In his seven determined efforts since his impeachment on ten counts in 1917 to place himself in power again in the Democratic party which has consistently bolted and abused in terms a woman cannot repeat, he has caused strife and hatred, arrayed class against class, and cost us labor and money beyond computation, and all without success except in one in-stance and that one victory was due

adopted it as their vocation in life.

I saw and heard the impeachment trial of the then Governor James E.
Ferguson. I watched the 31 senators, all of whom presumably had voted for Ferguson for his second term ac-cording to good old democratic custom They were his friends at the beginning of the trial. I saw their expressions change from friendliness to surprise, to astonishment and finally to distrust and indignation, as evidence after evidence was introduced despite the protests of Fergusons coterie of 4 of the best lawyers to be

After witnessing this humiliating episode in our history, I agree with judge of a western county who was speaking of the governor's race said that so far as he was concerned, he paid no attention to all the speeches being made because as a University student during the impeachment trial he came to the capitol one day and was sitting in the gallery watching the proceedings when Judge M. M. Crane shook his finger in Jim Ferguson's face and accused Ferguson face and accused Ferguson of applying a certain amount of the state's money to his personal use. This man said that he then saw, with his own eyes, Jim Ferguson twist and squirm and heard, with his own ears, Ferguson's acknowledgement that the accusation was true.

"I got up and left then," he said.
"What I had heard was enough for me, and ought to be enough for any honest person who gives a rap for his

'They don't have to tell me a single other thing to make me fight Fergusonism so long as he tries further to disgrace, disturb and humiliate this state by seeking public office." I agree that it is certainly a reflection on us all that the one instance cited is not sufficient to put Ferguson out of pub life in Texas forever. Because we let this man, impeached on ten counts, future—are weighing their elders in

State being in the red are so ridicu-lous. The state does get behind at times, probably will again. What per son, firm, corporation, city, county or state or n tion isn't behind during these unprecedented times, and what would Jim Ferguson do but make mat-ters worse? But the State certainly was not behind when I presented my check of \$166.66 warrant for paymen for the months of June and July because I received exactly that amount each time, and the June and July warrants of every person in my office were cashed without being discounted. I know that.

However, most questions asked me concern the pardon records of the Fergusons as compared with Governor Sterling's. These records are pub. lic documents on file in my office and open to any one for inspection. In this connection let me impress upon you the vast difference between a furlough, a parole and a pardon. When a prisoner is granted a furlough, it is for a limited time and practically always for an emergency such as severe illness or death in his family. Texas has a parole law, and when a prisoner is paroled it is in compliance with this law and upon the condition of good behavior; and he knows that for the very first violation of this condition, he will be brought back to the pentitentiary to serve out his term The parole law is generally accepted as one of the most effective measures for reform ever devised, and Governor Sterling is to be congratulated upon his sensible, successful adminis-

tering of this law. But when a man is pardoned, he is as you know, as free as if never incarcerated. Jim Ferguson stated in his publication of July 21:

"... the number of pardon proclamations issued by Gov. Miriam A.

Ferguson during her entire administration was 3324; by Gov. Sterling in 18 months of his administration, 3341." Men and women of Texas, the fact is that Governor Sterling during his nineteen months in the governor's office has issued ONLY 16 pardons. (Tabulation made August 1, 1932.)

Please get this exactly. I pledge you my word both as a woman who believes in fair play and officially as your Secretary of State, that all of these records are in my office and that Governor Ross Sterling has during his entire 19 months as gov-

Not a day passes that either in my office or at home I do not hear some of them talking—these girls and boys—young men and women, and they are questioning the very foundation of our government. They are questioning whether truth and integrity and honor—pay—they think of it. They are wondering if people are not coming to admire the grafter and spoilsman im office, if we are really fit for self government.

COUNTY CLERK

If you want an efficient and economical administration vote for me, for experience means efficiency.

As I have previously stated, I fully intend to do my own work and save the taxpayers of this County at least a thousand dollars per year, and when you go to the polls Saturday, please do not forget to cast your ballot for me. My opponent has made the statement that I could not do the work satisfactorily without the help of an assistant, and that I would not stay on the job six days out of the week. I can do the work, and if you will give me the opportunity, I will prove to you that I can. I have stayed on the job six days out of the week for the past five and one half years as Deputy Clerk, and I surely can stay on the job for two more years, and if qualifications mean anything to you, you will vote for me, and not for my opponent.

Thank you folks for the nice business you are giving us.

We feel better, and the reason is our customers feel better. We are all getting more hopeful.

For 22 years we have been doing business on this same corner in Spur. Many of you good folks with us through all these years, true some time some of you hear of places where catchy ads and specials cause you to wander off for a time, but you come back better satisfied. Most of you have heard for the past two years that we were broke. Well we have been bent as most of you have, but our doors are still open. We have suffered heavy losses, thousands of our friends as honest as men and women get owe us and have not been able to pay. We too, owed and could not pay, but if our friends stay as they have in the past we will be on this old corner as long as we live selling you merchandise extending accommodations, believing in the people of this country. And we fell more confident today than we have for two years. Facts are we believe things are coming back sounder and better and that the experience we have had will make us better business men.

Our buyers have been in Dallas and St. Louis markets. New goods are coming. Mrs. Rosamond says Ladies Wear was never prettier.

