important. We recognize the right of the individual to save out of his earnings, and to invest those savings. We recognize a man's right to freedom of movement, freedom of worship assembly and speech.

But none of these rights are substantial or amount to anything more than empty words, unless the right, in every instance, carries with it the right to own property. It is folly to speak of the right of a free man to work if the fruits of his labor belong to someone else. Why should a man save by self-denial if what he saves may not belong to him? Freedom of movement is silly unless a man can transport with him his own belongings, including the shirt on his back and the extra crust in his knapsack. Freedom to worship must include the right to make sacrifice as part of that worship, but what shall a man sacrifice if he has no belongings? If a man is to be free to assemble and to speak his mind, he may not be beholden to others for his food, clothes and shelter, provisions which is granted him as the price of speaking the mind of those who own the goods allowed him for his sustenance.

No indeed! We cannot take from a man the right to own property without taking away from him the very core of every other right permitted to him. Either the man, in freedom, is permitted to provide for himself, out of his own earnings and belongings, and so is subject to his own decisions, or he is fed and provided for by others who yield him enough goods to meet his needs as the price of yielding his freedom to them.

Man can be free only if his rights include the right to own property, and to hold it even against the power of government backed by a majority of the people. Destroy that right, and the basic spur to production is also destroyed,—and those who profit momentarily by the confiscation finally sink into poverty along with those whose rights to own property were taken from them when their property was confiscated.

## First All-Texas Worsted Fabric

Garland Adair (left), curator of history for the Texas Memorial Museum, Austin, accepts from Robert E. Pent samples of the first worsted fabric ever woven from Texas yarn spun from Texas-grown wool. Pent is president of Pioneer Worsted Co., New Braunfels, the first worsted plant to be established south of the Mason & Dixon Line.

## Truck Arrests Are Made Over State

More than 17,000 truck arrests were made on Texas Highways for overloading and other violations for the year ending August 31, 1950, according to a recent report released by Kent Odom, Chief of the License and Weights Division of the Department of Public Safety.

8,447 cases were filed in Justice Courts throughout the State, charging the operation of vehicles with loads in excess of the 48,000 pound gross load limit and over 18,000 pounds of weight on each truck axle; 3,801 cases charging operation in excess of registered gross weight of the truck and 5,582 cases were filed for miscellaneous offenses, such as overlength, overwidth, driving while intoxicated and operating without permits.

According to other report, nine trucking companies were arrested

more than 100 times last year. One Dallas firm with 265 arrests, was fined over \$5,000 for hauling more than a million pounds excessive weight.

The License and weights Division of the Department of Public Safety is composed of only 33 inspectors, who must work in pairs patrolling the 36,840 miles of the Texas Highway Systems. During the period covered by Chief Odom's report, these guardians of the State roads checked more than 72,000 trucks and found one out of every four violating the law.

The January monthly report just released by the Public Safety Department indicates an increase in highway truck law violations. It shows a total of 2,051 arrests.

Many states have found the only effective way to prevent these constant violations of overloading trucks on State and County roads, is by requiring the overloading trucks to reduce the ex-

cessive weight to the legal limits before proceeding over the roads.

Texas has no such unloading on the spot law. A bill is now pending in the Senate, known as H. B. 11, designed to stop the practice of overloaded trucks continuing on their way after paying a small Justice Court fine. The proposal would also give authority to the Department of Public Safety, the County Sheriff or his deputy to make such arrests.

## Service Record Books Are Available Now

Service Record books containing pictures and war records of Dickens County World War I and II veterans have arrived in a second shipment to be distributed by Mrs. Larry O. Boothe, she stated this week.

Covered with green, and hold-

ing pages of photographs and battle records of each serviceman possible, the books are to be sold to anyone desiring such a record. Persons interested may contact Mrs. Boothe. Pictures used in the album were saved to be returned and may also be secured from her.

"The U. S. isn't the only country that makes automobiles, but its the only nation in which the workers who make the cars can afford to buy them." Chicago Tribune.

## HADACOL Is Requested By Nurses

HADACOL Helps Folks Suffering Deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Nicotin and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL, and many of them indicated that they recommend the HADACOL formula to patients who are deficient in Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Nicotin.

Mrs. L. D. Lovett, a registered nurse who lives at 2205 Walnut St., Philadelphia 3, Pennsylvania, says this about HADACOL:

"I was down in Florida for the past month. I had no energy so several members of my family told me to try a bottle of HADACOL. My sister, who is a nurse, was taking a bottle so I tried a bottle. I feel fine since taking HADACOL. I do private duty here. I am 50 years old."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today. Only HADACOL gives you that "Wonderful HADACOL feeling."

## F.F.A., 4-H Clubs To Have Project Show

Projects of F. F. A. and 4-H club members of Patton Springs will be shown on Friday, March 30, on the school grounds, according to a report released this week. Classes will be provided to show all F. F. A. and 4-H projects within the school district. Johnnie Stevens, superintendent of the Matador ranch at Matador, has been named judge of the show, with judging starting at 10 a. m. The public is extended a cordial welcome to attend the show.

# Powered for thrills - Priced for thrift!

HERE, packed in 3,615 nimble pounds and 204.8 inches of over-all length, is the car marvel of '51.

In the few short weeks since it started to roll off the assembly lines, it has written a bright new page in automotive history for the low-priced field.

What Buick engineers have done is come up with a brand-new high-style body—new in every contour and dimension.

They've designed a brand-new, weight-saving frame, exclusively for this SPECIAL.

Then they've added the power-packed F-263 Fireball engine—which was new in the 1950 SUPER—and just wait till you see

what that does for this nimble performer.

There's a power-to-weight ratio that spells thrill and thrift in operation—at a first cost that's just a breath away from the lowest price level.

We'd like you to see and drive this newest Buick marvel—find out for yourself what a honey it is to handle, and what a cinch it is to buy. Why not drop in and see us the very first chance you get?

### No other car provides all this:

- DYNAFLOW DRIVE**—saves strain on driver and car good from every drop of fuel
- PUSH-BAR FOREFRONT**—combines smart style and unsurpassed protection
- WHITE-GLOW INSTRUMENTS**—greater clarity at night
- TORQUE-TUBE DRIVE**—steadies ride, improves driving control
- 4-WHEEL COIL SPRINGING**—cushions ride, saves servicing costs
- DUAL VENTILATION**—outside air fed separately to right or left of front compartment
- SELF-ENERGIZING BRAKES**—hydraulic—multiply pedal pressure five times at brake drum
- DREAMLINE STYLING**—lapped, car-length fenders, gleaming sweepers on most models
- Plus:** Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poiled engine mounting, Body by Fisher

Mrs. James A. Allen Addresses Clubs In Meeting At Legion Hut Tuesday

"Clubwomen must spread the horizon for people," declared Mrs. James A. Allen, president of the seventh district of Texas Federation of Women's clubs, before an assembly of all Spur women's clubs in the American Legion hut Tuesday afternoon.

Mrs. Allen was joined in her discussion of Texas club work by Mrs. J. M. Crews, trustee of the Headquarters Library, who spoke on the Clubwomen's home in Austin. Both are from Childress.

**Luncheon Courtesy**  
A spring luncheon complimenting the speakers and guests was given by Mrs. O. M. McGinty at her home, 714 North Parker. The Twentieth Century Study club acted as host group during the day.

Preceding Mrs. Allen's address at the afternoon meeting, musical selections were presented by a clarinet quartet composed of Billie Sue Gregory, Sandra Watson, Virginia Hord and Gail Love, and a brass quartet of Mr. and Mrs. Melvin King, Wayne Hoover and Kenneth Watson.

Mrs. McGinty, district vice-president, introduced the guest speaker.

"The spiritual value of clubwork will survive although it often will wear various wardrobes," stressed Mrs. Allen in accounting for the broad scope of women's clubs.

"Are we ready for television?" queried the speaker, adding that when using television there must

be a setting of truth. "The American home can be a beautiful gem of influence," she concluded, urging a closer unity of home and family.

A film of the \$190,000 Clubwomen's home in Austin was shown by Mrs. Van North following the addresses.

Sedgwicks Entertain With Game Party

Mrs. and Mrs. C. L. Sedgwick entertained a group of friends with an informal 42 party in their home near Roaring Springs Friday night.

Corn was popped and served to guests. Attending were Mr. and Mrs. Jack Jones and Jacques of Lubbock, Mr. and Mrs. R. H. Hill of Glenn, Mr. and Mrs. Jackie Tooke and Jerry of McAdoo; Mr. and Mrs. Charles Owens, Charleen and Chuck, Mrs. Lorine Robinson, Eddie and Patsy, all of Roaring Springs.

Mission Study For Judson Circle Group

Mrs. Russell Williams entertained Judson circle members of First Baptist WMS in her home Monday afternoon.

A mission study from the book, "Shining Like the Stars" was taught by Mrs. C. P. Scudder.

Congeaed salad, Boston brown bread with cheese spread, potato chips and coffee were served to Mmes. A. D. Hord, W. G. Hinson, C. P. Scudder, E. H. Carpenter, C. M. Ratheal and the hostess.

The group will meet in the home of Mrs. W. G. Hinson next Monday to reveal secret pals.

Easter Egg Hunt To Honor Kindergarten

An Easter egg hunt for members of the kindergarten class of Mrs. A. G. Dunwoy will be held at 10 a. m. tomorrow (Friday). Children will meet at the home of Mrs. C. E. Fisher at the Experiment Station, each bringing a basket.

Prizes will be attached to several eggs. Refreshments of rabbit shaped cookies and soft drinks will be served.

Mrs. Sam Hawkes is chairman of the room mothers in charge of plans for the egg hunt. Others are Mmes. C. O. Fox, Fisher and Richard Jones.

Highway Club In Ray George Home

Mrs. Ray George entertained members of the Highway home demonstration club in her home March 12.

Mrs. Harriette Hatcher, county HD agent, gave demonstrations on mixing oatmeal bread, and distributed leaflets of recipes for orange loaf and oatmeal bread.

The breads were served with refreshments to Mmes. Edwin Denson, Keley Putman, Jimmie Hahn, Richard Westfall, Forest Martin, Earl Dozier, Clarke Morgan, M. E. Tree and Frank Walker.

Layette Shower Is Sunday Compliment

Mrs. John Dunaway was complimented with a pink and blue shower in the home of Mrs. L. S. Wilson on March 11.

A handmade lace cloth covered the serving table, and a centered arrangement of pink carnations and sweetpeas was flanked by blue tapers.

Hostesses were Mmes. A. C. Vaughn, Jack Simmons, R. B. Walsworth, C. W. Proctor, Ernest Kearney and Wilson.

Guests calling and those sending gifts were Mmes. Leon Reagan, C. A. Fagan, Harry Patton, Leonard Joplin, M. C. Dunaway, Billy Bigham, Elbert Garner, Carol French, Coy McMahan, John Reid, Rip Garner, R. L. Benson, T. B. Watson, Ferrel Albin, A. L. Foreman, Woodrow McArthur, V. C. Smart, Floyd Smith, Joe Thannisch, Willis Smith.

Marshall Powell, Tang Smith, Woody Grice, Melvin King, A. M. Hoover, Elmer Cross, Larry Boothe, Charles Scott, Bill Chamberless, Russell East, A. V. Hoover, and Ralph Brantner, L. V. Burkett, and J. P. Brantner of Jayton, W. V. McKay, Whiteface; Pat Fletcher, Fort Worth, and Travis Hoover, San Angelo.

Mr. and Mrs. Norris Waddell and son of Oklahoma City spent last week in Spur as guests of Mr. and Mrs. A. M. Karr and Mr. and Mrs. Ruben Waddell. They also visited with Mr. and Mrs. J. L. Williamson, Jr.

H. D. Club Meets In Community Center

Mrs. Ivy McMahan was hostess in the Dry Lake Community Center club house Wednesday, entertaining members of the Dry Lake Home Demonstration club.

"My family's favorite bread" was answered by each guest during roll call. A demonstration on quick loaf breads was given by Mrs. Harriette Hatcher, county home demonstration agent.

