Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 8.

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, JUNE 27, 1930.

NUMBER 20

## MONDAY, JUNE 30, MARKS ALL-KIWANIS NIGHT IN CLUBS OF INTERNATIONAL

Local Club Has Program; Ladies To Be Guests For Second Time.

Monday, June 30, has been designated as All-Kiwanis International night for clubs over the entire United States and Canada, and at the same time all clubs will meet and observe this event with suitable programs and ceremonies. For the second time in the history of the Kiwanis Club of Muleshoe, wives, sweethearts and lady friends of Kiwanians will be present to enjoy Kiwanis activities.

The local club received its charter only recently and since its inception has been a live, functioning organization, and All-Kiwanis night is being looked forward to with great anticipation.

A. V. McCarty, Jr., is chairman of the committee on arrangements and program for that night, and he is assisted by Joe March and J. E. Adams. The meeting will take place at the Legion Home at 7:30 p. m. The Baptist missionary society will serve dinner.

The program as arranged will not require a great length of time. McCarty said, but it is planned to have a good radio at the affair and to tune in on the national Kiwanis program that will be on the air at that time. While the program here will be at 7:30, Central Standard Time, clubs on the West Coast will meet at 5:10, in the Mountain Time zone at 6:30, and in the Eastern Time zone at 8:30 in order that all clubs will be in session at the same time.

## I. W. Harden Is Seriously Hurt Thursday Noon

As we go to press word has been received that I. W. Harden, prominent farmer of two miles north of Muleshoe, was knocked down and run over by a tractor shortly after noon today (Thursday). It is said that one wheel struck Mr. Harden about the hip, mauling him seriously. Local physicians hurried to the Harden home to give medical aid. Preparations are being made to take the patient to a hospital in Lubbock. It has been impossible to get full details of the accident.

### ORDER OF EASTERN STAR INSTALLS NEW OFFICERS

Muleshoe Chapter No. 792, O. E. S., installed the following officers Thursday night, June 12, for the ensuing year: Sybil March, Worthy Matron; J. B. Roberts, Worthy Patron; Truma Griffiths, Assistant Matron; Ray Griffiths, Associate Patron; Irene Edwards, Secretary; Ida Stone, Treasurer; Bertie B. Taylor, Conductress; Fannie Klump, Associate Conductress; R. J. Klump, Chaplain; Fannie Arnold, Marshal; Laura Chaney, Organist; Ruth Black, Adah; Marie Sikes, Ruff; Lora Mae Coker, Esther; Hattie Griffiths, Martha; Lois Roberts, Electa; Lela Glascock, Warder and A. A. Matthews, Sentinel.

John Dalrymple and wife of Lubbock were visiting in Muleshoe Thursday for a few hours on their return from a trip to New Mexico. Mr. Dalrymple is seeking to arrange a date for Pink L. Parrish to speak here in the interest of Civil Small for governor.

### Bishop Attacked

Rev. James Cannon, Jr., Methodist Bishop of Virginia, whose activities as a "dry" lobbyist are under scrutiny by church and Congressional authorities.

### OLD TIMER GETS BIG KICK FROM AIR TRIP TO EAST

By heck! It's a great age in which to live. Airplanes, radios, television and women holding and running for public office. So thinks J. F. Vaughan, age 78 years young, and an old timer in West Texas. Mr. Vaughan has just returned from a trip to Wichita Falls, Abilene, Dodosville and Wellington. These making a great part of the journey by airplane. Flying over 5,000 feet in the air at the rate of 130 miles an hour is great, he says, and that he has become just as air-minded as the younger generation. Mr. Vaughan reported crop conditions in the east were very good.

## O'Neal Rockey Is Victor Over Local Golfers

O'Neal Rockey won the local golf club championship last Sunday over eleven other participants, with a score of 83. The 36 par course was traversed two times in the contest, giving them an eighteen hole course play. Damon Danner won second place with a score of 92, and Ernest Hillock won third with 96.

There is to be another tournament in about three weeks. It is understood. The Muleshoe Golf Club boasts one of the finest courses in the entire section, for local fans have spared little in making it just what it ought to be for golf. Considerable work is being planned for the club at an early date, in which the greens will be mowed and the greens re-rolled. Considerable interest is being shown here in golf, and the club bids fair to be a strong permanent organization.

### WASHINGTON AND OKLAHOMA PEOPLE PROSPECTORS HERE

Mr. Robinson and wife of Weatoc, Washington, and C. E. Pochel and wife of Newkirk, Oklahoma, are in this section at the present time visiting O. P. Burnham and prospecting in the shallow water district. They are favorably impressed with general conditions here, and are very enthusiastic over the future of this shallow water area. They are traveling by automobile.

### SINGING AT FAIRFIELD, N. M.

A county singing convention is to be held at Fairfield, N. M., six miles south of Texico, next Sunday, according to information received here this week. A large crowd is expected to attend from this section of the country. An excellent program has been prepared and everyone is cordially invited to be present.

### Local Markets

This report is received each Thursday morning between the hours of 9 a. m. and 11:30 a. m., and is subject to change without notice. Markets are furnished by local dealers for the benefit of their patrons.

Hides, green	.....4c
Hides, dry	.....8c
Ducks and Geese	.....6c

### Even Uncle Sam Can't Please Everybody

By Albert T. Reid

## Political Rally Postponed For Scout Meeting

The political rally which was being planned by the missionary society of the Baptist church and scheduled to take place Friday night, June 27th, has been postponed indefinitely. This is due to the fact that their date conflicted with that of the Boy Scout meeting to be held at the same time. Since the Boy Scout meeting will be under the personal direction of H. C. Morehead of Roswell, who cannot easily change his schedule, the Baptist ladies graciously postponed their plans.

### INJURED IN ACCIDENT

Jean, young daughter of Mr. and Mrs. I. F. Williams of the YL community was severely injured Tuesday when she fell from a swing. One wrist was broken, part of the bone piercing the flesh. She was brought to Muleshoe where the injury was treated by a local physician.

