

THE MULESHOE JOURNAL

VOLUME 7.

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, MARCH 22ND, 1929.

NUMBER 6.

INTERSCHOLASTIC MEET DRAWS LARGE CROWDS; A PRONOUNCED SUCCESS

The Interscholastic League Meet, which was held here last Friday and Saturday was attended by large crowds from over the county and was declared to be one of the most successful meets in the history of the schools.

There were so many entries in the track and field events that it was impossible to complete the program. These events will be played off next Saturday. The events will start at 2 o'clock in the afternoon. The numbers to be decided are: Junior boy's high jump, senior boy's mile relay, pole vault, and boys doubles in tennis.

YL and Muleshoe held the highest scores in the all round championship, and it is understood that some revision of points are to be made Saturday. As the score stood last week, YL held a lead of 12 points over Muleshoe. The scoring made by each school in the literary events is as follows:

YL, 127; Muleshoe, 99; Fairview, 47; West Camp, 45; Butte, 18.

Athletic events held to date give the schools the following rating:

Muleshoe, 121; YL, 78; Bula, 45; Fairview, 39; West Camp, 21. This rating will be changed some when the events are played off next Saturday.

Sub-junior spelling is the only sub-junior event that counts points toward championship. Junior girls' playground ball is the only event for junior girls' track and field events that count toward championship grading.

MOVES HERE FROM PAMPA

Mr. H. E. Lindsey has recently moved here with his family from Pampa to make his future home. Mr. Lindsey lived here some three or four years ago and stated that the Muleshoe territory looked better to him than any place on the Plains.

COUNTY SCHOOL TRUSTEE ELECTION TO BE HELD ON FIRST SATURDAY IN APRIL

An election will be held Saturday, April 6th, for County school trustees. Progress is the only school north of the sand having a vote in this election. On the south, the school districts voting are Circle Back, Watson, Stegall, Caddy, Goodland and Wilson. Trustees are to be elected this year from Precincts 1, 4 and the county trustee at large.

The following is the ruling of the Attorney General as to the election of county trustees:

The Attorney General's Department holds that only the qualified voters residing in common school districts may vote in the election of county trustees. In the case of a precinct that does not have within its territory a common school district, it will be necessary for the remaining members of the board to appoint a member for such precinct. County trustees may be residents of independent school district.

Mr. Oscar Davis, a pioneer resident of Scurry county, has been visiting his old friend, W. C. Gordon, in Muleshoe this week. Mr. Davis has lived in Scurry county thirty-one years. He has been investigating conditions here and is very favorably impressed with this section of the county.

Mrs. Arthur Haley and children, of the VVN Ranch was a Muleshoe visitor Saturday.

GIANTS' NEW COACH

Ray Schalk, veteran catcher, who is coach for the New York Giants, who are now covering at their Texas training camp.

PRODUCE COMPANY WANTS PACKING SHEDS ERECTED IN MULESHOE

Mr. M. Deal, of Portales, N. M., representing Newton & Wallace, produce buyers, was in Muleshoe Monday and Tuesday in the interest of the company.

Mr. Deal stated that the company wished to place a packing shed here for tomatoes and other vegetables, provided the acreage was sufficient to justify it. He also stated that his company paid cash at the packing shed for all produce and was ready to cooperate with the farmers in marketing truck of all kinds. About two hundred acres in tomatoes in this territory is asked, Mr. Deal said. He stated that Portales farmers had realized very good profits from this source the past season but that the acreage was small which caused a great deal of inconvenience in loading cars. However, this year will see about 800 acres planted to tomatoes in the Portales territory. The company recommends and has for sale a special variety of tomato for shipping purposes, which is planted in this country about the first to 15th of May. This will bring them on the market in the fall, when prices are the highest.

"A large area of the territory north of Muleshoe is ideal for tomatoes," Mr. Deal said, "and with the abundant water supply here, the yield should be heavy." Mr. Deal visited quite a number of farmers north of Muleshoe last Monday and it is understood that they are favorably impressed with the proposition which he offered.

YL News Items

YL was very much encouraged over the outcome of the track meet Friday and Saturday. The school won the all round championship cup.

The Parent-Teacher's meeting will be held here next Friday night, March 22 at eight o'clock.

Aubrey Traweck and Dale Buhman were absent from school Monday.

Oleta Wiltersing won the essay contest. The "First Salute to the Stars and Stripes," sponsored by the Blackwater Valley State Bank.

Mrs. E. H. Buhman and children visited in the J. J. Head home Sunday. The "Civil Government Club" met Monday, March 18, and elected new officers. Those elected were as follows:

President, Lucy Robison; Vice-Pres., Melvin Lowery; Sec.-Treas., Melvin Priboth; Reporter, Melvina Bels; Program Committee, Edwin Buhman, Theron Kimbrough and Albert Traweck.

Mr. and Mrs. J. B. Shofner, John H. Shofner, Norene and Orvil Shofner of Loveland, were visiting in the home of H. M. Shofner and family Sunday and Monday.

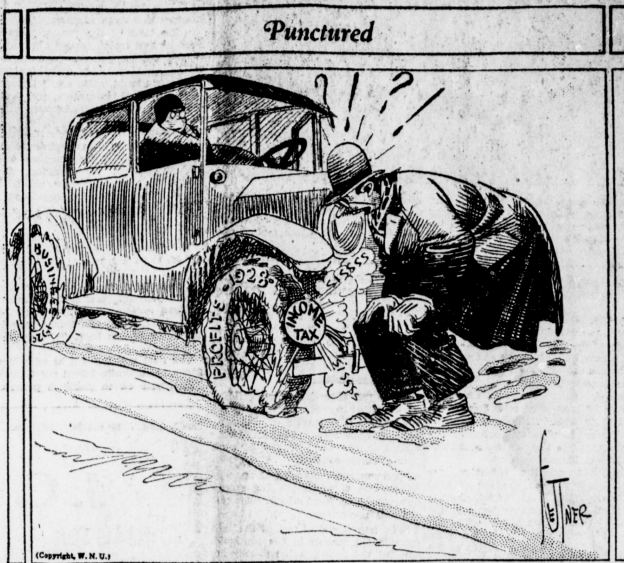

Mr. M. L. Evans and daughters, Frances and Aileen, returned Wednesday from East Texas.

BUILDING FOR LOCAL UNDERTAKING PARLORS UNDER CONSTRUCTION

Construction started Monday on the building for the undertaking parlors, which will be operated by Mr. C. V. Steed of Clovis as soon as the building is completed. It is to be a Spanish styled structure of white oriental stucco, with the awnings. A living apartment will be included in the construction and the equipment will consist of all modern undertaking supplies. Ambulance service will be maintained and altogether it's to be a first class undertaking establishment. We welcome the new enterprise to Muleshoe.

Jimmie Cox and Buford Butt left the first of the week on an "exploration trip" through the west. They expect to visit Arizona, California and other sections on the west coast.

E. R. Cole and Dale Cox of Newkirk, Oklahoma, are here this week making improvements on their farms which are a part of the Warren lands.

Relic of Eighteenth Century in Form of Old Newspaper Contains Variety of Interesting and Amusing Features

An interesting "relic" in the way of an ancient newspaper has been left at the Journal office for our inspection. It is a copy of the Ulster County Gazette, published at Kingston, N. Y., by Samuel Freer & Son, and dated January 4, 1800. It is a re-print copy, but is doubtless very near a duplicate of the original in the matter of style and typography. It is a four column, four page paper, the columns being of standard width and measuring 18 inches in length. The copy is of a mourning edition, the inside pages being bordered in black and otherwise carrying out the mourning design. This is due to the death of General George Washington, an account of which appears in the paper. There is much news of Congress and the Senate in the edition, besides news items of a general nature including a number of reports taken from a London paper of a war that was in progress in Europe at that time.

The entire back page and a part of the third page are devoted to advertising. The advertisements are all in the form of reading notices. A number of "Sheriff's Sale Notices" are grouped under one head. Some very amusing notices appear among the advertisements. For instance:

NEGRO WENCH
Any person inclined to purchase may know the particulars by applying to JOHN SCHOONMAKER, jun. at Rochester, November 23, 1799.

And this one from a husband whose wife was probably a flapper.

SECOND NOTICE
OF my wife Hannah is hereby given forbidding all persons whatever, from harboring or keeping her, and from trusting her on my account, as I am

Lazbuddy Study Club

The members of the Lazbuddy Study Club enjoyed one of the most pleasant meetings of the season at the home of Mrs. Cleo Phillips last Thursday afternoon. Potted blooming plants and ferns added to the attractiveness of the home. Mrs. A. R. Hubner, the president, presided over the business session after which the following program was given: Subject—Child Bearing. Roll Call response—Bright Sayings of Children. Courtesy. How to Teach Politeness. Courtesy. Ambulance service. Mrs. Ollie Trinder. How to Teach Patriotism and Religion. Mrs. W. S. Menzies. Debate—Resolved that Heredity has the Most Influence in a Child's Life.—Mrs. Loyd Loos, Mrs. Whit. A two-course luncheon was served to those present. The next meeting will be with Mrs. Loyd Loos.

C. P. McCullough, who has been connected with the E. R. Haft Lumber Company as credit man, went to Hereford last week where he will establish an abstract office.

Mrs. R. Pyrite of Lazbuddy was in the city Monday.

ENTRIES ARE BEING RECEIVED IN SECOND ANNUAL DAIRY SHOW

Plainview, Texas.—Entries in the second annual Texas-Panhandle-Plains Dairy Show at Plainview, April 2-5, are beginning to be received by Manager Maury Hordis.

E. W. Hester of O'Donnell, prominent Dawson County Jersey breeder, was among the first to send in his entries. Hester is a director of the Texas-Panhandle-Plains Dairy Show Association. He will have five head of stock, but he says they will be hard stuff to beat.

W. W. Evans, Dawson County agent, writes in that his county will have twenty-five head of registered Jersey cattle, the pick of three hundred and twenty animals of that breed in this county. In addition to the animals he will have a stock-judging team made up from the County 4-H Agricultural Club boys. His breeders who will have entries include, besides Hester, mentioned above, J. M. Patterson, Ed Price, J. W. Braswell, Fred Hughes, J. B. Burkett, R. R. White, and J. E. Dolman of Lamesa. He estimates that a large crowd of dairy enthusiasts from that county will be in attendance at the show, and the local interest is running high.

Mrs. Sam Sealing of Hale County and her neighbor, Mr. M. P. Routzahn, were the first to send in their entries from Hale County. R. M. Milhollin, county agent of Hale County, will have over seventy-five head of cattle in the show.

Rob Anglin, secretary of the Tulla Chamber of Commerce, says that Swisher County will have seventy-five head of pure bred Jerseys in the show, and that a big delegation headed by their band will make a day of it in Plainview during the show. R. C. Nicholl, S. J. Payne, Joe Vaughan and other pioneer breeders of Swisher County will all have entries among others.

Amarillo will have a big delegation at the show. The Manufacturers and Jobbers Association indicated several months ago their intention of running a special train.

A vocational agricultural judging team is promised from Seminole under the leadership of R. F. McPartidge, Gaines County agent.

MATYS VAN STEENBERGH Saugerties (Kingston precinct) Nov. 13, 1799.

SAMUEL FREER HAS just received an assortment of GOODS, adapted to the Season which he will dispose of for Cash or Country Produce only, upon moderate terms.

ASHES Taken in said store. December 21, 1799.

LOST
A WATCH, on Wednesday last. The person who has found or may find it will meet with a suitable reward by handing it to the Printers. November 16, 1799.

SHERIFF'S SALE
By virtue of an Execution directed and delivered to me, I have levied and taken the goods and chattels, lands and tenements of Lewis Gatherie, which I shall expose to sale as the law directs, on Monday, the 10th day of January next, at the dwelling house of said Gatherie, in the town of Shawangunk, at 11 o'clock in the forenoon that a partial engagement had taken place. PETER TEN BROECK, Sheriff.

A news item on the front page dated from London reads in part:

WE learn from private letters, that the accounts brought by the Inspector, sloop of war, and which we stated some days ago were so far founded that a partial engagement had taken place. Gen. Daendels, on the 10th, attacked in person the right wing of the British forces under an advanced post near Winkle, under the command of Prince William of Gloucester, with at least 6000 men and 8 pieces of cannon and endeavored with every exertion to force his post.

Marshal Foch is Called by Death

Press reports announced the death of Marshal Ferdinand Foch, yesterday. Marshal Foch was the Generalissimo who led the Allied Armies to victory in the World War. He died at his home in Paris, France, Wednesday, March 20th, after a prolonged illness. He was 77 years old. His death occurred at 12:50 p. m., Eastern Standard Time.

Notwithstanding the fact that it had been long apparent that the great General was fighting his "last campaign," his warrior heart would not give in and for many days he fought off the inevitable and with grim courage. But at his age it was impossible for his strength to longer combat the physical disorders which finally brought his long and active career to an end. A coalition of heart trouble, kidney disease and lung infection were the cause of his death.

General Foch's death marks the passing of one of the greatest warriors of modern times. The same grit that the "foremost fighter" of the World War displayed as commander-in-chief of the allied forces was maintained throughout his illness.

The Marshal was not permitted to see visitors during his illness, although he had many days when it seemed that he would recover. General John J. Pershing, commander of the A. E. F. was one of those who had called to pay his respects to it to his former commander in arms, but the strict rule of the doctors would not permit him to see the Marshal.

MARRIED AT LUBBOCK

Miss Zola Head of Muleshoe was married to Mr. Bernice Hobbs of Wilson last Wednesday evening, the ceremony taking place at Lubbock. The bride is the daughter of Mr. and Mrs. Elmo Head of this place and the groom is a prominent young farmer of Wilson. The Journal joins with their many friends in extending congratulations and best wishes.

