

LOWER FREIGHT RATES FOR PLAINS-PANHANDLE SECTION ARE TO BE RE-ESTABLISHED

Lubbock, Texas, Feb. 15.—The Lubbock Chamber of Commerce has been advised by the Railroad Commission of Texas that rates on less than carload shipments of grain and hay seeds produced in the Plains-Panhandle section, cancelled as of November 8th, 1928, will be re-established effective February 15th, 1929.

This action will mean the saving in freight charges, thousands of dollars monthly to farmers and seed dealers of the Plains-Panhandle section, and comes as a result of a petition filed February 4, by the Lubbock Chamber of Commerce.

The old rate that was cancelled called for a carrying charge of from 30 to 58 cents per hundred pounds from Plains-Panhandle points to other points in Texas, while the cancellation of the rate boosted the carrying charges to a range of from 81 cents to \$1.40.

With many requests from farmers and seed dealers who were affected, the Lubbock Chamber of Commerce began working on the rate case soon after it was cancelled. Late in the year of 1928, advice was secured from a number of outstanding traffic men about the case. Several expert traffic men advised that the ruling was final, with no hope of getting the old rate re-established.

Not satisfied with this advice, the Lubbock Chamber of Commerce continued searching for some way to get the rate re-established. Early in February, Albert L. Reed of Dallas was consulted and later employed to represent Lubbock in the matter. A petition was filed February 4th, 1929, with the Railroad Commission of Texas, praying for a re-consideration of the order.

On February 8, 1929, the railroad commission wired that the rate would be re-established effective February 15th. The entire expense of filing the petition and pushing the case to a successful completion was paid by Lubbock, which totaled well over \$1,000.

While Lubbock was vitally effected and benefited by the case, the entire Plains-Panhandle section will receive the same benefit.

The Plains section ships a large percentage of all cane sorghum, grain sorghum and Sudan seed over the entire nation. Particularly do other sections of Texas look to the Plains for their planting seed. While these other sections grow these crops, the seed from their crops do not have the stamina, vitality and fertility of the seeds grown in this section.

NINE BELOW SATURDAY MORNING; GOOD SNOW

The coldest weather that has visited this country in several years was witnessed here the latter part of last week and continued over Sunday. About three inches of snow fell in the vicinity of Mulshoe on Thursday and Friday. On Friday morning the government thermometer, in charge of Judge Klump, registered one degree above zero, and on Saturday morning the temperature registered a below.

The snow which fell will be of much benefit to wheat in this territory. Another cold snap is the forecast for this section for the next few days.

NEW SKI RECORD

Casper Oisma, riding for the Norge Ski club of Chicago, carried off major honors at the Dunes ski tournament at Miller, Ind. He won the class A championship with marks of 157 and 165 feet and a long standing jump with a leap of 180 feet, the latter a new record.

McConico Cattery Entries Win Cups and Ribbons At El Paso Cat Show

Some of the best Persian cats in the South are raised in Mulshoe, and Mrs. R. L. Faulkner, owner of the McConico Cattery here, has plenty of silver cups and blue ribbons to show visiting cat fanciers.

Mrs. Faulkner entered three fine cats at the El Paso show recently, and is one of the largest events of its kind in the State. These little kittens did a fine job of representing their home town, and the judges decided that each should have a large silver loving cup. Not only this, but six blue ribbons were also presented them. The winners are as follows:

- Me Too—First winner and best Shaded Silver cat in show. Three ribbons and silver cup.
- Baby—First. Blue ribbon and silver cup.
- Princess Marie—First winner. Cup and two ribbons.
- Mrs. Faulkner entered three cats at the Houston show last fall and all cats won first in their class. Two of these cats were winners at El Paso. McConico Cattery ships animals to all parts of the United States and there are always orders for these fine Persians on the waiting list.

INAUGURATION TO BE STAGED AT NATIONAL CAPITOL ARIETY MUCH COLOR AND VARIETY

Washington, Feb. 11.—Promising variety and color in the presidential inauguration ceremonies has assumed definite proportions with the announcement by the inaugural committee that 22 state governors have reserved space for themselves and residences in the parade.

At the same time the committee announced other entertainment features on the tentative program of events—among them being concerts, air stunts by army and navy fliers, and a great display of fireworks on the mall. Many of the executives, the committee said, will come with escorts garbed in gay uniforms. The governor of Alabama will be accompanied by two captains of foot soldiers from the state national guard and a band of 53 pieces. From Delaware, New Jersey and Virginia, cavalrymen and cavalrymen will come with their chiefs. The Governor of Virginia will have 450 members of the Richmond Blues, the Richmond Howitzers and the Richmond Grays, and a fife and drum corps.

SUNDAY SCHOOL INSTITUTE AT METHODIST CHURCH

Rev. W. B. Hicks announces that a Sunday School Institute will be held at the Methodist church in Mulshoe on Saturday, February 16th, at 10:00 o'clock a. m. The Institute will be conducted by Dr. E. M. Lyon and wife. Lunch will be served at the church. Everyone, especially the Sunday School members, are urged to attend.

Between Two Lines of Fire

ACCLIMATED PEGAN TREES ARE NECESSARY FOR BEST RESULTS IN WEST TEXAS

Fort Worth, Texas. (WTCC)—A warning to West Texas farmers contemplating pegan planting, that trees which have been bred to high rainfall conditions will not develop properly in West Texas, has been issued by Col. R. L. Penick, chairman of the agricultural committee of the West Texas Chamber of Commerce.

The West Texas organization, conducting an extensive pegan planting campaign at this time, advises planters to be conservative in their plans and against any trees which were not developed for comparatively dry climates.

Col. Penick stated that many West Texas farmers have been interested in planting pegas to the extent that they have bought a few trees for experimental purposes and were very much disappointed when they died in a climate which averaged 20 inches of rainfall per year.

The western varieties have smaller leaves than the eastern varieties and require less water. Reputable western nurseries sell no other kind. Originally the West Texas Chamber of Commerce undertook to distribute one thousand trees at very nominal prices, but a real deal whereby all orders for trees during the season can be filled has been made. The orders will be received at the headquarters office at Stamford for Halberts, Nuggets, Burketts and Success, all proved western varieties.

W. M. S. MEETING

The Ladies Memorial Society of the Methodist Church met at the home of Mrs. R. L. Faulkner. There were ten members present. The meeting opened in the usual way. The business part was taken care of, then the study of our book was led by Mrs. Stone, which was very interesting. Refreshments of cream puffs and coffee were served by Mrs. Faulkner. The next meeting will be at the home of Mrs. Clyde Holland. Reporter

NEW SHIPMENT OF FORDS RECEIVED HERE MONDAY

A new shipment of Fords was unloaded on the local yard Monday. The shipment consisted of one business coupe, one standard coupe, one tudor and one fordor.

BASKETBALL TOURNAMENT TO BE HELD IN MULSHOE SATURDAY, FEBRUARY 16

The County basketball tournament will be played off at Mulshoe High school gym next Saturday. There will be four or five teams and several good games are promised from the teams scheduled. Y. L. Bula, Baileyboro and Mulshoe will all have teams and possibly a team from Fairview and Watson.

The girls will also play in the tournament. This will not count on the Inter-hastatic League standing, but several schools in the County have girls' teams and wanted a tournament for them, which will have to be played at the same time as the boys games. There will be games in the morning, afternoon, and the finals at night.

A charge of 25 cents admission at each series of games will be played to defray the expenses of the meet. It was voted at the last Institute meeting to make this charge to secure the services of outside referees. Two very capable men have agreed to call these games. They are Messrs. Brown and Newton, of Sudan. The charges for their services will be \$2.50 per game and all expenses. Remember the date and come out and help pay the expense of the tournament. Admission 15 and 25 cents. Morning, afternoon and night. Saturday, February 16th.

MULSHOE AND DIMMIT BASKETBALL WILL CLASH AT LOCAL GYM, FRIDAY 15TH

The Dimmitt and Mulshoe basketball teams will meet on the local court Friday night, February 15, in what is predicted will be one of the best games of the season. These teams have a reputation of being the best of sports and will live up to the name on this night. This game was to have been played earlier in the season, but was postponed till a later date.

These games and the ones to be played with Friona on Friday night, March 1st, are the only ones to be played on the local court. Be sure and see both of them.

W. M. U. MEETING

The W. M. U. ladies of the Baptist church met with Mrs. Ray Griffiths. There were eight members and one visitor present. Mrs. Shirley was leader in the Bible study from Royal Service—a very interesting lesson. The ladies completed plans for serving lunch at the Lassiter sale. Would like to mention here that a dozen tin cups wrapped in brown wrapping paper were lost somewhere in Mulshoe or on road to Lassiter place. Anyone finding them please leave with Byron Griffiths at Hart Lumber Co. Will appreciate it very much. W. M. U. meets next Monday afternoon at 3 o'clock, with Mrs. Byron Griffiths in regular business session. Will appreciate your presence. Reporter

EPIC OF THE AIR, "WINGS" IS GIVEN HIGHEST PRAISE BY THE WAR DEPARTMENT

The greatest compliment ever given to a motion picture company by the war department has been bestowed upon Paramount for its war epic of the air, "Wings," which will have its opening at the Lone Star Theatre on Tuesday and Wednesday, February 19 and 20.

A memorial to cost \$100,000 and dedicated to the famous Second Division will be erected in Washington. Because of their accuracy, still pictures from the photoplay are to be used as models in constructing the huge memorial.

Paramount constructed an exact duplicate of a sector of St. Mihiel in order to obtain the spectacular battle shots which climax "Wings" and these so impressed war department officials that they asked permission of Jesse L. Lasky to model from the stills. "Wings" was directed by William Wellman, who was a flyer in the famous Lafayette Escadrille. John Monk Saunders, an instructor in aviation during the war, wrote the story. The cast includes Clara Bow, Charles (Buddy) Rogers, Richard Arlen, Johnny Rains, Gary Cooper, Arlette Marchal, H. B. Walhall, Heda Hopper, Claire McDowell, El Brendel and Gunboat Smith.

TALKING MOTION PICTURES FOR A LUBBOCK THEATRE

Lubbock, Texas, Feb. 13.—Equipment for showing talking motion pictures is being installed in the Palace Theatre here and the first vitaphone shows will be held about February 15, according to C. C. Lindsey.

After the equipment is thoroughly tried out and proven to be in perfect working order, Lindsey is planning a grand opening in an effort to bring people from all over the Texas Plains here to hear the first talking movie on the South Plains.

VALLEY MOTOR COMPANY RECEIVES NEW CHEVROLETS

Valley Motor Company received a shipment of new cars this week, consisting of one coupe, one cabriolet, one sedan and a coach. Deliveries were made as soon as the cars were serviced. K. K. Smith, president of Valley Motor Company reports the following sales this week:

- B. H. Head—Coupe.
- A. C. Gaede—Sedan.
- Art. Ryan—Coach.
- Donald Bullman—Cabriolet.