## Paul Williams Dies Of Burns Received In Gasoline Flames

Paul Williams, 35, son of L. P. Williams of the Larbuddie community, died Wednesday night of burns sustained while working in the field Tuesday afternoon. It is understood that he was filling a tractor with gasoline with the motor running, and the contents of the can he held in hands became ignited, causing the fatal burns. Mr. Williams is survived by a wife and children. Nothing could be learned of funeral arrangements.

### MULESHOE MASONIC LODGE INSTALLS NEW OFFICERS

Officers for the ensuing year were installed by the Muleshoe Masonic Lodge No. 1237 last Tuesday night as follows: Everett Hinson, Worshipful Master; J. B. Roberts, Senior Warden; J. M. March, Junior Warden; Connie D. Gupton, Jr., Secretary; J. E. Adams, Senior Deacon; Walter I. Foust, Junior Deacon and M. F. Collins, Tyler.

## Section Swelters Under Unusual Heat Wave; 103

The hottest weather for several years for June was registered here Wednesday when the government thermometer showed the temperature to be 103. Monday the temperature was 98 and Tuesday an even 100 degrees. On June 23, 1929, records show that the temperature was 94, while the last two days of June and three first days of July, 1928, registered 103. There has been practically no wind and the sun is drawing moisture from the ground at a rapid rate.

Many irrigation pumps went into action this week and others are being put in readiness for use within the next few days in case there is no rain. Many new wells have been put in this season, and although the moisture is sufficient at this time for most all crops, the farmers are taking no chances. This is one of the many advantages of farming near Muleshoe and this one thing is bringing a great part of the new people to this country.

A number of new farms are being partially seeded to alfalfa this year which will be used for pastures and hay for home consumption in the feeding of dairy cows and sheep.

### M. E. ZONE MEETING OF PLAINVIEW DISTRICT AT DIMMITT

The zone meeting of the Plainview district, zone No. 2 of the Methodist church, convened at Dimmitt last Wednesday. This zone is composed of six pastoral charges. All the preachers of zone No. 2 were present Wednesday and a very inspiring program was rendered under the supervision of Rev. W. B. Hicks. Many of the vital questions confronting the church were discussed, giving special attention to evangelism and finances.

The following preachers were present: Rev. Lloyd Jones, YL and Earth; Rev. R. B. Walden, Hart; Rev. J. E. Peters, Dimmitt circuit; Rev. J. R. Bright, Dimmitt and Rev. W. B. Hicks, Muleshoe.

The next meeting will be held with the local Methodist church on July 16.

### RABBIT DRIVE JULY 4TH

There will be a big rabbit drive in the YL community on July 4th, according to information received here Thursday. Everyone wishing to take part in the event is asked to meet at the J. O. Crawford place. Shells will be furnished at cost, any further information may be had by applying to O. K. Angeley at Sattler-Kunkel Implement Company.

### STREET WORK PROGRESSES

Work of repairing the city streets is progressing nicely and quite a lot of improvements in appearance, at least, is resulting from the work. Main street is being leveled up and it is hoped that some of the mosquito lakes will be eliminated.

## Farmers Store Wheat When Prices Slump

The wheat market here rallied somewhat Thursday after noon when the price was quoted at 87 cents. This was 3 cents above the market on Wednesday. Harvest will be finished here within a few more days, but very little wheat is being sold at this time. Growers are filling their granaries and many of them are plowing the wheat on the ground. Thousands of bushels are ricked up over the wheat belt. The yield is better in many cases than was expected, and the test ranges from 60 to 64.

Up to Wednesday of this week, only 14 cars had been shipped from Muleshoe and about 20 were being held in local elevators. Last season at this time all elevators were crowded and better than 300 cars were shipped during harvest.

### WEST CAMP BOY INJURED IN ACCIDENT NEAR FT. SUMNER

Raymond Waller of West Camp received a badly bruised hip Friday morning when he was thrown from a wagon load of hay at Ft. Sumner, New Mexico. The wagon hit a small ditch, throwing Raymond and the hay on to the team, causing the team to run away.

Young Waller was not believed hurt until Saturday morning when he was unable to rise. He was taken to the Santa Fe Hospital at Clovis, where an X-Ray showed only a badly bruised hip. He was returned home Saturday afternoon.

### T. E. ARNOLD AND PARTY VISIT CARLSBAD CAVERNS

T. E. Arnold and wife and children and Mr. E. P. Crow returned Thursday from a trip to Brownwood and Abilene, after which they visited the Carlsbad Caverns Wednesday before returning to Muleshoe. They were away for about a week.

Mr. Arnold has quite an interesting account to tell of their trip through the caverns, and claims them to be one of the scenic wonders of the world. He reports that in the party making the trip at the time there were 486, including visitors from many states, and a few from foreign countries, including Ireland. In the party were 40 school teachers from North and South Carolina, he said.

## Boy Scouts To Have Lecture On Activities

On Friday evening, June 27th, there will be a Boy Scout meeting at the Legion Home in which local citizens will meet with the boys of the community to hear an illustrated lecture on Boy Scout activities to be delivered by H. C. Morehead, assistant representative of the Boy Scouts of America for the Eastern district of New Mexico, which also includes Bailey County, Texas. Motion pictures of Boy Scout activities throughout the country will be shown and the meeting will be both entertaining and instructive. Everyone interested in the work is urged to be present. The meeting will start at 8:00 o'clock.

Minor Huffman heads the Boy Scout district of Eastern New Mexico, and Mr. Morehead is acting while the former is on vacation. Mr. Morehead addressed the Kiwanis Club, which is sponsoring the Boy Scout movement here, at their luncheon several weeks ago.

Rev. W. B. Hicks, pastor of the local Methodist church, has been appointed Scoutmaster for Muleshoe.

### King Carol

The runaway Prince of Roumania, Carol, who was acclaimed King in place of his son, Michael, after he had once renounced his claim to the throne.

