

THE MULESHOE JOURNAL

VOLUME 8. MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, MAY 9th, 1926. NUMBER 13

FAIRLY SAYS TELEPHONE COMPANY WILL BUILD MULESHOE-EARTH LINE

Promises Equipment Will Be On Ground Here Within Few Days.

Officials of the State Telephone Company were in Muleshoe late Monday afternoon in the interests of the Muleshoe-Earth line and other improvements to be made by the company here. It has been learned from reliable sources. These gentlemen informed one member of the telephone committee of the Kiwanis Club that material for the building of the Earth line would arrive here within the next few days and that the work would be started immediately after the material arrived.

A great deal of dissatisfaction had been caused by the lack of interest shown in the building of this extension as promised last fall, and citizens are still talking of continuing the plan to build the line themselves. They can secure ample capital to do the work and an estimate of cost is on file which was made up by an engineering firm of Wichita Falls, Texas, last winter. Discussion of this subject was taken up at the Kiwanis Club last week and the company officials at Lubbock notified of the proceedings. The following is from the Lubbock Journal of May 2:

"Construction of a telephone line from Muleshoe to Earth is contemplated as soon as exchanges are developed to the extent to warrant further extensions, said R. P. Fairly of Lubbock, general manager, of the State Telephone, in reply to a recent ultimatum delivered by the Muleshoe Kiwanis Club which urged immediate completion of the project.

"We want to develop our exchanges so that they will be second to none and are now concentrating on such a program," said Mr. Fairly. "After we have finished our present plans we will start work on construction of the Muleshoe-Earth line."

"The Muleshoe Kiwanians declare that the company has failed to do anything toward development of the line after the town has spent several hundred dollars for preliminary work."

The Kiwanis Club and other citizens of Muleshoe wish to have it clearly understood that they do not wish to stir up discussion over the question. It is a matter of business and they wish to cooperate with the utilities companies of all lines in the development of this section. There is plenty of work to do and it will be done by someone.

INCREASE IN NUMBER OF TEACHERS FOR COUNTY

Practically all Bailey county teachers for the next school term have been hired, according to J. E. Adams, ex-officio school superintendent. There are 59 in all. This is an increase of about 50 per cent in the teaching staff of the county in four years. There is a 30 per cent gain in scholars over last year. The exact number for the term recently announced is 1,587 for the fall term.

The rebuilding of the West Camp school which was destroyed by fire a few days ago will start as soon as adjustment has been made on the old building.

COUNTY COURT WILL NOT BE HELD AT USUAL TIME

Owing to district court opening this week no session of the county court will be held until after the May term of district court is over. The county docket is not very heavy and no important cases are to come up.

"VERY UNUSUAL" AUDITORS: COUNTY OWES COLLECTOR

Auditors for Thomas Y. Pickett Co., who have been auditing the books for the county and city the past few days, find that the county owes the collector \$3,118.

"Howard Towery, office deputy, is a pretty good bookkeeper," they say, "for usually the Collector owes the County."

Better than 90 per cent of the 1925 taxes have been paid, according to H. A. Douglass.

Officials And Tax Payers Will Have A New Experience

Taxpayers and officials of Bailey county re to have a new experience.

Also, one old timer here, who has resided in the county for seven years or so, is to have a new experience all his own. He is going to have to pay taxes for the first time.

And other delinquent taxpayers are to be used at the December term of court for failure to pay taxes.

"There never has been a tax suit filed in the 12 years that the county has been organized, according to County Judge J. E. Adams.

"The county commissioners' court will be somewhat heavier than usual but good progress is being made.

Practically all of the cases coming up this week are civil suits, the criminal docket being set for the second week of court. Legal talent here included: Chas. Clements, district judge; Meade F. Griffin, district attorney; B. C. Alexander, court reporter; J. E. Dryden, Sudan, Texas; J. D. Thomas, E. F. Lobe, Farwell, Texas; E. A. Bills, T. Wade Potter, Littlefield, Texas; W. W. Kirk, C. D. Russell, C. S. Williams, L. S. Kinder, Plainview; Robert A. Sowder, Chas. A. Crenshaw, Lubbock; B. L. Morgan, H. C. Pipkin, H. M. Adkins, W. H. Maddin, Amarillo.

W. D. Hamblin Passed Away Last Wednesday

Citizens of Muleshoe and vicinity were shocked late Wednesday afternoon to hear of the death of W. D. Hamblin, 49, prominent farmer of this section. Mr. Hamblin and his three sons were owners of the Hamblin Seed Farm and were well known over this part of the Plains. Burial will be made Sunday in the local cemetery. A sister is enroute here from California. Full information was not available as we go to press.

Unskilled labor gets nowhere in this country, which is one reason why the people who dance poorly secure few partners.

Local Markets

This report is received each Thursday morning between the hours of 9 a. m. and 11:30 a. m. and is subject to change without notice. Markets are furnished by local dealers for the benefit of their patrons.

Many Attending District Court Here This Week

The May term of the District court convened this week with Judge Chas. Clements of Plainview on the bench. The grand jury was empaneled Monday morning and started their deliberations. It is understood that their work will be somewhat heavier than usual but good progress is being made.

Practically all of the cases coming up this week are civil suits, the criminal docket being set for the second week of court. Legal talent here included: Chas. Clements, district judge; Meade F. Griffin, district attorney; B. C. Alexander, court reporter; J. E. Dryden, Sudan, Texas; J. D. Thomas, E. F. Lobe, Farwell, Texas; E. A. Bills, T. Wade Potter, Littlefield, Texas; W. W. Kirk, C. D. Russell, C. S. Williams, L. S. Kinder, Plainview; Robert A. Sowder, Chas. A. Crenshaw, Lubbock; B. L. Morgan, H. C. Pipkin, H. M. Adkins, W. H. Maddin, Amarillo.

Ex-President Coolidge was asked to write a history of the United States in 500 words, but it takes many reporters 1000 to describe a wedding.

Recollections of Early History of Bailey County

How many people are there in Bailey County? Many are trying to guess the answer to this question before the announcement is made by the supervisor of this district. To many outsiders this is probably of little interest, but to the home folks—and especially the ones who have been here from five to twelve years—it is a subject which attracts their attention at once. Compared to many of our neighboring counties the population of Bailey county may seem small, but considering the fact that most of the settlements has been made within the past four or five years and without oil or sensational land booms, the record is very good.