Much interest is centered on the new Chevrolet '66' and deliveries are being made as fast as the cars can be received.

Banner Year For Settlers in County

A party of prospectors from Kay County, Oklahoma, were visiting in Mulshoe last Saturday accompanied by R. L. Brown, one of the local representatives for the Warren Ranch lands here. Those in the party were O. P. Burnham, Geo. Walker, F. J. Hoschler and J. R. Deibel.

The party made the trip Thursday, driving through in cars to inspect the Warren land near here. Mr. Burnham bought a quarter section and the other members of the party stated that they were well pleased with this fine farming land.

Dozens of prospectors are here each week and many are buying farms, which will be put into cultivation within the year. Improvements have already started on several of these places and indications are that 1929 will be a record year for new settlers to Bailey County.

ANNUAL JUDGING CONTEST FOR AGRICULTURAL STUDENTS

Lubbock, Texas, Feb. 13.—Plans are being issued by the Fourth annual judging contest for vocational agricultural students in Texas high schools to be held some time this Spring at the Texas Technological College.

Dean A. H. Lelidigh of the School of Agriculture has placed Ray C. Mowery in charge of all arrangements of the contest again this year. A greater interest has been manifested in the event this year than ever before.

In the past contests, livestock, poultry and grain judging have been covered, and the Lubbock Chamber of Commerce has awarded loving cups to the winning teams. This year farm management, farm shop and other vocational agricultural work will likely be added to the contest.

MARRIAGE LICENSES ISSUED

The following marriage licenses have been issued by the County Clerk's office in Mulshoe recently:

- Homer Williams and Jewel Petty.
- L. D. Harris and Fannie Mason.
- R. D. Overton and Jewel Holt.
- Oliver Ferguson and Juanita Turney.
- W. M. Kirklund and Edna Toton.
- G. H. Miller and Mollie Moena Crow.
- E. E. Couch and Pearl Richardson.
- Vern Bearden and Gladys Harvey.
- B. H. Wagon and Oneta Ivy.

TWENTY-ONE ACRE FARM PAYS LARGE DIVIDENDS

The report comes from Las Cruces, New Mexico, of a farmer, H. F. Daniels, who realized a net return of \$100 an acre from crops raised on a 21-acre tract in Mimbre valley last year. From three and one-half acres, he sold 350 sacks of potatoes for \$225. He made \$150 from the sale of melons and green corn, received \$1,387 for 225 sacks of beans, and sold hegar amounting to \$225, making a total return of \$2,287.

The tract was irrigated with a centrifugal pump driven by a gasoline engine and the total expense for operating the plant a year amounted to \$150. Daniels has one of the smallest tracts under cultivation in the valley, the report states.

BATTLING JOHN D., JR.

Col. Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana, who is engaged in a struggle with John D. Rockefeller, Jr., for enough proxies to control the annual meeting of the company. Rockefeller demanded the resignation of Stewart and the colonel refused.

The Muleshoe Journal

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

Resolutions, Cards of Thanks, etc., are charged for at the rate of 10 cents per line. Advertising Rates on application.

SUBSCRIPTION RATES In Bailey County, 1 Year \$1.50 Outside of County \$2.00

SHEEP, A VALUABLE ASSET TO FARMERS

It is rare nowadays that you can find a sheep man who is not enthusiastic about his sheep and the profits they return him.

A man who helps lambs into the world by lantern light and runs around mothering twins and triplets and weak lambs with a bottle of warm milk becomes attached to them.

One good Floyd County farmer started out two years ago with an initial investment of \$250 in his sheep. His wool has been more than fed the ewes.

Sheep are the gleaners of the farm. To many farmers they are proving the most profitable animals on the farm.

ORIENT WILL INTERVIEW IN YATES LINE HEARING

Washington—Permission for the Orient to intervene in the application of the Yates & West Texas Railway to construct a line from near Rankin into the Yates oil pool in Pecos county has been granted by the I. C. C.

The Yates pool has a potential production of 4,000,000 barrels daily.

The McCormick-Deering Ball-Bearing Cream Separator

The Pride of the Household

That's what this modern machine can't help being—the McCormick-Deering Ball-Bearing Cream Separator is so far ahead in design and appearance.

But the big things in the new McCormick-Deering are the ball-bearing equipment at every high-speed point, the wonderfully efficient bowl design, and the positive automatic lubrication.

One of the big sides of the ball-bearing McCormick-Deering will be a special introduction of electric, come in and have it demonstrated. Our time payment plan (12 months) will help the machine to pay for itself.

Town Talk

Henry Ivy of Lazbuddy was in town trading Wednesday.

Mrs. E. L. Whitmore of Balesboro was in town Monday.

David Anderson has accepted a position at the Jones Service Station.

Arthur Haley and son, George, of the VVN Ranch, were in town Wednesday.

Born—to Mr. and Mrs. J. L. Cude, February 13, 1929, a ten pound girl.

Miss R. Saunders was in Clovis the first of the week, having dental work done.

Mr. and Mrs. Clint Taylor spent the week-end in Amarillo with friends and relatives.

Mrs. J. M. Bell of the Longview community was a visitor to Muleshoe the first of the week.

Mrs. Mark Lively of Woodburn, Oklahoma, is spending a few days with her sister, Mrs. Clint Taylor.

Misses Dorothy Wentland, Sis Saunders and Mrs. Lilla B. Daniels motored to Sudan Thursday evening.

Mr. and Mrs. B. Whitt of Lazbuddy were in Muleshoe Wednesday. Mrs. Whitt was having dental work done.

March and April hatched pullets pay best. See us now for Purebred White Leghorn Eggs.—McAdams Poultry Farm.

Miss Audrey Stoker of Lubbock arrived in Muleshoe Tuesday, to be the most profitable looking ewes of his flock yet to lamb.

Mrs. C. C. Brooks and children returned home Tuesday, after spending several days in Sheffield, Texas, with her mother, Mrs. Will Smith.

William Cooper returned Tuesday from attending the funeral of his mother, Mrs. Cooper of Denton, who was well known here, she having moved to Denton from Muleshoe only a short time ago.

Fred Gaede, accompanied by Nick Mattiessen left Wednesday morning for his home in Kansas. Mr. Gaede has been visiting with his brother, A. C. Gaede and family for some time. Mr. Mattiessen will visit relatives in Iowa.

Mr. and Mrs. John Birdsong and children of Mount Vernon, Texas, arrived here the latter part of last week to make this their future home. At present they are staying at the home of his uncle, S. E. Morris. Mr. Birdsong is the new manager of the Gulf oil station in Muleshoe.

IMPROVEMENTS CONTINUE ACTIVE AROUND MULESHOE

New improvements reported this week by the local yards are as follows: Parandale Lumber Company.

W. H. Kistler—General improvements.

H. M. Thompson—General improvements.

E. W. Coffman—Complete set of improvements, with new room house.

T. E. Bryant—General improvements.

E. L. Frost—Gen. improvements.

H. T. Ellis—House.

East Lumber Company.

P. W. Henington—Room house.

WAGNON-IVY

Mr. B. H. Wagnon and Miss Onetta Ivy, daughter of Mr. and Mrs. Henry Ivy, of the Lazbuddy community, were united in marriage at eleven o'clock Tuesday morning at the Methodist parsonage here.

BLANTON CHARGES SALOONS WIDE OPEN IN WASHINGTON

Washington—A letter charging that saloons were being operated openly in Washington under police protection was read in the house yesterday by Representative Blanton, of Texas.

BIG AIRPLANE CARRIES TORPEDO WEIGHING ONE TON

A torpedo, weighing 2,000 pounds and capable of sinking a battleship if exploded at the right spot, is the remarkable weapon carried by a new English airplane, says Popular Mechanics Magazine. The projectile is attached to the bottom of the fuselage and is launched with special apparatus. In spite of its heavy load, the plane is a first use and is easily handled in the air.

BANKERS' NATIONALIVE FOR UNIFORM FINANCIAL PRACTICES

Would Promote Greater Consistency Among All the State Laws in Respect to Banking Conditions—Uniformity of Practice and Understanding Will Make for Greater Convenience, Efficiency and Safety for All Business.

By S. J. HIGH, President State Bank Division, American Bankers Association

RAPID interchange of business and the quick transportation of goods in the United States, coupled with almost instantaneous means of inter-communication by telegraph, telephone and wireless, have welded the country into an economic unit.

Banking in the United States is recognized as a semi-public type of business and is therefore subject to laws to define the scope and character of its activities. These laws at present set up a great diversity of conditions under which banking is conducted in various parts of the country since they come from both state and federal authorities.

Banking in the United States is recognized as a semi-public type of business and is therefore subject to laws to define the scope and character of its activities.

MARVIN JONES GIVES SOME STATISTICS ON JUTE IMPORTS

Marvin Jones, who is fighting the battle of the cotton grower in Congress, gives the following information as to the use of jute: About 900,000,000 pounds of jute is being shipped into the United States annually and it is gradually increasing. It is imported principally from India. About 150,000,000 pounds of jute is used for cotton bagging, but as about one-half of this covering is reworked about 80,000,000 pounds of new jute is used each year for cotton bagging. In other words, about ten times as much jute is shipped into this country every year as is necessary to cover the entire cotton crop of the United States. The other 88 percent is used for other purposes, for sacks, bags, wrapping material, for the body of carpets and linoleum and various other purposes. If cotton were substituted for all the jute that is now being used for all purposes in the United States, it would occasion the use of more than a million additional bales of cotton, which, according to the estimates of the Department of Agriculture, would very greatly increase the average price of cotton, and thus increase the returns to the cotton growers many millions of dollars.

Just now a decided effort is being made to find new outlets for our surplus cotton. In a great many of these attempted new uses cotton runs into competition with jute, which is manufactured largely by the cheap labor of India. But for this competition cotton would now be channeling into a great many of such additional outlets. The tariff would be of great advantage to the grower in the disposal of surplus cotton.

The question of the tariff may be a debatable one, but for the time being, at least, it is the adopted policy of this country. Any tariff that is levied should be upon every article coming through the custom house from which a revenue may be derived--on the raw products as well as the finished articles. Any tariff bill should be a fair and uniform one covering all such commodities.

The cotton grower must pay tariff upon the very ties with which he binds his cotton; he must pay a tariff upon his supplies and the utensils with which he produces his cotton. So long as this is the settled policy of the country, it is unfair to force him into competition with the cheap labor of India.

EL PASO CELEBRATES FIRST ELECTRIC CAR

January marked the 27th anniversary of electric street cars in El Paso. The first electric street car left Pioneer Plaza at 11 o'clock the morning of January 11, 1902. There were four motors and three trailers, all decorated with American and Mexican flags and bunting. These carried the famous old McGinty Band of 12 pieces in addition to 350 other guests, company officials and Mandy, faithful relic of mule-car days.

