EARLY WEST TEXAS SETTLER PASSES AWAY

W. C. Presley, one of the early settlers of West Texas died at his home just west of Spur last Thursday morning. He had been a sufferer of diabetes for the past thirteen years and had been confined to his bed since before Christmas.

Funeral services were held at the home at three o'clock Thursday afternoon, Rev. Joe E. Boyd, pastor of the First Methodist Church here, preached the funeral. Interment followed in Spur cemetery, Webber Williams acting as funeral director. Masonic rites were conferred at the cemetery.

Mr. Presley was a native of Alabama and was born in Montgomery, August 15, 1860. He came to Texas with his parents when he was a child about five years of age. They came by steamer to Galveston. He was 14 years of age when he came to West Texas and started work on the Ross ranch as a cowboy near where Paducah now is located. That was many years before the town was founded. He was very quiet and reserved and rarely ever told anything of early day experiences except to close friends and to his family, but there were plenty of Indians in the country at that time.

After several years with the Rosses he went to work for the Pitchforks and spent 27 years as a cowhand on that ranch. At the close of that period he purchased a ranch of his own several miles south of Guthrie. The ranch was located in both King and Dickens Counties. Here he established his first home. It was while he was here that he married and to this ranch he brought his bride, and here they enjoyed four years of life together before moving to Spur twelve years ago. Mr. Presley married Miss Kate Row at Mineral Wells March 9, 1917. This proved to be one of the most congenial unions in all of West Texas. During their sixteen years of married life his devoted wife joined her husband in every care and responsibility and his happiness came first in her life. They have one son, W. C. Jr., who is 14 years of age now.

In 1918 Mr. Presley made a profession of religion and lived a consistent Christian from that time on. He never affiliated with any church but his life was an example to all. His timid, reserved manner was greatly appreciated by those who knew him best. He was a faithful attendant at church services as long as he was able to go. He enjoyed religious services and helped to support the church. He was a Knights Templar Mason, and was a Blue Lodge member of long standing. His membership was with the lodge at Dickens, and the membership there had charge of the fun-

Marvin Jones Not to Represent Dickens County Longer

Happy as the people of Dickens County are to know we have a new Congressional District for this part of Texas, they regret they will not be represented in the next Congress by that able statesman, Marvin Jones, who has so efficiently represented us for so long. Dickens County leaves the 18th Congressional District and goes into the new 19th district for congressional representation.

Dickens County is in a group of 25 counties in this new district. The counties beginning at the northwest corner are: Bailey, Lamb, Floyd, Cochran, Hockley, Lubbock Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Haskell, Gaines, Dawson, Borden, Scurry, Andrews, Martin, Howard, Mitchell. The population of the new 19th district is 251,587.

Texas now has 21 congressional districts and in the election of 1934 will elect 21 congressmen. There will be no congressmen at large in Texas after the present Congress. As to who will be the representative from the new 19th District will be determined in the election next year. Judge Clark M. Mullican, of Lubbock, is talking strongly of making the race. It is conceded that former Senator Pink L. Parrish, of Lubbock, will be a candidate. Senator Arthur P. Duggan, of Littlefield, is contemplating making the race since he will have two more years in the State Senate in the event he does not win in the Congressional race. Attorney Jess Levins, of Lubbock, is being talked of as a possible candidate.

Dickens County is likely to have a candidate for congressional honors in the person of Fred C. Haile, who made the race two years ago for the State Legislature. Mr. Haile is a good business man, is one of the best educated men in the district, has a keen insight into conditions of national affairs, and would make a good representative for the new district. The 16th district still remains the largest in the state. It is represented at this time by the Hon. R. E. Thomas of El Paso. However, it has the smallest population—210,591. District No. 3 is the next smallest in population, 214,206.

Newspaper and Magazine Bargain

Our readers will observe the advertisements of the Times on a series of magazine subscriptions in cooperation with the Dickens County Times. You have your choice of one magazine in the group on the left, and your choice of two magazines of the group on the right and the Dickens County Times—all four publications for one whole year for only \$1.50. This makes your needed home papers come very reasonably. Look these lists over and select three magazines and get your subscription at the Times office. In addition, from now until July 3 inclusive, you will get a full pound of Admiration Coffee free with each group subscription. You cannot afford to let this offer go by.

McADOO-RALLS BASEBALL GAME

In a pitching duel Monday afternoon, Eldridge of McAdoo was winner over Aycock of Ralls. He was backed by strong team support. Eldridge hurled his team to a 3 to 1 victory, allowing one hit to the visitors. McAdoo got two hits off Aycock.

It was by far the tightest game featured this season on the McAdoo diamond. After walking the first two men up in the ninth, Eldridge tightened up and kept the visitors from scoring. Ervin Clark of McAdoo team was injured when he slid into second base, receiving a dislocated shoulder. The McAdoo team, under management of F. E. Carter, is anxious to match games with a team throughout West Texas. —Contributed.

MARRIED

Mr. Leo Speer and Miss Anna Ruth Parker of Dickens, were united in marriage recently by Rev. Joe E. Boyd of Spur, Methodist minister.

Mrs. Speer is the beautiful and accomplished daughter of Mr. and Mrs. George Parker of Dallas. She graduated from the Woodrow Wilson High School, Dallas, last year. She has many friends here and at Dallas.

Mr. Speer is the son of Mr. and Mrs. Frank Speer of Dickens. He graduated from the Dickens High School last year with honors. We wish them a long and happy married life.

Duck Creek 100 Per Cent On Patterns

"Our club is going to be 100 per cent on foundation patterns when we turn in our council report Saturday," said Mrs. A. T. Bural, Council member for the Duck Creek home demonstration club. "We have 18 members and 16 have their patterns now and the other two will get theirs made this week. We are planning to be 100 per cent in entering dresses and patterns in the county clothing contest."

Duck Creek club is only two months old and it has a record of which it is justly proud. Several other clubs are working toward the goal of 100% in patterns and dresses in the contest.

Girls Make Record In Bedroom Improvement

The girl's achievement day in bedroom work is being held this month in preparation for the final judging of the bedrooms in the contest the last of the month. In the achievement day programs held in six 4-H clubs 115 girls, mothers and teachers have attended.

