2,000-Foot Prospector Set In Pecos

Cabot Corp., operating from Pampa, has filed application to drill No. 1-12 University as a 2,100-foot prospector for gas in Pecos County, six miles southeast of Bakersfield.

Location is 1,980 feet from north and 660 feet from west lines of section 12, block 17, ULS, 2 1/4 miles southeast of the depleted Queen gas discovery in the Cardinal, West field.

Big Oil Discovery Finished In Reagan

Amarex, Inc.—Mercury Production Co., Fort Worth, have completed a Bend conglomerate strike in Reagan County, No. 1-A-A Helen Noelle, eight miles west of Stiles.

The calculated, absolute open flow was for 16.5 million cubic feet of gas daily, along with 1,122 barrels of 52.6-gravity condensate, production was from open hole at 10,506-10,522 feet. Treatment, if any, has not been reported.

The discovery spots 500 feet from south and 660 feet from west lines of section 11, block H, L&SV survey, one mile west of production in the Spraberry Trend Area, and three miles northwest of the depleted Roach (Fusselman) gas field.

Exploration Slated In Runnels, Reagan

A wildcat has been staked in Runnels County, and a wildcat re-entry has been scheduled in Reagan.

H&R Oils, Inc. and Walsh & Trout, Dallas, will drill No. 1 W. Adams, a 4,500-foot prospector, in Runnels, four miles southeast of Winters.

Drill site is 467 feet from north and east lines of section 303, block 64, H&TC survey, 1/2 mile southwest of Capps production in the Briley field.

Reagan Workover
Regal Petroleum Corp., Dallas, intends to plug back and attempt recompletion as a Wolfcamp discovery at No. 12 N. W. Hickman, former Ellenburger producer, 1/2 mile southeast of the original Wolfcamp opener in the Barnhart field of Reagan County.

The project, originally operated by Elmont Oil Corp., will be tested at around 7,177-7,496 feet.

It spots 1,970 feet from north and 2,013 feet from west lines of section 204, block 1, T&P survey, eight miles east of Big Lake.

The depleted Wolfcamp opener, Amerada Petroleum Corp. No. 1 N. W. Hickman, was completed in 1959, for 75 barrels of 24.3-gravity oil per day, through perforations at 7,450-7,532 feet.

Strawn Pay Opener Finaled In Crockett

Gulf Oil Corp. has completed as a Strawn pay opener, its No. 1 Parker Ranch Co.-Ltd., State, 1/2 mile northeast of the orso-well Bouscaren (Ellenburger) field of Crockett County. (Continued On Page 7B)

'74 Inflation Worst In 28 Years

FBI Claims Information On Solons Not Misused

WASHINGTON (AP) — FBI Director Clarence M. Kelley acknowledged today that his agency maintains files on members of Congress that include unsubstantiated allegations volunteered by members of the public, but denied that such information is misused.

Charges that the FBI is improperly soliciting information about members of Congress or misusing information in FBI files concerning them are "erroneous and without any basis in fact," Kelley said.

"Congressmen are treated substantially the same as any other citizen concerning whom the FBI may receive information," Kelley said.

"The policy of the FBI is that information concerning members of Congress is collected when members are the subjects or victims of an investigation or a specific background check is requested concerning the suitability for nomination to a

position in the executive or judicial branches," the FBI chief said in a 550-word statement issued today.

However, he said the FBI does retain unsolicited information about members of Congress in case such information should prove useful should the congressman in question be considered for appointment to a position in the executive or judicial branches of government.

But, Kelley said, such information "is never used to influence the judgment or actions of any member of Congress."

Kelley offered to appear before the House Judiciary Committee to "dispute the fallacious statements about the FBI's misuse of information concerning members of Congress. I will be prepared to discuss in detail FBI practices and procedures in this regard," Rep. Don Edwards, D-Calif., chairman of a House Judiciary subcommittee responsible for

overseeing FBI operations, was preparing to announce details of subcommittee hearings on the FBI practice of keeping files on members of Congress.

Deputy Atty. Gen. Laurence H. Silberman agreed Monday to testify before the subcommittee Jan. 30, according to Justice Department spokesman Robert Havel.

In addition, the Senate Democratic caucus voted Monday to create a special Senate committee to investigate the FBI, Central Intelligence Agency and other intelligence-gathering agencies.

Two former FBI officials confirmed Monday that the agency collected and filed information about members of Congress during and after the regime of the late J. Edgar Hoover.

Havel also said that the FBI has complied with Silberman's request for "all the material" in its files on at least 10 members of Congress.

Survey Shows Natural Gas Supplies Still Adequate

By The Associated Press
Americans who heat their homes with natural gas won't have to worry about a shortage of fuel this winter, but they will have to cope with rising prices

that could go even higher if President Ford's energy proposals are adopted.

An Associated Press survey showed that utilities report an adequate supply of gas to serve

Stiff Winds Pummel Texas

Stiff south winds pummeled much of Texas today as still another batch of cold air from Canada headed into the state. Skies were clear to partly cloudy.

The mercury stood at the 57-degree mark at noon today after reaching an overnight low Monday of 32.

Weathermen predict a decrease in cloudiness Wednesday as colder daytime temperatures prevail across West Texas. Official observers expected the latest cold spell to wheel into Central Texas by this evening and to reach the Gulf of Mexico by Wednesday. Chances were seen for a few showers to follow it in the north part of the state tonight.

Dust fogged the sky over parts of West Texas as strong breezes roiled that section the day before, and they started rising again during the night.

Tall City skies will become increasingly cloudy this afternoon and temperatures should drop into the upper 20s by tonight and reach only the lower 40s Wednesday.

Monday's high was recorded at 61, and today's high reading should be in the lower 60s once again, according to forecasts of the National Weather Service at Midland Regional Air Terminal.

Colder spots near dawn were Marfa 20 degrees, El Paso 28, San Antonio 29 and Wink 32. At the same hour it was 51 at Galveston on the coast. Monday's top marks ranged from 64 at Cotulla down to 46 at Longview.

'Nice Guy' Policeman Booted Out

CAPITOLA, Calif. (AP) — "I guess I was too friendly," says Henry Murren, who was kicked off the 12-man Capitola police force because he was too nice to be a cop.

"That's true," said City Manager Max Kludt, who fired Murren from his \$300 a month job. "He'd make a helluva public relations man, and if we could have absorbed him here we would have."

Murren, 36, says he isn't mad at anybody, but he is a trifle bemused and frustrated over his misadventure as a too-nice officer of the law in this quiet Monterey beach town of 7,300 year-round residents.

"I wanted people to know I was there, available if they needed me," he said in an interview. "I wanted them to like the police, not fear them."

After he joined the force last March, Murren smiled and waved at folks, called them by their first name, went out of his way to give directions and helped fix flat tires.

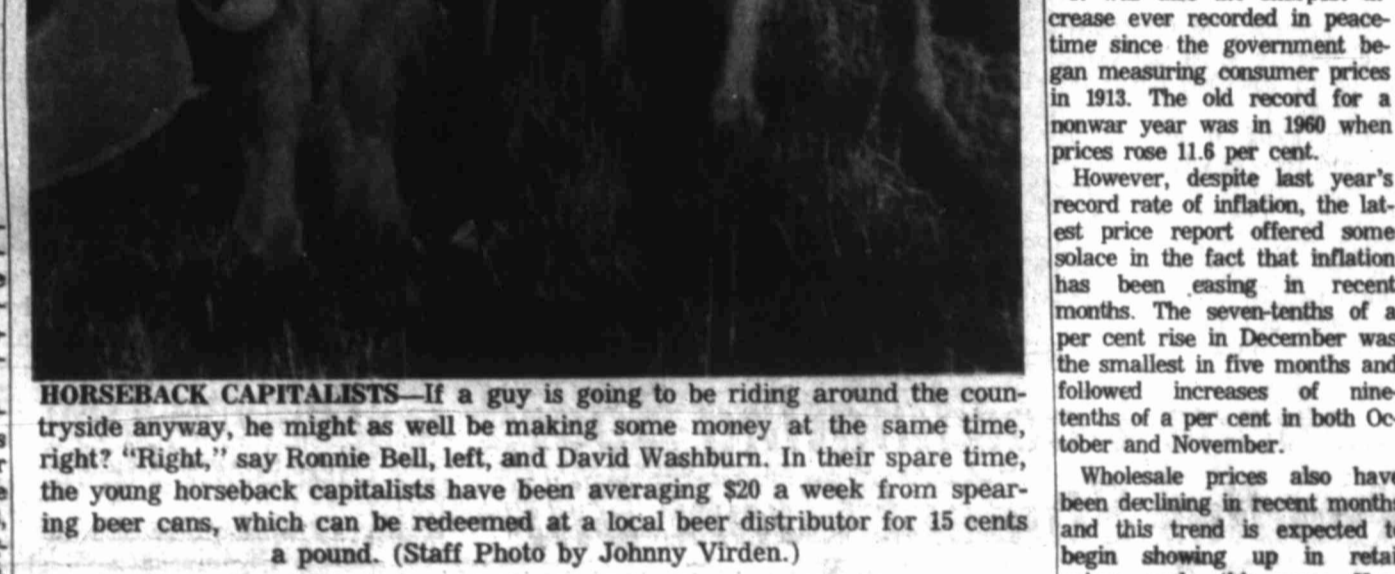

Instead of arresting weaving motorists, he took them home. He wouldn't write marginal traffic or parking tickets.

In return, hundreds of letters poured into the city, praising Murren. But city officials were not amused by Murren's record of nearly no arrests. Last October, they told him he was through. Hundreds of citizens protested, to no avail.

"All they said is that I was a

City Gets Boost In Home Construction

Midland, plagued many months by a housing shortage, got its biggest new-home construction boost in a long time this morning when the city issued building permits for 19 new homes.

The permits, totaling more than \$500,000, were issued to Palace Homes of Midland.

The homes will include 10 single-family structures to be located in the northwest Hyde Park Addition. Those homes will

range from approximately \$35,000 to \$45,000 on the retail market, Dora Brown, secretary and interior designer for Palace Homes, said.

Six of the new homes will be located in the Providence Park Addition, also in northwest Midland. Those homes will be priced in the same retail market range as the Hyde Park homes, Mrs. Brown said.

She said the three homes to be built in the Lilly Heights

addition would retail for approximately \$30,000 each.

Mrs. Brown said that as soon as one structure is completed another would be started until the project is finished.

The 19 building permits issued to Palace Homes upped the 1975 yearly total of residential home construction here to 31.

During the entire month of January 1974, only 13 new home permits were issued by the inspection department.

Record Enrollment Announced By MC

Midland College this morning announced another record-breaking enrollment, reporting 1,248 students paid for spring semester classes.

The spring semester enrollment for 1974 was 1,211.

Late enrollment continues until Feb. 4, and payment of tuition and fees must be made by Jan. 31.

FARMS, RANGLAND CITED—Midland, Andrews, Gaines Counties Are Designated As Disaster Areas

Midland, Andrews and Gaines counties have been designated as farm and ranchland disaster areas by the U.S. Secretary of Agriculture, U.S. Rep. George Mahon of Lubbock announced late Monday.

The farmers and ranchers in designated areas now can obtain low-interest emergency loans to recoup losses suffered from August of 1973 through October of 1975 because of drought and then hail and excessive rain during the fall season.

The 5 per cent emergency loans will be made available through the Farmers Home Administration (FHA). Cut-off dates for loan applications are pending with the FHA office in Austin.

Loan applications for Midland County farmers and ranchers should be made with the FHA county supervisor at Stanton, Claude C. Roper Jr.

Roper was instrumental in obtaining the disaster designation for Midland County.

On the strength of a field report made by Roper, Midland County commissioners requested a disaster designation by the governor, which was approved at the state level and sent to the secretary of Agriculture for federal approval.

The field report listed cotton crop damage at 70 per cent while feed grain crops suffered 90 per cent damage and alfalfa had 30 per cent damage, in Midland County.

The FHA report cited "severe drought during the growing

season and excessive rainfall during the fall of the year along with hail damage during October" as factors causing the farm and ranchland disaster.

A news release issued by the FHA earlier this month revealed that disaster reimbursement loans may be applied for in

both production and physical losses to damaged or destroyed crops, machinery and livestock.

However, it was stated in the release, that loans will not be made "to produce new crops during 1975" nor will loans be made in excess of the "actual loss sustained."

Late Bulletins

WASHINGTON (AP) — President Ford, again rejecting gasoline rationing because "inequities would be everywhere," said today he is implementing his tariff plan on foreign oil imports this week.

MIAMI (AP) — Two crewmen were missing and feared dead after the Cypriot tanker Lucky Era exploded and caught fire today in the lower Bahama Islands, the Coast Guard said.

Inflation Rate Increases To 12.2 Per Cent For 1974

(Continued From Page 1A) ever, new energy taxes proposed by President Ford would, if approved by Congress, add about two percentage points to the inflation rate this year, the administration has said.

