AS TRADING POINT SPUR IS THE BEST

Spur Merchants report thriving business Saturday

With the opening of a new store there was quite an active day among the Spur business men Saturday. Last week was one of the best advertised weeks that has been in Spur for some time, and the business men reaped a good harvest from it Saturday.

B. Schwarz & Son opened their store for business and had a great day. However, they did not get all the business of the day for every store in town had a good run of customers. One clerk in this store stated they had all they could do, and that their beginning was very encouraging.

Love Dry Goods Company had a great day. Mrs. Russell, manager of the Ladies Department, said, "It was one of the best days we have had in a long time." Our force was busy most of the day, and it seemed for a while that we would not be able to take care of our customers.

All the clerks at C. Hogan & Co. were as busy as bees from the middle of the morning through the day. In conversation with one clerk in the store we were told that it was a good day with them. People came from far and near to this store.

Bryant-Link Company had a store full of customers during the day. This is a department store, and every department had more customers than could be accommodated for a while. They were patient and were accommodated as fast as the clerks could get to them.

Layne-Yates company claim it was a great day with them. Their clerks were very busy during the day and late in the afternoon. Customers were seen leaving this store with bundles of goods.

C. R. Edwards & Company were working like they were a great city store. In fact their great line of trade might indicate that they were doing a real city business. "We had a great day," was Mr. Edwards way of defining the day.

"The best day in a long time," was the statement of Joe T. Salem, who is manager of the Salem Dry Goods Store. "The Store did not hurt us a bit, in fact, they helped us. We are doing more business now than we did the same time a year ago, and the crops are fully a month later this year," Mr. Salem continued.

Wolfe's Bargain Store seemed to have a good day. There were people going to this store steadily most all day, and their clerks were busy all the time.

Other stores in town enjoying equally as good trade as did the dry goods store. All the groceries were busy as well as the hardwares, drug

(Continued on p. 8)

Floydada Citizens Like Spur Fine

Wm. C. Diamond and R. M. Morgan, of Floydada, representatives of the Central States Life Insurance Company at St. Louis, were in our city Tuesday looking after business for their company. They expressed their surprise at the growth of Spur stating it is a better town than they expected to find. "I thought Spur was just a little village," said Mr. Diamond, but instead it is a hustling little city.

Mr. Morgan, who has taught music in a great many communities in west Texas, stated that he had no idea Spur had grown so much. "You made a good move when you came to Spur," he said. "The owner of a filling station in another county seat town told me he received twice as many checks on Spur Banks as he received on any Bank in his home town," he continued. We expanded our chest in pride and forgot to ask what town, but it was a great statement made in behalf of our town.

Mr. Diamond and Mr. Morgan will do some work in Spur territory the next few days. T. C. Cooner, of the Spur Hardware & Furniture Company will work in conjunction with them.

Don't Forget The Lyric Programs

Tonight is feature night at the Lyric Theater and in addition to the serial there will be a good picture that everybody will enjoy. Saturday night will be a good comedy to make you laugh, then there will be that great drama entitled, "The Ninety and Nine," that has a good lesson for every one.

Monday and Tuesday evenings you will have an opportunity to witness the "Woman Hater," another picture that shows how unbalanced life can be sometimes.

Wednesday and Thursday night of next week will be a story on the screen showing what a woman who is left destitute has to endure in the world. The title of this picture is, "What Any Woman Would Do."

There is always a good picture at the Lyric. Some pictures do not appeal to some people like they do to others, but there is a good lesson in all of them if we will look for it.

WE APPRECIATE YOU

We take this means of telling the good people of Spur trade territory that we appreciate the great response you gave us at the opening of our store last Saturday. We expect to give you value received when you come to our store to trade, and it shall always be our purpose to please you. Your ready response to our last week's call indicate that you are a live, wide awake people that know good bargains, and we do not expect to disappoint you when you visit us. We welcome you to our store and thank you for what you have done for us.—B. Schwarz & Son.

PRESBYTERIAN CHURCH

There will be the regular preaching services Sunday at the Presbyterian Church. All visitors and strangers are cordially invited to worship with us.

Weekly Calander of Services Sunday School, Sunday at 10 a. m. Preaching Sunday at 11 a. m. and 7:30 p. m.

Prayer meeting Wednesday 7:30 p. m.—Jas. M. McLean, Pastor.

DRY LAKE CHURCH PROGRAM

A Community Peopled With Folks That Do Things.

The people of Dry Lake community are alive to the good things, and although they may not be the first on a plan, they are usually very close seconds. These people have tried the consolidated school plan and recently built a fine addition to their school and employed more teaching force for this term.

Their next movement is to put over a Church Farm program for the purpose of putting one of their churches on a financial basis. This medium of finance is being sponsored by the Baptist organization of that community, and there has already been donated the use of fifty acres of land for next year. This land will be planted in crops (mostly cotton) cultivated and harvested by the members of the church, and the entire proceeds will be used for the church expenses.

Rev. L. S. Bilberry, of Dickens is pastor of this live little congregation, and it has been through his leadership that the people have adopted this plan of finance.

This is probably the second church in the west to try this plan. The New Hope Church about five miles south of Stamford are using the plan this year on a 45-acre farm. A few weeks ago 114 members of the church men, women and children—entered the cotton field and picked 14 bales of cotton in one day. The cotton was hauled to the gins by ten wagons and the gimmers made no ginning charges on this cotton. The people of that church think they will harvest at least 25 bales from the field, which will put that little country church in fine financial condition.

Autos Lock HORNS On Highway

Sunday afternoon a Dodge Coupe, and a Cadillac driven by C. G. Taylor, of Clebourne, headed into each other on the highway about six miles north of Spur. A negro had stopped his car in the road to fix something about it. His car cut off some of the view of the highway. The Dodge Coupe endeavored to switch around the negro's car, and in so doing collided with the Cadillac.

The Dodge car was reversed in the collision, its wheel torn off and much other damage done. The Cadillac being a heavier car, escaped with less damage but was injured a great deal. No one in the cars were injured more than some minor cuts and scratches.

THEY ADMIT IT WAS VERY HARD GAME

Spur Hi Shows Class In Game with Stamford During Fair

In regard to the game played between the Stamford High School team and the Spur Hi team at the Fair here, the Stamford American has the following to say:

In one of the hardest fought games of the season, the Stamford High

(Continued on p. 8)

New Business to Be Opened Soon

Mrs. Jack Rector and Mrs. Dr. Brannen, have returned from Dallas where they attended the Fair and also bought part of their stock for the Gift Shop. We trust that these two ladies will have much success in their business.

They will be located in the balcony above Gruben Bros. Their stock will arrive this week and it is thought that their opening will be Thursday of next week. If you want up-town gifts, visit the gift shop.

Miss Bill Roane, of Jayton, was in our city Monday. She stated that Miss Deavers, who was in the car that went into Duck Creek, was still very ill.

SEWERAGE CONNECTION ESSENTIAL

It Behooves Every Good Citizen to Make Spur More Healthy

The time limit for the people of Spur to make sewerage connections was out last Saturday. However, there are very few people but what have already complied with the city ordinance in this respect, and would have done so without the notice from the City Council. Those who have not been able to secure connection at this time, will do so within a short time. In fact, a number of them have made the proper arrangements and will connect up by the first of the month, and others are making arrangements to comply with the city law as soon as they can secure plumbers to do the work. The plumbers of Spur have been very busy the past three months.

It may look like a little expensive to require people to make sewer connection, but it is the most economical thing they can do. The sewer system of the town will be a great factor in keeping down epidemics of disease. Very likely Spur would have had an epidemic of typhoid fever the past summer had it not been that our city officials took every precaution and the citizens worked in harmony with them.

