THE LIGHT AT HOME.

GEO. M. HUNT
Lubbock, Texas.

The light at home in days gone,
Leall to mind as years roll on,
And while I went on pleasant nights,
To see the city with its sights,
The light at home would brightly burn
While mother watched for my return.

In fancy I could plainly see,
"The Light at Home," that burned
for me.

I wandered to a foreign clime,
That I might have a better time,
But there my joy was incomplete,
For none but strangers I would
meet.

I longed for friends I left behind,
While thots of home would fill my
mind,
And then in fancy I could see,
"The Light at Home," that burned
for me.

I stood upon the ocean strand,
And looked toward my native land.
The moss green banks along the
stream,

I often saw in pleasant dreams,
The orchard and the meadow too,
Would pass before me in review,
And now in fancy I could see,
"The Light at Home," that burned
for me.

The changing scenes where I would
"room,
Were not so grand as those at
home,
And from my loved ones far away,
I felt I could no longer stay.
I launched upon the drifting tide,
And anchored on the other side,
For in my fancy I could see,
"The Light at Home," that burned
for me.

I landed on New England's shore,
From whence I sailed some years
before,
And there among the sylvan hills,
With rushing streams and placid
rills,
I passed the waving evergreens,
While on my way to boyhood
scenes,

And still in fancy I could see,
"The Light at Home," that burned
for me.

COUNTIES MUST DIP OR BE QUARANTINED

Fort Worth, Texas, Feb. 20.—Counties that refused to make appropriations for the building of vats for the dipping of cattle on the strength of the recent ruling of the Attorney General's Department that the law does not require the Commissioners' Courts to expend money for this purpose are confronted with a blanket quarantine against their live stock, to become effective March 1, according to officials of the State Live Stock Sanitary Commission.

Compulsory tick eradication under the terms of the act passed by the last Legislature becomes effective in zone 1 March 1. The zone includes fifty-four counties and nearly all of the Commissioners' Courts of these counties have appropriated money for the material with which the farmers and live stock owners will construct vats. Notices have been sent to all counties by both the Federal Bureau of Animal Industry and the Texas State Live Stock Sanitary Commission warning those counties that do not take steps to comply with the law that their counties will be under strict quarantine beginning March 1. Dr. H. Grafke, inspector in charge of the Bureau of Animal Industry, has served notice also on these counties that unless the law is complied with the Federal Government will drop all efforts to clean up their counties and that his bureau can not give attention to individual cases in those counties. Unless tick eradication is started every animal that enters or leaves the county must be dipped.

Following the sending of warning notices two or three counties have reversed their former decisions and according to letters and telegrams received here today will begin preparations for dipping March 1. With dipping under way and an inspector on the ground certificates may be made out at once authorizing the shipment or receipt of live stock. Otherwise, according to William C. Hoffman, chief inspector of the Live Stock Sanitary Commission, movement of cattle or horses must await the sending of an inspector from the headquarters of the commission here. With all of the members of the force engaged in tick eradication work that would mean a delay of from five to fifteen days in nearly all cases, it is said.

It does the work, use SANOL ECZEMA REMEDY to get rid of those Black Heads, pimples, or Rough Bumpy Skin. Leave skin smooth. Cures any case of eczema. Is pleasant to use. A trial will convince you. 50c and \$1.00 at the drug store. 8-52

ORDER OF COMMISSIONERS' COURT ON PETITION
STATE OF TEXAS,
County of Lamb.
On this 10th day of February, A. D. 1919, this Court being in regular session, came on to be considered the petition of John Kling and Sixty-one

other persons, praying that Bonds by Road District No. 1 of Lamb County, Texas, in the sum of Fifty Thousand (\$50,000.00) Dollars bearing five and one-half (5½) per cent per annum interest, and maturing at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed Thirty years from the date thereof, for the purpose of constructing, maintaining and operating macadamized, gravelled or paved roads and turnpikes, or in aid thereof.

And it appearing to the Court that said petition is signed by more than Fifty of the resident property tax paying voters of said Road District No. 1 of Lamb County, Texas; Said Road District No. 1 having been established by an order of the Commissioners' Court of Lamb County, Texas, dated the 10th day of February A. D. 1919, of record in Book One, pages 350-351 of the Minutes of the Commissioners' Court of Lamb County, Texas, within the following metes and bounds, to-wit:

BEGINNING at an iron pipe set for the Southwest corner of Lamb County, said corner is in Capitol League No. 700 and is 2161.6 varas west and 1198 varas south of the northeast corner of said League No. 700; Thence East with the South Boundary line of Lamb County, crossing Capitol Leagues 699, 698, 697, 696, 695, 694, 693, and 692, intersecting the East line of last mentioned League No. 692 at a point 873.5 varas South from its Northeast corner, said point of intersection is also 1605.1 varas South of the Northwest corner of R. Thomson Survey No. 118 an iron pipe 41.3 varas West and 1470.4 varas South of an iron pipe marked 118-33 set for the Northeast corner of said Section, No. 118; Thence North with the East boundary line of Lamb County, crossing R. M. Thomson Surveys 33, 34, 39, 40, 45, 46, 50, 51, 54, 55 and 59 and R. M. Thomson Surveys 17, 16, and 15, Block B, to a point in the North line of the last mentioned Survey No. 13, Block B, 525 varas West from its Northeast corner; Thence West with the North line of R. M. Thomson Survey 13 and 14 and T. A. Thomson Surveys 18, 17, 16, 15, 14 and 13 in Block T to the Northwest corner of last mentioned Survey 13; Thence South 1000 varas to the Northeast corner of Capitol League No. 642; Thence West with the North line of Capitol Leagues 642, 643, 644, 645 and 647 to the Northwest corner of last mentioned League No. 647; Thence North to the Northeast corner John H. Stephens Survey No. 2; Thence West to the Northwest corner of John H. Stephens Survey No. 2; Thence South to the Northeast corner of Unorganized County School League No. 231; Thence West with the North boundary line of Unorganized County School Leagues 231, 234, 216 to a point where the North boundary line of Unorganized County School League No. 209 intersects the West boundary line of Lamb County, 1527 varas West from the Northeast corner of said League No. 209; Thence South with the West boundary line of Lamb County, crossing Unorganized County School Leagues 209, 210, 211, 111 and Capitol League No. 679 to the place of beginning, embracing the following lands: State Capitol Lands—45 Leagues and fractional leagues, Acres 172,130.6; Unorganized County School Land—17 Leagues and fractional leagues, Acres 59753; J. H. Stephens Certificates—6 Sections, Acres 3697; R. M. and T. A. Thomson Certificates 131 Sections and fractional sections, Acres 82806.5; H. E. & W. T. Ry. Co.

