

THE MULESHOE JOURNAL

VOLUME 7.

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, JULY 19TH, 1929

NUMBER 23

RETURNS FROM ELECTION TUESDAY INDICATE THAT AMENDMENTS CARRIED

Bailey County Favors Special Road Tax, But Opposes Amendments—All Measures Carried in Muleshoe.

Pursuant to an election proclamation issued by the Governor of Texas, an election was held last Tuesday, July 16th, to decide whether or not two amendments should be made to the Constitution of this State, one of these providing for a Supreme Court of nine members and for continuous session of that Court; the other providing for a raise in the Governor's salary.

An election was held in Bailey County in conjunction with the State election, to decide whether or not a special road tax should be levied in this county, the amount of this tax not to exceed 15 cents on the \$100 valuation.

The vote in Bailey County was as follows:

Muleshoe—For Governor's salary, 34; against, 15. For Supreme Court, 37; against, 10. For road tax, 39; against, 14.

Longview—For Governor's salary, 22; against, 10. For Supreme Court, 4; against, 27. For road tax, 27; against, 7.

Progress—For Governor's salary, 7; against, 1. For Supreme Court, 6; against, 2. For road tax, 8; against, 0. Circle Back—For Governor's salary, 0; against, 16. For Supreme Court, 0; against, 16. For road tax, 2; against, 14.

West Camp—For Governor's salary, 9; against, 22. For Supreme Court, 7; against, 19. For road tax, 6; against, 25.

Fairview—For Governor's salary, 2; against, 14. For Supreme Court, 6; against, 10. For road tax, 5; against, 6.

19—For Governor's salary, 74; against, Governor's salary, 75; Supreme Court, 60; against, 104. For road tax, 7; against, 65.

The latest returns available from over the State as we go to press indicate that the Constitutional Amendments were approved by a vote of more than 2 to 1. Figures at hand show 21,145 to 10,134 in favor of increasing the Governor's salary from \$4,000 to \$10,000. The amendment to add six justices to the State Supreme Court was favored by a vote of 21,679 to 9,757, according to the latest press reports.

In case the final returns show that the amendments carried, the one to increase the Governor's salary will not become effective until 1931. The other would become effective in forty days, the new members to be appointed by the Governor. Five members of the Court will constitute a quorum, and it would require the assent of at least five members to establish a decision.

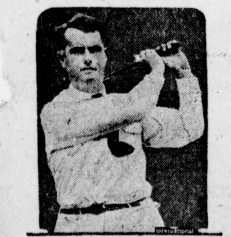

LAZBUDDY REVIVAL

The Methodist people in cooperation with the other Church people of Lazbuddy Community are organizing themselves into an effective force preparing for the revival meeting which is scheduled to begin on Thursday night, August 1 to run through Sunday, August 11. Watch the paper for further information.

Mr. Jim Douglass of Portales, N. M. is visiting his son, Sheriff H. A. Douglass.

J. O. Stahl and wife of Seabotha, Kansas, was looking after business interests in Bailey County last week.

WINS BRITISH OPEN

Cyril Tolley, British golfer, who won the 1929 British open amateur golf championship when he defeated John Nelson Smith, young Scottish carpenter, four up and three to play in the final of the tournament. Smith had won his way to the final by defeating John Dawson of Chicago in the semi-finals.

GOOD CROWD ATTENDS LEGION PLAY AT HIGH SCHOOL AUDITORIUM

There was a good attendance at the play, "Midnight Rose," presented at the High School auditorium by the local Post of the American Legion on Thursday night of last week. It is a splendid production and was highly enjoyed by those present. The players rendered their parts in a very creditable manner. About seventy dollars was realized from the entertainment which is to be used to help take care of Legion expenses.

BLACKWATER VALLEY STATE BANK LEADS IN AMOUNT OF DEPOSITS

Do you know how Muleshoe bank deposits compare with deposits in neighboring towns?

The following is a comparison of bank deposits in Muleshoe and towns within a radius of thirty miles of this city, as shown by the last call report statements by the State and National Banking Departments, issued June 29th, 1929:

Blackwater Valley State Bank, Muleshoe \$346,227.89
First National Bank, Amherst \$288,340.24
First State Bank, Pritchard \$254,733.98
Security State Bank, Farwell \$228,971.65

First National Bank, Sudan \$193,142.36
These figures indicate the fact that business conditions are especially favorable in Muleshoe. The large amount of grain handled here during the past several weeks, together with the good prices paid for this grain has helped to swell the local bank deposits. The records show that more grain has been shipped from Muleshoe and that better prices have prevailed here than in most towns in this section. Business in all lines has been good this season and our citizens are well pleased with the outlook.

Let's continue the good work and keep Muleshoe in the lead. The marketing of other farm products will follow in the wake of the grain harvest, which is now drawing to a close. Cooperation on the part of our farmers, by marketing their products in Muleshoe, and of the local buyers, by having the best prices for these products, will accomplish the desired end.

MISSISSIPPI VISITORS

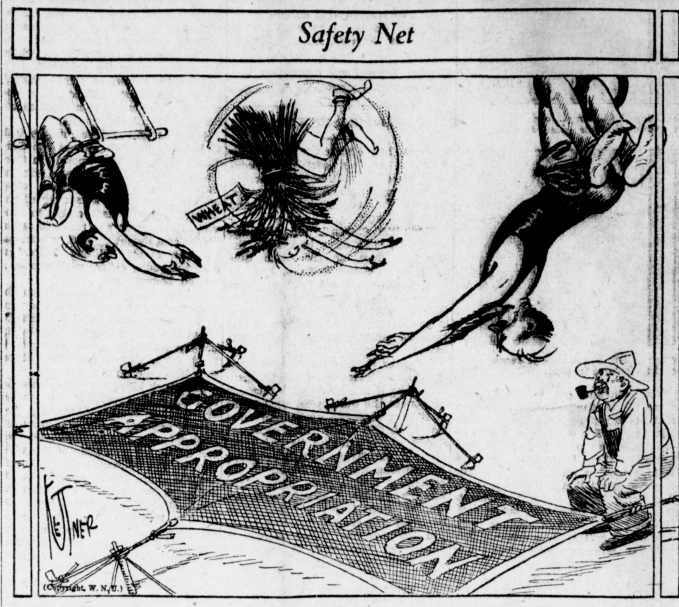

Frank B. Wylie and family of Duncan, Mississippi, accompanied by W. A. Laury of Moran, Texas, were visiting Mr. and Mrs. A. V. McCarty, Jr., the past week. It was Mr. Wylie's first visit to the Lone Star State and he was much impressed with its size and the great possibilities of the Plains country.