STATE SCHOOL INSPECTOR IS HIGHLY PLEASSED WITH BAILEY COUNTY SCHOOLS

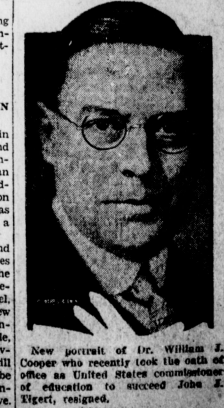

Mr. J. C. Griffin of Austin, Texas, was here last week visiting the schools of Bailey county. Mr. Griffin was inspecting the schools over this section and expressed himself as being highly pleased with the institutions in this county and their management. He recommended a total of \$2,500.00 State aid for ten of the schools, these being the only ones asking for financial assistance.

Mr. Griffin spoke to the teachers and trustees of each school on the subject of furnishings and their use, these talks were appreciated very much by both the teachers and trustees. Mr. Griffin requested additional equipment in almost every school in the county. The aid is being held up by the inspector until this equipment is purchased and notice is given the County Superintendent.

Of the fourteen schools in Bailey county, ten are modern brick structures, with the latest equipment, several of them being practically new.

Messrs. I. K. Whipple, Roy Swope, and E. R. Rosenberg of Iowa, accompanied by R. L. Brown, were here last week prospecting. They were favorably impressed with this country and are planning to return within a few days with their wives.

EDUCATION CHIEF

New portrait of Dr. William J. Cooper who recently took the oath of office as United States commissioner of education to succeed Jobs Z. Tigert, resigned.

ANOTHER TUNNEL IS FOUND IN CAVERN

Carlsbad, N. M.—Another tunnel in Carlsbad Cavern was discovered and explored when Thos. Boles, superintendent, and Jim White, veteran guide, and a small party of Carlsbadites, who have visited the cave on many occasions, entered what has been called "Left Hand Tunnel" for a distance of nearly two miles.

Narrow boards used for bridges, and a coil of heavy rope were several times brought into play to negotiate the chasm and descend from one elevation to another. In this new tunnel, as in all other recently discovered rooms, the formation seems more intricate and more beautiful. If possible, than in the other rooms the first discovered. Considerable trail building will be required before the public can be admitted to this newest of the uncharted passageways of the great cave.

Race From Arctic Snows to Tropic Waters

Starting on toboggans from the mountain slopes of Los Angeles County park and terminating with a dip into the semitropic pool at Arrowhead Hot Springs, youthful Los Angeles couples staged a unique race. An hour and four minutes after they had left the snowy mountain, the winners were splashing off their garments underneath which they were wearing suits, and were plunging into the warm pool in the valley below. The photograph shows some of the starters, and Miss Joyelle Joyner of the winning team in the pool.

LAW LIBRARY AT TEXAS U
MOST COMPLETE IN SOUTH

Austin, Texas.—Numbering between 36,000 and 37,000 volumes, the law library at the University of Texas is the most complete and the most valuable collection of legal material in the South, according to Prof. Ira P. Hildebrand, dean of the University School of Law. The collection is valued at \$175,000. Records and reports of the courts of every English speaking country in the world are included in the library.

Additions to the collection are made each year, an average of 1,000 volumes, valued at \$4,000, having been added each year for the past five years. Chief among the collections in the library are those which were made by three former members of the University law faculty and bequeathed to the library at their death. These belonged to Judges John C. Townes, Robert Gould and W. S. Simpkins.

SCHOOL CHILDREN WHO
HAVE TO PICK COTTON

"What has it cost the state of Oklahoma this year to have thousands of boys and girls missing from school to pick cotton, not weeks but months?" asks a writer in the March 1 Oklahoma Farmer-Stockman.

"This year there have been children out of school to pick cotton from September until the middle of January. Here are some actual examples of conditions in the rural schools of some of our cotton counties.

"One one-room school had an enrollment of 45 pupils the first month but only 22 the third month. The rest were picking cotton.

"The enrollment of one of the best consolidated schools in the southwest was 347 the first month but only 240 at the end of the third month. The primary room had 31 beginners out of school to pick cotton! Think of it, 6-year old babies kept out of school to pick cotton!

"Isolated examples, you say? No, they are typically typical examples of rural school conditions in every county where cotton is king.

"Can we wonder that both pupils and teachers lose interest when over half the members of the class drop out for three months in the fall and are hopelessly behind the rest of the school year?"

IMPORTANCE OF LACE IS STRESSED
IN EVERY PHASE OF THE MODE

One cannot be a true follower of fashion and leave lace out of the spring and summer wardrobe. The importance of lace cannot be overrated. Lace of every color and description has invaded itself into every phase of the mode.

For tea, bridge and dinner, lace frocks in vivid colorings are fashion's favorite theme. Most of them are styled with little jackets or caplets and in some instances lace wraps stress the ensemble idea.

We are wont to think of the "cocktail" jacket as strictly formal, but the illustration suggests its adaptability, when made of all-over lace, to afternoon wear. Most tea causing frocks in this jacket topped with a lace-covered felt hat, the entire carried out on the very popular sunburn coloring. When Mary Thiblin, one of the occasion's most winsome stars, donned this lace "set," she started a vogue which is sure to capture the fancy of every woman who loves beautiful clothes.

The hat in this outfit is an unusual and as beguiling as the wee jacket. It is a sunburn colored felt, covered with lace which is stretched that smoothly the effect is almost like an embossed pattern. Miss Thiblin wears this jacket and hat with a simple black satin frock. A very good idea this! It is a suggestion worth keeping in mind for even the most unpretentious frock becomes distinctive in company with such an enchanting lace ensemble as this.

A face cream of many parts is another worthwhile suggestion which fashion offers this season. This includes a frock with detachable long sleeves with either a matching jacket or three-quarter-length wrap.

The wearableness of such a frock is at once recognized, as it can be tuned to both evening and afternoon occasions.

Color gives to the face frock an emphasized interest. A gown of bright red lace, or in the so-popular champagne green or in bright independence blue is indeed good to look upon, and the modern lace frock is in just such eye-catching colors.

WANTS SINGLE CLOCK
TO TICK FOR WORLD

A fifth of a second is of no vast importance to the average citizen, or even to a commuter, but to astronomers and other scientists it may make a big difference. To overcome this difficulty, according to reports from Germany, a noted inventor has developed a plan whereby one clock will beat time for the entire earth. It is proposed that from a central observatory the ticks of this master electric clock be sent instantaneously by radio to all countries, giving a single accurate time. At present each country sets its clocks by radio and telegraph from a national observatory, and there is often a discrepancy between the different countries.

In the plan proposed, television devices would be used to synchronize all clocks with the master timepiece, and with this system in operation, the world's clocks need never be more than one one-thousandth of a second apart.

W. M. S. MEETING

The Ladies' Missionary Society of the M. E. Church met at the home of Mrs. E. L. Faulstich.

The meeting opened by the reading of the One Hundredth Psalm. A short business session was taken care of, then the meeting was turned over to the study of our book, "Women and the Kingdom."

The next meeting will be with Mrs. Stone. Mrs. Joslin joined our Society. There were eleven members present.

DOCTORS FOR HUSBANDS ARE PREFERRED BY COLLEGE GIRLS

Macon, Ga.—Every member of the senior class of Wesleyan college expects to have a husband some day, and most of them expect to have doctors for husbands.

A questionnaire sent members of the class of the girls' high school here revealed no preference for the man without a sense of humor. The seniors preferring the present antiquated and troublesome door that you align and open by heaving and tugging at the door handle. The driver, completing his day's journey, or his trip to the mail box or drug store, will simply sound his horn as he turns on the driveway. By the time he gets to the door it will have opened itself.

Thus do the abstracters and experiments of the scientists effect our daily life and routine. The use of sound in eliminating space, distance and time has only begun to be applied. Some of these days the housewife will whistle or speak to the automatic churn when she is ready for the churning to be done, or having put on a meat before she left for the club meeting, telephone the stove to begin cooking.

ANTIQUATED GARAGE DOORS

The garage door of the future will be opened by the honk of the horn of the owner of the car and garage, superseding the present antiquated and troublesome door that you align and open by heaving and tugging at the door handle.

Scatches at powerful electric plants, irrigation, flood gates and similar things are already being operated by means of the sound wave. The garage door, the churn or the cook stove are simply suggestions for your imagination to start to work. Imagine as hard as you can and you will not have arrived at the wonders that will be common place within another two

No woman minds having her soups criticized, but she won't stand for any remarks about her salads.

CATTLE BRING HIGH PRICE AT FORT WORTH SHOW

Fort Worth.—Eighty-four head of blooded Hereford cattle brought \$37,785 at the annual auction sale of the Texas Hereford Association held recently at the Southwestern Exposition and Fat Stock Show.

Fifty selected head of bulls and females brought an average price of \$590 a head in the "blue ribbon" sale. In addition a carload of bulls went to one buyer at a price of \$220 a head.

As usual, practically all of the Herefords will remain in this State. For 72 of the 84 head went to Texas buyers. The highest price at this sale was \$1,700 and last year, \$2,000.

KNOW TEXAS

The total population on tenant farms in Texas is about 1,250,000. On owned farms it is 862,000.

About 1,000,000 persons residing in Texas were born in other states. Tennessee leading with 115,861 and Alabama next with 103,244.

The number of families in Texas has increased from 575,734 in 1900 to well over a million at present.

The present negro population of Texas is estimated at 779,000.

The center of population of Texas is about 13 miles southwest of Waco

ILLITERACY IS BLAMED FOR MEXICO REVOLT

"I have no idea. No one can tell." That, in a nut shell, represents the opinion of Dr. Paul W. Horn, Tech College president, concerning the outcome of the present revolution in Mexico.

Dr. Horn, who spent the school year of 1921-22 in Mexico City at the head of an English speaking school, regards revolutions in Mexico as natural, due to the percentage of illiteracy in the country.

"Whenever a country has an illiteracy percentage of 90 per cent you are likely to see frequent revolutions," he said.—South Plains Farmer.

CLEAN UP!

There is no "sure sign" of spring, but spring should be a "sure sign" of the arrival of that time for the community to clean up. There is no superstition or prophesying about this clean up time.

When warm weather has come to stay (until cold weather returns in the autumn) every owner of property and tenant should instinctively feel it his duty to remove the evidences of winter's ravages and to add and augment nature in her work of rehabilitation.

Every spring clean up program should include disposal of winter's accumulation of litter and decayed vegetation, repairing and repainting of buildings and landscape gardening. Landscape gardening is no longer associated with large estates alone.

A clean town is a better place in which to live than one that is unsanitary and unsightly. And the best community advertising is the appearance of being "cleaned-up, painted-up and planted-up."

SEND IN YOUR NEWS

If you have had a visitor over the week-end, have made a trip, given a party or know of new settlers in the community, please send in the news to the Journal. It is impossible to get all the local news without the cooperation of the citizens and this courtesy will be appreciated. Just call 54, or mail in any news items of interest in your community.

We have received news from several of the rural communities in this vicinity recently. We appreciate this and hope that the reporters in these communities will keep up the good work. We will ask that those writing news for the paper be as careful in the spelling of names, writing plainly, etc., as possible, as we desire to publish all items that are sent in and do not want to misconstruct any of the names or phrases that appear in the items reported. We prefer not to receive carbon copies of communications, as it is very difficult in some cases to read such copy, and we have been

Kilauea Is in Action Again

The Halemauana pit on the Kilauea volcano in Hawaii is belching fire and lava again. The first manifestation of the disturbance was a burst of black smoke followed by fire and loud roaring. This picture was taken during a previous outburst of the volcano.

forced to omit some items that were not desirable in such cases. Let us hear from your community, whether you have been represented in our columns heretofore or not.

A. & M. COLLEGE WINS CHAMPIONSHIP PRIZES ON LIVESTOCK EXHIBITS
College Station, Texas.—Winning by livestock exhibited by the A. & M. College of Texas at the Southwestern Exposition and Fat Stock Show at Fort Worth included championships in each of the four divisions in which the college was represented—cattle, hogs, sheep and horses—as well as a large number of first, second and other place ribbons, reports on the records of the college entries, as cited by D. W. Williams, head of the animal husbandry department, show. Altogether, the college exhibited five carcasses of stuff at the exposition.

SOUTH PLAINS ADVERTISING CAMPAIGN: DRAWS INQUIRIES

Up to a recent date, 2,732 inquiries had been received at the office of the South Plains advertising organization in Lubbock, coming from every state in the Union. These inquiries are all promptly answered with general and definite information, according to the expressed desire.

Several new visitors have already come to this section of the State as a result of the advertising campaign put on by the organization, some of them making purchases.

A soft answer does not turn away a rascal, wrath as a hard look.

When picking your friends be careful not to pick them too much.

Most of the work is done by people who are too nervous to loaf.

Town Talk

Miss Mary Goodson has accepted a position as stenographer in the office of the E. R. Hart Lumber Company.

Mr. and Mrs. R. L. Hobbs and daughter, Catherine, attended the Fat Stock Show at Fort Worth last week-end.

W. J. Foust of Amarillo, has recently accepted a position with the E. R. Hart Lumber Company.

Mrs. J. M. March and Mrs. R. A. Thompson attended the funeral of Mrs. T. E. Arnold's sister at Abernathy last Thursday.

Mr. and Mrs. Quint Taylor left Thursday for Borger where they will reside.

Mrs. O. N. Jennings of Lazbuddy was a Muleshoe visitor Saturday.

Miss Rebecca Saunders of Clovis visited friends in Muleshoe last week-end.

Mrs. J. M. March and daughter, Doris, and Mrs. J. J. Franks were Clovis visitors Tuesday.

H. C. Henington, who has been suffering from an attack of rheumatism the past few days left Wednesday for Amarillo to receive medical attention.

COL CHARLES LINDBERGH SPENDS NIGHT ON N. M. RANCH

Mrs. Ben Warren of the Cross Roads community is a visitor in Portales today. She reports that late Friday afternoon an airplane alighted near the ranch home and that the party flying the same came to the house and asked Messrs. Warren and Sawyer if he might receive the courtesy of spending the night at the ranch. They immediately recognized him as Lindbergh. He stated that he wished to spend the night on the ranch as he was tired of so much publicity and he wished to spend the night where he could be assured of no disturbance.

Mesdames Warren and Sawyer soon prepared one of those regular ranch suppers consisting of hot biscuits and veal steak which was enjoyed by the Colonel. Mrs. Warren stated that the visit of the Colonel was a most pleasant one and she considers it much honor to be the first citizens of southeastern New Mexico to have the privilege of entertaining the distinguished flyer for the night.—Roosevelt County (N. M.) Herald.

