

A WEST TEXAS PAPER FOR WEST TEXAS PEOPLE

Hickens Co. Times

VOLUME 11

SPUR, DICKENS COUNTY, TEXAS, THURSDAY, MARCH 28, 1935

WHOLE NUMBER 505

Work On Highway 18 Started Monday

Grading on Highway 18 was started Monday about nine o'clock. The first work is at the Wilson Draw Lake where a high grade must be made and while the lake is dry the work is being pushed with all speed. The culvert and other concrete work will be started within a few days.

There will be a bridge across a portion of this lake and the contract for this will be let within a few days. Also, there will be another bridge across Duck Creek which will be contracted the last of the week. The Times carries the advertising for bids on these projects this week.

This new road work will furnish much work for the unemployed, and all persons who want to enjoy a good honest job can secure work by applying through the local relief office. Good wages are being paid and those employed are expected to do a good days work. On all projects the individual is restricted to 30 hours work per week and the wage scale is from 40 cents per hour to \$1.00 per hour. This will mean work for unemployed for many weeks.

Must Register Cars This Week

This is the last week that owners of cars and trucks will have to register such and get their registration fee paid. If cars and trucks go over until next week without being registered there will be a penalty added. Persons driving their automobiles next week without being registered will be violating the registration laws and will be subject to fine.

The registrar reports that fewer than 500 cars have been registered to date. It seems there will be a great number of cars to be registered within the next two or three days if all cars in the county are registered.

G. W. BENNETT FOR CO. TRUSTEE AT LARGE

Friends are asking the people of the county to vote for G. W. Bennett, of Elton, for the office of County Trustee at Large. Mr. Bennett is a taxpayer of the county and is interested from that viewpoint. Also, he has spent several years in school work as a teacher and understands school business. Mr. Bennett is interested in the schools of Dickens County and will serve efficiently on the County Board if elected. No names will be on the ticket and his name will have to be written in.

Rotarians. At Post Entertain Old Settlers

The Rotarians at Post held an Old Settlers' meeting at their Club Tuesday night of this week. This is an annual affair with the Rotarians at Post and they made it a very elaborate affair at this time.

The meeting was held on the second floor of the Double-U Building where the old time fire wagon was used with its spacious chuck box and tin plates. The ladies of the Methodist Church of Post supervised the dinner which was served in the old chuck wagon style around a glowing wood fire and other pioneer fare.

Jay Slaughter, president of the Post Rotary Club, acted as master of ceremonies and made a short address of welcome. The pastor of the Methodist Church gave the invocation and then everybody got busy with a tin plate, knives and forks. Guests registered at the Greenfield Hardware which with the Davis-Mason Furniture store was designated headquarters until the dinner hour.

A number of people from Spur county were guests at the meeting. Among these were: W. R. Stafford, John M. Jackson of Roaring Springs, Al Bingham, Mr. and Mrs. W. W. Ellis, Jim Gilmore, Fred C. Haile and others.

There were 114 registered for the occasion. Each guest was tagged with a badge, the lower part of which was represented by a bronze chuck wagon and the upper part had the date, March 26, 1935. All present say it was a great event.

A number of people of Lubbock were present among whom were Neil H. Wright and Ross Edwards with his Cowhand Orchestra.

GOES TO THALIA NEXT WEEK

G. Earle Woods, local minister for the Church of Christ, has been asked to do the preaching for a revival meeting at Thalia next week. Mr. Woods will fill his pulpit here at all services Sunday and will go to Thalia Monday where he will remain eight or ten days in the revival.

The church at Thalia and the church at Spur are just exchanging ministers for the revival work. The minister at Thalia will hold the revival for the Church in Spur sometime during the summer.

Mr. and Mrs. Herbert Browder, of Lubbock, were visiting Mr. and Mrs. J. C. Payne Sunday.

J. Vernon Powell, of Highway community, was attending to business in Spur Monday.

Geo. L. Dobbs, of Dickens, was attending to business affairs here Saturday.

CALIFORNIA PERFUME CO. (Aven Products). Best on market. See Homer Cagle.

Experiment Station Gets Office Building

This week Superintendent R. E. Dickson and his helpers are very busy arranging a new office building at the Spur Experiment Station. This was greatly needed and is being done at a minimum cost.

It seems that this new office building has been in the plans of the station superintendent for sometime as most of the yard plans have been carried out. Shrubbery has been planted, the yard in front of the office is beautifully decorated with a cactus lay-out and at the rear of the building is a brack ground of salt cedars. Drive ways have been planned and to the west of the grounds is a beautiful hedge of evergreens.

The new building has a basement 14 by 34 feet, walls of concrete extending above the ground and serving as the foundation of the main building. Just what this basement will be used for has not been determined, but it will be sufficient to house many cabinets where useful files may be made and information stored until needed. A number of half size windows give sufficient light and ventilation until this room may be used for any purpose needed.

The main office building is 14 by 34 feet and one story from the foundation. It is a frame structure and will be painted and properly finished on the exterior and interior.

At the front of the office building will be a porch of reasonable size, 10 by 16 feet. The foundation under the porch is being set with petrified trees as ornaments, making the appearance very beautiful. Just who will enjoy the late afternoons on this porch is part of the program to be worked out later.

The new office building is adding dignity to the appearance of the experiment station, and it is being acquired with but little expense since the local help are doing their part of the work.

Complete School Census April 1st

J. R. Laine, census taker for the Spur Independent School District, has completed the census of the district for all scholastics enumerated on the census rolls for the 1935-36 term.

All children between the ages of six and seventeen inclusive, on or before September 1, 1935, are supposed to be enumerated on this roll. Mr. Laine requests that if he has missed any children to please notify him immediately as this roll should be completed by April 1.

It appears that the number of white children in the district will approach the 800 mark, and there are 100 colored children which will make a total of over 900 for next session. The co-operation of all patrons in getting this roll correct will be highly appreciated.

Spur Merchants Attend Lubbock Show

All that is to be the peak in styles of new merchandise as was exhibited at the Semi-Annual Market Week in Lubbock Sunday, Monday and Tuesday will be brought to Spur stores. A number of local merchants went to Lubbock where they spent the first of the week and took in all that is new on the market and attended the style shows which are supposed to exhibit all that is new. Spur stores will not be lacking in new styles as was shown there.

Among those attending from Spur were: Mr. and Mrs. M. C. Golding, Mr. and Mrs. Henry Alexander, Mr. and Mrs. George Gabriel, Mr. and Mrs. Dick Speer, Misses Sadie Gabriel and Mildred Williams, Mrs. J. L. Rosamond, T. C. Ensey and Carl Proctor.

ONE MAN HELD FOR GROCERY STORE ROBBERY

One man has been taken into custody and incarcerated in the county jail at Dickens in connection with the robbery of the New Deal Grocery March 16. Just what weight the evidence collected will have on the minds of the grand jury in session is not yet known. It is thought the evidence is sufficient to be conclusive.

Finger prints and other evidence of guilt will be placed before the court. There is another party connected with the robbery which the Sheriff's Department will take into custody just as soon as the grand jury acts on the case.

UNDERGOES OPERATION AT PAMPA THURSDAY

Miss Winnie Sparks, daughter of Mr. and Mrs. J. E. Sparks, underwent an appendicitis operation at Pampa Thursday, and is reported at this time to be improving rapidly. Miss Sparks is a senior in the Pampa High School, and is also employed in the home of Mrs. Arvis Talley. Her work in school has been so thorough that she will be graduated with her class in spite of her illness and absence from classes.