Recession is dampening inflation and government economists say that while prices will continue to increase in 1975, most increases will be smaller and less painful to consumers.

The December increase in over-all prices pushed the government's Consumer Price Index to 155.4, meaning that it cost \$155.40 to buy a variety of goods and services which cost \$100 in the 1967 base period.

The government said food accounted for a fourth of the increases in consumer prices last year while price increases for energy products, including gasoline, fuel oil, coal and natu-

ral gas, were responsible for more than a tenth of the increase.

Food prices, including restaurant meals and stacks, rose seven-tenths of a per cent last month and were 12.2 per cent higher than a year ago. Grocery prices posted a similar increase rising eight-tenths of a

per cent in December to a level 12.4 per cent above a year ago. Nonfood items last month rose four-tenths of a per cent, the smallest increase since September 1973.

Over-all retail prices rose at an annual rate of 10.1 per cent in the fourth quarter as against 14.2 per cent in the first three quarters of the year of 14.2 per cent, 10.3 per cent and 14.2 per cent, respectively.

13 Found Dead In Small Closet

MONTREAL (AP) — Ten men and three women were found dead in a cramped beer storage closet after a fire early today in a night club described by police as an underworld hangout.

Police said they believed the fire was deliberately set with the victims locked in the closet in a gangland settling of accounts.

SLOWS DOWNTOWN TRAFFIC—Traffic passing through Wall and Big Spring streets is slowed by rerouting underground telephone cables made necessary by the construction of Southwestern Bell's new electronic switching center.

College Coordinating Board Readies Student Grant Bill

AUSTIN — Commissioner Bevington Reed of the Coordinating Board, Texas College and University System, says he does not expect difficulty in finding legislators who will sponsor a bill which would broaden the state's student grant program.

The Coordinating Board has approved draft legislation which would allow the state to receive matching student grant funds from the federal government.

Peeping Tom Suspect Held

More Oil Strike Notices Scheduled

DENVER (AP) — Strike notices against five oil companies could take out around 2,400 refinery workers today. At least 2,100 others were scheduled to return to work.

Contract negotiations were continuing with Marathon, Phillips and Standard of Ohio, all under previous strike notice. Noon strike deadlines, local time, had been set for Slicko Oil at El Dorado, Kan., and Husky Oil Co. at Cody and Cheyenne, Wyo., and North Salt Lake City, Utah.

Negotiations also were in progress with Shell, the nation's second largest refiner, and Standard of California, the fifth largest. Union officials said these talks remained on the "back burner."

The Oil, Chemical and Atomic Workers International union has signed contracts with 11 companies calling for a wage hike of about 25.6 per cent over two years, according to a spokesman.

The union says contract negotiations are now in the "mopping up" stage. About half of its 60,000 members are covered by new contracts, and union spokesmen say the precedent has been set for reaching agreement on local contracts.

Despite agreement on national issues, the union said about 10,000 members remained on strike over local issues at refineries in California, Ohio, Illinois and Texas.

The bulk of these were at Port Arthur, Tex., where 4,000 Tesaco workers and 2,500 Gulf workers were on strike over local issues along with 200 more Texaco employees at nearby Port Neches, Tex.

Meanwhile, 1,535 union members were to return to work this morning at Mobil Oil's Beaumont, Tex., facility and 600 others were to return to Texaco's Lockport, Ill., facility.

The union has called strikes against Union Oil Co. refineries in Texas, California and Illinois involving 2,000 members and against Continental Oil Co.'s refineries in five states involving 1,100 workers. No progress was reported on either of these contracts.

Local union locals conduct their own bargaining, with the Denver headquarters approving new contracts back to the locals for settling local issues.

The union has reached settlements with Mobil, Getty, Tosco, Petro, Gulf, Texaco, Cities Service, the Amoco Division of Standard of Indiana, Ashland-Richfield, Tenneco, Ashland, British Petroleum and several small refineries.

Chinese Gives Ford Hint He Would Like To See More U.S. Troops Leave Taiwan

By JOHN RODERICK
An AP News Analysis

TOKYO (AP) — Premier Chou En-lai has given President Ford a broad hint that the Chinese Communist regime would like to see more American troops withdrawn from Taiwan soon.

In a "state of the nation" address to the National People's Congress in Peking last week, the 78-year-old premier said there are still fundamental differences between China and the United States, but "owing to the joint efforts of both sides, the relations between the two countries have improved to some extent in the last three years, and contacts between the two peoples have developed."

Then he added: "The relations between the two countries will continue to improve so long as the principles of the Sino-American Shanghai communique are carried out in earnest."

The Shanghai communique, which President Nixon and Chou signed in February 1972, promised the withdrawal of all U.S. troops from Taiwan — some 5,000 remain — and ultimately full diplomatic relations between the two governments.

Each now maintains a liaison office in the other's capital, a step short of full diplomatic relations.

Chou sees the Chinese-American rapprochement as a means of countering Soviet expansion in the Far East. He also views the Japanese-American alliance as an aid to this policy. Speaking Monday in Peking with Shigeru Hori of Japan's ruling Liberal-Democratic party, Chou reportedly said the ties between Washington and Tokyo are "of very great importance," and the Japanese people must "fully understand their significance."

Chou in his speech to the congress predicted that the ideological quarrel between the Chinese and Soviet Communist parties will "go on for a long time." But he again held out the olive branch, saying the debate over Marxism should not obstruct relations between the two neighbors.

He said negotiations on their border dispute have "yielded no results" since 1969, largely because Moscow refuses to agree to a mutual pullback of troops. He urged the Russians to "sit down and negotiate honestly, do something to solve a bit of the problem and stop playing such deceitful tricks."

Chou's over-all assessment of the international situation was Peking's familiar one that the world is in a mess, and this is good for revolution. He also made the ritual prophecy that another world war is a certainty because of the rivalry between the Soviet and American superpowers.

Food Executive Eli Jacobsen Dies

WORCESTER, Mass. (AP) — Eli Jacobsen, 71, board chairman of Idle Wild Foods, Inc., and other affiliated companies in the United States and the United Kingdom, died Monday.

He was a member last year of the White House Industry Advisory Council.

Grand Jury Halts Police Drug Probe

HOUSTON (AP) — A Harris County grand jury says it has ended its probe of an internal investigation of the city police narcotics division.

The grand jury cited insufficient evidence Monday in announcing a halt to its probe.

Dollar Touches 14-Month Low On Paris Markets

LONDON (AP) — The dollar fell sharply in European money markets today and touched a 14-month low in Paris.

Dealers here and on the continent blamed the drop on recent cuts in interest rates in the United States and the prospect of even further cuts. They said dollar-selling orders were coming from Switzerland.

In Paris, the dollar opened at 4.3675 French francs, down from 4.3675 Francs late Monday.

In Zurich, the dollar traded at 2.508 Swiss francs, down from 2.5300 Swiss francs late Monday.

In Frankfurt, the dollar declined from 2.3706 German marks late Monday to 2.3590 marks today.

In London, the pound inched up from \$2.3630 to \$2.3635, reflecting a corresponding weakening in the U.S. currency.

The U.S. Federal Reserve Board decision to reduce the reserve requirements for commercial banks was cited in the speculation that American interest rates would decline further.

The Reserve Board's action means banks will have more funds to lend and this in turn could lead to lower interest rates.

When interest rates are lower in the United States than in Europe, investors find it more profitable to convert their funds from dollars to European currencies and lend them out at higher rates on this side of the Atlantic.

There was no immediate indication which clients were dealing through Swiss banks, but Arab governments are known to maintain large accounts with them.

BENTON'S FINAL MURAL—The late Thomas Hart Benton, who was found dead Sunday night on the floor of his Kansas City studio, had completed only a few hours earlier the mural in the background depicting the origin of country music. The mural was commissioned by the Country Music Foundation of Nashville, Tenn. (AP Wirephoto.)

Albert-Led Democrats Say They Can Do Better Job Than President On Energy, Economy Problems

WASHINGTON (AP) — Congressional Democrats, led by Speaker Carl Albert, say they can do a better job than President Ford in directing tax relief where it's needed, fighting the energy crisis and helping the poor cope with inflation.

In making these arguments Monday night, Albert joined other Democratic leaders in a steady drumbeat of criticism against Ford's economic and energy proposals.

Albert, in a broadcast reply to Ford's economic address last week, said the Democrats would welcome cooperation from the executive — "We are not seeking confrontation. We are seeking solutions."

But he said Ford's proposal to rebate 1974 income taxes by 12 per cent would put 43 per cent of the refund into the hands of the richest 17 per cent of taxpayers. Democratic leaders have asked the House to pass by the end of March a tax reduction for middle and lower income persons only.

Price Increase Seen

Albert said Ford's proposals for oil taxation would mean price increases as much as 25 per cent for gasoline, heating oil, electricity, food, fertilizer and other products.

Albert asked what good it would do a family to get a \$75 to \$100 tax rebate if at the same time the family's gasoline and heating oil bill went up by \$250 to \$300.

Albert said Congress would have to consider such things as gasoline rationing, prohibiting the sale of gasoline on Sundays, excise taxes on automobiles with high horsepower and possibly other measures.

Heavy Fighting Reported Near Da Nang

SAIGON, South Vietnam (AP) — Heavy fighting was reported south of Da Nang today for the first time in six months, and the Saigon command claimed 141 North Vietnamese and Viet Cong were killed.

A spokesman said fighting broke out around Que Son, 25 miles south of Da Nang, as South Vietnamese forces were trying to consolidate their defense line west of the town.

A communique said two South Vietnamese soldiers were killed and 16 were wounded.

There was heavy fighting in the region last August when the Communist command ordered an eastward push into the coastal lowlands. During the drive the government lost Thuong Duc, a district town 25 miles northwest of Que Son.

More small clashes were reported within 10 miles of Saigon, and the government said, four Viet Cong and one government soldier were killed. But government spokesmen said despite a rash of such actions recently, there was no evidence of a Viet Cong build-up in the area and no serious threat to the city.

A 12-ship supply convoy was reported forming on the Mekong River near the border between South Vietnam and Cambodia preparatory to making a run up the river to Phnom Penh.

All roads into the Cambodian capital have been cut for several months, and there have been no river convoys for nearly a month because the Khmer Rouge insurgents' guns dominate a 45-mile stretch of the Mekong south of the city.

Although U.S. and Thai pilots are flying in ammunition and other military supplies daily, the city has received no rice, fuel or other nonmilitary supplies since Dec. 24. Rationing of gasoline and electricity began Friday.

The Khmer Rouge continued their daily shelling of Phnom Penh, firing 10 rockets into the northern and western outskirts of the city during the night. Military police said three persons were killed, eight were wounded and there was slight damage to the airport and government warehouses.

The insurgents have fired about 260 rockets into Phnom Penh and its suburbs in the past three weeks, killing more than 30 persons and wounding about 140.

Eight Plead Guilty In District Court

Eight guilty pleas were taken Thursday and Friday in 142nd District Court to bring the total for January to 19.

Pleading guilty were:

Andrew Jackson Grumbles, 26, waived indictment, pleaded guilty to robbery and was sentenced to 10 years in the state penitentiary.

Sharon McCoy, 22, pleaded guilty to forgery by passing and was placed on probation for five years.

Willie Ray Calhoun, 18, was sentenced to five years upon revocation of his probation. He had been on probation since Aug. 15 for forgery by making, in a second case, he pleaded guilty to forgery by passing in waiving indictment and was sentenced to five years. The sentences are to run concurrently.

Dorothy Polk, 21, pleaded guilty to attempted murder and was placed on probation for five years.

Gene Moore, 36, pleaded guilty to attempted murder and was placed on probation for five years.

Dennis McDowell, 19, pleaded guilty to forgery by possession with intent to pass and was placed on probation for five years.

Cody Ray Hutson, 19, pleaded guilty to unlawful possession of a prohibited weapon, was sentenced to one year in county jail and was fined \$50.

Cliff Bubier, 18, pleaded guilty to burglary of a building with intent to commit theft and was placed on probation for five years.

LeMaistre's Son Gets Falling Grade

AUSTIN (AP) — The son of University of Texas Chancellor Charles LeMaistre has been given a failing grade in a biology course at the boy's request, assistant dean Jerry Moseley said.

An instructor accused the chancellor last week of pressuring her to give William LeMaistre a make-up final examination after she had turned in an "F" for the student.

William got a "C" after taking the make-up at his convenience.

But Moseley said Monday, "All appeals for a grade change based on the make-up final exam have been withdrawn."

The teacher, Martha Guenzel, resigned after giving the make-up.

University regents are investigating the matter.

Three Missing In Tanker Blast

MIAMI, Fla. (AP) — Two crewmen were missing and feared dead after the Cypriot oil tanker Lucky Era exploded and caught fire early today in the lower Bahama Islands, a Coast Guard spokesman said.

