June 20 Scrap Iron Day

At this date there has been quite a lot of scrap sold and shipped out. Spur reports 1,177,560 pounds of iron and cast, and 25,000 pounds of old tin shipped, and there is about 40 tons on hand. McAdoo reports about 20 tons of all kinds shipped from there.

Scrap iron is just about worthless about the place, and whatever price is secured for it is just that much saved.

The County Committee on Scrap Iron under the supervision of the County War Board has designated Saturday, June 20, as Scrap Iron Day. All persons who have a surplus of scrap iron about the place, such as old worn out cultivators, tractor parts or any other piece of scrap iron, can lend great assistance by selling it on the market and get it to the different factories to be used in making war materials.

Milams Starts Nine Cent Sale

Milam's Five Cent to One Dollar Store is featuring a 9-cent Sale starting Friday morning. If you will read their advertisement in the Times this week you will find many good bargains listed. There are many other bargains not listed and if you will visit their store you will find them there. Trade at Milam's this week end for the specials in variety store merchandise.

Not Boasting; Just The Record

Havey Holly says any one can learn to play golf if an old farmer like him can learn the game. He stated he is not so hot, but he is good enough to enjoy a game with anyone and the fellow who has more fun than he does at the game just has to be a bigger man.

Another feat of the golf record is that Frank Graham is going around with his chest all stuck out, reporting that he made a 78 on 18 holes recently. That is a good score for Frank or any other Spur player, and he has a right to advertise such skill.

People who are not playing golf are missing some real enjoyment. The course is in fine condition, and those new grass greens are the stuff. The new green at No. 9 should be ready before long—if the grass will grow. A new green is being planned for No. 6 soon. If you have not paid your dues get them in and help those in charge to keep the golf course in Number One condition.

The News Reel At The Palace

Any one will enjoy the news reel at the Palace Theatre this afternoon and tonight. See the great need of conserving our rubber supplies, the raising and rebuilding of the Normandie, the demonstration of war in Mexico, and how Chile sends our country nitrate to assist in winning the war. You will find the news reel both interesting and instructive.

Rev. Stokes To Preach At Girard

Rev. A. P. Stokes will preach at the Girard Baptist Church beginning Friday night, June 19, and continue through Sunday night, June 21, according to announcement received from Girard Church. Such subjects as:

- The Last Stand of the Beast.
 - The Millennium
 - Satan's Origin and Destiny
 - The Eternal State
- Will be discussed. Everybody is invited to hear these messages.

J. L. Beechley, of Wichita community, was attending to business matters and greeting friends in Spur Saturday.

City Transfers Band Money

The City Commission ordered a portion of the funds which came in through the band tax to be paid to the Spur School Board Tuesday. The amount paid was \$750.00 which the School Board will use to pay the current expenses of the Spur School Band. If taxes were paid in full last fall and winter, the amount accumulated by the band tax would amount to around \$1,400, which will be enough to give our school band a very nice rating in the state.

Mr. and Mrs. H. E. Speer returned Sunday from Ruidoso, where they spent a week in a family reunion. They report a great time and the mountain climate is pleasant.

Boy Scouts To Encampment

Scoutmaster W. N. McCombs left Sunday afternoon for Camp Post with a number of Boy Scouts of Troop 35 where they will spend this week doing Scout work. A number of these Scouts received advancement at the Court of Honor held last week, and are now ready to continue their work for further advancement.

The Scouts will be engaged in camping activities, keeping of grounds, merits on camping work, woodcraft, trailing, nature study, swimming and other outdoor activities.

Members of Troop 35 at camp this week are: George Walker, Thurman Moore, Jr. Bob Thurston, Homer Charles Wilson, Alfred Walker, Pike Dobbins, Ned Blackwell, Billy Joe McCombs, Charlie Kimmel and Wm. D. Starcher, Jr.

Troop 36 of Spur, will join in the encampment next week with Troop 117 at Dickens.

A Message To The Citizens Of Dickens County

The writer has just received a letter from Austin stating that each County will have a quota for May June and July and if we don't meet them, the Government is going to make it compulsory for each person to buy Stamps and Bonds. We have made May quota but what about June and July, you are the answer. What are you going to do?? Ships, Planes, Tanks, Cars, Houses, and the rest of the long list of defense necessities cost money. Present plans, according to the most recent available figures, call for the expenditure for defense purposes of more than 60 billion dollars. This figure, as it stands, is almost beyond comprehension. It is more easily understood when it is considered that a 35,000-ton battleship, such as the U. S. S. North Carolina, cost 70 million dollars; that it takes 50 million dollars to build an aircraft carrier; 20 to 30 millions for a cruiser. A single four-engine bomber plane cost nearly half a million dollars. We need large numbers of these flying fortresses, as well as lighter bombers, dive bombers, pursuit planes, and still other types of aircraft, for defense against present-day methods of aggression.

Why Borrow from Savings? Financing expenditures in large part by borrowing directly from the people will result in certain definite advantages, which may be summed up as follows:

1. Every individual will have a chance to do his part in the Defense Program, to feel a sense of personal participation in our united effort.
2. Every individual will have available a ready means for systematic saving to meet future needs.
3. Well-distributed holdings of Defense Savings Bonds will serve as a safeguard to the entire country in the period of adjustment which may eventually follow the reduction of defense activities and the return to a normal peacetime economy. Reduced earnings and some unemployment must be anticipated during the change. Holdings of United States Defense Bonds, redeemable for cash on short notice, will act as reserves quickly available in time of need.
4. By lending to the Government all that can be spared from current incomes, people will not only provide funds for themselves, but you are whipping the Japs and Germans, so lets get the Job done.