Some of the girls have been delayed in making the improvements in their rooms that they have planned but will continue to work at it now that school is closed. Of the 117 girls enrolled in bedroom improvement 94 have arranged the furniture in their rooms according to the lines of the room; 60 have improved their clothes closets either by adding rods for hangers, shelves or a shoe rack or all three; 29 girls have built, or helped their dads build, new closets; 40 have made braided table mats; 33 rooms have been papered; 5 dressing tables, 16 book shelves and 11 reading tables have been added in the girls' rooms, also five rugs and 25 window curtains.

The goals set for the cooperators in the girls' bedroom work were to arrange the furniture according to the lines of the room, build or improve the clothes closet, and make a table mat. The winners in the demonstrators' contest will be announced in the paper next week.

MATADOR CITIZEN PASSES AWAY

Thomas Edward Lee, of Matador, was born July 17, 1858, in Van Zandt County. His parents passed away when he was only a child. He and his brother, Emmett Lee, deceased (father of L. E. Lee of Spur) were reared by an uncle, spending most of their early lives in East Texas. In 1891 he was married to Miss Ellen Osborn of Callahan County. To them were born ten children, two dying in infancy. Seven of the children were with him during his last illness, and his loving, devoted wife and children are left to mourn his death.

Bro. Lee was a faithful, consecrated deacon in the First Baptist Church at Matador.

Bro. Lee passed away May 18. Pastor F. G. Rodgers was called to preach the funeral. He was one of God's greatest men. L. E. Lee, wife and sister of Spur, attended the funeral. The floral offering was beautiful. We sympathize with all the loved ones in their loss, but it is heaven's gain. F. G. Rodgers.

SHERIFF ARTHUR GETS HIS MEN AGAIN

Sheriff W. B. Arthur returned from the Red River country Tuesday with two men whom he had taken into custody for theft. The men were charged with stealing two saddles from Bill Sank at the Colbert Ranch, twelve miles west of Spur. The saddles were taken about a month ago. The sheriff

GRADUATION EXERCISES TO BE HELD TUESDAY EVENING

The graduating exercises for the Senior High School Class will be held Tuesday evening in the auditorium of the Palace Theatre. Dr. Bradford Knapp, President of the Texas Technological College, will deliver the address to the class.

Class honors were made on the basis of two years of work in the Spur High School. Miss Mary Bell Ensey received the highest honors of the class, and Miss Eloise McCrary was awarded second highest honors. John Howard Latham received the highest honors among the young men of the class. Miss McCrary will give the class salutation and Miss Ensey will deliver the valedictory address.

This is a very large class this year for a school the size of Spur. Sixty seven young ladies and young men will receive diplomas from Spur High at this time. The standing of Spur High School will enable these young people to enter any college or university of first class in the United States. The school is a member of the All Southern Association of affiliated high schools.

List of graduates are: Julia Mae Albin, Vivian Applegate, Clinton Barrett, Annie Bateman, Novella Campbell, J. P. Carson, Mildred Collier, J. C. Cooper, Jimmie Cross, Ray Dickson, Lora Dozier, Reuben Draper, Arthur Lee Dunn, Nellie Sue Durham, Mary Belle Ensey, Clarence Foreman, Pauline Foreman, Mattie Ellen Foster, Theodora Fry, Luther Garner, Bence Gray, John Gray, Marcella Greer, Clayburn Harrel, Lucille Harris, Dial Hindman, Spurgeon Hutto, Opal Jackson, Nina Mae Johnson, Dorothy Kerley, Eloise Lane, John Howard Latham, Glenn McClain, Tommy McArthur, Eloise McCrary, Malissa McKay, Winnie McKeever, Herman Messer, Jack Moore, John F. Moore, Loyd Morris, Martha Nichols, Estelle Oliver, Essie Overfelt, Velma Parks, Alfred Payne, Johnnie Powell, Raymond Powell, Mildred Rapel, Eldon Rawlings, Rowena Saxon, Catherine Shields, Auden Simmons, Angeline Smith, Loretta Sparks, Beatrice Spivey, Ruth Stinnett, Opal Stubblefield, Lavon Thornton, Pearl Wade, Wanda Watson, Nadine Westerman, Dillard Williams, Betsy Wilson, John Hiner Wilson, Mary Wooten, Jean Wade.

Relief Under Home Aid Bill

The Home Aid Bill is still under discussion subject to many changes, but when it becomes a law it will be the means of many people saving their homes. If you have a \$3,000 home and have a \$2,000 mortgage on it, you, or the holder of the mortgage may consult with some governmental agency to be created under the bill known as the Home Owners Loan Corporation and ask for refinancing your home. If you are paying 6 1/2 per cent interest on the mortgage and want to continue, the holder of the mortgage may agree to accept a bond issued by the corporation in exchange for the mortgage. He would get only 4 per cent interest on it, but it would guarantee the payment and be tax exempt. Then you would guarantee the government 5 per cent interest over a fixed period of time, with the possibility of an extension should you be unable to meet the payments. In addition the government would advance you cash to take care of taxes and needed repairs on the property, if necessary, which would be added to your debt, provided the obligation did not exceed 80 per cent of the appraised value of the property. In the event that you have worked your loan down to \$1,000, probably the holder of the mortgage would not desire to exchange it for a bond because the home would be such good security that he would rather foreclose in the event you could not make your payments. To prevent this the Home Loan Corporation could extend to you cash up to 40 or 50 per cent of the value of your home to pay off the mortgage. Then you would turn the debtor over to the corporation for security. Instead of foreclosing immediately the corporation would give you time to pull out of your financial distresses.

The Spur Coffee Shop is looking mightily dressed up since a new coat of paint was applied recently. Mr. and Mrs. W. M. Bumpus take much pride in this business and like for their customers to enjoy a neat place when visiting them.

has been on the lookout for the men during the time and was successful in locating them on a ranch near Estelline. Two men are in the county jail at Dickens. One is about 23 years of age and the other about 20. The sheriff traveled more than 1,000 miles in capturing these two men. Mr. Sauls had posted a reward of \$25.00 for the arrest of the offenders and return of the saddles.

WEAR HIS FLOWER

His fixed bayonet was pointed toward the enemy. His steel helmet was tilted down over determined eyes. An unseen machine gun sprayed his path with death, but he went forward for America.

In a poppy-studded wheat field he fell. They buried him after the wave of battle had swept by, and poppies sprang up around his grave. His victorious comrades, returning to America, brought memories and the poppy.

