Mrs. Barnett Host To Soldier Mound H. D. Club.

The Soldier Mound Home Demonstration club met in the home of Mrs. Floyd Barnett Thursday at 2:30 p. m. February 21.

Mrs. Van North discussed the topic "Planning the Kitchen Lighting." According to Mrs. North mere lighting is not enough because comfortable seeing is what counts. She also stressed the fact that "the kitchen is the heart of the home, and as such should have adequate outlets for the various work centers and enough circuits to carry the load."

Refreshments of cherry decorated cake and fruit punch were served.

Attending the meeting were Mesdames John Aston, Hade Condon, Henry Gruben, Ollie Hindman, T. B. Watson W. T. Williams, North, Miss Charlotte Bills and the hostess Mrs. Barnett.

LITTLE BRENDA FRANKLIN BURIED IN LEVELLAND

other. Under the Common Law, since very early times, a legal name has consisted of one Christian or given name, and one surname, which is the family name. Generally, use of both such names is necessary for legal identification.

The law does not pay too much attention to the middle name or initial. However, although the use of the middle name or initial is not required, it is wise to use it since it may be important for identification in some cases.

According to attorneys, married women have more difficulty with their signatures than most other people. When a girl marries she, of course, takes her husband's surname. Thus Mary Lou Jones legally becomes Mary Lou Brown when she marries James E. Brown.

But, in practice, she usually does not stop there—she uses his full name as her own, signing herself as Mrs. James E. Brown, instead of Mrs. L. Brown (or Mary Lou Brown) which is correct.

Can this apparently minor error in Mrs. Brown's signature cause any trouble? Let us assume that the Browns decide to sell their home, which they have owned fifteen years, and move to Oregon. Five years pass, and their former home is now owned by George Smith, who has made a deal to sell it at a nice profit. In checking the title of the property, the name "Mrs. James E. Brown" turns up in Smith's abstract, as it appears on the deed by which James and Mary sold their home.

For the title to be clear, the land records must show that the Mrs. James E. Brown who sold the house and lot was the same identical person as the Mary L. Brown or Mrs. James E. Brown whose name appears on the deed conveying the property to the Browns many years before.

In order that the purchaser may be safe, lawyers and courts must not overlook the possibility that they may be two different persons. If so, the first Mrs. Brown may have died leaving heirs who have not yet relinquished their interest in the home. Other possibilities would present serious implications also.

Proof of identity in this case could involve tracing the Browns through several states, or other methods equally or more expensive and consuming. While waiting for this proof, George Smith might lose his chance to take a profit. The intended purchaser may have to begin anew his search for a suitable family shelter. The Browns may be out time and money in correcting the discrepancy.

In this situation, the "minor" variation in Mary's signature has resulted in trouble for everyone involved.

Perversely enough, other married women feel that their maiden surname is still legal and continue to use it. For instance, a wife may register her automobile in her maiden name instead of her married name. This is not in compliance with the law requiring a car to be registered in the name of the owner. Her maiden sur-

name is gone for good, unless she is divorced and wants to resume the use of her maiden name. Then it may be returned to her by a court order.

The law does not consider "Junior" or "Senior" a significant part of the name, as regards identification. However, it will not be incorrect to add such terms to your signature, if you wish. Similarly, "Mr." or "Mrs." are not legally important or necessary.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Mr. and Mrs. D. E. Bloodworth have just returned to Spur after an extended visit to the Texas panhandle and New Mexico. While in New Mexico they visited the white sands and Carlsbad caverns.

"Kitchen Lighting" Is Topic For Afton H. D. Club

Rogers, Joe Allison, Annie Johnson and the hostess, Mrs. Blassengame.

POLITICAL ANNOUNCEMENT:

In announcing my candidacy for State Senator of the newly created 24th District, I have in mind but one motive and one desire, and that is to serve the people of my district and my state in the capacity wherein I feel that I can render the greatest service.

STERLING W. WILLIAMS
I have lived my life in this district. I am familiar with the problems confronting the people in each of these thirteen counties. I have served one of these counties as County Attorney for two years

and as County Judge for six years. I have served six of these counties as Representative in the Legislature for eight years.

No one has contributed to the expense of any campaign that I have ever been in. I have accepted no fee or favor of any kind for any service I have performed as a member of the Legislature. I am not on the retainer of any individual firm or corporation, and have never been. I have had no trades, deals or business transactions of any kind with any one which were brought about or influenced by virtue of my being a member of the Legislature. The full record of all personal revenue and income that I have derived from every source is available to anyone who may desire to inspect it.

As a Representative in the Legislature, I have represented no special group. I have been open minded on all matters and I have listened to the proponents and opponents of all measures. I have given honest, careful, sober consideration to all measures that have come before the Legislature and I have cast my vote solely on what seemed to me to be to the best interest of the people of my district and my state.

