Wildlife Valued At \$94,350,394

AUSTIN, July 2.—Texas continues to lead the nation in the value of its wildlife resources, according to figures assembled after surveys were made by the federal government and forwarded to the executive secretary of the State Game Commission. Not only does Texas lead the nation, but its wildlife resources are worth approximately three times as much as those of the second leading state.

Wildlife resources in Texas are valued at \$94,350,394 by federal experts. This takes into consideration the value of insectivorous birds to the farmer, of game and the amount of money spent by hunters it brings the land owner, hotel owner, stores and tourist camps; the value of the fur crop in the state and a myriad of other ways in which game is of actual monetary value to the Lone Star State.

Spur Will Have A New "Lift-The-Receiver" Phone

Spur will have a new "lift-the-receiver" telephone system as a result of the city council's endorsement Wednesday of plans outlined by W. L. Blakney, district manager, and L. R. Grimes, manager, of the Southwestern Bell Telephone Company.

"When the new system is in operation, Spur telephone users will no longer need to turn a crank when they want to call," Blakney said. "As soon as a receiver is lifted, a light will flash on the switchboard and the operator will answer. When the receiver is returned to the hook, the light will signal the operator that the line is free for another call. No 'ring-off' will be necessary."

To provide the new system, the telephone company will manufacture and install a new "flash-light" switchboard especially designed for the city's present and future telephone needs, rearrange outside wires and cables, and furnish new "crankless" telephones to all subscribers. This will require a gross expenditure of more than \$11,000.00.

"There will be no batteries in subscribers' telephones with the new system," the district manager explained. "Power for signalling the operator, as well as for talking, will be furnished for all telephones by central batteries in the telephone office. The name 'common battery system' is derived from this method of supplying power.

Installation of the new system (Continued On Page Four)

The event performs the function of renewing interest in iced tea as well as calling the attention of the trade and public to a pleasing and stimulating summer beverage (iced coffee) . . . a beverage, incidentally, that is more important to our economical structure than the average person realizes.

Coffee is the vital factor in the economy of our neighborhood nations to the South. This year they are faced with the loss of their European markets. When they can sell their coffee, they are prosperous customers of Uncle Sam. When they cannot, their economic position becomes affected, and our exports figures to them clearly reflect the situation. Although our imports from these countries were at the highest figure in history during 1939, this year our neighbors hope that we can absorb at least some of the crops that they usually ship to Europe.

Iced coffee provides a potential outlet for that increased consumption. Many people who have never tasted the nation's favorite beverage (coffee) in iced form turn to other drinks in summer weather. Throughout the country, roasters, grocers, and restaurateurs will bring iced coffee to their attention this summer with the hope that hot weather consumption of the commodity will stay on the same level as during the winter. In the Southwest this campaign will be aggressively supported by the Southwest's own Admiration Coffee and Tea.

Genar L. Byrd, son of Mr. and Mrs. L. E. Byrd left last Wednesday, June 26th, for Fort McArthur U. S. Army Camp, in California. He is a graduate of the Spur High School.

Brother Of Local Man Passed Away

A. J. Johnson told us the story of the death of his brother, William J. Johnson, which occurred Sunday, May 12. Rev. Johnson's home was at Hollis, Oklahoma, and his death was the result of an attack of influenza. Funeral services were held at Mollis, Monday, May 13, with Rev. Paul B. Cullen, pastor of the First Baptist Church, in charge, assisted by Rev. L. S. Abernathy of Hollis.

Rev. Johnson assisted with the organization of the First Baptist Church at Hollis and was the first pastor of the church. He was licensed to preach at Lonesome Dove, near Grapevine, 1881, and was ordained a minister at Keller, Texas, in 1891, the late R. K. Grimes being a member of the ordination council. He served nearly 60 years as a minister of the gospel.

Rev. Johnson was born in Mississippi January 1, 1856. He came with his parents to Texas in 1859, the family settling in East Texas. He moved to Greer County, then part of Texas, in 1893 where he homesteaded a farm and has lived in that country ever since. He has been on the same farm and lived in two states without having to move, Greer County becoming a part of Oklahoma by a Supreme Court decision in 1896. When the state was admitted to the union in 1906, Harmon County was cut off from Greer County, and he became a citizen of that county without having to make a move.

When he was 22 years of age he affiliated with the Baptist Church, he and his two brothers being baptised by Rev. J. A. Holford in Tarrant County. Shortly after he became a student for the ministry, and after being licensed to preach, served a number of the pioneer churches in Texas and Oklahoma.

He became acquainted with Miss Gertrude Coleman while in Collin County. This friendship grew into a matrimonial union, and they

were married in McKinney in 1880. Ten children graced the home and eight of them still survive. They are: Mrs. Ruby Jenkins of Tulsa, Okla.; Mrs. Valerie Garlinghouse of Colorado Springs, Colo.; Dr. H. Lee Johnson, on staff of State Hospital at Fort Supply, Okla.; Claud Johnson of Hollis, Okla.; Howard Johns of Morton, Texas; Hadden Johnson of Mountain View, Okla.; Victor Johnson of Hollis, Okla.; and Ray Johnson of Denver, Colo. There are 11 grand children and six great grand children in the family. Two brothers survive: B. F. Johnson of Roaring Springs, and A. J. Johnson, of Spur.