Swimming Pool Now In Operation

The City Swimming Pool in Swenson Park is now in operation, and a number of people are enjoying the high dives and different strokes. The pool will be open every day except Mondays, and that day has been designated for draining, cleaning and refilling the pool in order that people may have a good sanitary bathing conditions.

Ross Culbert and Joe Ericson are in charge of the pool and both of these hold certificates in life saving. Life guards are on duty all the time the pool is open to the public.

To Organize Down Town Sunday School Class

Through the kindness of the management of the Palace Theatre, we have secured the use of the Spur Theatre building, one door south of Chandler Funeral Home, for the purpose of conducting a down town Sunday school Class every Sunday morning. This Sunday school Class will begin Sunday morning, June 21, at 9:45 o'clock.

All men who are not attending a Sunday School Class in any church in town, are invited to become members of this new down town Sunday School Class. You will elect your own officers and it will be your Sunday School Class. Watch for further announcements.

Farmers And Ranchers Get More Water Facilities

Soil conservation work is keeping pace with the production of planes, tanks and guns. Farmers and Ranchers are doing their part in this war by producing food for the boys in the Armed Forces and the countries fighting on the side of the Allied Nations.

This past week agreements were worked out on the H. D. Black and T. O. and Frank SoRelle ranches for a complete soil and water conservation program. W. R. Gannon, Travis Smith and Bert Wallace were building terraces to conserve soil and moisture.

Water Facility plans were completed last week on the farms of Norvel J. Rogers, J. A. Gallagher, T. J. Perkins, Will Edger and J. L. Peak. They will have plenty of water for home use, livestock, and irrigation of their farm gardens. Water wells were drilled on the W. R. Williams and E. H. Hairgrove farms, and they are now building their windmill towers and installing the windmill and pumping equipment. A water well is also being drilled on the J. W. Vickery farm.

Frank SoRelle is digging a stock tank on his ranch to insure an adequate supply of stock water.

Mr. and Mrs. M. C. Golding returned Monday from a visit with relatives and friends in Austin, Houston and other points. They were in Austin at the commencement exercise of the University of Texas where their son, Sylvan, is a student. He returned home with them.

Luther Powell Honored With Barbeque

A number of friends of Luther Powell met at the Swenson Park Friday afternoon and enjoyed a chicken barbeque in his honor. Mr. Powell, who is a veeran of the First World War has volunteered and is going into Army service this week. The barbeque was given by Charlie Powell, his brother, with a few friends joining in for the occasion.

Albert Power and Weldon Grimes were the chief persons who did the barbeque work. Another feature added to the occasion was some old time oven biscuits prepared by Olen Arthur. The event brought back memory of former occasions, and those present, most of them War Buddies, sat around at the feed and related events of the First World War.

Those enjoying the occasion were: Lonnie Lewis, Lawis Lee, A. O. White, Charlie Powell, Weldon Grimes, Albert Power, Olen Arthur, E. C. Clinkscales, Bob Weaver, Lee McCombs, E. L. Caraway, C. S. Kearney, R. L. Westerman, Cecil Fox, and the honoree, Luther Powell.

Allred To Speak At Lubbock Tonight

James V. Allred

Judge James V. Allred, candidate for United States Senator for Texas, will speak in Lubbock tonight from 8:00 o'clock until 8:30. The address will be broadcast over KFYO.

Friends will entertain Judge Allred with a dinner at the Hilton Hotel at 7:30 o'clock after which he will speak to the people of the South Plains. A number of people from Spur are planning to hear Judge Allred tonight.

Marriage Announced

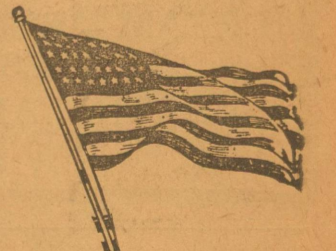

Announcement has been received in regard to the marriage of Miss Betty Lynn Brown and Johnnie Nichols which occurred in Lubbock August 28, 1941. The reason for keeping this event secret is that Mr. Nichols was attending school at New Mexico Military Institute at Roswell, and they do not permit married men to attend school there.

The bride is the daughter of Rev. and Mrs. C. R. Brown of Spur. She is a graduate of Spur High School and was a student at Arlington one year. She has been with the local Western Union Office as operator until a few days ago when Mrs. Bobbie Wolfe took over that work. The groom is the second son of Dr. and Mrs. P. C. Nichols of Spur, and is a graduate of the Military College at Roswell and was recommended to the U. S. Calvary for the rank of second Lieutenant which he will receive soon.

They are at home in Spur at present.

G. C. Overstreet, of Midway community, was in Spur Saturday doing some trading and talking with friends.

Notice To Mothers

We have around 80 pictures of Boys who are in the armed service of our country, and more are being received. If you have not sent us a picture of your boy in service, we hope you will do so soon. Let's remember the boys at the front. The Pictures are in our window. Speer's 5c to \$5.00 Store

ANOTHER SOLDIER BOY WRITES

Pvt. Henry Johns wrote a very interesting letter to the Times recently. He is at Aberdeen, Md., and has charge of the paint shops in the Army. He seems to think he will be in Maryland for sometime as he has been transferred to the main company there. Any one desiring to write him may address him at 40th Ord. Co., Tng., Aberdeen (P. G.) Maryland. He is doing fine, but stated he is lonely.

Pvt. Howard Richey, of Fort Bliss, visited his parents, Mr. and Mrs. A. J. Richey, over the week end.

