"Scandals" At Palace Sunday

Rudy Vallee, Alice Faye and Jimmy Durante Head Stellar Cast

A the Palace Theatre Sunday, Fox Film will have the distinction of presenting the first and only motion picture edition of the famous George White's "Scandals". The entire production was conceived and staged by George White himself. The film is reported to be as elaborate and as spectacular as any of White's previous successes on the Broadway stage. With the advantages offered by recent developments in talking pictures, White was able to produce a film that he says he could not possibly contemplate duplicating on the stage.

When White left for Hollywood, he took with him his staff of song writers, dance directors and technicians. He also transported his gorgeous galaxy of original "Scandals" girls. The staff had been associated with White in his previous successes, and it was from them he anticipated the success that the film is said to be. The song writers, Jack Yellen, Irving Caesar, and Ray Henderson, all hit composers, have created ten melodious songs for this production. The dazzling dances in the eight revue numbers were directed by Georgie Hale, past master at creating ultra-modern routines. Besides the song hits and revues, the film is enriched with fifteen comedy blackouts that give promise of being high points of the production.

Interspersed with the song numbers, revues and blackouts is a romantic story involving the principals of the show. At one time, the romantic threatens to ruin the show, but the clear thinking of the producer, who is George White himself, saves the show and brings happiness to a pair of lovers.

The cast with which White has surrounded himself is large, and is studded with an array of screen, stage and radio personalities. Among the most prominent are Rudy Vallee, Jimmy Durante, Alice Faye, Adrienne Ames, Cliff Edwards and Gregory Ratoff.

Mr. and Mrs. Webber Williams returned the first of the week from South Texas where they had been visiting relatives and friends and enjoying some good fishing and golfing.

Ames, Iowa, Students Visit Spur Experiment Station

A group of 31 from Iowa State College, Ames, Iowa, headed by Professors A. B. Caine, Department of Animal Husbandry, and E. B. Henson, Department of Farm Crops, spent the day at the Spur Experiment Station getting first hand information on cattle feeding and water conservation.

For the past twenty years the Spur Station has been making intensive studies pertaining to the use of West Texas feeds and the information secured has played a big part in the rapid increase in cattle and lamb feeding in Texas.

The group from the Corn Belt entered Texas at Texline and came down through Amarillo and Lubbock. They were seriously impressed with the opportunities for finishing livestock and of a great feeding center springing up on the Plains of Texas.

Sacks of bundle feeds, hay mows full of choice alfalfa hay, and trench silos full of excellent ensilage at the Spur Station impressed the visitors of the opportunities of evading drouths such as now grips the country.

Diverging runoff water from a 1200 acre watershed onto the 350 acres of cultivated land on the Station was another drouth evading measure put into practice by the Spur Station that is very impressive at this time and in which the visitors manifested much interest.

Lunch was served in the Station laboratory after which Clifford B. Jones addressed the group on the splitting up of the large ranches. G. J. Lane, County Agent of Dickens County told them of the progress made in curing and canning of meats in Texas. B. C. Langley, Agronomist of the Spur Station told of the soil and water conservation studies and R. E. Dickson talked on cattle and lamb feeding in Texas.

From Spur, the group, traveling in a big bus, went to San Angelo and on to San Antonio and Brownsville.

Drouth Relief Loan Office Established

There has been established at the Chamber of Commerce Building in Spur an office where applications for Emergency Feed Loans will be received, Field Supervisor D. H. Sandeigh announced today.

Applications for loans will be accepted from farmers and stockmen for the purchase of feed for farm and range livestock and to plant forage crops in Dickens County, which has been designated as emergency drouth area. Miss Gillie Slaton, Committee Clerk, is in charge of the local office and the county committee consists of Geo. S. Link, Chairman, E. S. Lee and S. R. Bowman.

In discussing the regulations the Field Supervisor pointed out that applications can be accepted only from applicants who have no means or other sources of credit enabling them to undertake the production of a forage crop or crops or to purchase feed for their livestock.

Loans will be advanced in monthly installments, with a supplemental application necessary for each month's requirements.

The lien securing the promissory note given will be subject to non-disturbance agreement to be executed by lien holders, if any, who must agree to take no steps to enforce the payment or collection of any claim against the borrower nor dispossess him of any property until January 1, 1936.

Applications must be submitted to the Emergency Crop and Forage Loan Committee for Dickens County in which the applicant's livestock is located or forage crops to be planted.