Eleven members and two guests were served refreshments. The group's next meeting will be in the club house with Mrs. Jeff Smith as hostess.

East Spur Club Studies Quick Breads

Members of the East Spur Home Demonstration Club met in the home of Mrs. Russell Williams on Thursday, March 8. The roll call was answered with "My families' favorite bread."

Mrs. Tang Smith was selected to represent the East Spur club in civil defense work.

The club voted to have a food sale for council on April 14.

The H. D. agent, Mrs. Harriette Hatcher, presented an interesting demonstration on quick loaf breads. Members watched each step in the making of Oaten bread as the agent explained various ways to decorate the top and different fruits that could be used.

An orange bread was shown that she had baked earlier. The importance of whole grain cereals and breads were explained and a nutrition chart was shown. Mrs. Hatcher then made a salad showing how to tear the lettuce to keep it fresh and crisp longer.

A Saint Patrick's Day game was played and the winner's prize was presented to Mrs. Bill Lamme.

Salad, nuts, oatmeal bread, orange bread with lemon jelly, jelly beans, and coffee were served to Mmes. James Wright, Matthews Gruben, John Webb, David McAteer, Floyd Smith, Wallace Hinson, Maurice Arnold, Thurmond

Morrow, Harriette Hatcher, and the hostess Mrs. Russell Williams. Two visitors were present, Mrs. Bill Lamme, and Mrs. Carroll Edgell.

Delta Kappa Gamma Chapter Celebrates Thirtieth Birthday

Members of Delta Kappa Gamma from six nearby counties met in Roaring Springs March 17 to celebrate the founding of the Gamma Eta chapter on its 30th birthday.

Mrs. John Heard was hostess for the afternoon meeting. Guests presented a musical program including "Irish Eyes Are Smiling," vocal solo by Martha Goodwin; "Farther Along," trio composed of Billy, Jane and Martha Goodwin; "Irish Lullaby," duet by Mrs. Ruth Tryce and Mrs. Gillespie. Mrs. Maurice Goodwin was accompanist.

Sketches of the history of Delta Kappa Gamma were presented by members: Mrs. John Belaska of Roaring Springs spoke on "Our Founders," and Mrs. Ann Blumberg of Spur gave "The Life of Annie Webb Blanton." Mrs. John Fowler of Jayton discussed "Eula Lee Carter," and Mrs. Roxi Lewis of Roaring Springs read an original poem.

A cake decorated in white and gold in honor of the group's birthday celebration was cut and served with coffee to members. Attending were Mmes. Belaska, Lewis and Heard of Roaring Springs; John Fowler of Jayton; Blumberg and Louis Williams of Spur; Taylor Lowrie of Crosbyton and E. Thomas of Paducah, and Misses Margaret Elliot of Spur and Delia Cowans of Paducah.

The next regular meeting of the organization will be in Jayton on April 21.

M-Sgt. and Mrs. Irvin Satterfield of Fort Bliss in El Paso and Mr. and Mrs. E. M. Locke visited George Locke in the Baylor County hospital recently. She is a sister of Mrs. Locke.

SPUR, TEXAS

**ELECTRICAL TIPS FOR THE HOME**

If Your Toaster and Coffee Maker Take Forever to Heat Up . . .

**DON'T** blame the appliance or your dealer. Chances are your wiring is overloaded. Overloading can cause as much as 10% voltage drop on a circuit. When this happens, a toaster will take 31.5% more time to heat up and a coffee maker will take 22.5% more time than when the wiring is adequate.

**DO** install at least two 20-ampere appliance circuits to serve cooking appliances in the kitchen and in the dining room. When there are enough circuits of large enough wire, your electrical equipment will operate efficiently and economically. You will also be assured of better cooking results.

Mr. and Mrs. L. D. Parks and daughters of Fort Worth visited their parents, Mr. and Mrs. W. G.

Johnson and other relatives, and also Mr. and Mrs. Luther Hindman of Spur last weekend.

Austin, Tex., March 22.—The first public hearing on a bill that is sponsored by the trucking industry will be held Monday night (March 26). A number of railroad-sponsored bills have already had their airing.

Truck people are asking for legislation that conforms to standards set up by the American Association of State Highway Officials. Gross weight limit of 48,000 pounds, now effective in Texas, would be removed. The legal weight of a truck would be controlled by axle weight rules.

Support for this kind of law gained the support of Defense Transport Administrator James K. Knudson, who said all the states must participate in a program to allow trucks to handle a greater share of the freight traffic, and thereby further the defense effort.

Knudson recommended the adoption of standards established by the American Association of State Highway Officials. These standards have also been approved by the U. S. Bureau of Public Roads.

Some members of the Legislature are dissatisfied with the Board of Texas State Hospitals and Special Schools.

You remember that this Board was set up two years ago. Previously, administration of the state institutions was in the hands of the State Board of Control.

Then a special session of the Legislature appropriated a large sum for improvement and reform of the hospitals and schools. The cigarette tax was increased to raise the money.

Critics of the Hospitals and Schools Board now say that progress has been too slow. There are two bills in the Legislature to change the set-up.

Senator Dorsey B. Hardeman of San Angelo has a bill that would establish a new Board of Control, a policy-making body of three members appointed by the governor. This board would supervise two executive directors, one in charge of state purchasing, the other in charge of hospitals and special schools.

Senator Otis Lock of Lufkin has a bill that would cut the membership of the Hospitals and Schools board from nine to three members.

Lock's bill is the result of some criticism that the larger number of board members has resulted in wide difference of opinion and thus retarded progress. In theory, three men could more easily agree and make decisions leading to action.

The Board has the job of spending \$125 million in five years.

Many friends of the Board say that it has done a good job. They admit that progress has been slow, but they say that a lot of preliminary planning was necessary before action could begin.

They say further that administrative troubles have been ironed out and that the Board now has a good man in the office of executive director—Larry O. Cox.

They point out that a qualified medical director has been employed, that some reforms have been made and others are coming.

Unless these friends of the Board can convince the Legislature that they are right, the legislators may be reluctant to appropriate any more money for improvement and reform.

**Return this carton**

It's worth 3¢ on your next supply of Coca-Cola

The cardboard cartons that help you carry home bottles of Coca-Cola so effortlessly, now cost us more than ever before. Also, they are becoming increasingly hard to get.

For this reason, a 3¢ deposit on paper cartons will go into effect March 22. You will receive 3¢ each for any extra paper cartons that you return to your dealer after this date. And, of course, your dealer will require a 3¢ deposit if you don't turn in a carton when you buy Coke.

The deposit on Coca-Cola Bottles remains

4¢ each. Thus, the total deposit on a carton of Coke is 27¢—3¢ for the paper carton, and 24¢ for the six bottles. If you keep the cartons and bottles you have now and turn them in on a new supply of Coke, no additional deposit will be necessary.

### Farm Bureau Gives Support of Roads Bill

Representative Jim Sewell of Navarro county has introduced a rural road Bill, (H. B. No. 669) that will have the full support of the Texas Farm Bureau Federation, J. Walter Hammond, president of the organization, announced, today. The bill embodies the federation's philosophy for a rural road program that will meet the needs in Texas, Hammond said. Sewell's bill has five co-authors, namely: Representative D. B. Hardeman, Grayson and Collin counties; Bert Hall, Johnson county; Henry Lehman, Milam, Burleson and Lee counties; Douglas Crouch, Denton county; Cloyd Young, Cass county.

The Sewell bill proposes to raise approximately \$30,000,000 a year by placing a "Gathering Tax" of one cent per 1000 cubic feet on natural gas. The money will be divided 1/4 to public schools, 1/4 to the counties for the building and improvement of rural roads, and 1/2 will be distributed among every incorporated city, town and

Wendell COREY, Macdonald CAREY, Bruce BENNETT, Bill WILLIAMS, gamen all, in Paramount's "THE GREAT MISSOURI RAID, Technicolor.

village on the basis of population according to the most recent federal census.

Signers of the bill specified the tax levy as a "gathering tax" patterned from the one cent per thousand cubic feet "gathering tax" which Louisiana has levied in recent years. The bill, Hammond said, will accomplish three primary aims:

(1) It will allow the continua-

tion of the direly needed farm-to-market and rural road program. One-half of the estimated \$30,000,000 which provisions of the bill will provide, will be sent to the counties for the building and improvement of rural roads, starting with school bus and rural mail routes. County judges and commissioners will authorize the spending of the money, with specifications to have the approv-

al of a licensed engineer or the Texas Highway Department.

(2) One-fourth, or about \$7,500,000 will go to some 700 incorporated cities, towns, and villages that are facing serious financial difficulties. They will be allowed to use the money for the building and maintenance of streets.

(3) It will insure that the people of Texas, living both in town and on the farm, will get more benefits out of our vast resources of natural gas which are rapidly being expended.

Strong opposition to the Sewell bill may be expected from the powerful natural resources lobby, Hammond predicted. He called on county Farm Bureaus throughout the state, county judges and commissioners, and the folks in the cities to lend support to the measure.

### Son of Localities Injured In Wreck

George M. Locke, 29, Aspermont oil worker and son of Mr. and Mrs. E. M. Locke of Route 1,

Spur, was injured seriously recently when the car he was driving was sideswiped by an oil truck 17 miles east of Seymour. Locke suffered a crushed shoulder and other serious injuries in the accident which practically sheared his 1951 model car in half.

Riding with him was Aaron Lee Smith of Aspermont, injured less seriously. Locke is now in the

Baylor County hospital where physicians are trying to save his crushed left arm, according to a report this week. The accident occurred March 9.

The car came to a stop 66 yards from the point of impact after knocking off the end of a concrete culvert and hurling a guard post 154 feet, report relatives here. The truck received negligible damage.

1. What bird do you associate with heaven? (a) Bluebird, (b) Bird of paradise, or dove, (c) Mockingbird, (d) Peacock.
2. Give the missing member of the following trio of words: "\_\_\_, stock and barrel." (a) Lock, (b) Keg, (c) Stave, (d) Water.

**Highway News**

Men of the community met on March 6 and hired a Crosbyton truck to move the barracks building for our community center. An end has been built in the barracks, a bench inside and a kitchen installed at the present time.

Mrs. Frank Walker entertained ladies with a Stanley party Thursday afternoon.

Sam Byrd holds church services the third Sunday of each month in Aspermont. Roy Lee Stanley

accompanied Mr. Byrd last Sunday to Aspermont.

Mrs. S. G. Byrd spent Sunday visiting relatives in Post.

Mrs. Wilbur Stanley and children were guests of relatives in Knox City over the weekend.

Mrs. Walter Thomason visited in the community last week.

Mr. and Mrs. Wilbur Stanley visited with relatives in Breckenridge last Monday, and made a business trip to Mineral Wells on Tuesday.

We are planning an Easter celebration to be held all day at the Community house. Dinner will be served, games and an Easter egg hunt for children are being planned. There will also be a party celebrating David Morgan's birthday and a tiny tot parade. The entire neighborhood is invited to attend.

Edwin Denson, Ray George and Cecil Estep have added glassed-in porches to their homes. A bedroom also has been built on the Estep house.

By Mrs. C. E. Morgan.

Put the finishing touch on your Spring cleaning

LIGHT UP WITH RIGHT SIZE AND TYPE OF ELECTRIC LAMP BULBS!

Why slave to get your house spic and span for spring if it is not going to look its best when you are through? Empty light sockets, undersized bulbs, and outmoded lamps can leave your rooms still looking dingy and unattractive after all of your work. Make your house sparkle and shine as it has never done before! For only a few pennies a day you can light your whole house with the newest and most efficient light bulbs—beautify it at a minimum cost with modern, efficiently engineered lamps.

A representative of our Home Lighting Service will be glad to assist without cost or obligation to you in solving your home lighting problems. Just contact our nearest office.

Beautify Your Home with Modern Lamps and Enjoy Better Sight with Better Light!

CLEAN UP... TO GET ALL THE LIGHT YOU PAY FOR!