BUFFALO BAND TOUR SET FOR MARCH 24 TO 27

Canyon, March 19.—The Buffalo band, West Texas State Teacher's college organization, under the direction of C. E. Strain, will make its annual spring tour March 24-27.

Towns to be visited will include Tulla, Silverton, Quitaque, Plomont, Whiteflat, Turkey, Paducah, Matador, Floydada, McKinney, Plainview, Olton and Dimmitt.

The band usually numbers about 35, but has been cut to 26 for the long trip. Ten Texas towns are represented in the personnel of the band. Miss Marjorie Walters of Tulla is reader with the organization, and Charles Strain of Canyon and Edgar Pickett of Hereford do solo work.

If "opportunity" knocked less often some of us might catch up with our work.

Nothing is quite so pathetic as an old man trying to make up for the virtues of his youth.

A pretty girl likes to be told she is intelligent and an intelligent girl likes to be told she is pretty.

SCRIBBLE FOR THE JOURNAL

Agricultural Notes

Soy beans are an excellent hay substitute when clover or alfalfa fails. Besides, soy beans are easily grown.

The length of time required for milk to sour is a good measure of the "richness" of the milk, the temperature being constant.

Feed all the roughage, including a juicy feed such as silage or molasses and a legume hay (alfalfa, clover, soy bean, etc.) that the cow will eat.

Newly set trees will be better for a winter mulch of manure or straw. But leave a little space between the mulch and the trunk, or else you burn into the litter and feed on the bark.

Winter born calves given proper care and feed will grow the summer-born calves. But one must remember that calf calves begins before the calf is born, because only cows in good physical condition produce strong, vigorous calves.

With a poor roughage such as timothy or wild hay, feed a Jersey or Shagbush one pound of grain for each two pounds of milk. If you have Alfalfa, Brown Swinger, shortbarn, use pounds of grain for two and one-half to three pounds of milk.

What Well Dressed Men Will Wear

Lady Hubbard says that male clerks in offices should wear costumes of silk, and these styles were shown at a recent silk show held in London. Silk blouses, open at the neck, and silk slacks comprise the costume.

Lazbuddy News Items

The Lazbuddy Parent-Teacher's Association met in a regular meeting last Friday evening with a large attendance. The five committees reported the putting out of one hundred and sixty-six Chinese Elms on the school campus. The school board has fenced the grounds and tree trees will be watered. Rev. Ernest Jennings was introduced by Mrs. Robert Bredson, who made a splendid talk on the word "Put". Prof. Davenport spoke on "Co-operation".

The Missionary Society of the Methodist Church was held at the school building Thursday afternoon with twelve members present. Mrs. Lloyd Jones, wife of our pastor was the devotional leader. Miss Opal Jennings, the president, conducted a short business session. The Society will furnish the bath room and sink for the kitchen in the new seven room parsonage that is being built at YL for the pastor, Rev. Lloyd Jones.

Mrs. Lloyd East and Jennings were elected delegates to the District Conference at Plainview in April.

Prof. Davenport and family were in Muleshoe Saturday.

Mrs. Tobie Wagon was given a surprise shower Tuesday afternoon at the home of her parents, Mr. and Mrs. Fry. Many useful and beautiful gifts were received by the popular bride. The articles were brought into the living room on a decorated express wagon drawn by Mrs. Rudolf Pyritz and Mrs. Carl Merritt who in very appropriate words presented them to Mrs. Wagon who, in her usual sweet way, responded.

ed. Delicious refreshments of cake and jello topped with whipped cream were served to a large number of friends.

Rev. G. I. Brittle of Plainview filled his regular appointment here Sunday. Mrs. Cleo Phillips has returned from a visit to her parents at Dawson N. M.

MAKES ONLY 15 MEN TO SUPPLY NEEDS OF 100 PERSONS IN U. S.

In America 15 workers can produce all the necessities of life for 100 persons, thereby releasing 85 to supply luxuries and articles of commerce, says Dr. C. M. A. Stine of the Dupont Company, Wilmington, Del., one of the speakers at the Mid-West Power Engineering conference held in Chicago.

In China, however, it requires 85 persons to work on the necessities of life for 100 men, thereby releasing only 15 for other work. The reason for this difference between the two countries, in the opinion of Dr. Stine, is that this country has surpassed all nations of the world in the development and utilization of power, while China is still largely dependent on man power alone.

A recent survey of the Department of the Interior showed that approximately 75 percent of the power used to turn the wheels of American industry came from electric generators.

DENTAL NOTICE

Dr. Frost, dentist of Amarillo, will be in Muleshoe one week beginning April 1st, at the Elite Hotel.

CHEVROLET OUTPUT FOR MARCH TO REACH 140,000

The manufacturing facilities of Chevrolet Motor Company, numbering 16 great manufacturing plants in this country, are rapidly approaching the volume of output necessary to meet this year's revised annual quota which calls for the manufacture of 1,350,000 passenger car and truck units.

This was signified last week when W. S. Knudsen, president of the company, announced that March production would reach 140,000 units, an amazing output when it is considered that active production on the new six cylinder cars has been under way less than three months. Although no definite figures were issued it can readily be assumed that April's schedule will call for an even larger production, and that mid-summer will witness a quantity output in all of Chevrolet's assembly plants never before equaled by a manufacturer of six cylinder automobiles.

Mr. Knudsen related that February production amounted to 121,249 units. With only 22 working days in the month, daily production for the period averaged better than 5,500 a day.

These figures lend further emphasis to the astounding achievement of the company last fall in changing over from four to six cylinders with only six weeks interim to effect necessary alterations.

Upon his return to Detroit a few days ago from a six weeks trip which took him across the northern part of the country and into the far West, R. H. Grant, Chevrolet vice president in charge of sales, spoke with marked optimism of the prevalent demand for the new six cylinder cars. Nearly everywhere, he declared, dealers indicated to him that they had found an increased market for the new product. The cars, he said, are being delivered to owners as fast as they can be distributed.

TEXAS A. & M. WINS COLLEGE RIFLE HONORS

College Station, Texas.—With a score of 7,459 out of a possible 8,000 the R. O. T. C. small bore rifle team of the A. & M. College of Texas has been declared the winner of the Eighth Corps Area intercollegiate rifle team championship. It is announced by First Lieutenant Earl McCullough, U. S. A., officer in charge of rifle marksmanship training at the college.

As a result of its record in competition, the A. & M. College rifle team has been designated to represent the Eighth Corps Area in the National small bore gallery competition which will begin March 16 and end April 16 of this year. The latter competition is sponsored by the National Board for the Promotion of Rifle Practice and teams from schools and colleges where R. O. T. C. units are maintained in every corps area in the United States will enter.

FUTURE FARMERS OF TEXAS GRANTED CHARTER BY STATE

College Station, Texas.—The Future Farmers of Texas, an organization of vocational agricultural students of Texas high schools, was recently granted a charter by the Secretary of State, and the organization now has 108 chapters, with a total membership of 2,500. It is announced by Dean C. H. Winkler, one of the incorporators of the organization.

The purpose of the "Future Farmers of Texas," as set forth in their charter, is the promotion and support of education effort directed toward more efficient farming and livestock raising in this state.

The "Future Farmers" movement in Texas was begun at a statewide meeting of teachers of vocational agriculture held here, and the growth and popularity of the organization has been rapid.

The chapters are composed of students of vocational agriculture in high schools throughout the State.

"UNIVERSAL ENGLISH" IS INVENTED AT CAMBRIDGE

London.—An international language of 500 words has been evolved by scientists and scholars of Cambridge University.

English is the basic tongue chosen and it is claimed that people of all nations may pick up the "panoptic English," as the reduced vocabulary is called, within a few weeks or months instead of years.

The entire vocabulary of "panoptic English" can be printed on the back of a single sheet of note paper and seen at a glance, hence its use of verbal vanishes and in their name, "panoptic."

In the new language the majority mental verbs which cover the essential are twelve "operators" or fundamental movements of persons and things. They are: Come, get, give, go, been, let, make, put, take, be, do and have.

If women had any sense there would be no more bachelors.

The best way to find your missing kingdom is to get rich.

The hard thing about making money is to make it first.

Lots of people think the world owes them five or six livings.

Contagious Abortion Is Most Dangerous Disease

Contagious abortion is a germ disease which, if it is not controlled, will go through an entire herd. The germs are usually carried from the fetus, or afterbirth, of a cow that has aborted, to the feed of other cows which in turn get the disease. The best way to control this disease is by cleanliness, isolation and disinfection.

As soon as a cow shows any signs of aborting she should be isolated from the herd and sent separate until all discharges have come away. The stall must be cleaned and disinfected as well as the hind quarters of the cow. The fetus and afterbirth must be burned or buried, the manure from the stall taken directly to a field in which cattle have no access. Care must be taken not to carry the germs of the disease from the stall where an infected cow stands to the feed of other cows. These germs are usually carried on the shoes of the attendant and on forks.

There is no known cure for this disease. All we can do is to control it by not carrying the germs to the feed of other cows.

It is always advisable to employ a competent veterinarian to help control this disease. It will not pay to sell a cow that has aborted, since any new cow coming into the herd will take the disease.

Produce Prices Are Higher

than they have been in years and we always pay top prices. Our place is clean and sanitary and we are equipped to give instant and satisfactory service at all hours. A rest place for ladies—make our place your headquarters when in town. Quick service and a square deal to everyone alike, is our motto.

MULESHOE, TEXAS

A little grit every day is as necessary for us as for hens

EVERY FARMER IS IN BUSINESS FOR HIMSELF

A successful farmer realizes that by producing products for home use first, he is saving money. There is no cash outlay—only a small amount of extra work that can be done at odd moments.

One or more dairy cows, a flock of laying hens, some hogs and a few acres of cultivated land means little extra work, cost practically nothing to keep up and will feed the entire family.

Blackwater Valley State Bank

MULESHOE, TEXAS

"There is No Substitute for Safety."

What's Doing In West Texas

Out of the 70 4-H Club boys around Big Spring, 25 have decided to buy young Jersey calves from 6 to 12 months old, through the cooperation of business men, and have pledged to raise three acres of cotton and two of maize—the cotton to pay off the note on the calf, and the maize to feed the animal.

Five vocational agricultural livestock, dairy and poultry judging teams and pecan budding teams will be sent from Coleman High School to the Agricultural and Mechanical College Short course at College Station in April. The winning dairy judging team will be sent to Memphis, Tenn.

A banquet celebrating the 22nd year of the Alfalfa Growers Association recently held at Rowell, N. M., brought out the fact that 4,802 tons of hay had been handled up to March 1st of the 1928-29 season. The organization is worked on the non-profit basis and handles business amounting to \$1,500,000 annually.

A plan to build a 50x80 basket ball court in addition to a commodious stage for the presentation of various shows in a combination gym and auditorium at Dallam is a plan of the local Lions Club. The Sixth Annual tri-state meet would be one of the first attractions held in the building.

The Manchurian sunflower may form a source of income in the South Plains of the future. One farmer on a Levelland ranch planted 1,000 acres and realized \$2,500 profit an acre on the seed which are used in poultry feed, and as cooking fat in the manufacture of varnishes. From 750 to 1,200 pounds of seed per acre can be grown which sell for \$100 per ton.

The local paper, the chamber of commerce, and the women's clubs are cooperating in an effort to get modern fireproof hotels for Hereford. Contributions are coming in to the committee appointed to get them in an increasing volume.

The winner of the first prize, and a registered heifer calf in the annual fat stock show of the vocational agricultural class of Mesquite went to Howe Mayze, who took them to the Fat Stock Show at Fort Worth. Fourteen other ribbon winning calves were sent to Fort Worth and sold after being distributed.

The farmers short course held in Sweetwater recently was one of the most successful ventures ever sponsored by the board of city development, business men, and a well known implement company. The program was entirely educational, having lectures, music and pictures.

The Brady Chamber of Commerce under the direction of Carl Blais, secretary, is planning for prompt action on an airport. A landscape gardener has been obtained to help in a beautification campaign in the town during the coming year.

The March number, which is an Aviation Special, of West Texas Today, official magazine of the West Texas Chamber of Commerce, will be put in the mails this week. Practically every town of importance is covered in the magazine, and specific information about the progress of aviation in West Texas is given in detail.

The program of work of the Burk Burnett Chamber of Commerce, Rex Smith, secretary, during the year includes purchasing uniforms for the local band, improvements on roads leading into town, repairs on the approach to the free bridge across Red River, cotton premiums, and reduction of county tax rate.

PECANS AND HICKORY NUTS GROWING ON SAME TREE

A press report from Tulsa, Okla., states that both pecans and hickory nuts grow on the same tree in the yard of G. C. Spillers, a Tulsa attorney. Two years ago, the report says, Spillers and A. L. Burrows, a banker of Tulsa, cut the top out of an 18-year-old hickory tree and grafted buds of the pecan shell pecan to the trunk. They took life, fed by the sap from the hickory, and in two years the tree had a new top which bears an abundance of pecans and a few limbs below the budding section continue to bear hickory nuts. It is said that the hickory provides a more sturdy trunk than the pecan, which increases the production of the tree.

GAS AT LITTLEFIELD IN 60 DAYS

That Littlefield will be supplied with natural gas within the next 60 days, is the report current on the streets this week.

Just how definite this information is no one seems to know. However, it is known that a representative of the gas company was in Littlefield a short time ago making preliminary checking reports, and parties traveling to and from Lubbock note numerous signs along the highway which are said to be survey stakes for the proposed gas line—Lamb County leads.

They Have Gone to Seek a "Dream Island"

M. F. Brasley, wealthy paving contractor of Cleveland, Ohio, and his party aboard the famous Arctic ship *Peary*, on which they have sailed from Boston in search of a "dream island" off the western coast of Mexico. Mr. Brasley dreamed of this sunken island and later believed he located it from an airplane. In the photograph he is seen wearing a cape coat.

Men should be made to take vacations—we mean some of them—so they won't get the idea that they're indispensable.

