## Sonora Business Firms to Give Full Co-operation NRA

### Business Hours Are Shortened by Grocers

### ALL CLOSE SIX P. M.

### Stokes Is Chairman of Permanent Organization of Town

Answering a call from H. V. Stokes, president of the Sonora Lions Club, representatives of 34 Sonora business houses met in a meeting in the directors' room of the First National Bank at 2:30 o'clock Saturday afternoon. The meeting was held for the purpose of considering the National Recovery Act and to pledge support and co-operation to President Roosevelt and his program of returning prosperity to the United States.

A permanent organization to carry out the President's program was effected with H. V. Stokes being elected permanent chairman and H. V. Hamilton secretary.

A resolution was voted to the effect that all business houses express a willingness to co-operate with the President and to comply with codes arranged applying to the various businesses represented. W. E. Caldwell, W. C. Gilmore and Judge L. W. Elliott were appointed a committee to draft the resolution and wire same to the President.

Sonora is pledged 100 per cent and will co-operate with any move put forth for the betterment of existing conditions.

On behalf of retail merchants, and as a step toward the reduction of hours, Ralph Traher of the firm of E. F. Vander Stucken Co., introduced a measure calling for the closing of business houses at 6 o'clock instead of 6:30, and to change the morning opening hour from 6 to 7 o'clock. This measure was heartily endorsed by merchants present. The new opening and closing hours will be:

### Former Sonoran Wins Gilf Title

#### McGonagill Cops State Professional Crown at Dallas Meet

The title of state champion of golf professionals came to a former Sonora boy Tuesday as a result of Francis McGonagill's victory in a meet at Dallas.

McGonagill, son of Mrs. Hollie B. McGonagill, is professional of the Parkdale Country Club in Dallas. A sensational 70 on final 18 holes of play enabled him to win with a score of 148 on the 36 hole match, one stroke under Francis Schneider, Fort Worth pro.

McGonagill at one time attended school here, and has many friends who are gratified by his success. He is a grandson of Mrs. M. S. Davis of Sonora, and a nephew of Mrs. W. E. Wallace and Mrs. Ben F. Meckel.

### Lions to Meet at Ex. Station Tuesday

#### Barbecue to Replace Weekly Luncheon Next Week

The Sonora Lions Club voted Tuesday to accept the invitation of W. H. Dameron, superintendent of the Ranch Experiment Station, to meet at the Station next week and eat barbecue along with the thousand or more visitors expected for the Ranchmen's Round-up.

Business discussion was devoted largely to highway matters and to observance of the NIRA business code.

Entertainment was provided by the Misses Elizabeth Caldwell at the piano and Edythe Carson, who sang two solos.

George Allen of San Angelo was in Sonora Thursday on business.

### Lambs Sell at 5½c, Setting High Mark for Present Season

#### Halbert's 997 Head Blackfaces Net \$3.40 Each; Go to Michigan Feeders Tuesday

Sale of 997 head of blackfaced lambs this week by R. A. Halbert to Michigan feeders at 5½ cents a pound set a new high for feeder lambs in this region. The lambs were sold through O. L. Richardson and were shipped to Adrain, Mich., Tuesday.

Mr. Halbert netted \$3.40 a head on the lambs after all expenses had been paid. They averaged 63 3-4 pounds.

Halbert & Hoggett of Mertzon contracted 7000 head of lambs for October delivery at 5 cents a pound early in the week. They were bought by Roy Hildreth, Brush, Colo., buyer who handled thousands of head from this section last year, for a Fort Morgan feeder.

The contract specifies that 2500 of the total must be ewes, the balance nutton lambs. They are expected to net above \$3 a head.

One car of aged ewes bought Tuesday from Sol Kelly by D. Finley was shipped to Reynolds, Ill.

Thursday two cars of light lambs, bought from Mr. Kelly by T. L. Benson, on order, were shipped to Oklahoma feeders.

### Infant Son of Mr. Mrs. Rigney Dies

#### Heart Attack Fatal Tuesday; Burial Wednesday in Lubbock

A heart attack Tuesday morning at 8:30 o'clock proved fatal to Jerome Rigney, infant son of Mr. and Mrs. J. C. Rigney of Lubbock, while Mrs. Rigney was here for a visit with her parents, Mr. and Mrs. J. D. Eaton.

The baby was waiting for its morning bath when it was heard to make a strange noise by Mrs. Z. T. Landrum, an aunt, from the next room. When she reached the two and one-half months old child he was dying. Medical aid was secured at once, but to no avail.

The body was escorted to Lubbock Wednesday by members of the family, and burial services were planned there Wednesday afternoon.

Mr. and Mrs. Rigney have the sincere sympathy of the many Sonora friends who knew her as Miss Jewel Eaton.

The Robert Massie Company of San Angelo was in charge of funeral arrangements.

### Fire Department Elects 4 Members

#### Barton, Holland, Gilliam and Norwood Accepted Wednesday

Most important business coming before the Sonora Fire Department Wednesday night was the election of four new members, Jesse Green Barton, Carl Holland, W. R. Gilliam and Eddie Norwood.

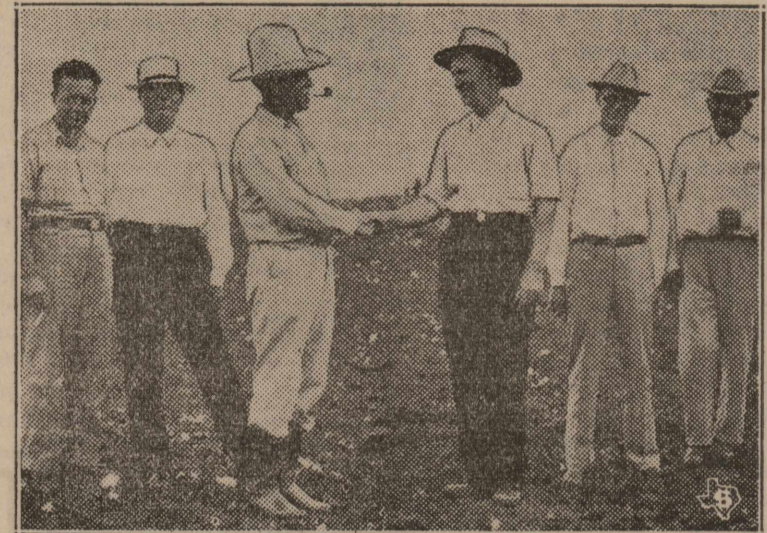

Reports of the Hill Country Firemen's Association convention here July 11 and of the carnival sponsored by the Fire Department were heard. Floyd Dungan, secretary, reported on the work done at the A & M short course for firemen two weeks ago. He was the only Sonora fireman attending.

The department was divided into two companies, which will hold competitive drills on the first and third Fridays of each month at 6:30 o'clock. The companies are captained by J. H. Brasher, jr., and Nolan Kennedy, assistant chiefs.

### Ranchman Brings Sick Sheep Here

Lindsey Hicks, who ranches on Independence Creek west of Sheffield, was through Sonora Thursday morning enroute to the Ranch Experiment Station with a sick ram.

### Texan Gets First Check for Destroyed Cotton

Here is W. E. Morris, Nueces county farmer, being congratulated by Congressman Dick Kleberg of Corpus Christi, for being the first to finish plowing up his cotton under the federal plan for raising cotton prices. Morris subsequently flew to Washington and received the first check for his cotton from President Roosevelt personally. They are pictured on the ground where Morris' cotton stood. Congressman Kleberg smokes a pipe, wears a cowboy straw and boots in the photo. Others in the picture are members of the Nueces county cotton destruction committee.

## Experiment Station Meet Begins Monday for 2 Days

### GOOD TIME HAD BY ALL WHEN WATERMELONS FALL

A good time was had by all, with the exception of the truck driver, when a Chevrolet truck loaded with El Paso bound watermelons overturned on a hill curve on Highway 27 just east of Sonora Wednesday afternoon about 2 o'clock.

The driver, Louis Silver, stepped out of the truck just before it rolled over and escaped injury.

Watermelons were scattered all over the hillside, and the crowd which gathered when word of the accident reached Sonora soon cleared away a large part of the wrecked cargo.

### Twilight League Race Is Tightened by Two-way Draw

#### Lions and Independents Only Game Ahead of Counter Hoppers and Motor Company Brigade

Team	Won	Lost	Pct.
Lions	4	3	.571
Independents	4	3	.511
Counter H.	3	4	.429
Motor Co.	3	4	.429

Interest in the Sonora Lions Club Twilight league was heightened this week when victories by the second division teams resulted in a two-way tie for first place and the cellar, with the high teams only one game ahead of the bottom pair at the close of Wednesday's play.

It was anybody's pennant as the four teams got ready for a fast finale during the remaining three days of the first half of the six-week season.

The Independents and the Counter Hoppers were carded for Thursday, with the Lions to meet the Motor Company today and the Independents tomorrow. There is a strong possibility that the season may end in a tie between two of the teams. A play-off would then be necessary.

Results of the playing from Thursday of last week until Wednesday of this week follow, in the order of games played:

Independents 19, Counter Hoppers 9.  
Lions 21, Motor Company 12.  
Independents 3, Lions 1.  
Motor Company 6, Counter Hoppers 3.  
Tuesday, Counter Hoppers 4, Lions 2.  
Motor Company 8, Independents 3.

Guy Hudspeth, jr. of Rankin is a guest at the Wheat ranch, where he is visiting his aunt, Mrs. Nannie Wheat, and cousin, Ben L. Wheat.

### All Attending Assured Entertainment of Interest

Monday marks the opening of the two-day Ranchmen's Round-up of the Ranch Experiment Station. This meeting, the first in two years, will prove of unusual interest to ranchmen because it will include discussion of several important projects which have been given research attention during the last two years.

A varied program of educational talks by members of the staff of the local station, as well as from the main station at College Station, will be supplemented with talks by practical ranchmen who are prominent in the affairs of West Texas.

Frank P. Holland, Dallas publisher, Dr. T. O. Walton, president of A & M college, T. A. Kincaid, Ozona, president of the Sheep and Goat Raisers Association, Dolph Briscoe, Uvalde, president of the Texas and Southwestern Cattle Raisers' Association, and Judge L. J. Wardlaw of Fort Worth are among the prominent speakers on the program.

A free barbecue at noon Tuesday will be a feature of the entertainment. Ted Price's Texans play for a dance Monday night, with another likely to follow Tuesday night.

### Wool Code Nearly Ready for Adoption

#### Activity Expected to Return; Markets Continue Firm

An inactive wool market continued unusually firm this week as wool manufacturers and dealers awaited adoption of an industrial code. Activity in markets was expected almost immediately after the code's adoption, which was due Tuesday.

Mills have been reluctant to buy until they had definite information on the code's operation, and dealers have been holding the market firm in anticipation of higher prices.

The Sonora Wool & Mohair Company with 750,000 pounds of wool on hand has about one-third of the total amount remaining of the spring clip in Texas. It is the largest accumulation left in the state, by far. Great interest in this lot is expected shortly.

### Crystal City Group Visits

Mrs. C. E. W. Smith, sister-in-law of Mrs. A. J. Smith, with her daughter, Mrs. K. B. Urban, with Dr. Urban, and their children, Joyce and Bobby, and another daughter, Miss Donella Smith, arrived Saturday for a visit here with Mrs. Smith and her daughter, Mrs. L. E. Johnson, and the latter's family. Dr. Urban and little Miss Joyce left for home Monday, leaving the rest of the party here.

## Actual Work on New Church for Baptists Begins Monday

### Highway Projects Underway Again in County on No. 27

#### 3 Miles Being Surfaced East of Sonora; 10-mile Grading Job West to Be Finished

Highway work has been started again in Sutton county, this time in two places on No. 27.

A three-mile unpaved strip beginning 19 miles east of Sonora is being surfaced with asphalt over a caliche base by Holland Page of Austin.

The Womack-Henning company of Abilene started work Monday on completion of grading of the 10-mile stretch just west of Sonora. Completion under this firm is regarded as almost certain. Work was started nearly a year ago, but was never finished after about three different interruptions.

