

NORTHWEST TEXAS STATE FAIR, AT SPUR, SEPTEMBER 27-28-29, 1928. COMING?

A WEST TEXAS PAPER FOR WEST TEXAS PEOPLE Dickens Co. Times

Volume 4 SPUR, DICKENS COUNTY, TEXAS, THURSDAY, AUGUST 23, 1928 Whole Number 194

McAdoo Having A Fine School Building Erected

As a result of a recent bond issued which carried by a large majority, the people of McAdoo are erecting a fine new brick school building. The building when completed will cost about \$35,000.00 not considering the present equipment in the old building. The present grounds which corner right at the town, but is located a little farther away than the present old building.

Builds New Equipment For New Hatchery

In conversation with F. B. Crockett the first of the week we learned that he is going into the chicken hatching business on a big scale. He stated he felt sure the contract was let for one of the largest hatcheries to be located in Spur that can be found in Texas anywhere. The incubator capacity is to run around forty thousand and to fifty thousand, and these incubators are to be installed within a few weeks.

FOLEY MOTOR COMPANY OPENS FOR BUSINESS

The Foley Motor Company received their first shipment of Studebaker automobiles and are now ready to demonstrate the various types of these cars. They have their office and show room at the Ramsey Garage and are now ready to let people ride in a good car.

JUDGE BELL SPEAKS IN DICKENS COUNTY IN BEHALF OF MAYFIELD

Attorney Harris Bell, of Austin, Spoke in Spur Saturday night and at Dickens Monday afternoon in behalf of the candidacy of Senator Earle E. Mayfield who is a candidate for United States Senator for a second term. Judge Bell was fair in his talks at both places and was courteous in his attitude toward Congressman Tom Connally, the Mayfield opponent. However, he was a little firm in his denunciation of certain statements claimed to have been made by Connally.

Building Activities In And About Spur

Work on the new East side school began Monday. The site has been cleared off and the foundation is being dug this week. They expect to be ready to put in the foundation by Monday. W. P. Nugent & Company have charge of the work and Musser Lumber Company is furnishing the material.

MRS. WILLIE WILSON DIED VERY SUDDENLY

Mrs. Willie Mae Wilson, wife of M. B. Wilson of Steel Hill, died very suddenly at the home of her sister-in-law, Mrs. Spraberry, here in Spur last Thursday morning. Mrs. Wilson had been feeling indisposed for several days and took some medicine to relieve her illness. The medicine proved a poison to her which caused her death.

MRS. WILLMON PASSES AWAY

Mrs. Mattie Willmon, 24, of near Dickens, died at the Nichols Sanitarium about five thirty Monday afternoon. Mrs. Willmon had undergone an operation about ten days before and while it was a very serious one, it was thought she had passed the danger point and was improving as rapidly as any one could. In fact, she had been told by her surgeon that she would be able to return home within a day or two.

Who Will Get The Prize At The Fair

There is a rumor that the business men of Spur are going to join in giving a prize to the two young people who will be married publicly before the visitors of the Northwest Texas Fair here September 27, 28, 29. We are not assured that this proposition will go over yet, but it looks to us like it would be a fine opportunity for some young couple to receive a nice present to assist them to start out in life.

WHO DO YOU WANT FOR CONSTABLE

This is the question that M. L. Nichols has asked the voters of Precinct No. 3 in last week's issue of this paper. He has submitted his record to you as a peace officer which, as he has printed it, is wonderful and in Spur.

C. L. LOVE RETURNS FROM EASTERN MARKETS

C. L. Love, manager for Love Dry Goods Company, came in Saturday from Dallas and St. Louis, where he had been buying a big stock of merchandise to replenish the stock in his store here. There are now coming in a big line of men suits, ladies wear etc., and has always been his custom. Mr. Love has secured the best in quality in these lines.

SWAN SONG

This is my wind-up say as a candidate for office in Dickens County. I am quite sure the people are weary of being solicited for votes. I am a very poor hand at asking for votes. I have always felt that everyone appreciates the value of their votes, and that but few are to be had for just the asking.

GIRLS PASS BAD CHECKS; GET TAKEN IN

Thursday of last week two women who live on the railroad six miles east of Roaring Springs, took the liberty to forge four checks in Spur and one in Dickens. Two of the checks were given at Bryant-Link Company one at C. R. Edwards & Company and one at Kellam Dry Goods Company. The check at Dickens was given to Hale & Speer Mercantile.

Dickens Schools to Have Formal Opening Sept. 10th.

W. W. Keefe, superintendent of schools at Dickens, was in our city Tuesday and made the following announcements for the Dickens schools: Registration of pupils will begin on Thursday, September 6th, beginning in the morning of that date. Books will be issued and lessons will be signed to pupils on Thursday and Friday, September 6th and 7th. All pupils will be expected to be prepared for class work the day school opens.

SENATOR MAYFIELD SPEAKS IN ABILENE COMPARES RECORD WITH OPPONENT

That Senator Earle B. Mayfield recognizes the sovereignty of West Texas as voters was manifested by his coming to West Texas in his speech making tour for the second primary.

Senator Mayfield spoke in Abilene last Friday evening to one of the largest crowds that has ever favored a candidate.

In his talk the Senator spoke of his record for the past five years as a representative of his State in the U. S. Senate. He stated that he had placed his campaign on a high plane in the First Primary and wanted it to remain so during the second primary.

"But, while you people I want to review my record and compare it with that of my opponent," he said. "During Mr. Connally's twelve years in the House he has been able to get on one committee. I have been in the Senate one term and am a member of six very important committees. In the Senate the real work is done in the committees and not by long wild speeches on the floor. Once you are on a committee there is no power on earth that can remove you from that committee if you stay in the Senate. If you re-elect me, I will be able to serve you better because I am a member of these committees, and since membership on them goes by seniority it is not probable that Mr. Connally would get on a single one of them should he be elected."

In speaking of his record in behalf of the farmer and stockman he stated that he had introduced a number of bills and put them through the Senate. Among these was a bill permitting the railroads to grand reduced freight rates on farm products in case of severe drouths. Another bill requiring the use of low grade cotton instead of jute products as and the bill making it a felony for the secretary of agriculture or any of his employees to forecast a probable cotton price for the future. He stated this latter bill passed the senate but failed in the house.

"Why didn't Connally, who claims to be so powerful in the house, stay on the job and help pass that farmer's bill instead of running away from Washington on March 15 and coming down here to Texas to campaign against me?" was the question asked the Abilene people.

He said that since Connally had been in the house that he was the author of only one bill, a private measure to afford relief to a woman whose husband had been killed by a souphone thrown from a troop train. Mr. Mayfield said, "I put that bill through the senate." Again, "Mr. Connally has no legislative record, and that is why he has spent two-thirds of his time in this campaign attacking me."

"Mr. Connally in a speech at Fort Worth, asked me to let the people know if the Insull interests had contributed to my campaign. You observe that Mr. Connally did not charge that they had, he just asked me to say whether they had or not. Now, I do not know Mr. Insull," the Senator said, "Nor do I know any one in Texas who works for him. But neither Insull nor any other public utility has contributed to my campaign."

The Senator asked if, "the Insull interests aren't the interests that are trying to gobble up the water rights in this state." Continuing he said, that Judge W. A. Wright of San Angelo, who is the general attorney for the Insull interests, is "enthusiastically supporting Connally for the Senate. He named a number of other attorneys for utilities and railroads whom he charged were supporting Connally."

The Senator said he voted for the McNary-Haugen farm relief bill three times, while Connally voted against it in the house and then voted to sustain the President's veto of that bill.

TWIN WELL CLUB NEWS
The ladies of Twin Wells Home Demonstration Club met with Mrs. Clarence Walters on August 9th. Ten members present and four visitors. Miss Osborne gave a demonstration on flower making and hat cleaning.

Plans were discussed for the fair exhibit also discussed plans and place for a picnic to be held at Silver Falls on August 31st. All club members and their families are requested to meet at or near Miss Osborne office at nine o'clock with cheerful hearts and smiling faces and well filled baskets.

Leaving all cares and worries behind lets make it a day long to be remembered by all by some kind word spoken or some good deed done. After the regular business came best of all Mrs. Penlaeost and Mrs. Walters served delicious cake and ice cream.—Club Reporter.

WHO ARE THE BOLTERS

A recent decision of the State Democratic Executive Committee made it so against Senator Tom Love that he withdrew from the race for Lieutenant Governor. The State Executive Committee while in session stated that the various county chairmen would receive instructions relative to bolters. Senator Love was opposed by the State Committee because he stated openly that he would not support Al Smith for President.

We have often heard of the worthless hound pup that was good for nothing but to sit around and howl. We have a bunch of politicians who are howling their heads off about people who have said they would not support the Democratic Presidential nominee. Why aren't these politicians willing to give other people the same privilege they assume themselves. It seems to be their pleasure in voting there are others who prefer not to vote for Governor Smith for President.