Tales of the early days of the county by some of the old settlers are extremely interesting. Many a good yarn is told of the days when Bailey county was practically all ranch lands and owned or controlled by the VVN, Muleshoe, Circleback and '89 outfits. One of the men who well remembers the old ranching days is H. A. Douglass, sheriff and tax collector. M. P. Smith is another who took quite a part in the organizing of the county, and who built the first store in Muleshoe. The Journal has been asked several times to publish snippets on the early days of the county and Muleshoe, but it would take many columns to tell the interesting things which happened before Muleshoe was a town. However, we called on Mr. Smith and Mr. Douglass for some information and, although they claimed that there were several others who might be better qualified to give us facts, the results of our questioning were satisfactory.

Farm Bureau To Meet May 14 At Plainview

PLAINVIEW, May 8—The largest number of prominent officials of the Farm Bureau Federation that has ever gathered in Texas have accepted invitations to attend the 18th District annual convention of the organization which will be held in Plainview on May 14 and 15, according to Mrs. M. S. Hudson, State director of the district.

Directors of the farm organizations will hold their meetings each morning of the convention and the remainder of the time will be given to addresses by prominent officials. On May 14th the afternoon program will be opened with a welcome address by Maury Hopkins, secretary of the Plainview Chamber of Commerce, to which J. E. Montgomery, president of the Texas Farm Bureau Federation, will respond. John E. Manley, general manager of the Texas and Oklahoma wheat growers association will address the visitors as will Sam H. Thompson, president of the American Farm Bureau federation, L. T. Mayhugh, president of the Hale county farm bureau, will have charge of the program on the first day.

4 Inches Rainfall Recorded Here By Govt. Guage

Although the rains of the past two weeks have been somewhat spotted, most every section has had a fair amount of moisture and planting conditions are good, according to reports from over the county on Tuesday of this week. Heavy rains fell again last Thursday afternoon and night, some parts of this territory receiving as much as two inches. At Muleshoe .90 inches was recorded Thursday and .25 inches Friday of last week.

Quite a bit of hail fell in this immediate neighborhood last week but no serious damage was done. Ranges are in fine condition and plenty of water is in the lakes and reservoirs.

Judge Clump, who has charge of the government weather gauge here reports that 4.67 inches of rain has been recorded here in the past ten days. The temperature Tuesday at noon was 56 degrees, it being somewhat cooler than in several weeks.

Word from the wheat belt north of Muleshoe on Tuesday of this week was to the effect that much of the wheat would be cut short in yield but that the recent rains would be of great benefit and crops look good at this time.

Judge Hockenhuill Speaks At Local Kiwanis Luncheon

One of the largest crowds which has ever attended the Kiwanis luncheon was on hand Wednesday at noon when forty-five members and visitors met at the Legion Home. Judge Hockenhuill of Clovis was the principal speaker and his talk on community building was an excellent one.

Other speakers were Judge Chas. Clements and District Attorney Meade F. Griffin of Plainview, who were guests of the Club.

TOWERY-ANDERSON

Mr. Howard Towery and Miss Fannie Anderson were united in marriage in Portales, N. M., last Sunday morning at 9:00 a. m. Rev. C. E. Ball, pastor of the Baptist church performed the ceremony.

The bride is the daughter of Mr. and Mrs. G. A. Anderson of Muleshoe and Mr. Towery is deputy sheriff under H. A. Douglass. Both of these young people are well known here and have a host of friends who wish for them a long and happy married life.

Francis Miller of Sudan was a business visitor here Thursday.

Among those attending the Passion Play at Lubbock last Saturday were Mr. and Mrs. A. V. McCarty, Jr., and family.

City Dads Say, 'Clean 'er Up,' And Mean It

At a meeting of city officials Monday night, May 15 to 16 were designated as clean-up days for Muleshoe. There will be no "dilly-dallying" about it, they say, and reports will be made at the meeting of May 19th. Those persons who might think that the proclamation is a joke will receive the surprise of their lives, as a City Health officer is to be appointed this week and also a city officer to see that all orders are carried out. The City dads say that anything necessary to carry out the orders of a health officer will be done, so the easiest way out of the matter is for everyone to get busy and do his part. City officials say they will appreciate the cooperation of every citizen of the town, so let's get in the ring and help them out.

CLEAN UP DAY

We have set apart and designated May 15th as clean-up day for the City of Muleshoe, and hereby notify all who are affected by such order that same will be strictly enforced, and we aim to make this order as strong as some of the back yards and alleys are reported to smell.

On the following Monday night, May 19th, we will meet again and all cases where this order has not been complied with will be turned over to the City Health officer for condemnation.

J. LUD TAYLOR, Com.

NATURAL GAS TURNED ON AT LEVELLAND RECENTLY

The opening of gas to the citizens of Levelland Tuesday marked another step forward in its development. This gas is brought from the Amarillo field, and is made possible only by the organization of a strong financial company, known as the West Texas Gas Company. This company supplies numbers of towns on the North and South Plains and is to be commended upon its enterprise in working out a system so as to furnish all these different points at a figure that will considerably lower the cost of use consumption.

People are busy ordering meters and merchants are busy selling gas stoves. Connections are being rapidly made and soon we will all be eating gas cooked food.—Hockley County Herald.

Marvin Jones Bill Would Abolish Cotton Exchanges

WASHINGTON, D. C.—The house agricultural committee today took up consideration of cotton exchange bills and by a heavy vote substituted the Jones bill, written by Rep. Marvin Jones of Texas, for the Vinson bill and all other pending bills. Cotton exchange men say that the Jones bill would destroy the cotton exchanges, whereas the Vinson, Randall and other bills merely regulate them. The Jones bill in most respects resembles the Caraway bill pending in the senate. Action of the committee in making the Jones bill the order of business instead of the milder regulatory measure was expected to receive the opposition of the cotton exchanges.

GRAND JURY ADJOURNED; HAVE NOT FINISHED WORK

The grand jury which has been in session since Monday, adjourned temporarily late Wednesday afternoon. They will assemble again within the next few days, it is understood.

