Chamber of Commerce Doings: Quarterly Financial Statement Approved; Parking Meters Discussed With City

The quarterly financial report of the Spur Chamber of Commerce, Inc. appears in this issue of the Texas Spur. The report was submitted to and approved by the board of directors at their last regular meeting.

In commenting on the statement, J. D. McCain, president of the chamber, states that approximately 75% of the yearly budget of the chamber is met at the beginning of the fiscal year. Although the bank balance at this time seems large, monthly collection of dues is small and much of the money now on hand will be used for salaries and operating expenses for the three remaining quarters of 1951-52, states McCain.

However, the chamber is now operating on a sound financial basis, McCain adds, and membership collections have been exceptionally good this year.

Rain Slows Park Clean-up

Rain and muddy ground tempo rarily slowed the city park clean-up being sponsored by the chamber of commerce with the help of the City of Spur and the Boy Scouts. However, the initial job is well over half completed.

WELCOME NEWCOMERS

The chamber of commerce and the city of Spur welcome the following newcomers to Spur:

D. H. Billrey, Lois Wilson, John K. Karr, G. W. Simpson, H. F. Brassel and M. L. Gardner. If these people have not visited the chamber office yet, they are invited to do so.

Ratheals Return From Trip And SBC At San Francisco

Rev. and Mrs. C. Melvin Rathel returned to Spur Friday afternoon after an extended visit to the west coast where they attended the Southern Baptist Convention. Rathel is pastor of the First Baptist Church of Spur.

Rotan Team Defeats Spur Youngsters 9-6

The Spur American Legion Junior baseball team has to date played two games and has won one.

Old Settlers Gather At Dickens Reunion

The annual two days Old Settlers' reunion in Dickens was held Thursday and Friday, June 28 and 29, with a crowd of 2500 persons attending during the festivities.

SPCA Stockholders Meet Slated For July 13, Stamford

A large attendance among the 1600 members of the Stamford Production Credit Association is expected at the annual stockholders' meeting to be held in Stamford on Friday, July 13, according to J. J. Hill, Jr., Secretary-Treasurer of the Association.

MRS. KENNETH ZIEGLER LEAVES FOR PHILIPPINES

Mrs. Archie Nell Zeigler, Kenneth, Bob and Barbara Kay left Spur last Wednesday for the Philippines. They arrived at Mason Field, San Francisco, Saturday where they are waiting to be transported to the Philippine Islands.

TEXAS SPUR OFFICE TO CLOSE FRIDAY NOON

In order to get this week's issue of the Texas Spur to you on time this week, we had to work all day July 4. We'll take our holiday beginning at noon Friday, July 6.

Plane Crash Kills Officials Working On CRTC's Loan

Three of the fifty persons killed in the plane crash in Colorado last Saturday, June 30, worked directly with and for the Caprock Rural Telephone co-op, states James Wright, manager.

George W. Haggard, deputy administrator of REA, working exclusively with rural telephones, is said to have done more for the CRTC than any one individual in Washington.

TURNER BOY SLIGHTLY HURT IN ACCIDENT TUESDAY

Larry Turner, 11 year old son of Mr. and Mrs. Charlie Turner, was slightly injured Tuesday when hit by an automobile on the airport road.

Hoover-McAteer Captures League Lead With 9-8 Win

The Hoover-McAteer team took a one-game lead in the City Softball league Tuesday night by winning a thrilling 9-8 victory over the City Drug team. Going into the game the two teams were tied for the top rung and the game had to go into an extra inning to produce a winner.

Services Held For Theo. Cornelius, 58

Funeral services for Theodore H. Cornelius, 58, who died suddenly at his home near Girard in the Antelope community were Monday were held at 1 o'clock, Wednesday, July 4, at the Free Holiness church at Antelope.

Rites Held For Dickens Co. Pioneer

Price Daniel Leads Anti Crime Move

AUSTIN.—Texas forged to the lead last week in its anti-crime campaign.

The greatest anti-gambling drive in recent Texas history gained speed when the house crime investigating committee held an open hearing on the Galveston gambling situation and Attorney General Price Daniel got a temporary injunction against telephoning horse-race data to Galveston betting parlors.

The house crime committee heard 19 Galveston officials and their lawyers, after hearing four members of Maceo and Co., the Galveston gambling group, at an open hearing in Austin on Monday, June 25.

District Judge Jack Roberts of Austin granted Daniel's request for a temporary injunction against Maceo and Company, Southwestern Bell Telephone Company and Southwestern Associated Telephone Company. The temporary injunction took the place of the 10 day restraining order the court had already slapped on the three companies.

Meanwhile, the multi-million

dollar Maceo gambling empire shut down operations in other fields besides horse race betting as a result of the house crime committee hearings and the law suit.

Attorney General Daniel sharply denied published rumors that his blow at Galveston gambling had any political implications.

A Galveston Catholic clergyman, Monsignor Dan P. O'Donnell, was quoted as saying that gamblers and businessmen there believed that Daniel wanted to run for office on a platform as "the man who cleaned up Galveston." Monsignor O'Donnell emphasized that: "This is not my opinion."

THE AMERICAN WAY

Perfectly Mated

This is simply what I have been told.

Daniel pointed out that he had moved against gambling in seven other Texas cities since 1949, and that he did not intend to make an exception of Galveston.

The attorney general commented that "it is an old trick for those who feel the weight of the law to cry out 'politics' and 'persecution' in an attempt to turn public sentiment against law enforcement officials."

The Galveston Ministerial Association entered the controversy to support the attorney general. They wired Daniel: "We realize that it is not necessary for us or anyone else to come to your defense regarding the charges currently being made a-

gainst you in connection with the gambling clean-up in Galveston. At the same time we feel constrained to commend you for the firm stand you have taken in this matter."

"Inasmuch as a local clergyman has indicated that public opinion is somewhat divided over this issue, we, as representatives of a large group of the citizenry of Galveston, feel bound to make known our positive convictions about this situation."

"We are convinced that gambling in any form, by any person, under any auspices, is a flagrant violation of the laws of the State, a source of moral evil, and contrary to the fundamental principles of Holy Scripture, and must be condemned," the Galveston Ministerial Association wire said.

Texas Leads Nation In Stock Auctions

COLLEGE STATION, July 5.—Texas is the leading state in number of livestock auctions and in the number of cattle, sheep and hogs marketed by this method, according to a new bulletin released by the Texas Agricultural Experiment Station. The greatest growth in numbers of auctions has occurred in the past 15 years.

Several reasons are given for the increased growth. Farmers and ranchmen like the ease and convenience of selling and buying through auctions. They like the social and educational aspects of the auction. It provides an opportunity to meet friends and discuss the merits of the animals sold in relation to the prices paid.

According to the Livestock Sanitary Commission of Texas, 168 auctions were operating in Texas on October 26, 1950. Thirty-seven of these auctions in various parts of the state were included in a study made recently by Dr. John G. McNeely, Charles B. Brotherton and Travis M. McKenzie.

This study of livestock auctions is mainly descriptive. It does not attempt to point out any advantages this method of sale may have over other methods, McNeely said. It is an introductory step in what is hoped to be a continuing study of the various types of market outlets available to Texas livestock producers.

Bulletin 732, "Livestock Auctions in Texas," is available from the Publications Office, College Station, Texas.

Teachers Needed By Elementary Schools

AUSTIN, Texas, July 3.—Elementary school teachers continue to be the scarcest commodity on the education labor market, it was reported by Dr. Hob Gray, Teacher Placement director at the University of Texas.

Second greatest demand is for librarians.

In high schools, English teachers are needed. Many requests have been received also for counselors and for teachers of women's physical and health education.

How to make Wise Tracks to a Beauty

How do you buy a new car? Are you one of those people who buy on love at first sight? Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money?

Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks. It's a sure bet you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—fall seriously in love with the pace and power of its bonnet-filling engine.

And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive* and all-coil springing.

But don't let your emotion be the only

judge—get the practical picture too.

Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy.

Note that the silken ease you enjoy with Dynaflo* goes hand in hand with real money savings in maintenance costs.

Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere.

