Chamber of Commerce Doings . . . WELDING CLASS HELPS CONSTRUCT PLAYGROUND EQUIPMENT FOR PARK

The Dickens county vocational school welding class, instructed by Gene Roberts, is lending their assistance to the civic improvement committee of the chamber of commerce this week. The class is welding some 400 feet of pipe ordered by the chamber to be made into swings, seesaws, acting bars and other park equipment.

They are expected to be assembled into park equipment this week and ready for installation. The City of Spur will set the equipment in the ground with concrete to complete the job within the next few days. W. T. Andrews, Fike Godfrey and D. J. Dyess, as co-chairmen of the civic improvement committee will determine the location of the equipment and make further plans for park improvement.

It is hoped by the committee that the park will be well kept and suitable for picnics and recreation.

Arrangements are being made for a tractor, mower and a man for the maintenance of the park this year.

The chamber of commerce regular Sunday afternoon radio program over KFLD will no longer be heard at 3:15, but will be assigned a new time that will be announced soon. KFLD is joining the Liberty broadcasting system and will be broadcasting major league baseball games Sunday afternoon.

The chamber of commerce joined in the very impressive reception of the visitors from London, England last Sunday. The Dickens Civic club and Mayor Nickels promoted the stop in Dickens which was attended by well over 600 people, including about 200 from Spur. It was the largest reception the group had received in towns the size of Dickens and the good citizens of Dickens are to be congratulated for showing the visitors a fine welcome.

Formal Opening Sat. For New Studio

Mr. and Mrs. Norman Morgan, formerly connected with the Spotlight Studios of Albany, have recently moved to Spur, where they expect to conduct the formal opening of a photography studio, Saturday, May 3. The business will be located between the Spur Theatre and the Burt drug store.

The Morgans have completely renovated the inside of the building and now has a very modernized reception room, an office, a photography room, and three dark rooms.

The reception room is attractively decorated with a display of portraits arranged on coral rose spun glass. The photography room is equipped with modern cameras and the walls are painted in a variation of tones giving a choice of backgrounds, which Morgan says is essential to good picture making, selection of which is governed by the age of the subject and the color of clothing being worn.

Dark rooms are so arranged and lighted with "safe lamps" as to best enable the photographer to develop a film with the least amount of exposure, assuring the customer of good results.

Morgan, upon being discharged from the U. S. Navy, enrolled in the Texas School of Photography. Upon graduation he trained Mrs. Morgan, whom he deems a valuable employee. Staff size is expected to increase as the need appears.

In addition to portrait work, the Morgan Studio holds contracts with 26 schools where they make the standard school pictures and do photography for the annuals. Some of the schools they service include: Wellington, Colorado City, Albany, Sengraves and Post.

The Morgans have one child, Judy. They reside in the Arthur home at 1015 West Harris.

The Morgans invite everyone to their formal opening Saturday.

Duck Creek Soil Conservation District News Notes

Farmers of the Duck Creek Soil Conservation District are "going to grass!" At least some of them are, according to the district board of supervisors who this week purchased about 1500 pounds of grass seed and distributed it to district cooperators at cost.

Blue Panic is leading the parade of grasses at present. Between Guy Goen, D. F. Dagley, George Austin, B. R. Harvey, W. K. Harvey, Ben Overstreet, A. E. McClain, Oscar McGinty, and Cliff Bird, some 400 acres will be planted. This grass is best planted in rows where it can be cultivated once each year, according to Soil Others, such as B. D. Clifton, J. O. Cornett, Ben Lee, Guy Goen, C. C. Halle, D. R. Hale and M. Wilson, are planting land, which needs to be retired from cultivation, to native grass mixtures of Blue grama, Sideoats gramma, Sand legrass, Little bluestem and Sand bluestem in the hope of holding the soil and getting grazing returns on a permanent basis, without any cultivation.