Mr. and Mrs. Sparks and J. Vernon Powell returned to Spur Saturday after spending several days in Pampa.

G. H. Snider and Mrs. Netha Campbell and little son, Sharrad, returned Sunday from a visit in Washington, D. C. and also in Louisiana with Grate Snider. Mrs. Snider remained in Guntersville a few days to be with her mother.

Seed Loans Being Taken Now

Applications for Seed Loans are being taken for Dickens County by Gillie Slaton, Committee Clerk at the Chamber of Commerce building in Spur. These loans are for non-relief farmers only, and are from a special fund made available by the Federal Emergency Relief Administration for seed for spring planting of truck, forage, and commercial crops.

These funds have been made available to meet the emergency created by lack of funds of the Emergency Crop and Feed Loan Section of the Farm Credit Administration, and will be discontinued when, and if, that office makes crop loans.

No loans will be made to farmers who are able to obtain credit locally or elsewhere.

The same County Loan Committee will serve this loan that has heretofore functioned for the Crop Loan Office.

The farmer who is on relief receives the necessary funds to finance his crop through Dale S. Campbell, Rural Supervisor, who has an office at the Relief Headquarters in Spur.

Crop mortgages, non-disturbance agreements on workstock, and crop waivers are necessary in all cases.

This loan is to permit immediate planting of food, feed, and commercial crops.

City Election Next Tuesday

Election for the purpose of electing a Mayor, Water Commissioner and Street Commissioner for the City of Spur will be held next Tuesday. All of the present City Commission will be on the ticket for re-election and the present Mayor, Judge E. J. Cowan, has no opposition as Carl Proctor has withdrawn from the race and is asking the voters not to consider him as a candidate.

J. P. Carson, who is serving his first term as Water Commissioner has opposition, C. P. Ensey having been announced. W. M. Hazel is opposed for the office of Street Commissioner by G. H. Snider.

All persons living within the city limits of Spur and who are qualified to vote in any state or county election are eligible to vote in the city election next Tuesday. A person must be 21 years of age and must have paid their poll tax last January in order to vote unless said person has become 21 years of age since the first day of January, 1934, in which event they are supposed to have an exemption from the County Tax Collector.

Plains Museum Society Meets At Lubbock Fri.

The Plains Museum society will hold its sixth annual meeting at Texas Technological College March 29, afternoon and night. Sessions will be held in the Engineering auditorium. Prof. Gus L. Ford, head of the history department at Tech, is president of the society.

"A Study of Population in Northwest Texas" will be the subject of the speaker's address in the afternoon. Prof. L. F. Sheffy, head of history department of West Texas State Teachers College at Canyon, will talk in the afternoon on "Problems of Collecting Museum Pieces."

The night program will feature addresses by two members of the Tech Yaqui expedition. Prof. W. C. Holden will talk on "Yaqui Social Practices," and W. G. McMillan will discuss "Yaqui Architecture," and illustrate his lecture with drawings. Professor Holden will make formal presentation of the relics obtained on the Yaqui trip to the society.

The annual art exhibit will be held in the Engineering auditorium with entries from artists over the entire plains region. Awards of two cash prizes and three honorable mentions will be made at the night meeting.

Persons throughout the plains section are being urged by President Ford to attend and become members of the society. A special invitation is issued to editors of the South Plains.

Between the afternoon and night sessions out-of-town members will be entertained with a dinner by the Lubbock members at the new college dormitory for girls.

CLEAN COOL CREAM DELIVERED OFTEN WILL MAKE BETTER PRICES

An efficient man of keeping cream utensils clean and sweet. Sunlight is a most economical drying agent. Plenty of hot water. Washing water and brush should be used after each use. Rinse with cold water, then cold water before using.

SINGING CONVENTION ENTERTAINED AT DICKENS

The next all day singing for the Dickens County Singing Convention will be held at Dickens Sunday, April 7. The program will start in the morning and continue throughout the day. Dinner will be served at the noon hour. Everybody is extended an invitation to bring their song books and a well-filled dinner basket for the occasion and enjoy the day. Several out of county singers are expected.

Fat Calf Show Here Saturday

Members of the boys 4-H Clubs of Dickens County and the Vocational Agriculture boys of Spur school and Patton Springs school will hold their Fat Calf Show in Spur Saturday afternoon. The 4-H club boys, who are under the supervision of Wm. W. Gregory, will have five very fine calves in the show. The Spur boys will have twelve good calves and the Patton Springs boys will have one calf and some fat pigs in the show.

The calves will be exhibited on the lot just south of the Palace Theatre Saturday afternoon and then will be loaded out and taken to Lubbock where they will be entered in the South Plains Fat Calf and Pig Show Monday. Dickens County will have a big entry in the show at Lubbock, and in former years the boys of this county have made good showings with their calves.

The calves and pigs will be sold at the calf sale in Lubbock next Tuesday. Each boy in the project is required to keep a record of his expenses in caring for his calf, and so far all boys have made money in the project. The calves were bought one year ago when they were only a week to ten days old at \$25.00 per head. All feeding expenses in addition to the purchase price are tabulated and the report is sent in to the Lubbock show.

C. B. Middleton, supervisor of Vocational Agriculture, is in charge of the Spur boys. Mr. Arthur, of the Vocational Agriculture Department of Patton Springs school, directed the feeding work of the boys there. It is the plan of all concerned to extend this work for another year to include many pigs and sheep in addition to calves.

Judges for the show here Saturday have not been named, but there will be competent judging made.

Jayton Theatre Presents New Musicale Picture

The Palace Theatre at Jayton is featuring a very popular show next Sunday and Monday in which Dick Powell, Ruby Kelley and Pat O'Brien are featured in a West Point cadet corps. The Palace at Jayton will run a preview of this picture Saturday night at 10:30, a matinee Sunday afternoon at 2:30 and another show Monday night at 7:30 and 9:00 o'clock. The name of the picture is "Efficiency Walk", a military musical, and the management assures you a good show.

Temple To Entertain Brazos Project Meet

Approximately 250 representatives from various sections of the Brazos Valley watershed will meet at Temple Friday night, March 29, for reports from engineers who have been in Washington, working on the Brazos project. A meeting of the board of directors of the Brazos Conservation and Reclamation District is likely to be held at the time, and John Norris, chairman of the state board of water engineers, will give a detailed discussion of the work as it stands at present. Henry Dunlavy, who has been in Washington, with Norris, and A. Graham Streiff, state board of water engineers consultant, will report on his activities as representative of Lewis Mims, president of the Brazos board of directors.

A large banquet will be staged at a Temple hotel. Plans for pushing the Brazos project hereafter will be made at the meeting, which will be attended by various legislators, directors of the Brazos project, and interested citizens of the watershed.

Among those invited are Governor Allred, Lieutenant-Governor Woodall, Attorney-General Bill McCraw.

More Blanks For Farmers To Sign

A new supply of blanks have been received in order that farmers may sign for cotton acreage reduction. The supply of blanks ran short for a few days. It is hoped that farmers will see their committeeman and will sign up this week as the time is drawing near to a close and there are many more farmers signing up this year than signed last year. It is expected that about 1,100 farmers will sign acreage reduction contracts this year in Dickens County. There were a few more than 800 last year.

Wm. W. Gregory, who is in charge of this work, stated this week that he expects to send 100 farmer to the quarters for checking purposes at once. The object of this is to see that everything is all right and save delay to farmers in getting their party checks at the proper time. Mr. Gregory stated that they are in the big middle of the work and that everything is going nicely.

