One of Bulldogs Hardest Games To Be With Floydada

(By Jephtha Craig)
Next Friday afternoon at Fair Park will be seen by Spur football followers one of the hardest games of the season for the Bulldogs when they meet the Floydada High School team at 3:30 P. M. The Bulldogs go into the game undefeated and with last years defeat in mind determined to come out of the game with their seasons record untarnished. Floydada hasn't played any of the teams that Spur has and no comparison of the records can be made this early in the game.
The entire Spur squad is in fine shape and rearing to go and with the present weather indications the game promises to be one of the best of the year and a record turnout of fans is expected. Coach Taylor is not optimistic over the results but expects to be on the top side after the affray is over. Spur has give Coach Taylor and the Bulldogs fine support with record attendance both here at home and the two games away from home and we feel assured that even more of them will be there for this game the last for three weeks at home.
Keep in mind the games away from home for the next three coming weeks and plan to go with the team on these trips. Slaton will be the first team on the list and reports coming in from that city give Slaton the greatest team in this section of the country in Class B and better than several Class A teams. But wait till they feel the old Bulldogs chewing on their ears.

Bulldogs Run Wild To Defeat Matador 52 to 0

(By Jephtha Craig)
The Spur High school Bulldogs smashed and passed their way to a 52 to 0 victory over the Matador High School Bullfighters for their fourth straight win of the season Friday at Fair Park, as a climax to the second days program of the Northwest Texas Fair. The crowd was estimated at 7,500 and the majority were keenly interested in the battle between the Dickens and Motley County teams.
The Bulldogs were better and displayed more knowledge of the game than they did the preceding week. Puckett was the outstanding star of the game scoring five of his teams touchdowns and playing a strong defensive game. Barrett and Morgan tackles broke through time after time and threw the Matador backs for losses also opening holes in the line for their own backfield to make gains. Two of Puckett's touchdowns were off tackle runs and the line is due their credit for taking out the opposing line and halves. Bonnie Hisey as end and fullback was a power on both defense and offense keeping the whole team in action while the second string men were playing and responsible for long gains while carrying the ball.
Coach Taylor used his second string men for over half the game and the possibilities for next year is already seen if this group continues to develop as they have in the past few weeks.
Coach Etheridges Bullfighters were no match for the Bulldogs. Dodson and Captain Trawick were the best and bore the brunt of the game on offense. The pep squad of the Matador High School was out in full force and kept up the pep on the sidelines even after their team was hopelessly beaten. Both teams received heavy penalties for roughness and only two each for offsidess.

COUNTY WARRANT 31 YEARS OLD PRESENTED FOR PAYMENT

A county warrant dated November 18, 1898 was presented to the Commissioners Court of Dickens County this week for payment. The warrant was issued by Fred O. McFaw then County Clerk of Dickens County to E. W. Cude for \$4.00. The amount represented a days wages to Mr. Cude for holding the general election in the county.
The warrant was presented by S. T. Johnston last Monday. Mr. Johnson was a brother-in-law to Mr. Cude and found the warrant which had been placed with some old papers and filed away. Recently he went through the papers and discovered the warrant and presented it to the office of the County Treasurer for payment. The county Judge looked up the record on it and the warrant was paid.
Probably this is the oldest warrant that has ever been paid in Dickens County.

Neff Becomes Member of Railroad Commission

Pat M. Neff of Waco and former governor of Texas was named as chairman of the State Railroad Commission last Monday to fill out the unexpired term of Clarence E. Gilmore who died Tuesday. Since leaving the governorship Mr. Neff has served on the United States Board of Mediation for the railroads, receiving the appointment from President Coolidge. He served as governor of the state from 1921 to 1925.
It will be remembered that President Coolidge appointed Mr. Neff for the second term on the Mediation board but the Senate did not confirm the appointment. Ex-Governor O. B. Colquitt was appointed to that place by President Hoover.

SHIRLEY ROBBINS JR., GETS ARM BROKE

Shirley, Jr., little daughter of Mr. and Mrs. Shirley Robbins of West Harris street has the misfortune to get her right arm broken last week. She was playing with some little companions and in some manner tripped falling on her arm which produced fractures in all three of the bones at the elbow.
She was taken to Nichols Sanitarium where an X-Ray picture was made and the fracture set. She is getting along fine at this time, however conditions present an indication of a stiff elbow. The little girl may overcome this considering her age.

