## Whoa, Now!

By Gedy Lantry  
Some sneak snuck up and snatched the suitcase of Miss Margie Campbell between 2 a. m. and day light Sunday morning. The bag reportedly contained about \$300 worth of clothes and had been left in the trunk of her car Saturday night. Now we could hardly expect the thief himself to come running in with it, but just thought possibly someone might have noticed a piece of light-colored Samsonite luggage along a road or in a bar ditch somewhere. If you have, please notify her papa, Claude Barclay, or the sheriff.

## COMMISSION REDUCES CITY TAXES 10c PER \$100 AT MONDAY MEETING

City of Spur taxes were reduced from \$1.50 to \$1.40 at the regular meeting of the City Commission Monday night, announces W. W. Spray, city manager. The reduction will be effective on this year's assessments and will be the equivalent of approximately \$2,400, states Spray. The city manager adds that the tax cut does not necessarily mean that the city has all the money it needs. He states that it is the commission's intention to operate the city's business on a smaller amount by increasing efficiency in all departments. Renditions for 1934 taxes total approximately \$2,400,000, which is about \$126,000 below last year's evaluations. Evaluations were all raised one third during the building of the hospital three years ago. Spray states also that the tax cut was believed wise by the commission because of the financial strain on most tax payers caused by the long drought.

## LARGER ENROLLMENT REPORTED AS SPUR SCHOOLS GET UNDERWAY

As of Wednesday there have been about 200 students registered in the high school. This is a slight decrease over the enrollment of last year. The Spur public schools opened for regular session on Monday morning, Aug. 20. An increase in the total enrollment was reported by Supt. C. F. Cook. The high school has enrolled 200 students; Junior high enrolled 135; and East Ward schools enrolled 401; with a combined enrollment of 736 students. This is an increase of 28 over the enrollment reported on the last day of the 1933-34 school term, Cook stated. The Spur schools lost three teachers, due to irregular attendance last year. "Teachers are employed according to the average daily attendance," Cook emphasized. "This makes it very important that your child attend school each day that is possible." Cook expressed gratitude for the cooperation given the faculty and administration by the students and parents. "We were just wonderful. People in Spur have always been more than nice to us and the school personnel," he continued. School officials are very interested in your children and want to serve you and your family in the best manner, he stated. Suggestions are welcome to help officials accomplish this aim, he urged.

Principal Bob Nunley

Bob Nunley, principal, requests all parents to see that their children are in school if at all possible so that even with the decrease in enrollment, the school will maintain its present faculty. This year the high school offers choir to all students who are interested. This choir period is the first 25 minutes of the day, and at present there are 117 students participating. The various organizations of the school will begin operation next week. The "Rowel," student newspaper of Spur High School, will again be sponsored by Miss Anna Noack. She and other faculty members will select the staff and the first paper of this year will be distributed Friday, Sept. 10. The school yearbook staff will begin work on the annual in the near future and merchants will again be asked for advertisements for the book. This is one of the two things in which merchants are asked to cooperate. Student Council To Function. The Student Council, with Boyce Rankin as president, will begin activities soon with student assemblies. Plans are being made to have more assemblies. See HIGH SCHOOL Page 8

### A SAFE MEDICINE CHEST

By Science Features

One household safety hazard is too often found in the very spot where help is most needed—the family medicine cabinet. If it is cluttered, dirty and lacking in the proper medications, it often results in unnecessary pain and worry rather than comfort for the ailing. To be on the safe side make sure that the medicine chest is clean and filled only with necessary articles, properly arranged for simple, quick use.

Start the clean-up by throwing away old, half-used prescription medicine, unless the doctor is consulted about its future effectiveness. Also get rid of that collection of bottles containing last year's cough syrup, burn lotion and iodine. These drugs, and many others, outlive their usefulness by evaporating or crystallizing and can cause injury when taken.

See that all items are clearly labeled so the contents do not have to be tested on some unfortunate patient already in pain. Before using, read the label on the package twice, and afterwards make sure to put the cap tightly.

Children should be kept away from the medicine cabinet for they may try some pleasant-tasting remedy not meant for them. Poisonous preparations should be put in a separate container, out of reach, and a safe disposal unit for razor blades and other waste matter should be available. These simple measures, along with the advice of your druggist, can produce a medicine cabinet that the whole family will appreciate.

Total tonnage of fertilizer sold in Texas during the first six months of 1954 was 2 percent higher than for a year ago but 11 percent above the same period five years ago. The trend toward using high analysis fertilizer speeds up.