Safety Net

THIRD TREND IN PRICE OF WHEAT WITHIN A WEEK

Considerable wheat is still coming in to Muleshoe, though the number of truck loads has fallen off to a great extent during the past week. An approximate average of 3,000 to 4,000 bushels per day is being unloaded at the local elevators, according to reports.

The price of wheat has moved up several points since our last report. On Thursday, \$1.12 per bushel was being paid here, and press reports stated that the third trend in the price within a week had come on that day. Reports last week indicated that the bulk of the crop throughout the Panhandle had been marketed, but later estimates showed that only about half of the crop has been harvested up to date.

The increase in price is probably due to the fact that the crop in the greatest wheat producing areas in the world, Canada and Argentina, have suffered a shortage on account of weather conditions.

MCCARTY DRUG STORE AUTHORIZED AGENT FOR BRUNSWICK PHONOGRAPHS

A Brunswick Phonograph agency has been established in Muleshoe. The McCarty Drug Store has been designated as the authorized local dealer for these popular phonographs. New machines were being unpacked at the drug store Thursday. A full line of records and supplies will also be carried by this firm. All the favorite records of the day, including modern musical numbers and the older songs that have never ceased to be popular, will be handled.

Methodist Church

We will have our regular services next Sunday. As the pastor will be away in a revival meeting, Brother J. C. Mardis of Colorado will take his place in the pulpit both morning and evening. Brother Mardis is one of our local boys and is doing a great work in Colorado. Let every one hear him.

The pastor desires the prayers of his Church for the success of the meeting.

Sunday school—10:00 A. M. Preaching—11 A. M. Evening services—8:45 P. M. The following topics will be discussed by Bro. Mardis: Sunday Morning—"The Central Fact of Jesus' Ministry." Sunday Evening—"The Attitude of a Community Towards Its Youth."

W. B. HICKS, Pastor
Will T. Dold of Fort Worth was a business visitor in Muleshoe the first of the week.

A. P. Stone left Thursday night on a business trip to Chicago.

H. V. Merriman, of Snyder was prospecting in this section last week-end.

CONSTRUCTION AND IMPROVEMENT PROGRAM CONTINUES STEADY

Improvement and construction of new buildings in Muleshoe and vicinity is still in progress. Local dealers in building material furnished the following reports for this week: E. R. Hart Lumber Company—B. Whitt, 5-room house. L. P. Henning, house. Panhandle Lumber Company—F. Corrothers, 5-room house, with basement and other general improvements. J. W. Jarman, 5-room house. Phillips Petroleum Co., enlarging their wholesale store to double capacity. A. W. Coker, completed new double garage.

PIE SUPPER AT LONGVIEW SATURDAY NIGHT, JULY 27TH

There is to be a pie supper and musical entertainment at Longview school house on Saturday night, July 27th. The program is to be conducted by L. G. Shepperd of Amarillo, who is teaching a singing class at Longview, and will consist of quartets, solos, duets and other musical numbers. Everyone is invited to attend and enjoy the entertainment and also to take part in the singing.

LARGE COLLECTION FOR PLAINS MUSEUM SOCIETY

Lubbock, July 18.—A large collection of articles which are reminiscent of the old days of the west were received recently by Prof. R. A. Studhalter, head of the department of biology of Texas Technological College, for addition to the collection of the Plains Museum Society. Prof. Studhalter is president of the Society and the collection is a gift from Clifford B. Jones, who is chairman of the board of regents of the college.

The gift to the museum includes parts of Indian skeletons, some knives, corn grinders and other implements used by the West Texas Indians. Mr. Jones also included in the collection a number of branding irons which were collected from the Swenson ranch and other historic ranches of the west, and lent the College Library some old records of the Swenson ranch to be used in the class of advanced students who are studying the history of the South Plains.

LARGE INCREASE IN NUMBER OF STUDENTS AT TEXAS TECH

Lubbock, July 18.—The total number of summer school students enrolled in Texas Technological College, as given out by the registrar's office July 17, is 1,258, which shows an increase of 140 students over the first term which had an enrollment of 1,118 students.

Dr. J. W. Boyle of Shiner, Texas, who was in Muleshoe last week on business, called at this office Friday and subscribed for the Journal for a year. Dr. Boyle is an admirer of the Muleshoe country and has great faith both in the community and the town. He is a brother to E. B. Boyle, former publisher of the Journal, now located at Knox City, having recently purchased the Knox County Herald at that place.

GOODWILL MOTORCADE FROM CLOVIS TO VISIT MULESHOE ON JULY 25

A goodwill motorcade, sponsored by the Trade Extension Department of the Clovis Chamber of Commerce, will spend about an hour and 30 minutes in Muleshoe next Thursday, July 25. They expect to arrive here about noon and will take lunch here. The band will also give a concert during their stay in the city.

The motorcade will visit Texico-Farwell, Lariat, Muleshoe, Lazbuddy, Friona and Bovina on the tour.

Reports from Clovis say that there will be about 100 cars in the party. Grey's Airport City Band will furnish music and entertainment for the occasion.

Souvenirs will be distributed by the goodwill delegation. This is the first of a five-trip schedule planned by the Clovis Chamber of Commerce.

CONTRACT FOR PAVING LET AT LAMESA WEDNESDAY

A paving contract was let at Lamesa Wednesday to the El Paso Bitulithic Paving company for paving five blocks on North First Street.