Athletics Win World Series With Rally In The 9th

Pithing airtight baseball Pat Malone, of the Chicago Cubs, held the Philadelphia Americans to two hits until the ninth inning. Howard Emke, who led for the Americans seemed to be in luck until the fourth inning when the Cubs bunched three hits and two men passed over the home plate after two outs. At this point Emke was removed and Wohlberg went to the box for the Americans.
It looked like a complete victory for the Nationals up to the last of the ninth inning. In fact, it seemed that Connie Mack had practically given up hopes of his young athletes being able to overcome the Cub's lead for a winning. Both Malone and Wohlberg used every effort against each other to hold the score down. At the beginning of the ninth inning the Cubs had six hits to their credit while the Americans had only two.
In the last half of the ninth French batted for Walberg and fanned swinging. Bishop singled to third base. Maas then lifted a home run over the right field fence, scoring Bishop ahead of him and tying the score. Cochrane hit to Hornsby and was out at first, making two outs. Al Simmons hit to center field for two bases. Fox then came up and was walked purposely. He was followed by Bing Miller, one of the two men who had registered a hit for the day up to the ninth. He hit a double into center field, scoring Simmons and winning the game.
The Americans won four out of five games of the world series. They made a seventh inning rally Saturday, winning the game after the Cubs had made eight scores with the Americans at 0. That game stood 10 to 8 in favor of the Americans.

Local Drug Firm Announces Big Owl Sale

In next weeks issue of the Times the Sanders Pharmacy will release an announcement of a premium sale of unusual proportions and of general interest to every family in Spur. An interview with the management of the Sanders Pharmacy revealed the fact that the store is to give valuable premiums to its customers. It was pointed out that Sanders Pharmacy has an alliance with the well known national institution the Owl Drug Co. and the leading independently owned drug store in each of the principal towns and cities thru-out the nation, whereby all these stores have combined their influence in an effort to offer the drug store customer the most outstanding value possible.
We are told that this is to be the largest merchandising event in the history of the local drug firm and that it is the forerunner of future events of similar magnitude.

Mr. Albin has served the county well as commissioner and it is to be regretted by his friends that he has felt inclined to resign the office. He is a good business man and his experience has been of untold value to the county.

Dickens County Workers Meeting At Baptist Church

To those who contributed to the success of the 13th annual Northwest Texas Fair. We wish that we had the time and space to name every individual who contributed in any way, the committees of every department, each exhibitor and merchant who offered a prize and the men who rendered service during the fair. The success was made possible by such unselfish cooperation as we have in what we call Northwest Texas. The aim and Sole purpose of the Fair Association is to aid in the development of a higher standard of agriculture and livestock. The merchants who offered prizes have exhibited their interest in better dairy cattle, hogs and poultry and we feel that within our radius we can build one of the best dairy and poultry shows in West Texas. We have the foundation of every line, we have a people who have a pride in exhibiting their accomplishments. So it is this that will increase our efforts to make the succeeding fairs bigger and better.
—NORTHWEST TEXAS FAIR ASSOCIATION—S. H. Twadell, President.

WANTS TO FIND HIS SON

Mr. R. E. Conley of Mannsville, Oklahoma was in our city the first of the week making inquiry about his son Ralph Conley. It appears that young Conley was employed by the State Highway Department here about two years ago as a construction man, and after the work on the highway was completed he went to other parts of the country. Mr. Conley stated that his son corresponded with a few friends here after he left. He was wanting to find that friend and try to learn where his son is.
Any one knowing the whereabouts of Ralph will greatly assist his parents by writing to Mr. or Mrs. R. E. Conley at Mannsville, Oklahoma. If the son should see this article or learns about it, it would be well for him to write to his parents as they are worried about him and are anxious to find out where he is.