How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLOW DRIVE* • FIREBALL ENGINE
4-WHEEL COIL SPRINGING • DUAL VENTILATION
PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING

STAMFORD PRODUCTION CREDIT ASSOCIATION TO HOLD STOCKHOLDER'S MEETING

A large attendance from among the 1600 members of the Stamford Production Credit Association is expected at the annual stockholders meeting to be held in Stamford, Texas, July 13, according to M. L. Rickels, Local Representative, at Spur. Registration is to start at 9 A. M. at the Texas Cowboy Reunion Roundup Hall. A business session will be held beginning at 10 A. M. This will include reports of the past years business, as well as the election of two directors. Nominees for directors are J. C. Moorhouse of Benjamin; Lasater Henley of Guthrie; Roy Moritz of Stamford; and J. F. McCullough of Stamford. Some outstanding entertainment features are scheduled, and following this there will be an award of attendance prizes. The meeting will adjourn at 12:15 and will be followed by a Chuck Wagon dinner for all PCA members and their families. "This advertisement sponsored by the following members:

"Storybook" To Tell Texas Ag History At State Fair Show

A unique, new type of Agriculture Show—more of a spectacle than an exhibition—will be presented at the 1951 State Fair of Texas, Dallas, Oct. 6-21.

A "Storybook of Texas Agriculture" will tell the glamorous true story of how the soil of Texas is tilled to produce the necessities—and many luxuries—of life.

The mammoth free show in the Agriculture Building will portray agricultural production of prime importance in each of the 14 Extension Districts of the Texas A. & M. College System.

In 14 colorful sets, simulating giant-size pages of an open book, the story of each district will be told with three-dimensional effect. The districts are the Panhandle, South Plains, Rolling Plains, North Texas, Northeast Texas, Big Bend, Edward's Plateau, Heart of Texas, Piney Woods, Central Texas, Hill Country and Winkler Garden Area, South Texas, Gulf Coast and Rio Grande Plains.

The plot for the "Storybook" has been furnished by the people of Texas through their endeavors in growing cotton, fruits and vegetables, harvesting grass and grain crops, breeding and marketing poultry and livestock and converting products for home consumption.

The "Storybook" material has been compiled and edited by Ray W. Wilson, the fair's agriculture manager, in collaboration with

GOOD HEALTH

Answer to Question No. 1:

1. A baby should be inoculated against diphtheria between the ages of three months and nine months. It is dangerous to wait any longer because the disease is particularly serious in very young children. There were 15,536 cases of diphtheria in 1940. Early figures for 1950 indicate the number of cases has been halved during the ten-year period.

Answer to Question No. 2:

2. Doctors in Hillsdale, Michigan, conduct each physical examination of a patient with the

possibility of cancer in mind, since early detection is the primary factor in curing cancer. Thereby every doctor's office becomes a small cancer clinic. This has been accomplished by complete cooperation between citizens and doctors in a joint effort to detect cancer early.

Answer to Question No. 3:

3. An otoscope is an instrument which directs a ray of light into the ears, making it possible to detect abscesses and other disorders. (Copyright 1951 by Health Information Foundation)

Texas A. & M. district agents in agriculture and home economics, county and Home Demonstration agents, and farm and ranch leaders.

Live animals, animated figures, drawings, miniature farm homes and buildings, models and mannequins, and actual farm products will be used to create an impression of reality in the sets. In triangular panels between set, color photographs will be enhanced by spectacular lighting effects.

Three additional sets will depict the work of 4-H Club members, Negro Extension workers and Future Farmers of

America.

The featured display in the center of the Agriculture Building will be a huge turntable with a relief map of Texas showing the cities and physical characteristics of each district. Fourteen islands will rise from the map, delineating the chief products. A huge ledger on the turntable will denote the far-reaching importance of agriculture in Texas economy.

Play it safe . . . danger lurks in the swimming pool. Water sportsmen who ignore the rules of water safety are flirting with disaster.

60% OF DICKENS COUNTY WHEAT CROP HARVESTED

According to the Texas Employment Commission in a recent farm labor bulletin, the wheat harvest in Dickens county was 60% complete. The harvest yield averaged from 6 to 8 bushels per acre.

In 1950, oil marketers collected more than \$2,000,000,000 in gasoline taxes for Uncle Sam and the

DAVID WAYNE reads the comics as TOM EWELL looks on. A scene from Bill Mauldin's "UP FRONT," a Universal-International picture.

"UP FRONT" TAKES LAUGH BEAD ON DOGFACE HUMOR

Willie and Joe, those fabulous cartoon characters of World War II, came to life Sunday on the screen of the Palace Theatre in Bill Mauldin's "Up Front," produced by Universal International Studio. Willie is played by Tom Ewell and Joe by David Wayne. Covered by the grime of mountain foxholes in southern Italy, this Damon and Phythias of the Italian campaign manage to catch the high-hearted humor of fighting men which made Mauldin's cartoons so vivid and popular. They emerge as perhaps the greatest battlefield comedy duo since Victor McLaglen and Edmund Lowe in "What Price Glory?"

The picture, as was the book, is a blending of the natural resentment of the rank-and-file dogface and their dry humor and dough-hewn horseplay when the tension of battle eases up.

Marina Bertl, who has appeared in one other American film, "Deported," is only one of an eye-ful for the audience but an armful for David Wayne. Her ability to toss a tantrum in dialect and then use her womanly wiles to get what she wants is unexcelled.

The film is an amazing blend of realism and comedy. The audience can feel the ugliness of a war and yet be convulsed by the reactions of Wayne and Sewell. This, and the black market and chase sequences with the MPs in Naples, is expertly brought together by Director Alexander Hall, who was aided and abetted by a stellar cast, many of whom like Miss Bertl, came from Italy to play their roles.

Heading the supporting cast are Jeffrey Lynn, Richard Egan and Silvio Minciotti, Italian character star. "Up Front" is the kind of comedy that makes for the best movie entertainment.

Mr. and Mrs. Bob King and children of San Antonio are visiting in the home of her parents, Mr. and Mrs. L. A. Weiborn, while enroute to their home. The Kings are returning from an extended trip to the west coast, Yellowstone park, and various other points of interest.

Mrs. Weiborn will return with them to San Antonio to spend ten days in the home of her daughter.

Go to Church Sunday

Dry Lake Community

The hail storm that hit our community did considerable damage but most of the farmers who had to replant have already done so, and some have crops up, so the crops will not be very late.

Kenneth Ray, son of Mr. and Mrs. Kenneth Coursey, is doing fine. He had his tonsils removed recently in preparation for his first year in school.

Mr. and Mrs. E. J. Lassiter are having one of their rent houses repainted. It really makes a difference to give a home a face-lifting.

Mose families in our community have been busy preparing chickens for home freezers or commercial lockers for the last week or two, with neighbors helping each other. Improving our home food supply is one of our community goals in the Improvement Contest.

In our community program, Dr. Joe Alexander gave an interesting discussion on civil defense work and urged every one who can to learn first aid in order to be able to help yourself and others when the need arises. He advised members of the community to prepare themselves in the event of air raids. The government has trained three people in our county as teachers of civil defense first aid, and Dr. Alexander is one of them.

We plan to begin a first aid school at Dry Lake in the near future and urge everyone to take advantage of this opportunity to learn how to give aid. The only cost is fifty cents for a book. You are also required to have a white cloth 40 inches square to use as a practice bandage. The exact time and place of the school will be announced later.

Johnnie Foreman, son of Mr. and Mrs. Muri Foreman had an accident with a tractor and one-way plow and was hurt badly, but at this time is reported to be doing fine for his condition. He is in the Nichols' hospital.

The Bill Calverts have been enjoying a visit from relatives.

Mr. and Mrs. Coy Dopson had as guests for a few days last week Mrs. Dopson's sister and her children.

The last community meeting was a fun night. Mrs. Van North showed three amusing films. Games were played and refreshments served.

Our next meeting will be a safety program, directed by Charles Taylor and Mrs. North, Wednesday night, July 11.

CLAUD SENN

DALE CARNEGIE
AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" INVENTION BY MISTAKE

IN June, 1922, a man named Alex Osborn, author of "Your Creative Power; How To Use Imagination," got on a train and went to Dayton, Ohio. When he arrived there he went to the research laboratory of the General Motors Company. He was given a guide and started through the plant, coming at last to a little room where three men were working with a small stationary engine. The guide was no other than Charles F. Kettering, the famous inventor.

"Here's the most promising experiment we have," said Kettering. "We think we can change gasoline until it will give five times as much power as it does at present."

The men worked for six years—and failed. But—and now comes the important point—they discovered something else that turned out to be highly important: Ethyl gasoline.

