The electrically Strength Simplicity of Construction plus the best materials and workmanship. The electrically welded fence is the strongest fence, the most economical fence, the most durable fence ever made. You don't have to pay for bunglesome wraps, ties, or twists, which add nothing to strength, and which detract from good appearance and from durability. The "Pittsburgh Perfect" Fence Is One Solid Piece of Metal Throughout the wires being electrically welded at every contact point. The weld is even stronger than the wires. Line and stay wires are of the same size—this counts for strength. It is proof against stock, time and wear. Every wire is made of open hearth material—conceded to be far superior to—stronger and tougher than—Bessemer steel. Every wire is galvanized by the most improved process. "Pittsburgh Perfect" Fences are made in 73 different styles for every fence purpose. Don't buy any fence until you see the "PITTSBURGH PERFECT"