PVT. JAMES T. HANEY GRADUATES FROM AIR CORPS SCHOOL

Pvt. James T. Haney, 19, son of Mr. and Mrs. J. B. Haney of Afton was graduated May 29 from the world's largest Air Corps Technical School, Sheppard Field, where he has attended classes for the past five months. He was attached to the 315th Technical School Squadron here. Now qualified as one of eight specialists necessary to keep one plane in the air, he is eligible for assignment to any unit maintained by the Air Corps.

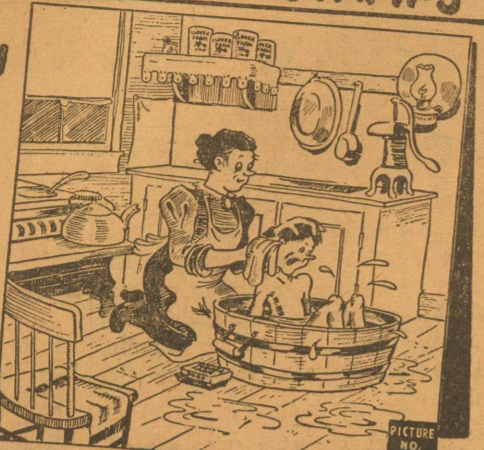

NOTICE TO PARENTS

When your son in the Army or Navy visits home, we would like to know about them. If they write home it will be of interest to let us know since there are friends who would like to know about them. There are more than 200 boys from Dickens County in the armed service.

Warning To Vacationist

Some timely advise to vacationists concerning the proper precautions to be used in water sports was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

It was pointed out that, in view of wartime restrictions, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes, rivers, and ponds of unfamiliar depths and currents, and without the usual lifeguard supervision associated with bathing beaches and commercial swimming pools.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted; "nevertheless, they possess dangerous possibilities if the rules of safety through carelessness or thoughtlessness, are disregarded."

The State Health officer outlined the following simple rules for bathing and swimming safety.

1. At least one hour should elapse after meal before entering the water.
 2. Upon the first indication of fatigue, come ashore and call it a day. Don't re-enter the water.
 3. If becoming chilled, leave the water immediately.
 4. Do not enter the water when overheated.
 5. Learn to float. This is most important.
 6. Never attempt to rock a boat in a spirit of fun.
 7. Never swim in water that may be polluted. Swimming close to or even a few miles below sewage outlets is inviting the possibility of acquiring disease.
- "Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is especially desirable at this particular time when the whole nation is tense and under a strain," Dr. Cox said. "It is by no means advisable to eliminate these excursions from summer programs, but it is important that they prove beneficial and not disastrous."

Allred Starts Campaign In Texas

FROM ALLRED HEADQUARTERS

With the preliminaries behind him, James V. Allred, candidate for United States Senator, swung into the main bout this week, taking his candidacy direct to the voters on the wide plains of West Texas.

In old-time fighting trim, the former Governor let loose the fire of campaign oratory in a series of stump speeches.

Allred unfolded more chapters in the "Book of O'Daniel," which in his opening Wichita Falls speech he promised to reveal strictly from the written record during his campaign.

Leveling a blast at those obstructions in congress who blocked fortifications at Guam and other Pacific outposts, Allred declared:

"The blood of every boy who fought at Corregidor or in Java is upon the hands of the isolationists with whom our junior Senator aligned himself by his first speech and vote."

Allred quoted from the "Book of O'Daniel" the present Senators vote against extension of selective service after he "had pledged himself to help the President 'get the job done.'"

Before heading into West Texas, Allred appeared before the state democratic executive committee in Austin Monday to champion the right of service men to vote in party primaries.

Allred put the weight of personal argument behind his request, first made in a letter to E. B. Germany,

chairman of the committee, that the committee clearly define that right so that no county official anywhere in the state would turn service men away from the ballot box.

The candidate opened his West Texas drive Tuesday before political gatherings in El Paso, and from there went to Big Spring. During the week he will have addressed political meetings in Lubbock, Amarillo and Childress.

Will Edger, of Dickens, was looking after business affairs and talking with friends in Spur Saturday.

Towns Asked For Sponsors At Cowboy Reunion

Every city and town in West Texas is being invited this week to name a cow girl sponsor for the Texas Cowboy Reunion to be held in Stamford July 2, 3 and 4, according to H. G. Andrews sponsor chairman man.

The cowgirl sponsors again will be a colorful part of the arena shows this year, with the judging taking place at regular performances. Judging will be done this year by the regular rodeo judges. Riding ability of the sponsor will rate 40 per cent in the judging, while her riding togs and equipment will be judged 15 per cent. The performance of her horse will be considered at 30 per cent, and its confirmation and equipment at 15 per cent.

First place winner will be given a \$135 saddle by the Texas Cowboy Reunion, and second place winner will receive a belt with a special ruby-set sterling silver buckle. This prize is being awarded by Holland Jewelry Company of San Angelo. Bits will be awarded for third place and spurs fourth.

All sponsors must be over 16 years of age and no appointments can be accepted after June 30.

Mrs. H. G. Zachary has been named hostess for this year's show by the Texas Cowboy Reunion. She will be assisted by Annette Carothers, daughter of Mr. and Mrs. G. C. Carothers, in entertaining the visiting sponsors. Miss Carothers was named sponsor for Stamford by the local Chamber of Commerce. Former first prize winners and Miss Carothers are not eligible to compete for prizes.

Sponsors will be honored with a ball in the Sponsors Pavilion on the opening night of the Reunion when only they, their escorts and invited guests will attend. Open dances will be held on the nights of July 3 and 4.

In addition to being part of each rodeo performance, the cowgirl sponsors will add a colorful section to the big opening parade on July 2, and will also be part of the grand entry parade at each show.

WILSON-STAPLETON NUPTIALS READ

W. T. Wilson and Mrs. Georgia Stapleton were united in marriage in the dining room of the Hotel Wilson last Saturday, June 6. J. H. Pritchard, Church of Christ minister at Dickens, read the rites in the presence of a few friends.