The stretch east of town should be ready for travel within 40 days, while that west of Sonora will require about 60 days. Local labor is to be given preference on both jobs, according to the contractors. Only outside men to be used will be foremen and machine operators.

Sonora people were glad to welcome E. E. Pittman and George A. Smith back as supervising engineers on the work. They were here all of last fall, winter and spring with the highway department.

Mr. Pittman stated Wednesday that plans had been submitted again to the department on the Llano river crossing at Fort Terrett, and a contract for a bridge and approach possibly would be let this fall.

### Retailers Taxed on Cotton Goods

#### Must Pay 4.4184 Cents on Every Pound in Stock Aug. 1

Retailers who handle cotton merchandise were notified Wednesday to invoice their stocks as of Aug. 1 in preparation for payment of a processing tax of 4.4184 cents per pound.

The tax is to be paid by the first of September.

It is levied to provide funds for paying cotton farmers who ploughed up 9,000,000 million acres of cotton throughout the south.

### ENGINEER CHOOSING ROUTE FOR NO. FIFTY-FIVE

J. T. Estel, engineer with the State Highway Department, arrived in Rocksprings Wednesday morning of last week, says the Rocksprings Record, and planned to spend the balance of last week looking over the country to be traversed by the extension of No. 55 from Rocksprings north to intersect No. 30 south of Sonora.

Accompanied by J. F. Wians, county surveyor, Mr. Estel planned to select the most feasible route for the road so that detailed surveying could begin at once.

Assurance was given the Record by L. G. Hodges, district engineer, that the route would be pushed as one of the primary federal aid projects and that local labor would be given preference.

The project has been looked on favorably by the state commission for many months, and the survey has been ordered several times, but until last week, nothing concrete had been done.

### SONORANS ATTEND HILL COUNTRY BANKERS' MEET

Mr. and Mrs. George H. Neill, Mr. and Mrs. Edmond Heinze and Miss Audrey Rankhorn represented the First National Bank of Sonora at the quarterly meeting of the Hill Country Bankers' association in Fredericksburg Saturday night.

The quarterly meetings are devoted to discussion of banking problems, particularly as they affect banks of the stock-raising section represented.

### Old Building Will Be Razed, Materials Utilized

#### TO COST \$8,000

#### Financing About Half Complete; Will Pay As Built

Sunday's services at the Sonora Baptist Church will be last held in the present building, which has served the church for many years. Present plans call for razing of the old building to begin Monday, and on the same site will be built a modern, permanent building, to cost about \$8,000.

The building committee's plans have been progressing steadily for several months, and financing of the project is about all completed. Pledges totaling between \$3500 and \$4000 have been secured, and about half of the residents of the community are yet to be solicited.

Enough funds are now available to complete the major portion of the building and get it roofed and otherwise protected from the weather. Costs will be met as the building is erected, and it will be completed as funds are available. It is hoped to have enough money coming in during the working period to complete the entire project as fast as possible.

The building is to be 36 by 66 feet, of hollow tile and stucco. It will have a full basement containing banquet room, kitchen and Sunday school rooms. The upstairs will contain the auditorium, more Sunday school rooms and a baptistry. The church will be complete with modern washroom facilities.

John G. Becker of San Angelo is the architect and Suggs Construction Company of Abilene has the building contract on a cost-plus basis.

### Sonora Grocers in Line with Recovery

#### Announce New Hours of Business and Shorter Work Period for Men

Sonora Grocers met Wednesday afternoon to adopt provisions of a code prepared by San Angelo grocery stores in conformity with the desires of the administration of the National Industrial Recovery act.

Employees will work only 48 hours weekly from now on, and stores will remain open one and one-half hours less each week-day and three hours less on Saturdays. Stores will open at 7 o'clock throughout the week, closing at 6 instead of 6:30 on week-days and at 7 instead of 9 on Saturday. Opening hour had been 6 o'clock.

Stores offering delivery service announce that it will be offered from 8 till 12 noon, and from 2 until 6 in the afternoon on week-days and until 7 on Saturday. Afternoon orders must be in 15 minutes before closing time, however.

### J. B. Merck Buys 480 Acres Brown Land

#### \$3500 Paid for Tract Owned by Mrs. Susie Brown

J. B. Merck became the owner of 480 acres of Sutton county land formerly owned by Mrs. Susie Brown in this county on July 27, according to Sutton county records.

The price paid for the land is recorded as \$3500. The tract is composed of the south ½ of certificate 562 and the south ½ of the north ½ of the same certificate, of survey 84 of the CCSR&RGNC railway company grant.

Mr. and Mrs. Ed C. Mayfield and son, Stanley, went to Christoval Wednesday and will remain several days while Mr. Mayfield undergoes treatment.

**Siamese Melon!**

John Louis Boggs of San Antonio looks like he is ready to start eating the 75-pound twin water-melon raised near New Braunfels.

**With the Churches**

**Methodist Church**  
 Sunday school 9:45.  
 Morning worship 11:00.  
 Evening service, 8 o'clock.  
 Young People's meeting 7:00.  
 Woman's Missionary Society, 3 p. m. Wednesday.  
 Choir rehearsal on Thursday, 8 p. m.  
 Stewards meet every first Sunday.  
 Local board meeting each first Tuesday night, 8 o'clock.  
 E. P. NEAL, Pastor.

**Baptist Church**  
 Sunday school, 10 a. m.  
 Preaching, 11 and 8:00 each Lord's day.  
 B. T. S. Sunday, 7:15 p. m.  
 Prayermeeting and choir practice Wednesday, 8 p. m.  
 Z. E. PARKER, Pastor.

**Church of Christ**  
 Bible Study, Sunday 10 a. m.  
 Worship, 10:45 a. m.  
 Ladies' Bible class, Wednesday, 8:30 p. m.

**New Road Dustless at Recent Opening**

Highway 27 from Kerrville to San Antonio Partly Oiled

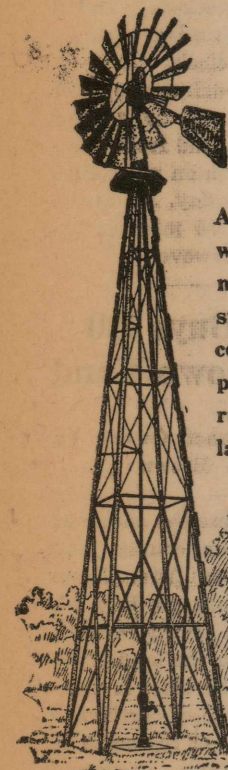

Highway 27 between Kerrville and San Antonio was a dustless road Friday, when the recently oiled sections in Kerr and Kendall counties were thrown open to traffic for the first time.

The application of two coats of prime oil on the unpaved portion of the highway from Boerne to a point five miles southeast of Kerrville was completed several days ago.

Mrs. Amy Wallace, secretary of the chamber of commerce, Wednesday morning advised by G. M. Jowers, resident highway engineer for Kerr county, and Resident Engineer Schultz of Kendall county that the oiled stretch of road would be opened for travel Friday.

The elimination of dust on the route is expected to bring a greatly increased number of week-end visitors to the Hill Country from San Antonio and other South Texas cities.—Kerrville Mountain Sun.

**San Saba Star Editor Talks Interestingly of Sightseeing at Century of Progress Fair**

(Joe Cowan in San Saba Star)

One of the disappointments of the World's Fair was the failure of Texas to have an exhibit there. The exhibits of the states are located around a triangular court and the name "Texas" adorns one compartment, but there is no exhibit there. Many of the states have exhibits which reflect the glories of their resources and products and Texas could have a magnificent display in its space if there had been the proper backing in the hands of the committee in Dallas.

Wisconsin had a picturesque woodland exhibit and Ohio showed its rubber plants, Washington its apples. California its oranges, Georgia its cotton, New York its cities and industries, and Illinois had a separate building with an Abraham Lincoln exhibit and other features for the visitors because it is the host state.

Countries represented were Italy, Japan, Mexico, Czechoslovakia, Sweden, Poland and many of the United States territories including Alaska. Puerto Rico and Cuba had displays. Commercialized places representing foreign countries were a reproduction of a Belgian village and the Street of Paris.

Primitive America was represented by several tribes of Indians from New Mexico and Arizona being located in an Indian Village. The Indians lived in huts, replicas of their own homes and sat about weaving rugs and baskets, and making and painting pottery. The Indians were living in their usual manner, sitting on the dirt floors of their huts and the women were doing the work while the men sat around smoking their pipes.

The Japanese were working with their silk and the entire process of the industry from the silk worm cocoons to the silk cloth was shown in the exhibit. An interesting part of this exhibit, from the American viewpoint was a small model of Mount Vernon built out of Japanese pearls.

Italy's exhibit was housed in a modernistic building shaped somewhat like an airplane. A fleet of two dozen seaplanes made a flight from Italy to the fair. They landed on Lake Geneva in Wisconsin, about 80 miles from Chicago.

Four permanent structures at the entrance to the World's Fair Grounds are the Adler Planetarium, Field Museum, Shedd Aquarium and Soldier Field. The Adler Planetarium has a dome-shaped white ceiling and once every hour the lights are flashed off and the ceiling becomes a blue sky, sparkling with millions of stars, seemingly so close and real that you can reach up and touch them.

A lecturer tells you about the firmament. His pointer is a beam of light. Behind him is a concealed switchboard with which he controls the apparatus. You are permitted to look ahead into the future and know where the Pole Star or any other heavenly body will be situated at a particular minute of a particular day decades or centuries hence. You can look back into the past and see the heavens as they appeared when Christ walked on earth and when Galileo studied the stars with the first telescope.

One of the most interesting phases of the stars at the present time is the western sky slightly to the south. Here you can see Mars and Jupiter, although Jupiter is millions of miles beyond Mars, appears to be almost touching. Some nights they are closer together than at other times.

Field Museum contains a variety of exhibits from natural history with many mounted animals to origin of the developments of the achievements of man. It was donated to Chicago by Marshall Field, who owns the outstanding department store in Chicago. The aquarium has an assortment of fish and marine life. An interesting phase of the fish life is that subsea fish have no eyes because there is no light there for them to see.

Soldier Field is by the side of the fair grounds and national track meets, football games and other sports will be featured at various times during the fair. The National Collegiate and Scholastic Track Meets were held while we were at the fair and England and Irish

teams were participating in a soccer meet.

Opposite Soldier Field in the fair grounds there is an aquatic theatre on the bank of Lake Michigan. A stage is anchored to the bank and musical programs are given here and swimming, diving and boat competition has been planned for later in the summer. The stage is afloat and may be removed for aquatic events.

Other sports on the grounds include water golf, which is played from boats; beach bathing, and plenty of hiking to cover the immense grounds which are available to the public.

Cost of seeing A Century of Progress is one of the reasonable items of the trip. Admission to the grounds is 50 cents and if an adult saw everything on the grounds, it would cost \$26.20. However, that would take more time and energy than most persons could exert because there are so many free attractions after one gets into the grounds that only a paid admission at intervals is necessary to keep busy seeing interesting things.

School children are admitted to the grounds every Friday for a nickel and a child can see everything on the grounds for \$16.80. However, these maximum admission figures include many things that one would not want to see or do. This includes a \$3 ride in a dirigible and many persons would stay on the ground, an hour's ride in a ricksha, a half hour in a roller chair, a cruise in one of the boats on the lagoon, and a ride in a gondola.

College athletes pull the rickshas (the Chinese Carts) and push the wheel chairs, but these methods of conveyance are used by the older people who can't get around over all the 83 miles on foot. The cost for these methods of transportation is \$1 an hour. However, one can ride from one end of the grounds to the other in a bus for a dime. The general custom is to walk down one end of the grounds and then ride back in a bus.

A thirty minute motor boat trip or a 15 minute gondola trip costs 50 cents. Most of the admissions to shows on the grounds is 25 cents with a few 40 cents and a few 10 cents.

Prices of food on the grounds depend on where one eats. If there is a place on the grounds that has a name to uphold elsewhere as a chain drug store or a store that is established outside of the grounds the prices are the same on the fair grounds as in the city stores. The places that are built as concessions on the grounds are the ones that overcharge for the food.

