Chamber of Commerce Doings:

Committee Re-opens Spur - Post Highway SPUR COWBOY JUBILEE TO Project; Plan Austin Meeting In June **Project**; Plan Austin Meeting In June

Highway committee of the Spur Chamber of Commerce met Tuesday, May 22, to make definite plans for action regarding the Broadway to the Big Bend highway. The road has now been extended through Kermit, Andrews and Lamesa and it is believed that appropriations have been made to extend this highway as far as Lynn

One of the main objectives of the committee is to arrange meeting of the Big Bend association along with other delegations to meet in Austin and appear at the June hearing of the Highway commission. Full cooperation is being saught by the local committee to revive efforts to obtain this highway.

The portion of the highway of main significance to Spur and its road facilities keep these two proroad facilities keep these two progressive West Texas towns prac- Speaks To Baptists tically isolated from each other. A hardsurface road connection the two directly will encourage through traffic between the two sections of West Texas and will give farmers, ranchers and small communities all-weather transportation facilities to both towns.

Last Friday Alvin Taylor from the Lubbock Office of Price Stablization, was in the Chamber of Commerce office to give information to businessmen on filing O. and state law-enforcement or- Sam Hawkes, principal and P. S. charts on foods and restaurants. This Friday, Fidel R. Eggel will be in Spur to consult with materials and manufactered goods. items are urged an invited to consult with the O. P. - QC **Petroleum Industry Pays For Education**

The giant-sized business of education in Texas has found its principal benefactor in the petroleum industry, according to an article in "West Texas Today," West Texas Chamber of Commerce magazine, which has devoted its May issue to that region's oil and gas business.

R. B. Anderson, Vernon, chairman of the State Poard of Education and president of the Texas Mid-Continent Oil & Gas Association, said that oil production taxes from West Texas counties about \$45,000,000 in 1950, constituted about half of the total state

development in the history of the state," Anderson said. "The drilling rigs that search for oil in the wide spaces of West Texas are building a legacy for the educa-

tion of Texans for generations to buted statewide to the financing

cent of all state government expenditures, exclusive of federal aid are now devoted to pubilc schools, junior colleges, state colleges and special schools.

Prayer Gives Mental Strength

ON MY DESK is a touching and inspiring letter from Molly Rael, Los Angeles, Calif. When Molly was a little girl of 11, her mother was suddenly taken ill. Although Molly was one of nine children, her mother had carried the homemaking burden almost single-handed, and Molly had never realized the responsibilities of a home until now.

which he wrote April 27.

"This is really a beautiful graduates of Texas high schools country, with plenty of exciting will get their chance to study things to see Just at that early age, she had to do most of the cooking and housekeeping. Her sisters and brothers, all older than she, were either in college or working at jobs. This left only little Molly things to see. Just came down Agriculture at the A. & M. College to take care of her mother, in addition to the

After two weeks, her mother was ordered to the hospital. Molly watched the internes place her mother on a stretcher and take her out of the house. She felt as if her heart within her had turned to stone; she never expected to see her beloved mother come home again. She couldn't talk; she couldn't

That evening when her brothers and sisters came home, they found their home a dismal place, such as it never before had been. There was little conversation to penetrate the gloom. Suddenly Germany two times since April cepted by Chancellor Gibb Gil- one of her brothers suggested that all of them stay up during the 18, staying all night at one place christ of the Texas A. and M. night and pray for their mother's recovery. All agreed. They decided to keep busy at something so they wouldn't fall asleep, but never to stop praying even for one minute. All of them knew there was little hope for their mother; knew that the doctors did not expect her to live. That was a night never to be forgot-

Carnegle

The next morning nine young people were heartened as if by a miracle. The doctor called them to say that their mother had opened her eyes, a sign of returning strength which he had not expected. Three weeks later she was at home again, on the road to recovery.

Molly says she knows more people have recovered from severe illnesses with no prayer said over them, but nothing will ever make her believe that their prayers didn't help. Even if they had not, their faith and their keeping themselves busy, freed them from worry and gave them the necessary spiritual and mental strength to face their trial.

Fluid Drive! You'll discover driving ease, convenience, load protection, and safety offered by no other pick-up.