On Saturday, May 27, the men of the American Legion will ask us to wear a poppy. The women of the American Legion Auxiliary will offer us poppies on the streets and will give us an opportunity to aid the war disabled, the widows, and the fatherless children. Can there be a person in Spur in whom the pulse of patriotism beats so low that he will refuse? He who can so soon forget the patriotic sacrifices of the past is a person from whom friends, community and country can expect little of unselfish service today or in the future.

LOOKING FORWARD

Many things have happened in the past, things worth recording in the pages of history and interesting to read of and to study—the how's and why's—but we are living now and should be looking forward to the future, making of the failures in the past guides away from such dangers in the future and successes of the past only remind us that we may succeed again if we use the experiences that brought success and add to them because we should know better how to build by having built.

I feel that things are being done now that may change the world's boasted civilizations and make them so much better that we may look back in years yet unborn, and view our present civilization as having been full of selfish faults that bring us shame.

Good omens for the future—some of the legislation that has been passed in recent weeks would have been passed in recent weeks had not the few years claimed unconstitutional a few years ago. The very idea of actually helping those in need was thought clear out of the powers of the Government's authority. Now we look on it as a part of the duty of a great country to see that there is no abject want. I'm not a socialist but some of the things socialism taught a decade ago are being practised now and why not? In a land of plenty there should be no man or league of men control the economic resources that even the government itself has to ask them before making a move to better conditions. We are making history now and the money changers are jumping from windows, stabbing themselves with their own hands and voluntarily exiling themselves from their homes and country. Our President and the Congress of these United States have spoken in unmistakable terms and said equal rights should be restored as nearly as possible to all men and that those who have betrayed their trusts must get out and their places be filled by men of honor and there are many men who have stood through it all good and true. This is the refining time, the dress is going, the pure gold being made more perfect. And looking forward we by reason, can see better days.

Roosevelt, Mussolini, Hitler, McDonald and most of the great leaders of the nations want peace and are not ashamed to say so. The Economic Conference soon to be held in London is going to be a history making event and the League of Nations may not have Uncle Sam as a member but he has promised to be a good neighbor and abide by its decisions, and to me I see the day coming when the implements of war may be made into vessels of usefulness in times of peace.

Better day are coming, for when the people of all nations have the simple necessities of life, over production will be a known myth. Why should we not do all we can to raise the standards of living are the same in all the East? It's coming and when standards of living are the same in all countries tariff walls can be torn down and free trade really exist. When presidents, kings, premiers, dictators get together as they have recently done and talk things over you may look for things worth while to happen. War has made itself impossible, it is too expensive, too destructive. Nations can not finance wars so the Prince of Peace, who taught us how to treat our neighbors is going to see his ideals realized in part during this century. All men are our neighbors. "We are our brother's keeper." We can not live happy while others suffer with hunger. In ages gone some men thought they could. "The young ruler lacked only that principle of being all the Master wanted him to be."

We are not backing out of this calamity called depression but going on by way of a new road to develop a land where more equitable distribution of its resources will be a reality. We are simply learning by sad experience that the Man of Galilee knew the way of right government two thousand years ago. As I write this much of the country need rain—by the time it is in

Citizens Meeting At Dickens Friday

A meeting of citizens of Dickens County has been called to meet at the courthouse in Dickens at 8:00 o'clock Friday evening. The purpose of the meeting is to discuss the prohibition question and to organize the county in opposition to the repeal of the 18th Amendment to the Constitution of the United States. An election has been called in Texas for August 26 to vote on matters pertaining to prohibition. All citizens from every community in the county who are interested in keeping out open saloons, or other licensed methods of selling intoxicating beverages from our county, are requested to be present. The meeting should be of importance.

It is thought Judge Hamilton, of Matador, will be present to address the meeting. He is wanted, and an effort is being made to get him.

Nichols Sanitarium

E. M. Bursett, of Dickens, continues to improve after an operation some weeks ago.

Mrs. J. L. Koonsman and little son, of Croton, are doing nicely at this time.

Mrs. C. R. Pendleton, of McAdoo, underwent an operation Sunday and is getting along fine.

Mrs. L. M. Armstrong, of Spur, underwent an operation Monday and seems to be doing fine.

O. C. Thomas of Post, underwent an operation Monday for appendicitis and is getting along fine.

Mrs. P. C. Nichols, city, underwent an operation Tuesday and seems to be doing all right.

Mrs. Chas. Holloman, of Peacock, had an abscessed tonsil lanced Tuesday evening. She was able to return home Wednesday and was feeling much better.

Matador Golfers Give Locals Hard Game

Members of the Matador Golf League Team came to Spur Sunday afternoon to engage the locals in the second of the league matches of the Cap Rock Golf League for the season. The battle raged hard from the very first tee and it seemed to be anybody's game until the last round closed. The Spur team was successful in carrying off the game by a few points. The following is the line-up:

Table with 2 columns: Player Name and Score. Includes names like Spurr, Burleson, Stearns, Pipkin, Harp, Glenn, Patton, Nalley, G. S. Craven, Totals, and Crosbyton-Lockney matches.

As points for the League now stand Spur is one half point in the lead. Spur 34, Matador 33 1-2, Lockney 26 1-2, Crosbyton 26.

The average for the Spur team for the two league games runs as follows: Caraway 77 1-2, Powell 73 1-2, Patterson 73 1-2, Holly 76, Barrett 76, Neilson 80 1-2, Lee 84, Culbert 81 1-2, Parrish 74 1-2, Simpson 86, Andrews 79.

MRS. JOE LONG'S MOTHER PASSES AWAY

Mrs. J. H. Jennings, mother of Mrs. Joe Long of this city passed away in Lubbock at 3:45 o'clock Tuesday morning. Mrs. Jennings had been an invalid for the past three years and during that time had made her home with her daughter, Mrs. M. C. Overton at Lubbock. Funeral services were held at the Overton home at Four o'clock Tuesday afternoon. Rev. J. O. Haymes, a former pastor of Spur Methodist Church and now pastor of the First Church at Lubbock, preached the funeral discourse.

Mrs. Jennings was born near Luling September 24, 1863, and was nearing her 70th birthday anniversary when she died. She and her husband moved to Lubbock in 1916. Mr. Jennings passed away in 1920.