The first run was made to the Custom House on Commerce Street, in Juarez, thence returning to the starting point. The late Gid Miller was motorman and Mike Fieley conductor. It required one hour to make the trip.

IMPROVE THE QUALITY OF WHEAT, SAYS TINSLEY

Lubbock, Feb. 6.--Declaring that improving the quality of the wheat is one of the biggest problems facing the grower, J. D. Tinsley, Santa Fe agricultural agent of Amarillo, pointed out how this could be done in an address before the first Farmers' Short Course recently held at Texas Technological College. "Kansas wheat is not a bit better than Panhandle wheat," he said.

"The bulk of our wheat is utilized by the bakeries. At one time it was utilized by the homes, but now the greatest proportion of the people buy their bread. Bakeries have a big business. If the baker puts out certain lines of bread and a housewife likes a certain line of bread, when she sets one of those loaves she expects the loaf she gets year after next to be exactly like the one she bought this morning. In order for the baker to put out this loaf he must have two things: (1) flour which has a certain percentage of protein; (2) a certain quality. The baker comes back to the miller and demands that every sack he buys today shall make a loaf like the loaf he made yesterday. He demands that he get exactly the same number of loaves and practically the same weight in those loaves as he got yesterday. The chemist plays an important part. The baker will not make flour unless he can get wheat with a certain protein content and with a certain quality. The baker comes back to the miller and demands that every sack he buys today shall make a loaf like the loaf he made yesterday. He demands that he get exactly the same number of loaves and practically the same weight in those loaves as he got yesterday. The chemist plays an important part. The baker will not make flour unless he can get wheat with a certain protein content and with a certain quality."

"Export wheat is not the highest grade, but it is the lowest grade. Another thing to remember is that wheat is sometimes frozen. We ought to raise the quality of wheat that is demanded for the European market. This means that there is a very urgent reason for paying more attention to quality. We have not as much attention to protein in Texas as in Oklahoma. We are trying to work out a plan whereby the farmer may get some benefit of his protein wheat. Arrangements were made whereby samples could be sent in to the State Department of Agriculture in Oklahoma for testing. The kind of wheat that is grown is a community proposition, not an individual one. Communities will penalized. Those who get premiums for lines of research are those who will produce a better wheat than we have. This involves problems such as conservation of moisture and plant food."

"Kanred and Turkey Red wheat are good as long as it is put in binder and threshed. If it is left in field very long it shatters. Experiment station people have hopes that by crossing varieties they can get a high protein wheat that will have a stiff straw and that will resist frost better than anything we have and be better for the combine. There is a considerable acreage is frozen out every winter. Wheat market reports show that the market has gone up in the last few weeks on account of prospective wheat buyers considering prospective demands because of recent cold weather."

THE NEWSBOY SHOWS HOW

If you watch newsboys selling their papers on a city street, you see a big difference between boys. Some are quiet little fellows who lack the push and assertiveness to call out their papers. They do not attract enough attention to sell many of them.

And then there are those who go at their job with all their might. They jump out in front of you to catch your eye, they call out news events reported in their papers. The street resounds with their cheerful and ringing cries. People like to buy of these little hustlers.

It is about the same in the world of trade. The business concern that does not believe in advertising is much like the boy who never calls out his papers, and is apt to come out about the same. The business man who advertises vastly increases his sales, like the active kid whose lively cries win your interest on the street.

TOO TRUE

A little fly flew through the flue. Where all the family had the flu. The fly flew through the fluey air. And took a chew from each one there. All had the flu. He caught it too. From Uncle Tru, Aunt Lou and Sue. And once again flew through the flue To pass it on, as all flies do.

Sir Leonard Dunning, high police official in London, stated at an inquiry that followwomen were failures because they were "nosey partners"

Make Your Feed Crop Last All the Winter

YOU can make your feed crops go one-third further--last all through the winter--by grinding them with a W-W Grinder.

The W-W grinds and mixes everything from the ground up with lightning speed--separately or together. Turns alfalfa, ear or snapped corn, maize heads, oats, barley, and all other grains and roughage into nutritious mixed feed that has a third more feeding value.

Powerful hammers do the work on your W-W. They do a quicker, better job of grinding--and you have no burrs, gears or knives to break or work loose. Fourteen years of successful service on thousands of farms everywhere have proved the W-W to be the world's greatest feed grinder.

There is a W-W to fit every purpose and every price. Six sizes--blower, elevator, or self-feeder. All have Timken Tapered Bearings--Alumite-Zerk lubrication--Rockwood pulleys.

Come in and let us show you this money-making grinder. Or let us demonstrate on your farm with your own feed and your own power.

CALL CITY HALL

EVEN THE TAILORED STREET FROCK FLAUNTS GAY COLOR THIS SEASON

Every nove of fashion trends to the developing of an increasing fabric consciousness on the part of women who keep pace with the mode. The advent of rayon in the textile field is epoch-making in fabric history and it is claiming as much attention as cotton or wool or silk or linen.

That rayon has brought novelty into the field and given zest to fabric fashions there is no question. In its wake comes a wealth of new and fascinating weaves, the likes of which were never catalogued in the list of "what's what" in materials during the days of our great and great-grand-mother's days.

When mindily shopping goes instead of having her mind made up to a certain specific material, it might be well to casually ask, "What's new in fabrics?" Try it and see what happens. If the salesperson be schooled in "efficiency" you will be regaled with a revelation of modern weaves, which in beauty, novelty and general adaptability—also—generally—surpass the showings of any season past.

In every display of new fabrics rayon plays an outstanding part. Rayon crepe, rayon georgette, rayon taffeta, rayon voile, in fact the range of weaves achieved in cotton, wool, silk

and linen is this season repeated in rayon.

One of the very new and fascinating fabrics which is attracting the attention of stylists is rayon moire. The gown in the picture is made of this very smart and very new weave, patterned in Roman stripes in reds, blues and browns. It will readily be seen from the model illustrated that rayon moire yields handsomely to tailored treatment.

A frock of this type will prove a joy to the woman who finds that she is suddenly called upon to do one of those last-minute errands in town that are always cropping up in the best of regulated families.

Speaking of stripes, they are more fashionable than ever. The new silks and woolsens, also rayon weaves, stream stripes of every sort, especially featuring bias stripes and tricolor stripes. Plaids, too, show great promise, especially large bold effects.

The popularity of stripes and plaids is especially emphasized in the new millinery sets which include scarfs matched to toques draped of plaid or striped tricot or else felt hats with insets of gay patterned fabric.

FOSSIL EXPEDITION FROM COAST ERECTS BASE NEAR THE CANADIAN RIVER

Berkeley, Calif.—The University of California announced recently that R. A. Stirton, curator of the Museum of Paleontology, had set out on an expedition along the Canadian river in Northern Texas in search of fossil remains of animals supposed to have ranged the hills of Texas 7,500,000 years ago.

On a recent exploratory tour of that district by C. L. Camp, curator of amphibians and reptiles for the museum, a number of valuable specimens of the rhinoceros, mastodon and three-toed horse were uncovered. The university hopes Stirton will make still more valuable discoveries.

Stirton has made his headquarters at Canadian, Texas.

SOUND WAVES REVEAL EARTH'S ORE STORE

Iowa City, Iowa.—Geophysics is the divining rod of the modern prospector in his search for the earth's stores of iron, petroleum, sulphur, lead and silver.

Dynamite, electricity, and delicate recording instruments now are called upon to locate deposits and oil pools, according to Richard B. Whipple of the Iowa engineering school.

Sound waves from a charge of dynamite exploded beneath the surface of the earth travel rapidly through the dense formations of petroleum, buried granite, salt and sulphur, and instruments thus are enabled to record the deposits, the Iowa teacher says.

Similarly, a magnetometer which records variations in magnetic intensity serves to locate iron ore deposits and petroleum which has accumulated near the peaks of subterranean granite deposits.

KNOW TEXAS

The geographic center of Texas is in Cochran county, 10 miles north-east of Brady.

The Lone Star flag of Texas was adopted by the Third Congress of the Texas Republic in session at Houston, January 25, 1839.

Texas has in the neighborhood of 17 billion board feet of pine and seven billion five hundred million feet of hardwood standing.

The annual lumber cut of Texas is about one billion five hundred million feet.

After serving on the force for 20 years, Policeman Henry Carter of Carroll was sent to prison for stealing chickens.

Longview News Items

Longview school is again regaining their record attendance, after a considerable decline during the severe weather of the past few days. However, the snow was a welcomed visitor by all as it will be a benefit to farmers growing wheat.

A number of tractors are being delivered in the Longview section, and from general appearances, farming is on the increase. We are having some new comers moving into our country. We wish to extend to them our hand of friendship. We are always glad to have new folks move into our community.

Most all crops are harvested and quite a bit of preparation being made already for another crop.

The young people of Longview and Baileyboro were entertained by a social last week at the home of Mr. and Mrs. Bud Chambers. A good time was reported.

We were very sorry to lose from our community Mr. Homer Williams, who is in business at Muleshoe.

It is reported that Mr. H. Sterling, of the Longview community, is making all preparations to move to California. We hope for him a profitable move.

Mrs. Lillian Dyer, Superintendent of the Longview school, is still not able to resume her school duties. Mrs. Dyer is under treatment at Lubbock.

Sunday School was well attended last Sunday, having with us Rev. Moore, our local pastor. He delivered three good sermons. Sunday School was reorganized from the bottom up, electing new officers and teachers. Most all the old officials were reelected. Mrs. N. C. Moore, elected (new) as Secretary, Mr. Beggs was reelected as Superintendent.

Mr. J. W. Boyles has moved to Oklahoma City, where he will reside with his daughter.

Mr. J. V. Young and family have been visited by a friend from New Mexico the last few days.

A. L. STRINGER ENTERTAINS WITH DINNER PARTY FEB. 9

Prof. A. L. Stringer of the Baileyboro school entertained a few of his friends at his home Saturday evening. After a delightful dinner, prepared by the professor, card games were played, songs sung, and stories told until a late hour. The guests were Miss Beatrice Booth and Willie B. Hargraston and Messrs. Charlie Coffman and Garland Booth.

ASK CONGRESS FOR HIGHER TARIFF ON BEEF AND HIDES

Kansas City, Mo.—To protect American beef producers and relieve agricultural conditions, the committee on government relations for the beef industry will petition congress for a higher tariff on beef and hides.

Recommendations of six cents a pound tariff on fresh beef were made; also two cents a pound on cattle weighing less than 500 to 1000 pounds; four cents for those weighing more than 1000 pounds; a tariff of 20 percent ad valorem on prepared beef; a tariff of 6 cents a pound on green hides and 15 cents a pound on dry hides.