All issues will be thoroughly discussed hereafter in this campaign, but I say here that during my tenure in the Legislature, I have worked consistently for good roads. It is my belief that we could have no prosperity, rural or urban, if the streets of our cities were paved with gold and the rural people could not get to them. I deem it important that the units of local government, city and county, be maintained, and that their fields of revenue be not infringed upon by the State and Federal Government and that no more of their powers be usurped to Austin and to Washington. The State has surrendered to the counties additional sources of revenue. I think that a study should be made to see what sources of State revenue could be spared to the incorporated towns and cities to help them meet the additional requirements for expenditures which progress has placed upon them.

I have supported measures for higher salaries for school teachers and for revision and reform in school laws. I did not favor the Gilmer-Akin Bill as such, because, I believed that it would place such a tax burden on the resources of the State as to bring about Federal participation in and control over our school system. I supported vigorously the bill permitting the creation of rural telephone companies based on the R. E. A. plan. I have supported measures for additional tax on natural gas, but I opposed setting a minimum price on gas. I do not believe that the producers of gas are any more entitled to a price guaranteed by law, than the producers of cotton are. I am opposed to taxing non-highway used gasoline.

I have seen many years in this country when the amount of the proposed tax would have meant the difference between a small profit and a loss on a short crop. I think that a reasonable inspection of the safety devices on an automobile should promote safer driving on our highways, but I could not and did not support the inspection law passed by the last Legislature because it contained requirements impossible for the average motorist to meet and because it placed the legislative power in the Department of Public Safety to make require-

ments and change requirements. I am against divorcing from the state control any department and allowing them legislative power to make their own laws. I think that the Legislature should make the laws and the departments should administer them. I have supported all measures for equitable redistributing, but I worked to bring about changes in some of the bills that would have worked a hardship on some sections of our country.

I feel deeply the need for economy in government. If I may represent you in the next Texas

Senate, I will surely ensure for economy. Mrs. Lee Williamson, is a member of the State Senate. He left the State December 12, 1952, and his address is AF 1825 4483, the vote of this district is AF 235, cognize allegiance San Francisco, Calif. and to the people.

Facts truck owners should know about hauling bigger payloads

WANT to know why you can carry more payload with Dodge "Job-Rated" trucks? First, they've got better weight distribution. This means that bigger payload capacity is engineered into a Dodge "Job-Rated" truck. Many trucks carry too much weight on the rear axle, not enough on the front. But in a Dodge truck, the right proportion of the load is carried on each axle.

"With our new Dodge, the payload is high, the cost per mile low!" ... says MORRIS SAPIR Dependable Furniture Company, Oakland, California

Join the RED CROSS!

READY TO SERVE HUMANITY..

you too can answer the call

Whether the ringing call for help comes from a scarred battleground or from an area torn by disaster, we can... we must answer that call. Through the Red Cross we can answer humanity in distress with warm food, medical care, life-saving blood, shelter—whatever our fellow American needs desperately. The Red Cross can give our answer — but only if we make their humanitarian service possible with our contributions. So let no call for help be in vain... give as generously as possible to your Red Cross.

GIVE ENOUGH, YOUR RED CROSS MUST CARRY ON!

Call out the Reserves with a touch of your toe!

Most cars lead a double life. A good part of the time, they're running errands, taking children to school, taking women to stores, taking men to work, taking family and friends to clubs and social functions. It doesn't call for a very great output of horsepower for duties like these. But there are times when you want a car that can do vastly more, and these are the times when you'll want what this year's ROADMASTER has to offer. Beneath its proud hood, there's a Fireball 8 Engine—a valve-in-head that can let loose 170 lively horsepower when needed. And—alongside this engine—there's also an Airpower carburetor which thriftily feeds fuel and air through two smaller-than-usual barrels for normal driving—which means that you now use less gas at 40 than you'd formerly use at 30. But there are two barrels in reserve—waiting for you to call them into action—and they let loose a soaring rush of power that sinks your shoulders back into the seat cushion, swoops you past a truck—out of a tight spot—up a hill

added miles more than twice as fast as your watch can tick off the seconds. This is an experience you certainly should know firsthand. You should also know how Buick's Power Steering* provides a helping hand in slow-motion maneuvers—lets you keep the "feel" of the car in straightaway driving. And just for good measure, this '52 ROADMASTER also has the biggest brakes of any postwar Buick—the greatest trunk space since spare tires moved off the front fenders—a warning light that glows when the parking brake is set—and to top it all, the smartest interior fabrics that Buick has ever offered. When are you coming in to look this distinguished performer over? We urge you to make it soon.