She leaves nine children to mourn her departure. They are: besides Mrs. Overton and Mrs. Jong, Joseph W. Jennings of Plainview, Weyman C. Jennings of Dale, Edgar Jennings of Beaumont, Robert Q. Jennings of New York, H. Dudley Jennings of San Antonio, Miss Evelyn Jennings of Lubbock, and Leslie C. Jennings of Beaumont.

Mrs. Long has many friends in our city who extend sympathy in this sad time.

I have a feeling the blessed rains will come. Say, folks, "It's a good old world," and we will find it so by trying to help somebody as we pass along.

Come to see me, give me the flowers while I live. If my faulty column helps you tell me now. Your friend, GEO. S. LINK.

### What Road Money Means to Texans

Every dollar invested in road building by Texas insures \$1.90 for wages in this state. It is estimated that 95 cents of every Texas road building dollar goes to pay wages of men and this dollar is matched by another from the federal government of which 95 cents goes for labor. This means that for every dollar Texans invest in roads the federal government invests another, and 95 per cent goes for labor. Think what it will mean to the laboring class in Texas if the State Legislature diverts the road building

fund into some other fund? If the gasoline tax is converted into the general fund, every laborer working on the roads in Texas will be thrown out of employment.

It is conservatively estimated that motorists from other states, by reason of good roads in Texas, brings into our state \$51,000,000 annually. This amount is spent at filling stations, cold drink stands, restaurants, tourist camps, hotels, theatres, garages and stores and shops.

In speaking of diverting the gasoline tax the Tar-Telegram says: "The Legislature should take such an emphatic step against such measures that the game of sniping at gasoline tax funds would lose its attractiveness. The money belongs to the highways or in the pockets of the motorists."

The Beaumont Enterprise said: "If all road building in Texas were stopped for a year, the state would not save a dime, on the contrary, the state would lose money, because its economic progress would be retarded."

The Houston Chronicle said: "Would any man urge that more people be thrown out of work today? The regrettable fact is that two bills now before the Legislature, proposing further inroads into the gasoline tax, carry this grave danger. One would halt all road construction, the other most of it. Either would deprive us of federal highway aid. The food and shelter of more than 100,000 Texas women and children are the price of such legislation. If there is another inroad upon these funds, we can expect unemployment conditions during the coming fall and winter which it is more pleasant now to avoid discussing. More pleasant, but less wise."

As a matter of fact if the gasoline tax is converted into the general fund or some other fund, West Texas will have no more road building in many years to come. Even after the gasoline tax is given back to the roads it will take several years to get those highways already built back into condition before any further highway building would be considered. East Texas and South Texas again would come in first and be benefitted from the gasoline tax before West Texas would ever be considered.

### The Home Owned Store

The following article was sent to the Times by M. K. Lawson of Afton, and is an extract from an address by W. J. Pilkington. The following is a continuation of last week.

In past talks I have joined the interests of churches, schools and home owned stores, but now I want to talk to you about stores which are owned and operated by your neighbors. These neighbors put both life and money into making your community what it is, and I feel they are deserving of special attention if you wish to be classified as intelligent you must not pass these local interests by without giving them equal attention with your public schools.

Your local stores are owned by people who live in your community, they have put their money into your churches, and have helped to promote and pay for your public schools, and when any local problem has developed these are the folks you found doing their best in bringing about development and the good of the community.

The money you pay into your home owned stores keeps in circulation in the community. Perhaps the dollar you spent today in a local store was paid you by a neighbor, and today you spent it for something you needed. Tomorrow the home-owned store pays out this dollar for the development of homes, schools, churches, sidewalks, streets, wages, delivery, credit, and so on. Compare this dollar with the one someone spent yesterday in such a way that it immediately left the community. It was gone by sunrise the next morning. It was not exchanged for something your neighbor had to sell.

How on earth can your banks have money to loan when you need it, if you spend your money in such a way that it immediately leaves the community? The banks cannot loan money that is gone.

True, part of the money you spend later is spent for merchandise, but in your home-owned stores sooner or it stays in the community all the way from a week to two months and keeps right on circulating in the community. Even then before it leaves, you and others have spent more money in the community so the supply is continuous and is at work day and night.

It is strange that people who have fair judgement on other things cannot see or at least will not see, the common sense in what I am saying. Is it because they have allowed someone at a distance to prejudice them against the welfare of their own community and neighbors? And against the welfare of their own

pocketbooks? Remember that when some outsider tries to make you believe your neighbors and friends are not efficient, that they are not up-to-date, that they cannot serve you, that this is not done for your good, but for the good of those who promote such sentiment.

It is not to be wondered at that every prominent member of the United States Senate, and every prominent Governor in the United States realizes the power and force of what I am saying. They are fearful of the concentration of wealth in any part of the country.

Your home-owned stores are operated by men just as honest and just as conscientious as any men, and they are just as efficient as others. They know their business just as well as anyone knows it, and their welfare is wrapped up with your own.

If it is true that you as an individual, or your neighborhood has been imposed upon, and your money snatched from you, it is because you have not been diligent in looking after your own welfare.

For some reason thousands of people are more inclined to listen to strangers than they are to listen to and believe those persons who are neighbors and friends, and with whom they have done business and associated with for many years.

Yes, today, figuratively speaking, I am saying these things in letters of red for the good of your home-owned stores, because they are a part of you. They should be of just as much interest to you as your home, your furniture, your lawns, or any of your local interests. Local interests cannot be separated without injury and if you forget your home-owned stores, remember that in so doing, you are working against your own pocketbooks and your own interests.

### 76,000 CANADIANS GO BACK TO THE FARM

The "back to the farm" movement launched in Canada a little more than two years ago by the department of colonization, in cooperation with the two leading Canadian railways, has resulted in more than 76,000 persons returning to the occupation from which they had been lured to the city luxuries in the boom days of 1928-29.

This number, according to Robert J. C. Stead of the department of colonization and immigration of the dominion, is made up of 10,733 families which average five each, representing 53,000 souls, plus the 23,253 men who have gone back to the farm as laborers. These figures do not include the placements made by the provincial and city governments.

"Back in 1930, the unemployed in Canada were estimated at 200,000," says Mr. Stead. "So instead of immigration being encouraged as in previous years, it was decided to launch an effort to encourage Canadians themselves to go back to the farm."