TWO FROM SUBMERGED SUB

About U. S. S. Mallard off Key West, Fla.—Proof that man could escape from a submerged submarine without outside aid was demonstrated when two men, attached to the tender Mallard, made their way to the surface from the S-4, about forty miles off Key West, in a series of tests. Naval experts said it was the first time the feat had ever been accomplished.

TWO OF THE NEWER ADDITIONS TO THE LIST OF 21,000-odd uses of gas are a hair drier for women bathers, which does the trick in a few minutes, and an air heater and accessories, including a recirculating system which dries paper, mangle speakers for movie-tone electrical work.

R. A. Thomson returned the first of the week from the Kansas City markets.

West Camp News

Mr. E. E. Hughes and brother, Elbert Hughes, left Sunday for Wichita Falls, where their father died Saturday morning at 10:00.

Mrs. Carl C. Huber and two sons, Frances and Leo, left Monday for Hot Springs, New Mexico.

C. W. Williams and family of St. Louis, Oklahoma, have recently moved into the Detsky's old home place.

Mr. John Mitchell Goodwin of Melrose, New Mexico, is visiting the J. M. Gibbs family.

Born—to Mr. and Mrs. Clarence Knowles, a seven pound boy, February 5th, 1929.

Miss Leslie Harriman from Charleston, Arkansas, has moved into our community and joined the seventh grade. We are very glad to have her. Mr. Snyder was a school visitor Monday afternoon.

BOSTON BANKER PREDICTS DEVELOPMENT OF TEXAS MILLS

Dallas.—Great textile development in Texas was predicted here this week by A. W. Hill, representing the National Shawmut Bank of Boston. Five per cent of the textile manufacture is now done in the Southern states, he said.

"Eastern capital," he said, "formerly shy at southern industries, has awakened to the opportunities of the South for textiles and is seeking outlets in this line."

"Texas, with all her natural resources, has attracted attention of bankers of the East and stands out prominently for investment in mills."

ICE PLANT SUPERVISION BY R. R. C. A PROBABILITY

Supervision of ice plant utilities by the Railroad Commission became tangible with a favorable report on the Webb-Holder bill by the House Committee on Common Carriers last week. The bill provides that the Railroad Commission shall be empowered to regulate rates and supervise service of Texas ice companies. This measure has attracted much interest. Several hearings were held on the bill by the Committee.

"Texas is becoming dairy-minded," declared Representative Westbrook in stating that supervision of ice companies was necessary in order to insure cheap ice with a dependable year-round service for rural routes. The cotton farmer is turning to dairying, and ice is necessary for this growing industry, according to Westbrook.

Large canned milk companies are establishing condensary plants in certain parts of the State. The farmers are to furnish these plants with milk. It was pointed out by those interested in ice regulation from the farmers' standpoint.

Ice manufacturers are divided on the bill. Ice consumers representatives have strongly urged the passage of the bill. Proponents of the bill testified that there is a wide range in the prices charged for ice and that there is no dependable rural service. Successful supervision of ice companies in other states is cited by the advocates of the measure.

W. D. Hart, Austin ice manufacturer, stated to the Committee that the same thing was happening to the independent ice manufacturer that "happened to the individual grocer with the advent of chain system grocery stores." He cited instances in two small towns in the vicinity of Austin, where small independent plants were forced out of business by big companies who then raised the rates to an exorbitant figure.

TEXAS U ISSUES 1929 SUMMER SCHOOL CATALOG

Austin, Texas.—Summer school catalogues for the 1929 summer session of the University of Texas may now be secured from the office of Mrs. Faith Adams Perry, editor of official publications. The catalogue is just off the press and offers valuable information as to necessary requirements, courses offered, qualifications of faculty members, information about living accommodations and other pertinent data. Mrs. Perry said.

MASH FROM FARM GRAINS

A good mash for poultry, made up largely of farm grains, may be mixed according to the following formula given in the February 1 Oklahoma Farmer-Stockman: Two parts ground corn, one part oats, one part wheat, one part kafir, and one part meat scrap. A good grade of tankage may be used in place of meat scrap, but it is not quite as good. If tankage is used, add 5 percent bone meal to the mash. The meat scrap is entirely omitted if milk is kept before the hens all the time.

NOTICE OF SALE

STATE OF TEXAS, COUNTY OF BAILEY.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Bailey County, of the 29th day of January, 1929, by J. L. Alsop, Clerk of said Court for the sum of fifty six hundred thirty-five and 75/100 (\$5633.75) Dollars and costs of suit under a Judgment, in favor of W. B. Newsome, et al in a certain cause in said Court, No. 269 and meat scrap, the defendant, Security State Bank of Weskaco, a corporation, and the defendant, Panhandle Lumber Company, a corporation, and levied upon as the property of Sam Hoffman et al, and that on the first Tuesday in March, 1929, the same being the 5th day of said month, at the Court House door, of Bailey County, in the town of Muleshoe, Texas, between the hours of 10 A. M. and 4 P. M.: by virtue of said levy and order of sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Sam Hoffman, et al.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Muleshoe Journal, newspaper published in Bailey County.

Witness my hand, this 6th day of February, 1929.

H. A. DOUGLASS, Sheriff of Bailey County, Texas.

ENGINE OF MODEL A FORD MODERN ENGINEERING FEAT

The engine of the new Model A Ford car represents one of the most remarkable engineering accomplishments in the history of automotive development.

While not radically new in principle or design, it represents a new combination of engineering principles which has produced the best tested performance features of the older types of automobile engines, with the most important features of the newer types.

Without abandoning entirely the principles of the old low-compression, low-speed motors in favor of the extremely high-speed, high compression type, Ford engineers have developed a medium speed, medium-compression motor that has proved itself much better adapted to the needs of a light car. A wide variety of uses under all sorts of road conditions and in widely varying climates are thus served more satisfactorily than would be possible with a radically high-speed, high-compression motor.

It Will Pay You To See Us Before You Sell Your Kaffir, Maize, Sudan and Corn

THE MULESHOE JOURNAL

VOLUME 7

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, FEBRUARY 15TH, 1929

LOWER FREIGHT RATES FOR PLAINS-PANHANDLE SECTION ARE TO BE RE-ESTABLISHED

Lubbock, Texas, Feb. 13.—The Lubbock Chamber of Commerce has been advised by the Railroad Commission of Texas that rates on less than carload shipments of grain and hay seeds produced in the Plains-Panhandle section, cancelled as of November 8th, 1928, will be re-established effective February 15th, 1929.

This action will mean the saving in freight charges, thousands of dollars monthly to farmers and seed dealers of the Plains-Panhandle section, and comes as a result of a petition filed February 4, by the Lubbock Chamber of Commerce.

The old rate that was cancelled called for a carrying charge of from 50 to 58 cents per hundred pounds from Plains-Panhandle points to other points in Texas, while the cancellation of the rate boosted the carrying charges to a range of from 81 cents to \$1.40.

With many requests from farmers and seed dealers who were affected, the Lubbock Chamber of Commerce began working on the rate case soon after it was cancelled. Late in the year of 1928, advice was secured from a number of outstanding traffic men about the case. Several expert traffic men advised that the ruling was final, with no hope of setting the old rate re-established.

Not satisfied with this advice, the Lubbock Chamber of Commerce continued searching for some way to get the rate re-established. Early in February, Albert L. Reed of Dallas was consulted and later employed to represent Lubbock in the matter. A petition was filed February 4th, 1929, with the Railroad Commission of Texas, praying for a re-consideration of the order.

On February 9, 1929, the railroad commission wired that the old rate would be re-established effective February 15th. The entire expense of filing the petition and pushing the case to a successful completion was paid by Lubbock, which totaled well over \$1,000.

While Lubbock was vitally effected and benefited by the case, the entire Plains-Panhandle section will receive the same benefit.

The Plains section ships a large percentage of all case sorghum, grain sorghum and Sudan seed used over the entire nation. Particularly do other sections of Texas look to the Plains for their planting seed. While these other sections grow these crops, the seed from their crops do not have the stamina, vitality and fertility of the seeds grown in this section.

NINE BELOW SATURDAY MORNING; GOOD SNOW

The coldest weather that has visited this country in several years was witnessed here the latter part of last week and continued over Sunday. About three inches of snow fell in the vicinity of Muleshoe on Thursday and Friday. On Friday morning the government thermometer, in charge of Judge Krump, registered one degree above zero, and on Saturday morning the temperature registered 9 below. The snow which fell will be of much benefit to wheat in this territory. Another cold snap is the forecast for this section for the next few days.

NEW SKI RECORD

Casper Olmen, riding for the Norge Ski club of Chicago, carried off major honors at the Denver club ski tournament at Miller, Ind. He won the class A championship with marks of 157 and 166 feet, and the long standing jump with a leap of 166 feet, the latter a new record.

McConico Cattery Entries Win Cups and Ribbons At El Paso Cat Show

Some of the best Persian cats in the South are raised in Muleshoe, and Mrs. R. L. Faulkner, owner of the McConico Cattery here, has plenty of silver cups and blue ribbons to show visiting cat fanciers. Mrs. Faulkner entered three fine cats at the El Paso show recently, which is one of the largest events of its kind in the State. These little kittens did a fine job of representing their home town, and the judges decided that each should have a large silver loving cup. Not only this, but six blue ribbons were also presented them. The winners are as follows:

- Me Too—First, winner and best Shaded Silver cat in show. Three ribbons and silver cup.
 - Baby—First. Blue ribbon and silver cup.
 - Princess Marie—First winner. Cup and two ribbons.
- Mrs. Faulkner entered three cats at the Houston show last fall and all cats won first in their class. Two of these cats were winners at El Paso. McConico Cattery ships animals to all parts of the United States and there are always orders for these fine Persians on the waiting list.

INAUGURATION TO BE STAGED AT NATIONAL CAPITOL AMID MUCH COLOR AND VARIETY

Washington, Feb. 11.—Promise of variety and color in the presidential inauguration ceremonies has assumed definite proportions with the announcement by the inaugural committee that 22 state governors have reserved space for themselves and residences in the parade.

At the same time the committee announced other entertainment features on the tentative program of events—among them being concerts, all stunts by army and navy fliers, and a grand display of fireworks on the mall.

Many of the executives, the committee said, will come with escorts garbed in gay uniforms. The governor of Alabama will be accompanied by two captains of foot soldiers from the state national guard and a band of 50 pieces. From Delaware, New Jersey and Virginia, artillerymen and cavalrymen will come with their chiefs. The Governor of Virginia will have 450 members of the Richmond Blues, the Richmond Howitzers and the Richmond Grays, and a file and drum corps.