But let's see who are the bolters? The man who voted in the primary pledged himself to vote for the nominee selected in that primary. We remember very distinctly that in 1922 Earle B. Mayfield was nominated for the U. S. Senate by more than 122,000 majority. Yet, in the face of that great majority the very fellows who are yelling so loud against Senator Tom Love and others were the very fellows that joined in the Republican convention in nominating George E. B. Peddy for U. S. Senator, and were the very fellows Mayfield, the Democratic nominee, who went out to campaign against.

We find some three of said fellows who are directing the helm of the Democratic party in Texas today. A man voting against Governor Smith does not violate his primary pledge bunch of men go out and campaign since Gov. Smith was not nominated by the Texas primaries. But any against a nominee made by a state primary as these fellows did in 1922 against Senator Mayfield, it looks like they violated their pledge.

The facts in the case these birds who are howling about "party bolters" have several thousand in their ranks who set the example in 1922. Now why should they feel so indignant because of a few dry leaders in the state are just following their example. Again, we remember a number not like the looks of the party nominee of these same fellows in 1920 did needs after the primaries and conventions were held, and they got together with Ex-Governor Jim Ferguson leading and called themselves the American Labor Party. More than 20,000 of them voted for Farmer Jim for President. Now these fellows are talking loud about party bolting and say those Democrats who want to see a clean government, should be read out of the party.

We remember very distinctly that in 1919 and 1920 the bunch decided they would control the situation in Oklahoma. They were successful in carrying the primaries and nominating their men—men they knew did not spend their time on the Sabbath day going to Sunday School and Church. When the November election came in 1920 the Democrats woke up to the fact they had lost a U. S. Senator, the Presidential electors, a majority in the state legislature and many of the jurists of the state. Such a condition will follow in Texas unless there are the best men nominated on the ticket.

A man's vote is his sovereign right to his government. Our government depends upon how we vote. If we select men to office in whom the people have confidence, and for whom they have respect, then our government will be respected by the people. The action and intentions of a nominee has a great deal to do with the manner in which he carries out his oath of office. If he is sympathetic with great and good principles then he will stand by his oath. If he believes in these things that create class dissension and slooseness in law execution then he will stand by his oath if it suits his bunch, otherwise, he will do as his bosses want him to do.

People want to vote as they think best and not as two or three dozen party leaders and politicians who are favoring a class try to force them to vote. Let's have a government "of the people, for the people and by the people" and not a government of the politicians, for the politicians and by the politicians.

W. L. Thammisch, east of Dickens, was looking after business affairs here Saturday.
Mr. and Mrs. J. C. Formby, of Roaring Springs, were doing some trading in our city Saturday.

Hugh Grey, of Espuela, was greeting friends on our streets Saturday.

GOV. SMITH AND DR. STRATTON

The challenge of Gov. Al Smith to Dr. Stratton, pastor of the Calvary Baptist Church of New York, is attracting a great deal of attention at this time. Dr. Stratton made a statement recently that the Democratic Presidential nominee was a great foe to moral progress which greatly nettled the Governor.

The debate will be broadcasted throughout the country over at network of radios. Knowing Dr. Stratton as the great man he is, we will not be surprised if the Governor finds that he has a great problem on his hands, and his political career will be widely exposed at that time.

Gov. Smith has generally given his influence in behalf of the wet element, and if he is not very careful the Doctor will show him up as a reasonably good foe to moral progress.

WHY EXCITED NOW

It is rather laughable how the anti element are becoming alarmed at this time about the sanctity of the church because a number of pastors are expressing their political views in sermons from a moral standpoint. One noted New York judge stated in Atlanta, Ga., a few days ago, that the pastors should "Preach Christ and Him Crucified" and "not dwell on political issues." We wonder how many of the anti element give a "tinker's rip" about the sanctity of the church when they spend their entire time tramping the principles for which it stands under their feet? A man that votes for any organization that tears down the principles of the church has little to say to the ministers of our land what will cause the church to lose its sanctity." Talk about hypocrisy, we wonder if the sovereignty of our country would have any trouble in naming the bunch that would head the list?

HELPS THE MOONSHINER

As a result of a recent Court decision Acting Secretary of the Treasury has told the Federal dry officers that they could not obtain warrants to search houses because they could scent odors indicating making of intoxicating drinks. The Acting Secretary says that there must be evidence of sale of intoxicating liquors before any Federal officer can obtain a warrant to search private homes. This looks like it makes the world

safe for home brew makers and they may go on with their business without being affected by a Federal officer. But that decision does not hold good with our state laws, which if properly enforced, will make all home brew manufacturers "shedaddle."

In the death of George E. Brennan of Chicago, last week, Gov. Al Smith lost the right hand support to his political army. It was largely through the influence and efforts of Mr. Brennan that Gov. Smith received the Presidential nomination on the first ballot at Houston. He is said to have been the greatest political power in America but always managed to keep in the background with his work.

E. A. Cochran, of Soldier Mound, was doing some trading in our city Saturday.

Prof. W. W. Keefe, Superintendent of Schools at Dickens, was attending to business matters here Thursday.

Mrs. Ray Sanders and Ray Bowman Sanders left last week for Hubbard where they will spend a few days visiting relatives.

FOR HOME AND STABLE

The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by ALL DRUGGISTS

SERVANTS AT-YOUR-CALL

Wealth among the ancients was reckoned by the number of servants in the home. In the yesteryear of modern time one servant in a family was considered a luxury.

Today every family—poor or rich may have as many servants at their command as needed, and all this at a cost of but a fraction of the family budget.

The modern servant is electrical. It is always ready to do your bidding—never tiring—never complaining and no afternoons off.

Household drudgery is now a thing of the past. Wonderful electrical devices make housework a pleasure and milady gains many hours of pleasure and social duties.

Farming and ranching are now done scientifically. The lazy and costly farm or ranch hand has passed into history.

In spite of its constantly increasing usefulness and availability the cost of this service has steadily decreased, while all other costs have increased.

Are you enjoying the full time—usefulness of these servants? One of the distinctive privileges of this company is the opportunity to explain to you without cost just how you can use these modern electrical appliances.

MRS. JACK RECTOR—CALL 78-M

MRS. HINDMAN ENTERTAINS SUNDAY SCHOOL CLASS

Last Tuesday evening Mrs. Homer Hindman entertained her Sunday school class in the basement of the Methodist Church.

The young people entertained themselves with such games as musical hair, winkum, guessing games, etc. Soda pop, lemonade, and sandwiches were served.

The following girls were present: Elizabeth Keen, Francis Manning, Winnie McKeever, Oma Rae Skelton, Sybil Hazel, Elsie Rener, Mattie Ellen Foster, Weldon Bell, Ruth Spivey.

DE VOI CLUB

Mrs. Manning was hostess to members of the Jo De Voi Club and company Friday morning.

Six games of bridge were played, and the scores were totaled. Mrs. Harris received high club prize, W. D. Starcher high cut prize, J. Chapman, of Berger, was low. Mrs. Hicks was the "slam" champion.

During the games Mrs. Manning served punch.

Others present at the party were Mesdames Willis King, Oran McClure, Weldon McClure, Nellie Davis, Horace Hyatt, S. B. Scott, Jr., W. L. Gibbs, Roy Harkey, F. W. Jennings, H. P. Schrimsher, Joe Kilam, Jim Edd Hall, Hubert Wester, C. A. Love, W. E. Flint, C. L. Love, Dan H. Zachry, Miss Eleanor Harris and the Misses Harmon from Fort Worth.

MRS. E. A. RUSSELL HOSTESS

Mrs. E. A. Russell was a most delightful hostess to the bridge players on Thursday afternoon.

Vases and baskets of dahlias, snapdragons, roses and other cut flowers were placed at points of vantage around the rooms. At the end of the games Mrs. C. L. Love, holding high score, was presented with a most attractive relish dish. Nellie B. Albin received the "lucky draw" prize, and Mrs. C. A. Love was given a beautiful brass nut cracker as consolation.

A splendid salad course was served to these ladies: Mesdames Willis King, Oran McClure, Nellie Davis, Weldon McClure, Horace Hyatt, W. D. Starcher, William Manning, Hubert Wester, Laverty, Faust Collier, Kellam, James B. Reed, Roy Harkey, C. A. Love, Thurman Harris, C. B. Jones, C. L. Love, Jim Edd Hall, Zachry, W. E. Flint, M. C. Golding, Roy Starcher, Misses Lena Bell Scudder, Elsie Rener, Annis Albin, Nellie B. Albin.

42 PARTY

On Thursday morning Mrs. Ego, S. Link entertained a number of her friends with a 42 party.

Zinnias in different colors were used to good advantage as a decoration for the rooms in which seven tables were arranged for the games.