## WASHINGTON AND "SMALL BUSINESS"

The question is being asked on Main Streets all over the nation "Just how anti-communist, in a non-political way, is the government?"

There is substantial confusion over whether the current baby-hus over communism is mere politicking or not. If not, then wonder is expressed why more definite action steps is not taken.

Practically all Americans abhor communists with a deep, bitter C. W. Harder hatred. Even those who a few years ago took attitude if Russians wanted communism, that was their business, believe communism is a world-wide espionage and sabotage system.

That is why Senator Joe McCarthy is an enigma to many. While an apparent majority believe he has clearly focused the problem, wonder is expressed why government as a whole has not made an all out attack on communism using legislation already passed by Congress.

Senator Paul Douglas raises another large question in public mind "Why is government permitting trade to continue with communist-controlled nations?"

He cites, for example, trade with Poland, under Kremlin control, increases. Imports from Poland in 1951 totaling \$10,000,000 rose to \$15,000,000 during the first ten months of 1952.

shoulders and bacon which in 1951 totalled \$3,956,000 amount to \$9,905,000 in first ten months of 1952. And increased importation of communist pork is in face of domestic farm surpluses.

Sen. Douglas states under the Acts of 1950 and 1950 White House has authority to embargo imports. While Polish trade is not large, it is vital to Soviet Polish economy.

Best evidence of this in fact Polish communist government now takes action to stop flow of relief packages to unfortunate Polish people.

But now the Polish government will collect a tax of \$125 on every new or used dress received from the U. S. \$15 on a pair of children's shoes, \$37.50 on a pair of men's shoes, and right down the line with confiscatory taxes.

On the other hand, Polish government announces no tax on rolled packages ordered through the official P.R.O. Trading Corporation, located at 25 Broad Street, New York. In other words, Poland, as all communist nations, hangers for dollars.

In 1952, even Russia gained \$14,543,000 dollars by exports to the U. S. Our exports totalled only \$39 thousand to Russia. And while many exports claim that the present Russian government will collapse of its own weight, that collapse is undoubtedly delayed by dollar bulwarking.

So again the people seem far ahead of politicians.

While the American public surely loves Russia above for a while, eventually Americans want action.

### What Was This Call Worth?

"Mommy, can I stay at grandmother's tonight?" That was little Carol's very first telephone call—a real thrill that can hardly be measured in dollars and cents. Yet, Mrs. Caroline Niemeyer, Carol's grandmother, can tell you what that call cost. She is one of a group of customers who kept day-by-day records of calls made for a week—a total of 30 calls covering 133 miles. Then she broke her telephone bill down into the actual cost per call. "I was amazed," she reported, "at how little my telephone service cost for all the convenience and happiness it delivers." SOUTHWESTERN BELL TELEPHONE COMPANY... **TITLE EXAMINATION IMPORTANT IN HOME PURCHASE**

How does one know whether he is receiving a good title to property he plans to purchase? The safest method is to have a title examination made—that is, a careful study of the abstract and other title evidence.

Here are a few of the common sources of trouble in real estate transactions to show why the minor expense of a title examination is justified.

Many persons sign "earnest money contracts" believing that they are mere receipts with no serious implications. In reality they may specify, among other things, the kind of title you must accept.

A "warranty deed" from a responsible seller is comforting to have but it is a poor substitute for a careful title examination. A warranty deed does not guarantee a marketable title.

Moreover, serious title defects may not come to light until long after the seller on a warranty deed is dead, has moved to an unknown address, or is bankrupt. Even if he is available a good title is much better than a law suit.

The fact that the seller has possession of an "abstract" does not mean that he owns the property. An abstract is only a history of a title. Possession of an abstract no more indicates ownership of land than possession of the history of Texas means that you own the state.

Some purchasers of land feel safe because the title is being examined at the time of purchase by an attorney for the mortgage lender. This seems logical but is a dangerous theory. Mortgage lenders are sometimes willing to

accept less than good record title as security. This is sound business for them because, among other reasons, the chances are that the mortgage will be paid off so that no expense in perfecting the title would ever need be incurred. It's risky business for you when you are putting your life saving into the purchase.

These are a few of the reasons why a title examination is an important safeguard to you. When it is completed, the attorney gives you a written opinion stating his conclusions as to who owns the land, the defects in or charges against such ownership, and the requirements to be met if any, to make good record title.

Off-hand this may seem a simple operation. In fact it is not. It requires the interpretation of numerous deeds, mortgages, wills, court decrees and other instruments; the consideration of the order in which transactions and events affecting the title occurred; and the application of statutes and court decisions to the various situations disclosed in the abstract.