There was a time when it was not so necessary for Spur to have a sewerage, but that time has passed.

(Continued on p. 5)

Changes at the Spur National Bank

The Vice-President's office has been changed from the southeast corner of the building to the northeast corner. Upon being interviewed in regard to this move by a Times reporter, Mr. Lee stated that the Bank had to do something to keep up with Dickens County Times. The new arrangements at the Spur National Bank has provided a great deal more room.

The old lights are being taken out and new reflecting chandeliers are being installed. The amount of work at the Bank requires a great lot of work to be done at night, and the new lights will be much better than were the old ones as they give a very evenly soft white light.

There will be a new tellers window installed which assists the Bank customers to secure service more readily. W. B. Lee, Vice-President, said, "We expect to take care of the people who bank with us. We want to be able to receive their deposits as long as our vaults will hold them, and if it be necessary we will build a new vault."

The Spur National is staging a new program, which they will announce a little later. Watch for their announcement and see if it will benefit you in any manner.

Spur has two excellent Banks, and both of them have been very influential in promoting the progress of the town and the country.

C. A. JONES, President
W. B. LEE, Active Vice-Pres.

W. T. ANDREWS, Jr., Cashier
F. G. COLLIER, Asst. Cashier

THE SPUR NATIONAL BANK

CAPITAL AND SURPLUS \$125,000.00
SPUR, TEXAS

Dear Customers and Friends:

Mr. Ralph A. Hayes, of the Agricultural Extension Department of The International Harvester Company, has given a good deal of thought and study to dairy farming, and has made some observations that struck us very forcibly, as being worthwhile. Thinking they might be of interest to our customers and friends, we are passing them on to you for what they are worth. He says:

"THERE IS A PLACE FOR THE COW IN THE AGRICULTURE OF EVERY COUNTY

Wherever the cow has taken her rightful place, AND MAN HAS DONE HIS PART, we find the highest type of farming; we find farmers living on their own farms, raising crops in rotation, which is the way the Lord intended us to farm.

We find on the farms, barns with mows and bins and silos regular factories working the year 'round, getting the very most from the farm's crops and furnishing an income every week of the year.

We find homes with more conveniences.

We find thrifty, debt-free people with minds and hands alert from steady employment.

We find a good citizenship, a good agriculture.

The best methods of farming, the largest crops and the greatest steady return on investments are found on the well regulated dairy farms.

The dairy cow has made many hilly farms into comfortable country homes—surrounded with grass and alfalfa and prosperity. But the sad thing is—

THE COW HAS NOT TAKEN HER RIGHTFUL PACE IN EVERY COUNTRY—OUR GREAT SOUTH NEEDS MORE COWS.

Cows to furnish milk for people who have long done without it.

Cows to furnish milk and butter for boys and girls who have starved for muscle-making, bone making food.

Cows to cure a one-crop agriculture.

Cows to eat crops that should be growing in place of cotton.

Cows to furnish a year 'round income, without which no people are prosperous and happy.

Cows to help build and maintain a fertile soil.

Cows to break the monotony of countless acres of "one crop" in summer and months of inaction in winter.

Cows to furnish something to sell when money is needed, and money is always needed.

Cows to make homes of the farms, not just a place to stay.

Cows to help the tenant farmer to buy a farm for himself."

We believe Dickens County needs more good milk cows. It would do our hearts good to see from two to five good dairy cows on every farm in this county.

Several years ago the farmers of Harrison County, Missouri, began to realize the importance of good milk cows on the farm, and they promptly organized a dairy association, with 13 charter members. Now they boast of having between 400 and 500 members owning 10 to 15 high producing cows each. They are selling cream and feeding their skim milk to laying hens, and the poultry business is really progressing more rapidly than the dairy industry in that section. At the same time the fertility of the soil is being built up and maintained. Consequently they are spoken of as the most prosperous county in the State of Missouri.

There is no kind of effort like organized effort. We believe a little Dairy Association would be good for Dickens County, and as you know, we are always ready, willing and anxious to help and assist in furthering the interest of this trade territory.

After reading this letter, if you are interested in getting more good milk cows, and in organizing a dairy association, so that we will have something tangible to build upon, please come in or write and give us your name, promptly, and we shall be glad to call a meeting for the purpose of perfecting such an organization, and discussing plans of bringing some good cows into the county.

Cordially yours,
THE SPUR NATIONAL BANK

WOMEN VOTERS DEMAND RIGHTS

Legal disqualifications that women in Texas are subject to both under the common law and statutory enactments last Tuesday afternoon at the opening session of the sixth annual convention of the Texas League of Women Voters.

"Men and women should have equal rights on the score of equal taxation alone," declared Miss Florence M. Sands of Dallas, commenting on the address of Mrs. Grace N. Fitzgerald of Dallas, who had enumerated the legal disabilities under which Texas women suffer.

"It is a slap at women's intelligence that she should lose control of her property after marriage," she said. "Take that part of the marriage vow which reads, and with all my worldly goods I the endow, which the husband makes to his wife: what does that mean, if anything, in Texas? Under our laws it means, I suppose, that she can't have old shoes and what not. And if it doesn't mean anything, can the rest of the vow have any meaning?"

"I don't blame some women for insisting that the word 'obey' be struck from the wedding ceremony," she added.

Mrs. Fitzgerald referred to "the fiction of the law that man and wife are one and that the man is that one." After pointing out the object legal condition of women under the English common law, which prevails in Texas except where otherwise enacted by statute, she recited six specific cases where, in her opinion, the legal status of women in Texas should be corrected.

One of these was that grounds for divorce should be the same in Texas for both man and wife.

The convention was called to order Tuesday morning in the Baker Hotel by Dr. Alice G. Merchant of El Paso, president. Dr. Robert Hunt of Dallas offered the invocation, while addresses of welcome were given by Mrs. E. L. Dale for the Dallas Clubs and Mrs. Sarah Cory Menezes for the Dallas League of Women Voters. Mrs. Belle Wisdom of Houston responded for the Visitors.

Miss Adele Clark of Richmond, Va., second vice president of the National League, declared at the morning session that women were forced into politics by the guiding hand of divinity, so that the many pressing problems of the modern age might be

solved. "The vote that we women have obtained," said Miss Clark, "has cost something, and it is distressing that many women regard it lightly." She urged women to work directly with men's political organizations in politics, rather than attempting to be the "balance of power."

The afternoon session was presided over by Dr. Merchant and consisted of reports of chairmen of various standing committees of the State organization.

Mrs. Fitzgerald is chairman of the committee on legal status of women. She declared that the working of the community property law was unfair, in that while the husband had complete control of his property that was his before marriage, the woman did not.

Miss Sands predicted her main objection to unequal statutes for men and women on the grounds that both are equally taxed.

"Men don't want to be unfair," she said, "yet the laws have been made by men, and they probably acted in their own interests, even as we women might have."

She concluded by deploring the double standard of morals, adding that women are in a large part to blame.

"We women have no more right to accept men in our homes who are not pure than women who are not pure," she said.

Miss Mamie Jagoe of Denton, chairman of the committee on efficiency in government, next discussed the work being done by the joint legislative council of women's clubs at Austin and recommended that the league indorse that work again.

Mrs. Elizabeth M. Speer of Austin, executive secretary of the Texas prison survey, was one of the principal speakers Wednesday, referred to the necessity of all proposed legislation first being drafted by legal experts.

Mrs. Beulah Sterling Given addressed the convention on "American Citizenship," defining that term and stressing its responsibilities.