Refreshments of sherbet and cake were served to the following guests: Mesdames W. R. Lewis, Foster, Butler, of ePacock, Carson, Roy Stovall, Leonard Joplin, Nellie Davis, L. R. Barrett, C. A. Love, Faust Collier, C. L. Love, W. S. Campbell, B. F. Hale, Webber Williams, F. W. Jennings, W. D. Starcher, Cochran of Goldwhite, Leland Campbell, E. L. Craway, G. R. Elkins, James B. Reed, P. C. Nichols, S. H. Twadell, M. C. Golding, D. H. Zachry, C. Hogan, and hostess.

MISS HARRIS HOSTESS AT BRIDGE

Miss Eleanor Harris entertained a number of her friends last Friday evening with a party at which bridge was the diversion. High score prize a lovely vase, went to Mrs. Horace Hyatt and a beautiful incense burner was given to Miss Pauline Brown holder of low score; while Mrs. Ira Sullivan received an attractive novelty vase as high cut prize.

Miss Harris served a lovely refreshment plate to the following:

Misses Dorothy Love, Allyne Williams, Ila Bowman, Dorothy Williams, Annis Albin, Bernice Lee, Nellie B. Albin, Vivian Barnard, of Haskell, Nig Lisenby, Rebecca Harshelma Caraway, Pauline Harmon, Mary Helen Cochran, Stella Harmon, Myrtle Harmon, of Dallas; Mesdames S. B. Scott, Jr., Horace Hyatt, William Manning, W. L. Gibbs Jr., Ira Sullivan, Barron Chapman of Berger.

JUNIOR LEAGUE PARTY

On Tuesday evening Mesdames J. R. Laine and W. O. McCrary entertained the Junior League of the Methodist Church with a tacky party in the basement of the church.

As the guests entered they were given an all day sucker, then their fun began. Different games and contests were entertaining until time for the judging. Mrs. Blackwell, acting as judge, decided upon Blanche Harvey and Clinton Barrett as the tuckiest ones present, and each received a prize.

After more fun and merriment Mrs. Laine and Mrs. McCrary served ice cream and cake to the following: Bonnie Campbell, Elizabeth Keen, Isabelle Skelton, Beth Blackwell, Patsy Nell McCrary, Erwinna Skelton, Roberta Hisey, Weldon Bell, Marjorie McCrary, Billie Burke Hisey, Winifred Bell, Katherine Eusey, Wanda Watson, Mary Bell Ensey, Iva Shepherd, Tommie Britton, Blanche Harvey, Clinton Barrett, Bernard Golding, Norton Barrett, Spencer Campbell, Morris Laine, Dan Hisey, Billie Laine, J. W. Faulks, Norris Russell, B. Frank Harrison, Junior Russell.

PICNIC AT DICKENS SPRINGS

A jolly crowd composed of Mr. and Mrs. Thurman Harris, Misses Nig Lisenby, Nellie B. Albin, Ila Bowman, Vivian Barnard, of Haskell; Messrs. Bullock Tillison, Estle Smith, John Albin and George Lisenby, drove over to Dickens Springs Sunday afternoon and stayed until dark drove them home. After playing games and climbing hills a picnic supper was "doubly" welcome.

It is needless to say that all present had a good time.

OUTING AT ROARING SPRINGS

Mr. and Mrs. McCombs accompanied Misses Freddie Johnson and Addie Jo Addington and Mrs. Ira Sullivan to Roaring Springs Sunday for an outing.

The day was spent in climbing the hills and viewing the surrounding scenery.

That everyone had a good time and enjoyed the lunch which was served at noon, goes without saying.

SUNDAY SCHOOL CLASS IS ENTERTAINED

Miss Faye Jamison entertained her Sunday School class with a party at her home Monday afternoon. The spacious lawn proved an ideal

place for the various games that were played.

Miss Jamison served refreshments of lemonade and sandwiches to the little Misses Bonnie Campbell, Virginia Johnson, Marcel Stinnett, Grace Foster, Robbie Clemmons and Peggy Applegate.

SWIMMING PARTY

Miss Ila Bowman entertained with a swimming party last Tuesday evening at Brawley tank, complimenting her cousin, Miss Vivian Barnard of Haskell, Texas.

After the swim, lunch was served to the following Messrs. and Mesdames Elmo Townsend, Roy Harkey, Floyd Barnett, Mrs. John Pennell, Misses Vivian Barnard, Lillian Blackwell, Dorothy Love, Nig Lisenby, Ernest Weatherford, Arnis Albin, Ila Bowman, Messrs. John Albin, Bullock Tillison, George Lisenby, Edd Potts, Jacob Paul Twadell, Ray Sanders.

BELLE BENNETT MISSIONARY SOCIETY

Mrs. Mack Tidwell entertained the Belle Bennett Missionary Society of the Methodist Church Monday afternoon.

A Bible Study, led by Mrs. Link was held after which a lesson from "The Voice" was taken up. The Society decided to buy the Jubilee Bookshelf for the library. Those present were Mesdames C.

GIRL SCOUTS

The local Girl Scouts and their captain, Mrs. T. W. Whigham, who attended the National Girl Scout Camp at Cloudcroft, New Mexico, returned Monday. They had planned to return by the Carlsbad Cavern but as the roads there were impassable they returned by the way of El Paso.

They were so well pleased with the camp that they want all the local people to know what a wonderful place it is and what a privilege it is for any girl to be able to attend the camp. It is located about thirty miles from Cloudcroft in the Lincoln National Forest. The camp boasts of twenty-seven buildings with one huge building "The Great Hall" in the center. There were practically one hundred and fifty girls enrolled for the entire camp period. These girls were separated into units of twenty or twenty-five girls, each unit having its own calrus or tents. The girls in each unit cooked their morning and noon meals over their individual camp fires, but the evening meal was prepared for them and served in the "Great Hall." After the evening meal was the most enjoyable period of the day when for

B. Jones, F. G. Collier, Geo. S. Link, Homer Hindman, Lester Ericson, Leonard Joplin, Douglas Harrison, Los Angeles, California, Dan H. Zachry, Miss Bragg. Mrs. Tidwell served refreshments of ice cream and angel food cake.

two hours the girls made merry in games, folk dances, dramatization, songs, etc. The girls were given lessons daily in scouting, merit badge work, leather work and a forest ranger taught the making of candlesticks and novelties in a whitening class, none of their friends could stay in camp with the girls, they were glad to have the following local people visit the camp: Dr. Blackwell and family, Bill Stafford and family, Mrs. Ed Lisenby and family, W. B. Lee and family and Mrs. Elzy Watson.

Mrs. Wigham says the Spur Scouts were probably better known than any other group of girls because of the fact that the local troop sent more girls to camp than any other one troop in five states with the exception of Roswell, New Mexico.

The girls all came back with a much broader vision of Girl Scouting. Mrs. Wigham says she wants every girl in Spur, between the ages of 10 and 18 to have an opportunity to be a member of the local Girl Scout Troop. In order to do this, she is reorganizing the troop and taking in new scouts on the following basis: There will be no more voting in of scouts, but instead every girl who gives her name to Mrs. Whigham within the next two weeks will be able to join. If at any time a scout misses three consecutive meetings without an excused absence she automatically dismissed herself from the troop. The scouts are hoping to enroll at least 64 girls in this way. Mrs. Elzy Watson, who took a

weeks course at Camp Mary White, will assist Mrs. Wigham with the two troops. They are especially interested in organizing a troop of girls who are between the ages of ten and fifteen years of age. All girls interested should phone or see Mrs. Wigham at once as they want to get organized and started in their work.

W. R. Stafford was greeting old friends at the Old Settlers' Reunion at Blanco last Wednesday and Thursday.

J. M. Carlisle, of Duck Creek, was doing some trading in our city Saturday.

C. R. Bennett, of Duck Creek, was attending to business matters here Saturday.

T. H. Tallant, of Duck Creek, was greeting friends on our streets the first of the week.

Mr. and Mrs. John L. King went to Sweetwater Sunday where they met their niece, Miss Ada Lee Riter, and their nephews, George and dLewis Riter. Their mother has been appointed as post mistress at El Paso. They are grandchildren of Mr. and Mrs. L. N. Riter.

Mrs. O. Moore Hall, Mrs. P. A. Ramsey, Ralph Sherrill and Callie Ramsey returned the last of the week from Colorado where they had enjoyed a vacation.

Adventures in the Kitchen!