Miss Adele Zercedine, a popular dancer of Vienna, bought an ermine coat for her French poodle at a cost of \$5,000.

MULESHOE, TEXAS

THE NON-PRODUCING HEN IS AN EXPENSIVE FOWL

The old joke about the cackling hen and her owner who demanded, "Oh, hen, is you layin' or layin'?" has lost its humor. It isn't funny, now days, when the flocks do not lay enough to pay for their keep. The hen that eats regularly and lays only occasionally is a constant drag upon the profits of the farmer who is depending upon his poultry flock for a substantial profit.

Figures available from a test made by the University of Illinois indicated that the average profits on 254 flocks averaging 161 hens each was 86 cents per hen, but the average on the best two-thirds of the flocks was \$2.28 per hen. In other words, the "loafers" in the flocks were eating up \$1.42 worth of the profits that the good hens produced.

Presence of hens laying less than 90 eggs a year on farms throughout the country is standing between farmers and a substantial profit from their poultry, according to U. S. Department of Agriculture figures. Need of better stock on the farms of America is paramount, according to investigators, because under present conditions many farmers are conducting their poultry business at a direct loss.

Many a good thing has been pulled off on Friday, the 13th—by fellows who forgot the date.

DISPLAY OF BRICKS MADE 5500 YEARS AGO

Chicago—Bricks taken from the walls of the ancient city of Ux of the Chaldees, made 5500 years ago, showing the finger prints of the makers, were displayed at the American Ceramic Exposition here recently.

In contrast, more than \$250,000 worth of the finest American chinaware, glass, pottery, stoneware, tile, terra cotta, brick and other ceramic ware were shown.

One of the exhibits was a new "mystery material" as yet unnamed, which, it is claimed, is so light and yet so strong that it may be possible to build structures which will tower 125 stories high. It will not break down at a temperature of 3250 degrees and is an excellent insulator against cold and heat.

FEBRUARY INVESTMENTS FOR TEXAS DECREASE, REPORT

Dallas, Texas.—Seasonal decrease in the amount of investments is noted in the compilation of reports of the Texas Life Insurance Companies for February. The total investments for February are considerably smaller than for January.

February investments are almost equally divided between first liens on real estate and policy loans, the former being 51 per cent of the totals. Loans on business property lead the list with loans on dwellings second and loans on farm property third.

FINISHING TOUCHES ARE BEING GIVEN TO DAIRY SHOW BUILDING

Plainview, Texas.—The contractors are putting the finishing touches on the carpenter work on the large building which will house the Texas-Panhandle-Plains Dairy Show at Plainview.

The big building, which is really five buildings joined together, will be absolutely ready in every detail for the show April 2nd when the doors open. Harrison & Smyth, the contractor, started the work on the building about March 1st, and by employing as many as forty-eight carpenters at a time are going to be ready to turn the building over before the time allotted for its construction.

All that remains to be done to it is to stucco the entrances of the building and finish up the plaster work on the commercial exhibit room.

U. S. PRODUCES NEARLY ONE-HALF OF WORLD'S APPLE CROP

Washington, March 21.—Nearly one-half of the world crop of apples is produced in the United States, according to a bulletin on apple production, prices and transportation costs made public today by the Bureau of Railway Economics.

"Apples from the United States," according to the bulletin, "are distributed to all parts of the world, reaching 72 different countries during the year ended June 30, 1933. The United Kingdom was the largest market for fresh and canned apples exported from this country, while Germany was the largest market for dried apples."

"Over 93,000 cars of apples were shipped by rail from the producing areas to markets in this country during this same year. Distribution within the United States was widespread, apples from the Northwest reaching all of the states, while those from the Eastern and Central States reached practically the entire territory east of the Rocky Mountains."

FIVE GOOD COWS ON A FARM

Much has been said and written concerning the advisability of keeping a few good cows on every farm. General statements advising such, of course are more or less effective, but a more definite illustration recently set forth by a country banker, is even more convincing.

He declared that if each farmer in his county had five good cows, and sold the milk or cream which they produced, the cash returns would do these things in a year:

Pay the farm's state and county taxes.

Pay his automobile license and buy two new tires.

Buy a sewing machine and a \$40 suite of furniture for the farm home, and school books for the children.

Clothe a farm family of five persons.

Buy \$50 worth of paint for the farm buildings.

Besides doing all these, the fertilizer produced would increase the soil fertility of the farm, and the farmer would in addition have all his calves for sale or for keeping to augment his herd.

In most communities any farmer who has a good reputation for honesty and industry can borrow the money, if necessary, with which to buy his five cows, because bankers are generally glad to encourage the introduction of more dairy cows to their territory.—Italy News-Herald.

TEMPORARY SHEEP PASTURE

A system of temporary pastures for sheep is advantageous in more ways than one. More sheep can be raised per acre on temporary pastures than on permanent ones with the same soils. Danger of infection from stomach worms and other internal parasites is lessened considerably if the sheep are pastured on annual crops. Temporary pastures furnish plenty of succulent green feed, which is necessary for a good milk flow during lactation periods. In winter and early spring, when where it can be successfully grown is the best pasture, and oats and field peas drilled together make excellent forage. A rather fertile land crop is the most economical crop for this purpose. Where the soil is thin, soy beans are very good and can be grazed from July until the first frost. Alfalfa or sweet clover is very satisfactory in some sections, if the sheep are pastured carefully to avoid bloat.

ENOUGH

The editor at the party gate,
His face looked worn and old,
He meekly asked the man of fate
For admission to the fold.

"What have you done," asked Peter,
"To seek admission here?"
"Oh, I used to run a country newspaper
On earth for many a year."

The gate swung sharply open,
And Peter touched the bell;
"Come in, my lad, and take your harp,
You've had enough of hell!"

—Exchange.

TO PRINT POSTAGE STAMPS BY STATES

Washington, D. C.—Postmaster General New has announced the government has decided to print the name of each state in which stamps are sold on all stamps ranging in denomination from one to five cents, in an effort to cope with postoffice thieves.

The purpose of this plan, the department said, is to render more difficult the sale of stolen stamps and facilitate tracing of confiscated stamps from one state to another.

PENNY WISE

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising is practicing false economy; his losses in sales far exceed the pennies saved.

The money spent for plate glass windows is not looked on as best; nor is the money spent on better interior lighting.

Anything that increases favor, that adds to sales, that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising is the plate glass window the merchant can send into every home. Advertising sells more goods to more people than shop windows do.

A Word to The Public—

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary is it not your impulse to respond to his friendly overtures?

A Quarter Million

NEW SIX CYLINDER CHEVROLETS on the road since JAN. 1st

To satisfy the overwhelming public demand for the new Chevrolet Six, the Chevrolet Motor Company has accomplished one of the most remarkable industrial achievements of all time. In less than three months after the first Chevrolet Six was delivered to the public, the Chevrolet factories are producing 6,000 cars a day. As a result, more than a quarter-million new Chevrolet Sixes have been delivered to date—and this tremendous popularity is increasing every day! If you have not yet seen and driven this remarkable car—come in for a demonstration!

New economy for 35c a quart

Mobiloil dealers now offer you an improved Mobiloil, made especially for new economy under today's high-speed driving conditions

Today's driving conditions demand still better lubricating oils, superior to anything produced before. The New Gargoyle Mobiloil meets this need.

Any Mobiloil dealer can supply you with the new economy Mobiloil at 35c a quart. Your saving in oil and gasoline consumption alone will more than make up for the extra 5c a quart.

MAKE THIS TEST

Drive to the nearest Mobiloil dealer... have him drain all the old oil from your crankcase and... fill it up with the correct grade of the New Mobiloil. You know from experience how your engine ran the last time fresh oil was put in the crankcase... Now—notice the difference!

Look for these results--

- Increased Oil Mileage: Often 100 extra miles per quart from the New Mobiloil.
- Increased Gasoline Mileage: Many tests show gasoline consumption reduced as much as 16%.
- Faster Pick-Up—More Power: Quicker get-away, more "pep" on the road, less labor on the hills.
- Smoother Operation: A quieter motor, a velvety smoothness of acceleration, less vibration when speeding.

35c a quart

The dealer who sells a quart of the New Mobiloil for less than the (except Mobiloil) the standard oil for Model T cars, at this is not making his fair reasonable profit.

VACUUM OIL COMPANY
Specialists in the manufacture of high-grade lubricating oils for all types of machinery.

BOUTONNIERE AND COSTUME FLOWER BEAUTIFY SPRING STYLE PICTURE

A very flowing picture fashion picture for spring. Flowers will be worn liberally from morning until midnight. On pajama ensembles in the early hours, again on the daytime tailleur will be boutonnières, to be followed by afternoon and evening frocks gaily decked with flowers. Leading Paris modistes have also launched the flower-trimmed hat.

Important flower colors are lilac, lemon, burnt orange, chrysanthemum and other soft greens, the helges and tans. White is in favor, while such combinations as black and white, two shades of gray, shaded neutrals and new blues are also registered in the flower style program. In the boutonniere and tailleur flowers the tendency to combine two and three colors is very marked.

Bouquets of natural spring posies in mixed garden hues are a spring tendency in flower fashions for the season. The young woman wearing the embroidered hat in the picture matches the gay colors in her ensemble, with a bouquet of garden flowers arranged in the graceful trailing effect which is now so popular. With her new straw bonnet another dress of silk print, the huge bouquet of violets as shown on

the center figure below adds yet another touch of spring.

For evening wear there are large trailers composed of pasties in chrysanthemum and mauve, pale blue and rose. There are also delicate trailing clusters of posied morning glories. There are gardenias and orchids in white and tangerine and palest mauve. The positioning of flowers at the back marks an innovation for the evening course. The skirt to the left shows how charmingly the idea may be carried out.

Among the new creations are roses and violets of striped lace in delicate pastel shades. These boutonnières developed in clear bright yellows, greens, reds and blues are favored for spring.

Sports flowers sound a unique note. Among these are very modern roses of striped silk combined in plain design in various colorings. Especially delightful for light-colored summer dresses are candy-striped canoes in heavy, white ribbed silk, with alternate leaves striped in clear green, then (set) or plain, then orange for red.

Sunlight Not So Vital for Cows

Rays Have Remarkably Beneficial Effect on Chicks, Pigs and Goats.

With the development of knowledge that light plays an important part in the retention of minerals fed to animals, the question naturally arose: "Does exposure of dairy cows to summer sunshine enable them to obtain and utilize from the pasture grasses sufficient lime to keep them on a positive lime basis?"

Effects of the Sun. To answer this very practical query Messrs. Hart and Steenbeck carried on careful experiments in June when the protective properties of the sun are at a peak, using cows giving 45 to 60 pounds of milk daily. The cows were fed a grain mixture, silage, and 40 pounds daily of freshly cut green grass. This approximates what would be given cows of this character on better dairy farms. The results indicated that this ration was insufficient to keep the cows on a positive lime basis. In fact, there was only a slightly improved situation as concerns lime assimilation when these cows were placed in direct sunlight for six hours daily as compared to standing in a darkened barn. Apparently, then, the rays of the sun have a remarkably beneficial effect on little chicks, pigs and goats, but with dairy cows no such positive benefits can be observed.

Cows Again Studied. When these same cows were again studied in September, after their milk production had dropped to 25 or 30 pounds of milk daily, lime balance was maintained, even though the sunlight at this season was less potent. It seems apparent from these results that the feeding of extra lime to high producing dairy cows, while on summer pasture, is a very desirable procedure. It may very well be true that the commonly noted falling off in milk production in midsummer, on the part of heavy milking dairy animals, may be due to a depletion of their lime reserves, just as much as to the more commonly attributed causes such as heat and flies.

It has been concluded that light plays no role in the utilization of lime by cows. Possibly this also explains why young calves grow better when kept in a barn, rather than out of doors, as contrasted to young chicks, little pigs and other young animals which seem to demand sunlight as an essential for normal growth.—Wisconsin Agricultural Experiment Station.

DENTAL NOTICE

Dr. Frost, dentist of Aracillo, will be in Muleshoe one week beginning April 1st, at late Elite Hotel.

NOTICE

THE STATE OF TEXAS, TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY, GREETING:

You are hereby commanded to summon Malcolm Richard Madera by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County; if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Bailey County, to be held at the Court House thereof, in Muleshoe, on the first Monday in May, A. D. 1929, the same being the 6th day of May, A. D. 1929, then and there to answer a petition filed in said Court on the 4th day of March, A. D. 1929, in a suit numbered on the docket of said Court No. 48, wherein Thelma Madera is Plaintiff, and Malcolm Richard Madera is Defendant, and a brief statement of plaintiff's cause of action, being as follows:

Plaintiff abandoned Defendant on December 14th, 1926, leaving her in destitute circumstances and in a delicate condition, that since said date defendant has not contributed any money or thing of value to plaintiff's support; that at the time defendant abandoned plaintiff she was in a delicate condition and that defendant did not provide a place of shelter, medical care or attention all of which plaintiff was badly in need of; the conduct of defendant was of such nature as to render their living together wholly unsupportable.

WHEREFORE plaintiff prays the Court that defendant be cited to appear and answer this petition and that upon final hearing hereof, she have judgment and dissolving the bonds of matrimony.

Herein Fall Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, on this the 4th day of March, A. D. 1929.

J. L. ALSUP, Clerk, District Court, Bailey County, Texas. By Lola Lipscomb, Deputy.

ARE YOU DISCOURAGED?

When Abraham Lincoln was a young man he ran for the Legislature in Illinois, and was badly swamped.

He next entered business, failed, and spent seventeen years of his life paying up the debt of his worthless partner.

He was in love with a beautiful young woman to whom he became engaged—then she died.

Later he married a woman who was a constant burden to him.

Entering politics again, he ran for Congress and was badly defeated. He then tried to get an appointment to the U. S. Land Office, but failed.

He became a candidate for the U. S. Senate and was badly defeated.

In 1856 he became a candidate for the Vice Presidency and was again defeated. In 1858 he was defeated by Douglas. One failure after another—bad failures—great setbacks. In the face of all this he eventually became one of the country's greatest men, if not the greatest.

