SERVING A RICH FARM CROP, STOCK AND POULTRY RAISING TERRITORY OF WEST

The Dickens Item and Dickens County Times Absorbed by Purchase

VOLUME 49

# Editor's Connen

#### By Joe Harrison

At a meeting last Thursday night in Spur High School, Superintendent of Schools B. G. Nunley announced the local schools are facing a crises concerning class room space for next year.

Nunley told a committee of businessmen, headed by Fike Godfrey, that Spur High School will have to have at least four more classrooms in order to offer courses needed by high school students to gain entry to an accredited college.

Nunley also pointed out the need for physical shop space in the school's vocational agriculture program and a suitable making department.

In the not too distant past, the people of the Spur Inde-pendent School District rejected a school bond issue of about \$500,000. Yet, the local school district spends only about \$290 per scholastic, which is far be-low the state average of \$364.-

At present, the school district is in debt, \$225,000 and finance authorities say the district probably could not stand a bond of more than \$325,000. In the face of these facts,

Nunley has recommended a long range building program for the local system.

for the local system. One look at the Junior High building, which has been rec-ommended to be condemned as a fire hazard by ex-Fire Mar-shal R. E. Powers, will tell the layman that the people of Spur have been grossly neglecting their schools, and consequent-but their schools, and consequently their children.

be held Sunday, June 1 and commancement will be held Monday, June 2, both at the First Baptist Church here.

It is a shame, in this modern age, that there are people who think so little of their children and their future that they will and beir future that they will has been released by the Spur (LL); West Side vs. KP Lodge (PL). **TOP AG STUDENTS** — Don D. McGinty, center, and Konrad P. Losens, right, were the top seniors in the School of Agriculture at Texas A & M College this year. Dr. J. C. Miller, dean of the School of Agriculture, presents a bound certificate to McGinty testifying to his high attainments in scholarship, leadership and character. Losens holds a similar certificate. McGinty, whose home is at Spur, maintained a 2.32 grade-point ratio this year; Losens, who comes from Lima, Peru, maintained a perfect 3.0—a straight 'A'. McGinty majored in Animal Husbandry, Losens in Agronomy.

Does the interior of your car sometimes look like a sand-trap combined with a rat's nest-with just a little touch of children's playground? Most cars get that way at one time or another ... especially where there are kids and pets. If so, come in and be "whisked."

Whiskbrooming your car's interior so it is spick and span is just one of the little "extras" you can expect when you drive in to a Phillips 66 Station.

Another service your Phillips 66 Dealer will gladly perform is to clean your windows all the Get acquainted with Phillips 66 Hospitality.

Thinking of Calling the Moon?

"Seems like everyone is talking about 'outer space' these days. One of our telephone customers said to me the other day, "It wouldn't surprise me to find out you fellas are installing tele-phones on the noon. They seem to be every place else. When I was a boy, if you were lucky enough to have a telephone, it was in the front hall. Now we have them all over the house; in the kitchen, in the bedroom, and in the den. They're mighty conven-ient, too. I was getting to the point where I'd just let it ring rather than walk all the way to the front hall to answer it." Well he's right. Additional telephones are handy... And low in cost too. Did you know you can have another telephone in your home for only \$1.00 a month?

#### Where Are You Going on Vacation?

It's high time to be thinking about or planning a vacation. And when a family plans the vacation together, the planning can be almost as much fun as the "going"

To help plan their vacations better, more and more families nowadays put some dependence on the telephone.

A telephone call to a favorite vacation spot confirms reser-vations. Another call to an overnight stopping point guarantees accommodations for the family, permitting an extra hour or so of driving.

In the midst of the vacation, these same folks often answer the question of "wonder how everything is at home?", with a telephone call—the personal way to keep in touch.

So, this year, why don't you count on the telephone when planning AND enjoying your vacation?

Remember, too, that station-to-station calls cost one-third less than person-to-person calls. And when you call by number, your calls go through twice as fast.

#### Color Is Here To Stay

I'm betting that I don't run into much of an argument when say that people like color. And just look at the bright array of olor telephones we have to offer you:

You can choose from Cherry Red, Pastel Yellow, Ivory, Rose k, White, Moss Green, Light Beige, Aqua Blue, and Light Gray colors to fit any color scheme! Pink.

A color extension telephone is practical as well as good-looking, too. Here in Spur, an extension costs just \$1.00 a month plus a one-time installation charge of \$2.50. If you order yours in color, there's an extra one-time only charge of \$10