Thirty-four of the 37 crewmen aboard the 550-foot tanker were transferred to a Russian ship, which had been diverted to the area, said spokesman Steve Frazier.

"The master refuses to be taken off the ship," Frazier said. "He says he assumes the two missing men are dead."

By midmorning the fire was reported still out of control. Frazier said it was not known if the fire had spread from the ship's engine room to its cargo.

Ouster Of Foreign Musicians Sought

MEXICO CITY (AP) — The musicians' union has asked the Interior Ministry to expel more than 200 foreign musicians from Mexico on the ground they have no documents to work here and are unfair competition to local musicians.

Union President Venus Rey said Monday most of the musicians illegally working in Mexico are from Spain, Argentina and Italy. The list also includes French, English, Filipino, Irish and Chilean musicians.

Houston Tax Take Establishes Record

HOUSTON (AP) — The city of Houston collected a record \$106.5 million in 1974 property taxes, compared with \$86.9 million the previous year.

The tax rate was increased in 1974 from \$1.50 to \$1.63 for each \$100 of assessed property valuation.

HUSBANDS' NIGHT—Elmer Kelton of San Angelo, author, was the speaker for the "Husbands' Night Dinner" held Friday by the Midland Society of University Women. He is pictured with Mrs. Allen Beatty, left, new member of the group, and Mrs. Charles Koch.

'Visual Effects' Program Given St. Ann's PTA Unit

A special "visual effects" program was presented when St. Ann's School Parent-Teacher Association met recently in the school cafeteria. Dancing and singing to lively music, the fourth grade students did their own rendition of "Sweet Gypsy Rose." The fifth grade boys and girls, attired in fluorescent costumes accented by black lights, presented "I'm Gonna Boogie Tonight." A 1975 version of the Charleston was done to the tune of "Go Round in Circles" by half of the sixth grade girls. The other half danced with fluorescent streamers to "You Are the Sunshine of My Life." "The Entertainer" was the background music for the sixth grade boys doing a Charlie Chaplin routine accented by pulsating strobe lights. The entire program was under the

direction of Jim Pogue. Preceding the program, a short business meeting was held, at which time the winners of the PTA fund raising project were announced. Claudio DeLao won the 10-speed bicycle and O. E. Nelson was the winner of the pocket calculator.

Midkiff Study Club Has Regular Meet

MIDKIFF — The regular meeting of the Midkiff Study Club was held recently in the El Paso Natural Gas Recreational Hall. After the business meeting, Mrs. T. O. Midkiff III presented a program on the "German Influence in Texas." Most of the German immigrants landed at the Port of Galveston and then moved north, settling in various communities. Mrs. Midkiff, being of German heritage, enlightened the members of many of the early German customs, as well as the famous German foods. Serving as hostess was Mrs. Buddy Notgrass.

HINTS FROM Heloise

Tuning In On Leftovers—Microwave Style

Dear Heloise: Microwave ovens are wonderful time-savers, but they sometimes dry out foods when reheating leftovers. Recently, we found a solution. We wrap our leftover baked potatoes, steak, casserole dishes, etc., in some thin plastic wrap. (The plastic bags some stores furnish to wrap fresh produce in, work just fine.) I find foods heat faster, and when unwrapped, are not dry but are juicy and delicious. Try it!

Folks, I checked with the Association of Home Appliance Manufacturers. (AHAM), and M.H. is exactly right. Here is their comment:

"Covering foods is a recommended practice when reheating. The cover prevents loss of moisture and also keeps foods from drying out."

"Steam generated from the food is kept in close contact with the food and in this way helps to provide a more uniformly heated product. A number of plastic films make very satisfactory covers."

We are also indebted to Joyce Viso, Administrative Assistant, Consumer Affairs, AHAM, for this information:

"Plastic wraps should be used with care and for short periods of time."

"In addition, I would suggest that you check the user manual or user instructions which accompany the particular microwave oven you intend to use for the manufacturer's own cautions or guidelines."

Oodles of kisses to AHAM and JOYCE for helping us out. Also to M.H. for her great hint. Love you all.

Dear Heloise: I frequently make homemade bread and would like to pass on a couple of ideas.

When I scald the milk and butter, I melt the butter first and coat the pan before adding the milk — this prevents the pan from getting burned and hard to clean.

Also, if I am in a hurry and want this to cool quickly, I put several ice cubes in a small plastic bag and drop it into the hot mixture.

Works like a charm. Mrs. Stanley Willer

LETTER OF LAUGHTER

Dear Heloise: Help Eliminate Loads Of Ironing. Save Electricity. (That spells Heloise.)

Fold the clean clothes very carefully and place on the rocking chair.

Put your pillow on top and

enjoy a cup of coffee while sitting and rocking and pressing the clothes.

A Neat New Angle

That spells Anna, right? Besides being clever, you sound like you know how to enjoy life. My hat's off to you!

Dear Heloise: Here is an idea to have a kitchen "window" in these new apartment buildings that don't have any these days.

Put a mirror on the wall above the kitchen sink and frame it with pretty kitchen curtains. I find this "window" even gives me more light from reflections, thus making my kitchen brighter. The curtains really dress up the mirror, too.

I've had many comments and compliments from the family and guests.

Mrs. Ralph Dean

Dear Heloise: Save the box the frozen dinner came in.

Simply mash it down flat, and you have an excellent disposable placemat for your hot frozen dinner.

G. P. Fitzner
Retired Postman

You're still delivering the goodies.

THIS COLUMN is written for you, the housewife and homemaker. If you have a hint or a problem write to Heloise in care of this newspaper. Because of the tremendous volume of mail, Heloise is unable to answer all individual letters. She will, however, answer your questions in her column whenever possible.

BETA ETA DONATES—Mrs. O. D. Martin, president of the Beta Eta Chapter of Epsilon Sigma Alpha, is shown presenting a check to Richard H. Schmidt, executive director of the Human Relations Council, for the council's Christmas in April project. ESA is an international philanthropic organization and chapters around the world are involved in similar projects. Funds for Beta Eta projects are derived from the sale of advertising in a Christmas song book to local merchants. Funds also are used in chapter work with Leisure Lodge, Park Place and the annual valentine party for children in Midland special education classes.

HOROSCOPE

by Carroll Righter

(Jan. 21)

GENERAL TENDENCIES: A day and evening to abide by accepted practices and not to accept any wretched temptations that may arise. Avoid those who act in an unconventional manner. Follow the good advice of successful persons. Improve your surroundings.

ARIES (Mar. 21 to Apr. 19) Listen to what an advisor has to suggest. Steer clear of individuals who are troublesome and noisy. Take it easy tonight.

TAURUS (Apr. 20 to May 20) Personal friends are helpful today, but avoid a high-spirited who is in an irate mood and could take his discontent out on you.

GEMINI (May 21 to June 21) If you do what a hugging suggests you can make your position more secure. Don't trust your hunches which are your guess. Be wise.

MOON CHILDRENS (June 22 to July 21) Making changes suggested by a wise person can mean improving your life. Avoid an associate could lead you in the wrong direction. Be logical.

LEO (July 22 to Aug. 21) Come to a better understanding with debtors and creditors. An associate could lead you in the wrong direction. Be logical.

VIRGO (Aug. 22 to Sept. 21) Following

the advice of a trusted friend can bring more success for you at this time. Show increased devotion to loved one.

LIBRA (Sept. 22 to Oct. 22) Handle important business matters before seeking pleasures. Take sensible treatments that will improve your health. Be poised.

SCORPIO (Oct. 23 to Nov. 21) Make plans now for the recreations you want to take part in when you have the time. Don't discuss private matters with outsiders.

SAGITTARIUS (Nov. 22 to Dec. 21) Plan time to handle situations at home that need improving. Be sure to use caution in travel today. Relax at home tonight.

CAPRICORN (Dec. 22 to Jan. 20) Fine day for shopping for supplies you need. Not a good day for handling vital monetary affairs. Economy is the keynote right now.

AQUARIUS (Jan. 21 to Feb. 19) Don't trust your own judgment today in the handling of monetary affairs. Consult a financial expert for best results. Be alert.

PISCES (Feb. 20 to Mar. 20) Your judgment and hunches are the same, so use both and get the results you want. Don't waste time on unimportant matters.

Powder Power
Dusting powder now comes in a pretty Victorian-style glass and silver "salt" shaker for the fanciest bathrooms.

LOSE WEIGHT FAST

New clinical tests completed at a major university hospital prove that the ODRINEX Plan will help you lose excess weight quickly.

ODRINEX contains an amazing hunger tamer that suppresses the appetite. Enjoy three good meals a day as the tiny ODRINEX tablet automatically helps you eat less without being hungry. With fewer calories, your weight goes down. Safe taken as directed - will not make you nervous. Look better, feel better as you start slimming down today with ODRINEX. Satisfaction guaranteed or money back.

Miss Hutcherson Shower Honoree

Karen Hutcherson, who will be married Feb. 15 in Houston to Ray Faltysek, was the honoree at a recent miscellaneous shower given in the home of Mrs. W. A. Sanger, 1604 N. Midkiff St.

The co-hostesses were Mrs. Tom Burger, Mrs. George Fish, Mrs. Wesley House, Mrs. Bill Henry and Mrs. M. T. Peyton.

Miss Hutcherson is the daughter of Mr. and Mrs. C. G. Hutcherson of Houston, formerly of Midland. Her fiancé is the son of Pete Faltysek of Flatonia and the late Mrs. Faltysek.

Assisting in serving at the party was Kim Fish.

An arrangement of flowers in lavender and orchid tones centered the serving table, which had cut glass appointments.

Midkiff Honor Student
SAN ANGELO — Debbie Cole, daughter of Mr. and Mrs. David B. Cole, Midkiff, was listed on the Dean's Honor Roll for the fall term with a 3.76 grade point average. She is a sophomore student attending Angelo State University. Her major is biology.

Dear Abby

—By Abigail van Buren

She's Carrying On With Her Ex-Husband

DEAR ABBY: I recently began an affair with my ex-husband. We've been divorced for five years and have two children, but I never stopped loving him. We met to discuss the children a few months ago, and I

women that he couldn't overcome, and being a highly moral woman, I couldn't tolerate it.

A year ago, I married a fine older man. He's wonderful to me and the children but he is impotent, and all efforts to correct it have failed. For some strange reason I don't feel guilty about carrying on with my "ex." I almost feel that under the circumstances I am justified. What's wrong with me? I'm basically a very moral person. What should I do?

FIRST LOVE

DEAR FIRST: You can't have

it both ways. If sex is that important to you, perhaps you'd better divorce your husband and re-marry your "ex."

To continue this adulterous affair without guilt feelings indicates that you are not the "moral woman" you claim to be.

Infidelity is not justified under any circumstances, be it your ex-husband's weakness for other women, or your present husband's impotence.

DEAR ABBY: I have a problem involving fact. I don't drive. Each week I go to a meeting with a neighbor who lives a few doors from me.

Her silly chatter and vicious gossip bore me; however, it's convenient to be driven by her and I appreciate it.

She recently went on a two-month trip, and in her absence, another club member offered to drive me, even though it meant going about five minutes out of her way. We have now become good friends.

My problem is how to get around to telling my neighbor that I don't need her transportation any more for these club meetings. My new friend doesn't care for her gossiping tongue either.

I'm afraid if I offend my

neighbor, her vicious tongue will lash out on me.

IN A BIND

DEAR IN: Don't be blackmailed. If you prefer to be driven by your new friend, simply tell your neighbor that you have transportation. How can she hurt you? People of quality pay no attention to vicious gossip. And who else matters?

Everyone has a problem. What's yours? For a personal reply, write to ABBY in care of this newspaper. Enclose stamped, self-addressed envelope, please.

Open from 12 p.m. to 7 p.m.

Closed School Presents Problems

Every morning after we are hit with a particularly severe snowstorm, the children huddle around the radio hoping to hear that their school is closed.

The announcer invariably sounds happy to report that school is cancelled. He can afford to be happy; he is all alone in a sound-proof studio. He isn't at home facing a semi-house-trained puppy, a washing machine stuck on the "spin" cycle, and, unexpectedly, two children as well.

Children, unfortunately, have difficulty coping with an unforeseen holiday. Rather than allowing them to engage in idle mischief, I offer the following: "What to do all day when School is Closed!"

1. Wash your hair six times.
2. Watch "As the World Turns" and make retching noises.
3. Say "What's great about today is that I don't have to see that stupid Michael Freebish."
4. Paint your shoes.
5. Write "I hate Michael Freebish" on your hand with red ink.
6. Hold an Alice Cooper Rock Festival.
7. Begin cooking something exotic for supper without first reading the recipe and discovering, too late, that the average larder doesn't include rose water and cardamom seeds.
8. Say "I'm sure glad I'm not in school so I don't have to sit next to that creepy Michael Freebish."
9. Stage a wandering minstrel act, following mother around the house, strumming your guitar, and bellowing "Bride Over Troubled Waters" into her ear.
10. Put two carrot sticks under your upper lip, cross your eyes, and say "I'm Michael Freebish."
11. Ask questions like "How does a vacuum cleaner work?" "How much will you pay me to pick all the Christmas tree needles out of the shag carpet?" and "Do you know that you have wiggly red lines in the back of your knees?"
12. Phone your old buddy Michael Freebish.