SUNDAY SCHOOL INSTITUTE AT METHODIST CHURCH

Rev. W. B. Hicks announces that a Sunday School Institute will be held at the Methodist church in Muleshoe on Saturday, February 16th, at 10:00 o'clock a. m. The Institute will be conducted by Dr. W. E. Lyon and wife. Lunch will be served at the church. Everyone, especially the Sunday School members, are urged to attend.

Between Two Lines of Fire

ACCLIMATED PEGAN TREES ARE NECESSARY FOR BEST RESULTS IN WEST TEXAS

Fort Worth, Texas, (WTCC)—A warning to West Texas farmers contemplating pecan planting, that trees which have been bred to high rainfall conditions will not develop properly in West Texas, has been issued by Col. R. L. Peniek, chairman of the agricultural committee of the West Texas Chamber of Commerce.

The West Texas organization, conducting an extensive pecan planting campaign at this time, advises planters to be conservative in their guard against any trees which were not developed for comparatively dry climates.

Col. Peniek stated that many West Texas farmers have been interested in planting pecans to the extent that they have bought a few trees for experimental purposes and were very much disappointed when they died. This failure of the trees to live was because they had been raised in a climate where from 60 to 70 inches of rain fell each year and were planted in a climate which averaged 20 inches of rainfall per year.

The western varieties have smaller leaves than the eastern varieties and require less water. Reputable western nurseries sell no other kind.

Originally the West Texas Chamber of Commerce undertook to distribute one thousand trees at very nominal prices, but a new deal whereby all orders for trees during the season can be filled has been made. The orders will be received at the headquarters office at Stamford for Halberts, Suggette, Burkett and Success, all proved western varieties.

W. M. S. MEETING

The Ladies Missionary Society of the Methodist Church met at the home of Mrs. R. L. Faulkner. There were ten members present. The meeting opened in the usual way. The business part was taken care of, then the study of our book was led by Mrs. Stone, which was very interesting. Refreshments of cream puffs and coffee were served by Mrs. Faulkner. The next meeting will be at the home of Mrs. Clyde Holland. Reporter

NEW SHIPMENT OF FORDS RECEIVED HERE MONDAY

A new shipment of Fords was unloaded on the local yard Monday. The shipment consisted of one business coupe, one standard coupe, one tudor and one fordor.

Mr. Rocky, manager of Muleshoe Motor Company, local Ford dealer, reports the following deliveries of new car purchasers this week:

- John Pulcher—Fordor.
- O. H. Reeves—Sport Coupe.

The people of this territory are both prosperous and progressive and each week new cars are being delivered to local citizens by the three automobile agencies in Muleshoe.

Mr. E. E. Morris, Jr. was on the sick list last week.

BASKETBALL TOURNAMENT TO BE HELD IN MULESHOE SATURDAY, FEBRUARY 16

The County basketball tournament held under the Intercollegiate League, will be played off at Muleshoe High School gym next Saturday. There will be four or five teams and several good games are promised from the teams scheduled. Y. L. Bula, Baileysboro and Muleshoe will all have teams and possibly a team from Fairview and Wadsworth.

The girls will also play in the tournament. This will not count on the Intercollegiate League standing, but several schools in the County have girls' teams and wanted a tournament for them, which will have to be played at the same time as the boys games. There will be games in the morning, afternoon, and the finals at night.

A charge of 25 cents admission at each series of games will be made to defray the expenses of the meet. It was voted at the last Institute meeting to make this charge to secure the services of outside referees. Two very capable men have agreed to call these games. They are Messrs. Brown and Newton, of Sudan. The charges for their services will be \$2.00 per game and all expenses. Remember the date and come out and help pay the expense of the tournament. Admission 15c and 25c. Morning, afternoon and night. Saturday, February 16th.

MULESHOE AND DIMMITT BASKETBALLS WILL CLASH AT LOCAL GYM, FRIDAY 15TH

The Dimmitt and Muleshoe High basketball teams will meet on the local court Friday night, February 15, in what is predicted will be one of the best games of the season. These two teams have a reputation of being the best of sports and will live up to the name on this night. This game was to have been played earlier in the season, but was postponed till a later date.

These games and the ones to be played with Friona on Friday night, March 1st, are the only ones to be played on the local court. Be sure and see both of them.

W. M. U. MEETING

The W. M. U. ladies of the Baptist church met with Mrs. Ray Griffiths. There were eight members and one visitor present. Mrs. Shirley was leader in the Bible study from Royal Service—a very interesting lesson. The ladies completed plans for serving lunch at the Lassiter sale. Would like to mention here that a dozen tin cups wrapped in brown wrapping paper were lost somewhere in Muleshoe or on road to Lassiter place. Anyone finding them please leave with Byron Griffiths at Hart Lumber Co. Will appreciate it very much. W. M. U. meets next Monday afternoon at 8 o'clock, with Mrs. Byron Griffiths in regular business session. Will appreciate your presence. Reporter

Mr. and Mrs. Clint Taylor, who have been "light housekeeping" in the home of Mrs. J. W. Lee, have moved into the A. J. Hicks residence, formerly occupied by J. O. Jones.

EPIC OF THE AIR, "WINGS" IS GIVEN HIGHEST PRAISE BY THE WAR DEPARTMENT

The greatest compliment ever given to a motion picture company by the war department has been bestowed upon Paramount for its war epic of the air "Wings," which will have its opening at the Lone Star Theatre on Tuesday and Wednesday, February 19 and 20.

A memorial to cost \$100,000 and dedicated to the famous Second Division will be erected in Washington. Because of their accuracy, still pictures from the photography are to be used as models in constructing the huge memorial.

Paramount constructed an exact duplicate of a sector of St. Mihiel in order to obtain the spectacular battle shots which climax "Wings" and these so impressed war department officials that they asked permission of Jesse L. Lasky to model from the stills. "Wings" was directed by William Wellman, who was a flyer in the famous Lafayette Escadrille. John Monk Saunders, an instructor in aviation during the war, wrote the story. The cast includes Clara Bow, Charles (Buddy) Rogers, Richard Arlen, Johnny Ralston, Gary Cooper, Arlette Marchal, H. B. Wallhall, Hilda Hopper, Claire McDowell, El Brendel and Gunboat Smith.

TALKING MOTION PICTURES FOR A LUBBOCK THEATRE

Lubbock, Texas, Feb. 13.—Equipment for showing talking motion pictures is being installed in the Palace Theatre here and the first vitaphone shows will be held about February 15, according to C. C. Lindsey.

After the equipment is thoroughly tried out and proven to be in perfect working order, Lindsey is planning a grand opening in an effort to bring people from all over the Texas Plains here to the first talking movie on the South Plains.

VALLEY MOTOR COMPANY RECEIVES NEW CHEVROLETS

Valley Motor Company received a shipment of new cars this week, consisting of one coupe, one cabriolet, a sedan and a coach. Deliveries were made as soon as the cars were serviced. K. K. Smith, president of Valley Motor Company reports the following sales this week:

- E. H. Heat—Coupe.
- A. C. Gaede—Sedan.
- Art Ryan—Coach.
- Donald Burham—Cabriolet.

Much interest is centered on the new Chevrolet "e" and deliveries are being made as fast as the cars can be received.

BEARDEN-HARVEY

Mr. Vern Bearden and Miss Gladys Harvey were united in marriage last Saturday evening at the home of Mr. and Mrs. D. O. Smith. Rev. W. B. Hicks, performed the ceremony. The young folks left immediately for a short wedding trip in the southern part of the state after which they will make their future home in Muleshoe.

Banner Year For Settlers in County

A party of prospectors from Kay County, Oklahoma, were visiting in Muleshoe last Saturday accompanied by R. L. Brown, one of the local representatives for the Warren Ranch Lands here. Those in the party were O. P. Burnham, Geo. Walker, F. J. Hoeschler and J. R. Deibel.

The party made the trip Thursday, driving through in cars, to inspect the Warren land near here. Mr. Burnham brought a quarter section and the other members of the party stated that they were well pleased with this fine farming land.

Dozens of prospectors are here each week and many are buying farms, which will be put into cultivation within the year. Improvements have already started on several of these places and indications are that 1929 will be a record year for new settlers to Bailey County.

ANNUAL JUDGING CONTEST FOR AGRICULTURAL STUDENTS

Lubbock, Texas, Feb. 13.—Plans are being made for the fourth annual judging contest for vocational agricultural students in Texas high schools to be held some time this Spring at the Texas Technological College.

Dean A. H. Leidigh of the School of Agriculture has placed Ray C. Mowery in charge of all arrangements of the contest again this year. A greater interest has been manifest in the event this year than ever before. In the contest, livestock, poultry and grain judging have been covered, and the Lubbock Chamber of Commerce has awarded loving cups to the winning teams. This year farm management, farm shop and other vocational agricultural work will likely be added to the contest.

MARRIAGE LICENSES ISSUED

The following marriage licenses have been issued by the County Clerk's office in Muleshoe recently:

- Homer Williams and Jewel Petty. L. D. Harris and Fannie Mason. R. D. Overton and Jewel Holt. Oliver Ferguson and Juanita Turley.
- W. M. Kirkland and Edna Toyn.
- G. H. Miller and Mollie Moena Crow.
- C. E. Couch and Pearie Richardson. Vern Bearden and Gladys Harvey.
- H. B. Wagnon and Oneta Ivy.

TWENTY-ONE ACRE FARM PAYS LARGE DIVIDENDS

The report comes from Las Cruces, New Mexico, of a farmer, H. F. Daniels, who realized a net return of \$109 an acre from crops raised on a 21-acre tract in Mimbre valley last year. From three and one-half acres, he sold 350 sacks of potatoes for \$226. He made \$150 from a crop of melons and green corn, received \$1,387 for 625 sacks of beans, and sold hegar amounting to \$225, making a total return of \$2,287.

The tract was irrigated with a centrifugal pump driven by a gasoline engine and the total expense for operating the plant a year amounted to \$150. Daniels has one of the smallest tracts under cultivation in the valley, the report states.

Sheriff H. A. Douglass was attending to official business in Sudan Wednesday.

BATTLING JOHN D. JR.

SHEEP, A VALUABLE ASSET TO FARMERS

It is rare nowadays that you can find a sheep man who is not enthusiastic about his sheep and the profits they return him. He ought to be enthusiastic. Sheep are high, almost a bit of a pound is being offered for spring lambs weighing sixty pounds and better for spring delivery. Wool is bringing a good price. The winter has been unusually mild and the percentage of lambs saved is high. Ewes have lambed prolifically this winter. A man who helps lambs into the world by lantern light and runs around milking twins and triplets and weans lambs with a bottle of warm milk becomes attached to them. He is proud of them. Nowadays a red-eyed dissipated looking farmer must not be judged too hastily by his appearance for many a time it is not the proverbial corn, but lack of sleep through lambing time.