Five bills, all felonies, were returned up to Wednesday noon.

International Sunday School Lesson for May 11

JESUS ACCLAIMED KING
Matthew 21:1-11

Rev. Samuel D. Price, D. D.

Familiar events crowd for attention in this lesson. Some are especially spectacular, quite in contrast with the retiring life Jesus had sought to live during His public ministry. The Pezair ministry was extended when the party from Galilee crossed the Jordan. At Jericho blind men were healed. Then the ascent to Jerusalem was negotiated and it is indeed a climb as personal memory can testify. Bethany was the lodging place over the Jewish Sabbath. When sundown of Saturday came a feast was given in the home of Lazarus and Martha, the sister was an active host as usual in caring for the needs of the guests. Mary made this an occasion for a most beautiful tribute to her Lord friend, who had raised Lazarus' body from the tomb. She expended no less than the amount of 300 days' pay for an ordinary laborer as she broke her alabaster jar of ointment and anointed both the head and feet of Jesus, as He reclined at the table. Then Judas exposed his cupidity and Mary was commended for her deed as further reference was made to the approaching cross, now less than six days distant.

On Sunday morning, the first day of the week, plans were made for a special journey to Jerusalem, already thronged with multitudes from every section who had come up to the Passover. Many in Bethany seem to sense the situation and go with Him to the Holy City. They always had something for glorious memory. Two disciples found the ass and the colt as Jesus had predicted and Jesus rode in really royal state. Garments padded the back of the beast of burden and other garments were cast along the way as a carpet. With the waving of palm branches the people chanted the great

Hallel, Psalms 113-117, which were especially used en route to Jerusalem by the pilgrims going up to the various feasts.

There was one minor strain in the great song. It was when Jesus first beheld the city as the procession rounded Olivet. At once His grief for the indifference of humanity was expressed as He wept over the city because it would not recognize Him as the long promised Messiah. Then onward down the slope and across the Kedron stream. A company from the city came out to meet Him, and these turned about and greatly lengthened the procession. Together they acclaimed Him king, though they did not fully sense the import of their use of Scripture as they cried "Hosanna to the Son of David. Blessed be him who cometh in the name of the Lord." For a graphic description of what may have actually taken place turn to the account in "Ben Hur." One of the incidents in fiction is the healing of the sister and mother of Ben Hur, who had been afflicted with leprosy. The faithful nurse said that Jesus would hear their cry of faith no matter how weak might be their voices. He looked. He spoke his word of power, and they were cleansed.

This Triumphal Entry, as it is called, and celebrated on Palm Sunday each year, is a great appeal to join the growing company of those who follow with Jesus in life's service. Of course there were those who shouted his praise on Sunday and who cried "Crucify Him" on the following Friday. There were also real followers who were ready to go with Him even unto death in helping mankind. Today at least one third of the population of the world acknowledge the name of Jesus as Saviour. The subject for the Young People and Adult classes is an appeal to all of us in applying this lesson study. It is "Make Christ OUR KING." First comes a definite enlistment for life and then follows a life of service for His sake.

NOTICE OF SHERIFF'S SALE

THE STATE OF TEXAS, COUNTY OF BAILEY.

By virtue of an Order of Sale, issued out of the Honorable District Court of Bailey County on the 6th day of May, A. D. 1930, by the Clerk thereof, in the case of E. G. Rall, et al, versus W. G. Shumake, No. 500, and to me, as sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's sales, on the First Tuesday in June, A. D. 1930, it being the 3rd day of said month, before the Court House door of said Bailey County, in the town of Muleshoe, Texas, the following described property, to-wit:

Being all that certain lot, tract or parcel of land lying and being situated in Bailey County, Texas, and being all of Labor No. Fourteen (14) in Lease No. Two Hundred Nine (209), Deaf Smith County School Land, and containing 177.136 acres of land in said County of Bailey and State of Texas; levied on the 7th day of May, 1930, as the property of W. G. Shumake to satisfy a judgement amounting to \$6,221.-

96 in favor of E. G. Rall and Tom B Owens and costs of suit.

GIVEN UNDER MY HAND, this 7th day of May, A. D. 1930.

H. A. DOUGLASS, Sheriff

THE FAMILY DOCTOR
By JOHN JOSEPH GAINES, M.D.

"PSITTACOSIS"

Nothing like being up to the minute nowadays, when one can be it so quickly and economically; all you have to do is read the papers systematically during your spare time.

Hence psittacosis — understood commonly as "parrot croup." If you have a sick parrot, it isn't good policy to nose around him when he has a coughing spell, or is especially vociferous; no matter how much you love the feathered pet, you had better not put on any nocking parties with him, if he exhibits any signs of not feeling fit.

The very latest advices tell us that the danger is limited to birds that have been recently imported. It is said that no thoroughly acclimatized birds have it, or almost none. But if you have a friend visiting within 'the tropics who notifies you of the shipment of a Polly, you may indulge just a bit of apprehension—and wisely hang her in the

garage for a season after her arrival.

This psittacosis thing is described by those who have seen it at first hand as being singularly fatal, on the order of pneumonia. However, no germs such as the bird carries have been found in human victims; and that makes things all the more perplexing for the physician in charge. I have never seen a case; hope I never may. I'm just giving you such information as I have gleaned in my habit of reading everything pertaining to the welfare of my people.

I dimly remember reading of a flock of turkeys, imported from Ceylon, bringing diphtheria to America. This dread disease has been traced to eastern water from roofs frequented by English sparrows; scarlet fever the same. Modern sanitary precautions have, however, done away with the filthy cistern. Anyway, we should be constantly alert for sources of probable infection, and—avoid them.

League No. Two Hundred Nine (209), Deaf Smith County School Land, containing 177.136 acres of land, in said county of Bailey and State of Texas; levied on the 7th day of May, 1930, as the property of E. V. Crain to satisfy a judgement amounting to \$7,457.98 in favor of E. G. Rall and Tom B. Owens and costs of suit.

GIVEN UNDER MY HAND, this 7th day of May, A. D. 1930.

H. A. DOUGLASS, Sheriff

People who complain of lack of improvements in their home town often help make those improvements impossible by spending their money away from home.

The doctors say we must have proper posture. One posture that used to help maintain health was bending over the sawhorse in the back yard.

