The Avalanche has no apology to offer for using for the front page editor this week the mail order man. We shall handle this man with due respect to every letter of this paper, but we hope to be able to point out to those who have been in the habit of sending their money away from home for articles that they can get at home that it is wrong and unwise to do so. Through the lack of loyalty to our home industries, when they are in a slump, and the consequent loss of production, we have had a most unprofitable month, a certain amount of money that is elsewhere, we do not have more than a few cents against all the orders for material we have shipped. We are skeptical of the mail order man, and we tell you that you are familiar with their books with tally, their line of conceit in a great big order for has no brand or mark would identify it with of merchandise. About six weeks ago a ship a car from town and who bit. You were when You high ally rd not

that are bearing the brunt of improvements. You are weakening the community in which you live. You are kicking the very fellows that helped you to have a good school in your community by contributing to the purchase price of the building in which you conduct your school; you are choking the life out of those enterprises that build up the town, and are instrumental in the development of the entire county. You are unkind enough to say that the local merchant is a robber, that he holds you up in broad open day light and takes the money out of your pocket.

Put into practice the golden rule and do unto others as you would have them do unto you. You complain mightily if the local man will not buy all the produce you have to sell, and make a mighty roar if perchance you buy something from him and he happens to make a slight error in putting up your order, and in certain seasons of the year if he does not keep you supplied with fresh goods that you cannot get from the peddler, you have doubled geared spasms, condemn the merchant, accuse him of not being up to the minute and talk hard about him. We appeal to your common sense if you have any and ask you to look at this matter from the point of view that every true citizen does other matters pertaining to the betterment of the country.

Buy your supplies from those who are willing at all times to let you when assistance is needed should the time ever

TO

A community of interest prevails between the railroads and the people. Unless the people prosper the railroads cannot hope to prosper. On the other hand, unless the railroads are permitted to earn sufficient money to give good service, the people cannot enjoy the full measure of prosperity. Railroads are today operated under the strictest of regulations. They cannot charge one cent for any service that is not authorized by officers chosen by the people. In law and good morals, these officers of the people who fix the charges that can be collected by the railroads for services performed, must fix such charges high enough to pay all legitimate operating expenses, plus a profit that will pay a reasonable return on the value of the railroad property devoted to the use of the public.

Suppose the Legislature should pass a law taking from the pockets of the people a million dollars a year to pay the salaries of public officials not needed at all, nor whose services could be utilized in the interest of the public in any manner, would such a course be approved by the people as a whole?

CALLS SPECIAL SESSION

The State Legislators are Summoned to Convene July 21 to Atone for Delinquencies

Austin, July 7.—Governor Colquitt today issued the following proclamation: Whereas, the thirty-third legislature adjourned the regular session thereof without making appropriation for the support of the state government, as provided by the constitution shall be done.

Now, therefore, the failure of the legislature to pass such appropriation bill creates an extraordinary occasion, justifying the governor to convene the legislature in extra session, and I do hereby call the same to convene in the capitol in the city of Austin beginning at 10 o'clock a. m., Monday, July 21, 1913, for the following purposes, to-wit:

- 1. To make appropriations for the support of the state government and its institutions, and the repair, restoration and erection of necessary public buildings, for the fiscal year beginning Sept. 1, 1913, and ending Aug. 31, 1915.
- 2. To pass a law providing for and regulating the election of United States senators from Texas by the people thereof, as provided shall be done hereafter by an amendment to section 3 of article 1 of the constitution of the United States recently declared ratified and adopted by three-fourths of the states in the union.

- 3. To revise or amend the provisions of the law now governing the management and control of the penitentiary system as embraced in chapter 10, acts of the fourth called session of the thirty-first legislature.
- 4. To consider and act upon such other matters as may be presented by the governor, pursuant to section 40 or article 3 of the constitution of Texas.

O. B. COLQUITT, Governor of Texas.

THE REVIVAL SERVICES

Will Continue Through This Week—Closing Service Sunday Night

The Methodist protracted meeting will continue the balance of the week and will include Sunday evening services. The operation of services at the public places has been pay. In one instance, and by the public officials, the rates fixed by public ed by the railroads.

It is just as impossible for the courts and juries to back upon the railroads as it is to place the burden of the same time placing the burden of the producers and shippers to create new public offices and taxpayers to be relieved of the expenses of each place.

Under the present system in Texas, the State Tax Board in consideration the appropriation of the Legislature and levies a tax high enough to bring in sufficient money to meet the expenses of the government.

In fixing freight rates, the same rule applies. The commission, after ascertaining what the railroads have to pay out for operating expenses, taxes, personal injuries, etc., fixes the rates high enough to pay all

THE CIVIC LEAGUE

Interesting Meeting Held Saturday—Mrs. Wheelock Resigns as President

The Civic League met in regular session at the court house last Saturday and quite a good attendance was had. Mrs. Wheelock the president and Mrs. Craig, vice president being absent. Mrs. F. C. Stubbs was selected as temporary chairman and presided over the meeting.

The committee for securing money for premiums reported that the necessary amount had been subscribed and a nice balance over. It was voted that a prize of \$1.00 be offered by the league to the girl within the scholastic age who made the best yard of crochet. The committee of inspection in the sanitary contest reported that the first tour would be made this week sometime. A motion was made that the county health officer not overlook the matter of strict sanitary inspections of the town and requested to see that such places as the dairies, slaughter houses, meat markets, etc., be kept in a healthy condition.

It being thought best to amend the constitution, changing the day of the week on which the league would meet resolutions were drawn to that effect and will be voted on at next regular meeting the proposed change being from Saturday to Wednesday.

The league regretted very much to receive the resignation of Mrs. Wheelock, who has been president of the organization from its beginning.

The league adjourned to meet again Saturday July 19th at 3:30. Don't forget the date the time and the importance of being there at the appointed hour.

LUBBOCK SCHOOL ONE OF THE BEST

PEOPLE ARE CO-OPERATING NICELY WITH THE SCHOOL BOARD AND IMPROVEMENTS ARE BEING MADE

FACULTY IS ATTENDING NORMALS THIS SUMMER

The Teachers Are Doing Their Best to Make the School Better Each Year. The New Catalogue is Now Ready For Distribution Every Patron Should Have One

We have one of the best schools in west Texas now, and the prospects are good for the coming term, to be the best in its history. The Mothers' Club and other friends of education are improving the school grounds and the building is being repaired, books have been added to the library and many other improvements are being and will be made before the fall term begins. The teachers of our children should be full of health, hope, sunshine and good cheer. They must enlist the good will and sympathy of the young. Pupils should look to them, not as masters to drive them and to exact penalties, but as friendly companions and leaders, with strength of character enough to hold respect—teachers who inspire, guide and direct the pupils to higher and nobler things—teachers who have learned to see and to appreciate the beauties of nature and the power to lead pupils to do the same, ever looking upward, lifting upward and pointing to higher things, hence many of our teachers are attending school somewhere this summer to better prepare themselves to meet these demands.

Mr. and Mrs. Wester, Messrs. Brown, Atkinson, Webb, Misses Walker and Collins are attending the West Texas Normal. Mr. Bowers the history teacher is in the State University. Miss Beard is attending the University at Columbus, Ohio, and Mrs. Norton the Summer Normal at

Abilene, Texas, and perhaps other of the teachers are attending school somewhere of which we have not been apprised.