Certificates—2 sections, Acres 1280; B. S. & F. Certificates—2 sections, Acres 1280; N. C. Payne S. F., Acres 693.8, Total Acres 321,640.9

It is therefore considered and ordered by the Court that an Election be held in said Road District No. 1 of Lamb County, Texas, on the 22nd day of March A. D. 1919, which is not less than 30 days from date of this order, to determine whether or not Bonds of said Road District No. 1 of Lamb County, Texas, shall be issued in the amount of Fifty Thousand (\$50,000.00) Dollars, bearing Five and one-half (5½) per cent per annum interest and maturing at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed Thirty years from date thereof; and whether or not a Tax shall be levied upon the property of said Road District No. 1 of Lamb County, Texas, subject to Taxation for the purpose of paying the interest on said bonds and to provide a Sinking Fund for the redemption thereof at maturity.

Notice of said election shall be given by publication in a Newspaper published in said Road District No. 1 of Lamb County, Texas, (or if no newspapers is published in said Road District No. 1 of Lamb County, Texas, then in some newspaper published in Lamb County, Texas, then in some newspaper published in adjoining county) for four successive weeks before the date of said Election, and in addition thereto there shall be posted notices of such election at three public places in said Road District No. 1 of Lamb County, Texas, and also one at the Court House door for three weeks prior to said Election.

Said Election shall be held at Heckler Farm in Precinct No. 3, Lit-

field, Texas, in Precinct No. 4, and the following named persons are appointed managers of said election, viz A. A. Childers for Heckler Farm Precinct No. 3

R. S. Beard for Litterfield Precinct No. 4. Said election shall be held under the provisions of Article 627 to 641, inclusive, of Chapter 2, Title 18, Revised Statutes, 1911, and as amended by Chapter 203, Acts of 1917, and only qualified voters who are property tax payers of said Road District No. 1 of Lamb County, Texas, shall be allowed to vote and all voters desiring to support the proposition to issue Bonds shall have written or printed on their ballots the words: "For the Issuance of Bonds and Levying of the Tax in Payment Thereof"

And those opposed shall have written or printed on their ballots the words: "Against the Issuance of Bonds and levying of the tax in payment thereof."

The manner of holding said election shall be governed by the laws governing General Elections in this State. A copy of this order, signed by the County Judge of said County, shall serve as a proper notice of said election, and the County Judge is directed to cause said notice to be published in a newspaper published in said Road District No. 1 of Lamb County, Texas, for four successive weeks next preceding such election, and cause to be posted a notice thereof at three public places in Road District No. 1 of Lamb County, Texas, and at the Court House door, for three weeks prior to the election.

Given under my hand and seal of office at Olton, Texas, this 10th day of February, A. D. 1919.
C. D. HENSLEY,
County Judge Lamb County, Texas.

Letters from our Boys in Service at Home and "Over There"

(Samuel G. Baggett)

Neumagen, Germany, Jan. 28, 1919:

I received your letter asking for news and souvenirs. In outlining the purposes for which the nations fought someone spoke after this fashion: The French fought for home and fire-side, the British for freedom of the seas, and the Americans for souvenirs. This statement was made in jest, of course, but if you could see some of our soldiers throw away comfort kits in order to carry souvenirs you would see some justification for the remark. I must admit also that I have a rather choice collection of souvenirs which I have religiously guarded, but I had decided to bring them with me rather than trust them in the mail.

My regiment is part of the Army of occupation, and is stationed on the Moselle River, a tributary of the Rhine. It is not quite as imposing as a position on the Rhine, but the Moselle rivals that famous river in beauty and good wines, which are the chief assets of both. Following the course of the river it is twice as far to the Rhine as it is as the crow flies. "There's a reason." The river must find its way by meandering between snow-capped mountains. The poetic expression "vine-clad hills" applies literally here, for even the steepest precipices are covered with cultivated vineyards. In some of the views I am enclosing, you can note the cultivated patches, running to the crest of the mountains. I can easily understand the attitude of the French, when, after passing through that ravaged portion of France, I emerge into a beautiful and cultivated country, untouched by the ravages of the fires which the Germans kindled.

But this country is the antithesis of America. Everything is old, old, old. Everything is quaint, from the old emperic castles that stand as sentinels on the impregnable cliffs to the wrinkled old women who carry baskets on their backs. You remember what a queer sight it was when, several years ago, we saw oxen pulling the plows which turned under the virgin soil of the plains. Well, I can look out of my window most any time of day, and see underfed milk cows pulling wagons by their horns. I suppose all the horses were taken by the army, for I have never seen in Germany anything but the submissive old milk cow at the pulling end of a wagon.

Notice the old castle which overlooks the village of Berncastel in the picture. I climbed and puffed till I reached the top of that hill to look at that imposing old relic. As I approached the entrance, partly for amusement and partly for realism, I let my mind slip back through the centuries, and pictured myself clad in shiny armor, approaching those austere walls which enclosed the fair and beautiful. It was not so difficult as you might imagine, for as I stood under one of the crumbling arches and looked on the valley below I fancied that if I could have obliterated a dinky little railroad and a few army trucks, I would have seen the same view that was looked upon centuries ago—the winding river, the vine clad hills, and superannuated buildings.