When you think of a series of setbacks like this, doesn't it make you feel small as to being discouraged because you are having a hard time in life?—Exchange.

CARD OF THANKS

We wish to thank our friends for their kindness and sympathy in the loss of our dear husband and father. Words can not express how much we appreciate the beautiful floral offerings.

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, MARCH 22ND, 1923.

NUMBER 6.

INTERSCHOLASTIC MEET DRAWS LARGE CROWDS; A PRONOUNCED SUCCESS

The Interscholastic League Meet, which was held here last Friday and Saturday was attended by large crowds from over the county and was declared to be one of the most successful meets in the history of the schools.

There were so many entries in the track and field events that it was impossible to complete the program. These events will be played off next Saturday. The events will start at 2 o'clock in the afternoon. The numbers to be decided are: Junior boys' high jump, senior boys' mile relay, pole vault, and boys' doubles in tennis.

YL and Muleshoe held the highest scores in the all round championship, and it is understood that some revision of points are to be made Saturday. As the score stood last week YL held a lead of 12 points over Muleshoe. The scoring made by each school in the literary events is as follows:

YL 127 1/2; Muleshoe, 69 1/2; Fairview, 47; West Camp, 45; Bula, 18.

Athletic events held to date give the schools the following ratings:

Muleshoe, 121; YL, 78 1/2; Bula, 45; Fairview, 29; West Camp, 21.

This rating will be changed some when the events are played off next Saturday.

Sub-junior spelling is the only sub-junior event that counts points toward championship. Junior girls' playground ball is the only event for junior girls' track and field events that count toward championship grading.

MOVES HERE FROM PAMPA

Mr. H. E. Lindsey has recently moved here with his family from Pampa to make his future home. Mr. Lindsey lived here some three or four years ago and stated that the Muleshoe territory looks better to him than any place on the Plains.

COUNTY SCHOOL TRUSTEE ELECTION TO BE HELD ON FIRST SATURDAY IN APRIL

An election will be held Saturday, April 6th, for County school trustees. Progress is the only school north of the sand having a vote in this election. On the south, the school districts voting are Circle Back, Watson, Stegall, Gaddy, Goodland and Wilson. Trustees are to be elected this year from Precincts 1, 4 and the county trustee at large.

The following is the ruling of the Attorney General as to the election of county trustees:

The Attorney General's Department holds that only the qualified voters residing in common school districts may vote in the election of county trustees. In the case of a precinct that does not have within its territory a common school district, it will be necessary for the remaining members of the board to appoint a member for each precinct. County trustees may be residents of independent school districts.

Mr. Oscar Davis, a pioneer resident of Scurry county, has been visiting his old friend, W. C. Gordon, in Muleshoe this week. Mr. Davis has lived in Scurry county thirty-one years. He has been investigating conditions here and is very favorably impressed with this section of the country.

Mrs. Arthur Haley and children, of the VVN Ranch was a Muleshoe visitor Saturday.

GIANTS' NEW COACH

Ray Schaff, veteran catcher, who is coach for the New York Giants, who are now covering at their Texas training camp.

PRODUCE COMPANY WANTS PACKING SHEDS ERECTED IN MULESHOE

Mr. M. H. Deal, of Portales, N. M., representing Newton & Wallace, produce buyers, was in Muleshoe Monday and Tuesday in the interest of the company.

Mr. Deal stated that the company wished to place a packing shed here for tomatoes and other vegetables, provided the acreage was sufficient to justify it. He also stated that his company paid cash at the packing shed for all produce and was ready to cooperate with the farmers in marketing truck of all kinds. About two hundred acres in tomatoes in this territory is asked, Mr. Deal said. He stated that Portales farmers had realized very good profits from this source the past season but that the acreage was small which caused a great deal of inconvenience in loading cars. However, this year will see about 800 acres planted to tomatoes in the Portales country. The company recommends and has for sale a special variety of tomato for shipping purposes, which is planted in this country about the first to 15th of May. This will bring them on the market in the fall, when prices are the highest.

"A large area of the territory north of Muleshoe is ideal for tomatoes," Mr. Deal said, "and with the abundant water supply here, the yield should be heavy." Mr. Deal visited quite a number of farmers north of Muleshoe last Monday and it is understood that they are favorably impressed with the proposition which he offered.

YL News Items

YL was very much encouraged over the outcome of the track meet Friday and Saturday. The school won the all round championship cup.

The Parent-Teacher's meeting will be held here next Friday night, March 22, at eight o'clock.

Aubrey Trawek and Dale Buhman were absent from school Monday.

Oleta Wittering won the essay entitled, "The First Salute to the Stars and Stripes," sponsored by the Blackwater Valley State Bank.

Mrs. E. H. Buhman and children returned in the J. J. Head home Sunday.

The "Civil Government Club" met Monday, March 18, and elected new officers. Those elected were as follows:

President, Lucy Robison; Vice-Pres., Melvin Lowery; Sec.-Treas., Melvin Priboth; Reporter, Melvina Boles; Program Committee, Edwin Buhman, Theron Kimbrough and Albert Trawek.

Mr. and Mrs. J. B. Shofner, John H. Shofner, Norene and Orvil Shofner of Loveland, were visiting in the home of H. M. Shofner and family Sunday and Monday.

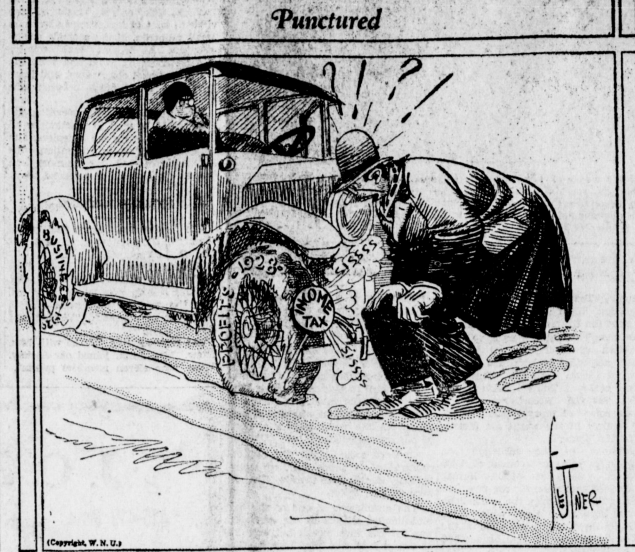

Mr. M. L. Evans and daughters, Frances and Elaine, returned Wednesday from East Texas.

BUILDING FOR LOCAL UNDERTAKING PARLORS UNDER CONSTRUCTION

Construction started Monday on the building for the undertaking parlors, which will be opened by Mr. C. V. Steed of Clovis as soon as the building is completed. It is to be a Spanish model structure of white oriental stucco, with the awnings. A living apartment will be included in the construction and the equipment will consist of all modern undertaking supplies. Ambulance service will be maintained and altogether it is to be a first class undertaking establishment. We welcome the new enterprise to Muleshoe.

Jimmie Cox and Buford Butt, left the first of the week on an "exploration trip" through the west. They expect to visit Arizona, California and other sections on the west coast.

E. R. Cole and Dale Cox of Newkirk, Oklahoma, are here this week making improvements on their farms which are a part of the Warren land.

Lazbuddy Study Club

The members of the Lazbuddy Study Club enjoyed one of the most pleasant meetings of the season at the home of Mrs. Cleo Phillips last Thursday afternoon. Fried blossoming plants and ferns added to the attractiveness of the home. Mrs. A. R. Haber, the president, presided over the business session after which the following program was given: Subject—"Child Rearing." Roll Call response—Bright Savings of Children.

"How to Teach Politeness, Courtesy, and Reverence"—Mrs. Ollie Friedler.

"How to Teach Patriotism and Religion"—Mrs. W. S. Menefee.

"Bobbie"—Resolved that "Heretofore has the Most Influence in a Child's Life"—Mrs. Lord Lunt, Mrs. Whit.

A two-course luncheon was served to those present. The next meeting will be with Mr. Loyd Lunt.

C. P. McCollough, who has been connected with the E. R. Hart Lumber Company as credit man, went to Houston last week where he will establish an abstract office.

Mrs. R. Prytz of Lazbuddy was in the city Monday.

ENTRIES ARE BEING RECEIVED IN SECOND ANNUAL DAIRY SHOW

Plainview, Texas.—Entries in the second annual Texas-Panhandle Plains Dairy Show at Plainview, April 2-5, are beginning to be received by Manager Maury Hopkins.

E. W. Hester of O'Donnell, prominent Dawson County Jersey breeder, was among the first to send in his entries. Hester is director of the Texas-Panhandle-Plains Dairy Show Association. He will have five head of stock, but he says they will be hard stuff to beat.

W. W. Evans, Dawson County agent, writes in that his county will have twenty-five head of registered Jersey cattle, the pick of three hundred and twenty animals of that breed in his county. In addition to the animals he will have a stock-judging team made up from the County 4-H Agricultural Club boys. His breeders who will have entries include, besides Hester, mentioned above, J. M. Patterson, Ed Price, J. W. Braswell, Fred Hughes, J. B. Burnett, R. E. White, and J. E. Dobson of Lamona. He estimates that a large crowd of dairy enthusiasts from that county will be in attendance at the show, and the local interest is running high.

Mrs. Sam Scalling of Hale Center and her neighbor, Mr. M. P. Routzahn, were the first to send in their entries from Hale County. R. M. Millhollin, county agent of Hale County, will have over seventy-five head of cattle in the show.

Rob Anglin, secretary of the Tulsa Chamber of Commerce, says that Swisher County will have seventy-five head of pure bred Jerseys in the show, and that a big delegation headed by their band will make a day of it in Plainview during the show. R. C. Nichol, S. J. Payne, Joe Vaughan and other pioneer breeders of Swisher County will all have entries among others.

Amarillo will have a big delegation at the show. The Manufacturers and Jobbers Association indicated several months ago their intention of running a special train.

A vocational agricultural judging team is promised from Seminole under the leadership of R. F. McFarridge, Gaines County agent.

Marshal Foch is Called by Death

Press reports announced the death of Marshal Ferdinand Foch, yesterday. Marshal Foch was the Generalissimo who led the Allied Armies to victory in the World War. He died at his home in Paris, France, Wednesday, March 20th, after a prolonged illness. He was 77 years old. His death occurred at 12:50 p. m., Eastern Standard Time.

Notwithstanding the fact that it had been long apparent that the great General was fighting his "last campaign," his warrior heart would not resign, and for many days he fought off the inevitable end with grim courage. But at his age it was impossible for his strength to longer combat the physical disorders which finally brought his long and active career to an end. A coalition of heart trouble, kidney disease and lung infection were the cause of his death.

General Foch's death marks the passing of one of the greatest warriors of modern times. The same grit that the "foremost fighter" of the World War displayed as commander-in-chief of the allied forces was maintained throughout his illness.

The Marshal was not permitted to see visitors during his illness, although he had many days when it seemed that he would recover. General John J. Pershing, commander of the A. E. F. was one of those who had called to pay his respects to his former commander in arms, but the strict rule of the doctors would not permit him to see the Marshal.

MARRIED AT LUBBOCK

Miss Zola Head of Muleshoe was married to Mr. Bernice Hobbs of Wilson last Wednesday evening, the ceremony taking place at Lubbock. The bride is the daughter of Mr. and Mrs. Elmo Head of this place and the groom is a prominent young farmer of Wilson. The Journal joins with their many friends in extending congratulations and best wishes.

STATE SCHOOL INSPECTOR IS HIGHLY PLEASED WITH BAILEY COUNTY SCHOOLS

Mr. J. C. Griffin of Austin, Texas, was here last week visiting the schools of Bailey county. Mr. Griffin was inspecting the schools over this section and expressed himself as being highly pleased with the institutions in this county and their management. He recommended a total of \$23,920.00 State aid for ten of the schools, these being the only ones asking for financial assistance.

Mr. Griffin spoke to the teachers and trustees of each school on the subject of furnishings and their use. These talks were appreciated very much by both the teachers and trustees. Mr. Griffin requested additional equipment in almost every school in the county. The aid is being held up by the inspector until this equipment is purchased and notice is given the County Superintendent.

Of the fourteen schools in Bailey county, ten are modern brick structures with the latest equipment. Several of them being practically new.

Messrs. I. K. Whipple, Roy Swooce, and E. R. Rosberg of Iowa, accompanied by R. L. Brown, were here last week prospecting. They were favorably impressed with this country and are planning to return within a few days with their wives.

EDUCATION CHIEF

New portrait of Mr. William J. Cooper was recently taken at the state office as United States commissioner of education to succeed John J. Tipton, resigned.

Relic of Eighteenth Century in Form of Old Newspaper Contains Variety of Interesting and Amusing Features

An interesting "relic" in the way of an ancient newspaper has been left at the Journal office for our inspection. It is a copy of the Ulster County Gazette, published at Kingston, N. Y., by Samuel Freer & Son, and dated January 4, 1800. It is a re-print copy, but is a duplicate of the original in the matter of style and typography. It is a four column, four page paper, the columns being of standard width and measuring 18 inches in length. The copy is of a mourning edition, the inside pages being bordered in black and otherwise carrying out the mourning design. This is due to the death of General George Washington, an account of which appears in the paper. There is much news of Congress and the Senate in the edition, besides news items of a general nature including a number of reports taken from a London paper of a war that was in progress in Europe at that time.

The entire back page and a part of the third page are devoted to advertising. The advertisements are all in the form of reading notices. A number of "Sheriff's Sale Notices" are grouped under one head. Some very amusing notices appear among the advertisements. For instance:

NEGRO WENCH

Any person inclined to purchase may know the particulars by applying to JOHN SCHOONMAKER, jun., at Rochester, N. Y.

No. 2 Turkeys 18c

And this one from a husband whose wife was probably a flapper.

SECOND NOTICE

OF my wife Hannah is hereby given forbidding all persons whatever, from trespassing or keeping her, and from harboring her on my account, as I am determined to pay no debts of her contracting.

MATV'S VAN STEENBERGH
Saugerties (Kingston) Nov. 18, 1799.