AAA Meeting Held In Spur Friday

W. H. Darrow, Southwestern States manager for the Agricultural Adjustment Administration, conducted a discussion of plans for betterment of the farming industry here Friday morning. Mr. Darrow stated that it was his purpose to tell the farmers of Dickens County what should be done, but it is the intention of the government to get the farmers' viewpoint relative to conditions.

Mr. Darrow started the meeting, which was held in the auditorium of the Palace Theatre, with a series of skillful questions, and some farmer had an answer for every question asked. Some of the questions led the discussion as to what is the cause of present conditions on the farm. Some answered that the farmer has not had equal opportunities with other industries. Others answered that high tariffs and money loans after the War had caused America to lose the exports of cotton. Some stated that the machine age versus the horses and mules was partially the cause and gave some good reasons why this is the condition.

Among other causes for the depressed condition of the farming industry in this country is that other countries are becoming competitors to the American farmers. Mexico, Brazil, Russia and India where cotton was not grown in former years are now furnishing much of the cotton supply of the world. Another great feature brought out was that after the war the farming acreage in America was greatly increased due largely to improved machinery which enabled one farmer to cultivate more acreage at less cost.

One farmer, who seemed to be a student of the situation along with others stated there are 30,000,000 acres of farming land in America that once produced cotton and other products which were sold abroad and that trade is now lost to the farmers because of the attitude various American industries hold toward other countries.

Then came the question: "How to improve the condition?"

One farmer answered that one way would be to have more farms and more tillers and each farmer to grow what he needs at home. Another farmer stated that it is up to American farmers to get our foreign trade back by lowering tariff rates, and then for America to buy some merchandise from foreign countries. In other words for America to again become a trading nation. Then the question was asked, "Where shall tariff reduction begin? Shall the sheep grower say to reduce the tariff on wool, and the cattlemen say to reduce tariff on cattle and cut the price on these two ranch products?"

Then another question was asked by a farmer, "How many tariffs have we today that are purely for the benefit of agricultural products?" This question was referred to Mrs. Minnie Fisher Cunningham who said, "Not one." She stated that Mr. Hearst who owns cattle in Old Mexico can ship his cattle to Texas ranches for feeding purposes and then after that can sell them on American markets without violating the tariff on cattle. She stated that every tariff for farm products has a joker in it and the farmer thinks he is being protected, but is not. Congress and other business know that the farmer knows nothing about protective tariff and for that reason he is taken advantage of. Mrs. Cunningham stated what is true of cattle is also true of Canadian wheat in which case a bond is filed for certain privileges to be carried out.

Then she stated that the origin of a protective tariff started with Alexander Hamilton who was an aristocrat who believed there should be a wealthy class to rule the country, and the best way to create a wealthy class was to protect them. Hence, the protective tariff started. It was not intended for the farming industry and hence every tariff passed for the farmer has been a camouflage.

R. H. Bush, Special Agricultural Agent, was asked to tell what he learned in Washington recently. He stated he was with the Senate Agricultural Committee who called Secretary Wallace before them to give them a solution of the problem. He stated that Mr. Wallace could offer no solution. Then Secretary Hull, of the department of state, was called into conference. Mr. Hull told the committee that it was through negligence of the Senate to approve the

Methodist Revival Starts Sunday

The spring revival meeting will begin at the Spur Methodist Church next Sunday morning. Rev. W. G. Bailey, pastor of St. Paul's Methodist Church at Stamford, will do the preaching. The Rev. Mr. Bailey is one of the outstanding preachers of the Northwest Texas Conference, having served as pastor of the Big Spring and Plainview churches in recent years. He will be here eight days, March 31 through April 7.

Willie Beat Culwell, known to be one of the very best choir leaders in Texas, will lead the choir and do solo work. For fifteen years Mr. Culwell was an evangelistic singer for the leading evangelists of the South. Recently he has become a pastor. The church feels that they are fortunate to secure his services.

The officials of the church have planned the revival for a number of months and are looking for a record attendance at the services, especially the morning services. The week day morning services will be sponsored by different organizations of the church as a special feature.

The pastor, Rev. E. L. Yeats, recently stated that the attitude of both officials and members of the church was most encouraging and he predicted great results. A recent letter from the Rev. Mr. Bailey reveals that he is looking forward to the meeting with great expectancy, and urges that every preparation on the part of the local church be made long before his coming.

The services will be held in the church both morning and evening.

Three More Men Suggested For School Trustees

This week the Times has been asked to place the names of three more good citizens before the voters of Spur Independent School District as members of the Board of Trustees. These men suggested are A. B. Hogan, Jno. A. Moore and Albert Power. All of these are capable men who have an interest in good schools and will do good work on the board if elected.

The election for school trustees for Spur Schools and all other schools in the county is the first Saturday in April, the same being the sixth day. Names of persons for trustees must be presented to the board by petition at least five days before the election day.

MRS. CROUCH OPENS NEW BUSINESS

Mrs. C. J. Crouch has opened a new grocery store just north of Englemann Truck & Tractor Company on Burlington Avenue. Mr. Crouch had his barber shop in the building for quite a while and then moved into the building formerly occupied by Hale's Grocery.

Mrs. Crouch carries a stock of fruits, candies, cold drinks and groceries. She says she has been doing a very nice business the ten days she has been in business.

GETS BACK TO SPUR AGAIN

J. H. Roberts, representative of the Keel Mill & Elevator Company of Wichita Falls, was in our city Wednesday talking the merits of Carnation and Belle of Vernon flours. These are Texas products and Mr. Roberts takes much pleasure in telling the people about them. While here he paid the Times office a visit and informed us that Bryan-Link Company is now headquarters for Carnation flour as retailers.

Proctor Withdraws From Mayor Race

Carl Proctor has asked that the voters not consider him a candidate for the office of Mayor for the City of Spur. He wishes to thank those who have given him consideration, but on account of business reasons could not give the office the time needed if he should be elected.

C. J. Offield, of Prairie Chapel Community, was transacting business here Tuesday.

World Court plan which the President had asked to be done. This cut out Mr. Hull's opportunity to trade American cotton for foreign products not produced in this country. Mr. Hull stated that he had secured four trade exchanges, that Germany wanted American cotton in exchange for nitrates, and other countries had similar trade exchanges which they wanted to make. But it seems to be the policy of the Senate to shut out the rest of the world and America to live by herself.

In the last analysis it seems that tariff revision is the only means of bringing back American export trade in cotton. Just when it will start is not known, but many of the farmers present at the meeting Friday felt that it will have to be done soon or American farmers will have to confine their production to the supply of home consumption.

Visitors present for the meeting were: W. H. Darrow, Southwestern Administrator for AAA; Mrs. Cunningham, Extension Editor; R. H. Bush, special Agricultural Agent for West Texas; O. G. Tomlinson of College Station, District Agricultural Agent; Miss Lida Cooper, District Home Demonstration Agent.

CLEANLINESS IN HANDLING MILK AND CREAM

By
BYRON A. BASSEL

State Department of Agriculture
J. E. McDonald, Commissioner

The importance of keeping all food products as clean as possible is universally recognized, and this applies particularly to milk and cream, as either of these affords one of the best media for the development of bacteria, or germs, which are ever present in the milk. For that reason it is absolutely essential that any utensil or receptacle which is used in handling milk be absolutely clean.