All of the countries over here have antiquated dwellings—houses and barns combined. I was reading an article by Irvin Cobb the other day, in which he regretted the fact the ruined villages of France would never be what they used to be; that barb wire fences would replace the old rock fences that snaked over the meadows; that modern and even temporary structures would take the

place of the stolid old rock buildings that have stood for ages. If I may venture my opinion against a writer of such repute, I would say that this great misfortune of France, could be made her greatest blessing. The ordinary French peasant prefers the house where his forefathers lived to an up-to-date building with modern conveniences. Hence, new buildings do not replace the old as in our country. But these buildings are now gone, and with the aid of her allies already offered, France can rebuild her cities, so that modern buildings can replace the old, and new and thriving towns can replace provincial French villages. It would destroy many of the traditions of France, but surely America would not be what she is today if she had crept through the centuries like a snail, with the hollow shell of tradition on her back.

We are living lives of ease and luxury now. Our business being occupation, you can readily see that the word "occupy" is open to a very general construction. For instance, on quiet afternoons I can "occupy" the couch and blow smoke rings over the chandelier. I can occupy a chair at the dining table and acquit myself with credit, and still be within the definition of the term "occupy". Of course, we have our duties to perform, but you may be sure they are not so rigorous as they were before the armistice. We are having some firing at present in order to keep in training.

It is pretty cold here now, and there is a little snow on the ground today, but the weather seems very pleasant. This would be a summer resort for one who had spent a winter in Amarillo.

The German people here do not give us any trouble. When we first arrived, our fighting chaplain had some pictures of the kaiser and Hindenburg removed at the point of his pistol. The news must have spread, for the next morning I found my landlord, an ex-corporal in the German army, hanging up in the hallway a large picture of a building in Washington. The other night about one o'clock, I was awakened by two "squareheads" who were showing the effects of a beer party in the nature of a rousing German song right under my window. I poked my head out of the window, yelled at them, and they immediately abandoned the serenade and walked quietly up the street.

You may be sure we are all homesick—homesick for any place in America. And I venture to say that this war will cure many boys who were suffering with a desire to become tourists. We appreciate America now, and we want to get back; but we are all willing to say and take our turn. We want to stay till we are sure it is all over, for we don't want to make another trip of it. Sergeant Conley, of Lubbock, is still in my regiment, and I see him quite often.

By the way, I am thinking of getting a leave and going to Rome. However, the skyscrapers in New York hold much more interest for me at present than the ruins of Rome. Ruins are about all I have seen in the last few months, and believe me, after about two nights in a building with no windows and very little roof, you lose all interest in ruins.

I have not had any pictures made yet, but I will do so at the first opportunity. I think I can at least stir up some kodaks.

I will write you again soon, if you will promise to reciprocate.

Lovingly, Sam.

RED CROSS ITEMS

Enrolled Red Cross Nurses are desired for instructors in the Red Cross Course in Home Hygiene and Care of the Sick.

The Division Office is preparing to organize and conduct classes over the whole territory. The communities where there are no resident nurses will be taken care of by "Visiting Instructors."

Nurses who are willing to act in this capacity will find a large field open to them, a very interesting and worth while piece of work to be accomplished and will thus be able to extend their Red Cross activities.

Any nurse interested in this work will kindly communicate with the Headquarters of the Division, Frisco Building, St. Louis, Mo., directing communications to Dept. of Nursing.

Lubbock County Boys and Girls Clubs

Notice to Members of Conservation Clubs.

Beginning the first of March I expect to meet the Women's Clubs regularly, as in the past. The first meeting of each Club will be a business meeting, and one that you cannot afford to miss. Come yourself, and bring a neighbor.

Do all the women in your neighborhood know about your Club, what it is trying to do, and that an interest in the work is the only requirement for membership? Did you know that two hundred women in Lubbock county were enrolled in these Home Demonstration Clubs last year, and that we expect to enroll twice that many this year?

Below is a schedule of meetings, with times and places designated, for the first week in March:

Day Community Place Time.
Tuesday 4th, Carlisle School house 2:00 p. m.

Wednesday 5th, Canyon School house, 2:00 p. m.

Thursday 6th, Shallowater, and Hardy, Mrs. B. E. Needles, 2:00 p. m.

Friday 7th, New Hope, School house, 2:00 p. m.

Next week I will give the schedule for the following week.

I want to ask all Club Secretaries, of both Canning and Conservation Clubs, to send in all their Club news to this department as the editor of the Avalanche has often asked you to do.

I note that a number of the Community Centers are reorganizing for the year's work. I am very glad to see this, and I assure you that I shall be glad to attend your meetings as often as is possible.

Come in to see me when you are in town on Saturdays. That is my office day, and I like to have you come in whether on business or not.

Get the date of your local Club Meeting in mind and do not fail to meet me there.

Sincerely,
MILIE M. HALSEY,
Home Demonstration Agent.

Ladies Industrial Club at Acuff. To the Avalanche:

The Ladies of the Acuff Community met with Mrs. E. R. Davis on Wednesday, Feb. 19, 1919, and organized

Ladies Industrial Club, with nine members present. The following officers were elected: President, Mrs. W. P. Rush; Vice Pres., Mrs. L. S. Eviit; Secretary, Mrs. Ashley Davis; Librarian, Mrs. Elmer Rush.

On account of the bad weather there was only a small crowd present. Nevertheless we had a very interesting meeting and planned quite a bit of our year's work. Miss Halsey was present and demonstrated her home made fireless cooker, which was easily made with but a small expense. I think several of our members are going to try their hand at making one. We want at least one finished cooker by our next meeting.

We would be glad if every woman in the community would come out to our meetings. We want to raise our membership to at least twenty members. Let's all take an interest in these meetings and am quite sure we will learn many things that will be beneficial to us among our chickens and gardens as well as the other things we will discuss from time to time.

We meet the third Wednesday in each month. Our next meeting will be with Mrs. J. W. Dalton on March 19, 1919.
Secretary.

Slide.
The Food Conservation Club of Slide spent a pleasant and profitable afternoon last Thursday at the home of Mrs. J. B. Nail.