That, says Mr. Osborn, happens constantly. A person starts out to do one thing and fails. But sometimes he discovers something else that is important. This is brought out many times in his book.

As another example: The Corning Glass Company was brought a problem by a railroad executive. The lanterns used by the men employed on the road were constantly cracking when hit by icy sleet. The railroad wanted a lantern that would take it as it came.

The Corning people started in to develop a harder glass. The job seemed simple but it took seven years; in doing this they hit on something they hadn't started out to do: make a glass so hard that food could be cooked in it. The result was Pyrex. Since that time the women of America have bought over 300 million pieces of Pyrex.

Not only did the company thus turn up a new cooking glass, but it got a start on making glass for the now famous Palomar telescope near San Diego, California.

When Henry Ford was a young man on his father's farm he "foiled" with machinery. At last, he got a big idea. He would invent a wonderful steam engine for trains which would make all other steam engines look silly. He worked long and hard—and failed. But in doing this he hit on the idea of a self-propelled internal combustion engine. So he changed over from the thing he had started to do and made a stupendous success of the thing he hadn't even dreamed of doing.

You can buy a copy of Alex Osborn's book for \$3.50, plus a bit of tax. If you buy it and read it and do nothing about it, you will be wasting your time and your money; but if you really apply it, you will live a more exciting and profitable life.

How I wish I had read this book thirty years ago. It should be used as a textbook in our colleges.

WANT ADS... Serve Humanity, the Biggest Job on Earth

Want-Ads are so **Downright Human**

All of the news of the day does not appear on Page One of your newspaper! You'll find dreams and drama tucked into the 2-and-3 copy lines of the Want Ad insertions in the back of your paper.

Yes, there's humor and heartaches... calls for help, and services offered... bargains and profits-voiced by the people, in the Want Ads!

Classified Advertising has its roots in the earliest forms of advertising. Long years ago, town criers roamed cobbled streets announcing strayed cattle... property sales... betrothals, and the day's happenings.

SOCIETY

Recent Bride Is Honoree At Shower

Mrs. Darrell Thomason, nee Ina Putman, was complimented with a miscellaneous bridal shower at the Highway community house, Thursday, June 21.

Hostesses for the occasion were Mesdames Jimmie Hahn, M. E. Tree, Clark Morgan and Cecil Estep.

All of the ladies present wore their wedding gowns or one similar which they made. The dresses were modeled according to the year of marriage. Mrs. Keley Putman won the prize.

A radio and television game was played and Mrs. Thomason was presented with the gifts.

Miss Nelda Nan Hahn presided at the bride's book. Guests were served fruit punch and cake by Misses Linda Thomason, Ann Putman and Geraldine Thomason.

Mrs. Hugh Cypher Complimented With Bridal Shower

Complimenting Mrs. Hugh F. Cypher, Jr. who was Miss Byrdean Roberson before her marriage Saturday morning, Mmes. J. E. Berry, Cecil Addy, Seger Jenkins and W. C. Gruben entertained with a bridal shower Thursday afternoon in the Gruben home, 703 N. Burlington.

Guests called between the hours

of 4 and 6 o'clock.

Mrs. Everett Roberson, mother of the honoree, and Mrs. Gruben assisted in the receiving line. A photograph of the bridegroom and a standing figurine of a bride adorned the register table, where Mrs. Jenkins presided. Mrs. Berry played piano selections during the calling hours.

A white cutwork cloth covered the serving table and placed in the center were four miniature bridal figures, flanked by white papers. Yellow zinnias in a blue holder and a crystal punch service were placed at either end. White napkins were lettered in gold, "Byrdean and Hugh," using the honoree's chosen colors of yellow and white. Yellow frosted cake squares were served with yellow and green mints and punch by Mrs. Addy.

Mrs. Lewis Pullen Feted At Shower

Mrs. Lewis Pullen, recent bride, was honored with a miscellaneous bridal shower Thursday afternoon, June 28, in McAdoo.

Presiding at the bride's book was Mrs. O. T. Boucher.

Lime punch and chocolate cookies were served to guests by Mrs. R. R. Wooten and Mrs. H. L. Dennis.

Others in the houseparty were Mmes. J. J. Hickman, Lewis Hickman, Joe Cypert, Mai Eldredge, Jewel B. McLaughlin and Elmer Johnson.

Pink - Blue Motif Used At Shower

Mrs. Alfred Walker was complimented with a pink and blue shower at the home of Mrs. Bill Glenn, 723 W. Third, Thursday afternoon. Assisting the honoree in the receiving line were Mrs. Glenn and Mrs. A. L. Richey of Haskell, mother of the honoree.

Guests were invited to call between the hours of 4:30 and 6 o'clock. Mrs. Malcolm Edwards presided at the register which was a miniature bassinette.

Bassinettes of pink and blue flowers were used in the decoration of the receiving and gift rooms.

The serving table was laid with a lace cloth over blue and centered with a crystal punch service encircled with pink carnations and greenery. Pink fruit punch, pink and blue frosted cake squares and nuts were served to guests by Mrs. Jesse Morrison and Mrs. Grady Lackey. Baby napkins and plate favors of miniature pink and blue satin pillows were used to carry out the motif.

Other members of the houseparty were Mesdames Billy Powell and C. F. Waters. The honoree was presented with a bassinette as a gift from the hostesses.

Nona Starcher Fetes Group With Hamburger Party

Mrs. Nona Starcher gave a hamburger party at the Starcher Apartment Playhouse, Tuesday evening, with present and former tenants of the apartments as guests.

Hamburgers, pickles, cokes and watermelon were on the party menu.

Attending the get-together were Misses Julia Hickman and Julie Hickman, Mmes. C. B. Chandler, Billy Ray Barrett, and J. J. Cloude; Messrs. and Mmes. W. F. Patrick, Don, Patty Jo and Evelyn, Alfred Walker, Sherian Campbell, Grady Lackey and Grady Elder; Lt. Bill Starcher, Sunny Barrow and Mrs. Starcher.

Film On Africa Shown To WMS

All circles of the First Baptist WMS met at the educational building for a mission study film, Monday afternoon at 4 o'clock. The Sunbeam Band was also invited to attend.

The color film, Advance In Africa, is the story of a missionary from the time his boat docked in Lagos, Nigeria, and the work that he and other missionaries accomplished.

Approximately 30 members of the WMS and Sunbeams attended. The Cautchen Circle met for a short business session following the film in the annex. Mrs. J. B. Morrison was hostess to the group. Cokes and cookies were served.

Legion Auxiliary To Elect Officers

Election of officers for the new organization year of the William Puckett Unit No. 161 of the American Legion Auxiliary will be held Monday evening, July 9.

Nominated for officers are Mmes. Jerry Lee Foster and Ann Marsh, for president; Jerry Lee Foster and Pauling Barrett, for vice-president; L. R. Barrett, Geo. Pierce and Jackson East, for second vice-president; Gretchen Terry and C. E. Ballard, for secretary.

For treasurer Mmes. J. B. Haralson, Ernest McNutt and Miss Hazel Watson; for historian, Olan Daughtry and Johnnie Sparks; for chaplain, Cal Martin and Charlie Kearney; for sergeant-at-arms, Miss Edith Anderson, Tom Kizer and Ross Culbert; for executive committee, R. E. Dickson, D. I. Leon and Nell Davis.

All members are urged to attend this meeting.

Good Grooming Is HD Club Topic

The Dry Lake Home Demonstration club met at the home of Mrs. Ellis Draper, Thursday, June 28.

Mrs. Jack Simmons gave a demonstration of how to give a facial and groom the hair. A demonstration of shining and caring for your shoes was given by two 4-H club girls, Charlotte Karr and Linda Hotcheo.

Present for the meeting were Mesdames Ballard, Karr, Smith Draper, Coy Doppson, Paul Hotcheo, Gannon, Simmons, Ballard, Pickens, McMahan, Bass, Bingham, Jack Gordon, Lassitter, Linda Hotcheo and Charlotte Karr.

Girl Scouts

NEW LEADER

The volunteer service of Miss Doris Gibson as assistant Scout leader for Troop III has been accepted by the Dickens County Girl Scout council.

Leaders Meet

The leaders of the Girl Scout Troops of Spur met Tuesday June 26, and again Tuesday, July 3, to discuss plans for the four days of outdoor activities for Scouts and Brownies, scheduled for August 21-24. This is the annual Scout Day Camp.