Public performers are told always to face the audience. It will help you to dodge if they begin to throw things at you.

The people of Texas become so excited over the failures of congress that they tear their hair, but it is not advisable to tear it out by the roots.

The Very Latest

By MARY MARSHALL

A type of costume that makes a strong appeal to many women this spring consists of the one-piece frock and matching jacket. The silhouette and general effect of this sort of thing are precisely those of a suit, while to some women the one-piece dress has

advantages over the separate blouse and skirt. Last spring we would have called this sort of thing an ensemble, but fortunately this word always difficult for Americans to pronounce—is heard less often at the present time and until something better is devised we must content ourselves with calling it simply a dress and jacket.

In the picture, shanting with brown and green figures is used with plain shanting for scalloping the jacket.

THE QUIET LIFE

Written about the year 1600
By William Byrd

What pleasure have great princes
More dainty to their choice
Than hermits in wild, who careless
In quiet life rejoice,
And fortune's fate not fearing
Sing sweet in summer morning?

Their dealings plain and rightful,
Are void of all deceit;
They never know how spiteful
It is to kneel and wait.
On favorite, presumptuous,
Whose pride is vain and sumptuous.

All day their flocks each tendeth:
At night, they take their rest;
More quiet than who sendeth
His ship unto the East,
Where gold and pearl are plenty:
But getting, very dainty.

For lawyers and their pleading,
They steem it not a straw;
They think that honest meaning
Is of itself a law:
Whence conscience judgeth plainly,
They spend no money vainly.

O happy who thus liveth!
Not caring much for gold;
With clothing which sufficeth
To keep him from the cold.
Though poor and plain his diet
Yet merry it is, and quiet.

SHORT STAPLE IS ROBBING THE FARMERS OF THIS AREA

By AL HILL

Avatache-Journal Farm Editor
With all the differing contentions and viewpoints of farmers, bankers, business men, ginners, cotton merchants and members of the Texas Farm Bureau Cotton association, regarding various phases of cooperative marketing, or of the agricultural marketing act and the Federal Farm Board, at least one thing has been discovered upon which all are of unanimous opinion. This one thing is the penalty being paid by the South Plains because of the

production throughout the area of entirely too much untenderable cotton. Few, however, realize the full import of how great a penalty this section is actually paying, or of the large percentage of cotton that is untenderable because of short staple.

Figuring on the basis of producers selling their cotton on its grade and staple this past season, the South Plains has lost, merely because of the difference in price offered for cotton of seven-eighths of an inch staple length and cotton below that, \$3,801,480.

Ample proof of the above statement is backed by an analysis of a government report of cotton grade and staple.

made to Farmers Gin company of Lubbock, which is typical of this area's cotton. Out of 1,616 bales tested by the government from this gin, 88.1 per cent were untenderable, 85.6 per cent of the total being untenderable because of staple under seven-eighths of an inch in length.

By giving other counties benefit of raising a greater percentage of longer staple cotton, and using 80 per cent as a conservative average for the South Plains—which many cotton men and ginners agree is likely the case—short staple cotton has this season robbed us of almost four million dollars.

LINDY DOES IT AGAIN

The "Lone Eagle" has made another long jump in the records of aviation. Col. Charles A. Lindbergh, with his young wife as passenger and navigator, flew from Glendale, California, to Roosevelt Field, Long Island, in 14 hrs. and 45 minutes, with a single brief stop at Wichita in three hours.

The Lindberghs flew at a height of from 10,000 to 14,000 feet—more than two miles up in the air most of the time. That was the secret of their speed. By flying high, Col. Lindbergh

believed, he would avoid bad weather conditions close to the ground. He holds that this flight has demonstrated that long-distance flying in the future will be at higher altitudes than has been customary, and therefore safer and more certain. Any flyer will tell you that if his engine is going dead or anything else happen which might cause a crash, he would rather be two miles up than one mile. From the greater height he has a far wider gliding area in which to angle down to a safe landing, and if he has to take to his parachute the difference of a mile or so is almost no difference at all. Most aviation accidents happen when the plane is too close to the ground to get out of trouble.

But the interesting and really important thing about this latest achievement of the young man whose intimates affectionately call him "Slim" Lindbergh, is that it demonstrates again that his position as the supreme airman of the world is not merely luck.

Thousands of envious and lazy persons dismiss every achievement of which they themselves are not capable as "luck." Thousands of young men believe that if they could only "get the breaks" they could do what Lindy has done, or Ford, or Edison. That is not true of success in flying or in any other human activity.

Lindy's success is due to the fact that he did not shirk the hard, grinding drudgery of a long apprenticeship in order to master his art. Because the public had never heard of him before he flew the Atlantic, many forget that he spent years in preparation, "harn-storming" in his own crude plane, then the grueling two years of training at the Army aviation school at Kelly field, the most difficult training in the world in a school where only one out of ten who enter ever gets through the course, then a year in the hazardous night flights of the Air Mail between St. Louis and Chicago. When a man has come through training of that sort he has learned his trade.

Instead of envying Lindy, every young American should take him as an example of what he may achieve, without means or influence, but simply through persistence and the hard work without which any sort of success is impossible.

MAKING EVERYBODY'S JOB SAFE

The weakest spot in the new economics which we have been evolving in America since the war was sharply disclosed when the financial crash of last fall threw millions of wage-earners out of work. The principles on which American industry has been rebuilt call for continuous employment, if the

worker is to be also the principal consumer.

As was to be expected, the attention of industrial leaders is now being focused upon the problem of insuring every worker's job. That must be the next step, if we are to maintain the standards we have set for ourselves. It may sound chimerical to some, but there are hundreds among the heads of big industries who believe that ways can and will be found, at least in the major industries, to guarantee every worker a minimum yearly income, sufficient to live on comfortably, and which in ordinarily prosperous times will be greatly exceeded.

Governor Roosevelt of New York in March appointed a committee to consider a long-time program for industrial stabilization and prevention of unemployment." In its first preliminary report this committee states that more than two hundred of the largest corporations in the United States have worked out plans for steady employment the year round.