The contract, which calls for five inches of caliche base, will connect the business district, already paved, with the high school campus and its completion will give the city a total of twenty blocks of paved streets.

W. M. S. MEETING

The Ladies Missionary Society of the M. E. Church met at the home of Mrs. Glasscock in the country, with four members present. There, not being many members, the meeting was turned into a social meeting which we all enjoyed very much. The hostess entertained us gorgeously, and when we were about to depart, surprised us by serving ice cream and cake and delicious peaches. As each departed, they declared the hostess a very nice entertainer. More members are urged to attend.

TICK ELIMINATION WITHIN FOUR YEARS PREDICTED

Fort Worth.—Encouraged by reports from tick infested sections where systematic eradication was under way and pleased with appropriations that seemed certain for the next two years, the state livestock sanitary commission, in session here, predicted elimination of the cattle tick from Texas within the next four years.

LITTLEFIELD BANKER IS CITED FOR EMBEZZLEMENT

Kirk F. Allbright, former cashier of the First National Bank of Littlefield, is charged in six counts with embezzlement of funds and with making false entries in the books of the bank in an indictment filed Thursday in the Lubbock division of Federal court.

The hottest weather of the season was experienced here the first of the week. Temperature ranged to 93 and 95. However, the nights were cool thus helping to withstand the discomfort.

Registered Calf to Be Given Away on Next Trades Day

Trades Day was again put on in Muleshoe, according to schedule, last Saturday. There was a large crowd in town for the event as usual and business was lively throughout the greater part of the day. The winners in the cash prize drawing were:

First Prize, \$10 in trade at Williams' Grocery—Mrs. McClanahan of Spring Lake.

Second Prize, \$7 in trade at Thompson Dry Goods—Mrs. Frank Lovelady of YL.

Third Prize, \$5 in trade at Gupion Grocery—Clinton Jackson of YL.

Fourth Prize, \$3 in trade at H. C. Henington Grocery—Otis Brunsom of Big Square.

On Saturday, July 27th, a \$150 registered calf is to be given away. The winner of this valuable prize will be very fortunate indeed. It will be the best prize yet given by the Merchants Luncheon Club, which is sponsoring a better dairy cow campaign in this territory. The citizens of this section should not fail to take interest in the move on the part of local business men to place purebred dairy cattle on the farms in this vicinity. Save your tickets until the 27th, as there will be no drawing next Saturday. It will be worth your while to trade in Muleshoe at all times. There will be other valuable prizes given away here, and everyone stands an equal chance to be the winner.

MCCARTY-TUCKER

Mr. I. G. McNairy and Miss Verda Tucker were married in Clovis at noon Wednesday, July 17th. While their marriage was not unexpected, it seems they "stole a march" on their friends and were married before any one was aware of it. Mr. McNairy is the son of Mr. and Mrs. E. S. McNairy of Muleshoe. He is employed at the "68" Service Station. The bride is the daughter of Mr. and Mrs. John Tucker, who live 11 miles north-east of town. They will make their home in Muleshoe. The Journal joins in extending congratulations and best wishes.

DIPLOMATIC RELATIONS BETWEEN RUSSIA AND CHINA ARE BROKEN

Diplomatic relations with the Chinese republic were severed by Russia on July 17th, at the expiration of an ultimatum set by the Soviet Union giving the Chinese Government three days in which to rescind its action in seizing the Chinese Eastern Railway in Manchuria. The ultimatum demanded restoration to office of all Russian rail officials who had been deposed and all Russian Nationals who had been imprisoned. The closing of Russian institutions in Manchuria, such as banks, railway unions and business syndicates, also was to be rescinded according to the terms of the ultimatum.

It is rumored that both China and Russia have ordered troops to the Manchurian-Siberian frontier and that war is threatened as a result of this break in diplomatic relations between the two nations.

County Commissioner Mack Bell was a business visitor in Muleshoe Thursday.

NEW SERB MINISTER

FAMOUS PRIZE WINNING AIRPLANE TO BE PRESERVED FOR POSTERITY

The Woolaroc airplane which flew from Oakland, California, to Honolulu in August, 1927—2,600 miles in 26 hours to win the Dole prize of \$25,000.

The permanent all-steel and stone hangar on Mr. Frank Phillips' ranch at Bartlesville which will preserve the Woolaroc for posterity.

Assurance has been given that one of the most important airplanes figuring in American history will be preserved and kept in this country. Frank Phillips, president of the Phillips Petroleum Company, has announced that the "Woolaroc" (woods-lakes-rocks), the airplane which Art Goebel flew from Oakland, California, to Honolulu on August 17, 1927, to win the Dole \$25,000 prize, is to become a museum piece.

Mr. Phillips is building a hangar on his 3,000 acre ranch at Bartlesville, Oklahoma, to house the airplane and keep it there permanently for future generations to study. The plane will join a collection of important historical pieces equalled in few places in the country.

Two years ago the "Woolaroc" set off from Oakland, California, and reached Wheeler Field, Honolulu, in 26 hours, 17 minutes and 33 seconds. Some of the group of planes that took off that morning were never heard from again. Only a few made the crossing successfully.

Goebel landed in Honolulu and was very surprised to hear that he was the winner. For three days thereafter he kept his plane tuned up, begging the United States Navy for orders to go out to seek missing planes. His instructions were, however, merely to stand by.

For a time before the date of the prize race it seemed as if Col. Goebel could never start the flight across the Pacific. He lacked the necessary funds. Mr. Phillips learned of this and asked Col. Goebel to pay him a visit. Goebel came to Bartlesville, Oklahoma, Mr. Phillips' home. Goebel was a flyer of long experience. Mr. Phillips was very much interested in the commercial development of airplanes for business use. He realized that a successful flight to Honolulu would do much to help the cause of flying in America, and cheerfully advanced the amount of money needed to pay the expense of the flight, as his contribution to aviation.