J. O. Cornett, C. C. Halle and Jimmy Perryman are planting King ranch bluestem and Weeping love grass. These are introduced grasses, and are benefited by cultivation but will grow without it.

Several grass plantings have been successful in this area in the last few years. Among the best has been 40 acres of mixed, native grasses on Mrs. Tom McArthur's place. Planted in 1950, this plot is looking good, and should begin to furnish grazing this year.

The District supervisors estimate that there are thousands of acres of cropland in the district which are a soil erosion hazard as long as they are in cultivation, but could return a permanent, profitable income from grasses. Other acres of good cropland which are being grazed for a few years in rotation with row crops. The soil, when the sod was plowed up, would be almost like new land.

Big Reception Held In Dickens Sun. For Englishmen On Tour

An estimated 700 persons attended the reception given for the group of Englishmen now on tour of the United States, held in Dickens Sunday, April 27, from 3 to 5 p. m.

This tour is being made by three red London double-decker buses, two English-made cars, and a repair truck. This good-will tour will take the great square-nosed vehicles on an 8,000 mile round trip from Atlantic to Pacific. These Britishmen's four-months journey is a tangible expression of British friendship for the people of America.

The trip is sponsored by the non-profit British Travel Association, with the buses and their crew provided by London Transport Executive, which operates the capital city's bus and underground transportation. The Association is dedicated to building international understanding through the medium of travel.

The Dickens reception committees were composed of the Dickens Civic club, Spur Chamber of Commerce, and the Patton Springs band.

The Londoners presented to Mayor C. W. Nickels of Dickens the charter of good will, and in return received the key to the city by Nickels' grandson.

Englishmen who were interviewed over the public address system agreed that the Dickens reception was the largest given in comparison to the size of other towns.

Rides in the buses for a short distance were given to children at the reception and to the Boy Scouts of Dickens. The top speed of these buses is 45 mph.

Rotarians Hear Open Forum By Students

Regular meeting of Rotarians held Thursday, April 24, opened at 12:00 a. m. when members and guests sang the "Star Spangled Banner."

A luncheon of fried chicken, spinach, green beans and new potatoes, cream gravy, hot rolls, fruit salad, spice cake and iced tea was served to those present.

The group sang "Rotary", Program chairman George Gabriel took the floor and gave members an opportunity to introduce visitors. Bill Gregory presented as his guest Norman Morgan, and as a new member, Mr. Kelley. Morgan recently moved here from Albany and has opened a photography studio here. Kelley has been school superintendent at Patton Springs and is currently farming north of Spur.

Gene Brasher presented as his guest, Grady Wilson, a salesman from Fort Worth. George S. Link brought as a visitor Guy Karr, Spur postmaster, whom he humorously introduced as being the "local representative of the Truman administration."

The program was turned over to Weldon Skinner, Spur high school principal. He brought with him six high school students, each one the child of a Rotarian. They were: Lawrence Cook, Franklin Gabriel, Carolyn Kelly, Jackie Cloud, Billy Sue Gregory and Don McGinty.

He tossed these pupils a lead question asking them whether the Blues or Golds were representative of the better football material, which in turn constituted the beginning of an open forum lasting 30 minutes, with adults asking the questions and the pupils answering them.

Other subjects discussed included "crippling" in high school, the type of person who does it; whether or not it is accepted as being the decent thing, and whether or not a teacher's method of instruction and grading can be in any measure the cause of a child cheating.

The answers given by these youngsters indicated that they are high-minded individuals and will present a youth of which we may well be proud.

Jack Godfrey dismissed the group in prayer.

TO THE VOTERS OF DICKENS COUNTY:

During my campaign for Sheriff, Tax Assessor and Collector, I hope to see each voter personally and solicit his vote and influence in my behalf. However, I can already see that this will be an almost impossible task if I am to continue to exert my best efforts as your Deputy Sheriff. I do not feel that it would be right for me to neglect my present duties in order to carry out a house-to-house canvass. I will just have to contact as many of you as I possibly can as I perform my duties over the County. I earnestly solicit the vote and influence of each and everyone of you, and I trust that you will forgive me if I am unable to speak to you personally. I think the following poem will illustrate what I am up against.