SAMUEL FREER
HAS just received an assortment of GOODS, adapted to the Season which he will dispose of for Cash or Country Produce only, upon moderate terms.

ASHES Taken in said store.
December 21, 1799.

LOST

A WATCH, on Wednesday last. The person who has found or may find it will meet with a suitable reward by handing it to the Printers' November 16, 1799.

SHERIFF'S SALE

By virtue of an Execution directed and delivered to me, I have levied and taken the goods and chattels, lands and tenements of Lewis Gatherie, which I shall expose to sale as the law directs, on Monday, the 10th day of January next, at the dwelling house of said Gatherie, in the town of Shawangunk, at 11 o'clock in the forenoon—dated December 7, 1799.

PETER TEN BROECK, Sheriff.

A news item on the front page dated from London reads in part:

WE learn from private letters, that the accounts brought by the Inspector, sloop of war, and which we stated some days ago were so far founded that a partial engagement had taken place. Gen. Daendels, on the 10th, attacked in person the right wing of the British forces under an advanced post near Wink, under the command of Prince William of Gloucester, with at least 8000 men and 6 pieces of cannon and endeavored with every exertion to force his post.

ANOTHER TUNNEL IS FOUND IN CAVERN

Carlsbad, N. M.—Another tunnel in Carlsbad Cavern was discovered and explored when Thos. Boles, superintendent, and Jim White, veteran guide, and a small party of Carlsbadites, who have visited the cave on many occasions, entered what has been called "Left Hand Tunnel" for a distance of nearly two miles.

Narrow boards used for bridges, and a coil of heavy rope were several times brought into play to negotiate the chasms and descend from one elevation to another. In this new tunnel, as in all other recently discovered new rooms, the formation seems more intricate and more beautiful. If possible, than in the other rooms first discovered. Considerable trail building will be required before the public can be admitted to this newest of the uncharted passageways of the great cave.

Race From Arctic Snows to Tropic Waters

Starting on toboggans from the mountain slopes of Los Angeles County park and terminating with a dip into the semitropic pool at Arrowhead Hot Springs, youthful Los Angeles couples have staged a unique race. An hour and ten minutes after they had left the snowy mountains, the winners were stopping off furry garments underneath which they were wearing suits, and were plunging into the warm pool in the valley below. The photograph shows some of the starters, and Miss Jozelle Joyner of the winning team in the pool.

LAW LIBRARY AT TEXAS U MOST COMPLETE IN SOUTH
Austin, Texas.—Numbering between 36,000 and 37,000 volumes, the law library at the University of Texas is the most complete and the most valuable collection of legal material in the South, according to Prof. Ira P. Hilдебранд, dean of the University School of Law. The collection is valued at \$175,000. Records and reports of the courts of every English speaking country in the world are included in the library.

Additions to the collection are made each year, an average of 1,000 volumes, valued at \$4,500, having been added each year for the past five years. Chief among the collections in the library are those which were made by three former members of the University law faculty and bequeathed to the library at their death. These belonged to Judges John C. Townes, Robert Gould and W. S. Simpkins.

BRITISH DRIVER SETS NEW SPEED RECORD OF 231 MILES
Daytona Beach, Fla.—Major H. O. D. Seagrave, famous British race trainer driver, last week set a new world's speed record for automobiles by sending his powerful Golden Arrow machine roaring over the hard wave-lapped ocean's speedway. In a tremendous speed of 231 miles per hour.

SCHOOL CHILDREN WHO HAVE TO PICK COTTON
"What has it cost the state of Oklahoma this year to have thousands of boys and girls missing from school to pick cotton, not weeks but months?" asks a writer in the March 1 Oklahoma Farmer-Stockman.

"This year there have been children out of school to pick cotton from September until the middle of January. Here are some actual examples of conditions in the rural schools of some of our cotton counties.

"One one-room school had an enrollment of 45 pupils the first month but only 22 the third month. The rest were picking cotton.

"The enrollment of one of the best consolidated schools in the southwest was 347 the first month but only 240 at the end of the third month. The primary room had 31 beginners out of school to pick cotton! Think of it, 6-year old babies kept out of school to pick cotton!

"Isolated examples, you say? No, they are tragically typical examples of rural school conditions in every county where cotton is king.

"Can we wonder that both pupils and teachers lose interest when over half the members of the class drop out for three months in the fall and are hopelessly behind the rest of the school year?"

IMPORTANCE OF LACE IS STRESSED IN EVERY PHASE OF THE MODE

One cannot be a true follower of fashion and leave lace out of the spring and summer picture. The importance of lace cannot be overdrawn. Lace of every color and description has invigorated itself into every phase of the mode.

For tea, bridge and dinner, lace frocks in vivid colorings are fashion's favorite theme. Most of them are styled with little jackets or caplets and in some instances lace wraps stress the ensemble idea.

We are wont to think of the "cocktail" jacket as strictly formal, but the illustration suggests its adaptability, when made of all-over lace, to afternoon wear. Most too cunning for words is this jacket topped with a lace-covered felt hat, the entire carried out on the very popular suburban coloring. Winsl Mary Triffin, one of movieland's most winsome stars, donned this lace "set," she started a vogue which is sure to capture the fancy of every woman who loves beautiful clothes.

The hat in this outfit is an outlier, and as beguiling as the lace jacket. It

is a suburban colored felt, covered with lace which is stretched that smoothly this effect is almost like an embossed pattern. Miss Triffin wears this jacket and hat with a simple black satin frock. A very good idea this! It is a suggestion worth keeping in mind, for even the most unpretentious frock becomes distinctive in company with such an enchanting lace ensemble as this.

A lace dress of many parts is another worthwhile suggestion which fashion offers this season. This includes a frock with detachable long sleeves with either a matching jacket or three-quarter-length wrap. The wearableness of such a frock is at once recognized, as it can be timed to both evening and afternoon occasions.

Color gives to the lace frock an emphasized interest. A gown of bright red lace, or in the so-popular character green or in bright independence blue is indeed good to look upon, and the modern lace frock is in fact such an exciting color.

WANTS SINGLE CLOCK TO TICK FOR WORLD

A fifth of a second is of no vast importance to the average citizen, or even to a commuter, but to astronomers and other scientists it may make a big difference. To overcome this difficulty, according to reports from Germany, a noted inventor has developed a plan whereby one clock will beat time for the entire earth. It is proposed that from a central observatory the ticks of this master electric clock be sent instantaneously by radio to all countries, giving a single accurate time. At present each country sets its clocks by radio and telegraph from a national observatory, and there is often a discrepancy between the different countries.

In the plan proposed, television devices would be used to synchronize all clocks with the master timepiece, and with this system in operation, the world's clocks need never be more than one one-thousandth of a second apart.

W. M. S MEETING

The Ladies' Missionary Society of the M. E. Church met at the home of Mrs. R. L. Paulinger.

The meeting opened by the reading of the One Hundred Psalm. A short business session was taken care of, then the meeting was turned over to the study of our book, "Women and the Kingdom."

The next meeting will be with Mrs. Stone. Mrs. Joslin joined our Society. There were eleven members present.

STATED MEETING of Muleshoe Masonic Lodge, 2nd Tuesday night in each month.

DOCTORS FOR HUSBANDS ARE PREFERRED BY COLLEGE GIRLS

Macon, Ga.—Every member of the senior class of Westyan college expects to have a husband some day, and most of them expect to have doctors for husbands.

A questionnaire sent members of the class of the girls' high school here revealed no preference for the man without a sense of humor. The seniors preferred men with a college education but did not demand such training, although such husbands must be capable, thoughtful and not wall flowers. Most of the girls expect to go somewhere every night, four or five nights a week, when they are married.

One girl banned golf playing, and another put up a barrier against traveling salesmen. Not one of the girls said she had rather have a career than a husband. Business men ranked next to doctors in the girls' choice, several wanted civil engineers, some architects, one an ambassador, one a politician and one said:

"It matters not, so long as he loves me."

ANTIQUATED GARAGE DOORS

The garage door of the future will be opened by the honk of the horn of the owner of the car and garage, superseding the present antiquated and troublesome door that you might and open by heaving and tugging at the door handle. The driver, completing his day's journey, or his trip to the mail box or drug store, will simply sound his horn as he turns on the driveway. By the time he gets to the door it will have opened itself.

Thus do the abstractations and experiments of the scientists effect our daily life and routine. The use of sound in eliminating space, distance and time has only begun to be applied. Some of these days the housewife will whistle or speak to the automatic churn when she is ready for the churning to be done, or having put on a roast before she left for the club meeting, telephone the stove to begin cooking.

Switches at powerful electric plants, irrigation flood gates and similar things are already being operated by means of the sound wave. The garage door, the churn or the cook stove are simply suggestions for your imagination to start to work. Imagine as hard as you can and you will not have arrived at the wonders that will be common place within another two

No woman minds having her soup criticized, but she won't stand for any remarks about her salads.

CATTLE BRING HIGH PRICE - AT FORT WORTH SHOW

Fort Worth—Eighty-four head of blooded Hereford cattle brought \$37,750 at the annual auction sale of the Texas Hereford Association held recently at the Southwestern Exposition and Fat Stock Show.

Fifty selected head of bulls and females brought an average price of \$500 a head in the "blue ribbon" sale. In addition a carload of bulls went to one buyer at a price of \$200 a head. As usual, practically all of the Herefords will remain in this State, for 72 of the 84 head went to Texas buyers.

The highest price at this sale was \$1,700 and last year, \$2,000.

KNOW TEXAS

The total population on tenant farms in Texas is about 1,250,000. On owned farms it is 862,000.

About 1,000,000 persons residing in Texas were born in other states, Tennessee leading with 115,851 and Alabama next with 103,244.

The number of families in Texas has increased from 575,734 in 1900 to well over a million at present.

The present negro population of Texas is estimated at 779,000.

The center of population of Texas is about 13 miles southwest of Waco

ILLITERACY IS BLAMED FOR MEXICO REVOLUT

"I have no idea. No one can tell." That, in a nut shell, represents the opinion of Dr. Paul W. Horn, Tech College president, concerning the outcome of the present revolution in Mexico.

Dr. Horn, who spent the school year of 1921-22 in Mexico City at the head of an English speaking school, regards revolutions in Mexico as natural, due to the percentage of illiteracy in the country.

"Whenever a country has an illiteracy percentage of 50 per cent you are likely to see frequent revolutions," he said.—South Plains Farmer.

CLEAN UP!

There is no "sure sign" of spring, but spring should be a "sure sign" of the arrival of that time for the community to clean up. There is no superstition or prophesying about this clean up sign.

When warm weather has come to stay (until cold weather returns in the autumn) every owner of property and tenant should instinctively feel it his duty to remove the evidences of winter's ravages and to aid and augment nature in her work of rehabilitation.

Every spring clean up program should include disposal of winter's accumulation of litter, and decayed vegetation, repairing and repainting of buildings, and landscape gardening. Landscape gardening is no longer associated with large estates alone.

A clean town is a better place in which to live than one that is unsanitary and unsightly. And the best community advertising is the appearance of being "cleaned-up, painted-up and planted-up."

SEND IN YOUR NEWS

If you have had a visitor over the week-end, have made a trip, given a party or know of new settlers in the community, please send in the news to the Journal. It is impossible to get all the local news without the cooperation of the citizens and this courtesy will be appreciated. Just call 54, or mail in any news items of interest in your community.

We have received news from several of the rural communities in this vicinity recently. We appreciate this and hope that the reporters in these communities will keep up the good work. We will ask that those writing news for the paper be as careful in the spelling of names, writing plainly, etc., as possible, as we desire to publish all items that are sent in and do not want to misconstrue any of the names or phrases that appear in the items reported. We prefer not to receive carbon copies of communications, as it is very difficult in some cases to read such copy, and we have been

Kilauea Is in Action Again

The Holanannu pit on the Kilauea volcano in Hawaii is belching fire and lava again. The first manifestation of the disturbance was a burst of black smoke followed by fire and loud roaring. This picture was taken during a previous outburst of the volcano.

forced to omit some items that were not decipherable in such cases. Let us hear from your community, whether you have been represented in our columns heretofore or not.

A. & M. COLLEGE WINS CHAMPIONSHIP PRIZES ON LIVESTOCK EXHIBITS
College Station, Texas.—Winning by livestock exhibited by the A. & M. College of Texas at the Southwestern Exposition and Fat Stock Show at Fort Worth included championships in each of the four divisions in which the college was represented—cattle, hogs, sheep and horses—as well as a large number of first, second and other place ribbons, reports on the records of the college entries, as cited by D. W. Williams, head of the animal husbandry department, show. Altogether, the college exhibited five carloads of stuff at the exposition.

SOUTH PLAINS ADVERTISING CAMPAIGN DRAWS INQUIRIES

Up to a recent date, 2,732 inquiries had been received at the office of the South Plains advertising organization in Lubbock, coming from every state in the Union. These inquiries are all promptly answered with general and definite information, according to the expressed desire.

Several new visitors have already come to this section of the State as a result of the advertising campaign put on by the organization, some of them making purchases.

A soft answer doesn't turn away as much wrath as a hard look.

When picking your friends be careful not to pick them too much.

Most of the work is done by people who are too nervous to loaf.

Town Talk

Mrs. Mary Goodson has accepted a position as stenographer in the office of the E. R. Hart Lumber Company.

Mr. and Mrs. R. L. Hobbs and daughter, Catherine, attended the Fat Stock Show at Fort Worth last weekend.

W. J. Foust of Amarillo, has recently accepted a position with the E. R. Hart Lumber Company.

Mrs. J. M. March and Mrs. R. A. Thompson attended the funeral of Mrs. T. E. Arnold's sister at Abernathy last Thursday.

Mr. and Mrs. Quint Taylor left Thursday for Borner where they will reside.

Mrs. O. N. Jennings of Lubbock was a Muleshoe visitor Saturday.

Mrs. Rebecca Saunders of Clovis visited friends in Muleshoe last weekend.

Mrs. J. M. March and daughter, Doris, and Mrs. J. J. Franks were Clovis visitors Tuesday.

H. C. Henington, who has been suffering from an attack of rheumatism the past few days left Wednesday for Amarillo to receive medical attention.