Only Dodge has it! This Dodge exclusive - available on 1/2-, 34-, and 1-ton "Job-Rated" trucks-saves wear and tear on more than 80 vital parts. It reduces repairs . . . lengthens truck life. It makes driving easier . . . protects your load. It helps avoid wheel-spinning . . . increases tire mileage.

·FIRST in Load Space!

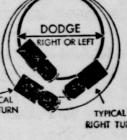

Haul more payload with a Dodge 1/2ton pick-up. Take your choice of a low-side body with 31.41 cu.-ft. capacity or an optional high-side body with 44.16 cu.-ft. capacity—more load space than any other popular pick-up of compara-ble wheelbase. These trucks also have lower loading heights to save work, time.

excellent side- and rear-visibility, too!

CHAMP in Easy Handling!

It's a cinch to maneuver, park, and drive these pick-ups in traffic! They turn sharper than comparable trucks-because Dodge gives you cross-steering, wide front tread, and short wheelbase. They steer easier, too, thanks to the worm-and-roller steering gears and a new, more comfortable steering wheel TYPICAL LEFT TURN angle. Try 'em and see!

Only Dodge gives you all these extra-value features: Revolutionary new "Oriflow" shock absorbers for matchless riding comfort on any road. Four-ring pistons with chrome-plated top ring for dependability and economy. Exhaust valve seat inserts to reduce valve grinding. Moistureproof ignition. Wide running boards for safe footing. 45-ampere generator. Independent hand brake. Two fuel filters. Heavy-duty radiator.

-05 **Telephone Company Shareholdrs Now** Number 1,000,000

A landmark in the history of American business has been set by a Saginaw, Michigan, couple who purchased seven shares of American Telephone and Telegraph stock recently and became the millionth shareholder in the business, according to C. H. Cale, manager of Southwestern Bell Telephone Company here

The company, parent of Southwestern Bell, is the first business in the United States to reach the million mark in the number of

The Brady Dentons, the Millionth stockholders, are typically American. Denton, 33 and a veteran, is an automobile salesman. The couple live in a modest frame house, have three sons, six years, three years, and four months old, respectively. The Dentons bought the stock as an investment toward a college education for their sons. Cale pointed out that one family out of every 45 in the country now owns part of the Bell System.

"The investment of the Dentons n the telephone company, like that of 15,000 Texans helps make it possible for Southwestern Bell to carry on its big post-war expansion program in Texas," Cale said. "The company has spent \$40,177.00 in Spur since the end of the war, and its expansion program in Texas has cost \$336,-

"Ive just driven the most powerful car*in the U.S."

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER-REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions-in his own words-as taken down by a recording machine

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale of an automobile.

"I'm completely bowled over by the ease of steering! "This steering combined with the automatic trans-

Shaw inspects FirePower; the greatest new engine in 27 years.

mission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine.

"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible! "I drove 111 miles with the feeling I had expended

no more effort than in driving around the block. "When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Smartly styled Chrysler convertible to pace Indianapolis 500-mile race.

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important ... especially in the summertime.

"Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself." Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every department.

"In fact, I think so much of this car, I've-selected it as Pace Car of the 1951 Indianapolis 500-mile race!" Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)

*Mr. Shaw refers of course to standard passenger cars-not racing cars or special models.

I am very happy to announce my appointment by Art Publication Society as Guild Teacher of the Progressive Series of Piano Lessons.

The series consists of printed lessons in theory, exercises, studies and compositions with instructive annotations-containing as a rule, analysis of form and structure, glossary of musical terms, a biographical sketch of the composer, and suggestion for practice designed to achieve maximum results.

In addition to the children who have studied piano before, I am planning a class for beginners and will follow a sixteen lesson plan authorized and endorsed by Art Publication Society. It will include one class lesson and one private lesson a week for eight weeks.

If you are interested in having your children begin their study of music now I will be glad to explain the advantages of the course to you. I am planning my summer courses and want to start arranging my schedule.