The bride has been in charge of dining room at the Hotel Wilson many years and is well known throughout the country. The groom is a former farmer, and built the Hotel Wilson many years ago. He took charge of the management of the Hotel a few years ago and has been in charge ever since.

The Times join their many friends in wishing them many happy days and much success as life partners.

H. L. Futch, of Dickens, was transacting business and visiting friends in Spur Saturday.

Jack Parker, of Midway, was attending to business affairs and greeting friends in Spur Saturday.

Mr. and Mrs. Ira Slayden, of Dickens, were in Spur Saturday doing some trading and meeting friends.

Judge Nelson Visits Spur

Judge E. C. Nelson, of the 47th District Court of Texas, was in Spur Friday and Saturday meeting the voters and visiting friends. He was accompanied by Mrs. Nelson and they spent Friday night with their friends, Mr. and Mrs. Lonnie Lewis.

Judge Nelson, whose home is in Amarillo, is a candidate for the office of Chief Justice of the Court of Civil Appeals, Seventh Judicial District, which is also located at Amarillo. Judge Nelson stated he had served as judge of all the Courts below that Court and feels that any man in the law profession should be inclined to go higher. He stated he enjoyed his stay in Spur and spoke very highly of the type of citizenship found in Dickens County.

He served as County Judge of Floyd County when just a young lawyer and is now serving his second term as District Judge of the 47th Judicial District, defeating Judge Henry Bishop for that office.

Louie Davis, of Haskell, was in Spur Monday talking with friends and looking after business matters. He had just received some pictures from his son who is in the Aviation Department of the U. S. Army.

Rev. W. F. Markham, of Highway community, was in Spur Saturday attending to business matters and talking with friends. He stated that Mrs. Markham's health has not improved too much yet.

J. D. Guyer, of Croton, was in Spur Saturday looking after business matters and enjoying friends.

When Hounds Fall A-Fighting, The Hare Gets Away

Dan Moody took after James V. Allred; Allred took after W. Lee O'Daniel; and O'Daniel, since he was taking after nobody, apparently was leading the pack.

What Moody didn't like about Allred appeared to be:

1. Moody says the 40-hour-week should apply to defense industries and Moody thinks Allred ought to speak out on this question.

2. Moody thinks Allred's advocacy of free laundry and free bus rides for soldiers "is a means of vote-getting."

3. Moody thinks Allred should have specified that it was a gas pipeline and not an oil pipeline, which he tried to get built to the east when governor.

(The first two constitutes a matter of policy for Candidates Allred;

but as to the last, had the gas pipeline been built it could have been converted.)

What Allred didn't like about O'Daniel was, Allred promised to be unfolded chapter by chapter. The first chapter dealt with the junior senator's isolationism:

1. Running for senate, O'Daniel compared his opposition in the Texas Senate with the "loud-mouthed senators like the Wheelers, Clarks, Nyes and Vandenberg ... who tried to prevent our president from helping the common citizens."

2. Yet O'Daniel as a senator cast his first vote alongside the four named gentlemen - Wheeler, Clark, Nye, Vandenberg, in opposition to expanding selective service.

3. Going to Washington "to help the president" O'Daniel denounced a presidentially-sponsored bill as "the path of the dictator."

4. While the President was at sea with Winston Churchill, the junior senator facetiously broadcast that the President might be "hiding out" because O'Daniel had been pictured

as having "horns" by "Texas political newspapers".

What O'Daniel had to say in 1939 -- "I don't think we are near war. We hear a lot of howling in Europe, but they aren't going to do us any harm over here ... We should devote a great deal of time to building up our great states instead of worrying about the countries over there. ON MAY 29 1941

-- "You have perhaps noticed by the bold headlines in the politically controlled newspapers that we have a few loud-mouthed senators here in Texas who have spent most of their time criticizing the Chief Executive of this State and trying to prevent Him from helping the common citizens, just like a few loud-mouthed United States Senators like THE WHEELERS, CLARKS, and NYES and VANDENBERGS - - - have constantly criticized and tried to prevent our great Chief Executive of the United States from helping the common citizens of this nation - - - In this dire emergency our President needs help. I want to help the Pres-

ident ... I want to help get the job done ..."

On landing at Washington at that very time the President was holding a rendezvous at sea with Prime Minister Churchill. He broadcast over Radio.

-- "Maybe he (referring to the President) had read what some of the Texas political newspapers printed about me and got the idea I had horns and thought it best to hide out and take to the high seas before I arrived. The folks around here say it is the first time any president ever got completely lost so the people did not know where he was." MAY 1 1942

To you Mother's and Father's, I have made mistakes but I want to stay in Washington with all my mistakes.

The new Area Director of the Farm Security Administration, U. S. Department of Agriculture, is Jesse B. Gilmer, a native West Texan. He succeeds Wilson Cowen, recently appointed Commissioner to the United States Court of Claims, Washington D. C.

The Federal agency's rural rehabilitation program over which Gilmer has charge includes all of West Texas, the state of New Mexico and the Oklahoma Panhandle. The Area Office is at Amarillo.

Born in Edwards County, Gilmer attended schools in Texas and New Mexico. An employee of the U. S. Department of Agriculture since 1934, his rise in the department has been phenomenal. He began as a clerk in the Department's land utilization program. He had served as assistant regional director in the Amarillo office since 1938.

The Farm Security Administration finances operations of low-income farm families and provides technical assistance and guidance in farm and home programs through its county office personnel.

