NUMBER 1

Whoa, Now!

By Grady Lackey

Take your pick—Pick the Republicans and ask for a change to a party which he never had a chance to do anything for the industrial South and Southwest. Take the Republicans who have been blamed for the depression days of the Hoover administration. Take the Republicans with their promises (just campaign promises?) of political clean-up, of a curb on government spending, of the discardment of the New Deal tactics.

But then take the Democrats. On this side of the fence you'll be asking for no more tidelands. You'll be choosing the party that thus far has not ended the Korean War and has reportedly lost both ground and face in the Cold War. Take the party that has deflated our dollar to four bits. Take the party that buys our farm products with our money and then sells it back to us. Take the government for which we must work one fifth of our time to pay our taxes.

We could go on and on on either of both parties if we were inclined to believe everything or just some of the things being said about either or both parties.

Sure, there is corruption and graft in the government. Sure, depression break homes, businesses and even nations—but as long as we can still go to the polls and vote, as long as we can still print what we please with only our conscience to answer to, as long as we can worship our God as we feel led by Him to do so—

As long as our basic freedoms are protected, maintained, and, above all, practiced, we believe that we will continue to live in the best nation in the world.

Now no one would honestly or conscientiously say that either of our two major political parties are out primarily to ruin the nation or any group. We don't believe that either party would purposely sell us out to communism or to any other party contrary to our constitution. We don't believe that either party would intentionally plunge our nation's business into a ruinous depression or inflation.

We believe that every American owes it to himself and to his country to vote intelligently, conscientiously and determinedly for those candidates or that candidate who best meets his personal standards for the type of government he desires to send to Washington, to among other things, guarantee him the right to again go to the polls in 1956 to do the same thing again.

P-TA Amateur Show To Be Tues., Nov. 18

The East Ward Parent-Teachers Association will sponsor an amateur show at the East Ward auditorium on November 18 at 7:30 p. m., it was announced this week.

Deadline for entries has been set for November 13. Those wishing to enter are requested to contact Robert Williams, Mrs. Melvin Adams, Mrs. Fred Neaves, Mrs. Marion Jordan, Mrs. Morrison or the Texas Spur office and to specify the type act they wish to perform.

Mr. and Mrs. M. C. Powell announce the birth of a son, Ricky Lynn, born October 26, and weighing 8 pounds and 10 ounces.

Ginning In County Tops 4,000 Bales; Crops Are Half In

Approximately half, or 4,000 bales of the 1952 Dickens county cotton crop has reached the gins of the county according to an estimate made this week by county agent Charles Taylor.

Up at East Afton where the cotton is better than in most sections of the county this year, the crop is said to be about two-thirds gathered. Afton is about half through, while other sections are only about one-third gathered.

Cotton farmers report a need for more field labor. Mechanical strippers have been used only in isolated fields thus far, states Taylor. There are quite a number of crews, both transient and local, going to the fields each day, receiving \$2.00 in the field or \$2.25 at the gins in most cases.

Taylor verified the decision of local observers that it hasn't rained yet and added that stock farmers and ranchers will not be able to expect any substantial benefit from winter wheat grazing unless unusually warm weather follows an unusually good rain in the unusually near future.

Thompson To Speak At Methodist Church

Pat Thompson of Bay City, Texas, will speak at the First Methodist Church next Sunday, November 2, at 11 a. m. service, according to Rev. Cal C. Wright, pastor.

Thompson is a businessman in Bay City but has taken off a full year from his business to serve the Methodist Church of Texas as Director for the State-wide Stewardship campaign.

Officials Conduct Court of Awards For Girl Scouts

On October 21 and 22 Miss Virginia Burgess from the National Girl Scout office in Dallas, worked with the Local Council of Girl Scouts in Dickens County. At noon on October 21 Miss Burgess was a guest of the Spur Lions Club where she delivered an informative address on Girl Scouting. During the afternoon she held conferences with members of the Executive Board of the local council.

At 7:30 p. m. a court of awards was conducted in the auditorium of the Presbyterian Church. During this program, members of Troop IX were presented Brownie Pins. The girls of Troop VI became Girl Scouts in a Brownie Fly-up ceremony. All members of Troop IV were presented badges showing achievement of Second Class rank and later were presented Needlecraft and Design Badges. Two members of this Troop were presented a cook badge in addition to the other badges.

Three members of Troop III, Lois Ann Callan, Lanell Marcy, and Louise Williamson, were presented badges in Cooking, Design, and Homemaking.

On October 22 Miss Burgess met with Troop leaders.