The airship, as preserved, will carry all of the original equipment that it had when the historic trip was made. The rudd, which at that time was the very latest model for control of flight through the use of a radio beacon, is already obsolete. The progress of aviation has been so rapid that some of the flying instruments that were used are already out of date. In a few more years of airplane progress people will look at this airplane with the same curiosity they now look at an old stage coach.

The hangar under construction will be of steel and stone, and will be built as a permanent museum. It will be completed in time to install the plane on the second anniversary of the flight. This will add another item to the remarkable museum, and this time it is an object in which Mr. Phillips is instrumental in contributing to its historical value. The plane will join a collection on the ranch which includes, among other things, a stage coach, built in Concord, Massachusetts, in 1869 for stage line service in Montana at the time gold was discovered. It has traveled approximately 625,000 miles during its years of service. Mr. Phillips also owns the last herd of white deer to be imported from Russia, as well as deer from every nation, camels, bison and brahms.

DENTAL NOTICE

Dr. Frost, Dentist, will be in Muleshoe again Monday and Tuesday, July 22 and 23, only. Office, Room 6, Elite Hotel.

H. A. Bryant and wife; Beva Mae Williams and Bill Garrett are spending their vacation in the mountains of New Mexico.

Mrs. Ray Griffiths and children returned Thursday from Ruidosa, N. M., where they attended the Baptist Encampment.

THE MILK STREAM

"Texas has discovered the dairy cow—and the dairy cow has discovered Texas," says Beaman Fisher in the May issue of Texas Opportunities, publication of the Texas Power and Light Company.

"The milk stream," he continues editorially, "has come to irrigate the new agriculture of the Lone Star State. The cheese factories and the milk condenseries are taking their places alongside the cotton gin and the oil derrick. The cream separator is getting acquainted with the cotton bag, the grain sack and the peach basket."

"In error it has been said that dairying in Texas is of revolutionary aspect, as if a typhoon of enthusiasm had swept the State, tossing aside the existing modes of agriculture and leaving in its wake the contented Jersey calmly chewing its cud. The truth is that Texas started preparing for dairying way back yonder in the periods of molten rock and inland seas and bubbling islands—ages ago. Mother Earth began to concentrate the right soils for lush grass, to establish the even year-round climate, to scrape the steam-beds, to shape the topography of what is now a natural cow country. The same conditions that made Texas the greatest beef cattle country on the face of the earth are combining with other and more lately apparent conditions to create a state that shall rank first in the production of 'sweet cream butter, condensed milk, dried milk and other creamery products."

"Rural Texas is more genuinely thrilled over dairying projects than it has been over anything else in recent years. Texas farmers see in the dairy cow an answer to the problem of cotton depleted soils. They see in the dairy cow the assured weekly wages so comforting to their relatives in town. They see in this bovine specialist a rally point for all the crop rotation and balanced farming ideas. They like cash crops—as evidenced by their understanding adherence to cotton as a headliner through all the years, and so they take readily to the dairy cow."

TREASURY REPORTS

\$185,000,000 SURPLUS

The Government closed its fiscal year June 30 with its finances in a "highly satisfactory state," and with its record of balance budgets unbroken, according to a statement by the Secretary of the Treasury, Andrew W. Mellon, issued at the close of business and summarizing the results of the year's operation. The surplus of receipts over expenditures was \$185,000,000. Mr. Mellon

AIDE SHOT BY KAISER; BROTHER BARED SPY PLAN

How Kaiser Wilhelm, by killing one of his own officers during the early days of the war, opened the way for the crash of the great German spy system, is a hitherto untold story of the American Intelligence Division related by Thomas M. Johnson, former war correspondent, in the American Magazine.

The German espionage forces which played havoc with all Allied plans and made possible the successful German drives in March, 1918, was finally traced to Switzerland where it operated under the guidance of a single man known as "The Master." So frequently were Allied plans upset that the American Intelligence officers were called in to aid.

The American assigned to the task at last met in Berne one of two German brothers he had known in Germany before the war. From him he learned that the German's older brother had become a member of the Kaiser's military staff early in the war. An attempt was made to assassinate the Emperor and when he withdrew to his hunting lodge, he took the young officer with him as a trusted bodyguard.

One day the Kaiser came upon the soldier who being off duty, had unbuttoned his tunic. The soldier's attempt to fasten it was mistaken by the nervous monarch for an attempt to reach for a weapon and the Kaiser shot him dead on the spot.

The shock killed the officer's mother and made an invalid of his father. His younger brother, though in frail health, was forced into the army and then into the spy service. He was one of the few who knew of the workings of The Master, and finally told the American, out of revenge for the killing of his brother. The American, with Allied officers, rounded up the spies in Zurich. The master spy escaped from a hospital and into Germany, but his system was completely shattered and was never effectively rebuilt.

The Master, it was found, was responsible for smuggling Lenin and Trotsky into Russia to head the Bolshevik revolution, transporting them from Switzerland across Germany.

Public debt retirements, though somewhat less than heretofore, amounted to \$673,000,000 and carried the outstanding debt of the nation below \$17,000,000,000 for the first time since the World War.

Mrs. Roy Bost and children of Plainview were the guests of Mrs. I. W. Harden and Mrs. Geo. Nelson Sunday.

V. C. Nelson of Sudan was here last Wednesday.

Clean Clothing Wins Respect

A man may be worth many a dollar. But if he wears a dirty coat collar. Never tries to keep his pants in crease. Pays no attention to spots of grease. He still may be touted as a business winner. But he'll seldom be asked out to dinner.

Texans Are Proud of Their Concrete Pavements—

There is a reason for that! Portland cement concrete pavements meet every demand of the motorist. They are smooth, even surfaced, rigid, pleasing in color and skid-proof.

For the taxpayer it's significant that the greatest amount of portland cement concrete pavements have been built by those communities having the heaviest traffic and the most experience in building and maintaining pavements.

Portland cement concrete is truly the aristocrat of street and road paving materials.