Delightful Serial Story
Starts Today In
Dickens County Times

"I WANT a kitchen that will be becoming to me!" said Mrs. Calhoun. She got it. Read how, in the new serial story which begins today. This story is full of new ideas for the kitchen—beautiful color schemes you can carry out in your own house . . . new recipes you will want to try . . . news of time and labor saving devices to be found in the markets—all told about

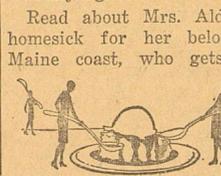

"Crisps" are wonderfully light. in a different way from anything you have ever read. A mixture of valuable information, common sense and fun! Read about the Kitchen

Club, organized in a group of suburban women. Read about how Mrs. Collins got hold of her bad little step-son. . . . How to cook different dishes in the easiest ways. . . . How an artist de-

veloped a most unusual color scheme for her kitchen. Laugh at Mrs. Percival, if you wish, as she gets her too-independent daughter married off.

Learn the recipe for a deliciously light tea dish. Read about Mrs. Alden, homesick for her beloved Maine coast, who gets a

breath of the sea into her kitchen.

Shake hands with Mrs. Adams, who handles a flapper daughter in a common sense way.

We have secured "Adventures in the Kitchen" especially for our women readers. It will run exclusively

in this paper. Don't miss an issue of it. For any installment may carry an answer to one of your home problems, or a color scheme planned especially for you!

RETURNS FROM MARKET; BUYING BIG STOCK

C. R. Edwards, manager of C. R. Edwards & Company, returned Friday from Dallas, St. Louis and other markets where he had been buying a big stock of dry goods to replenish the stock in his store. He purchased a big line of men and boys suits, ladies and men shoes, ladies ready-to-wear, ladies coats and hats and many other lines.

Mr. Edwards stated that he felt the people would want a good line of

SORRY, Jane, but I simply can't go into town today. This is my Kitchen Club day, and I never miss a meeting if I can help it."

"Kitchen Club, Nancy?" came the voice at the town end of the telephone. "What kind of a club is that? I can't imagine an artist's being interested in kitchens!"

"Well, for one thing, Idiot, it's shown me that it takes a greater artist to keep house than it does to paint pictures. You catch the next train, and come out here, and I'll take you to a meeting."

The Kitchen Club to which Nancy Gordon and her neighbors belonged was quite an unusual development for a suburban group of modern young women, most of whom were artists or writers in addition to being the wives of "rising" young business men.

It had grown out of a visit they made to the rectory, to fix up the kitchen there before the new rector and his wife came. Nancy had suggested a new color scheme; someone else had rearranged the furniture; others had stocked the shelves with good things to eat. And before they were through, all the women were envying the rector's wife her new kitchen.

One of them said: "I wish you girls would come over and help me dress up my kitchen." And that began it. They went, made suggestions for improving the kitchen and received in return some most delicious refreshments with the recipes written out for everybody to take home.

After that it became a regular institution, every meeting bringing out new ideas for kitchen improvement, and new recipes. There were no officers, except that each member acted as secretary, writing up in a "Kitchen Club Notebook" the new ideas she received from the other members.

merchandise to select from this fall and he wanted to do his part in serving them. The consignment just bought will add several thousand dollars in merchandise more to the store and give customers a greater variety to select from. This company has just secured the

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

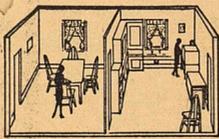

If Jane will come out here often, she will get ashamed of giving her husband delicatessen stuff, and will cook him some real food. Mrs. Gray served us the most delicious refreshments this afternoon. Here are the recipes:

New Recipe for Chicken Salad

Dice the meat from one chicken boiled tender, and salted before it is removed from the fire. Add three chopped hard-boiled eggs, one cup diced celery, one-half cup chopped sweet pickle and three-fourths of a cup of freshly toasted, salted nuts. Season with salt, celery salt and pepper. Mix with enough olive oil mayonnaise to moisten.

Cheese Tea Biscuits

1 quart flour
1 teaspoon salt
1 teaspoon baking powder
1 scant teaspoon soda
1 lump of lard the size of an egg
4 tablespoons grated cheese
Buttermilk to make soft dough
Bake at once in a quick oven. She uses a live heat oven which can be set over one burner of an oil or gas stove, leaving the rest of the stove free for other cooking.

Rearranging an Old-Fashioned Kitchen

Mrs. Gray's kitchen was so large that she wore herself out trying to get around in it. We suggested two things: to group all her furniture in one end, using the other end for a breakfast room; or to put up a wall-board partition, making a separate room to be used for a breakfast room. She decided on the latter. Sketch shows how it will look.

New Covered Broiler

Mrs. Gray has a new kind of covered broiler that cooks meats on both sides at once. It's used on top of the stove. The cover keeps odors from spreading. She says the broiler is fine for baking biscuits as well as for broiling.

(continued in next week issue)

service of Mrs. Artie Daniels, of Dallas, who has had a wide experience in ladies ready to wear business. Mrs. Daniels was with the Ward Dry Goods Company at Cisco before going to Dallas, and at one time she conducted a business of her own in Graham. She will be able to render fine service to those buying at this store and can assist ladies making their selections in ready to wear.

HAS LEAF WORM IN COTTON C. D. Copeland, one of the big farmers of our country, was in town Mon-

day looking after business matters and stated he had lost some cotton damaged by leaf worms. Also, he stated that there were some boll worms in his crop, but were working in certain spots only. Mr. Copeland has several hundred acres in cotton and is one of the large cotton producers of the West. He has been reasonably successful as

a farmer that always arranges for a fine crop of feed. He stated that he did not know just what would be the outcome of the pests in his crop but hoped they would come for him.

Pay Cash and Pay Less

After a mature thought and six months trial in the grocery business we find it best for the customers and ourselves that we discontinue the credit plan of business. Therefore, beginning September 1st, we will sell for cash only by adopting the cash plan, we can sell for less money and that is what everyone is looking for.

Pay Cash and Pay Less will have a real meaning at our place. Come and see, the oftener you come the more you will see.

We thank our 30 day customers and ask all to change with us to cash customers and prosper.

Yours truly,

Central Market & Grocery

DIX TURNS TROUBLES INTO ROARING FARCE

"Easy Come, Easy Go" Another of Player's Favorite Roles, Producers Say

Having a large amount of money which one does not own but which one cannot rid oneself of may cause serious problems. This is the difficulty which Richard Dix turns into a roaring comedy in his latest picture, a farce comedy, "Easy Come, Easy Go." This picture will be the attraction at the Lyric Theatre next Friday and Tuesday.

The problem is one of honesty. Dix has the money, can't get rid of it and yet feels he isn't entitled to it. "Easy Come, Easy Go" was adapted from the stage play by Owen Davis. It concerns the activities of a young American, who is imbued with the theory that honesty is the best policy. However, he assists unwittingly, in a bank holdup and then, upon learning of how the money has been stolen, he endeavors to return it to its rightful owners.

Because the president of the bank believes Dix to be a crazy millionaire and because Dix cannot get his hands on the money at the proper times, the theme furnishes some surprisingly funny situations.

PRESBYTERIAN MEETING GREAT G MUCH INTEREST

The revival meeting which is in progress at the First Presbyterian Church, is moving along with great interest. Rev. H. K. Johnson, of Lubbock, is doing the preaching and he is bringing some very interesting messages. Rev. Johnson is a great Bible teacher and makes his themes very plain to the people.

The singing is being done by the local people. There is a good choir and everybody seems to be doing something for the meeting. There is planned some great messages for the week and people will enjoy some great spiritual instruction if they hear these.

There is to be a great day Sunday. Rev. Johnson is working for a great meeting at both morning and evening services.

There have been large crowds during the week and every effort possible is being made for the comfort of the people.

JUNIOR COWBOY BAND HERE MONDAY

The Post Junior Cowboy Band was on the program at the Lyric Theatre last Monday evening. These little people gave a fine entertainment and received the heart applause of the entire large crowd of people present.

The youngest member of this band is seven years of age. The eldest member is fourteen years of age, and the director, Ted Knott, is ten years of age. There were eighteen members here, but we understand there are twenty four members in the band.

They have been on a tour for several weeks, and went from Spur to Rotan where they had an engagement for Tuesday night and Wednesday. From there they go to Haskell for an engagement for today and tomorrow. We are glad these fine little musicians came to Spur and hope they give us a return engagement some time.

DICKENS TO HAVE LIGHTS SOON

The big power line between Spur and Dickens is under construction and the juice will be started over it soon. The poles are being placed this week and it is thought the connection will be made by Sunday.

This is the work of the West Texas Utilities Company who are extending their field. It is understood that the Hargrove Gin at Dickens will be driven with electrical power. Everybody there is making preparations to have electric lights in their homes and all business concerns will be wired for both lights and power.

M. V. Smith, of Dry Lake, was in our city Monday taking advantage of bargains offered by our merchants.

W. W. Pickens, of Dry Lake, was attending to business interests in our city Monday.

TRAVELERS' CONVENTION AT LUBBOCK SATURDAY

Next Saturday, August 25th, Lubbock is again to be host to the Travelers' Convention for all traveling salesmen of West Texas. The chief entertainment will be a big Stag Party and Jubilee in which everybody present will take part.