**W. Gregory Hatcher Making Race For R. R. Commissioner**

W. Gregory Hatcher, now serving his sixth year as State Treasurer has announced his candidacy for the office of Railroad Commissioner to fill the vacancy created by the death of the late Clarence Gilmore. Mr. Hatcher says that in asking the voters to promote him to this position they are only being asked to follow the precedent here before established of promoting heads of the Departments of the State government to the office of Railroad Commissioner. Hatcher pointed to the fact that one of the members of the present Railroad Commission served four years as State Comptroller, and another four years as State Treasurer,

immediately prior to their being elected to their present positions. He says that he has served as State Treasurer for six years, and this together with his experience in the business world, and 12 years experience as a practicing lawyer immediately before assuming the duties of State Treasurer, have qualified him to ably discharge the duties of the office of Railroad Commissioner. If elected to that office he states that he will continue to regard "a public office a public trust" and serve all the people with that fidelity to their cause which has characterized his every act as a public official.

Mr. Hatcher has made three campaigns for State Treasurer, receiving nearly 500,000 votes in each election and is very optimistic about his success in the present race for Railroad Commissioner.

**BANFF, PEARL OF THE ROCKIES**

This is the loveliest spot in the world! That's a broad statement, but a glorious outdoor day at Banff, the Pearl of the Rockies, has justified it. As I sit here, thousands of feet above Bow Valley, gazing out over the magnificent panorama, I feel that never, anywhere, have I witnessed such breath-taking beauty! Now ever, anywhere, have I known so perfect a realization of my vacation dream!

Up at dawn for a game of golf. Then off at sunrise for a ride along skyline trails that rippled across a sea of peaks into infinity. Back before breakfast to join a swimming party—diving off the top of the world into a warm sulphur pool under the rays of the morning sun. A brief rest, and then an exhilarating motor trip through glacial-cooled air to the Town of Banff for a glimpse of colorful mountain life. An exciting hour among visitors from all parts of the world, Indians on galloping ponies, gay cowboys beneath 10-gallon hats, scarlet troopers of the Northwest Mounted Police, and mountain sheep wandering unmolested down the main street.

In the afternoon, a brief Alpine climb with an experienced Swiss guide—a staccato hike along old Indian trails—then a restful hour paddling down tranquil Echo River under arching trees. And now, high above the world, I lounge on a terrace and lazily watch the orchid and rose clouds tint the ranges on the horizon as a perfect day draws to a close. Up the rustic stairs from below float the strains of a symphonic orchestra, inviting me to the ball room, where a smart cosmopolitan assembly has gathered under rainbow tinted lights for the evening dance. But I am waiting for darkness—and the stars—to take me down to the cool depth of the primeval forest, filled with the fragrance of sun splashed spruce. There, wandering over carpets of pine needles, I shall know the peace—the melodious silence—of a perfect Alpine night. And, in the whispering of the trees, I shall bid farewell to Banff, the Beautiful. For tomorrow, at dawn, we are off for Lake Louise!

**Goodland News**

Mr. and Mrs. J. T. Savell and family of Midland spent a few days last week with her parents, Mr. and Mrs. A. M. Reed. They left Thursday for Greenville, New Mexico, where they will spend a few days with his parents. They are on their way to the harvest fields in Kansas.

Mr. and Mrs. Wood took dinner with Mr. and Mrs. Sexton last Sunday.

Mr. Bob Sanders and Mr. Cecil Stokes were guests in the Hanover home Sunday afternoon.

Mr. and Mrs. Holloway and family went to Lubbock last Saturday.

Mr. A. M. Reed has been on the sick list the past few days.

Mrs. J. A. Beaty and son, Charlie, went to Fortales Friday.

Mrs. Scott and children who have been visiting her parents returned to her home in Brownwood a few days ago.

Mr. and Mrs. C. Lawton and family, also Grandpa Lawton, spent Sunday with Mr. C. Lawton's uncle near Causey, New Mexico.

Several from the Goodland community are planning on attending the Singing convention at Baileyboro the 5th Sunday.

**FOR CHIEF JUSTICE**

Covey C. Thomas, candidate for Chief Justice of the Supreme Court of Texas, hereby respectfully solicits your votes and active support in the Democratic Primary, July 26, 1930. Born in South Texas, resident of Southwest Texas, graduate of the University of Texas, 1896 Law Class, four years county attorney, sixteen years county judge, nine years district judge, Baptist, Mason, Woodman, farmer, ranchman and lawyer. Present incumbent, Judge Cureton, he thinks, should be satisfied with his many years of service as Attorney General and Chief Justice of this State. Thomas promises, if elected, not to ask for more than second term and by hard work and long hours to remedy the injustice caused by our Supreme Court being several years behind with its work. He asks the fair-minded and generous people of Texas to give South Texas and West Texas representation on this high court, something these sections of Texas have not had in around thirty years. He promises not to shirk ANY official duty or ANY consideration, political or otherwise, and to make good his slogan for this office, "to wit: More Work. Less Pay. No Politics."

Jo Coughlin—What's the charge for this battery?

Garage Mechanic—One and a half volts, Madam.

Jo Coughlin—How much is that in American money?

**Konjola Worked Wonders In My Stubborn Case**

Fort Worth Man Relieved Of Severe Attack Of Rheumatism. Eagerly Praises New Medicine.

MR. JOE CONNELLY

"For over a year I suffered with muscular rheumatism," said Mr. Joe B. Connolly, 504 Belknap Street, Ft. Worth. "My entire body was a mass of aches and pains. Finally I was forced to give up my work and was confined to bed. The pains were so severe that I had to move very carefully and was helpless and bedridden for three months. My nerves were completely gone and I feel at times that I could not bear my suffering another day. "I sent away for my first treatment of Konjola and was amazed at the re-

**THE FAMILY DOCTOR**  
By JOHN JOSEPH GAINES, M.D.

**"LOWERED RESISTANCE"**

I seriously doubt if anybody ever contracts disease when what we call "bodily resistance" is normal. Many of us come in contact with disease germs every day; but because our bodies are functioning normally the infections are unable to find lodging.