THE SHERIFF'S JOB Now, this sheriff's job is a curious one; Like the housewife's work, it's never done.

Like the housewife's work, it's never done. Calls come by night and come by day;

They may be near or miles away. Do hurry up, says the voice of the caller; You're badly needed in Possum Holler.

Paw's on a rampage; he's got a gun; So we jump in our flivver and hit the trail;

And drive like a streamliner carrying the mail. Our only hope and all we can offer,

Is to be on hand before Paw pulls the trigger. We finally arrive amid confusion

We learn the affair was a simple delusion. Paw with his gun was just hunting squirrels;

Maw had gone to school with the two oldest girls. Next day we're hunting a mottled faced cow;

That night we referee a nice family row. Next day we have Court and the lawyers rave;

The defendant sits there in need of a shave. "Where were you on the first of September?"

The defendant replies, "I don't remember."

They argue around till half-past three;

Then the jury goes out and fails to agree.

The Judge sends them back 'til their duty's done.

Now, that's just a sample of what we do:

And endless variety of the old and the new.

It may be a prowler, a burglar, a drunk;

He may steal your billfold, your watch or your trunk.

We set out to catch him, and we do our best;

We catch our percentage and lose the rest.

We can't catch them all, for some leave no clue—

They don't leave their cards, like the candidates do.

Sometimes they plead guilty, and the Judge will scold,

Then half the county will want them paroled.

They blame the depression, the New Deal, the tariff—

But most of the folks put the blame on the sheriff.

So it's quite a game if you stay right in—

You'll get a pat on the back, and a sock on the chin.

But I like it, and I'm shedding no tears—

And I'd like to be your sheriff for the next two years.

Morrow - Harrison Vows Read Here Friday

Before an archway flanked with candles and baskets of gladioli with a background of huckleberry, Miss Bobbie Dean Morrow, daughter of Mr. and Mrs. Thurman A. Morrow of Spur, and Robert L. Harrison, Jr., son of Mr. and Mrs. Robert L. Harrison, Sr., of Jayton, were married Friday, April 25, at 8 p. m., in the First Baptist Church here.

Rev. Calvin Partain of Plainview performed the double ring ceremony.

Miss Ernestine Berry of Spur was organist, and accompanied Miss Lorene Gunter of Plainview who sang "Because" and "The Lord's Prayer".

The bride wore a dress of nylon net and chantilly type lace over white satin. The bodice was styled with a yoke dotted with seed pearls. She wore a fingertip length veil of illusion falling from a tiara of seed pearls, and pearl earscrews, a wedding gift from the groom. Her bouquet was of white roses with maline and ribbon.

Mrs. Bobby Slack of San Antonio was matron of honor. She wore a dress of orchid organdy over matching taffeta, fashioned with fitted bodice, full skirt, scooped neckline and cap sleeves. She carried a nosegay of sweetpeas.

Bridesmaids were Mrs. Orville Roberson of Lubbock and Mrs. Calvin Partain of Plainview. They wore identical dresses of yellow and carried nosegays of sweetpeas.

Miss Beth Harrison, sister of the bridegroom, was a candlelighter and wore a dress of yellow organdy over taffeta. Thurman Morrow, Jr., brother of the bride, also served as candlelighter. Little Miss Sharon Ragland of Roaring Springs was flower girl and wore a yellow organdy identical to the bridesmaids.

Gorden Morin of Jayton served as best man. Ushers were Orville Robinson of Lubbock and Walter Ray of Matador.

The bride's mother wore an aqua dress of lace with white accessories and a shoulder corsage of white gardenias. For the wedding, the groom's mother chose an off-white linen dress with orchid accessories and a shoulder corsage of orchid gardenias.