It is not only our job to supply low-cost electric service, but to also help you make the most of that service. Dust and dirt on lamp bulbs or reflectors can cut light 50%. With a damp cloth you can wipe them clean in seconds. (Of course, you never touch a hot globe with a damp cloth.) Grimy lamp shades steal light too—they should be kept dusted or dry cleaned if necessary.

And here's a tip: when you are buying new shades, make sure they have light-colored linings. Light colors reflect light, dark ones absorb it. Visit your local electric lamp dealer or our office, and see how modern lamps not only beautify your home, but help you enjoy better sight with better light.

West Texas Utilities Company

Telephone Lines speed Production Lines that build Defense Lines

No country on earth dislikes to produce weapons of war more than America.

But no country on earth can do the job as swiftly and expertly as America—when she has to.

One of the reasons we can out-produce any other nation is our telephone system—the biggest and best in the world.

Here in Texas millions of telephone calls tie our defense efforts together. Ideas, proposals, decisions, orders, instructions and information flash over telephone wires—and production lines move full speed ahead.

It is our job at the telephone company to meet these responsibilities. We will do so, as we have tried to meet all our service obligations—with all the skill and financial strength at our command.

Springtime is traditionally re-decorating time at our house and we're in the midst of the job right now. Because we wanted to do a really professional job I talked to Mr. Hayes Quinn, the color consultant for the Pittsburgh Plate Glass Company. He gave me complete instructions for correctly re-painting a room.

Because so many of you will also be re-decorating, I thought you'd be interested in these suggestions. First — according to Mr. Quinn — comes the preparation of the walls. Upon this operation depends the success of the paint job. Before starting to paint, wash or scrape off all calcimine, loose paint, grease and dirt. Fill all cracks with patching plaster and sand to a smooth surface. Touch up patched spots with first coat. Even though no spots or cracks need patching, wash the surface thoroughly.

Mr. Quinn explained that the application of paint on a superior plaster surface has become increasingly difficult, because of such things as a tendency to rush painting on damp walls. That's why these preparatory steps are doubly important. He mentioned, too, that it is not wise to use varnish sealing coats, because they may cause trouble for later painting work.

One of the most important steps, he emphasized, is to read the directions on the label. By following these instructions, you are assured of a better paint job.

We are following this expert advice carefully and are mighty pleased with the results. Oil base wall paints and primers certainly gave a professional look to our rooms . . . and we're going to decorate the "right" way from now on!

**Liberty Gardens Are Patriotic Job**

Get liberty gardens underway, says the recently released National Garden Bureau bulletin No. 2. The home garden may be able to add materially to the nation's food resources.

Every liberty gardener this year may inspire and teach others, whose efforts may be desperately needed. Garden campaign is recommended by the National Garden Advisory committees.

Home vegetables can make an important contribution to the civilian-defense program, says Milard Caldwell head of the Civil Defense Administration. In a letter to Secretary of Agriculture Brannan, Caldwell further emphasizes the value of such a program, by saying that in addition to building up the defense program, home vegetable gardening brings many benefits to the public, aside from the actual food produced, among these improvement of the morale and health of our citizens.

The campaign will also stress the preservation of home grown vegetables, by freezing and canning, to create home reserves.

Other gardening suggestions: Why not build a seed box? Many plants may be started therein, and automatic watering is possible with little effort. To equip the latter, bore a hole in bottom of a box, put a wick through hole, imbed frayed top in soil, drop bottom in pan of water, fill box with soil and make shallow drills, sow seed, and as long as pan is full of water wick will keep soil moist.

Cal Farley, founder and president of Boy's Ranch, explains the Ranch's proposed expansion plans. He holds a model of the type of units to be built, housing 24 to 30 boys. The Chart in the background shows the future building area. The long-range program calls for several of these units and a vocational school.

**Boys' Ranch Plans Future Expansion**

Visions of a Boy's Ranch for 1000 to 1500 youngsters with a fighting chance to grow into worthwhile American citizens has been put into words by Cal Farley, founder and president of the famous Boy's Ranch near Amarillo.

"We must expand," Farley said. "It is force upon us by torn homes. Every day requests come to our office asking us to take boys."

A recent case cited by Farley was that of a woman who came to him, pleading for the Ranch to take her 14-year-old son. The father was gone, the older children married, and the youngster was "beginning to get into trouble." The mother had been told she had cancer and had six months to live. She wanted her son cared for.

"What can you do?" Farley asked. "We have five boys sleeping in the gymnasium now, but can you tell a woman like that there isn't a place for her son."

The only answer was to make a place for him.

The future plans call for permanent "24-boy" homes of the unit type, situated in the area just each of the present buildings. Long-range planning includes 20 of such units. Each of the buildings, furnished, will cost approximately \$30,000 but the Ranch founder pointed out that they probably could be built for less because of donations of labor and materials, such as had been given in the past.

Under the new program, the expansion area would be dedicated to the use of the older boys, and would house the high school and vocational school, leaving the present area for handling the smaller boys.

Right now, it is necessary that one unit be started as soon as possible in order to ease the crowded conditions. Later on another unit and part of the vocational school building will be built.

Plans and sketches have already been received from the Fifth Year Architectural Class of Texas A. & M. The class has made the planning of future Ranch

buildings a term project and the boys are donating their service. It is hoped that ground for the first new unit will be broken within the next 30 to 60 days.

Unfolding the story of the costs of maintaining the present establishment that now cares for 137 boys, Farley said that the ultimate expansion was limited only by the funds and facilities which are made available to the Ranch through donations from fine folks who want to help the boys for whom there is no program.

**Texas Pastures Are High In Quality**

Cured forage remaining in Texas pastures at the present time is higher in quality than during any year in the past 10 to 20, in the opinion of pasture specialists with the Texas Extension service.

Higher quality in the grass is the result of slow growth made during the dry weather last summer and fall but because of dry weather the plants were unable to store a reserve food supply in the crown and root systems from which to start regrowth in the

spring. Since new growth is made in early stages from stored food, the first few weeks of its growth can be critical the specialist said.

He warned that because of this, proper management is extremely important in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats, wheat, rye, and other supplemental grazing crops this spring, allowing the perennial pasture plants to get off to a good start and possibly avoid killing many of them. He believes better pastures will result if the perennial grasses are not grazed for the first month or two after growth starts.

**AIRCRAFT POWERED PLANES . . .** Drawing board pictures of prepared airplane plans for U.S. air forces show how far crew compartments must be from power plant. Arrow at left indicates crew's quarters. In plane at right, crew rides in nose.

**BOLT FROM SKY . . .** Joseph Fey peers through aperture left in George Summacher home, South Gate, Calif., by bolt of lightning that traveled down TV antenna. California recently received rain, storm, snow, hail, sleet, thunder and sunshine.

**Junior Class Will Give Play In April**

Characters have been chosen and duties assigned members of the Spur High school junior class in preparation for their 1951 presentation of "Betty, The Girl O' My Heart." The play will be given sometime in April.

Cast as Betty is Ginger Walker. Others are Emma Lena Simpson, Marie; Mazell Beadle, Mrs. Graves; Jean Barclay, Elizabeth; Vera Crafton, Mrs. Jenkins; Charlie Watson, Martin; Kenneth Watson, Mr. Martin; and Paul Simmons, Jerry.

Advertisers for the production are Gordon Simmons, Marie Caldwell, Eloise Fitzgerald and Katharine Stanley. Ushers will be Joyce Hammond, Effie Byrd and Nelda Horn. Reba Senn is promoter and stage managers are Orville Cloude, J. M. Tullis and Billy Ray Stanley.

**FORD WINS AGAIN!**

**V-8 TAKES FIRST PLACE IN CLASS "A" 1951 MOBILGAS ECONOMY RUN**

*Both Ford V-8 and SIX Deliver more than 25.9 miles per gallon*

*Gruelling 840-mile test proves Ford Economy*

Again this year . . . it's high honors for Ford! In the most important economy trial for American stock model cars . . . the famous annual Mobilgas Economy Run . . . A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54,587 ton-miles per gallon and 25.94 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon . . . a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"

The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.

**FOR MAYOR**  
NONA STARCHER  
Friends of Nona Starcher make this appeal to the voters of Spur, subject to action TUESDAY, APRIL 3rd. Mrs. Starcher came to Spur in 1923; she knows the needs of the CITY, and is acquainted with those movements which incite progress.  
There is not a person in our CITY that has taken more pride in the community than has NONA STARCHER. She owns a nice home in Spur, and was among the first to start building for the growth of Spur. She had no encouragement from any of the business men—they all thought she was doing the wrong thing, but because of her belief in Spur, she continued to build the Starcher Apartments Houses that are located on East Harris Street. Nicer apartments are not to be found in any city. Mrs. Starcher has had wide business experiences and knows the principles of economics which are very essential to the successful transaction of the City's business.  
She believes in the Church, Boy Scout Work, and other civic movements which go to build up the morale of our community and lend influence to a better citizenship. She has watched Spur Schools grow, and with the assistance of her late husband, W. D. Starcher, fought for the Spur Band Tax; then later, when it looked as if school was not getting enough of the money, they waged another fight, with the help of Mrs. Virgil Parr and Mrs. Oscar Kelley, to get money to buy music for the East Ward School. During Mr. Starcher's life he never failed to make it possible for a boy or girl to join the band, by giving that boy or girl an instrument. The last boy to whom he gave a cornet was J. T. Franklin. The citizens of Spur should be proud of their band.  
Mrs. Starcher says that if the people elect her as their MAYOR, she will be fair and impartial toward everybody and will do all that she can to save the people all the tax money possible; yet she feels certain improvements are necessary for the progress of our TOWN, and these improvements should prove an asset to everybody. Knowing Mrs. Starcher as we do, we know she will give the small taxpayer the same consideration as if he were the biggest taxpayer in our city.  
The voters of Spur will make no mistake in electing Mrs. Starcher their Mayor in the April election, because she will stand for a better town in every respect. Paid for by friends

**WANTED**  
WANTED TO BUY: Good cane or hegarri bines. See or phone R. L. Benson. 108-W. 17-1tc

The Spur Volunteer Fire Department will present the Wagonmasters from station KWFT, Wichita Falls, in a program of songs and laughter at the East Ward Auditorium tomorrow night, Friday, March 23, at 7:30 p. m.

## Local Delegation Attends Scout Meet

Scouters of the Haynes District met Thursday, March 15, at 8:00 p. m. at the Smith House in Crosbyton. Twenty-five men from Ralls, Petersburg, Lorenzo, Floydada, Spur, Crosbyton and Hale Center attended the meeting.

## County Red Cross Drive Enters Second Week With \$1318.53 Reported Given

### NEW C. OF C. MANAGER TO BE EMPLOYED SOON

J. D. McCain, president of the Spur Chamber of Commerce, states that a manager-secretary to succeed L. M. Huff will be employed by the board of directors in the very near future. The selection committee has interviewed several applicants for the job recently.

## Methodist Revival Opens Easter Sunday

The annual Easter Revival will begin at the Spur First Methodist church on March 25 and continue through Sunday, April 1, states Rev. Cal C. Wright, pastor.

REV. CHARLES PIKE

Two services will be held daily at 7:30 a. m. and 7:30 p. m. during the week days.

Rev. Charles Pike, pastor of St. John's Methodist church Stamford, will be guest speaker, and Jackson East will act as song director.

Available at the organ and piano will be Misses Margaret and Beverly Wood and Myra Ratliff, and Mrs. W. F. Gilbert and Mrs. J. W. Henry.

Rev. Pike is a sound, forceful and spiritual preacher. Also, he is very effective as a personal worker, soloist, active in duet or quartet work and directs congregational singing.

## McAdoo Club Will Sponsor Fun Night

A fun night will be held in the McAdoo gym on April 6 under the sponsorship of the McAdoo Home Demonstration club, it was announced this week.

Games will begin at 8 p. m., and will include 42, canasta, bingo and other favorites.

A quilt made by the club members will be given to the winning person. The coquet will be on display this week in Spur.

## Brashear Home Is Damaged By Fire

A loss amounting to approximately \$500 was estimated in a fire which damaged the kitchen of the E. A. Brashear residence at 121 East Hill Street early Monday morning.