The human digestive tract is singularly built to withstand infections. We swallow probably millions of germs, perhaps, in water, milk, raw fruits and other carriers of simple bacteria; these are for the most part promptly destroyed by healthy digestive juices. It is so with domestic animals; they drink and eat much that is impure, yet healthy digestive fluids protect them from disease.

The time, however, when disease producers hop in and make themselves at home is when we are, in general parlance, "run down" from one cause or another. "Overwork" is a certain invitation to the entrance of disease germs. This means overloading the stomach for protracted periods, wearing down

the muscular system by heavy toil, and tearing down the nervous system by constant grind in these strenuous days. Anything that taxes the system beyond its endurance invites disease, which rarely appears otherwise; so that, when we get sick, we had better cast about for just how we forsook the law of right living.

"Lowered bodily resistance," then, is a factor in almost all diseased conditions. The physician sets in to "clean house" and to restore health by systematic rest for the overworked organs. Unless he can enforce suitable rest, he will have a slow recovery. It never pays to go to work too soon after any illness.

Overwork-overwork! It is foolish. A man may tax his bodily resistance in dissipation—it is overwork just the same, though not gainful employment. He may habitually lose sleep until his nerves become tired out; disease sets in and he wonders why. Overloading may be in pleasurable pursuits entirely. If you are overdoing—quit it before it's too late.

suits. Within three weeks I was able to be up and around without assistance. Gradually the pain and soreness left me and I began to feel my old self again. My nerves settled, constipation was completely banished, and I do not remember when I have felt as well as I do now. Konjola certainly worked wonders in my case."

Though Konjola works quickly, as many sufferers greatly benefit in a week, a complete treatment of from six to eight bottles is recommended for thorough results. Konjola is sold at Muleshoe, Texas at McCarty Drug Store, and by all the best druggists in all towns throughout this entire section. (Adv.)

**Henington Cash Grocery**

"Not How Cheap, But How Good."

**NO PROFIT ON THE CORN**

Occasionally somebody visits my place in the country who entirely misunderstands its purpose. "That's a beautiful lake," he says. "You should stock it with fish, and make money."

To which I answer that I don't want to make money.

He is sure he has not heard me correctly, and so he continues, "Some of your land is pretty well run down but if you would put on plenty of fertilizer for a couple of years it would produce valuable crops."

"I don't want to produce crops," I say a little louder.

He looks shocked, but tries again. "Why don't you buy some of this wood land and raise foxes?"

At this I am tempted to set our dog on him. Our dog is symbolic of the place. He is good for nothing. He barks at friendly visitors, and once he slept soundly while the house was robbed.

Instead of committing any such hospitality, however, I try patiently to explain that this country place was not

bought for profit, is not conducted for profit, can not possibly show a profit, and if it could, would not be so dear to my heart. It is a beautiful, inefficient and wasteful oasis in a rushing efficient world.

Money is a grand possession, an essential measuring stick. But there are some people who seem to think that there is no other measuring stick, that nothing is justified unless it is producing income, or increasing in value.

"Such folks should consider the lilies of the field, which sew not, neither do they spin; yet by simply being their beautiful selves justify their existence."

They should learn wisdom from Henry Ward Beecher, who once bought two little pigs for two dollars, fed them twelve dollars' worth of corn, and sold them for ten dollars.

"Thus I made eight dollars," he exclaimed triumphantly, on the pigs. "I never expected to make any profit on the corn."

New York is my pigs. I make my profit there. But I never expected to make any profit on my home, my children, or my place in the country. And I never shall.

**The Very Latest**  
By MARY MARSHALL

The dress shown in the sketch has the simplicity and trimness of a one-piece mode, as a dress has to be made if it

is to have the snug lines about hips and waistline demanded by present fashion. The blouse portion slips on over the head and is long enough to permit a suggestion of blousing above two or three inches to tuck securely beneath the skirt, which has a pocket at the right side of the hip yoke finished with small hooks and eyes, and the belt is stitched to the skirt at the back only.

**CHEVROLET COMPLETES BIG SCHOOL FOR EMPLOYEES**

What has been termed the greatest sales training school in the history of the automobile industry—a series of five meetings conducted over a period of 10 days in each of 12,000 Chevrolet retail stores in the United States and attended by 24,000 salesmen—has just been completed by the Chevrolet Motor Company.

So successful were the meetings that Chevrolet officials are considering making the "school" an annual affair.

**PRESENTS HIS 50-CENT CLAIM 25 YEARS LATE**

Grand Saline, Texas.—After due deliberation, the city council here ordered the city treasurer to pay W. J. Jennings 50 cents for jury services performed 25 years ago.

Jennings recently appeared at a meeting of the council with a yellow-old order to the city treasurer to pay Jennings 50 cents for jury duty. The order was dated July 3, 1895, and was signed by J. S. Covington, mayor at that time.

**Texas Kiwanians Go To Atlantic City For Convention**

Atlantic City, June 26 (UP).—Hundreds of Texas Kiwanians will be here June 30 from all over the state to make preparations for a group study of community problems in child welfare, health and sanitation, urban-rural relations, immigration, crime and delinquency and adult education.

The 14th annual convention of Kiwanis International opening on that day will bring 6,000 other delegates and members from 1,851 cities in the United States and Canada to discuss urgent social problems.

Horace W. McDavid of Decatur, Ill., international president of the service organization, will preside at all sessions.

Judge E. L. Mitchell of Clinton, Oklahoma, governor of the Texas-Oklahoma district is in charge of the activities and reports of the Texas delegates.

Lieutenant governors active in Kiwanis work are: J. Frank Smith of Taylor, Texas; G. Curtis Clark of Corpus Christi, Texas; Robert G. Storey of Dallas, Texas; John R. Johnson, Mineral Wells, Texas; F. Marion Bralley, Jr., Amarillo, Texas; Jay J. Glaser, Alva, Okla.; Rev. Ernest C. Webb, Elk City, Okla.; M. H. Shepard, Chickasha, Okla., and D. Dexter Moss, Tulsa, Okla.