Orville Clouse was home from Texas Chiropractic School in San Antonio this week end and was visiting his parents, Dr. and Mrs. O. R. Clouse.

Mrs. Myrtle Whitwell was visiting with her daughter, Mrs. Bill Laine in Midland last week end.

Mrs. H. G. O'Neal and Mrs. Gussie Walling visited in Plainview over the week end.

Margaret Wood and Doris Gibson, students at Tech, were visiting with their parents over the week end.

Santa Claus To Be In Spur On Dec. 10

Santa Claus will make an appearance in Spur this year with his sleigh and reindeer on December 10 at 4 p. m.

This announcement was released this week by George Gabriel, president of the Spur Chamber of Commerce and chairman of the Christmas Activities committee.

Gabriel announces that the Spur merchants and business houses have launched an intensive drive to insure this year's program of being one of the most successful. The entire town of Spur will be decorated with silver and green garlands across the streets, and hundreds of colorful lights at significant points.

PARADE TO BE HELD

Santa Claus will arrive with his sleigh filled with Christmas candy and will take part in a big parade expected to draw thousands to downtown Spur. The chamber committee is making plans for this being the biggest Christmas season ever for both the children and the adults.

Other plans are being formulated for the entire Christmas season in Spur. Again this year there will be decoration contests. The committee plans to have a big turkey day on which live turkeys will be turned loose for those agile and lucky enough to catch them. Out-of-town and local bands will present concerts. Free candy will be available for visiting children. Some merchants are planning a big Christmas treasure hunt in their stores. In all Christmas, 1952, should be the biggest yet for the city of Spur and this trade area, predicts Gabriel.

"DAY OF PRAYER" TO PRECEDE TUES. ELECTION

A "Day of Prayer" for a God-directed election has been set aside by the First Baptist Church for Monday Nov. 3.

The church will be opened at 6 a. m. for the use of all who wish to come some time during the day, states Rev. T. B. Allen, pastor.

The special day will be climaxed by a special meeting beginning at 7:30 p. m.

"Everyone, regardless of political or denominational affiliation is invited and urged to attend this meeting and to stop by during the day for prayer," states the pastor. "This is definitely not a political rally but is a sincere effort for God's direction in the coming election," he adds.

This campaign of prayer is sponsored by the Culppeper circle of the Baptist Women's Missionary Union.

Annual Carnival To Be Held Here Friday

The spoofs, witches, goblins, ghosts and other creatures of the Hallowe'en season will convene on Burlington Avenue tomorrow night for the big annual Spur schools carnival.

The carnival will be officially opened at 7 p. m. with the parade of the high school beauties and the naming of the winning beauty. Following the beauty contest, the Hallowe'en royalty, representing the East Ward schools, the junior high school and the senior high school will be crowned. Following the coronation ceremony there will be no other scheduled events—just a street full of fun for both old and young Hallowe'en-ers.

The East Ward schools will have a cake walk, grab bags, country store, fishing pond and bingo.

Junior high school students will sponsor a "Hit the Nigger" game, dart board, basketball pitch, milk bottle game and the beauty contest.

The senior high group will sponsor the hay ride, food concessions including hot dogs, coffee, candy, peanuts, etc., and a bean guessing game.

SPUR JUNIORS DEFEAT RALLS 13-6 TUESDAY

Donald Snodgrass and Sammy Caudle shared scoring honors for the Spur junior high school's Bulldogs last Tuesday as they handily defeated the Ralls Bunnies by a 13-6 beating.

Caudle scored from the one following a 40 yard scamper to that point by Snodgrass. A Spur fumble set up the Ralls tally before half-time.

Spur's other score came with a 55 yard punt returned by Snodgrass in the last period.

Ralls will play here next Tuesday at 7:30 p. m. Admission charges will be 10c and 35c.

Bulldogs Host Post In Dist. 6-AA Game

George McAteer passed to Bobby George midway in the fourth quarter of the football game last Friday night at Crosbyton to give the Spur Bulldogs a 13-7 win over the Chiefs.

Following a scoreless first quarter, Lean King broke the ice from the five yard line to give Spur its initial lead. Jackie Clouse converted.

Shortly before the half, however, the Chiefs came roaring back with a combination pass-run which netted 50 yards and a score-tying touchdown and extra point. Half time score was 7-7.

The scoreless third quarter found the Bulldogs bogging down deep down on the Crosbyton four yard line at one time. About midway in the fourth quarter the Bulldogs started a drive and scored on a nine yard pass from Quarterback McAteer to End George.