S. Sgt. Joyce Smith **Now In Germany**

S./Sgt. Joyce M. Smith, son of Mr. and Mrs R. F. Smith of Spur, has been stationed in Landsberg, Germany, following his enlistment in the Air Force. He was stationed at Lackland Air Force base in San Antonio. Sgt. Smith is a veteran of three years in the Marines, serving in the Pacific theatre of operations during World War I'. Below is printed in part, a letter received by his parents recently

which he wrote April 27. "This is really a beautiful graduates of Texas high schools country, with plenty of exciting will get their chance to study things to see. Just came down Agriculture at the A. & M. College from Dormstadt yesterday. It was of Texas next year as the result other work. bombed completely flat, with 43,- of a gift to the college from the 000 people killed in a twenty Sears - Roebuck Foundation of minute bombing raid. Like it, Chicago. most of the towns are really building back up fast. I am down in the southern part of Germany be made on a continuing basis, was about 40 miles from Munchen.

over the country and ready to set- las, vice-president for the southtle down for the next three or western territory of Sears-Roefour years. I have been all over buck and Company. It was ac-Germany two times since April cepted by Chancellor Gibb Gil-18, staying all night at one place christ of the Texas A. and M. and off for another the next day. College System. I will try to tell you little about the country over here. There are A. and M. to offer financial aid just a few wooden buildings; to outstanding Texas high school most of them are either brick or graduates who wish to study rock. They are two and sometimes | Agriculture and do not have suffithree or more stories high with cient money to enter coilege.

people have livestock, but never along the lines of their established let them out of the barn. Most program of Opportunity Awards. of the barns are as large as or | Three A. and M. students who larger than the Farmall house in have made outstanding records at Spur. They have what they call the College have largely financed farming villages. They appear to their education through 4-H club be several thousand population. projects which started in the state-They go out each morning to their wide Sears-Roebuck pig and poulfarms, sometimes five or six miles. try programs. Most of the farming is done by hand, some have a yoke of oxen, and very few have horses. It is Fire Coverage Is seldom one has a tractor. I've not seen a dozen tractors since I have been here. Women do more work in the fields than men.

"We don't use their milk, butter, eggs, meat or vegetables be- the amount of fire or other incause of health conditions, tuber- surance on farm buldings after a culosis etc. All our dairy products disaster has struck. And accordcome from Holland, which you ing to C. H. Bates, extension farm know has always been noted for management specialist of Texas its dairy products. There is lots A. & M. College, it is quite comof game for hunting and plenty of mon to find "under-insured" farm fish in the streams. As you know, properties in Texas. the Germans can't do any hunting because they are not allowed to have fire arms. We have lots of Germans working for the government here. There are janitors in the barracks and buildings we use. They work in the mess halls and P. X., both men and women. I don't think they are paid very much, but after all, it doesn't take much for them to live

"The climate is nice, maybe a little colder than there at home, but not as cold as it was in Ft. Dix, New Jersey. I share a nice room here on the field with another boy. It is twice the size of your living room, and the walls are beautifully painted. It is "Hollywood is hot stuff, steam heated and has large win- Francis? You should see the babe dows and nice floors. The mess I met on the Tarzan set! halls and barracks are much nicer

than they are at any place I have been stationed in the states. No waiting in lines, just go in and sit down at a four-man table with anyone you want to eat with. German girls are waitresses, just like in a cafe in the states." S/.Sgt. Smith's address is S./Sgt. Joyce M. Smith, 12th Radio Sq Mobile, A. P.O. 61, % P. M., New York, N. Y.

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

Prayer Gives Mental Strength

ON MY DESK is a touching and inspiring letter from Molly Students Eligible For her mother was suddenly taken ill. Although Molly was one of nine children, her mother had carried the homemaking burden almost single-handed, and Molly had never realized the responsibilities of a home until now.

But at that early age, she had to do most of the cooking and housekeeping. Her sisters and brothers, all older than she, were either in college or working at jobs. This left only little Molly to take care of her mother, in addition to the

After two weeks, her mother was ordered to the hospital. Molly watched the internes place her mother on a stretcher and take her out of the house. She felt as if her heart within her had turned to stone: she never expected to see her beloved mother come home again. She couldn't talk; she couldn't

That evening when her brothers and sisters came home, they found their home a dismal place, such as it never before had been. There was little conversation to penetrate the gloom. Suddenly one of her brothers suggested that all of them stay up during the night and pray for their mother's recovery. All agreed. They decided to keep busy at something so they wouldn't fall asleep, but never to stop praying even for one minute. All of them knew there was little hope for their mother; knew that the doctors did not expect her to live. That was a night never to be forgotten by the young members of that family.