All utensils such as milk pail, strainer, separator, and holding can should be thoroughly cleaned after EACH use with a stiff bristle brush and an alkali washing powder. Soap and/or rags should never be used on a piece of dairy equipment, as they will inevitably leave a "dish rag" flavor and odor. The soap forms a greasy film on all of the utensils and this film will give an off flavor to the milk which is placed in that utensil. Rags used either by themselves, or with soap soon develop an old and rancid smell, and when used for wiping the pieces of equipment leave that particular odor thereon. After scrubbing with brush and washing powder a plentiful use of boiling water is necessary to finish the cleaning and to insure sterilization. After using boiling water the cans, pails, etc., should be stored upside down in the sun, but protected from dust, dirt, etc., because the sun is a good steriliz-

ing agent. Then before using any of the equipment again it should be rinsed with cold water to remove any dust which might have settled in it.

In the above paragraph the strainer was mentioned, and should have further discussion. The best type of strainer to use is the one with perforated bottom using a cotton disc for the filtering surface. These discs should be used but once and discarded, thus obviating the use of a rag which is used over and over again. Rags should never be used for straining because they do not filter efficiently, and because it is extremely difficult to wash and sterilize them. These cotton pads for use with the type of strainer mentioned above cost but very little, approximately 1-3 of a cent apiece, and the strainer itself is available at a cost of around \$1.00. Considering the small cost, and the amount of good which it will do, it should be in use on every dairy farm in the state. There are a few pieces of equipment which we recommend to be used, and this is one of them, as it will go further in insuring high quality milk and cream than any other.

In cleaning the separator it is important that the separator be taken down and every part scrubbed with the brush and washing powder and then scalded with boiling water. The cleaning of the separator is very important for two reasons: first, an unclean separator will not separate efficiently causing a loss of fat in the skimmed milk; second, the bacteria in the cream and milk which was left from the previous skimming will have developed to the point of causing a bad off flavor and odor, and of contaminating the fresh milk and cream which passes through. Therefore, you are losing money in two ways by skimming in an unclean separator—by the loss of fat in the skim milk, and by the lower quality product caused by off flavors and gross contamination with bacteria.

In considering cleanliness of equipment the physical condition of that equipment should not be overlooked. Utensils or cans having rough or corroded surfaces should not be used as it is impossible to completely clean these rough surfaces. Also, all seams in the utensils should be flush, that is, the seams should be filled with solder so that a crevice will not exist which will hide particles of milk or moisture containing bacteria. It is important that all pieces of equipment afford a smooth surface which can be easily and completely cleaned. The next article of this series will discuss cooling of cream on the farm and will appear in this paper in the near future.

SHERIFF'S SALE

STATE OF TEXAS
County of Dickens
By virtue of an order of sale issued out of the Honorable District Court of Bell County, on the 22nd day of January, 1935, by the Clerk thereof, in the case of H. C. LA SALLE THOUGHT THE OHIO RIVER WENT TO CHINA. HE STARTED FOR PEKIN BUT GOT NO FARTHER THAN LOUISVILLE, KY.

HE FOUND THE MISSISSIPPI AND FLOATED DOWN IT IN 1492 AND 1493.

I CALL THIS LAND LOUISIANA IN HONOR OF OUR SOVEREIGN LOUIS XIV OF FRANCE. ON APRIL 19, 1682 HE REACHED THE MOUTH OF THE MISSISSIPPI AND CLAIMED THE NEW WORLD.

TEXAS HISTORY ORIGINATED IN WACO IN 1887. NOW ENJOYED BY MILLIONS IN 18 STATES. AT 10-2 & 4 O'CLOCK

Sponsored by Dr. Pepper

CONTRACTORS NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 684.0 feet of Two Duck Creek and Wilson Draw Bridges Located between 2 and 5 Miles Southeast of Spur, on Highway No. 18, covered by U. S. Public Works Highway Project No. NRH 34-A (1935), in Dickens County, will be received at the State Highway Department, Austin, Texas, until 9:00 A. M. March 29th, 1935, and then publicly opened and read.

The attention of the bidders is directed to the required special provisions covering, subletting or assigning the contract, the use of domestic materials, the selection of labor, hours and conditions of employment, and hand labor methods.

Except as otherwise specified, the minimum wages paid to all laborers, workmen or mechanics employed on this contract shall be one (\$1.00) Dollar per hour for "Skilled Labor", Fifty (50c) Cents per hour for "Intermediate Grade Labor", and Forty (40c) Cents per hour for "Unskilled Labor".

Attention is directed to the special provisions, included in the proposal to insure compliance with the requirement of House Bill No. 54 of the Forty Third Legislature of the State of Texas.

***Prevailing Minimum**
Per Diem Wage Prevailing Minimum
(Based on a Five (5) Hourly Wage Rate
Hour Working Day).

Type of Laborer, Workman or Mechanic	Per Diem Wage	Prevailing Minimum
Skilled Labor	\$5.00	\$1.00
Intermediate Grade Labor	2.50	.50
Unskilled Labor	2.00	.40

For the classification of particular positions under the above types of Laborers, Workmen, or Mechanics, see the Approved Required Special Provisions.

*The above prevailing minimum wage rates shall govern on this contract. Overtime and legal holiday work shall be paid for at the regular governing rates.

A certificate of Code compliance on the prescribed form which will be furnished for that purpose shall be signed and submitted by all bidders, in accordance with Executive Order No. 6646, issued by the President on March 14, 1934. Only bids accompanied by such certificate shall be considered or accepted. The contractor to whom award is made shall require subcontractors and dealers furnishing equipment, materials, and supplies to sign similar certificates before making awards to or purchases from such subcontractors or dealers, copies of which shall be furnished to the contracting officer.

A local employment agency from which the Contractor shall obtain employment list will be designated prior to the award or contract. Plans and specifications available at the office of E. W. Mars, Resident Engineer, Spur, Texas, and State Highway Department, Austin. Usual rights reserved.

PEACEFUL HILL SCHOOL NEWS

Who said, "Advertising in the paper did not help? What this whole world needs is more of these 'friendly get-togethers.'"

On the night of March 14, at 7:30 o'clock, a Parent-Teachers meeting was held at the Peaceful Hill School. This is the fourth of these meetings since the organization. Last month only 10 members were present, so we sent an appeal to the parents and other adults interested in our schools, through the local papers for the community folks to please come out and be sociable. This last meeting there were 33 people present, this including 17 adults.

A forty-five minute program was enjoyed after a short business session. Subjects of interest were discussed.

After the final number on program everyone put themselves on a committee of one to rise or sit and speak to his or her neighbor. My! How everyone enjoyed this! Folks laughing and talking, some about raising dogs, others about the rain we're having so much of lately. No one went dashing out like some people do sometimes when church breaks, and they try to beat the preacher to the door so they won't have to shake hands with him; but instead we just all milled around and enjoyed everybody.

If a little rain and advertising can do this, let's pray for more advertising and bigger rains. —Reporter.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows:

Senior stock clerk, \$1,800 a year, stock clerk, \$1,620, departmental service, Washington, D. C.

ORDER OF TRUSTEE ELECTION AND NOTICE, MARCH 11, 1935

BE IT ORDERED BY THE BOARD OF TRUSTEES OF Spur Independent School District that an election be held at the Director's Room of the Spur Security Bank, in the Town of Spur in said Spur Independent School District on the 6th day of April, 1935, for the purpose of electing Three School Trustees for said Spur Independent School District.

Jack Mecum and two others, being three qualified voters of said district, are hereby appointed to hold said election in the manner prescribed by law.

The returns of said election shall be made within five days to the Board of Trustees of Spur Independent School District in accordance with law.

This order, signed by the president and attested by the secretary of this board, shall serve as proper notice of said election, and the president shall cause three of such notices to be posted in three different public places in said Spur Independent School District twenty days prior to date of said election.