COL CHARLES LINDERBERG SPENDS NIGHT ON N. M. RANCH

Mrs. Ben Warren of the Cross Roads community is a visitor in Portales today. She reports that late Friday afternoon an airplane alighted near the ranch home and that the party flying the same came to the house and asked Messrs. Warren and Sawyer if he might receive the courtesy of spending the night at the ranch. They immediately recognized him as Linderbergh. He stated that he wished to spend the night on the ranch as he was tired of so much publicity and he wished to spend the night where he could be assured of no disturbance.

Mrs. Warren and Sawyer soon prepared one of those regular ranch suppers consisting of hot biscuits and cold steak which was enjoyed by the Colonel. Mrs. Warren stated that the visit of the Colonel was a most pleasant one and they consider it much honor to be the first citizens of southeastern New Mexico to have the privilege of entertaining the distinguished flyer for the night.—Roosevelt County (N. M.) Herald.

BUFFALO BAND TOUR SET FOR MARCH 24 TO 27

Canyon, March 19.—The Buffalo band, West Texas State Teacher's college organization, under the direction of C. E. Strain, will make its annual spring tour March 24-27.

Towns to be visited will include Tulla, Silverton, Quitaque, Flomoni, Whiteflat, Turkey, Paducah, Matador, Floydada, Lockney, Plainview, Olton and Dismal.

The band usually numbers about 35, but has been cut to 26 for the long trip. Ten Texas towns are represented in the personnel of the band. Miss Marjorie Walters of Tulla is leader with the organization, and Charles Strain of Canyon and Edgar Pickett of Hereford do solo work.

If "opportunity" knocked less often some of us might catch up with our work.

Nothing is quite so pathetic as an old man trying to make up for the virtues of his youth.

A pretty girl likes to be told she is intelligent and an intelligent girl likes to be told she is pretty.

SUBSCRIBE FOR THE JOURNAL

Agricultural Notes

Soy beans are an excellent hay substitute when clover or alfalfa fails. Besides, soy beans are easily grown.

The length of time required for milk to sour is a good measure of the cleanliness of the milk, the temperature being constant.

Feed all the roughage, including a juicy feed such as silage or clover, and a legume hay (alfalfa, clover, soy bean, etc.) that the cow will eat.

Newly set trees will be better for a winter switch of manure or slaw. But leave a little space between the manure and the trunk, or slaw may burrow into the litter and feed on the bark.

Winter born calves given proper care and feed will grow like summer-born calves, but one must remember that calf rearing begins before the calf is born, because only cows in good physical condition produce strong, vigorous calves.

With a good "cottage" stub as timothy or wild hay, feed a Jersey or Guernsey one pound of grain for each five pounds of milk; a Holstein, Ayrshire, Shorthorn, or Devonian, one pound of grain for each two and one-half to three pounds of milk.

NOTICE TO THE PUBLIC!

We are equipped with Electric Machinery and experienced workmen. We use the best Oak Tanned Leather and we strive to please all who do business with us on a money back guarantee. What Well Dressed Men Will Wear

Lady Ithobda says that mite clerks in office should wear costumes of silk, and these styles were shown at a recent silk show held in London. Silk blouses, open at the neck, and silk shorts comprise the costume.

Lazbuddy News Items

The Lazbuddy Parent-Teacher's Association met in a regular meeting last Friday evening with a large attendance. The tree committee reported the putting out of one hundred and sixty-six Chinese Elms on the school campus. The school board has fenced the grounds and the trees will be watered. Rev. Ernest Jennings was introduced by Mrs. Robert Bledsoe, who made a splendid talk on the word "Faith". Prof. Davenport spoke on "Co-operation."

The Missionary Society of the Methodist Church was held at the school building Thursday afternoon with twelve members present. Mrs. Lloyd Jones, wife of our pastor was the devotional leader. Miss Opal Jennings, the president, conducted a short business session. The Society will furnish the bath room and sink for the kitchen in the new seven room parsonage that is being built at "Y" for the pastor, Rev. Lloyd Jones. Messrs. Lloyd Lust and Jennings were elected delegates to the District Conference at Plainview in April.

Prof. Davenport and family were in Muleshoe Saturday.

Mrs. Toke Waggon was given a surprise shower Tuesday afternoon at the home of her parents, Mr. and Mrs. Ivy. Many useful and beautiful gifts were received by the popular bride. The articles were brought into the living room on a decorated express wagon drawn by Mrs. Rudolf Pyritz and Mrs. Carl Merritt who in very appropriate words presented them to Mrs. Waggon who, in her usual sweet way, responded.

ed. Delicious refreshments of cake and jelly topped with whipped cream were served to a large number of friends.

Rev. G. I. Britche of Plainview filled his regular appointment here Sunday. Mrs. Cleo Phillippe has returned from a visit to her parents at Dawson, N. M.

TAKES ONLY 15 MEN TO SUPPLY NEEDS OF 100 PERSONS IN U. S.

In America 15 workers can produce all the necessities of life for 100 persons, thereby releasing 85 to supply luxuries and articles of commerce, says Dr. C. M. A. Stine of the Dupont Company, Wilmington, Del. one of the speakers at the Mid-West Power Engineering conference held in Chicago.

In China, however, it requires 85 persons to work on the necessities of life for 100 men, thereby releasing only 15 for other work. The reason for this difference between the two countries, in the opinion of Dr. Stine, is that this country has surpassed all nations of the world in the development and utilization of power, while China is still largely dependent on such power alone.

A recent survey of the Department of the Interior showed that approximately 75 percent of the power used to turn the wheels of American industry came from electric generators.

DENTAL NOTICE

Dr. Frost, dentist of Amarillo, will be in Muleshoe one week beginning April 1st, at the Elite Hotel.

CHEVROLET OUTPUT FOR MARCH TO REACH 140,000

The manufacturing facilities of Chevrolet Motor Company, numbering 16 great manufacturing plants in this country, are rapidly approaching the volume of output necessary to meet this year's revised annual quota which calls for the manufacture of 1,350,000 passenger car and truck units.

This was signified last week when W. S. Knudsen, president of the company, announced that March production would reach 40,000 units, an amazing output when it is considered that active production on the new six cylinder cars has been under way less than three months.

Upon his return to Detroit a few days ago from a six weeks trip which took him across the northern part of the country and into the far West, R. H. Grant, Chevrolet vice president in charge of sales, spoke with marked optimism of the prevalent demand for the new six cylinder cars. Nearly everywhere, he declared, dealers indicated to him that they had found an increased market for the new product. The cars, he said, are being delivered to owners as fast as they can be distributed.

TEXAS A. & M. WINS CORPS RIFLE HONORS

College Station, Texas.—With a score of 7 out of a possible 800, the R. O. T. C. small bore rifle team of the A. & M. College of Texas has been declared the winner of the Eighth Corps Area intercollegiate rifle team championship. It is announced by First Lieutenant Earl McCullough, U. S. A., officer in charge of rifle marksmanship training at the college.

As a result of its record in competition, the A. & M. College rifle team has been designated to represent the Eighth Corps Area in the National small bore gallery competition which will begin March 16 and end April 16 of this year. The latter competition is sponsored by the National Board for the Promotion of Rifle Practice and teams from schools and colleges where R. O. T. C. units are maintained in every corps area in the United States will enter.

"FUTURE FARMERS OF TEXAS" GRANTED CHARTER BY STATE

College Station, Texas.—The "Future Farmers of Texas, an organization of vocational agricultural students of Texas high schools, was recently granted a charter by the Secretary of State, and the organization now has 106 chapters, with a total membership of 2,500. It is announced by Dean C. H. Winkler, one of the incorporators of the organization.

The purpose of the "Future Farmers of Texas," as set forth in their charter, is the promotion and support of education efforts directed toward more efficient farming and livestock raising in the State.

The "Future Farmers" movement in Texas was begun at a statewide meeting of teachers of vocational agriculture held here, and the growth and popularity of the organization has been rapid.

"UNIVERSAL ENGLISH" IS INVENTED AT CAMBRIDGE

London.—An international language of 500 words has been evolved by scientists and scholars of Cambridge University.

English is the basic tongue chosen and it is claimed that people of all nations may pick up the "panoptic English," as the reduced vocabulary is called, within a few weeks or months instead of years.

The entire vocabulary of "panoptic English" can be printed on the back of a single sheet of note paper and seen at a glance, hence its use of verbs vanish and in their name, "panoptic."

In the new language the majority of words which cover the essential are twelve "operatives" or fundamental movements of persons and things. They are: Come, get, give, go, keep, let, make, put, take, be, do and have.

If women had any sense there would be no more bachelors.

The best way to find your missing sins is to get rich.

The hard thing about making money is to miss it first.

Lots of people think the world owes them five or six living.

Contagious Abortion Is Most Dangerous Disease

Contagious abortion is a germ disease which, if it is not controlled, will go through an entire herd. The germs are usually carried from the fetus, or afterbirth, of a cow that has aborted, to the feed of other cows which in turn get the disease. The best way to control this disease is by cleanliness, isolation and disinfection.

As soon as a cow shows any signs of aborting she should be isolated from the herd and kept separate until all discharges have come away. The stall must be cleaned and disinfected as well as the hind quarters of the cow. The fetus and afterbirth must be burned or buried, the manure from the stall taken directly to a field to which cattle have no access. Care must be taken not to carry the germs of the disease from the stall where an infected cow stands to the feed of other cows. These germs are usually carried on the shoes of the attendant and on forks.

There is no known cure for this disease. All we can do is to control it by not carrying the germs to the feed of other cows.

It is always advisable to employ a competent veterinarian to help control the disease. It will not pay to sell a cow that has aborted, since any new cow coming into the herd will take the disease.

Produce Prices Are Higher

than they have been in years and we always pay top prices. Our place is clean and sanitary and we are equipped to give instant and satisfactory service at all hours. A rest place for ladies—make our place your headquarters when in town. Quick service and a square deal to everyone alike, is our motto.

Advertisement for Blackwater Valley State Bank, Muleshoe, Texas. Includes the slogan 'A little grit every day is as necessary for us as for hens' and an illustration of a hen. Text: 'EVERY FARMER IS IN BUSINESS FOR HIMSELF. A successful farmer realizes that by producing products for home use first, he is saving money. There is no cash outlay—only a small amount of extra work that can be done at odd moments. One or more dairy cows, a flock of laying hens, some hogs and a few acres of cultivated land means little extra work—practically nothing to keep up and will feed the entire family. Blackwater Valley State Bank MULESHOE, TEXAS "There is No Substitute for Safety."

What's Doing In West Texas

Out of the 70 4-H Club boys around Big Spring, 25 have decided to buy young Jersey calves from 6 to 12 months old, through the cooperation of business men, and have pledged to raise three acres of cotton and two of maize—the cotton to pay off the note on the calf, and the maize to feed the animal.

Five vocational agricultural livestock, dairy and poultry judging teams and pecan budding teams will be sent from Coleman High School to the Agricultural and Mechanical College Short course at College Station in April. The winning dairy judging team will be sent to Memphis, Tenn.

A banquet celebrating the 22nd year of the Alfalfa Growers Association recently held at Rowell, N. M., brought out the fact that 4,800 tons of alfalfa had been handled up to March 1st of the 1928-29 season. This organization is worked on the non-profit basis and handles business amounting to \$1,500,000 annually.

A plan to build a 50x90 basket ball court in addition to a commodious stage for the presentation of various shows in a combination gym and auditorium at Dalhart is a plan of the local Lions Club. The Sixth Annual tri-state meet would be one of the first attractions held in the building.

The Manchurian sunflower may form a source of income in the South Plains of the future. One farmer on a Levelland ranch planted 1,600 acres and realized \$2,500 profit an acre on the seed which are used in poultry feed, and as cooking fat in the manufacture of varnishes. From 700 to 1,200 pounds of seed per acre can be grown which sell for \$100 per ton.

The local paper, the chamber of commerce, and the women's clubs are cooperating in an effort to get modern fireproof hotels for Hereford. Contributions are coming in to the committee appointed to get them in an increasing volume.

The winner of the first prize, and a registered heifer calf in the annual fat stock show of the vocational agricultural class of Mertzon went to Howe Mayse, who took them to the Fat Stock Show at Fort Worth. Fourteen other ribbon winning calves were sent to Fort Worth and sold after being distributed.

The farmers short course held in Sweetwater recently was one of the most successful ventures ever sponsored by the board of city development, business men, and a well known implement company. The program was entirely educational, having lectures, music and pictures.

The Brady Chamber of Commerce under the direction of Carl Blasing, secretary, is planning for prompt action on an airport. A landscape gardener has been obtained to help in a beautification campaign in the town during the coming year.

The March number, which is an Aviation Special, of West Texas Today, official magazine of the West Texas Chamber of Commerce, will be put in the mails this week. Practically every town of importance is covered in the magazine, and specific information about the progress of aviation in West Texas is given in detail.

The program of work of the Burnham, Chamber of Commerce, Rex Smith, secretary, during the year includes purchasing uniforms for the local band, improvements on roads leading into town, repairs on the approach to the free bridge across Red River, cotton premiums, and reduction of county tax rate.

PECANS AND HICKORY NUTS GROWING ON SAME TREE

A press report from Tulsa, Okla., states that both pecans and hickory nuts grow on the same tree in the yard of G. C. Spillers, a Tulsa attorney. Two years ago, the report says, Spillers and A. L. Burrows, a banker of Tulsa, cut the top out of an 18-year-old hickory tree and grafted buds of the paper shell pecan to the trunk. They took life, fed by the sap from the hickory, and in two years the tree had a new top which bears an abundance of pecans and a few limbs below the budded section continue to bear hickory nuts. It is said that the hickory provides a more hardy trunk than the pecan, which increases the production of the tree.

GAS AT LITTLEFIELD IN 60 DAYS

That Littlefield will be supplied with natural gas within the next 60 days is the report current on the streets this week.

Just how definite this information is no one seems to know. However, it is known that a representative of the gas company was in Littlefield a short time ago making preliminary checking reports, and parties traveling 45 and then Look-look-stake numerous stakes along the highway which are said to be survey stakes for the proposed gas line.—Lamb County Leader.