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

• The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our trans-

portation systems. The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business. Unregulated truck transportation inevitably results in discriminatory

charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity. The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are

non-residents, pay no taxes and contribute nothing to the community The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long dis-

tances in large volume, at low cost, by rail. 2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies. THE TEXAS RAILROADS

300 Members at Once

We want to call your attention to the fact that if you are one of the first 300 members of the Senior Group of the Spur Mutual that you will not have to pay any membership fee to join. We want to get this group filled soon and we lack just a few more to have our quota. We want your membership at once and lets get started now.

The Senior Group is Not Connected With Our Regular Policy

You know we are organizing this group to give protection to those people who are too old for the Spur Mutual proper. It will include persons of 51 years of age to 71. People of that period need protection just as much and more than when they are younger. Many children want to carry policies on their parents, and the Senior Group of Spur Mutual

is intended for that purpose. GET ONE FREE BY BEING ONE OF THE FIRST 300 MEMBERS

How many aged people pass away and have no means of taking care of their funeral expenses! The purpose of this division is to help correct this condi-

tion. After you get in, it will cost you but little. A \$500 policy for dues and each death claim costs as follows:

Ages 51 years to 56 years ____ \$1.75 Ages 56 years to 61 years ____ \$2.00 Ages 61 years to 66 years _____ \$2.50 Ages 66 years to 71 years ____ \$3.00

Will you vote for Governor Sterling and save

the \$25.00 per year?

Ferguson Talks of Bolters In the Dallas News under date of August 22 we find a two column aricle wherein Governor Ferguson calls Tom Love and other party bolters and says a vote for Sterling means a vote for Hoover. Do you remember back in 1920 after the Texas voters had honored Governor Jim twice as our governor of our state, that he organzed the American Party and became nominee for President of the Unied States. During his campaign he called the Democratic Party all kinds before the Governor took charge.

The independents were not only favored over the majors, but in most instances trey were saved from ultimate bankruptcy through the benefits inuring to them as a result of the Governor's action. Such both as a construction of the committee sent down there whether or not the above statements are facts.

Another thing me might think about when we go to vote. "Ma" and Jim say that if they are elected they will oust the present highway commission of dishonorable names including "skunks" and "disorganized jackasses" and other names which we cannot repeat. Get the Ferguson Forums of May to November of 1920 and read what he said about the Democratic

licans of the state assisting in nominating George E. B. Peddy of Houston as a candidate to defeat Mayfield. He was graded and paved under the sanction of this commission. When Mr. Sterling was elected governor Mr. Martin, who is a West Texas sympa-Martin, who is a West Texas sympa-governor Mr. Since then the sanction of this commission. Governor Ferguson is the leader of party bolters in Texas, don't you

heir motto "not to vote for a bolter" yet we find these people support Governor Jim and "Ma". We be lieve if we made such a state ment that we would "about face" in voting for governor. Governor Stering was true to the party all down the line and it true yet.

At this late date I take this last opportunity to solicit your vote for County Clerk, Saturday, at the elections.

It has been my purpose to see each of you personally, but owing to illness of my little daughter and other unavoidable hindrances have been kept rather close at home since the July

It is with the deepest gratitude that I thank you for the splendid vote given me in the July Primary. If you voted for me I want you to know that I thank you from the bottom of my heart. If you voted for an opponent I grant you that privilege and would be the last person to offer any criticisms regarding your choice and I am now respectfully soliciting your support at the coming election, promising only the things that are consistent and reasonable and if you elect me to serve, when you come to the office you will always find a hearty welcome and willingness on my part to serve you in a friendly, efficient manner. My idea of life it that we are all just folks together and that we should be good friends and neighbors, helping one another whenever and wherever the opportunity is afforded.

I am not a politician-don't know anything about "swapping votes" or building up imaginary grievances to induce people to vote for or against any person or thing. I am just a woman with the responsibility of a family and am forced by necessity to seek employment to make a living.

As a tax-paying citizen I realize fully the necessity of lower taxes and if there is any way the County Clerk can assist in relieving in any measure that tax burden I will feel it my duty to do so. It is not my purpose to promise you anything that I cannot do, but if it is possible to help reduce county expenses in the Clerk's office, I will willingly do so, feeling that it should already have been done months ago when the depression first started hampering the welfare of the tax-paying citizens.

Again I thank you for the splendid vote given me and if you think I am competent and worthy and will help my candidacy Saturday, I will appreciaate it most fully and try to repay you in services rendered should I be honored with election to office.

Most Respectfully.

MRS. ORAN McCLURE

The "Abilene Morning News" under date of July 30, carried an article which in substance is as follows:

City tax rate for 1932 fixed at \$2.10. The tax rate was allocated as follows:

| Sinking Fund | \$1.33 |
|--------------|--------|
| School Fund | .54 |
| Street Fund | .12 |
| General Fund | .05 |
| Library Fund | .02 |
| Park Fund | .03 |

| T | 20.10 |

CONTRAST

PONCA CITY WILL HAVE NO TAXES!

PONCA CITY, Okla.—The City Commission announced today that there would be no city tax levy next year. For several years no general levies have been made, and this year the \$2,387.14 sinking fund appropriation for which 8 mills levy was made last year will be paid out of the profits of the Municipal Water and Light Plants, this too in spite of the fact that water and light rates have been reduced twice in the past two years.

Had Abilene seen fit to own its own electric plant as Ponca City, Abilene might today be enjoying the benefits of a taxless town. At the same time paying less for electric current.