## License Plates Will Be Issued In Spur

A county official will be in the Justice of Peace office in Spur to register vehicles for 1951 license plates on Friday and Saturday of this week, according to C. C. Kimmel, sheriff.

Persons applying are urged to bring their certificate of title and last year's registration receipt, added Kimmel.

The Dickens county Red Cross drive passed the half way mark toward its goal of \$2500 this week with a total of \$1318.53 already in, states funds chairman A. J. Harvey.

This amount has been collected in the city of Spur since last Thursday morning and at present no report has been received from other county towns and communities.

County chairman George S. Link, Jr. states that although the city is within \$200 of its \$1500 goal, the drive will be extended extensively through March 31. Link and Harvey urge everyone who has not yet given to the Red Cross to do so this week not only to reach a goal but to prepare our county chapter to meet the expensive needs of Red Cross.

Local ladies' clubs aided in the drive last Saturday with booths set up over town. A total of \$239.90 was collected in this manner. Plans are now being made for local girl scouts to make a door-to-door canvass of the city to give everyone an opportunity to give.

In its service to needy civilians, veterans and service men, the local and national Red Cross is striving for its highest goal since the war. The national goal is \$85,000,000.

## Abilene Evangelist To Conduct Revival At Church of Christ

The annual spring Gospel meeting of the Spur church of Christ is scheduled to begin at 10:50 a. m., Sunday, March 25.

YATER TANT

Fanning Yater Tant of Abilene, who preached in the spring revival for the local church last year, is to be presented this year in a return engagement as the principal speaker.

He will arrive for the Monday night service and continue through the meeting ending on April 4. Services are scheduled twice daily, 10:00 a. m. and 7:45 p. m.

Evangelist Tant is well known in the ranks of the churches of Christ as an outstanding speaker and writer. He has served as lecturer at Abilene Christian College and Florida Christian College, and is at the present time editor of the "Gospel Guardian," a publication of national scope.

In addition to the message of Tant, the meeting will feature congregational a cappella singing under the direction of Gerald Hallford of Abilene Christian College. Hallford is a senior at Abilene and is a member of the College a cappella chorus. He will arrive on Sunday morning.

Both Sunday messages will be delivered by the resident minister, Willis G. Jernigan, while the Monday morning sermon will be delivered by Harvey Pearson, minister of the church of Christ, Dickens.

JOIN THE RED CROSS!

## Easter Bestows Its Blessings and Beauty

## "He Is Not Here, He Is Risen"

Luke 24:6

Sunday is Easter. All in all it will be a beautiful day, for there is no time when the soul is so uplifted, and the soul of nature so expansive as at Easter time. It is a day of bright colors and new clothes and tight shoes. It is a time when the flowers smell the sweetest, birds sing the loudest and all nature parades as if in all her finery. But it is more than that.

It is the crown of the Christian's year. It is Christianity's holiest ground. For it is the climax of Christian faith. It commemorates the final day of a week that began some nineteen hundred and eighteen years ago with treachery that was marked by falseness and brutality. It was a week that was highlighted by the crucifixion, but one that ended with the resurrection. The Son of Man was nailed upon the cross by sin and stupidity. And when the day was done, He was taken down from the cross and laid in a borrowed tomb of Joseph's private garden at Calvary. Watched by weeping women, they closed the doors of the tomb, and a Roman officer came with the governor's seal and affixed it on the tomb's door. Death was the penalty to anyone who would break the seal or take away the dead.

A new dawn breaks in all of its glory, and as light comes to Joseph's garden, women find an open and empty tomb. There at the door of the tomb, was an angel of the Lord who uttered the words:

"He is not here, for He is risen." So we behold our Lord's epitaph not written in gold or stone, or carved upon some tomb; "Here lies Jesus of Nazareth." Rather it says: "He is NOT here. He is risen."

It has been and is the imperishable faith of the Christian Church throughout the Christian era, that our Lord, having triumphed over death, has become the forerunner and pattern for us all. That as He died so shall we. We have a rendezvous with death. But as He LIVED again, so shall we, who in that day shall be found worthy to live again.

Life is not defeat. Death is not defeat. The only defeat is when a man or a woman settles down and becomes satisfied with a low-grade, shabby way of thinking and living, so that death holds for him or her no new adventure. He triumphed over life. No tomb can hold Him. Bury Him and on the third day He will rise again.

"He is NOT here, He is risen."

Our men who are so gallantly fighting in Korea for something that is deeper than a thought or gesture will, where it is possible, attend an Easter service. Some cannot and some may not care to, as it is here. Regardless of what church you prefer to attend, the doors will be opened to you. TO YOU who cannot attend, this brief message comes that in this world, the Resurrection Hope may be yours.

Rev. T. R. Elder.

## Meeting Called To Organize Softball League Tues. Night

Plans are now underway in Spur to formulate the City Softball League for 1951. Players, managers and sponsors of last year's team have called a meeting for 7:30 p. m. Tuesday, March 27 to organize.

The meeting will be held in the Lions club hall over the bank. The six-team league last year was the first in several years—not with good success and large crowds for the entire season. The loosely organized group played a double round robin with Proctor's and the Farmall House meeting in the playoff.

Plans are this year to create a closer organization within the league to insure promptness in starting games, proper use of league equipment and grounds, and other matters which will arise during the playing of the schedule. All players, managers and sponsors are urged to attend this meeting. Newcomers to the city and men who didn't get to play last year and would like to play this year are also invited.

## COWBOY IS SCRAPPED IN FALL WHICH KILLED HORSE

Does he feel lucky? While riding herd on the Matador Ranch last Wednesday 17-year-old Tommy Hemphill was pitched from his horse off a 40-foot bluff.

The horse was killed while Tommy received only a few scratches and a good shaking-up. He is a son of Mr. and Mrs. J. H. Hemphill of the Highway community near Spur who are mighty glad of his miraculous escape.

### EASTER SUNRISE SERVICE

Presented by THE YOUTH OF SPUR CHURCHES  
Easter Sunday, March 25  
6:15 A. M.  
Jones Stadium

Program

(Endorsed by the Churches of Spur and directed by J. Malcolm Edwards)

## Baptists To Stress Enlargement During Study Course Week

The First Baptist Church will hold an Enlargement Campaign from March 26 through 30, states J. Malcolm Edwards, educational director.

During the evening sessions study course books for all ages will be taught. The elementary children will be led by Mrs. Tang Smith in the study of Bible Stories.

Mrs. C. Melvin Rathel will teach the Junior book "Jesus Saves." Edwards will teach "Intermediate Fishers" to the intermediates. The young people and adults

## Members, Guests Attend Annual C. of C. Banquet; Rev. Leon Hill is Main Speaker

Approximately 155 members and guests attended the annual Membership Banquet of the Spur Chamber of Commerce Monday night in the high school gym.

Marking the end of the first year since re-organization, the chamber reported to its members forty projects accomplished or initiated.

Dr. W. F. Patrick acted as master of ceremonies with Rev. Cal Wright giving the invocation. A buffet style barbecued chicken meal was served by the banquet committee headed by Billy Ray Barrett.

Main speaker for the evening was Rev. Leon Hill of Amarillo, introduced by Leon Huff, manager. In his address, Rev. Hill pointed out the need of organization, participation, cooperation, and agitation in a successful chamber of commerce. His wit and humor added much to his talk and was enjoyed by all present.

Preceding Rev. Hill's address, incoming president J. D. McCain presented a plaque to the outgoing president Lester Garner.

The following officers and directors for 1951-52 were introduced: president, McCain, vice-president, George Gabriel, finance officer, J. Fike Godfrey, and directors, W. T. Andrews, Bob Blackshear, E. S. Caudle, Joe B. Long, Dr. M. H. Brannen, D. J. Dyess, Lawin Lee, Lester Garner, Coy McMahan and O. L. Kelley.

A new hat was presented to Huff by the officers and directors for his accomplishments as chamber manager-secretary.

## Board Elects Cook As Superintendent For 3 More Years

C. F. Cook was recently elected to another three year term as superintendent of the Spur schools by the board of the Spur Independent School District.

Cook has had 24 years experience in Texas schools, serving 15 years with the Peacock school, one year at Lorraine and eight years at Spur.

He is a 1927 graduate of Howard Payne college, receiving his B. A. degree from the Brownwood school. He received his M. A. degree from Hardin-Simmons University in Abilene.

Last year Cook served as vice president of the West Texas State Teachers' Association and is this year a member of the executive committee.

During his eight years in the Spur schools, he has served diligently as superintendent and has overseen many improvements and expansions in the local educational facilities and program. Among the major projects during his administration was the recent construction and equipping of the new East Ward school and the new West school.

Interest arose in the coming school board election this week with the announcement of three more candidates for the board positions.

Fred Neaves, Leon Reagan and A. V. Hoover officially applied for a spot on the ballot this week, according to Mrs. Vivian Gibson, board treasurer.

Present board members whose terms expire this year and who have been placed on the ballot for reelection are O. M. McGinty, Dr. W. K. Callan and D. J. Dyess.

The election will be held on April 7, 1951 at the city hall. If any person or group of persons desire to submit further candidates they may do so by pursuing the proper procedure through Mrs. Gibson not later than March 29.

Mrs. W. H. Suddeth has returned from a two month visit with relatives in Coleman and Hill counties.

## Womanless Wedding Staged By Civic Club

The Dickens Civic club will stage a "Womanless Wedding" at 8 p. m. tomorrow night, March 23, in the Dickens High School auditorium.

The play will feature C. C. Kimmel as Tiny Oats, the bride, Claude Swearingen as the groom; Louis Richards, father of the bride; Fred Arrington, mother of the bride; Charles Taylor and Ben Overstreet as Uncle and Aunt of the bride; Keith Garner as Miss Ubika Scratchfeed, a jilted sweetheart; and Roy Ward will be the Official Splier. These are only a few of the 32 persons cast in the play which should produce laughs from start to finish. So come and bring your smelling salts, advises a spokesman.

After the play the ladies of the Civic Club will sell coffee and cake in the school lunch room.

## REV. PAUL MASON TO PREACH AT BAPTIST CHURCH SUNDAY

In the absence of the pastor, Rev. C. Melvin Rathel, Rev. Paul Mason, church administrator of the First Baptist Church, Lubbock, will preach at both services at the First Baptist Church Sunday, March 25.

Rev. Rathel is leaving today for revival meeting in Martha, Okla. Dewey James, layman, will be in charge of the morning worship service next Sunday, April 1, and the pastor is expected to be back to Spur before the evening service.

MR. D.A.'s  
CRIME  
CALENDAR

MARCH is the Month for...

**RURAL CRIMES.** Farm-bound (and often snow-bound) through the long, winter months, rural dwellers now find themselves out-of-doors and rarin' to go. Pent-up emotions are suddenly loosed, old flames and animosities recalled. Result: violence, burglary, aggravated assault and purple crime keep country law enforcement officers hopping. You can name an uprising in rural infractions in almost every crime category. This is not merely the hazard of a guess: crime reports covering farm areas jumped 74 per cent this time last year and are still on the rise. Homicide and auto thefts, oddly enough, drop noticeably in rural areas.

**THE EQUINOX.** Crimes are seasonal. Later this month, the sun's center crosses the equator and days and nights become of equal length. In many ways the seasonal change affects people strangely. In some respects the personality change takes a trend toward rash, ungovernable action—and law-breaking. Persons never before involved in such matters are suddenly—but here predictably—mixed up in violent physical outbreaks influencing their entire lives.

**ADULT DELINQUENCY.** The kids are well into the year's first semester after an early revolt against the discipline of the classroom. Sporadic incidents of juvenile delinquency will continue to crop up but on the whole, with mid-term exams staring them in the face, the youngsters will not break out of their rebellious shell until summer vacations. But parental delinquents will be on and down! The children being occupied removes that aspect of their own obligations—the grown-ups step out, have a good time, become careless, and get into trouble!

Watch For "Mr. D.A.'s" Calendar For Crime in April!