They Have Gone to Seek a "Dream Island"

M. F. Brauner, wealthy paying contractor of Cleveland, Ohio, and his party aboard the famous Arctic ship Peary on which they have sailed from Boston in search of a "dream island" off the western coast of Mexico. Mr. Brauner dreamed of this sunken island and later believed he located it from an airplane. In the photograph he is seen wearing a cape coat.

Men should be made to take vacations—we mean some of them—so they won't get the idea that they're indispensable.

Mlle. Adele Zereldine, a popular dancer of Vienna, bought an ermine coat for her French pool table at a cost of \$5,000.

A thief snatched a \$20,000 diamond necklace from Signora Luisa Valdivia of Milan as she was entering her automobile.

THE NON-PRODUCING HEN IS AN EXPENSIVE POUL

The old joke about the cackling hen and her owner who demanded, "chicken, is you 'yin' or 'yatin'", has lost its humor. It isn't funny, now days when the flocks do not lay enough to pay for their keep. The hen that eats regularly and lays only occasionally is a constant drag upon the profits of the farmer who is depending upon his poultry flock for a substantial profit.

Figures available from a test made by the University of Illinois indicated that the average profit on 284 flocks averaging 161 hens each was 86 cents per hen, but the average on the best two-thirds of the flocks was \$2.28 per hen. In other words, the "loafers" in the flocks were eating up \$1.42 worth of the profits that the good hens produced.

Presence of hens laying less than 90 eggs a year on farms throughout the country is standing between farmers and a substantial profit from their poultry, according to U. S. Department of Agriculture figures. Need of better stock on the farms of America is paramount, according to investigators, because under present conditions many farmers are conducting their poultry business at a direct loss.

Many a good thing has been put off on Friday, the 13th—by fellows who forget the date.

DISPLAY OF BRICKS MADE 5500 YEARS AGO

Chicago.—Bricks taken from the walls of the ancient city of Ur at the Chaldea, made 5500 years ago, showing the finger prints of the makers, were displayed at the American Ceramic Exposition here recently.

In contrast, more than \$250,000 worth of the finest American china-ware, glass, pottery, stoneware, tile, terra cotta, brick and other ceramic ware were shown.

FEBRUARY INVESTMENTS FOR TEXAS DECREASE, REPORT

Dallas, Texas.—Seasonal decrease in the amount of investments is noted in the compilation of reports of the Texas Life Insurance Companies for February. The total investments for February being 91 per cent of the totals. Loans on business property lead the list with loans on dwellings second and loans on farm property third.

FINISHING TOUCHES ARE BEING GIVEN TO DAIRY SHOW BUILDING

Plainview, Texas.—The contractors are putting the finishing touches on the carpenter work on the large building which will house the Texas-Panhandle-Plains Dairy Show at Plainview.

The big building, which is really five buildings joined together, will be absolutely ready in every detail for the show April 2nd when the doors open. Harrison & Smyth, the contractors, started the work on the building about March 1st, and by employing as many as forty-eight carpenters at a time are going to be ready to turn the building over before the time allotted for its construction.

All that remains to be done to it is to stretch the entrances of the building and finish up the plaster work on the commercial exhibit room.

U. S. PRODUCES NEARLY ONE-HALF OF WORLD'S APPLE CROP

Washington, March 21.—Nearly one-half of the world crop of apples is produced in the United States, according to a bulletin on apple production, prices and transportation costs made public today by the Bureau of Railway Economics.

"Apples from the United States," according to the bulletin, "are distributed to all parts of the world, reaching 72 different countries during the year ended June 30, 1928. The United Kingdom was the largest market for fresh and canned apples exported from this country, while Germany was the largest market for dried apples.

Over 93,000 cars of apples were shipped by rail from the producing areas to markets in this country during this same year. Distribution within the United States was widespread, apples from the Northwest reaching all of the states, while those from the Eastern and Central States reached practically the entire territory east of the Rocky Mountains."

FIVE GOOD COWS ON A FARM

Much has been said and written concerning the advisability of keeping a few good cows on every farm. General statements advising such a course are more or less effective, but a more definite illustration recently set forth by a country banker, is even more convincing.

He declared that if each farmer in his county had five good cows, and sold the milk or cream which they produced, the cash returns would do these things in a year:

Pay the farmer's state and county taxes.

Pay his automobile license and buy two new tires.

Buy a sewing machine and a \$40 suite of furniture for the farm home, and school books for the children.

Clothe a farm family of five persons.

Buy \$50 worth of paint for the farm buildings.

Besides doing all these, the fertilizer produced would increase the soil fertility of the farm, and the farmer would in addition have all his calves for sale or for keeping to augment his herd.

In most communities any farmer who has a good reputation for honesty and industry can borrow the money, if necessary, with which to buy his five cows, because bankers are generally glad to encourage the introduction of more dairy cows to their territory.—Italy News-Herald.

TEMPORARY SHEEP PASTURE

A system of temporary pastures for sheep is advantageous in more ways than one. More sheep can be raised per acre on temporary pastures than on permanent ones with the same soils.

Danger of infection from stomach worms and other internal parasites is lessened considerably if the sheep are pastured on annual crops. Temporary pastures furnish plenty of succulent green feed, which is necessary for a good milk flow during lactation periods. In winter and early spring, wheat where it can be successfully grown is the best pasture, and oats and field peas drilled together make excellent forage. On rather fertile land, rape is the most economical crop for this purpose.

Where the soil is thin, soy beans are very good and can be grazed from July until the first frost. Alfalfa or sweet clover is very satisfactory in some sections, if the sheep are pastured carefully to avoid mold.

ENOUGH

The editor at the nearby gate. His face looked worn and old. He meekly asked the man of fate for admission to the fold.

"What have you done," asked Peter. "To seek admission here?"

"Oh, I used to run a country newspaper on earth for many a year."

The gate swung sharply open. And Peter touched the bell; "Come in, my lad, and take your harp. You've had enough of hell."

—Exchange.

TO PRINT POSTAGE STAMPS BY STATES

Washington, D. C.—Postmaster General New has announced the government has decided to print the name of each state in which stamps are sold on all stamps ranging in denomination of from one to five cents, in an effort to cope with postoffice thieves.

The purpose of this plan, the department said, is to render more difficult the sale of stolen stamps and facilitate tracing of confiscated stamps from one state to another.

MULESHOE, TEXAS

PENNY WISE

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising is practicing false economy; his losses in sales far exceed the pennies saved.

The money spent for plate glass windows is not looked on as best; nor is the money spent on better interior lighting.

Anything that increases favor, that adds to sales, that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising is the plate glass window the merchant can send into every home. Advertising sells more goods to more people than shop windows do.

A Word to The Public—

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary is it not your impulse to respond to his friendly overtures?

New
economy
 for 35c a quart

Mobiloil dealers now offer you an improved Mobiloil, made especially for new economy under today's high-speed driving conditions

Today's driving conditions demand still better lubricating oils, superior to anything produced before. The New Gargoyle Mobiloil meets this need.

Any Mobiloil dealer can supply you with the new economy Mobiloil at 35c a quart. Your saving in oil and gasoline consumption alone will more than make up for the extra 5c a quart.

MAKE THIS TEST

Drive to the nearest Mobiloil dealer... have him drain all the old oil from your crankcase and... fill it up with the correct grade of New Mobiloil. You know from experience how your engine ran the last time fresh oil was put in the crankcase... Now—notice the difference!

Look for these results---

Increased Oil Mileage: Often 100 extra miles per quart from the New Mobiloil.

Increased Gasoline Mileage: Many tests show gasoline consumption reduced as much as 15%. **Faster Pick-Up—More Power:** Quicker get-away, more "pep" on the road, less labor on the hills.

Smoother Operation: A quieter motor, a velvety smoothness of acceleration, less vibration when speeding.

35c a quart

The dealer who sells a quart of the New Mobiloil for less than the regular Mobiloil is the dealer who is not making his fair reasonable profit. Leave no oil on your account.

VACUUM OIL COMPANY
 Specialists in the manufacture of high-grade lubricating oils for all types of machinery.

Dallas Branch, Main & Lamar Sts.

BOUTONNIERE AND COSTUME FLOWER BEAUTIFY SPRING STYLE PICTURE

A very flower picture fashion picture for spring. Flowers will be worn literally from morning until midnight. On pajama ensembles in the early hours, again on the caprine tailleur will be bouquiers to be followed by afternoon and evening frocks gayly decked with flowers. Leading Paris modistes have also launched the flower-trimmed hat. Important flower colors are lime, lemon, burnt orange, chartreuse and other soft greens, the beiges and tans. White is in favor, with such tints as black and white, two shades of gray, shaded mauves and new blues are also featured in the flower style program. In the bouquiers and tailleur flowers the tendency to combine two and three colors is very marked. Bouquets of natural spring posies in mixed garden hues are a spring tendency in flower fashions for the season. The young woman wearing the embroidered hat in the picture matches the gay colors in her chapeau with a bouquet of garden flowers arranged in the graceful trailing effect which is now so popular. With her new straw bonnet on, her dress of silk print, the huge bouquet of violets as shown on

the center figure below adds yet another touch of spring. For evening wear there are large-trailers composed of panics in chartreuse and mauve, pale blue and rose. There are also delicate trailing clusters of pastel morning glories. There are gardenias and orchids in white and interesting and quiet mauve. The positioning of flowers at the back marks an innovation for the evening corsage. The sketch to the left shows how charmingly the idea may be carried out. Among the new creations are roses and violets of softened lace in delicate pastel shades. These bouquiers developed in clear bright yellows, greens, reds and blues are favored for spring. Sports fashions sound a unique note. Among these are very modern roses of stiffened silk in bold design in various colorings. Extravagant designs for light-colored summer dresses are candy-striped canopies in honey, white-tinted silk, with alternate leaves stripes in clear green, then red, or blue, light orange or red. JULIA FOTTONLEY. (© 1928, Western Newspaper Union)

NOTICE
 THE STATE OF TEXAS,
 TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY—GREETING:
 You are hereby commanded to summon Malcolm Richard Madera by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Bailey County, to be held at the Court House thereof, in Mulshoe, on the first Monday in May, A. D. 1929, the same being the 8th day of May, A. D. 1929, then and there to answer a petition filed in said Court on the 4th day of March, A. D. 1929, in a suit numbered on the docket of said Court No. 483, wherein Thelma Madera is Plaintiff, and Malcolm Richard Madera is Defendant, and a brief statement of plaintiff's cause of action, being as follows:

Plaintiff abandoned Defendant on December 14th, 1926, leaving her in destitute circumstances and in a delicate condition, that since said date defendant has not contributed any money or thing of value to plaintiff's support; that at the time defendant abandoned plaintiff she was in a delicate condition and that defendant did not provide a place of shelter, medical care or attention all of which plaintiff was badly in need of; the conduct of defendant was of such nature as to render their living together wholly unupportable. WHEREFORE plaintiff prays the Court that defendant be cited to appear and answer this petition and that upon final hearing hereof, she have judgment and dissolving the bonds of matrimony. Herein fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same. Given under my hand and seal of said Court, at office in Mulshoe, Texas, on this the 4th day of March, A. D. 1929. J. L. ALSUP, Clerk. District Court Bailey County, Texas. By Lola Lipscomb, Deputy.

Sunlight Not So Vital for Cows
 Rays Have Remarkably Beneficial Effect on Chickens, Pigs and Goats.

With the development of knowledge that light plays an important part in the retention of calcium fed to animals, the question naturally arises: "Does exposure of dairy cows to summer sunshine enable them to obtain and utilize from the pasture grasses sufficient lime to keep them on a positive lime basis?"

Effects of the Sun.
 To answer this very practical query Messrs. Hart and Strethorn carried out careful experiments in June when the protective properties of the sun are at a peak, using cows giving 45 to 60 pounds of milk daily. The cows were fed a grain mixture, silage, and 40 pounds daily of freshly cut green grass. This approximates what would be given cows of this character on better dairy farms. The results indicated that this ration was insufficient to keep the cows on a positive lime basis. In fact, there was only a slightly improved situation as concerns lime assimilation when these cows were placed in direct sunlight for six hours daily as compared to standing in a darkened barn. Apparently then, the rays of the sun have a remarkably beneficial effect on little chicks, pigs and goats, but with dairy cows no such positive benefits can be observed.

Cows Again Studied.
 When these same cows were again studied in September, after their milk production had dropped to 25 or 30 pounds of milk daily, lime balance was maintained, even though the sunlight at this season was less potent. It seems apparent from these results that the feeding of extra lime to high producing dairy cows, while on summer pasture, is a very desirable procedure. It may very well be true that the commonly noted falling off in milk production to midsummer, on the part of heavy milking dairy animals, may be due to a depletion of their lime reserves, just as much as to the more commonly attributed causes such as heat and flies.

It has been concluded that light plays no role in the utilization of lime by cows. Possibly this also explains why young calves grow better when kept in a barn, rather than out of doors, as contrasted to young chicks, goats, and other young animals which seem to demand sunlight as a necessary for normal growth.—Wisconsin Agricultural Experiment Station.

DENTAL NOTICE
 Dr. Frank Dentist of Amarillo, will be in Mulshoe one week, beginning April 1st, at the Elita Hotel.

ARE YOU DISCOURAGED?

When Abraham Lincoln was a young man he ran for the Legislature in Illinois, and was badly swamped. He next entered business, failed, and spent seventeen years of his life paying up the debt of his worthless partner. He was in love with a beautiful young woman to whom he became engaged—then she died. Later he married a woman who was a constant burden to him. Entering politics again, he ran for Congress and was badly defeated. He then tried to get an appointment to the U. S. Land Office, but failed. He became a candidate for the U. S. Senate and was badly defeated. In 1856 he became a candidate for the U. S. Vice Presidency and was again defeated. In 1858 he was defeated by Douglas. One failure after another—bad failures—great setbacks. In the face of all this he eventually became one of the country's greatest men, if not the greatest. When you think of a series of setbacks like this, doesn't it make you feel small to become discouraged because you are having a hard time in life?—Exchange.