John L. King of Clinton, Okla., is secretary-treasurer for the district organization.

Mrs. Mandy Johnson: "I want to see Mistah Graham."

Mrs. Byrd: "Sorry, Mr. Graham is engaged."

Mrs. Mandy Johnson: "Go 'long, Sistah, Ah don't want to marry him. Tell him his washday wants huh money."

Dan Noel: "Darling, in the moonlight your teeth are like pearls."

DeLoris: "Oh, indeed! And when were you in the moonlight with Pearl?"

**EASY NOW TO BUILD THIS HOG HOUSE**

Free Blue Print Plans Tell How and Save You Money

Hog-raising profits depend in large measure on not losing your young pigs. They must have clean, dry, warm, well-lighted and well-ventilated shelter.

Farrowing house No. 102, illustrated above, gives the warmth and sunshine essential to hog profits. It was designed by farm building experts, and is practical for the Panhandle Plains farmer who is in the hog business in earnest. Our free folder, Suggestor No. 9, completely illustrates and describes this shelter.

ALSO FREE ON REQUEST: Your choice of five other Suggestors on hog and farrowing houses. Stop in for yours today.

FACTS ABOUT OURSELVES

This is a great country. Uh-huh. We've heard that before. What about it?

Just this about it. Dr. Julius Klein, assistant secretary of Commerce, than whom there are few lesser analysts in the world has, been figuring out how much better off we are than the rest of the world.

The United States has only 6 per cent of the world's population, but we consume 15 per cent of the world's wheat crop. That means that if the rest of the world were able to buy and eat as much food as we do, the wheat crop would have to be two and one half times as large as it is.

We consume nearly a quarter of all the world's sugar, more than half of the world's coffee, more than a quarter of the world's wool, nearly all of the wool, three-quarters, nearly all of the silk, two thirds of all the rubber, about two fifths of all the iron and copper, lead, zinc and coal. We use three fifths of the world's petroleum, two fifths of all electrical power, more than three quarters of all the automobiles and three fifths of all telephones.

And we number less than one sixteenth of the world's population.

If the rest of the world was as well off as we are how prosperous we and all the rest would be. Our average family income is \$3,000 a year. The British income is two-thirds of that, Canada's is less than half, Sweden's still lower, Germany's only a little over one-third as large and France's about the same—personal income of the average man, that is. That's why we can, and do, consume more of the world's raw materials than any other nation.

We have set an example to the rest of the world, which is slowly beginning to follow, in spots. The farther and more rapidly it extends, the sooner and more surely will we reach the stage of human development in which people will no longer die of starvation, in which every human being will have his happiness in his own hands.

There are those who say that in seeking material prosperity humanity is losing its spiritual ideals. It does not seem that way to us: It is one thing to forego riches for the sake of the higher life. It is quite another to have no choice in the matter. Poverty itself is not a virtue. It was a wise man who said that it was useless to preach idealism to a man who didn't know where his next day's dinner was coming from. And that is the condition of more than half of the people of the world today, while a still larger proportion live under conditions which make more than a bare living possible. This is a great country.

Ants Eating Courthouse, Los Angeles Is Warned

Los Angeles, Calif.—County Entomologist Harold Ryan warned officials at the county courthouse that wood-eating white ants, known as termites, have invaded the halls of justice. He said something would have to be done to stop the infinitesimal jaws of the insects from chewing the joists and beams, or justice will need a new home. Last year the termites, which have done millions of dollars' damage in this section in the last few years ate away the wood foundations of several minor county office buildings behind the courthouse.

Bandit Keeps Promise and Also Victim's Watch

Lincoln, Neb.—A bandit who left his victims with 50 cents and a promise to return a \$50 watch if the robbery were not reported to the police, held up Ralph Meyer and a girl friend on a lonely road near Lincoln. Meyer reported the theft and the watch has not yet come back.

White Bread Suspected as Cancer Provoactive

An eminent physician who practiced for many years in Simla states that the natives of the Punjab, the northwest province of India, whose diet is mainly coarse whole-wheat bread, seldom suffer from cancer. An equally distinguished surgeon recently pointed out that white bread may be one of the causes of cancer and other diseases. The diet of these people consists of flabby stales of un-leavened bread, made from a dough of whole-meal stone-milled unsifted flour into cakes about the size and shape of our pancakes. This bread is eaten with dal, a sort of pulse, or with curried vegetables. A large quantity of cellulose is taken in the form of raw radishes, sugar cane and raw fruit. The peasants also drink quantities of milk. With them bread is the staff of life. They have magnificent teeth and are usually of fine physique.

Tom Love Has Political "It" Says UP Writer

Dallas, Texas, June 27 (UP)—Thomas B. Love of Dallas, former assistant secretary of the U. S. Treasury, former Democratic national committeeman from Texas, and later leader of the Hoover forces, is the candidate for governor who might most fittingly be described as having political "it."

He has made more political enemies and stronger political friends than any other man in Texas politics in the last quarter century. It was almost that long ago that his political connections in Texas began. Love in 1896, when he was but 26 years old and a Missourian, came to Texas and helped pledge the Texas delegation to the national Democratic convention to support Richard P. Bland—which it did till the bitter end.

Shortly afterward, Love came to Texas as a citizen. He took up his residence in Dallas. He is next heard from raising his (at that time) great sum of \$20,000 as a contribution to William Jennings Bryan's campaign fund.

Love's first Texas office was as a member of the state legislature from Dallas county, and he served through three sessions, one of which passed the Terrell election law. This law placed party affairs in Texas under strict provisions, Love's knowledge of the details of the enactment of this law was used by him in recent arguments before the state supreme court in proceedings by which he forced the state Democratic executive committee to certify him as a candidate in the Democratic primary.