Praises Small's Clear Stand

TEXARKANA, July 16—Senator Clint Small was endorsed as the candidate for the people who believe in law enforcement and as the man deserving the support of the moral people who are against liquor and gambling by Dr. M. T. Andrews, pastor of the First Baptist Church of Texarkana, who introduced Small to an audience which filled the municipal auditorium and another which gathered around the loud speaker on the lawn.

Dr. Andrews praised Small's courage in opposing gambling and betting on races and for having the courage to declare himself on moral issues. Small flayed Attorney General Allred for condoning gambling and open saloons, declaring Allred's San Antonio headquarters were right next to an elaborate saloon.

—ATTENTION—

To the Voters of Dickens County: It will be impossible for me to make a house to house canvass of the county as I have no way of getting around, and am unable financially to pay someone to take me about. Please don't forget me. I am qualified to fill the office and am prepared to devote my whole time. Your vote and influence will be appreciated by
MRS. HATTIE TURVAN

Westfall Makes Statement to Voters

TO THE VOTERS OF THE 118TH DISTRICT:

I am indeed grateful for the interest manifested in my campaign, and the valuable assistance given me throughout the entire district. This will make the lasting impression on me to redouble my efforts to make the best Representative possible if elected.

I have tried to be fair, and not lead you to think that I am superior to any one else, neither have I advocated impracticable legislation just in order to get your votes. I have respected your intelligence to the extent that I am not going to try to take advantage of any clapp trap methods of winning you to my support, nor try to appeal to your prejudice but have only made my claim on my own merits, and ability to safely represent this district and the State in the lower house of the legislature.

The time allotted me in most of the speaking engagements, does not permit me to discuss all the leading issues that will come before the next legislature, and many of which you are doubtless much concerned about and will mean much to the future welfare of the people of this State.

I will favor any move to protect the Schools, the homes and the churches from legalised influences that tends to make less effective the mission of these great and valuable institutions in the building up of a worthy citizenship and safeguarding our future civilization.

I will favor laws to protect the common masses from unjust methods employed by big interests in trying to monopolise all business and force the small business to quit by unfair methods.

I will favor drastic laws to protect agriculture and give the farmer the rights he justly deserves.

I will favor taking the pardoning power from the Governor and placing it in the hands of a non-political board. Refunding all of the bonded indebtedness voted to building State highways, and paying it out of the gasoline tax. Elimination of many useless and unnecessary boards and commissions and save the public an enormous amount of money paid in taxes for this purpose. Drastic reforms in the penitentiary system to make them more self sustaining. Re-vamping of the constitution of the State in order to bring about drastic and needed changes in our State and your government and save the unnecessary cost of our present system. Sympathetic moves concerning delinquent taxes and our present relief situation. If elected I will take the initiative in these and many other worthwhile moves that to my mind is to the best interest of all concerned, and will not be content to just be a button pusher, but will let myself be known in the house and the press in no uncertain terms on the important issues that vitally effect our future welfare.

My four years experience as County Judge has better qualified me for the office I seek, and if I should be elected I will do everything in my power to give you the service you have a right to expect and justly deserve. As it is impossible for me to see you all in person, let this be my solicitation for your vote and influence in the coming election.

Respectfully,
LEONARD WESTFALL.

CHILD BIT BY BULLDOG TUESDAY

The little child of Mr. and Mrs. Z. W. Fowler at Dickens was knocked down and a few lacerations caused by a large bulldog in the community. The dog was in Mr. Fowler's yard and the baby was playing with him, and at an unexpected moment the dog went into a rage, knocking the child down and caused several tusk marks about the child's face.

The dog belonged to Mr. Edwards who very kindly consented to it being sent away for pasteur examination. Dr. Blackwell supervised the work and it is hoped a report will be secured by the last of the week.

Except for the shock the child was not hurt very much. Medical aid was administered by Dr. Blackwell of Spur and further attention is waiting the report from the Pasteur Institute at Austin.

NOTICE TO VOTERS

It will be observed on the ballot for voting that the name of C. H. McCully appears as a candidate for Constable for Precinct No. 3. I want to state that this name should have been printed C. H. I am asking for a second term as constable and hope I merit your support.