Hobbies Urged For  
Middle Aged Group

Nearly "forgotten" in the recent pre-crimes emphasis on youth and old age, 31,000,000 middle-aged Americans, growing older in record-breaking numbers, are now due for national attention as the important one-fifth of our population charged with the major part of defense production.

A survey just completed shows that if the pattern of World War II is repeated on the home front today, the middle-aged group too old for the draft, but at the peak of production, will be rushed so hard with necessary defense work that its members will be old and nearing retirement before they realize it.

Americans are already growing

older in the greatest numbers in our history, according to the survey-conducting Mutual Benefit Life Insurance Company, Newark, N. J. People 65 years old and over stood at nine million prior to Pearl Harbor. Today, there are 11 1/2 million of them, and, by 1960, 15,000,000 are expected.

In a sort of reverse to "in time of peace, prepare for war," Mutual Benefit Life is quickly readying a guidebook for the middle-aged to use now in charting what to do and how to do it when they suddenly find themselves old and retired in a more peaceful world. The plan is to help soften what

SCRIPTURE, MARK 15-18  
DEVOTIONAL READING: 1 Cor. 13:12-13

Death to Life

Lesson for March 25, 1951

THE FLOWERS in the church on Easter morning will not have been there long. Less than 24 hours before, the church was dark and empty. At no time in the year does the church look gloomier than on Easter Eve. In many churches the altar is draped in black. Good Friday commemorates the saddest day in earth's history. Easter the most joyous. Yet, in the most joyous they come only 48 hours apart. This reminds all Christians that another Good Friday never stands by itself, but each gives meaning to the other.

Cross and Crucifix

THE Protestant churches usually have a cross. That is because Protestants wish to remember that the Cross is empty, that it is not a dead Jesus whom we worship, but a living, risen, reigning Christ.

Even in the churches where crucifixes are numerous, there may be pictures or statues representing the risen Christ. Suppose there had been only Good Friday, suppose that had been the end of Jesus? Then there would have been no particular point in the cross. It would have been the mere instrument of one more violent death, another case of justice gone wrong, another tragic failure.

The Resurrection showed who it was that hung upon the Cross; the Resurrection showed that the Cross was not a scene of failure but of victory. "Death could not keep its prey; He tore the bars away!" But on the other hand, what would the Resurrection have been without the Cross? Just another miracle—something to make our eyes pop, but not to make us grateful. The New Testament tells of or hints at many resurrections during the time of Christ; but it is not egotistic about any of them, with this one exception.

THE New Testament represents the Resurrection in many lights. One of the most striking is that it was a reward, a reward for the Cross. That is, God "highly exalted" Jesus because of his willingness to die on behalf of others (Isaiah 53:12; Phil. 2:8). The Cross was the battle with the dark powers, and the victory; the Resurrection was the march of triumph.

On the Cross Jesus was both victim and victor; on Easter morning he was all the victor. The Cross was a perfectly natural event; by it Jesus underwent the worst that nature and human sin can do. On the Cross Jesus was murdered, for murder it was, however "legal" it was made to seem; and he called down no miracle to save himself.

But at the Resurrection Christ rose above nature, as nature's Lord. The early church preached both Cross and Resurrection; and it has never forgotten either one.

"As He is, so are we..."

HERE is another important truth about the Cross and Resurrection. From the very beginning the church has refused to think of these events as concerned with Jesus alone. The Christian who has begun to work deeply into the meanings of his faith will see farther than the child does. He will see both Cross and Resurrection from the inside.

The church has long taught that on the Cross God was doing something for us, and that through the Resurrection God is doing something in us. Paul expresses the life of a Christian as of one who is "dead with Christ" and "risen with Christ." The Christian life is thought of as one which has undergone both death and resurrection. Death to sin; rising to a new kind of life; death to a kind of existence in which we are slaves to what is worst in us; rising to a kind of life in which we are "more than conquerors."

Not all Christians have understood this, to be sure. Perhaps the greater number of Christians think of their life as one of simply trying (not very hard) to do the best they can, and usually failing. But the really high-level Christians have discovered something more profound: that the Christian actually has access, by faith, to an inner power which is the very same that raised Jesus from the dead. Every Christian can share, now, in the resurrection-life of Christ. And this is the secret of Easter.

medical science calls "retirement shock," by stressing the importance of hobbies and other diversions.

Industrial Week Is  
Proclaimed April 1-7

Every governor in the United States is continuously besieged with requests to issue proclamations establishing "days" and "weeks" to promote various causes. Generally, the promoters of the "days" and "weeks" are merely seeking publicity which such proclamations almost automatically assure. But occasionally one comes along that is worth thinking about. Such a proclamation has been made by Governor Shivers. It establishes April 1-7 as Texas Industrial Week. The Texas Legislature is also interested in this week and has passed a concurrent resolution, sponsored by Senator Keith Kelly and Rep. Bill Abington of Fort Worth, establishing

Range Reseeding  
Is Wise Investment

A million acres of depleted sagebrush rangeland in western Colorado can be reseeded to increase

Texas Industrial Week annually.

One of the purposes of the week is to focus public attention on industry and business. But the governor and the legislature realize that allgements of the state's population must be given an understanding of the basic factors that have led to the tremendous industrialization of Texas. There are three such factors: (a) the attitude of encouragement the state and local governments have maintained toward industry; (b) the policy of responsible taxation which permits industry to re-invest and expand; and (c) the policy of minimum controls and regulations which permits industry and business to operate without excessive harassment from the state and local governments.

by several times the amount of grass now present.

In addition to boosting forage, well-established stands of grass would contribute to soil stabilization and to reduction of siltation on western watersheds, say authors of a new bulletin, 413-A, published by Colorado A. & M. College at Fort Collins designed to help livestock men and range administrators do a better job of seeding depleted sagelands.

Seeding trials on the more productive watersheds, say authors of a new bulletin, 413-A, published by Colorado A. & M. College at Fort Collins designed to help livestock men and range administrators do a better job of seeding depleted sagelands. Seeding trials on the more productive watersheds, say authors of a new bulletin, 413-A, published by Colorado A. & M. College at Fort Collins designed to help livestock men and range administrators do a better job of seeding depleted sagelands. Seeding trials on the more productive watersheds, say authors of a new bulletin, 413-A, published by Colorado A. & M. College at Fort Collins designed to help livestock men and range administrators do a better job of seeding depleted sagelands.

The bulletin describes sagebrush lands ranging from 4,500 to 10,000 feet altitude. It tells where to reseed, methods of sagebrush re-

moval, seedbed preparation methods, what, when and how to seed, and how to graze reseeded areas.

A clove of garlic in olive oil, in 1/2 cup paprika, let set for 15 minutes, then brush over the steak. Slide into broiler 2" from flame. Out of this world for fat and crusty finish!

If it's washday in your house and you need plenty of hot water, don't worry about the 15 gallons of hot water your man uses up for his morning shower because your automatic gas water heater immediately starts to replace hot water as it is used.

Gentle reminder: Tepid soapy water and a cloth wipe up spilled food in your gas refrigerator more easily than if you wait for the food to harden.

Butterscotch toast: Spread toast with butter or margarine, sprinkle with brown sugar. Keep under broiler about 4" from the flame until it bubbles.

Go to church Sunday

### Tractor Output Is Up; Supply Down

Despite increased production of tractors, farmers on the South Plains are liable to find tractors

among major shortages as they begin another year of farm production in which record-high crops are asked.

This report is from a business paper of the farm equipment industry, which also cites under current conditions that tractor

production was up 30 percent in January, 1951 as compared with January, 1950.

Retail sales of tractors also were \$18 million ahead of last year's January record, but were below December largely because of low inventories by dealers that resulted from fall and winter strikes, the paper said. Retail sales were \$137 million this January, compared with \$119 million a year ago, and with \$150 million in December. The amounts included tractors and farm equipment.

Farm income in January was below December, a seasonal expectation but was five percent above January of last year.

The situation on materials for use by manufacturers was reported as perceptible tightening due to increasing defense production, but "essential industry" recognition for farm equipment seemed assured. During the first two weeks in February, defense requirements took as much as 50 to 70 percent of plate, sheet, bar and structural steel, and heavy iron-roads were made on alloy steels which in turn affected the supply of bearings, valves, disks, and other equipment parts. As a result, some manufacturers are shipping "almost complete" machines to dealers to provide storage for later production, and while current production is reducing stockpiles, a step-up in procurement was expected as other less essential industries reduced operations.

Under the Controlled Materials Plan of allocation of materials, now in process of development, farm equipment is among the major industries listed in "B" class, which includes only those considered essential to the defense program. The plan scheduled for July 1 would allocate all materials in proportion to industry needs, as far as supply will permit, and farm equipment's "B"

classification is expected to assure materials for at least essential farm needs. USDA is to continue to be the claimant agency for farm equipment, fertilizer, agricultural chemicals and food processing.

Prices for farm equipment have been advanced four to six percent by several manufacturers following the rollback to December 1 levels and the price freeze of January 26.

Thus it is important that farmers conserve what machinery they have, keep it in excellent repair at all times, and operate it to save undue wear and waste. The supply of tractors and field equipment is well ahead of the situation at the start of and during World War 2, but the big job is to keep 'em running efficient and profitably.

Picking machines will not successfully harvest stormproof cotton. During the past few years mechanical pickers have been used in South and Central Texas to pick cotton of open-boll varieties. Approximately 300 of these machines were used in Texas in 1949 and 1950.

Production methods should be used that will make the harvesting operation more efficient and these differ for the two types of harvesting machines.

General recommendations for producing cotton to be harvested with mechanical pickers and strippers are given by the research workers. Plant in 40-inch rows.

Plant storm-resistant or storm-proof cotton for harvesting with a stripper and open boll type for harvesting with a picker. Space

plants from two to six inches per foot, depending upon soil fertility and moisture conditions. Such spacing tends to keep the stalk size down for harvesting with a stripper and helps to keep branch limbs short for harvesting with a picker.

Plants should also be spaced evenly. Hill-drop planting is not advised if harvesting is to be done with a stripper. When the picker is to be used, cotton may be hill-dropped with short spacing. For the late cultivations, sweeps should be set so as to leave the middle lower than the ridge of dirt at the base of the plants.

Apply defoliant early enough so that few, if any green bolls will be left unopened when the cotton is ready to strip. After applying the defoliant, from 7 to 15 days should

elapse before harvesting. On the High Plains, allow up to 21 days. If available air-planes should be used for applying late insect control and defoliation materials.

Tractor wheel shields should be used, if needed, to prevent damage to plants and bolls during insect control, defoliation and stripping operations. The ground speed of the harvesting machine should be determined by the volume of cotton the machine can handle. Cotton should not be mechanically harvested when damp and should be ginned in a plant equipped for doing the best possible job.

### Safety Conference Is Slated March 25-27

Two additional sessions, one on farm and ranch safety, and the other on college accidents prevention problems and programs, have been added to the regular agenda of the 12th annual Texas Safety conference to be held March 25-27 in San Antonio.

Other sessions will include industrial safety, traffic safety, traffic courts and school safety.

Experts and authorities on safety will take part on the program. Among them are Col. W. L. Tubbs, assistant for Ground Safety, Department of Air Force, Washington, D. C. and Hon. Meade F. Griffin, associate justice, Supreme Court of Texas.

### CIVIL DEFENSE

## Small Communities Will Care For Evacuees of Bombed City

By Walter A. Sheard

(This is the second in a series of five articles on the all-important subject of civil defense.)

IF YOU WERE ONE of those directly beneath the explosion of an atomic bomb over your home town tonight, there would be practically no hope of your survival. Even if you lived anywhere within a half-mile of the center of the explosion, your chances of living to tell the tale would be about one in ten. From a half-mile to a mile away, you would have about a 50-50 chance, and farther away than that your chances would be pretty good that you would be able to help your less fortunate neighbors.

And of course within these areas your chances of injury would be even greater. But your chances of recovery from radioactivity or other injuries would be good.