What's Doing In West Texas

Paint Rock's exports during one week recently included one car of sheep and three cars of mixed stock. Eighteen cars of grain and 15 cars of wool have been shipped to date. Last years cotton crop is expected to be equalled this year.

Abernathy's \$15,000 Struve cheese plant is still running to capacity, milk being brought in from a wide territory. The present capacity of 10,000 pounds of milk per day can be doubled with the purchase of another large vat.

Hanlin is being experiencing a prosperous increase in residence building. Five new homes of permanent construction are being built in the most desirable locations. Modern improvements, as sidewalks, sewer, lights and natural gas are being used.

Hereford's Chamber of Commerce officials traveled 1200 miles in 17 days and visited seventeen towns and 15 counties, in securing \$4,500 for the Panhandle Plains, Inc., which will be used to advertise the opportunities that exist in the vast Panhandle Plains area for the farmer, homeseeker and investor.

Roswell, N. M. entertained the fourth annual motorcade of the WTCC on July 18 when the Pecos Valley-International district convention of the organization was held. An interesting program on which Governor Dillon and other notables had prominent parts preceded a visit to the irrigated farm section, the reception and entertainment.

Van Horn was visited by the WTCC motorcade on July 13, and the Big Bend district convention held there. Mayor R. E. Thomason, of El Paso, Col. R. Durill, Col. Perkins of Alpine, Dr. H. W. Morelock, of Sul Ross Teachers College, Hunter Metcalfe of Marfa, and President Bourland of the WTCC were speakers on the construction program.

Hale Center had shipped 300 cars of wheat and other grain by both elevators and independent shippers up to a little over two weeks ago. It is estimated that over 80% of the wheat has already been harvested. The 1929 crop promises to be one of the largest from the standpoint of yield in many years.

Stephenville's milk receipts at the local receiving station of the Southwest Dairy Products Company passed the 500 gallon per day volume recently. Another milk route is expected to be inaugurated soon to care for the supply.

Coleman County's increase in valuation over last year has been announced as \$1,500,000 the total valuation for this year being \$16,000,000. The new increase is due to oil and newly constructed buildings in Coleman, and these influences have operated about equally in causing the raise.

Pecos building permits amounting to \$40,000 were granted for structures downtown and along the highway recently. Construction of a \$40,000 building by the American Telegraph and Telephone Co. is expected to begin shortly. Plans for a new courthouse are being rushed.

Big Spring's Petroleum building was accepted by the directors recently and a formal opening held shortly following. The building was constructed by a stock company composed of local citizens. A \$10,000 bonus to be used for the purchase of the site was given by the Big Spring Chamber of Commerce.

Brady's newest building and loan association, the Central Texas, with headquarters at Brady was perfected recently with an authorized capital of \$15,000,000. This is the second building and loan association at Brady and was organized as an evidence of faith in the growth of the community.

TELEPHONE TYPEWRITER

At the end of 1928 there were 1651 stations using the telephone typewriter by which written messages may be transmitted by telephone and duplicated at any point desired. The invention was put into use in 1916, and at the end of that year only 22 stations were using it. The telephone typewriters are used by press services, large corporations, banks, police departments and in commercial work. With 245,000 miles of wire now devoted to furnishing this type of service.

Curtis Taylor, we understand, pulled a mean trick on County Attorney Pat R. Bobo a few days ago. We do not know just how it all came about, but it seems that Pat won a malted milk off Curtis, fairly and squarely, as the saying goes, and after they walked into the drug store and the drink was ordered, Curtis walked out and Pat had to pay for it. He says, however, that he thinks it was real nice of Curtis not to drink one himself. But how do we know but that the drink was charged to Curtis, after all?

PRESIDENT IS URGED TO CHECK UNLAWFUL ADMISSION OF ALIENS

An appeal to President Hoover to use every power at his command to stop the influx of aliens entering the United States in violation of law has been made by Representative Rankin, of Mississippi.

Before leaving for his home in Mississippi, Representative Rankin appealed to President Hoover to use every power at his command to put a stop to the influx of foreign immigrants now coming to the United States in violation of our laws.

According to the estimates of the Department of Labor more than 200,000 aliens are coming in every year unlawfully. They are being smuggled in in various and sundry ways. It was stated at Geneva recently by the president of the International Seaman Union that between 60,000 and 70,000 are bootlegged into this country every year as seamen from the ports of Bremen, and there is no telling the number coming in in the same way from other places.

'TIS A GINGHAM SEASON IN SUMMERTIME VACATIONLAND

It is very old-fashioned to think of gingham in terms of kitchen aprons and working house frocks, for gingham this year registers in the "classy" fabric list. The smart set having adopted gingham for its very own, is wearing it throughout the informal hours of the day. In gingham the style-wise play tennis, play-bridge, go swimming or stroll in dress parade on the beach. For town and country wear there are gingham ensembles, too, and they are too swapper for words.

Somewhere, although it does not show in the picture, there is very little to be found a gingham short jacket to "go with" the frock as shown here, for as suggested above the gingham ensemble costume is one of fashion's favorite themes this season. Simple checks, such as employed for the making of this dress, are no doubt in the lead, although gingham of any patterning "stands in" with fashion.

As practical as they are modish are the jacket-and-skirt gingham suits which women are wearing for shopping, for motoring and for general daytime wear. The skirts are often plaited, buttoning over sheer lingerie tuck-in blouses, while the jackets are that simply fashioned yet laundier without the least trouble. It adds to the sun of chic when a necktie of matching gingham is worn with the white or pastel tinted blouse. For the blouse, organdie, handkerchief linen or pique are favored materials.

Red and white gingham for the vacation-time ensemble is very popular. The entire costume is carried out in the color combination, even to the shoes and hat including probably a red leather belt and a pocketbook to match.

Along with its other accomplishments gingham has succeeded in making itself generally popular in the beach- and bathing-suit realm.

(©, 1929, Western Newspaper Union.)