11. Ask questions like "How does a vacuum cleaner work?" "How much will you pay me to pick all the Christmas tree needles out of the shag carpet?" and "Do you know that you have wiggly red lines in the back of your knees?"

12. Phone your old buddy Michael Freebish.

Today In History

By The Associated Press.
Today is Tuesday, January 21, the 21st day of 1975. There are 344 days left in the year.
Today's highlight in history: In 1964, the first atomic submarine, the U.S.S. Nautilus, was launched at Groton, Conn. On this date — In 1793, King Louis XVI of France was beheaded.

In 1861, Jefferson Davis of Mississippi resigned from the U.S. Senate, 12 days after his state had seceded from the Union.

In 1903, the London Naval Conference opened.
In 1918, the Council of People's Commissars of the Soviet Union repudiated all of the country's loans from foreign countries.

In 1924, the Russian revolutionary leader, Nikolai Lenin, died at 54.

In 1950, a federal jury in New York found former State Department official Alger Hiss guilty of perjury.

Ten years ago: A major cheating scandal was unfolding at the U.S. Air Force Academy in Colorado.

Five years ago: Iraq snuffed its government and promptly executed 12 men.

One year ago: The United States rejected South Vietnam's request for naval support in fighting with the Chinese Communists for the Paracel Islands.

Today's birthdays: Golfer Jack Nicklaus is 35 years old. Actress Jinx Falkenberg is 56.

Thought for today: Light is the task when many share the toil — Horner, ancient Greek poet.

Brand Drug Substitution Right Urged

WASHINGTON (AP) — Pharmacists should be allowed to substitute the brand of drug prescribed by a doctor with a cheaper equivalent to save patients money, a panel of the National Academy of Sciences said today.

The new resolution passed unanimously by the Drug Research Board, an advisory body, was a reversal of its position two years ago. The resolution in effect calls for amendment of ant substitution laws in 48 states.

Only Florida, Michigan and only Florida and Michigan allow pharmacists to fill prescriptions with less expensive substitutes without getting a doctor's approval.

One panel member, J. Richard Crout, director of the Food and Drug Administration's Bureau of Drugs, abstained from voting.

Most of the members are from universities or government health agencies. Three, however, are from the drug industry.

The Pharmaceutical Manufacturers Association, representing most big U.S. prescription drug makers, has argued that cheaper substitutes do not necessarily work as well in the body although they claim to be the same chemically.

'No Inherent Reason'
The Drug Research Board concluded, however, that "in the absence of data to the contrary, there is no inherent reason for choosing the more expensive drug product simply because of the familiarity of the physician or pharmacist with the brand name."
Studies have shown that generic or common-name drugs often are much cheaper than brand-name drugs.

The board said reversal of its position was prompted by the realization that amendment of ant substitution laws would not prohibit a doctor from specifying a particular brand.

Woman, 107, Has Cataract Surgery

PASADENA, Calif. (AP) — Though she's 107, Georgianna McCallister figures there's plenty of life yet to see, so she just had a cataract operation to restore her sight.
Mrs. McCallister, who went home from the hospital Monday, may be the oldest person ever to undergo successful cataract surgery, a Huntington Memorial Hospital spokesman said.

Club Pioneer Dies

CHICAGO (AP) — Burton Browne, 69, a pioneer of private key club operations and founder of the Gaslight clubs in various major cities, died Monday.

Lee YC Chatter

By LINDA SWAN, TANYA JONES and BECKY HALL

The 1974 district football champions closed their year with a fantastic banquet last Thursday night. Coach Fays L'Dell of Drumright, Okla., gave a humorous and very inspirational talk.

Receiving an award for best lineman was Keith Bishop. Blaine Murray was chosen as outstanding back. Lance Posey received the coveted Lena Douglas award for his many extra-curricular activities and overall grade point average of 4.065. Also Keith Bishop and David Sledge were honored for their positions on Dave Campbell's Texas Super Team. Along with these, two players, Junior Miller and Blaine Murray, were picked to the first string All-District Football Team. Coach Acree was presented a team football, a plaque from the senior football players, and a scrapbook presented by the Rebelets officers.

The seniors put a lot of work in on their side, and Greg Rendell sounded like a pro as master of ceremonies. Congratulations, guys, on a great year, and best of luck to next year's team for a fantastic season.

Last Tuesday night, our bouncing Rebels beat Abilene Cooper there. The score was 76-64. They then moved on to stow the Big Spring Steers Friday night. The score was 87-48, which gives us a 4-0 district record. Tonight, we will pulverize Odessa Permian in our gym at 8, so everybody be there to yell for our Rebels. Then Friday, we'll play Abilene High here. Sophomore games will be played at 4:15, and Junior Varsity games will start at 6.

Last weekend the J.V. basketball team took top honors at the Seminole Junior Varsity Invitational Basketball tournament. Brent Huckabay led the team with 17 points. Good luck tonight, guys, against the Panthers!

Speaking of Permian — the LHS tennis team really showed Permian who was who in tennis, with scores of 23-5, and 16-4 against Odessa in a show-down in Odessa Saturday.

Congratulations to our golf team for placing first in Del Rio last weekend. Billy Sifton was 2nd medalist, and Montie Watson and Chris Brown were 3rd medalists. Congratulations also to Paul Pesek and Wendall Fallon.

Hope everyone enjoyed the LHS and MHS bands Monday night in their combined efforts. A gazebo at Wadley Barron Park will be great. We're proud of you, gang.

Also congratulations to Dan Shipman, Nan Gordon and James Hamilton for being chosen to the All-State Band.

Congratulations also are extended to Marty Connally for his outstanding achievements as a violinist. Connally is one of our fantastic sophs who will participate in the forthcoming young artists competition.

Everyone be sure and be at the Y.C. Saturday night to dance to the music of "Battle Creek." The dance starts at 8:30 p.m. and the cost will be \$1.50 a person or \$2 a couple. This dance is open to MHS students, too. So we hope to see everyone there.

Happy Birthday to Russell Kellner, Kevin Stanford, Janet Vaughn, Helen Angelo, Donald Salinas, and Alison Berry.

ALSO A VERY SPECIAL Happy Birthday to Elliott Gould. He is outstanding in both band and speech competition. We apologize for overlooking your name. Elliott. Happy 18th! SEE YOU NEXT WEEK! Linda, Tanya and Becky

Ford Says Skiing Over For Winter

WASHINGTON (AP) — As snow deepened outside the Oval Office, President Ford talked informally with advisers about skiing. He told them ski resorts like those in New England might have faced economic disaster if they hadn't had a good Christmas season this year.

But when a reporter asked Ford Monday if this year's schedule includes more skiing like he did on his recent year-end vacation in Vail, Colo., he said the season is over for him. "I've had it" for the year, Ford said with a smile.

Amazing Figures!

The importance of secondary and newly developed tertiary methods in the recovery of oil has been told on numerous occasions, but it is doubtful if most persons know just how much oil may be recovered.

John M. Lloyd Jr., supervisor of production and planning for Amoco Production Co., Chicago, Ill., cited some amazing figures in this connection in addressing a group of oil industry analysts at Chicago recently.

Domestic oil producers, he said, are expected to extract 22 billion barrels of oil from United States fields over the next 20 years, using secondary and tertiary methods.

He went further than this even in stating that as much as 55 billion barrels of crude oil unrecovered from existing fields have "real promise for recovery with presently known and laboratory-tested methods."

Yes, 55 billion barrels . . . that's what the distinguished engineer said.

"Our view is that the total U.S. secondary and tertiary recovery over the next 20 years will show about 22 billion barrels of additional oil will be produced at gradually increasing rates up to a peak of approximately 4 million barrels per day," Lloyd explained.

Fantastic, isn't it, to think about

this vast amount of unrecovered crude which yet may be brought to the surface.

The Amoco engineer explained the magnitude of enhanced recovery potential by citing a recent industry study which disclosed that of the 438 billion barrels of oil discovered in the U.S. to date, about 110 billion barrels— or 2 1/2 times the present proved reserves—are a potential target for some type of enhanced recovery process which exists now or will be developed in the foreseeable future.

The secondary techniques of water flooding, gas injection and steam stimulation have worked wonders, of course, but Lloyd is of the opinion that the domestic oil industry has a great potential for exotic tertiary forms of enhanced recovery. Much laboratory work remains to be done, but it is possible that some full scale commercial projects can be started before the end of this decade.

Even with these new recovery methods, the biggest chance for sufficiency lies in major wildcat strikes. In other words, exploration must continue to be stepped up as rapidly as possible.

But all this takes a lot of money, and Lloyd said it must come from the "free market pricing of fossil fuels."

Think about it!

'... Just Too Much'

It's great to own dogs and we have no argument with folks who have them . . . but people who own dogs and who let them run free at night . . . well, this is something else again.

Even those persons who own dogs and who keep them up day and night are highly critical of residents who let their dogs loose after dark.

"The cost and anguish caused me

Bible Verse

Moses was 120 years old when he died. His eye was not dim, nor his natural force abated. And the people of Israel wept for Moses in the plains of Moab three days, then the days of weeping and mourning for Moses were ended.— Deut. 34:7,8

Scare Statements Are Ill Conceived

WASHINGTON — The well being of the lives of American people are tossed with in the silly speculation that the United States might inflict military force on the Middle East oil-producing nations "in the gravest emergency."

Whether Secretary of State Henry A. Kissinger fell into a stupid moment or is using his old cunning isn't known yet. Certainly, he is the tail which wagged President Ford on this terrible blunder.

Someone should sidle up to the President, old-congressional-buddy style, and advise him that the United States should never become the selfish, puritan bully to the world. Certainly, we Americans can solve our energy and financial problems in better fashion than storming ashore with guns on the beaches of friends to confiscate their oil.

In the Business Week Interview, which started this ruckus, Kissinger said a military action of this sort would be "a very dangerous course." He remarked that it is easier to get into a war than out of one. Kissinger should have stopped there rather than adding that "actual strangulation of the industrialized world" might require such intervention.

That thought led to a spate of inquiries by newsmen, and eventually Kissinger fell back on the explanation that he doesn't make major statements on foreign policy, that the President does, and he was only reflecting Mr. Ford's views. The President then backed Kissinger on the matter.

The howls from the oil-producing

nations were expected, especially from Iran which deems itself the Aryan (non-Arab) lord of the Persian Gulf. Kiss-

inger's curiously timed statement seemed brand new to most Americans; actually, it has an interesting array of precedents. Former Sen. J. W. Fulbright first brought up the notion of a military action in the Persian Gulf, May 21, 1973, and repeated it the following November. In wry manner, Fulbright mused that perhaps the United States wouldn't have to stage the invasion because we had "surrogates" in the area like Iran and Israel.

Fulbright said a visiting Israeli scholar was worried that Israel would be called on by the United States to invade Kuwait. Finally, Fulbright said he hoped such speculation would be denied and repudiated by the U.S. government.

Well, it wasn't. In fact, both Mr. Ford and Kissinger last fall made hard-line statements that it was regrettable but military force had been used before for economic ends. Now, with Ford-Kissinger ill-conceived efforts to get OPEC's

oil prices down, we get the latest scary statements.

The facts are that the OPEC nations, which include several non-Arab states, first raised oil prices 60 per cent in February, 1973. OPEC was ready to more than double prices when the October war broke out in 1973 and, a month later, did so. But it was Iran and Venezuela which pushed for the whopper increase, not Saudi Arabia or the other Arab states.

Ford-Kissinger should also know that the majority of oil imported by the United States comes from Canada and Venezuela, not the Persian Gulf states. Nigeria and Iran send far more oil to us than all the Arab nations combined. But the Arabs, because they are stereotyped in the media and in Congress, are portrayed as our biggest suppliers. They could be one day because of their enormous reserves, but not yet.

Next, Japan and Europe are far, far more dependent on Persian Gulf oil than we are, but they don't indulge in frightening speculation about war for oil. They are mature enough to understand the world's economic realities.

The Washington Merry-Go-Round

By JACK ANDERSON

WASHINGTON — The big auto makers are trying to make up some of their sales losses by jacking up the prices of replacement parts because auto owners are repairing their old cars rather than buying new models.

We have had access to a private industry study, which predicts the repair boom will bring in an extra \$8 billion by 1980. The motorists' repair bills, according to the study, will soar from \$35 billion to \$43 billion.

The rush of motorists to repair shops began about four months ago. The shops now are raking in the money at a rate 12 per cent higher than in past years.