Whether Love is a Democrat in spite of his support of Herbert Hoover, is one of the big issues of the race.

Following his service in the Texas Legislature, Love had served as state commissioner of banking, and when the entry of the United States into the war caused an expansion of federal departments, he was made an assistant secretary of the treasury. In that office he disbursed \$500,000,000 without a transaction being called in question.

"Luck" as well as the political "it" that enables him to read the public pulse has been with Love, too. Back in 1903 as a legislator he was advocating a bill to make the street car companies furnish vestibule platforms for the motorman and conductor. The bill was not going so well until the day it was set for a committee hearing. Before the night hearing he was called a norther of great intemperance swept over Texas. Austin shivered in the teeth of a winter gale. Nobody then opposed weather protection for the street car men.

Love became Democratic national committeeman from Texas in 1920. He was winner that year in sending a Tex-

Young ladies find it is a good place to gather and enjoy thin, refreshing drinks, amid pleasant surroundings. Courteous, prompt fountain service. Let US be YOUR Druggists. WESTERN DRUG CO. Muleshoe, Texas

as delegation to the national convention pledged to William G. McAdoo and again fought for McAdoo at the New York convention of 1924 and was again reelected national committeeman. "In 1924," Senator Love said, "my conscience told me that it was my duty to support the Republican nominee for Governor. I therefore resigned from the Democratic national committee and worked for the election of George C. Butler."

In this Love continued an opposition to James E. Ferguson that had dated back to 1918, when he came from Washington to Dallas for the express purpose of voting for former Governor W. P. Hobby.

In 1926 Love again entered the legislature, this time as a state senator. He says this was done with the approval of then Attorney General Dan Moody, candidate for governor, with the belief that he could best help Moody's administration by coming to the senate. As a part of Moody's support in the senate he voted against ousting of the state highway commission. One vote defeated the measure.

In 1928 Love worked for the selection of a Texas delegation to the national Democratic convention at Houston opposed to the nomination of Governor Alfred E. Smith of New York. After Smith's nomination, Love organized support for Herbert Hoover, Hoover carried Texas by 26,900 votes. For the first time Texas' electoral vote was polled for a Republican.

Y. L. MISSIONARY SOCIETY

The Y. L. Missionary Society had a social meeting at the home of Mrs. Durwood Head with twenty-eight persons. Zora Mae Shofner and Dolores Beller gave a reading, Jerre and June Beller sang. Everyone enjoyed the social hours and during the time ice cream and cake were served.

The next meeting will be at the home of Mrs. Burnham, July 8th.—Reporter.

WOODMEN TO HOLD SUNRISE SERVICES AT SHERMAN

Sherman, Texas, June 27 (UP)—A sunrise service with a chorus of 500 voices will open the ceremonies in connection with the dedication of the Woodmen Circle Home for aged members and orphan children here June 25. Mrs. Margaret G. Meadows of Fort Worth will have charge of the sunrise service and Cecil Meadows, her son, director of the Fort Worth shrine band, will direct the chorus. Presentation of a flag staff and flag by the American Legion post will be a feature of the service.

At 9 o'clock the cornerstone will be officially laid and an hour later Mrs.

Mary E. La Rocca of Omaha, Neb., national president, will deliver the dedicatory address. At noon the city of Sherman will play host to visitors at a huge barbecue.

Eighty drill teams of 18 women each are scheduled to participate in the program. Thirty-three of the teams are from Texas. Several towns sending two teams.

Mr. and Mrs. Everett Seiren of Clovis were Tuesday night guests of Mrs. Seiren's sister, Mrs. W. B. McAdams.

Mrs. Walter Witte and children and Mr. and Mrs. J. M. McAdams spent Sunday with relatives west of Baileyboro.

PLAY CARDS IN CHURCH

San Antonio, Texas, June 27 (UP)—"Til take two" and "Til pass" were the words floating from the pulpit of an old church on West Travis near North Santa Rosa Avenue, when Station officer Bert Long stepped through the front door.

Six boys playing cards on the pulpit scooped up the "stakes" and fled thru a side window as the officer entered the front door. They fled into the arms of Patrolman L. R. Parks, who was stationed outside in anticipation of such a move.

Five of the boys were lodged in the city jail after they were taken to police station. "Gaming with cards" was the charge with which they were booked.

Ready--- to serve you with one of the best lines of Petroleum Products on the market. Our warehouse is completed and we now have in stock all kinds of lube oil and greases. Our tanks will be erected and filled early next week. However, we are in position to fill all orders now. We solicit a portion of your business, and firmly believe that you will be pleased. Three D's Products Distributors, Inc. Wholesalers and Retailers Goodson & Gillespie, Local Distrib.

Sales Facts! Every day the buying public is watching, and making their automobile purchase a real dollar value. Check the sales from 1928, when the Model A Ford was released to the public, to June 10th, 1930. Those who tooted their horns from 1926 to 1928 can't toot so loud now—and why? United Sales Records show these interesting figures for the month of May, 1930: FORD 191,831, 3rd Competitor 8,736, 1st Competitor 90,000, 4th Competitor 6,347, 2nd Competitor 14,077, 5th Competitor 4,500. FORD 191,831, 5 Other Makes 123,660.

FORD leads all the other makes by 68,171. This number of automobiles will go a long way towards taking care of the balance manufactured, as you can see how they drop off.

Is it any wonder, then, why West Texas people are also becoming Ford sold? Not when such a value in automobiles is offered them. If you are ready for a new car by all means see us. We will allow you all we can on your trade-in car.

The biggest loss for the average individual is his automobile depreciation and upkeep. You can make savings that will pay for homes, buy other things you want, and have cash in the bank; also another good asset, a good credit.

Universal Credit Company Plan of Time Payments Offers Another Ford Economy.

# Sunday School Lesson

International Sunday School Lesson  
for June 29  
**REVIEW—THE LIFE OF CHRIST**

Matthew 10-28  
Rep. Samuel D. Price, D. D.