One good Floyd County farmer started out two years ago with an initial investment of \$200 in his sheep. His wool clip has more than fed the ewes. He has saved 71 lambs out of 47 ewes so far and has 38 more of the most prolific looking ewes of his flock yet to lamb. He has a bid of 12 cents a pound for his lambs for spring delivery and has a hundred days to bring them from sixty to eighty pounds. His small original investment has grown into almost as many thousand dollars as he put in hundred.

Sheep are the gleaners of the farm. To many farmers they are proving the most profitable animals on the farm. They do not have to be run in extremely large flocks to be money makers. Almost every farm can maintain a few sheep on feed that otherwise would waste.—Plainview Herald.

ORIENT WILL INTERVENE IN YATES LINE HEARING

Washington—Permission for the Orient to intervene in the application of the Yates & West Texas Railway to construct a line from near Banks into the Yates oil pool in Pecos county has been granted by the I. C. C. The Yates pool has a potential production of 4,600,000 barrels daily.

The McCormick-Deering Ball-Bearing Cream Separator

The Pride of the Household

That's what this modern machine can't help being—the McCormick-Deering Ball-Bearing Cream Separator is so far ahead in design and appearance. It is beautiful to the eye—glossy black japanning with gold pin-stripping. It has graceful lines. It is sanitary and easy to clean from the rounded supply can down to the open base, inside and out.

But the big things in the new McCormick-Deering are the ball-bearing equipment at every high-speed point, the wonderfully efficient bowl design, and the positive automatic lubrication. These give you a surprisingly easy-turning separator, cleanest possible skimming whatever the condition of the milk, long life for your machine, and top profit from your milking.

One of six lines of the ball-bearing McCormick-Deering will be the splendid investment. Hand, hold, or electric. Come in and here it is demonstrated. Our time payment plan (12 months) will help the machine pay for itself.

Town Talk

Henry Ivy of Lazbuddy was in town trading Wednesday.

Mrs. E. L. Whitmore of Baileyboro was in town Monday.

David Anderson has accepted a position at the Jones Service Station.

Arthur Haley and son, George, of the VVN Ranch, were in town Wednesday.

Born—to Mr. and Mrs. J. L. Cude, February 13, 1925, a ten pound girl.

Miss R. Saunders was in Clovis the first of the week, having dental work done.

Mr. and Mrs. Clint Taylor spent the week-end in Amarillo with friends and relatives.

Mrs. J. M. Bell of the Longview community was a visitor to Muleshoe the first of the week.

Mrs. Mark Lively of Woodburn, Oklahoma, is spending a few days with her sister, Mrs. Clint Taylor.

Misses Dorothy Wentland, Sis Saunders and Mrs. Lilla B. Daniels motored to Sudan Thursday evening.

Mr. and Mrs. B. Whit of Lazbuddy were in Muleshoe Wednesday. Mrs. Whit was having dental work done.

March and April hatched pullets pay best. See us now for Purebred White Leghorn Eggs—McAdams Poultry Farm.

Miss Audrey Sliker of Lubbock arrived in Muleshoe Tuesday to be the guest of Miss Dorothy Wentland for a few days.

Mrs. C. C. Brooks and children returned home Tuesday, after spending several weeks in Sheffield, Texas, with her mother, Mrs. W. Smith.

William Cooper returned Tuesday from attending the funeral of his mother, Mrs. Cooper of Denton, who was well known here, she having moved to Denton from Muleshoe only a short time ago.

Fred Gaede, accompanied by Nick Mathisen left Wednesday morning for his home in Kansas. Mr. Gaede has been visiting with his brother, A. C. Gaede and family for some time. Mr. Mathisen will visit relatives in Iowa.

Mr. and Mrs. John Birdsong and children of Mount Vernon, Texas, arrived here the latter part of last week to make this their future home. At present they are staying at the home of his uncle, S. E. Morris. Mr. Birdsong is the new manager of the Gulf oil station in Muleshoe.

IMPROVEMENTS CONTINUE ACTIVE AROUND MULESHOE

New improvements reported this week by the local yards are as follows: Panhandle Lumber Company: W. H. Kistler—General improvements. H. M. Thompson—General improvements. T. W. Coffman—Complete set improvements, with five room house. T. E. Bryant—General improvements. E. L. Frost—Gen. improvements. E. T. Ellis—House. Hart Lumber Company: F. W. Henington—6-room house.

WAGON-IVY

Mr. E. H. Wagon and Miss Onetta Ivy, daughter of Mr. and Mrs. Henry Ivy, of the Lazbuddy community, were united in marriage at eleven o'clock Tuesday morning at the Methodist parsonage here. Rev. W. B. Hicks, pastor of the Methodist church, performed the ceremony. Mr. and Mrs. Wagon left in the afternoon for a short trip through the southern part of the state. They will reside in the Lazbuddy community.

BLANTON CHARGES SALOONS WIDE OPEN IN WASHINGTON

Washington—A letter charging that saloons were being operated openly in Washington under police protection was read in the house yesterday by Representative Blanton, of Texas. Blanton, in a speech dealing with police conditions in the city, read the letter from a person whose identity was not disclosed. The letter listed a half dozen addresses at which said liquor was sold openly. For the privilege, the letter said, daily payments were made to the police.

BIG AIRPLANE CARRIES TORPEDO WEIGHING ONE TON

A torpedo, weighing 2,000 pounds and capable of sinking a battleship if exploded at the right spot, is the formidable weapon carried by a huge English airplane, says Popular Mechanics Magazine. The projectile is attached to the bottom of the fuselage, and is launched with special apparatus. In spite of its heavy load, the plane is a real snip and is easily handled in the air.

BAKERS IN NATIONAL MOVE FOR UNIFORM FINANCIAL PRACTICES

Would Promote Greater Consistency Among All the State Laws in Respect to Banking Conditions—Uniformity of Practice and Understanding Will Make for Greater Convenience, Efficiency and Safety for All Business.

By S. J. HIGH, President State Bank Division, American Bankers Association

RAPID interchange of business and the quick transportation of goods in the United States, coupled with almost instantaneous means of inter-communication by telegraph, telephone and wireless, have welded the country into an economic unit. The nation is not, in a business sense, conducting its affairs in water-tight compartments, as in a measure it did in the days of slow travel and remote places, but styles, methods, commodities and business practices flow freely today in all directions. Therefore it is desirable that finance, trade and industry throughout the country operate along generally uniform or at least consistent lines, so that a contract or an agreement or obligation in connection with business transactions shall mean virtually the same thing in all parts of the country. Particularly necessary in this connection is the establishment of uniform financial and banking practices so as to facilitate the flow of trade along accepted and understood lines.

Banking in the United States is recognized as a semi-public type of business and is therefore subject to laws to define the scope and character of its activities. These laws at present set up a great diversity of conditions under which banking is conducted in various parts of the country since they come from both state and federal authorities. The national banks are all chartered by the federal government and therefore operate on the same lines in every state of the Union, but there is no such regularity in respect to the conditions under which the state banks chartered by the respective forty-eight states must conduct their business. All state banking codes, while they have similarities, also have many great dissimilarities in respect both to the national bank laws and the banking laws covering state bank operations in other jurisdictions.

Bankers Move for Uniform Laws

The State Bank Division of the American Bankers Association, which latter includes in its membership banks of all descriptions throughout the country subject to all the various state and federal banking laws, is committed to the effort to bring about greater consistency and uniformity among the statutes in these various jurisdictions. This body is conducting a vigorous nationwide campaign urging that active steps be taken to secure greater co-ordination in banking legislation, more equitable conditions and more uniformly efficient public supervision of banks in the several states.

The organization is particularly concerned with fostering this movement to bring about more uniform and feasible conditions throughout the United States in respect to the public supervision of banking institutions by the state banking departments. It is in record as favoring the policy that the important office of state bank commissioner should be kept as free from entangling partisan politics as the judiciary itself and should be completely detached from all other functions of state government.

It is also on record as favoring the policy that the office of state bank commissioner should be made more secure and lasting than is now the case in many state jurisdictions and that the important public office be granted sufficient compensation and discretionary power so that the office shall attract and retain the services of men of outstanding executive ability and successful banking experience.

It is also a part of this policy that the bank commissioner's ability to serve well should be strengthened by providing him with adequate forces of bank examiners, selected on the basis of merit from men having the requisite qualifications of honesty, ability, training and banking knowledge to carry out the duties of the office on the highest plane of usefulness to the public as well as to banking.

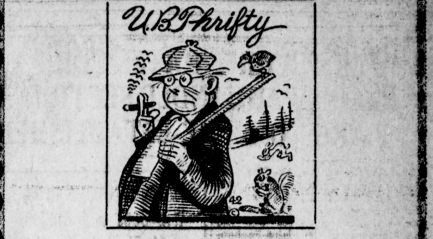

The Trend of State Laws

The Association's State Bank Division has recently concluded a nationwide survey of state banking legislation and conditions and in general has discovered a definite trend along the following lines:

There is a distinct tendency among the states to raise the minimum capital required for banking institutions to \$25,000 and also to give the bank commissioners or the banking boards more power as to the granting of charters for new banks, thus enabling them to use discretion as to the need and the desirability of added banking facilities or the fitness of the organizers to enter the banking field. In this connection many states are creating banking boards to act in an advisory capacity with the state bank commissioners.

There has also been observed a tendency to increase the compensation of the bank commissioners and to lengthen their terms of office and to give them power to appoint necessary assistants and examiners so as to build up an adequate force to carry out their responsibilities and duties. An important consideration of the reports of

Most Yellow Streaks Are Not Physical; They Are Mental

A COURAGE FACTORY

Every Bank is a Courage Factory for those who have accounts in it.

It is amazing the quantity of confidence that develops in a young man, especially, when he HAS a Bank account—and SEES IT GROWING.

Bank Accounts are Vitamines essential to success.

Blackwater Valley State Bank MULESHOE, TEXAS "There is No Substitute for Safety."

bank commissioners in some states is found in laws giving them complete charge of insolvent banks and the liquidation as distinguished from more costly liquidation through the courts.

In the Public Interest

Distinctly in the public interest are laws prohibiting or limiting an officer or director of a bank from borrowing from his own bank unless his collateral security is approved by a majority of the board of directors of the bank. Also there is recent legislation noted providing for closer supervision and regulation of building and loan associations, credit unions, finance companies and private banks.

In some states measures have been enacted broadening the field for investment of funds of savings banks and other institutions which have materially enhanced the service that these institutions can render, particularly in the way of co-operation with their customers in personal financial management. Another type of legislation, important especially to banking in view of the frequent efforts to defraud banks, is that which makes the issuance of worthless checks a misdemeanor with specific penalties.

