

THE TEXAS SPUR

SERVING A RICH FARM CROP, STOCK AND POULTRY RAISING TERRITORY OF WEST TEXAS.

The Dickens Item and Dickens County Times Absorbed by Purchase
SPUR, DICKENS COUNTY, TEXAS THURSDAY, DECEMBER 30, 1954

Whoa, Now!
By Grady Lackey
Our own Dickens County candidate for State Representative, **Moyné L. Kelly**, received one of his most favorable boosters toward the office last week as the second Hamlin candidate announced. We now have two from Hamlin and one from Stamford, just 20 miles away.

Dickens county's geographical location destined us to forever be on the end of most every district, zone, arena, conference, association and sewing society. But being placed just on the end doesn't always designate which end—whether it's the head or tail depends on us.
Saturday week we'll have a golden opportunity to send a good, reliable and capable man to Austin as our representative. Or, we can sit idly at home on that day and watch our district 5 representative be elected from Jones county.
With the heavier-populated Jones county vote split three ways, we'll firmly state our opinion that there are exactly enough voters in Dickens County to send Moyné Kelly to Austin. The big question remains, then, will the people of Dickens County go to the polls and vote?
To many just being from Dickens county would secure for a candidate their vote, but others will want to consider other qualifications: Moyné Kelly has served this county as a school teacher for several years. He has served the people of the State of Texas as superintendent and director in the state's special schools department. He is a graduate of Baylor University. He is a member of and a Sunday School teacher in the Methodist Church.
And to express our personal opinion about Moyné Kelly, in our dealings with him we have found him to be fair, honest, conscientious and in the present campaign interest, we believe that he will truly represent the entire district to the best interests of all when he is elected on Jan. 1.
But, it still remains, the folks of Dickens county will have to literally "pour to the polls" to overcome the heavier population and urban communities of Jones county and to take full advantage offered us by the multitude of candidates down there.
Spur should be proud of the Volunteer Fire Department and City Officials for thru their efforts, the fire insurance premiums of Spur will be reduced thousands of dollars a year.
Effective November 26, 1954, Spur became a First Key Rate City, which resulted in the lowering of the Key Rate from 41c to 29c.
As an example, lets say your brick veneer house has \$10,000.00 insurance on it. Your old rate was 42c per \$100 insurance, thus your annual premium for fire was \$420. Now under the new Key Rate your rate is 29c per hundred and the annual premium for fire is \$291.00. Of course the rates change according to the construction of the building.
Mr. and Mrs. W. M. Hazel had as her guests this week end three of her children, Mr. and Mrs. Robert Briley of Amarillo, Mr. and Mrs. H. C. Hazel and daughter from Richmond, California, and Mrs. E. Holly and children of Amarillo.
Mr. and Mrs. Lynn Buzbee and family spent Christmas in Abilene visiting relatives.
Mr. and Mrs. Thomas Prosser of Fort Worth are visiting Dr. and Mrs. W. F. Cullen this week.

COUNTY GRANTED \$62,000 FOR CONSERVATION PRACTICES IN 1955

CONSERVATION PRACTICES — Twenty one Agricultural Conservation Program practices have been approved for Dickens County for 1955 according to Robert Reynolds, Agricultural Stabilization and Conservation Service office manager.
\$62,000 has been appropriated for the program next year in the county, and increase of \$8,430 over the 1954 appropriation. The county office manager said ASC county committee of Ben F. Overstreet, Guy Thomson and Joe M. Rose will set aside a portion of this amount of money to be used in six two-month periods during 1955. This way we plan not to tie up all the money before the year is started. The following are the approved practices for Dickens County:
A-2 Initial establishment of a permanent vegetative cover for soil protection or as needed land use adjustment. (Seeding permanent pasture)
A-3 Establishment of additional acreage of vegetative cover for erosion control and runoff prevention to improve soil structure, permeability or water-holding capacity.
A-4 Initial establishment of field strip cropping to protect soil from wind or water erosion.
B-2 Initial improvement of vegetative cover on rangeland by artificial reseeding for soil protection.
B-3 Controlling competitive shrubs to permit growth of adequate desirable vegetative cover for soil protection on range pastures and also chemical control of mesquite by spraying from airplane.
B-4 Pitting, listing or chiseling noncrop grazing land to prevent soil loss, retard runoff, and improve water penetration.
B-5 Constructing wells for livestock water as a means of protecting established vegetative cover.
B-7 Constructing or sealing dams, pits, or ponds for livestock water as a means of protecting established vegetative cover.
C-1 Initial establishment of permanent soil waterways to control erosion.
C-4 Construction terraces to determine or control the flow of water and check soil erosion.
C-5 Constructing diversion terraces to intercept runoff and divert excess water to protected outlets.
C-6 Constructing earthen erosion control, detention, or sediment retention dams to prevent or halt gullying or to retard runoff of water.
C-7 Constructing drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.
C-9 Constructing permanent open drainage system to dispose of excess water. See COUNTY GRANTED Page 2

Chamber of Commerce Doing . . . "CROPS IRRIGATION, OIL WELLS IS ALL SPUR NEEDS" -- GREEN

By John Green, Mgr.
We, the Spur merchants and farmers are very proud to see this nice six inches of snow that fell Tuesday. It should be equal to about 48 in. of rain.
It should give the farmers of this section of the state a very happy New Year. With a nice start and a lot of wishing we might receive enough rain fall this winter and spring for the farmers up Duck Creek from Spur to Dickens and those around Afton with all these good irrigation wells to let them sit idle until growing season.
As you might not know, we have 30 good irrigation wells between Spur and Dickens and there are equally as many around Afton, East Afton and Wichita, Girard and Dry Lake have just started on irrigation.
However, if this country can just be lucky enough to get about 25 inches of this good old juicy, at the rate of one inch per 15 days our good land won't need irrigation on it. We have the most fertile land in Texas. All we need is water and we prefer to get it from above.
The oil wells in very good for this section of the country at the present time. Though there are only two producing wells in Dickens county, Kent county to the south of us has about 300 producing wells. There are 200

Palmetto Polo To Be Introduced At Fort Worth Rodeo

For the first time at any rodeo, the new Western sport, Palmetto Polo will be presented at the Southwestern Exposition and Fat Stock Show, Jan. 28 through Feb. 4.
The national championship team from Spur, Texas, will defend its title and the winner will be crowned world's champion.
Fast and furious action characterizes palmetto polo. The 10 horseshack A polo ball is on and sticks very similar to one for regular polo are used. One who performs well at each constituting a game.
Dr. and Mrs. O. R. Chisler had their sons, Jackie, a student at St. Stephens in Missouri, and a son, Lanelle Brewer of San Antonio, visiting over the holidays.
Don McGinty of Spur has been elected secretary of the freshman class at Texas A. and M. College.
Mr. and Mrs. E. B. Bloomberg had Mr. and Mrs. Floy Bartow as their house guests this past week end.