A reception followed the ceremony in the church annex. The table was laid with a yellow lace cloth over orchid linen and centered with a white wedding cake decorated with yellow roses. Baskets of white gladioli and candelabrum flanked each side of the fireplace.

Members of the houseparty were Meses. Ben Boland, Robert

Moore, Walter Gruben, Jerry Ensey, Ava Johnson, W. C. Gruben, Cal Martin and Misses Unell Middlebrooks and Wanda Lester.

For a wedding trip to South Texas the bride chose a gray sheer dress with white accessories and a shoulder corsage of white rosebuds.

The bride is a graduate of Spur high school and attended Wayland Baptist College in Plainview. The bridegroom is a graduate of Jayton high school and attended Texas Tech in Lubbock.

The couple is to be at home at Fort Knox, Ken., where he is serving in the armed forces.

IT'S THE LAW
in Texas

A well drawn contract is designed to avoid the unfortunate disputes which are usually based

on honest misunderstanding, and not to let one person take advantage of another. Lawyers agree that one of the most important functions served by the careful execution of a contract is the preservation of business friendship. Nearly every day all of us are making agreements with our fellow citizens. We base our plans and decisions on the faith that such agreements will be carried out. The grocer delivers foods to us, relying on our promise to pay at a later date. We go to work each day on the faith of our employer's agreement to pay at the end of the week or month. Our whole system of free enterprise

and trade is based, to a large extent, upon mutual agreements or promises to do something in the future. Oral or written, such agreements are usually contracts. Probably the great majority of contracts that we enter into are never put into written form. Generally speaking, you can enter into a verbal agreement that is just as binding as a written contract. The important thing for each party to remember is to make the agreement or understanding perfectly clear whether it is oral or written. Usually you will find that the best way to do this is to put it into a written contract. Exact terms of an oral contract may be difficult to establish if a disagreement arises.

It is easy enough to define a contract as an agreement between two or more people where each of the parties does something or promises to do something in return for the act or promise of the other. The real problem is to be actually certain what each party

has agreed to do. Suppose Mr. Householder has a piece of paper on which is written the heading "Proposal" and which thereafter reads as follows: "We will build a garage for your lot for the estimated price of \$800, work to be done in a workmanlike manner. All of our work is guaranteed to your satisfaction. Subject to the conditions printed on the reverse side." This is signed by the XYZ Company. Under this signature is the word "Accepted" followed by a line for the signature of Mr. Householder. His question is, should he sign it? Before he signs it there are some things he should consider. He should first remember that once he and the XYZ Company have both signed the agreement, no matter how informal it may appear, they have bound themselves to the terms as written and

to build a garage—yet nothing is said about the size or type of construction. It has no even been stated whether it is to be a single or double garage. There is no indication in the agreement as to where on the lot the garage will be built. It says nothing about when the work is to be finished. There is no agreement as to whether Mr. Householder is to pay in advance, in installments, or not until it is completed. Further, they have not actually agreed upon a price. The agreement refers to an estimated price of \$800. They should be specific and make either a fixed price contract or an agreement whereby the builder is reimbursed for his expenses plus a definite profit percentage. Perhaps the XYZ Company feels that if their expenses are higher than anticipated, they will be able to charge more than the estimated \$800. On the other hand, Mr. Householder probably feels that \$800 is the maximum price he will have to pay.

ALWAYS BE CAREFUL DRIVING

It makes each drop of gas say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine.

But the problem is to put that energy to work.

So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbo-top piston—gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power.

This isn't something that happens in a "car of the future."

It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-head engine. But it's also a Fireball in performance as well as name.

And it puts extra power under the hood—and extra miles in the fuel back in the gas tank.

Now, power is great, but what goes with it?

Mister, that's something you ought to find out—and soon.

What goes with it is an automobile as sweet-handling, eager and willing as anything that ever made your pulse leap to a faster beat.