The State Bank Division of the American Bankers Association addresses in the fullest degree in principle the development of banking laws along the foregoing lines and is active in endeavoring to bring about such legislation wherever services are considered useful both to banking and to the public. Uniformly sound banking institutions and practices, together with sound methods and an understanding, will materially add to the convenience, efficiency and safety of business in serving the well-being of the public in all parts of the nation, especially in those transactions involving dealings between different localities.

AMERICA LEADS THE WORLD IN SAVINGS

The past year saw the greatest gains in savings in a single twelve month ever recorded in the United States, bringing the total savings deposits in banks to over \$28,000,000,000 on June 30, 1925, held in more than 53,000,000 individual accounts. It is reported by the American Bankers Association. These are the biggest figures in this field shown by any country in the world.

MARVIN JONES GIVES SOME STATISTICS ON JUTE IMPORTS

Marvin Jones, who is fighting the battle of the cotton grower in Congress, gives the following information as to the uses of jute: About 900,000,000 pounds of jute is being shipped into the United States annually and it is gradually increasing. It is imported principally from India. About 150,000,000 pounds of jute is used for cotton bagging, but as about one-half of this covering is reworked, about 80,000,000 pounds of new jute is used each year for cotton bagging. In other words, about ten times as much jute is shipped into this country every year as is necessary to cover the entire cotton crop of the United States. The other 88 percent is used for other purposes, for sacks, bags, wrappings material for the body of carpets and linoleum and various other purposes.

If cotton were substituted for all the jute that is now being used for all purposes in the United States, it would occasion the use of more than a million additional bales of cotton, which, according to the estimates of the Department of Agriculture, would greatly increase the average price of cotton, and thus increase the returns to the cotton growers many millions of dollars.

Just now a decided outlet for our surplus cotton. In a great many of these attempted new uses cotton runs into competition with jute, which is manufactured largely by the cheap labor of India. But for this competition cotton would now be channelling into a great many of such additional outlets. The tariff would be of great advantage to the grower in the disposal of surplus cotton.

The question of the tariff may be a debatable one, but for the time being, at least, it is the adopted policy of this country. Any tariff that is levied should be upon every article coming through the custom house from which a revenue may be derived—on the raw products as well as the finished articles. Any tariff bill should be a fair and uniform one covering all such commodities.

The cotton grower must pay tariff upon the very ties with which he binds his cotton; he must pay a tariff upon his supplies and the utensils with which he produces his cotton. So long as this is the settled policy of the country, it is unfair to force him into competition with the cheap labor of India.

EL PASO CELEBRATES FIRST ELECTRIC CAR

January marked the 27th anniversary of electric street cars in El Paso. The first electric street car left Pioneer Plaza at 11 o'clock the morning of January 11, 1902. There were four motors and three trailers, all decorated with American and Mexican flags and bunting. They carried the famous old McGinty Band of 12 pieces in addition to 350 other guests, company officials and Mandy, faithful relic of mule-car days. The first run was made to the Custom House on Commerce Street, in Juarez, thence returning to the starting point. The late Gus Miller was motorman and Mike Piley conductor. It required one hour to make the trip.

IMPROVE THE QUALITY OF WHEAT. SAYS TINSLEY

Lubbock, Feb. 6.—Declaring that improving the quality of the wheat is one of the biggest problems facing the grower, J. D. Tinsley, Santa Fe agricultural agent of Amarillo, pointed out how this could be done in an address before the first Farmers' Short Course recently held at Texas Technological College. "Kansas wheat is not a bit better than Panhandle wheat," he said. "The bulk of our wheat is utilized by the bakeries. At one time it was utilized by the homes, but now the greatest proportion of the people buy their bread. Bakeries have a big business. If the baker puts out certain lines of bread and a housewife likes a certain line of bread, when she gets one of those loaves she expects the loaf she gets year after next to be exactly like the one she bought this morning. In order for the baker to put out this loaf he must have two things: (1) flour which has a certain percentage of protein; (2) a certain quality. The baker comes back to the miller and demands that every sack he buys today shall make a loaf like the loaf he made yesterday. He demands that he get exactly the same number of loaves and practically the same weight in those loaves as he got yesterday. The chemist plays an important part. The baker will go to some other miller if one can't get what he demands. A miller cannot make flour unless he can get wheat with a certain protein content and with a certain quality. "Export wheat is not the highest grade, but it is the lowest grade. Another thing to remember is that wheat is sometimes frozen. We ought to raise the quality of wheat that is demanded for the European market. This means that there is a very urgent reason for paying more attention to quality. We have heard as much attention to protein in Texas as in Oklahoma. We are trying to work out a plan whereby the farmer may get some benefit of his protein wheat. Arrangements were made whereby samples could be sent to the State Department of Agriculture in Oklahoma for testing. The kind of wheat that is grown is a community proposition, not an individual one. Communities will benefit. Those who get premiums for lines of research are those who will produce a better wheat than we have. This involves problems such as conservation of moisture and plant food.

"Kanred and Turkey Red wheat are good as long as it is put in binder and threshed. If it is left in field very long it shatters. Experiment station people have hopes that by crossing varieties they can get a high protein wheat that will have a stiff straw and that will hold in the chaff a lot better, one that will resist frost better than anything we have and be better for the combine thrasher. A considerable acreage is frozen out every winter. The wheat market reports show that the market has gone up in the last few weeks on account of prospective wheat buyers considering prospective demands because of recent cold weather."

THE NEWSBOY SHOWS HOW

If you watch newsboys selling their papers on a city street, you see a big difference between boys. Some are quiet little fellows who lack the push and assertiveness to call out their papers. They do not attract enough attention to sell many of them. And then there are those who go at their job with all their might. They jump out in front of you to catch your eye, they call out news events reported in their papers. The street resounds with their cheerful and ringing cries. People like to buy of these little hustlers. It is about the same in the world of trade. The business concern that does not believe in advertising is much like the boy who never calls out his papers, and is apt to come out about the same. The business man who advertises vastly increases his sales, like the active kid whose lively cries win your interest on the street.

TOO TRUE

A little fly flew through the flue. Where all the family had the flue. The fly flew through the fluey air And took a chew from each one there. All had the flue. He caught it too From Uncle Tom, Aunt Lou and Sue. And once again flew through the flue To pass it on, as all flies do.

Sir Leonard Dunning, high police official in London, stated at an inquiry that policemen were failures because they were "nosey parkers."

Make Your Feed Crop Last All the Winter

YOU can make your feed crops go one-third further—last all through the winter—by grinding them with a W-W Grinder.

The W-W grinds and mixes everything from the ground up with lightning speed—separately or together. Turas alfalfa, ear or snapped corn, maize heads, oats, barley, and all other grains and roughage into nutritious mixed feed that has a third more feeding value.

Powerful hammers do the work on your W-W. They do a quicker, better job of grinding—and you have no burrs, gears or knives to break or work loose. Fourteen years of successful service on thousands of farms everywhere have proved the W-W to be the world's greatest feed grinder.

There is a W-W to fit every purpose and every purse. Six sizes—blower, elevator, or self-feeder. All have Tapered Bearings—Alumite-Zerk Lubrication—Rockwood pulleys.

W-W HAMMER-TYPE FEED GRINDER

Come in and let us show you this money-making grinder. Or let us demonstrate on your farm with your own feed and your own power.

PUBLIC DRAY Let Me Do Your HAULING Careful Attention and Your Business Appreciated. C. C. RAGSDALE CALL CITY HALL

EVEN THE TAILORED STREET FROCK FLAUNTS GAY COLOR THIS SEASON

Every move of fashion trends to the developing of an increasing fabric consciousness on the part of women who keep pace with the mode. The advent of rayon in the textile field is epoch-making in fabric history and it is claiming as much attention as cotton or wool or silk or linen. That rayon has brought novelty into the field and given zest to fabric fashions there is no question. In its wake comes a wealth of new and fascinating weaves, the likes of which were never catalogued in the list of "what's what" in materials during the days of our great and great-grand-mother's days. When mindfully shopping goes instead of having her mind made up to a certain specific material, it might be well to casually ask, "What's new in fabrics?" Try it and see what happens. If the salesperson be schooled in "efficiency" you will be regaled with a revelation of modern weaves, which in beauty, novelty and general adaptability—also wearability—surpass the showings of any season past. In every display of new fabrics rayon plays an outstanding part. Rayon crepe, rayon georgette, rayon taffeta, rayon voile, in fact the range of weaves achieved in cotton, wool, silk

and linen is this season repeated in rayon. One of the very new and fascinating fabrics which is attracting the attention of stylists is rayon moire. The gown in the picture is made of this very smart and very new weave, patterned in Roman stripes in reds, blues and browns. It will readily be seen from the model illustrated that rayon moire fields handsomely to tailored treatment. A frock of this type will prove a joy to the woman who finds that she is suddenly called upon to do one of those last-minute errands in town that are always cropping up in the best of regulated families. Speaking of stripes, they are more fashionable than ever. The new silks and woolsens, also rayon weaves, stress stripes of every sort, especially featuring tiger stripes and leopard stripes. Plaids, too, show great promise, especially large bold effects. The popularity of stripes and plaids is especially emphasized in the new military sets which include scarfs matched to toques draped of plaid or striped turt or else felt hats with insets of gay patterned fabric. JELIA BOTTOMLEY. (22-13229, Western Newspaper Union)

FOSSIL EXPEDITION FROM COAST EXHIBITS BASE NEAR THE CANADIAN RIVER Berkeley, Calif.—The University of California announced recently that R. A. Sinton, curator of the Museum of Paleontology, had set out on an expedition along the Canadian river in Northern Texas in search of fossil remains of animals supposed to have ranged the hills of Texas 7,500,000 years ago. On a recent exploratory tour of that district by C. L. Camp, curator of amphibians and reptiles for the museum, a number of valuable specimens of the rhinoceros, mastodon and three-toed horse were uncovered. The university hopes Sinton will make still more valuable discoveries. Sinton has made his headquarters at Canadian, Texas.

SOUND WAVES REVEAL EARTH'S ORE STORE Iowa City, Iowa.—Geophysics is the divining rod of the modern prospector in his search for the earth's stores of iron, petroleum, sulphur, lead and silver. Dynamite, electricity, and delicate recording instruments now are called upon to locate deposits and oil pools, according to Richard E. Whipple of the Iowa engineering school. Sound waves from a charge of dynamite exploded beneath the surface of the earth travel rapidly through the dense formations of petroleum, buried granite, salt and sulphur, and instruments thus are enabled to record the deposits, the Iowa teacher says.

Similarly, a magnetometer which records variations in magnetic intensity serves to locate iron ore deposits and petroleum which has accumulated near the peaks of subterranean granite deposits.

