

Premium Basin OIL & GAS LOG

Chance Of Showers

West Texas Strikes Final

Pay raises have been reopened in two West Texas oil fields. Petroleum Exploration & Operating Corp. has completed the former Fort Worth Production Co. No. 1 Y. C. Gray, to reopen the Garden City, West (Spraberry) field of Glasscock County.

It had a daily, pumping potential of 35 barrels of 40-gravity oil and 30 barrels of water, with gas-oil ratio of 800-1. Production was through perforations at 5,326-7,396 feet, which had been acidized with 1,000 gallons and fractured with 128,000 gallons and 102,000 pounds.

It was drilled to 7,841 feet, and plugged back to 7,831 feet, and has 4 1/2-inch casing seated at 7,802 feet.

Location is 660 feet from south and east lines of section 27, block 34, T-4-S, T&P survey, three miles southwest of Garden City.

Howard Strike
 NRM Petroleum Corp. of Midland has completed No. 1 Fryer to reopen Spraberry production in the Bond field of Howard County, five miles southeast of Knott.

It was completed on the pump for 10 barrels of 38-gravity oil and 20 barrels of water daily, through perforations at 6,644-8,675 feet, which had been acidized with 3,000 gallons and fractured with 25,000 gallons and 40,000 pounds.

It originally was drilled by Pierce & Davis, and plugged and abandoned in 1967 at 8,358 feet. The cleaned-out depth is 8,900 feet, and it has 4 1/2-inch pipe set at 4,479 feet.

Location is 2,300 feet from south and 800 feet from east lines of section 27, block 33, T-2-N, T&P survey.

Eddy, Chaves Gain Wildcats

Eddy and Chaves counties, N.M., drew sites for wildcats. Coquina Oil Corp., Midland, will drill No. 1 R. S. Federal, a 9,400-foot Morrow probe in Eddy, 15 miles southwest of Lake Wood.

Drill site is 1 1/2 mile northwest of a shut-in Wolfcamp gas discovery and one mile northeast of a recent Cisco oil strike. It also is 2 1/2 miles west of the Cemetery (Morrow) field.

Location is 660 feet from north and 1,980 feet from west lines of section 25-26-24e. Ground elevation is 3,606 feet.

Chaves Try
 McClellan Oil Corp., Roswell, N.M., plans No. 2 Butler Springs-Federal, as a 1,950-foot Permian test in Chaves, 13 miles southeast of Hagerman.

Drill site is 330 feet from north and 890 feet from east lines of section 23-14-29e, 1/2 mile southeast of production in the Sam's Ranch (Premier) gas field. Ground elevation is 3,619 feet.

Explorers Staked In Basin Sectors

Wildcats have been staked in Crockett and Rumsel counties. Amoco Production Co. accounted for the deeper of the Crockett tests. It is No. 1-B. (Continued On Page 11A)

Weather

FORECAST: Clear to partly cloudy through Thursday with a chance of showers and thunderstorms, some possibly severe, both this afternoon and tonight. High temperature this afternoon, middle 80s with tonight's low in the lower 60s. High Thursday near 80. Winds westerly at 15-20 m.p.h. this afternoon, decreasing to 10-15 m.p.h. tonight. Probability of precipitation, 50 per cent both this afternoon and tonight.

Democrats Attack Oil Tariff Hike

WASHINGTON (AP) — The Democrats who control Congress are sharply criticizing President Ford's latest actions to force up petroleum prices but cannot guarantee the votes to substitute their own energy program.

As a result of the President's action, announced in a national broadcast Tuesday night, the price of gasoline is expected to increase by at least 1.5 cents a gallon in early summer. And if Ford has his way, the price would climb another six cents or more over the next 18 to 24 months.

The President chided Congress for failing to approve a broad energy program, as he recommended in his State of the Union message last January. Therefore, Ford said he will:

—Impose a second \$1-per-barrel tariff on imported oil, effective June 1. Although the tariff is aimed at reducing consumption of foreign oil, the extra dollar, like the previous \$1 tariff, also is likely to be added by oil companies to the price of the 40 per cent of domestic oil production that is exempt from price controls. This could mean an extra \$250 million a month in oil company profits reflecting both dollar increments. Ford also has proposed a windfall profits tax on oil producers.

—Levy a 60-cent-per-barrel tariff on imported petroleum products, such as gasoline and heating oil, also effective on June 1. The effects of this increase will be felt most in Hawaii and on the East Coast, which are heavily dependent on oil refined abroad.

—Send to Congress next month a plan for removing federal controls from domestic oil prices, probably over the next 18 to 24 months. Such a move, which could be blocked by Congress, would raise consumer prices for petroleum products by at least six cents a gallon.

In addition, Ford administration officials say they expect the Organization of Petroleum Exporting Countries to raise the cost of their petroleum products by 10 to 15 per cent this autumn. Such a boost would add another 1 to 1 1/2 cents to a gallon of gasoline.

Ford said he had delayed the tariff increases in March and April after congressional leaders had "promised to come up with a congressional energy program better than mine" but they didn't.

Declaring that Congress had made the ruling Tuesday at

ACCELERATED ECONOMIC GROWTH A MUST— Kissinger: Help 'Third World' Or Else

PARIS (AP) — Secretary of State Henry A. Kissinger said today that the industrial nations must accelerate their economic growth — and lend a hand to the Third World — or face dangerous and destabilizing political pressures.

"Economic issues are turning into central political issues," he told the 24-nation Organization for Economic Cooperation and Development-OECD.

Kissinger said the 1973 oil embargo is an example of "misused economic power" that threatens the political stability of the West. He said the United States will resist "blockade tactics," but will also try to accommodate the interests of developing countries.

Kissinger detailed a series of U.S. proposals for world collaboration that he said could help usher in a new era of economic advance and human progress.

Among them was that the OECD establish a \$2 billion trust fund to help the poorer nations meet the rising costs of imported energy, food, fertilizer and industrial goods.

Kissinger said \$1 billion of this should be in the form of gold held by the International Monetary Fund and contributions, especially from oil producers.

He also recommended new trade procedures to improve the developing countries' access to markets and supplies, establishment of a blue ribbon group of economists to prepare new policy recommendations and a \$1 billion fund for agricultural development.

Responsibility Recognized
 "The United States recognizes the responsibility that accompanies its economic power," Kissinger said. "We are prepared to do our part, in a spirit of equality, mutual respect and cooperation."

Describing economic expansion as essential within the West as well, Kissinger said, "Economic stagnation breeds political instability. For the nations of the industrialized world, the economic crisis has posed a threat to much more than our national income."

"It has threatened the stability of our institutions and the fabric of our cooperation on the range of political and security problems."

Cold Reception
 Meanwhile, Algeria, the leader of the Third World's drive to use the oil countries' bargaining power to aid producers of other raw materials, gave a cold reception to Kissinger's proposal for the creation of international commissions on raw materials and special problems of developing countries.

Under his proposal, such commissions would operate separately from any future international oil conference. But Algeria indicated it would not agree to this divorcement of oil from other raw materials with less bargaining power.

The official Algerian news

Flood Dangers Mounting In Many Areas Of Texas

Flood dangers mounted in many parts of Texas today as protracted spring rains kept pouring down on the water-soaked countryside.

National Weather Service observers described conditions as worst in the southeast half of the state, where at least a dozen streams were bankfull or overflowing.

Showers or thunderstorms dotted most sections this morning after another night of tornado threats for widely scattered areas.

Gainesville civil defense workers spotted a twister 10 miles south of the Red River in Cooke County. Another was sighted on the ground at Lancaster, south of Dallas, and a third over Grapevine, northwest of Dallas.

As winds gusted to 72 miles per hour at Victoria in South Texas, a tornado wrecked a barn 15 miles northwest of there.

Street flooding occurred in a number of places as the often heavy downpours persisted this morning. Hail frequently accompanied the deluges.

Forecasters held out prospects for scattered showers throughout the state, locally heavy rains in Central and (See FLOODING Page 2A)

Some Students Entering Eighth Grade In Fall To Have Choice Of High Schools

Students entering the eighth grade next fall will have a choice of which freshman and high school they attend providing they have an older brother or sister who has graduated as long ago as May 1972 from a high school outside the currently drawn boundary lines.

Midland public school trustees made the ruling Tuesday afternoon, thereby overturning an earlier vote, before they plowed into considering 77 transfer requests.

The measure, which gives eighth graders across the city freedom of choice resulted from recently redrawn school attendance zones beginning on the junior high school level and continuing through high school. It passed unanimously.

It was the school board's two newest members, Don Sparks and Johnny R. Warren, who upset the apocryphal of school transfer policy. Previously, the board had voted that eighth grade students would be bound by the new attendance zones while seventh graders would continue at the junior high schools they already attend, as would high school sophomores and juniors.

Sparks' Proposal
 Sparks offered the first proposal to change the earlier rulings, asking that eighth grade students be given the choice of attending freshman and high schools according to last year's attendance patterns because of already developed loyalties to certain schools.

Board president James E. Winget Jr. yielded his seat to vice president Joe Dominy to second Sparks' motion. The motion was defeated, with only Sparks and Winget supporting it.

Family Loyalties
 Warren then proposed that family loyalties be honored in determining which students must be affected by the changes. Only youngsters whose older brothers or sisters graduated from May 1972 to the present will have the option to attend schools outside their (See STUDENTS Page 2A)

PPG Industries May Build Facility West Of Midland

PPG Industries, Inc., revealed today a fiber glass manufacturing facility may be built on a 500-acre site just west of Midland.

Announcement that PPG had taken an option on the land was made by Martin L. Alday, president of the Industrial Foundation of Midland, Inc., today during the May meeting of directors of the Midland Chamber of Commerce.

The site is between Interstate 20 and U.S. 80 with the east boundary being about a half-mile west of FM 1369. The tract is in the shape of a parallelogram with the east and west boundaries following a

nearly north-south line, less a small strip across the northeast corner.

The site originally selected by PPG Industries was located northwest of Midland Regional Air Terminal.

The new option expires on March 31, 1976.

Alday said, "We are very optimistic about this project. It has been a lengthy negotiation, but we feel that the plant will be constructed here if and when there is some improvement in the general economy of the country."

Men Seem In Good Condition

VIENTIANE, Laos (AP) — Student demonstrators ended their occupation of the U.S. AID compound in Vientiane today, freeing two U.S. Marines and an American civilian who had been confined for a week during anti-American demonstrations.

The three were heavily bearded but seemed in good condition as they emerged under an agreement in which U.S. authorities bowed to demands for total shutdown of the U.S. Agency for International Development — AID — mission by June 30.

Marine Sgt. Donald E. Wilburn, 28, of Osgood, Ind., at first refused to roll up the metal protective gates of the building where he had stuck by his guard post.

"Everybody kept telling me to open up except my boss," he said later, referring to the non-commissioned officer in charge of his unit. Finally Wilburn relented for U.S. Charge d'Affaires Christian A. Chapman.

The Americans released were Marine Sgts. Donald E. Wilburn, of Osgood, Ore., and Roger Murphy of Gresham, Ore., and the civilian, William Darden.

Darden was identified as a civilian electrician. His home town was not immediately known.

Wilburn, 28, and Murphy, 22, jumped into a station wagon and drove off to get their first regular meal in a week.

Five American paymasters entered the paper-strewn compound after Pathet Lao and student demonstrators left. They set to work paying \$25 advances to Laotian AID employees.

The restoration of the compound to the Americans was calm and relatively orderly discussions on oil only. (See LAOTIANS Page 2A)

Late Bulletins

AUSTIN (AP) — Senators today approved a nine-county House redistricting bill after a furious outburst by Sen. A. R. Schwartz, D-Galveston, over the manner in which Galveston County had been redistricted.

MADRID (AP) — A top Spanish official says Spain is seriously considering adopting a neutralist position in Western European defense unless it gets a much improved agreement with the United States to continue the American military presence in Spain.

BENIDORM, Spain (AP) — Six persons were killed today when part of a building collapsed during a rain-storm here. Ten others were seriously injured in the incident.

Laotian Demonstrators Free Americans

(Continued From Page 1A) spite a week of harassment and humiliation at the hands of the demonstrators.

Only minor damage was found in the big compound, taken over by the students last Wednesday.

The American entry was delayed from the morning until mid-afternoon as students pressed demands that were not in an agreement signed Tuesday night by Chapman, Pathet Lao leader Soth Pethay and a protest leader.

Chapman finally agreed to student insistence on accompanying the Americans on an

inspection tour with reporters along as witnesses so they could not be accused of destruction, Chapman said.

"They are very suspicious of all Americans now."

The pact came after a week of harassment and rising tension as the American colony of 1,000 persons was reduced by two-thirds and police stood by while students and others looted the AID compound and some of the houses in an American housing area on the outskirts of the city.

"The U.S. government agreed to turn over 'the various affairs and property' of AID to

the Laotian government, including 'incomplete and new projects along with the budgets for these projects.'

The agreement provides for a "protest committee" of Laotian AID employees to remain in the compound to observe the liquidation of the American operation. Americans and other AID employees are not to be threatened.

A U.S. Embassy spokesman said the remaining American AID employees would be evacuated as quickly as possible to avoid further incidents.

He said some 265 U.S. gov-

ernment officials and dependents are still in Laos. More than 80 were expected to leave today, most of them for Bangkok. There will only be a few AID employees left by Thursday, and only about 20 dependents, the spokesman said.

Among the dependents who are staying are Chapman's wife, Anita, and their three children.

Elsewhere:

China claimed the Soviet Union has asked the new Communist government in South Vietnam for the use of former U.S. military bases "in com-

ensation for the huge amount of aid" given North Vietnam and the Viet Cong during the war, Japan's Kyodo news service reported from Peking.

The Saigon government's official newspaper, Gial Phong (Liberation), reported that another 400 political prisoners were freed from Con Son prison island, bringing the total released since the Communists took over April 30 to 1,800.

Four ships of the Vishpco shipping line which fled after the surrender of Saigon, have returned from Singapore, the government reported.

\$7 Million Awarded In Mishap

WASHINGTON — A U.S. District Court jury Tuesday awarded \$7 million in damages to the family of an Illinois youth whose neck was broken when he dived into a hotel swimming pool while here for an Explorer Scout convention four years ago.

The award is the largest ever given here in a personal injury negligence case, and may be the largest such award to an individual in the country, according to several lawyers here.

The jury took less than an hour Tuesday to reach the \$7 million figure. The jurors directed that it should be divided by giving \$6 million to the youth and \$1 million to his family.

The same jury had ruled last week that the Washington Sheraton Corp. and IIT Sheraton Corp. of America, the owners of the Sheraton Park Hotel here, were liable for the accident.

Victim of the accident is Thomas Hooks, who was 18 at the time. The jury's award is subject to review by the judge, who can accept it, modify it or reject it, and can be appealed to higher courts by the defendants.

After reaching that legal conclusion on liability, the jury then heard testimony about the past and future medical costs growing out of the accident, and the loss of possible future earnings by the youth, who is now a quadriplegic.

According to evidence presented at the trial and court records, the youth was injured when he dived off a 4-foot-high diving board into 8 feet of water. The jury, after hearing detailed evidence by witnesses, including diving and swimming pool experts, found that the hotel had been negligent in using the type of diving board with the depth of water involved.

Redistricting Vote Due

AUSTIN (AP) — Sen. A. R. Schwartz promised to let the Senate vote today on a House redistricting bill, which should clear the way for debate on a \$22 million proposal to improve Texas' public schools.

House members scheduled debate on measures designed to enable doctors to obtain malpractice insurance at a cost they can afford.

Schwartz's two-hour filibuster Tuesday blocked Senate votes on redistricting or school finance, and House members retaliated at his holding up a House bill by refusing to consider Senate bills.

Schwartz, D-Galveston, planned today to try to change the manner in which single-member House districts have been drawn for Galveston County, one of nine urban counties which are affected by the proposal.

As the district lines are now drawn, Schwartz said, it makes a "mockery" of single-member districts.

Tuesday, legislators completed action and sent to the governor bills that would:

- Require state and local elections, to be held on one of four dates—the third Saturday in January, first Saturday in April, second Saturday in August or first Tuesday after the first Monday in November. The limitations do not apply to liquor or bond elections, political runoff or biennial party primaries.
- Require state agencies to post seven-day notices of their public hearings. Three days notice is now required.
- Raise filing fees for state Senate candidates from \$400 to \$600 and for House candidates from \$200 to \$300. In addition, a candidate for statewide office could avoid paying the \$1,000 fee by filing a petition with 5,000 signatures.