DESTROYED BY FIRE

For the third time in almost two years a fire alarm was sounded for the residence section of Spur last Thursday evening. The home of Mr. and Mrs. Bill Brown on Parker Avenue was discovered in flames about eight o'clock that evening. The fire company was summoned and did good work but the flames were too far advanced to save the building and it was a complete loss. All of the furniture in the home went up in flames also. The roof of the residence just north was damaged a great deal also.
Mr. and Mrs. Brown had left the home some time before and were at the fair grounds enjoying the Fair. When first told that their home had burned they thought they were being joked about it and did not take it seriously. However, when told a second time that the home had burned went to see about it.
Mr. and Mrs. Brown have moved into an apartment on East Harris, Street, Mr. and Mrs. D. A. Wilson sharing part of their home with them. There was a little insurance on both home and furniture but no one ever had enough insurance to replace a home. No company could afford to guarantee that much.

BAKERY SALE SATURDAY

The ladies of the Presbyterian Church will hold a bakery sale next Saturday. They will have a number of good things to eat on sale and the ladies of the town will be able to buy their cakes and other things for Sunday dinner at this sale. PRAIRIE CHAPEL SCHOOL OPENS

The school at Prairie Chapel opened Monday with a good attendance. There was much interest manifested for the future of the school and indications are that this will be one of the most successful terms for that community. There are three teachers Mr. and Mrs. H. P. Bell and Mr. Tandy Legg. Mr. Bell has the high school department, Mr. Legg is teaching the grammar department and Mrs. Bell has the primary.
This term will make seven years that Mr. and Mrs. Bell have taught in that community. Mr. Legg is the only new teacher for the school this year. However, this will be his second term in that community, but he did not teach last year attending school instead. With this corps of experienced teachers there is no reason why Prairie Chapel should not have an excellent school. There are some fine people in that community and they are interested in their children from an educational standpoint.

Northwest Texas Fair Features Many Exhibits

The thirteenth annual session of the Northwest Texas Fair closed last Saturday evening being featured by a great variety of exhibits. The agricultural exhibits which were thought by many people to be a failure were a great surprise even to the Fair officials. There were as fine specimens of milo, heigera, kaffir sudan grass, corn, and many other as one would desire to see.
The livestock department was not quite as extensive this year as other years on account of the inspection law which went into effect August 1st. But even this department was well represented. The poultry department was the best in the history of the fair. There were a greater variety of breeds exhibited and there were larger individual exhibits than has ever been known in the country.
The people of Kent County made quite an improved showing this year over last year. The winner in prizes on Poland China hogs was a Kent County farmer Mr. L. V. Goodrich. There was a fine agricultural exhibit from that county. One of the ladies winning prizes and awards won a trip to college Station was a Kent County Lady. The people of that county are showing marked improvement in all lines of farming.
We are giving the premium list showing the names of those who won cash prizes.

METRIC PLUG IN DODGE SIX INSURES FLEXIBLE ENGINE

Racing Car, air plane and high-compression automobile engines are to the common run of motors what the thoroughbred race horse is to the ordinary nag. They are decidedly "peppy" but to develop

the fine performance of which they are capable, their nerve systems must be kept in good order.

The nerve system of a gasoline motor is its ignition. This supplies that vital spark of energy which gives it life. The type of ignition system that suffices for the ordinary low compression motor would not suffice for the high compression motor any more than the nerve system of the ordinary work horse would do for a Man O' War.

One of the most highly developed points on a racing car is the ignition system, graphically illustrated in the 500 mile automobile

races at Indianapolis. Spark plugs that suffice for some passenger cars would go to pieces at Indianapolis and the high compression engine is a development of lessons learned at that famous track. Out of these Speedway classics have emerged the modern high compression, super-performing motors.

Naturally with the greatly improved performance and power output developed from the high compression engine, have come other improvements. The spark plug is one of them.

One of the recent improvements in the Dodge cars has been the adoption of the metric spark plug in place of the standard 7-8 inch type usually employed. The change was made because the new plug permits the motor to meet both idling and high speed driving conditions better.

The metric plug so called because of its metric dimensions, is smaller in diameter than the standard 7-8 inch type. It is used practically universally in aviation practice, and is coming in rapidly for the more highly developed automobile engines, particularly in the high compression, high efficiency type.

A feature of this plug is its coolness in operation, the smaller shell enabling the cooling water to be brought closer to the electrodes. The Dodge combustion chamber is scientifically shaped to afford the smallest uncooled area and this reduction together with the fine electrical characteristics of the metric plug has contributed toward improved general performance.