Miss Halsey was with us and gave instructions for making a fireless cooker as well as many other helpful suggestions.

We were all sorry the Club didn't meet with us as Miss Halsey made a hot bed and that is something every family needs now, but we learned how.

The following officers were elected Mrs. J. C. Stanford, President; Mrs. L. C. Kirby, Vice-President; Mrs. E. C. Moreman, Secretary; Mrs. R. W. Harrist, Librarian.

The next meeting will be with Mrs. H. H. Nison, March 20th and we hope every lady in the community will be present.

Ossie McClintock made a business trip to Tahoka last week.
We are informed that several drilling propositions are well under way and it seems most certain that a number of rigs will be spudding in this vicinity before many weeks. Lease speculations, such as should be discouraged, until the first well is brought in, have been quite active for some time. Several test wells are now going down in Stonewall County to the east of us, one in Lynn County to the West. One is soon to be started in the John Slaughter ranch, the contract being already signed. The Geologist has been on the ground for the purpose of locating the exact site. Ten wells have been decided upon covering counties to the North backed by strong interests. These latter are the result of the gas well brought in North of Amarillo some time ago.

Quit Laxatives, Purges; Try NR

NR Tonight—Tomorrow Feel Right
It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.
Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so. NR Tablets do much more than merely cause momentary bowel action. They act upon the digestive system, the eliminative organs—promote good digestion, causes the body to get the nourishment from all the food you eat gives you a good, hearty appetite, strengthens the liver, overcomes indigestion, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you will always feel your best.
Try Nature's Remedy (NR Tablets) and prove it. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

To save from starvation four million stricken refugees, the victims of Turkish oppression and brutality—

To enable them to become again an industrious, self supporting people no longer dependent on outside aid—

A campaign is being made to raise Thirty Million Dollars and Lubbock County's part of this fund is \$980.00. You are asked to give, to give generously, to save four million sufferers from cold, hunger, diseases, certain death. Never has such a call been made to the humanity of America. Every dollar you give is an investment in the resurrection of a race, an investment that will result in lasting benefit not only to those you help but to America and to the world.

Many demands have been made on your generosity, but not even those who have reason or excuse for refusing to make some contribution toward the relief of the Armenians. The whole country is being called upon, and the people of Lubbock County must do their part toward the success of the campaign.

"CANNED BLOOD" USED BY SURGEONS IN WAR

Washington—Use of "canned blood" one of the remarkable developments of war surgery, was described today by the Surgeon General's office for the benefit of the families of hundreds of soldiers whose lives were saved by blood transfusion.

During a heavy attack it was impossible to arrange for transfusion direct from persons, so the fluid was drawn previously, stored in ice, then used in emergency cases.

"By these methods many men were returned to their families, who in previous wars would have lived but a few hours," the department's statement asserted.

NOTICE IN PROBATE

THE STATE OF TEXAS,
To the Sheriff or Any Constable of Lubbock County, Greeting:
You are hereby commanded to cause to be posted for ten days, exclusive of the day of posting, before the return day hereof, in three of the most public places in your county, one of which shall be at the Court House door and two of which shall be in the same city or town, and also to cause to be published in a newspaper in your County day hereof, in a newspaper in your County of general circulation, which has been continuously and regularly published for a period of not less than one year, copies of the following notice:

To all persons interested in the estate of BERNHARD ADOLF SCHRIEVER and GERHARD JOSEF SCHRIEVER, minors, John F. Schriever has filed an application in the County Court of Lubbock County, on the 10th day of January, 1919, for Temporary Letters of Guardianship of the estate of said minors, and that at the next regular term he be granted Permanent Letters of Guardianship of the estate of said minors. Said John F. Schriever was by the County Court of Lubbock County, on the 10th day of January, 1919, appointed Temporary Guardian of the estates of said minors, and said appointment will, at the next regular term of said court, be made permanent unless contested.

Said application will be heard by the Court on the 14th day of April, 1919, at the Court House of said County, in Lubbock, Texas, at which time all persons interested in said estate are required to appear and answer said application, and those cases, if any there be, why said appointment should not be made permanent, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Lubbock, Texas, this 22nd day of January, A. D. 1919.

2 or 3 Drops Applied in a Few Seconds—They Come Off—No Cutting, No Pain, No Work!

the old-fashioned way. "Gets-It" is the modern, painless, simple way. Lean over and put two drops of "Gets-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased. "Gets-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop limping on the edge of your shoe, and go away with your toes, bandaging, blisters, thick plasters and painful methods. "Gets-It", it's common sense.

AGRICULTURAL DEPARTMENT

Notice to Cotton Farmers.

Some weeks ago I sent out circular letters calling for a meeting of the cotton growers in regard to the establishing of a Cotton Marketing Bureau office in Lubbock. We made an effort to secure one of these offices, which would have been of untold value to the cotton growers of this county, however, it seems that the offices have been given to other places; yet we have a splendid opportunity to take advantage of the marketing service which will be maintained at Dallas, through which groups of farmers in communities that have no local office may market their cotton.

I recently had a letter from Mr. Walter Poteet on this subject, and I wish to especially call your attention to what he says concerning the growing of long staple cotton.

The letter follows:

Dallas, February 21, 1919.
Mr. Carroll Thompson, Co. Agt., Lubbock, Texas.

Dear Mr. Thompson:
I have your letter of February 13th referred to me by Mr. A. D. Hudson, who has recently resigned from the service.

We have authority to establish only twenty cotton ginning and marketing offices this season and have had many more than this number of applications. We are now closing contracts with the communities in the order of their applications, and if all of them should meet our requirements, it will not be possible for us to locate an office at Lubbock this season. If, however, there should be a vacancy on the list, I will be glad to consider sending a man to you.