Texas Story Is Being Told To World As Never Before

Texas is being advertised to the world as it never has been before. Not only are several of the larger cities expending thousands of dollars in advertising themselves in notable media throughout the country, but sectional groups also are being organized to help direct attention to Texas as a whole and to those sections in particular.

Thirty-six Panhandle-Plains counties are carrying on the work of the Panhandle-Plains, Incorporated, begun last year, and in even a larger way. Exhibits at fairs in the North, newspaper advertising and informative literature are being used, and the movement has the substantial backing and help of the railroads of that section.

South Texas, Incorporated, has been recently formed to promote the welfare of that part of the State, with a board of directors representing ten different sections within that area. Data is being gathered from all counties and communities interested and will be put before the people of the North and East with the purpose of selling Texas to them.

UTILIZATION OF BOXES URGED TO SAVE WOOD

Unlimited possibilities for developing and promoting woodcraft contests are offered those interested in boys' and girls' activities in the wooden box utilization plan of the National Committee on Wood Utilization of the Department of Commerce, the committee stated. The statement follows in full:

This plan calls for the creating of second-hand wooden boxes, crates, and odd pieces of lumber. For this purpose the committee has worked out 1,200 ideas for making useful and interesting articles from material frequently consigned to the furnace for want of a better use.

These ideas will be published in a series of pamphlets under the title "You Can Make It," the first of which, now ready for distribution, contains directions for making target boxes, work benches, scooters, submarines, game tables, and many other similar articles of interest, any of which lend themselves readily to use in the promotion of wood-handicraft contests.

Evidence of the interest and value of the committee's plan is shown by the hundreds of inquiries received from a wide variety of organizations located in various sections of the United States.

"The flying fox is not a fox," reads a line in a daily paper. Then what in heck is it?

The United States produces more than a third of the coal used in the world.

Helping To Build Texas

When the Knight dairy farm at Clarendon was burned, the barns were replaced and electrical equipment installed throughout, according to the Clarendon News, which says that every mechanical part of the work at the dairy from milking machines to the cooling system is now done by electricity. The Knight home also was completely electrified with a range, designed to lighten and brighten housework.

Hill County is grafting and top-working many native pecan trees, grafts being put in the main trunk and buds inserted in the limbs. By 1931, it is calculated the trees will be bearing paper-shell nuts and the prices received are expected to present market quotations, to be three to four times those paid for the native pecans.

Fifteen hundred and sixty-six carloads of Texas grapefruit were shipped from the Rio Grande Valley during the season recently closed, a gain of 530 cars over the total last year. This year's Texas crop—grown mostly in Cameron and Hidalgo Counties with some orchards in Willacy—was valued at \$1,600,000. Grapefruit census shows 2,696,403 grapefruit trees in Texas and when they all come into bearing within the next few years, there will be a distribution problem to be met and overcome.

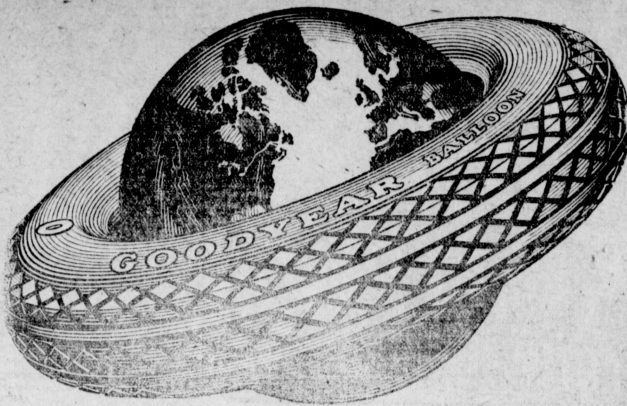

Texas is sixth in winter wheat production this year, according to Department of Agriculture estimates, which place the Texas crop at 31,013,000 bushels out of an expected total of 622,148,000 bushels, based on June 1 condition report of 79.8. The five-year average is 549,257,000 bushels.

Donley County has produced more than a half-million baby chicks and four-fifths of them have gone to Donley County farmers.

A steam power plant to cost \$1,-000,000 near the Southern Pacific bridge, according to announcement from President E. B. Neiswander of the Central Power and Light Co. in the Del Rio News.

With a lot of interest the results from the Texas sunflower crop are being awaited. Probably 3,000 acres of land in Dawson Co. have been planted to the crop, according to a Lamessa dispatch. One man made 600 to 700 pounds of seed per acre last year and sold it at 5c to 6c a pound, with the result that he announces he will plant 1,500 acres this year.

The Smith County blackberry crop will bring in \$200,000 this year, according to an estimate made after a survey of the 7,500 acres devoted to the crop.

Town Talk

Mr. and Mrs. W. T. Wilburn of Elberta, Texas, were the week-end guests of their sisters, Madames I. W. Harden and Geo. Nelson. Mr. and Mrs. Wilburn had just returned from a trip to Colorado.

Bob Anglin, secretary of the Clovis Chamber of Commerce and J. R. Winkle of the Evening News-Journal, were visitors to Muleshoe Monday. They were callers at The Journal office, while in town.

Mrs. H. C. Edmonds and baby were released from the Lubbock Sanitarium Sunday morning. They returned home the same day accompanied by Mr. Edmonds and their aunt, Mrs. Avant.

Mrs. Owen Head, who has been visiting her mother, Mrs. O. N. Robinson, since her illness in the Lubbock Sanitarium, returned to her home in Slaton Sunday.

T. I. Avant, of Erick, Oklahoma, together with his grandchildren, spent the week-end here with Mr. and Mrs. G. A. Anderson. They returned home Sunday afternoon, accompanied by Mrs. Avant who has been visiting her niece, Mrs. H. C. Edmonds.

Little Mary Dennis underwent a small operation at the Lubbock Sanitarium Thursday, from which she is recovering very nicely.

Ernest Huffman, foreman of the Mashed O Ranch has returned from an extended visit in Excelsior Springs, Mo., and more recently Mineral Wells, Texas.

Mr. and Mrs. Lem Chesher and brother, Mose Chesher, returned the latter part of last week from Hot Springs, N. M.