This will make the eleventh annual party with Lubbock has entertained the traveling salesmen of West Texas, every year they report a better time than the year before. A. B. Davis is manager of the affair and will be glad to hear from any traveling salesmen who expect to be present.

A BOOSTIN PAPER SOON

Editor Wade of the Jayton Chronicle was in our city yesterday looking after business interest. He was accompanied by J. H. Clay Cooper, of Muscogee, Okla., who is working with the Chronicle in the promotion of a special edition which is to appear soon. The people of Jayton should feel proud of Editor Wade for undertaking such a good boosting proposition for their town, and we are sure he will receive their co-operation.

NICHOLS SANITARIUM NOTES

Little Dorothy Gunn, of Girard, three years old, underwent an operation Monday. She is getting along fine but is very sick.

Eldrad Cornett, of Afton, who underwent an operation August 12th, is getting along fine.

M. L. Davis, of Old Glory, underwent an operation for appendicitis Thursday and is getting along all right at this time.

S. C. Reynolds, city, underwent an operation last Thursday and is getting along fine.

Mr. and Mrs. W. Williams, city, are the proud parents of a fine baby boy, born August 16th. Mother and baby are doing fine.

Mrs. M. E. Gilpin, city, is in the sanitarium for medical treatment and is doing all right.

Miss Mary Best, of Aspermont, underwent an operation the last of the week and is getting along fine.

Georgie Ruth Pierce, north of town, had her tonsils removed Monday. Dr. Blackwell did the work and she is getting along fine.

Seales Earnest, of Espuela, was in our city Wednesday looking after business matters. He is brushing the cotton and plowing the middles which has been reported as a very good method to handle the worms.

AN EMBARRASSING SITUATION

Two weeks ago we had a public lecturer in our city for the week, a lecturer who was supposed to speak to people of the community. He had to be taken to one of the churches where a number of us are not accustomed to going and we failed to hear him speak on great subjects.

Last week there was a noted orator came to our city to make a speech in behalf of one of his friends who is running for office. We needed to hear the present great issues discussed but we did not have a building suitable.

Most towns our size usually has a courthouse or a city auditorium but we are left out. But wonder if it isn't about time we were beginning to make arrangements for a nice city auditorium where all of us can meet and talk over things of community interest, hold our chautauquas, have our lyceum lectures and have public speaking when some one comes to our town to speak?

What do you say we get such a place.

MR. AND MRS. LANDERS RETURN

Mr. and Mrs. Melvin Landers and children returned the last of the week from Colorado where they had spent some time looking after their farm. While away Mr. Landers harvested his wheat stating that he produced about 18 bushels per acre. He said this was not an extra crop but did very well considering conditions. He reports the country in very good condition with fine prospects for another good wheat crop.

Laverne Manire, of Slaton, is here visiting Tom Verner this week. Young Manire is a member of the Boy Scouts and while at the Post Encampment this summer he won three more medals than any other scout in camp. He was also pronounced the best camper for the summer.

Mr. and Mrs. Frank Speer, of Dickens, were attending to business matters in our city Wednesday.

M. C. Hagar, of Lost Lake community, was transacting business in our city Monday.

Miss Lorene Burnam, of Whiteflat, is the guest of Miss Luella Smith this week.

Paul Enloe and Bob White, of Wichita Falls, are here visiting Mrs. Florence Enloe at the Nichols Sanitarium.

SPUR MAN TO RUN AFTON GIN

Albert Power, one of the directors for the Afton Farmers Gin, was in town the last of the week and stated they had secured Joe M. Gaines as manager of their gin.

Mr. Gaines will take charge September 1st and conduct all the business of the gin. In his selection they have secured a good man, an efficient accountant and a man of good business judgement. He has had much experience in the gin business and knows how to make it a success.

We regret to lose Mr. Gaines from our town but hope he meets with success at Afton.

Mr. and Mrs. Byron Chapman, Borger, are the proud parents of a fine baby boy born yesterday afternoon. Mother and baby seem to be doing fine.

We are glad to state that Roy Edmonds is reported improving. He has been down more than forty days with typhoid fever, and friends will be glad to learn of his change.

For good work clothes see J. P. Wilkes & Son.

Just received a big shipment of dress and work shoes. See J. P. Wilkes & Son.

Mrs. Otto Mott, Misses Dorothy Hisey, Edith Ince, and Charlsie Hayes returned Monday from Canyon City where they had been attending a missionary meeting.

Mr. and Mrs. J. Mort Smith returned last of the week from the mountains of Colorado where they had been enjoying a vacation.

Mrs. O. S. Perry and son, of Fort Worth, are visiting her niece, Mrs. A. J. Hodges here this week.

Mr. and Mrs. A. C. Hull, who had been away for sometime on their vacation, returned to Spur Friday.

Dr. and Mrs. P. C. Nichols and children left Tuesday for the Gulf where they will spend some time visiting and fishing.

J. M. Thomason, of Highway, was doing some trading in our city Monday.

G. L. DeLisle, of Espuela, was attending to business matters here Monday.

J. S. Pope, of Twin Wells, was in our city Monday doing some trading.

REDUCING

We get hold of a book that told us how to reduce. We tried it a couple of days and decided the plan wasn't any good, as we got so hungry we could have eaten the hind-leg of our hound pup with relish. Of course, we want to get slim, and wear stylish clothes as we did in our hey-day, but the same time we want to continue filling our silo with rich and tasty foods—that's combined with pre-war Budvizer is what give us our bay window.—Gunter Star.

We want to say that the editor of the Gunter Star is none other than our staunch old friend, Nyles N. Morris. Nyles, his good wife and children dropped in to see us while on their vacation and gave us one of the best hand-shakes we have enjoyed in a long time. But from the looks of circumference we are solely convinced that he read the above mentioned book in vain. As was once said that our Present Chief Justice and Col. Dick Maple looked about alike, and the Colonel came back with the answer, "Yes, look like we weigh about 325 pounds." In reference to this we wish to say that the editor of the Gunter Star looked like both of them. Everybody knows Nyles is good natured. He has to be, for he is too darned big to either fight or run.

Mr. and Mrs. J. A. Murby, of Espuela, were in our city Tuesday doing some trading with our merchants.

O. P. Meador, of Steel Hill, was attending to business interests in our city Tuesday.

J. M. Hahn, of Dry Lake, was greeting friends on our streets Monday.

O. B. Simms, of Dry Lake, was attending to business matters in our city Monday.

W. A. Harris, of Espuela, was doing some trading with our merchants Monday.

W. S. Foreman, of Espuela, was talking with old friends on our streets Monday.

J. F. McKenzie, west of town, was in Monday attending to business affairs.

W. H. Harris, of McAdoo, was attending to business matters in our city Monday.

Attorney W. L. Walker, of Crosbyton, was greeting friends in our city Tuesday. He was expecting some friends to arrive on the train.

GENERAL MOTORS
General Motors Proving Ground, the 1945 acre outdoor laboratory near Milford, Mich., where cars are accurately measured to find out their performance ability, has in response to a demand for greater accuracy, added a weather house to its many ingenious scientific checking devices.

Adapted, like so many of its companion devices at the Proving Ground, to the sole task of evaluating precisely and impartially all makes of automobiles, the weather house is, perhaps the only one of its kind in the world. Unlike other observatories, this one is not a weather forecaster but a weather "hindcaster" to use a term employed by Proving Ground engineers. It is unique, again

in that it includes in its complete equipment, probably the only wind velocity indicator in operation outside of the U. S. Navy.

It has been in use for several weeks and is now operating day and night under direction of skilled meteorologists. Its reports are available to all General Motors divisional engineers and daily reports are filed at Lansing with the Michigan state weather department.

Here is a hypothetical instance of the manner in which the weather house assists the engineer in the precise task of measuring an automobile's merits:

The Chevrolet engineering division, in checking back on the performance of one of its "Bigger and Better"

models, might find that on May 9th its gasoline consumption exceeded slightly that of the preceding and following days. It might be found, too, that a little more water was required for the radiator and that fluctuations were noted in the speed, none of which effects would be discerned by the average driver.

The Chevrolet engineers will set out to find the cause of these variations. And one of the first aids they will call upon is the weather recorder.

In checking back with the graphic weather records, the engineers might find that the wind velocity varied on May 9th between six and ten miles an hour. On May 8th and May 10th it remained below five miles an hour throughout the day. Thus the engineers know in making their comparisons that the wind was a factor in the change and to what extent. In like manner they are able to tell exactly what effect the sunshine, rain, humidity or snow had to do with performance fluctuations on any given hour of any given day. This definite knowledge is a vital help in developing new models and in adjusting old ones.