VISITING RELATIVES AND FRIENDS HERE

C. McClain, of Eugene, Oreg., is here visiting his nephews, A. E. McClain and Rev. Charlie McClain, and families of Red Mud community. Mr. McClain stated he is a native of Tennessee and came to Texas in 1898 settling in West Texas. He remained here until 1909, leaving this section just a few months before the opening of Spur.

He has been away from here seven years, but stated he enjoys coming back and calling on his old friends. Mrs. McClain passed away two years ago after they had lived together 57 years. Mr. McClain stated he is 81 years young, and he could easily pass for 65 to 70 years of age. He stated he feels that his longevity is due to his habits of eating and the fact that he enjoys young ideas.

IT WAS A SHORT STUNT

For some reason the Dickens County Times has omitted the name of John A. Hamilton, candidate for District Attorney for the 110th Judicial District, from the announcement column. A number of friends have been asking Judge Hamilton if he is in the race for re-election and we can announce that he is out for re-election to the office of District Attorney. It was a short sighted stunt on the part of the Times force and a correction is being made.

Big Victory Sale

Going Into The Army Service

I have qualified for Officers Training School and am waiting to be called. In view of the uncertainty when I will be called we have decided to close out our complete line of Furniture starting Saturday June 20th.

In announcing this sale we would like to take this opportunity to thank our Good customers for their patronage thru the past three and half years. It has been a pleasure to serve you and we do appreciate the business you have given us, we realize that had it not been for you we would not have stayed. We know we have made friends and we are not saying Good bye, but so long until we get back from Tokyo.

We are going to express our appreciations further in offering you some of the Biggest Bargains in Furniture you have seen for years. We are going to sell furniture from 15 to 20% lower than we have ever sold it and with raising wholesale cost in the past two years that is something.

I would like to Offer a few of the many good reasons why now is the best time to buy furniture:

- First due to Government restrictions on springs any piece of Furniture that more than 5% of its weight consists of Springs has been Frozen. Some of the Items that fall in this class are: Divans, Big Rest Rockers, Studio Couches, Living Room Suites, Inner Spring Mattresses Bed Springs, ect.
 - Second Due to restrictions on deliveries most of the Wholesale houses that did deliver the furniture to us have discontinued deliveries. This is quite an item because the freight on the average living room suite and bed room suite will run from \$5.00 to \$10.00. As you know the ultimate consumer has to pay for the added cost.
 - Third and by no means the least is the fact that so much of the merchandise you will not be able to buy this fall.
- I don't think it would be unpatriotic to buy the furniture you need now because with the money you can save by buying now you can buy more Bonds for Uncle Sam.

Dr. Brannen Attends Opening Of Lake

Dr. M. H. Brannen, a member of the Brazos Valley Board, returned last week from Palo Pinto where he had been to attend the opening of the Possum Kingdom Lake to fishermen. A very nice opening ceremony was conducted in the Possum Kingdom Park near the lake shore. W. J. Tucker, secretary of the Texas Game, Fish and Oyster Commission, made the principal address. George Channing, chairman of the Brazos Valley Board, made a short address.

In describing the exercises and interest in regard to the opening of the lake Dr. Brannen said that it is almost impossible to calculate just how many people were present. He stated that the lake was open for fishermen at 12:00 o'clock midnight, and that from that hour on there was plenty doing on the lake shore.

He stated that those who are capable of making an estimate of people, said there were between 12,000 and 15,000 people on the lake shore during Monday. There are 310 miles of shore line around the lake. He stated that it costs people a state license of \$1.10 per year to fish on the Possum Kingdom Lake (provided they used artificial bate. If they use live bate there is no

state license fee outside of the regular hunting and fishing license. When asked about the amount of fish being caught, he stated "Lots of them." Continuing he said, "everybody were catching fish all around the lake. The Texas Game Fish and Oyster Commission has full authority over the fishing activities and this is the first lake in all of Texas where the Commission has full control.

Dr. Brannen said the Brazos Valley Board will have supervision over the boat rights, camp sites, and cabin sites on the lake shore. Any one has the right to select a cabin site and build a cabin on the lake shore, the site costing only a small sum of money. This business will be handled by the Brazos Valley Board. Also, the sale and distribution of electrical power will be under the direction of the Valley Board.

Concerning Your Social Security

Two proposed amendments affecting workers who have entered the armed forces and civilian employees of the United States Government have been recommended to Congress by the Social Security Board, according to a statement made by John D. Palmer, manager of the Lubbock office of the Social Security Board.

"The first of these two proposals," Palmer said, "Calls for the protection of the insurance rights of workers entering the armed services of our Nation. This may be accomplished according to the Board's idea by the 'freezing' of a worker's insurance benefits as of the date of his entry into the armed service. Another plan would be to extend the coverage of old-age and survivors insurance to include employment by the armed forces," Palmer said.

The second proposal which is considered of vital importance to workers applies to civilian workers in the employ of the Government. "While it is true these workers are receiving Civil Service rights, their rights under the old age and survivors insurance system are jeopardized since under the present law, employment by the Federal Government is not covered. The Board has recommended to Congress that the law be amended to protect the rights of such workers while employed on Government projects.

It was emphasized by Palmer that neither of the above proposals has been acted on by Congress and it is not known when amendments to the Social Security Act will be taken up. "It is our hope," Palmer concluded, "that something will be done regarding these two proposals at an early date since many people are constantly making inquiries regarding them, especially the one affecting the worker who has joined the Army, Navy, or Marine Corps."