Mr. and Mrs. F. C. Franks and mother, Mrs. J. J. Franks, all of Sudan, visited relatives here Tuesday evening.

Mr. and Mrs. Ray Griffiths, Mrs. Fields and Mrs. Barron were in Lubbock Friday.

County Commissioner D. W. Danielson and mother of West Camp, are visiting in Galveston and other points.

Judge J. E. Adams and children left Sunday for Jola, Texas, to visit the Judge's parents.

Mr. and Mrs. Frank Sloan of Sudan were the Sunday guests of Mr. and Mrs. Forrest Squires.

Mrs. J. E. Adams is visiting her sister, Mrs. Karl Kunkle, at Groom, Texas.

Mrs. A. J. DeBord is visiting her daughter, Mrs. D. A. Davis, at Portales, N. M.

Mr. and Mrs. M. S. Stidham were in Clovis Thursday transacting business.

H. C. Edmonds spent Thursday night in Lubbock with Mrs. Edmonds and baby.

Mr. and Mrs. Biard Dennis and children returned home Saturday from Lubbock.

Mrs. R. J. Klump was in Clovis Monday.

Messrs. G. A. Anderson of this city and T. T. Avant of Erick, Okla., spent Saturday night in Lubbock.

Woodard Lee of Sudan was a Muleshoe visitor Saturday.

A number of young people of Muleshoe, attended a dance at the home of Chunky Morris last Friday evening.

R. A. Thompson and son, Aubrey, were business visitors in White Deer Thursday.

Rev. W. B. Hicks left Thursday morning for Guree, where he will conduct a ten day meeting in the Methodist church.

Rev. H. B. Strickland was in Amarillo Thursday on business.

Bill Elrod and Aubrey Thompson will leave Friday for a ten days vacation in the mountains of New Mexico.

Mr. and Mrs. R. A. Thompson were visitors at the Clovis Airport last Sunday.

Mrs. J. M. March and Mrs. L. Sikes were in Lubbock Thursday shopping.

F. J. Short was in Olton Sunday

NOTICE

Saturday, August 3, at Baileyboro, Texas, the Trustees of the Baileyboro Independent School District will sell at Public Auction, the building used last year as a Teacherage.

G. L. Blackshear, Secretary.

NOTICE

Saturday, August 3, the Trustees of the Watson School District will take bids on a tar and gravel roof to be put on the Watson school building.

W. J. Florence, Secretary.

Mr. and Mrs. Ray Griffiths were in Lubbock Saturday where Mrs. Griffiths received medical attention.

Mrs. D. L. Butts and son, Richard, were shopping in Clovis Tuesday afternoon.

Mr. and Mrs. R. J. Klump and Mr. and Mrs. Howard Carlyle motored to Clovis Sunday

DENTAL NOTICE

Dr. Frost, Dentist, will be in Muleshoe again Monday and Tuesday, July 22 and 23, only. Office, Room 6, Elite Hotel.

NOTICE

On the 27th day of July, A. D. 1929, at two o'clock the trustees of the West Camp Independent School District No. 4, will take sealed bids on two school truck routes consisting of about twenty miles each. The drivers must furnish comfortable truck bodies. The trustees reserve the right to reject any and all bids.

Watch How the New Ford Holds the Road

The new Ford is a great car to drive because of the way it holds the road even at high speeds.

This roadability is due to the low center of gravity, the semi-elliptic transverse springs, the Houdaille hydraulic two-way shock absorbers and the low ratio of unsprung weight to sprung weight.

Come in and arrange for a demonstration. You'll find this roadability feature of the new Ford as outstanding as its beauty, speed, comfort, safety, reliability and economy.

Perfect balance is a great thing in a motor car.

We Do Not Talk Price Range. We Demonstrate Quality, Performance and Service

SHERIFF'S SALE

THE STATE OF TEXAS,
COUNTY OF BAILEY.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale, issued out of the Honorable District Court of Bailey County, of the 24th day of June, 1929, by J. L. Alsop, Clerk of said Court, for the sum of SIXTEEN HUNDRED fourteen and no one-hundredths (\$1614.00) Dollars and costs of suit, under a Judgment, in favor of E. R. Hart in a certain cause in said Court, No. 490 and styled E. R. Hart vs. R. L. Brown, et al, placed in my hands for service, I, H. A. Douglass, as Sheriff of Bailey County, Texas, did on the 28th day of June, 1929, levy on certain Real Estate, situated in Bailey County, Texas, described as follows, to-wit:

Parts of Sections Nos. 39 and 40, in Block Y, of the W. D. and F. W. Johnson's Subdivision No. 2, in Parmer and Bailey Counties, Texas, and the said tract of land being wholly in Bailey County, Texas, and particularly described as: BEGINNING at an iron stake marked SE 40, same being the Southeast corner of said Section 40, Block Y; Thence North with the East line of said Section 40 and the West line of Section 53, 598.5 feet, a wooden stake; Thence North 54 degrees and 52' West 211.6 feet; Thence South 35 degrees and 8' West 395.3 feet to a wooden stake on the North line of the Pecos and Santa Fe Railway right of way; Thence with the North line of said right of way South 54 degrees and 52' East 248 feet to a railroad monument on the Block Y; Thence East with the North line of said Section 39 and the South line of said Section 40, 174.4 feet to a railroad monument on the North line of said Railway right of way; Thence with the North line of said Railway right of way South 54 degrees and 52' East 170.3 feet to the East line of said Section No. 39 of said Block Y; Thence North with said East line of said Section 39, 98.5 feet to the place of beginning, and containing 5.01 acres of land, as against the said defendant R. L. Brown and also foreclosing said liens as against the other defendants in said suit, to-wit: D. P. Brown, The Continental Gin Company, and Whaley Lumber Company, as such liens existed on the 29th and 19th days of July, 1923, and the 29th day of December, 1924, respectively; and whereas said judgment also foreclosed a lien against said property in favor of defendant D. P. Brown as against the defendants R. L. Brown, The Continental Gin Com-

pany, Fairbanks Morse and Company, and Whaley Lumber Company; and sale of such property be insufficient property shall sell for more than enough to satisfy said judgment, costs of suit and costs of such sale then the balance for which such property may be sold should be by the officer executing the order of sale paid over to the defendant D. P. Brown, and levied upon as the property of R. L. Brown et al, and that on the first Tuesday in August, 1929, the same being the 6th day of said month, at the Court House door, of Bailey County, in the Town of Muleshoe, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale, I will sell above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said R. L. Brown et al.