Reports from Mrs. John C. Granberry of Georgetown and Mrs. Minnie Fisher Cunningham of New Waverly were read, the one on women in industry and the other on prison reform.

Women of the world, if they so desire, may prevent all future wars, Mrs. Belle Wisdom of Houston, chairman of the committee on international co-operation and prevention of war, declared.

She said it was the duty of every woman to become informed on international relations and then to pass the information on to others. She termed both the world court and the League of Nations admirable agencies for international co-operation.

Dr. Carrie Weaver Smith, formerly superintendent of the Girl's Training School at Gainesville, was the last speaker of the afternoon and told of the recent work inaugurated in Minneapolis by a civic body of women in social hygiene education.

ONE LAW THAT SEEMS TO BE OBEYED

On the face of it, the headlight law for automotive traffic in this State would seem to be extremely difficult to enforce. Actual conditions, as reported from various sections of the State, however, indicate that the law is well enforced; that it is obeyed, in fact, rather better than most of our laws are. That the disobedience of law is so much of a problem.

The anti-glare legislation is as helpful to the man commanded to obey it as it is to the man whom it protects, for in the long run every man who obeys it is also protected by it. The pleasure of night driving where there's no glare from approaching vehicles is so markedly in contrast with the experience which every driver at night encountered before the law went into operation that nobody would return now to the old way if he could.

It is a rather rare thing now to meet a driver who carries blinding lights. There are a few left, and they will undoubtedly meet with their deserved punishment. It is only by the enforcement of proper adjustment of lights that we realize how much of a menace the old uptilted lights really were.

The testing stations have made friends for the law. When the car owner drives in for the first testing he is a bit nervous for fear he will be asked to buy some new kind of lamp at a fat figure to the profit of the test station man. Instead he sees his lights adjusted for a nominal fee and drives out to find that he has more light on the road where he wants it than ever before. Not only does he get less of the glare of the other man's light, but he also gets more of the benefit of his own. That feature alone is worth more to him than the cost of it, and he acquires an attitude of hearty good will toward the law, instead of one of doubtful allegiance.

If our laws for quiet motoring were as well enforced as our regulations for safe lighting at night, we might begin to hope for the speedy control of motoring in general. It is still true, however, that officers of the law fail to enforce quietude in the operation of vehicles by others, and even show no particular desire to obey these ordinances themselves. Until the police muffler is closed the citizen's motor blast is apt to remain unshushed.

ILLITERATES ALL OVER THE U. S. ABOUT TO BE COUNTED

Washington, D. C.—A census of illiterates in the United States as part of a campaign to reduce illiteracy will be undertaken next year by the Bureau of Education of the Interior Department.

Active co-operation of a number of national organizations has been pledged, including that of the General Federation of Women's Clubs, the American Federation of Labor, the Chamber of Commerce of the United States, the Red Cross and the American Legion.

State commissioners are being established in Alabama, Oklahoma and South Carolina to deal with the illiteracy in co-operation with the bureau's work.

In addition to the census, the campaign will be directed toward encouraging attendance at night schools and obtaining better enforcement of school attendance laws.

MURDERER PLAYS WITH SKULLS OF CHILDREN

Mexico City.—That his favorite sport was that of playing with skulls of children killed by his orders is the charge made against Col. Onofre de La Cruz of Tlaxtac, Oaxaca. A group of townsmen have presented charges to the courts of Aaxaca City against De La Cruz, who is stated to be a bloody murderer. He is accused of having killed 37 men and a number of women and children.

The villages have presented the judges with a list of the names of the victims of the most terrible criminals known to Mexican history. It is claimed that the crimes started in 1917 when De La Cruz invaded a humble cottage at midnight and killed the entire family. The charges also state that De La Cruz violated women and children. One of the most noted crimes was committed upon the person of Manuel Vasquez, who was taken from the bedside of his sick wife, stood against a wall and executed. The colonel returned to Vasquez home, where he killed the man's wife, who had given birth to twins only a few minutes before. After killing the wife with a dagger, De La Cruz seized the newly-born twins and severed the heads from the bodies tossing them in the air in play. Townsmen of Tlaxtac state that De La Cruz has threatened to return to the town and kill the entire population and they plead for the assistance of federal troops, as De La Cruz has a strong following of bandits.

LIBERIA TO BE REMODELED FOR GROWING RUBBER

New York—In order to make the United States independent of foreign rubber producers, Harvey S. Firestone, president of the Firestone Tire and Rubber Company, is preparing to spend \$100,000,000 in remodeling a whole country.

The newly organized Firestone Plantations Company, Firestone announced, has obtained concessions for 1,000,000 acres of rubber plantations in Liberia, West Africa. Plans call for the building of harbors, roads, towns, hospitals and possibly the organization of steamship lines.

A 2,000-acre British rubber plantation has already been purchased to serve mainly as a nursery for the larger plantations to be located on the most suitable land. A harbor will be built at Monrovia, capital of the negro republic.

Liberia now has no shipping facilities, and ships load and unload with the help of surf boats, but since five or six years will be required to bring the new plantations to maturity this method will take care of pro-

duction until a great breakwater can be constructed.

Employment of 330,000 men is contemplated when the organization has reached its full stride. The prevalence of malaria in Liberia is a drawback, but Firestone thinks that it can easily be stamped out. Otherwise it has a better climate and is more attractive than Florida, he declared.

The natives, who are large and muscular, will work for less than those on the British plantations in Malay, who get a shilling a day, Firestone says.

PEANUT CRIMINALS

The latest reminder that this is the home of the free and the land of the unfettered comes from South Texas.

The whole weight of the legislative genius of the city of Port Arthur has been directed against another desperate criminal in our midst.

He is the peanut cracker. No longer can a man crack a peanut in places of public entertainment in that city without incurring the majestic wrath of justice.

One way to accelerate a crime wave is to make enough laws so that everyone will be in the criminal class.

WHAT'S DOING IN WEST TEXAS

West Tex. C. of C.

Three hundred thousand dollars is being expended by the Southwestern Bell Telephone Co. in improvements and betterments of their Wichita Falls plants. The improvements include the erection of a three-story building 35x50 feet, installation of three thousand lines of underground cable, a distance of 6000 feet; and installation of much new equipment. Wichita Falls will have ten thousand telephone connections by July 1 1926 when the program will be completed according to statements of officials of the company.

A half million dollar building program for West Texas State Teachers College at Canyon is outlined by Dr. J. A. Hill, president of the institution, who announces he will ask the legislature for this amount for the next two year period. A \$200,000 Library and Education building, a \$175,000 Science building and improvements to present structures will contribute the program.

Quannah is advertising bids for constructing sewer extensions there. The city conducted a "Clean Up" campaign recently and the passage of sanitary laws has caused numerous petitions for sewer extensions.

A new hot water boiler washing plant has been added to the Santa Fe shops at Slaton. The plant represents an investment of \$50,000 and will enable the local shops to wash the boilers of all locomotives.

A campaign for \$100,000 road bonds is being pushed at Sagerton. The election will be held No. 7 and if carried the bonds will be used to build an improved highway from the Stonewall County line to Stamford connecting up the Plains Cut Off Highway. The highway will follow the Stamford and Northwestern Railroad.

West Texas exhibitors at the Dallas Fair were honored with a banquet at the Baker Hotel given by the West Texas Chamber of Commerce. Dignitaries present included Col. R. Q. Lee, President of the organization; Col. C. C. Walsh, A. B. Spencer and Clifford B. Jones, Past President; Porter A. Whaley, Mgr. of the organization; Mesdames C. C. Walsh, Clifford B. Jones, Porter Whaley. Homer D. Wade Assistant Mgr. presided.