The auto manufacturers are trying to squeeze more profit out of the repair business, therefore, by raising prices on captive parts, such as fenders, doors and grills.

Where there is market competition — for such items as spark plugs, light bulbs and batteries — the prices are holding better.

The dealers also charge independent shops more for captive parts than the dealers pay themselves. An intricate rebate system has been designed to benefit the dealers at the expense of their customers.

Some insurance companies also are ripping off their policyholders by sending them to inferior garages, known in the industry as "enforcer shops," for accident repairs. These do a shoddy job but keep down the cost to the insurance companies.

For example, some shops replace modern "super shock absorber" glass, now standard equipment in most new cars, with cheaper, old-style glass, which is far less safe.

Tests by the Society of Automotive Engineers show the modern glass crumbles into rice-sized bits instead of breaking into jagged missiles.

But the cheaper glass saves the insurance companies money at the expense of their clients' safety.

'EMBARRASSING SITUATION'

We recently reported after a two-month investigation that the Drug Enforcement Administration's top command virtually

has been paralyzed by dissension.

We cited investigations which we charged had been held over the heads of top officials as a "management tool" to keep them in line.

Our findings have been confirmed by a confidential management study, which found that the unresolved investigations leave "the agency in an embarrassing situation" and the victims in "a very uncertain and very vulnerable position."

An estimated 25 per cent of the closed cases, according to the study, were "closed on the basis of investigations that were judged to be incomplete." Yet "nearly all of these incomplete investigations involved serious allegations."

Among the unresolved charges against DEA officials and agents are these: The murder of a confidential informant, sale of narcotics, loss of \$2,500 in seized funds, continual intoxication and illegal possession of firearms.

And this is not to mention all the open investigations, which have increased dramatically. "The backlog of cases," states the confidential report, "has grown 60 per cent in two years."

The purpose of the investigations is to make sure drug enforcement people are so clean they can't be blackmailed. Yet the open investigations themselves leave the subjects "extremely vulnerable to extortion," alleges the document.

DON OAKLEY

Research Much More Than Just Title Deep

WASHINGTON (NEA)—Told that the government spent \$70,000 to study the body odor of Australian aborigines or \$32,000 to find out how seagulls communicate or that his hard-earned tax dollars are supporting a slew of research projects in the nation's universities on such subjects as "Effect of Dry-Chilling on the Flavor of Fried Chicken" — well, the average taxpayer either fires off an irate letter to his congressman

or local newspaper or simply throws up his hands in disgust.

Unfortunately, like so many other minor items in the news that command our attention briefly, the follow-up story seldom catches up with the original.

For example, what the National Institutes of Health was investigating was not Australian sweat but how the balance of body fluids of the aborigines in a hot climate compared with the Eskimos. The object was to determine how U.S. servicemen headed for the equator could adapt to the heat.

The seagull project was commissioned by the Air Force, which in 1973 lost \$24.5 million as a result of bird-aircraft collisions around airports.

As for that chicken business, this research, conducted at Purdue University, was undertaken in response to a deadline set by the European Common Market. After Jan. 1, 1977, the member countries announced, they will no longer accept poultry that has been cooled in a water bath.

This meant that the U.S. broiler and turkey industries had to come up with a new and satisfactory dry-chill method which retained the quality and taste of the product.

Thus the research at Purdue. Government waste and inefficiency should of course continue to be mercilessly exposed. But at a time when the nation needs its research universities as never before, taxpayers, journalists and professional boondoggle spotters owe it to themselves to do a little research of their own before sniping at those projects with funny-sounding names.

INSIDE REPORT

Will A Tax Cut Work? Poll Raises Doubts

By ROWLAND EVANS and ROBERT NOVAK

WASHINGTON — Private polling data now flowing into the White House Oval Office is raising grave questions whether President Ford's proposed massive income tax cut will actually stimulate the dangerously depressed economy — or simply be used to pay off old debts and replenish disappearing savings.

Indeed, so worried are the President's economic advisers that William Seidman, Mr. Ford's assistant for economic affairs, has made arrangements to go to Swarthmore, Pa., to listen in on telephone interviews conducted every evening around the country by the Albert Sindinger polling organization.

A specialist in consumer spending habits, Sindinger has been turning up alarming evidence that far more American households now plan to use the President's proposed 12 per cent income tax rebates for paying debts on past purchases — and for savings — than for buying new cars or other durables. The main reason: the record low level of consumer confidence in the future of America.

Sindinger's findings, which are similar to pessimistic forecasts of other

economists, mean that income tax cuts may not operate as a self-starter to get the economy moving. If true, that drastically undermines use of tax cuts to revive the economy with a quick fix.

Reports from Sindinger now under study at the White House show that nearly 53 per cent of 1,415 households his telephone interviewers sampled from Jan. 9 to 13 would save, not spend, any income tax windfall. Only 33.6 per cent say they would spend it.

That chilling yardstick of consumer plans not to buy much in the worsening recession resulted from the last of a series of questions regularly asked by Sindinger. These questions attempt to isolate what consumers plan to do — not what they think everybody else will do about buying consumer durables.

Thus, Sindinger's first question sets the stage by asking: "Do you think people in general would spend more than save, or save more than spend?" More than two-thirds responded that "people" would spend more.

But on the key question whether they themselves would spend or save, the findings were reversed.

That imperils White House hopes for major stimulation of the economy: a flood of new buyers for automobiles and other heavy durables, such as refrigerators. Instead, most consumers, reacting from fear of the future and lack of confidence in the President's recovery program, may stick their tax cuts in a sock.

HOUSE POLITICS

The stunning refusal of the House Democratic Caucus last Thursday to out-tough, irascible Rep. Wayne Hays of Ohio as chairman of the House Administration Committee reaffirmed the near preeminence of Rep. Philip Burton of California.

Although a doctrinaire liberal and reformer, Burton — the new chairman of the Democratic Caucus — is a strongly anti-reformer Hays in Byzantine internal House politics. The unexpected vote Wednesday by the Democratic Steering Committee to depose Hays in favor of Rep. Frank Thompson of New Jersey was a personal blow to Burton.

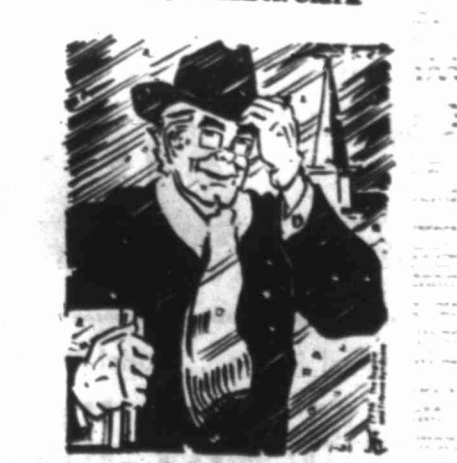

Accordingly, when Hays hit the telephone seeking to reverse the Steering Committee in Thursday's caucus, Burton was at his side. Newly elected liberals were amazed to hear Hays tell them: Phil wants to say a word to you. Some felt the presence of 1976 campaign funds: Hays is chairman of the House Democratic Campaign Committee and Burton campaign chairman for the liberal Democratic Study Group (DSG).

Thursday's 176 to 109 caucus rejection of Thompson was interpreted in the House not only as a mandate for Hays and a victory for Burton but a defeat for majority leader Thomas P. O'Neill of Massachusetts. Though hotly denied by O'Neill, senior Democratic congressmen — including Wayne Hays — felt O'Neill was behind the Hays purge.

Less equivocally, the caucus vote displayed abysmal lack of influence by Common Cause and John Gardner, long the target of Hays' uninhibited vituperation. Common Cause had Hays' ouster on top of its 1975 priorities.

TO RESUME JAIL TERM—G. Gordon Liddy, the man who led the Watergate burglars and a member of the Nixon re-election committee, leaves U.S. District Court Monday in Washington after a judge ordered him to resume serving a jail term of six years and eight months to 20 years. Liddy's appeal to have his conviction reversed was turned down last week by the Supreme Court. (AP Wirephoto.)

Senator Claims CIA Will Soon Reveal Size Of Annual Budget

WASHINGTON (AP) — Senate Republican leader Hugh Scott says he has received "indications" the Central Intelligence Agency will soon disclose the size of its total annual budget, for decades one of the government's most closely held secrets.

And Sen. Alan Cranston, D-Calif., says the secret budget's size apparently is expanded by contributions to the spy agency by foreign nations, including Iran.

In an interview, Scott gave no details as to when the agency might release a budget total or how large that total might be. He did say that CIA spending in the United States and overseas was high on the list of subjects discussed by CIA director William E. Colby and former director Richard M. Helms when they testified last week before the Senate Armed Services Committee.

Cranston commented in what

Iraq Finally Allows Three Hijackers Into Country

PARIS (AP) — Three Arab terrorists who held 10 hostages in a Paris airport restroom for 18 hours were finally given refuge by Iraq early today after four other Arab governments refused to take them, an Air France spokesman reported.

The terrorists were allowed to leave Paris Monday morning on an Air France Boeing 707 in return for releasing the hostages. The gunmen ordered the volunteer crew of three to fly to Lebanon, but Beirut airport authorities would not let the plane land.

Agreement Reached

The pilot tried Kuwait, Egypt and Saudi Arabia, but all three turned him away. He landed in Baghdad Monday afternoon — by a ruse, the Iraqi news agency said — but was forced to take off after taking on eight hours fuel.

The French airline said the

French ambassador in Baghdad negotiated with the Iraqi government while the plane flew back and forth across the Middle East, and the Iraqis agreed shortly after midnight to let the terrorists surrender to them.

There was no indication what would be done with them.

The terrorists tried to attack an Israeli airliner at Orly Airport Sunday afternoon, but a policeman spotted one of them and fired at him. This set off a gun battle in the terminal in which 21 persons were injured, including one of the terrorists who was shot in the arm.

Stood All Night

The Arabs herded four men, five women and the 3½-year-old daughter of one of the women into a restroom and forced the adults to stand all night.

One of the hostages, 70-year-old Father Vades Gonnet, said the gunmen forbade the hostages to talk, so he prayed quietly.

"Very softly I uttered collective absolution and sketched out the sign of the cross," he said. "All night the terrorists behaved very correctly. However, we felt that if the negotiations had failed they would have killed us, also very correctly."

Behaved Well

Aureo Carreira, a Portuguese who had gone to Orly for an afternoon outing, said two of the Arabs "behaved very well" but the wounded man "was particularly aggressive and threatening" and kept a grenade in his hand throughout the night.

It was not known whether the Arabs made any demands other than for a plane to escape from France. Their affiliation within the Palestine guerrilla movement also was not clear, but the Palestine Liberation Organization condemned their action.

Magruder Plans College Lectures

WASHINGTON (AP) — Jeb Stuart Magruder, who was released from prison Jan. 8 after serving seven months of a 10-month to four-year sentence for his part in the Watergate cover-up, now says he wants to lecture college students about prison reform.

Magruder said in an interview with local television station WTTG Monday that he'll start on a college lecture tour in the spring. After that, he said, he foresees a business career.

In Ottawa, Canada, another Watergate figure, former White House counsel John Dean, is to lecture at Carleton University Feb. 13. The fee for a half-hour talk followed by an hour-long question-answer session will be \$550.

Dealers And Buyers Responding Warmly To Auto Rebate Program

DETROIT (AP) — After 13 months of rising auto prices and sagging sales, some car dealers and buyers are responding warmly to rebate programs by the Big Three auto makers.

General Motors, under competitive pressure applied last week by Chrysler Corp. and Ford Motor Co., entered the discount arena Monday with its first rebate program since World War II.

The Big Three discounts range from \$100 to \$500 on selected models, and some dealers said the sales trend is being reversed, at least for this week.

Sales figures were unavailable from Ford and Chrysler, but spot checks of dealerships found sales increasing.

A Tucson dealer wired Ford officials that weekend sales were the best in nine months.

Barrington Ford in Columbus, Ga., reported showroom traffic doubled after the rebate plan was announced. After many days with fewer than five sales, the firm closed 20 deals on Saturday.

Pierce Motors in Tewksbury, Mass., said 400 persons came through its Ford showroom on Saturday, far above the average of recent weekends, and 33 bought new cars.

The auto companies hope spring fever will take over to boost sales in March, although some dealers say they believe the rebates will provide only short-term relief.

GM's rebate plan matches Ford's, with discounts of up to \$500 for purchasers of new small cars, which are stockpiled in more than three months' supply.

GM rebates are on compact and subcompact models in its Chevrolet, Buick, Pontiac and Oldsmobile Divisions.

The \$500 discounts are on the new Chevrolet Monza, Buick Skyhawk, and Olds Starfire models. The \$300 discounts apply on the Chevy Vega and Nova, Pontiac Ventura and Astra, Buick Apollo, and the Oldsmobile Omega. Base prices on the GM rebate cars range from \$2,799 for a stripped-down Vega to \$4,156 for a Starfire.