And if you have a few minutes warning of an impending air raid, these chances are vastly improved. What should you do, even if you have only a few seconds warning? The first thing to remember is to fall flat on your face. If you have time to pick a spot to fall, choose first to flatten out against a cellar wall, or even an inside wall, or beneath a sturdy table or bench. Or if you are outside, drop beside the base of a building, or fall into a ditch or gutter. And when you fall, cover your face in the crook of your arm, and cover any exposed skin with whatever is handy and hold it for several seconds after the explosion to prevent flash burns.

To you folks in the home towns of the nation and in the rural areas there is little danger of a direct atomic bomb overhead, for the enemy would most certainly aim at one or more of some 16 strategic target areas in large cities and industrial areas. But your neighbors in your nearest large city might suffer as follows: A surprise daylight attack on an average city would produce about 120,000 casualties. Of this total, approximately 40,000 would be killed outright or die the first day. An additional 20,000 would die in the following five or six weeks. Of the 20,000 remainder, about 48,000 might be suffering from burns, 40,000 from mechanical injuries and 16,000 from radiation injuries. This total of over 100 per cent arises from the fact that a large number of casualties would be suffering from two or more types of injuries. To top this staggering total, there follows the complex and difficult job of evacuation, either after the bomb drop, or of course, if there is warning, preferably before the drop.

And here is where folks in strictly rural communities and the small towns of the country can play a tremendously important role in their state's civil defense set-up.

### Mechanical Harvest Can Be Efficient

Cotton can be harvested efficiently with mechanical pickers and strippers—if proper methods of production and preparation for harvesting are used.

The results of mechanical cotton harvesting experiments conducted by the Texas Agricultural Experiment Station in 1948, 1949, and 1950 at Lubbock, Temple, Denton and College Station are given in Progress Report 1337 and are the basis for the above statement.

Stripping machines are generally used on stormproof or storm-resistant varieties of cotton with a stalk height of not more than 39 inches. Approximately 50 percent of the cotton grown on the High Plains in 1949 was harvested with mechanical strippers.

Under the Controlled Materials Plan of allocation of materials, now in process of development, farm equipment is among the major industries listed in "B" class, which includes only those considered essential to the defense program. The plan scheduled for July 1 would allocate all materials in proportion to industry needs, as far as supply will permit, and farm equipment's "B"

## ANOTHER STEP TOWARD SLAVERY

(EDITOR'S NOTE: Alfred P. Haake, Ph. D., Mayor of Park Ridge, Illinois, is a noted Economist, Business Consultant, Lecturer and Author.

The recent government action in Bonn, Germany, giving half of the management of industry to labor unions, is significant as a step in the direction of destroying the right to own property, and leading up to eventual drying up of capital, lowered production of goods and reduced standards of living for the very people who have bludgeoned the owners into giving up half of their property.

The issue at stake is what the New Dealers used to speak of as "property rights versus human rights," a sentimentally glossed hypocrisy hiding the real issue of whether individuals shall be permitted to own property, and be protected in that right by their government.

The radical will hail the advent of destroyed property rights. "At last," he may exclaim, "Justice has arrived. Now property rights are reduced to their rightful position subordinate to human rights, and human beings need no longer bow before the tyranny of soulless property. The day of emancipation and property has arrived."

Ironically enough, that is sometimes the position of men who should know better,—among them clerks and even educators along with the politicians whose conviction spawn with the prospects of votes. We might laugh off the ponderous pomposity of their righteousness, were it not that sheer stupidity seems to strengthen their conviction.

The simple truth is that there is no such thing as "property rights" as opposed to "human rights." Rights can belong only to human beings. The struggle between communism and our own representative form of government has to do largely with the rights that an individual human being may possess and from whom he receives those rights.

What is thought of as a "property right" by those who would confiscate the property, is really a "human right." It is the right of a human being

to own property. When any society or government limits or destroys "property rights," what it actually does is to limit or destroy the rights of human beings to own property. There is no other way to limit or destroy property rights.

We speak of the right of a man to work, and we recognize that right as being very important. We recognize the right of the individual to save out of his earnings, and to invest those savings. We recognize a man's right to freedom of movement, freedom of worship assembly and speech.

But none of these rights are substantial or amount to anything more than empty words, unless the right, in every instance, carries with it the right to own property. It is folly to speak of the right of a free man to work if the fruits of his labor belong to someone else. Why should a man save by self-denial if what he saves may not belong to him? Freedom of movement is silly unless a man can transport with him his own belongings, including the shirt on his back and the extra crust in his knapsack. Freedom to worship must include the right to make sacrifice as part of that worship, but what shall a man sacrifice if he has no belongings? If a man is to be free to assemble and to speak his mind, he may not be beholden to others for his food, clothes and shelter, provisions which are granted him as the price of speaking the mind of those who own the goods allowed him for his sustenance.

No indeed. We cannot take from a man the right to own property without taking away from him the very core of every other right permitted to him. Either the man, in freedom, is permitted to provide for himself, out of his own earnings and belongings, and so is subject to his own decisions, or he is fed and provided for by others who yield him enough goods to meet his needs as the price of yielding his freedom to them.

Man can be free only if his rights include the right to own property, and to hold it even against all the power of government backed by a majority of the people. Destroy that right, and the basic spur to production is also destroyed,—and those who profit momentarily by the confiscation finally sink into poverty along with those whose rights to own property were taken from them when their property was confiscated.

## First All-Texas Worsted Fabric

Garland Adair (left), curator of history for the Texas Memorial Museum, Austin, accepts from Robert E. Pent samples of the first worsted fabric ever woven from Texas yarn spun from Texas-grown wool. Pent is president of Pioneer Worsted Co., New Braunfels, the first worsted plant to be established south of the Mason & Dixon Line.

## Truck Arrests Are Made Over State

More than 17,000 truck arrests were made on Texas Highways for overloading and other violations for the year ending August 31, 1950, according to a recent report released by Kent Odom, Chief of the License and Weights Division of the Department of Public Safety.

8,447 cases were filed in Justice Courts throughout the State, charging the operation of vehicles with loads in excess of the 48,000 pound gross load limit and over 18,000 pounds of weight on each truck axle; 3,891 cases charging operation in excess of registered gross weight of the truck and 5,582 cases were filed for miscellaneous offenses, such as overlength, overwidth, driving while intoxicated and operating without permits.

According to other report, nine trucking companies were arrested more than 100 times last year. One Dallas firm with 265 arrests, was fined over \$5,000 for hauling more than a million pounds excessive weight.

The License and weights Division of the Department of Public Safety is composed of only 33 inspectors, who must work in pairs patrolling the 36,840 miles of the Texas Highway Systems. During the period covered by Chief Odom's report, these guardians of the State roads checked more than 72,000 trucks and found one out of every four violating the law.

The January monthly report just released by the Public Safety Department indicates an increase in highway truck law violations. It shows a total of 2,051 arrests.

Many states have found the only effective way to prevent these constant violations of overloading trucks on State and County roads, is by requiring the overloading trucks to reduce the excessive weight to the legal limits before proceeding over the roads.

Texas has no such unloading on the spot law. A bill is now pending in the Senate, known as H. B. 11, designed to stop the practice of overloaded trucks continuing on their way after paying a small Justice Court fine. The proposal would also give authority to the Department of Public Safety, the County Sheriff or his deputy to make such arrests.

## Service Record Books Are Available Now

Service Record books containing pictures and war records of Dickens County World War I and II veterans have arrived in a second shipment to be distributed by Mrs. Larry O. Boothe, she stated this week. Covered with green, and holding pages of photographs and battle records of each serviceman possible, the books are to be sold to anyone desiring such a record. Persons interested may contact Mrs. Boothe. Pictures used in the album were saved to be returned and may also be secured from her.

The U. S. isn't the only country that makes automobiles, but it's the only nation in which the workers who make the cars can afford to buy them." Chicago Tribune.

# Powered for thrills - Priced for thrift!

HERE, packed in 3,615 nimble pounds and 204.8 inches of over-all length, is the car marvel of '51.

In the few short weeks since it started to roll off the assembly lines, it has written a bright new page in automotive history for the low-priced field.

What Buick engineers have done is come up with a brand-new high-style body—new in every contour and dimension.

They've designed a brand-new, weight-saving frame, exclusively for this SPECIAL.

Then they've added the power-packed F-263 Fireball engine—which was new in the 1950 SUPER—and just wait till you see

what that does for this nimble performer.

There's a power-to-weight ratio that spells thrill and thrift in operation—at a first cost that's just a breath away from the lowest price level.

We'd like you to see and drive this newest Buick marvel—find out for yourself what a honey it is to handle, and what a cinch it is to buy. Why not drop in and see us the very first chance you get?

**No other car provides all this!**  
DYNAFLOW DRIVE—reverses strain on driver and car  
FIREBALL POWER—high-compression, valve-in-head engine gets more power from every drop of fuel  
PUSH-BAR FRONT—combines smart style and unsurpassed protection  
WHITE-GLOW INSTRUMENTS—greater clarity at night  
TORQUE-TUBE DRIVE—steady ride, improves driving control  
4-WHEEL COIL SPRINGING—cushions ride, saves servicing costs  
DUAL VENTILATION—outside air fed separately to right or left of front compartment  
SELF-ENCLOSING BRAKES—hydraulic—multiply pedal pressure five times at brake drum  
STREAMLINE STYLING—tapered, car-length fenders, gleaming sweepers on most models  
Plus: Self-lubing luggage lid, Stop-On parking brake, two-way ignition lock, Safety Side rims, Hi-Policed engine mounting, Body by Fibar.  
\*Standard on Businessmaster, optional at extra cost on other Series. When better automobiles are built BUICK will build them.

**Mrs. James A. Allen Addresses Clubs In Meeting At Legion Hut Tuesday**

"Clubwomen must spread the horizon for people," declared Mrs. James A. Allen, president of the seventh district of Texas Federation of Women's clubs, before an assembly of all Spur women's clubs in the American Legion hut Tuesday afternoon.

Mrs. Allen was joined in her discussion of Texas club work by Mrs. J. M. Crews, trustee of the Headquarters Library, who spoke on the Clubwomen's home in Austin. Both are from Childress.

**Luncheon Courtesy**

A spring luncheon complimenting the speakers and guests was given by Mrs. O. M. McGinty at her home, 714 North Parker. The Twentieth Century Study club acted as host group during the day.

Preceding Mrs. Allen's address at the afternoon meeting, musical selections were presented by a clarinet quartet composed of Billie Sue Gregory, Sandra Watson, Virginia Hord and Gail Love, and a brass quartet of Mr. and Mrs. Melvin King, Wayne Hoover, and Kenneth Watson.

Mrs. McGinty, district vice-president, introduced the guest speaker.

"The spiritual value of clubwork will survive [although it often will wear various wardrobes]," stressed Mrs. Allen in accounting for the broad scope of women's clubs.

"Are we ready for television?" queried the speaker, adding that when using television there must be a setting of truth. "The American home can be a beautiful gem of influence," she concluded, urging a closer unity of home and family.

A film of the \$100,000 Clubwomen's home in Austin was shown by Mrs. Van North following the addresses.

**Sedgwicks Entertain With Game Party**

Mrs. and Mrs. C. L. Sedgwick entertained a group of friends with an informal 42 party in their home near Roaring Springs Friday night.

Corn was popped and served to guests. Attending were Mr. and Mrs. Jack Jones and Jacques of Lubbock, Mr. and Mrs. R. H. Hill of Glenn, Mr. and Mrs. Jackie Tooke and Jerry of McAdoo; Mr. and Mrs. Charles Owens, Charleen and Chuck, Mrs. Lorine Robinson, Eddie and Patsy, all of Roaring Springs.

**Mission Study For Judson Circle Group**

Mrs. Russell Williams entertained Judson circle members of First Baptist WMS in her home Monday afternoon.

A mission study from the book, "Shining Like the Stars," was taught by Mrs. C. P. Scudder.

**Layette Shower Is Sunday Compliment**

Mrs. John Dunaway was complimented with a pink and blue shower in the home of Mrs. L. S. Wilson on March 11.

A handmade lace cloth covered the serving table, and a centered arrangement of pink carnations and sweetpeas was flanked by blue tapers.