It's a car that seems to know what you

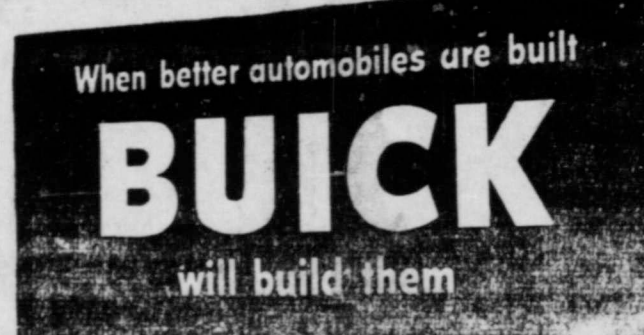

want it to do—true and sure in its course on a straightaway—beautifully balanced on curves.

It's a car with Dynaflo Drive* to feed power with infinite smoothness—and a road-hugging levelness of ride that took a million in cold cash to perfect.

And it is, with all this, a very tidy bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration.

DRY LAKE Community News

Mrs. E. J. Lassetter, reporter

The Dry Lake Home Demonstration club met in regular meeting Wednesday, April 23. After a short business session Mrs. Harriette Hatcher, the agent, gave a demonstration on sponge cake, which was served later as refreshments to seven members and three visitors. The next meeting will be May 14 in the home of Mrs. Ellis Draper.

Mr. and Mrs. Coy Dopson and son Donald drove down to Austin, went through the Capitol, came back by the Buchanan dam, and went to Georgetown where Mrs. Dopson visited where her mother spent her girlhood days.

Mr. and Mrs. E. J. Lassetter made a trip to South Texas, making stops at Brownwood, Columbus and Rosenberg.

Mr. Kenneth Dopson spent a week at home with his parents and brother, Donald. Kenneth is employed with FHA at Plainview.

The Dry Lake revival closed Sunday night, April 20, with ten conversions. Bro. Lee Ervin of Chickasha, Okla. did the preaching.

Mr. and Mrs. B. F. Saxon and Mrs. Bob Pickins spent the week end at Crowell visiting relatives.

The Dry Lake boys and girls worked hard Sunday afternoon in a ball game. The boys played the girls. The boys won.

The Dry Lake community meeting met Thursday night, April 24. Mrs. Hatcher gave a demonstration on recreation. Everyone enjoyed the fun. The next meeting will be May 8 at 7:30 p. m. There will be a pie supper that night. Everyone is cordially invited—especially all the candidates.

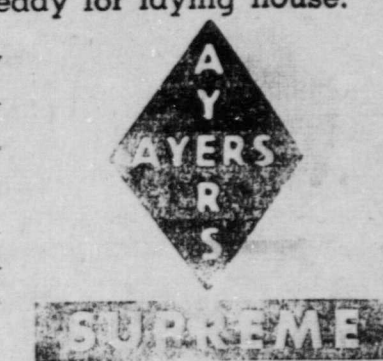

YOU'D SING TOO if you were getting AYERS SUPREME GROW MASH
Mash — Pellets — Crumbles

TO RAPID GROWTH

Strong, vigorous, early maturing pullets are the kind that have the stamina and health needed for heavy, continuous laying. They are the kind of pullets that lay more eggs in their first year and when eggs are highest in price. But you cannot grow such pullets by feeding them a good Chick Starter for six weeks and then providing only forage and grain.

Growing pullets require a balanced, carefully blended ration just as baby chicks do . . . but the protein level can be lower. For greatest feeding economy feed your chicks AYERS SUPREME Grow Mash from the start of the seventh week until ready for laying house.

AYERS SUPREME Grow Mash supplies all the proteins, vitamins, and minerals needed by fast growing birds . . . and it is extra fortified with Vitamin B₁₂ and Antibiotic Feed Supplement for faster, healthier growth.

Chrysler V-8 Saratoga Sedan, gasoline economy winner in Class "F". Entered and driven in the 1952 Mobil Gas Economy Run by Chrysler Dealer Mel Alabury, Hollywood. It was one of three Chrysler FirePower V-8's to win in their respective classes.