Spur Fire Dept. Aids In Obtaining New Insurance Rates

The city of Spur recently was rated in the No. 1 Key Rate classification by the State Fire Insurance Commission, station Spur Volunteer Fire Chief John Kline, Jr.
Along with the new key rate, Spur insurance holders received a new fire insurance rate reduction from 40c on \$100 to 29c on \$100.
The new and lower fire insurance rates for Spur have become a reality largely due to the Spur Volunteer Fire Department, according to a recent letter to the city from Austin. Such things as proper training, proper equipment, fire zone enforcement, regular practices and drills by the department and the adequate reports of such have been instrumental in obtaining the rate decrease.
The young people of Spur are invited to attend a "Tour to Tomorrow" watch party at the First Baptist Church Friday night Dec. 31, from 8 p. m. to 12:01 a. m. Saturday, Jan. 1, states Estell Ralph Gibson, now a student at H-SU and home for the holidays.
Gibson states that the party will be for everyone who is still a "young person" and will include music, frolic, fun, magic, food, and film.
The party will be held in the educational building.

Norman Morgan To Attend Photography Course In Kansas

Norman Morgan, owner of Morgan Studio, will leave Sunday for Kansas City to attend School's Photography Sales Clinic.
He will then go on to Topeka for a week's advanced course in portrait work at Tony Wicker's Studio.
Wicker is master photographer, holding the highest rating of any photographer in the nation.
Mr. and Mrs. C. F. Cook and Lawrence spent the holidays in Arizona with their other son, Foster, Jr.
Mr. and Mrs. W. H. Bingham of Fortland, Ala., were visiting with Mrs. Mamie Arthur of Holdenville, Okla. as local manager.

Babson Sees Better Weather, Better Business, No World War III In Predictions For 1955

BUSINESS AND FINANCIAL FORECAST FOR 1955
By Roger W. Babson
1. GENERAL BUSINESS. Despite its walls from some quarters, 1954 saw a drop in the average Physical Volume of Business of only 5 per cent from the record year 1953. 1955 could see a rise of about the same amount. Certainly, the direction of business until mid-1955 will be upward.
2. BUSINESS WILL WAKE UP. During 1954 many businessmen rediscov-ered the meaning of the word "competition." Sales will continue to be made only with real effort in most lines.
3. CONSUMPTION OUTLOOK. Consumption in a number of lines has been proceeding at a more rapid rate than has production. I forecast a better record in early 1955 for both steel and automobiles.
4. TEXTILE INDUSTRY. Textile industry operated at extremely low levels throughout most of 1954. Coal and railroad equipment also exerted a strong downward pull. I forecast that the textile and coal industries will be in a recovery phase after their long stay in the doldrums.
5. PRIVATE CONSUMPTION. That home building and construction will be higher in 1955 than in 1954 is an important indication that home building and construction still operate at a high level next year.

\$150,000 Bond Election Called To Re-Vamp Electrical System

FIRST DICKENS COUNTY LADY CALLED FOR JURY
Mrs. L. C. Robinson of Dickens has been summoned for jury duty for the next term of the Federal Court in Lubbock. The court session begins Jan. 3.
She is the first Dickens County woman to be called for jury duty for Federal or State courts since the new constitutional amendment went into effect.

D. L. Knight New REA Manager
Mr. D. L. Knight of Roby has taken over the position of manager of the Dickens County Co-op in Spur.
Knight, his wife Irene, and their children Sue 5, Craig 2, and Dickie, 2 months, have made their home at 406 East 2.
He was vice president of the TB Association, president of the Girl Scout Council, and a member of the volunteer fire department of the Church of Christ and a member of the Masonic Lodge.
Mrs. J. R. Porter is visiting her grand daughter in Texarkana this week.

NEW MOTOR MAIN ITEM; ELECTION SET FOR JAN. 14
A special bond election has been called in the City of Spur for Friday, Jan. 14 to decide whether or not the City will spend \$150,000 to repair, extend and supplement the city's electrical system. The bulk of the proposed \$150,000 bond is intended for the purchase of a new propane-burning engine capable of serving the entire city load.
The election was called at the regular session of the Board of Commissioners on Dec. 20. The election order appears on page five of this issue.
Acting on the request of over 120 citizens, the request being in the form of a petition, the commission has pondered the existing conditions within the electrical system for several months. According to reports of inspections by nearly a dozen licensed engineers, the city's system is inadequate to carry the anticipated load next summer.
Since the actual calling of the election on Dec. 20, the commission has been handed an additional 167 signatures supporting the action.
In November of 1953 the voters of the city indicated that they wish to retain the light plant and operate it. The commission has expressed the opinion that since the people want to operate it on a satisfactory and economical basis.

Mr. and Mrs. J. E. Berry had as their guests over the Christmas holidays their son, Johnny, who is stationed in Florida, and Mr. and Mrs. E. H. Meadows of Austin.