Hostesses were Mmes. A. C. Vaughn, Jack Simmons, R. B. Walsworth, C. W. Proctor, Ernest Kearney and Wilson.

Guests calling and those sending gifts were Mmes. Leon Reagan, C. A. Fagan, Harry Patton, Leonard Joplin, M. C. Dunaway, Billy Bigham, Elbert Garner, Carol French, Coy McMahon, John Reid, Rip Garner, R. L. Benson, T. B. Watson, Ferrel Albin, A. L. Foreman, Woodrow McArthur, V. C. Smart, Floyd Smith, Joe Thannisch, Willis Smith, Marshall Powell, Tom Smith, Woody Grice, Melvin King, A. M. Hoover, Elmer Cross, Larry Boothe, Charles Scott, Bill Chambers, Russell East, A. V. Hoover, and Ralph Brantner, L. V. Burckett, and K. P. Brantner of Jayton, W. V. McKay, Whiteface, Pat Fletcher, Fort Worth, and Travis Hoover, San Angelo.

**Easter Egg Hunt To Honor Kindergarten**

An Easter egg hunt for members of the kindergarten class of Mrs. A. G. Dunwoody will be held at 10 a. m. tomorrow (Friday).

Children will meet at the home of Mrs. C. E. Fisher at the Experiment Station, each bringing a basket.

Prizes will be attached to several eggs. Refreshments of rabbit shaped cookies and soft drinks will be served.

Mrs. Sam Hawkes is chairman of the room matrons in charge of plans for the egg hunt. Others are Mmes. C. O. Fox, Fisher and Richard Jones.

**Highway Club In Ray George Home**

Mrs. Ray George entertained members of the Highway home demonstration club in her home March 12.

Mrs. Harriette Hatcher, county HD agent, gave demonstrations on mixing oaten bread, and distributed leaflets of recipes for orange loaf and oaten breads.

The breads were served with refreshments to Mmes. Edwin Denison, Kelsey Putman, Jimmie Hahn, Richard Westfall, Forest Martin, Earl Duzer, Clarke Morgan, M. E. Tree and Frank Walker.

**H. D. Club Meets In Community Center**

Mrs. Ivy McMahan was hostess in the Dry Lake Community Center club house Wednesday, entertaining members of the Dry Lake Home Demonstration club.

"My family's favorite bread" was answered by each guest during roll call. A demonstration on quick loaf breads was given by Mrs. Harriette Hatcher, county home demonstration agent.

Eleven members and two guests were served refreshments. The group's next meeting will be in the club house with Mrs. Jeff Smith as hostess.

**East Spur Club Studies Quick Breads**

Members of the East Spur Home Demonstration Club met in the home of Mrs. Russell Williams on Thursday, March 8. The roll call was answered with "My families' favorite bread."

Mrs. Tang Smith was selected to represent the East Spur club in civil defense work.

The club voted to have a food sale for council on April 14.

The H. D. agent, Mrs. Harriette Hatcher, presented an interesting demonstration on quick loaf breads. Members watched each step in the making of Oaten bread as the agent explained various ways to decorate the top and different fruits that could be used. An orange bread was shown that she had baked earlier. The importance of whole grain cereals and breads were explained and a nutrition chart was shown. Mrs. Hatcher then made a salad showing how to tear the lettuce to keep it fresh and crisp longer.

A Saint Patrick's Day game was played and the winner's prize was presented to Mrs. Bill Lamme.

Salad, nuts, oaten bread, orange bread with lemon jelly, jelly beans, and coffee were served to Mmes. James Wright, Matthews, Gruben, John Webb, David McAteer, Floyd Smith, Wallace Hinson, Maurice Arnold, Thurmond

**Delta Kappa Gamma Chapter Celebrates Thirteenth Birthday**

Members of Delta Kappa Gamma from six nearby counties met in Roaring Springs March 17 to celebrate the founding of the Gamma Eta chapter on its 13th birthday.

Mrs. John Heard was hostess for the afternoon meeting.

Guests presented a musical program including "Irish Eyes Are Smiling," vocal solo by Martha Goodwin; "Farther Along," trio composed of Billy, Jane and Martha Goodwin; "Irish Lullaby," duet by Mrs. Ruth Tveit and Mrs. Gillespie; Mrs. Maurice Goodwin was accompanist.

Sketches of the history of Delta Kappa Gamma were presented by members Mrs. John Belaska of Roaring Springs spoke on "Our Founders," and Mrs. Ann Blumberg of Spur gave "The Life of Annie Webb Blanton." Mrs. John Fowler of Jayton discussed "Eula Lee Carter," and Mrs. Roxi Lewis of Roaring Springs read an original poem.

A cake decorated in white and gold in honor of the group's birthday celebration was cut and served with coffee to members.

Attending were Mmes. Belaska, Lewis and Heard of Roaring Springs; John Fowler of Jayton; Blumberg and Louis Williams of Spur; Taylor Lowrie of Crosbyton and E. Thomas of Paducah, and Mmes. Margaret Elliot of Spur and Della Covans of Paducah.

The next regular meeting of the organization will be in Jayton on April 21.

Morrow, Harriette Hatcher, and the hostess Mrs. Russell Williams. Two visitors were present, Mrs. Bill Lamme, and Mrs. Carrol Edgel.

**ELECTRICAL TIPS FOR THE HOME**  
If Your Toaster and Coffee Maker Take Forever to Heat Up . . .

**DON'T** blame the appliances or your dealer. Chances are your wiring is overloaded. Overloading can cause as much as 10% voltage drop on a circuit. When this happens, a toaster will take 31.5% more time to heat up and a coffee maker will take 22.5% more time than when the wiring is adequate.

**DO** install at least two 20-amp circuits to serve cooking appliances in the kitchen and in the dining room. When there are enough circuits of large enough wire, your electrical equipment will operate efficiently and economically. You will also be assured of better cooking results.

Mr. and Mrs. L. D. Parks and daughters of Fort Worth visited their parents, Mr. and Mrs. W. G. Johnson and other relatives, and also Mr. and Mrs. Luther Hindman of Spur last weekend.

Austin, Tex., March 22.—The first public hearing on a bill that is sponsored by the trucking industry will be held Monday night (March 26). A number of railroad-sponsored bills have already had their airing.

Truck people are asking for legislation that conforms to standards set up by the American Association of State Highway Officials. Gross weight limit of 48,000 pounds, now effective in Texas, would be removed. The legal weight of a truck would be controlled by axle weight rules.

Support for this kind of law gained the support of Defense Transport Administrator James K. Knudson, who said all the states must participate in a program to allow trucks to handle a greater share of the freight traffic, and thereby further the defense effort.

Knudson recommended the adoption of standards established by the American Association of State Highway Officials. These standards have also been approved by the U. S. Bureau of Public Roads.

Some members of the Legislature are dissatisfied with the Board of Texas State Hospitals and Special Schools.

You remember that this Board was set up two years ago. Previously, administration of the state institutions was in the hands of the State Board of Control.

Then a special session of the Legislature appropriated a large sum for improvement and reform of the hospitals and schools. The cigarette tax was increased to raise the money.

Critics of the Hospitals and Schools Board now say that progress has been too slow. There are two bills in the Legislature to change the set-up.

Senator Dorsey B. Hardeman of San Angelo has a bill that would establish a new Board of Control. This board would supervise two executive directors, one in charge of state purchasing, the other in charge of hospitals and special schools.

Senator Otis Lock of Lufkin has a bill that would cut the membership of the Hospitals and Schools board from nine to three members.

Lock's bill is the result of some criticism that the larger number of board members has resulted in wide difference of opinion and thus retarded progress. In theory, three men could more easily agree and make decisions leading to action.

The Board has the job of spending \$125 million in five years.

Many friends of the Board say that it has done a good job. They admit that progress has been slow, but they say that a lot of preliminary planning was necessary before action could begin.

They say further that administrative troubles have been ironed out and that the Board now has a good man in the office of executive director—Larry O. Cox.

They point out that a qualified medical director has been employed, that some reforms have been made and others are coming.

Unless these friends of the Board can convince the Legislature that they are right, the legislators may be reluctant to appropriate any more money for improvement and reform.

**Return this carton**

It's worth 3¢ on your next supply of Coca-Cola

The cardboard cartons that help you carry home bottles of Coca-Cola so effortlessly, now cost no more than ever before. Also, they are becoming increasingly hard to get.

For this reason, a 3¢ deposit on paper cartons will go into effect March 22. You will receive 3¢ each for any extra paper cartons that you return to your dealer after this date. And, of course, your dealer will require a 3¢ deposit if you don't turn in a carton when you buy Coke.

The deposit on Coca-Cola Bottles remains

4¢ each. Thus, the total deposit on a carton of Coke is 27¢—3¢ for the paper carton, and 24¢ for the six bottles. If you keep the cartons and bottles you have now and turn them in on a new supply of Coke, no additional deposit will be necessary.

### Farm Bureau Gives Support of Roads Bill

Representative Jim Sewell of Navarro county has introduced a rural road bill, (H. B. No. 609) that will have the full support of the Texas Farm Bureau Federation. J. Walter Hammond, president of the organization, announced, today. The bill embodies the federation's philosophy for a rural road program that will meet the needs in Texas, Hammond said. Sewell's bill has five co-authors, namely: Representative D. B. Hardeman, Grayson and Collin counties; Bert Hall, Johnson county; Henry Lehman, Milam, Burleson and Lee counties; Douglas Crouch, Denton county; Cloyd Young, Cass county.

The Sewell bill proposes to raise approximately \$30,000,000 a year by placing a "Gathering Tax" of one cent per 1000 cubic feet on natural gas. The money will be divided 1/4 to public schools, 1/4 to the counties for the building and improvement of rural roads, and 1/2 will be distributed among every incorporated city, town and

Wendell COBBY, Macdonald CAREY, Bruce BENNETT, Bill WILLIAMS, games all, in Paramount's "THE GREAT MISSOURI RAID, Technicolor.

village on the basis of population according to the most recent federal census. Signers of the bill specified the tax levy as a "gathering tax" patterned from the one cent per thousand cubic feet "gathering tax" which Louisiana has levied in recent years. The bill, Hammond said, will accomplish three primary aims:

(1) It will allow the continu-

tion of the direly needed farm-to-market and rural road program. One-half of the estimated \$30,000,000 which provisions of the bill will provide, will be sent to the counties for the building and improvement of rural roads, starting with school bus and rural mail routes. County judges and commissioners will authorize the spending of the money, with specifications to have the approv-

al of a licensed engineer or the Texas Highway Department. (2) One-fourth, or about \$7,500,000 will go to some 700 incorporated cities, towns, and villages that are facing serious financial difficulties. They will be allowed to use the money for the building and maintenance of streets.

(3) It will insure that the people of Texas, living both in town and on the farm, will get more benefits out of our vast resources of natural gas which are rapidly being expended.

Strong opposition to the Sewell bill may be expected from the powerful natural resources lobby, Hammond predicted. He called on county Farm Bureaus throughout the state, county judges and commissioners, and the folks in the cities to lend support to the measure.

### Son of Localities Injured in Wreck

George M. Locke, 29, Aspermont oil worker and son of Mr. and Mrs. E. M. Locke of Route 1,

Spur, was injured seriously recently when the car he was driving was sideswiped by an oil truck 17 miles east of Seymour. Locke suffered a crushed shoulder and other serious injuries in the accident which practically sheared his 1951 model car in half. Riding with him was Aaron Lee Smith of Aspermont, injured less seriously. Locke is now in the

Baylor County hospital where physicians are trying to save his crushed left arm, according to a report this week. The accident occurred March 9. The car came to a stop 66 yards from the point of impact after knocking off the end of a concrete culvert and hurling a guard post 154 feet, report relatives here. The truck received negligible damage.

We take this means of expressing our many thanks for the words of comfort and the many flowers during the passing of our loved one, Marvin Rex Carlisle. We thank God for His great promise of eternal life, John 10:28. Therefore, it is comforting to think of Marvin being with his mother. Our prayer is that God's abundant blessings be with each and everyone of you.