Carnegle

The next morning nine young people were heartened as if by a miracle. The doctor called them to say that their mother had opened her eyes, a sign of returning strength which he had not expected. Three weeks later she was at home again, on the road to recovery.

Molly says she knows more people have recovered from severe illnesses with no prayer said over them, but nothing will ever make her believe that their prayers didn't help. Even if they had not, their faith and their keeping themselves busy, freed them from worry and gave them the necessary spiritual and mental strength to face their trial.

----Telephone Company **Shareholdrs Now** Number 1,000,000

A landmark in the history of American business has been set by a Saginaw, Michigan, couple who purchased seven shares of American Telephone and Telegraph stock recently and became the millionth shareholder in the business, according to C. H. Cale, manager of Southwestern Bell Telephone Company here

The company, parent of Southwestern Bell, is the first business in the United States to reach the million mark in the number of

The Brady Dentons, the Millionstockholders, are typically American. Denton, 33 and a veteran, is an automobile salesman. The couple live in a modest frame house, have three sons, six years, three years, and four months old, respectively. The Dentons bought the stock as an investment toward a college education for their sons. Cale pointed out that one family out of every 45 in the country now owns part of the Bell System.

"The investment of the Dentons the telephone company, like nat of 15,000 Texans helps make it possible for Southwestern Bell to carry on its big post-war expansion program in Texas," Cale said. "The company has spent \$40,177.00 in Spur since the end of the war, and its expansion rogram in Texas has cost \$336,

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER-REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions-in his own words-as taken down by a recording machine

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale

"I'm completely bowled over by the ease of steering! "This steering combined with the automatic trans-

Shaw inspects FirePower; the greatest new engine in 27 years.

mission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine. "This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block. "When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Smartly styled, Chrysler convertible to pace Indianapolis 500-mile race.

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important

... especially in the summertime. "Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself. Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every

"In fact, I think so much of this car, I've-selected it as Pace Car of the 1951 Indianapolis 500-mile race!" Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)

*Mr. Shaw refers of course to standard passenger cars-not racing cars or special models.

I am very happy to announce my appointment by Art Publication Society as Guild Teacher of the Progressive Series of Piano Lessons.

The series consists of printed lessons in theory, exercises, studies and compositions with instructive annotations-containing as a rule, analysis of form and structure, glossary of musical terms, a biographical sketch of the composer, and suggestion for practice designed to achieve maximum results.

In addition to the children who have studied piano before, I am planning a class for beginners and will follow a sixteen lesson plan authorized and endorsed by Art Publication Society. It will include one class lesson and one private lesson a week for eight weeks.

If you are interested in having your children begin their study of music now I will be glad to explain the advantages of the course to you. I am planning my summer courses and want to start arranging my schedule.

We say LARGEST!

It's LONGEST—measuring 1971/5 inches from bumper to bumper. You can see that extra length—and feel it in the smoother ride!

It's HEAVIEST—tipping the scales at 3140 pounds.* You can feel Chevrolet's big-car solidness in its steady, even way of going! It has the WIDEST TREAD—spanning 583/4 inches between the rear wheels.

That wider base means better roadability—helps steady the ride! You'd expect to pay a little more for the largest low-priced car . . . longest, est tread. But no! With all its extra size and weight—all its exclusive features—Chevrolet is the lowest priced line in the low-price field. *Styleline De Luxe 4-Door Sedan, shipping weight.

Chamber of Commerce Doings:

Committee Re-opens Spur - Post Highway SPUR COWBOY JUBILEE TO Project; Plan Austin Meeting In June

Tuesday, May 22, to make definite plans for action regarding the Broadway to the Big Bend highway. The road has now been extended Broadway to the Big Bend highway. The road has now been extended through Kermit, Andrews and Lamesa and it is believed that appropriations have been made to extend this highway as far as Lynn county line.