The game ended with Curtis Blair intercepting a Chief pass to check a final serious threat by the Chiefs. The win marked the eighth victory in as many encounters for the Spur team.

ENTERTAIN POST TONIGHT

Tonight, Oct. 30, the Bulldogs play hosts to the Post Antelopes in their first district 6-AA game. The Bulldogs are still badly crippled with new injuries almost every game. Last week Hershel Wade, veteran guard, was added to the list with a sprained ankle.

Back Boyce Rankin got a rib knocked out of place in the same game and during a practice session this week Lineman Marley Bingham injured an ankle. Blair is still hampered by a pulled muscle which only limited it some tonight.

The Antelopes presented their most impressive performance of the year last week while taking the Tullis Horgett into camp by a 25-19 score. Darrell Stone panned for all four of the Antelope tallies in this win. Aside from Stone, the Antelopes are an inexperienced club but are reputed as being a scrappy bunch.

Game time is 8 p. m. tonight in Jones Stadium.

PLAYER OF THE WEEK

Bobby George was chosen by the sports staff of the Spur High school Bowl this week as the Player of the Week.

Bobby caught the winning touchdown pass and galloped across the goal from the 20 yard line. He played a fine game at his end position both on offense and defense.

He is a senior this year and is seeking his third numeral.

AN OPEN LETTER TO REP. SAM RAYBURN

"I listened to your address to the people of Texas in which you stated that a vote for Stevenson and the Democrats was the surest way to get back the tidelands of Texas. You also stated that if it had been handled in the right way we would probably have them back now.

"Now, Mr. Rayburn, I think and the people of Texas think you should answer a couple of questions. First how did we come to lose our title to this land in the first place? Also, who is responsible? Now if you and Mr. Connolly and Mr. Johnson know so well how this could have been handled, why is it you didn't do something about it? After all you are to serve the people and not master them. None of you ever raised your voice in defense of this great heritage of ours, not because you thought it would be wrong, but because you were afraid of your political life in Washington. Just remember you are elected by the voters of Texas.

"You tell us how much better times are for us and our families. Of course, every one has more money than they did in 1931-32. Cotton was five cents a pound and wheat 25 cents a bushel. Then, I wonder, if you remember in 1937 after four years of the New Deal prosperity and the first good cotton crop, we had to send Marvin Jones several telegrams and finally got a seven-cent loan per pound on cotton in order to get it off our hands. We never did get anything more for it.

"Without the war we would still have seven-cent cotton, 35-cent wheat, six-cent cattle and seven-cent hogs. So let us not be fooled, Mr. Rayburn and my fellow Americans. For every dollar of prosperity we enjoy, some fine American boy sleeps beneath the soil of a foreign land. He died thinking he had helped make the world safe for democracy. He won on the battle field but our little men in Washington lost the peace."

What The Democrats Have Provided For You In The Past Twenty Years

1. Aid to agriculture: NONE, except a pauper's funeral.
2. Wildcat banking at the expense of depositors.
3. Limited capital, controlled by Yankees, at high interest (8-10% for farm home loans).
4. Cutthroat discrimination in railway freight rates in favor of the North against the South.
5. High tariffs on manufactured goods, subsidizing Northern industry at the expense of the agricultural South.
6. From little to nothing in the way of Federal funds for public works, flood control, irrigation or power projects—they didn't know we were in the Union.

1. Price support for agricultural products, liberal agricultural loans at low interest, soil conservation, and rural electrification. Texas Leads the Nation in Rural Electrification.
2. Sane banking and insured deposits. In 1950, ONE bank failed, with deposits of \$42,000.00
3. Plenty of capital everywhere at reasonable interest (3 1/2-5% for farm and home loans).
4. Fair railway rates that give the South an even break.
5. Reduction of tariffs and promotion of world trade, enabling the South to sell its raw materials.
6. Vast amounts of Federal funds for public works, flood control, irrigation and power projects.

Fences Essential In L-Stock Production

COLLEGE STATION, October 30. Good fences properly located are a must on the stock farm or ranch. Maximum returns from grazing crop residues such as stalk fields, stubble or drouth stunted crops, cannot be obtained unless the fields are fenced. C. H. Bates, farm management specialist for the Texas Agricultural Extension Service, also points out that efficient use of pastures and supplementary grazing crops often depend upon the fencing arrangements.

Good management of grazing herds is made easier; time and labor are saved in transferring the stock and greater safety is provided for the attendants when properly located and strong fences are used.

Bates offers these suggestions to those who may be planning new fences for the farm. The outside boundary fences, he says, should be placed on lines established by a licensed surveyor. This practice will eliminate disputes between property owners over the location of property lines. These fences should be strong and well-kept for they add to the attractiveness of the farm as well as to its actual value.