Trawick and Warren made five yards on three plays and Trawick punted to the 45 yard line. Spur tried two passes, both failed and they were set back five yards. Hisey then punted to 10 yard line. Matador punted but Spur blocked it and covered the ball on the five yard line. Lewis scored the touchdown over center and place kicked goal for the extra point.

SECOND HALF

Hisey kicked to the 20 yard line and Dodson returned 18. Matador began a long drive which was their only scoring threat in the game. Trawick made 14 yards in two plays and passed to Dodson for two more before Matador was penalized five yards for tackle being offside. Trawick and Warren made it back and 18 more in two plays. Trawick was thrown for a loss of five yards and an attempted pass being intercepted by Dodge on Spurs 30 yard line. Matador tried a pass and two line plays but were thrown for a loss of five yards. Matador punted and Spur fumbled on the 28 yard line. Matador after getting the ball on Spurs fumble tried a line play and Spur was penalized within one yard of the goal line for roughness. At this point Coach Taylor sent in eight new men into the game, successfully blocking four attempts of Matador to score. The ball went to Spur on the 3 yard line and Puckett punted to the 50 yard line Spur getting the Ball on Warrens fumble. Puckett made 10 yards around right end. Matador penalized 15 yards for holding Puckett then made ten over center. Score Spur 32 Matador 0.

Spur kicked over the goal line Matador covered and the ball was theirs on the 20 yard line. Spur fumbled the catch and Matador had the ball on their 45 yard line. EXCELLENCE

that is long-lived

Any comparison of the Dodge Six with other cars at its price reveals this truth: the Dodge Six is built to perform more capably — to serve more dependably — to last longer. Body construction is stauncher. Its motor has greater piston displacement — finer pistons — more piston rings — more crankshaft bearings. It has a deeper frame with more cross members — longer springs — better brakes — bigger tires. In every detail that assures finer performance, safety, dependability and long-lived excellence, the Dodge Six excels.

Last week was a busy week for Spur merchants. Some of them really felt there was little difference in last week and a pre-Christmas week. However, there is one difference. Last week they had to use their handkerchiefs to clear away perspiration, and the pre-Christmas week the handkerchiefs will be used on the nose.

Well the Fair is history again. Some people think it was the best Fair we have ever had at Spur. Naturally we think so too. There was a fine agricultural exhibit, a good display of home club work, many fine chickens exhibited and a fine exhibit of livestock including horses, stock cattle, dairy cattle, hogs, etc. The amusements were worth the money. Then, the management will be able to pay all expenses and have a nice sum to place in the treasury. Why not say the Fair was a success? And, if there was anything lacking, lets start now to make arrangements to make it a better Fair next year.

TWO PIONEER WEST TEXANS CELEBRATE

Two of the early settlers of West Texas celebrated their birthdays Monday of last week. These were Mrs. S. E. Garner, who lives just north of Spur and Mr. D. C. Keith of Matador. Mr. Keith is a brother to Mrs. Garner and the celebration was held at his ranch a few miles south of Matador.

Long tables were spread in the pasture near the Keith home and were laden with barbecue and other good things to eat. There was a large number of friends present who enjoyed this hospitality and renewed early day feelings which has always existed more or less with those who set the footprints of early civilization on this western soil.

Mr. J. D. Morriss of Whiteflat and Matador took the lead in the celebration and with his string band furnished music which brought back the happy memories of early day entertainment. It was a renewal of the enjoyment of the eighties when people would come from far and near to enjoy a night with some neighbor and spend the whole time talking and dancing, the only means of entertainment at that time.

Mr. Keith passed his 68th mile post and Mrs. Garner is now 74. They received many presents on the occasion but the greatest treat was the social enjoyment of old friends who talked of olden times when these two souls came to West Texas, it was a time to try the souls of men and it was a day when the old saying, "there is a friend that sticketh closer than a brother," was a reality man to man.

The Times Joins other friends in wishing these two dear good people many more years of happiness.