The day of mossbacks in education is gone and the live and sincere teacher will be found attending school, when possible, and will be found at the teachers' meetings and associations. He will take pride in his professional library and be alive to educational progress. The teacher who is ambitious enough to improve himself who seeks to do his best to advance in his profession will kindle more ambition in the lives of his pupils and make higher types of men and women.

The teachers are doing their part to make the school better so let the patrons and friends of the school fall into line and do their part. Let us co-operate with them in making Lubbock an educational center. The Board has been careful in the selection of the teachers and has tried to select none except those who are qualified and worthy and the people should and will stand by them in the management of the school. Let us all pull for Lubbock, its schools and other legitimate institutions. Come to Lubbock.

The catalogue for the 1913-14 term is just off the press, and if you will call at the Avalanche office, or any of the drug stores you can secure one. It is important that you as a patron of this school have one of the catalogues, and the sooner you procure it the better.

Our Market Letter

Special to the Avalanche:

Kansas City Stock Yards, July 7, 1913—Cattle receipts at all points today were very light, and the market here was 10 to 25 cents above last Thursday. A rather unsatisfactory market last week, together with plentiful rains all over the pasture and corn country, reduced incentives to ship to a minimum. Buyers overreached themselves last week in bearing down on prices, figuring on a normal supply today. They were able to act as they did last week account of the week end holiday, but today found them in the saddle early, and with rush orders. Native steers sold at \$8.75 in two cases, a large number of fed steers at \$8.40 and upwards, yearling heifers at \$8.50 to \$6.50, veal calves at \$3.00. In the south, 239 cars arrived, 239 cars sold. Some caked is so. Some 963 steers and cows, Oklahoma, standing from some benefit steers at \$8.00 and upwards, yearling heifers at \$8.00 and upwards, veal calves at \$3.00.

GENERAL MARKET

was expected. The close of the market today was its strongest time, and unless there is a good run later this week further advances will be in order.

Hog receipts were also light, at 4000 here, and the market 15 higher, top \$8.92 1-2, but \$8.85 to \$8.90. Packers restrained themselves today, account the small supply, but a fair tomorrow will sell sharply higher again. Spectators were principal buyers today, and general expectancy of higher prices later in the week.

Sheep and lambs, week day 4000 head, in prices to higher. Spring lambs 15 to \$7.25 today, Texas up \$4.75 to \$4.85, native ones worth up to \$5.00, ewes for best. Black face breeders, good mouths, may be at \$3.25 to \$3.75.

PRINTERS' INK

Printer's ink is a great salesman, and it is the cheapest merchant can employ. It carries the message of the bargain counter to the people, brings the show window to the home and teaches all our citizens important lessons in economy.

The local paper is the best salesman a merchant can engage. Its services are always available, and through it opportunity continually knocks at the merchant's door.

No merchant can become a power in business unless he advertises. He cannot hope to draw trade unless he illuminates the pathway to his store with the shining light of publicity. Success does not search for men in dark places.

Do not believe that an arbitrator could be laid down for a sentence that would fit every case, but no yearly budget is well balanced that does not contain a heavy item for advertising. Many successful merchants set aside 3-1-2 per cent of their annual sales for advertising, and the results prove it to be their best investment.

Some merchants depend upon their personality, business influence and their acquaintance in the community to draw trade, and these are desirable factors that every merchant needs, but the price and quality of the merchandise set forth in the local paper in convincing language and attractive style is far more overpowering and far reaching, and is the greatest asset a store can possess.

The merchant should make his local paper the right arm of his business and he who fails to do so neglects a great opportunity.

ARE NOT SLAVES OF FASHION

In China a Man Can Dress as He Pleases Without Attracting Attention.

The fashions in Suchien, Kiangsu province, have a variety of such extent that every man can dress according to his individual choice and still be in correct taste and without attracting special attention from anybody else. In other words, the styles this year are of personal ideals, according to a correspondent of the British China Daily Herald. He says that every man wears what is right in his own eyes, and there are few if any, to ridicule. A Panama hat goes jauntily down the street, closely followed by a fur-covered brim hat, felt hats of scarlet and verdigris green come along with gray and brown hats that do the hatter credit for unique invention. These, with the Eskimo top capes, a few derby hats and the smart military uniforms, give the streets a piquancy which was unknown in the monotonous china blue of former years.

Among the notices posted on the city gate is a fashion plate that has been exhibited for weeks. It displays two or three of the typical "western suits"—the swallow-tailed and the low-front frock for evening wear—street garb of European and American style, and many other varieties. There one also finds the plaited skirts recommended for the women, and close by them is the proud silk or stovepipe hat of felt, which has its special corner with other headgear.

STRIKE WON IN 20 MINUTES

Union Is Formed and Disbanded Within Short Time After Cause Is Won.

A story comes from Sydney of a union that was formed, strike declared and won, the union dissolved, all inside of 20 minutes. The strike was of theater-goers in Mt. Gambler, in South Australia, and was against the management of a barn-storming troupe. The management asked two shillings for admission to the show, but the prospective audience refused to pay more than one shilling, and after a hasty consultation outside the theater formed a "theater-goers' union." Pickets were stationed and within a few minutes 278 persons—practically all who were there—had agreed not to pay the two shillings. The manager appeared at the doorway and refused to make the required reduction.

"I'll give you till I count 20," said the president of the union, "and after that our price will be sixpence instead of one shilling." He counted aloud to nine, when the manager capitulated.

The strike was declared at once and the union dissolved and the strikers trooped into the hall.—New York Tribune.

Still Willing to Be Imposed Upon. He had youth and much faith and inexperience, but his good father took him into his office to initiate him into the mysteries of business.

The second day he was at work a man came in seeking for financial aid, with a pathetic story about a sick wife at home and six helplessly small children without a crust in the house.

The boy listened earnestly and then went into his dad's office to intercede for the unfortunate man. He told the sad story seriously. The father leaned forward and peered into the outer office at the vagrant.

"My son, credulity is one of those good things that die young—and it is such impostors as that man who make it so," he said impatiently. "Why, when that man was here last week he had eight children, according to his story."

"But, father, don't you see," replied the son tragically. "The other two probably died of starvation."

Borden Loses Two Bridges
The rains in Borden county were harder last Sunday than first reported and did considerable damage to crops, fences, roads and bridges. A twelve inch rain is reported on the head of the Colorado river in the west side of the county. Two steel bridges and the wooden approach to two others were washed out. It is estimated that the county lost in bridges and road damage \$10,000. The commissioners' court met promptly to open the roads for travel. The mail failed to get through one day.

These are the first general rains this year. Part of Borden county has no grass or crops but this rain seems to be general over most of the country.

No More Parcel Stamps
No more parcel stamps will be issued. Orders have been issued by Postmaster General Albert S. Burleson to the effect that the ordinary stamps shall be accepted as parcel post stamps. The parcel post stamps on hand will be sold, after which the ordinary stamps will be used.

The revenue from the sale of all stamps go into the general revenue of the postal department, and there is no necessity of having two different kinds of stamps, according to the postal officials.