In a session that ran past 9 p.m., the House approved, 119-

Midlander's Fee Bill To Governor

AUSTIN — Legislation by Rep. Luther Jones of El Paso to increase the fees charged by sheriffs and constables for serving legal papers has been passed by the Senate and sent to the governor to become law.

The fees would be increased from \$2 to \$5 in small claims courts and from \$4 to \$10 in all other courts. Present fees, which are paid by litigants, do not pay the actual costs of serving the documents and the difference at present is being paid out of tax dollars.

Sen. Pete Snelson of Midland sponsored the bill (HB 382) in the Senate. The measure had the backing of the Texas Sheriffs Association and the Constables Association of Texas.

Hey, Kids! Swimming Pools Reopen Saturday

Midland's public swimming pools will reopen Saturday. The city has five pools available for public use during the summer months.

At Alamo pool, 900 N. Midland Drive, youths (19 years of age and under) can swim for 25 cents, and adult admission is 50 cents. The pool is open from 2:30 p.m. Monday, Wednesday, Friday and Sunday, from 2:30 p.m. Tuesday and Thursday and features family nights from 5 until 8 Tuesday and Thursday.

Ulmer pool, 2900 W. Kentucky St., charges admission fees of 20 cents for youths and 30 cents for adults. The pool is open from 1:30 p.m. Monday through Friday and from 1:30 p.m. weekends.

The other three public pools are open every day from 1:30 p.m. Half pool, 100 E. New Jersey St., and Washington pool, 1601 E. Indiana St., charge five cents for youths and 10 cents for adults. The pool at Hogan Park on East Wadley Street charges 25 cents for youths and 50 cents for adults.

Swimming Pools Reopen Saturday

The other three public pools are open every day from 1:30 p.m. Half pool, 100 E. New Jersey St., and Washington pool, 1601 E. Indiana St., charge five cents for youths and 10 cents for adults. The pool at Hogan Park on East Wadley Street charges 25 cents for youths and 50 cents for adults.

Students—

(Continued From Page 1A) currently drawn attendance zones.

Passed unanimously, the ruling applies citywide rather than to just the students in the newly changed areas.

After rearranging trustee rules, trustees then delved into 77 requests, denying only three and tabling an additional three in order to seek additional information.

In other action, trustees approved plans for 1975-76 cafeteria operations which gives an estimated 13 per cent pay hike to cafeteria workers but leaves the price of school lunches the same as this year.

Board members also named Commercial Bank and Trust as its depository bank, accepted the keys for the Austin Freshman School vocational facility from architect Charles Neuhardt and awarded contracts totaling \$80,971.23 for gasoline and cafeteria supplies.

Seniors—

(Continued From Page 1A) Friday evening to continue the event.

The graduation ceremony will begin with the invocation by student body president Timothy Blankvist, followed by addresses by Janet Belden and Sarah Hardwick, the salutatorian and valedictorian, respectively.

Bill Wells, head counselor, will announce awards, honors and scholarships. Presentation of the class will be made by principal Audrey Gill, and certification will be by Dr. James H. Malley, superintendent of schools.

School board vice president will preside diplomatically, assisted by trustees C. Wallace Craig and Johnny R. Warren.

After the class sings the alma mater, senior class president Cody Myers will give the benediction.

His Problems All Over Now

T. J. got taken care of, but probably not in the way that was expected by his former owner.

The Midland-SPCA received a call Tuesday night that there was an injured animal on Andrews Highway. When the SPCA driver arrived, he found a badly injured German Shepherd that had a note attached to him which read, "My name is T. J. Please take care of me. I'm a good dog."

The dog, which had been hit by a car, was taken to the animal shelter, but died 30 minutes later.

The Midland-SPCA is making an appeal for people who don't want their dogs to bring them to the animal shelter rather than turning them loose.

A spokesman for the animal shelter said this is the sort of thing that happens often when people just turn their pets loose when they no longer want them.

Girl, 3, Injured In Traffic Mishap

Cynthia Louise Clark, 3-year-old daughter of Mr. and Mrs. James Clark of Rt. 2, was in satisfactory condition today at Midland Memorial Hospital after she ran into the side of a car Tuesday night.

Department of Public Safety officials said a car driven by Lolita Rocha Smith of Midland was driving through Airline Mobile Home Park on West U.S. 80, when the child, pursued by a dog, ran out into the street into the side of her car about 9 p.m.

Midlander Held On Burglary Count

Weldon Lee McDougle, 27, of 106 N. Lee St., was in city jail today in lieu of \$15,000 bond in connection with the burglary of an apartment early today.

He was arraigned by Justice of the Peace Robert Pine, who set bond.

Police said Connie Mitchell, 307 N. Carrizo St., reported someone broke the window to her apartment door about 3:20 a.m. while she was asleep. When she turned on the light, she said, the intruder fled.

Police investigating the incident said they arrested McDougle when they saw him enter and leave the woman's apartment building while they were still at the scene about 4:30 a.m.

Flooding—

(Continued From Page 1A) East Texas and renewed threats from severe thunderstorms in West Texas.

Early morning temperatures ranged from 55 degrees at Dalhart in the Panhandle up to 77 at Brownsville in the Lower Rio Grande Valley. Top marks Tuesday went as high as 93 at McAllen in the extreme south. The Associated Press reported.

The Tall City has a 30 per cent chance of rain this afternoon and tonight with a possibility of severe thunderstorm activity.

The National Weather Service at Midland Regional Air Terminal recorded a high temperature Tuesday of 84, and the mercury is expected to level off in the middle 80s once again today. Tonight's low is forecast in the lower 60s.

Tuesday's overnight low was 62.

Skies should remain clear to partly cloudy with southerly winds bringing Gulf moisture into the area.

Thefts Reported To Midland Police

Pat Talbot, an employee of Ray's Catering Service, Inc. of Odessa told police Tuesday a money bag containing \$135 was taken from her truck while it was parked in the 3900 block of West Wall Street Tuesday afternoon.

Pam Hayes, 3204 Roosevelt St., told police several items of clothing, panties and 15 bras were taken from her home sometime between 9:30 p.m. Tuesday and 1:15 a.m. today.

Two Burglaries Reported Here

About \$200 in change was taken from the Furry Farm on West Highway 80, Buck Bufington told Midland County sheriff's deputies Tuesday.

Deputies said several pinball machines at the amusement park were broken into and the money taken from them.

Tom Johns, operations manager for T&N warehouse on West Interstate 20, told deputies Tuesday the warehouse was broken into and a payroll check and \$15 in change taken from his desk drawer.

Rites Slated For Arredondo

Mass for Elosio M. Arredondo, 57, of 1106 E. Hickory St., will be at 10 a.m. Thursday at Our Lady of Guadalupe Catholic Church. Rosary will be at 8 p.m. today in the Thomas Funeral Home Chapel. Interment will be in Resthaven Memorial Park.

Arredondo was stabbed to death Sunday night in an East Midland tavern.

A native of Seguin, he had lived in Midland for seven years. He was a veteran of World War II.

Survivors include his widow, Sinora; two daughters, Irma Arredondo of Stanton and Consuelo Arredondo of Houston; six sons, Elosio Arredondo Jr., Rudy Arredondo, John Arredondo and Robert Arredondo, all of Midland, Edward Penia Arredondo of Houston, and Demario Guleres of Louisiana, five sisters, two brothers and four grandchildren.

MC Summer School Enrollment Hits 548

With students transferring in from such far-flung institutions as Punjab University in India and California State University, Midland College summer school enrollment this morning climbed to 548 students.

With Friday set as the last day to register early for the June 3 through July 8 summer school session, registration figures compare with 218 students registered at this time last year. Total registration for the first summer session of 1974 was 521.

Regular registration for the first session is Monday.

The second session, scheduled July 10 through Aug. 14, will have its registration July 9.

Midland College counselor Sally Isaacs said today students who regularly attend another college or university but are interested in obtaining credit hours in Midland this summer may consult with counselors to determine whether the credits will transfer.

"We can usually tell by looking at the catalogues," she said, "but if not, we'll place a call."

Among the other institutions new Midland College students are hailing from are Lubbock Nursing School, Missouri State College, Texas Tech, West Texas State University, Golden West College, Hamlin University, Rice University, San Antonio College and Mountain View Junior College.

Accident Victim's Condition Improves

ODESSA—James William Gilliam, 25, of Odessa, was in satisfactory condition today at Medical Center.

He was injured Saturday morning when the truck-trailer he was driving was hit by a train 12 miles west of Midland on U.S. 80. Two other men died in the accident.

Grand Jury No-Bills Midland Police Officer

Midland police officer James L. Campbell, 23, was no-billed this morning by the Midland County Grand Jury which had probed into the patrolman's killing by gunshot his 51-year-old attacker May 21.

The jury did not issue a statement in 142nd District Court in absolving Campbell of any criminal charges in the death of his assailant, Green Wiley.

Tuesday, on the day the grand jury began its probe into the death, Peace Justice Robert Line ruled that Campbell fired the single shot from his service revolver "in self-defense" and that the shooting was justifiable homicide.

Midlanders Visit

Mr. and Mrs. Bill Collyns, 1900 W. Texas St., were in Levelland Monday night visiting in the home of their son-in-law and daughter, Mr. and Mrs. Bill Harris and family, and attending a dance recital in which their granddaughter, Carol Ann Harris, participated.

Courtney Rites Held This Morning

ANDREWS — Services for Fred G. Courtney of Andrews were at 10 a.m. today in the First Baptist Church of Andrews with the Rev. Carl Griseom, pastor, officiating.

Courtney, 64, died Monday in an Odessa hospital following a brief illness.

Masonic services were at the Andrews Cemetery.

Veteran Moslem Political Leader Gets Lebanese Premiership For Ninth Time

BEIRUT, Lebanon (AP) — Rashid Karami was named premier of Lebanon for the ninth time today after another night of savage street fighting between religious and political factions in Beirut.

President Suleyman Franjeh asked the veteran Moslem political leader to form a cabinet at a meeting attended by Pierre Gemayel, leader of the right-wing Christian Phalange party, a presidential spokesman announced.

Franjeh last weekend named the first military cabinet in Lebanese history in the hope that it could end the factional

Warfare in Which 130 Persons Killed

warfare in which 130 persons have been killed and more than 600 wounded in Beirut in the past eight days. But Moslem opposition brought the government down in three days.

Karami, 53, was expected to begin with an appeal for a cease-fire so the warring factions can negotiate.

Karami's appointment was not challenged by the Phalangists or the Moslem Palestinian guerrillas who began the fighting on May 20. But it was not known what would be the reaction from a dozen other factions whose gunmen have joined in the fighting.

Democracy in Lebanon

The crisis between the Palestinians and the Phalangists stems from the Christian party's opposition to the presence of the anti-Israel guerrillas in Lebanon. The Phalangists charge that the guerrillas' operations against Israel — over which the Lebanese government has no control — makes the country liable to Israeli attack.

The Palestinians charge that the Phalangists want to drive them out of the country. They and the other Moslem groups claimed that the military government was appointed to do that.

Democracy in Lebanon

The crisis between the Palestinians and the Phalangists stems from the Christian party's opposition to the presence of the anti-Israel guerrillas in Lebanon. The Phalangists charge that the guerrillas' operations against Israel — over which the Lebanese government has no control — makes the country liable to Israeli attack.

President and Mrs. Ford leave the White House this morning. At left is their daughter, Susan. (AP Wirephoto.)

Ford Leaves For Europe

WASHINGTON (AP) — President Ford, embarking on his first European mission since taking office, declared today he goes as a representative of "a confident and united America" to his allies, to safeguard our vital interests.

"The United States seeks international cooperation — not confrontation," the President said in a statement prepared for delivery before departing Andrews Air Force Base in nearby Maryland on a six-day journey which will take him to Brussels, Madrid, Salzburg, Austria and Rome.

"I pledge to work unstintingly to advance our common interests with Europe as part of our broader efforts to achieve better cooperation with all countries," Ford stated.

In Brussels, the first stop, he will join Secretary of State Henry A. Kissinger for a two-day NATO summit. There he plans individual meetings with leaders of all 14 member nations of the alliance. French President Valery Giscard d'Estaing does not plan to attend the summit, but will meet with Ford in the Belgian capital.

"I want to reaffirm at this time — and will do so again in Brussels — the United States' commitment to the North Atlantic Treaty which is vital to

Mother Of Missing Missionary Testifies

AUSTIN (AP) — The mother of one of the Mormon missionaries that Robert Kleasen is accused of killing has testified that Kleasen began to cry when she talked with him in his jail cell.

"He told me he loved Gary," Mrs. Jill Darley, of Santa Anita, Utah, told a seven-woman jury.

"She met with Kleasen a few days after her son was reported missing last November, she said. She described the talk as 'confidentially friendly.'"

"It was 'a mother's heart, pleading for her son,'" Mrs. Darley said. She showed Kleasen a key case that her son had made and asked, "Isn't it too bad that Gary won't be able to do this anymore?"

"He bowed me out—How can you talk about him being dead?"

"Mrs. Darley squeezed a handkerchief between her hands as she testified. Her voice began to break several times, but she would pause slightly and resume her testimony.

"Asked if she had had any contact with her son since Oct. 28, the day he told other Mormons that he and his companion, Mark Fischer, were going to Kleasen's trailer for dinner, the mother said: "I only wish I had."

"She said she was beginning to establish a rapport with Kleasen after about 10 minutes in the cell when Travis County Sheriff Raymond Frank appeared at the door and said, "Well, did you get what you wanted?" That destroyed the mood, she said.

Kleasen watched Mrs. Darley without expression as she testified.

The 42-year-old Kleasen is accused of killing Darley, 20, of Simi Valley, Calif., and Fischer, 19, of Milwaukee, Wis. He is being tried at this time only in the Fischer slaying.

Mrs. Darley and her husband, David, identified their son's wrist watch, which she said was found in Kleasen's trailer.

Houston Police Chief Compiling List Of Those Whose Phones Were Tapped

HOUSTON (AP) — Houston Police Chief Carrol Lynn says he expects to complete this week a list of criminal defendants whose telephones were allegedly wiretapped by local police.

Lynn confirmed Tuesday he was taking the action which could be the first step in the dismissal of several criminal cases.

Harris County Dist. Atty. Carol Vance requested the list in a letter, calling the matter "of utmost urgency to our judicial processes."

Both Lynn and Vance said the letter was confidential correspondence but a copy was obtained from other sources.

Lynn said he "wouldn't even try to comment" on the number of criminal cases where evidence was obtained by police wiretaps.

"It has come to my attention from your testimony before the Texas Legislature that thousands of illegal wiretaps have been done by members of the Houston Police Department," Vance said in the letter dated May 30.

"As you are aware, any evidence gained by means of illegal electronic surveillance would be inadmissible in evidence," Vance's letter said. "Also, any conviction obtained where such methods were utilized, could cause such convictions to be set aside."

Vance said in the letter that it was his obligation under law to "turn over any information that is defensive in nature to the defendant and his attorney."

He asked for a list of all persons involved and the "findings, the investigative reports, and any information under your control which would shed any light upon whether any illegal electronic surveillance was carried out in any case both disposed of or pending."

"I can assure you that neither I nor any of my assistants know of any case presently pending nor any case in which a conviction has been obtained where illegal electronic surveillance methods have been used," Vance said.

Vance, asked to comment on the letter, said the information would be evaluated by his office to determine if the state would seek to void a conviction or dismiss a pending case.

He said he waited until last week to draft the letter "after hearing the sworn testimony of the chief of police."

"Until then, all I had heard about the illegal wiretaps was second and third hand hearsay," he said.

He told Lynn in the letter that he needed the findings and reports immediately "as there are many felony cases from your department proceedings to trial each and every day."

Mrs. Darley testified she gave some of the hair to Gary's father after the prosecution requested it for neutron activation analysis to see if it matched hair found on a taxidermist's hand saw to which Kleasen had access.

Dist. Atty. Bob Smith read to the jury several paragraphs from a manuscript found at Kleasen's trailer entitled "My Thousand Whitebills—A Poacher's Notebook." The manuscript carries a "John T. Williamson" byline, which the state claims Kleasen used as a pen name.