I regret very much that I was not able to visit Lubbock on the 12th, but circumstances beyond my control made the visit impossible. I am not at this time able to fix a date when I can come, but I will visit you before cotton planting begins, and will endeavor to arrange plans whereby your farmers may secure the benefit of a state marketing service which we will maintain. We have planned to have central marketing offices at Dallas and Houston through which groups of farmers in communities where we have no local office may market their cotton. I will explain this plan to you more in detail when I visit you.

Permit me to suggest that you urge all farmers who grow cotton to get good seed of varieties that will yield a staple longer than one inch, such as

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at all. Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. Lone Star, Rowden, Acala, Bennett and Truitt. It is becoming increasingly difficult to sell short staple cotton, and farmers who persist in growing such varieties as Half and Half and other varieties that yield a short staple will find it extremely difficult to sell at the market price this fall. The supply of seed of the good varieties named above is very limited, and if your farmers want to buy seed they should lose no time in placing their orders.

Yours very truly,

WALTER PETEET,

Assistant in Marketing.

If any of the farmers desire to secure any of the varieties of seed mentioned, I shall be glad to assist you in locating same.

The Strong Withstand the Winter Cold Better Than the Weak

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza.

When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

GROVE'S TASTELESS CHILI TONIC Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its strengthening, invigorating effect. 60¢

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood in the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by the best physicians in this country for years. It is composed of some of the best known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free. W. J. UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need the dangerous calomel to start your liver and clean your bowels.

Here's my suggestion! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Wade Robertson and D. Henry of Slaton, were transacting business here the first of the week.

Clint Rambo, County Treasurer of Terry County, was here the first of the week having one of the local physicians examine a severe wound on his spine, which was hurt about two or three years back, while he was moving or helping move a house, he was struck by some falling timber. Since that time Mr. Rambo has received treatment in several sanitariums, although improvement has been very slow, his health is apparently alright, but has been compelled to wheel himself in a chair, being unable to walk. Mr. Rambo was accompanied here by his wife, father and sister, who visited with acquaintances.

Mr. and Mrs. J. P. Williams returned to their home in Crosby county, the first of the week, having been in the eastern part of the state several days.

I. H. Scarborough of Post City was here the first of the week transacting business and visiting with acquaintances.

H. R. Fitch of Phoenix, Ariz., was another of the visitors here this week.

WEEKLY NEWS LETTER FROM IDALOU COMMUNITY

We failed to make our appearance last week owing to some sickness in the community which we were at that time visiting.

Idalou continues to grow in population, at the present rate in one hundred years we shall have a town "of our own liking". Master Ishmel Lewis arrived to take up his abode with us this week. We hope life worth living and that he will like his surrounding fine. Both the mother and B. N. doing fine, as well as little Lewis.

The school continues to grow in number as well as good work, under the efficient corps of teachers we have here this year. Many have come to the conclusion that it takes a man to run a successful school, but we hold up for the women, and just a glance at the work being done by the student body will convince anyone that Miss Bean is equal to any man as principal.

The real estate in this vicinity has been changing hands this week at rapid rate. Mr. Lassiter and Mr. Sanders have sold their places to Mr. Lassiter's Uncle, Mr. Turner, and a Mr. Peoples, both from the oil fields, they having sold their royalty and investing in something worth while—Idalou real estate. It has also been reported that B. Sherrad has traded his nice home in West Idalou for oil royalty, but nothing definite has been announced as yet.

Quite a number of the young folks attended the excellent program of the Acuff school house last Saturday night. Even if the Idalou folks did get the "goat" they all report a nice time.

Mrs. J. J. Baker gave a singing at her nice home four miles South of town Sunday night. We had lots of good singing and one of the largest crowds present we have seen in a long time at a singing. It is evident that we all live good singing from the fact that everyone that is given any where around we have a good crowd.

Mr. and Mrs. B. Sherrad made a flying trip to Slaton Sunday afternoon visiting the former's brother. Miss Robinson, Herbert and Ola Teal chaperoned them safely back home, but at a very late hour.

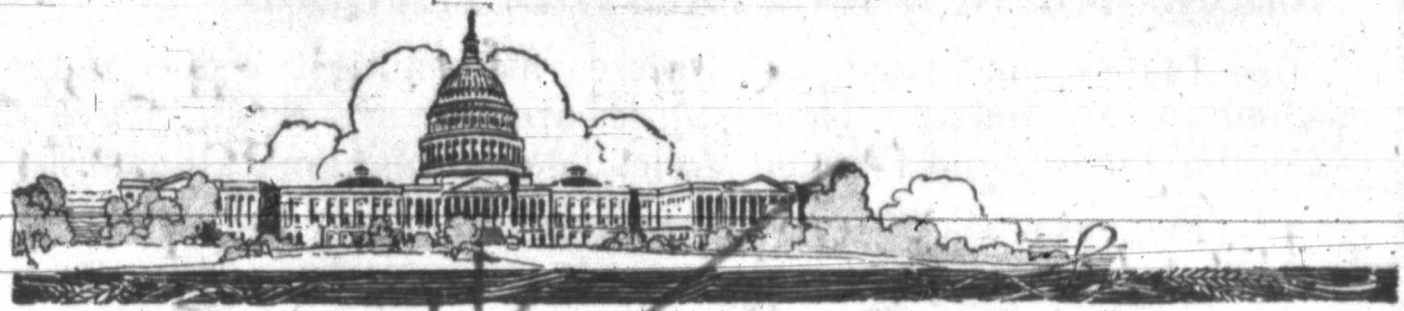

Mrs. J. B. Mitchell was sorely disappointed Saturday and Monday afternoon, as she met the train both evenings looking for her son, Marshall, who is in California, having been discharged telegraphed his mother he would be home just as soon as possible.

Next Sunday is singing evening at Idalou, everybody is invited to come and bring somebody with you. Some time in the near future there will be a singing convention either here or at Lorenzo. Watch for the date and be sure to come if you like good old time singing.

Mrs. J. B. Mitchell and Mrs. Jerry Smith entertained their Sunday School classes at the former's home Saturday evening. Cake and fruit was served to the guests. Everyone present had a most lovely time.