Everything on the grounds in the way of exhibits can be purchased. You can buy cigars that you see made; you can drive off a car that you see assembled; shirts that are sewed in the exhibit halls are sold for their market value; a tube of tooth paste that you have seen filled, can be bought at the same price you would pay in any drug store.

The best trained detectives in the country are on the grounds, and up to date no pickpockets have worked on the grounds although several have been picked up at the gate before they entered the grounds. No bums were on the grounds and we were not accosted by a single beggar.

**FREDERICKSBURG TO VOTE ON INCORPORATION AGAIN**

Fredericksburg, July 22.—The city of Fredericksburg will vote again Aug. 23 on the question of whether it will remain one of the largest unincorporated towns in the state.

On April 18 the electorate voted to abolish the city government created in 1928. The city has a population of 4,500.

An order calling for the August election was issued today on petition of 207 voters. A larger area would be included in the proposed city than was contained in the old municipality and prospects of federal funds to construct a waterworks gave proponents of incorporation hope.

Mr. and Mrs. Orion Brown and their daughter, Kathryn, made a business trip to San Angelo Wednesday.

**Reg'lar Cowboy**

Here is Boss Stavely, aged 7, of Fluvanna, Texas, who is a regular cowboy, boots, spurs and all. Boss has smoked since he was a year and a half old and it has never made him sick. He can build up a smoke screen big enough to hide his small self in no time.

**HEALTH NOTES**

**DIABETES CAUSES OVER 500 DEATHS ANNUALLY**

Austin, Aug. 2.—Among the prominent causes of death in the middle aged group and older is the malady known as diabetes. Like many other diseases, its power as a cause of death can be traced to the lack of early diagnosis, or in other words, to the carelessness of its victims. In Texas about 500 citizens die of this disease each year and the number is steadily mounting.

The periodic physical examination will disclose the unsuspected facts at a time when diabetes is most susceptible to scientific attack. Why should one refuse to use this great weapon of proven power against diabetes and other diseases is difficult to understand. The three first noticeable symptoms are thirst, hunger and excessive elimination of urine. These are accompanied by loss of vitality, strength and weight. In middle aged persons boils and carbuncles are quite common.

The immediate cause of diabetes is a lack of secretion of the pancreas, known as insulin. The main thing is to guard against the disease. Three simple rules, if reasonably applied, will go far toward that end:

1. If overweight one should reduce by restricting the diet and by exercise, though both should be under the direction of a physician.
2. Infections of tonsils, teeth and other organs should receive professional attention.
3. Make the health examination an annual diet.

The reason the death rate from diabetes is rising is due to the fact that more people are living to middle age and beyond than has been true in the past and it is a disease of middle life. It is not contagious, it can be controlled by diet and in-

**Entomologist at Menard Abroad**

Cushing Leaves for Study in Liverpool for Six Months

E. C. Cushing, government entomologist in charge of the Menard fly trapping experiment will soon sail for Liverpool, England, to enter Liverpool School of Tropical Medicine, there to do special study pertaining to insects that cause diseases in man. He will be accompanied on the trip by Mrs. Cushing and they expect to leave here August 1. They will depart from New York harbor about August 15.

Mr. Cushing expects to study six months in Liverpool and on return to this country he plans to enter Johns Hopkins University at Baltimore to complete his studies. He is working for a D. Sc. degree.

The fly trapping experiment here will again be under the supervision of H. E. Parrish. Mr. Cushing was unable to say how long this exper-

iment would be continued but the appropriation made by congress last year would carry it through this fiscal year, which ends June 30, 1934.

It has been suggested by the department that the three experiments in West Texas at Sonora, Menard and Uvalde be consolidated. No information regarding this has been received, however.—Menard Messenger.

**Petting Kills Bull Snake**

Lawrence, Kan.—A Bull snake, that received much attention recently by following his mistress, Mary Lou Nelson, to school, is dead. Civilization was too much for him. Little Mary's friends came too often to pet and caress the elongated animal. The snake now adorns a frame in Mary's bedroom. Now you tell one.

Bee Stings Heat Up Kerrville Firemen

Boys Answer Alarm, Get Stung by Causes of Small Blaze

Kerrville firemen answered an alarm early Monday morning and got stung. No, it was not a false alarm. In fact, it was a double alarm.

When firemen reached the home of C. S. Coppock in answer to a hurried call, they found a very small blaze and a very large colony of bumble bees in an exceedingly bad humor. Mrs. Coppock built a fire under the edge of the house in an attempt to smoke out the bumble

bees that had preempted a claim underneath her residence. Fearing that the fire had gotten out of control, she turned in an alarm.

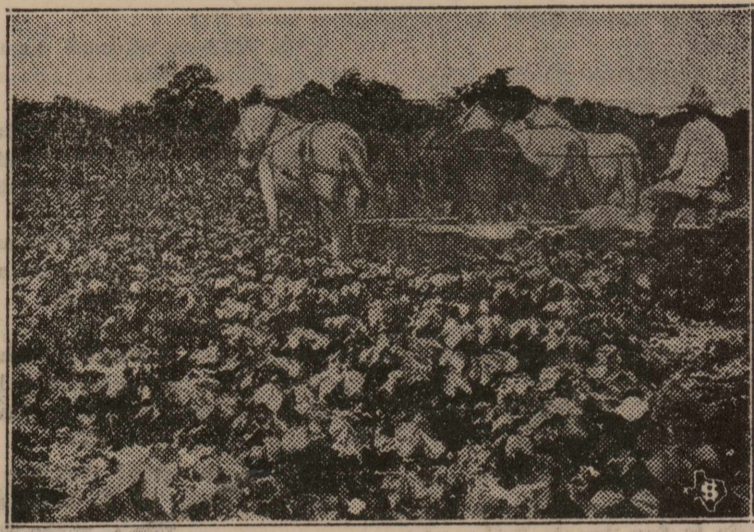

The flames caused no damage, but the bumble bees did. Chief Geo. W. Doyle and Fireman Mike Allen crawled under the house to extinguish the fire, and after the battle both were eligible for wound stripes.

"If there is anything hotter than fighting a fire under a house on a July day, it is fighting a fire and a family of infuriated bumble bees at the same time," quoth Chief Doyle as he gently rubbed a badly swollen hand.—Kerrville Mountain Sun.

Labenskies Buying in San Antonio

Mrs. Lee Labenske and daughter, Miss Mildred, left Wednesday afternoon for San Antonio where they will spend several days buying new merchandise for The Style Shop. They were accompanied by Miss Joanna Stokes.

Familiar Scene as Destroying Cotton Begins

This will be a common scene all over Texas this week, as farmers begin to plow under more than 4,000,000 acres of cotton in compliance with the Federal Cotton Reduction program. About one-third of the cotton now standing in Texas will be plowed under. The Texas farmers will gain approximately \$40,000,000 from the government by this procedure, inaugurated to do away with the great national cotton surplus and...

Natural Gas Discovered When Drilling for Salt

Natural gas was known in Asia ages before it was put to its present practical purposes in this country. It appeared as leakage from gas-bearing strata through crevices in the ground and when lighted—usually by accident—was often worshipped as a manifestation of a fire god. It was thus known in India, in China and in Persia, says a writer in the Cleveland Plain Dealer.

In the United States the first discovery of natural gas by drilling was in Ohio and West Virginia in the early Nineteenth century when surprised salt makers struck gas while sinking shallow wells for salt.

Rufus Stone, one of the first operators in the salt making business at McConnellsville, Ohio, while drilling for salt struck a reservoir of natural gas strongly impregnated with sulphur, which caused the driller to exclaim they had "drilled through to hell." At first the well was considered a failure, but the gas was later put to work to boil the water for the salt making. This use of it is said to have continued for 40 years.

Other such accidental discoveries of natural gas were occasional, and in 1826 the first use of it for light was made at Fredonia, N. Y. A hundred street lights were fed there by gas which had been discovered by seepage through a millstream. The first place to be piped for the use of natural gas for domestic purposes was Titusville, Pa., in 1872.

Many New Fawns Now Appearing in the Hill Country

Second Crop Young Deer Arrives Contrary to Usual Custom; Wild Turkeys Trapped

A second crop of fawn deer has arrived in the Hill Country area this season, according to J. J. Dent, director of game preserves for the State Game, Fish and Oyster Commission. This unusual occurrence has been frequently commented on recently by ranchmen who have lived in this section for many years.

Many new-born fawns are now being found on the ranges, whereas the fawns usually are about two months old at this time of the year. It is believed that weather conditions during the winter were responsible for the late arrivals.

Director Dent estimates that 75 per cent of the fawns were born 60 days ago, their mothers being the older does and that the very young fawns born the latter part of this month are the off-spring of yearling does. The reason for this belief is that the young fawns now being found are singles. Young does give birth to one fawn, the older ones usually two. Average life span of a deer is 20 years.

The game department has moved 500 deer since last November 1 to various parts of the state, the transferred deer coming from the prime hunting grounds in Kerr, Mason, Comal and Gillespie counties and directed this season chiefly to North and East Texas. There will be about 450 deer to be moved this fall from the same counties for restocking purposes in other parts of Texas.

Approximately 250 wild turkeys have been trapped in the Hill Country section this season and moved to other portions of the state, as in previous years. The turkeys are trapped by employees of the game department, who erect a net over feed sacks. On one occasion this year 76 turkeys were caught in this manner with a 50x60-foot trap.

As proof of that fact that the State Game, Fish and Oyster Commission's conservation work is getting results, there are now hundreds of wild turkeys in many sections of Texas where the game birds had been extinct for years before the re-stocking program was inaugurated. Four years ago there were no wild turkeys in the Panhandle section when Director Dent supervised the moving of a flock of 13 turkeys, trapped in Kerr county, to the Masterson ranch near Amarillo. Today, it is estimated there are 1,000 wild turkeys in that immediate section. Similar results have been obtained in other parts of the state.

The best wild turkey country in Texas is found in Kimble, Edwards, Real, Kerr, Mason and Sutton counties. It is estimated that the number of wild turkeys in the state November 1, 1933, will be twice as large as the number at the same date last year unless disease strikes them.—Kerrville Mountain Sun.

Tarzan Mimickers in Narrow Escape

Louisiana Girls Ape Jungle Man; Resolve to Stop It

Hammond, La., Aug. 2.—At last it's come to this—the girls are stealing Tarzan's stuff.

After reading of the apeman's hair-raising adventures in the tops of tall trees, little June Shirley and Elaine Herring decided they would play Tarzan. Perched twenty-five feet up in the tree on the end of a limb, June was just ready to freeze the blood of man and animal with her Tarzan yell.

She drew in a big breath and the limb broke. She plunged the full twenty-five feet to earth like a plummet. Elaine clung to her limb until rescued. At a doctor's office it was discovered June had suffered nothing worse than a severe shaking up.

They are through with apeman exploits, both declared.

Nisbets Back from Trip

Mr. and Mrs. W. R. Nisbet and their son and daughter, returned home Friday from a week's trip during which Mrs. Nisbet and Patsy visited Mrs. Nisbet's sister, Mrs. W. S. Allen, and Dean Allen, at Waco, while Mr. Nisbet and Bobby visited Texas A. & M. college at College Station, where they found the short course then in progress of interest. One night was spent in Brownwood, where Mrs. Nisbet visited her mother and sister.

Modern Dairy Industry Was Launched in 1860

The modern dairy industry, one of the leading industries of the country, was first definitely launched as late as 1860, when the first dairy factory was started in New York state. Up until that time, says a writer in the Washington Star, the production of butter and cheese was a matter of the individual farmer's choice. However, so successful was the first butter factory established, the growth of the system was almost mushroom-like in its rapidity. The uniform quality of butter and cheese, for instance, produced by a single butter or cheese maker was found more satisfactory than the older system of individual farmers or their wives turning out the product of their own dairies.

The preserved milk industry and all the allied industries resulting from the production of casein and lactose followed as a natural consequence of the factory type operation in the dairy industry.