RETURNED FROM THE GREAT NORTHWEST

Mr. and Mrs. Leslie Roberts and two children returned the last of the week from Oregon where they had been visiting the past month. Mr. Roberts stated he had become very much attached to the great Northwest and feels it is a great country. He stated that land can be purchased there at most any price from \$500.00 per acre down. Being questioned in regard to the heat, he stated that it is not as hot there as it is in West Texas, and that should be of interest to all of us. He stated crop conditions are very good and probably Oregon will grow something on which the people may live.

Miss Maggie Bryan, of Matador, was in our city Sunday visiting her niece, Mrs. Jack Barton, who is a patient in the Nichols Sanitarium.

Mr. and Mrs. Ed Cammack, of Matador, were here Sunday visiting their daughter, Mrs. Jack Barton, at the Nichols Sanitarium.

TO THE VOTERS:

I have been doing my best to see all of you before the Primary, but if I don't, just remember I am taking care of those duties you assigned to me two years ago, and I am thinking of you. I want your vote and influence.

W. B. (Bill) ARTHUR (Pol. Adv.)

Who Wants To Go To Short Course?

Who wants to go to Short Course this year? Probably at no other time will you be able to attend the Farmers' Short Course for \$10.00. That amount will cover the total expense including \$1.50 for room, \$4.50 for meals, \$2.00 transportation, and \$2.00 for incidentals. This low rate is possible because the Spur School Board is letting us use one of the school buses which will be driven by Mr. 'Red' Laine. The bus will probably leave Spur Saturday afternoon, July 28 and spend Saturday night in a tourist camp enroute, and complete the trip Sunday. If the start is made Saturday afternoon that will make a slight additional expense.

This is the Silver Anniversary of the Farmers' Short Course at A. and M. College and the program gives promise of being the best of all. Outstanding speakers of the state and nation will bring inspirational messages in the morning session and the afternoon programs are in the form of laboratory courses where the people may really do the things they are learning. Laboratory courses cover a wide range of subjects from making grape juice from wild Texas grapes, and syrup making to making hooked rugs and gloves.

During the same week, July 30-August 3, the Rural Pastors' and Laymen's Conference, County School Superintendents' Conference, Extension Agents' meeting, Bee Keepers' Association, and Texas Agricultural Writers' Conference are all in session at College Station and visitors to the Short Course may attend any of these meetings.

See your local farm or home demonstration agent and enroll with them to attend this short course where you will have a delightful week with hundreds of farm men, women, boys and girls from all over the state. Those planning to attend must leave their room reservation, the \$1.50 mentioned above, with the farm or home agent not later than Monday, July 23rd.

Summary Of Wardrobe Work For The Year

Dickens County has a better percentage of wardrobe demonstrators completing their work this year than in any previous year. Sixteen of the 18 demonstrators finished their work. Of the 12 Class I demonstrators 12 turned in their records, stories, and dresses before the county clothing contest. There were only six Class II demonstrators and four of them completed their work. The Class I demonstrators take an inventory of their clothing the first of August, for the wardrobe year begins then in order to be completed at the Short Course, decide on the amount of money to spend on their clothing for the year and plan that budget to provide her clothing needs. She keeps a record of her clothing expenditures, provides a well-organized clothes closet, and helps her cooperators to achieve their goals. The Class II demonstrators do the same things for each member of her family that the Class I demonstrator does for herself. The county goals for the cooperators this year were to make and exhibit dresses and slips made by their foundation patterns; 73 dresses and as many slips were on exhibit in the contest this month; however, reports show that more than 100 had been made but for various reasons some could not be exhibited.

The demonstrators and cooperators report having fitted 207 foundation patterns this year; 107 of them were for non-club members. This makes a total of 377 foundation patterns in the county made the past two years. Forty-one members built new clothes closets and 27 others improved the ones they had by adding hanging rods, shelves, hat and shoe racks; 67 shoe racks were added. Twenty-seven cooperators kept records of their clothing expenses during the year.

The average expenditure of the Class I demonstrators for clothing for the year ending July 31, was \$60.07 while that of the Class II demonstrators was \$49.35. These same four Class II demonstrators averaged \$33.81 last year. As part of their work each demonstrator must write a story of her work, the following paragraphs are from the stories of demonstrators, others will appear later.