Badly overstocked on window weights and will sell in quantities at 1c per pound. Write M. Pierson, Abilene, Have 6, 7, and 8 pound weights.

Attorney Scent Rodents
Attorney General Looney has advised county officials to be on the lookout for all those dealers who had taken out a \$4,000 license for selling non-intoxicating drinks in local option territory. He also asked that any infringements be reported to that office immediately.

In his notice he said: "The department expresses the belief that it is impossible for a concern to prosper by the sale of non-intoxicating malt drinks and pay therefor a \$4,000 tax. The department further believes that under the substantial non-intoxicating license is the evident purpose to sell drinks."

C. E. Ray, Sheriff of Borden county left on the morning train Sunday.

THE COMMUNITY SPIRIT

One of the things which a stranger notices on coming into a community, aside from the general appearance of the streets and buildings, is the spirit which prevades the community spirit. Upon that spirit depends the attitude of the stranger, whether he cares to remain, invest his money, and make it his home.

What is community spirit? It

is the composite of the spirit of the individuals of the community. In other words, each individual has a part in the makeup of a town. Through each one the world gets its impression of the community. When the cook makes a cake, she mixes the various ingredients until they are properly blended. Each ingredient has something to do with the taste of the cake. So it is true of a community. Therefore, for the sake of our city, everyone should feel called upon to work for its advantage and prosperity. To make life worth living, each should be the highest type of Community Spirit.

Your Chamber of Commerce has been organized along these lines. It stands ready to spend money and time for the advantage of the city and surrounding country. What it does, is not for the advantage of the few, but of the many. It will make mistakes, perhaps many, but the men behind it are in earnest in their efforts to develop Lubbock interests. And then our greatest glory is not in never falling, but in rising every time we fall.

What the rudder is to the ship, a Commercial Club is to a town. And every business man and property owner in Lubbock and surrounding territory should be unanimous to get behind this club, and push to the very last to see that it is maintained. There is no two ways about it, we can just as well have one of the liveliest cities in West Texas, if the right effort is made. The opportunities are here, the land,

the water and the climate. What more do we want? We want the get-together-spirit, not only in a part, but the whole.

New, altogether, "PUSH!" And keep it up, everlastingly, eternally! Get the thought, "I am a part of the Community Spirit."

For hundreds of years wood has been the choice of discriminating builders and during all this time the manufacturers of lumber have been studying ways and means of improving their product until now they seem to have reached the goal of perfection. Through scientific management and conservative cutting of their lumber they are keeping the cost of production down to the minimum and are producing quality that is almost marvelous. In view of these facts lumber is more than holding its own against all substitutes and is today the most reliable building material you can select. There's No Place Like Home

W. C. Bowman Lumber Co.

LUBBOCK, TEXAS

To The People of Texas:

A community of interest prevails between the railroads and the people. Unless the people prosper the railroads cannot hope to prosper. On the other hand, unless the railroads are permitted to earn sufficient money to give good service, the people cannot enjoy the full measure of prosperity.

Railroads are today operated under the strictest of regulations. They cannot charge one cent for any service that is not authorized by officers chosen by the people. In law and good morals, these officers of the people who fix the charges that can be collected by the railroads for services performed, must fix such charges high enough to pay all legitimate operating expenses, plus a reasonable return on the value of the railroad property devoted to the use of the public.

Suppose the Legislature should pass a law taking from the pockets of the people a million dollars a year to pay the salaries of public officials not needed at all, nor whose services could be utilized in the interest of the public in any manner, would such a course be approved by the people as a whole?

We think not.

The operating expenses of railroads affect the public just as much as the taxes they pay. In one instance the taxes are collected by the public officials; in the other instance the rates fixed by public officials are collected by the railroads.

It is just as impossible for the Legislature or the courts and juries to impose unjust burdens upon the railroads without at the same time placing the burden upon the shoulders of the producers and shippers, as it is to create new public offices and expect the taxpayers to be relieved of meeting the expenses of such offices.

Under the present system of levying taxes in Texas, the State Tax Board takes into consideration the appropriations made by the Legislature and levies a tax high enough to bring in sufficient money to meet the expenses of the government.

In fixing freight rates, the same rule applies. The commission, after ascertaining what the railroads have to pay out for operating expenses, taxes, personal injuries, etc., fixes the rates high enough to pay all

such expenses, and in addition thereto, a fair return on the value of the property used for the public. Therefore, the higher the operating expenses, taxes, and personal injury payments, the higher must be the rates the people have to pay.

It is the sincere desire of the managers of the Texas railroads to give the public good service, and at the least possible cost to you. And we respectfully and earnestly ask you, in your own interest, to assist us in doing so, and thereby protect yourselves against unjust and unnecessary burdens.

We desire to express our appreciation to the producers of Texas who have aided us in our study of the question, and have taken prompt action to protect themselves from the infliction of unjust and unnecessary burdens.

We respectfully ask you to study the question "closely" and to search and question the rates so much in question between the railroads and the producers, and to stand and close your eyes to the benefit all concerned. GENERAL MANAGERS TEXAS RAILROADS.

GET IT AT HOME
Some fellow argues that he
buys from the mail order house
not because the local merchant
asks too much for his goods. If
all those who buy from mail order
houses would turn their money
spent there into the channels of
the local merchants and pay for
what they get, the local man
would be able to reduce his im-
portances within a short time to
the level with any of the mail
sales concerns. Trade at home,

vertia ose who buy at home are
draw ds of home industry. Those
the who make a habit of sending
away are not friends of home in-
dustry. Those who trade at
home help build up the home
town and country. Those who
send away are helping build up
some other section. Yet those
who send away for their stuff ex-
pect the home people to boost
them and play them up and help
make them prosperous. That
which helps the home business
man helps the whole community.
That which causes business to
be dull and things quiet in the
home town, hurts every business
institution in that town and the
whole community suffers. The
called cheap prices gained by
ending away from home for the
goods are dear in the end when
the man is footed up and the
places where you should trade
at home are burdened by lack of
trade and you howl because there
is nothing going on to attract the
people to your own community.
Such a fate always follows the
habit of sending your money
away from home. The prosper-
ous, wide awake community is
the one where the people are
spending their money at home. —

Will Locate Here
Fred Meyer of Colorado,
Texas who is one of the most
widely known boot and shoe
makers in this state was here
Thursday and Friday seeking a
location for a boot and shoe shop,
and decided to locate in Lubbock.
He is well known to a number of
the cowmen, cowboys and others
throughout the Lubbock trade
territory. He will be here with-
in the next thirty days and open
his shop. He does not know just
the location in town, but will
announce it later.

TRUE MEASUREMENT
The place to take a true man's
measure is not at the market
place or in the amen corner, nor
in the forum of the field, but by
his own fireside. There he lays
aside his mask and you may learn
whether he is imp or angel,
king or cur, hero or humbug.
We care not what the world says
of him—whether they crown
him or pelt him with bad eggs;
we care not a copper what his
reputation or religion may be; if
his babies dread his home com-
ing; if his better half swallows
her heart every time she asks
him for a five dollar bill, he's a
fraud of the first water, even
though he prays night and morn
till he is black in the face and
howls hallelujah until he shakes
the eternal hills. But if his
children rush to the front gate
to greet him, and love's sunshine
illuminates the face of his wife
when she hears his footsteps, you
can take it for granted that he
is true gold, for his home is a
heaven and the humbug never gets
that near the great white
throne of God.