180 HP CHRYSLER V-8 FIRST IN 3 CLASSES IN ECONOMY RUN!

Here is truly dramatic proof that Chrysler's great new FirePower 180 HP V-8 engine design sets an entirely new standard of efficiency among American passenger car engines!

In this annual economy test, rigidly supervised, and limited strictly to stock car entrants, cars competing are divided, by price and size, into 11 standard classes. The route, from Los Angeles to Sun Valley, covered 1,415 miles of every possible kind of driving. Average speed for all cars was just under 41 miles per hour.

And in 3 of the 11 classes, the Chrysler V-8 engine was best for gasoline mileage.

In Class "F", this magnificent new engine won first place for a Saratoga 6-passenger sedan (125 1/2-inch wheelbase, 4010 pounds). In Class "H", it won first honors for a Saratoga model 8-passenger sedan (139 1/2-inch wheelbase, 4510 pounds). And in the top price and size, Class "I", it was again first, in a Chrysler

Crown Imperial Sedan (145 1/2-inch wheelbase, 5360 pounds).

To travel these substantial cars at this speed under these conditions gives additional proof, we believe, that here in the FirePower V-8 engine is the finest and most efficient engine ever put into an American passenger car!

WE INVITE YOU TO DRIVE THIS ENGINE, YOURSELF...

The same engine which has just scored these remarkable accomplishments is no farther from you than your own Chrysler Dealer. He will welcome the chance to let you take the wheel and feel for yourself what Chrysler has done... not only in engine performance, but in power steering, power brakes, new shock absorbers, passenger comfort... to deserve the title: "Finest Car America Has Yet Produced!"

CHRYSLER the finest car America has yet produced

The refreshment table was covered with a white crocheted table cloth placed over yellow satin. The centerpiece was a replica of a bride surrounded by yellow daisies and tied with lilac ribbon. The punch bowl was encircled with lilac daisies, tied with yellow ribbon. The ribbon streamers bore the inscriptions of "Bob and Bobbie" and "April 25". Vases of lilacs and yellow candles were attractively arranged in the room. Refreshments of cookies, nuts and punch were served.

Girl Scouts

The Girl Scout council is glad to have Mrs. Melvin King, leader of Troop V, at home again. Sandie, the new daughter, is almost big enough to be a Brownie and no doubt will be a "mascot" for the troop in the near future.

TROOP III

Part of the members of Troop III met at the regular time and place on Friday, April 25, and worked on an arts and crafts project. The other part of the troop membership went with the high school band to a district contest for bands at Canyon. Members of girl scouting in Spur are proud of these band members at all times, but particularly at this time, as the band won awards in the contest. The scout members who worked at home accomplished several things that will be of benefit to the band members. The next meeting date is on May 2.

TROOP IV

Troop IV met on Monday, April 21. Carol June Marcy was the only member not present for the meeting. Write-ups for the hand craft projects are to be finished by the next meeting and plans

were made for a leather project. Mrs. Gregory served a refreshing cold drink to the girls as they worked.

TROOP VII

The Brownies of Troop VII met at their regular meeting time in the Girl Scout Little House and practiced a play for a project in dramatics. Later the girls played games. Fifteen members were present. Phyllis Ann Wright was the only Brownie absent. The next meeting will be on May 3. Sandra Sue Foreman, reporter

TROOP VIII

On April 24 the Brownies of Troop VIII met at the Girl Scout Little House and finished the Indian suits for the Indian project. Fattie Patrick was the only Brownie absent. Toward the end of the meeting time each girl passed through a "secret tunnel". The next meeting will be on April 30. Beth McGinty, reporter

TROOP IX

The Brownies of Troop IX met in the Roundup building on Monday, April 28. Some felt was brought for purses. By the next meeting each Brownie is expected to be ready to make a coin purse; planning and securing the material is the important part of this project. All members were present except Patsy Jean Crafton.