And in compliance with law, I give this notice of publication, in the English language, once each week for three consecutive weeks immediately preceding said day of sale, in The Muleshoe Journal, a newspaper published in Bailey County.

Witness my hand, this 28th day of June, 1929.

H. A. DOUGLASS,
Sheriff, Bailey County, Texas.

CONSIDERATION GIVEN TO DEVELOPMENT OF AIR MAIL IN SOUTH

A new network of civil airways throughout the country for the transportation of domestic mails is being worked out by the members of the Interdepartmental Committee on Civil Airways. It was stated by the Post Office Department.

The Committee is headed by the Second Assistant Postmaster General W. Irving Glover. The committee, it was explained, has before it several proposals for new air-mail lines but has reached no definite conclusions in regard to them.

According to those who are studying the details of these proposals, serious consideration is being given to the development of new air-mail connections in the southern states.

URGE REFORM IN HOUSE OF LORDS

Would Limit Membership of British Body.

London.—The house of lords is demanding a reform which would limit its membership and provide for certain peers to be elected.

It seems likely that the country will eventually adopt some sort of plan like this, since it is widely asserted that the present constitution of the British upper house renders it not only impotent but inefficient. There are many who would like to see it on a par with the United States senate. Others would like to see it abolished altogether.

Would Limit Members.
This situation is recognized by the house of lords itself. The latest move was to vote by 52 to 3 that "it is desirable that early steps should be taken to limit the number of members of the house of lords and to make provision for an elective representative, or nomination as would insure to each political party a fair position in the house of lords."

Three Parts to Parliament.
Theoretically, parliament is divided in three parts, the king, the house of commons and the house of lords and the assent of each component is required before an act of parliament can become a law, with certain exceptions. Actually, the house of commons makes the laws, because the king supports its decisions and the commons control the lords with the threat of creating any number of peers needed to pass a bill through the house of lords should the upper house prove recalcitrant.

Hard to Shake Belief in Good and Bad Luck

It is hard to overcome such ingrained myths as the "blitzy" superstition. To any reasonable person you can demonstrate in two minutes that there is nothing in it. But these beliefs in good and bad luck are not kept going by people capable of reason. They are the beliefs of the unthinking mass with whom it is useless to argue.

Parnell, the famous Irish statesman, was one of the many prominent politicians who have been afraid of it. His mother was responsible for it. Her sister was a woman of character and intellect. One day she was getting into a train at Dublin when she noticed the number of the coach was 30. "I won't go in that," she declared flatly; "it's unlucky." The lord mayor, who was sitting there off, asked why. "Because of multiple of 13," she said, and climbed into another carriage—a third-class one, although she had a first-class ticket. There was no other first-class coach but the "unlucky" one.

Rites of Baptism

Immersion is unquestionably the most ancient form of Christian baptism. The word "baptism" is derived from the Greek "bapto" or "baptize," literally meaning to immerse, bathe, or wash. Baptism in the Latin or Roman Catholic church was originally by immersion. That method prevailed until about the Twelfth century. In some places, individual Catholic churches continued to baptize by immersion until only a few hundred years ago. According to the ritual now authorized by the Catholic church, baptism is performed by laying the candidate's head—Exchange.

HOW TO KEEP FROM GROWING OLD

Always drive fast out of alleys. You might hit a policeman. There's no tolling.

Always race with locomotives to crossings. Engineers like it. It breaks the monotony of their jobs. It is always a good test for your car.

Always pass the car ahead on curves or turns. Don't use the horn because it might unnerve the other fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your rights.

Always lock your breaks—when skidding. It makes the job more artistic. Often you can turn clear around.

Always drive close to pedestrians in wet weather. Dry cleaners will erect a monument to your memory.

Always try to pass cars on a hill when possible. It shows your bus has more power.

Never look around when you back up. There is never anything behind your automobile.

A few shots of booze will enable you to make your car do real stunts. For permanent results quaff long and deeply of the flowing bowl before taking the wheel.

Drive as fast as you can on wet pavements. There is always something to stop you if you lose control—often a heavy truck or a plate glass window.

New drivers should be shown how to drive fast in heavy traffic. It gives them the experience every motorist should have.

Always speed! It looks as though you are a mas of pep even though an amateur driver.

Never stop, look or listen at railroad crossings. It consumes valuable time, and besides, nobody believes in signs.—American Mutual Magazine

The United States produces about two-thirds of the world's output of petroleum.

Eleven scores were made in the baseball game at Olton last Sunday afternoon. Muleshoe made one of 'em, and Olton made the rest. Olton is scheduled for a game here next Sunday.

Saves Your Damp Grain

"Saved His Crop"
"We had a bin of 500 bu. which heated and moulded until we could not want getting into the bin to scoop but by taking it out with the Blower and Re-Cleaner it was cleaned, aired and cooled as the grain buyer took it without delay, otherwise it would have been a total loss." —Grosvenor Line

You stop heating and moulding of damp grain—greatly increase its value when you elevate, aerate and condition it with the

Liberty Grain Blower

No matter how damp your grain, the Liberty will thoroughly air and cool it in one simple inexpensive operation. This efficient Blower also removes dirt, smut, weevil, etc. sharply reduces dockage losses. Users have increased the value of their grain as much as 7% a bushel. One man handles 3000 to 5000 bushels threshed or shelled grain a day with the Liberty. Done away with all expenses for manual scooping.