The Memphis City Council has been petitioned to call a bond election for the purpose of voting city paving bonds. Thirty five to forty blocks of residential street paving is contemplated in the petition.

The first car load of 1925 pecans to move from Burnet county was shipped from Marble Falls and another car is now being loaded. The nuts found a ready market at a good price.

Material is on the ground and work will begin at once on a high line to serve the town of Happy. The line is being built by the Texas Utilities Co. and will be built to this point from Canyon. Another line from Canyon to Hereford will be built as soon as the happy line is completed.

T. F. Moffat of Stephens County has closed a contract with the Yellowhouse land Co. of Littlefield by which he leases a tract of land seven miles from that city for use as a stone quarry. An upheaval in geological times placed here an immense quantity of limestone and Moffat will install a big stone crushing plant which will turn out stone for use on panhandle highways. The plant is located on the Santa Fe railroad.

The Vernon Semi-Weekly Record will be transformed into a daily newspaper Nov. 1 with full leased wire Associated Press reports. E. H. Nichols owner, was formerly editor of an Amarillo daily newspaper.

LORD, I BELIEVE

The following account is taken from The Daily Mirror (London, England):

The remarkable case of a woman, bedridden and helpless for eleven years, who suddenly recovered her health, has caused the keenest interest at Canvey Island, where she lives. What her family regard as a miracle occurred last Monday. Miss Teskey had not walked for eleven years, and since 1918 she had been unable to talk.

On Monday she lay as in a trance. All hopes for her had been given up, and it seemed that she was very near death.

Then suddenly she spoke, and, leaving her bed, walked across the room. Since then she has resumed the life of a normal, healthy person.

This is how Miss Teskey described her recovery to The Daily Mirror: "I did not even want to live, and the doctors had long admitted that no aid of theirs could help me.

"Then I dreamt I was in a beautiful garden talking to the Lord.

"He asked me whether I believed in Him, and I cried, 'Lord, I believe.'

"Waking up, I walked from my bed and asked for something to eat."

A reporter from The Daily Chronicle, after investigating the case, wrote:

She had been attended recently by

Dr. Norman Wheatley, late of the London Hospital.

"I cannot account for her recovery in any way," he told me today. "As far as medical men were concerned, she was beyond all aid, and nothing I have done is responsible for her sudden recovery. She was paralyzed through an injury to the spine."—Weekly Unity.

SCOUT WINS EASY PRIZE

An Illinois Boy Scout has recently won a prize of \$250 and a year's scholarship to any university in America for the best essay submitted in a recent contest. "Why I Practice the Savings Bank Habit," was the subject of the winner, John Rolfe of the East High School, Aurora, Ill., chose. The Aurora Trust and Savings Bank conducted the contest, participated in by school children from nine states.

Prize Essay

Scout Rolfe's prize-winning essay follows: where just now, I heard a saying, The boy is father to the man." It seems as though people are just waking to the truth of that statement. Habits formed in the child never lose their hold. I am at an age when I am forming habits and, since they are to be permanent, I am trying to form as many good ones as possible.

"My reason for practicing this habit may all be packed into a nutshell by the ninth Scout Law. I am a member of the Boy Scouts of America, and the ninth of the 12 Laws says, 'A Scout is thrifty, he never wantonly destroys property. He saves his money so that he may pay his own way.' I am going to save my money in order to be able to 'pay my own way' through life.

"In summer, if you will look in the parks, or in winter in hotel lobbies and waiting rooms, you will see shabby men sitting or standing despondently, hands in pockets. These men never have saved; some of them will tell of the time they had good positions which paid well. They have now, because as fast as their money came in, it went; none of it was put away for a rainy day. Now it is raining and they are penniless.

Looks Ahead

"Sickness sometimes is a cause of poverty, but more often poverty is a result of waste prosperity. I do not want to be poor through by own waste and carelessness. Poverty carries with it debt and I want to go

Service That is Refreshing

through life without being continually worried about debts. I can remember in my own life a time when there had been a hard winter with bills to pay and no money coming in. I can remember the time when my father had trouble with his eyes and could not work. I am going to save for the day when my wage earning power will be nil.

"I know that some day there will be no work for me. In other words, some day I shall be old. I wish my old age to be spent in peace and comfort, and not in grumbling, cold and misery.

"You can't teach an old dog new tricks," said some wise man years ago. Neither can you teach an old waster to save, any more than you can teach an old man to drive an airplane. Everything you learn early, you keep. That is why we go to school between the ages of 6 and 20 instead of between 70 and 90.

"Therefore, I am going to be a good father to myself and furnish myself with a well stocked larder of

good habits, and prominent among them will be thrift."

CAKE EATERS TAKE NOTICE

Chicago boasts the largest wedding cake ever made. It was for the Pintozzi-Sincere nuptials and took two weeks to make. The cake contained 600 dozen eggs, 800 pounds of sugar, 400 pounds of flour, thirty-five pounds of butter and five gallons of vanilla extract. It took 200 pounds of icing to cover it. It is four feet square and fifteen feet high.

SKIN INOCULATION SAID TO CURE RHEUMATISM

A method of skin inoculation as a cure for rheumatism is claimed to have been discovered by Dr. Gustav Paul, director of the State Vaccination Institute in Vienna.

It is stated that the remedy has proved successful in over 600 cases, and it is claimed that the cure is both simple and harmless.

ROARING SPRINGS, TEXAS

LOCALS

Mrs. H. V. Link, of Aspermont, is here the guest of her parents, Mr. and Mrs. E. L. Smith.

Miss Tona Slaton spent Sunday in Roaring Springs visiting her sister, Mrs. Turpin.

Miss Catherine Rogers, who has been visiting her cousin, Birdie Belle Brown, returned to her home in Stanton Friday.

Mr. and Mrs. I. B. Brown, and their daughter, Miss Birdie Bell, went to Justiceburg Saturday to visit Mrs. Brown's parents, Mr. and Mrs. Ira Kutch.

A. C. Schwarz, manager of B. Schwarz & Son's, big new store here, left Saturday for Dallas and other points to buy goods for his big store.

A. G. Dunwoodie, of Anson, has accepted a position with B. Schwarz & Son here and assumed his duties Saturday.

D. D. Dunwoodie, of Bryant-Link Company, spent Sunday visiting his parents at Anson.

Miss Margaret Kenedy and Lillian Hagins, of Jayton, were in our city Friday doing some shopping and attending the foot ball game.

Mrs. W. J. Wade and daughter, of Jayton, were guests in our city on Thursday.

Miss Luna Lane, of Jayton, was visiting friends here Friday.

Mr. and Mrs. Johnnie Jones, of Jayton, were trading in our city on Friday.

Mrs. Edwin Woody and Mrs. Graves, of Girard, were doing some shopping in our city Saturday.

Mr. and Mrs. G. W. Bennett, of Elton, were guests in our city Tuesday.

Mrs. R. E. Lea, who has been in Canyon under treatment of physicians for some time, returned home Friday much improved.

Dr. A. T. Reed, of Lockney, was here looking after business Saturday. He owns several farms in Spur country.

Mrs. W. J. Garrett, of Jayton, was doing some shopping in Spur Monday.

Miss Ermal Lisenby, who is attending college in Abilene, spent the week end with her parents here.

Mrs. Geo. S. Link, who has been in Rison, Ark., visiting her mother, returned home Tuesday.