One incident described by the manuscript involved the shooting of 28 deer by the author with 28 bullets on one late afternoon hunt. "Sacks of guns loaded with rocks were dropped into a lake," the manuscript says.

Another portion of the manuscript talks of having to dispose of as many as 12 deer carcasses "in a hurry."

Everything is placed in plastic bags, it says, but not too much in each bag for fear they might burst. "Legs and long bones are sawed in half." Then the "poacher" takes the bags to trash barrels at such places as large schools.

Also introduced into evidence were two driver's licenses allegedly found at Kleasen's trailer. One was for Kleasen, with a picture of him with a beard. It gives his birthday as 9-20-32 and says he is 4-1. The other, with a picture of a clean-shaven Kleasen, carries the name Richard Carl Raadt, gives his birthday as 10-11-31 and says he is 5-11.

Four tires allegedly found in an old house near Kleasen's trailer were depicted in a photograph given to the jury.

The tires were not found until Nov. 6, defense lawyers pointed out, despite a three-hour search of the trailer by eight officers on Nov. 5. The missionaries' rental car had been found on Nov. 4, minus its wheels and tires.

Kleasen claims all incriminating evidence found at his trailer was planted there. The CIA has pounded him, he says, since he quit that agency in 1965 to join the peace movement. CIA officials have said Kleasen never worked for them.

Sheinwold On Bridge Appearance Of Guess May Be Deceptive

By ALFRED SHEINWOLD

It is sometimes a problem to choose whether to play the king or the jack when you need only one trick in the suit. The opponents are not sure whether or not you have such a problem. The appearance of a guess is not proof that a guess exists.

Exiled Russian Author Planning Tour Of Alaska

JUNEAU, Alaska (AP) — Exiled Soviet author Alexander Solzhenitsyn has arrived on American soil for the first time for a private tour of this vast former Russian colony purchased by the United States 108 years ago.

His arrival Tuesday in this small, drizzle-drenched state capital went almost unnoticed. Sources said Solzhenitsyn and his wife boarded the Alaska state ferry "Taku" at Ketchikan Tuesday following a month-long visit to Canada where the author reportedly was "trying to find Russia in the people and in the land."

The couple was registered at a midtown hotel which normally caters to Alaska's politicians, lobbyists and officials here on business involving the state legislature, which is now in session.

The hotel's front desk said Solzhenitsyn was not accepting telephone calls or replying to requests for interviews. Earlier attempts to talk with the author about his Alaska travel plans during his brief Ketchikan stop-over were turned down.

Father Cyril Bulashevich, minister of the St. Nicholas Russian-Orthodox Church in Exile, reportedly was acting as a guide for the Solzhenitsyns. He was unavailable for comment.

The Nobel prize-winning writer was expelled from the Soviet Union in February 1974, for his published chronicles of life in Stalinist labor camps. His expulsion followed publication of "Gulag Archipelago," the latest in that series of work.

Solzhenitsyn, 56, spent time in a labor camp. He is now living in Zurich, Switzerland, and was reported to be looking for land on which to settle in Canada.

It was believed Solzhenitsyn planned to travel to Sitka, where Alaska was transferred on Oct. 18, 1867, from Czarist Russia to the United States following payment of \$7.2 million, or about two cents per acre.

Many reminders of Russia's influence on Alaska history are scattered throughout the southeastern portion of the state, along the Kenai Peninsula south of Anchorage and on the island community of Kodiak about 250 miles southwest of Alaska's largest city.

Low Reading
The lowest recorded temperature in Africa was minus 11.3 degrees at Ifrane, Morocco.

College Honors Midland Student

COLUMBIA, Mo.—Melinda E. Griffith, daughter of Mr. and Mrs. W. W. Griffith of Midland, Tex., has been named Outstanding Student of the Year in Art at Columbia College.

One student in each of 27 academic or extracurricular areas was selected by the college faculty for recognition.

Miss Griffith's activities at Columbia have included membership in two honorary societies, Phi Theta Kappa and Phi Sigma Gamma, and Modeling Board, a student group which models garments for local fashion shows.

The Permian Basin Landmen's Auxiliary met recently at the Kimber-Lea clubhouse for cards and a salad luncheon.

Serving as hostesses for the event were Mrs. Richard Rowan, Mrs. Cecil Ellis, Mrs. James Walker and Mrs. Marlene Chapman.

Couple To Mark 25th Anniversary

The Rev. and Mrs. Elmer E. Burrell of Midland will celebrate their silver wedding anniversary in Wheeling, West Va., in a renewal of vows ceremony in the church where they were married June 9, 1905.

The Rev. Mr. Burrell is pastor of Hope Lutheran Church. He and Mrs. Burrell moved to Midland in November 1974. Prior to his ministry here, he and his wife spent 15 years as missionaries to India and eight years in the ministry in Ohio.

The Rev. Mr. Burrell was graduated from West Virginia University and has a degree in civil engineering. He also was graduated from the Hamma School of Divinity in Springfield, Ohio. Mrs. Burrell was graduated from Wittenberg University in Springfield with a degree in home economics.

The Burrells have five children. They are Mrs. Karen Jenkins of Dayton, Ohio; Robert Burrell, a student at Northern Arizona University; Alan Burrell, who is attending Arizona State University; and Linda and Carolyn Burrell of the home. They also have a grandson, Todd Jenkins.

Rev. and Mrs. Elmer E. Burrell

SCHOLARSHIP RECIPIENTS — Mrs. Samuel Gibbs (pictured right), president of the Negro Business and Professional Women's Club recently presented scholarships to the students pictured from left to right. They are Milton Jones, Sylvia Bledsoe and Pam Williams.

Women's Club Gives Scholarships

Mrs. Samuel Gibbs, president of the Negro Business and Professional Women's Club, presented scholarships recently to recipients in the home of Mrs. B. M. Starks, 2201 E. California St.

Recipients of the scholarships are Sylvia Bledsoe, Pamela Ann Williams and Milton Jones.

Miss Bledsoe is the daughter of Rev. and Mrs. Wilbert Bledsoe, 404 S. Marshall St. She plans to attend Texas Woman's University.

Miss Williams is the daughter of Mr. and Mrs. Johnny Williams, 511 S. Lincoln St. Pamela will attend the University of Southern California.

Milton Jones, son of Mrs. Mamie Williams, 204 E. Shandon, plans to attend Southern Methodist University.

Sorority Meeting

Susan Goode of Midland will represent the University of Oklahoma at the 41st convention of Kappa Delta sorority June 16-20 in Scottsdale, Ariz.

Tanya Sue Zoller

Linda Carol Ewan

Outstanding Girl Awards Presented

Two awards for Outstanding Girls were made recently by the Midland Branch of the American Association of University Women.

Receiving the awards were Linda Carol Ewan and Tanya Sue Zoller.

Miss Ewan, graduating senior at Lee High School, is the daughter of Mr. and Mrs. Donald N. Ewan, 3102 Stanolind St. She has a grade point average of 4.1 and is a member of the National Honor Society and Latin Honor Society. Other school activities include captain of Rebelettes, Junior Council member, Classical League, Student Council corresponding secretary and math tutor.

Miss Zoller is the daughter of Mr. and Mrs. Marvin Zoller, 2214 Cuthbert St., and is a graduating senior of Midland High School. She has a grade point average of 4.5.

Miss Zoller is a member of the National Honor Society and Spanish Honor Society. Also the Student Council and has participated in tennis and track.

Team Honored At Dinner Party

Mr. and Mrs. Bill Traugher and Mr. and Mrs. Robert W. Gaston entertained with a seated buffet dinner in the Gaston home, 2807 W. Shandon St., honoring the drill team of the Midland Chapter of the Order of DeMolay.

The dinner followed the installation and reception Friday in the Masonic Temple for the new master counselor Brian Traugher, son of Mr. and Mrs. Traugher.

Guests were Jerry Penick, Eric Van, Doug Mikeworth, John Matthews, Clay Gaston, Brian, Brad Forrester and Keven Herring, all of Midland, and Wayne Frost of Odessa. Also attending were Sheri Seay, Jamie Jones, Julie Reed, Mr. and Mrs. Wesley M. Van, Mr. and Mrs. J. P. Forrester, Mr. and Mrs. Edward J. Heard, Mr. and Mrs. Dean Penick and Kenneth D. Osborn.

Midkiff HD Club Program Presented

MIDKIFF—The Midkiff Home Demonstration Club met recently in the El Paso Recreation Hall for a program on "Flower Arrangements."

The game prize was won by Mrs. Ray Barrett. Refreshments were served by the hostesses, Mrs. T. O. Midkiff III, Mrs. Malcolm Brown and Mrs. J. C. Short.

An ice cream social will be held June 13.

Julie Ann Gallagher

Julie Ann Gallagher In 'Who's Who' Of Baton Twirling In United States

Julie Ann Gallagher, 10-year-old daughter of Mr. and Mrs. Bill Gallagher of 2418 Apperson St., is featured in the 1975 edition of "Who's Who in Baton Twirling." This edition features more than 1,500 of the nation's foremost twirling champs.

Miss Gallagher, who has won more than 175 trophies and medals in baton twirling contests, has been a Texas state champion in 1972, 1973 and 1974. She will enter the 1975 Texas State Championship National Twirling Association Contest in San Antonio June 5-7. She also will be a contestant in the Miss Majorette of Texas Pageant.

She has been a state winner in solo, flag, basic strut, fancy "T" strut, hoop, two-baton and duet twirl.

Miss Gallagher twirls with the Midland Cometes Alamo YMCA Twirling Team, which was the 1974 state champion high point team.

She was first runner-up in the Midland Our Little Miss Pageant and will participate in the district pageant to be held Saturday in Midland.

She attends Emerson Elementary School.

Chapter Holds Memorial Service

Norman Reed Chapter No. 1010, Order of the Eastern Star, had a memorial program following a recent meeting in the Masonic Temple.

Bob Horn of Odessa, worthy patron, assisted by Mrs. Tom Cook, worthy matron, and Jean Sauze, Mrs. Myrtle Smith, Mrs. Ann Morrow, Mrs. Jo Milliken and Mrs. Eunice Cayce, paid tribute to deceased members and their families.

Mrs. Ione Shurley and Mrs. Charlyne Womack placed a star-shaped wreath on the altar. The prayer was given by Mrs. Johnnie Bell Bobbitt.

AARP Meets, Plans Donations

The American Association of Retired Persons met recently in the Fellowship Hall of the First Christian Church.

A short business session was presided over by Buster Steger. Mr. David Wood was guest speaker and presented slides on arthritis, discussing symptoms and treatment. The association voted to make a donation to the Arthritis Foundation.

Following the meeting a supper was served. Guests attending were Chet Melvin, Beneta Mogers, Louella Sneed and David Wood.

Announce Birth

Mr. and Mrs. Clarence Scharbauer III announce the birth May 24 of a daughter.

HOROSCOPE

by Carroll Righter
A good day to put a new system to work. Discuss it further with associates. Make the evening a quiet and relaxing one.
LIBRA (Sept. 23 to Oct. 23) The daytime is not good for recreation since the late important projects often stand in danger in lobby tonight.
SCORPIO (Oct. 23 to Nov. 21) Don't get involved in a family squabble, but keep your mind active on important business affairs. Think constructively.
SAGITTARIUS (Nov. 22 to Dec. 21) The planets are not favorable for starting new projects at the time. Show increased devotion to the one you love.
CAPRICORN (Dec. 22 to Jan. 19) Be sure to protect your assets, or you could feel the pinch later on. Be sure to study your secondary position carefully.
AQUARIUS (Jan. 20 to Feb. 18) Don't neglect any business matters early in the day. Avoid arguments with anyone if possible. Stay by yourself.
PISCES (Feb. 19 to Mar. 20) You are tempted to let your temper develop the day, but this is the worst. Keep you could do. A friend needs your help now.
GENERAL TENDENCIES: This is an excellent day to put a new system to work. Discuss it further with associates. Make the evening a quiet and relaxing one.
MAY 28 (May 28 to May 29) You are in the path of your progress. Get ready to do your best. Take health treatments.
JUNE 21 (June 21 to June 22) You have new ideas but they need more study so don't jump into them blindly. One who supports you could cause trouble.
JULY 23 (July 23 to July 24) One deficiency in the handling of promises to others, or you could get into trouble over them. Be charming with others.
AUGUST 23 (Aug. 23 to Aug. 24) You don't understand the views of associates in the morning, so wait until afternoon before discussing an important matter.
SEPTEMBER 23 (Sept. 23 to Sept. 24) You

West Elementary To Implement 2-3 Class

By LUANNA CROW
West Elementary School next fall will implement a multi-aged second and third, or 2-3, class as the result of a parent support survey revealed in a board of trustees meeting Tuesday.

Final approval of the matter came two weeks after three other schools were named to implement or expand multi-aged grouping programs because a delegation of West parents appeared at that May 13 meeting to protest they had not been consulted regarding their attitudes toward the program.

Results of the survey which preferred self-contained or split classrooms, 3 per cent voted for closing the school and 6 per cent preferred "none of the above."

Although school officials reported that ballots were sent to the 187 homes of all the children who would be potentially involved in the program, called meetings to discuss the matter with parents and followed up the unreturned ballots by attempting to reach parents by telephone, some West residents complained they still were not contacted.

Another objection to the survey was the inclusion of "closing the school" as an alternative to multi-aged grouping or the other two selections on the ballot.

Several board members and administrative staff concurred that this actually should have been omitted from the survey because closing the school currently is not under serious consideration.

Opponents to the board's action charged that parents may have voted for multi-aged grouping only in lieu of closing West, although split-section classes were listed on the ballot as another alternative.

The vote to approve West as a 2-3 school was 5-1 with Don Sparks casting the dissenting vote. He earlier had moved that the program not be expanded "due to the results of the survey and the haziness of the survey," his motion died for lack of a second.

West in recent years has been plagued with a declining enrollment and its current student composition is, according to Principal Joe Cummins, one-third permanent residents, one-third bus students and one-third transient residents.

It has been the focal point of speculation for a high school vocational facility designed to instruct students in three-hour blocks. No action has been taken to convert the school, however, and trustee Johnny R. Warren asked if the project still is under consideration.

Funds Request On Chopping Block

By GEORGE MASSEY
Midland city councilmen placed the city's application for more than \$4 million available through the federal Community Development Act on the chopping block of the Department of Housing and Urban Development Tuesday.

Councilmen voted to leave the application for the funds as is and not include suggested guidelines for rental subsidy and new construction for the city's westside.

The action came after city officials were told last week by J. C. Hayes, HUD area representative, the application will most likely be given a negative recommendation if left as is.

Hayes told officials Midland's application would probably get a positive recommendation only with the addition of rental subsidy amounting to \$100,000 during the first year entitlement period, but councilmen refused to add that portion Tuesday.

The federal agency has until June 30 before a 75-day deadline is up for its decision on the application.

Steady Rain Washes Out Plans For Farm Union Demonstration

HIDALGO, Tex. (AP) — A steady rain washed out plans today for farm union demonstrations by several hundred laborers and United Farm Workers union organizers.

Demonstrators gathered early at the International Bridge near Rio Grande Valley town but dispersed around 9 a.m. when it began raining.

Union organizer Tony Orendain called off the planned demonstrations against melon growers and said marches and demonstrations will be held Thursday. Field work also was at a standstill because of the weather.

Some picketing laborers tried to prevent packing shed employees and other workers not affected by the rain from boarding Valley Transit Co. buses but sheriff's deputies interrupted the blockade and the buses filled with workers.

Some trucks loaded with cantaloupes were held up for more than two hours by demonstrators Tuesday but Texas highway patrolmen escorted the trucks through the chanting crowds without further incident.

2,000 1974, 1975 Cadillacs Recalled

DETROIT (AP) — The accidental release of an air bag in one car has prompted General Motors to recall 2,000 1974 and 1975 Cadillacs equipped with the safety device.

GM said the release may have been triggered by a short circuit and told dealers to inspect wiring harnesses for proper routing. GM said the harness is part of the system which releases the bags when bumper impact is detected.

The automaker said if the harness is not correctly routed, it may act against a steering pulley and wire insulation could be rubbed away.

GM said the incident occurred in Vandalia, Ohio, early in March. The driver was bruised on the chin but stopped the car safely, GM said.

GM said the incident occurred in Vandalia, Ohio, early in March. The driver was bruised on the chin but stopped the car safely, GM said.