Ogg Offers Smoker Bill

AUSTIN (AP) — Sen. Jack Ogg, D-Houston, today introduced a bill providing fines of up to \$200 for smoking in certain public places. The bill would outlaw smoking in elevators, theaters, libraries, art museums, hospitals or buses, except within specially designated areas. "Although I am personally convinced that smoking is injurious to a smoker's health, it is certainly his prerogative to smoke. However, non-smokers also have the right not to inhale the smoke of others that is also dangerous, offensive and impolite to them," Ogg said at a news conference. His bill, he said, is modeled after one already in effect in Arizona.

"I would like to broaden it to restaurants if I could come up with something feasible in the way of a definition," Ogg said. The problem of definition, he said, lies with places that are primarily drinking establishments but also sell food, because when you go, you are on notice that these are smoke-filled clubs.

Animal Shelter Residents May Have Discovered 'Peek-a-Boo'

Midland Animal Shelter Offers Cat Adoption Bonus

By JAN WILLIAMS
January is Adopt-a-Cat month at the Midland SPCA Animal Shelter, 1601 Orchard Lane. During January the shelter will be giving away special adoption kits to every person adopting a cat. The kit includes a cat care booklet, free cat

food, an adoption certificate, a feline bill of rights and letters from Morris, the star of television commercials who was himself discovered in an animal shelter. The kits are compliments of a cat food company, which is sponsoring Adopt-a-Cat month for the American Humane Association.

"We have dozens of magnificent cats and kittens in our shelter now, including a litter of pure black kittens and three adult Siamese cats. Any of them would make a 'purr-fect' addition to a family," says Albert Weinkauff, shelter director. "So many times, I hear of people buying cats and kittens from pet shops. Then I look at all our beautiful cats which need a home so badly."

There is a \$20 adoption fee for cats or kittens at the shelter, of which \$15 will be used to spay or neuter the cat. This is necessary, Weinkauff says, to prevent more unwanted cats. The shelter also gives all cats distemper shots.

Weinkauff says five or six cats have already been adopted this month, a record number for the shelter. Usually, three of every ten cats at the shelter are adopted.

Cats which are not adopted are kept for an indefinite period of time, depending on space available at the shelter and whether the cat is a stray or has been left there by a former owner. Cats not eventually adopted are put to sleep by means of injection.

Any person wishing to adopt a cat can visit the Midland SPCA Animal Shelter, 1601 Orchard Lane, Monday through Friday from 9 a.m. to 5:30 p.m. and Saturday from 9 a.m. to 1 p.m.

Denver (AP) — When Earl Cohen, his wife, their five children and pet dog found their vehicle stranded in deep snow in the Rocky Mountains they built a bonfire and settled down for the night. In the next three hours two more cars became stranded on the same road and the occupants joined the Cohens at their fire.

"We were quite content to spend the night," although they had no food, Cohen said. But the group, now swelled to 11 persons, became concerned when one young man seemed incoherent.

Cohen and some of the others hiked through the snow Sunday night to a remote microwave relay tower, broke in with a tire iron and looked for a telephone to call for help. Cohen said they found a lot of equipment, but no telephone. While Cohen "trailed the ice

box" for snacks, Major Marcks, an Ohioan visiting Denver, began pushing buttons. One touched off an American Telephone and Telegraph Co. alarm at an AT&T facility almost 200 miles away in Lamar.

Jim Wright, on duty in Lamar, established contact with Marcks through a speaker and notified authorities.

A rescue helicopter from St. Anthony's Hospital in Denver picked up the sick youth, Donald Riechers, 17. Authorities said Riechers, an epileptic, ran out of medicine and became ill. The chopper carried the boy to the hospital early Monday morning.

Bob Lutz, a communications technician, reached the tower in his jeep before a search and rescue unit arrived. The rescue unit brought the seven women and children, two men and other youth out by four-wheel drive vehicles shortly before sunset.

Marcks, in Denver to open up a sales territory for a fabric jobber in Augusta, Ga., described the night as "hair raising." "I have never been to the mountains in winter before and I don't intend to make a practice of it, especially on an unpaved road," he said.

Travelers Stranded In Heavy Snow Recall Experience, Vow Never Again

LOS ANGELES (AP) — Will Stevens will be starring next month in a 90-minute mystery based on the classic Nick Charles character created by Dashiell Hammett.

The show will appear on ABC's late-night Wide World of Entertainment. The network has an option for three more 90-minute "Thin Man" shows or for a prime time series.

"Either way would be okay with me," says the suave Stevens, who spent four years solving crimes as tv detective Peter Gunn.

"I've had a lot of offers for series, and most of them are pretty dull. It's rare that you come across a character as appealing as Nick Charles."

"He is a delight to play. When Seymour Berns, who is producing and directing the show for MGM, sent me the script, I told him 'I know these things are supposed to be done through agents, but I'll tell you right now I'd love to do it.'"

The 36-year-old actor believes the time is ripe for a return to the kind of sophistication displayed by William Powell and Myrna Loy in the "Thin Man" series.

Has Smartness, Class
"The first one came out in 1934. I was in high school in Kansas City (Mo.)," said Stevens. "I remember it very well. It had a smartness and class that so many of the movies had during the depression."

"My family wasn't poor, but everybody felt the pinch in those days. I delivered the Kansas City Star to make my own spending money, and a dime to see a movie was a lot of money. But it was worth it."

"A friend of mine has pointed out to me that in times of economic stress people like to see elegance in their entertainment."

"I don't know why. Maybe it's a way for them to escape their own problems."

Adair Arrives To Douse Burning California Well
LOS ANGELES (AP) — Paul "Red" Adair, world-famed oil and gas firefighter, says he will try to choke a 125-foot-high fire in a natural gas well by pouring mud and salt water down its throat.

Adair, who arrived by private jet Monday from Texas, said the operation would begin after his specially rigged pumping equipment arrived by truck from Houston today.

The fire has been lighting the sky in the northwest corner of the San Fernando Valley since the leaking well ignited Sunday night. No one was injured and, although spectacular, the fire was expected to burn harmlessly until put out.

If the salt water and mud don't do the trick, Adair said he will pump water into a nearby well and hope it flows into the burning well. A third alternative involves breaking the casing around the wellhead to let the trapped gas out, he said. Asked if this fire posed any special problems, Adair said, "They're all hard."

Bell Probe Expands Into North Carolina

CHARLOTTE, N.C. (AP) — Law enforcement agents have interviewed John J. Ryan about his allegations that when he was head of North Carolina operations for Southern Bell he administered a political slush fund for the telephone company.

He has said that eight of his top executives kept replenishing the fund, which was used for contributions to both Republican and Democratic candidates in North Carolina although such contributions by corporations are illegal.

Ryan, who made his allegations in a recent newspaper interview, claims Southern Bell fired him a year and a half ago. The company claims he was retired and received a payment of \$75,000 in 1973 after signing a release which said he would make no further claims.

Ryan says he signed the release while under emotional strain and without being allowed to consult a lawyer.

Southern Bell has said it will issue an answer to all of Ryan's allegations. It has said so far that no slush fund exists at present.

Agents of the Federal Bureau of Investigation and of the State Bureau of Investigation interviewed him Monday. The agents began investigating whether state and federal laws on political campaigns had been violated.

Ryan is to meet with FBI agents again Thursday. They will prepare a report for Dist. Atty. Peter Gilchrist on whether state laws against corporate political contributions have been violated.

Ryan said he does not anticipate meeting with FBI agents again since he is cooperating fully with investigators for the Federal Securities and Exchange Commission (SEC).

Ryan testified under federal subpoena to SEC investigators last Saturday and Sunday in Fort Worth, Tex. The investigators are looking into allegations of political slush fund activity and deceitful rate-increase practices by Southern Bell.

Telephone in its Texas operations. These allegations were made by two former executives.

Ryan said Monday that he has continued to receive harassing telephone calls from anonymous persons who expressed dislike for his allegations against Southern Bell.

POLITICAL CHIT CHAT—Mrs. Dolph Briscoe, wife of the governor of Texas, and Sen. Lloyd Bentsen, D-Tex., enjoy a chat during the Texas Democratic party victory dinner in Austin Monday night on the eve of Gov. Briscoe's inauguration. (AP Wirephoto.)

Economic Conditions Fail To Keep 3,000 Democrats From \$35-A-Person Dinner

AUSTIN (AP) — Economic conditions failed to keep approximately 3,000 Democrats from filing into a \$35-a-person Democratic victory dinner Monday night.

But members of the Future Farmers of America trying to sell \$10 inaugural commemorative booklets felt the pinch.

"The sales just aren't going very well," said a blue-jacketed high school pupil.

Mood Of Victory

The mood was one of victory as the audience waited for National Democratic Chairman Robert Strauss, Gov. Dolph Briscoe, Lt. Gov. Bill Hobby and Sen. Lloyd Bentsen to take verbal shots at the Republicans and comment on the condition of Texas and the nation.

The University of Texas band provided dinner music with songs such as "In the Mood," "Shaft" and "Ghost Riders in the Sky" as diners carved their 10-ounce sirloin steaks.

Briscoe, Hobby and their wives walked the length of the Austin Municipal Auditorium to the head table as the band played "The March of the Longhorns," originally written for the presidential inauguration of Lyndon B. Johnson in 1964.

Strauss began the praise of the Democrats by saying voters turned to their party last November because they did not like what they saw around the country.

Strauss, a Dallas resident, said, "We should be celebrating

a day of thanksgiving and a day of continuation—continuation of decent, honorable and compassionate state government here in Texas."

Bentsen, who is expected soon to announce his candidacy for the Democratic presidential nomination in 1976, told the audience he was proud to be a Texan because of the quality of the state's government and the diversity of its economy.

Discrimination Claimed

The senator said, "We're going to have some rough times in the future in the country and in Texas, but in Texas, Briscoe and Hobby will be here to provide the necessary leadership."

Hobby said the economic policies of the Nixon and Ford administrations discriminate \$1.68 billion a year

against Texas in favor of other parts of the country.

Hobby said the time had come for the executive and legislative branches of state government to join the Democratic congressional delegation in defeating legislation and regulations "which are contrary to the interests of the people of Texas."

Briscoe told the audience that the Democrats "must wear the mantle of victory with responsibility because there are still problems yet to be solved."

The governor said the financial needs of the state can be met without any new taxes but added that the Republican administration's proposed tax on gas and oil would cost Texas

Chairman Of Clemency Board Urges Draft Dodgers, Deserters To Take Advantage Of Ford's Program

WASHINGTON (AP) — Presidential Clemency Board Chairman Charles E. Goodell today urged thousands of draft dodgers and deserters to sign up for the amnesty program before it expires in 10 days.

"We have over 100,000 out there . . . eligible for the Clemency Board program," Goodell said. "And I don't think most of them know it."

As members of the board headed for cities across the nation to spread the warning that President Ford's program is about to come to an end, Goodell made the plea during an interview on the CBS "Morning News" program.

Called Demeaning

But Henry Schwartzchild, a lawyer for the American Civil Liberties Union who appeared in the joint interview with Goodell, described the amnesty plan as demeaning.

"It's the only game in town, but not an acceptable game," Schwartzchild said.

He said the best method would be unconditional amnesty for all.

Theory Said Proven

Goodell said Monday that he is convinced that the reason more draft dodgers and deserters haven't signed up for the program is that they haven't gotten the word they are eligible. He said this theory has been proven by the "tremendous upsurge" in applications since he launched a nationwide radio-TV campaign Jan. 6.

As the board members fan out from city to city, they'll be aiming at the 100,000 to 120,000 men convicted of desertion or draft evasion during the Vietnam era. These are the only persons the board deals with.

Publicity Expected

But the Pentagon and Justice Department expect a spinoff of publicity for the amnesty programs they operate, as happened with the radio-TV campaign.

The military enrolls unconvicted deserters and the Justice Department enrolls unconvicted draft evaders. There are 13,000

eligible persons under the Pentagon program and 6,200 under the Justice program.

The cities chosen for board member visits so far are Minneapolis; St. Paul; New York City; San Francisco; Los Angeles; Boston; Chicago; Detroit;

Washington, D.C.; Baltimore; Tucson, Ariz.; Albuquerque, N.M.; Atlanta; Dallas, and Denver.

Efforts To Ban Fireworks By Fourth Of July Have Gone Up In Smoke

WASHINGTON (AP) — An attempt by a government safety panel to ban firecrackers and bottle rockets before this Fourth of July has gone up in smoke.

The U.S. Product Safety Commission says time has run out on its efforts to seek such a ban. The lengthy appeals process required by law and triggered by objections from Asian fireworks manufacturers means that any commission ban this year would be too late to defuse fireworks that have entered interstate commerce.

"It is unlikely that any regulation would have that

much effect" before the 1975 Independence Day celebration, Chairman Richard O. Simpson told newsmen Monday.