One of the main objectives of the committee is to arrange a most of the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation above with other described in the Ris Rend at relation at relati

meeting of the Big Bend association along with other delegations to meet in Austin and appear at the June hearing of the Highway commission. Full cooperation is being saught by the local committee to revive efforts to obtain this highway.

The portion of the highway of main significance to Spur and its trade territory is the segment connecting Spur and Post. Present road facilities keep these two progressive West Texas towns prac

eived

S./Sgt. Joyce M. Smith, son of Mr. and Mrs R. F. Smith of Spur, has been stationed in Landsberg. Germany, following his enlistment in the Air Force. He was stationed at Lackland Air Force base in San Antonio. Sgt. Smith is a veteran of three years in the Marines, serving in the Pacific theatre of operations during World War II. Below is printed in part, a letter

received by his parents recently, which he wrote April 27. "This is really a beautiful

country, with plenty of exciting from Dormstadt yesterday. It was bombed completely flat, with 43,-000 people killed in a twenty minute bombing raid. Like it, Chicago. most of the towns are really building back up fast. I am down in the southern part of Germany about 40 miles from Munchen.

"Guess I am through traveling over the country and ready to settle down for the next three or four years. I have been all over Germany two times since April 18, staying all night at one place and off for another the next day. I will try to tell you little about the country over here. There are three or more stories high with

people have livestock, but never along the lines of their established let them out of the barn. Most program of Opportunity Awards. of the barns are as large as or farming villages. They appear to their education through 4-H club They go out each morning to their farms, sometimes five or six miles. Most of the farming is done by hand, some have a yoke of oxen, and very few have horses. It is seldom one has a tractor. I've not seen a dozen tractors since I have been here. Women do more work in the fields than men.

"We don't use their milk, butcause of health conditions, tuber- surance on farm buldings after culosis etc. All our dairy products disaster has struck. And accordcome from Holland, which you ing to C. H. Bates, extension farm know has always been noted for management specialist of Texas its dairy products. There is lots A. & M. College, it is quite comfish in the streams. As you know, properties in Texas. the Germans can't do any hunting because they are not allowed to have fire arms. We have lots of Germans working for the government here. There are janitors in the barracks and buildings we use. They work in the mess halls and P. X., both men and women. I don't think they are paid very much, but after all, it doesn't take much for them to live

"The climate is nice, maybe a little colder than there at home, but not as cold as, it was in Ft. Dix, New Jersey. I share a nice room here on the field with another boy. It is twice the size of your living room, and the walls are beautifully painted. It is "Hollywood is hot stuff, eh, dows and nice floors. The mess I met on the Tarzan set! halls and barracks are much nicer

than they are at any place I have been stationed in the states. No waiting in lines, just go in and sit down at a four-man table with anyone you want to eat with. German girls are waitresses, just like in a cafe in the states." S/.Sgt. Smith's address is S./Sgt. Joyce M. Smith, 12th Radio Sq. Mobile, A. P. O. 61, % P. M., New York, N. Y.

Students Eligible For A. & M. Scholarships

Ten of the most promising 1951 graduates of Texas high schools will get their chance to study things to see. Just came down Agriculture at the A. & M. College of Texas next year as the result of a gift to the college from the Sears - Roebuck Foundation of

A check for \$2,000 representing the first of such annual gifts to be made on a continuing basis, was presented to the college scholarship funds by C. B. Roberts, Dallas, vice-president for the southwestern territory of Sears-Roebuck and Company. It was accepted by Chancellor Gibb Gil-christ of the Texas A. and M. College System.

The funds were given to enable A. and M. to offer financial aid just a few wooden buildings; to outstanding Texas high school most of them are either brick or graduates who wish to study rock. They are two and sometimes | Agriculture and do not have sufficient money to enter voilege. Details of the awards are being "This is a farming area. The worked out by college officials,

Prayer Gives Mental Strength

ON MY DESK is a touching and inspiring letter from Molly Rael, Los Angeles, Calif. When Molly was a little girl of 11, her mother was suddenly taken ill. Although Molly was one of nine children, her mother had carried the homemaking burden almost single-handed, and Molly had never realized the responsibilities of a home until now.

But at that early age, she had to do most of the cooking and housekeeping. Her sisters and brothers, all older than she, were either in college or working at jobs. This left only little Molly to take care of her mother, in addition to the other work.