City Manager Wiltburn Spray states that if the bond election carries the city will be in the position to correct the major deficiencies in the system. Besides purchasing the new LPG engine, the city manager states that such things as additional street lights, sufficient distribution mains, constant voltage and profitable operation will be forthcoming.
To date no organized opposition to the bond issue has been indicated. However, there is some belief that such will be had.
The election notice stresses the point that the proposed bonds will be strictly revenue bonds and that tax money can never be claimed or used in paying them.
The election will be held at the City Hall with A. Z. Hayes as presiding judge, Jack Rector as judge, and Mrs. C. M. McCully and Mrs. A. Z. Hayes as clerks.
The other two candidates are Bowen Pope of Hamlin and Cleburne Huston of Stamford.
The special election to fill the vacancy in the legislature will be held in Dickens, King, Stonewall and Jones counties on Saturday, Jan. 8, 1955.
Kelly was detained earlier this week from his planned visit to the other three counties in the district, but states that he will visit over the entire district before the week is over.
He states that he feels the announcement by Crawford will have a direct bearing on the outcome of the election, as it places three candidates from one county and only one from the other three.
With just ten days left before the election, the candidates are all expected to utilize the newspapers and mails in trying to at least get themselves introduced to the voters.

Snow Blanket Nets .46 in.; Mercury Dips To 14 Wed.

BASKETBALL
The Spur boys basketball team will enter the Levelland tournament of champs Thursday, Friday and Saturday of this week.
The Bulldogs eagerly will resume their regular schedule on the home court next Tuesday, Jan. 4, being hosts to the Floydada Whirlwinds.
Coach Billy Hahn's girls have entered the girls division of the Crosbyton invitational tournament there this week end.

AREA ROADS STAY OPEN AS STORM FREEZES WIDE SECTION
A White Christmas missed Spur by only three days as the area received a five-inch blanket of snow Tuesday, Dec. 28.
In spite of the Lubbock weatherman's persistence that the front would bring no moisture and that it would clear up about noon of Tuesday, the snow continued almost constantly from early morning until late afternoon.
The Spur Experiment Station reports that the area received 46 of an inch moisture from the snow. However, the melting snow will be sufficient to give area wheat farmers the needed boost toward a 1955 crop and will provide sub-soil moisture for next year's row crops and pastures.
A low temperature reading early Wednesday morning of 14 degrees marked the lowest of the winter for Spur but bit not nearly as deep as the one below at Lamesa and three above at Lubbock.

Paint Firm Makes Grant To Station
The American Chemical Paint Company of Amber, Pennsylvania, through Vice President G. L. Romig, has made available to the Texas Agricultural Experiment Station a grant-in-aid of \$500.
According to the announcement made today by Station Director R. D. Lewis, the grant will be used to support research on mesquite control. The research is being conducted at the Spur Station under the direction of Superintendent C. E. Fisher.

Four Candidates In Race For Legislature
Moyné Kelly, Dickens county's candidate for State Representative of the 85th district obtained his third opponent just prior to the deadline last Wednesday night in Onie M. Crawford, manager of the chamber of commerce in Hamlin.
The other two candidates are Bowen Pope of Hamlin and Cleburne Huston of Stamford.
The special election to fill the vacancy in the legislature will be held in Dickens, King, Stonewall and Jones counties on Saturday, Jan. 8, 1955.
Kelly was detained earlier this week from his planned visit to the other three counties in the district, but states that he will visit over the entire district before the week is over.
He states that he feels the announcement by Crawford will have a direct bearing on the outcome of the election, as it places three candidates from one county and only one from the other three.
With just ten days left before the election, the candidates are all expected to utilize the newspapers and mails in trying to at least get themselves introduced to the voters.

CONVALESCENT HOME TO OPEN HERE SOON
Mr. and Mrs. G. R. Morgan of Amarillo announced this week that they will soon open the Morgan Convalescent Home No. 4 in Spur. At present the Morgans are operating such homes in Claude, Childress and Amarillo.
The home will be located in the old Nichols hospital building with Mrs. Mamie Arthur of Holdenville, Okla. as local manager.

17. FOOD PRICES. Food prices may firm later in 1955. The strong move into Government crop loans this year has made free supplies of most agricultural items less burdensome. I forecast that new advertising programs by canners and other great food distributors will help farmers, stock raisers, and fruit growers.
18. CONSUMER INCOME. Consumer income will hold at satisfactory levels. Most goods should move readily into consuming channels.
19. LIVING COSTS. I forecast that during 1955 living costs will show little over-all change from present levels. There may be some firming during the first half, but the late months may again witness a minor softening.
20. BENTS, ETC. I forecast retail expenses may edge somewhat higher; clothing costs should be steady to moderately higher. There is small chance that food expenses can be greatly reduced.
21. MONEY SUPPLIES. I forecast that money supplies will be ample for all legitimate business needs during 1955. With little likelihood of business getting out of hand on the upside, credit easing is more likely than credit curtailment in 1955.
22. INFLATION. Fears, or perhaps hopes, of an inflationary boom should be buried. Barring outbreak of war, our productive capacity is sufficiently large to meet all demands for goods. I forecast that no runaway inflation is probable, even if the money managers increase the flow of money.

Services Held For Emit Pierce
Emit Pierce, resident of Dickens county died Tuesday, Dec. 21, at the age of 46. He had lived in Dickens County nearly all his life.
He was born in 1908 and moved to Dickens in 1910. He was converted to the Christian religion at the age of 16 and was a member of the Church of Christ.
Funeral services were held Dec. 24 with C. V. Allen officiating.
He is survived by his wife, one daughter, Carolyn of Bangs, a son; Johnny Doyle, six sisters; Driessie Giddens of Matador, Hatfield Stubblefield of Dickens, Mrs. Artie Wallace of Fresno, Calif., Mrs. Alva Sullivan of Littlefield, Mrs. Ollie Hiseout of New Mexico, and Mrs. Pearl Tooley of North Carolina; three brothers; George of Dickens, Ernest of Chillicothe, and Bruce of Groesbeck.
Interment was in the Dickens Cemetery. Chandler Funeral Home was in charge of arrangements.