Bus Wreck Kills 32 In England

THE MANCHESTER GUARDIAN
HEPDEN, England — A coach carrying 45 women on a holiday outing crashed through a bridge retaining wall in a remote part of the Yorkshire hills Tuesday and landed upside down in a field, killing the driver and 31 of the women.

The other 14 women were all injured, some of them seriously. It is believed to have been Britain's worst ever road accident.

The coach rolled down a steep hill to knock down about 30 feet of the parapet of Dibble's Bridge, locally known as Devil's Bridge. As its rear side smashed the wall, the coach began to heel over. It fell about 15 feet into the field and bounced up and down on its roof.

Rescuers tore out seats to get at the injured and the dead, using lifting jacks and cutting gear.

Rescuers tore out seats to get at the injured and the dead, using lifting jacks and cutting gear.

Fanne Foxe Says She Has Romantic Interest In Mills

NEW YORK (AP) — Fanne Foxe says she still has romantic interests in Rep. Wilbur Mills.

Martin Nell, councilman in Place 1, voted along with the rest of the council to keep the application as is, but said, this is one of those "with it you get it and without it you don't" type of situations.

A Federal Aviation Administration grant agreement for 82 per cent funding toward the purchase of a \$111,898 crash-rescue truck to be used at Midland Regional Air Terminal received approval of the council.

James Brown, city manager, said the same truck was listed for \$89,000 two years ago.

A contract with the Permian Basin Regional Planning Commission for a urban mass transportation system study was denied.

Boy Is Arrested In Rape Attempt

FORT WORTH (AP) — Fort Worth police arrested a 13-year-old boy this week for investigation of trying to rape a 12-year-old girl during Sunday morning church services at Travis Avenue Baptist Church.

Detective Sammy Cobb said the youth admitted the attempt when he was arrested at his home.

Cobb said he was planning to talk to another teen-ager in connection with the offense. He said the 13-year-old suspect is being held in the juvenile detention center.

The girl told police she was forced into an empty room at the church by a gang of boys after she left a Sunday school class.

Motorist Takes 1 Cent Worth Of Gasoline

FORT WORTH (AP) — Honors for the cheapest crime under investigation by Fort Worth police go to a motorist who stole 1 cent worth of gasoline.

Police said a north side service station operator reported the penny theft after a man put \$1.01 worth of gasoline in his luxury car and paid for the dollar's worth but refused to cough up another penny.

Two Men Flee Beaumont Jail

BEAUMONT, Tex. (AP) — Two prisoners grabbed a guard making his rounds, escorted him down to the first floor of the Jefferson County courthouse and literally crashed out today.

Jailer Robert Alderson, held at knife-point, broke free as they were emerging from an elevator and was unharmed. The pair then bolted through a door into the street, smashing the plate glass as they fled.

Officers identified the escapees as Arnold R. Darby, 25, of Vidor, who was convicted last week of robbery by assault and being a habitual criminal, and Jimmy Ray Messer, 20, of Hull, who was held on an auto theft charge.

OFFICER INSTALLATION PARTICIPANTS—Jack Schuler, center, new president of the Midland Evening Lions Club, receives the gavel from Jack Darden, retiring president, at the club's officer installation Tuesday. Past District Gov. Tom Nipp, left, was the installing officer.

Lions Officers, Directors Installed

New officers and directors of the Midland Evening Lions Club, headed by Jack Schuler as president, were installed Tuesday at a ladies-night meeting held at Ramada Inn. Jack Darden is the retiring president. Other officers for 1975-76 include Jim Prcin, H. V. Beck and Ralph Nelson, vice presidents; Richard Greenwade, secretary, and Tom Lindsey, Lion Tamer. New directors are Jack Cross, Vernon Shock and George E. Bush. Tom Nipp, immediate past governor of District 2-A1, Lions International, was the installing officer. He also is a past president of the Midland Westside Lions Club. Mrs. Earl K. Moore was the guest speaker, discussing various aspects of the Full Gospel Fellowship.

Conferees OK UTPB Funding

Austin Bureau
AUSTIN—Senate and House conferees Tuesday agreed to give the University of Texas of the Permian Basin appropriations of \$4.9 million and \$5.1 million for the two years beginning Sept. 1.

The \$4.9 million is the same amount appropriated for the current year's operation, plus \$150,000 for "special items." The action would let UT regents decide what to do with that money toward the long list of specialized teaching equipment they had sought for UTPB.

UTPB was the only one of the upper-level universities to be held to current spending levels. The decision was based on beliefs that enrollment would fall far short of the estimates of UT officials.

Lionism Discussed At Club Meeting

Lionism was the subject of discussion today noon at the meeting of the Midland Downtown Lions Club in the American Legion Hall.

The original projection predicted an enrollment of 2,000 in the 1975-76 school year. That figure later was reduced to 1,589. But the Coordinating Board, Texas College and University System, estimated only 1,350 would enroll.

For the 1976-77 school year, UTPB originally forecast an enrollment of 2,600 and then lowered it to 2,091. The coordinating board's final forecast was 1,550. That figure would have indicated a reduction for UTPB, but the conference committee decided to keep the 1975-76 appropriation at the current level.

Ector County Conviction Upheld

AUSTIN—The Court of Criminal Appeals today affirmed the conviction and 10-year sentence assessed Carl Everett Hostetter in Ector County on a charge of murder.

Hostetter was convicted of the murder of his wife, Thelma Christine. His defense was a plea of insanity. His wife was shot Aug. 27, 1970, and died two days later.

Wife Testifies Against Her Husband In Trick-Or-Treat Poisoning Trial

HOUSTON (AP) — Only weeks before his son died of poisoned Halloween candy, Ronald C. O'Bryan asked where to buy cyanide and discussed with associates how lethal the chemical was, according to testimony Tuesday in O'Bryan's capital murder trial here.

Mrs. Dayne O'Bryan, 30, the defendant's wife and the mother of the poison victim, also appeared in the state and her testimony shattered O'Bryan, sending him into a tearful seizure of sobs.

On Trial For Life

O'Bryan is on trial for his life in the Halloween night poisoning of his eight-year-old son, Timothy. Mrs. O'Bryan, the state contends, murdered the boy with cyanide-laced trick or treat candy in order to collect on life insurance policies.

Albert Brinkley, an optician employed at the same Texas State Optical business where O'Bryan worked, testified that the defendant questioned him closely about obtaining some cyanide.

"The question was asked by O'Bryan where the chemical was available. He said he wanted it for polishing some gold frames," said Brinkley. "I replied I didn't know where it was available or if you could buy it."

Mrs. Dayne O'Bryan described life with her husband and said they were heavily in debt and under constant pressure for money. Yet, she said, O'Bryan spent money on \$10,000 accidental death insurance policies on their two children.

Purchased Policies

After her son's death, she said, she also learned that O'Bryan also had purchased \$20,000 life insurance policies on each of the children, paying \$108 in cash at a time when the family was several payments behind on two loans.

She said she knew nothing of the \$20,000 policies until after Timothy was dead and O'Bryan began talking of how to spend the money.

O'Bryan began weeping when his wife was asked if he felt any more affection for their daughter, Elizabeth Lane, 6, than for their son.

"He was more lenient and partial toward Lane," she said.

The defendant covered his eyes with a crumpled handkerchief. His shoulders shook and he attempted to talk with his lawyer in a choked and tortured voice.

Mrs. O'Bryan, testifying in a trial that could send her husband to the electric chair, appeared cool and without emotion. She spoke in a clear, steady voice and kept her eyes averted from O'Bryan.

Brinkley's testimony was the first to indicate an interest by O'Bryan in cyanide.

He said O'Bryan pressed him about the possibility of obtaining the chemical for use in the office, but Brinkley said he wasn't interested.

"It's much too dangerous to have in the office," he said.

On cross-examination by the defense, Brinkley said the chemical was used "in the early 1960s" to clean optical equipment.

"I wouldn't say it was a common thing, but we did use it," he said. But since the 1960s, he said, most have abandoned the use of cyanide for more efficient and less dangerous cleaning methods.

Dr. Joe Blackburn, an optometrist who formerly worked with O'Bryan, said O'Bryan talked often of his heavy debts.

"He was often adding up his debts on the adding machine and said he was going to pay them off," he said.

Dr. Blackburn said he also remembers O'Bryan discussing cyanide "and how lethal it was."

In her testimony, Mrs. O'Bryan said the family was still heavily in debt and owed a credit union "a thousand dollars and maybe more," the U.S. government "about \$500" and a finance company "about \$2,000."

She also told of O'Bryan's reaction to the death of their son. "He beat the walls and asked out loud why an eight-year-old boy had to die," she said. Later, she added, O'Bryan drove away from their home alone and explained afterward "he had to be alone and just roll up the windows and scream."

Tells Of Death

O'Bryan told of Timothy's death, she said, shortly after she arrived at the hospital where the boy was taken.

She said he had been left with the children on Halloween night, after a trick or treat outing, while she went to visit a church friend. She was at the friend's house when she was called to the hospital.

O'Bryan, she said, told her the children had asked for some of their Halloween candy and that he had given Timothy a Giant Pixy Stix, a powdered confection packaged in a plastic tube.

Her husband said he opened the candy, Mrs. O'Bryan said, and "poured it down his (Timothy's) throat."

The boy was given a "second gulp," she said, and "made a face and said it tasted bad. He (O'Bryan) gave him some Kool Aid just to get the bad taste out of his mouth."

Within moments, she quoted her husband, Timothy was vomiting.

O'Bryan grasped the boy about the waist and "he went limp in his arms and he (O'Bryan) laid him on the bathroom floor."

Two days later, she said, O'Bryan "was excited" about the media attention given the boy's funeral.

"He talked quite a bit about newspaper and television coverage," said Mrs. O'Bryan. She said he also talked of how to spend the insurance money.

"He named several things such as making a contribution to the church," she said.

Mrs. O'Bryan said she tried to dissuade her husband from taking out accidental death insurance on the children at a Pasadena, Tex., bank.

"He kept insisting it was a bargain and that several others had done it," she testified. "I felt we didn't have that much money and I thought it was foolish to have that much insurance (\$10,000 each) on two small children."

Mrs. O'Bryan said she knew nothing until after Timothy died of \$20,000 straight life insurance policies on the children which O'Bryan had taken out on Oct. 3.

She learned of the policies on Nov. 1, she said.

"I just asked Ronnie did he really take care of that, about the policies," she recalled. "He said, yes, he had paid cash for the premiums."

LOUDEST SHOUT — John Shaw of New Philadelphia, right, gave the loudest shout at a contest recently at an old-fashioned days observance sponsored by local merchants. Mrs. Betty Heyser of Pittsburgh, a New Philadelphia native, gave the longest shout. (AP Wirephoto.)

College Grads Finding Fewer Jobs

WASHINGTON (AP) — The young woman, educated to be a French and art teacher, is waiting on tables in the Raleigh, N.C., area.

Her husband, with a bachelor's degree in sociology and a master's in demography, repairs bicycles and hopes for a job teaching retarded children.

"At least they're making a living and not sponging off the old man," says the girl's father, a Washington business executive.

Across the land, the worsening economy has thrown highly educated young adults out of work or into jobs for which they are neither trained nor particularly suited.

"PhDs parking cars and teachers typing in the stenopool are no joke, they're real," says a businessman.

The College Placement Council confirmed that point Tuesday, releasing results of a survey of 709 employers showing an 18 per cent drop in jobs for new college grads this year compared with last year. Those surveyed reported hiring 69,733 winter and spring graduates, down from 85,499 a year ago.

The employers in business, industry, government and nonprofit and educational institutions excluding teachers said they were not recruiting because of a lower personnel turnover during the uncertain economic situation.

"Judging from their comments, employers do not expect appreciable improvement in hiring until possibly next spring," the council said.

The hiring decline was the first since the 1969-71 recession and the severity approached the 27 per cent drop in the 1970-71 season, the council said.

The survey showed that jobs remained available for top students, minorities and females in high-demand fields. But the only industries hiring more new grads this year than last were petroleum, up 4 per cent; state and local governments, up 18 per cent; and nonprofit and educational institutions, up 7 per cent.

Liberal arts majors are experiencing a 9 per cent drop in jobs available this year from last year, on top of a 45 per cent decrease in 1970-71 and almost no improvement in intervening years.

Engineering jobs, normally among the most heavily recruited categories, dropped 20 per cent at the bachelor's level, 23 per cent at the master's level, and 10 per cent at the doctoral level. Employment in engineering had increased a cumulative total of 53 per cent the three preceding years, however.

Opportunities in business, usually another heavy employer, fell 28 per cent this year from last year.

Higher-degree holders in general are experiencing greater difficulty in finding positions.

Jobs declined 20 per cent for new PhDs, compared with 18 per cent for bachelor's degrees and 17 per cent for master's degrees.

Lon Nol Says His Financial Situation Tight In Honolulu

HONOLULU (AP) — Mail still arrives from overseas, sometimes addressed simply "Marshal Lon Nol, President, the Khmer Republic, Hawaii, U.S.A."

Former Cambodian President Lon Nol still considers himself spokesman for his people.

Casually dressed, he goes about his work at a folding table and chair in the sparsely furnished living room of a crowded and unpretentious suburban house, studying letters and other documents, writing to American officials and learning English.

Nol left Cambodia April 1, 16 days before it fell to the Khmer Rouge. He was a guest at Hickam Air Force Base here until he made a down payment on a \$103,000, four-bedroom house and moved in with 10 family members and aides.

His coming produced no stir in the quiet neighborhood of single-family homes, and his five children soon began playing with neighbors. Nol has rarely left the house and has rarely spoken with newsmen.

Nol, who is 62, in an interview denied published reports that he was given a million-dollar bribe to leave Cambodia or that he took tons of gold from the country. Speaking through an interpreter in Khmer and French, he said his only income is from savings, but gave no specifics.

"It will be very tight financially, but I will manage. When I came here I did not expect to stay indefinitely. I took only a few belongings," he said.

"My first intention is to take care of the refugees."

Nol said he left after he and his cabinet agreed that "if I left it would create a new condition to facilitate peace talks and perhaps later popular de-termination."

He did not specifically blame the United States or other countries for lack of help to Cambodia, but suggested that diplomatic pressure might have been put on the Khmer Rouge or United Nations troops might have been sent to halt the fighting in the last days.

"What were they for, all those institutions of the world, to let all those things happen the way they did?" he asked.

"So many killings and executions. Anybody who cared for freedom could not avoid being executed."

He said he doesn't know how many Cambodians became refugees when the Khmer Rouge overran Phnom Penh. But he spoke of more than 600 at refugee camps in the United States, plus more than 200 in Thailand and perhaps hundreds of others in Taiwan, Singapore and elsewhere.

6,000 Vietnamese Working On Railroad, Government Says

SAIGON (AP) — Six thousand Vietnamese are "working on the railroad," the Provisional Revolutionary Government says.

They are working to repair South Vietnam's war-shattered rail system and link it with North Vietnam, another step toward reunification of the country.

The government says the railroad project has been given top priority.

Only short sections of the rail system are still operating, and none of them are linked up yet. Sections in operation include Saigon to Bien Hoa, Nha Trang to Cam Ranh and Qui Nhon to Bong Son on the central coast, and Da Nang to Hue on the northern coast.

The government also announced that 163 factories, large and small, have resumed operations in one district of Saigon, providing employment for nearly 3,000 persons. Their work forces range in size from 20 workers to more than 100.

They had been closed since Saigon surrendered to the Communists on April 30.

The announcement said: "Thanks to the relief activities, the repatriation campaign, the resumption of activities of the factories and the reopening of shops, the life of the population of the sixth district of Saigon has returned slowly to normal. Hunger, poverty, homelessness and unemployment left behind by the Americans and their puppet government will be solved."

Survey On Seat Belt Usage Shows Children Unprotected In Auto Crashes

WASHINGTON (AP) — A survey of seat-belt usage has found that 93 per cent of all children riding in cars are unprotected against crashes.

Another 1 per cent were improperly restrained by seat belts or infant holders, the survey by the Insurance Institute for Highway Safety said.

The unrestrained children were sitting or standing, sitting on someone else's lap unrestrained or in infant holders that were not restrained.

The survey involved observation of more than 5,000 cars carrying nearly 9,000 children under 10 years of age at amusement parks and shopping centers in Maryland, Massachusetts and Virginia.