After two weeks, her mother was ordered to the hospital. Molly watched the internes place her mother on a stretcher and take her out of the house. She felt as if her heart within her had turned to stone; she never expected to see her beloved mother come home again. She couldn't talk; she couldn't

That evening when her brothers and sisters came home, they found their home a dismal place, such as it never before had been. There was little conversation to penetrate the gloom. Suddenly one of her brothers suggested that all of them stay up during the night and pray for their mother's recovery. All agreed. They decided to keep busy at something so they wouldn't fall asleep, but never to stop praying even for one minute. All of them knew there was little hope for their mother; knew that the doctors did not expect her to live. That was a night never to be forgotten by the young members of that family.

The next morning nine young people were heart-ened as if by a miracle. The doctor called them to say that their mother had opened her eyes, a sign of return-ing strength which he had not expected. Three weeks later she was at home again, on the road to she was at home again, on the road to recovery.

Molly says she knows more people have recovered from severe illnesses with no prayer said over them, but nothing will ever make her believe that their prayers didn't help. Even if they had not, their faith and their keeping themselves busy, freed them from worry and gave them the necessary spiritual and mental strength to face their trial.

you a demonstration in a Dodge with Fluid Drive! You'll discover driving case, convenience, load protection, and safety offered by no other pick-up.

Only Dodge has it! This Dodge exclusive - available on 1/4, %-, and 1-ton "Job-Rated" trucks—saves wear and tear on more than 80 vital parts: It reduces repairs . . . lengthens truck It makes driving easier . . . protects your load. It helps avoid wheel-spinning . . . increases tire mileage.

·FIRST in Load Space!

Haul more payload with a Dodge ton pick-up. Take your choice of a low-side body with 31.41 cu.-ft. capacity or an optional high-side body with 44.16 cu.-ft. capacity-more load space than any other popular pick-up of comparable wheelbase. These trucks also have lower loading heights to save work, time.

WINNER in Visibility!

Drive in safety—with the biggest wind-shield of any popular make! Enjoy wide, clear, forward vision through an area of more than 900 square inches. You'll get a good close-up of the road—with the new, lower hood line. You'll have excellent side- and rear-visibility, too!

CHAMP in Easy Handling!

It's a cinch to maneuver, park, and drive these pick-ups in traffic! They turn sharper than comparable trucks—because Dodge gives you cross-steering, wide front tread, and short wheelbase. They steer easier, too, thanks to the worm-and-roller steering gears and a new, more comfortable steering wheel angle. Try 'em and see!

TOPS in Plus Features!

Only Dodge gives you all these extra-value features: Revolutionary new "Oriflow" shock absorbers for matchless riding comfort on any road. Four-ring pistons with chrome-plated top ring for dependability and economy. Exhaust valve seat inserts to reduce valve grinding. Moistureproof ignition. Wide running boards for safe footing. 45-ampere generator. Independent hand brake. Two fuel filters. Heavy-duty radiator.

I am very happy to announce my appointment by Art Publication Society as Guild Teacher of the Progressive Series of Piano Lessons.

The series consists of printed lessons in theory. exercises, studies and compositions with instructive annotations-containing as a rule, analysis of form and structure, glossary of musical terms, a biographical sketch of the composer, and suggestion for practice designed to achieve maximum results.

In addition to the children who have studied piano before, I am planning a class for beginners and will follow a sixteen lesson plan authorized and endorsed by Art Publication Society. It will include one class lesson and one private lesson a week for eight weeks.

If you are interested in having your children begin their study of music now I will be glad to explain the advantages of the course to you. I am planning my summer courses and want to start arranging my schedule.

Vilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race

Spur Texas

Collier's - Country Gentleman

CITY DRUG CO.

Tve just driven the most powerful car*in the U.S."

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER-REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions-in his own words-as taken down by a recording machine

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale

"I'm completely bowled over by the case of steering!

Spur, Texas

pilot for a car I can possibly imagine. "This engine . . . I can't get over the amount of power

and snap in this engine . . . it's incredible "I drove III miles with the feeling I had expended no more effort than in driving around the block. "When Mrs. Shaw drove, her comments just about equared with mine. Here's what she thinks of the 1951 Chrysler . . ."