THE LONG HARD WAY

The Battle of Production

"The battle of production has been won," wrote Paul Mallon recently. "American industry went over the top in April, out of the preparatory organizing phase, and into the great American stride of mass production which no one can equal anywhere. From now on the production line on our charts will go nearly straight up."

tory. Two years ago we were totally unprepared for war. Today we are outproducing nations which devoted most of their resources to getting ready for war, for a decade or more. In Mein Kampf, Hitler says time and time again that the democracies are weak, spinless, unwilling and unable to fight. The Japanese also pinned abundant faith on that supposition. This country, along with the other United Nations, is showing Hitler how tremendously wrong he was. American industry has done more than turn its plants from the production of the necessities and luxuries of peace to the production of the instruments of war. It has boldly pioneered new techniques. It has thrown old production prejudices to the four winds. It has worked on the basis that nothing is impossible. The Skeptics said, for instance, that the assembly line principle could never be successfully applied to the manufacture of fighting airplanes. Ford, Boeing, Consulated and other plants have proved otherwise—in Seattle,

San Diego, Willow Run and elsewhere some of the finest military airplanes the world has ever seen are being made almost as swiftly as automobiles were made in the old days. Skeptics were certain forecasts of tank production were fantastically high. Chrysler and other makers, to the contrary, are today well ahead of the forecasts and are going farther steadily.

All over the country plants, little as well as big, are setting new production records in a hundred war-material fields. Delays still occasionally occur because of lack of materials, labor difficulties, etc. But those delays grow fewer.

There is only one dark spot—merchant ship out put. The ship-builders have done an excellent job in the face of staggering technical difficulties, but the fact remains that United Nations' losses are somewhat ahead of replacements. For some time delivery of steel plate was behind schedule. However, existing yards are steadily upping their output, and some gigantic new yards, on both the Atlantic and Pacific Seaboards, will shortly go into operation. In this as in other war fields, some revolutionary changes are taking place in production methods. In the last war, it took close to a year to make the 8,800-ton Liberty ships we used then. A Portland, Oregon, yard recently produced a 10,800-ton freighter of the standard type we are building now in 60 days. And it is believed certain that still faster production will soon become commonplace.

The warship building program is reported ahead of schedule. Special emphasis is laid on the production of the destroyers which are needed for convoy duties, and for protecting ships-of-the-line in naval squadrons. And U. S. submarine fleet is growing satisfactorily.

Not until the war is over and the information is of no use to the enemy will it be possible to tell the whole story of America's production effort. What can be said now is that no nation or group of nations ever did so much in so short a period of time. At the end of last year, Von Ludendorff wrote, in bitter admiration, that the United States understood how to wage war. The cold production figures show that the United States understands it better still today.

Big Arrangements At Cowboy Reunion

Featured rodeo performers of the Texas Cowboy Reunion at Stamford are cowhands who ride for cowhand wages. And while some of them could give the professionals a run for their money, they are rated as amateurs. But the Reunion show includes some of the world's most accomplished professionals.

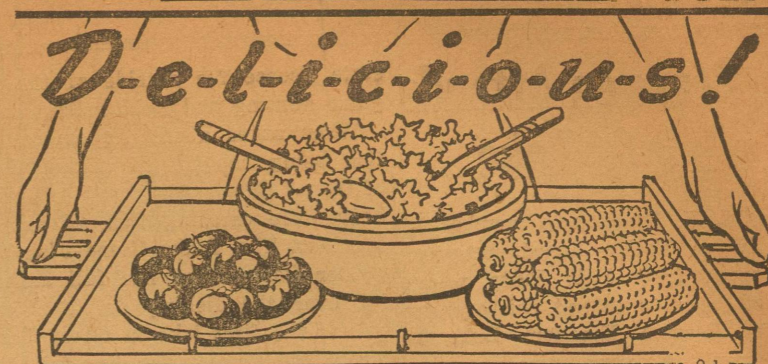

When the chuck wagons are parked each in its assigned place, on the Reunion grounds, skilled cooks swing into action, cooking up batches of the best chuck wagon grub ever dished out to a hungry gang. Menus run the full scale, including barbecues, deep pot fried steaks, beans, stewed fruits, and always onions. One meal ticket entitles the guest to choose any or all of the wagons in the field. It's one of the few places where one can really get all he wants to eat at one sitting.

The wagons are the real things, being used throughout the year to tail the riding ranch hands, and must be ready to serve meals, regardless of what remote or desolate section the crew may be when it's eating time. Wind, rain, or sand, the wheels roll just the same and chuck is readied on time.

This section of the Texas Cowboy Reunion, like the rest of the show, is not run for profit. Each wagon boss presents to the commissary head a list each day of the foods he will need, and cooking is done on a day to day basis. The Reunion management pays for all provisions and all receipts are turned over to the management. Ranch owners and employees of the ranches bringing wagons, and members of The Texas Cowboy Reunion Association are given passes.

Grady Bowdry, city manager of Stamford has been in charge of the commissary for years. Experience has taught him how to have his official business in shape so that he can devote his full time to the big order of having enough food to take care of the thousands who eat from one to three meals on the grounds during the three days of the Reunion.

Battered and weather-scarred, but strong and sturdy, the chuck wagons are a true picture of the real old West. Tarps are stretched from

The Gasoline Hazard Heads Eighth Corps Area

With indications to a possible nationwide system of gasoline rationing Marvin Hall, State Fire Insurance Commissioner, warns against storage of gasoline at home.

"The storage of any quantity of gasoline at home," he said, "proves extreme fire hazards. Gasoline, when stored and handled through the regular facilities of the oil industry and kept in standard tanks, is relatively safe as a result of safeguards incorporated in the design of equipment and the training of personnel over a long period of years. However, gasoline is a dangerous explosive if kept in all sorts of cans and make-shift containers, stored in basements and garages, and poured from open containers."