TWO PLEAD GUILTY IN DISTRICT COURT
Phillip Quintinella of Wharton, Texas, and Melvin Thurman of California pled guilty in the District Court held at Dickens on Dec. 16.
Quintinella was charged with theft over \$50 and received a five-year probation sentence.
Thurman pled guilty of forgery and was sentenced to two years in the penitentiary.
On the same day the grand jury met, returning seven true bills.
On Dec. 20 Jack Patton of Spur pled guilty of possessing liquor for the purpose of sale in County Judge W. M. Hindman's court and was fined \$100 and costs.

13. SELECTIVITY. Higher labor and other costs, plus intensified competition, will continue during 1955. I forecast a high degree of selectivity in the effect of this trend on individual activities and companies. Victory will be for the nimble and for the strong!

14. DIVIDENDS. Recent high expenditures for new plant and machinery left some concern with very high depreciation charges. As new capital commitments are cut and depreciation remains high, cash inflow could expand. Such companies should be able to pay out in dividends a higher percentage of earnings in 1955 than in recent years, notwithstanding a moderate profit shrinkage.

15. INVENTORIES. Inventories have been permitted to run down during 1954. As total business expands, there will be a tendency to replace reduced stocks, especially during the first half of 1955. Total manufacturers' inventories, however, may build up more rapidly than total business inventories. I forecast that total wholesale and total retail inventories will show little change from 1954 levels.

16. PRICE OF MANUFACTURED GOODS. Even with the expected pickup in demand, I see no sharp markup in industrial prices next year. Over-all supplies are generally ample. Hence, I forecast that industrial prices in 1955 will show little change from recent levels.

6. PUBLIC CONSTRUCTION. I forecast that public construction will increase during 1955. This should mean a raise in the output of cement.
7. AGRICULTURAL EQUIPMENT. This industry has been suffering from a decline in demand, but should now improve. Government-sponsored planting curtailment and crop loans have induced free supplies, and may make for higher agricultural prices later in 1955.

8. ARMAMENT INDUSTRY. The armament industry will still be one of the main floors beneath the economy. The electrical and chemical industries will move at a rate close to that of 1954.
9. OTHER INDUSTRIES. I am somewhat optimistic on clothing, aircraft manufacturing, air-line transportation, office equipment, electrical output, petroleum production, natural gas, and shoes. I am also fairly bullish on rubber, paper, electrical equipment, certain types of building and nonferrous metals.

10. WEATHER CONDITIONS. It is foolish for me to attempt to forecast rains, droughts, frosts, etc., for any special section. However, taking the nation as a whole, I look for better weather in 1955.
11. RETAIL SALES. I forecast that the outlook for retail sales is encouraging, at least through the first half of 1955.

12. PROFITS. Stiffening competition is shipping away at the profit margin. Returns on invested capital is in a long-term downturn. The first few years after World War II were the

13. RETAIL SALES. I forecast that the outlook for retail sales is encouraging, at least through the first half of 1955.

14. DIVIDENDS. Recent high expenditures for new plant and machinery left some concern with very high depreciation charges. As new capital commitments are cut and depreciation remains high, cash inflow could expand. Such companies should be able to pay out in dividends a higher percentage of earnings in 1955 than in recent years, notwithstanding a moderate profit shrinkage.

15. INVENTORIES. Inventories have been permitted to run down during 1954. As total business expands, there will be a tendency to replace reduced stocks, especially during the first half of 1955. Total manufacturers' inventories, however, may build up more rapidly than total business inventories. I forecast that total wholesale and total retail inventories will show little change from 1954 levels.

16. PRICE OF MANUFACTURED GOODS. Even with the expected pickup in demand, I see no sharp markup in industrial prices next year. Over-all supplies are generally ample. Hence, I forecast that industrial prices in 1955 will show little change from recent levels.

HUSTON IN RACE FOR LEGISLATURE

Cleburn Huston

Cleburn Huston, Stamford business man and civic leader, is a candidate for State Representative in the special election called for January 8.

Raised on a farm, he worked his way through the University of Texas, taught school, served in the armed forces in World War I.

Huston entered the newspaper field as a reporter and in 1929 bought the Stamford American which he published for 20 years. He is now operating the Huston Hardware store in Stamford, a business which he purchased nine years ago.

Huston is a member of the American Legion, member and past-president of the Rotary Club, active in the Methodist church, served two terms on the city council. He has always been a champion of good government—local, state and national.

COUNTY GRANTED FROM P. 1

C-13. Leveling land for more efficient use of irrigation water and to prevent erosion.

C-16. Constructing spreader terraces to divert and spread water to prevent erosion and to permit beneficial use of runoff.

D-2. Establishment of additional acreage of summer legumes for summer protection from erosion.

D-4. Establishment of a vegetative cover to protect cropland through out the 1955 crop year.

E-1. Initiation of stubble mulching into the farming system and expansion of stubble mulching to improve soil permeability and to protect soil from wind and water erosion.

E-3a. Bringing adequate amounts of clod-forming subsoil to the surface on sandy cropland subject to wind erosion to protect soil from blowing.

Control of bindweed. Application for approval should be made at the ASC office. Technicians of the Soil Conservation Service will then supervise the practice and upon SCS approval, payment will be made after the practice is completed.

Dickens County ASC office has distributed to the farmers of Dickens County \$55,123.97 for Soil Conservation practices and \$90,993.98 for Emergency Wind Erosion Practices during the year 1954.

All practices for 1954 expire December 31. Report to the county ASC office all or any part of the practices that you have been approved for and completed and have not returned your "Application for Payment" to the office. No Practice Can be Extended Beyond December 31, 1954.

The County ASC Office will close at noon Friday, December 31, for New Year's Day holiday.

Local county agricultural agents can supply information and the blanks which should be sent to the soil testing laboratory with each sample.

BARRON From Page 1

supply of money or easy credit. 23. INTEREST RATES. Until the Treasury finds a way to balance the budget, hold business at high levels and unemployment at a minimum, I forecast little likelihood of higher interest rates.

24. BOND PRICES. With the possible exception of tax-free bonds, I see no reason for increased bond prices in 1955. I forecast an increase in the instance of tax-free revenue bonds.

25. STOCK PRICES. After so sharp a rise the market could have a reaction; but I am forecasting no crash in 1955 such as we had in 1929. In fact, the situation changed for the better October 31, 1954.