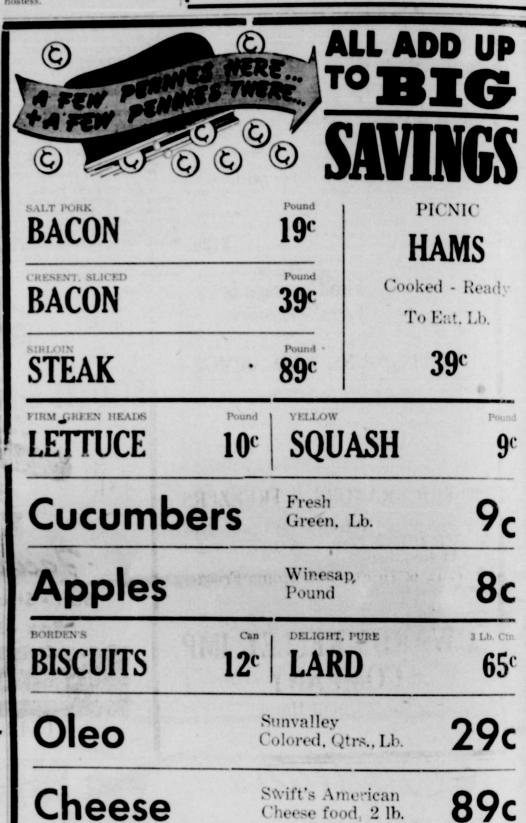

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important ... especially in the summertime

"Often after I have parked a car in the average park-ing space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself. Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . , it has it in every

"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!" Mr. Show's comments are reprinted through the courtesy of Popular Science Magazine.) Mr. Shaw refers of course to standard passenger cars—not racing cars or special models.

Here's something Special in Spaciousness

LOT of folks like the two-door idea, hecause they feet that tiny tots are safer in the back seat.

But that's no reason why back-seat headroom should be dimensioned for midgets

So Buick engineers bave done something about it, in the Buick SPECIAL 2-door Sedan pictured bere.

They've kept the compactness of over-all ler gth that's important in modern garages. But they've arched that sturdy steel top to give you he-man headroom-headroom in back as well as headroom in front-that males a six-footer feel at home.

And they've designed a trunk that has "room for tourists."

Don't ask us how they did it. Come see for yourself. Slip into those spacious seats-and while you're there, find out why this compact honey is one of the hottest numbers we've seen in years.

Find out how that F-263 valve-in-head Fireball Engine pours out the power and stretches the miles per gallon. Find out how Buick's exclusive combina-

tion of torque-tube drive and coil springs

on all four wheels puts big-car steadiness

and stability into this nimble performer. Find out how Dynaflow Drive* takes the strain out of traffic driving-and brings you relaxed to the end of a long day's

And above all-find out the prices-and how much they'll buy in comfort and convenience. The sooner you see your Buick dealer, the better off you'll be.

Outdoor Girl in a convertible! You get the quiet, get-going power of a V-8 engine . . . the type of engine now powering the top models of America's top cars. It's fuel-saving power, too, with Ford's Automatic Mileage Maker squeezing the last ounce of power out of every drop

of gas. And you get a ride that's the equal in comfort of

far costlier cars, with Ford's Automatic Ride Control

self-adjusting the ride to the road.

and still have a steel-topped car, you can't buy better than Ford's new Victoria! It offers you your choice of 5 beautiful solid colors or 4 smart two-tone combinations (with color harmonized interiors). And for automatic driving at its finest, it offers Fordomatic* the

Vhen you buy for the future-buy

All- around Girl

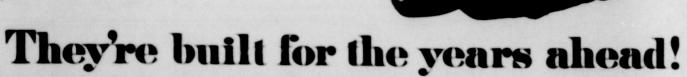

One moment, Ford's "Country Squire" is a beautifu eight-passenger station wagon . . . the next, it's a rugged hauler of half-ton loads. No other low-priced station wagon offers you so much one-level floor space or your choice of V-8 or Six engines. And only Ford, in its field, offers you your pick of three great transmissions; Conventional, Overdrive* and Fordomatic.*

You can pay more