Pvt. Joe Donley has returned from overseas. He got there too late to be in any of the fighting, but in time to see many of the interesting scenery "over there." He is the first boy from here to return, and is very interesting to talk to, as we are all eager to talk to someone that has been to France.

The Club being formed for the purpose of purchasing and installing a gymnasium here, is progressing nicely, and as one of the leaders, expressed, "we will be in a position to buy the material as soon as a few more dollars is brought in." We believe that this will be a great benefit for all the people concerned, and wish to see the money put up so the boys can go ahead and buy the material.

T. S. Jackson has recently disposed of his property here, and has purchased land on the De Leon river, near the Duke and Knowles famous wells. Mr. Jackson says he has about as good a proposition for oil prospects as necessary, and that he intends to organize a company and develop at least part of the acreage. Although he is going strictly in the oil game, he says he will make Lubbock his home.

Geologists of Fort Worth, returned to their home after investigation prospects of the new industry developing south of here, and from reports made by them the lakes which were one time the poorest investment are going to be turned into the best.

J. H. Lyle of Joplin, Mo., is here this week visiting with his father, S. L. Lyle. Mr. Lyle says that snow was eight or ten inches deep in parts of the country which he came over, and that traffic over parts of the northern lines was very much congested.

J. B. Pryor, contractor, who has been in the Ranger oil fields recently, returned home last Saturday and stayed over until the first of the week, and has again returned to that place.

Walter Ames is here this week, trading and looking after his cattle he has on his ranch near town. Mr. Ames has a bunch of teams working in the Ranger Oil fields, and is staying there.

Messrs. Winston and Scudday of Terry County, were here the first of the week transacting business and as they remarked, "looking over the city."

L. E. Smith of Santa Rosa, N. M., was here the first of the week, visiting with relatives who live near here also transacting business.

Dr. R. B. Hutchinson went to Pecos City last Friday and returned home Sunday.

Corp. Earl Moore is back from the training camp, after an absence of about six months. Mr. Moore received an honorable discharge from army services.

O. V. Bagwell was home with his family the first of the week. Mr. Bagwell has been employed in the oil field in Comanche county.

W. C. Mathis was here this week, from Brownfield attending to business and visiting with relatives and friends.

Aut Graham of Terry County was here this week attending to business interests.

Judge G. E. Lockhart, of Tahoka, was here attending to business interests the first of the week.

ELECTION PROCLAMATION

Pursuant to an order made and entered on the tenth day of February, A. D. 1919, by the commissioners court of Lubbock County, Texas, proclamation is hereby made giving notice to all qualified voters of said county who pay a property tax in said county, that an election has been ordered held in the whole of said county, at all the regular voting places therein, the said election to be held on the eighth day of March, A. D. 1919, during the usual hours of said day provided by law for holding public elections, to determine whether there shall be levied upon the property within said county, by the commissioners court of said county, a road tax not to exceed fifteen cents on the one hundred dollars worth of property in said county subject to taxation, under the provisions of Article Eight, Section Nine, of the present Constitution of this State, and under the provisions of Title 119, Chapter 11, of the Revised Civil Statutes of the State of Texas.

Only qualified voters of said Lubbock County who pay a property tax in said county shall be permitted to vote at the said election. The tickets printed and to be voted at said election shall be the official ballot and shall have written or printed on them the words: For the Tax, and Against the Tax, and those who favor the tax shall vote the ticket For the Tax, and those who oppose the tax shall vote the ticket against the tax. The said election shall be held at all the regular voting places in the county heretofore fixed by order of the commissioners court, and shall be held by the official election officers duly appointed by said court at the present term of the court for the ensuing two years. Dated this 12th day of February, A. D. 1919.

PREDICTS READY SALE FOR FARM PRODUCTS

That farm production in 1919 is not likely to exceed the world's demands, is forecast by the U. S. Department of Agriculture. To what extent these demands are to be met by the farmers of the United States is a question. Over-production along any line is not desirable, nor profitable, so the department is urging a program more or less conservative. Large plantings for big production cannot be profitable now that farming is about to be restored to a peace time basis. The farmer must return to his crop rotations, and his production of live stock balancing all farming operations around them, much as he did before the war, if he is to keep his business on a firm basis. A detailed survey of the agricultural situation has been made, and the department concludes that a wise livestock program will involve maintaining the number of horses and mules without material increase, a normal increase in the number of dairy cows and dairy products, a normal increase in the number of beef cattle; a conservative policy with respect to increasing number of swine until the relative shortage and high price of feed are overcome; an increase in the number of sheep consistent with facilities for feeding and pasturage and farmer's knowledge of sheep husbandry and skill in handling them, and with adequate protection from dogs and an increase in farm flocks of poultry where a minimum of purchased feed is required.

The signing of the armistice at the close of 1918 found the United States with a relatively large supply of food crops and a relatively short supply of feed crops. A livestock program involving any increase in the number of animals necessarily involves an increase in the production of feed crops.

It appears desirable to increase the production of hay by about one-fourth. An average acreage of potatoes is needed. Farmers will be justified in maintaining their acreage of barley, oats and corn, for an ample production is necessary to maintain normal live-stock production. Home gardeners should plan to meet the needs of the family rather than to produce crops for sale on the market.

The Extension Service of the University of Missouri College of Agriculture is ready to help anyone reorganize his farm business on a sound basis in keeping with the 1919 prospects.

RESTRICTION OF IMMIGRATION.

The immigration question should be taken up and considered by Congress at once.

We have had but little immigration during the four years of war. Now with conditions altered and

peace at hand it is not unreasonable to suppose that after a few months immigration might begin to flow into its old channels.

Nearly four millions of our own men are in process of receiving honorable discharge from the army and navy, and will have to be re-absorbed into the civilian life of the country. Just how the readjustment of business may progress or how much unemployment there may necessarily be no one yet can tell.

We may not at once have jobs for all our own men. They have been our defense and in turn are entitled to our protection.

A restriction of general immigration for some time to come can harm no one, and may be of the greatest value to our young men. As soon as reconstruction has progressed far enough so that conditions can be foreseen, it will be an easy matter to let down the bars.

