Soash Officer to Bond Himself to Complete Railroad to Lamesa

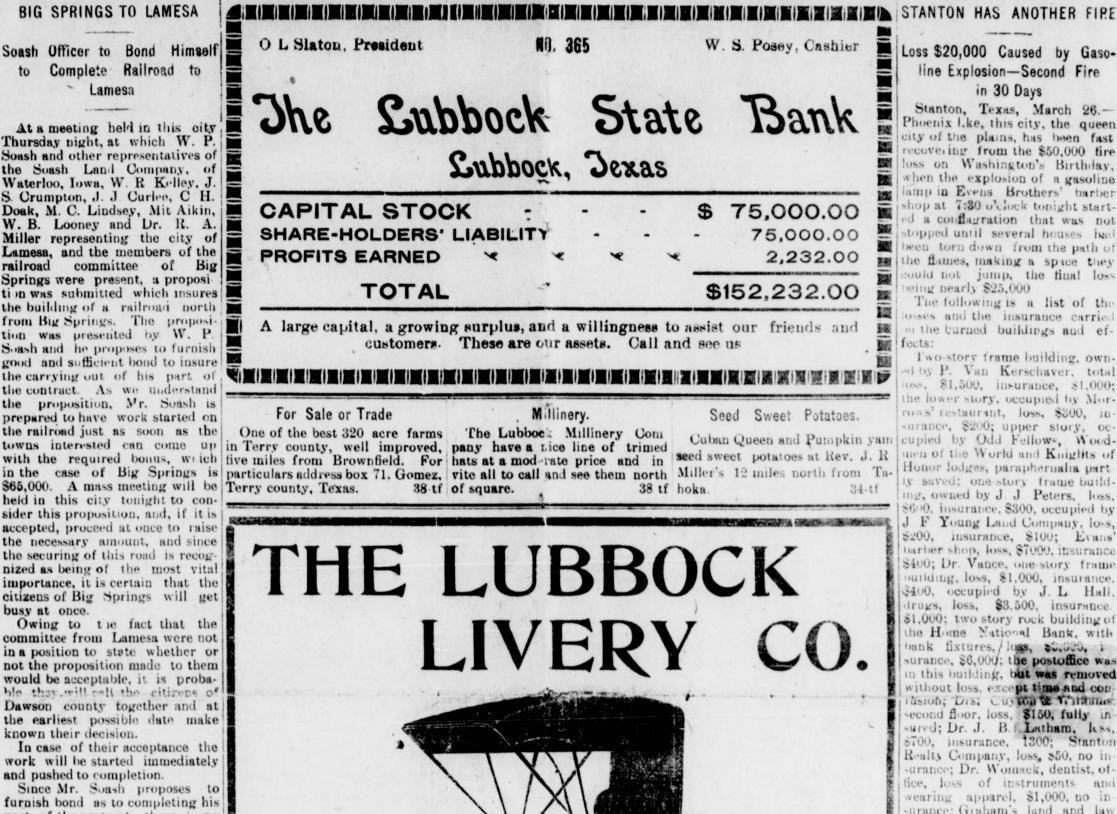

**BIG SPRINGS TO LAMESA** 

At a meeting held in this city Thursday night, at which W. P. Soash and other representatives of the Soash Land Company, of Waterloo, Iowa, W. R. Kelley, J. S. Crumpton, J. J. Curlee, C. H. Doak, M. C. Lindsey, Mit Aikin, W. B. Looney and Dr. R. A. Miller representing the city of Lamesa, and the members of the railroad committee of Big Springs were present, a proposition was submitted which insures the building of a railroad north from Big Springs. The proposition was presented by W. P. Soash and he proposes to furnish good and sufficient bond to insure the carrying out of his part of the contract. As we understand the proposition, Mr. Soash is prepared to have work started on the railroad just as soon as the towns interested can come up \$65,000. A mass meeting will be Terry county, Texas. held in this city tonight to consider this proposition, and, if it is accepted, proceed at once to raise the necessary amount, and since the securing of this road is recognized as being of the most vital importance, it is certain that the citizens of Big Springs will get busy at once.

Owing to the fact that the committee from Lamesa were not in a position to state whether or not the proposition made to them would be acceptable, it is proba-ble they will cell the citizens of Dawson county together and at the earliest possible date make known their decision.

In case of their acceptance the work will be started immediately and pushed to completion.

Since Mr. Soash proposes to furnish bond as to completing his part of the contract, there is no chance for the people to lose anything, but on the other hand they have everything to gain. A rousing meeting will be in order at the mass meeting tonight and everyoue interested in the up

Good Attendance and Bidding Lively, Considering the Unpleasant Weather

Monday was the regular sales days in Lubbock, and a good attendance of the town people and a number of country people, was had. Many things were put up and sold and brought good prices.

Work for the interests of Lubbock, and you work for yourself.

John W Dale has sold his paper which he has been running in Pooleville the past year.

Many people are coming to Lubbock county, and almost every one has nice things to say about the good citizens say they will the town, the people, and our balmy weather.

If some people would do more and say less about the "welfare of the citizens of Lubbock and the town" there would be a vast improvement of condition around Lubbock.

The present indications are that this is going to be a great year for Lubbock and the Lubbock country, and you can do a great deal try, and you can do a great deal glory, well we would rather have for the town and community, if cash. We have been criticised you will get up and get at it. for the publication of some arti-Dirchaa sluggerl, but mike yourself a live wire for the development of one of the finest countries in the world-the plains.

An Amarillo jury has placed a penalty of "\$100 fine and sixty days in jail" on one of the violaters of the local option laws in that town. The one hundred dollars will not hurt the "guy," but that sixty days in jail is humiliating, we guess. "The way of the transgressor is hard."

Mr. County Commissioner, suppose you look into the matter of fixing up the interior of the court house little at the next regular meet ing of your honorable court! Lubbock is now getting to a point in population and prominence that she deserves better court house

accommodations. The people of the town and county want it.

Tahoka is having troubles of her own now, some one has intimated that they Pre going to put in a pool hall in that little city and not stand for it. It is indeed a sad thing that there is not laws sufficient to sustain the desires of the people along this line, but there is not, and we have to be good. That's all.

The Avalanche is for the upbuilding of the town, we work from one years end to the other for the town, we have no pets, and we are running this paper principally for the money there is in it, as our health is as good as any one could desire. And as for cles of late, but we are used to such things, and they do not effect us in the least. If those whe criticise have anything to say, and it is within the bounds of deacen-

not true, but we are rather anx-ious for the people to discuss such propositions as are of public interest. Where matters of purely personal nature appears we draw the line. We are not here to raise a fuss with anyone, we like to see the town, grow, and we are anxious to promote harmony among the citizenship, as best we can. We believe in some things that our readers probably

see different, and we give then the privilege to think as they please, and we should be given the same. If men get mad because we do not believe as they do, it merely shows that they are narrow, and lacking in the broad principals that it takes to make progressive, loyal, enterprising citizens.