A free pamphlet containing useful information on legal problems involved in buying a home has been prepared by Texas lawyers. To obtain a copy, print your name and address on a postcard and mail to State Bar of Texas, Colorado at Fifteenth, Austin 1, Texas.

#### Corn Season Brings A Tooth-Cleaning Problem

The cornstalks are waving in the fields, and soon those rippling golden ears will be piled high on every dinner and picnic table in the land.

Good eating while it lasts, but corn-on-the-cob leaves tooth-brushing problems after the last bite.

In fact, bits and pieces often lodge in crannies between the teeth where a toothbrush can't reach them at all.

Here's a tip for comfort and cleanliness when this happens to you. Just twist a 16 or 18-inch length of dental floss around the first two fingers of each hand, stretch the floss across thumb or forefingers, and draw gently back and forth between your teeth. You may be surprised at how easily those troublesome food particles can be removed this way.

#### SCIENCE and your Health

**SOLVING SIMPLE DISEASES**  
By Science Features

Don't think that doctors overlook common ailments just because they have not yet been able to cure the cold. Medical science is concerned with simple, annoying diseases as well as the deadly kind. For example, one very prevalent but not dangerous disease called pinworm (there are about 210 million cases throughout the world) can now be cured by new drugs and diligence.

The most universal of all human parasites, these little white worms primarily affect children, causing a constant itching that disturbs sleep and may also interfere with the youngsters' eating.

In a recent report from Buffalo, N. Y., three doctors declared they found the antibiotic terramycin was "the most effective drug" for treating pinworm patients. A disinfectant, gentian violet, was also highly successful, they said, but often "cannot be swallowed by many children." Of 40 cases, 84 percent were cured with terramycin—a drug prepared in raspberry-flavored liquid for children.

Because the pinworm's eggs are well protected in a three-layer shell, it is difficult to destroy them. Furthermore, they can easily spread to other members of the family by contaminating household furniture, toys, clothing and even the air. The utmost personal vigilance is therefore necessary to help drugs destroy the pinworm and ease the infection.

Thorough washing of the body every day, especially hands and nails before meals, careful soaking and disinfecting of bed linen and clothing plus the scrubbing of toilet seats and personal articles are a few of the measures doctors say should be taken.

# Margaret Wood Becomes Bride of Harold Brannan In Candlelight Ceremony

In a ceremony lighted only by cathedral tapers, Miss Margaret D'Laine Wood became the bride of Harold Moulden Brannan in a double ring service read at 7 o'clock Sunday evening.

The First Methodist Church was the setting for the wedding, with decorations of a semi-circle of white gladioli and greenery behind the altar. A white satin prie dieu was placed before the altar.

The Rev. Cal C. Wright read the service. Nolan Froehner of Dimmitt provided organ music, including a prelude of "Ah, Sweet Mystery of Life," "Chaire de Lune," "Trauernde," and "With These Hands." During the ceremony he played "Indian Love Call."

Miss Gloria Snell of Lubbock sang "Because," "Wonderful One" and "The Lord's Prayer." Parents of the couple are Mr. and Mrs. Horace Wood of Spur, and Mr. and Mrs. B. J. Brannan of Dimmitt and Des Moines, N. M.

Given in marriage, by her father, the bride wore an original wedding gown of French lace and tulle over satin, in a pastel shade of blush pink. The sheer yoke was outlined with elaborate lace applique, and the fitted bodice featured long sleeves. The skirt was of shirred tulle, with an overskirt of lace which began at the waist in front and cascaded into a cathedral-length train in back.

Her pink illusion veil was joined to an open cap of shirred tulle and seed pearls. She carried a bouquet of white orchids, gardenias, stephanotis and a sprig of rosemary, for good luck. The bouquet was mounted on a white Testament which was presented to the bride by an uncle, Tanner Laine, tucked inside was a petit point handkerchief made by the bridegroom's great-grandmother, and a cross from Rome brought by another uncle, Bill Laine of Fort Worth.

Attendants' dresses were styled identically with fitted bodices with an off-shoulder ruffle and immense skirts of ruffled tiers. Picture hats of net and taffeta were worn to match each dress.

Miss Beverly Wood who attended her sister as a maid of honor wore a lavender dress and carried an arm bouquet of dark purple gladioli.

Bridesmaids wore shades of purple and carried orchid gladioli. Mrs. David Collier and Miss Cathy Beard wore violet dresses; Miss Annette Lee and Miss Gwen Williams wore deep purple frocks; Miss Betty Hudson wore deep orchid net. The junior bridesmaid, sister of the bride, Priscilla Wood also wore orchid.