Murder Case to Supreme Court

When Justice Holmes was appealed to in August, 1927, to issue a stay of execution in the case of Sacco and Vanzetti, he pointed out that it was a crime under state laws and tried by a state court and that he had absolutely no authority as a judge of the United States to meddle with it. In a long statement regarding the legal aspects of the matter, he added: "A state decision may be set aside by the Supreme court of the United States if the record of the case shows that the Constitution has been infringed in specific ways. An application for a writ of certiorari has been filed on the grounds that the record shows such an infringement; and the writ of habeas corpus having been denied, I am asked to grant a stay of execution until that application can be considered by the full court." The application for writ of error or certiorari was also refused, so that the Supreme court did not review the murder case.

The Sea's Gems

Four substances complete the entire list of objects contributed by the ocean to the jewel box. For besides the pearl, it is very probable that no other actual gems exist in the sea. There are, however, three other precious materials found in the ocean, from which jewelry is made—namely, coral, amber and cameo shells. It is true that the water in the ocean contains gold, silver and many other precious metals and valuable minerals, but these are largely held in solution, and in the case of metals are extremely expensive to recover. For example, the amount of gold in sea water averages one ounce to 31,000 tons of water.—Washington Star.

Great Engineering Feat

One of the most gigantic engineering feats in history is the reclamation of the Zolder Zee, 40 miles wide and 50 miles long, which is about half of what the sea gobbled up 700 years ago. During the Middle ages the Frisian islands were an almost continuous series of dunes which protected the low land in back from the encroachment of the sea. Even now they almost cut off the inland waters from the North sea.

Greek Youth

The Greek youth or "ephebus" swore "Never to disgrace his holy arms, never to forsake his comrade in the ranks, but to fight for the holy temples and the common welfare, alone or with others; to leave his country, not in a worse, but in a better state than he found it; to obey the magistrates and the laws and defend them against attack; finally, to hold in honor the religion of his country."

Big Lake Field Is Record Field Still

Greatest Production Area of Its Size in Entire World

Austin, July 20.—No area of corresponding size in any other district in the world has equaled the production record from deep stratum of the Big Lake field in Reagan county. At this time there are 17 wells located on the block of a little more than 640 acres of land owned by the University of Texas which are producing oil of 56 to 60 degrees gravity, the highest grade yet found in any oil field in Texas.

These wells are producing from a depth ranging from 8,500 to 9,020 feet. The largest producer in this group has potential flow at this time of more than 5,000 barrels daily. The total production of 10 wells of this group since their completion is approximately 15,000,000 barrels. The first of these deep stratum wells was completed November 30, 1928, its depth being 8,520 feet. Since then it has been deepened to 8,671 feet. It has a production record of more than 2,666,000 barrels. The cost of drilling this well was approximately \$250,000, and each of the other deep wells, drilled to the great depth from which production is obtained, have cost more than \$200,000. At this time there are four wells being drilled in the deep stratum area.

Young Ladies on Trip

The Misses Thelma Rees, Zella Lee, Thorp, Josephine Elliott of Cress who is visiting Miss Thorp, and Elizabeth Caldwell left Thursday morning for Georgetown, where they went to attend the summer commencement exercises at Southwestern University, where the last three were students. Miss Rees will go from Georgetown to Kerrville, where she expects to be joined next week by her parents, Mr. and Mrs. Robert Rees; her sister, Mrs. J. H. Chipman, and her family of Bander; her brother, M. L. Rees of Bryan, and his family; and her sister, Mrs. Pearl Thomas of Ojai, Calif., and son, Junior; all of whom plan to go to Medina Lake for a fishing trip. Miss Rees is on her annual vacation. The other young ladies will return here Sunday.

All summer dresses Half Price and below. The Style Shop.—adv.

SPIRIT OF SONORA COMMENDABLE

Sonora business men, in common with those in many other communities of the United States have rallied to the national administration's efforts to relieve unemployment with commendable promptness.

With complete plans yet unknown, and with individual codes for the various lines of business remaining yet to be worked out in most cases, the American people have rallied to a National emergency with the same patriotic enthusiasm which was so large a factor in our successful termination of the World War.

In smaller towns the effect of the increased pay and shorter hours of work may not be seen as quickly as in larger industrial plants with full-time production, but within a few weeks we will likely see a considerable increase in employment even in towns of less than 2,000 population.

Sonora business men, along with those of many other small towns of the nation, are to be commended for their whole-hearted attack on the underlying cause of the depression, unemployment.

The national recovery program, tending as it does to stabilize commodity prices in the upper bracket, will tend to make ranch property a permanent thing.

"Devil's Dream"

(By W. E. James)

THE TEXAS EX-RANGERS ASSOCIATION

The Dreamer has received the following letter from George B. Black, Comanche, captain of Texas' ex-Rangers. Captain Black will be remembered by scores of Sonorans, he having been at one time a resident of the town.

The letter: Comanche, Texas, July 26, 1933. Mr. W. E. James, Sonora, Texas.

My dear Friend:—There may be scattered around your county some ex-Rangers who would like to attend our 14th annual reunion, and any member who holds an honorable discharge is entitled to membership. We expect a large gathering this year, as steps will be taken to organize a sons and daughters auxiliary. Please give our meeting some publicity through The Devil's River News, and come to see me some time.

Our Lions Club meets the 2nd and 4th Mondays at noon, and any member of the Sonora club will be an honored guest at any of our meetings.

Sincerely yours, GEO. B. BLACK.

Printed matter accompanying the letter states that the Texas Ex-Rangers Association meets in Comanche on August 8, 9 and 10. Captain Geo. B. Black has been promised the support of every organization in the city, including the American Legion, the American Legion Auxiliary, the Boy Scouts, the Lions Club, the City Council, and every business man.

Comanche has one of the most beautiful parks in the world, located three miles from the city, where visitors will be provided with good meals. The Lions Club Orchestra will furnish entertainment during the three-day meet, and about 50 Boy Scouts will be on hand to give information and to serve in various ways as may be wished.

The Ex-Rangers Association chaplain, Capt. L. T. Arnold, who is over 90 years of age, is expected to be present and to perform the usual duties of a chaplain. Comanche is his home town.

Further comment: "Bring your bed roll, cot and a good appetite. Comanche will do the rest. We are expecting a good time among our own kind of folks and trust it will be a privilege to meet you in Comanche August 8."

35 YEARS AGO

From The Devil's River News for August 5, 1899:

Sheriff E. S. Briant received the following letter from Congressman Slayden Thursday which explains itself and shows that Congressman Slayden has succeeded in having a twice a week mail route established between Sonora and Rock Springs. It is unnecessary to say that the people are truly grateful to Congressman Slayden for his efforts in this matter. \* \* \* \* \*

Bids will be received by the Postmaster at Sonora up to the 12th of August, for the carrying of the mail twice a week from Sonora to Rock Springs and return. Thirty hours running time each way is allowed. The contract to run from Oct. 1st, 1899, to June 30th, 1902. All proposals must be accompanied by a bond executed by the bidder and two or more sureties in the sum of \$1600.

The Ozona Courier reports that Abe Mayer of Sonora bought from Livingston Bros. of the Pecos country 1200 steers, ones, twos and threes at 16, 21 and \$26 per head.

Mrs. M. A. Traweck and grandson Rankin Rudicill returned from a visit to San Angelo Wednesday.

Henry Diebitsch the sheepman was in from his ranch in the Juno country Friday.

R. M. Halbert returned from a trip to Judge J. J. Ellis' in Edwards county.

Mr. E. Vander Stucken of Menardville, arrived in Sonora Sunday on a visit to his son and daughter, Felix and Sophie.

Max Vander Stucken of Menardville, arrived in Sonora Sunday and has accepted a position with E. F. Vander Stucken Co.

Mrs. Thomas Covington arrived in Sonora Monday, on a visit to her parents, Mr. and Mrs. J. L. Davis.

Wilkins Attend Wedding

Mr. and Mrs. W. J. Wilkinson were among attendants at the wedding Wednesday in San Antonio of Miss Marion Blakeney of San Angelo, daughter of Mr. and Mrs. Joe Bakkeney, to Mr. A. L. Kreuger, also of San Angelo. Mrs. Wilkinson is an aunt of the bride.

Parkers Home from Alta Frio

The Rev. and Mrs. Z. E. Parker, their son, Maron, and daughter, Dorothy Nell, returned Friday from the annual Baptist encampment at Alta Frio. They report the encampment one of the best in history, with an attendance of 1000, largest in 15 years.

Miss Pearl Farris Taken Ill

Miss Pearl Farris was taken to San Angelo Wednesday afternoon by her sister, Mrs. Jim Caldwell, and Mr. Caldwell, when it was found that an operation for the removal of her appendix would be necessary.

Miss Draper Here from Lohn

Miss Merle Draper of Lohn, accompanied by her sister, Miss Hazel, arrived Wednesday afternoon for a visit with their cousin, Miss Grace Draper. Miss Merle Draper will teach expression during the coming school year and is here to arrange her classes.

Mrs. W. D. Martin Improved

Mrs. W. D. Martin, who recently was brought home from San Antonio hospital where she underwent a major operation, is improving steadily at her home, it is reported this week.

Miss Jones Back from Trip

Miss Agnes Jones returned Tuesday from a vacation trip to Bangs, where she visited her sister, Mrs. Frank Morgan, and Brownwood, her former home, where she visited friends.

Guests of Gilmores Leave

Mrs. Jack Clark of Fort Worth, with her children, Jacqueline, Robert and Norman, left Monday after a visit with Mrs. Clark's sister, Mrs. W. C. Gilmore, and the latter's family.

Error in Ad Last Week

Through error a line was omitted from the advertisement of the Sonora Beauty Salon in last week's issue of The News. The message should have read "Herpicide Oil Shampoo, 75c, with wave set free." The line announcing free wave set was omitted.

Cottonmouth Kills Rattler, Showing Snakes Deal Death to Related Species

Little or no information seems available on the subject of whether snakes can bite each other with fatal results, says H. K. Gloyd in Science, official organ of the American Association for the Advancement of Science.

"Beyond a few brief general comments, such as 'poisonous snakes are immune to their own venoms and the venoms of each other,' and 'snakes are immune to the venom of their own species but may be susceptible to that of a closely related species,' literature is silent on this subject," says Mr. Gloyd.

"As a matter of general interest and because of its suggestiveness in this little-explored field, it seems desirable to record an instance in which the venom of a cottonmouth moccasin is known to have proved fatal to a rattlesnake.

"In connection with the demonstration of venomous snakes for a Boy Scout troop on November 18, 1932, a four-foot Western diamond rattlesnake was severely bitten by a 30-inch cottonmouth, as the former was being lifted from a box in which both had been confined. The bite was lateral in position and about five inches anterior to the tail. Both fangs of the moccasin are thought to have penetrated the body of the rattlesnake, although the punctures could not be found.

"Little attention was given to the matter at the time, but the following morning, when the snakes were returned to their enclosures in an animal room of the Zoological Laboratories, it was noticed that the body of the rattlesnake was swollen near the region of the bite, and that the skin visible between the scales was of a dark greenish-blue color.

"No further change was noticed until the third day, about 71 hours after the bite, when the snake was found bleeding at the mouth with its head inclining over the edge of an empty water pan into which approximately 20 cubic centimeters of bloody fluid had fallen. It was very sluggish and responded only slightly when touched. When removed from the cage and examined, it was evidently almost dead. Occasional spasmodic twitches of small portions of the body occurred, however, over a subsequent period of two and a half hours.

"Post-mortem examination of the region of the bite revealed much discoloration, extravasation of blood and lymph, and evidence of general histolysis (disintegration of tissue) in all tissues of the body wall. Extending along the left side of the

body cavity adjacent to the lung was another area which seemed to have been attacked by venom from another bite which probably occurred as the rattlesnake was being replaced in the box. Marked histolysis was evident in this region also. The lung was filled with blood which did not coagulate, extravasation in this organ being responsible for the bleeding at the mouth before death.