26. WAGES. I forecast that the wage trend in organized industry will continue to move higher at least in the first half of 1955. During the first half year, when business will be improving, the labor chiefs will also be quick to resort to the strike weapon.

27. OTHER LABOR GAINS. I forecast that the heavy gains of the labor bigwigs will be trained on the guaranteed annual wage, shorter work week, and more pensions. With a better congressional control of appointments to the National Labor Relations Board, the decision of that body will swing more toward labor than toward management.

28. NEW INVENTIONS. These will mostly be a labor-saving type. I forecast a marked increase in automation and cybernetics, and other marvelous changes in production methods.

29. EMPLOYMENT. Unemployment outlook is brighter, since during the first half I forecast that local and seasonal unemployment will still prove a snotty problem.

30. FAILURES. The silent business characteristic of 1955 will be bitter competition. Many companies already weakened by competitive conditions will no longer be able to keep afloat. I forecast a rise in both the number and the total value of failures during 1955.

31. MERGERS. I forecast that mergers and consolidation will be encouraged by federal officials, if, by merging, a weak company can be saved. But while every effort will be made to prevent bankruptcies, Washington will grow on large mergers and consolidations.

32. GENERAL REAL ESTATE SALES. The time is already past due when real estate prices should have been falling. Only a fear of World War III and easy credit have prevented this. Therefore, I forecast that a downturn in prices cannot long be postponed.

33. URANIUM CRAZE. The greatest speculation will take place in the seeking and trading of land with uranium prospects. This is now centered in Colorado, Utah, and vicinity; but I forecast it will spread in a limited way to many other states and even to "offshore" property. It could exceed the gold rush of 1894. Another demand will be for wood-lands which can be bought for a few dollars per acre.

34. COMMERCIAL FARMS. These have suffered a decline in price as a result of the slump in agricultural prices and farm incomes. Unless more will be done politically for the farmer next year, I forecast that the recent decline in commercial farm prices may continue during 1955. Substantial farms on the fringe of large cities should hold up well in price as migration toward the suburbs continues.

35. VACANT LAND IN CITY AREAS. With the exception of parking lots, city vacant land should experience a continued slow reduction in price during 1955; but no marked changes in suburban vacant land, except for parking. I am very bullish on this.

46. TRAVEL AND SPORTS. I forecast more money will be spent on travel and sports in 1955. This is becoming an important new industry and should especially benefit Florida, California, Arizona, New Mexico, the Great Lakes Region, New England, and the Northwest.

47. NEW METALS AND ALLOYS. Next to air-conditioning, I expect great growth in the use of new metals and alloys. I forecast the rare-metal stocks will be sought in 1955 as were the oils in 1954.

48. ADVERTISING. I forecast business spending in this field will increase further in 1955. It is not only the salvation of individual businesses, but is the best stimulant for national prosperity.

49. POPULATION. I forecast the population will continue to increase during 1955, with a growing percentage of young people between 18 and 22. This means a greater demand for clothing, college education, and especially for new school buildings.

50. CONCLUSION. Develop Faith, Meditation, Health, and Good Works—with more attention to your family—to create reserves for real trouble which some day will come. Go To Church!

TAKE STOCK. PLAN FOR '55

Careful planning and increased farm efficiency are the tools Texas farmers must use in 1955 to fill the gaps caused by a drop in farm income, acreage allotments and the weather.

Total crop harvests and livestock production in the state this year compare "very favorably" with recent years, says C. H. Bates, extension farm management specialist. But based on net income, Bates says the farm picture is quite different.

Profits of farm and ranch families are running about six percent below 1953. This is due largely to slightly lower prices and hiked costs of farm production.

Drouth, particularly in the Southwest, has further hampered farm operations.

Acreage allotments on several major cash crops will reduce potential production. Stocks of most commodities are large and there's not much chance farm prices will rise above those of last year.

Livestock feed costs promise to remain high during the first half of the year. Bates suggests that producers who do not have adequate feed reserves plan for maximum feed production in '55.

The specialist also says this is a good time to expand soil improvement programs on overworked cropland. He advises farmers to take steps to curtail the "leaks" in farm

HEAT THE SPRING BURN GET SOIL TESTS MADE NOW

The harvest season in Texas is nearly completed and that means a slackening of farm activities. But it is not too early, says M. K. Thom, extension agricultural chemist, to begin planning for next year's operations.

A first, according to Thornton, is to take and submit soil samples for analysis.

Knowing what the soil needs in the way of plant food and organic matter is an important part of any soil building program, says the specialist, and a sure answer to "sick" soil is a complete analysis.

He cites the outstanding corn yields made this year by farmers who followed soil treatment recommendations as examples of the value of soil testing. The top yield in the state was made by Doyce Turner of Lamb county who posted an all-time record high of 204.3 bushels of corn an acre. It was grown on land which had been tested.

Organic matter was supplied by 20-0 fertilizer was recommended the application of three tons of cotton burr compost an acre. An application of 200 pounds of 16-

ed at planting time and a side dressing of nitrate later but the corn grew so fast by side dressing time it was too tall to make the application.

NEW YEAR'S EVE DANCE

FRIDAY DEC. 31, 9 -- TILL

AMERICAN LEGION HALL ASPERMONT, TEXAS

Music By **CONNIE WALKER**

And The **TEXAS DRIFTERS**

Dry Lake Community News.

Prayer meeting was held at the Foreman Chapel Wednesday night. Christmas carols were sung and Mrs. Theima Calvert gave the lesson.

Mr. and Mrs. Lenard Skinner of Midland visited over the week end with her parents, Mr. and Mrs. Vernie Barrett.

Mr. and Mrs. Menard Ensey of Odessa spent the Christmas holidays with her brother, Mr. Ellis Draper and Mrs. Powell.

Mr. and Mrs. Coy McMahan visited her sister and brother, Miss Mattie Sue and Carter and Henry Robinson through the holidays.

Mr. and Mrs. Lon Bass had all their children home for Christmas dinner.