"The whole movement is calculated to cultivate and restore the spirit of self-reliance and self-help. Not a dollar of public money or private philanthropy has been advanced either as a gift or a loan. There has been no paternalism, no sapping of personal initiative. The government and the railways provide an escape from difficulties in the only effective way — by helping the people to help themselves."

### PEACEFUL HILL H. D. CLUB

The Peaceful Hill club members met at the Peaceful Hill school house May 19 at 2:30 p. m. There were eight members present and each answered the roll call with "Natural Resources and Great Men of Texas." Miss Pratt cut and fitted one dress pattern for one of the members. Our next meeting day will be with Mrs. Donie Pace, our bedroom demonstrator, June 16. Each member is urged to make her pattern and take it to the next meeting as Miss Pratt will give a number of useful demonstrations with them. —Reporter.

## A THOUGHT FOR MEMORIAL DAY

Honor the Nation's Sleeping Heroes. Pay tribute to the memory of those gallant defenders of the Flag and country whose deeds will live for generations to come.

Where'er they rest in consecrated ground, cover them over with nature's beautiful blossoms, and breath a silent prayer of thankfulness for all they did. Only thus do we keep faith with them.

### FIRE PREVENTION

BY ELOISE McCRARY  
Fire prevention is a subject which has caused heated discussion. This conflagration inflames me to grow hot on the matter. The importance of reducing carelessness with fire burns into my consciousness as a heated iron.  
Fire is a demon who menaces free men, their homes, their children, their lives, a devil who hates us impatiently, awaits us, his talons in us to drive. To hold back this devil, (I'm on the level)  
It's carelessness you must avoid,

Don't strew matches around, on the floor or the ground.  
And of cigarette stubs, be avoided.

In gasoline cleaning, be careful of steaming  
And neglected live wires can often Too richly a gasoline garment; cause fires  
For the Fire Demon never is dormant.

And irons, quite forgotten, oiled mops  
And rags rotten,  
Have caused as devastating fires As have bonfires and rubbish and other grubbish  
And faulty electric light wires.

For fire is no plaything; that, need no debating  
All children should be taught that way  
And gas stoves are tricky as jelly is sticky,  
And—in conclusion I'll say

If these rules you follow, you'll save many a dollar  
And also experience dire,  
Remember! The Demon is witching!  
Prevent him from catching  
You napping; be careful of fire!

# Memorial Day MAY 30

It is a fine commentary on the high ideals and standards of our people that they keep Memorial Day in reverent memory of those who did so much to preserve this nation. And as the years go by there is less of sorrow and more of joy in the observation of this day of rest and relaxation. For, through the sacrifices of those whose memory we cherish, it has become a day to pause and contemplate the strength of our country. It is . . . indeed . . . a day of Tribute.

"Direct From Grower to You"

Old Kentucky Burley Tobacco is the cream of the finest crops Kentucky's bountiful soil can produce - ripe, rich leaves - smooth and mellow - with that rare old-fashioned flavor and fragrance that only proper "aging" can produce. We bank on it you have never tasted or smoked a finer flavored, more satisfying tobacco in your life.

**SPECIAL OFFER**

**FIVE POUNDS SMOKING TOBACCO**

**\$1**

Rich, Ripe, Old Fashioned Leaf

Our Old Kentucky Burley is no more like manufactured tobacco than day is like night - guaranteed free from chemicals and all other adulterations that conceal imperfections, delude the sense of taste and undermine the health.

We use the same method our grandfathers used in preparing tobacco for their own use—every trace of harshness leaves it - nothing to "bite" your tongue or parch your taste. Thousands of tobacco lovers the world over swear by its inimitable smoking and chewing qualities.

**Reduce Your Tobacco Bill 1/2**

We sell direct from the grower this eliminates the eighteen cents a pound Revenue Tax - all manufacturers' and middlemen's profit thereby effecting a saving to you of 50% or more. No fancy packages, no decorations, just quality and lots of it.

**Money Saving Price**

SMOKING OR CHEWING  
5 lbs for \$1.00

Send us One Dollar Cash, P. O. or Express Money Order (no personal checks) and we will promptly ship you a five pound package of "Burley Tobacco."

Five pounds of Old Kentucky Burley will make 40 large packages of smoking or 50 twists of chewing.

**35¢** Send 35¢ in silver and we will ship Post Paid - one pound of Burley Tobacco as a trial offer. A trial will convince you.

We have thousands of requests daily for "samples" - our margin of profit is so small we cannot comply with these requests.

We do not ship C. O. D. orders to do so would require a large staff of clerks. Orders must be in English language.

**SIDELIGHTS**

By MARVIN JONES  
Member of Congress from Texas

The emergency measure which has just been passed embodies the farm mortgage refinancing provisions as well as the currency program. It is frequently referred to as the most important and far-reaching legislation ever presented to the American Congress.

The Senate and House have now agreed on all of the provisions of the bill, and it has received executive approval.

Soon after the farm measure was sent to the Senate, I introduced the administration's farm mortgage bill and led the fight for its adoption by the House of Representatives. It was adopted by an overwhelming vote.

Currency expansion measures were also pending in the House during this period and had been discussed by many members on the floor.

These measures were combined and the Thomas currency amendment added. The result of these various steps and combinations is one measure of tremendous importance to the farmer and to the nation in general.

In passing the combination measure, the Senate added eighty-five amendments. In order to iron out the differences in the measure as it passed the House and Senate, it was necessary for a joint committee to be selected to represent each body.

Because of the importance of this legislation, I felt greatly honored in being chosen to head the group of conferees from the House when the measure was thus taken up for final revision and adjustment by the two groups before its enactment into law.

The House and Senate both adopted the conference report, which was the last step before executive approval. It was my privilege to be present when it was approved, and the President presented me with a pen which he used in signing the measure.

The farm relief section of the composite bill is admittedly an experiment, and is intended to be used only in the present emergency. Under its provisions the Secretary of Agriculture is given broad powers to admin-

ister several plans in an effort to bring temporary relief to the farmer while a permanent program is being instituted.

The mortgage refinancing provisions have been discussed in the press reports. The necessity of farm refinancing was recognized by the President, with the result that such a measure has been approved by Congress.

I believe that a controlled expansion of the currency will be a long step toward recovery, because it brings with it an increase in commodity prices an increased purchasing power.