A program and schedule for each day was arranged and leaders selected dates for the camp activities of each troop. Scout and Brownies may arrange for attendance with their leaders after July 15.

Scout leaders are Mmes. Lynn Buzbee, Phil Meekins; Brownie leaders are Mmes. John King, Jr., Barbara Smith, Dick Ford, James Jay, Tom Kizer, Guy Elkins, and M. M. King, and Miss Gibson.

Troop III

On Friday afternoon the girls of Troop III met on the lawn at the home of Miss Margaret Elliot, 302 E. Harris, to test a lemon ice cream recipe.

All of the girls participated in the making and the eating of the ice cream. The earning of badges was discussed by the girls and their new assistant leader, Miss Doris Gibson. Mrs. Wendell Smith is leader of the troop.

Present for the afternoon meeting were Lois Ann Callan, Marian Marcy, Gail Benefield, Louise Williamson, Hazel Jo Holly, Annetta Halle, Lanelle Marcy, and Misses Doris Gibson and Margaret Elliot.

The next meeting will be Friday, July 6.

QUITE A CATCH!

Debbie Reynolds, pretty MGM star, shows she's quite a fisherman, too. The radiant young actress enjoys an afternoon outing with rod and reel on Fisherman's Wharf. See this sports outfit in a strapless striped cotton bodice combined with crisp white cotton shorts.

Poage Farm Labor Bill Passes House

Representative George Mahon reports from Washington that the so-called Poage Farm Labor Bill has now passed the House and is in conference between the House and Senate. The House rejected the so-called Douglas Amendment to simplify the process of bringing a cotton farmer to knowingly employ a Mexican citizen who was in the United States illegally.

The object of the Poage Bill is to simplify the process of bringing Mexican labor from the Republic of Mexico to help in the harvesting of cotton and other crops—labor that will be greatly needed if the 1951 Texas cotton crop is to be harvested.

Mahon participated in seeking passage of an amendment by Congressman Rogers of Pampa which would have repealed existing federal law prohibiting employment in agriculture of children 16 years of age when school is in session. The amendment was held out of order and was not adopted. Both Rogers and Mahon have separate bills pending which would accomplish the same purpose but to date favorable action has not been taken.

Mahon expressed elation over the passage of the Poage Bill. He said that there had been a rumor that the President might veto the bill when it arrived at the White House for his signature. However he felt that the President would be compelled to approve the bill in view of the tremendous importance to the national defense effort of procuring additional labor for the harvesting of the 1951 cotton crop.

Polyisobutylene, a petroleum product, is a base for synthetic rubber, machine grease, cosmetic, plastic adhesive tape, electric insulation, dripless oils, corrosion-resistant paints and grafting wax.

MAYOR McGUP By John Jarvis

HERE COMES BEN Z. DREEN, THE STREET COMMISSIONER.

MAYOR, HOW DO YOU LIKE THE WAY I'M RE-SURFACING ELM STREET?

FINE, BUT WHY AREN'T YOU USING ASPHALT?

BECAUSE PEOPLE HAVE SAID I HAVEN'T DONE ONE CONCRETE THING SINCE I'VE BEEN IN OFFICE!

Approximately 30 members of the WMS and Sunbeams attended. The Cautchen Circle met for a short business session following the film in the annex. Mrs. J. B. Morrison was hostess to the group. Cokes and cookies were served.

Brush Control Vital To Texas Pastures

COLLEGE STATION, July 5—Improvement and maintenance of established pastures and recovery of the state's range land from nonforage growths are more closely associated in Texas than in other states because both are basic to problems in animal grazing. In order to identify and delimit the duties in these related fields at the A. & M. College Extension Service is served both by a pasture and a range specialist.

Working mainly within areas of permanent or converted grazing lands, the pasture specialist through demonstrational teaching, tours and other proved methods during 1950 sought to place pastures among farm cash crops. Among effective means to this end he encouraged the use of quality fertilizers, especially when seeding, and the field trials of adapted varieties of grass. In connection with the latter, the specialist acted on behalf of the Texas Agricultural Experiment Station in distributing sprigs of coastal bermuda grass to more than 300 farmers in 71 counties.

During the year more than 70 pasture tours, instigated largely by county agricultural agents and other organizations identified with agriculture, were made with average attendance of about 50 persons. Fully one third of the formal tours were followed by night meetings for discussion of pasture problems and showing of appropriate colored slides.

An irrigation pasture management school was taught at Lubbock from June 26 through July 11 with 19 county or assistant county agricultural agents completing the course. A pasture

management school also was conducted within the year at Lufkin with 25 agents or assistants attending. During the course students were taken on tours of seven Experimental substations. Meanwhile the specialist attended or participated in programs of several meetings within or beyond the state devoted to phases of agriculture.

Texas ranges are native pastures and the grass which finds foothold there has to strive for survival against the uncertainties of moisture and the creeping invasion of brush. According to the Extension Service range specialist about 65,000,000 acres of Texas range land are infested with mesquite and other varieties of nox-

COTTON QUIZ

HOW MUCH MONEY DID COTTON EARN FOR FARMERS EACH WORKING DAY LAST YEAR?

ANS—COTTON INCOME FOR THE 14 MAJOR COTTON STATES AVERAGED \$21 MILLION PER WORKING DAY LAST SEASON!

LAFF OF THE WEEK

"George, dear—I've just this minute decided what I want for my birthday."

the field, information important to the ranchmen and farmers they serve.

On October 20, 1950, 163 livestock auctions were operating in Texas. The top number for a single state in the nation. More cattle, sheep and hogs are marketed through livestock auctions in Texas than in any other state.

National Farm Safety Week is scheduled for July 22-28. Safety must be practiced every day in the home and on the farm if the needless deaths and injuries that occur every day in the nation from accidents, are to be reduced.

Last year county agricultural agents in Texas trained 4,200 4-H boys in 127 counties in plant and grass identification.

How many "Independence Days" have we left?

"We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed..."

Immortal words from the Declaration of Independence, adopted on the first 4th of July, just 175 years ago.

THESE WORDS are the stones upon which man built history's greatest work—the United States of America. Remember them well!

"... all men are created equal..." That means you are as important in the eyes of God as any man ever brought into this world. You are made in His image and likeness. There is no "superior" man anywhere.

"... they are endowed by their Creator with certain unalienable rights..." Here is your birthright—the freedom to live, work, worship and vote as you choose. These are rights no government on earth may take from you.

"... That to secure these rights, governments are instituted among men..." Here is the reason for and the purpose of government. Government is but a servant—not a master—not a giver of anything.

"... deriving their just powers from the consent of the governed..." In America, the government may assume only the powers you allow it to have. It may assume no others.

From Concord to Korea, your kinsmen have fought and died for the principles of America's Declaration of Independence: belief in God... belief in the God-given rights of man... belief that man is more important than government... belief in the vital need for morality in all man does.

But on this Independence Day, as never before, these beliefs are in deadly peril. There are people in America who would deny your God-given rights, who prefer expediency to morality, and who would make government the master—not the servant—of man. These people are the advocates of an all-powerful, all-providing socialistic government to control your destiny from cradle to grave.

The time has come to answer them with your own "Declaration of Independence"...

Declare that government is responsible TO you—rather than FOR you.

Declare that freedom is more important to you than "security" or "survival."

Declare again that the rights God gave you may not be taken away by any government on any pretext.

Our founding fathers accepted the truths of America's Declaration on faith alone. Today, our nation is profane—absolute and irrevocable—that these truths work. They are the last great hope for the protection of human civilization.

FREEDOM NEEDS YOU

On this 175th anniversary of the Declaration of Independence, help give the day the spiritual, religious meaning it had to the founding fathers.

Renew your faith and allegiance to the immortal truths stated in the Declaration. Make them an active part of your thinking, your acting, your voting.

Pray for help in maintaining man's closeness to God, in preserving man's God-given rights and responsibilities against those who would make you dependent upon a socialistic, all-powerful government.

"... we need only to recall that the substance of (America's) formula is continuous, strict and closely guarded limitations upon the power of government. Neither the peril of war nor the promise of welfare must ever serve to relax any item of this formula..."
From "The Key to Peace" by Dean Clarence Manion.

U.S. ROYALS

SKID PROTECTION
BLOWOUT PROTECTION
LIFE PROTECTION

The News is Very Good!

This Utmost in Tire and Tube Protection Can Now Be Yours For Years!