Teamwork

FOOTBALL, BASEBALL or Business it teamwork that makes for the fullest measure of efficiency—and certainly the management of a well conducted household comes under the heading of business. —Yes a little teamwork in handling the family finances will very materially increase the buying power of the household dollar.

The clever Housewife who reads the newspaper ads every day discovers many unusual opportunities to save money—

Occasionally, however, she finds it inconvenient to run down town on a shopping trip— There's where "Teamwork" can be made to play an important part in this household business.

Rather than lose out on the money saving possibilities of any special offering, she phones her husband or some other member of the family to stop in, and pick up the advertised article on the way home. This type of "Teamwork" pays big dividends.

SOME NEW LAWS
NOW IN EFFECT

One violation of the new law
prohibiting the shooting of guns
in on, along or across public high-
ways and roads in Texas, which
became effective Wednesday has
been reported here. The offend-
er pleaded guilty and paid a \$25
fine in justice court.—Abilene Re-
porter.

The law passed at the second
called session of the legislature
in July carries a fine of not more
than \$100 for persons convicted of
violating its provisions.

We call the attention of the mo-
torists to a new law prohibiting
the parking of vehicles on the
highway, passed by the second
called session of the legislature and
now effective.

The law: "No persons shall
park or leave standing any vehicle
whether attended or unattended
upon the paved or improved or
main traveled portion of any high-
way, outside of any incorporated
town or city when it is possible
to park or leave such vehicle stand-
ing off the paved or improved or
main traveled portion of the high-
way, provided in no event shall
any person park or leave standing
any vehicle attended or unattend-
ed upon any highway unless a
clear and unobstructed width of
not less than 15 feet upon main
traveled portion of said highway
opposite standing vehicle shall be
left free for passage of other ve-
hicles there on nor unless a clear
view may be obtained from a dis-
tance of 200 feet in each direction
upon such highway."

Conviction for first violation of
the law carries a fine of not more
than \$200 for second conviction
within one year a fine of not more
than \$200 or imprisonment of not
more than 20 days or both; a
third or subsequent conviction
within one year a fine of not more
than 500 dollars or imprisonment
of six months or both.—Hamlin
Herald.

That bunch of legislators must
be superhuman at least in their
attitude. Just think of that cov-
ey of birds at the turn of the road
and then force a fellow to drive
until he gets a straight stretch
400 feet long before he can park
his car. In addition to this a
fellow must herd that covy of
birds off from the roadside sever-
al hundred yards in order to get
to shoot them without violating
the law. And folks if those birds
fly away without the range of the
law it simply wont be healthy for
any of those legislators who want
office next year. Us country
boys do not like the idea of giv-
ing up our hunting because of
rattling notions those one-gallus
fellows who go to Austin get
while they are trying to be city
dudes.

DALLAS CONTEMPLATES BUYING POWER PLANT AND OPERATE IT

J. Waddy Tate, Mayor of the City of Dallas, announced a few days ago that he was making a study in regard to buying the plant of the Dallas Power and Light Company and operating it as a municipal plant. The Mayor stated that he is thoroughly convinced that the people of Dallas would be justified in buying the plant and that it would be a good investment. The mayor spoke as follows:

"Before my term of office is out, I am going to submit this proposition to the voters and urge its adoption. The franchise gives the city the right to buy the concern, on six months notice. There is no reason why it could not be operated as successfully as the water department and make money for the city.

"At the present time the Dallas Power and Light Company is earning a 9 per cent return on its property value of more than \$18,000,000 in addition to large reserves which are being built up. Several months ago I suggested that the rates of this be lowered to domestic consumers using electrical devices. So far the company has failed to offer any relief on this score. There is no reason why the city could not acquire the concern, operate it at a nice profit and at the same time reduce the cost of light and electric power to the great mass of users.

"Regarding the financing of this proposed purchase I have been in consultation with several capitalists, two in Texas and one in New York. All of them feel that the City of Dallas can easily secure the necessary money to make the purchase and they are interested in aiding us. As they point out the city of Dallas could borrow money through bond issue and pay less than 5 per cent a year. The power and light company, at the same time is now drawing in a return of 9 per cent while its net earnings are largely in excess of 9 per cent."

This would be a very fine movement for the city of Dallas. The City Commission will be doing the people a great favor in this movement.