In Testimony whereof, witness the signatures of the President and Secretary of said Spur Independent School District and the seal thereof hereunto affixed, this 11th day of March, 1935.

A. M. WALKER, President Spur Independent School District.
ATTEST: M. D. IVEY, Secretary.

Mrs. Hall Pendleton and little daughter, Julia Ann, returned to their home in Borger Thursday after a two weeks' visit here with their mother and grandmother, Mrs. Callie Denson.

**WAKE UP YOUR
LIVER BILE—
WITHOUT CALOMEL**

And You'll Jump Out of Bed in
the Morning Rarin' to Go

If you feel sour and rank and the world looks punk, don't waste a lot of salt, cathartics, water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels and blows up your stomach. You have a bloated, bad taste and your mouth feels like often breaks out in blisters. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful medicines, gentle vegetable extracts, unsparing when it comes to making the bile flow freely.

Get don't get for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. There is no other name. Beware of cheap imitations. ©1931 C.M.C.

WHITE FABRIC GLOVES . . . novelty trims, quality economically priced 59c to \$1.00

**We Feature
GOSSARD FOUNDATION GARMENTS**

A TIP TO THE NEW TREND!

**Start Your Spring Ensemble With the
FOUNDATION**

A beautiful building is started with the foundation, so it should be with the beautiful lady—suppose your figure is a little out of shape, merely putting on a lovely Dress does not correct the shapeless figure . . . it takes a FOUNDATION GARMENT.

Even If You Make Your Own Clothes

. . . you cannot possibly wear them as prettily as if you wore a FOUNDATION GARMENT, to hold your bust at least one to one and half inches higher than usual and to draw your waist line down to its proportioned size.

**Perfection Of War
Weapons Emboldens
Hitler To Defy Treaty**

Hitler's declaration that Germany will re-arm to the hilt, in open defiance of the Versailles Treaty terms, assumes greater significance with the report that Germany has perfected an array of deadly war machines capable of disabling enemy guns, bombarding enemy cities 200 miles away, and

shooting down opposing airplanes. Wythe Williams, receiving this information via the "grapevine route" or underground spy service, from a military attaché stationed in Berlin, writes in Liberty Magazine this week that German scientists have been working for fifteen years on these weapons in order to offset the armament restrictions placed on Germany at the close of the World War.

German factories are already producing a new Rotative Gun in the Krupp factories that will shot thou-

sands of rounds of ammunition a minute, while foundations for rocket sending stations have been built all along the French border. These rockets, Mr. Williams writes, "have a range of 200 miles, can be controlled from the sending station to drop on cities, and carry high explosives, germs or poison gas."

Miss Minibel Johnson spent the week end with friends in Lubbock. Curtis Harkey of Dallas, visited relatives and friends here Monday.

McAdoo Leads Class B Schools In County Meet; Dickens Wins Ward School Title; Highway Rural School Champion

The school of the county closed a successful County Interscholastic League Meeting Saturday afternoon at the Spur High School Grounds. Beginning with Thursday morning several hundred pupils, teachers and patrons were in Spur for the three days contests. The best spirit and the largest number of contests in the history of the meets in this county participated.

Spur, the only Class A school in the county, garnered 200 and 2-3 points. McAdoo led the Class B schools with 99 points; Patton Springs was second with 77 2-3 points; Dickens, third with 70 2-3 points. Highway was the rural school champion with 125 points; Dry Lake was second with 90 points and Espuela, third, with 30 points. Dickens led the Ward School Division with 127 points; Spur Junior High was second with 90 points; McAdoo, third, with 77 points and Patton Springs, fourth, with 47 points.

In the track and field divisions, Spur won 87 points for the Class A division. Patton Springs athletes led the Class B high school division with 27 points; McAdoo was second with 21 points and Dickens third with 17 points. Dry Lake won the Rural Junior Track and Field Championship with 34 points; Highway was second with 15 points and Prairie Chapel third with 7 points. McAdoo won the Ward School Track and Field Championship with 23 points; Spur Junior High was second with 22 points and Dickens third with 17 points. Spur High School Juniors had no competition in their division, entering the events with the other juniors making 63 points.

First place winners in literary events are eligible to enter the District Meet at Lubbock April 12-13. Second place literary winners are alternates. The first four place winners in track and field are eligible to enter the District Meet. Awards to winners in the various events were made at the conclusion or as soon as possible after the conclusion of the event. The Director General, O. L. Kelley, still has several awards on hand and if your name is listed as a winner and you failed to receive your award please see him.

The following are the results: (In some events your reporter was unable to secure names of the winners and only the school is listed).

Playground Ball
High School Girls: 1. McAdoo; 2. Patton Springs; 3. Spur.
High School Boys: 1. Spur.
Ward School Girls: 1. Dickens; 2. Spur; 3. Patton Springs.
Ward School Boys: 1. Spur; 2. McAdoo; 3. Dickens.

Rural School Girls: 1. Espuela; 2. Highway; 3. Dry Lake.
Rural School Boys: 1. Highway; 2. Espuela; 3. Dry Lake.

Volley Ball
1. McAdoo; 2. Patton Springs; 3. Dickens.

Tennis
Girls Singles: 1. Spur—Lorene McArthur; 2. Patton Springs.
Boys Singles: 1. Spur—Elvis Holly; 2. Patton Springs.
Girls Doubles: 1. Patton Springs; 2. McAdoo.
Boys Doubles: 1. Spur—Richard Ensey and Elvis Holly; 2. McAdoo.

Spelling
Rural IV-V: 1. Dry Lake—Wanda Bostic and Kenneth Dopson; 2. Highway; 3. Espuela and Red Mud, tie.
Junior VI-VII: 1. Red Mud—Iva Demsey and M. P. Smith; 2. Highway; 3. Espuela.
Ward IV-V: 1. Dickens—Mattie Bell and Geneva Bird; 2. Spur; 3. McAdoo.

Grammar School: 1. Dickens—Thelma Kimmel and Allen Deaton; 2. Spur; 3. McAdoo.
Senior: 1. Dickens—Ila Mae Stanford and Glendell Dobbs; 2. Spur; 3. McAdoo.

Story Telling
1. Patton Springs—Roger Southall; 2. Spur—Leonard Wilson; 3. Red Top—James Flud.

Music Memory
1. McAdoo; 3. Dickens; 3. Highway. (Would like names of winners to be left at Times or with O. L. Kelley for publication next week.)

Arithmetic
Ward: 1. Dickens—Chloe Slaton and Horace Wayne Newberry; 2. McAdoo; 3. Spur.
Rural: 1. Highway—Estha Holloway and Billie Jay Puckett; 2. Steel Hill; 3. Dry Lake.

Ready Writers
Class A: Spur—Bill Gruben.
Class B: Highway—Jerry Hahn.
Class B High School: 1. Patton Springs—Lizzie Lou Baxter; 2. McAdoo—Eugenia Baxter; 3. Dickens—Lois Mae Speer.
Ward: 1. Dickens—Chloe Slaton; 2. Patton Springs—Ruby Lee Slayden.

Picture Memory
Independent Districts: 1. McAdoo; 2. Dickens; 3. Patton Springs.
Rural: 1. Dry Lake; 2. Highway.

Three-R
Twin Wells—Dorthea Merriman; 2. Highway—Estha Holloway; 3. Red Mud—M. P. Smith.

Debate
Girls: 1. Dickens—Pauline Greer and Lois Mae Speer; 2. Spur—Doris

Arthur and Tennis Glasgow.
Boys: 1. Spur—J. H. Cowan and Kelley Marsh; 2. Dickens—Sidney M. Johnston and W. K. Harvey.