Continuing, Mr. Gloyd says: "Almost every one who has kept living venomous snakes for study has observed that on occasion they fortuitously bite themselves or other of their own or closely related species without the occurrence of noticeable reactions. I have seen a rattlesnake sink its fangs a time. Its own writhing body deeply into the ground by a when pinned to the ground by a diamond collecting hook; a Western rattlesnake bite another of its species, giving it two powerful strikes in quick succession, and a prairie rattlesnake bitten by a copperhead, the fangs penetrating deeply enough to cause a distinct flow of blood from the wounds. Each of these snakes was examined frequently during the two or three days following the bites and none suffered apparent effect."

RFC Cuts Wood for Menard School

Board Saves \$500 on Former Bills Winter Fuel

Menard Independent School district is saving \$500 on its fuel bill for next year.

This saving is made by changing from coal to wood cut by RFC workers.

One hundred cords were cut out of the big black oak on Mr. Callan's land. The board paid for hauling and sawing these cords amounting to \$150 and \$50, respectively. Mayor Anderson, local chairman of the RFC funds supervised the work.

The schools used wood part of last year and found it to be satisfactory and more economical than coal. When prices were at the peak the coal bill for Menard schools amounted to \$700 a year. Free wood and free labor accounts for the big saving.—Menard Messenger.

Mr. and Mrs. Neill in Cuero

Mr. and Mrs. George H. Neill and little daughter, Jane, left last week-end for San Antonio and Cuero for a vacation. They will be guests of Mrs. Neill's mother, Mrs. W. F. Harris, in Cuero.

"Little Stories for Bedtime" by Thornton W. Burgess

PETER IS REMINDED OF AN OLD FRIEND

WHEN Peter Rabbit reached the dear Old Brier Patch he had a lot to tell Mrs. Peter. He was so full of all he had learned about Short-Tail the Shrew that he just had to tell some one, and the only one about was little Mrs. Peter. She listened patiently, for in most matters little Mrs. Peter is the most patient person.

"And to think that he has been a close neighbor all this time and I didn't know a thing about him!" ended Peter.

"Huh!" replied little Mrs. Peter, "I don't see anything surprising about that. There are more things you don't know about, and never will know about, Peter Rabbit, than ever you have heard or dreamed of. That is why it is so silly of you to think you know all there is to know."

Peter pretended not to hear, and continued to think about Short-Tail the Shrew. "He isn't a Mole and he isn't a Mouse; he is sort of halfway between the two," thought Peter. "He spends a lot of time under ground like Miner the Mole, and that is why his eyes are not much bigger or better than Miner's. At

the same time he is quick on his feet like a Mouse and does a lot of hunting on top of the ground as well as under it. He isn't either Mole or Mouse, but is like both. That musky smell certainly is unpleasant. I don't wonder Reddy Fox turned up his nose. Speaking of musk reminds me that I haven't seen Jerry Muskrat for ever so long. I think I'll run over to the Smiling Pool this evening and see what the news is there."

Peter hadn't intended to say this aloud, but he did. It is a way he sometimes has of talking to himself.

"The best thing for you to do is to stay at home where you belong," declared little Mrs. Peter rather sharply. "I should think you would want to stay at home once in a while."

Peter looked a little sheepish, but said nothing. When Jolly, round, red Mr. Sun slipped down behind the Purple Hills to go to bed, Peter watched the Black Shadows creep out across the Green Meadows and then started for the Smiling Pool. He knew that at this time of day he would be almost sure to find Jerry Muskrat, for it is the time of day when Jerry loves to swim about and go visiting.

Nor was Peter disappointed. Jerry was just climbing out on the Big Rock and in his mouth was a mussel, which is what some people call a fresh water clam. Peter knew better than to ask any questions until Jerry had finished his feast. If Jerry knew that Peter was there, he made no sign. Very deliberately he opened the mussel and ate it, dropping the shell in the water. When he had finished smacking his lips he looked over to where Peter sat on the bank.

"Good evening, Peter," said he. "You are quite a stranger. Have you come over to help me build a new house?"

"Have I what?" cried Peter. "Have you come over to help me build a new house?" repeated Jerry. Then he chuckled at his own joke, for he knows just what a lazy fellow Peter Rabbit is.

Fair in New Orleans he planned to visit Mrs. A. V. Kennedy, formerly Miss Jean Schrier, who worked in the office of the county clerk while in Sonora, and Mr. Kennedy, who now live in New Orleans.

Fort Worth Visitors Here

Mr. and Mrs. W. C. McMahan and children, Nancy, Shirley and Leon, of Fort Worth, arrived Thursday morning for a vacation visit with Mr. and Mrs. Ben H. Cusenbary and family. Mr. McMahan is with the Fort Worth Star-Telegram's mechanical department.

PERSONALS

W. C. Gilmore made a business trip to San Angelo Friday of last week.

S. B. Thomas of Miles is visiting his sister, Miss Lois Thomas here this week.

A. E. Neal, cattle buyer of Miles and San Angelo, was in town Thursday on business.

Mr. and Mrs. L. L. Stuart returned Wednesday from a business trip to San Angelo, where they went Monday.

The Misses Madolyn Simmons and Doris Anderson of San Angelo were guests of Mrs. T. O. Earhart Wednesday.

Mesdames R. A. Halbert and M. M. Stokes; Miss Bobbie Mae Halbert and Miss Alice Karnes were San Angelo visitors Friday of last week.

Mr. and Mrs. A. Y. Aycock of Melvin, and their son, Howard, spent last week-end here with their daughter and sister, Mrs. E. P. Neal, and the Rev. Mr. Neal and family.

Mr. and Mrs. Ben F. Meckel and daughters, Doris and Geraldene, left Wednesday morning for a ten-day visit in Dallas with Mrs. Meckel's sister, Mrs. Hollie B. McGonagill.

Mrs. O. B. McCalmont, with her daughters, Carmen, Nadine, Ardelle and Melba Jean, left for her home in San Angelo Friday of last week after a two-day visit here with Mr. and Mrs. W. E. James.

Mr. and Mrs. M. C. Puckett, their children, Gerald and Glenna, and Mrs. Puckett's nieces, the Misses Madolyn and Rhessa Cawyer of Brady, are expected home this week-end from a week's outing in Corpus Christi.

Mrs. A. J. Smith and her granddaughter, Mary Jane Evans, returned Saturday afternoon from a week's visit made by Mrs. Smith to her daughter, Mrs. Mary Evans, there. Mrs. Evans plans to come to Sonora Saturday night to spend her vacation.

Mrs. B. B. Kelly and small son, James Britton, returned to her home in Texon Tuesday morning after a week-end visit spent here with her parents, Mr. and Mrs. W. E. James. Mrs. Kelly was accompanied home by her sister, Miss Faye James, who will make a short visit there.

### Miss Elliott Gives Dinner for Ten in Honor House Guest

Miss Elizabeth Elliott was hostess at a semi-formal dinner at her home Tuesday evening in honor of her cousin, Miss Phoebe Ann Pierson, of Ardmore, Okla., who has been her house guest for several weeks.

Covers were laid for ten, including the hostess and honoree, and a three-course dinner was served at 6:30 o'clock. Fancy hats marked the places, and whistles and other party "noise-makers" constituted favors.

Following dinner each young lady present played a number on the piano for the entertainment of the others. The group then enjoyed the singing of various songs, while gathered around the piano, and at an appropriate hour a line party was formed for the picture show.

Included in the hospitality of Miss Elliott and her mother, Mrs. L. W. Elliott, were: the Misses Katherine Brown, Wyona and Wilma Hutcherson, Catherine Trainer, Joyce McGilvray, Jo Ann and Lucretia Marion, and Rena Glen Shurley.

### Early Breakfast Is Compliment to Two San Angelo Girls

The Misses Ardelle and Nadine McCalmont of San Angelo were honorees at a sunrise breakfast on the hill back of the school building Thursday morning, of last week when the Misses Kathryn Brown and Catherine Trainer were hostesses.

Miss Brown's mother, Mrs. Orion Brown, accompanied the girls.

Miss Josephine Elliott of Cress is the house guest of Miss Zella Lee Thorp.

Eldest Granddaughter of Mr. and Mrs. B. M. Halbert Wins Place

Miss Kyda Bloodworth of Tucson, Ariz., eldest granddaughter of Mr. and Mrs. B. M. Halbert, was awarded third place for the entire state of Arizona, in competition with 17 other young ladies representing different parts of the state, at the 7th annual bathing beauty review and selection of "Miss Arizona" at the Fox theater in Phoenix, Ariz., July 27-28, it was learned here by Mr. and Mrs. Halbert this week.

Miss Bloodworth, who is the daughter of Mr. and Mrs. Lloyd P. Bloodworth of Tucson, was awarded second place in a sectional competition between 14 entrants from southern Arizona, in which Miss Betty Smelker won first place, carrying the title, "Miss Southern Arizona," and Miss Bloodworth was awarded second place, entitling her to the term, "Miss Tucson."

In the state contest, Miss Margaret Boyd, posing as "Miss Hotel Adams," received first place, Miss Smelker placed second, and Miss Bloodworth took third.

Miss Bloodworth appeared in the stage presentation, directed by Willard Osborne for the Junior Chamber of Commerce bathing beauty revue committee at Phoenix.

### Sonora Caravan Off to Fair, Exposition

Sixteen Persons Leave Thursday Morning, Going in 4 Cars

At 4 o'clock Thursday morning an auto caravan of Sonora citizens set out for the World's Fair and Century of Progress Exposition at Chicago.

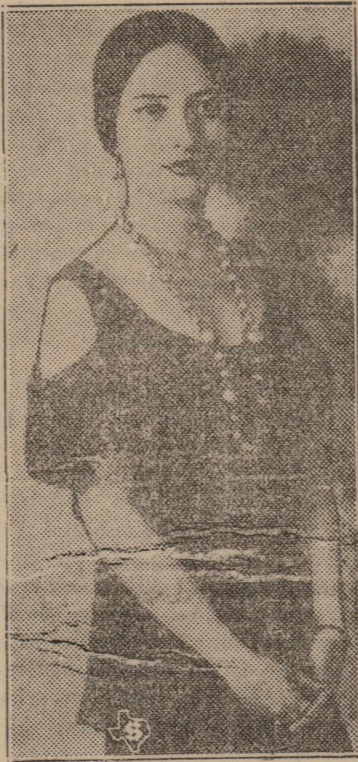

Mr. and Mrs. R. A. Halbert and their daughters, the Misses Allie and Bobbie; Mr. and Mrs. B. M. Halbert, jr., Dr. Tom White, Mr. and Mrs. John Fields, Herbert Fields, Mr. and Mrs. Sam Allison, Mrs. Willie Mae Murchison of Menard, Miss Alice Karnes, W. L. Miers and Raymond Barker comprise the group of sixteen persons included in the cross-country tour.

Dr. White is making the trip primarily to attend the convention of the International Dental Association, which begins next Monday.

Substituting for Miss Rees Mrs. W. B. Dunn of Forsan, formerly Miss Loula Belle Caldwell, arrived here Wednesday of last week, accompanied by Mr. Dunn who returned to Forsan Friday, to relieve Miss Thelma Vander Stucken at the latter Company's store while the latter enjoys her annual vacation, beginning Thursday this week. While here, Mrs. Dunn will be with her parents, Mr. and Mrs. W. E. Caldwell.

Phone your news items to 24.

### Wanted Family

Janet Sheppard Graves, pretty daughter of Senator Morris Sheppard of Texarkana, Texas, author of the 18th amendment, has ended her romance with William A. Graves of New York. Married in November, 1932, she has secured an annulment in Los Angeles, alleging that her husband objected to her film career and refused to allow her to become a mother. Miss Sheppard was a beauty queen at Texas university in 1931.

### Chicken Fry Given For House Guests of Mrs. Cashes Taylor

Honoring Mrs. W. L. Teague and her daughter, Miss Etta, of Merton, guests of Mrs. Cashes Taylor, Miss Emma Lou Logan and O. H. Wright entertained with a chicken fry at the S. E. McKnight ranch Saturday evening at 7 o'clock.

Salad accompanied the delicious chicken, which was followed by ice cream and cake.