Mr. and Mrs. W. T. Andrews, and Mr. and Mrs. Daniel motored to Lubbock Sunday where Mr. Andrews boarded the train for Amarillo. He attended Federal Court there and returned home Tuesday.

See the City Drug Store Friday and Saturday for your toilet articles. Buy one and we give you two for the same price—City Drug Store.

SPUR'S FIRST LYCEUM NUMBER, TUESDAY, 27TH.

The first number of the Lyceum Course for Spur High School will be given next Tuesday evening. The work is being sponsored by the Ladies Aid of the Christian Church, and it will be through their influence that Spur it to enjoy this great entertainment.

"The Storm", Langdon McCormack's great drama of the northwest woods, will be presented by the New York Players on that evening. Marooned in a woodsman's cabin, Manette, the little French Canadian girl, is loved by the Americans; Burr, a woodsman, and Dave, a city man. Will she return Dave's love and go with him to the culture and fine clothes of the city? Or will she love the big soul of her father's friend, Burr? This great lesson in life's choice is dramatically presented in this play.

The climax is a forest fire—a scene which tests moral fibre, reveals the greatest of one man's heroism and burns the dross from the other's soul, leaving him thenceforth into one of God's good men, honest and square dealing.

After its phenomenal run in New York, the Herald said, "The Storm" can run for years and be remembered for a lifetime.

On account of the stage room this entertainment will be held at the High School auditorium, beginning about 7:30 p. m. If you have not secured a season ticket yet, it might be a good idea to see the managers and get it now. It will help boost a good thing, and encourage good entertainment for our town.

ALLDRIDGE—HAHN

A very quiet wedding occurred at the home of Rev. J. W. Jennings in Steel Hill community Sunday afternoon. The contracting parties were Miss Iva Hahn, of Dry Lake community, and Mr. C. A. Alldridge of Lamesa. Rev. Jennings pronounced the words that legalized them husband and wife. Just a few close friends were present to witness the ceremony.

Mrs. Alldridge is the daughter of Mr. and Mrs. J. M. Hahn, and has spent the last few years of her life in Dry Lake Community. Her family have held the highest respect of people of this county. Mr. Alldridge at one time worked in this country and has a great number of friends here. For the last few years he has been in business at Lamesa where he has enjoyed a reasonable success.

Mr. and Mrs. Alldridge left Sunday afternoon for Lamesa where they will make their future home.

The Times joins their many friends in wishing them success.

Former Dickens Co. Man, Killed in Ariz.

A message received here yesterday stated that Rev. Neil Holland was killed in a mine at Globe, Ariz., this week. No information as to how the accident occurred was stated in the message.

Rev. Holland was at one time Associational Missionary for the Dickens County Association and took a very active part in the church affairs of the country. He was a brother-in-law to Charlie Horton, a resident of Dickens, and has a great number of friends in this country who knew him in the early days.

He was one of the early cowboys of this county. Made a profession of Christianity several years ago and soon afterward began preaching. He was known by all the ranchmen of this country.

Peck Basinger, of Dickens, was in our city Monday stating his surprise at the growth of Spur. He has been in the Paducah country for some time and stated that Paducah was a good town, but that Spur had it bested.

COTTON MARKET

By H. & B. Beer.

Prices reuled lower on Thursday's market as a result of fair weather in the cotton belt. Forecasted reports of 9,600,000 bales ginned as compared with 7,616,000 bales a year ago. This would provide 2,498,000 for the last period.

Cotton closed yesterday on New York market, December 21.23-5 and Wednesday 21.46-9.

New Orleans Market, December closed at 20.55-7 and Wednesday at 20.81-2. The prices show a decline of 1-2c within one week.

Another government report will be given out next Monday which may change the market considerably.

W. C. Benson, an aged and much respected citizen of Croton, was greeting friends on our streets yesterday. Mr. Benson said he had been in West Texas twenty-six years, and had been a resident of Texas fifty three years, coming to Wise county in an early day when the war whoop of the Cherokee and the Comanche was no uncommon thing.

Spur Ginners Report

According to the Spur ginners there had been 2,565 bales of the 1925 crop ginned up to three o'clock Thursday. This shows a decided increase over last week's report, making 933 bales for the week.

The past three days being fair weather has increased the ginning considerably for this territory. However, there have been no occasion for farmers to have to wait for ginning in Spur.

Subscriptions are now Coming in Rapidly

The subscriptions in the Dickens County Times subscription contest are pouring in rapidly, and it looks now like the number will far exceed what was first expected. The contestants are working rapidly, and don't any one be surprised if they ask you for a subscription. Again, should you be missed don't get offended, but just drop into the office and leave your subscription with us for the contestant you want to have it.

The New Chrysler car which the Times will give the winner is worthy of any one's efforts. The winner will be proud of it, and we hope they will always remember the contest with a pleasantness.

The following shows the standing of the contestants:

Miss Mary Stovall	10,200
Mrs. L. L. F. Parker	9,200
Miss Frankie Williams	6,300
Mrs. W. J. Berry	4,400
Mrs. C. C. Cobb	2,400
Miss Jewell Barnett	1,500
Mrs. Lee Guthrie	200

"THE TREASURE CHEST"

The "Pirates Treasure Chest" with treasure brought from all parts of the world, will be opened in Spur on Thursday, Oct. 29.

Mysterious iron bound Chests and barrels contain unusual gifts for every member of the family.

Souvenirs from "Cap'n Kids" old Sea Chest will be given to each person visiting the "Treasure Chest," on the balcony of Gruben Bros. the opening day Oct. 29.

WELL PLEASED WITH RESULTS

S. H. Twaddell, manager of the Spur Grocery, stated that one small "ad" in the Dickens County Times sold 100 cured hams for their store Saturday, and would have sold many more had not the stock been exhausted. The entire stock was sold out by five o'clock, and they had many calls after that time. "I don't hesitate to say that the little "ad" was responsible for our good business," was Mr. Twaddell's statement.

There is one thing we wish to add. The Spur Grocery always places good groceries before their customers which means a great deal in the selling of them. We are glad they had good results, and we trust that every other business that advertises in the Times will get value received from it.

Mr. and Mrs. Malouf, of Rotan, were guests of Joe T. Salem and sister here Monday.

Better Merchandise

We are known to the public for the meritorious methods used in our business. The customer who trades with us feels free to tell their friends that the proper store service will be tendered when they visit the Love Dry Goods Co. Store, and that regardless of the ability of the customer to judge qualities, has no bearing on the price or quality sold. We are here to treat each and every customer with service and assure you that each purchase must come up to the standard of merit.

It is not the cheap quality and off brand article that gives the purchaser his or her money's worth, but the price of a high class article sold at a live and let live price, that has retained for us the better class of patronage.

BETTER MAKES IN LADIES WEAR

This week as usual during the rush season finds us with many new arrivals in our Ready-to-Wear lines. The brands we sell are known from coast to coast for quality and style; the following are the better makes:

Alport & Cutler,
Peggy Paige and
Apfelbaum & Stern
Dresses

Wooltex Coats
and
Peggy Paris

and many other as well known lines are at your disposal for inspection. Ladies and Misses Hats, Hosiery, Underwear, and every conceivable required item to match.

Kelly footwear is much in evidence at this period, and we will be glad at the earliest opportunity to serve you in connection with your needs

Exquisite Materials For The Woman Who Sews

If you desire to make your garments, and prefer the materials, we have them in abundance to meet any desired taste, and while we carry extensive lines of Ready-to-wear, you will find other lines in proportion.

Come to us for a look; we feel that it will be time well spent and assure you of proper treatment regardless of the size of your purchase.