Typewriting
1. Spur—Ouida Dobbins and 2. Patton Springs.

Extemporaneous Speaking
Girls: 1. Spur—Jane Godfrey; 2. McAdoo—Katherine Ward; 3. Dickens—Fay Powell.
Boys: 1. Spur—Bill Gruben; 2. McAdoo—Robert McDonald.

Declamation
Rural Junior Boys: 1. Dry Lake—Stanley Russell; 2. Highway—Fred Blackmon; 3. Steel Hill—Granville White; 4. Wichita—Thurman Cowan. (Three way tie for second place.)
Rural Junior Girls: 1. Duck Creek—Lucy LaVerne Bural; 1. Highway—Regina Fay Draper; 3. Prairie Chapel—Alma Hale; 4. Wichita—Ardell Pierce. (Tie for 1st place.)

Junior Boys, Ward: 1. Dickens—Allen Deaton; 2. Spur—Easton Hendon; 3. Dickens—Horace Wayne Newberry; 4. McAdoo—Lemoyne Cypert.
Junior Girls, Ward: 1. Patton Springs—Bobby Randall; 2. Spur—Mozelle Powell; 3. McAdoo—Wanda McLaughlin; 4. Dickens—Sarah Ann Crider.

High School Junior Boys: 1. Spur—Carl Patton; 2. Spur—Carl Arthur; 3. McAdoo—Randall McLaughlin; 4. Patton Springs—Jack Woods.
High School Junior Girls: 1. Dickens—Lucille Stephenson; 1. Spur—Nell Arthur; 3. Patton Springs—Dorothy Christopher; 4. Dickens—Doris Harvey; 4. Spur—Catherine Thatch. (Tie for 4th place.)

High School Senior Boys: 1. McAdoo—Mayo Boucher; 2. Spur—Bob Ed McAlister; 3. Dickens—Morris Hulse; 3. Spur—Clifton Pope; 3. Patton Springs—Frank Ragland. (Tie for 3rd place.)
High School Senior Girls: 1. Spur—Bertha Carlisle; 1. Spur—Nedra Hogan; 3. McAdoo—Mable Doris Van Leer; 4. Dickens—Delma Austin.

Senior Track and Field
100 Yard Dash: 1. Spur—Jim McArthur; 2. Spur—Jack Turner; 3. Patton Springs—Frank Ragland; 4. Spur—William Starcher. Time 10.6 sec.
440 Yard Dash: 1. Spur—Jack Turner; 2. Patton Springs—W. J. Hamm; 3. Spur—Lamar Gilbert; 4. McAdoo—France McLaughlin. Time 57.2 sec.
120 Yard High Hurdles: 1. Spur—Thomas Haralson; 2. Spur—R. J. Bell; 3. Dickens—Bernice Bilberry; 4. McAdoo—W. H. Edwards. Time 18.8 sec.
800 Yard Run: 1. McAdoo—M. Boucher; 2. Patton Springs—Jim Norris; 3. Spur—Luther Jones; 4. Spur—R. J. Bell. Time 2 min. 13.5 sec.
220 Yard Dash: 1. Patton Springs—Frank Ragland; 2. Spur—Jim McArthur; 3. Spur—Jack Turner; 4. McAdoo—W. Allen. Time 23.7 sec.
1200 Yard Low Hurdles: 1. Spur—Jim McArthur; 2. Spur—Thomas Haralson; 3. Dickens—Bernice Bilberry; 4. Spur—Pershing Lee. Time 28.4 sec.
Javelin: 1. Spur—Kit Carson Hefner; 2. Patton Springs—Frank Ragland; 3. McAdoo—Ed Robertson; 4. Spur—Raymond Butler. Distance 146 feet and 9 inches.
Mile Run: 1. McAdoo—Ed Robertson; 2. Spur—Charles Henze; 3. Spur—F. Bingham; 4. Patton Springs—Lloyd Livingston. Time 5 min. 19.1 sec.
Five Mile Run: 1. Patton Springs—Jim Norris; 2. Spur—Frank Ragland; 3. Spur—W. J. Hamm; 4. Spur—McAdoo; 3. Spur. Time 3 min. 55.7 sec.
Pole Vault: 1. Dickens—Lloyd Cobb and Lindell Holly; 3. Spur—Fred Malone; 4. Spur—Henry Scoggins. Height 8 feet and 2 inches.
Shot Put: 1. Spur—Henry Scoggins; 2. Spur—Jim McArthur; 3. Spur—Jack Turner; 4. McAdoo—Powers. Distance 41 feet, 10 inches.
Broad Jump: 1. Patton Springs—Frank Ragland; 2. Spur—Jim McArthur; 3. McAdoo—W. H. Edwards; 4. Spur—Jack Turner. Distance 18 feet and 3 1-2 inches.
Discus Throw: 1. Spur—Henry Scoggins; 2. Spur—Charles Henze; 3. Dickens—B. Bilberry; 4. Spur—Herman Bostic. Distance 97 feet.
High Jump: 1. Spur—Luther Jones; 2. Dickens—Sidney Johnston; 3. Spur—Bill Sandlin; 4. Dickens—W. H. Edwards. Height 5 feet 5 inches.
Individual high point man: Jim McArthur, Spur, 19 points; 2. Frank Ragland of Patton Springs, 16 1-4 points; 3. Jack Turner, Spur, 13 points.

High School Juniors Track and Field
Spur had the only entries in this division.
100 Yard Dash: 1. J. B. Haralson; 2. F. O. Britton; 3. Bob Harold. Time 11.4 seconds.
50 Yard Dash: 1. J. B. Haralson; 2. F. O. Britton; 3. Bob Harold. Time 6.6 seconds.
440 Yard Relay: F. O. Britton, Geo. Murphy, Bob Harold, J. B. Haralson. Time 58 seconds.
Broad Jump: 1. J. B. Haralson; 2. Bob Harold; 3. Woodrow McArthur. Distance 18 feet 1 3-4 inches.
Chinning Bar: 1. F. O. Britton; 2. W. S. Carlisle. 29 times.
High Jump: 1. J. B. Haralson; 2. Ray Caplinger; 3. Woodrow McArthur. Height 5 feet.

Rural Juniors Track and Field
100 Yard Dash: 1. Dry Lake—J. C. Dopson, Jr.; 2. Twin Wells—Chas. Scott; 3. Prairie Chapel—Albert Peak; 4. Duck Creek—Wilbur Dee Hagins. Time 12.3 seconds.
50 Yard Dash: 1. Dry Lake—J. C.

Dopson, Jr.; 2. Highway—Billie Sparks; 3. Steel Hill—Wayne Kissinger; 4. Dry Lake—Cleo Rogers. Time 6.5 seconds.
440 Yard Relay: 1. Dry Lake—J. C. Dopson, Jr., Stanley Russell, Cleo Rogers, J. Smith; 2. Highway; 3. Prairie Chapel; 4. Steel Hill. Time 56.5 seconds.

Broad Jump: 1. Dry Lake—J. C. Dopson, Jr.; 2. Highway—Billie Sparks; 3. Highway—Arlie Smith; 4. Prairie Chapel—Albert Peak. Distance 16 feet, 10 inches.
Chinning Bar: 1. Dry Lake—Stanley Russell; 2. Highway—Lloyd Reece; 3. Highway—Preston Smith. 30 times.
Junior High Jump: 1. Dry Lake—Cleo Rogers; 2. Dry Lake—J. C. Dopson, Jr.; 3. Prairie Chapel—David Robertson; 4. Highway—Billie Sparks. Height 4 feet, 7 inches.