The reflation or expansion, amendment which has been added to the farm bill contains four major proposals, any or all of which may be used by the President for the purpose of increasing the commodity price level. The first relates to open-market operations by the Federal Reserve banks; the second provides for the issuance of Treasury notes within certain defined limits; the third relates to the acceptance of silver aggregating two hundred million dollars in payment of debts owed by foreign governments; and the fourth authorizes a change in the gold content of the dollar or the remonetization of silver.

With such a program as this in operation, accomplishing three important steps in the President's program of ultimate national recovery, I have every hope that the farmer will once more assume his proper place in our economic structure, and that America will be well on its way to better times.

**Mararia Expensive To Texas Citizens**

More than one half million dollars are lost each year in Texas by a preventable disease. This disease is malaria, and last year three hundred Texans died of it. This loss of life is very regrettable when a few precautions could have prevented so many deaths and a great amount of suffering.

The funerals, medicines, and loss of time of those dying can be estimated at two hundred dollars each, or \$60,000.00. Malaria is not often fatal so an estimate of two hundred cases for each annual death is conservative; this would mean that 60,000 were acutely ill with this disease. The course of the disease varies from a few days to many weeks; however, if the 60,000 ill were only incapacitated one week, there would be a loss of 360,000 working days, at one dollar per day, the loss would be \$360,000.00. Then no doubt those sick spent at least one dollar each for medicine. The above figures are very low and do not take into consideration the loss in schools occasioned by children repeating grades.

Malaria is caused by the bite of one certain mosquito. First the mosquito bites or sucks blood from a person that has the germ of malaria in his system, the mosquito then bites a well person. In this way the germs enter the blood, grow and multiply there. The second person bitten begins to shiver with chills and then to

burn with fever, then to have a headache. The fever may last for weeks or go and come. Sometimes one may have a slight attack of malaria without knowing it, only feeling dull and tired.

To prevent malaria the breeding places of mosquitoes must be eliminated and houses properly screened.

After a person has been ill with malaria, he should take a complete course of treatment under the care and observation of his physician until examination of the blood shows him to be free from the germs. Incomplete treatment of malaria leaves one harboring the infection even though he

may be free from symptoms. As long as the germs remain in the blood the individual is not only a menace to others, but is likely at any time to become ill with a fresh attack of acute malaria—chills, fever, headache—all over again.

*Henry Ford*  
*Dearborn, Mich.*

May 15, 1933

Time and again I am told—by my own organization and by others—that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference.

I know that the car a man sees is not the car he drives—he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

**Miles Statue On  
Exhibit At Chicago**

Carl Milles, of Stockholm, Sweden, ranked by critics as among the greatest living sculptors and by some as the greatest master of modern sculpture, has completed a statue which will be placed in the Entrance Salon of the General Motors Building at the Century of Progress Exposition opening in Chicago, May 27.

The figure which is symbolic of precision craftsmanship is sixteen feet high, stands on a pedestal, nine feet high, the whole rising twenty-five feet from the Entrance Salon floor.

The figure represents the skilled workman holding an automobile engine connecting rod aloft at an angle at which he can look through the bearing aperture toward the light.

The statue was modeled by Milles at the Cranbrook Academy of Art at Bloomfield Hills, Michigan, suburb of Detroit, where he has his American studios (and temporarily is conducting a lecture course.)

Among the wealth of art objects by American and foreign masters exhibited at the Chicago Fair, Milles work will be outstanding.

**Chevrolet Salesmen  
To Be Rewarded**

More than 1,000 free trips to the Chicago World's Fair will be awarded to the Chevrolet field organization by the company this summer on the basis of meritorious sales work during May and June. H. J. Klingler, vice-president and general sales manager has announced.

The trips will include two days and two nights in Chicago and transportation both ways. Mr. Klingler said:

**"I have my choice with Gulf"**

COME to Gulf and get a good oil at the price you want to pay. For Gulf makes 3 fine oils at 3 fair prices. Drive in—and take your choice!

**FIRST BAPTIST CHURCH**

The number in Sunday School May 21 fell slightly below that of the previous Sunday. We must not go back—blessed us in numerous ways. He has

blessed us in numerous ways. He has sent rain to water the earth, and when we render unto Him our services He will send spiritual blessings. Our time, talents, money and all that we have are not ours, but they, with ourselves, belong to Him. We are only stewards and He is the Master. The time we spend in His house is very little compared to the time we spend in a selfish way.

At the present time Christian people as individuals and churches must take a stand against many evils, or our town and state are going farther away from God and right.

**METHODIST CHURCH**

Be sure to come to Sunday School on time next Sunday, as we will go to the service for the High School graduate at the eleven o'clock hour. We will dismiss in time for you to take your places in the other service.

The regular services will be held at the evening hour. Come and worship with us in the Sunday school and the evening hour.  
Joe E. Boyd, God.

**ASSEMBLY OF GOD CHURCH**

Evangelistic services will be conducted the night of May 25 by Mrs. Frances Whitlock of New Mexico. This will be tonight.

Friday night Rev. N. C. Whitlock will begin a series of lectures or sermons from the Book of Revelations. Subject for Friday night, May 26, will be Rev. 6:1-6—the White, Red and Black horses. Saturday night will be given to the remainder of the 6th Chapter of Revelations.

Saturday afternoon at 3:30 o'clock at street services the 12th Chapter of Revelations will be under consideration.

Sunday morning at 11:00 o'clock a chart lesson will be given on the subject of "Tribulation Period", Rapture of the Saints, New Earth State, and the Lake of Fire. Sunday night will be devoted to the Mark of the Beast, Revelations 13:18.

These are subjects of importance. We are now facing the crisis, we are now living in the fulfillment of the Book of Revelations.

We give a cordial invitation to people of all denominations to attend these services. Our only motive is to get the Gospel to those who need it. A hearty welcome awaits everyone who will come.  
N. C. Whitlock, Pastor.

**ATTENDS SECRETARIES  
CONVENTION**

Fred C. Haile, secretary of the Spur Mutual, returned the last of the week from Dallas where he attended the State Convention of Secretaries of Mutual Insurance Companies. He stated there were about 150 secretaries present. It was their opinion that the death assessment plan is by far better for the benefit of policy holders as a whole if conducted along lines conducive to mutual insurance for which it was organized.