Guests enjoying the supper were: Mr. and Mrs. Joe Logan and their sons, Sam and Joseph; Mr. and Mrs. G. Logan; Mr. and Mrs. Virgil Powell and children, Jimmie, Marylyn, and Madelyn; Mr. and Mrs. Lexie Wells, Clyde Hill, John W. White, Mr. and Mrs. Taylor and children, Billy Wright and Blanche Lavon; and the honorees.

### Mrs. T. O. Earhart Is Morning Hostess to Las Amigas Club

Hostess at her home at 8:30 o'clock Thursday morning of last week, Mrs. T. O. Earhart entertained with five tables of Contract, including members and guests of the Las Amigas Club.

High scores went to Mrs. J. D. Westbrook for club and Mrs. S. R. Hall, for guests. Mrs. John Fields held second high club.

Casteloupe a la mode was served to the following:

Club members: Mesdames Westbrook, Fields, Tom White, Sam Karnes, P. J. Taylor, John Hamby, Collier Shurley, and the Misses Ada Steen and Alice and Nan Karnes.

Guests: Mesdames Hall, E. F. Vander Stucken, Sterling Baker, Ernest McClelland, Nolan Kennedy, Hilton Turney, R. A. Halbert, Ray Willoughby of Eldorado, and B. M. Halbert, jr., and Miss Ruth Read of Carthage, Tenn.

### HOME DEMONSTRATION CLUB ANNOUNCES SATURDAY MEET

The Sutton County Home Demonstration Club will meet at 3:00 o'clock Saturday afternoon at the Home Economics Cottage, it has been announced.

A cordial invitation is extended to all who are interested to attend the meeting.

Mrs. Rogers Thought Better Mrs. L. H. Rogers of Del Rio, sister-in-law of Mrs. Roy E. Aldwell, is reported to be improving this week after being seriously ill recently following a major operation. Mrs. Aldwell and her son, Lea Roy, returned Saturday of last week from visiting Mrs. Rogers.

### MRS. W. B. DUNN HONORED WITH TEA AND SHOWER BY MISS REES

her part, the little Misses Patsy and Peggy Gilmore, former school pupils of Mrs. Dunn, enacted the closing, and most important number on the program.

Clad as pirates, the little girls entered the room dragging a One of the delightful social affairs of Sonora's summer months was the pretty tea and bridal shower tendered Mrs. W. B. Dunn of Forsan, nee Miss Loula Belle Caldwell, by her friend, Miss Thelma Rees, at the latter's home Monday afternoon at 5 o'clock.

Upon arrival, guests were invited to the punch table, beautifully arranged by Mrs. S. T. Gilmore, which was cornered by four pink candles about a large punch bowl and decorated by a profusion of zinnias. A large vase surrounded by cut flowers, behind the punch table, was termed by Mrs. Gilmore, "the wishing well." The Misses Zella Lee Thorp and Mae Cauthorn presided over the table.

A short program was given after all guests had arrived. Mrs. J. A. Ward, jr. opened the musical portion with a violin solo, "Gypsy Sweetheart." Mrs. Collier Shurley gave a musical reading, "In the Usual Way," after which Miss Mary Louise Gardner sang "School Days." Miss Elizabeth Caldwell, sister of the bride, played all accompaniments.

Before the honoree had recovered from the surprise of the arrival of the guests at what she had been led to believe was an informal visit on

"treasure chest," took center stage and recited a poem, written by their aunt, Mrs. Jack Clark of Fort Worth, which informed the guests that W. B. Dunn had carried off "our treasurer," but that here were treasures for her. Alternating on the recitation of verses till the last, they delivered the concluding stanza in unison.

Mrs. Dunn was then invited to open the many beautiful gifts brought by some 45 of her friends.

Attractive sandwiches, with angel food cake and tea were served, with plate favors being paper wedding bells.

The following attendants upon the lovely occasion signed the pretty bride's book made, and hand-painted with wild roses, by Mrs. E. A. Bode:

Mesdames Robert Rees, W. E. Caldwell, J. A. Ward, jr., J. A. Cauthorn, H. V. Stokes, John Fields, J. D. Westbrook, G. H. Davis, P. J. Taylor, A. W. Awalt, Collier Shurley, Merton Shurley, J. W. Trainer, A. C. Elliott, Richard Vehle, J. D. Lowrey, M. M. Stokes, W. S. Evans, A. G. Blanton, E. C. Mayfield, S. T. Gilmore, Lois Landrum, J. C. Rigney of Lubbock, J. C. Morrow, J. F. Hamby, Maysie Brown, E. A. Bode, V. F. Hamilton, Leonard Caldwell, Ben Cusenbary, E. F. Vander Stucken, O. L. Richardson, W. R. Nisbet, Rose Thorp; and the Misses Thelma Rees, Mae Cauthorn, Joanna Stokes, Bertha Eaton, Jamie Gardner, Louise Gardner, Elizabeth Caldwell, Zella Lee Thorp; and Sid Await.

### YWM STUDY COURSE TO BE RESUMED MONDAY

The study course conducted by Mrs. L. E. Johnson will be continued at the Young Woman's Missionary Society Monday afternoon at 4 o'clock in the church basement.

Monday, being the fifth of the

month, was devoted to making calls in the interest of the society.

Mrs. Pearl Thomas of Ojai, Calif. is expected here this week-end for a visit with her parents, Mr. and Mrs. Robert Rees.

All summer dresses Half Price and below. The Style Shop.—adv.

### Home Dem. Club Meets Wednesday

New Club Entertained by Mrs. Dee Gibbs

The No. 4 Home Demonstration Club met Wednesday afternoon with Mrs. Dee Gibbs at the Gibbs ranch home 40 miles east of Sonora. Mrs. Etta Ringgold, Sutton-Kimble agent, met with the members and discussed the budgeting of food supply and wardrobe.

Committees were named as follows: membership, Mesdames John Reiley, Clay Holland and Robert Kelley; finance, Miss Beavely Reiley, Mesdames Tom Wilson and Artie Joy.

New members are Mesdames Holland, Joy and Jim Luckie.

Mrs. Robert Kelley will entertain the next meeting on Wednesday, August 16.

Refreshments were served by the hostess to the following: Mesdames Ringgold, Kelley, Wilson, Luckie, Holland, Joy, Leonard Gibbs, Lee Morris, Elmer Lay and the Misses Reily and Marie Calder.

All summer dresses Half Price and below. The Style Shop.—adv.

# How I Broke Into The Movies

Copyright by Hal C. Herman

By GRETA NISSEN

MY ENTRANCE into motion picture ranks was quite unlike that of most girls, who rise from the extra ranks, the beauty contests and the high schools of America.

From earliest childhood I was schooled for the stage and the opera in my native land, Norway. When I gave up my aspirations for a stage future and cast my lot with the movies, it was more of circumstance, perhaps, than any other factor.

I am an actress by early environment and training, then, and a motion picture actress by accident, or by fate, whichever we may choose to call it.

When I was first able to walk, my mother began teaching me dancing steps, and when I was six she placed me with the Royal opera of Copenhagen, where I was taught dancing in addition to the regular course of instruction for children of my age.

I remained in this institution for ten years, specializing in pantomime and dancing.

It was during my latter years with the Royal opera that my work attracted the attention of King Haakon and Queen Maud of Norway. Their interest enabled me to win a contract with the National theater of Scandinavia, and I made my first notable public appearance under the sponsorship of royalty, an auspicious beginning for a girl only sixteen. Several months later I was presented to Prince Karl of Sweden

Greta Nissen.

as the star of a charity bazaar in Stockholm.

A year later I came to America to tour the states, giving exhibitions of pantomime and dancing. Not long after I arrived, however, Broadway beckoned, and at the suggestion of Fokine, my ballet master in Europe and New York, I accepted the role of Fairy Princess in "Beggars on Horseback," which proved one of the stage sensations of that season.

It was during the early part of my engagement in this play, which lasted a full season of twelve months on Broadway, that I was first inspired with screen ambitions. Mr. Jesse L. Lasky, of the Famous Players-Lasky corporation, admired my work and offered me a contract in pictures.

I did not jump at the opportunity as I might have were I not so fond of the stage. Until this time I was firmly resolved to devote my career to the legitimate drama, for which I had trained all my life.

But the lure of screen fame was irresistible and I signed with Mr. Lasky. I was fortunate in getting excellent roles at the outset, including the feminine leads in "The Wanderer," "Blond and Brunette," "The Bride of Tonight," and other successful photoplays.

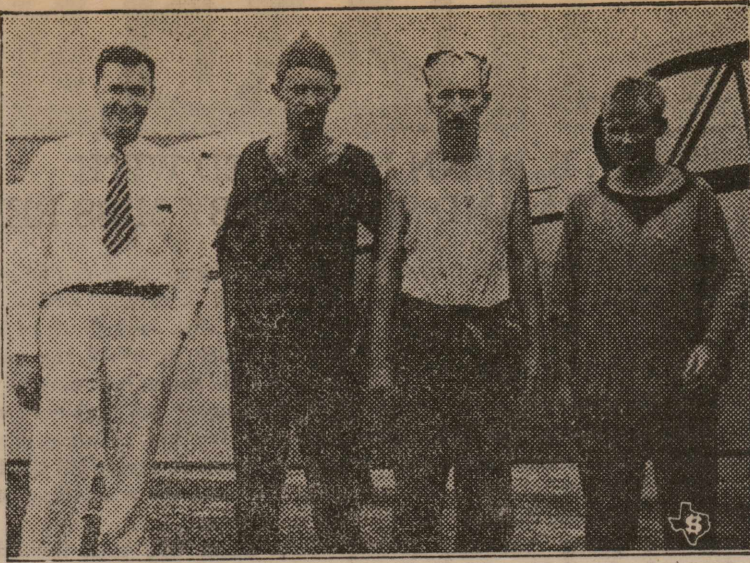

If Mr. Lasky had not admired my work in "Beggars on Horseback" I probably would still be on the stage. And there are times, I confess, when I long for the footlights, although I am convinced that the talking screen offers greater opportunities, reaching vaster audiences and requiring equal talent for success.

WNU Service

## Unwise Investments Sent John Halliday to Stage

Back in his younger days John Halliday was a gold prospector and did well at it. He joined the army of gold hunters in the bleak Nevada deserts. That adventure brought him close to a half-million, which he duly lost in the Sacramento stock market. Stranded in that city, he joined Nat Goodwin's repertory company and a few years later played the lead in a world tour with T. Daniel Frawley. Back on Broadway, he played with John Drew in "The Circle" and later appeared prominently in "The Whip," "Sour Grapes," "The Spider," "Jealousy" and other plays. Mr. Halliday began his screen career with "Scarlet Pages" and then appeared in "Captain Applejack" and "Fifty Million Frenchmen." He was placed under contract to RKO-Radio Pictures and since then has been seen in, among other pictures, "Smart Women," "Consolation Marriage," "Transatlantic," "The Ruling Voice," "Men of Chance," "Bird of Paradise" and "The Age of Consent."

## Saved by S. O. S. in Shells

These men were rescued by an airplane after their schooner, The Ellen, went down off the coast of northern Mexico in the recent tropical hurricane. They were brought to Brownsville by a Pan American plane after their huge "S. O. S." written on the beach in shells attracted the attention of pilots. Photo shows, left to right, A. V. Dorrell, Pan American pilot who rescued the men; Morris Greca and Capt. O. B. McNeil of Corpus Christi and C. E. Clive of Brownsville.

### THE COLLEGE PROBLEM

College is no "snap." It is a real task. It has its definite problems which challenge the best in every youth. Can you solve them? Here they are:

**Problem One—GOING.** Can I go? Yes, if you have the money. Many thousand young men and women do not have the money nor can they find a job, thus they will be denied the advantages of higher education.

**SOLUTION:** Here is an EASY and effective solution. GET A BUSINESS EDUCATION. Many who are attending our school at this moment are doing so as a means to a six-year professional education. Several of our graduates are now in college successfully earning their board, room, tuition, and in some instances, maintaining a cash reserve. Not a few of the most successful professional men and women of the southwest have used our commercial training courses as a means to securing their education. A business education will double the average person's chances to go to college—it will make going EASY.