Ward School Junior Track-Field
100 Yard Dash: 1. McAdoo—C. Barton; 2. Dickens—L. Putman; 3. Spur—Roger Sonnamaker; 4. Dickens—Horace Wayne Newberry. Time 12.1 seconds.
50 Yard Dash: 1. McAdoo—C. Barton; 2. Dickens—L. Putman; 3. Spur—Richard Thomas; 4. Spur—Otis Finch. Time 6.6 sec.
440 Yard Relay: 1. McAdoo—A. Baker, M. Ferguson, J. Sparkman, C. Barton; 2. Dickens; 3. Spur. Time 59.5 seconds.

Junior Broad Jump: 1. McAdoo—C. Barton; 2. Spur—R. Thomas; 3. Spur—Hisey; 4. Spur—Ellis Power. Distance 15 feet 1 1-2 inch.
Chinning Bar: 1. Dickens—Glen Hulse; 2. Spur—Ellis Power; 3. McAdoo—Lemoyne Cypert; 4. McAdoo—E. Pullen. 27 times.
Junior High Jump: 1. Dickens—L. Putman; 2. Spur—Mallory; 3. Spur—Roger Sonnamaker; 4. Spur—Tolbert. Height 4 feet, 8 inches.

East Ward News

COUNTY MEET

The Ward School Primary Choral Club won first place at the meet. There were thirty children in this event. There were more than fifty children at the beginning of the year in the organization. Fourteen songs were learned for the county meet and several songs were learned for chapel and other occasions.

Leonard Wilson of the third grade won second place in second and third grade story telling. Leonard came to Spur from the Clarendon schools. He is a good student as well as story teller.

A number of children are out of school because of whooping cough. If all parents would be so thoughtful as these parents, few diseases would be spread through the school. It is also better for the children to stay at home until they have recovered before entering school again. Many diseases leave a child in a weakened condition, or some part of the body affected. Whooping cough, measles, and scarlet fever are especially bad for the eyes, ears, and throat. Protect your child by seeing that he has completely recovered before sending him back to school.

OSCAR L. KELLEY

Director General for the Dickens County Interscholastic League is one of the most successful teachers in West Texas. He is a native Texan and was born in East Texas in 1903. He spent most of his boyhood days on a Hill County farm where he worked until he was 18 years of age. His early schooling was acquired in the one and two teacher schools, but early in life he realized the importance of his advantages and made the most of them.

He went to Abilene in 1920 where he entered high school training and to his school work he added a job by which he paid his expenses through school. Although he assumed all responsibility of getting through high school on his own resources, his work ranked among the highest in his class.

Completing a high school course he entered Abilene Christian College where he remained three years doing college work. He had to continue his outside work in order to support himself and pay his school expenses. During vacation periods he sold Bibles or secured some other type of employment, saving all the money he could in order to meet matriculating fees at the next term of college. He left college at the close of his third year's work to secure a position as teacher. He did the remainder of his college course during summer terms, graduating at A. C. C. in 1930, being awarded a Bachelor of Arts degree.

Mr. Kelley became principal of Croton school in the fall of 1926. He had never taught school before, but his work proved satisfactory to the school board and the patrons at large. He remained principal of Croton school two years and was re-elected for the third year. He was offered a position in Spur schools in 1928 and became principal of the Spur Grammar School

which included the first seven grades in the Spur school system. When the new East Side building was completed in 1930, Mr. Kelley chose to act as principal in that school. He realized that he was taking the smaller children in the school but he stated that the young minds are wonderful to work with and he believed he could do the district the most good in that school. He is now teaching his eighth term in Spur school system and his work seems to be entirely satisfactory in every respect.

Mr. Kelley really had a desire to become a physician in his earlier days and when he went to college did all the pre-med work he could get. However, after he went into the field of education he believes that he has chosen a much greater calling where he can render more service to the people. His chief interests are in schools and the development of young minds. He takes an active interest in other community activities. His activity in Parent-Teachers' work in the community has been very great and in the spring of 1931 the Parent-Teachers' Association in a meeting at the East Side School voted to name that the Kelley School in honor of Mr. Kelley's work. He takes an active interest in church work and stated that any teacher should actively affiliate with some church and be a living example to the children in the community where he teaches.

In 1932 he married a Dickens County girl who was then and still is a teacher in our schools. He says that Dickens County demands his attention and interests more than any other place in Texas. He should feel glad about his work for he is dearly loved by the entire student body of his school. His school includes the first four grades in the Spur school system.

SEVEN OBJECTIVES OF EDUCATION

Since the close of the dark ages as the seven best objectives of an education:

1. A sound mind in a strong and healthy body.
2. A home life that is happy, unselfish, and democratic.
3. The ability to read and write, to think, study and act.
4. The knowledge and skill needed to earn a good living.
5. The use of free time for worthy activities and pleasure.
6. An informed citizenship dedicated to the common good.
7. Fine spiritual character that is trusted and admired.

O. L. Kelley.

SPUR AG BOYS IN CALF SHOW

The Spur High FFA will show their fat calves in Spur, March 30 which will be next Saturday. The show will be on the vacant lot just south of the Palace Theatre. There are a number of prizes being offered for the best calves, the business men of Spur fostering the prizes.

These calves will be shown at the South Plains Meat and Fat Calf show at Lubbock April 1, 2, and 3. After that they will be entered in the auction sale where they will be sold to the highest bidders.

Boys of Spur High School entering the show Saturday are: Wilson Garner, Durward Pickens, George Smith, Willard Williams, Kit Hefner, W. C. Presley, Buck Martin, Fred Neaves, Buford Hood, Bob Harrel, Leroy Garrison and Roger Garrison.

NEW FOOTBALL

SUITS ORDERED

The Spur Bulldogs will be clad in beautiful new suits in the near future. An order has already been placed for twenty-two suits of light gold jockey satin pants and silk durine jerseys with black numbers. New black shoulder pads and blocking pads will complete the new suits for the boys.

The fans will be justified in boasting of their fine looking team, but that is not the real purpose of dressing the boys in the bright new colors. The new helmets and pads give much protection and add greatly to the safety of the boys. That protection is the primary purpose of the new suits.

Coach Wade has announced that he will start spring training in about three weeks.

Antitoxins Praised By State Health Officer

"Few conquests of science have been so spectacular and complete as the rout of diphtheria. And this victory has most firmly established the value of serum treatment both in its preventive and curative phases. However, toxin-antitoxin or its successor (toxoid for immunization, and antitoxin for timely cure, are brilliant achievements of which the general public even yet are not fully aware," states Dr. John W. Brown, State Health Officer.

"As indicated, toxoid is the immunizing or preventive agent now usually employed. Only one injection of this serum is necessary. However, three to four months are required for the body to develop immunity. At that time the Schick test is applied to determine the results of this preventive treatment. This harmless and painless

Some Changes Suggested For Holding County School Meet

Changes in the manner of holding the county Interscholastic League track and field meets have been suggested several times in the last few years but nothing definite has been done. The many divisions and the complications arising from holding a meet of these various divisions all in one day provoke the discussion each year. Too, because of these many parts all being run off in one day there is much confusion and the meet does not draw the crowds that it should nor create the proper amount of interest. The County Meet is supposedly the biggest inter-school affair of the year in the county.