A Clothes Closet Rejoices
"Oh, My! Oh, My! How I do wish some one would come to my rescue. I am in such disorder. My shelves are over loaded and my floor needs sweeping. I need a place to keep my ladies shoes. Wait, I hear someone coming. I do believe it is Miss Pratt and I hear her saying she needs a wardrobe demonstrator for the Soldier Mound home demonstration club. Now, I believe that will solve my problems," sighed the closet of Mrs. I. E. Abernathy, Soldier Mound.
"Yes, I heard my lady promise to be wardrobe demonstrator and of course, that means she will put me in order. First, she unloaded my shelves and arranged everything neatly; then she cleaned the floor and built a shoe shelf," continued the closet. "Having done this it takes so much less time to keep things in place and she can dress quicker then she has more time to help others. She has helped five women cut and fit foundation patterns. She gave a demon-

stration in her club on the new sleeves and other uses of the foundation pattern; she has helped a non-club member plan her wardrobe."
"My lady's clothes look nicer since she is wardrobe demonstrator. Every dress fits exactly right, thanks to her foundation pattern. This year she has planned her buying a little better since she is keeping a record of what she spends for her clothes. I am glad to help her by taking care of her clothes. I hope she is wardrobe demonstrator next year."

Mrs. Abernathy won third place in the recent county clothing contest in the division for the Class I demonstrators. * * *

Demonstrator Builds Clothes Closet
"When I entered the wardrobe demonstration my clothes were hanging on a rod behind the door but now we have built a closet. It is 3 1-4 feet long and 2 1-2 feet deep. It has an upper compartment for bedding. For the hat shelf I made four hat racks of cardboard padded with cotton and covered with hat linings. The shoe rack holds four pairs of shoes. I have a stocking bag on the door. Of course the closet has a hanging rod for hangers. The frame for the closet is made of scrap lumber and the walls of cardboard boxes. Materials for door facing, and varnish for finishing same, and small hinges for hanging the door cost me .95 and that was the only expense for the closet," reports Miss Minnie Fae McMeans, of Twin Wells club, and winner of second place in the contest

for Class I demonstrators. "My clothes are in much better condition and are always ready to go now that we have a closet for them. It is easy to keep everything in place now."

AMERICA'S GREAT TRUCK VALUE
The FORD V-8 alone offers all these 5 important truck features

NEW 80-H.P. V-8 ENGINE... Simple, trouble free... with power, speed, ruggedness for heaviest jobs—plus 4-cylinder operating economy.

FULL-FLOATING REAR AXLE... Assurance of long, trouble-free service. Housings, not axle, carries load. Shaft removable without jacking up.

DUAL DOWN-DRAFT CARBURETION... increases gasoline economy. Gives smoother operation, less dilution of crankcase oil.

AFTER NORMAL LIFE... you can turn in engine at dealer and for \$49.50 (F. O. B. Paris Branch), have a factory reconditioned engine installed.

SPECIAL FINISH... Only truck with this new baked enamel finish. Wide variety of colors. Gives long-wearing beauty.

THE Ford V-8 is as low in price as any truck you can buy today.
But think how much more than first-cost saving it offers you. Think of the exclusive combination of features shown above. Think of the power of this rugged, 80-horsepower V-8. Then look into gas and oil costs. They're at new "lows"—both of them. Look into upkeep. Truck-built throughout, the new Ford V-8 will "take" punishment that used to mean the repair shop... and "take" it again and again for thousands of miles.
But talk to Ford V-8 users themselves. They'll tell you a story of performance and economy that sounds like high-priced trucking... instead of the lowest-priced you can get!

THINGS YOU MAY NOT KNOW ABOUT YOUR TELEPHONE

THE MEN who aided Alexander Graham Bell in the invention of the telephone are perpetuated today in many of the policies, and even in the form of organization, of your telephone service.

 Bell himself, the young inventor... today his place is taken by Bell Telephone Laboratories, with its countless improvements to the telephone art.

 Thomas A. Watson, making with his own hands the first telephones... today his place is filled by the great shops of Western Electric Co., which supplies at a saving the materials needed in the Bell System.

 Gardiner G. Hubbard, first business adviser of the infant telephone industry... and today the American Telephone and Telegraph Co., parent organization of the Bell System... whose staff members develop more economical operating methods for the 24 Bell associated companies... whose financing facilities make available, at a saving, funds for necessary extensions to telephone lines and equipment.

In an undertaking planned like the telephone service for the long pull, what is best for the telephone user becomes in the end the course that should bring the surer, more enduring success. For more than 50 years, the savings from the specialized telephone organization these men created have gone to give good telephone service at fair cost to the user.

HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, pills, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores. Refuse "something just as good" for it may grip, loosen teeth or scald rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. © 1933, C. M. Co.