KOLONIAL KARD KLUB—

The members of the Kononial Kard Klub were entertained last Thursday in a Dinner party at Bell's Cafe by Miss Pauline Brown. The table was artistically decorated and after a toast to the hostess by Dorothy Love a 3 course dinner was served to the following guests and members: Misses Ama Bonds, Flossie Hawley, Annis Albin, Lera Harris, Dorothy Love, Ruby Love, Thelma Caraway, Mildred Williams, Willie Richbourg, Mesdames Leland D. Campbell, and Floyd D. Barnett and hostess Miss Pauline Brown.

After dinner the guests went to the Lyric Theater.

Spur Has Good Art Talent

That Spur has much good talent for art is being demonstrated at this time. Chester Edwards, a ten year old boy, who has been studying art with Miss Annie Lane for a short time, won first honors in the art display at the Northwest Texas Fair. Miss Bonnie Gilbert, another of Miss Lane's students, won second honors at the same exhibit. There were others of Miss Lane's pupils that had excellent paintings on display at this Fair. None of these students have been studying a great while, and their work displayed, their great ability

and the efficient instructions of their teacher.

It ought to be the pride of any parent to develop this factor in their children. It cultivates an appreciation for the beautiful. Miss Lane, who can be reached by phoning 185, is doing a great work toward developing the people of the town along these lines.

Mr. and Mrs. Onas Ferguson, of Roaring Springs, were transacting business in our city Tuesday.

Why not try going to Sunday school and Church Sunday. It might be a charge for you, and you might enjoy the sermon a great deal.

SEWERAGE CONNECTION ESSENTIAL

(Continued from p. 1)

There are many more people in our city now, and there are others coming, and this will require people to live in closer relationship to each other which will require greater sanitary care. Spur's growth will depend greatly upon its sanitary and health condition. Who wants to live in a town that is infested with disease? What would be the range of property values under such conditions?

Again, it may cost one or two hundred dollars to make these sewer connections. But what would that amount be compared with saving the life of a friend or a member of the family? Which is better; spend a few dollars to prevent the chances of disease, or let the disease come and spend the money in doctor bills and sanitarium bills and let a loved one suffer days and weeks and take a chance of losing life? The persons that does not take these things into consideration, runs a great risk for both his neighbors' and his own family.

Let's get connected up to the sewer system and do our part in making this a sanitary town that everybody will be proud of.

A certain lady of our town asked the pastor of the Baptist Church how he would feel if he had forty members like her and her husband. He replied, "If I had fifteen hundred like you I would go into the movie business and get rich."

R. B. Johnston, and J. L. Karr returned Tuesday from Weatherford where they secured a number of fine Jersey cows. Weatherford is noted for their fine Jerseys, and Mr. Johnston stated they had a number that would produce five gallons of milk.

Chrysler Four

PERFORMANCE AND BEAUTY THAT APPEAL TO THOSE WHO KNOW

The nation-wide popularity of this new quality Four is due to the enthusiasm of men and of women who say they have never seen its equal for comfort, beauty, ease of handling and performance.

Everywhere its continuous and dependable power, its effortless, flashing pick-up, its economy and durability are a marvel even to those who have driven cars of much higher price than this splendid Chrysler, are the result of the application for the first time of the proved scientific engineering of its famous companion car, the Chrysler Six, to four-cylinder practice. Linked to this is a degree of manufacturing skill and accuracy found only in Chrysler products.

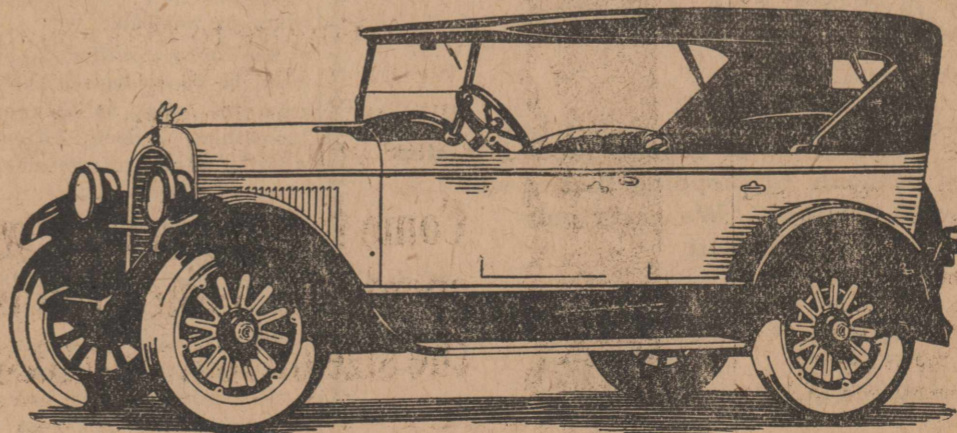

Women who like fine things are captivated by the Chrysler Four beauty of line and coloring, by its restful riding and handling—the result of Chrysler designed spring suspension

and pivotal steering, together with balloon tires. They appreciate in particular the greater safety of Chrysler hydraulic four-wheel brakes, furnished on this new Four at slight extra cost for the first time on any car of like price.

They enjoy its freedom from throb and rumble in the closed models. Sense of vibration is wiped out by specially designed insulation of the motor from the frame.

Modish Fisher Bodies, planned and built for utmost comfort and roominess, are further cause for Chrysler's widespread popularity with men as well as with women—a popularity for which even a Chrysler production of 800 cars a day has proved inadequate.

Test these distinctive Chrysler Four advantages yourself. Your dealer will welcome the opportunity of a demonstration.

DYING AT THE RIGHT TIME

On the day the Armistice was signed Premier Clemenceau of France was the center of the celebration in Paris. Turning to a friend, he said cynically, "I ought to die now. At least they would give me a burial."

Some men have had the misfortune of dragging on thru years of bitterness after their days of greatness were over. Others have dramatically passed away at the culmination of their fame.

Clifford Holland, the engineering genius who planned the vehicular tunnel between New York and New Jersey, is one. The day the final blast finished this, his greatest feat of skill, he was laid to rest.

Percy Houghton, the famous football coach, had taken a seemingly impossible task and had made good. Even while the papers were saying he had achieved the impossible and had reached the apex of his career, he was suddenly stricken by heart disease.

Amy Lowell, the poetess, had just finished her life of John Keats, which received universal praise, when she died.

William Jennings Bryan, the Great Commoner, passed away at the high tide of his spectacular career when his apparent success at Dayton had fixed the eyes of the nation upon him.

Those who thus "die in the harness," living their lives and fighting up to the last, are the ones whose passing most deeply impresses those around them.

A switch that will open garage doors as a car touches it has been invented.

COURT CLOSES

HAVEN FOR CATS

Chicago—Sixteen pet cats, felines of all ages, sizes and breeds, who often made the nights hideous with their song and were not above pilfering an odd chop or steak from neighboring doorways and iceboxes, were the cause of Mrs. Emily Wickstrom being ordered by Judge Frank T. Sullivan of the Municipal Court to vacate her apartment by Nov. 18.

According to testimony, a sign in Mrs. Wickstrom's window reads, "Rest home for cats," while in her back door are cut two small holes, one large and one small so that all stray and homeless cats may enter at will.

Judge Sullivan's attention was called to Mrs. Wickstrom's fondness for the alley prowlers when the owner of the apartment house in which she lives complained to the health department.

The pet cats drove most of the other tenants of the building to quarters where the night hours could be spent in peaceful slumber, the building owner complained.