Raymond Hooper and family.  
**FOR SALE:** Milch cows, fresh and heavy springers. Plenty to choose from. E. S. and Everett McArthur, phone 127-J, Spur 20-10tp

**CARD OF THANKS**

To each and everyone who so graciously helped our son, R. D. Cox, during his wife's illness and who is still critically ill, we want to thank you for being good Samaritans to all of us. Your good deeds will always be cherished.

Mr. and Mrs. T. L. Cox, The families of Homer Tunnell, Marshall Cox, A. D. Cox, and Trion Cox. Also, R. D.'s four little boys.

**Highway News**

Men of the community met on March 6 and hired a Crosbyton truck to move the barracks building for our community center. An end has been built in the barracks, a bench inside and a kitchen installed at the present time.

Mrs. Frank Walker entertained ladies with a Stanley party Thursday afternoon.

Sam Byrd holds church services the third Sunday of each month in Aspermont. Roy Lee Stanley accompanied Mr. Byrd last Sunday to Aspermont.

Mrs. S. G. Byrd spent Sunday visiting relatives in Post.

Mrs. Wilbur Stanley and children were guests of relatives in Knox City over the weekend.

Mrs. Walter Thomason visited in the community last week.

Mr. and Mrs. Wilbur Stanley visited with relatives in Breckenridge last Monday, and made a business trip to Mineral Wells on Tuesday.

We are planning an Easter celebration to be held all day at the Community house. Dinner will be served, games and an Easter egg hunt for children are being planned. There will also be a party celebrating David Morgan's birthday and a tiny toy parade. The entire neighborhood is invited to attend.

Edwin Denson, Ray George and Cecil Estep have added glassed-in porches to their homes. A bedroom also has been built on the Estep house.

By Mrs. C. E. Morgan.

Put the finishing touch on your Spring cleaning

LIGHT UP WITH RIGHT SIZE AND TYPE OF ELECTRIC LAMP BULBS!

Why slave to get your house spic and span for spring if it is not going to look its best when you are through? Empty light sockets, uncleaned bulbs, and outmoded lamps can leave your rooms still looking dingy and unattractive after all of your work. Make your house sparkle and shine as it has never done before! For only a few pennies a day you can light your whole house with the newest and most efficient light bulbs—beauty it at a minimum cost with modern, efficiently engineered lamps.

A representative of our Home Lighting Service will be glad to assist without cost or obligation to you in solving your home lighting problems. Just contact our nearest office.

Beauty Your Home with Modern Lamps and Enjoy Better Sight with Better Light!

CLEAN UP... TO GET ALL THE LIGHT YOU PAY FOR!

It is not only our job to supply low-cost electric service but to also help you make the most of that service. Dust and dirt on lamp bulbs or reflectors can cut light 50%. With a damp cloth you can wipe them clean in seconds. (Of course, you never touch a hot globe with a damp cloth.) Grimy lamp shades steal light too—they should be kept dusted or dry cleaned if necessary.

And here's a tip: when you are buying new shades, make sure they have light-colored linings. Light colors reflect light, dark ones absorb it. Visit your local electric lamp dealer or our office, and see how modern lamps not only beautify your home, but help you enjoy better sight with better light.

West Texas Utilities Company

**Your Home**  
By Frances Albrecht

Springtime is traditionally re-decorating time at our house and we're in the midst of the job right now. Because we wanted to do a really professional job I talked to Mr. Hayes Quinn, the color consultant for the Pittsburgh Plate Glass Company. He gave me complete instructions for correctly re-painting a room.

Because so many of you will also be re-decorating, I thought you'd be interested in these suggestions. First—according to Mr. Quinn—comes the preparation of the walls. Upon this operation depends the success of the paint job. Before starting to paint, wash or scrape off all calcimine, loose paint, grease and dirt. Fill all cracks with patching plaster and sand to a smooth surface. Touch up patched spots with first coat. Even though no spots or cracks need patching, wash the surface thoroughly.

Mr. Quinn explained that the application of paint on interior plaster surfaces has become increasingly difficult, because of such things as a tendency to rush painting on damp walls. That's why these preparatory steps are doubly important. He mentioned, too, that it is not wise to use varnish sealing coats, because they may cause trouble for later painting work.

One of the most important steps, he emphasized, is to read the directions on the label. By following these instructions, you are assured of a better paint job. We are following this expert advice carefully and are mighty pleased with the results. Oil base wall paints and primers certainly gave a professional look to our rooms and we're going to decorate the "right" way from now on!

**Liberty Gardens Are Patriotic Job**

Get liberty gardens underway, says the recently released National Garden Bureau bulletin No. 2. The home garden may be able to add materially to the nation's food resources.

Every liberty gardener this year may inspire and teach others, whose efforts may be desperately needed. Garden campaign is recommended by the National Garden Advisory committees.

Home vegetables can make an important contribution to the civilian-defense program, says Mildred Caldwell head of the Civil Defense Administration. In a letter to Secretary of Agriculture Brannan, Caldwell further emphasizes the value of such a program, by saying that in addition to building up the defense program, home vegetable gardening brings many benefits to the public, aside from the actual food produced, among these improvement of the morale and health of our citizens.

The campaign will also stress the preservation of home grown vegetables, by freezing and canning, to create home reserves.

Other gardening suggestions: Why not build a seed box? Many plants may be started therein, and automatic watering is possible with little effort. To equip the latter, bore a hole in bottom of a box, put a wick through hole, imbed frayed top in soil, drop bottom in pan of water, fill box with soil and make shallow drills, sow seed, and as long as pan is full of water wick will keep soil moist.

Cal Farley, founder and president of Boy's Ranch, explains the Ranch's proposed expansion plans. He holds a model of the type of units to be built, housing 24 to 30 boys. The chart in the background shows the future building area. The long-range program calls for several of these units and a vocational school.

**Boys' Ranch Plans Future Expansion**

Visions of a Boy's Ranch for 1000 to 1500 youngsters with a fighting chance to grow into worthwhile American citizens has been put into words by Cal Farley, founder and president of the famous Boy's Ranch near Amarillo.

"We must expand," Farley said. "It is force upon us by torn homes. Every day requests come to our office asking us to take boys."

A recent case cited by Farley was that of a woman who came to him, pleading for the Ranch to take her 14-year-old son. The father was gone, the older children married, and the youngster was "beginning to get into trouble." The mother had been told she had cancer and had six months to live. She wanted her son cared for.

"What can you do?" Farley asked. "We have five boys sleeping in the gymnasium now, but can you tell a woman like that there isn't a place for her son."

The only answer was to make a place for him.

The future plans call for permanent "24-boy" homes of the unit type, situated in the area just each of the present buildings. Long-range planning includes 20 of such units. Each of the buildings, furnished, will cost approximately \$30,000 but the Ranch founder pointed out that they probably could be built for less because of donations of labor and materials, such as had been given in the past.

Under the new program, the expansion area would be dedicated to the use of the older boys, and would house the high school and vocational school, leaving the present area for handling the smaller boys.

Right now, it is necessary that one unit be started as soon as possible in order to ease the crowded conditions. Later on another unit and part of the vocational school building will be built.

Plans and sketches have already been received from the Fifth Year Architectural Class of Texas A. & M. The class has made the planning of future Ranch

buildings a term project and the boys are donating their service. It is hoped that ground for the first new unit will be broken within the next 30 to 60 days.

Unfolding the story of the costs of maintaining the present establishment that now cares for 137 boys, Farley said that the ultimate expansion was limited only by the funds and facilities which are made available to the Ranch through donations from fine folks who want to help the boys for whom there is no program.

**Texas Pastures Are High In Quality**

Cared forage remaining in Texas pastures at the present time is higher in quality than during any year in the past 10 to 20, in the opinion of pasture specialists with the Texas Extension service.

Higher quality in the grass is the result of slow growth made during the dry weather last summer and fall but because of dry weather the plants were unable to store a reserve food supply in the crown and root systems from which to start regrowth in the

spring. Since new growth is made in early stages from stored food, the first few weeks of its growth can be critical the specialist said.

He warned that because of this, proper management is extremely important in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats, wheat, rye, and other supplemental grazing crops this spring, allowing the perennial pasture plants to get off to a good start and possibly avoid killing many of them. He believes better pastures will result if the perennial grasses are not grazed for the first month or two after growth starts.

Pvt. Jack F. Frazier, whose parents are Mr. and Mrs. Elmer Frazier of Atton, is enrolled in field woman school at Camp Chaffee, Ark., after completing 14 weeks basic training with the 5th Armoured Division. Pvt. Frazier will be qualified as an army specialist upon completion of this course.

**FORD WINS AGAIN!**

**V-8 TAKES FIRST PLACE IN CLASS "A" 1951 MOBILGAS ECONOMY RUN**

Both Ford V-8 and SIX Deliver more than 25.9 miles per gallon

Cruising 840-mile test proves Ford Economy

Again this year... it's high honors for Ford! In the most important economy trial for American stock model cars... the famous annual Mobilgas Economy Run... A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54,587 ton-miles per gallon and 25.994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon... a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"

\*The AAA Contest Board determines the winner by a "ton-miles per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers in tone, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.

**FORD V-8 with Overdrive**

### FOR MAYOR

#### NONA STARCHER

Friends of Nona Starcher make this appeal to the voters of Spur, subject to action TUESDAY, APRIL 3rd. Mrs. Starcher came to Spur in 1923; she knows the needs of the CITY, and is acquainted with those movements which incite progress.

There is not a person in our CITY that has taken more pride in the community than has NONA STARCHER. She owns a nice home in Spur, and was among the first to start building for the growth of Spur. She had no encouragement from any of the business men—they all thought she was doing the wrong thing, but because of her belief in Spur, she continued to build the Starcher Apartment Houses that are located on East Harris Street. Nicer apartments are not to be found in any city. Mrs. Starcher has had wide business experiences and knows the principles of economics which are very essential to the successful transaction of the City's business.

She believes in the Church, Boy Scout Work, and other civic movements which go to build up the morale of our community and

lend influence to a better citizenship. She has watched Spur Schools grow, and with the assistance of her late husband, W. D. Starcher, fought for the Spur Band Tax; then later, when it looked as if school was not getting enough of the money, they waged another fight, with the help of Mrs. Virgil Parr and Mrs. Oscar Kelley, to get money to buy music for the East Ward School. During Mr. Starcher's life he never failed to make it possible for a boy or girl to join the band, by giving that boy or girl an instrument. The last boy to whom he gave a cornet was J. T. Franklin. The citizens of Spur should be proud of their band.

Mrs. Starcher says that if the people elect her as their MAYOR, she will be fair and impartial toward everybody and will do all that she can to save the people all the tax money possible; yet she feels certain improvements are necessary for the progress of our TOWN, and these improvements should prove an asset to everybody. Knowing Mrs. Starcher as we do, we know she will give the small taxpayer the same consideration as if he were the biggest taxpayer in our city.

The voters of Spur will make no mistake in electing Mrs. Starcher their Mayor in the April election, because she will stand for a better town in every respect.

Paid for by friends

### MAYOR McGUP By John Jarvis

**THE NEW HERE... CAME TO WORK IN THE OFFICE PLANT. I HEAR THERE'S A HOUSING SHORTAGE.**

**YOU'RE FINED BETTER THAN SOME FOLKS HERE. AT LEAST YOU HAVE A TRAILER!**

**YES, AND I'LL BE GLAD WHEN I CAN AFFORD A CAR!!**

local realty and insurance firm recently announced her candidacy for mayor of the city of Spur, and has since received a good deal of publicity in newspapers throughout West Texas. She is the first woman ever to pursue the office of mayor in Spur.

Mrs. Mason is seeking information concerning past business experiences of Mrs. Starcher, preparatory to including her in a scheduled address entitled, "Famous Women of Texas," which she will soon give before a Texas Federated Women's club assembly.

Honesty isn't any policy at all; it's a state of mind or it isn't honesty.—Eugene L'Hote.

"A man that hath friends must show himself friendly; and there is a friend that sticketh closer than a brother."—Proverbs 18:24.