No tire news in half a century seems to equal in importance today's news about the U. S. Royal Master and the U. S. Royal (Nylon) Life-tube.

They do what no tires or tubes ever did before. They give you great mileage life, with skid protection, blowout protection and life protection entirely new in riding and driving experience.

Of course, they are in great demand. People want them as fast as we can get them. But we'll take care of you if you'll let us. Why not drop around today?

Complete and responsible tire service

If there should be the slightest delay in filling your immediate order for new tires, we render expert service on your old tires 'til your new U. S. ROYALS arrive. Easy credit terms, of course.

Do's and Don'ts for Your Summer Vacation Automobile Trip

Automobile travel on the nation's highways is expected to reach a new peak this summer. To help travelers get the most pleasure out of touring, and to help keep their cars in the best possible condition, the Buick Service Department reminds owners of the following DO'S and DON'T'S:

- DO** be particularly careful to watch crankcase oil level on long trips.
- DO** remember to switch tires and to watch pressure, especially on hot days.
- DO** wash your car once a week to remove road film and chemicals.
- DO** sit in a comfortable, erect position and rest frequently.
- DO** keep the windshield free of dust and dirt at all times.
- DO** give your car a Lubricate treatment.
- DO** remember that most drivers can get 10 per cent more miles per gallon by observing economy rules.
- DON'T** neglect inspection and adjustment of brakes before starting a long trip.
- DON'T** allow grime and dirt to accumulate on chrome. Clean as frequently as necessary.
- DON'T** take chances with improperly aimed headlights. Your safety is at stake.
- DON'T** put off having the air cleaner cleaned and refilled with new oil.
- DON'T** forget in warm weather your battery needs water frequently. Check it often.
- DON'T** block vision with gadgets and stickers.
- DON'T** drive faster than conditions warrant, don't run risks on the highway, and don't drive if you are fatigued.

Chemical Defoliation Gains in Popularity

COLLEGE STATION, July 5—Chemical defoliation of cotton may be worth the cost and effort regardless of whether the harvest is to be by hand, by picking machines or by mechanical strippers. Removal of the leaves exposes all bolls to sunlight and air current so they dry rapidly and open quickly. This often allows the cotton to be picked two weeks earlier.

Defoliation may be beneficial in the control of cotton insects—cutting down on leaf worm and aphid infestations, reducing boll weevil populations and permitting early stalk destruction for pink boll-worm control.

"Apply defoliants when the youngest bolls expected to make cotton are 25 days old," advises F. C. Elliott, cotton specialist for the Texas Extension Service. "Defoliants should be applied ten days or two weeks before the intended picking date."

Use of dust defoliants is recommended only when plants are wet with dew or when adequate dew is forecast. Elliott cautions that the dust must remain in moisture on the leaf for at least two hours. Four or more hours of moisture exposure is preferred.

Calcium cyanide and monosodium cyanamide are two recommended dust defoliants. Calcium cyanamide, sold under the trade name "Aero Cyanamid, Special Grade," should be applied at the rate of 30 to 40 pounds per acre. Twenty-five to 35 pounds per acre is recommended for monosodium cyanamide, which is sold as "Aero Sodium Cyanamid Dust (X-10)."

Spray defoliants may be used in the absence of dew and when the air is extremely dry. However, Elliott warns that thorough coverage of the cotton plants is essential for good results.

Good defoliation can be obtained with six to eight pounds per

acre of spray defoliants sold under the trade names—"Shed-A-Leaf," "Ortho C-1, Liquid Defoliant," "Aero Cyanate Weed Killer" and "Dow Defoliant." One to four pounds of "Niagrathal DF Spray" per acre or 5 to 15 pounds of "Sodium Cyanamide, Soluble Grade (X-5)" may be used.

For ground spraying Elliott recommends dissolving the above rates in 10 to 25 gallons of water, depending on the type of sprayer used and the size of the cotton plants. Thorough coverage of the plants is essential. This means going to the field with enough water. Under most conditions 25 gallons of water per acre will be necessary.

THE BIBLE SPEAKS

International Bible Society
Sunday School Lessons
BY DR. KENNETH J. FOREMAN

You Are Important

Lesson for July 1, 1931

YOU are important! Whoever you are, wherever you live, whatever you do, you are important to others, to yourself and to God. You are the one and only "you" you will ever be; you have but one life to live, one destiny to fulfill, one soul to save.

The Sunday schools of America are going to put in the rest of this summer studying Christian teachings about human relationships; and we begin, this week, by looking at a basic principle which underlies all of the Christian view of life and its relationships. No other teaching of the Bible will do you much good if you can't believe this simple truth; the incomparable importance of each individual person in the whole world.

In The Image of God

HOW does the Bible teach the importance of the individual? First of all, by declaring that man was made in the image of God. In spite of man's sinfulness, even in the shallowest and meanest of men there is still some trace of the image of God.

John Calvin, as is well known, was far from optimistic about the nature of man; but even Calvin wrote that the only good reason why we should love our enemies and do good to the undeserving, is that even in the worst of men there is still the image of God, so that what we do for any man we are really doing for the God whose image is in him.

Every man is in some sense a fresh creation. Widely used child's catechism asks the question: Who made you? And the answer is, God made me and all things. Every one has the right to give that answer to that question.

Bought With Blood

ANOTHER reason why we believe that every individual is important is summed up in what St. Peter said (1 Peter 1): We have been redeemed—that is, ransomed, bought back—with what is more precious than jewels or gold, the "precious blood of Christ."

Does this mean only those who are now Christians? Surely not. You have a right to say to any man, anywhere: Christ died for you. If you cannot say that, then you are reduced to saying, Christ died for a limited number of people, and for anything I know to the contrary, you may be one of them.

That is a puny sort of gospel. If there is one thing which every evangelical church teaches with universal enthusiasm, it is that the gospel is offered freely to all. If there is one verse in the New Testament that sums up the gospel it is John 3:16: God so loved the world . . . that whosoever believeth . . .

That is no limited gospel. And no one who takes it seriously can look with scorn on any living soul. Jesus has warned us against scorning even a child. Isaac Watts once set a non-Christian idea get into one of his hymns—"for such a worm as I"! That is not a Scriptural idea. Christ did not die for worms, he died for men.

If So, Then What?

MOST Christians do not need even as much argument as this to make them believe in the worth of the individual; they are sufficiently convinced by the attitude of Jesus himself. Nobody could think seriously about Jesus' treatment of children, or his parables about the lost sheep and the lost son, without coming to the same conclusion.

The key-question always is: What is this action, this attitude, this plan, this arrangement, this institution, this system,—what is this doing to persons?

Persons are more important than anything else in the world. This by no means goes without saying. For the world of our time is riddled and raddled with other and contrary ideas: as for instance that man is only an animal, or that he is simply the highest of the animals, or that a man's value comes from his family, or his race, or his bank account. Against all these mistaken views the Christian must stand, firmly knowing that he, no more than others but no less, is made in God's image and an object of God's love; and so in himself, small though his place may be, not only has a value that can never be described in dollars, but is worth more than the human race can ever own.

Polio Precautions Should Be Taken

AUSTIN, Texas, July 3.—During the first five and one-half months of this year 283 cases of poliomyelitis, polio for short, have been reported to the Texas State Department of Health. Dr. Geo. W. Cox, State Health Officer, has issued the following suggestions concerning the disease and its control.

Stringent efforts should be made to eliminate house-flies, mosquitoes, and rodents and to destroy their breeding places. Every effort should be made to institute approved sewage disposal systems and secure safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is necessary to install and maintain sanitary septic tanks and outdoor privies. All raw food and vegetables should be washed thoroughly before use and protected from filth and insects. All food handling establishments should adhere strictly to the State law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain sanitation, should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitation standards.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

Buying insurance should be approached as a family affair and the protection sought should include a study of all types of insurance.

PENGUIN PALS!

These two seem to have a lot in common. Like the little penguin, his pet model goes "formal" for swimming. His little cotton swimsuit by Juniorite in stark black and white plique has straight princess lines and a full-dress tucked white rib front with black tie. The National Cotton Council reports that plique is a favorite fabric for sports outfits this summer.

OPS Food Specialist To Be Here Wed.