**Problem Two—STAYING.** Can I Stay? Maybe you can, but the chances are against you. Only ten per cent of those who enter ever graduate. Ninety per cent fall by the wayside—pathetic, expensive! Though you can GO, ask yourself a hundred times, Can I STAY? College values are assured only to the STICKERS.

**SOLUTION:** Train yourself to be ACCURATE. Some students stumble, blotch, blur and blunder themselves out of college. They are literally knocked out with a red pencil. Many others cut their grades to the minimum passing grade. The Business School furnishes a preparatory disciplinary training in accuracy, which is not only necessary in life's later battles, but which makes the details and technicalities of future college work delightful and EASY.

Many students quit college because they cannot KEEP UP. They never leave college. College leaves them. They lack the double-quick step. They are short in speed. Business Schools specialize in SPEED TRAINING. They prepare one for the college race, as well as for the split-second age. They emphasize speed with the pen, typewriter, figures, speedy decision and execution. They put wings on one's words by the latest shorthand methods, so that every phase of the class room lecture may be preserved. Several of the most illustrious men have been experts in the use of shorthand and have recommended it to all prospective college students.

Thousands of students do not stay in college because they lack DEFINITE PURPOSE. Upon entering they have no idea of what they can do best, or even want to do. Thus, school becomes monotonous, boresome, hard, and they quit. They need general orientation, specific directing, a breathing spell, contacts with the great pulsating business world and men of affairs.

They must find themselves and have a purpose, or they will be numbered with the ninety per cent who DROP OUT.

**Problem 3—GETTING:** Can I Get the Most? Hundreds of thousands of young people will enter college this year. Of those who pursue their courses for a while, some will receive no benefit whatever, many will be moderately helped, but only a few will receive the maximum blessing. The predominant and final question, therefore, of every college student should be: How can I get the most out of my course?

**SOLUTION:** Train yourself in business first. Until recently slight emphasis has been placed upon business training as a means to a more adequate preparation for effective college work. Students have been advised to go to college and then take a business course. This is but another illustration of "PLACING THE CART BEFORE THE HORSE." College records will show that, other things being equal, the business trained college student makes better grades. Such students are not only able to KEEP UP but to KEEP AHEAD, and this is part of the glory of college life.

College is impossible for some, hard for many, easy for a few. Our specially arranged Business Training Course will make it EASY for you. With it you can go to college, stay in college, and get the most out of your work while there. A few months of intensive training with us will solve your four-year college problem. Write for our catalog. It tells you how.

## Steady Increase of Employed Is Shown in Texas

Progress Noted Toward Objective of President Roosevelt in the Lone Star State

In announcing his reconstruction program, President Roosevelt stated that increased employment was the first objective. Certainly, increase in employment will be the measure of the return of substantial prosperity. If the present prices of securities and cotton and other commodities are to be maintained increased employment must follow. Otherwise progress made recently largely by speculative incentive will be lost.

In Texas and the Southwest, apparently, progress has been made in putting idle workers back on pay rolls. The increase has not yet been large but there have been reports from a sufficient number of different sources to justify the conclusion the present is not another temporary increase. Judging from reports of the United States Department of Labor the Gulf Southwest has made more satisfactory progress than any region of the country.

An increase of 3.4 per cent from May to June in employment in Texas has just been reported by the bureau of business research of the University of Texas. The report for May also showed an increase over that of April. This report is based upon a wide survey, including figures from companies employing more than 60,000 wage earners at present. This is sufficient cross section to reflect very accurately the trend of employment in the state as a whole.

Based upon news dispatches of the last three weeks, the textile and clothing manufacturing industries have experienced the greatest increase in employment. Practically all of the 20-odd cotton mills have increased their pay rolls and there has been a general increase in the dress goods, work garments, hosiery and millinery lines.

There has been a rapid increase in employment in the lumber mills, several of the largest having recently resumed operation from long periods of inactivity. The heavier

building material industries, notably cement and brick and tile, have not yet increased employment appreciably although they anticipate an increase within a short time. The large highway awards in prospect will greatly stimulate activity in the nine Portland cement mills of the state.—Kerrville Mountain Sun.

### DOG LIES IN SAFETY AS TRAIN ROARS ABOVE

Louisiana, Mo.—"Queen," an Irish setter owned by Clifford Lamme of St. Louis and being kept by Albert Buchanan of Clarksville, knows when to "down."

While crossing a railroad track, the dog was struck by a train and carried a distance on the pilot of the locomotive before falling off. "Queen" fell between the rails and laid there until the cars of the long train had passed over her. After the train had passed over her, she got off the track.

Visit Mr. and Mrs. Shurley  
Mr. and Mrs. J. R. Howse, parents of Mrs. Merton Shurley, accompanied by the Misses Ethel Hines and Daisy Simpson, and lit-Angelo, were Sunday guests of Mr. and Mrs. Shurley and family. Little Miss Mary Ann Kenney, who has been visiting at the Shurley ranch about a week, returned with the party to San Angelo Sunday evening.

## Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health. Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. In 10 cts. and 35 cts. packages. All dealers. (Adv.)

## TWO WAYS

You can manage your affairs and care for your property if you never see a newspaper. We'll grant that! You can also continue to exist without schools and education. But no one wants to do either. It is economy to educate your children, and is economy to keep thoroughly informed on the local happenings which directly affect each of us in one way or another.

The News will bring you every week as complete a picture of local happenings as its staff can assemble—with the co-operation of the people of the community. You can keep informed on business developments, on county, city and state governmental developments, on tax questions and on a thousand and one things it will be to your interest to know correctly.

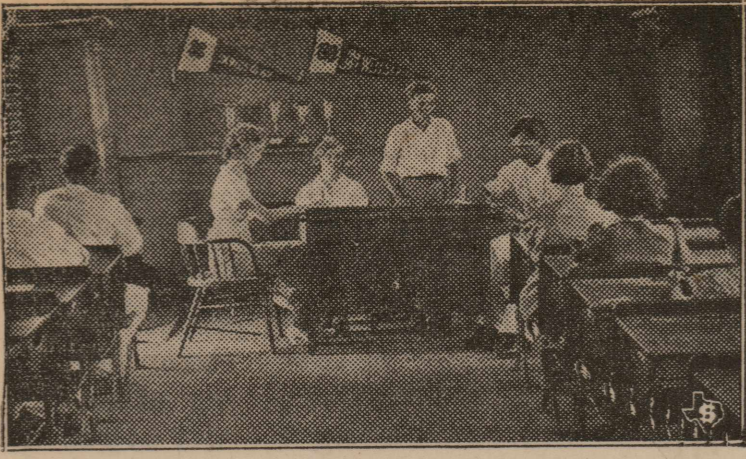

4c Each Week Can Actually Save You Many Times that Sum

The Devil's River News

Telling the Happenings of the Stockman's Paradise

**A Champion 4-H Club in Session**

The Lara 4-H Club of Jim Wells county, Texas, has been the champion community 4-H club of the county for three years, winning the Alice Lion's club trophy cups regularly. Center group, left to right: Grace Scharnberg, secretary of girls' club; Esther Schuette, president of girls' club; Raymond Schuette, president of boys' club and community club and Andrew Schuette, secretary of boys' club.

**TIMES NOT A BIT HARD NOW—BUT THINGS TOUGH IN 'GOOD OLD DAYS'**

George McKee, Anderson, S. C., says times are not hard. Here's the way George puts it:

"Don't talk to me about hard times. I was born eight miles from a railroad, five miles from a school house, nine miles from a church, 885 miles from New York, 200 yards from a wash hole, fifteen feet from a corn field and 8,767 miles from Hong Kong.

"Our nearest neighbor lived two miles away and they couldn't read or write. I never saw a suit of underwear until I was 17 years old, and that revelation didn't belong to anybody in the family. The only book in the house during my early childhood was a Bible, and a catalogue somebody sent us.

"There were 12 members in our family, but you see, we had three rooms to live in, including a dining room which was also the kitchen. Everybody worked at our house. We thought everybody else in the world had gravy and bread for breakfast, liver and cracklin' hoe-cake for dinner, buttermilk and corn pone for supper 'cause that's what we had—and liked it.

"Some of us wore brogan shoes occasionally in the winter time; we had nice white shirts for summer time use. We slept on straw ticks and pillows were not thought of or required. I didn't know that money would rattle until I was nearly grown. Father got hold of two half-

dollars at the same time, and let us hear them rattle. Taxes were not higher but harder to pay then than now.

"We owned two kerosene lamps, neither of which had a chimney. Our house wasn't ceiled, but two of our rooms had lofts in them. We had a glass window in our 'company' room. Our nicest piece of furniture was a homemade rocking chair. Our beds were of the slat or tight-rope variety. The 'trundle bed took care of all the younguns under five years of age and it stayed full all the time.

"We went to school two or three months in the year, but not in a bus. We attended church once a month, but not in a car—we used a two-mule wagon. We dressed up on Sundays but not in silk or satin. We neither wrote letters nor received any. We made our own lye hominy, distilled our own lye from our own ash hopper. We drank sassafras and never had a yearning for coffee.

"We sopped our own molasses; we ate our own meat; we considered rice a delicacy for only the preachers to eat; we had heard of cheese, but never saw any; we knew of some store bought clothes, but never hoped to wear any; we got a stick of candy and three raisins for Christmas and were happy; we loved pa and ma and were never hungry, enjoyed going naked, didn't want much, expected nothing. And that's why our so-called hard times ain't hard on me."

**Mrs. Kilman in Temple Now**

Mrs. Lucy McCarty, grandmother of Mrs. J. R. Kilman, and Mrs. R. E. Cole, her aunt, both of Dallas, have returned home after a month's visit here with Mrs. Kilman, who accompanied her mother, Mrs. H. L. Forrester, and sisters, Cornelia and Anita Forrester, to their home in Temple for a visit, leaving Saturday.

**Humans Trouble World With Many Defectives**

All life, even in its lowliest forms, is associated with reproductive cells, asserts a writer in the Detroit News. In a general way the mechanics of this process are familiar to nearly everyone who has watched seeds growing in the garden and birds nesting.

The same thing that goes on in the seeds and the egg is carried out in the reproduction of all forms of life, including that of human beings. Every farmer knows that if he plants a row of yellow corn beside a row of white corn, that the ears produced in the new crop will be mixed with yellow and white kernels in the same ear of corn. The pollen from the white corn fertilizing the seed cells of the yellow corn carries with it the white characteristic and the offspring of that union becomes both yellow and white.

Now sometimes this fateful principle works wonders for the race. If a great father and a great mother each contribute to their offspring something of their greatness, the result is a fine improvement upon what has been in the world before. But the trouble is that the principle works with terrible certainty in the opposite direction, too. If a criminal father contributes of his criminal tendencies and a half-wit mother contributes her instability of intelligence and character, the world is cursed with a creature who may run a long course of destructive activities and heap up woe and costs upon society beyond all reckoning. And worse still, he may and probably will take unto himself a mate the counterpart of himself in viciousness and thus pass on to generations to come an ever widening circle of imbeciles, morons and low-browed criminals.

**Crow Family, Swan and Geese Have Long Life**

The birds that live the longest are members of the crow tribe, and the swans and geese. A swan has been known to live one hundred and fifty years. The length of life of smaller birds such as the titmice and warblers would probably be six or eight years, but there is a doubtful record of a sparrow living for forty years.

Many birds return to the same spot for nesting, season after season, and because these sites have been used for a great number of years observers have concluded that this tells their age. But a pair of birds may use a site for, say, six years, until one dies; then the survivor obtains another mate and takes it to the old site. A few years later the other bird dies, and another mate is found, and so within fifty years a dozen different birds may use the same nesting site.—Tit-Bits Magazine.