The insurance institute noted that 1,000 children under 8 years of age died in automobile accidents in 1973. Another 1,650 children between 5 and 14 were killed in accidents in the same year.

In addition, passengers in those age categories "receive many of the nearly four million annual injuries resulting from motor vehicle crashes, frequently head injuries," the institute said.

The survey found that 82 per cent of the children surveyed were sitting or standing alone unrestrained, 8 per cent were in devices which in turn had not been restrained.

Of the 1 per cent improperly restrained, some were sitting on an adult's lap with the same seat belt restraining both adult and child. The institute called this practice "likely to result in serious abdominal injury to the child in a crash."

The survey found that children whose parents buckled their own belts were more likely to have restraints but said that even in this category 75 per cent of the children were not restrained.

The report suggested that discomfort and inconvenience probably were factors associated with the low level of seat belt and other restraining devices use.

It concluded that passive restraint devices, such as air bags, are needed to properly protect children in auto crashes. The insurance institute is a major backer of legislation to require air bags in all new cars.

Rightist Element Flushing Out Chinese Militants

By SERGE ROMENSKY
The Washington Post

PEKING — For almost three months, Chinese militants have been flushing out elements in their own daily life and that of their neighbors which represent the "bourgeois right."

In fact, following the anti-Confucius campaign which lasted through most of 1974, the new goal is progressive elimination of everything in China which represents "bourgeois" behavior.

It is essential to know just what are these relics of another age which, according to Lenin, reappear spontaneously even in a socialist society. One must

take note of them and define them.

Here are a few examples cited by the Chinese press.

Let us look at what is meant by a "bourgeois style of life."

A Shanghai publication said that the true bourgeois soul was shown by the "little bureaucratic lord." This person does not trouble to educate himself by reading newspapers, but looks for a "comfortable life," and rushes to hospital for the merest trifle.

Seeking honors and privileges, the "bourgeois" flirts with illegality by making personal profits on the pretext of helping "cooperation" between state

organizations. A toady towards his superiors, arrogant towards the people, with his peers he becomes involved in nepotism and well-connected people.

Finally, attaching great importance to his personal prestige, he "completes wastefully" with his neighbors, offering choice dinners and being generous at state expense.

Even in his leisure moments he betrays his bourgeois origin. If he goes on holiday he struts about "admiring mountains and rivers" instead of studying the conditions of the peasants.

But the "bourgeois" spirit can be less evident than in the above mentioned case. Here is another

example, that of "Little Li," a salesgirl in a Shanghai store. A rare delivery of extra-flat women's watches arrived at the store and "Little Li" wanted to reserve one for herself instead of serving her customers first. The management had to point out her mistake.

"Little Li" thought she was right in applying the proverb "those who live on the mountain feed themselves off the mountain and those who live on the water feed themselves from the water."

In fact, she practiced "trade in the capitalist manner," only liking things for their cash value, instead of thinking above

all to serve the people.

Without realizing it, she was applying a phrase of the "Chinese Khrushchev," ex-President of China Liu Shao-Chi (ousted during the Cultural Revolution) which said: "Those who sell thermos flasks have the right to buy one first."

How different from these negative personalities is the young Peking schoolboy Liang Chiang, son of a "responsible manager." Although his family lives in "very favorable economic conditions," he is conservatively dressed and walks to school. The bus fare that he saves is spent on books, posters and crayons for political slogans.

Air-Conditioned Tomatoes Grown In Arab 'Klondike'

By JOE ALEX MOHRIS JR.
The Los Angeles Times
ABU DHABI — They are growing air-conditioned tomatoes here in this, the most improbable of the Arabian oil "Klondikes."

There is reason, of sorts, behind this apparent madness: the intense heat and humidity here prevent the normal fertilization process from taking place. Hence the plants are being air-conditioned as well as the people here.

Run by agronomists from the University of Arizona, the experimental farm is hardly a commercial venture by normal standards. It costs \$4 to produce

\$1 worth of fruit and vegetables in the cooled enclosure.

But they are setting entirely new standards for normality here, where there is so much money it loses all conventional meaning.

Oil has turned this sheikdom into a statistical enormity. Figured on the basis of native-born Abu Dhabians, the per capita income here works out to \$25,000 to \$30,000 a year.

Sheik Zayed, the bearded, beneficent ruler, simply cannot spend it all. Last year, he lent or gave away about one-third of his more than \$5 billion income, and many of his loans were of the never-never variety

to such rock-poor nations as Bangladesh.

He is saddled with an embarrassment of riches, but not for want of trying to get rid of them. Zayed is perhaps the last of the big spenders, and rare is the delegation which goes away empty-handed.

The oil money has been flowing in for more than a decade, but until last year Sheik Zayed always managed to get rid of it. A great deal went into turning Abu Dhabi from a tribal backwater with one large building — the old fort — into a modern metropolis complete with four-lane divided highways and color television.

Then came the oil price explosion. In one year, his income soared from \$750 million to \$3.5 billion.

Thousands of outsiders pour in — Lebanese traders, American bankers, poverty-stricken Baluchis from across the Gulf, Pakistani craftsmen and Indian clerks. At best, one resident in three here is an Abu Dhabian, and it's almost impossible to get a room at the Hilton because most are taken — at \$70 a day — on a permanent basis by people who don't find the price exorbitant compared to the money to be made here.

Zayed is doing his best to

make Abu Dhabi more livable. He is building and giving away houses with electricity and running water to the Bedouins, and pays his citizens to send their children to school. Those who choose to farm are given free land, machinery and a salary for two years until they get the hang of it.

Anis Zaidi, director of the Planning Department, goes even further. "If we can find anyone to take over a factory we have built, it's his," he said.

Zaidi goes in all this the beginning of a new era. "As of 1977, we're going to have real planning," he said.

Congratulations!

It is a great time and a great and thrilling occasion for the approximately 1,500 graduating seniors of the Tall City's two high schools—Robert E. Lee and Midland. It is interesting to note that enrollment in Midland public schools 40 years ago totaled only 1,576 students.

High school graduation time perhaps is one of the greatest and most significant experiences of the yet young graduates. It very well could be one of the most meaningful ever.

Congratulations certainly are in order for those young men and young women who have completed their high school careers.

Baccalaureates were held Sunday, and commencement exercises are scheduled Thursday night.

Today's graduates are just about as enthusiastic as they come—ready to conquer more formidable objectives in the march toward achieving higher goals. In

other words, they are anxious to get on with the job ahead.

This is one of the great inspirations gained by association or visiting with the graduates—their appreciation of things past and their eagerness to get on with their quest for increased knowledge through formal education or whatever.

Certainly no one would take from them one bit of their enthusiasm or their courage as they face the future with faith and confidence.

America needs young persons of the caliber of the Tall City graduates, more so perhaps than ever before.

The graduates face a tremendous challenge, but with their background, training and education, plus their enthusiasm, they are ready and well-equipped to meet them headon.

Midlanders are as proud as can be of their high school graduates, and they wish for them the very best of everything in the future.

Bravo, Mrs. Graham!

Mrs. Billy Graham, wife of the evangelist, usually stays pretty much in the background, but thank goodness she has what it takes to make herself "understood" when needed.

And such a situation arose at Charlotte, N.C., recently at a rally being attended by her husband and President Ford. She put her foot down—and how—when a demonstrator appeared at the rally.

It was at a Bicentennial celebration in Freedom Park that the incident occurred. Mrs. Graham was seated near the front of the audience.

The demonstrator, a young man identified as a member of the Red Hornets Mayday Tribe, a local anti-war group, wandered into Mrs. Graham's vicinity, waving a sign which read, "Don't Tread On Me." It was one of several carried by demonstrators who said the real spirit of the American Revolution was not reflected in the official Bicentennial pageantry.

According to news reports, Mrs. Graham got up from her seat and, without a word, snatched the sign

from the demonstrator, who must have been somewhat shocked at the action.

Mrs. Graham returned to her seat, placed the sign on the ground beneath her chair and pinned it there under her pumps.

The demonstrator reportedly made a move to recover his "Don't Tread On Me" sign, but changed his mind when a male friend of Mrs. Graham moved in his direction. Police led the demonstrator away. That's all there was to it.

Mrs. Graham merits commendation for her prompt, brave, effective action in this particular incident.

She undoubtedly is among those persons who, seemingly, are getting fed up with demonstrators and their disturbing actions at meetings such as the one at Charlotte.

After all, the President of the United States of America was seated on the platform. Mrs. Graham apparently is of the opinion that the President merits a certain amount of respect, which his office most certainly does.

Thank you, Mrs. Billy Graham.

INSIDE REPORT—

Senator Church And The CIA Investigation

By ROWLAND EVANS And ROBERT NOVAK

WASHINGTON — Alleviating grave fears inside the White House, the select Senate committee probing the CIA is displaying uncommon discretion in avoiding any showdown with President Ford, a fact that first became clear with the backstage events that began April 9.

On that day, a letter signed by Sen. Frank Church of Idaho, chairman of the 11-member select committee, was delivered to President Ford. It asked immediate submission to the committee of the confidential report prepared by CIA director William Colby for Mr. Ford last December after published reports charged the Central Intelligence Agency with spying on American citizens.

Church's letter, described by one top White House aide as "firm, but not peremptory," outraged the White House. Only one day earlier, the staff of the select committee had been privately advised by the White House that the Colby report would indeed be handed over.

Thus, White House aides, charged with meticulous monitoring of intelligence data wanted by the committee, suspected a transparent political ploy: that the Church letter was designed to put the President in the humiliating position of bowing to the committee after the decision had already been made to turn over the Colby report.

But the anger quickly turned to conciliation, thanks to chairman Church. Within 34 hours, he agreed in effect to recall his letter without any response

Evans Novak

from Mr. Ford. Presidential aides believed Church himself was unaware the White House agreed to turn over the material.

That closely-averted crisis established a tone between committee and administration that both Church and Republican Sen. John Tower of Texas, the committee's vice chairman, are intent on continuing. White House aides are not so sure, but they have become more hopeful that the raw politics inherent in purple exposes of the CIA will play second fiddle to the need for careful investigation. (With its chief hired only last week, the House select committee's investigation could be another matter.)

One obvious reason for Senate spirit is Church's conviction that his committee, crossing the spectrum from Sen. Barry Goldwater of Arizona on the right to Sen. Gary Hart of Colorado on the left, must stay united or his investigation will explode in politics. So far, the committee has voted unanimously on every issue it has taken up.

There is, however, a second, more

The Washington Merry-Go-Round

By JACK ANDERSON With Les Whitten

WASHINGTON — President Ford made an impassioned appeal to congressional leaders the other day for a return to a bipartisan foreign policy.

He called them into the Roosevelt Room next to his office, closed the doors and told them frankly: "The situation ain't good, fellows."

Then he added earnestly: "We face a harsh reality. The national interest requires closer working together between Congress and the President."

"We ought to stress the need for a whole new era of bipartisanship," echoed Rep. William Broomfield, R-Mich., the top Republican on the House Foreign Affairs Committee.

"Some people want to save money at the expense of defense," noted Rep. Phillip Burton, D-Calif., the Democratic caucus chairman. He asked the President, "How do you deal with it?"

Look at the broad spectrum and it's obvious," said the President, "that this is not time to knock hell out of our insurance policy."

Secretary of State Henry Kissinger tried to assess the impact of the U.S. setbacks in Southeast Asia upon the rest of the world.

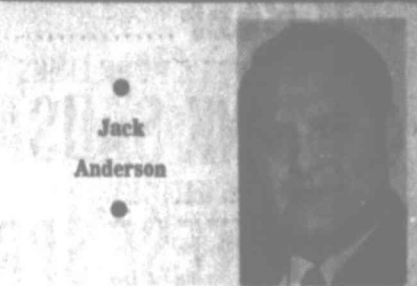

"We can never prove the impact on the Mideast. We lost some edge there, I think," he said. "Japan's prime minister is coming over to ask questions."

Then Kissinger, too, became solemn. "This is a setback, and we're going to pay for it," he said. "We can salvage something through a bipartisan undertaking in our future foreign policy conduct."

Senate Republican leader Hugh Scott turned to the President, who will take over the Mideast negotiations from Kissinger this month. "Can we return to step-by-step negotiations in the Mideast?" asked Scott.

"God knows we tried," was all the President had to say.

WALLACE'S WALLOP: Alabama's

Jack Anderson

Gov. George Wallace could wind up with 35 per cent of the delegates at the 1976 Democratic convention in the opinion of Democratic National Chairman Robert Strauss.

The shrewd Strauss has told close associates that, at worst, Wallace can count on 22 per cent of the delegates. If the crippled Alabamian can keep up the pace, he will go to the convention with over one-third of the delegates, Strauss predicted.

This would mean the Democrats can expect their first multi-ballot convention since 1952 when Adlai Stevenson finally beat out Sen. Estes Kefauver, D-Tenn., for the presidential nomination.

Although Wallace hasn't formally announced his candidacy, he already has amassed a \$3 million campaign chest and is preparing a schedule that will take him to 30 states.

The confidential Wallace plans call for skipping the New Hampshire primary. He will make appearances in California, Florida, Indiana, Maryland, Mississippi, North Carolina and Wisconsin, among other states.

Footnote: Our sources are wholly reliable, but Strauss would not confirm whether he had used the 35 and 22 per cent figures. "I've specifically refused to make any public comment with respect to the strengths and weaknesses of possible candidates," he said. "I'd like to be known, above all, as a chairman who carried a totally fair convention."

WASHINGTON WHIRL: President Ford told Republican leaders bluntly the other day that he will fight to remain in the White House next year and that

DEFENSE IN DEPTH—

'Common' Jet Plane May Bring Ripoff

By L. EDGAR PRIMA Copley News Service

Is the American taxpayer about to be the victim of another Pentagon ripoff, ironically this one inspired by Congress in a desperate attempt to "save" money on defense?

The F-111 fiasco of the 1960s was the result of Defense Secretary Robert S. McNamara's pigheadedness. He fought to the bitter end to force the Air Force and Navy to buy a "common" jet fighter. Finally, Congress helped the Navy get out from under by approving the F-14 Tomcat as a substitute.

Since that time, Congress has apparently forgotten a key lesson: a Navy carrier-suitable plane can be modified for Air Force use (the F-4 and A-7, for examples), but it would be extremely difficult and very expensive to try to do it the other way around.

Late last year, Congress directed the Navy to develop a lightweight fighter from whichever plane the Air Force chose as its new "low-cost" fighter—either the single-engine F-16 or the twin-jet F-17. The Air Force chose the F-16—before the Navy completed its evaluation of the candidate planes.

After months of studying proposals from the competing manufacturers, the Navy decided a derivative of the F-17 would better meet its needs. It promptly dubbed the paper plane the F-18.

While there is bound to be opposition in Congress—some members, a la McNamara, would like to force the F-16 on the Navy—a united Pentagon probably could carry the day.

The potential ripoff, of disturbing proportions, is not, however, a question of the F-16 versus the F-17 (F-18). It involves this much more basic question:

Is the United States about to buy an aircraft of far less capability (F-18) for the same or an even higher price than the world's best operational fighter-interceptor (F-14)?

A number of top naval Aviation experts believe the United States will get far less for its money if it buys the F-18 rather than more F-14s.

Adm. Thomas H. Moorer, former chairman of the Joint Chiefs of Staff, and George Spangenberg, for many years the Navy's foremost civilian aeronautical engineer, are among them.

(Other experts say the Air Force is running into the same situation; that is, it probably could purchase additional numbers of the far more capable F-16 for less money than it would take to develop and produce the low-cost, lower performance F-16.)

How is it possible, one might ask, for a less capable aircraft to cost as much or more than one of the world's highest-performance, most powerful tactical warplanes?

The answer is not all that complex. The huge research and development expenditures have already been made in the case of the F-14; they have not for the F-16. Also, the production of the needed numbers of F-14s could be accomplished three or four years earlier.

This would save the additional millions of dollars inflation almost certainly would exact from the F-16 program. Finally, a total of 794 F-14s would produce a significantly lower unit cost than a purchase of 394, the current program.

To paraphrase Winston Churchill, one might say well bred slow racehorses as to buy a less capable warplane for the same price as the world's best.

Congress has a duty to take a close, hard, honest look at this application of the Pentagon system analysis office's "high-low" concept of building high-performance (and more expensive) planes and ships to fight in the "high-threat" areas and less capable (and, purportedly, less expensive) ones for "low-threat" areas.