Candlelighters were Miss Patricia Townsend and Mrs. Roger Kingery. They wore violet net dresses and purple aster wristlets.

Miss Nancy Laine of Fort Worth, niece of the bride, was flower girl. Her dress was designed with lavender bodice, and a skirt of ruffles of violet, deep purple and deep orchid. She carried a tiny garden basket.

Jack Brannan served his brother as best man, and ushers were Jim McGraw, Joe Hastings, Bill Hunter, John McKinn, Bob Schmidt, Marvin Pratho and Bob Curry.

Immediately following the ceremony, a reception was held in the home of the bride's parents. The garden was lighted with hurricane lamps and the tables were covered with violet net over taffeta. Appointments were of crystal.

to guests. The bride's table was centered with the wedding cake of three tiers on columns frosted in white with orchid hearts outlined by silver bells and orchid flowerettes. The cake was topped with a miniature bride and groom under a double heart arch of white satin and net. The bride's bouquet completed the table setting.

Presiding at the twin punch bowls were Mrs. Ken Burgess of Seymour, Miss Pat Haws of Ropesville, Miss Pat Boyd of Idalou, Miss Pat Townsend of Fort Worth, and Mrs. Jack Alderson of Lubbock. The bridesmaids' bouquets were used as decor on the serving tables and registry.

Registering guests were Miss Iris Brunson of Lubbock and Mrs. Albert Fry.

Others in the houseparty were Mrs. Bill T. Wyatt, Miss Carolyn Kelly, Mmes. Adrian Rickels, Elmore Britton, Sam Hawkes, O. L. Claude, Murray Lea, O. L. Kelley, D. J. Dyeas, Van North, Hubert Karr, Marion Hurst, Marjion Vaughn of Matador and Mrs. Roger Kingery of Matador, Miss Pat Boyd and Miss Jane Taylor.

Out-of-town guests attended from Dimmitt, Dallas, Fort Worth, Wichita Falls, Clovis, N. M., Idalou, Ralls, Lubbock, Sundown, Odessa, Hereford, Canyon, Matador, Dickens, Orange, Claude, Midland, Mineapolis, Minn., Slaton, Seymour and Plainview.

Relatives present for the wedding from other cities were Mr. and Mrs. Hunter George of Dallas, aunt and uncle of the groom; Mr. and Mrs. Clyde Brannan of Wichita Falls, aunt and uncle of the groom; Mrs. Mattie Moulden of Dallas, grandmother of the groom; Mr. and Mrs. Bill Laine of Fort Worth, aunt and uncle of the bride, and their children, Nancy and Jimmy Laine; and Mr. and Mrs. Tanner Laine of Lubbock, aunt and uncle of the bride, and their son, Tanner A.

Following an extended two-week wedding trip, the couple will be at home at 708 Broadway, Galveston, after September 12. For the trip, the bride chose a winter white faille coat dress with winter white and black velvet accessories.

The bride is a graduate of Spur High School and Texas Tech, where she held membership in the Tech Chamber of Commerce, Future Teachers of America, Student Union Council and Phi Beta Phi.

The bridegroom graduated from Dimmitt High School and Texas Tech, where he was a member of Kemas social club, Alpha Chi and president of the Student Council. He was named to Who's Who in American Universities and Colleges. He is now enrolled in the University of Texas medical school in Galveston, where he is a member of Phi Chi.

Mrs. A. M. Shepherd of Corpus Christi has been visiting friends in Spur, Lubbock and Crosbyton.

Pam Allen of Spur spent several days last week visiting with Saundra Bingham of Girard. They enjoyed their visit very much before school started.

There ought to be some kind of automatic warning device to keep wives on the alert against husbands who suddenly become economy-minded; suddenly, that is, after bills come in for a new casting rod and power saw!

All unconscious of budget visions dancing in Jeff's head I barged in airily: "Well, our old washing machine gave its last wheeze today and just up and died! We have to have a new one now."

"Can't afford it. Out of the question." That was my answer, so short and to the point. I had intended in my scheming little mind to appeal to Jeff's mechanical nature in describing the machine I had my heart set on.

Whirlpool's latest automatic washer. I really could have waxed enthusiastic over the guide lite control panel, a marvel in mechanical perfection. At your finger-tip on a beautifully-colored, fully-illuminated panel there are choices of water temperatures for whites and cottons, prints and colors, or delicate fabrics; water levels, and washing times. Automatically, a colored light reveals your choice, then a colored indicator follows the washer operation so you know what's going on every step of the way!