Last May the commission voted 4 to 1, with Simpson dissenting, to ban firecrackers of all sizes and bottle rockets and to impose new safety standards for all types of fireworks. The regulation was to take effect in mid-June 1974.

Both rockets are firecracker-sized devices attached to a slender stick. Inserted into a bottle and lit, they shoot into the air and explode.

The commission estimated that 6,600 persons were

treated in hospital emergency rooms for fireworks-related injuries in 1973.

Big firecrackers such as cherry bombs, M-80s and silver salutes have been illegal since 1967 except to scare birds from crop fields.

Complaining that the proposed federal crackdown would stick them with \$50 million worth of fireworks, manufacturers and traders from Taiwan, Macao, Hong Kong and Oklahoma requested a public hearing.

The commission reluctantly consented, delaying any rules for the 1974 holiday.

Israelis Reportedly Ask U.S. For Increase In Aid Package

WASHINGTON (AP) — Israel has asked the United States for about \$2.2 billion in military and economic aid, more than three times what it received in the current aid package, U.S. and Israeli sources said Monday.

About \$1.5 billion of that would be for military aid, the rest for economic assistance, the sources said.

The request is now being considered by the State Department and Ford administration budget experts, the U.S. officials said, explaining that no decision has been made yet.

Police Detective Faces Indictment

HOUSTON (AP) — J. D. Allen, a detective in the Houston police department burglary and theft division, has been indicted by a Harris County grand jury on a charge of selling a piece of surveying equipment which had been stolen.

Police Chief Carrol Lynn said Monday he will ask for indefinite suspension.

Allen, 38, a 16-year veteran on the force, said he is certain he will be cleared in court.

tanks, artillery and other heavy arms.

U.S. officials indicated the administration would study the Israeli request and then make its own recommendation and pass it on to Congress.

The current aid request compares with the \$674 million the Israelis received last year, about \$300 million of it in military credits.

However, following the 1973 Yom Kippur war in the Middle East, the United States gave Israel \$2.1 billion in emergency military aid to compensate for the major losses of equipment suffered by the Jewish state.

It was understood that the current request is primarily for direct grants rather than loans and would not be repaid. It was also understood Israel is seeking major supplies of planes,

Damages Assessed Finance Company

HOUSTON (AP) — A woman who alleged that harassment by a loan company over an unpaid loan resulted in her baby being stillborn has been awarded \$54,000 in damages.

District Court Judge William N. Blanton signed the judgment Monday.

Several weeks ago a jury in Blanton's court voted 10-2 to award Greta Lester the amount in her suit against Beneficial Finance Co. of Houston.

Arctic Cold Envelopes Eastern Seaboard

By The Associated Press

Arctic cold enveloped the Northeast and most of the Eastern Seaboard today in the wake of a storm that dumped up to 4 inches of snow on the nation's capital and nearby states.

Temperatures tumbled below zero from Pennsylvania to New England overnight. Readings in the low teens stung the New York City area, and much of the Deep South shivered in the middle and lower 20s.

Four inches of snow whitened Washington Monday. Three inches blanketed Richmond, Va.; Dover, Del., and Beckley, W.Va. Light snow lingered into the night in some sections after the storm moved out to sea.

Wind, freezing rain and snow plagued travelers across a broad area from the central

Rockies to the Upper Mississippi Valley.

The South Dakota Highway Patrol advised against travel Monday night as freezing rain glazed highways in the state's southeastern area. Travel advisories were in effect in the pre-dawn hours for the Dakotas, Iowa, Minnesota and Wisconsin.

Five inches of snow piled up at Lander, Wyo., during the night and one-inch coverlets were scattered over Minnesota and into Wisconsin.

Wind gusts topping 40 miles per hour shook parts of the Midwest and the Plains. Wind warnings remained in effect for parts of Colorado, Nebraska and Wyoming.

Clear skies dominated much of the country from the Pacific to the Continental Divide.

♦ K J
♣ Q 8 2

South West North East
1 ♠ Pass 2 ♣ Pass
2 ♠ Pass 4 ♣ All Pass

Opening lead — ♣ 2

East's "normal" play at the first trick is the king of hearts, but his correct play is the jack. East knows that South has the ace of hearts. (West wouldn't be leading away from the ace.) East would like to know who has the queen of hearts.

South wins with the queen of hearts, and the secret is

out. South next finesses the jack of spades around to the queen, and East promptly shifts to a diamond.

West takes two diamond tricks and eventually defeats the contract with the ace of trumps.

Wooden Play

South would make his contract if East woodenly played the king of hearts at the first trick. South would win with the ace of hearts and finesse the jack of spades to the queen. Back would come the jack of hearts, since East wouldn't know that a shift was desirable. East would never get another chance to lead diamonds.

If West has the queen of hearts, South's ace will be forced out when East plays the jack at the first trick. When East gets in with the queen of spades, he can cash the king of hearts and then lead a diamond.

Daily Question

Partner opens with one spade, and the next player passes. You hold: S-A 2 H-9 7 6 2 D-A Q 7 4 C-9 4 3. What do you say?

ANSWER: Bid 1 NT. The hand is a little too light and empty for a response at the level of two.

Lee Hosts Permian In 5-4A Showdown Tonight

By BOB DILLON
A capacity crowd is expected to jam the Lee Gymnasium tonight when Coach Paul Stueckler's Midland Lee Rebels face the Odessa Permian Panthers in a key District 5-4A basketball game.

Lee, with a 20-1 record and a 15-game winning streak on the line, battles Coach Tom Mayberry's Black Cats who

bring a 21-3 mark into the big battle. Lee leads the loop race, however, with a 4-0 mark and Permian is 3-1, with its only loss to Midland High.

While Lee and Permian are going after it hammer and tng, Midland (15-4) and (3-1), takes on the Odessa Bronchos (2-19) and 6-4, in the OHS Fieldhouse. Tripleheaders are on tap in

both gyms with sophomore game set for 4:30 p.m. followed by the junior varsity tilts at 6:30 and the varsity tip-off at 8 p.m.

Lee brings a balanced scoring attack into tonight's game with all five starters scoring in the double figures in loop play. Six-foot senior guard and playmaker, Brett Blackwell, paves the way with a 17.0

average. Next comes 6-5 Junior Miller with 10.7 followed by 6-0 senior Gary Parsons with 12.5. Jeffrey Jackson, a 6-5 senior, has an 11.3 average and Ron Farish, 6-2 senior, is scoring at a 10.1 clip. All but Parsons are also in the double figures on the season.

Permian, although shorter, still has plenty of talent in 6-4 junior James Hunter, who is

the No. 2 scorer in the district behind Midland High's Michael Cobb. Hunter has scored 72 points in loop play for an 18.0 average. Brad Van Cleave, 6-0 senior guard and floor general for the Black Cats, is scoring at a 12.6 average.

Joining Hunter and Van Cleave in the Permian lineup will be Mike Walton, 6-3 and captain; David Stell, 5-9 senior

and Craig Johnson, 6-4 senior. Midland will go with Cobb, Dennis Roberts, another 6-5 senior; Greg Smith, 6-3 senior; Bobby Olson, 6-4 senior and Terry Nelson, 5-9 senior or Billy Kerr, a 5-8 senior.

Cobb has a 20.2 average in loop play while Roberts is hitting 13.2 per game for Coach James Cagle's Purple Pack.

Odessa has the No. 7 scorer in the league in 6-6 senior Ricky Hayes who is averaging 18.7 per game with 67 points in four games. Joining Hayes in the Broncho lineup will be Robert Lewis, 5-9 senior; Don Hudnall, 5-10 senior; Johnny Martin, 5-10 senior and either Jerry Walker, 6-1 senior or Robert Lane, 6-1 junior. Maynard Johnson, a 6-4 senior, will also see action.

Indiana Tops College Poll

By The Associated Press
After a 1-2 punch that knocked out two of the nation's top teams, Stanford broke into The Associated Press' Top Twenty with a wallop today.

The Cardinals, who floored UCLA and Southern Cal on successive nights last weekend, roared from nowhere into the No. 15 spot, leading a group of four new teams into the rankings this week.

Kansas moved into the No. 18 position while Purdue and Auburn jumped into a tie for No. 20.

UCLA, victimized 64-60 by Stanford on Friday night, dropped two places to No. 4. Southern Cal, No. 6 last week, dropped to No. 7 after Saturday night's 67-66 loss to the surprising Cardinals.

No. 1 Indiana improved its winning streak to 19 over two seasons and its record to 15-0 this year with easy victories over Minnesota and Northwestern last week. The Hoosiers took 45 of the 48 available first-place votes and collected a runaway margin of 354 points.

Louisville, which collected the other three ballots for first place, moved up one spot to second after a victory over Drake. It received 786 points.

Maryland jumped two places to No. 3 with 740 points. The Terps beat North Carolina State and Navy last week to improve their record to 13-1.

UCLA was given 714 points for fourth place while North Carolina State, the defending

TCU, Hawaii Friction Due To 1973 Incident

PORT WORTH, Tex. (AP)—An obscene gesture toward the American flag by a University of Hawaii player during a game with Texas Christian University in 1973 might be what has created friction between the two universities.

TCU basketball Coach Johnny Swain confirmed Monday he plans a formal protest in the form of a letter to University of Hawaii officials after the Honolulu school's head basketball coach hurled accusations about "racial incidents and slurs" concerning Frog fans.

Swain said the letter has been written "but I'm not sending it unless Abe (Athletic Director Martin) and other (TCU) people approve it and want me to send it."

Hawaii's accusations stem from its game with TCU Jan. 11 in which the Frogs rallied in the second half and defeated the Rainbows 69-62.

A story delineated from Fort Worth appeared in a Honolulu newspaper the day after the game and quoted Hawaii Coach Bruce O'Neil as saying:

"We were subjected to the worst verbal abuse I've been through in my life. It's one thing losing a game, but it's another thing being degraded as a human being."

Hawaii player John Penebacker, who is not with the team this season, made an obscene gesture at the flag during the playing of the national anthem before the 1973 game.

Fans sitting behind the Hawaii bench didn't like Penebacker's action and told him. Penebacker then pointed his displeasures at the fans. There were numerous witnesses, including several persons at the scorer's and press tables.

A brief shoving match between players finally occurred on the court.

The next day, it was carried into the Honolulu newspapers, citing racial slurs and abuse and then Coach Red Rocha saying the game referees, one in particular, "displayed outright antagonism" toward the Rainbows.

"I think that the insult toward the flag started the whole thing," Swain said. "That instigated it and it created animosity between our fans and their players."

However, Swain says the flag incident is the only one which involved Frog fans. He denies all the other accusations, including the ones about this year's game.

"I'm upset by the use of a bunch of lies," Swain said. "They've gone further than most people to make excuses about a loss. Most people say 'we lost' and leave it at that. They are making excuses that are lies."

TV ANNOUNCEMENT—Bench Hearing Wedding Bells

CINCINNATI (AP)—Cincinnati Reds All-Star catcher Johnny Bench will be hearing wedding bells instead of the sound of baseball bats Feb. 21.

On the day the Reds batters are scheduled to report for spring training at Tampa, Fla., one of the Reds' most eligible bachelors is scheduled to walk down the aisle with Vickie Chesser, a New York model from Mount Pleasant, S.C.

Bench surprised a local television audience Monday when he announced his engagement after a whirlwind three-week courtship.

Bench recalled that his fiancee did not even know who to look for when she got off the plane to meet him for their first date shortly after Christmas.

"I asked a friend in my home town, who is a baseball coach,

to describe him so I would know what he looked like," said the 25-year-old Miss Chesser.

Bench, known for his bachelor lifestyle, said he was glad to be finally getting married.

"I'm really excited about it," Bench said. "It's something that I've always looked forward to. I'm sure Vickie will be a supporting influence in my life."

Miss Chesser said that up to three weeks ago, Bench's profession hadn't been one of her interests. Her main interest has been modeling and Bench, 26, had seen her in a toothpaste commercial.

"When I went home for Christmas I told my dad that I had a date with Johnny Bench, who was a catcher with Cincinnati," Miss Chesser said.

"Since he was a baseball fan, I asked him if he could tell me something about him. He told me he was one of the best ball-players around."

The two plan a wedding in Cincinnati and then Miss Chesser will get to see all the baseball she wants when they honeymoon at spring training.

"Of course," Bench said, "I've got to sign my contract first. I really have been so busy I haven't even had time to meet with Bob Howsam (Reds' General Manager) yet."

James Harris Triumphs Pro Bowl Restores National Conference Pride, 17-10

MIAMI (AP)—It was restoration of tarnished pride for the abused National Conference All-Stars, but it was a personal triumph for James Harris, the black quarterback castoff who some said would never be able to cut it.