STATE DEMOCRATIC CHAIRMAN ASKED TO MAKE RULING

It appears that Alvin Moody of Houston is strenuously endeavoring to get a ruling from D. W. Wilcox State Chairman, relative to his opinion in regard to anti-Tammany Democrats. Mr. Moody recently wrote to Mr. Wilcox and requested him to make a decision in some manner. It appears that there have been many opinions expressed by various ones in regard to this matter, and Chairman Wilcox has also made a few statements. Moody recites the State Chairman to what the state constitution and also what the statutes have to say in regard to citizens right to vote as he pleases. Mr. Moody's letter is as follows:

Hon. D. W. Wilcox, Chairman State Democratic Com. George Town, Texas. Dear Mr. Wilcox,

At the request of a large number of citizens of Texas including many of the most prominent and highly respected men and women of this state, I, as chairman of the Anti-Tammany Democrats of Texas, and on behalf of more than 375,000 Texans, am addressing to you this letter in an attempt to clarify the political status of those Democrats who last year, while supporting all Democratic candidates from constable to United States Senator declined to vote for the Al Smith presidential electors believing that in so doing they were discharging their duty to their country and to the Democratic party.

We come to you in good faith and ask for an early and definite settlement of the issues involved. We assert that it is not now and never has been Democratic law or policy that a Democrat forfeits his party membership or rights when his constitution and rights when his conscience impels him to vote right rather than regular.

Hold Jefferson Right

We hold that Thomas Jefferson was right in declaring that political loyalty to ones party does not involve the surrender of one's conscience, and that Jefferson was correct in declaring:

"The rights of conscience we never submitted; we could not submit. We are answerable for them to God."

We are proud of this heritage of Thomas Jefferson and its appeal to the conscience and patriotism of the Nation under the leadership of those who have followed after him. Our fight in the last presidential campaign was to preserve the integrity of our party against the domination of those who would utilize it as a vehicle for purposes contradictory of its conceptions and century long devotion to ideals.

The Texas Democratic State Convention last year selected a State Executive Committee with you as its chairman, and this communication is prompted by the fact that in a press dispatch sent out by you from the State Capitol on Sept. 23 last, you were quoted as saying:

"My personal view at this time is that it will be best to allow those voters who bolted the national ticket in the last election to vote in the primaries next year provided they intend in good faith to live up to the pledge printed on the ticket.

"But I do not think that the name of any person who participated in the primaries last year and then voted the Republican national ticket should be placed upon the Democratic ticket as a candidate for Democratic nomination for office in the next primary.

Committee Claims Power

We recall that in an interview which you gave out from Austin shortly before the last November election you declared that the Democratic State Executive committee had the power, which you believed it would exercise, to bar from participation in the next Democratic election all Democrats who voted against the Smith electors. We are advised that a number of your associates on the State Executive Committee have declared themselves in accord with the views as expressed by you.

It is obvious that the enforcement of your idea would put hundreds of men and women loyal to the Democratic party and whose vote saved the Democratic state ticket from defeat last year, in the same category and subject them to the same penalties and disabilities as are provided by the Texas Constitution for public officials impeached for high crime and misdemeanors. They can vote but cannot be candidates for office.

It is also obvious that the effect of your attitude if put into operation would violate the fundamental principle of our constitution "that the right of free ballot shall never be abridged."

Your attention is called to the fact that the Democratic primary elections and the right to participate in them are and have been for half a century not controlled by any party committee, but by law—Statutes solemnly enacted by the people through their representatives in the Legislature.

The San Antonio Court of Civil Appeals in declaring the law on this question says, in the case of Briscoe vs Boyle, 286, S. W. page 275:

"The legislature has in minute detail laid out the process by which political parties shall operate the statute made machinery for making party nominations, and has so hedged this machinery with statutory regulations and restrictions as to deprive the parties and their managers of all discretion in the manipulation of that machinery."

Statutes Define Power

The court in this decision further says that the Statutes of Texas "define the power and duties of party committees and committees beyond which they can not lawfully act."

The law governing the matter was enacted by the Texas Legislature at the first called session in 1927—Chapter 67 and says:

"Provided that no person shall ever be denied the right to participate in a primary in this state because of former political views or affiliations."