Hall explained that gasoline vapor, produced when the fluid is exposed to air, is highly explosive and can be set off by electric sparks or careless smokers. The vapor, heavier than air, may flow along the ground under buildings or into basements, to be ignited and flash back from a considerable distance.

"Fire insurance can be voided under the Texas Standard fire policies, Hall asserted, "if gasoline is stored on the premises without a permit of consent from the insurance company. Thus, if stored gasoline contributes to a fire destroying the property insured, policies could not be collected if the insurance company had not granted permission for storage of the gasoline."

Joe Ragsdale, of Hooker, is here visiting his brother, H. E. Ragsdale, and family of Midway community. He spent some time in Spur Saturday calling on former friends.

the wagon to afford a bit of shade to some of the help as they cook over open fires. Guests aren't furnished cushioned seats or folded linen napkins. Eating is done squatted on the haunches or sitting cross-legged on the ground.

Sugar rationing won't have much effect on this year's chuck wagon menus during July 2, 3, and 4, since fancy sweets just don't have a place in the average cowhand's oats.

Major General Richard Donovan, commander of the Eighth Corps Area lauded the USO as building American unity "which will make certain our final victory." He assisted Harry C. Weiss, State Chairman of the USO in the drive, and has the following to say:

"I am happy to voice my appreciation of the work being done by those experienced welfare organizations which compose the USO, namely the Y.M.C.A., National Catholic Community Service, Salvation Army, Jewish Welfare Board and National Travelers Aid Association," General Donovan declared in a message to USO workers.

"The USO is contributing splendidly to the entertainment and recreation of soldiers off duty from camps and stations. The cooperation with military authorities and good will developed between civilian communities and military garrisons are tokens of American unity which will make certain our final victory."

John Sharp, of Dickens, was greeting friends and trading in Spur Saturday.

Let Me Help You Keep 'em Working

A PLAN has been worked out whereby we can offer assistance in helping to keep your electric appliances in useful working condition for the duration, regardless of make or where originally purchased. Our servicemen are now prepared to help you with repairs insofar as parts are obtainable. Small appliances should be brought to our nearest office. In most cases, major appliances can be repaired in the home...

This type of service is offered only as a convenience to you in communities where such repairs are not elsewhere available or the dealer from whom the appliance was originally purchased has discontinued business.

HANDCUFF WEDDING

Statement By Dan Moody

It is my plan to make a personal campaign over Texas. The people are entitled to have the candidates come before them and make their speeches and tell where they stand what they stand for and the reasons for their stand. I want to go to the cities and towns of Texas and speak in auditoriums, on the courthouse squares and in the parks. There I can meet the people face to face, give them opportunity to ask me questions, and answer their questions from the platform. Hecklers, for whom I have always tried to have a ready answer, will add interest and enthusiasm to those meetings.

If Senator O'Daniel thinks he can defend his record as Governor and United States Senator, I challenge him to meet me in joint debate in any community or communities in Texas where he thinks the going will be glad for him, I will treat him as a gentleman, and I assure him so far as I am concerned the proceedings will be conducted with dignity. He can leave his band at home because there will be enough fur flying to hold the attention of the crowd without the aid of an orchestra. I will be glad to give him both the open and close of the arguments.

There are many issues which he and I can debate, among them the following:

1. I shall denounce, and he may defend, his entire isolationist record by which he has made his contribution to delay national preparedness.
2. I shall condemn; and he may defend, the attitude manifest by him while Governor of Texas (when in a speech made by him during National Defense Week, he said: "I don't think we are near war. We have a lot of howling in Europe, but they ain't going to do us any harm over here.") That statement was made about ten days before the program to fortify the island of Guam was defeated. It was just such an attitude that prevented preparation for the defense of that island, and left a little band of heroic Marines to defend it unto death or capture.
3. I shall attack and he may defend, his speech and vote in the United States Senate in favor of the proposal to disband the trained army and send it home, in spite of the urgent appeal of President Roosevelt and Chief Staff General George Marshall that the proposal be not adopted. As against their appeal Senator O'Daniel pleaded with the Senate not to extend the draft with the words "Please don't do it," which received the applause of isolationist Senators. If his plea had been followed, think what the result would have been to this nation.
4. I shall contend that all people are entitled to work in the defense of our nation, and advocate a program to prevent strikes and fix hours of labor in defense industries that will enable our country to produce every needed machine and material of war; and he can continue his program of abuse and agitation carried on in an effort to make newspaper headlines and keep the questions alive for political purposes.
5. I will show that he rendered his country a disservice if it is true, as he boasts, that last year he prevented the government's building a pipeline from Texas to the Atlantic coast for the purposes of making available greater quantities of gasoline and for shipment to our battle fronts. The railroads are doing a splendid job in moving gasoline and oil to the East, but they cannot do it all. Their services should not be dispensed with but as a matter of national defense the pipe line should be built to supplement railroad and tanker service in getting gasoline and oil to the places where it is needed in the defense effort. Proper

precautions should be taken, and I am sure will be taken, to see that the line is operated for the public welfare and not for the benefit of any private interest, either during or after the war.

6. I will call on him to explain why he was not at his post of duty to vote against the bill enacted, but later repealed, to pay pensions to members of Congress.
7. I will assert the proposition and he can attempt to dispute it that the representation of the State of Texas in the United States Senate should not be entrusted to a man who lived in Texas for approximately fifteen years and at no time during his residence here thought enough of the responsibilities of Democratic citizenship to qualify to vote, and did not so qualify, until he was about fifty years of age.
8. I will assert the proposition and he can dispute it that in this time of national peril, if ever, no United States Senator should attempt to destroy the confidence of the people in the government any branch of it.