L. F. Loree, president of the Delaware and Hudson Railroad, told the National Metal Trades Association, the other day, how his road has provided for continuous employment and for taking care of men who are disabled or otherwise unable to work. Mr. Loree voiced the most advanced philosophy of modern industry when he said:

"You can get more out of changing the relationship between the men and the company than out of the application of new machinery and new processes."

The people who claim the world owes them a living, should present an itemized bill of services they have rendered the world.

Cuts and Threshes All Small Grain and Seeds

WHEN you invest in a combine you want a machine that does more than head and thresh grain. You want an honest-to-goodness harvester-thresher that can harvest and thresh all small grain and seed crops year after year—under adverse as well as favorable conditions—that is able to cut the grain regardless of whether it is lodged and tangled, short, or light and fluffy. You want a combine that gives dollar-for-dollar value—and more.

The McCormick-Deering No. 8 Harvester-Thresher is the combine that never slips over the heads in lodged and tangled grain and that gets the heads in extremely short grain. It actually cuts a 4-inch stubble. The long guards raise the tangled crop—the sickle cuts it without loss—it is delivered upon a grain-tight platform canvas and carried evenly to the cylinder.

The wide, grain-tight platform canvas is the only sure method of harvesting and saving grain that is down and tangled. And it is the only way seed crops and flax can be handled. It has stood the test of harvesting and threshing all over the world for many years.

We strongly recommend the McCormick-Deering No. 8 as the harvester-thresher that will pay its way on all crops and give you a full return on your investment. Come in and see this harvester-thresher—let us go over its many features that result in cleaner grain and more profit to its owners. Examine, also, our complete service and parts departments that have been built up through years of selling and servicing McCormick-Deering Harvester-Threshers, Harvesting Machines, Threshers, Tractors, and other Power-Farming Equipment.

12 Important McCormick-Deering Points

1. Adjustable to cut low. Gets lodged and tangled grain.
2. Continuation of grain-tight platform canvas forms lower elevator canvas. No grain lost at end of platform. Large-capacity, wide elevator carries all grain to feeder.
3. Chain and slat feeder carries grain, heads first, into the cylinder. Direct front feed.
4. Spiked beater in feeder assures positive feeding and controls delivery of grain to cylinder.
5. Ninety per cent separation at cylinder. Straw and grain thus separated never mix again.
6. Four-section straw rack. Extends entire length of thresher from cylinder to straw spreader. Combs straw apart, drops it three times, thoroughly shakes out all the grain.
7. Extra long chaffer and cleaning sieve thoroughly cleans grain.
8. Revolving weed screen takes weed seeds out of threshed grain and bags them. Saves dockage and reduces spread of weeds.
9. Platform folds for transportation—does not have to be detached. No transport truck to buy.
10. A pioneer of small combines—backed by 99 years of practical harvesting-machine experience and by field tests under difficult conditions in the harvest fields of the world.
11. Expert service on the entire machine by permanent dealers and Company-owned branches.
12. Handles a variety of crops under a variety of conditions and seasons.

Town Talk

Chas. E. Ferguson of Enid, Okla., was in town Wednesday.

W. E. Ferguson, state insurance adjuster, of Amarillo was in Muleshoe on business Wednesday.

Miss Annie Woods left Thursday for her home in Seymour.

Rev. W. H. Lockhart of Abilene was here last Friday.

Frank L. Stegall of Sudan was in town Saturday.

Chas. T. Ware, C. V. Wooley and J. H. Paul of Amarillo were here Monday.

Emil Welsandt of Nebraska City was a business visitor in Muleshoe this week.

Zeb Payne of Sudan was in town Tuesday.

Mrs. Pauline L. Swaggart Briscoe of Floyd, N. M., was here this week.

J. F. Vaughan returned Sunday from a trip to the mountains of New Mexico.

J. R. Stegall of Amarillo was in town Tuesday.

T. J. Miller of Farwell was in town Monday.

W. A. Scott of Plainview was here Tuesday.

J. S. Edwards and Jno. Stages of Slaton were here Tuesday.

Mrs. Arnold Morris and children returned Monday from a visit to Mrs. Morris' mother near Wichita Falls.

A. J. DeBord made a trip to Portales Monday.

S. E. Morris and Arnold Morris returned Monday from a trip to Wichita Falls.

1929 Model A Ford Truck, motor in good shape, grain bed and good tires. \$150 down payment, balance monthly.

MATRON'S CLASS MEETS

The Matron's Class of the M. E. Sunday School met at the annex of the church for their business meeting.

There were seven members present. It was put to a vote and unanimously carried to call our class "The Builders Class".

The next meeting will be our business and social meeting at the home of Mrs. Dr. Moore, with Mrs. Moore and Mrs. Isaacs as hostesses.

Let each member of our class be present.—Reporter.

Lazbuddie News

The Lazbuddie school is very busy preparing for the close of school. The play and commencement exercises are going to make you want to come to Lazbuddie again.

Don't think the primary grades are not busy. We can sing and perform as good as anybody. Keep an eye out for us when the big folks pull the curtain. We may come out and give you a sample of what we can do.

The Lazbuddie Sunday school is wide awake. It is growing every Sunday. If you will come and be in our class once we feel you surely will want to come again.

"Fingerprints," a three act comedy, will be presented Friday night in the high school auditorium by members of the Junior and Senior classes of the Lazbuddie High school.

On Thursday night, May 15, the Freshman class of the high school will present "A Worthy Vagabond". This will be as good a play as ever put on by high school pupils anywhere.

Tuesday night of next week, May 13, there will be graduation exercises for the seventh grade. A very interesting program will be rendered by the members of the class and the services of a good speaker to deliver the graduation address will be arranged for.—Rep.

M. E. MISSIONARY SOCIETY

The Missionary Society of the M. E. church met at the home of Mrs. Wallace with fifteen members and four visitors present. The visitors were Miss Iris Harden, Meris Burkhead, Catherine Hobbs and Mrs. Edmonds.

The meeting was opened by our president reading part of the fifth chapter of Matthew, followed with prayer by Mrs. Mardis.

Each one present answered roll call with a Scripture verse. The meeting was then turned over to the program committee, which rendered their parts well. Then the business part of the afternoon was taken care of.

The society voted to meet at the church in the choir loft during the summer months.

Reports from the "dollar drive" are to the effect that seventeen dollars has been raised, and there are some yet to be turned in.