The wind velocity, incidentally, is one of the most important meteorological factors in motor performance. So marked is its effect, in fact, that precise tests are impossible when it exceeds 10 miles an hour. The complex and always reliable wind velocity indicator, which came into being in the United States Navy where it was evolved from a device originally used for transmitting messages from the bridge of a ship to the engine room, is therefore one of the most highly considered pieces of equipment in the weather house.

Weather has always been a bumbler to automotive engineers, and the Proving Ground has not neglected to place it among the most important factors bearing upon performance. Means of recording temperature and barometric pressure had been in use before the weather house was established. It remained, however, for this compact little building, whose warning flags are discernible from all parts of the ground, to place weather computation on an efficient basis. About 1,000 feet higher than Detroit with cold winters, warm summers and generous distribution of snow and rainfall, meteorologists agree with automobile men that it is ideally located.

DRY LAKE PEOPLE MARRY

Mr. Elzy Armstrong and Miss Zelma Kidd, of Dry Lake were united in marriage at the home of the bride, Thursday, August 9th. Rev. Victor Crabtree spoke the words which united them as husband and wife.

Mr. Armstrong is engaged in the farming business and has been located on the Jones & Lee farm in Espuela community. He is a young man of business ability and has a future before him which will no doubt make a commendable one.

The bride is a daughter of Mr. and Mrs. C. N. Kidd of Dry Lake, and has spent most of her life in that community. She is well known in Spur, having worked for C. R. Edwards & Company and other firms in our city.

Mr. and Mrs. Armstrong left soon after the ceremony for Colorado where they will spend some time visiting friends and enjoy the mountain climate. They will return some time next week and will make their

home in the Dry Lake community. There many friends join in wishing them well.

The big sale at the Speer's Variety Store, which was started a week ago, is meeting with fine success. We understand the clerks are being rushed all the time, and there are times when they have to hustle to take care of their customers.

Mrs. McAlpine, of Dallas, arrived in our city the last of the week and will spend some time visiting her daughter, Mrs. Pauline Clemmon and son, W. A. McAlpine.

Rev. F. G. Rodgers, who has been on the Plains for some time conducting revival meetings, came in the first of the week to be with his family.

Dr. and Mrs. T. H. Blackwell and children returned last week from a ten days trip into the mountains of New Mexico. The Doctor is in his office now ready for work.

For Only 45 Cents

A long distance call to any town or city 50 miles away costs only 45 cents for a three-minute conversation. This low rate applies on station-to-station service—that is, on a call when you will talk to anyone at the distant telephone.

The Long Distance Operator will give you the details about this service and the rate to any place you desire. Just lift the receiver and ask for "Long Distance."

BRONZE TABLET MARKS HISTORIC MCKENZIE TRAIL

At noon, Thursday, a bronze tablet marking the famous McKenzie Trail, commemorating the activities in West Texas of the Fourth United States Cavalry under the leadership of General Ranald Slidell McKenzie, and with special mention of Captain Robert G. Carter, U. S. A. Retired, was unveiled at the Spur Inn, Spur, Texas, by Clifford B. Jones on behalf of the donors S. M. Swenson & Sons of New York, owners of the Spur Ranch.

The tablet was placed over the fireplace in the lobby of the Spur Inn with fitting ceremony in which the Spur Rotary Club and guests participated.

It was with deepest regret to him and to the people of Spur, that the condition of health of Captain Carter, now in his 84th year, did not permit his attendance as had been planned. His home is at the Army and Navy Club in Washington and his doctors forbade the long trip. A message was received and read expressing deepest regret at his enforced absence and heartfelt appreciation of this tribute to himself and his comrades in arms.

Captain Carter is the only surviving officer of the old Fourth United States Cavalry, which received the official thanks of the Texas Legislature for its successful operations against the predatory bands of Indians in its campaign in West Texas from 1871 to 1875.

With prismatic compass Captain Carter laid out the McKenzie Trail which was used in their operations to and from the Plains. He was desperately wounded in an engagement against the Comanches on what is now the Spur Ranch, compelling his early retirement from service.

From surveys and data recently furnished by Captain Carter a valuable map has been prepared for Texas Technological College and other educational institutions of the State, showing trails made and routes used by the Fourth United States Cavalry old forts, posts, and camps; actions with the Indians, 1871 to 1875; Fourth Cavalry detachments, and identifying by the names of those early years the creeks, springs, lakes and peaks of West Texas.

The McKenzie Trail crossed what is now the town of Spur at the Northeast corner of the Spur Inn property. The broad trail was definitely in evidence when the town of Spur was begun in 1909. Soldier's Mound, in Dickens County, just North of Spur, takes its name by reason of its use by General McKenzie as a camp to which he withdrew for recuperation of men and horses after the battle of Palo Duro in September, 1874.

The McKenzie Trail This famous, historic trail crossed the site of this Inn and was made and used by the Fourth U. S. Cavalry Tenth and Eleventh U. S. Infantry under command of General Ranald Slidell McKenzie in their Indian campaigns of 1871 to 1875. Soldier's Mound, four miles north of this spot, was one of the important bases of operations. To him and his gallant officers and soldiers who freed West Texas of the predatory and murderous bands of Comanches, Cheyennes, Kiowas, Arapahoes and Lipans, this tablet is dedicated. Captain Robert G. Carter formerly Fourth U. S. Cavalry, is especially worthy of honor because of serious and permanent injuries received in action against the Indians on what is now Spur Ranch, compelling his early retirement from active service.

The following actions took place between General McKenzie's command and Indians on or near the

TO SACRED HARP SINGERS

I wish to correspond with all Sacred Harp Singers who can attend our fourth coming Northwest Texas Fair Association, September 27, 28, and 29. There will be a place on the program for a Sacred Harp song, so please call on me or write me saying you will come and bring your old harp with you. The exact time will be published in the Spur papers later.

Mean while a number of us should meet at some convenient time and place for practice before hand.

Respectfully,
S. B. RODDY
Box 443 3, Spur, Texas.

H. P. Edwards, manager of the McAdoo Mercantile Company, was attending to business matters in our city Monday.

W. B. Lee and Joe Kellam left Sunday for Mineral Wells where they spent Monday and Tuesday attending the Executive meeting of the 41st District of Rotary International.

Rev. and Mrs. A. G. Abbott returned Friday from Colorado where they had been visiting Rev. Abbott's father.

Take Care Of Your Furs

Our shop has equipment that's quite ample—Take the cleaning of furs for example. Neck piece, collar, cuff, coat, whatever it may be,

We'll do the right kind of a job, you'll see You can't afford to let your furs look a sight, When we're prepared to clean them just right

Night Letter Received From Mrs. Newt Harkey

CLASS OF SERVICE	WESTERN UNION	SYMBOLS

Received at New York, N. Y. 6:47 P. August 19, 1928

Friends and Customers, C. B. Schwarz & Son, Spur, Texas.

Each season you wonder how there can be an improvement over the past—never have I seen such beautiful styles from which to make selections as the New York markets offer this season in Ready-to-Wear.

Coats for fall fairly reek with refreshing ideas. The predominating color being black, next come the beautiful shades of tan and blues.

Beautiful dresses of satin, crepe, and sheer velvet, both plain and printed, with trimmings of imported cotton laces,—are very individual and distinctive.

Pages could be written about the variety of full skirts—for they all employ all the ramifications of teered, paneled, circular, and draped movement—the effect is one of fluttering fullness modernised by the snugly fitted and girdled hip lines.

Women of Spur and Spur's Trade Territory know style and demand it—and it can certainly be found in our coats and dresses for Fall at B. Schwarz & Son. MRS. NEWT HARKEY.

Come On With The Crowd And Bring The Children

PASTURES IN THE CROP ROTATION

There ought to be three sources of gain to the farmer who produces livestock. First, livestock should consume and pay a fair price for residues of crops and other feed materials...

liquid and solid droppings from the livestock. Also the grasses and sod-forming plants hold the soil and prevent erosion or washing and leaching away of the soil...

By introducing a crop rotation suitable for producing feeds and improving the soil our crop yields could be easily doubled during the next 25 years and since these increased yields would begin to show almost at once...

To realize the most from any or all of these possible sources of profit, quality livestock and good management are necessary...

There is no doubt but the increasing soil fertility is a necessity if Southern agriculture is to enjoy future prosperity...

Many dairy farms, for instance, may be found where soil fertility has been increased so little and so slowly as to be of little or no importance...

The advantages of pastures in the crop rotation are that the soil is improved and the feed produced is increased...

For the poorer cultivated lands deficient in lime, we suggest that these be put into pastures for several years before being cultivated...

Of course, with our large acreages of land now not in cultivation, most of our pastures will probably be permanent pastures...

J. W. Carlisle, of Steel Hill, was in our city Monday looking after business interests.

W. M. Randall, of Twin Wells, was greeting friends on our streets Monday.

Mrs. L. H. McWilliams, was doing some shopping in our city Monday.