Guests for Christmas dinner in the home of Mr. and Mrs. Ellis Draper were Mr. and Mrs. Bill Saxon and boys of Hobbs, New Mexico, Mr. and Mrs. Coye Allredge, Mr. and Mrs. Bill

FOUR OF A KIND *By Evers*

Meet the Caldors... outstanding U.S. golfing family. Between them they have garnered some 23 championships. Each has scored in the 60's. Stan, in fact, holds three course records... at Dartmouth College and the Montclair, New Jersey Golf Club with 65's, at the Madison, Connecticut Country Club with 64... and until recently he was tied for the course record at the Knoll Club in Boston, New Jersey with a 68.

Hahn and children of Spur, Mr. and Mrs. Jimmie Hahn and Nella of Highway, Mr. and Mrs. B. F. Saxon of Dry Lake, Timmy Allredge of Abilene, and Jimmie Draper of Seagraves.

Mr. and Mrs. Buck Ballard and children had Christmas dinner with her parents, Mr. and Mrs. Hade Condon of Spur.

Mr. and Mrs. J. B. Keen of Fort Worth visited their nephew, Mr. and Mrs. Russell Williams over the week end.

Mr. and Mrs. Billy Bingham and children were dinner guests of his sister, Mr. and Mrs. J. W. Steele Christmas day.

Mr. and Mrs. Coy Dapson had her sister, Mr. and Mrs. Jack Lackey of Floydada Sunday for dinner.

C. Sandlin of Gering.

SCIENCE on the FARM

New Spray Treatment Fights C.R.D.

How would you like to treat C.R.D. in your flock simply by pressing a button on a can? This can now be done, as a result of a new development by scientists of Merck & Co., Inc. C.R.D., or chronic respiratory disease, may affect up to 60 percent of our poultry population. An outbreak causes retarded growth, poor carcass quality and death. In laying flocks there can also be a serious drop in egg production. Thus the disease often inflicts heavy financial losses on poultry raisers.

Recently, the Merck researchers set out to find an improved treatment for C.R.D. They found that finely powdered dihydrostreptomycin sprayed into the poultry house is breathed in by the birds and effectively combats the disease. The spraying must be done at night when birds have settled. The result was the new Merck product, 'Vetstrep' Spray, a convenient flock treatment for C.R.D. By pressing a button on an aerosol can, the poultryman releases powdered dihydrostreptomycin in a white cloud above the heads of the birds. One container treats about 100 birds in only 20 seconds, so that a large number can be sprayed in a short time. No handling of individual birds is necessary.

'Vetstrep' Spray quickly cuts death losses from C.R.D., gets birds back on feed and maintains weight gains and egg production. This new treatment is especially effective in the respiratory stage of C.R.D. when birds are sneezing and wheezing. One treatment will usually overcome an outbreak.

'Vetstrep' Spray is available to poultrymen through feed and remedy dealers and drug stores. Its development is another example of the partnership of science with the man on the farm.

Also a friend Miss Lois Ann Huntsman.

Mrs. Dorothy Kissinger of Lubbock was home visiting her mother Mrs. Theima Calvert and family over the week end.

Mr. and Mrs. Harvey Chapman and children of Stephenville visited her parents, Mr. and Mrs. Dick Wright over the week end.

Mr. and Mrs. Conner of Dickens were visitors at Foreman Chapel Church Sunday night.

Mr. and Mrs. J. R. Cole were afternoon guests of Mr. and Mrs. Coy Dapson Sunday.

Mr. and Mrs. A. A. Miller have had their daughter from Lubbock and a son and family from Hereford as visitors during the last week.

Soil compaction someday may rank with erosion as a limiting factor in crop production. Best remedy for the condition is to work with and not against nature. Proper tillage, fewer trips over the fields with heavy equipment, avoiding the grazing of pastures and fields when too wet are a good rotation system including deep-rooted crops are suggested remedies.

A-2c Bill Quattlebaum is spending the holidays with his parents, Mr. and Mrs. J. H. Quattlebaum.

Mr. and Mrs. A. C. George had as their guests this week Mr. George's brothers, Mr. and Mrs. Edward Gosney of Brownwood and Mr. and Mrs. Lester George of Brownfield, Mr. and Mrs. Roy Reese, a nephew of Houston and their son.

Bond Election Called . . .

NOTICE OF ELECTION FOR THE ISSUANCE OF BONDS OF THE STATE OF TEXAS CITY OF SPUR

TO ALL QUALIFIED VOTERS OF THE CITY OF SPUR, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID CITY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in the City of Spur, Texas, on the 14th day of January, 1955, in accordance with the resolution and order duly entered by the board of Commissioners on the 20th day of December, 1954, which is as follows:

RESOLUTION AND ORDER FOR CITY BOND ELECTION OF THE CITY OF SPUR, COUNTY OF DICKENS

ON THIS, the 20th day of December, 1954, the Board of Commissioners of the City of Spur, Texas, convened in regular session, at the regular meeting place thereof in the City Hall, there being present and in attendance the following members, to-wit:

GEORGE GABRIEL, MAYOR
WALTER GRUBEN, COMMISSIONER
D. C. McATEER, COMMISSIONER

and with the following absent, constituting a quorum; and among other proceedings had, see the following:

Commissioner Gruben introduced a resolution and order and moved its adoption. The motion was seconded by Commissioner McAtaer. The motion, carrying with it the adoption of the resolution and order, prevailed by the following vote:

AYES: Mayor Gabriel and Commissioners Gruben and McAtaer.

NOES: None.