KNOW TEXAS The geographic center of Texas is in McCulloch county, 10 miles northeast of Brady. The Lone Star flag of Texas was adopted by the Third Congress of the Texas Republic in session at Houston, January 25, 1839. Texas has in the neighborhood of 17 billion board feet of pine and seven billion five hundred million feet of hardwood standing. The annual lumber cut of Texas is about one billion five hundred million feet. After serving on the force for 20 years, Policeman Henry Carter of Cardiff was sent to prison for stealing chickens.

URGE TEXAS LEGISLATORS TO ACT ON CANADIAN PROJECT

A reminder that Texas legislators have not reached a decision concerning the Tri-State pact for conservation and irrigation of the Canadian river between the states of Oklahoma, Texas and New Mexico has been written by the Board of City Development to Clyde Warwick, Canyon, representative from this district, and also to Gov. Dan Moody.

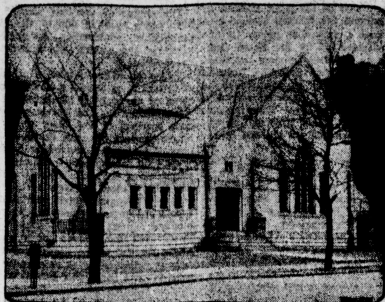

The plans were drawn by commissioners appointed from each state. A. S. Stimmet of Amarillo was appointed Texas commissioner by Gov. Moody. These plans have been ratified by the other two states and are waiting only affirmation from the Texas Legislature to be presented to the federal government—Amarillo News.

E. J. Vance is driving a new Pontiac Coach, purchased through Valley Motor Company.

Longview News Items

Longview school is again regaining their record attendance, after a considerable decline during the severe weather of the past few days. However, the snow was a welcomed visitor by all as it will be a benefit to farmers growing wheat.

A number of tractors are being delivered in the Longview section, and from general appearances, farming is on the increase. We are having some new comers moving into our country. We wish to extend to them our hand of friendship. We are always glad to have new folks move into our community.

Most all crops are harvested and quite a bit of preparation being made already for another crop.

The young people of Longview and Baileyboro were entertained by a social last week at the home of Mr. and Mrs. Bud Chambers. A good time was reported.

We were very sorry to lose from our community Mr. Homer Williams, who is in business at Muleshoe.

It is reported that Mr. H. Sterling, of the Longview community, is making all preparations to move to California. We hope for him a profitable move.

Mrs. Lillian Dyer, Superintendent of the Longview school, is still not able to resume her school duties. Mrs. Dyer is under treatment at Lubbock. Sunday School was well attended last Sunday, having with us Rev. Moore, our local pastor. He delivered three good sermons. Sunday School was reorganized from the bottom up, electing new officers and teachers.

Most all the old officials were re-elected. Mrs. N. C. Moore, elected (new) as Secretary. Mr. Beggs was re-elected as Superintendent.

Mr. J. W. Boyles has moved to Oklahoma City, where he will reside with his daughter.

Mr. J. V. Young and family have been visited by a friend from New Mexico the last few days.

A. L. STRINGER ENTERTAINS WITH DINNER PARTY FEB. 9

Prof. A. L. Stringer of the Baileyboro school entertained a few of his friends at his home Saturday evening. After a delightful dinner, prepared by the professor, card games were played, songs sung, and stories told until a late hour. The guests were Misses Beatrice Booth and Willie Belle Barrington and Messrs. Charlie Coffman and Garland Booth.

ASK CONGRESS FOR HIGHER TARIFF ON BEEF AND HIDES

Kansas City, Mo.—To protect American beef producers and relieve agricultural conditions, the committee on government relations for the beef industry will petition congress for a higher tariff on beef and hides.

Recommendations of six cents a pound tariff on fresh beef were made; also two cents a pound on cattle weighing less than 500 to 1000 pounds; four cents for those weighing more than 1000 pounds; a tariff of 20 per cent ad valorem on prepared beef; a tariff of 6 cents a pound on green hides and 15 cents a pound on dry hides.

TWO FROM SUBMERGED SUB

Aboard U. S. S. Mallard off Key West, Fla.—Proof that man could escape from a submerged submarine without outside aid was demonstrated when two men, attached to the tender Mallard, made their way to the surface from the S-4, about forty miles off Key West, in a series of tests. Naval experts said it was the first time the feat had ever been accomplished.

Two of the newer additions to the list of 21,000-odd uses of gas are a hair drier for women bathers, which does the trick in a few minutes, and an air heater and accessories, including a recirculating system which dries paper mache speakers for motion picture work.

R. A. Thompson returned the first of the week from the Kansas City market.

West Camp News

Mr. E. E. Hughes and brother, Elbert Hughes, left Sunday for Wichita Falls, where their father died Saturday morning at 10:00.

Mrs. Carl C. Huber and two sons, Frances and Leo, left Monday for Hot Springs, New Mexico.

C. W. Williams and family of St. Louis, Oklahoma, have recently moved into the Dotson's old home place.

Mr. John Mitchell Goodwin of Melrose, New Mexico, is visiting the J. M. Gibbs family.

Born—to Mr. and Mrs. Clarence Knowles, a seven pound boy, February 6th, 1929.

Miss Lealie Harriman from Charleston, Arkansas, has moved into our community and joined the seventh grade. We are very glad to have her. Mr. Snyder was a school visitor Monday afternoon.

Reporter

BOSTON BANKER PREDICTS DEVELOPMENT OF TEXAS MILLS

Dallas—Great textile development in Texas was predicted here this week by A. W. Hill, representing the National Shawmut Bank of Boston. Five per cent of the textile manufacture is now done in the Southern states, he said.

"Eastern capital," he said, "formerly shy at southern industries, has awakened to the opportunities of the South for textiles and is seeking outlets in this line."

"Texas, with all her natural resources, has attracted attention of bankers of the East and stands out prominently for investment in mills."

Telephoning Mrs. R. C. Hebburn of Chicago that her husband had been hurt, a burglar robbed her house when she left for the hospital.

ICE PLANT SUPERVISION BY R. R. C. A PROBABILITY

Supervision of ice plant utilities by the Railroad Commission became favorable with a favorable report on the Webb-Holder bill by the House Committee on Common Carriers last week. The bill provides that the Railroad Commission shall be empowered to regulate rates and supervise service of Texas ice companies. This measure has attracted much interest. Several hearings were held on the bill by the Committee.

"Texas is becoming dairy-minded," declared Representative Westbrook in stating that supervision of ice companies was necessary in order to insure cheap ice, with a dependable year-round service for rural routes. The cotton farmer is turning to dairying, and ice is necessary for that growing industry, according to Westbrook.

Large canned milk companies are establishing condensary plants in certain parts of the State. The farmers are to furnish these plants with milk, it was pointed out by those interested in ice regulation from the farmers' standpoint.

Ice manufacturers are divided on the bill. Ice consumers representatives have strongly urged the passage of the bill. Proponents of the bill testified that there is a wide range in the prices charged for ice and that there is no dependable rural service. Successful supervision of ice companies in other states is cited by the advocates of the measure.

W. D. Hart, Austin ice manufacturer, stated to the Committee that the same thing was happening to the independent ice manufacturer that "happened to the individual grocer with the advent of chain system grocery stores." He cited instances in two small towns in the vicinity of Austin, where small independent plants were forced out of business by big companies who then raised the rates to an exorbitant figure.

W. D. Hart, Austin ice manufacturer, stated to the Committee that the same thing was happening to the independent ice manufacturer that "happened to the individual grocer with the advent of chain system grocery stores." He cited instances in two small towns in the vicinity of Austin, where small independent plants were forced out of business by big companies who then raised the rates to an exorbitant figure.

TEXAS U ISSUES 1929 SUMMER SCHOOL CATALOG

Austin, Texas.—Summer school catalogues for the 1929 summer session of the University of Texas may now be secured from the office of Mrs. Faith Adams Perry, editor of official publications. The catalogue is just off the press and offers valuable information as to entrance requirements, courses offered, qualifications of faculty members, information about living accommodations and other pertinent data. Mrs. Perry said.

MASH FROM FARM GRAINS

A good mash for poultry, made up largely of farm grains, may be mixed according to the following formula given in the February 1 Oklahoma Farmer-Stockman: Two parts ground corn, one part oats, one part wheat, one part kafir and one part meat scrap. A good grade of tankage may be used in place of meat scrap, but it is not quite as good. If tankage is used, add 5 percent bone meal to the mash. The meat scrap is entirely omitted if milk is kept before the hens all the time.

NOTICE OF SALE

STATE OF TEXAS, COUNTY OF BAILEY. NOTICE IS HEREBY GIVEN THAT by virtue of a certain Order of Sale issued out of the Honorable District Court of Bailey County, of the 29th day of January, 1929, by J. L. Alsop, Clerk of said Court for the sum of fifty six hundred thirty-five and 70/100 (\$5673.70) Dollars and costs, suit, under a judgment, in favor of W. B. Newsome, et al in a certain cause in said Court, No. 296 and styled W. B. Newsome, et al vs. Sam Hoffman et al, placed in my hands for service, I, H. A. Douglass as Sheriff of Bailey County, Texas, did, on the 29th day of January, 1929, levy on certain Real Estate, situated in Bailey County, Texas, described as follows, to wit: Situated in Bailey County, Texas; and being labor No. 5 in League No. 111 of the Crosby County School lands, containing 172.1 acres, and being the land described in the deed from W. B. Newsome and Tom W. Newsome to Sam Hoffman, dated October 12th, 1925 and recorded in Book 14, Page 225 of the Bailey County Deed Records. The said judgment and foreclosure being against the defendant, Sam Hoffman, the defendant, Security State Bank of Westaco, a corporation, and the defendant, Panhandle Lumber Company, a corporation, and levied upon as the property of Sam Hoffman et al and that on the first Tuesday in March, 1929, the same being the 5th day of said month, at the Court House door, of Bailey County, in the town of Muleshoe, Texas, between the hours of 10 A. M. and 4 P. M.; by virtue of said levy and order of sale I will sell said above described Real Estate at public vendue for cash, to the highest bidder, as the property of said Sam Hoffman, et al. And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County.

Witness my hand, this 8th day of February, 1929.

H. A. DOUGLASS, Sheriff of Bailey County, Texas.

ENGINE OF MODEL A FORD MODERN ENGINEERING FEAT

The engine of the new Model A Ford car represents one of the most remarkable engineering accomplishments in the history of automotive development.

While not radically new in principle or design, it represents a new combination of engineering principles which has produced the best tested performance features of the older types of automobile engines with the most important features of the newer types.

Without abandoning entirely the principles of the old low-compression, low-speed motors in favor of the extremely high-speed, high compression type, Ford engineers have developed a medium speed, medium-compression motor that has proved itself much better adapted to the needs of a light car. A wide variety of uses under all sorts of road conditions and in widely varying climates are thus served most satisfactorily than would be possible with a radically high-speed, high-compression motor.