**When Woman Ruled China**

Tze-Hsi, the empress-dowager of China, was born at Peking in 1835. She was selected for the imperial harem when only sixteen, but by study and by good fortune became the virtual ruler of China in her twenty-sixth year. She was the wife of Hsien-Feng and on his death became co-regent during the minority of her son, the Emperor Tung Chih, and on his death in 1875 obtained the succession for another minor, remaining dominant during his boyhood. She had much political wisdom, but was unable to prevent the Boxer rebellion. It resulted in her encouragement of the progress of modernizing China. It was largely through her influence that the opium traffic was discouraged. She died on November 15, 1908.

**Meaning of Horse Power**

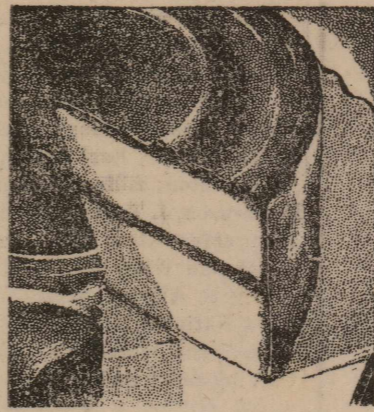

Horse power is an arbitrary unit for measuring mechanical energy, and one horse power is equal to the power it would take to lift 33,000 pounds one foot in one minute. Indicated horse power is the power derived inside a cylinder of an engine as calculated from the various known factors, while brake horse power is the actual power delivered by an engine or motor. By practical test it was found that the average horse could work constantly at an average rate of 22,000 foot pounds per minute, and this was increased one-half when arbitrarily made a unit of measurement.—Pathfinder magazine.

**Shinplasters**

A shinplaster is a piece of paper saturated with vinegar, tar, etc., that was formerly used for sore shins. It was also formerly used as a slang term for a piece of poorly secured paper money, especially if greatly depreciated in value. The term was also applied to paper money issued in denominations of less than a dollar. The term was general in its application, and did not apply to any special issue of currency.

**Extra Wives Taxed**

By way of rendering polygamy unpopular, the Belgian colonial government levies a tax on each extra wife in Ural and Ruanda, Belgian Congo. According to the estimate for recent years there were 80,830 "extra" wives in these regions, for whom husbands paid taxes varying from 9 cents to \$1.50. The amount of the tax does not depend on the quality and capacities of the wife but upon the region.

Speaking of

**CAKE**

*Reminds us of that Ancient Proverb:*

**"You Can't Eat Your Cake and Have It Too"**

—Quite naturally we can't keep that which we spend. Neither can we sell unless we buy. Just as truly, we cannot sell our products for favorable prices without expecting to pay more for the things which we in turn must buy.

—Rising wool, cotton, mohair and food prices are being reflected in rapidly increasing costs for merchandise, and retail prices will respond accordingly.

—We are favored in West Texas with industries which are as sound as any in our great nation. We are further favored with production of several commodities in which no serious surpluses exist. Consequently our economic outlook is enviable.

—The present offers real opportunity to save money by buying .... for our more plentiful dollars will likely buy much less a few months hence than they will today.

### MRS. S. R. HULL CONTRACT HOSTESS MONDAY LAST

Mrs. S. R. Hull entertained the Contract Club at her home Monday afternoon.

Mrs. T. O. Earhart was a guest. Members playing were Mesdames E. F. Vander Stucken, Clara Murphy and Sterling Baker. Mrs. Baker won high score.

All summer dresses Half Price and below. The Style Shop.—adv.

### Sutton County Has Watermelons

There's no need for Sutton county to depend on the Mason country for watermelons if the one presented The News editor by S. L. Shroyer is a fair sample. It weighs about 45 pounds and looks like a dandy. The only reason it remains uneaten is because Mr. Shroyer brought it in on press day and there hasn't been time enough to tend to it properly. It was grown in Mr. Shroyer's irrigated truck farm on the North Llano.

### Business Firms—

(Continued from page 1)

ing schedule became effective Tuesday, August 1.

The following advisory committees were appointed for the purpose of handling the different codes and to line-up any business not represented at the meeting: grocery men, Ralph Trainer, Earl Lomax and H. V. Hamilton; filling stations, O. L. Richardson, J. T. Penick and Charlie Hull; cafes, Alton Hightower, Gabe Smith and Wiley McDaniel.

Roy E. Aldwell, president of the First National Bank, discussed protection for merchants. He stated that inasmuch as Sonora merchants would stretch a point to extend credit and to carry accounts on the books long after they became due, parties thus accommodated should do some stretching themselves and pay up promptly now, or as much on account as they could afford, before the new deal became effective. He cited several instances where parties, after receiving consideration from home merchants, had not only failed to pay but when they had money spent it with catalog houses or merchants elsewhere, leaving the hometown man to work out his own "salvation."

Misplaced confidence and trust, he said, had caused many leaks in the business system, and had been going on since the organization of the town. There is but one way to eliminate these leaks, he continued, and that is for the merchants to organize for self-protection. A credit or retail merchants' association, or business men's league would solve the problem, he said.

A meeting will be called by H. V. Stokes at an early date to consider the possibilities of a merchants' association, and other matters pertaining to the NRA.

### Hottest Day Death Valley Hits 134 De.

French Claim Greater Heat on the Sahara, Though

Furnace Creek Ranch, Death Valley, Cal., has kept accurate weather records since 1911 by means of a weather bureau thermometer. The hottest day recorded was on July 10, 1913, when the bureau thermometer, properly shaded and protected, registered 134 degrees of temperature, the highest ever recorded at that time by experts.

Nine years later, French observers recorded a temperature of 136 on the edge of the Sahara desert. Now Ernest E. Eklund of the weather bureau points out that inasmuch as the weather station in Death Valley is 98 feet above the bottom of the valley, it is entirely possible that on the floor of the valley on that July day the thermometer would have registered above the present high of 136 degrees. Death Valley is 276 feet below sea level.—Ex.

### Miss Dee Trainer Visits Here

Miss Dee Trainer, who is a student in a San Antonio business college, arrived here Wednesday for a visit of a few days with her mother, Mrs. Rena Trainer, and family. A friend, Miss Frances Bertstaller, of San Antonio will arrive today to visit Miss Dee here, and the two will return to San Antonio together.

**WANTED**—Position as governess on ranch in Sutton or Crockett county. For particulars, write P. O. Box 56, Junction, Texas. 38-4tp.

**FOUND**—Man's traveling bag. Owner can recover same by calling at The News office and paying for this advertisement.

**STOCKMANS FLY DOPE**—keeps flies away, will not blister, cures soremouth; satisfaction guaranteed. Frank Murphy & Sons, McCombe, Texas. For sale at Wool House and Piggly Wiggly, Sonora. 38-4tp

**FENCE BUILDING**—at rock bottom contract prices. Guaranteed work. D. Q. Adams, Telephone No. 3704. 36-tfc

### Merton Shurleys to Chicago

Mr. and Mrs. Merton Shurley, with their daughter, Miss Rena Glen, and son Jack, expect to leave Sunday for Chicago, to attend the fair and exposition. They will be accompanied, according to present plans, by Miss Donella Smith of Crystal City, niece of Mrs. A. J. Smith, who, with her sister, Mrs. K. B. Urban, was a classmate of Mrs. Shurley at Southwestern University, Georgetown. She and her sister are visiting Mrs. Smith and Mrs. L. E. Johnson and her family here.

### Mrs. Lloyd Earwood at Hotel

Mrs. Lloyd Earwood, who recently underwent a major operation in a San Antonio hospital, has been moved to a hotel there and will probably be able to make the trip home in about a week, according to Mr. Earwood who returned from a trip to San Antonio Wednesday. Mr. and Mrs. Fred Earwood and their son went there to visit Mrs. Lloyd Earwood and her mother, Mrs. Nannie B. Wilson, Thursday morning, planning to return Friday.

### Herman Parker in Hospital

Herman Parker, son of the Rev. and Mrs. Z. E. Parker of Sonora, is in a hospital at Huichuicha, Ariz., where he was taken last week following a side injury resulting from his work as a member of the C.C.C. Word was received by Mr. and Mrs. Parker this week from Dossie Batson, another Sonora boy on the same location. His condition is not regarded as serious.

### Sister with Mrs. Ward

Mrs. R. W. White of San Antonio and her two little sons, Roy jr. and Richard, were accompanied here for a two-weeks' visit Sunday by Mrs. J. A. Ward and Miss Faye Green, of San Angelo, and Mrs. A. C. Hull and her little daughter, Ann, of Spur. The party visited Mrs. White's sister, Mrs. J. A. Ward, jr. and Mr. Ward, and all but the Whites returned home on Friday.

### Stolen Watch Recovered

A valuable watch stolen from Jack Wardlaw by persons entering his ranch house several days ago while the family was absent was recovered from Robert Baker in Ft. McKavett the first of the week by Sheriff B. W. Hutcheson. Baker was not implicated in the theft. No arrests have been made as yet.

All summer dresses Half Price and below. The Style Shop.—adv.

## Shearing Season ....

CAREFUL attention given to the preparation of shearing pens and handling the mohair will bring big dividends.

WITH the approach of the shearing season, ranchmen should give the proper attention to shearing in order to get the best price for their mohair.

DO NOT shear on the ground or in the open where dirt or dust will blow into the mohair.

DO NOT drag the goats thru dirt or mud. Keep the mohair dry and free of trash.

KID HAIR should be kept separate from grown hair. Mixing the two will cause all to sell at grown hair price.

DO NOT dip the goats in anything that will stain the hair or depreciate the value of the clip.

## First National Bank

Capital and Surplus \$225,000.00

### 'Gas Buying' Bad in Charity Relief

Shunting Needy "Tourists" Deplorable as no Real Relief

Austin, July 20.—One of the worst problems of administering relief funds by the Texas Relief Commission, according to officials of the commission, is the tendency of local committees to buy gas for "tourists."

Rather than feed transients for several days, relief committees in local communities buy the transients a few gallons of gasoline and send them on their way.

Their view is probably justified so far as the particular community

is concerned, but they forget that the indigent transient then goes on and gets food—or gasoline, as the cases may be—from the next town, and the relief funds come out of a common melting pot.

The listing of transients on relief rolls, moreover, has a tendency to make the unemployment figures larger than they really are, since the transient may be listed by several communities.

### McGilvray with Piggly Wiggly

B. C. McGilvray Monday began work as a clerk with the Sonora Piggly Wiggly grocery owned by E. M. Kirkland. Mr. McGilvray replaces Alton Hightower, who resigned to enter the cafe business here.

### MORE SAFETY in the tread

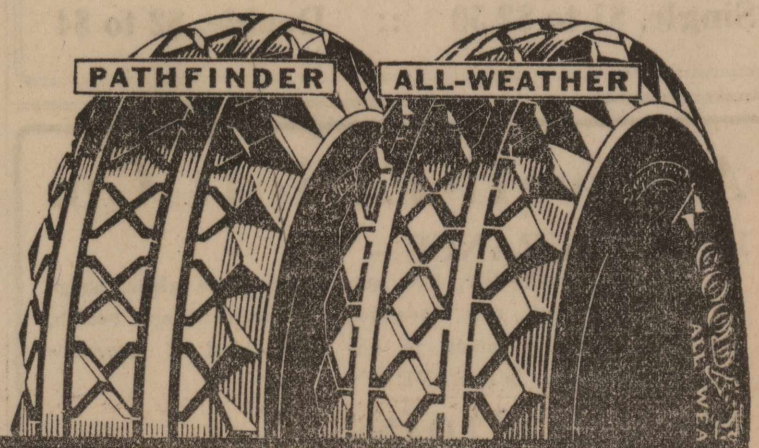

• The safest tread is the one that can stop your car the quickest. Goodyears stop quicker than any other tire. 10% quicker than the second best. Up to 77% quicker than others. Tests on wet pavements prove it. Why not buy the safest tire?

### MORE SAFETY in the plies

• Goodyears give you safety in every ply—because every ply is built with patented Supertwist cord—and every ply runs from head to head. Ask to see a Supertwist demonstration and see for yourself why it means more safety in every ply.

### MORE MILEAGE

• Bus fleets know mileage. And bus fleets using Goodyear Tires report 97% more mileage than they got five years ago. Goodyears for your car have the same improvements that made this extra mileage possible.