In its continuous efforts to help business men to comply with the regulations of the Office of Price Stabilization, the Lubbock district headquarters will again send out price specialists next week to conduct almost 50 price clinics in the 69-county district.
 Leonard C. Tyson, a price specialist in the Food branch, but also familiar with the regulations of other branches, will be in Spur next Wednesday morning, July 11, to help merchants of the area to bring their firms into compliance if they have not already so.
 While here, he will maintain offices at Chamber of Commerce and invites all types of business men to bring their questions to him.
 Meanwhile, C. J. Taylor, district price executive, urged operators of businesses to continue to write to the district office for information they need. The district Office of Price Stabilization is in Broadway Building, 1202 Texas Avenue, Lubbock, Texas.

Mrs. Alfred Walker spent the weekend with her parents, Mr. and Mrs. A. L. Richey of Haskell. Mr. Walker made the trip to Haskell Saturday and they both returned Sunday evening.
 Miss Sarah William of Altus, Okla., has returned to her home after spending the week at the home of her cousin, Sharon English.
 Ronald Wayne Williamson, son of Mr. and Mrs. J. L. Williamson spent last week visiting in the home of Mr. and Mrs. L. D. Beadle of Lubbock.

Petroleum News Notes
 The oil industry produced almost four billion gallons of gasoline in December, 1950 — more than it did during the entire year of 1918.
 Petroleum derivatives are contained in ointments, anesthetics and drugs to stop bleeding, reduce blood pressure, treat kidney and other diseases, and for psychoneurotic therapy.
 Missouri, Georgia, New Mexico, Nebraska and North Dakota reduced gasoline taxes in the past year, saving motorists more than \$33,000,000 yearly.
 On a tonnage basis, the movement of crude oil and petroleum products accounts for about 65 per cent of the nation's ocean shipping and 35 per cent of the traffic on its inland waterways.
 The federal gasoline tax of 1 1/2 cents per gallon now costs taxpayers more each year than the total tax receipts of the national government from all sources 35 years ago.

Price Daniel Leads Anti Crime Move

AUSTIN.—Texas forged to the lead last week in its anti-crime campaign.

The greatest anti-gambling drive in recent Texas history gained speed when the house crime investigating committee held an open hearing on the Galveston gambling situation and Attorney General Price Daniel got a temporary injunction against Galveston betting parlors.

The house crime committee heard 10 Galveston officials and leaders, after hearing four members of Maceo and Co., the Galveston gambling group, at an open hearing in Austin on Monday, June 25.

District Judge Jack Roberts of Austin granted Daniel's request for a temporary injunction against Maceo and Company, Southwestern Bell Telephone Company and Southwestern Associated Telephone Company. The temporary injunction took the place of the 10 day restraining order the court had already slapped on the three companies. Meanwhile, the multi-million

dollar Maceo gambling empire shut down operations in other fields besides horse race betting as a result of the house crime committee hearings and the law suit.

Attorney General Daniel sharply denied published rumors that his blow at Galveston gambling had any political implications. A Galveston Catholic clergyman, Monsignor Dan P. O'Donnell, was quoted as saying that gamblers and businessmen there believed that Daniel wanted to run for office on a platform as "the man who cleaned up Galveston." Monsignor O'Donnell emphasized that "This is not my opinion.

THE AMERICAN WAY

Perfectly Mated

This is simply what I have been told.

Daniel pointed out that he had moved against gambling in seven other Texas cities since 1949, and that he did not intend to make an exception of Galveston.

The attorney general commented that "it is an old trick for those who feel the weight of the law to cry out 'politics' and 'persecu-

tion' in an attempt to turn public sentiment against law enforcement officials."

The Galveston Ministerial Association entered the controversy to support the attorney general. They wired Daniel:

"We realize that it is not necessary for us or anyone else to come to your defense regarding the charges currently being made a-

THE MIDDLES By Bob Karp

gainst you in connection with the gambling clean-up in Galveston. At the same time we feel constrained to commend you for the firm stand you have taken in this matter."

"Inasmuch as a local clergyman has indicated that public opinion is somewhat divided over this issue, we, as representatives of a large group of the citizenry of Galveston, feel bound to make known our positive convictions about this situation."

"We are convinced that gambling in any form, by any person, under any license, is a flagrant violation of the laws of the State, a source of moral evil, and contrary to the fundamental principles of Holy Scripture, and must be condemned," the Galveston Ministerial Association wire said.

Texas Leads Nation In Stock Auctions

COLLEGE STATION, July 5.—Texas is the leading state in number of livestock auctions and in the number of cattle, sheep and hogs marketed by this method, according to a new bulletin released by the Texas Agricultural Experiment Station. The greatest growth in numbers of auctions has occurred in the past 15 years.

Several reasons are given for the increased growth. Farmers and ranchmen like the ease and convenience of selling and buying through auctions. They like the social and educational aspects of the auction. It provides an opportunity to meet friends and discuss the merits of the animals sold in relation to the prices paid.

According to the Livestock Sanitary Commission of Texas, 168 auctions were operating in Texas on October 20, 1950. Thirty-seven of these auctions in various parts of the state were included in a study made recently by Dr. John G. McNeely, Charles B. Brotherton and Travis M. McKenzie.

This study of livestock auctions is mainly descriptive. It does not attempt to point out any advantages this method of sale may have over other methods. McNeely said. It is an introductory step in what is hoped to be a continuing study of the various types of market outlets available to Texas livestock producers.

Bulletin 732, "Livestock Auctions in Texas," is available from the Publications Office, College Station, Texas.

Teachers Needed By Elementary Schools

AUSTIN, Texas, July 3.—Elementary school teachers continue to be the scarcest commodity on the education labor market, it was reported by Dr. Hob Gray, Teacher Placement director at the University of Texas.

Second greatest demand is for librarians. In high schools, English teachers are needed. Many requests have been received also for counselors and for teachers of women's physical and health education.

How to make Wise Tracks to a Beauty

How do you buy a new car?
Are you one of those people who buy on love at first sight?
Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money?
Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks. It's a sure bet you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—fall seriously in love with the pace and power of its bonnet-filling engine.
And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive* and all-coil springing.
But don't let your emotion be the only

judge—get the practical picture too.
Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy.
Note that the silken ease you enjoy with Dynaflo* goes hand in hand with real money savings in maintenance costs.
Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere.
How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

NO OTHER CAR PROVIDES ALL THIS

STAMFORD PRODUCTION CREDIT ASSOCIATION TO HOLD STOCKHOLDER'S MEETING

A large attendance from among the 1600 members of the Stamford Production Credit Association is expected at the annual stockholders meeting to be held in Stamford, Texas, July 13, according to M. L. Rickels, Local Representative, at Spur. Registration is to start at 9 A. M. at the Texas Cowboy Reunion Roundup Hall. A business session will be held beginning at 10 A. M. This will include reports of the past years business, as well as the election of two directors. Nominees for directors are J. C. Moorhouse of Benjamin; Lasater Henley of Guthrie; Roy Moritz of Stamford; and J. F. McCullouch of Stamford. Some outstanding entertainment features are scheduled, and following this there will be an award of attendance prizes. The meeting will adjourn at 12:15 and will be followed by a Chuck Wagon dinner for all PCA members and their families. "This advertisement sponsored by the following members:

HONORARY AWARD... America's most precious gift, citizenship, was conferred on 44 war brides by federal judge Edward F. Murphy at San Francisco. Shown just before they ceased to be alien, the women were all natives of Germany or Italy. Most had been members of Fascist or Hitler Youth groups.

"Storybook" To Tell Texas Ag History At State Fair Show

A unique, new type of Agriculture Show—more of a spectacle than an exhibition—will be presented at the 1951 State Fair of Texas, Dallas, Oct. 6-21.

A "Storybook of Texas Agriculture" will tell the glamorous true story of how the soil of Texas is tilled to produce the necessities—and many luxuries—of life.

The mammoth free show in the Agriculture Building will portray agricultural production of prime importance in each of the 14 Extension Districts of the Texas A. & M. College System.

In 14 colorful sets, simulating giant-size pages of an open book, the story of each district will be told with three-dimensional effect. The districts are the Panhandle, South Plains, Rolling Plains, North Texas, Northeast Texas, Big Bend, Edward's Plateau, Heart of Texas, Piney Woods, Central Texas, Hill Country and Winkler Garden Area, South Texas, Gulf Coast and Rio Grande Plains.

The plot for the "Storybook" has been furnished by the people of Texas through their endeavors in growing cotton, fruits and vegetables, harvesting grass and grain crops, breeding and marketing poultry and livestock and converting products for home consumption.