The RESOLUTION AND ORDER is as follows:

WHEREAS, the Board of Commissioners of the City of Spur, Texas, deems it advisable to issue the bonds of said City for the purposes hereinafter mentioned; therefore

BE IT RESOLVED AND ORDERED BY THE BOARD OF COMMISSIONERS OF THE CITY OF SPUR, TEXAS:

I. That an election be held on the 14th day of January, 1955, which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this resolution and order, at which election the following proposition shall be submitted to the qualified electors of said City who own taxable property therein and who have duly rendered the same for taxation:

"SHALL the Board of Commissioners of the City of Spur, Texas, be authorized to issue ONE HUNDRED FIFTY THOUSAND DOLLARS (\$150,000) of revenue bonds of said City for the purpose of constructing improvements and extensions to the City's electric light and power system; said bonds to mature serially over a period of years not to exceed Twenty-five (25) years from their date, and to bear interest at a rate not to exceed THREE AND ONE-HALF PER CENTUM (3 1/2%) per annum, payable annually or semi-annually; said revenue bonds to be special obligations of the City, payable as to both principal and interest solely from and secured by a first lien on and pledge of the revenues of the City's Electric Light and Power System, after deduction of reasonable operation and maintenance expenses, as said expenses are defined by statute?"

II. That said election shall be held at the CITY HALL, in the City of Spur, Texas, and the entire City shall constitute one election precinct.

III. That the following named persons are hereby appointed officers of the election, to-wit:

A. Z. HAYES, Presiding Judge
JACK RECTOR, Judge
MRS. C. H. McCULLY, Clerk
MRS. A. Z. HAYES, Clerk

IV. That said election shall be held under the provisions of and in accordance with the law governing the issuance of municipal bonds in cities, as provided in the General Laws of the State of Texas, and only qualified electors, who own taxable property in the City, and who have duly rendered the same for taxation, shall be qualified to vote.

V. That the ballots for said election shall be prepared in sufficient number and in conformity with Chapter 6, V.A.T.S. Election Code, adopted by the Fifty-second Legislature in 1951, and that printed on such ballots shall appear the following:

"FOR THE ISSUANCE OF \$150,000 ELECTRIC LIGHT AND POWER REVENUE BONDS AND PLEDGING THE REVENUES OF THE CITY'S ELECTRIC LIGHT AND POWER SYSTEM TO THE PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF \$150,000 ELECTRIC LIGHT AND POWER REVENUE BONDS AND PLEDGING THE REVENUES OF THE CITY'S ELECTRIC LIGHT AND POWER SYSTEM TO THE PAY-

MENT THEREOF"

AS TO the foregoing proposition, each voter may mark out with black ink or pencil one of such expressions, thus leaving the other as indicating his vote on the proposition; or, in the alternative, each voter may vote on the proposition by placing an "X" in the square appearing on the ballot beside the expression of his choice.

VI. That a copy of this resolution and order, signed by the Mayor of the City and attested by the City Clerk, shall serve as proper notice of said election.

VII. In the event the said revenue bonds are authorized to be issued by a majority of the qualified electors of said City, voting at said election, and the same are issued and sold, the holder or holders of such bonds shall never have the right to demand payment thereof out of any funds raised or to be raised by taxation; and each bond issued or executed in pursuance of such election, shall contain this clause:

"The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation."

VIII. That notice of said election shall be given by posting and publication of a copy of this resolution and order, at the top of which shall appear the words "NOTICE OF ELECTION FOR THE ISSUANCE OF BONDS".

Said notice shall be posted at three public places in said City, one of which shall be at the City Hall not less than fourteen (14) full days prior to the date on which said election is to be held, and be published on the same day in each of two successive weeks in a newspaper of general circulation, published in the City of Spur, Texas, the first of said publications to be made not less than fourteen (14) full days prior to the date set for said election.

PASSED AND APPROVED, this the 20th day of December, 1954.

(Signed) G. GABRIEL, Mayor, City of Spur, Texas

ATTEST: (Signed) WILBURN W. SPRAY, City Clerk, City of Spur, Texas (City Seal)

THIS NOTICE of election is issued and given by the undersigned, pursuant to authority conferred by virtue of the above and foregoing resolution and order of the Board of Commissioners of the City of Spur, Texas, and under authority of law.

WITNESS MY HAND AND THE SEAL OF THE CITY OF SPUR, TEXAS, this the 20th day of December, 1954.

(Signed) G. GABRIEL, Mayor, City of Spur, Texas

ATTEST: (Signed) WILBURN W. SPRAY, City Clerk, City of Spur, Texas (City Seal)

(Signed) G. GABRIEL, Mayor, City of Spur, Texas

ATTEST: (Signed) WILBURN W. SPRAY, City Clerk, City of Spur, Texas (City Seal)

THIS NOTICE of election is issued and given by the undersigned, pursuant to authority conferred by virtue of the above and foregoing resolution and order of the Board of Commissioners of the City of Spur, Texas, and under authority of law.

WITNESS MY HAND AND THE SEAL OF THE CITY OF SPUR, TEXAS, this the 20th day of December, 1954.

(Signed) G. GABRIEL, Mayor, City of Spur, Texas

ATTEST: (Signed) WILBURN W. SPRAY, City Clerk, City of Spur, Texas (City Seal)

Grogan, Garner United In Marriage

Miss Bette Grogan, daughter of Mr. and Mrs. Darrell Grogan of Spur was united in marriage to Devey P. Garner at 7:00 p. m. Thursday, Dec. 28, in the home of her parents.

The bridegroom is the son of Mr. Lester Garner of Spur and Mrs. E. V. Davis of Gorman.

The wedding vows were read by Rev. Victor Crabtree of Dickens.

Miss Sherry Sue Stephens, cousin of the bride, was maid of honor and the brother of the groom served as best man.

Given in marriage by her father, the bride wore a light blue suit with white accessories and carried a white bible with a cascade of white carnations tied with blue streamers.

Miss Stephens wore a peach jersey suit with white carnations. After the reception the couple took a short wedding trip to Leaky, Texas. They will make their home in Spur.

Alathean Class Have Christmas Dinner

The Alathean Class of the First Baptist Church had their annual Christmas dinner on Friday evening, December 17, at the education building of the church.

Guests were welcomed by Mrs. George Gabriel, president of the class.

Christmas candles, poinsettia and greenery were used to decorate the tables. Red place mats and white programs, on which were the words, "Merry Christmas" in gold and tied with red satin ribbon, marked individual places.

Mrs. Elmer D. Hagins, program chairman, presented guests taking part on the program. Lyndal Bingham and Ralph Gibson sang a group of Christmas songs.