Last Saturday some changes suggested were: 1. That the rural division of the track and field events have a separate day for their meet; 2. That the Ward School or Junior High School Juniors meet and hold their events some morning; 3. That the Class B high schools hold a track and field meet and that the three high men in each event be entered in a track and field meet with Spur, the only Class A school in the county, Spur entering three men in each event. Your reporter, who attended the track and field meet last Saturday in Spur, thinks the above a worthy plan that could be easily worked out. The plan was discussed by several of the coaches and a meeting in the near future is planned to take some definite action.

Coach G. B. Wade of Spur, plans a number of track meets next year with teams outside the county. He urges adoption of the plan and thinks it a fair one for all concerned. Incidentally Wade thinks the Class A and B meet could be held in the Chas. A. Jones stadium at night and a number of people would attend that do not have the opportunity of doing so under the present arrangement.

Suggestions from coaches over the county will be appreciated. The County Meet can be made a big school rally day if properly planned.

procedure is performed by injecting into the upper layers of the skin a drop of the diphtheria toxin. If within 48 to 72 hours there is no redness at the place where the toxin was injected, or perhaps a small blister and some hardness of the skin, immunity has been definitely established.

"However, when a case of diphtheria exists antitoxin is the only treatment that will save life. Antitoxin is effective, it must be given early and in large doses. Delay is usually caused by parents failing to realize that any sore throat may actually be diphtheria.

"The means are at hand to fight diphtheria to the death, but it cannot be done without a hundred per cent cooperation of parents. May Day, the Child's Health Day, will soon be here and one of the best ways to observe it would be for parents to have their children immunized against diphtheria."

COUNTY INTERSCHOLASTIC LEAGUE MEET RECORDS

An accurate set of records for the various track and field events of the County Interscholastic League Meet has not been kept up to date. In order that an accurate record be kept from year to year, the records as set this year are to be used as a starting point. There have been better records made than the ones printed below but we have been unable to obtain a complete copy.

SENIOR HIGH SCHOOL DIVISION

Event	Individual-School	Record
100 Yard Dash	Jim McArthur-Spur	10.6 Sec.
440 Yard Dash	Jack Turner-Spur	57.2 Sec.
120 Yd. High Hurdles	Thomas Haralson-Spur	18.8 Sec.

THE WAY OF A MAN WITH A MAID

Bill Collins, of Lubbock, visited friends in Spur this week end. Misses Virginia Murrell and Julia Maxwell spent the week end with friends in Lubbock.

Mineral Products of Texas Decreasing

Sulphur was the leading mineral produced in Texas during 1933, aside from petroleum, according to comparative figures compiled by the University of Texas Bureau of Economic Geology. The 1,932,967 tons of sulphur mined had an aggregate value of \$19,493,406, it was estimated on the basis of returns made to the State Comptroller.

Cement was produced in the amount of 3,091,071 barrels, valued at \$5,263,605; clay products, valued at \$2,000,000 were produced; 1,215,820 tons of stone valued at \$1,140,589 was mined, and gypsum totaling 112,106 tons valued at \$1,058,869 was produced.

Other minerals produced in Texas in 1933 included the following: Asphalt, 126,069 tons, valued at \$353,847; coal and lignite, valued at \$835,000; Fuller's earth, 45,395 tons, valued at \$411,350; lime, 36,286 tons, valued at \$339,305; and miscellaneous minerals valued at \$925,596.

No copper, no lead, no gold and no silver were included. No estimate was given of the amount or value of natural gas-gasoline produced. The total value of the minerals produced, aside from petroleum, was \$34,083,202, as compared with \$37,546,496 in 1931 and \$59,249,072 in 1930. A total of 194,702,037 barrels of petroleum was produced. Its value was not computed due to the fluctuating price.

Agriculture Looks Forward

There is a growing feeling on the part of unprejudiced authorities that the Federal government's farm relief program has been a relative failure, in the light of the great hopes that were held out for it when it was inaugurated.

This feeling seems to be shared, to an extent, by high government officials, who are planning changes in the program whereby the government will act less in an administrative capacity and more as an advisor to the farmer.

The upshot of this is that the farmer himself must redouble his efforts

SUNDAY DINNER SUGGESTIONS

By ANN PAGE

WITH the exception of the best eggs, butter, oranges and fresh tomatoes, marketers will find most food prices easy on their pocketbooks. Meats are reasonable, with loin and round cuts of beef and legs of lamb especially attractive.

Certain vegetables are somewhat higher, but a wide selection of low cost vegetables is still available. Among them will be found white and sweet potatoes, yellow onions, rutabaga turnips, carrots, beets and cabbage. Green and wax beans, spinach, cauliflower and broccoli are moderately priced, while green peas and lima beans are high.

Grapefruit is outstanding in quality and price. Both cooking and eating apples should be very reasonable. The following menus are made up from the latest market news available.

- Low Cost Dinner
 - Roast Shoulder of Lamb with Gravy
 - Bolled Rice
 - Turnips and Turnip Greens
 - Bread and Butter
 - Caramel Pudding
 - Tea or Coffee
 - Milk
- Medium Cost Dinner
 - Pork, Veal and Beef Loaf
 - Baked Yams
 - Buttered Cabbage
 - Bread and Butter
 - Snow Pudding
 - Custard Sauce
 - Tea or Coffee
 - Milk
- Very Special Dinner
 - Fruit Cocktail
 - Chicken and Oyster Pie
 - Mashed Potatoes
 - Green Beans
 - Tomatoes
 - Hot
 - Milk
 - Coffee

to solve his own problems, and smooth his own road. It would be a poor thing indeed if American agriculture came to depend on government as a great white father to which it could

turn for aid in any crisis, real or imagined. Government should obviously give all possible aid and support to agriculture, as it does to other groups—but it should take extreme care that the farmer does not become a ward of the state in the process.

Certain groups of farmers, totaling hundreds of thousands, are and have been working their way out of depression through organized, cooperative action. They have banded together in great cooperative organizations, whose purpose is to make production and distributing machinery more efficient, and to increase agriculture's bargaining power. These farmers are self-reliant, awake to conditions—in brief, they are individualists, cooperating with other individualists to achieve a common aim. That typifies the kind of "farm relief" that, in the long run, will really produce desirable and permanent results.

New Assembly Plant For Chevrolet

Pushing steadily upward, production of Chevrolet passenger cars and trucks is now exceeding 5000 per day. On March 19 a total of 5,162 units rolled off the production lines of the company's 9 assembling plants, according to an official statement just released by W. E. Holler, vice president and general sales manager.

"Within a week or ten days," said Mr. Holler, "the new Chevrolet assembly plant at Baltimore, with an estimated yearly capacity of 80,000 units, should begin to add its daily quota to our present facilities. Once we begin to get the benefit of this added production, present schedules

will show another substantial increase. "Deliveries of Chevrolet passenger cars and trucks from January 1 to March 10, the latest figures available, are 30.3 per cent above the same period in 1934. Every department of our business is now working at top speed to meet the demands of the public and our dealers for more cars and trucks."

Mr. Holler stated further that orders for delivery to buyers, through more than 10,000 dealer retail outlets, have increased steadily every week since the formal announcement of the company's new models on January 5. At present, unfilled orders on hand are said to be nearing the 100,000 mark.

Pain Passes Off

When your head aches; when Neuralgia tortures you; when Muscular Pains make you miserable—take a Dr. Miles' Anti-Pain Pill.

Mr. Smith is one of millions who have found this easy way to prompt relief. He says—

"I keep Dr. Miles' Anti-Pain Pills in my pocket and when I get a dull heavy feeling in my head, I take a Dr. Miles' Anti-Pain Pill and the pain passes off."