The "Storybook" material has been compiled and edited by Ray W. Wilson, the fair's agriculture manager, in collaboration with

GOOD HEALTH

Answer to Question No. 1:

1. A baby should be inoculated against diphtheria between the ages of three months and nine months. It is dangerous to wait any longer because the disease is particularly serious in very young children. There were 15,326 cases of diphtheria in 1940. Early figures for 1950 indicate the number of cases has been halved during the ten-year period.

Answer to Question No. 2:

2. Doctors in Hillsdale, Michigan, conduct each physical examination of a patient with the

possibility of cancer in mind, since early detection is the primary factor in curing cancer. Thereby every doctor's office becomes a small cancer clinic. This has been accomplished by complete cooperation between citizens and doctors in a joint effort to detect cancer early.

Answer to Question No. 3:

3. An otopscope is an instrument which directs a ray of light into the ears, making it possible to detect abscesses and other disorders.

DAVID WAYNE reads the comics as TOM FWELL looks on. A scene from Bill Mauldin's "UP FRONT," a Universal-International picture.

"UP FRONT" TAKES LAUGH BEAD ON DOGFACE HUMOR

Willie and Joe, those fabulous cartoon characters of World War II, came to life Sunday on the screen of the Palace Theatre in Bill Mauldin's "Up Front," produced by Universal International Studios.

Willie is played by Tom Fwell and Joe by David Wayne. Covered by the grime of mountain foxholes in southern Italy, this Damon and

Phyllis of the Italian campaign manage to catch the high-hearted humor of fighting men which made Mauldin's cartoons so vivid and popular. They emerge as perhaps the greatest battlefield comedy duo since Victor McLaglen and Edmond Lowe in "What Price Glory?"

The picture, as was the book, is a blending of the natural resentment of the jinx-and-dogface and their dry humor and dough-brown horseplay when the tension of battle eases up.

Marina Bertl, who has appeared in one other American film, "Deported," is only one of the handful of actresses who are able to toss a tantrum in dialect and then use her womanly wiles to get what she wants in unexcelled.

The film is an amazing blend of realism and comedy. The audience can feel the ugliness of a war and yet be comforted by the reactions of Wayne and Sewell. This, and the black market and chase sequences with the MP's in Naples, is expertly brought together by Director Alexander Hall, who was aided and abetted by a stellar cast, many of whom like Miss Bertl, came from Italy to play their roles.

Heading the supporting cast are Jeffrey Lynn, Richard Egan and Silvio Minicotti, Italian character star.

"Up Front" is the kind of comedy that makes for the best movie entertainment.

Dry Lake Community

The hail storm that hit our community did considerable damage to most of the farmers who had to replant have already done so, and some have crops up, so the crops will not be very late.

Kenneth Ray, son of Mr. and Mrs. Kenneth Coursey, is doing fine. He had his tonsils removed recently in preparation for his first year in school.

Mr. and Mrs. E. J. Lassiter are having one of their rent houses repainted. It really makes a difference to give a home a face-lift.

Mose families in our community have been busy preparing chickens for home freezers or commercial lockers for the last week or two, with neighbors helping each other. Improving our home food supply is one of our community goals in the Improvement Contest.

DALE CARNEGIE

★ AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" ★
Invention By Mistake

In June, 1922, a man named Alex Osborn, author of "Your Creative Power; How To Use Imagination," got on a train and went to Dayton, Ohio. When he arrived there he went to the research laboratory of the General Motors Company. He was given a guide and started through the plant, coming at last to a little room where three men were working with a small stationary engine. The guide was no other than Charles F. Kettering, the famous inventor.

"Here's the most promising experiment we have," said Kettering. "We think we can change gasoline until it will give five times as much power as it does at present."

The men worked for six years—and failed. But—and now comes the important point—they discovered something else that turned out to be highly important: Ethyl gasoline.

That, says Mr. Osborn, happens constantly. A person starts out to do one thing and fails. But sometimes he discovers something else that is important. This is brought out many times in his book.

As another example: The Corning Glass Company was brought a problem by a railroad executive. The lanterns used by the men employed on the road were constantly cracking when hit by icy sleet. The railroad wanted a lantern that would take it as it came.

The Corning people started in to develop a harder glass. The job seemed simple but it took seven years; in doing this they hit on something they hadn't started out to do: make a glass so hard that food could be cooked in it. The result was Pyrex. Since that time the women of America have bought over 300 million pieces of Pyrex.

Not only did the company thus turn up a new cooking glass, but it got a start on making glass for the now famous Palomar telescope near San Diego, California.

When Henry Ford was a young man on his father's farm he "foolied" with machinery. At last, he got a big idea. He would invent a wonderful steam engine look silly. He worked long and hard—and failed. But in doing this he hit on the idea of a self-propelled internal combustion engine. So he changed over from the thing he had started to do and made a stupendous success of the thing he hadn't even dreamed of doing.

You can buy a copy of Alex Osborn's book for \$3.50, plus a bit of tax. If you buy it and read it and do nothing about it, you will be wasting your time and your money; but if you really apply it, you will live a more exciting and profitable life. How I wish I had read this book thirty years ago. It should be used as a textbook in our colleges.

In our community program, Dr. Joe Alexander gave an interesting discussion on civil defense work and urged every one who can to learn first aid in order to be able to help yourself and others when the need arises. He advised members of the community to prepare themselves in the event of raids. The government has trained three people in our county as teachers of civil defense first aid, and Dr. Alexander is one of them.

We plan to begin a first aid school at Dry Lake in the near future and urge everyone to take advantage of this opportunity to learn how to give aid. The only cost is fifty cents for a book. You are also required to have a white cloth 40 inches square to use as a practice bandage. The exact time and place of the school will be announced later.

Johnnie Foreman, son of Mr. and Mrs. Murl Foreman had an accident with a tractor and one-way plow and was hurt badly, but at this time is reported to be doing fine for his condition. He is in the Nichols' hospital.

The Bill Calvert's have been enjoying a visit from relatives.

Mr. and Mrs. Coy Dopson had as guests for a few days last week Mrs. Dopson's sister and her children.

The last community meeting was a fun night. Mrs. Van North showed three amusing films. Games were played and refreshments served.

Our next meeting will be a safety program, directed by Charles Taylor and Mrs. North, Wednesday night, July 11.

★ WANT ADS ... Serve Humanity, the Biggest Job on Earth ★

Want-Ads are so Downright Human

All of the news of the day does not appear on Page One of your newspaper! You'll find dreams and drama tucked into the 2-and-3 copy lines of the Want Ad insertions in the back of your paper.

Yes, there's humor and heartaches . . . calls for help, and services offered . . . bargains and profits—voiced by the people, in the Want Ads!

Classified Advertising has its roots in the earliest forms of advertising. Long years ago, town criers roamed cobbled streets announcing strayed cattle . . . property sales . . . betrothals, and the day's happenings.

Today, Want Ads encompass home-business-industry. For here is the pulse of the people — the barometer of business — the prosperity or depression of a community forecast in the jobs offered, versus jobs wanted — in the ups and downs of real estate prices — and, in countless other ways.

Look to the small type of your Want Ads for BIG opportunities. Read and use the Want Ads for profit, result and human interest — it is the world's largest market-place . . . its biggest bargain counter!

The Texas Spur

SOMETHING "EXTRA" FOR SIDEWALK ENGINEERS!

A special Spectators' Gallery, with cushion seats and awning, has been erected by the Republic National Bank of Dallas during the construction of its new 40-story building—the tallest and most modern bank and office building in the Southwest. The gallery also has soft drink vending machines and a telephone for members of the Republic Bank Chapter of Society for the Promotion and Encouragement of More and Better Sidewalk Engineers. A membership card is issued to all visitors and periodically a newspaper giving progress of the new building is mailed to all members of SPENBSE.

FLYING DOWN TO RIO!

When pretty Jeannine Holland, the 1951 Maid of Cotton, flies down to Rio this month to tell Latin Americans about smart U. S. cotton fashions, she'll offer proof positive. The glamorous Maid plans to wear this Korday swim suit in cotton topsail on Rio's famous Copacabana Beach. A swift Braziliff "El conquistador" airliner will whisk the cotton traveler to eight Latin American nations to deliver King Cotton's goodwill and fashion message.