ON SLIPPERY-GROUND
The worst habit that boys can
fall into is that of loafing around
on the streets at night. It is
then they cast their lot in slip-
pery places when at any moment
they are likely to fall from grace.
All good and noble lessons taught
them by their mothers are there
counteracted and nullified. They
learn nothing that is good—but
everything bad. The boys who
spend their evenings in the
sacred precincts of home with
good books for their companions
are the future hope of the re-
public; they will fill our legisla-
tive and congressional halls, and
sit in judgment upon men and
measures, while the boys who
run the streets will fill our peni-
tentiaries, almshouses and lunatic
asylums. Parents who are
responsible for these broken
laws of decency will have broken
hearts and bowed down heads in
the awakening years that will
inevitably follow.

No matter how large a mem-
bership a commercial organiza-
tion may have the active work
will always be accomplished by

ber be a live one in the Lubbock
Chamber of Commerce and all

our city.

There are three constitutional amendments to be voted on Saturday,
July 19, 1913.

The first amendment relates to the judiciary. The only changes of
importance proposed is that if this amendment is adopted more than one
judge can be elected for each judicial district, and instead of requiring two
terms of the district court in each county each year, the terms of holding
the district courts will be determined by the legislature. If you favor this
amendment you should vote:

"FOR THE AMENDMENT of section 7, article 5 of the Constitution
of the State of Texas, relating to district judges and district
courts."

If opposed, let your ballot read:

"AGAINST THE AMENDMENT of section 7, article 5 of the Consti-
tution of the State of Texas, relating to district judges and
district courts."

The second amendment provides that "all State, district, county and
precinct officers within the State of Texas shall hereinafter be compensated
by the payment of a salary to be fixed or provided for by the legislature."
In other words, the adoption of this amendment will abolish the fee system.
That is, instead of district, county and precinct officers being paid by fees,
which in civil cases are collected from the litigants and in criminal cases,
except felonies, collected from the party convicted of crime. The State pays
the fees in felony cases. If you favor this amendment, your ballot should
read:

"FOR THE ADOPTION of section 58, article 16, as an amend-
ment to the Constitution, providing a salary compensation for certain
officers."

If you oppose it, scratch the above paragraph and leave the following:
"AGAINST THE ADOPTION of section 58, article 16, as an amend-
ment to the Constitution, providing a salary compensation for
certain officers."

The third and last amendment is known as the bond amendment and
seeks to amend sections 49 and 52, article 3 of the Constitution. There are
several subjects or propositions contained in this amendment. They are as
follows:

1. It authorizes State officials to create debts against the State to
supply deficiencies in the current revenues to the amount of a half million
dollars, which may be repeated as often as the debt is paid. The present
limit is two hundred thousand dollars. The increase is three hundred thou-
sand dollars. This debt may be converted into interest-bearing bonds at the
pleasure of the legislature.
2. The legislature is given power to authorize the issuance of bonds to
purchase additional ground and erect necessary buildings for the University
of Texas. This is to include a Medical Department and an Agricultural and
Mechanical College in connection with the State University at Austin. There
is no limit to the amount of bonds that the legislature may issue under this
clause, but the income of the university may be used to pay the interest
and create a sinking fund to pay the bonds if the legislature so desires. It
is left to the legislature to do so.
3. The legislature may issue bonds for the construction of necessary
buildings for the "State institutions." There are some eighteen or twenty
State institutions, and it will be left with the legislature as to what build-
ings are necessary. There will be practically no limit to the issuance of
bonds under this provision.
4. The legislature may authorize the issuance of bonds secured by a
lien on the real property of the penitentiary system for the purpose of
constructing buildings and making permanent improvements. From the
best information obtainable, the penitentiary system has lost anywhere
from one and one-half million to two million dollars within the past two
years and a half. The recent legislature authorized the bonding of all the
property of the penitentiary except the State railroad for two million dollars,
three-fourths of which was to pay the debts.
5. The amendment authorizes the bonding of certain divisions of a
county or any number of adjoining counties for roads and other public im-
provements by a majority vote. It now requires a two-thirds majority to
issue these bonds.
6. In the improvement of rivers, creeks, building of levees to prevent
overflows the bonded indebtedness may be for an amount not to exceed one-
half of the assessed valuation of the lands. It is now one-fourth.
7. The issuance of bonds by a majority vote for the construction and
maintenance of public warehouses or in aid thereof may be authorized.
As will be seen, there are at least seven distinct and independent propo-
sitions in the one amendment and the voter must vote for all of these or
against all. He is not permitted to exercise his free will to vote for such
things as he wants and against such things as he does not want. He must
vote for all or none.
Under the present Constitution and laws of this State no bond or State
debt, except as mentioned above, can be created or bonds issued except
by vote of the taxpayers. This amendment, if adopted, will take this power
away from the taxpayer in so far as State bonds and State debts are con-
cerned and transfer it to the legislature. The legislature can, for the pur-
poses enumerated, issue bonds in unlimited quantities without a vote of the
taxpayers.
When the matter was first discussed, it was thought that six million
dollars would cover the amount, but the demands and promises of the advo-
cates of the bond amendment justify the expectation of an immediate issue
of nine million dollars' worth of bonds if the amendment is adopted.
If you favor the bond amendment, let your ballot read:
"FOR AMENDMENT to sections 49 and 52, of article 3, of the Con-
stitution, authorizing the issuance of bonds for the University of
Texas, Agricultural and Mechanical College, State Penitentiary
System, and other public improvements and building of ware-
houses for agricultural products."
But if you oppose the bond amendment, scratch out the words just
quoted and leave on your ballot the following:
"AGAINST AMENDMENT to sections 49 and 52, of article 3, of the
Constitution, authorizing the issuance of bonds for the Univer-
sity of Texas, Agricultural and Mechanical College, State Peni-
tentiary System, and other public improvements and building of
warehouses for agricultural products."
which will be the last paragraph on the official ballot.

Lacquer-All

PAINTS AND ENAMELS

I have a splendid assortment of these paints in the
popular colors, black, red, light and dark oak,
Klondike gold and in white. It is something en-
tirely new and although it has been subjected to
the severest of tests it has proven itself one of the
most useful articles of the household.

Qualities of Lacquer-All

QUICK DRYING. Clear Lacquer dries within two to
four hours. Drying is not affected by heat or cold. Dries
dust-proof within three hours.
HARD, DURABLE SURFACE. Wears well, withstand-
ing rubbing and abrasions.
ELASTICITY AND FLEXIBILITY. Through quick dry-
ing and with enamel-like surface, astonishing elasticity is
retained. Will not crack, chip, flake, peel or craze. Under
hammer blow or heel print, does not crack.
WITHSTANDS HEAT. It is not affected by heat up to
a high degree. Will not sun blister or scale. Unaffected by
temperatures which would destroy the binder used in usual
paints and varnishes.
ECONOMY. Being thin and quick drying, Lacquer-All
products, Paints and Varnishes flow readily and spread over
an unusually large surface. This refers to first cost economy
but the long run economy, due to superior and enduring
qualities is even greater.