Listen, society members and ladies of the church, don't forget that the society meets at the church now, every lady of the church is welcome. Remember we start at three o'clock promptly.—Reporter.

RECOLLECTIONS OF BAILEY CO.

Just trailed across the country the nearest way when we wanted to go some place. Finally we began to get mail twice a week, this being brought to us from Bovina by Star route.

Many of the first records of the county are on file here now, and some of them are rather odd. Mr. Douglas said. None of the new officials were experienced in the administration of affairs and consequently many mistakes were made.

"The first records and legal blanks were purchased from a firm by the name of Geo. D. Barnhard," Mr. Douglas stated, "and the order was nothing to brag about as to size. The tax collections for the county amounted to slightly over \$3,600 in 1918, as the non-resident taxpayers sent their tax money directly to the comptroller at Austin. When the \$3,600 was collected I sent a check for this amount to Dimmitt, as that was the place where the money had been going before, due to the fact that Bailey county had been attached to Castro county for judicial purposes.

The new commissioners promptly ordered the check turned down and believe me, this started some hot discussion when the Castro county officials found out that they had a hot check.

"Which do you like best, the old days or the present ones?" the sheriff said. "That doesn't seem so long ago," he said, "but there were only 40 or 50 waters in the county at the time. The Santa Fe laid the steel for the new road through here along in November of that year and things began to pick up some. I put up the first store building here and the next spring two or three more houses were added to the town."

"Oh, I don't know. We were younger then but—it's mighty good to live in this day."

M. P. Smith arrived on the scene, as he says, in 1913. "That doesn't seem so long ago," he said, "but there were only 40 or 50 waters in the county at the time. The Santa Fe laid the steel for the new road through here along in November of that year and things began to pick up some. I put up the first store building here and the next spring two or three more houses were added to the town."

There were no roads and we built the prairie from Hurley, Farwell and Priona. There were no roads and we built the prairie from Hurley, Farwell and Priona. There were no roads and we built the prairie from Hurley, Farwell and Priona.

MONUMENTS

BUY HERE, SAVE AGENT'S COMMISSION AND GET A BETTER CLASS OF WORK.

Clovis Monument Works CLOVIS, N. M.

has been made the past four or five years. Our first county officers were W. M. Witterding, judge; J. E. Greenfield, assessor; C. C. Mardis, clerk; G. P. Kuykendall, treasurer; C. E. Dotson, Jno. McIntire, F. Davenport and Lee Snyder, commissioners. It seemed that we needed everything at the same time in those days. Roads, schools and churches and there was very little money. Talk about bad roads now, there are no bad roads. In those days we got along mostly with buggies and wagons and you can see signs now all over the country where the trails used to be."

1929 Chevrolet truck with good grain bed and good tires, a good truck for wheat hauling. See Walter Black at Valley Motor.

It is claimed that glaring abuses exist in America, and one of the worst of them consists of the glaring headlights carried at night by many automobiles. However, the greatest settlement

"Things happened pretty fast after we got the court house," Mr. Smith said. "More ranch land was cut up into farms and settlers came in each year. However, the greatest settlement

Valley Motor Co. CHEVROLET SALES AND SERVICE Muleshoe, Texas

As long as it does not cost any more to own the best, why not buy the best? One or more Gleaner Baldwin Combines on the job at harvest time means greater profits, less trouble, less worry, less hard work for every member of your family.

If you are planning on windrowing your crop, you will be interested in the new Gleaner Baldwin Windrow Harvester. It is built to Gleaner standards, which means that it is just a little better and costs just a little less. Cuts a 12-foot swath, weighs approximately 2,600 lbs.

The Gleaner Baldwin Pick-Up Attachment is built to work with the Gleaner Baldwin Combine. The two work in perfect harmony. Hundreds of these attachments were used last season and everywhere the verdict was "satisfaction." It is another Gleaner product "designed by Gleaner, built by Gleaner."

Where else can you buy so much Combine for so little money? The sectional drawing above may give you some idea of why the Gleaner Baldwin Combine has greater separating capacity per pound of weight and per foot of cutter bar, why it is lighter yet stronger, why it costs less and saves more.

The Greatest Advancement in Harvesting Machinery Since the First Combine

The Model "A" Ford Industrial Engine, with self-starter and equipped for Combine work, supplies simple, economical power.

The rasp bar threshing cylinder used in Gleaner Baldwin Combines is the best type of cylinder for Combine work.

This all-steel harvester unit and feeder housing has revolutionized Combine design and construction. There are no canvas conveyors or feeder rollers. It is in a class by itself.

Cut steel sprockets and roller chains are regular equipment on all important Combine drives.

The new balancing and lifting devices make the Gleaner Baldwin Combine a one-man machine.

The 1930 Gleaner Baldwin Combine is an outstanding achievement — the greatest advance in harvesting machinery since the first Combine.

It is another Gleaner Baldwin contribution in advancing greater harvesting economies — the climax of years of painstaking work.

Practically every engineering and manufacturing advancement in the building of Combines has been pioneered by Gleaner Baldwin.

Nothing has been overlooked in making the Gleaner Baldwin Combine the best that money can buy—yet the most economical in first cost and in operation.

LIGHTER AND BETTER BUILT

The Gleaner Baldwin Combine is lighter in weight, saves more grain under more conditions, is better built, provides greater threshing capacity per inch of threshing cylinder and greater separating area per pound of weight and per foot of cutter bar. It has fewer friction-creating, power consuming working parts, fewer belts, gears and drives, fewer adjustments and no universal or knuckle joints.

There are 4,992 square inches of separating area in Gleaner Baldwin separators. The separation mechanism is 13 feet long and 32 inches wide. Four distinct separation stages are made possible because of this unusual length.

Because of their light weight, Gleaner Baldwin Combines are more mobile. They will keep moving in places where

larger, heavier and more complicated machines cannot move. Their lightness makes possible their operation in tandem, saving the original cost and operation expense of extra tractors and wages for extra men.

ONE-MAN OPERATION

Because of their simplicity, skilled labor is unnecessary to operate them. The new Gleaner Baldwin lifting and balancing devices make it possible for one man to operate both the Gleaner Baldwin and tractor from the tractor platform with ease.