The time to attend to this limiting of immigration is the present. Just now no shipping can be spared for the use of immigrants, and before this condition ends proper legislation should be provided.

Our country has always been the refuge of all nations. It will be so more truly again after a temporary restriction to meet conditions.

OUR WELCOME TO OUR MEN.

Transports from overseas are entering our seaports and lying at their docks, and every day disembarking a crowd of our boys in khaki. These young men will soon be at their homes, and the question is, how shall we welcome them?

With bands and parades and meetings at the town hall, if you will. These demonstrations of welcome are proper and fitting. But what our young men will presently need is employment.

Every man's old job should be open to him wherever possible. But as the regiments pour back, there may be more work still needed to fill the needs of the men.

Each village and town and city should take stock of its requirements, both immediate and potential, and use every means of instituting them at once. If a school house or an engine house or any public building is needed, now is the time to inaugurate it. The goods roads question is always with us. Manufacturing of some local raw material into a finished product may possibly be undertaken.

Initiative in these directions will be the truest welcome to our men.

Now would be a mighty good time to start that paving proposition to moving. Give the boys coming back home something to do. Many of them might be glad to get a job on this work. And too, there might be a number of blocks of cement walks put down in Lubbock, and a good job for some painter to make marking boards for the streets and putting numbers on our houses. Let Lubbock do her share in providing work for the returning soldiers.

The women of the British Empire were requested to make an offering of pearls to the Red Cross. The request was sent out last March, with the expectation that a necklace of valuable pearls might possibly be obtained. Nearly four thousand pearls are now on hand, ready to be sold for the benefit of the Red Cross. They aggregate forty-one ropes, and each pearl means an individual sacrifice and an act of love.

MAKE GERMANY RESTORE IT.

In Belgium and northern France is a strip of land from 12 to 50 miles wide and 150 miles long, within whose limits are to be found neither houses, barns, trees, shrubbery, stock of any kind, grass nor arable land. The ground has been plowed up by great shells, and tons and tons of steel are buried in it. Its aspect might well be described as the "abomination of desolation."

Yet it is to this hopeless tract that refugees in thousands will come back. It is all that is left to them of home.

If the peace conference does its duty, it will require the nation which desolated this land to restore it. The great shells must be removed from the ground, earth and fertilizer brought in to make the land once more productive, homes and barns constructed, seed and agricultural machinery supplied.

Germany, the aggressor and devastator, must become the restorer.

Reared Her Family WITH **SIMPLE HOME REMEDY**
An American Mother Beats Them All

There are few families in which the record of Mrs. Gustave Koch, Box 24, Kewick, Keokuk County, Iowa, has been surpassed. Not in the fact that she raised a family of eight in her story remarkable. Thousands of families are larger. The history of the Koch family is unique in that the mother, with all her loving care, raised her eight children, and never had a doctor for her children. Here is what she says: "Peruna has done my children good. I have a family of eight and never had a doctor, only your medicine. We all think Peruna a splendid tonic."

So far as we have learned, Peruna is the only known remedy for which such a wonderful claim can be made. Like Mrs. Koch, there are thousands upon thousands of mothers who place their entire dependence upon Peruna.

That Peruna has merited this confidence is attested by the words

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It rots the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A Little Danderine to-night—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a Little Danderine. Save your hair! Try it!

TEXAS CONGRESSMAN WANTS SOLDIERS PLEAS REVIEWED

The House of Representatives Saturday accepted an amendment to the Military Appropriation Bill proposed by Representative Jones of Texas, which required that whenever an enlisted man makes application for discharge and his immediate officer refuses it, that officer must at once transmit to the Adjutant General of the Army all the papers in the case and his reasons in full for disapproving the application. Jones, who served as a private after declining a major's commission in the world war, said he knew of innumerable cases where officers disapproved applications for discharge without having any reason for such arbitrary action.

A. J. Jones and Becker Whaley, cattleman of Gainesville, were here last Saturday, looking after ranching interests, and also visiting with friends and acquaintances who live out west of here, near New Mexico state line.

Mrs. M. E. Black, of Petersburg was in town last Saturday attending to business interests.

J. J. Moore, of Petersburg, was here last Saturday shopping and attending to other business matters.

FACTS AND FIGURES---Wouldn't you like some first hand information from a representative who has just returned from the oil field? Here are the FACTS. There is absolutely not a more promising location in the Burburnett field than our holdings. Only 2600 feet S W of the townsite, in fully proven territory. On the north, east and west, wells from 1000 to 2500 barrels capacity within 1500 to 3000 feet of our acreage; while to the south only 500 feet, a big well is soon to be brought in.

DAILY INCREASING IN VALUE---Development is daily increasing the value of Queen City stock, as proof of which you should see the large derricks of five well known companies beginning operations next door to us within the past few weeks. The Greenwell Petroleum Co., only 500 feet N E. In the same direction 1800 feet away is the Stanley, Lankford & Chénault Co. To the N W 2000 feet is the Gulf Refining Co., 2200 feet in same direction is the Sun Co., with well now on sand; while best of all, to the S W the St. Louis Refining Co., with unlimited capital, have gone in for a 4000 to 8000 barrel well, starting in with the intention of going down 4500 feet if necessary to secure same and are now down 1500 feet. All of the above companies are now drilling day and night. When one of these big wells come in watch Queen City stock jump 3 or 5 for 1.

ANTI-POOL HALL BILL APPROVED BY GOVERNOR

Austin, Texas, Feb. 19.—Governor Hobby today signed Senate bill No. 14 which forbids the operation of pool and billiard halls for profit, and under this law these places must be closed on May 1.

Before signing the bill the Governor submitted two questions to the Attorney General's Department. They were answered by First Assistant W. A. Keeling, who advised that the bill will not prevent the operation of pool and billiard tables where no charge is made for playing, such as in private homes, Y. M. C. A. halls and bona fide social clubs. However, if a charge is made for playing, even though it is to cover the cost and the entire amount goes to the club and is not intended as a profit, such practice would be a violation of the law. The per cue charge in clubs cannot be continued after May 1.