Household Uses

METALS. Every household offers innumerable opportunities where
a clear lacquer may be used to great advantage, saving labor, and af-
forded protection. All metal work, whether brass, bronze, nickel or
iron, once polished and coated with Lacquer-All, retains its bright lustre
and it is prevented from tarnishing or corroding for years.
LINOLEUM PLASTER. The linoleum on the floor will be brightened
and preserved by its use. Plastered walls are protected, beautified
and made more sanitary by its application. They can be freely washed
with soap and water whenever desired.
FLOORS, STOVES. New and old woodwork, furniture, hard
and soft wood floors, can be permanently brightened and renewed by the use
of Lacquer-All Varnishes. Its ready and convenient application makes
its use simple and a pleasure.

Ask us for descriptive literature about Lacquer-All.
Buy a small can and you will not want to be with-
out it in your home.

"Dry and Wet" Both Affected
A peculiar condition arises out
of the State law imposing a tax
of \$4,000 on non-intoxicating
malt liquor dealers. The law
applies with equal force in "dry
and "wet" territory. An Austin
man asked the Attorney General
if he would have to pay \$4,000 to
sell near-beer in Travis county
—a "wet" county. An affirma-
tive answer was given. Thus a
person would have to pay but
\$65 to the State for selling beer
in Travis county, but would be
required to contribute \$4,000 if
he sold near-beer.

Best Method of Punishing Young Child

By THOMAS C. RICE, Chicago

Why whip the children when there is another method? And never threaten the children. To do so places one under an unpleasant obligation. When the child does something that he should not, simply say to him in a kind way, "Do not do that." Then, provided the offense is committed again, you are at liberty to make a choice of punishments as you choose.

One of the finest methods is, after the deed, to ask: "Did not I tell you not to do that?" After a while the child will ask you for a favor and you can then refuse him by saying that he cannot have it because he did what you told him not to do. Make the statements simply, kindly and firmly. Such a method adopted soon becomes a habit and the children will understand it and it will be enjoyed by all parties concerned.

The average parent is angry to some extent when he undertakes to inflict corporal punishment. In which case he is in no condition to perform the act, because he has no idea as to how hard he strikes or how roughly he handles the child.

Use a mixture of kindness and firmness together with the very best judgment at your command in caring for the little ones, the same as you would desire of them when you again become the child in your dotage.

Making Man More Humane to Horse

By Vernon Dudderidge, Chicago

Eventually, by the measured tread of progress, the horse will be no more—I will have outlived its usefulness and disappeared. Our noble friend has been attached to us so closely for years that he has become like us; he reflects our mental states, and that is why we do not like to see him ill treated.

We all have noticed animals who have been attached to persons of strong individuality, how they reflect their natures and become like them. There is that indescribable resemblance that makes us exclaim, "Well, if that animal doesn't look like that man!"

It is well known that a man who owns and loves animals has a tender heart. There is something in his makeup that is lacking in the man who sees every ounce of the life-energy in an animal for his own selfish ends and fumes and sweats and frets when the animal falls in the street and even begrudges the time lost.

But the human race is reaching the point where it can no longer stand by and see the horse abused. When all cruelty to horses is done away with mankind will have climbed another step on the ladder of progress.

Let us speed the coming of that day until the whole race gets the idea. Then we shall all have a clear conscience, knowing that, although we treated our friend roughly at times during his long stay, yet he left us with a glad heart fully recompensed for his sufferings.

A lawyer should only seek justice for his clients. By obtaining an acquittal for a guilty man he has defeated justice.

Suppose a lawyer knows his client is guilty, and if convicted the sentence must be imprisonment; but he obtains a verdict of acquittal. The client is turned loose on society, and commits other crimes while he ought to have been serving time for the first crime, is not the lawyer partly responsible for his crimes?

The knowledge that they can hire great lawyers to defend them has given encouragement to criminals all over our land. It is true, a lawyer owes a duty to his client, but if he knows the client is guilty he has fully discharged his duty when he has made clear all extenuating circumstances, if any there be, connected with the crime, and has made a plea for as light a sentence as the court can pass for the crime committed.

While the lawyer owes a duty to his client, he also owes a duty to himself, to his profession and to society; he can best discharge these duties by laboring to obtain absolute justice for all.

Ordinary Politeness is Most Pleasing

By Rev. Frank Cross, Chicago

Just plain, ordinary, everyday politeness is about the most pleasing thing a human being can have to offer.

It sweetens the air. It cheers the heart. It feels good. It tastes good. It is good. It doesn't cost a cent and it will accomplish more in a minute than money and curses can get done in a month.

The average American employe who deals with the public is disgustingly disagreeable. Street car conductors are insolently deaf. Bank clerks are contemptuously brusque. Telephone girls are snappy. And dry goods "salesladies" are snippy. Waiters take your order when they please, bring your food when they get ready, and they go away and if you need another fork you may get up and get it yourself.

A waiter in a New York restaurant took a meek-looking old gentleman's order for a beefsteak and then departed and remained somewhere in the dim distance for a long time. By and by he came to the old gentleman, who had been sitting patiently with his hands folded.

"How would you like your steak, sir?" asked the waiter. The old gentleman looked up, collected his thoughts and responded enthusiastically, "Oh, very much, very much, indeed."

Some day the common herd who are jammed like cattle into elevated trains and punched in the back by guards and told to "step lively," who are hung on street-car straps, who are browbeaten, despised, snubbed and walked upon by public servants—some day this proletariat will rise and drive a few clubs about their feet into the ground.

DISPENSES PATRONAGE

Has Appointed 7,530 Postmasters in Four Months; Civil Service Classification Are Democratic

Washington, June 28.—How copious and uninterrupted has been the flow of patronage in the Postoffice Department under the able management of Postmaster General Burleson forms the substance of a press notice given out today. In four months, according to that chronicle, Postmaster General Burleson has appointed 7,530 postmasters of all grades, noticeably all the appointees, except some Civil Service fourth-class men, being Democrats. This is at the rate of 1,882 per month or 160 per day.

When Postmaster General Burleson took hold he found 1,800 vacancies in the Presidential class on hand, which number in the past four months has increased to 2,400. These Presidential offices he disposed of at the rate of sixteen a day, including Sundays and holidays, and now there remain to be filled but 471 vacancies in the Presidential class. Of the fourth-class post-offices there have been 5,600 vacancies and these have been filled at the rate of forty-six a day. This dispensing of patronage was done by Postmaster General Burleson, who "rail-roads" the Presidential cases, and First Assistant Postmaster General Roper who "steam-shoveled" the fourth-class office appointments. The Democratic Senate has not shirked its share of this work, having confirmed up to date 1,111 Presidential postmasters.

The pie counter has not closed down for the season, as 471 Presidential postoffices remain to be filled, besides vacancies caused by the daily expiration of commissions. In addition there is a constant change in fourth-class postmasters, due to deaths, resignations or removals. In Texas alone there are 169 vacancies, and in Oklahoma 109. In Texas there are fifteen vacancies in the Presidential class for which Congressmen, though called upon, have not made recommendations, and in Oklahoma there are seventeen such vacancies.