For six months the lessons have followed through the record of the life of Jesus as given by Matthew. During the past three months the period has been about nine months in length and marked a new method of teaching. Previously public address had been before crowds and many miracles had been wrought as seals upon His teachings. A new method followed the appeal of the crowd, after the feeding of the 5,000, that He became their bread making king. Thence He began to train the Twelve for the ministry they must undertake after His departure.

A natural beginning in this review lesson is to read the portions in Matthew that are covered. They are chapters 16 to 28. The quarter opened with the quiz class near Mount Hermon when Jesus asked what people thought about Him. In reply to the direct question about the opinion of the disciples Peter gave the declaration in the Golden Text for today: "Thou art the Christ, the Son of the living God." It will be helpful if you will commit to memory the Golden Text for each of the thirteen lessons. They will also be very suggestive in reminding yourself of the central teachings in each of the lessons.

The territory covered is from Caesarea-Philippi back to Caesarea Maritima and then on the further side of Jordan, through Perea, to the fords of the Jordan opposite Jericho and thence the climb to Bethany and the Holy City. Either follow each place on a map as you read the above named chapters or better still, draw an outline map of Palestine and fill in the details as you read. Draw lines to indicate the journey that was traversed.

**PUBLIC WARNED NOT TO BUY STOCK IN FORD MOTOR CO.**

Detroit.—A warning against fraudulent brokers and promoters who are offering stock in foreign Ford motor companies was issued this week by the Better Business Bureau of Detroit, in conjunction with the National Better Business Bureau and affiliated offices throughout the United States and Canada.

Relying on the goodwill and integrity of the Ford name, thousands of persons throughout the country have purchased stocks which either turned out to be spurious or were not delivered at all, the warning said. There is no way of estimating the financial loss involved.

"There are a number of fraudulent concerns in various parts of the country that represent themselves as brokerage houses and that offer stocks in various foreign Ford companies," the statement from the Better Business Bureau said.

"Several of these companies sell on the partial payment plan. They offer stock for stipulated down payment and a fixed sum per month. Before the final payment becomes due and before the stock is delivered to the purchaser, the company goes out of business and its officers disappear only to begin operations at another location and under another name.

**ROAD NOTICE TO NON-RESIDENT LAND OWNERS**

THE STATE OF TEXAS,  
County of Bailey.

We the undersigned Jury of Freeholders, citizens of said Bailey County, Texas, duly appointed by the Commissioner's Court of Bailey County, Texas, at its June 16th Term, 1930, to view and establish a first class 60 foot road, and having been duly sworn as the law directs, hereby give notice that we will on the 12th day of July, 1930, assemble at a place convenient to all and thence proceed to survey, locate view, mark out and establish said road, beginning at the northwest corner of League No. 168, the same being the east line of Block "F", continuing south on the east line of Block "F", and the west line of League No. 168, Hale County School Land and 167 Iron County School Land, and continuing along the east line of Block "F", the same being the west line of League No. 168, and No. 165, Iron County School Land, ending at the Ozark Trail.

And we do hereby notify all persons who would be entitled to any damages having land along the road and any and all persons owning lands through which said road may run, that we will at the same time proceed to assess the damages incidental to the opening and establishment of said road, when they in any, either in person or by agent or attorney, present to us a written statement of the amount of damages, if any, claimed by them.

Witness our hands this 17th day of July, A. D. 1930.

# TIRE PRICES are DOWN!

---anyone can afford Goodyears this summer

When rubber goes down, tire prices follow. Rubber is 'way down now, and tire prices are the lowest they've ever been.

Wise buyers are taking advantage of this situation—reaping the utmost in value. They're buying Goodyear Tires in greater volume than ever before.

The reasons why Goodyear Tires give ut- most value are not hard to state.

In both the two main parts of a tire, Good- years are definitely su- perior.

The Goodyear All- Weather Tread is su- perior in *traction*.

The Goodyear Supertwist Carcass is su- perior in *vitality* and long life.

If you think these are merely advertising claims demand to see the proof.

Any Goodyear Dealer will be glad to de- monstrate the facts.

The facts certainly are: Goodyear Tires do give extra value.

That's why *more new motor cars leave the factories on Goodyear Tires than any other kind!*

That's why *more transcontinental, urban and interurban buses and coaches operate on Goodyear Tires than on any other kind!*

That's why *more truck tonnage is hauled on Goodyear Tires than on any other kind!*

That's why throughout the world, year after year, *more people ride*

*on Goodyear Tires than on any other kind!*

No mistake about it, this season is the chance of a lifetime to take full advantage of low tire prices and high Goodyear value. Therefore: *now is the time to get yours!*

## Garner Berates Tariff Bill As Exploitation

The following is an article explaining just exactly what the new tariff bill means to the Average Family. Congressman John N. Garner of Texas, has led the fight against the bill in the House of Representatives. Let him explain to you the bill he calls "the greatest fraud ever perpetrated on the American people."

Striking direct at the working man, the farmer, and the small business man—the real foundation upon which American progress and prosperity has been established—the Hawley-Smoot tariff places an unjust and unnecessary burden of hundreds of millions of dollars annually upon those already overburdened by the gradual development of a tariff system which extends special favors to the few at the expense of the masses.

No greater fraud was ever perpetrated on the American people than the claim of the proponents of the Hawley-Smoot bill that is designed "to protect American labor," a statement which the Republican members of the Ways and Means committee had the audacity to insert in the title of the bill. Its real purpose is to EXPLOIT, not to protect, and the millions of American working men, as well as the farmers and business men, are the targets against whom these shafts of tariff exploitation are aimed.

Take the average American workman as an example. When he arises in the morning he shaves himself with a razor carrying a 117% tariff tax, using soap that has a rate of 30%. He dons his underwear, which, if cotton, is taxed 45%, and if wool 55%, and 73% if he has aristocratic tastes and wears undergarments of rayon. He puts on his shirt, taxed 37% if made of cotton; draws on his rayon hose on which he is assessed 77.34 per cent, and proceeds to don his light wool suit, taxed 67 per cent. He next pulls on his shoes, taxed 20 per cent, and his toilet is completed. He wipes his nose on a handkerchief which has a tariff rate of 40 per cent, and then hurries down to the dining room for breakfast.