Rev. Johnson was 84 years of age last January. B. F. Johnson is 83 years of age and A. J. Johnson was 79 years of age June 24.

Marshall Formby for State Senator

The Last Legislature bitterly appointed the people—it's time to send a new to Austin to carry out the will of the people.

During Marshall Formby's four years as Dickens County Judge, he has put the county on a cash basis and has given its citizens their lowest tax rate in 22 years.

He is a graduate of Texas Tech, president of the Tech ex-student association, and as president of the West Texas County Judges and Commissioners' Association, has done much to bring more aid to thousands of destitute West Texans.

Any man who was a member of the last "do-nothing" legislature and claims he voted right himself, but every one else was all wrong, is either trying to fool the people or was a man in Austin without any influence.

Marshall Formby is a leader of men; a man of ideals. If you are tired of empty promises, vote for a man who has always kept faith

HE FAVORS

- Immediate payment of old age pensions.
- Raising of truck limit.
- Putting state on cash basis.
- A fair tax on natural and not on necessities of life.
- Honesty in government.

Believing that any man who serves in the Texas Senate should represent the people, Marshall Formby is making this race on honest money—not on the money of big interests. He does NOT have a paid publicity manager or three paid body-guards to work for him. He is making the kind of race you would want your son to make. Help him!

Eastern truck growers are waxing such vegetables as peppers, tomatoes, eggplants, cucumbers, and squash. A wax emulsion for that purpose costs from three to four cents a bushel and results in premiums of from 20 to 30 cents. Leafy vegetables and bunched root crops cannot be waxed satisfactorily.

Between 1930 and 1935 the number of farm units in operation in the U. S. rose from 6,288,000 to 6,218,000—an increase of more than half a million.

Mrs. P. H. Miller, Miss Jane Godfrey, Miss Nell Francis and Mrs. Barnes left the first of the week for Palacios camp to spend two weeks in the Baptist encampment.

Clyde Walthall, manager of the Safeway store, and his family left Sunday to spend their vacation visiting points of interest in Colorado.

Independence Day

JULY 4th AMERICA FIRST!

164 YEARS AGO TODAY 53 American Patriots and Statesmen signed the document known as the Declaration of Independence and submitted it to the American Colonies for their approval. Those 53 men signed their own death warrant had not the colonies approved their act, for truly such a document as the Declaration of Independence would have been pure treason against the rule of the English crown.

The American people of today should carry on to preserve those principles of freedom and independence set out by those patriots nearly two centuries ago. Let us all hope that we shall never commercialize on those rights, and that this freedom gained at a great sacrifice by our forefathers shall always be sacred to our people.

will begin as soon as engineering plans and specifications are completed and the new switchboard manufactured, a process which will require several months, it was announced.

Because of the large expenditure required to bring Spur the new telephone service, the city council agreed to a revision in rates which, however, will not go into effect until after the new system is in operation.

The new rates will be 25 cents a month more for business and residence service. However, the present 25-cent monthly charge for desk telephones on residence service will be discontinued, and, in addition, the present 15-cent monthly charge for the first year's use of handset telephones will be eliminated. This means 40 per cent of the residence subscribers will receive the new service either at the price they are now paying or at an actual reduction in charges.

Ten business subscribers (those now paying for handset telephones) will receive the new service at only 10 cents more a month, the district manager said.

"We are glad to bring improved 'lift-the-receiver' telephone service to Spur," Blakney said, "and we feel sure that telephone users here will like the fast, accurate, and dependable service we shall be able to furnish."

This improved telephone condition is the result of the work of the Spur Civic Club. T. E. Milam, president, and O. C. Arthur,

Let's keep it American

THE European war has re-awakened Americans to the truth of the saying, "Eternal vigilance is the price of liberty."

Our liberty is not immediately threatened. But it may be if we do not prepare to defend it from any possible attack. Such preparation is an effort in which everyone can share.

We favor adequate preparedness for national defense. This country's natural position gives us a great measure of security against threats from abroad. With careful preparation we can strengthen that position until no nation would dare attack us.

National defense is not only a matter of men, airplanes, battleships and guns. It also requires us to strengthen our American institutions, which are the very things we wish to protect and preserve. They must be preserved. It would be a bitter and ironic victory if, in order to defeat an enemy, we sidetracked the system of free enterprise and the personal liberties which distinguish the American way of life from the tyrannies of Europe and Asia.

Let's keep this country American. Government experts and civilian authorities are studying how to provide for our actual defense and each citizen's part in it. Meanwhile, the rest of us can help by doing our work, whatever it is, as well as we can.

That is what all the people of this company intend to do. Together with other electric companies, we have built a system capable of supplying the nation with electric service in any emergency. This system will be maintained and strengthened and we will continue our day-to-day effort to provide the dependable electric service that makes the United States a better place to live.