In Texas there are seventy-six vacancies in the fourth-class postoffice service which can not be filled until the Civil Service Commission holds examinations and certifies the results, while in Oklahoma there are waiting on Civil Service examinations forty vacancies. In addition seventy-eight fourth-class postoffice vacancies in Texas are to be filled as soon as the postoffice inspectors report, while in Oklahoma fifty-two places remain to be filled when the inspectors report.

CALOMEL IS UNSAFE

Local Druggist Who Sells Dodson's Liver Tone Guarantees it to Take the Place of Calomel

If your liver is not working just right, you do not need to take a chance on getting knocked all out by a dose of calomel. Go to The Red Cross Drug and Jewelry Company who sells Dodson's Liver Tone, and pay 50 cents for a large bottle. You will get a harmless vegetable remedy that will start your liver without violence, and if it does not give complete satisfaction the druggist will refund your money with a smile.

If you buy a bottle of Dodson's Liver Tone for yourself or your children, you have insured your family relief from attacks of constipation, biliousness, lazy liver and headache. It is as beneficial and safe for children as for adults. A bottle of Dodson's Liver Tone is something every man or woman should keep in the house. Your money is safe because you can return the bottle if it fails to satisfy.

Rev. J. W. Hunt and wife will leave this morning (Friday) for their great trip to Yellow Stone Park. Some while ago Dr. Hunt was made district commissioner to raise funds in the Sweetwater district for the Southern Methodist University and it was stipulated that if he raised a certain amount by June 30 he would be supplied with a ticket for the great excursion to Yellow Stone Park, and a certain further amount raised would entitle Mrs. Hunt to a ticket for the trip. At Amarillo they will meet others of the party and they expect a great outing. They will be gone about three weeks. The campaign has been a success. The amount needed to meet the conditions has been raised and more besides and the University is thus assured of permanence.—Snyder Signal.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have seven pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

CROSBY COUNTY
 A protracted meeting will be commenced in our town Thursday night before the second Sunday in July. Rev. W. H. Stephens, an eminent Cumberland Presbyterian divine, of New Mexico, assisted by the pastor, will do the preaching.

S. S. Thomas left Monday for New Mexico, where he goes to look after the interests of his daughter, Miss Ethel who owns 320 acres of land in that state.

TERRY COUNTY
 M. B. Sawyer left last week for New Mexico, where he will purchase a ranch, but will still keep his big Terry county ranch. Jno. S. Powell was here Wednesday to attend the stockhold-

ers meeting of the Brownfield State Bank and said he got between 10,000 and 11,000 pounds of wool and with all the legislation at Washington, wool was ranging from 12 to 18 cents per pound.

Mr. Sam Houston and daughter got in from Post City this week where a successful operation was performed on his son for appendicitis. Mr. Houston informed the Herald man that he might locate in Terry yet, as he had several places in view to look at.

An Expression of Thanks

The Cumberland Presbyterian pastor and people desire to express our thanks to the people of Lubbock and surrounding country for your liberal assistance and patronage of the dinner given by our Ladies Aid Society.

Our church seldom serves dinners. And when they do they want them to be plain legitimate business, and no tricks or exciting sales connected with them.

This one was well supplied with provisions by the good and liberal people of the town, and well attended.

The proceeds amounted to something near \$90.00 after all expenses were paid.

Such dishes and other things as could not be located for return were sent to Mrs. R. A. Rankin's where they will be gladly furnished to the proper owners.

THE EXPERIMENT ASSOCIATION

Superintendent Cory of Lubbock Station Will Address Farmers' Congress July 29th

An address upon the 'Progress of the Lubbock County Agricultural Experiment Association' is to be given by superintendent Cory of the Lubbock sub-station the morning of July 29 at the Farmer's Congress at College Station, Texas. Some parts of the address are given herewith in advance.

Our association was organized April 28 at the experiment station by the election of L. O. Burford as president, S. S. Rush as vice president and V. L. Cory as secretary. The constitution and by-laws were adopted at the meeting at Canyon school house May 19th. A second vice president, the treasurer and three members of the executive committee were elected at the meeting at the experiment station, June 23. Thus our organization has been completed.

Why should there be such an association? As answer, quoting from the constitution: "The purpose of this association is to promote the growing and breeding of pure-bred grains and pure-bred animals, the improvement thereof, and also the improvement of soils; to distribute as widely as possible high grade, selected seed of grain varieties that are proved to be the best for this territory; to afford definite means of co-operation between the farmers and the experiment station; and to become an effective force in the promotion of the better agricultural methods for Lubbock county."

For carrying out these objects the by-laws provided for three standing committees—Improvement of live stock, improvement of crops and improvement of silos—and quoting: "All crops being grown for pure-bred seed should be inspected by a committee of three during the ripening season or prior to harvest"; and, again quoting "Membership will be forfeited by those who intentionally mis-represent the quality, purity or class of seed grain or stock they have for sale." Another feature is provided in the following: "At least once a year a list of the members with their postoffice address and specialties shall be published in booklet form. These may be used by members

as an advertisement of their business, and guarantee of their standing."

At first membership was recruited from those who secured pure-bred seed grains from the U. S. Department of Agriculture. With the exception of five lots placed directly by Congressman Smith all seed thus distributed in Lubbock county was, through the courtesy of our political representatives, including Congressman Smith, placed through the experiment station. This seed was the best that could be procured of the varieties that are adapted to this section. Some thirty farmers are growing these grains. However there is no intention of limiting the membership to those growing pure-bred grains, as witness the constitution: "Any person actually engaged in breeding or growing pure-bred animals or grains of field crops, or who is experimenting in maintaining or building up the fertility of his soil, shall be eligible to membership upon the payment of annual dues."

Thus it is seen that growers of pure-bred live stock are expected to form a strong part of the association. This is only right for pure stock and pure seed grains should go closely together as they are perhaps of equal importance to the agriculturist.

The association is in its infancy hence as yet but little has been accomplished. However there is a work for it to do; and, as strong men are interested in it, it is sure that other strong men will add their influence and their work to make it become what it should be.

The work of the association is not in conflict with the Farmers' Institute, and quite a percentage of the members also are members of the Canyon Farmers' Institute. But the association is not a community organization, for membership is open to all eligible, interested citizens of the county. There are now or will be similar organizations in the state, but Lubbock county should have one of the strongest, inasmuch as so much is in her favor.

Mrs. Fannie Knox is now in Fort Worth where she is taking special work in china painting in the Texas Christian University which she will teach in Lubbock this year.

Rev. Thos. N. Plunkett, pastor of First Christian church was taken seriously sick at his home on Colonial Hill last week and on Saturday was severely stricken with congestion. His physicians, family and friends were made quite anxious about his condition for two or three days but he is much better now.—Snyder Signal.

R. M. Clayton, Jr., wife and baby left Saturday for their newly acquired ranch property in Dawson county, where they will make their home. Rube and Don recently purchased a five years lease on 16,000 acres of land near Soash, together with 500 head of cattle. They have also purchased about that many more which they will run on that range.