Brush Control Vital To Texas Pastures

COLLEGE STATION, July 5.—Improvement and maintenance of established pastures and recovery of the state's range land from nonforage growths are more closely associated in Texas than in other states because both are basic to problems in animal grazing. In order to identify and delimit the duties in these related fields at the A. & M. College Extension Service is served both by a pasture and a range specialist.

Working mainly within areas of permanent or converted grazing lands, the pasture specialist through demonstrational teaching, tours and other proved methods during 1950 sought to place pastures among farm cash crops. Among effective means to this end he encouraged the use of quality fertilizers, especially when seeding, and the field trials of adapted varieties of grass. In connection with the latter, the specialist acted on behalf of the Texas Agricultural Experiment Station in distributing sprigs of coastal bermuda grass to more than 300 farmers in 71 counties.

During the year more than 70 pasture tours, instigated largely by county agricultural agents and other organizations identified with agriculture, were made with average attendance of about 50 persons. Fully one third of the formal tours were followed by night meetings for discussion of pasture problems and showing of appropriate colored slides.

An irrigation pasture management school was taught at Lubbock from June 26 through July 11 with 19 county or assistant county agricultural agents completing the course. A pasture

management school also was conducted within the year at Lufkin with 25 agents or assistants attending. During the course students were taken on tours of seven Experimental Substations. Meanwhile the specialist attended or participated in programs of several meetings within or beyond the state devoted to phases of agriculture.

Texas ranges are native pastures and the grass which finds foothold there has to strive for survival against the uncertainties of moisture and the creeping invasion of brush. According to the Extension Service range specialist about 65,000,000 acres of Texas range land are infested with mesquite and other varieties of noxious shrubs. The primary problems of management include brush invasion, overgrazing, lack of appreciation by ranchmen for a coordinated range management program and other situations demanding reform. Despite the formidable array, county agricultural agents under the leadership of the range specialist are attacking these problems principally through demonstrational means.

In the field of brush control 1,321 demonstrations involving 402,512 acres were conducted in 126 counties, including mesquite work alone in 63 counties. Of this number, 16 county agricultural agents tested a new type hormone, 2,4,5-T ester, by hand methods using cut surface, trunk and foliage treatment. A total of 604 demonstrations in proper stocking involving 2,000,000 acres were conducted in 111 counties, while 1,314,000 acres in 126 counties furnished the operating field for demonstrational grazing for range recovery on behalf of 550 operators. More uniform distribution of livestock on range has followed construction of numerous wells and earthen tanks. At the same time fences have been built so that ranges can be utilized more uniformly and, accordingly, better managed. Meanwhile, agents supervised 1,619 range seeding demonstrations on 181,247 acres.

During the year county agricultural agents trained 4,200 4-H Club boys in 127 counties in plant and grass identification. Teams from 104 counties took part in 259 contests, while 36 range demonstration teams gave 86 performances on range management practices and principles, and 235 club boys in 55 counties carried range management demonstrations.

Four years ago a range school for county agents was set up with the aid of the Range and Forestry Department of the A. & M. College. The 1950 class brought to about 100 the number of agents who have attended. Agents studied range plants, ecology, plant succession and range management in

COTTON QUIZ

HOW MUCH MONEY DID YOU EARN FOR FARMERS EACH WORKING DAY LAST YEAR?

ANS—COTTON INCOME FOR THE 14 MAJOR COTTON STATES AVERAGED \$2.1 MILLION PER WORKING DAY LAST SEASON!

LAFF OF THE WEEK

"George, dear—I've just this minute decided what I want for my birthday."

the field, information important to the ranchmen and farmers they serve.

On October 20, 1950, 163 livestock auctions were operating in Texas. The top number for a single state in the nation. More cattle, sheep and hogs are marketed through livestock auctions in Texas than in any other state.

National Farm Safety Week is scheduled for July 22-28. Safety must be practiced every day in the home and on the farm if the needless deaths and injuries that occur every day in the nation from accidents, are to be reduced.

Last year county agricultural agents in Texas trained 4,200 4-H boys in 127 counties in plant and grass identification.

How many "Independence Days" have we left?

"We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed . . ."

Immortal words from the Declaration of Independence, adopted on the first 4th of July, just 175 years ago.

THESE WORDS are the stones upon which man built history's greatest work—the United States of America. Remember them well!

" . . . all men are created equal . . ." That means you are as important in the eyes of God as any man ever brought into this world. You are made in His image and likeness. There is no "superior" man anywhere.

" . . . they are endowed by their Creator with certain unalienable rights . . ." Here is your birthright—the freedom to live, work, worship and vote as you choose. These are rights no government on earth may take from you.

" . . . That to secure these rights, governments are instituted among men . . ." Here is the reason for and the purpose of government. Government is but a servant—not a master—not a giver of anything.

" . . . deriving their just powers from the consent of the governed . . ." In America, the government may assume only the powers you allow it to have. It may assume no others.

From Concord to Korea, your kinsmen have fought and died for the principles of America's Declaration of Independence: belief in God . . . belief in the God-given rights of man . . . belief that man is more important than government . . . belief in the vital need for equality in all man does.

But on this Independence Day, as never before, these beliefs are in deadly peril. There are people in America who would deny your God-given rights, who prefer expediency to morality, and who would make government the master—not the servant—of man. These people are the advocates of an all-powerful, all-providing socialistic government to control your destiny from cradle to grave.

The time has come to answer them with your own "Declaration of Independence" . . .

Declare that government is responsible TO you—rather than FOR you.

Declare that freedom is more important to you than "security" or "survival."

Declare again that the rights God gave you may not be taken away by any government on any pretext.

Our founding fathers accepted the truths of America's Declaration on faith alone. Today, our nation is proof—absolute and irrevocable—that these truths work. They are the last great hope for the protection of human civilization.

FREEDOM NEEDS YOU

On this 175th anniversary of the Declaration of Independence, help give the day the spiritual, religious meaning it had to the founding fathers.

Renew your faith and allegiance to the immortal truths stated in the Declaration. Make them an active part of your thinking, your acting, your voting.

Pray for help in maintaining man's closeness to God, in preserving man's God-given rights and responsibilities against those who would make you dependent upon a socialistic, all-powerful government.

" . . . we need only to recall that the substance of (America's) formula is continuous, strict and closely guarded limitations upon the power of government. Neither the part of war nor the promise of welfare must ever serve to relax any item of this formula . . ."

From "The Key to Peace" by Dean Clarence Wilson.

OPS Food Specialist To Be Here Wed.

In its continuous efforts to help business men to comply with the regulations of the Office of Price Stabilization, the Lubbock district headquarters will again send out price specialists next week to conduct almost 50 price clinics in the 69-county district.

Leonard C. Tyson, a price specialist in the Food branch, but also familiar with the regulations of other branches, will be in Spur next Wednesday morning, July 11, to help merchants of the area to bring their firms into compliance if they have not already so.

Meanwhile, C. J. Taylor, district price executive, urged operators of business to continue to write to the district office for information they need. The district office of Price Stabilization is in Broadway Building, 1202 Texas Avenue, Lubbock, Texas.

Petroleum News Notes

The oil industry produced almost four billion gallons of gasoline in December, 1950 - more than it did during the entire year of 1948.

Petroleum derivatives are contained in ointments, anesthetics and drugs to stop bleeding, reduce blood pressure, treat kidney and other diseases, and for psychoneurotic therapy.

On a tonnage basis, the movement of crude oil and petroleum products accounts for about 65 per cent of the nation's ocean shipping and 35 per cent of the traffic on its inland waterways.

The federal gasoline tax of 1 1/2 cents per gallon now costs taxpayers more each year than the total tax receipts of the national government from all sources 35 years ago.

POST RODEO, from page 1
and fifty boys and girls entered the show last year and more are expected this year.
Goat Mayo of Petrolia is furnishing the stock for the rodeo and several specialty acts will be featured. Leon Miller of Post is secretary of the rodeo and should be contacted for any information on it.

THE second annual Quarter Horse Show to be held with the rodeo will be held on August 14 with the judging starting at nine a. m. Horses may be entered by adults as well as juniors. It will include all halter classes as well performance class. Entry blanks are available on request.
Entries for the rodeo will close on August 12 at noon and the horse show entries will close at 8 a. m. on the 14. Two long parades featuring riding groups from all over West Texas, national magazine and movie coverage, top stock and specialty acts, outstanding junior cowboys and cowgirls, and champion horses should make the show one of the best to be presented this season.