He said that Judge R. L. Daniels, State Commissioner of Insurance, was present and addressed the convention. Judge Daniels stated that a number of insurance companies and associations were operating in Texas that are not authorized by the Insurance Department. He stated people had better investigate these, and that the Better Business Bureau of Dallas will furnish information about any insurance company in Texas.  
The next convention goes to Galveston.

**CARD OF THANKS**

We wish to thank our many friends for their kindness and sympathy during the loss of our son and brother. Especially do we thank Mr. V. V. Parr and the boys of the Pitchfork Ranch for their kind assistance during our hour of sorrow, also, for the lovely floral offering.

SHERIFF'S SALE

STATE OF TEXAS

County of Dickens

By virtue of an order issued out of the Honorable District Court of Dickens County, on the 28th day of March, 1933, by the Clerk thereof, in the case of C. A. Gladish versus W. E. Combs, as maker, and Elmer Combs, C. C. Combs and M. S. Lowe, assumpsors, jointly and severally, No. 1254, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY IN JUNE, A. D. 1933, it being the Sixth day of said month, before the Court House door of said Dickens County, in the City of Dickens, the following described property, to-wit:

Being Lot No. 11, in Block No. 41, in and of the town of Dickens, Dickens County, Texas, as shown on the map and plat of said town of record in the office of the County Clerk of Dickens County, Texas.

Levied on as the property of W. E. Combs, as maker, and Elmer Combs, C. C. Combs and M. S. Lowe, as assumpsors, to satisfy a judgment amounting to \$717.45 in favor of C. A. Gladish and cost of suit.

Given under my hand, this 2nd day of May, 1933.

W. B. ARTHUR, Sheriff.

Construction of the impressive building that will house the General Motors Exhibit at the Century of Progress International Exposition at Chicago this summer has been completed.

Decoration and the installation of some of the heavier exhibits has been started. The exhibit, which is one of the outstanding features of the Exposition, will be ready well in advance of the opening date, June 1.

The General Motors Building is the tallest in the Exposition, its massive 177 foot tower being surpassed only by the piers of one of the amusement devices. The structure also is the largest erected by a private exhibitor. It is expected, however, to arouse more interest because of its unusual architecture than because of its size.

Albert Kahn of Detroit, whose golden-towered Fisher building in his home city and other works have attracted wide attention, was the architect. The structure strikes a new note in the adaptation of ultra modern ideas of form and decoration to the requirements of industrial construction. It was necessary to provide for the utilitarian housing of a complete Chevrolet assembling plant, a little theatre, a gallery of industrial art, research laboratory equipment and display space for products ranging from automobiles and huge Diesel engines to the tiniest of ball bearings, and at the same time present an external appearance in keeping with the striking new type of architecture specified for all buildings by the Exposition management.

The building is in the shape of a rectangle with front corners broadly rounded. It is 454 feet long by 306 feet deep. It lies between Lake Michigan and Lief Erikson Drive at the foot of Thirty-first street. One thousand, one hundred pilings were driven into the "made land" of the Exposition grounds to provide a safe foundation for the mass of steel, concrete, glass and armor ply. The outer walls are almost completely glass. The semi-circular front consists of the fantastically pyloned entrance and eight plate glass bays. Each bay is forty-eight

feet long.

The interior is divided into seven main rooms upon varying levels, dictated by the terrain which slopes down to the lake. The rooms include the large Entrance Salon where paintings, sculpture and other works of artists of international note will be housed, the Chevrolet assembly plant, two enormous automobile show rooms, the accessory display room, the truck display room and a little theatre.

Hundreds of exhibits will portray General Motors' twenty-five years of contribution to progress in industry, science and art. Products of the numerous automotive, household appliances farm and other machinery manufacturing units among the seventy-five companies that make up General Motors will be represented.

Daring use of color is being made in the exterior decoration, the scheme being red, bright orange, red, blue, and silver. Colors are in harmony with the general Exposition scheme worked out by Joseph Urban. By night, the startlin effect will be heightened by lavish use of changing colored flood lights and powerful neon tubes, arranged to give the appearance of iridescence.

We have one of the best cotton classing schools in the Southwest, in fact, we do not know of another school that offers a more complete training in Cotton Classing.

We use the United State Government standard type of samples. At the head of our Cotton Classing Department is a man who was instructor in Cotton Classing in the A. & M. College of Texas for a long while prior

to becoming connected with our school. He knows the handling of cotton from A to Z.

Any young man who thinks he would be interested in the subject of Cotton Classing will be furnished with full information by writing the Tyler Commercial College, Tyler, Texas, and indicating his desire to take up this very interesting work.

Get a 25c box (5 grain size) from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this cleansing and you get your regular sleep. Sold by Gruben Bros.

500 Old Timers Expected At Reunion

Memories of stirring days on the cattle ranges of the old West will be revived when pioneer ranch workers who saw service with lariat and saddle prior to 1898 hold their annual round-up at Stamford during the fourth annual Texas Cowboy Reunion July 3, 4 and 5.

More than 500 of these old time cow hands registered for the meeting last year and were guests of the Reunion management. Total attendance at the 1932 session was estimated at thirty thousand.

The cowboy rodeo, featuring performers actually employed on the ranches rather than professional rodeo performers will be the central feature of the program of entertainment during the Cowboy Reunion. An old fiddlers' contest will be held on one day of the reunion and square dances will be held each night for the entertainment of cowboys and visitors of all ages.

The most typical active cowboy over

55 years of age and the most typical cowboy under 55 will be selected during the reunion and a prize awarded to each. John Selmon of Stamford received this honor last year for the youngest cowhand and Jake Raines of Spur was selected as the most typical among the active cowboys over 55.

As in past year, a number of ranch outfits are expected to bring their own chuck wagons to Stamford for the Reunion and camp at the grounds during the the three-day celebration.

ESPUELA CLUB NEWS

Our club met with Mrs. J. A. Murphy May 18. There were 10 present. The program was on "Looking Our Best." Some of the members gave good talks on this lesson. Something we all ought to know is how to select colors and designs to make us look our best.

Miss Pratt met with us and gave a demonstration on how to cut patterns from our foundation patterns.