SOME NEW LIQUOR LAWS

Became Effective July 1st—Those Who Indulge Better get Familiar With New Rules

The following are laws respecting regulation of the liquor traffic, passed by the last Legislature which went into effect on July 1:

Senate Bill No. 21—The 9:30 closing law. This requires saloons to be closed between 9:30 p. m. and 6 a. m. on week days and between 9:30 p. m. of Saturday and 6 a. m. of Monday. Penalty for violation is fine of \$50 to \$200 or jail for not more than six months, or both fine and imprisonment. Under the present law saloons are required to close between midnight and 5 a. m.

House Bill No. 163—The Allison law. This is familiarly referred to as an act to prohibit the shipment of intoxicating liquor into local option territory. It is very much more than this. It greatly limits the shipment or carrying of liquor even into wet territory. The act starts out by declaring that it shall be unlawful to ship or carry liquor between points in Texas, and then it designates certain exceptions, as follows: 1. Wine may be shipped or carried to any priest or minister of any religious denomination for sacramental purposes. 2. Any person may carry liquor for the use of himself or the members of his family residing with him. 3. Licensed

dealers may ship or carry liquors to any persons within the limits of the county or subdivision of the county in which it is authorized to do business. 4. Licensed dealers may ship to licensed dealers at any point in the state. Any person violating the provisions of the act shall be confined in the penitentiary for not less than one nor more than three years. Any corporation violating the act shall forfeit \$500 for each offense. The act has the effect of preventing shipments of alcohol even for compounding purposes, to druggists. It is probable the Legislature, at the special session next month, will be called upon to correct this.

House Bill No. 210—Making it a felony to sell liquor outside of established saloon limits in any city; one to three years. This act really became effective March 12.

House Bill No. 74—Subjecting all sales by wholesale liquor dealers to a gross receipts tax. At present they pay the tax only upon sales to dealers, and the "jug trade" is exempt.

House Bill No. 356—Making it a misdemeanor to get drunk in any place except one's own home; penalty a fine of not more than \$100. The purpose is to prevent drunkenness in the private residences of others than the owner. At present the law prohibits drunkenness in public places.

Charlie Burrus, of Lubbock, passed through Floyd Wednesday afternoon enroute home from Wichita Falls by auto. He reports the roads very heavy as the rain of last week was general over the northwest.—Floydada Hesperian.

Ben Dixon was over from Brownfield Monday taking in the excitements of first Monday Trades day.

Lloyd Baker returned last Friday from a few weeks visit with relatives in Taylor county.

Mrs. M. Q. Perdue and children left Monday afternoon for Dallas Texas, where she will visit a few days and will afterwards join her husband who is now in San Benito, at which place they expect to make their future home.

A. A. Tubbs returned home from Lubbock Monday. He has been assisting R. D. Walls on a roof and ceiling job in that city the past week.—Floydada Hesperian.

Sheriff W. H. Flynn is attending the Sheriff's Convention at Austin this week and "Widder" Ross is playing the role of high Sheriff.

Miss Ora and Covett Gilliland, of Bowie arrived Sunday in Lubbock and are visiting at the home of their brother Edgar Gilliland.

John Lovelady returned Saturday from a trip to the northern markets, where he took a shipment of fed steers.

P. F. Paige, of Dallas, general agent for the Gibraltar Life Insurance Company, with headquarters at Paris, Texas, is in Lubbock this week. Mr. Paige is also one of the most prominent prohibitionists of the state and was active in the recent campaign for state wide prohibition in this state.

Mrs. W. W. Nelson, Jr., a sister of G. G. Johnson, accompanied by Mrs. C. L. Harless, both of Snyder, who have been visiting in Roswell and Canadian stopped off here Sunday and were guests of Mr. Johnson. They returned home Monday afternoon.

G. G. Johnson, who for the past ten months has been associated with the Crawford Drug Store which in recent months has been owned by B. P. Hopkins, is now employed by the Lubbock Drug Co.

Mrs. E. Graham, of Plainview, sister of Stockton Henry, has been visiting here a few days at the bedside of her mother who was quite ill the early part of the week.

Aubry McLarry, who has been employed by the Lubbock Drug Company as prescription clerk has resigned his position and has gone into Yoakum county to reside on his land which he recently acquired from the state.

Revo McLarry, who has been part of the postoffice force here for some time past, has been granted a five months lay-off and he will spend this time improving his property in Yoakum county which he recently bought.

Saving a Nickel at a Time
 During the Dallas Fair the street cars of that city took in over half a million dollars, so we have been told. A nickel at a time looks like a slow way to get money to some folks, but when a half million dollars can be gathered in by the nickel route in a short two weeks, it looks as if it would be well for all of us to look more sharply after nickels. It is an old maxim that if you take care of the nickels the dollars will take care of themselves, and this proves the truth of it in short order. Several men have comfortable fortunes from moving picture shows in the cities. The shows get their money nickel at a time, and it takes a good many dollars to keep them going, but it seems that the nickels come fast enough to run into dollars very rapidly, when the man behind the window takes care of the nickels. Small amounts run into large ones, if they are only kept together. Your nickels may come in slow and it may take longer to convert them into dollars, but if you persevere you will succeed.—Mineola Monitor.

Fired Court House
 While the county officials were absent from their offices on the 4th, someone attempted to burn the Ballinger court house. The fire was started in some shavings piled in the district court room and basement. Only the absence of a draft saved the building. The work is believed to have been that of an insane person.

Oscar Lykes and family arrived here Tuesday from Lubbock where they have been engaged in the hotel business for several months. Mr. and Mrs. Lykes were in the hotel business in Roscoe several years ago, running the famous Miller House. They are out of the hotel business now and expect to remain here for a month or two resting up.—Roscoe Times.

Mrs. J. A. Suits, came over from Jayton via Crosbyton Friday and returned to her home in Snyder the same afternoon.

J. A. Cockerell and family are off for an auto trip to Odessa this week, where they go to visit Mr. Cockerell's mother.

Ed Symes of Waco spent last week in Lubbock. He is thinking of moving his family to Lubbock, and although not fully decided, he looked at a few of the homes in Lubbock that can be bought and pay return at a later date. He is a brother of Clarence Symes of this place and the Avalanche would delight to have him locate here, as we are sure he is a good citizen in any town.

We are glad to report Mrs. Newt Judd's condition much improved. She was brought in from the Santa Fe construction camp about a week ago, where she developed a case of typhoid fever and has been quite dangerously ill at the home of A. Judd.

Mr. W. B. Elkin, of Midland, and Miss Johnnie Collins, had a barbecue dinner served for their birthday, July 1st, at the ranch of their mutual brother-in-law H. L. Boyd. Mr. Elkin was 41 and Miss Collins 20 years old on that day.

V. E. Harget and wife from near Brownfield brought over a load of chickens and other produce Monday and sold it on Lubbock produce market at most satisfactory figures.

Luther McCrummen has accepted a position in the postoffice, filling the vacancy made by Rexo McLarry, who is out on a five month lay-off at his own request.

Cleve George, we understand, has moved all his cattle out to New Mexico, near Ranger Lake and will make that his headquarters for a time at least.

Miss Inez Goggans was over from Cone Friday and went out to celebrate the fourth of July with the people of Littlefield.

Entertains Sunday School Class

On Thursday, July 3rd, one of the most delightful events of the season was a dinner given by Miss Katherine Robertson to her Sunday school class.

