President's Day **Grilling Ordeal**

MERICA'S most important A executive is also its busiest - the President of the United States. His daily routine, filled from midnight to midnight all year long, is completely unpredictable, and depends entirely on the uncertain rush of current events.

In normal times these conditions make his task arduous, lending at the same time a peculiar interest and fascination, but with Europe at war, with the Germans moving quickly and unhesitatingly, this procedure is

lessly confused n time elements. Better than any other man, Stephen T. Early, personal

even more hope-

secretary and right hand man Stephen T. Early to the President, knows the grilling ordeal of long and sustained labor which the chief executive faces every day. Invasion of Holland, Belgium, and Luxemburg, he says in the August Cosmopolitan

Magazine, strikingly illustrates the way great events break upon the President with diamatic sudden-When Ambassalar Cudahy teleshoned from Brussels that air bases there were being bumbed, it was

invasion to reach the United States. Though it was late at night, press, radio, and official dispatches began to pour in instantly. Members of the Cabinet had to be informed of the crisis, and this meant numerous telephone calls. Secretary Morganthau had to be instructed to prepare the necessary papers to freeze more than a billion dollars in Dutch, Belgian and Luxemburg commercial balances and liquid investments in the U.S., thereby preventing their

alienation to any other nation. Ambassador Bullitt couldn't be reached in Paris till 4 A.M. The press had to be met. At the conclusion of all this, the President managed to get in four hours' sleep. The next day promised to be only a continuation of the previous hectic evening.

"In spite of a heavy schedule," Mr. Early says in conclusion, "Mr. Roosevelt does know how to play and he never loses a sense of proportion. He learned long ago that few things in life are to be taken seriously and that nothing is ever to be taken tragically."

A mounting demand for yellow tomato juice set plant breeders to work on an improved yellow tomato and the result is the Mingold. It is large, juicy, and in all respects excels older yellow varieties. Seed will be available in commercial amounts in 1941.

Some men would look more spic if they didn't have so much span, said a dear little old lady the other day.

The life and loves of Lillian Russell, "the most beautiful woman in America," have been made into one of the greatest pictures of all time by Producer Darryl F. Zanuck, playing at the Palace Theatre Spur, preview Saturday night, and her charm and her singing Sunday and Monday, Aug. 11-12, Zanuck's production, "Lillian Russell" features Alice Faye in the title role, with Don Ameche, Henry Fonda and others.

States Act to Curb Loan Shark Rackets

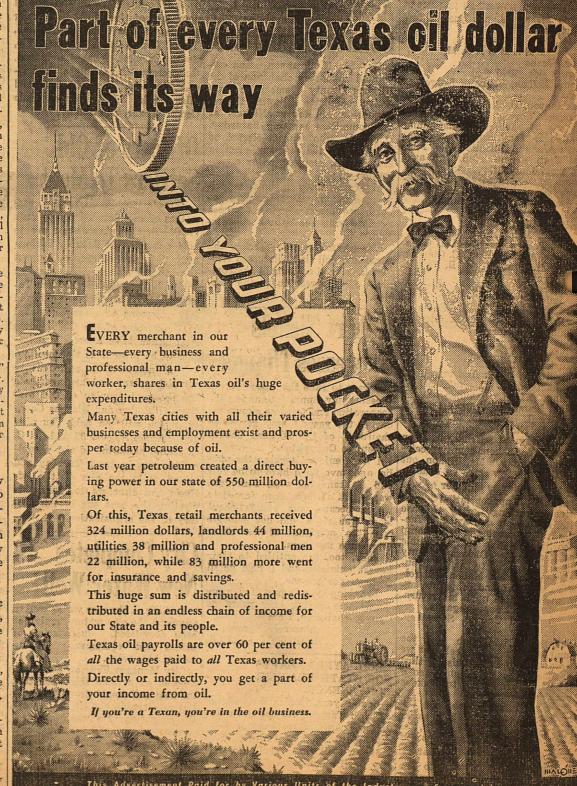

W HEN a man needs money badly, the chances he take to get it assume amazin little importance. For this reason, money lending has become gangland's most insidious racket, and

in almost every state in the union loan sharks operate ruthlessly.

Hickman Powell, writing in the August issue of Cosmopolitan, says that the Russell Sage Foundation, a philanthropic agency which for a generation has studied the problems of usury and consumer credit, cal-culates that outstanding claims of loan sharks in this country, day to day, average about \$100,000,000. Since loans are mostly less than \$20, that means a myriad of people nearly all of small means are being bled. The interest rate averages about 200

The interest rate averages about 200 per cent, which means \$200,000,000 a year drained from pocketbooks. In many states, Mr. Powell asserts, interest on loans may not, under the law exceed 6 or 8 per cent, and on small amounts the return is hardly sufficient for banks to supply the necessary cash. Therefore, racketeers engage in illegal lending at exorbitant rates. One Bronx housewife borrowed fifty dollars from a shylock at the rate of \$6 a week for every \$5 borrowed, and before the original loan was cleared she had paid out \$4,395 in interest. In the past year, more than thirty

states have adopted a Uniform Small Loans Law which provides for the licensing and regulation of loan companies which are permitted loan companies which are permitted to charge a maximum of 37 percent a year on small loans. This charge, 3 per cent a month can be figured only on the balance actually owed—not on the original total—and it cannot be increased by pyramiding penalties. In this way, Mr. Powell concludes, the "shylock racket" may be crushed and the small borrower saved from the savage loan shark.

wreath on Dr. Sandefer's grave. "Prexy, we are gathered here to dedicate ourselves, by the grace of God, to carry on the work you have so well begun, and to build, in His name, a superstructure worthy of the foundation you have laid," he said there. Dr. Sandefer, at his death last March 22, was the dean of senior college and university presidents in the Southwest.

Dr. White comes to Hardin-Simmons from Oklahoma City, where for five years he has been pastor of the First Baptist Church, second largest in the denomination. Of its 6400 members, 2500 have been added during Dr. White's

In his acceptance, Dr. White acknowledged "the guidance of a special Providence," and said, "the way is clear to me that I could not follow with assurance any other course."

"I am of the firm conviction that Hardin-Simmons University is ready for a substantial advance along all lines. The excellent foundation is laid, and the spirit among those who know and love the university everywhere leads me to this conclusion," he said.