While Capitol Hill pressure helped produce the high-low concept, Congress may have been sold a bill of goods by promises of huge savings on new tactical aircraft. If it has to reverse itself to make things right, so be it. The American taxpayer and the national security are more important than congressional pride.

It Happened Here—

40 Years Ago (May 28, 1935): Mrs. Myrtle Miller had submitted her resignation as Midland County home demonstration agent.

Arrangements were made to open play in the Midland Softball League on the following Monday.

Advanced students of the Watson School of Music were presented in recital in the First Methodist Church.

Final reports for the 1934-35 school year showed the highest enrollment in the history of Midland public schools—1,578—compared with only 815 in 1925-27.

Bible Verse

If the foundations be destroyed, what can the righteous do? The Lord is in his holy temple, the Lord's throne is in heaven: his eyes behold, his eyelids try, the children of men. — Psalm 11:4,5.

THE BIBLE

Can you quote it?

By LAVINA ROSS FOWLER

1. John Wesley, an Episcopal minister of England came to this country 287 years ago this month to begin his itinerant preaching. It is estimated that he traveled some 270,000 miles on horseback and delivered about 40,000 sermons. This great missionary, who founded the Methodist-Episcopal Church, was obeying a command of Jesus: Quote, Matt. 28:19.

2. Where did Lot go to escape the destruction of Sodom? Gen. 19:23.

3. What mount is a short day's journey from Jerusalem? Acts 1:12.

4. What verse explaining God's love for humanity, often is called "the little Gospel"? John 3:16.

5. Name a Christian whose name began with the letter Q. Romans 16:23.

Super Shoot III Gets Under Way At Basin Rifle Range

Kurkjian, Massey Top 1st Day

Over 110 of the finest rifle enthusiasts from 21 states, British Columbia and Ontario went to the line at the Permian Basin Rifle and Pistol Club's range Tuesday at Super Shoot III encountered typical Texas winds, estimated at 20 m.p.h.

The smallest group of the day was fired by Bill Massey of Dallas with a .199. A group is measured by taking the maximum distance of the group, outside to outside, and subtracting the diameter of the bullet.

The winner of the 100 yard stage with an average group size of .426 over the course of five matches was Joe Kurkjian of Phoenix, Ariz.

Houston's Frank Ybarguen was second with a .426 while Midland's Howard Scott was third with a .4310.

The same shooters will fire a 200-yard course today, Thursday and Friday, heavy varmint (13 1/2 pound rifles) will be fired. The entry list is expected to swell to 175 for the final two days.

Benchrest shooting is more a question of precision than accuracy. The idea is to place five shots in the smallest possible group. Five matches are shot for record every day.

Awards are given for match winners and for aggregate winners—the average of five groups fired.

The rifles being fired through today are light varmint classification, 10 1/2 pounds maximum weight, any caliber. The most popular caliber is .223, followed by 6 X 47, and .308.

The rifles are single shot "shooting machines." Ammunition is reloaded by the competitors between matches. Scope power ranges from 30X to 30X.

The Super Shoot is the only major "money match" fired on the benchrest circuit. Prize money will exceed \$10,000 and is sponsored by the manufacturers of firearms and related equipment as well as the popular shooting oriented magazines.

Approximately \$5,000 in merchandise will be awarded and over \$2,000 of trophies will be presented through the four days of competition.

Skip Gordon, executive director of the Super Shoot, has issued an open invitation to all shooting enthusiasts to visit the range, talk to the competitors and examine the equipment.

Red Raiders Sign 6-7 NMJC Cager
LUBBOCK — Six-seven Mike Russell, who averaged 26.7 points per game as a freshman for New Mexico Junior College last season, has signed a letter of intent to play basketball for Texas Tech.

Russell is from Buffalo, N.Y., and is the fourth cager signed by the Red Raiders this spring. Others were Dan Ivey, 6-6 San Antonio Central Catholic; Bob Rudolph, 6-8 Arlington, and Geoffrey Huston, 6-1 New York Canarsie.

FIRES AWAY—Arvie Martin of Fullerton, Calif., takes dead aim at target during Super Shoot III at Permian Basin Rifle & Pistol Club Range. More than \$300,000 in weapons and equipment are on display through Friday with some of the nation's best bench-rest shooters in the Tall City. (Staff Photo by Johnny Virden.)

Philly Infield Breaks At Seams

Dodgers Slug Mets, 10-4

By The Associated Press
On page 19 in the Philadelphia Phillies' media guide you'll find a section entitled "Baseball's Best Infield."

Well, "Baseball's Best Infield" looked more like a typographical error Tuesday night... and that was about the only type of error the Phillies didn't commit in losing to the San Francisco Giants 10-4 in 10 innings.

To quote the Phils' press guide: "In 1974, the Phillies' infield of Mike Schmidt, Larry Bowa, Dave Cash and Willie Montanez all finished second in balloting for the National League Gold Glove awards. The Phillies' foursome hit for the highest average, .291."

But third baseman Schmidt took this year's .190 average to the bench Tuesday night, ending the league's longest consecutive game string at 231. Shortstop Bowa was on the disabled list with a broken thumb suffered a night earlier.

Cash was in his accustomed spot at second base, but he went hitless in four trips and committed two of Philadelphia's five errors. And Montanez was at first base, all right, but he was wearing a San Francisco uniform, having been traded to the Giants three weeks ago for center fielder Gary Maddox. And Maddox was alongside Bowa on the disabled list with a cracked kneecap.

San Francisco PHILADELPHIA

Pirates 6, Astros 5
Adding to the Phillies' woes—they've dropped seven of their last eight games—was a little needle from Pittsburgh courtesy of Bill Robinson, who was traded from the Phils to the Pirates at the start of the season and whose ninth-inning single capped a three-run rally that lifted the Buccs past the Astros.

"Maybe I can show the Phillies they made a big mistake in trading me," said Robinson, noting that he might be of some use in Philadelphia because of the injury to Maddox.

Total 37 73 7 0 0 0

For the time being, Robinson showed the Astros they made a mistake by walking Manny Sanguillen intentionally to get to him with two out and the score tied. Robinson, hitless in four previous at-bats with three strikeouts, laced a 1-3 pitch from Ken Forsch into left field to win the game and lift the Pirates into second place in the NL East, one-half game behind the Cubs and one game ahead of the Mets.

Braves 7, Cubs 2
Marty Perez two-run, two-out single off Rick Reuschel following a intentional walk to Ralph Garr snapped a 1-1 tie in the seventh inning. The Braves added four runs in the eighth, two on a single by Garr. Phil Niekro checked the Cubs on seven hits, including a home run by Reuschel.

"My knuckleball was pretty good," said Niekro, "but somehow I couldn't get it over the plate to Reuschel. He was laying off of it, so I had to go to the fast ball. He knew it, waited and timed it real good."

Brewers Lose Money
MILWAUKEE (AP) — The Milwaukee Brewers said Tuesday that third baseman Don Money will undergo a hernia operation Wednesday and probably will be out of action three to four weeks.

The injury was confirmed after Money had missed Monday's game with the Chicago White Sox. He had missed three earlier games with what he had thought was a pulled groin muscle before playing Sunday.

Cardinals 7, Padres 1
Lou Brock hit for the cycle and Bob Forsch pitched a five-

hitter. The 35-year-old Brock, who was struggling with a .253 average May 3, boosted his mark to .342 with his home run, triple, double and single. He led off the first inning with a single, slugged a bases-empty homer into the center field seats in the third, a run-scoring triple in the fifth and a double in the eighth.

"I don't think I've ever done it before," said Brock. "Perhaps I have, but I don't think so. You guys have all the statistics in the press box. I have hit about five or six balls into the center field seats, but not for a long time."

Cubs Blank Travs, 4-0
Geisel Deals Arkansas First Shutout
LITTLE ROCK—Left-hander Dave Geisel, who is far behind his 12-7 pace of a year ago, said he was throwing the ball better than last year and went out and proved it here Wednesday night.

The 19-year-old from Tonawanda, N.Y., blew down the Arkansas Travelers, 4-0, on six hits in the opener of the five-game Texas League series here, hurling six-hit ball for the Midland Cubs.

Midland beat lefty Randy Wiles, who had blanked the Cubs in the Tall City recently. Geisel got the run he needed to win when Cesar Gonzalez singled in the fourth, stole second and came home on Wayne Tyrone's single.

Midland added two more in the sixth. Jose Ortiz walked. Arkansas ST LOUIS

Met Shortstop Has Knee Hurt
NEW YORK (AP) — Bud Harrelson, New York Mets' shortstop, will undergo further examination for his ailing right knee at Roosevelt Hospital Tuesday, the club announced Monday.

It will be decided whether Harrelson should undergo surgery or continue medical treatment. Harrelson has been in and out of the lineup because of the injury.

That's the way it goes with Parent. His talent is such that teammates have little fear when an opposing forward breaks toward his goal.

"Parent makes up for the mistakes we make," observed Flyers' defenseman Ed Van Impe. "He makes it easy for a defenseman and he keeps a team working."

Hard work was the key to the victory, as it has been for Philadelphia since the National Hockey League season began many long months ago. Bob Kelly's goal at 11 seconds of the third period was a perfect example.

Major Reason
The major reason was Parent, whose exceptional ability stymied the Sabres time and again, as it has so many times in the past. "Tonight, through the playoffs and the whole season, Bernie has proved he's the best goalie in the world," marvelled Philadelphia Coach Fred Shero. "He has no nerves. He was super tonight, sure. But I imagine he has played better."

Diablo Homer Power Shows
By The Associated Press
El Paso's home run bats came alive against Lafayette in the Texas League Tuesday night.

The Diablos blasted four homers in the first three innings en route to a 10-4 victory over Lafayette. In other games, Midland blanked Arkansas 4-0 and San Antonio beat Jackson 6-2. The Shreveport at Alexandria game was rained out for a second straight night.

El Paso jumped to a 10-0 lead on home runs by Carlos Lopez, Tom Donohue, Butch Alberts and Dave Macherem—all against Lafayette starter Kyle Hypes. The victory was the Diablos' third in a row after a six-game losing string.

Winning pitcher Jerry Bell went the distance in San Antonio's triumph over Jackson. Bell scattered eight hits and the Brewers leaped to a 4-0 first-inning lead on four successive hits.

SPORTS

Lee Placed On Probation

Midland Lee High School has been placed on probation in football for one calendar year from May 27 for a violation of the University Interscholastic League rules regarding practices in non-school hours.

The specific violation of UIL Rule 24 occurred on April 22. Dr. James H. Malley, superintendent of Midland Schools, received word of the penalty imposed upon Lee today from E. H. McKenzie, Jr., of Big Spring. McKenzie headed the executive committee inquiry into the charges brought in an anonymous letter to Bailey Marshall, UIL State Athletic Director.

"The district executive committee found us guilty of violating a rule and now it is up to us to see that it doesn't happen again," Dr. Malley said. "Serving on the District 5-4A Executive Committee with McKenzie were Dr. Harold Brinson, Abilene superintendent, William Holm, Ector County School District superintendent, and Dr. James Nevins, San Angelo superintendent."

In the letter to Dr. Malley, the committee also advised, "any further violations of UIL regulations will likely result in disqualification of Lee High School in football for district and playoff competition."

Lee, while on probation, will be permitted to compete for district and playoff championships next fall, it was noted. The punishment is the same as was assessed Abilene Cooper two years ago for participating in a Booster Club sponsored hamburger feed.

The matter of a possible violation of Rule 24 was brought up at an Executive Meeting of District 5-4A on May 20. Dr. Malley introduced the subject for discussion and then stepped aside as chairman of the committee because of the involvement of a Midland school.

The letter recommending probation for Lee has been forwarded to Austin for Marshall's inspection. It was Marshall who advised that an investigation of the charges be made.

RETAIN STANLEY CUP—Flyers Whip Sabres, 2-0

BUFFALO (AP) — While the Philadelphia Flyers called goalie Bernie Parent the difference in their second consecutive Stanley Cup triumph, the greying 30-year-old netminder called a year of experience the factor that brought him and the Flyers their well-deserved victory.

"Last year, we were in the clouds when we won," said Parent, who made 32 saves Tuesday night in Philadelphia's 2-0 decision over the Buffalo Sabres—a triumph that kept the cherished silver bowl in the Flyers' possession and earned him his second straight Conn Smythe award as the playoffs' Most Valuable Player. "This year, it was different. We proved to ourselves that it was no fluke that we are the champs."

Major Reason
The major reason was Parent, whose exceptional ability stymied the Sabres time and again, as it has so many times in the past. "Tonight, through the playoffs and the whole season, Bernie has proved he's the best goalie in the world," marvelled Philadelphia Coach Fred Shero. "He has no nerves. He was super tonight, sure. But I imagine he has played better."

Willie Davis Mad At A Teammate Baseball

Texas Ranger outfielder Willie Davis is upset because teammate pitcher Steve Hargan didn't retaliate Monday night against the Boston Red Sox after what Davis considered a dust off pitch from Rick Wise.

The quick-starting Los Angeles Dodgers "free ride" is over, says Cincinnati Reds Manager Sparky Anderson. "This is the first time anybody has been close to them this early in the year."

The Philadelphia Phillies received a severe blow Monday night when the team had to put shortstop Larry Bowa and outfielder Garry Maddox on the disabled list for the next four weeks.

Football

Sonny Jurgensen, who was pushed into retirement by the Washington Redskins May 1, says he will not play for the World Football League, which reportedly offered him \$1 million.

Track

Fort Worth Dunbar's Charles Whigham, hurdle and sprint artist, has been picked the 1975 winner of the Amarillo Chamber of Commerce outstanding high school trackman award.

University of Texas athletic officials have announced that Track Coach Clebourne Price has been publicly reprimanded by the Southwest Conference for giving money to a track team member.

Basketball

Walter Kennedy, National Basketball Association commissioner, has rejected an offer by the American Basketball Association for a \$1 million winner-take-all, best-of-five game series between the champions of the two leagues.

Golf

Jack Nicklaus has replaced Johnny Miller as the No. 1 winner on the pro golf tour for 1975 after a third place in the Memphis Classic raised his earnings to \$106,113.

Racing

As a result of the spectacular crash during Sunday's Indy 500 which left driver Tom Sneva with burns over 15 per cent of his body, one official is prepared to recommend removal of one gas tank from the championship race cars.

And speaking of the Indy race, it will take another 10 days for workmen to remove the more than six million pounds of trash left at the Indianapolis Motor Speedway by the more than 300,000 fans that were on hand for the event.

BETTER THAN HE LOOKS — Tom Sneva smiles from under a layer of burn ointment Tuesday in his hospital room. He suffered mostly minor burns in Sunday's Indy 500 when he crashed in flames on the second turn. He is expected to leave the hospital within a week. (AP Wirephoto.)

Indy Burn Victim Seeks Road Back

INDIANAPOLIS (AP) — As private room Tuesday, his condition was immediately changed to good. Sneva slept well Sunday night, and felt fit enough Monday to watch his colleagues saunter him during the televised 500 Victory Dinner.

"I could be racing again by the Milwaukee 150 on June 8," Sneva said Tuesday. "But I'll definitely be back by the time practice starts June 18 for the Pocono 500."

Sneva, listed in serious condition as a precaution only for two days while he was in intensive care with mostly minor burns, might be well enough to go home in seven to 10 days, doctors say. After moving to a

The shattered car was carted off in two dump trucks. Sneva's most serious injury actually occurred after the wreck. Trying to lift himself out of the car's twisted cockpit, he put the finger tips on his right hand into a puddle of burning fuel. His forehead and cheeks were burned when he flipped up his visor.

"People tell me the wreck was as bad as they've ever seen," Sneva said, shaking his head. "I consider myself lucky."

Sneva's younger brother, Babe, 23, wasn't so lucky last year when he suffered head injuries in a racing crash and went into a coma. He has never regained consciousness.

While Babe's injury was sobering, Tom, who will be 27 on Sunday, and brothers Jerry, 26, Jan, 21 and Blaine, 18, have continued to race.

Jerry just missed making the Indy field this year. Their father, Ed, a former race driver, has been in town almost the entire month, keeping himself busy around the garage.

"They're a real racing family," said Shaton, who met and married Tom when they were attending college. He later taught mathematics and physical education and was acting principal at a Lamont, Wash., junior high school.