Miss May Bell Thornton gave a reading, "Do Your Christmas Shopping Early". Mrs. L. B. Penderley played a melody of Christmas selections at the piano, and

1933 SC Entertain Club Daughters With Christmas Party

The 1933 Study Club entertained their club daughters at a Christmas party Monday, Dec. 20 in the home of Mrs. Sam Blacklock.

Christmas carols were led by Mrs. Bob Nunley with Beverly Wood accompanying them on the piano.

Mrs. Alfred Walker gave "The Day They Gave the Babies Away".

Refreshments were served to twenty-nine present. Miss Beverly Wood and Mrs. Alfred Walker were guests.

Mrs. Sam Blacklock, O. R. Cloude, R. L. Walker, Grady Luckey, and Edward Suddath were the hostesses.

Roberta Rhine Have Christmas Party

The Roberta Rhine G. A.'s had their Christmas party Monday night in the home of Sandra Williams.

Photograph records were played and Christmas carols were sung.

Secret pals were revealed when the gifts were opened.

Refreshments were served to Geraldine and Louise Moore, Pamela Allen, Barbara Murray, Shirley and Jane Fitzgerald, Billy Hale, Norma Gruben, Linda Davoport, Elaine Singleton, Sandra Penley, Glenda Webb, Margie Smith and the hostess Sandra Williamson.

Accompanied the group as Christmas carols were sung.

Rev. H. L. Burnham gave the devotional message for the evening. At the close of the program, the Burnhams were given an old fashioned "pounding" by the class members.

Mrs. J. E. Berry, teacher of the class, gave the benediction.

McAdoo WSCS Study India And Pakistan

The McAdoo WSCS met at the church Monday Dec. 13, with Mrs. Grubben continuing the study on India and Pakistan.

Mrs. Simmons led the opening prayer and Mrs. O. T. Boucher read a poem entitled, "The Flower".

The lesson was on how Grandi helped the people of India in affairs of religion and government.

The benediction, given by Mrs. John A. Allen closed the meeting.

Personals . . .

Mr. and Mrs. J. W. Fields and Richard visited in the home of their daughter, Mr. and Mrs. Grady Luckey, Saturday and Sunday.

Mr. and Mrs. Victor M. Williams and son, Gary of Austin visited Friday and Saturday with his parents, Mr. and Mrs. Al C. Williams.

Mr. and Mrs. W. W. Spray had as their guests Christmas day their son and wife, Mr. and Mrs. Ronald Spray of Camay.

Mr. and Mrs. Max Eckels left this morning for Dallas where they will attend the Arkansas vs. Georgia Tech football game, and also visit.

Mr. and Mrs. E. C. Hall and sons from New Mexico spent Monday night with his grandmother, Mrs. M. A. Lea. They left Tuesday morning.

Farm records each year are becoming more important. Accurate records of production reflect the year's activity and should be the basis for expanding or curtailing farm practices and cropping systems. They are easy to keep and will prove invaluable when it's time to evaluate each farm enterprise.

About The Light Plant . . .

Generating Plant

This year the production of the City light plant will pass the two million kilowatt hour mark. The fuel for this operation alone will cost \$18,600 at the present fuel cost. This cost may go higher, but the possibility of it going down is practically none.

The plant will be depending on its biggest unit next year. An interruption of this unit means that a portion of the load will have to be dropped. This would cost the city light plant customers and revenue. This is something no one interested in this operation would like to see.

Distributing System

If you are on the city system you have no doubt noticed that the fluctuation of voltage is gradually growing worse, as the load is increasing. We need to enlarge the size of our distribution lines to correct this condition. There are some portions of town that are not served with city electricity. We need to build to these sections so that everyone may have excess to city generated electricity.

Street Lighting System

The city is much too dark with respect to street lights. There are only about one-half of the number of street lights necessary for adequate illumination. We need to add one more street lighting circuit to our present system, thus making it possible for all sections of all residential areas to have street lights.

Method of Financing

Construction of a new cooling tower which is necessary for our next year's operation, rebuilding the switchboard at the plant, and all improvements mentioned above will be paid for out of savings made possible by purchasing an engine large enough to carry the complete load using propane gas which the City already has available. Savings will amount to three or four thousand dollars per year MORE than our obligation in paying our indebtedness on this project thus giving us this amount to operate with and eventually lowering our tax rate. It will not be necessary to raise taxes for this, as you will notice that the bond issue clearly states that the holder, hereof shall NEVER demand payment of the obligation out of any funds raised or to be raised by taxation.

WILBURN W. SPRAY
Manager, City of Spur

TO THE CITIZENS OF SPUR:

As the governing body of the City of Spur, we would like to inform you, the public, of the condition that now exists in the municipal plant.

We have been informed by the City Manager that we are rapidly approaching a crisis as the load at the light plant has already this year exceeded its firm capacity. We have confirmed the foregoing statement by consultation with licensed engineers while studying this problem the past few months. We have consulted licensed engineers who are in the business such as, Mr. Posey of the City of Lubbock, the most successful municipal plant in the state; Mr. C. M. Hawk, a consulting engineer of Lubbock; Mr. H. P. Mathieu, a licensed engineer with Hamilton Electric Company of Lubbock also, the heads of the light plant at Brownfield, Crosbyton and Winters, Texas.

We have received a petition bearing more than 120 signatures, requesting that the people be allowed to vote on this matter, (Since this election was called, but prior to publication of the election notice the City Commission has been handed an additional 167 signatures in support of this action. These signatures are available for inspection at the City Hall.), and since the people have made it known that they wish to retain this system, and since this bond issue will not take any money from their pockets, as this will be a revenue bond to be paid for out of the savings obtained in using a cheaper fuel, it is our sincere opinion that this bond issue is a good business proposition, as practical operation without this unit and other improvements would be impossible, therefore, we of the City Commission recommend to you, the public, that you give this your serious consideration and go to the polls and vote for the good of the City.

GEORGE GABRIEL, Mayor, City of Spur
D. C. McATEER, Commissioner