The cost of constructing new fences, says Bates, is classified by the Bureau of Internal Revenue as a capital investment and may be depreciated for tax purposes. Repairs made on established fences may be treated as farm operating expenses in tax reporting.

Cross-fences, says the specialist, may be of lighter construction and in many cases, the electric fence may prove most practical for this tier to construct and has proved purpose. The electric fence is as effective for holding most types of livestock.

The division fences should be planned to permit maximum use of the central lanes for easy moving and transfer of livestock. It is important to layout the field plots or divisions on the farm with as long rows as possible to eliminate excessive turning with the tractor when plowing and seeding.

Another important item in fence building is posts and the advantage of using treated or steel posts or those made from long lasting wood should not be overlooked, says Bates. Compared to 1940 prices, wire and posts are now relatively expensive, but labor usually accounts for about half of the total fencing costs. If posts are used which will last for about 20 or more years, labor costs will amount to only about

a third as much as when posts are used that must be replaced in six or seven years.

Good fences, concluded Bates, are profit makers when used to

get the maximum returns from the area devoted to pasture and forage production. If livestock production is to be expanded into a major farm enterprise, good

planning of fence arrangements and well-built, properly maintained fences are a must.

The order is, "Take hill number 63!"—and they fight forward, not ready for death, but expecting it with every splatter of bullets.

Then, in the quiet moments, one soldier will turn to another and half grin and say, "You never had it so good."

A joke—a classic Army joke—but these days it has a real bitter note to it. Because at the same time everyone is wondering and saying:

"Did it have to come to this?"

"Couldn't the shooting have been stopped before it began?"

"What's the matter with our foreign policy?"

"Why didn't the Administration see this coming?"

REDA SOCIETY READ URGES REJECTION OF AMENDMENT

Dr. J. F. Hughes, president of the Hardeman, Cottle, Motley, Ford County Medical Society today urged that all voters carefully study the proposed constitutional amendment which establishes a State fund for students desiring to study medicine.

The amendment would have Texas taxpayers pay the bill to educate any Texas doctor who

would agree to spend five years practicing in a rural area.

Dr. Hughes stated that it was a well intentioned law in theory but impractical in operation and unnecessarily expensive to taxpayers of the State. For this reason, he believes that the people of Texas should reject this amendment at the November 4th election.

"The problem is not one of additional physicians, but proper physician distribution," Dr. Hughes said.

hes said. "Actually, no physician shortage exists. What we need to do is to sell the idea of a rural medical practice to the doctors we have and to the ones just coming out of medical school."

"And we have been trying to do just that. We have launched an extensive program in cooperation with the medical schools of the University of Texas which incorporates eleven weeks of rural medical training as part of each student's education."

"Under this plan, a medical student in his senior year lives and works with a practicing Texas family doctor in a rural community and is actually sold on the idea that this is the type of practice that is highly desirable."

"Our program in Texas is being recognized as one of the best in the nation and we believe it is one which will have striking results."

Dr. Hughes pointed out that the Texas Medical Association has a special committee on doctor distribution which is already conducting detailed surveys through

doctors and community officials to determine where shortages, if any, exist.

"Records in our Physicians Placement Service indicate that the number of physicians requesting location aid in the past year was more than double the number of Texas communities requesting a physician," Dr. Hughes said.

"Texas doctors are probably more anxious than anyone else to make sure that rural areas of our State have adequate medical care available to them."

"We do not at this time need a state controlled subsidy fund used to buy a man's service for five years. We need to increase our

Harry Truman Has Taxed Us \$310 Billion in 7 Years—
\$65 Billion More Than All Preceding Presidents Put Together Including F.D.R.

PIKERS!

High-Tax Harry may be dwarfed by the masses of previous presidents—but his merry tax collectors have raised a monument to Insatiable Greed that tops anything ever known to Americans.

If you'd like to know what this \$310 billion means, let us say, a married person with 2 children, here's the issue:

If you earned \$2,000 in 1940, you need \$4,165 today to "have it so good" after swollen taxes and attendant inflation! \$3,000 earnings in 1940 matched \$6,995 today—and if you earned \$4,000 then, you need \$9,010 now, to be as good a bread-winner!

So it's not your fault if you have to scramble like mad to make both ends meet.

But it is your fault if you let this continue. It is your fault if you believe the Tax-and-Spend Boys will ever reform.

Come Election Day, you'll have your last chance in 4 long years to keep a fairer share of your earnings. Don't miss that chance.