The most of the class met at the tabernacle and were conveyed from there to Miss Katherine's beautiful home on Broadway. The forenoon was spent in pleasant conversation. Then the class was ushered into the dining room where the table was beautifully decorated with sweet peas and a very enjoyable dinner was served to all.

At about three o'clock the class thanking Miss Katherine for the nice time they had, departed for their homes. They are all waiting for another invitation to dine with Miss Katherine.

Clarence Symes left Tuesday for Waco where he will spend two weeks with home folks.

Horses and Automobiles

The number of horses on the farms and ranges of Texas has decreased 90,364 head during the past ten years, and the automobile is said to be responsible for these conditions. An argument in favor of "Dobbin" is that his value has increased 164 per cent during this period while the average value of an automobile has depreciated \$887.

The horse has practically held his own in Lubbock county although our records show a large increase in cars in this county. We have in Lubbock county 1515 horses according to the latest census reports and their total value is given at \$110,795.

Misses Davis and Winkler both of Sweetwater were here Thursday guests at the Howard Hotel and went over to Littlefield Friday, returning to their home in Sweetwater Saturday afternoon.

The special grand jury called at Floydada to investigate the J. M. Muncy murder case adjourned last Saturday after finding a bill against Mrs. Birdy Muncy, wife of the dead man. An indictment was also returned against Horace Peters as an accomplice. Both bills are for murder.

W. F. Dillard, of Abilene who has been spending a few weeks with relatives near Lorenzo, left Saturday on his return trip home.

Silo Bulletins Free

H. M. Bainer, agricultural demonstrator for the Santa Fe system, announces that his recently prepared Silo Bulletin is now ready for free distribution. This bulletin, made up of the best information regarding all kinds of silos and liberally interspersed with illustrations, may be had in any number simply by writing to the agricultural demonstration department of the Santa Fe system, in Amarillo, or to the Colonization department, Chicago.

Those interested in silos will find matter of great worth to them in this publication, including suggestions as to plans and materials, together with ways and means for filling and caring

for the silo after being filled. Feeding instructions are also contained in the bulletin. It was the expressed intention of the writer to omit no one desirable fact from the information contained, and it is stated that it meets his highest expectation.

Some Good Laws

All of the laws that go into effect on July 1st are intended to help the state and people. Some of them are good and will benefit all sections of the state. One of the new laws is that where a peddler is ordered to leave and refuses the owner of the property may have him or her fined. It sounds a little harsh, but when you stop to consider how little consideration most peddlers show for the lady of the house when they call the law is entirely justifiable. It is going to be used some if we are not mistaken. It will be unlawful to issue bogus checks.

It will be unlawful to overdrive any animal or beat it cruelly. It will be a \$200.00 fine to obstruct any public road or street. Heavy fine and imprisonment to assault with prohibited weapon.

Degrees of murder are eliminated. Counties must provide hospital accommodations for illness. Abilene Daily Reporter.

To the Grocery Trade of Lubbock and Trade Territory:

It is with pleasure that we present to you one of the most complete stocks of Groceries in the South Plains country, and to not only say that it is probably the largest exclusive grocery stock in this section, but the goods are strictly high class in every respect. The brands of goods handled by us are those that you know—have tried and found to be strictly first class—they have to be, because the manufacturers' guarantee is behind us, and we are not afraid to tell our customers that the goods are what we represent them, or your money back.

We Are Here Every Day of the Year

Unlike grocery peddlers and mail order representatives. We deliver your goods to you the same day they are bought, and in quantities according to your wishes. You do not have to take just anything that we send you, but only that which you want. We never substitute, and should any article prove in any way unsatisfactory, we take pleasure in replacing it. Can you do this with the foreign houses? No! We appeal to your good judgment and fair minds to trade at home. There is not a single argument in favor of buying groceries from peddlers or through the catalogue houses, and when this is done you injure yourself, your town, your local merchant, and act unfair as well as being disloyal.

We Buy Your Produce and Furnish Hundreds of Articles That the Mail Order House Cannot

You know this to be true. You know that when you need assistance in the way of developments in your community, that the local merchant is the one you go to for aid, and he always responds. You know that we buy your produce and pay you the highest market price. What does the peddler pay you? Nothing. You know that we keep articles in our store that the peddler cannot furnish you, and we often do this at a loss just because you are our customer, and we are desirous of pleasing you and delight in accommodating you in every way possible. We help to keep up your town, develop your country, keep up the schools and churches, help the poor and needy, and in a thousand different ways render assistance—what does the grocery peddler do in this respect? Nothing! He takes your order, it's a month before your goods are delivered; many times the order is not what you bought, but you have to take it, he gets your money and sends it to the north and east and you never get another glimpse of it—it's gone forever. If you want goods on credit it is the local man you go to—not the peddler. Be a good citizen, bring your cash to our store and get high grade groceries with our guarantee that they are exactly what we represent them to be—if they prove otherwise, if in town, phone us and our delivery man will call and adjust matters immediately, or if you live in the country bring them back next time you come to town and we will be glad to make it satisfactory to you. Spend your cash with us and when your cash is gone we will be glad to extend credit to those who are worthy of our confidence.

Yours for your next order for groceries at live and let live prices and a guarantee of satisfaction thrown in for big measure.

THE HOUSE

Acuff

Acuff, Texas, July 7, 13. - Well Mr. Avalanche I'll just have to tell some of the good things that are happening out this way this week.

Quite a bunch of our boys went to the breaks the forepart of the week to gather wild plums. Mrs. J. F. Mathews of Lufkin, Texas, is visiting her sister, Mrs. L. O. Burford.

Mrs. Clara Dalton visited her folks at Lubbock the forepart of the week.

John L. Wortham has quite a bunch of men at work building houses, drilling wells, putting up windmills, building fence, etc. They are now running his big well and indications are that he will have a fine well. They will give it the final test this week.

The Burford well has been finished some time and on account of the fine rains lately he only runs it when some one comes to see it.

Born to Mr. and Mrs. Jess Rush a fine boy, all parties doing well and Jess is all smiles.

Miss Wallace now of Lubbock has been employed to teach the next term of school at Acuff with Miss Lena Stalcup as assistant. Singing at L. O. Burford's Sunday night.

Mr. Theodore Bost is back from a trip to San Marcos, Texas.

Mrs. E. R. Davis and Miss Lizzie Davis went to the Littlefield picnic the 4th.

There is something doing in the east part of Lubbock county, cultivators going, chicks are chirping, mule colts braying, lakes shining with water and it seems that the toads are behind with thier music. Grass growing and the face of the virgin soil is smiling at the skies and the skies are smiling back at all. Together everything is lovely and the goose hangs high. Early maize is fairly popping in her boots and about to burst the middle and late planting has the healthy black greasy look which radiates

Acuff

a smile that has come to stay. If you want to see Lubbock with her green gown on—come a running. Weeds are on a rampage and hands much in demand. Gardens fine, fruit better, peaches ripe and oh my! come and see what wonderful things we can do, even raise water from old mother earth at the rate of 1000 gallons per minute and upward.

Our R. F. D. Mail route is now going and we are very proud of it too.

HAPPY JACK