These and the many other exclusive features which include the original, patented, Spiral Conveyor-Feeder (which does away with canvas); the Ford Model "A" Industrial Engine with self-starter; the rasp bar threshing cylinder; the all-steel, independent self-supporting frame; ball and roller bearings; alemite lubrication; all of these make the Gleaner Baldwin the outstanding practical Combine buy today—a Combine that all farmers can afford to own and afford to keep.

BE SURE TO SEE THE GLEANER BALDWIN

Right now is the time to buy a Combine, and you cannot afford to make a mistake in choosing. That's the reason we urge that you come in and inspect the Gleaner Baldwin. Or, let us call on you and prove why you should own a Gleaner Baldwin, and thoroughly explain its many money-making and exclusive features.

WHEN'S THE TIME TO MARRY

I once did my very best to prevent a marriage.

It was immediately after the war. The young man came out of the army without a job. He owed me some money, which was incidental. I would gladly have loaned him more to get a start in business, but when he asked for a loan to finance his marriage, I refused.

"You're crazy to get married now," I said. "There are enough difficulties in keeping a marriage happy without adding worries about money. You have not yet demonstrated that you can make a success of one life, yet you propose blithely to undertake the responsibility of two. Wait awhile till you have more judgment and some savings. Then you can start right."

Thus I spoke out of my aged wisdom; and he looked at me pitifully, and borrowed the money elsewhere, and was married at once.

Recently I visited his home. He has three children. He owns his house. He has a responsible position and money in the bank. All in all, it is as happy a family as I would want to know.

I have also visited in the home of a successful man of fifty. He did not rush into matrimony. Far from it. He accumulated money, and carefully on

his guard, he looked over the whole feminine sex for many years.

Thus insured with wealth and wisdom, he proceeded at the age of forty-seven to pick himself a foolish and empty headed little girl. Already the marriage shows signs of a strain; it surely cannot last.

Earnest articles are written about the necessity for making marriage difficult. Young people should be compelled to wait, they say, until they have funds and experience.

It seems a sound argument, and yet such restrictions would have prevented the marriage of Thomas Lincoln and the birth of Abraham. They would have kept penniless Hawthorne from contracting one of the finest marriages of literary history. They would probably have postponed, if not prevented, most of the happiest unions that have taken place since the beginning of the world.

So having been a watcher of weddings for many years, I find myself less impressed with the judgement of maturity and more confident of the impudence of youth.

For what is mature judgement, anyway, but the total of our disappointments and worries, our burdened fingers and our fears?

Maturity has judgement which is the wisdom of age, but youth has instinct which is the wisdom of the ges.

Many people who spend much time in looting, can't find any time in which to work for their home town.

Progress News Notes

We had another fine rain Thursday evening. Most everyone is busy planting.

The Union missionary society met Monday at the school house with 17 members. We had three new members Mrs. Brown, Ruby Nell Morris and Alzada McMahon. After a short business session the meeting was turned over to the program committee, and a very interesting lesson for our study was enjoyed by all present.

We meet next week at the school house with a lesson from our "Voice."

Mrs. Allen Fenton and daughter and Mrs. Clarence Elmore were shopping in Sudan Wednesday afternoon.

Jannie Tuffin visited friends in Progress last week.

Mr. and Mrs. M. L. Fenton visited Mrs. Fenton's sister in Clovis Wednesday.

There was an attendance of 104 in Sunday school Sunday. Bro. Larett preached a fine sermon.

Dela Ruth Bearden, Lois McDorman, Ester and Classy Maccium, Marie and Audsen Smith took Sunday dinner with Elzada McMahon.

Mr. and Mrs. Geo. Lindsley spent Sunday with Mr. and Mrs. Tracy.

Mrs. Clarence Elmore and Mrs. Allen Fenton were shopping in Clovis Thursday.

Mrs. Clarence Brown returned last week from a visit with relatives in Plainview. Her sister, Miss Ruby Nell Morris returned with her to spend the summer.

Ella Mae and Julia Belle Morgan spent Sunday afternoon with Pauline Burton.

J. J. Gross and family spent Saturday night with T. L. Snyder.

There will be a Mother's Day program Sunday night, May 11th, immediately after league.

George Gross visited Deray Good Sunday.

Mr. and Mrs. Smith and family took Sunday dinner with Ray Good and family.

Mr. and Mrs. Chas. Alexander took dinner with Mr. and Mrs. Geiddon Sunday.

Mr. Emil Wellisandt and Mr. Horn Guthals of Talmadge, Neb., are visiting in the T. L. Snyder home this week.

Mr. and Mrs. H. V. Snyder, Mr. and Mrs. Frank Snyder, Emil and L. L. Wellisandt and Harn Guthals spent Sunday with T. L. Snyder and family.

Mr. and Mrs. T. B. Morse spent Sunday with W. H. Snyder.

M. L. Fenton and L. L. Wellisandt

were business callers in Farwell Thursday evening.

Mr. W. C. C. Elmore is visiting his son, C. W. Elmore, and family this week.

We are sorry Mrs. Stovall is on the sick list this week.

Buster Reid who is working at the Hammonds service station in Muleshoe visited in Progress community Sunday evening and night.

Mrs. Clarence Elmore and Mrs. Allen Fenton were visiting in the circle-back community Saturday afternoon. —Reporter.

The American people are not much excited about the scarcity of timber supplies for building materials, but they will arouse themselves to action if it endangers the supply of baseball bats.

Postal Employee Enthusiastic About Konjola

Stomach And Bowel Troubles Soon Banished—"Should Have Taken New Medicine Long Ago," He Says.

MR. FRANK B. NORMAN

"I suffered for a long time with stomach trouble," said Mr. Frank B. Norman, 828 Mississippi street, Amarillo. I had a very poor appetite and after eating I was subject to painful accumulations of gas. I was becoming very nervous and did not sleep well at night. I was troubled with constipation and found it necessary to take cathartics constantly. I was losing strength and energy and no matter what I tried in the way of medicine nothing seemed to help me.

"I seemed to improve in health from the time I began taking Konjola. My appetite picked up and I was able to assimilate my food better. I did not have that tired out feeling in the morning and my work was easier and more pleasant. Constipation soon passed and cathartics were no longer necessary. After continuing the treatment for a time I realized that Konjola was the medicine I should have taken long ago. I am continuing to take Konjola and am recommending it to all my friends."