Governor Hobby also signed Senate Bill No. 106, by Mr. Floyd, prohibiting dancing exhibitions by women of traveling show aggregations in tents or other temporary structures. Dances in opera houses, theaters and regular traveling circuses are not affected.

Other bills signed by the Governor today are as follows:

Senate Bill No. 149: Authorizing counties through their Commissioners' Courts to purchase seed for farmers who are unable to make such purchases.

Senate Bill No. 25: Forfeiting the interest of any beneficiary under a life insurance policy or contract when the beneficiary is a principal or accomplice in bringing about the cause of death of the insured.

Senate Bill No. 150: Giving counties two years' additional time to pay interest on loans from the State for the benefit of drouth sufferers.

Senate Bill No. 24: Providing that the interest of a mortgagee or trustee under any fire insurance policy shall not be invalidated by any act or neglect of the mortgagor or owner of the property insured by said policy or the happening of any condition beyond his control.

Senate Bill No. 5: Prescribing eligibility of State, county, precinct and municipal officers on official ballot.

Senate Bill No. 39: Relating to giving recognition on appeals.

Senate Bill No. 47: Providing that in case of two or more convictions of the same defendant the court provide in rendering judgment and sentence that the punishment be either concurrent or cumulative.

Senate Bill No. 40: Relating to suits brought by the State, county, city or independent school district against any officer or depository thereof, when such officers have held office more than one term, and providing for suit against their different bondsmen.

Senate Bill No. 39: Amending the law relating to appeals from injunctions.

House Bill No. 98: Fixing the compensation of county and district court jurors at \$3 a day.

House Bill No. 44: Amending law so as to make privilege, without proof of actual malice, fair, true and impartial accounts of any executive and legislative proceedings.

House Bill No. 320: Creating Saratoga Independent School District in Hardin county.

House Bill No. 29: Repeating salary of two nurses for Confederate Women's Home for 1918 and 1919, and for making appropriations for such nurses from January, 1919.

WOODMEN CIRCLE IS ENJOYING THRIFTY GROWTH

Every assembly of persons who are organized for the advancement of any purpose will do their utmost to assure the venture all possible success. Our soldiers while training in Lubbock guarded their mascots from all harm. Many soldier boys will tell you of various mementoes, their significance nothing less than phenomenal. Of course we don't presume that our armies are indebted to their many and various mascots for the splendid victories that have been won, but the fact remains that the men were kept in the best of spirits for being given the privilege of offering their object of affection at the Shrine of Love.

How fitting then, that the Woodmen Circle should follow the custom handed down from time memorial and adopt a baby as its idol of superstition. Baby Mary Elizabeth Peek exhibited her approval with little gurgles of delight.

Apparently she has laid her fairy wand on our roll call. From one to five applications are received at each meeting. A transfer card sent in by Mrs. Lair of Amarillo, was accepted. A welcome among us is extended her. We have decided to request the services of Dr. Baugh as examining physician while Dr. Hall is convalescent.

Mrs. Maidie Hurd was awarded the prize. A tastefully arranged supper consisting of sandwiches, cake and

hot chocolate was served at the close of the meeting.

Several of the rooms at the Woodman hall have been turned over to the Red Cross for their use for some time, and we understand they are steadily disbanding. This is deplorable for the Red Cross has been immortalized for its many deeds of mercy during the world war and it seems to me no other organization is so fitted for the relief of the distressed among our citizens. Many distinct acts of kindness in the town of Lubbock can be traced to the activity of the Red Cross. Would that they could be perpetuated and this organization be permanent. The merchants and the pastors of the different churches and all other organizations would surely pledge their financial and moral support and inspiration.

FIRE PREVENTION COMMITTEE HERE (Continued From Page 1.)

ality for carelessness, would have taught us to be exceedingly careful in handling these highly inflammable

explosives were we not disposed to think that what happened to others from the handling of these liquids can never happen to us. Familiarity has brought contempt where there should be caution. Many women have the habit of cleaning gloves and clothing with gasoline inside a closed room. Death is always present during such a procedure, watching for the favorable moment to claim a victim.

If gasoline or other liquids must be used, keep them in air-tight vessels out of doors, use them only out of doors, or in a room with doors and windows all open and free from any kind of fire or light. A good substitute for cleaning purposes, and one in which there is no danger, is carbon tetrachloride. It is a splendid solvent and will not injure the finest fabric.

It must not be overlooked that vapor from these inflammable volatiles is also highly explosive. A cubic yard of such vapor contains sufficient force to blow out the side of a building. One gallon of gasoline at ordinary temperature will produce 37 cubic yards of vapor. If ignited, it will expand to 4000 times this space.

Shingle Roof Menace.

The greatest danger in a conflagration lies in the wooden shingle roof. It is a real fire-catcher; one that could hardly be improved upon. A small spark carried by the wind can find a lodging place under a shingle and work its way into a blaze before it is discovered.

In Texas, from a fire danger point of view, it is indeed unfortunate that so many dwellings have wood shingle roofs. One city in the State is entirely free from them, and a dwelling fire at that place is a rarity—they don't have them, and give the non-combustible roof the credit for the remarkable record. These roofs are mostly metal. It is now possible, at very little additional cost, to make a roof of some other material, such as tile, slate, metal, fireproof fibre, etc. In the fire areas of cities in this State, shingle roofs are forbidden, and it is clear that they must be equally as dangerous in the dwelling sections.

The inspectors recommended the appointment of a fire prevention commission whose duties it would be to see that all fire hazards are eliminated and back the fire marshal up in his demands upon the people for safer surroundings.

President Wilson is quoted as saying the Peace Council is unwieldy. We fear that is exactly the trouble he is going to have with the next Congress.

B. O. McWhorter left Wednesday for Amarillo to attend the convention.

Ed Green returned the first of the week from the oil fields in Eastland county.