Brewers Beat Sox With Unusual Lineup

By The Associated Press

Keep it under your hat, but Del Crandall has come up with a most unusual way to win a baseball game.

It goes like this: Let the ballplayers choose the starting lineup.

The Milwaukee manager, in a desperate move to change his luck, had the lineup picked out of a hat at random by the players Tuesday night and it resulted in a 9-3 victory over the Chicago White Sox.

"I was just looking for something to kind of take the pressure off things and I thought it was worth a try," said Crandall, whose team had lost six straight games and eight of nine before Tuesday night.

"Billy Martin did the same thing a couple of years ago."

The Milwaukee starters determined their positions in the batting order by drawing scraps of paper with numbers written on them. This luck of the draw found Hank Aaron, the all-time home run king, batting seventh and Kurt Bevaqua, a .156 hitter, in the cleanup spot.

That wasn't all. Aaron suggested to Crandall that he play left field instead of starting in his familiar designated hitter position.

"I thought we'd shake things up a little and I asked Del if I could start in left," Aaron said. "He said okay."

Bobby Mitchell capped a five-run fourth inning with a three-run homer, rallying Milwaukee over Chicago. The Brewers rallied from a 4-0 deficit to win it for rookie Tom Hausman, 1-0, who relieved Ed Sprague in the second inning.

Successive singles by Pedro Garcia, Sixto Lezcano and Aaron scored the first run in the fourth. After Lezcano scored on an error by Bill Melton, Mitchell lined his third homer into the left field seats for a 6-4 Brewer lead.

An error by Tony Muser and a single by Garcia started a three-run Brewer fifth and chased loser Wilbur Wood, 2-3. After a walk filled the bases, Aaron knocked in a run with an infield out and Charlie Moore singled home two more.

Royals 2, Yankees 6

Al Fitzmorris retired the first 11 batters and allowed just three hits the rest of the way, pitching Kansas City over New York. Fitzmorris had a perfect game until Roy White singled with two-out in the fourth inning. The only other hit off Fitzmorris, 7-3, was a single by Craig Nettles in the fifth and a base hit by Bobby Bonds in the ninth. Fitzmorris went through the game without walking a batter.

"Fitzmorris kept the ball in good spots all night," said New York Manager Bill Virdon. "I guess we didn't hit too well, but you have to give him credit."

"I throw mostly sinker balls," said the pitcher, "and I never felt as if I was struggling."

Reggie Jackson drove in two runs with a double and a homer as Oakland came from behind twice to beat Baltimore.

Twins 6, Tigers 5

Rod Carew, whose sixth-inning homer touched off Minnesota's comeback from a five-run deficit, hit a sacrifice fly to cap a two-run rally in the ninth inning that gave the Twins their victory over Detroit.

Indians 6, Angels 3

John Ellis' two-run single capped a three-run rally in the eighth inning, leading Cleveland to a 6-3 victory over California.

Neal Jeffrey Signs With San Diego

SAN DIEGO (AP) — Quarterback Neal Jeffrey of Baylor has signed to play for the San Diego Chargers, the National Football League team said Tuesday.

The 6-foot-1, 176-pound Jeffrey was named to the first all-Southwest Conference team for 1974. He was the Chargers' 17th college draft choice this year.

Keeping-up with fast moving traffic is sheer torture for her in a small car. Yes, compact and mini can suffer extra engine strain to accelerate speed. This can cause excessive engine heat, wear and noise. That's why small cars should have extra protection. Now they can get it thanks to WYNW'S OIL TREATMENT FOR SMALL CARS. It's formulated to help maintain performance, compression and viscosity at high temperatures while it fights power-steering contamination. So for that extra protection get WYNW'S OIL TREATMENT FOR SMALL CARS today.

Meramec, Yavapai Eye JUCO Crown

GRAND JUNCTION, Colo. (AP) — Meramec Community College of St. Louis puts its National Junior College Baseball Tournament title on the line tonight against Yavapai of Prescott, Ariz.

Meramec has already lost once in the double-elimination tournament, while Yavapai goes into the game with a clean slate, having swept four games. Meramec's lone loss was an 8-5 setback at the hands of Yavapai Sunday night.

The title would not be decided until Thursday night if Meramec manages a victory in tonight's showdown. Both finalists got solid pitching to eliminate their opponents on Tuesday night. Meramec

Meramec, Yavapai Eye JUCO Crown

ousted Louisburg, N.C., 6-1 and Yavapai dumped Middle Georgia 7-2. Kevin McGrath pitched 3 2-3 innings of one-hit relief to preserve the Meramec triumph over Louisburg.

Starter George Elkins got into difficulty in the sixth inning. Runners were on first and second when McGrath entered the game and ended the inning with two groundouts. The only hit he surrendered was a ninth-inning double by Randy Warlick.

Chris Berra's double produced two runs in the first inning, and the Warriors pushed across two more in the sixth, sandwiched by single runs in the fifth and seventh.

Louisburg's only run came in the third inning when Kelly Miller drove in Marvin Wooten with a two-out single. Louisburg finished its season with a 31-5 record.

Yavapai exploded for six runs in the first inning and pitcher Don Hanna made it stand up in the verdict over Middle Georgia. The Roughriders used a combination of three doubles, two walks, a wild pitch, a passed ball and two errors to compile the six-run inning. Back-to-back doubles by Jaime Lopez and Gary Skow produced three of the runs.

Hanna, in boosting his season record to 17-1, survived a shaky start. He gave up three hits and a walk as he was reached for a pair of runs in the bottom of the first. But he scattered just three hits the rest of the way and recorded nine strikeouts.

Middle Georgia reliever Allan O'Neal entered the game with one out in the first frame and pitched the balance of the game, yielding just five hits and one run. Starter Gary Cooper absorbed the loss, dropping his record to 6-2.

Englishman Wins Race SALEM, Ind. (AP) — Billy English of Madison, Wis., won the U.S. Auto Club 40-lap midget feature Monday on the Salem Speedway half-mile track.

Monterey, Panthers Try Again Today DUNCANVILLE — Lubbock Monterey and Duncanville will try to play Tuesday's rained out Class AAAA quarterfinal baseball game today at 1 p.m.

Scattered showers were the forecast, however, as the teams prepared to play at Arlington Sam Houston High field. The second game of the series is scheduled for 4 p.m. Friday at Lubbock and if a third game is necessary, it will be played at 1 p.m. Saturday in Lubbock.

Get away to the cool mountain air this weekend!

Before the heat of the city gets to you, get away to the cool mountains of Ruidoso and enjoy some of the world's hottest racing action this Friday through Sunday.

Saturday's action is highlighted by elimination trials for the upcoming \$375,000 (est) KANSAS FUTURITY. You won't want to miss all the excitement as these great Quarter Horses battle for positions in the big race.

Sunday's feature is the \$5,000-added MESCALERO-APACHE HANDICAP for 3-year-olds and up at 6 1/2 furlongs. All in all, it's a great 3-day weekend to get away from it all.

Sadat Calls On U.S. To Play Role Of Superpower In Mideast Conflict

By JOE ALEX MORRIS Jr. and JACK FORNIE
The Los Angeles Times
CAIRO — President Anwar Sadat today called on the United States to stake off its

post-Vietnam agencies and begin once again to play the role of a constructive superpower in settling the Middle East conflict. In a wide-ranging interview with The Los Angeles Times, the Egyptian head of state said the situation was "explosive" in the wake of Secretary of State Henry A. Kissinger's failure to achieve a diplomatic breakthrough. But even if peace efforts by Kissinger end at a forthcoming

Geneva Middle East conference, "That is not the end of the world," he declared. "Frankly speaking I have not yet started preparing for war. I am still preoccupied with the peace process."

Sadat was considerably less pessimistic than Kissinger himself, who said recently there were only two solutions: Either a breakthrough on the diplomatic and political level or another Middle East war. Sadat, who received two Times correspondents at his luxurious Nile Delta country home, said he was concerned about the lack of initiative from Washington to come to grips with the Middle East problem.

This was the message Sadat obviously plans to take to President Ford, whom he meets in Salzburg June 1-2, and who he said he was looking forward to meeting "as a friend." First and foremost, he added, he wanted to find out the results of the U.S. reassessment of its Middle East policy in the wake of the failure of Kissinger's diplomacy.

He was equally concerned whether the United States, if it does try to pick up the initiative again, will be able to carry through. The weakness of the United States had made it possible for the Soviet Union to get back into the Middle East picture, and enabled Israel to continue to "damage your image and efforts here by undermining the mission of Dr. Kissinger."

He said he is seriously concerned about Congress' assumption of a foreign policy role often at odds with that of the White House. "Where is the United States going with two governments, one in the White House and one on Capitol Hill?" he asked. "I don't know. Where are you heading?"

Nevertheless, he expressed confidence in the Administration. "If I didn't have it, I wouldn't have agreed to meet with President Ford," he said. "I still have my full confidence in Dr. Kissinger."

He called on the United States to make its position clear at Geneva, something he said hadn't been done yet. "The United States should realize the facts," he said. "You cannot go on sticking your head in the sand, as you have done in other areas" — an oblique reference to Vietnam.

He agreed that it was "very logical" to question whether the United States was in a better position to put pressure on Israel today than it had been before the Vietnam shock. "That is what my Arab colleagues are saying," he noted.

But this was a problem of peace for the entire world, not just a corner of Southeast Asia. "You are at a turning point," he declared. "He said it was 'ridiculous' that Israel should continue to defy the United States, and that the United States should continue to put Israel's interests ahead of her own. 'I think the United States has reached the position of to be or not to be,' he said.

"You are giving Israel everything," he went on, "and in spite of that Israel is defying you. 'I'm not asking you to drop the special relations between you and Israel. 'More than that, I'm asking you to provide every Israeli with a tank and gun. But please, ask the American public, ask them to tell Israel to use this to protect itself inside its borders.'"

He turned pessimistic again regarding the present situation in the United States. "Your administration is paralyzed because of the government on Capitol Hill," he said. "It is paralyzed from the inside, and by your allies from the outside."

Sadat said another Middle East war would bring with it another oil boycott. "Why not? It is not to be excluded." He dismissed recent remarks by Secretary of Defense James Schlesinger on the use of military force to safeguard oil supplies. "Please tell him for me that history cannot be reversed," Sadat said. "It is an empty threat to us."

Sadat said the Suez Canal, due to be reopened June 5, would not be open to Israeli ships or cargoes. The 1888 Treaty of Constantinople bars the canal to any nation in a state of belligerency with Egypt, he noted.

"This is quite clear and they are quite sane not to ask for this," he added. He dodged a question whether Israeli cargoes on third nation vessels would be permitted to pass through the canal. "It will depend on the conduct of Israel," he said, but he refused to elaborate.

The reopening of the canal is a gesture of peace, he said. "I have lost all hope in Israel. I want to show the whole world, and mainly your people in America, that I don't fear peace at all," he said. "Israel fears peace. That has been proved during the mission of Dr. Kissinger."

HOW DO YOU STOP THIS THING? — Spray from lawn sprinkler seems to be a bit too much for 5-year-old Marvin Bollinger of Pennsville, New Jersey. A little adventure that started out to be a refreshing shower turned out to be a real soaking for Marvin. (AP Wirephoto.)

Supreme Court Endorses Investigative Powers Of Congressional Committees

By JOHN P. MACKENZIE
The Washington Post

WASHINGTON — The Supreme Court gave sweeping endorsement Tuesday to the investigative powers of congressional committees, including the right to obtain bank records and other judicial interference.

A congressional subpoena power is an indispensable ingredient of lawmaking," Chief Justice Warren E. Burger said for five members of the court. "The fashion of congressional speech or methodology is not open to judicial veto."

The five justices, part of an 8 to 1 majority that held the committees immune from court orders blocking subpoenas, were joined by three justices who expressed less enthusiasm for the broadened power of Congress to demand the records of private individuals.

Over the lone dissent of Justice William O. Douglas, the court said the committees' immunity stems from the Constitution's "Speech or Debate" clause, which provides the mem-

bers of Congress "shall not be questioned in any other place," including the courts, for legislative acts. Rejecting pleas on behalf of an antiwar group called the United States Servicemen's Fund, the court held that "the power to investigate is inherent in the power to make laws" because Congress needs information to legislate.

The group argued that the subpoena was issued solely to intimidate political dissenters, but the court, following earlier opinions, said courts are not to probe the motives of legislators.

"We reaffirm," said Burger, "that once it is determined that members (of Congress) are acting within the legitimate legislative sphere, the Speech or Debate clause is an absolute bar to interference."

The decision did not disturb the high court rulings that have sustained some refusals to testify or produce records for congressional committees. Those decisions, however, involved

direct defiance by individual targets of investigation while attempting to block a third party, in this case the bank, from complying with a subpoena. Also left undisturbed was a 1972 decision that a House committee does not have unlimited power to defame private individuals in their official reports.

Nevertheless, the court's approval of committee investigative powers amounted to the warmest support the congressional bodies had received after many years of unsuccessful litigation.

The subpoena in question was issued and then blocked five years ago. "This case illustrates vividly the harm that judicial interference may cause," Burger said. "A legislative inquiry has been frustrated for nearly five years."

Burger was joined in full by Justices Byron R. White, Harry A. Blackmun, Lewis F. Powell Jr. and William H. Rehnquist. Concurring in the judgment were Justices Thurgood Marshall, Potter Stewart and William J. Brennan Jr.

Justices Douglas's dissent argued that "no official, no matter how high or majestic his or her office, who is within reach of judicial process, may invoke immunity for his actions for which wrongdoers normally suffer." The concurring justices emphasized Burger's statement, made in a footnote, that congressional power "is not unlimited," but none of the opinions spelled out any specific limits.

itself issued and then blocked five years ago. "This case illustrates vividly the harm that judicial interference may cause," Burger said. "A legislative inquiry has been frustrated for nearly five years."

Fort Worth DA Renews Battle On Obscene Movies

FORT WORTH (AP) — The district attorney's office renewed its battle against allegedly obscene movies this week by confiscating several peep-show movies and arresting two men at a small downtown theater.

Asst. Dist. Atty. Joe Shannon Jr. said undercover investigators, while making a spot check of the theater, found "hard core" pornographic movies playing in 25-cent peep-show machines.

The investigators executed a search warrant and confiscated several movies and arrested a cashier and a projectionist, ages 29 and 34.

Shannon said charges of commercial display of obscene material, a Class B misdemeanor, would be filed against the two.

Brother Charged

CHICAGO (AP) — Thomas Flanagan, 37, the brother of a close associate of Chicago Mayor Richard J. Daley, has been charged with beating Pulitzer Prize-winning cartoonist Bill Mauldin.

Russians Conclude \$12-Billion Arms Deal With Libya, Egypt President Says

The Los Angeles Times

CAIRO — The Soviet Union has secretly concluded the biggest ever arms deal between a superpower and a Middle Eastern nation, Egyptian President Anwar Sadat said Tuesday.

Without citing sources for his information, the Egyptian head of state said that a recent Soviet-Libyan arms deal was worth "four billion Libyan pounds, and this means \$12 billion." He made the disclosure in an interview with The Los Angeles Times.

Earlier, Egyptian press reports had pegged the figure at \$4 billion, and both Russia and Libya challenged that as excessive, but Sadat stated flatly it was for three times that amount. "The whole deal is for the most sophisticated arms one can imagine," he said. "The Russians have never given me or Syria such sophisticated arms."

Sadat said the deal included "Aircraft, and tanks — of the latest style." He declined to speculate on their eventual use — but he indicated concern. "These are questions the answers to which we will discover in the near future," he said.

Egyptian-Libyan relations are currently at an all-time low, even though nominally they remain federated, together with Syria. But Sadat raised the question whether the deal did not mean in effect that the Soviet Union had found itself a new military base in the Arab world.

Sadat said that to train Libyan soldiers in such sophisticated arms would require the presence of Russian experts at Libyan bases for 20 to 50 years. "You can draw your own conclusion as to the dominance of Moscow's military presence in Libya," he said.

The move by the Kremlin to establish itself in a country bordering the Mediterranean was something that should upset the United States more than us (Arabs), Sadat warned.

If the agreement between the Russians and Libya's fiery socialist Col. Moammar Khadafy turns out to be as large as the Egyptian president depicted, it will be the largest bilateral arms deal in the Middle East. Even Iran, with a population 10 times greater than Libya's two million, settled for a \$5 billion weapons purchase with the United States last year.