This proposal to Senator O'Daniel is earnestly made in the belief that joint discussion of the above issues and others that will develop would be enlightening to the people and aid them in determining whom they desire to represent this State in the United States Senate under the conditions now existing. If, when Judge Allred enters the campaign, he finds cause to differ with me on any of the principles for which I stand, I shall be glad to debate any such differences with him.

HERE FOR COL. THOMPSON

W. E. Allison, of Austin, was in Spur Tuesday in behalf of the candidacy of Col. E. O. Thompson who is running for his second term as Railroad commissioner of Texas. He stated that Col. Thompson had spent quite a lot of time in the interests of shipping facilities for oil from Texas to the Atlantic seaboard.

Col Thompson is now advising relative to a canal across Florida at the northern point which will connect with the inter-canal along the Gulf of Mexico and the Atlantic Ocean. This would give water shipping facilities for oil from Texas to the East and relieve the dearth of gasoline in that section.

John Norris of Glenn, was looking after business in Spur Saturday. Fred P. Dawson, of Roaring Springs, was transacting business and talking with friends in Spur Saturday.

Proceeds to War Bonds

The Texas Cowboy Reunion will go "all out" in the war effort in this year's event which will be held at Stamford July 2, 3 and 4, according to recent unanimous action by the board of directors.

All of the net profits from the show will be used to purchase United States War Bonds, and this, with addition of the federal admission Tax, levied this year for the first time, will contribute a neat sum, toward winning the war, if attendance is comparable with Reunions of past years.

Full speed ahead was the decision of the directors and all committee chairmen are completing details for their divisions with the aim of giving a bigger show this year than ever before.

The Reunion, inaugurated in 1930 for the purpose of keeping alive the memories and traditions of the Old West, is a non-profit organization and not a penny has ever been paid in dividends to stockholders during the dozen years of its existence. All the profits have been used for maintenance, improvements and additions to the buildings and grounds. As a consequence the Reunion plant is one of the largest of its kind in the country. The success of the Reunion no doubt is due to the untiring efforts of a large group of West Texans who have given freely of work and time to build this show, which stands as a monument to one of the greatest industries in the West—ranching.

Another factor in the success of the Reunion is that its star performers in the rodeo are actual employees of ranches, who compete against each other in events that are daily duties of their work. Professional performers have no place in the affair.

Short of Sugar?

Switching to honey and corn syrup as substitutes for sugar in cooking was no trick at all, thanks to some hints I picked up. They all "work" beautifully.

Honey must be used with judgment, of course, but you can't go wrong if you remember these essential facts: (a) 1 cup of honey weighs 12 ounces of which not quite 1/5 is water; (b) 1 cup of sugar weighs 7 ounces. In replacing sugar with honey in a cake or cookie recipe, the amount of liquid should be reduced one-fifth of a cup for each cup of honey used. After measuring the liquid used, remove 3 tablespoons, plus 1 teaspoon, of the liquid for each cup of honey used.

An easy way to measure honey is with a moist or greased cup. With recipes requiring shortening, measure the shortening first, then the honey in the same cup. This is true also of molasses and corn syrup. Keep liquid honey in a warm, dry place where the temperature is 75 degrees or over, or in a cold place where temperature is below 50 degrees. Before using, place honey jar in warm—not hot—water for about 10 minutes and pour it from a sharp-pointed pitcher. Then it will drizzle out evenly.

If certain cakes made with honey, when first baked, seem less light and fluffy, and not as sweet as sugar cakes, just wait until they age. Then they'll become moist, flavorful and better in texture. Generally speaking, honey may be added to any favorite cake recipe in amounts equivalent to 25 to 50 per cent of the total sweetening without altering the basic recipe.

Big Prizes At Post Stampede

Post—This city will go all out in offering the greatest entertainment in this section of the State, Thursday and Friday, June 18-19, when the second annual Stampede and Rodeo will be unreeled in one of the finest rodeo plants in the West. There will be no shortage or rationing of entertainment as directors of the Stampede Association have planned this year's show to be even bigger than last.

Approximately \$500.00 will be given in cash prizes in the five major events of the show, calf roping, wild cow milking, steer and bronc riding, and cowgirls sponsor's contest. Besides the daily cash prizes a \$100, and \$50 war bond will be presented high point man in calf roping and cow milking. A \$100 war bond, \$25 war bond, \$10 and \$5 in war stamps will be presented the four high winners in the cowgirls sponsor contest. Besides the 5 major events many special attractions have been planned. To provide color, the Stampede will present "The Allied Nations March." Twenty-six allied flags will be presented and identified during this feature.

There will be two, 3-hour performances each day, at 2:30 and 8:45 p. m. Street parades will be staged each afternoon at 1 p. m. Old-fashioned dances will be held each night. It isn't far to Post... We'll be looking for you.

T. V. Shockley, Jr. of Corpus Christi, is here visiting his father, T. V. Shockley, and sister, Mrs. Ernest George, and Mr. George this week. Mrs. M. H. Judge J. Ross Bell Visits Spur

Judge J. Ross Bell, of Childress, candidate for the office of Chief Justice of the Court of Civil Appeals, was in Dickens County Tuesday greeting friends and making his claim to the office to which he aspires.

Judge Bell is a native of Tennessee but came to Texas when just a young man. He taught school in Mississippi and in West Texas a short time and received his law degree and was licensed to practice law in 1910. He served the old 50th Judicial District as District Attorney for four terms and retired of his own accord, making a very com-

mendable record while in office. He is an outstanding lawyer and is one of the best posted men on court procedures and ruling found in Texas.

In speaking of his candidacy he stated he is just and old country boy who has an interest in the people of West Texas as he was here in the pioneer days, and if he is elected Chief Justice of the Court of Civil Appeals, that he will serve in a manner that his friends will be proud of him.