NOTES ON CANNING
 By JENNIE OSBORNE, County Home Demonstration Agent.
 Now that the canning season is here and fall gardens will soon be here it is important that the house wife be ready for canning. In securing the best canned product much depends upon having the vegetables or fruit absolutely fresh, crisp and clean, and kept cool. All surroundings and utensils should be spotlessly clean and all operations from beginning to end of any lot of canning should be carried on as rapidly as possible. A good slogan is "One hour from the field to the can." First have cans and lids thoroughly washed and scalded. Sort and grade the fruit, discarding all defective ones, and use together those of same size. Use only uniformly well-ripened products. Only young, tender, quickly grown vegetables retain their flavor when canned.

When the pressure cooker or canner is not available the best method in canning is the cold pack method and hot water bath. Although it is packed when cold the best results are secured when the material is first blanched, by dipping for a few minutes into boiling water, after which it is immediately plunged into cold water to chill it. When the product is packed into the jar it is covered with either water, syrup or juice as desired. The rubber is put into place and the top adjusted loosely.

The jars are then placed in a large vessel provided for the purpose and fitted with a rack which lifts the jars off the bottom of the vessel, keeps the bottles upright and prevents them from touching each other. If one has no canning outfit a wash boiler, or large lard can, or other large vessel, which is deep enough to allow for sufficient water to cover the jars, may be used. A wooden rack must be placed in the bottom to set the jars on. Care must be taken that jars do not tip over.

Fill the vessel one to two inches over the top of the jars with warm water. Heat to boiling point and boil to sterilize.

Canned Vegetables
 Vegetables are more difficult to preserve than fruits and many women who are experts in preservation of fruits find that they are unsuccessful with vegetables and when they try to analyze their trouble they find not one cause for failure but many. The greatest trouble no doubt is from the failure to destroy all bacterial life. The spores, formed by bacteria which inhabit the cultivated soils, cannot be killed by boiling temperature. One of the two methods must be used: Pressure—obtained only in a pressure can.

Intermittent heat—which gives a measure of success only, due doubtless to the fact that heat does not penetrate the green pods of beans and the cellulose jackets of the kernels of corn very easily and one fails to have sufficient heat to sterilize the entire contents of the jars. The remedy for this trouble is a double one.

Use small jars and increase the time of sterilization, or better still, use a pressure canner.
 The second difficulty is improper blanching. Blanching has proven its value in the canning process, the results are several. It improves both texture and flavor of the products, it removes excess acids and thus prevents the sour taste sometimes noted, it causes some shrinkage and allows better packing of jars.

Blanching: Prepare vegetables as per directions. Put vegetables whole into cheese cloth (a square cheese cloth 1 yd. is satisfactory). Place cheese-cloth in a wire basket to support weight of the vegetables. Lower basket, or if no basket available, the cheese cloth tied by the corners may be held by a wooden spoon being slipped under the knots, into the kettle of boiling water. The cold material will stop the boiling at first, so it is necessary to note when boiling point is again reached, in order to count the time correctly. Remove from boiling water and plunge immediately into cold water, dipping them in several times. The object is to harden the pulp and check the flow of coloring matter. Do not allow the vegetables to stand in water, however, or they become water soaked.

Green Beans
 Intermittent method—Recipe and directions:

Choose young tender beans. Can beans the day they are picked. Wash, cut off both stem and blossom ends and string.
 Hot dip from 2 to 5 minutes.
 Cold dip one-half minute.
 Pack in hot jars and fill jars with hot water.

To 1 quart of beans add 1 teaspoonful salt. Place cover on jar but do not seal them tight. Place jars in boiler or container with rack in bottom to hold jars from the hot metal. Do not let cans lean against side of container.

Put enough hot water in container to reach 1 inch over the top of jars. Let come to boil and boil 1 hour. Tighten tops of cans, let stand 24 hours. Loosen covers and again place cans in container. Let come to boil and boil one hour. Remove jars and tighten. Let stand another 24 hours, remove and again repeat process 1 hour, invert to cool. Wrap in dark paper and place in dark place to prevent discoloration. A slice of tomato placed on top of each can aids in protecting the food from bacteria, because the acid is unfavorable to their growth.

Black-eyed Peas
 Same as for beans.

Corn
 Recipe and directions:
 Choose tender ears just right for table use. Can corn the same day it is picked. Husk.

Hot dip 5 minutes.
 Cold dip one-half minute.
 Cut corn from cob.
 Pack corn in jars.
 Process three successive days as for green beans, or process under 15 pounds pressure 1 hour and 20 minutes at temperature of 250 degrees.

D. W. Thomason, of Highway, was looking after business interests in our city Saturday.

WHAT BULGARIAN BUTTERMILK IS
 By LEO KLINGMAN
 Often some one asks WHY Bulgarian buttermilk is called Bulgarian. Several years ago a writer was preparing a book, "Prolongation of Life." When he heard of a class of people in the hills of Bulgaria who often lived to be 125 years young, a few of it was claimed reached the age of 165.

During this investigation of the life and habits of these people he found they were heavy drinkers of a thick milk beverage, which has a mild sweet, acid flavor. When being poured from a bottle is creamy in appearance, as thick as gravy. This writer, "Metchnikoff," after close survey of the milk found that it contained a minute single celled bacteria, belonging to the plant kingdom. These bacteria are called Bacillus Bulgarus, after the man that found that it grew in all milk. As this milk beverage has the appearance of fresh churned buttermilk, we now call it Bulgarian buttermilk.

Bulgarian buttermilk is made by the Bacillus Bulgarus bacteria producing lactic acid, by fermenting the milk sugar in skim milk. Which must be done in a strictly sanitary way.

1. Bulgarian buttermilk quenches the thirst on a hot day more efficiently than most soft drinks.
 2. Its use in cases of typhoid fever has been advocated for some time by leading physicians.

3. It contains all the constituents of milk with the possible exception of fat.
 Since prohibition its gain in favor has been rapid, since it serves in an admirable way to quench the thirst

of one who is accustomed to strong drinks.

5. Bulgarian buttermilk strengthens the body to resist disease.

6. Bulgarian buttermilk contains lime which helps build healthy teeth.

S. T. Battles of Espuela, was doing some trading with our merchants Saturday.

WHAT'S DOING IN WEST TEXAS

The Commission form of government has been adopted at Rankin, and R. C. Harlan elected first mayor. Members of the Home-Civic Improvement Club of Tatum, N. M., are sponsoring a move toward a community park. H. O. Tatum, for three years secretary of the Baird Chamber of Commerce, is soon to be Eastland's City Manager. Installation of gas mains is under way at Estelline. Big Lake has just completed the laying of a new sewer system. The executive board of the Sheep and Goat Raisers Association will meet at Fort Stockton, October 13. Mexican laborers are available in the Marfa section as result of efforts of WTCC to have an American Consul stationed temporarily at Ojinago, Mexico. Spur's first three story building is under construction at this time by W. S. Campbell. Up to August 1, fourteen carloads of watermelons had been shipped from Alvord this season. The 45th block of Shamrock's paving program has just been completed. Plans are being completed for the WTCC heart of Texas District Convention at Lampasas in September. Tulia High School has recently acquired two additional affiliated credits, making a total of 31. Directors of the Schleicher County Fair are now planning for the event which takes place September 11 and 12. A credit in general Science, and one in fourth year English have been awarded the high school at Munday. J. C. Patterson, county farm agent of Eastland County, made an instructive talk on the sweet cream industry at De Leon, August 11. The opening of the new hotel at Truscott was celebrated by a free barbecue and costume concert, August 8. A vocational teacher has been se-

cured for Rising Star community through the efforts of the Chamber of Commerce and business men. Improvements are being made on the Fort Worth & Denver depot at Channing. Roswell was voted 1929 host to the WTCC Intermountain district convention at Carlsbad. Plainview will enter a carload of Jersey pure bred cattle at the dairy show at Dallas Fair this fall. The personnel of the WTCC Constitution and By-laws Committee has been announced by Manager Homer D. Wade. Contract has been let for a modern brick two story, 50x122 feet business building at Levelland. A six story office building, on a site 100x90 feet is to be built at a cost of \$150,000 at Big Spring. A cotton crop of 40,000 bales is predicted for Hale County. Cotton picking will begin at Mobetie two weeks earlier than usual on account of favorable weather. The WTCC Motorcade ended at Brownwood late Thursday, August 16. The Wheeler Chamber of Commerce is co-operating with the farmers in securing cotton picking labor for the coming season. A six inch water main from a new water well is being laid to a proposed location of the 50,000 gallon water tower at Quitaque. A new modern, reinforced concrete and stucco, two story hotel is under construction at Eola. Rule is the new owner of a \$60,000 sewer system. A high line soon to be installed in Claude will replace the use of the local electric plant except in cases of emergency. The "Heart of Texas" Commercial Secretaries Association meeting was represented by members from 15 chambers of commerce and 19 counties, meeting at Ballinger. Its first shipment of paper direct from the steamship Wichita Falls has been received by the Times Publishing Company, of Wichita Falls. Hermeleigh has a new newspaper, The Herald, being published by R. S. Norman, former editor of the Book-er News. Mineral Wells is using the \$25,000 advertising budget to exploit the health resort facilities of the community. The West Texas Chamber of Commerce publicity committee meeting was held in Vernon Saturday, August 18. Work on two new brick buildings next to the First National Bank at Post were completed this week. President A. M. Bourland and Manager Homer D. Wade of the WTCC have been tendered invitations to a combined Lions and chamber of commerce meeting at Clarendon. L. B. Campbell, field man of the West Texas Chamber of Commerce is working in the Abilene, Pecos and Midland communities. Two citizens of Thalia have purchased a site for a seed house where farmers may sell seed as their cotton is ginned. The Dalhart Chamber of Commerce has sent letters of information about the California farm study to farmers in the trade territory.