The next meeting will be with Mrs. Crockett June 1. We are asking all members to be present at the next meeting. We want to make our dress contest 100 per cent. —Reporter.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

S. J. R. NO. 3

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3 (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favoring vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favoring vote of the resident qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favoring majority of the votes cast within a favoring majority of votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

"(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners' Courts. Further, any such Charter may provide for the organization, re-organization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Judges thereof, may be confined to the jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and/or County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the compensation or service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the

Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices specified), all terms of county officers and all deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(4). Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In case of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5). Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified services to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards therefor be not lower than those fixed by the General Laws of the State.

"(6) a. Subject to the express limitations upon the exercise of the powers of this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by two-thirds vote of the total membership of each House of the Legislature, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provisions therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be provided by law to control such appropriate other governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinafter provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In cases of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those

city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof one county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any amendment thereof) for incorporated cities according to the population, provided that no tax limit of the aggregate taxes which may be levied, assessed and collected hereunder shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"d. Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(7). No provision of this Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favoring majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purpose hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

serially or otherwise, not more than ten (10) years from their date, and said bonds shall be sold for not less than par and accrued interest and no form of commission shall be allowed in any transaction involving said bonds. The proceeds of the sale of such bonds to be used in furnishing relief and work relief to needy and distressed people and in relieving the hardships resulting from unemployment, but to be fairly distributed over the State and upon such terms and conditions as may be provided by law and the Legislature shall make such appropriations as are necessary to pay the interest and principal of such bonds as the same become due. The power hereby granted to the Legislature to issue bonds hereunder is expressly limited to the amount stated and to two years from and after the adoption of this grant of power by the people. Provided that the Legislature shall provide for the payment of the interest and redemption of any bonds issued under the terms hereof from some source other than a tax on real property and the indebtedness as evidenced by such bonds shall never become a charge against or lien upon any property, real or personal, within this State.

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State on the Twenty-sixth day of August, A. D., 1933, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds"; Those voters opposing said amendment shall write or have printed on their ballots, the words: "Against the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas", not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and Amendments thereto.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

H. J. R. NO. 43

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (a), of Section 20, of Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"(a): The manufacture, sale, barter or exchange in the State of Texas of spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication, or any other intoxicant whatever except vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight, (except for medicinal purposes) are each and all hereby prohibited. The Legislature shall enact laws to enforce this Section, and may from time to time prescribe regulations and limitations relative to the manufacture, sale, barter, exchange or possession for sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight; provided the Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct, town or city may, by a majority vote of those voting, determine from time to time whether the sale for beverage purpose of vinous or malt

liquors containing not more than three and two-tenths per cent (3.2%) alcohol by weight shall be prohibited within the prescribed limits; and provided further that in all counties in the State of Texas and in all political subdivisions thereof, wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article 16, of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county or in any such political subdivision thereof, any spirituous, vinous or malt liquors or medicated bitters, capable of producing intoxication or any other intoxicant whatsoever, unless and until a majority of the qualified voters in said county or political subdivision thereof voting in an election held for such purpose shall determine it to be lawful to manufacture, sell, barter and exchange in said county or political subdivision thereof vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcoholic content by weight, and the provision of this subsection shall be self-enacting."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas exempting Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads from State taxes."

Those voters opposing said proposed Amendment shall write or have printed on their ballots the words: "Against the Amendment to the Constitution of the State of Texas exempting Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads from State taxes."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and Amendments thereto.

**FATHER OF MRS. MORRIS DIES**

T. J. Lemon, of Haskell, father of Mrs. Kate Morris of Spur, died at his home Friday evening between eight and nine o'clock. Mrs. Morris has been with her father the past year or more on account of his feeble condition, and she and Frances left Mr. Lemmon sitting on the front porch smoking while they went to attend a school exercise in town. When they returned they found him dead in the bath room. They summoned a physician who stated Mr. Lemmon had

been dead about an hour. It is thought he went to the bath room to take his bath and retire as water was running in the bath tub. Probably he felt faint and sat down on the floor. He was lying stretched out on the floor when found.

Funeral services were held at three o'clock Sunday afternoon in Haskell, Rev. H. C. Gordon, pastor of the First Methodist Church preached the sermon. Interment followed in Haskell cemetery. Among those of Spur who attended the services were: Dr. and Mrs. B. F. Hale, Mr. and Mrs.

H. O. Albin, Mrs. Clifford B. Jones, Mrs. J. C. Keller, Mr. and Mrs. J. L. King, L. N. Ritter, Misses Tomita Slaton, Alice Wright and Vera Shepherd.

Mr. Lemmon, who was about 80 years of age, leaves his five children and a number of grandchildren to mourn his going. The children are: Mrs. T. J. Arbuckle, Raleigh Lemmon, Albert Lemmon, all of Haskell; T. J. Lemmon of Ennis and Mrs. Kate Morris of Spur.

Mrs. Guy Karr is reported on the sick list this week.

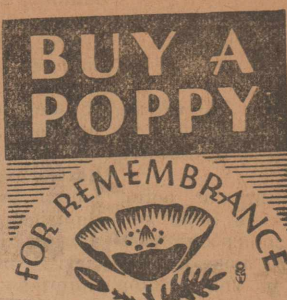

**MAN GETS ARM HURT TUESDAY**

While enroute to Oklahoma Tuesday J. M. Barnett received a painful injury in his left arm. He went under his truck to tighten some bearings, and while he was under the truck his little daughter was on the truck. She accidentally shoved off a drive shaft which hit Mr. Barnett's arm end downward, punching entirely through the fleshy part of the forearm.

Mr. Barnett came to Nichols Sanitarium in Spur where his arm was treated. He stated Wednesday that the wound was getting along fine and he felt that he would be able to continue his journey within a few days. Mrs. Barnett is a cousin to O. D. Blanton here, and they are stopping with Mr. and Mrs. Blanton at this time.

Mrs. Clayton Carter and little daughter, Charlotte, of Lubbock, were visiting friends in our city Wednesday. W. B. Lee, President of the Spur National Bank, and Clifford B. Jones, of S. M. Swenson & Sons, are away this week enjoying a vacation and fishing trip.

Ted Alexander, of Haskell, is in our city this week the guest of his brother and sister, Mr. and Mrs. Henry Alexander.

Loved ones are here today and gone tomorrow. 'Tis little enough we can do in return now by opening our hearts and our purses and buying a poppy.