I'M THE GINK—

I'm the gink who loses his courtesy, when he is among girls who work. With those I consider my social equals I am the soul of honor and courtesy. However, when I am in the shop where the girls work I don't mind how I swear or what I say. They don't matter to me. Courtesy is lost on them. Of course, I am a fake through and through. I show my real self when I'm away from my social "equals."

WOMAN FELLED AND BITTEN BY SWINE

Mrs. George Hale of near Gamaliel, Ky, was painfully injured by a hog while she was feeding a herd of swine. While she was giving corn to the drove she was knocked down by a sow and bitten in ten places on the face and arms.

Workmen heard her screams and rescued her just in time. She also suffered a broken collarbone, a broken arm and severe bruises, besides the bites. Physicians are administering treatment to prevent blood-poison.

NOT EVEN AN OSTRICH COULD BEAT THIS MAN

L. L. Grey, inmate of the Washington County Jail, developed a serious case of stomach trouble and physicians performed an operation.

They removed the handles of four desert spoons and the bowls of two more, a handle and one inch of the blade of a dinner knife and two pieces of wire about two inches long.

APPLE CROP SHOWS INCREASE OVER 1924

The 1925 commercial apple crop of the United States will be about 6 per cent greater than that of last year, according to an estimate by the Bureau of Agricultural Economics.

This year's total apple crop will be about 30,384,000 barrels, compared with 28,701,000 in 1924 and 30,408,800, the five-year average, according to the Government statisticians.

NEW MANAGER HEADS OLDSMOBILE FACTORY

I. J. Reuter, president and general manager of the Olds Motor Works, at Lansing Mich. has just announced the appointment of J. J. Carter to the position of factor manager. Mr. Carter joined the Oldsmobile staff last March as assistant factory manager, coming from the Remy Electric company, another General Motors unit, where during his thirteen years association with Remy he had been Superintendent of the tool room, master mechanic, and manufacturing engineer. He succeeds John Scott who recently resigned as factory manager family will sail in November for an extensive trip abroad.

THIEF AT 88, PROMISES TO TURN OVER NEW LEAF

"This is terrible at my age," said an 88-year-old thief when he was arrested and sentenced to jail for the stealing of a few small articles from a Tokyo junk shop man in Japan. "This is the last time I shall breathe the air of freedom, as I shall probably die in prison."

Police investigations revealed the man had been in prison thirteen times. In view of his age, and on his promise to restore the stolen articles, and "turn over a new leaf," he was released that he might not die behind the bars.

Uniting 11,000 toothpicks, a New York boy has made a model of Eiffel tower.

CHILDREN'S SAYINGS

"Does the baby talk yet?" asked a friend of the family.

"No," replied the baby's older brother disgustingly; "he doesn't need to talk. All he has to do is to yell, and he gets everything in the house worth having."

"What's the matter with the baby?" asked a lady of a little girl whose baby brother she had understood to be ailing.

"Oh, nothing much," was the answer. "He's only hatchin' teeth."

"Now, my young man," said the barber, "how do you want your hair cut?"

"With a hole in the top, like dad's," was the boy's reply.

A little girl who was trying to tell a friend how absent-minded her grand-pa was said:

"He walks thinking of nothing and when he remembers it, he then forgets that what he thought of was something entirely different from what he wanted to remember."

"Do you know who I am, my little man?" asked the new minister.

"Yes, I do," said Billy. "Don't you."

"What makes that new baby of your home cry so much, Tommy?"

"If you had all your hair off," was Tommy's reply, "and your teeth out and your legs were so weak you could not stand on them, I guess you'd feel like crying, too."

"Mother," said a small boy after his first visit to a blacksmith's shop, "I saw a man making a horse."

When she insisted that he must have been mistaken, he replied:

"No, I'm not, mother. He had the horse nearly finished when I came away. He was just nailing on the feet."

"Before I was born," mused Henry, "I was up in heaven, all in pieces, waiting for God to put me together. It was an awful hard thing to do, but He made a pretty good job of it, don't you think so?"

"My papa is a mounted policeman," said Eric to a visitor.

"Is that better than being a walking policeman," asked the visitor.

"Course it is," replied Eric. "If there is any trouble he can get away quicker."

So great has grown the demands for Persian rugs and carpets in Turkey that 12,000 bales of them were received in Constantinople in a recent month.

Boys' push cars with seat for passengers or bundle, have appeared.

ITALY EXPECTS SHORT WINTER LEMON CROP

The 1925-26 crop of Italian winter lemons is expected to reach only about 15 per cent of a normal crop, according to L. G. Dawson, American consul at Messina. The crop usually begins to move around November 1, but is expected to be two weeks late this season owing to delayed development resulting from a shortage of irrigation water. Current prices are about \$5.25 per unit of 1,040 lemons on the trees, and are expected to go higher.

FARMER NEEDS FARM TO HOUSE HIS SHOES

A pair of specially made fifteen and one-half soles are being made by a merchant of Omaha, Neb. for a 250-pound South Dakota farmer at a cost of \$20.

The shoes, when completed, will have required two days' labor and most of a kangaroo hide. They will be fourteen inches long and have a spread of five inches at the widest point.

\$125,000 FOR ONE SEAT, HOW'S THAT FOR PRICE?

A record high price of \$125,000 for a seat on the New York Stock Exchange was paid by Arthur L. Kerrigan, of New York City recently for the membership of Hugo Blumenthal. This was \$3000 above the previous record.

A lot of the people who are blaming Mr. Dempsey for refusing to fight would be stunned cold if invited to defend themselves with their fists.

CARE OF CONVALESCENT IN SUMMER

For those who are just recovering from a serious illness the problem of food is a serious one. The patient, though well on the road to recovery, is usually weakened by the rigors of disease and the excessive heat is wont to sap his energy. Hence, the foods that are consumed during this period should be considered carefully as to digestibility, food value, ease of assimilation, purity and sterility. These are important in any food but especially so when the consumer is not strong and healthy.

In most cases, the one who is convalescing consumes milk in large quantities. This food contains all of the elements that are essential to the body. If milk is pure and germless it is easily digested and assimilated.

Where the milk supply is uncertain or the quality not of the best, evaporated milk should be employed. It is sterile; it is just pure milk with about sixty per cent of the water removed. Its double richness may be modified, if desired, by the addition of water or it may be used just as it is, where rich, creamy dishes are desired.

Many people make the mistake of confusing evaporated milk with condensed milk. They are not at all similar in appearance, composition or taste. They cannot be used for the same purposes; condensed milk is a combination of sugar and milk; evaporated milk has no added sugar, being pure milk of double-rich quality and food value.

Following are recipes of easily prepared dishes and foods that are well suited for the invalid and the convalescent.

Loganberry Cream.

¾ cup evaporated milk ¼ cup loganberry juice
¾ cup water 2 tsp. lemon juice
Pinch salt

Put all ingredients in a Mason fruit jar and shake thoroughly. Chill and serve in glasses filled ¾ full of ice chips. Raspberry, blackberry, and cherry juice may be used instead of the loganberry.

Iced Cocoa.

3 tsp. cocoa milk diluted
2 tsp. sugar with
¼ cup water ½ cup water
Pinch salt ½ tsp. vanilla
¾ cup evaporated milk

Mix cocoa and sugar thoroughly and add the ¾ cup water and boil over a low flame for 15 minutes. Scald the diluted milk and add cocoa syrup and salt. Continue cooking for 15 minutes in double boiler. Add vanilla. Chill and serve with whipped cream.