WEST TEXAS

Completed this fall it will have a capacity of 350 cars a day and will bring Chevrolet's production facilities up to 1,250,000 units annually. The party will return to Detroit September first in time to witness the production of the millionth Chevrolet of 1928 about ten days later. THE COTTON BOLLWORM OR CORN EARWORM EXTRACT FROM FARMERS' BULLETIN NUMBER 872 The burning of lights for the attraction of moths in fields is not uncommon in certain sections and the idea of trapping the moths by various devices is advocated often. Both of these methods have been tested thoroughly and found of little or no value. In the first place, most of the moths caught are males, or females which have deposited their full quota of eggs, and in the second place a great many beneficial insects which prey upon the bollworm in different stages are destroyed. The placing of poisoned sweets in pans in the cotton fields also has been found to be useless practice. Mr. and Mrs. Dudley Anz, of Snyder visited over the week end with Mrs. Anz's parents, Mr. and Mrs. T. M. Maples. They were accompanied home by Miss Redah Maples. Mack Anz, of Anson, spent the week end in Spur, visiting with friends. Mr. and Mrs. Douglas Harrison, of Long Beach, California, arrived in Spur the last of the week and are spending a few days visiting Mrs. Harrison's parents, Mr. and Mrs. G. L. Barber and also her sister, Mrs. Clifford B. Jones. CHILDREN'S FATAL DISEASES Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. With production in fourteen great Chevrolet factories running at a record pace for this period of the year and sales continuing at the highest summer level in the history of the company, W. S. Knudsen, president of the Chevrolet Motor Company and R. H. Grant, vice president in charge of sales, left Detroit last week for a three weeks' tour of the entire western half of the United States. In the course of the tour, which will include the leading business centers of the west, the Chevrolet executives will visit with Chevrolet dealers in each community, discuss individual dealer problems and study local business conditions as they pertain to Chevrolet. Before leaving Detroit, Mr. Knudsen announced that production in the first seven months of the year to August first totalled 869,297 cars and trucks, breaking by a wide margin all former marks for this period and definitely indicating that the million-car built in 1928 will come off the production line early in September. More than 800,000 of the "Bigger and Better" models are now in the hands of owners. Included among the cities to be visited on the executive tour are the following and will be visited in the order named: Chicago, Kansas City, Los Angeles, Oakland, San Francisco, Portland, Seattle, Spokane, Butte, and Minneapolis. In Kansas City, Mr. Knudsen and Mr. Grant will check the progress of construction work on the newest Chevrolet assembly plant now rising in that city. When com-

pleted this fall it will have a capacity of 350 cars a day and will bring Chevrolet's production facilities up to 1,250,000 units annually. The party will return to Detroit September first in time to witness the production of the millionth Chevrolet of 1928 about ten days later.

DRY LAKE CLUB The Dry Lake Club met at the school building on Wednesday morning, August 15, at 9:30 o'clock. The clothing work was taken up, and plans for the term demonstration at the encampment was worked on. The Dry Lake girls are trying to have a hundred per cent present at the girls encampment, August 29 and 30. The next meeting will be held at Ruby Mae Smith's home September 5, and the girls will spend the morning preparing and packing school lunches then have a picnic using the lunches. The afternoon will include lessons on ices and beverages.—Reporter.

DICKENS CLUB The Dickens Club Girls met at the Dickens High School building on Monday, August 13 at 1:30 o'clock. They had a demonstration on canning fruits and vegetables. The lesson next time will be on food preservation. The next club meeting will be at the High School building at 1:30.—Reporter.

OAKLAND Announces the Appointment of J. D. POWELL MOTOR CO. SPUR, TEXAS

WE announce with pleasure the appointment of a new local dealer who has been selected because we believe his organization will reflect the high standards Oakland has set for selling and servicing its motor cars. Call on this new dealer. Ask him to show you the Oakland All-American Six, the new car that has won the admiration of all America.

See also the New Series Pontiac Six, with its vivid new style and scores of engineering advancements, including 4-wheel brakes, at no increase in price. And remember that this new dealer is authorized to sell Good Will Used Cars, available only through Oakland-Pontiac dealers and offering thoroughly dependable transportation at remarkably low prices.

Whether or not you are planning to buy, the Oakland-Pontiac dealer will welcome your visit to his salesroom at any time. Stop in and see him!

JUDGE BELL SPEAKS

(continued from page one)
ple that Mayfield is not the author of the Cotton Classification Bill which is intended to save you farmers much in price on your cotton. Mr. Mayfield stated that he was willing to leave the decision with the Secretary of Agriculture at Washington and that if he was not the author of that bill that he would withdraw from the race, if Connally would withdraw if Mayfield was the author. Now gentlemen, Mr. Connally can get rid of Mayfield in this race if he will prove Mayfield did not write that bill. But Mr. Connally knows Mayfield did write that bill and he is only trying to mislead the people again. Connally knows he would have to quit the race if he wired the Secretary of Agriculture for the information on that bill.
"Mr. Connally is charging Senator Mayfield because Ex-Governor Ferguson is supporting him. Gentlemen Mr. Ferguson's votes counts just as much as yours or mine, and it would not be courtesy for Senator Mayfield to tell Ferguson he did not want his vote. Mr. Mayfield did not solicit Mr. Ferguson's vote. In fact, Mr. Mayfield has seen Gov. Ferguson but one time since he came back from Washington and that was in the lobby of the Rice Hotel at Houston, during the Democratic National Convention, and he just spoke to him at that time. But let's see what Mr. Connally did. He went all the way to Houston and asked Governor Ferguson about supporting him (Connally) as he said it looked like he would be in the Second Primary. Mr. Connally asked Governor Ferguson for his support and now condemns Senator Mayfield because Governor Ferguson is supporting him unsolicited.
"Now Gentlemen, I would not attempt to tell you how you should vote but from the standpoint of reason do you think it is advisable to vote for a man for Senator who in twelve years has not put through a single law for your benefit, who voted against the only piece of legislation that was intended to help the farmers, who came to Texas before Congress adjourned and worked six weeks ahead of time to be a candidate for the Senate and let important legislation die in the House, and legislation that is for the interest of the farmers. Do you think it would be better to return to the Senate the man who has been busy in behalf of your interests, who staid on the job where he belonged and trusted results to you good people. I am for Senator Mayfield because he has been a faithful servant for the people, working all the time for them. He has produced results and he has looked to your interests and mine. Let's send him back to the Senate, let's honor him with a second term which has been the Democratic custom all down the ages. I thank you.
Judge Bell spoke at Guthrie Monday night and at Benjamin and Knox City Tuesday. He said that Senator Mayfield would win by at least fifty thousand in Saturday's Primary.

DUCK CREEK-GILPIN NEWS
Well we have got another good rain the farmer says more rain more rest, more boll worms in the west. But why should they worry.
Grandpa Wofford is on the sick list this week. We hope Grampa will be better by the next writing.

Mrs. W. S. Carlisle, of Duck Creek, was doing some shopping with our merchants Monday.

The Sun Is Shining Again

And the worms may not get all the cotton, but if you will keep your dairy cows in good condition they will keep producing that cream for you. Then if the worms get your cotton you will have something with which to pay your grocery bill. You can sow fall pasture for the cows and keep the cream going on the market.

We established a creamery in Spur that the farmers might have a steady market for their creams. Bring it to us sweet or sour, but the sweet cream brings the most money. Don't make the wife churn—just exchange your cream for butter.

Those who have not yet began using Espuela Brand butter do not know what a fine product we have. We hope you will try a pound soon, then we know you will want it all the time.

Our business is growin and we thank the people for this progress. We want you to feel that you are promoting a great industry for your own good. Let's make it a success. Bring us your cream, and then take back some of our butter.