"I can show you," I pitched in, "that the new washer I have in mind will cost only half as much to operate as our old machine."

Jeff got on his "prove it" look, so I explained how the sub-mixer which cuts soap, water, and fuel costs by saving clean, sudsy water for use from one load to the next.

He really perked up his ears at that, so I explained how much water could be saved by using small amounts instead of full capacity for a little load of socks or a dab of suds. By now Jeff was off the defensive so I went on about the fully flexible washing cycle which enables you to stop, repeat, shorten, lengthen or skip any part of the automatic operation. I wound up the campaign with information on the seven complete rinses, an interior ultra-violet lamp to help sanitize clothes, and a dual cyclone which sounds when a wash load is completed!

Well, we have the new washer but after all my subtle conniving it's a little maddening to hear Jeff brag about "his" smart investment and how easy it is on the budget! But I'm biting my new Jeff was off to sell himself on the matching automatic dryer.

## POWERFUL EPIC DRAMA COMBINES ROMANCE, DANGER AND SUSPENSE

Starring Joan Crawford in one of the most startlingly different screen roles of her entire career, Republic Studios presents a powerful drama of love, violence and suspense set against the picturesque grandeur of old Arizona. "Johnny Guitar," arrives at the Palace Theatre next Sunday.

Filmed in gorgeous Trucolor by Consolidated, this famous Roy Chanslor novel boasts an all-star supporting cast with Sterling Hayden as Johnny Guitar, Mercedes McCambridge, former Academy Award, winner as the vivacious Emma and Scott Brady as the colorful outstanding players in the film are Ward Bond, Ben Cooper, Ernest Borgnine, remembered for his portrayal of the sadistic sergeant in "From Here to Eternity", John Carradine and Royal Dano.

In "Johnny Guitar", Joan Crawford dons levis and six-guns. Furious opposition threatens her frontier mission strategically located on valuable land through which will pass a new railroad.

It's a strong story of physical violence and dynamic emotion; of mass hysteria and lynch mobs pitted against a consuming love which rises to tense emotional heights above the turmoil.

The successful screen play by Philip Yordan presents a clash of physical and emotional elements involving those who would take the law into their own hands. There is the personal struggle growing out of Miss McCambridge's romantic frustrations and her subsequent feud which develops can be settled only by bullets.

Such taut drama played against the harsh background of rugged Arizona desert country is in contrast to the vivid beauty of Cocopino and Prescott National Forest in Northern Arizona.

Nicholas Ray, one of Hollywood's outstanding exponents of suspense drama and edge-of-seat action directed and the spectacular photography is credited to Harry Starling former Academy Award winning cameraman.

Strong supporting roles in the film were also contributed by Frank Ferguson, Paul Fix, Rhyz Williams and Ian MacDonald. Victor Young composed and conducted the distinguished music.

Mr. and Mrs. Carl Arbuckle of Fort Worth visited Mrs. J. A. Marsh for a few days this week.

### One Dish Meal Prepared For Club

Mrs. Archer Powell was hostess to the Dry Lake H. D. Club on Wednesday afternoon.

The food leaders, Mrs. Ethel Ballard and Mrs. Bob Pickens, gave a demonstration on the preparation of a one dish meal. The main purpose of preparing this dish, according to Mrs. Ballard, is to save pennies.

Plans for Craft Day which is September 16 were discussed. Mrs. E. J. Lassetter will give a demonstration on tier trays, showing how to drill the hole in plates and assemble them.

The style show to be held September 9 was discussed. Both the style show and the Craft Day program will be held in the Legion Hut.

Eleven members and one visitor, Mrs. Emma McMahan of Abbeoth, were present. The next meeting will be October 13 in the home of Mrs. Charles Forbes.

First, the continuation of a two-leader system in the vocational agriculture department, followed very closely by the addition of a school owned and operated project feeding barn for the town boys who do not have facilities for such a feeding program.

James Jay was selected to fill the second post as instructor on the outstanding record he made for himself the past six years in the math department and as a ready helper in all projects. W. W. Gregory is the other instructor.

The school board has provided a project barn to be completed into an up-to-date accommodation for town boys as well as rural boys who do not have feeding facilities on the home farm. All re-modeling, fencing, plumbing and landscaping will be done by the boys of the four vocational ag classes under the supervision of the two instructors.

Seventy-seven boys have enrolled in vocational ag this year. The chapter will elect officers and sweetheart in the near future. It will prepare an exhibit for the South Plains Fair this month, will participate in the District Soil Conservation Week by