Given a real trial over a period of from six to eight weeks, Konjola has made a record without parallel in the history of medicines. Ailments of the stomach, liver, kidneys and bowels and rheumatism, neuritis and nervousness readily yield to its power.

Konjola is sold in Muleshoe at McCarty drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

Baileyboro News

Let us not forget that Sunday, May 11th, is the regular singing day now since the date was changed in order to have cooperation with neighboring communities. Be sure to be here at 2:30 for we must start promptly.

The president of the Baileyboro school trustees, Mr. G. J. Garth, announced that the school faculty for the 1936-37 term had been designated. There were no changes, only with the possibility of being obliged to add another teacher due to the crowded condition.

Those constituting the teaching staff are as follows: Warren Powers, superintendent; Mrs. Ruby A. Powers, seventh and eighth grades; Miss Lillian Reid, intermediate grades; Miss Mattie Reid, primary grades.

Miss Grace Brandon of New Mexico was a Baileyboro visitor the past week. School closes May 16th. Arrangements are being made for the closing exercises. The seventh and eighth grades are in array on Thursday night. They are staging a very clever little play entitled "Patty Saves the Day." There is also other attractions of the evening.

On Friday the primary and intermediate grades render their program. We also hope to have some speakers for the day. There will be dinner on the grounds and a baseball game. The school boys are anticipating a game with the outsiders.

Then Friday night the high school folks will present a very striking play, "The Worthy Yeagobond." This play will assure you a full evening's entertainment.

Mr. and Mrs. Powers and the Misses Reid were Lubbock visitors last Saturday.

Messrs. C. F. Garth, H. T. Davis, J. J. Howie, Charlie Crane, J. B. Miller and Willie Travis were New Mexico prospectors last week at Tres Degunas, Vaughn and other points.—Reporter.

CARD OF THANKS

We wish to take this means to thank the many good people who contributed to us after we had the misfortune to lose our home by fire.

AN ESSAY ON EGGS

A Kansas essayist has this to say of the egg:
"An egg is composed of four parts: the shell, the yolk, the white and the price. The shell is very fragile like one of the Ten Commandments, and can be broken without an effort. The price is the biggest part of an egg and its greatest protection. The price alone has saved millions of young eggs from being boiled and eaten. Eggs are very delicate and spoil very quickly. When an egg spoils, it puts its whole heart into the performance. One can tell a spoiled egg as far as it can be seen—and with one's eyes shut at that, if the wind is in the right direction. There was a time when everyone ate fresh eggs in summer and went without in winter. Nowadays, however, business methods have led men to buy all the fresh eggs in summer and store them until winter when they have acquired a rich, russet flavor."

PORTALES RANCHER DRAGGED TO DEATH BY SCARED HORSE

Portales—The body of Grover Bell, about 56, was found on the Greathouse ranch, 26 miles west of here Tuesday where he had been dragged to death after the horse he was riding stumbled. Caretaker of Owenby and Young cattle on the ranch, where he had worked for six years, Bell went out on his horse Monday morning. Some time later, the horse returned to the ranch house. When the rider failed to appear Monday night, ranch employees feared an accident. A searching party Tuesday found the body. Marks on the ground and grass showed where the horse had stumbled. Held by the foot in the stirrup, the foreman was dragged 100 yards to death. A foot had slipped from the boot which was found 15 yards from the body. The route of the frightened horse after he fell was plainly marked by the dragging of the body and shreds of clothing.

LARGE ATTENDANCE FOR SATURDAY TRADES DAY EVENT

Streets were crowded last Saturday for Muleshoe's Trades Day and business in all lines was good. Plenty of rain had cheered everyone and the fact that conditions promise to be better than expected some weeks ago helped to make the Saturday crowd a cheerful one. The winners in the drawings were W. B. Harlan, who received \$20; Henry Burch, \$10; Woodrow Gnaede, W. J. Coffman, Mrs. Day and J. S. Glasscock, \$5 each. For Sale—Five good milk cows, all in good shape. See L. E. Ragsdale at Valley Motor Co. **FLAGG WINS OVER MULESHOE** The Muleshoe baseball team played a fast game at Flagg last Sunday against the team of that place. The

score being 5-4 in favor of Flagg. As the season progresses the local boys are looking mighty good, according to Manager Garrett. To date no games have been arranged for next Sunday but it is probable that there will be a game on the local field.

1936 Chevrolet Truck, thoroughly checked and bearing our famous red OK tag, good grain bed and good tires. \$550. Valley Motor Company. For sale—One good dairy cow giving five gallons of milk daily. See L. E. Ragsdale at Valley Motor Co.

THE NEW DRESSES FOR SPRING LEAD THE RANKS OF FASHION

Price **\$6.90**

You will start your Spring wardrobe off smartly and delightfully if you choose one or two of these charming graceful models that our New York Stylists sponsor! Sprightly colors and advance styling that will be seen at fashionable places. Aquatone, pie crust, firebrand, sprig and rose mist are but a few of the alluring shades that you will find in plain colors and printed patterns. The styles are widely varied . . . for every occasion. And the price is modestly low . . . as you will agree when you see them.

You CAN BUY A NEW SPRING COAT for only \$6.90

Really, we feel so boastful about these splendid Spring coats priced so remarkably low . . . you'd better hurry down to see them for yourself! Swagger tailored coats of tweeds and novelties . . . dressy coats of light weight wools . . . some with belts . . . some with fancy collars and cuffs—all excellent examples of what the clever woman can do with fashion on a modest budget.

Other Coats at \$9.90 and \$14.75

J.C. PENNEY CO.
415 to 419 Main Clovis, N. M.

To Our Many Customers

Every person in our whole trade territory is a prospective customer.

To make them satisfied customers it is only necessary to offer a variety of bread that will appeal to them.

To many people, bread is just "bread," a staple article of diet, but a loaf of bread different in taste and looks means quality. So, that is what we are about to offer soon. Watch for the new loaf.

Kennedy's Bakery

Marriage vows might be a trifle more accurate if the phrase were changed to read, "Until debt do us part."