An effort was made at a recent session of the Texas Legislature to repeal this law and to give you the power you now arbitrarily assert. This was known as the Wirtz bill and was vetoed by Governor Moody.

The anomalous effect of your proposed action is that while you admit that under this statute your committee is with out power to bar from Democratic primaries any Republican or Socialist who openly fought the entire Democratic ticket last Fall, including the Smith presidential electors, still you claim the power to bar any Democrat who voted for all Democratic nominees except the Smith electors.

Raises Legal Question

Thus your proposal raises the legal question which in all fairness ought to be decided by the courts. In view of its grave importance and far reaching effect its legality or illegality, should be decided at the earliest possible moment. Certainly this should be done by the Supreme Court of Texas before it goes into its enforced constitutional vacation on the last Saturday of June next year.

Our election laws provide that the State Executive Committee shall certify candidates to the various county committees on the first Monday in June and that the county committees shall determine the order in which all candidates so certified shall be printed on the official ballot on the third Monday in June. Thus it will require the fullest cooperation between these Democrats holding to your views of the law and those holding ours to make it possible for the Supreme Court to determine the matter before the primary election which is fixed by law for the fourth Saturday in June.

The high importance of this question will be recognized by all Democrats when they reflect now upon the improbability if not the certainty, that very few of the anti-Smith Democrats are likely to vote in the July primaries if they be notified by your committee that their party rights are inferior to those of a Republican or Socialist and are precisely the same as those of an impeached and convicted public official under the Constitution of Texas.

Therefore I am addressing you as the Chairman of the Democratic State Executive Committee to urge you to call the committee together for an official determination of its attitude toward those Democrats who refused to support Governor Smith last year.

If it decides in any way to attempt the curtailment of what we believe to be our moral and legal rights let us urge your cooperation in the utmost good faith to bring about the prompt and full and fair determination by the courts of the legality of the action of your committee.

May we not have a decision of the matter at your earliest convenience?

I am taking the liberty of sending each member of your committee a copy of this letter and requesting them for an expression of opinion.

Very Truly yours,
ALVIN S. MOODY,
Chairman of the Anti-Tammany Democrats of Texas.

GIRL SCOUTS OF SPUR HAVE BIG PROGRAM

The Girl Scouts of Spur are carrying out a very interesting program this week as this is National Girl Scout week. On Sunday all of the Girl Scouts and Brownies accompanied by their leaders Mrs. Whigham, Miss Laster, Miss Scudder and Mrs. Watson attended services at the M. E. Church. The Girls all enjoyed the message that Rev. Vaught brought at that time.

Monday was designated as clean up day in the home. From all reports it seemed the girls gave their mothers a rest and really cleaned house for them. Tuesday the girls, leaders and a number of guests hiked over the hill and spent an hour or more playing enjoyable games. After the games a lovely picnic lunch was served. Approximately 75 girls and guests enjoyed the outing.

Wednesday was service day. The girls had to perform duties that day that were to be of ac-

tual service to their homes and town. Thursday (today) is the "A Day of Days" since the council is taking all the Girl Scouts and Brownies to the theater this evening. Friday the Senior Girls entertain the Junior troop.

Saturday is designated as rest day for mother. On that day the girls will prepare and serve the noon meal. They trust that not too many of the 'dads' will not eat in town that day.

That brings to a close a week of real fun for the Girl Scouts. They are now a real organization in Spur, working for the interest of Spur. All those who saw the exhibit booth at the fair realize the many crafts involved in the Scout work. Let the town give them the best of cooperation and they in return will continue to work for the best interest of Spur.

SPECIAL SERVICES SUNDAY AFTERNOON

There will be a special service held at the new Palace Theater at three o'clock next Sunday afternoon. There will be special song services led by Mr. Ivey choir director of the First Baptist Church, and it is hoped that everyone will join this.

Rev. Mrs. Viola Dawson, pastor of the Nazarene Church of Spur, will lecture on rescue work and the things it is accomplishing. Mrs. Dawson has been in the rescue work for years and is very ably qualified to talk on this subject.

This is to be no particular church services, but a service in which all churches are expected to contribute something. People are invited to be present at the New Palace at three o'clock Sunday afternoon.