Asked to characterize Egypt's relations with the Soviets, Sadat said: "We are having friendly relations except that there are two points of difference between us. I am asking for a grace period (on debt repayment) because of difficulties I am having here. We didn't agree on this."

Relighting his pipe, Sadat continued: "The other point is the Soviet replacement of arms lost in the last round of war against Israel 18 months ago. Sadat said he was not asking for free replacement of October War arms. "I am asking to buy (the types) they already have provided Syria."

He complained that the United States had replaced all of Israel's losses in the October clash in the Sinai but that the Soviets, who had been arming Egypt in past years, had not shipped any tank or aircraft replacements. "I have received nothing," he declared. "Nothing?" he was asked. "To be fair, starting last January I am receiving now part of an arms deal that was due in '73 and '74. I am quite happy with this. But there have been no replacements for battlefield loss," he insisted.

Stock Market Prices Mixed In Bouncy Trading Session

NEW YORK (AP) — Stock prices were mixed today in a bouncy session. The Dow Jones average of 30 blue chip industrial stocks was up 1.41 at 107.52 at noon after recovering from an early 5-point loss.

The NYSE composite index of all common stocks showed a fractional .09 gain to 40.66 and declines led a narrow lead over advances at noon on the New York Stock Exchange.

Trading was fairly active during the morning.

On the American Stock Exchange, the market value index turned from an early decline and stood at 80.26, up .10, at noon.

President Ford's move raising the tariff on foreign oil by \$1 a barrel in order to slow imports caused some early selling on the NYSE and the American Stock Exchange.

The short-term inflationary implications of the move are clear and the market is uncertain about whether it will accomplish the long-term objective of reducing oil imports, said Monte Gordon, a Wall Street analyst.

But brokers noted that the underlying demand for stocks is still pressing the market upward and resisting decline.

"The market is mostly negative for the market but there's still a lot of money around for investment and, of course, that's really why the market goes up or not," said John J. Smith of Farnesstock & Co.

Auto stocks were generally lower, paced by General Motors, off 1 to 4 1/2.

Oil stocks were mixed. Exxon gained 1/4 to 34 1/2, Mobil rose 1/4 to 44 1/2, and Getty Oil fell 1/2 to 17 1/2.

The boost in foreign oil taxes proved to be a big plus for coal producers. Pittston rallied 2 1/2 to 74 and North American Coal rose 3/4 to 30.

Occidental Petroleum, the big board's most active stock, rose 1/4 to 17 1/2. Occidental operates a domestic coal company.

Louisiana Land Exploration rose 1/2 to 25 1/2.

F. W. Woolworth, the largest retailer, fell 1/4 to 14 1/2 and the company reported first quarter earnings of 6 cents per share against 27 cents a share a year earlier.

On the American Stock Exchange, Houston Oil & Minerals, the most active stock, fell 1/4 to 25 1/2, but several domestic oil stocks were higher.

Folks Down Under Sitting On Top Of Untold Wealth

By THOMAS KENT
CANNBERRA, Australia (AP) — While the world battles to cope with the energy crisis, Australians are sitting atop a treasure of uranium, coal, natural gas and oil worth billions of dollars to overseas buyers.

Huge deposits of iron ore, bauxite, copper, nickel and tin also lie under the vast Australian outback. Prospecting par-zinc, manganese, tin, nickel and silver.

The State of Victoria probably has more brown coal underground than any entire nation. Black coal exports from Australia are 10th in the world. There are huge deposits of phosphate, and explored and unexplored reserves of natural gas and oil.

Exports are increasing every year, but mining companies say this is the result of explorations carried out in the past decade.

If new explorations aren't encouraged, they say, Australia's 70 per cent self-sufficiency in oil could drop dramatically and the growth of other mineral exports will also decline.

Jagger Promises Spectacular Rolling Stones Tour

By DAVID MARSH
Newsday

NEW YORK — The Rolling Stones tour of North and South America — which will begin next Sunday in Baton Rouge, La., and end in Caracas, Venezuela, in late August — will be not only the biggest pop event of the summer but possibly of the year.

The Stones are led by their singer, Mick Jagger. At 31, Jagger has been painted the ominous decadent so often that

a view of the man from close up is startling. If he resembles anything in popular mythology, however, it is Oscar Wilde's perpetually youthful Dorian Gray. After a dozen years of stardom, Jagger is unwrinkled, from his shaggy hair to his denim jeans and candy-striped velvet T-shirt.

His entire demeanor is so casual, yet so perfectly organized, that it is difficult to decide whether he has groomed himself carefully or simply arises from

bed in the morning with not a hair out of place.

But his most prominent feature is still — that magnificent pair of lips, curling, sulking, protruding, the dominant feature of every room they are in. Sometimes it seems that

they, not the remarkably young-looking Jagger, are the real stars of the Stones.

No matter how young he seems, the rumors that the Stones' tour will be their last have not abated. Age, some say, is getting to the Stones. But Jagger finds that idea comic.

"Last time we toured, they said the same thing," he said, pausing for a sip of the white wine he'd been pouring all afternoon. "It isn't going to be the last tour — oh, it might

be, but it's not been planned to be. And I hate that question. I've been asked that question since I was 18 years old."

But even if it is just another part of what Jagger calls "my job, my vocation or my pleasure," this tour isn't being taken lightly. He and drummer Charlie Watts have spent the last six months working intensively on everything from set design to decisions about the tour's posters and promotional material.

"What I've really gotten involved with is the amount we'll spend (on the production) of the gross amount of money that we could possibly earn from the tour," Jagger explained. "Charlie and I have been involved in stage design, art work, posters. But originally, I just went ahead and we designed the show and that was it. Then Peter (Rudge, the manager of the group) said, 'You're earning nothing! So I had to cut quite a lot.'"

"Prices have escalated enormously. To do the tour that we did in '72, if we just wanted to repeat ourselves, the price has doubled. But the price of tickets has not doubled. They couldn't double and shouldn't double. So then you have to be clever. Even 50 cents on each ticket would enable me to do a more spectacular show. But you have to draw a line."

The line has been drawn rather broadly for this tour. In most of the United States, tickets are selling for \$9.50 top (if tickets are available, which is rare except in the case of the few outdoor shows). In New York and Los Angeles, however, the top ticket price has been established at \$12.50 for a week's concerts in each city.

But the extra \$3 that New York Stones fans have paid — those Madison Square shows are entirely sold out — will go, Jagger claimed, for an extra-spectacular presentation. Still, he refused to be specific about just what that means.

"We've worked out a different kind of stage, shape of stage, but it's not gonna be in the round," he said. "The main thing is that everyone who comes to the show will have an uninterrupted view of the stage, aside from the guitar amplifiers, the instruments and the monitors."

Jagger did say that he had had to drop his original plans

for scenery. The stage look almost six months to design and the plans for it are one of the tour's most closely guarded secrets.

The most difficult part of the rehearsals, Jagger acknowledged, is breaking in the group's new guitarist for the tour, Ron Wood. Wood, whose regular gig is with Rod Stewart and Faces, is supposed to have joined the Stones only for the American tour.

"I thought about trying to find someone permanently, to start with," Jagger said. "With a band, you can get a really good guitar player, but on the road, that's not enough. The guy has to fit in with you, and he mustn't be overpowered. Doing a tour

of America with the Rolling Stones is not easy for an experienced person, in my experience. The guy is going to be under all kinds of pressure."

After this tour, Jagger's plans are both vague and grandiose. "I want to play places that are uncharted rock 'n' roll territory. I'd like to go to Asia. I'd like to play the Middle East. I'd like to play more in Eastern Europe. All these places, there's zero money, you're hoping to break even if you can. Which is a concept most people who run rock and roll tours cannot grasp. But that's what I would like to do. There's a demand for it and it's a demand that's not being met."

Broadway Drops Summer Hiatus

EDITOR'S NOTE — Broadway theater is completing a boom year, and steps are being taken to insure that the successful season isn't a fluke. One step is elimination of the summer halt. The new season opens June 3.

By WILLIAM GLOVER
NEW YORK (AP) — Broadway staged an impressive comeback during the '74-'75 season after a five-year slide in revenue, audience size and number of plays.

On the other hand, as usual, four shows out of five were losers. The unhappiest angels of all dropped \$1-million on a production that didn't even get to town.

Taking the pulse of the Fabulous Invalid is an annual rite at the end of the traditional June-May theatrical contracts.

The healthiest sign of all during the semester was a \$10-million jump in box office gross from the previous year's \$46.3-million take, closely approaching the \$58-million record set in '68-'69.

Most of the upswing appeared attributable to an increase in the number of productions and to audience growth. The two items generated a 20 per cent increase in the total number of playing weeks. Ticket prices generally remained at the previous year's scale.

Commercial producers put on 84 dramas, comedies and musicals — seven more than the year before. Nine other events were presented by nonprofit repository organizations whose ticket receipts are included in total box-office revenue.

Five years ago, when the slide from the 1968-69 peak began, there were just 40 regular commercial entrants, and activity has hovered thereabouts until the present resurgence.

Breast-beaters who had been bewailing the decline in initiative of Broadway impresarios could note one robustly contradictory statistic: 24 of this year's exhibits were Main Stem originals. There were only 10 such the previous season when revivals, reshapes and imports dominated.

For a while, however, made-in-England items appeared about to turn the Great White Way into a West End Annex.

A dozen shows, mostly from the National Theater of Great Britain and the Royal Shakespeare Company — which also did a repository over in the Brooklyn Academy of Music — threatened to blitz native effort.

The invasion produced the Tony Award drama "Equus" and a highly popular "Sherlock Holmes." But it also included such hideous mistakes as

"Flowers" and "The Rocky Horror Show."

Eleven of the season's arrivals continue after May 31, and nine are local products. Among them are such top money-makers as "The Wiz," which won seven Tony musical prizes, and the comedy sell-out "Same Time, Next Year," which stars Ellen Burstyn, the Oscar and Tony winner.

Others which appear to have a good chance at recouping investments are "Absurd Person

Singular," "All Over Town," "Clams on the Half Shell," "The Ritz" and "Shenandoah."

That popularity doesn't always reflect artistic merit was shown by Edward Albee's "Seascapes." The philosophic comedy won the Pulitzer Prize for Drama — after leaving Broadway with a \$159,000 deficit on its \$190,000 investment. It has been recouping since on the road.

Despite a generally upbeat outlook, many angels got badly

singed backing losers in the Broadway sweepstakes. Some managements won't divulge profit-loss figures, but enough do to show the long-shot hazards of theater enterprise. Five shows bombed out after single performances.

Four of the 38 commercial offerings that have closed made modest profits; four others, like "Seascapes," expect to make up deficits on tour, and the backers of 25 other arrivals lost \$6,737,000. Another million was

lost by the musical "Miss Muffet" which was withdrawn during pre-Broadway tour after its star, Bette Davis, sustained a back injury.

The current display, however, includes five holdover musicals from prior years that are still piling up investors' dividends. Thirteen other oddies ended runs during the season — four at a combined profit of about \$1 million; the rest at a total loss of \$1.5 million.

Regional Theaters Talent Mines

NEW YORK (AP) — Regional theaters once relied on Broadway for top-notch actors. Now, to mangle an old stage phrase, the buskin is on the other sock: Broadway is recruiting fine players from regional theaters.

They include such performers as Frank Langella and Rita Moreno, who won Tony awards a few weeks ago, and Michael Moriarty and Ed Flanders, who copped the coveted silver medals last year.

Many others from such way stations as Hartford, Conn., Louisville, Ky., Cincinnati, Ohio, and Seattle, Wash., have been appearing with increasing frequency in casts along the Great White Way.

There are also other, established familiar faces like Richard Chamberlain, Al Pacino, Rip Torn, Sada Thompson and Geraldine Fage who bypass the Big

LAMESA Sets Pioneer Day Celebration

LAMESA—Early settlers here will gather Saturday for the annual Dawson County Pioneer Day celebration.

The event is for Dawson County pioneers who have lived in the county at least 25 years. Registration is at 10 a.m. Saturday in the Forrest Park Community Building, followed by a fellowship hour. A luncheon will be served at noon.

Mayor Lloyd Cline will deliver the official welcome to pioneers at 1 p.m. Richard Crawley, chairman of the Lamesa Bicentennial Commission, will deliver a memorial tribute to Dawson pioneers. Wayne Smith, chairman of the heritage division of the bicentennial, will recount the early history of Dawson County.

Prizes will be awarded to the pioneer traveling the greatest distance to attend, to the family with the most members represented and to the oldest pioneer present.

More than 100 early-day residents of the county are expected to attend the event.

Actress Wed

NEW YORK (AP) — Actress Diahann Carroll, 41, has married magazine editor Robert DeLeon, 25, at St. Paul's Chapel on the campus of Columbia University.

Apple for periodic hinterland challenge.

"If you wait for the big call, you'll probably never realize your full potential," says Langella who tarried happily with grassroots dramatics for 14 years en route from Syracuse University to Times Square.

"My heart is in regional work," declares Carol Teitel, another determined itinerant on the cross-country circuit.

More than 40 players with predominantly regional theater careers have appeared in 19 of Broadway's 65 productions this season.

The situation underlines an on-going reversal of the traditional theatrical order. A few years ago Producer David Merrick could derisively dismiss all stage activity west of the Hudson as "derivative."

The turnaround began with the arrival from Washington's Arena Stage of "The Great White Hope," which won a 1969 Pulitzer Prize. Many productions have followed. Some earned awards, others were less successful, but all have attested to increasing emancipation from dependence on Broadway to supply properties that could be reproduced safely.

In addition, the decentralized actor talent pool is important now in casting shows created for Broadway.

"All Over Town," a ram-junctious farce, employs Miss Teitel and five other gypsies from such established enterprises as the Asolo Theater in Sarasota, Fla., Chicago's Good-

man, the Louisville Actors Theater.

"There's a whole generation of actors who want to travel wherever there's a really interesting part," asserts Miss Teitel, who was a founding member of San Francisco's renowned American Conservatory Theater. Miss Teitel ever agreed once to appear in "Uncle Vanya" at Bant before she knew where that Alberta community was.

Another intrepid itinerant is Barbara Colby, who recently appeared with three other fellow travelers alongside Liv Ullmann in "A Doll's House." Miss Colby and Sada Thompson are also alumnae of ACT, a major source of acting talent along with the Long Wharf at New Haven, Conn., the Guthrie at Minneapolis, Washington Arena Stage and Hartford Stage Company.

Other prominent graduates of sundry troupes who have visited Broadway recently and who foray afield recurrently are Estelle Parsons, Christopher Walken, Charles Kimbrough, Tony Musante, Kevin Conway, Leonard Frey and Joseph Maher.

Versatility is their dominant characteristic, exemplified by yet another highly regarded traveler, Pamela Payton-Wright. Her gamut extends from revivalist fervor as Almee Semple McPherson to the earthy role of an uninhibited, Swedish-accent maid.

Big Spring Official Resigns Position

BIG SPRING—Bob Butler, assistant Big Spring city manager, has accepted a position as city manager of Meigs.

Butler began work with the city of Big Spring in March 1972 as the city's first purchasing agent. He was promoted to assistant city manager in August 1974.

Cambodia Finishes Nationalization Of Rubber Plantations

Agence France-Presse

BANGKOK — Cambodia has completed nationalization of rubber plantations, radio Phnom Penh announced Wednesday morning.

The radio said the plantations had been nationalized as the Khmer Rouge forces advanced on the capital and the process was completed after the liberation of Phnom Penh last April 17.

Rubber production continued despite fighting and large quantities were exported during the war, according to the radio.

The plantations were primarily French-owned.

Discussing agricultural production, the radio said, "The people of the liberated zones do not suffer from hunger. Since the Cambodian people have become independent, and master of their own labor, they have concentrated all their efforts on agricultural production throughout the country."

"Cambodia even hopes to export rice next year."

The radio said this year's rice production would be double that of 1974. In 1966, before the war began, Cambodia produced three million tons of rice.

Computer Science Program Changed

Students enrolling this summer in the computer science program at Midland College will be able to take advantage of the newly organized curriculum.

The curriculum has been designed to make it possible for the student to write computer programs the first semester, thereby preparing for employment in the field as rapidly as possible. The program also assures full preparation for advancing to a senior level institution if the student chooses.

The department also will offer courses for persons in other areas and careers who desire a working knowledge of computer programming.

Summer school registration continues through June 2 at the college.