"I wasn't trying to prove anything," the 6-foot-4, 215-pound signal-caller of the Los Angeles Rams said, reflecting on the NFC's 17-10 victory over the American Conference Monday night in the Pro Bowl football game.

"I just prayed I would play my best. I knew if I could play my best, with the best guys in the league supporting me, we were capable of doing the job."

Harris, a late replacement on the NFC squad for Minnesota's sore-armed Fran Tarkenton,

was voted the most valuable player after taking over late in the second quarter for the injured Jim Hart of the St. Louis Cardinals and passing for two quick fourth-period touchdowns that won the game.

The first, an eight-yarder to Mel Gray of the Cardinals, was set up by a 57-yard bomb to Gray. The other, just 1 1/2 minutes later following a fumble by Pittsburgh's Franco Harris, was another eight-yarder to Charley Taylor of the Washington Redskins. Both scoring passes came on crucial third-down plays.

The AFC built a 10-3 lead in the third period on a 33-yard pass from Miami's Bob Griese to Dolphin teammate Paul Warfield and Roy Gerela's 33-yard field goal. Green Bay's Chester Marcol kicked a 33-yard field

goal for the NFC in the second period.

Harris is not prone to boastfulness, often speaking so low it is difficult to understand him. Yet he is not one to low-rate his own passing ability or to lightly pass over his problems in getting a starting position with a National Football League team.

"I got so disgusted at one stage I thought I would just toss it in," he said. "I felt that people thought a black quarterback could never make the grade. I really got the impression there was something racist in my early failures to make the grade."

A graduate of Grambling, Harris joined the Buffalo Bills in 1969 and was cut in 1972, joining the Rams' taxi squad. He didn't start for the Rams until the sixth game of the 1974 season after John Hadl was traded, yet finished as the No. 2 passer in the NFC, completing 106 of 196 for 1,544 yards and 11 touchdowns.

He was thrust into another pressure role Monday night when Hart went out in the second period with a bloody gash over his right eye that needed

six stitches. Harris completed seven of 13 passes for 119 yards in directing the NFC's successful rally.

It was the first NFC triumph over the AFC in four years in the Pro Bowl and eased some of the pain suffered in losing six of the last seven Super Bowls.

Chuck Knox of the Rams, who coached the NFC squad, said the victory was a matter of "great personal satisfaction" to him.

"Our fellows were so keyed up and so fed up with talk of AFC superiority that they volunteered for the kickoff team, which you know is a suicide assignment," he added.

Harris joined the Buffalo Bills in 1969 and was cut in 1972, joining the Rams' taxi squad. He didn't start for the Rams until the sixth game of the 1974 season after John Hadl was traded, yet finished as the No. 2 passer in the NFC, completing 106 of 196 for 1,544 yards and 11 touchdowns.

Staggering Michigan Stags Cloud WHA All-Star Picture

EDMONTON (AP)—Before the World Hockey Association all-stars cavort on the ice tonight, the league must decide what to do about the financially plagued Michigan Stags.

WHA President Dennis Murphy is on record as saying a decision "has to be made" today. The WHA is considering offers from two groups to move the team to Baltimore. Otherwise, the Stags will be disbanded and the players made available in a common draft.

The Michigan plight was discussed by the WHA's owners Monday in a five-hour meeting but details of the session were not made public.

"That isn't bad," Murphy commented. "We could discuss the Michigan situation — and nothing else — for 24 hours straight."

The Stags postponed three of their last four games because of the Internal Revenue Service placed an attachment against all potential proceeds. The team lost 2-1 at Cleveland last Saturday while wearing uniforms provided by the league.

Meanwhile, two of hockey's all-time superstars, Houston's Gordie Howe and Winnipeg's Bobby Hull, will be West Division teammates in the WHA's third annual all-star game.

He was thrust into another pressure role Monday night when Hart went out in the second period with a bloody gash over his right eye that needed

HAVE YOU WRITTEN A BOOK?
A publisher's editorial representative will be in Midland in March. He will be interviewing local authors in a quest for finished manuscripts suitable for book publication by Carlton Press, Inc., well-known New York publishing firm. All subjects will be considered including fiction and non-fiction, poetry, drama, religion, philosophy, etc.

If you have completed a book-length manuscript (or nearly so) on any subject, and would like a professional appraisal (without cost or obligation), please write immediately describing your work and stating which part of the day (a.m. or p.m.) you would prefer for an appointment and kindly mention your phone number. You will promptly receive a confirmation for a definite time and place.

Authors with completed manuscripts unable to appear may send them directly to the representative (address below) for a free reading and evaluation. He will also be glad to hear from those whose literary works are still in progress. Please address:

LANDMEN

Mitchell Energy & Development Corporation is continuing its progressive expansion programs within the energy development field. This growth has particularly created new opportunities for professionals with petroleum land experience.

Our Dallas office needs landmen with 2-5 years solid background in leasing oil and gas acreages and in handling related title work. Experience in negotiating farm-lease farm-leases would be a plus but is not mandatory.

As one of the nation's major independents, we are seeking landmen who want to help in our expanding efforts. For those who qualify, we offer a complete benefit package. Starting salary will be commensurate with experience.

Interviews will be in Midland
Thursday, January 23, 1975

For confidential consideration, contact our Houston office to arrange for an interview time.

Call Collect: Gordon Carver
713/224-4522

Big Spring Looks Ahead To Challenges, Progress

By JAN WILLIAMS Reporter-Telegram Staff

BIG SPRING — In spite of an economic slump which plagued the City of Big Spring last year, new Chamber of Commerce President Ken Perry predicted a profitable 1975 for the city at the chamber's annual banquet Monday night.

"Crops and ranching were not the best last year," Perry said. "This is going to be a very challenging year and we have many things to look forward to."

Webb Hospital Clinic

Among those things Perry mentioned will be new facilities at Webb Air Force Base, which he said will be a great contribution to the community.

Era of Cooperation

As for the past year, outgoing Chamber President Ralph McLaughlin noted accomplishments which included a new era of cooperation between the city and county in the Texas International case (avoiding discontinuation of the airline in Big Spring), and

40 MILE VIEW

Five acres with beautiful high peak, level top. Fantastic panoramic view for miles and miles. Surrounding land has gentle slope, deep rich soil and is shaded by many huge live oaks.

LEGAL NOTICE

THE STATE OF TEXAS COUNTY OF MIDLAND

In compliance with Article 3564, of sec. Revised Civil Statutes of Texas, NOTICE IS HEREBY GIVEN that the County of Midland, State of Texas, at the regular meeting of the County Commissioners Court, 1:30 p.m., February 10, 1975 will receive bids and enter into a contract with a banking corporation, association or individual banker of said County for the depositing of the Public Funds of the County and the Public School Funds of Midland County for the ensuing two years as prescribed by law.

Any banking corporation, association or individual banker desiring to be designated as County Depository shall make and deliver to the County Judge on or before February 10, 1975 at 10:30 a.m., an application to be designated as such depository. The application shall be accompanied by a statement as to the amount of paid up capital stock and permanent surplus of said bank and a statement showing the financial condition of the bank as of the date of said application. The application shall also be accompanied by a certified check in the amount of the county's revenue for the preceding year as a guarantee of the good faith on the part of said bank. That if said bank is accepted as county depository, that it will enter into a contract with the County Judge on or before February 10, 1975 at 10:30 a.m., and that it will enter into a contract with the County Judge on or before February 10, 1975 at 10:30 a.m.

Witness my hand and the seal of said County, Texas this 27 day of January, 1975.

ERNESTINE BANKING, County Judge, Midland County, Texas

A FRIEND INDEED—Mary Davies, 62, a blind British physiotherapist, hugs her guide dog Ruby, which saved her from drowning in the icy waters of Torquay Harbor, England, Monday night. When Miss Davies stepped off the harbor wall, thinking it was the edge of the pavement, the 2-year-old Labrador jumped into the water after her and kept her afloat until rescuers arrived. (AP Wirephoto.)

Americans Knew, Apparently Ignored Growth Of Recession

By JOHN CUNIFF NEW YORK (AP) — If you judge by the consumer attitude surveys, the American people knew long before the present crisis that the economy was deteriorating.

Their replies to questions showed not only an awareness of the dangers in the wage-price spiral and the growing instability of currencies, but a general, poorly defined fear of the future.

These fears were expressed at the very height of prosperity, and so they have been interpreted by some to be the expression of guilt over the too-easy accumulation of material goods, and the feeling that punishment would follow.

Nevertheless, many of us didn't appreciate the predicament we were in, didn't realize our fears were being acted out, didn't quite grasp that "it" was here.

The automotive companies knew of marketing forecasts made many months ago that the auto market was going to collapse, but they continued to produce, convinced that they, not events or buyers, made the market.

Their repeated price increases, while perhaps justified by their own rising costs, were hardly justified by the strength of the market. And eventually those increases all but snuffed out its life.

Even now, with many thousands thrown out of work and with inventories piled high, the price incentives offered by manufacturers cannot be classified as price cuts because they are temporary.

Further marketing studies suggest the problem will not pass. The mood of Americans is such that even lower prices won't induce some of them to buy. And, at any rate, many Americans already have bought their new cars; they bought in anticipation of higher prices.

If Detroit miscalculated the situation, so did Americans who went into debt rather than face the reality of declining buying power. Now some of these families have debts to repay and no real income with which to do it.

Rising bankruptcies, the fiscal year ending in June is likely to produce a record number — suggest that retailers, textile manufacturers, stock brokers and a wide list of other firms are miscalculated.

W.T. Grant Company announced it expects to lose \$175 million for the fiscal year which ends Jan. 31. It will have to close some of its stores. Such news is shocking to most Americans. W.T. Grant is an institution, and don't institutions go on forever?

The names of other well known companies can be added to the list of financially pressed and endangered. Their big problem is that they find it difficult to read the future.

The administration does also

has participated in many other worthwhile endeavors in the city.

Other awards presented at the banquet included NCO of the Year which went to Staff Sgt. Donald L. Gottschall at Webb Air Force Base, and Sr. NCO of the Year award which went to Master Sgt. Larry F. Pick, also of Webb.

New chamber officers for the year were then introduced which include Ken Perry, president; Daryl Hohertz, vice president, community development; Clyde McMahon Sr., vice president, economic development; Dr. Clarence Peters, vice president, organizational affairs; R. Clyde Hollingsworth, treasurer, and Ralph McLaughlin, past president.

The approximately 400 persons attending the banquet then adjourned to the high school auditorium for a musical program conducted by the Big Spring High School Steer Band.

formation of the Century Club, which provides financing the base community council didn't have.

"We have seen, in 1974, a joining of hands with the city of Big Spring in industrial growth and development," McLaughlin said. "We're an organization that can expand and react and we're looking for great things in the future."

Awards for the Man of the Year and Woman of the Year were presented to Adolph Swartz and Dorothy Garrett. Swartz, who is in the shoe and ladies apparel business in Big Spring, was credited for helping build up downtown Big Spring. He is also a past president of the Big Spring Chamber of Commerce and the United Fund and is active in church work.

Mrs. Garrett, who was unable to attend the banquet, is a longtime resident of Big Spring. She is credited with helping the junior college in Big Spring and

tax dollars wisely and frugally. "Each Texan has a right to honest and open government, with full access to both its services and its decision-making processes."

"Each Texan has a right to fair elections and the opportunity for full participation in those elections."

"Each Texan has a right to quality education for his children, regardless of where he lives, or the economic condition of his family or his community."

"Each Texan has a right to safe streets and neighborhoods without fear of crime being committed on his person or property."

"Each Texan has a right to privacy, free from unjustified harassment or intrusions by government officials or anyone else."

"Each Texan has a right to health care which is effective, readily available and affordable in all parts of the state, urban and rural."

"Each Texan has a right to mobility, the ways and means to transport himself and his goods from one place to another, by highway, rail, water or air."

Prayer Breakfast

"Each Texan has a right to decent treatment when he is young, dignity when he is old and opportunity throughout his life, regardless of his race or sex."

Briscoe said it was to these rights "that I pledge myself and my efforts during the next four years."

Today's inauguration, austere when compared with previous administrations, included an early morning prayer breakfast, the noon oath-taking, and a public hand-shaking reception this afternoon.

Stock Market Prices Post Broad But Uneven Advance

NEW YORK (AP) - The stock market posted a broad but uneven advance today on the strength of signs of easier credit and slowing inflation.

Advances outnumbered declines by a 3-1 margin on the New York Stock Exchange at mid-day. The main Dow Jones average of 30 industrial, however, was up only 1.33 at 418.78, with the blue chip issues that make up the Dow lagging behind other sectors of the market.

The buying drew on two favorable influences—the Federal Reserve's injection of additional funds into the economy by lowering the amount of reserves it requires member commercial banks to hold against demand deposits, and the government's report that consumer prices rose in December at their slowest rate since last July.

S.S. Kresge, the Big Board volume leader, fell 3/4 to 21. The large retailing company, declined 1/4 to 114.