The morning meal, like all other meals is a tariff nightmare. The buckwheat in the cakes is taxed 14 per cent. He spreads them with butter which carries a tariff rate of 39.24 per cent, and gives them a liberal application of maple syrup, taxed at 41.28 per cent. The bacon is taxed 9.16 per cent, and sugar two cents. Coffee is the only

item on the menu that does not carry a tariff tax.

The wife is busy filling that "full dinner pail," taxed 45 per cent, while he dons his cheap overcoat, taxed 86.31 per cent, and his wool hat, taxed at 203 per cent. If he can afford the higher grade of wool hat he is taxed only 111 per cent, or if he wears a straw the manufacturer thereof has a tariff rate of 159 per cent "to protect" his product. While waiting for his wife to bring the dinner pail he fills his pipe, taxed 423 per cent, and after a glance at the clock, taxed 91.83 per cent, hurries off to his daily toil.

If he is a mechanic, every tool and practically every piece of material he may use carries an excessive tariff rate. If he is a clerk or an accountant his pen, his pencils, paper, typewriter, ink, paper clips and every other article he may use has had its price enhanced by the tariff. If he is an executive, he sits down at a desk, taxed 40 per cent, smokes a cigar, the wrapper of which is taxed \$2.92 per pound, and gives his orders to the tariff-harried office force each of whom is probably contemplating asking for a salary increase in order to meet the ever-increasing cost of the necessities of life.

Apparently there is no escape from this tariff burden. After the American consumer has spent his days trying to extract from life a fair measure of its joys, and each hour of the day and night contributing to the profits of those special interests which have been successful in securing indefensible tariff favors, even death does not free him from their pitiless greed. His family is compelled to pay a tariff tax on practically every article that goes into the manufacture of his coffin, and when his body is finally laid to rest the granite tombstone with which they mark his resting place will carry a tariff rate ranging from 60 to 1500 per cent.

### M. E. MISSIONARY SOCIETY

The missionary society of the M. E. church met at the home of Mrs. C. C. Mardis with twenty-four members, three visitors and ten children present.

This being our social meeting it was turned into a general good time with program and games. The hostess and assistant hostess then served ice cold punch, cake and ice cream. The remainder of the afternoon was spent in taking kodak pictures. Don't forget that today is our box supper and tucky party. The next meeting will be in the choir loft at the church.—Reporter.

There are times when we can sell above the market. When we can, we will pay more. See us before you sell your chickens. Winningham Produce.

## MODEL GAS KITCHEN ON WHEELS

The Lone Star Gas Company has recently introduced a novel method of demonstrating compressed natural gas delivered in portable steel cylinders to homes not having pipe line gas service. A model kitchen has been especially designed and constructed on a truck chassis. This traveling kitchen tours the suburban communities of Texas giving special demonstrations with compressed gas.

The interior of the truck is equipped with standard gas appliances, including a cook stove, water heater, refrigerator, lights and small water heater. These appliances receive a supply of gas from standard installation mounted on the rear in a steel cabinet exactly the same as the installation for service in the home. Two cylinders are included in the installation. As one cylinder becomes empty it can be turned off and the other turned on; the empty cylinder can be replaced without interrupting service.

The Plainview distributor of STARGAS in this territory will bring this kitchen to Muleshoe on July 7 for public inspection.

### MRS. ROGERS TO CONDUCT CLASSES IN EXPRESSION

Mrs. V. B. Rogers, experienced expression and kindergarten teacher, will open classes in her home for children within the next few days. She will direct a series of plays for Junior Little Theatre, which is excellent training for youngsters. Mrs. Rogers will also organize a juvenile orchestra among her pupils, and all parents are requested to see her at once in regard to these studies.

### BIRTHDAY PARTY

Quite an enjoyable time was had at a surprise birthday party given Mr. Gilbert Wollard last Wednesday night at Horseshoe Bend. Those present were Mr. and Mrs. J. M. McAdams, Mrs. Dodson, Mrs. B. W. Carles, Helen and Ruth Bearden, W. B. McAdams and family, Walter Witte and family, and of course, Mr. Wollard had his wife come along too.—Reported.

### A Mormon Beauty

## After the First Twenty-five Thousand Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of operation and up-keep.

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial worth that has been built into it. From every standpoint—in everything that goes to make a good automobile—you will know that you have made a far-seeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase—"I'm glad I bought a Ford."

A FORD owner in New York tells of a 13,000-mile trip across the United States and back in sixty days and says "the car was extremely economical to operate, comfortable and speedy." A grateful father tells how the Triplex shatter-proof glass windshield saved his wife and children from serious injury.

To test tires, a large company drove a new Ford day and night, for an average of 500 miles every twenty-four hours. It was still giving satisfactory service after 105,000 miles.

A Ford car that had fallen into Fernan Lake was submerged for twelve days before being raised. After a new battery and carburetor bowl were installed, it was driven back to Spokane under its own power.

Many police departments have written of the special advantages of the Ford in crowded traffic because of its alert speed, acceleration, and ease of control. An increasing number of fleet owners are also purchasing the Ford because their cost figures have given conclusive proof of its economy of operation and up-keep.

In addition to important triumphs in Germany, France and Italy, the Ford won six out of seven leading places in a contest in Finland, first and second in the Rafaela races in Argentina, first and second in the

run from Copenhagen-to-Paris-to-Copenhagen, three gold medals in England, first ranking in the durability test over the tortuous Amancaes road in Peru, and first place in the 1930 reliability run conducted by the Royal Automobile Club of Sweden.

This contest was an exceptionally severe test of endurance and sturdy construction because it was held in the dead of winter and covered 600 miles of steady, running over snow-covered country roads and mountainous hills.