AN IMPORTANT DIFFERENCE

Mr. Porter A. Whaley, speaking at the dinner which each year the West Texas Chamber of Commerce gives to its agricultural exhibitors at the Dallas Fair, pointed out the essential difference between the immigration movement in West Texas and that in certain other parts of the country. These others, notably those of Florida and California, Mr. Whaley said, are largely urban, while West Texas immigration is to the land. He might have pointed out further that in Florida and California there is the fictitious element of speculation, while as regards West Texas there is nothing of unhealthy inflation.

The thousands of people who are moving into West Texas either are going onto the land, becoming the owners of their own farms, or are going into the industrial life of the cities and towns which is necessarily rapidly expanding to keep pace with the influx of new citizens throughout the section. This kind of immigration is altogether healthy. It is soundly based without being pyramided upon a speculative boom that might collapse and bring the superstructure of new population toppling with it.—Star Telegram.

THE FIGHT ON DEATH TAXES

The rather satisfying indications of success in the forthcoming session of Congress of the nationwide fight for repeal of the federal death tax do not completely remedy the injustice which faces multitudes of citizens in this country. For complete remedy there must be not alone elimination of the double exploitation of this tax field, which at present exists with both federal and state governments taxing inheritances, but there must be also a system of elimination of duplications between the states. Under the present arrangement it is possible, and occurs often, that an estate is subject to taxes which in their total are greater than the value of the estate. Even with withdrawal of the Federal Government from the field, it will still be possible for taxes of various states to exceed the value of the estate.

President Coolidge, who favors withdrawal of the Federal Government from the death tax field, also favors a revision of the laws of the various states pursuant to a plan to be devised in a conference of state executives and legislators. Such a plan would provide uniformity of state death tax laws at the same time that it would define jurisdiction. Such a conference should be arranged as

soon as possible after the first reform, that of abandonment by the Federal Government of death taxation, is accomplished.—Star Telegram

WOMAN OWNS BIBLE SMALLER THAN STAMP

Mrs. Henry Kern, wife of a deputy fish and game warden, of Waukegan, Ill., believes she holds the world's record for possessing the smallest Bible in the world. Printed on the thinnest of India paper, it is barely one-fourth inch in thickness. An ordinary postage stamp would cover two such Bibles. It is smaller even than a man's fingernail.

The type is so fine that no word can be read by the naked eye. Under a powerful magnifying glass, however, the printing stands out remarkably clear and every word can be read. A complete edition of the New Testament is contained in the tiny volume. Mrs. Kerne obtained the book fifteen years ago.

HANDSHAKE BLISTER; WANTS BOW INSTEAD

Mme. Sarah Grand, author of "The Heavenly Twins," who is mayoress of Bath, London, has a blistered hand as the result of greeting 2500 people at the British Medical Association conference.

Mme Grand has now suggested that at receptions the more stately courtesy of the eighteenth century should take the place of handshakes and that guests should bow over the hostess' hand or just touch the back of her hand with the fingers.

RELATIVES FEAR MORE COFFINS WASHED AWAY

Relatives of persons buried in Oakwood Cemetery, Austin, Texas Thursday voiced fear to the city council that more coffins would be washed

from the graves.

Water is standing about two and three feet deep in about 200 graves, which are sunk in, and it is feared that the remains of the dead have been washed away underground, as that of a woman, which was found Tuesday lying on top of the ground about 75 yards from the grave and lodged against a fence.

COW IN MONTH GIVES 74 POUNDS OF BUTTER

Brawley, Cal.—Diemoz Bros. of this city were again winners in the association cow tests during the past month, their animal producing seventy-four pounds of butterfat during the month. There were eighteen contestants by the association that showed butterfat in excess of seventy pounds. The average production for the 2207 cows tested by the Imperial County Testing Bureau was 610 pounds of milk and 24.2 pounds of butterfat per cow for the period.

BABIES SOLD IN FT. WORTH, SAYS STATE REPORT

Reports by Mrs. Theo Reese of the State Board of Health that the buying and selling of babies is being carried on in Fort Worth has resulted in an ordinance to regulate children's boarding homes and maternity hospitals being drafted by Dr. L. H. Martin, director of health and welfare, it was said Thursday by Dr. Martin.

Mrs. Reese has completed a survey of children's boarding homes and maternity hospitals in Fort Worth and has found them to be very well conducted as a whole, she said, but some cases of "baby peddling" were discovered.

Under the ordinance Dr. Martin is drafting, exhaustive reports of all details and conditions surrounding the adoption of each and every child in Fort Worth in the future will be required of all the principals concerned.

CLIFFORD B. JONES, Manager

SPUR HI SHOWS CLASS IN GAME WITH STAMFORD

(Continued from p. 1)

School Bulldogs defeated Spur last Friday 12 to 6. The Stamford team was in poor condition for the game due to the fact that they were caught on the road to Spur by the rain and were forced to spend the night in an old gin. This coupled with the fact that they were out-weighted by their opponents served to make a close score out of what would probably have been a walk-over under ordinary conditions.

The offensive stars for Stamford were Owens and Bettis. Time and again these two little halves reeled off substantial gains on off tackles plays and end runs. McElreath, the smart little Bulldog quarter-back called a good game but did very little ball toting due to the fact that he is nursing an injured arm. Stamford took the offensive in the very first quarter and after several first downs had been made by Owens and Bettis Pete Owens went over tackle for a touchdown. Bruce missed goal. In the third quarter they scored again in much the same manner and Owens went over for his touchdown also, Bruce again missed goal.

In the final quarter, Lisenby, Spur, made the most sensational play of the game when he took Owens' punt on his own 40 yard line and ran 60 yards for a touchdown.

Hoy, B. Payne and Overton showed up well on defense for Stamford.

Spur boys have not been playing foot ball as long as many other teams have been playing, but they are making people take notice. By the time Stamford gets in another game with Spur boys, they will feel they will need to be one hundred per cent perfect and then they will likely need some help to win.

Come to Spur and Save Money.

G. R. Elkins, manager of the Red Front Drug Store, returned from Dallas Friday. He also visited his son, Henry, who is a student in T. C. U. at Fort Worth.

Mrs. C. A. Love, who has been attending the State Fair at Dallas, returned home Saturday bringing her little grand-daughter, Miss Flora Love, home with her.

MERCHANTS REPORT A GOOD BUSINESS SAT.

(Continued from p. 1)

store and other business firms in the town.

There is a good reason for this. The Spur merchants appreciate their trade enough to give the people the best for their money. One customer who is well acquainted with New York and bought several hundred dollars worth at one Spur store said, "Why go to New York when you can get as good in Spur." Well staying by Spur is what gives the people these great New York accommodations. The people of this territory believe in making a New York out of Spur, and as the years go by they begin to realize their dream is coming true.

on he said," There is something wrong with a man's Christian make-up if he does not want to give a portion of his earnings to spread the teachings of Christ and the betterment of humanity. It was not intended for man to live to himself, and the helping of the helpless is the greatest evidence of Christian brotherhood. I would not be denied that privilege for all I hope to have financially."

Dr. Scranton spoke something

more than thirty minutes on his subject, bringing out the responsibility of the Church to the denominational work.

He spoke at Roaring Springs and Matador in the afternoon and night and at the meeting of the Dickens County Baptist Association at Dickens on Monday afternoon.

Baptist Church Man In Spur Sunday

Dr. R. A. Scranton, of Plainview, preached at the First Baptist Church here Sunday morning. His theme was on the work of the State Baptist Board and the accomplishments of the denomination the past six years.

Dr. Scranton stated that he appreciated doing work through the State Board for it is general work. "Whenever I pay a dollar into the State Board fund, he said, "it goes to help all humanity." "Although I may not go to the foreign field, I have a part in the work there because I work in harmony with my denomination," he continued. Going
