VOLUME XIX

LUBBOCK, LUBBOCK COUNTY, THURSDAY, APRIL 10, 1919.

NUMBER 41

## EIGHTY-TWO LIVES IS STORM'S TOLL

### WIND SWEEPS ACROSS SOUTHERN OKLAHOMA, NORTHERN TEXAS AND PORTIONS OF ARKANSAS.

## FATALITIES MAY BE REPORTED FROM ISOLATED TOWNS

### The Property Loss Will Be Tremendous as the Storm Track was Through Densely Populated Sections of the Three States and Much Property is Bound to Have Been Destroyed.

Dallas, Texas, April 9.—Eighty-two lives was the toll of the storm which swept north Texas, southern Oklahoma, and a section of Arkansas last night and early today, according to reports received here up to 10 o'clock tonight. Many points still were isolated at that hour and the number of fatalities may be increased when full details are available, as the tornado swept through thickly settled farming communities. Of the 82 reported dead, 43 have been identified.

Direct telegrams from Duran, Okla., gave the fatalities there as 11, as against 6 previously reported.

Near the little town of Bells, a Missouri, Kansas & Texas freight train was blown from the track, the engine alone staying on the rails.

The conductor and brakeman living in Denison were reported badly hurt.

The storm passed over Texas coming up from the south, so high that only its fringe was felt here at cities south of here. After passing Dallas, it apparently swooped down and it was the counties along the state line that felt its full force. Today, before the first reports of serious damage began to be received, J. L. Cline, United States weather observer here, announced that conditions had been just such as caused tornadoes and predicted that reports of a serious storm would come later.

In the Panhandle of Texas, the wind was accompanied by heavy snow. Childress, Texas, reported that traffic with all the Panhandle roads was blocked by the worst snow storm of the season. From Clarendon north into Colorado 15 inches of snow covers the ground. The Fort Worth and Denver road had three trains in drifts and at Amarillo, the turntable was filled so that engines could not be taken out of the round house. The high wind in the Panhandle kept up all day. From Clarendon south, a heavy rain fell all night and all creeks were bank full. The weather observer predicted frost temperatures for tonight.

Reports from communities show the following deaths:

- Canaan, Texas, 4.
- Duran, Okla., 11.
- Wood county, Texas, 4.
- Pontotoc County, Okla., 1.
- Ector, Texas, 3.
- Ravenna, Texas, 8.
- Mineola, Texas, 11.
- Tundry, Texas, 8.
- Winnaboro, Texas, 15.
- San Angelo, Texas, 1.
- Texarkana, Texas, 1.

## CITY LIGHT PLANT INSTALLING NEW FIXTURES

The City Light Plant has recently received some new equipment for the plant and it is being installed this week, and there may be short intervals that the lights will be out, but the force will do most of their connection work at times when it will discommodate the fewest of the patrons, and they hope to have all the new equipment set in a few days.

The city plant has been most successfully operated from the time it was first put in operation and has given splendid service, and the present management is adding new and more modern equipment and propose to keep the plant up to the usual high quality service.

## LUBBOCK INDEPENDENT SCHOOL TRUSTEES ELECTED

Last Saturday trustee election was held for the election of three trustees for the Lubbock Independent school district, which resulted in the election of A. B. Conley, Jr., S. C. Spikes and C. M. Ballenger. These three gentlemen were members of the board before. We understand that Dr. Hutchinson will continue as President of the board and L. D. Rankin, Secretary-Treasurer.

This is a progressive set of men and we are not uneasy at all for the future of Lubbock schools.

Miss Harris of Plainview, arrived Wednesday and is a guest of Mrs. G. F. J. Stephens.

Newsome, Texas, 6.  
Pleasant Grove, Texas, 2.  
Eustace, Texas, 1.  
Ogden, Arkansas, 5.  
Walters, Okla., 1.

Following is a list of the identified dead:

At Newsome, Texas: Adolphus, Austin and wife. Two children of E. Tillery. Two children of Mart Morgan. Mrs. S. J. Alston, Mrs. J. R. White, J. R. Little, Sr., and his small son; J. R. Little.

At Grand Saline, Texas: John Lynch, his wife and baby.

At Delbia, Texas: Two young women named Fuller, Mr. and Mrs. Pryor.

At Ector, Texas: Sam and Cecil Huffaker, child named Ashburn.

At Mulberry, Texas: Lufe Price, his wife and two children, Fred Wiseley, Mrs. Bond.

At Blodgett, Texas: J. L. Branch, and wife, Roy Branch, Percy Branch.

At Blue Ridge, Texas: W. J. Lawrence, his wife and four children, Lena Pryor.

At Durant, Okla.: Mrs. John Murphy and two children, W. B. Neal and wife, Mrs. Vincent, Mr. Inman, Sam O'Connor, Mr. Moffett, Beulah Inman, Mr. Isham.

At Jesse, Okla.: Mrs. Collins.

At Texarkana: Edna Richardson, negro.

At Winnaboro, Texas: Mrs. L. G. Calhoun, Mrs. W. A. Alston and baby.

At Canaan, Texas: Grover Atnip, his wife and two children.

At Mineola, Texas: Miss Inez White, Mrs. Vickery, Mrs. Turner, two negro women named McDonnell, Mrs. Eula Orr and baby, A. Jones, Cheney Moore and two sons.

At Pleasant Grove, Texas: Will Jordan, Mrs. Clements.

At Pike, Texas: Mr. and Mrs. Lawrence and their four children.

At Tundra, Texas: Herbert Burns and four children, two sons of James Martin.

Pontotoc county, Okla.: Mrs. Josephine Lankin.

At Walters, Okla.: G. C. Milley.

The course of the storm was erratic. At times, it leaped a mile or more before striking the ground and doing damage, and left one farm-house unharmed only to demolish the next one. No cities of any size were in its path. Most of those killed were caught under their falling buildings. The heavy rainfall extinguished the numerous fires that started when houses were overturned.

The little cotton town of Canaan was completely wiped out.

## CROSBY COUNTY FOLKS WANT BETTER MAIL SERVICE

The Citizens of Lorenzo, Ralls and other places on the Crosbyton branch road, are petitioning the railroad official, or the railroad administration, to hold their train which arrives here at 9:25 a. m. and leaves at 11 a. m., until after the afternoon train north bound arrives here, thereby taking all passengers which may arrive in the morning and afternoon.

It is understood that the men are now working nine hours on this run, and by holding this crew here until 1:30 p. m. will probably cause them to either have two crews or the same one work 12 hours, which the railroad company more than likely will not want to do, but it is readily seen that the people of this road to Crosbyton are put to many disadvantages. For instance, parties arriving on the afternoon train are compelled to wait over until the next day, besides men coming from these points on the branch do not have enough time to spend attending to business matters and make connection with the returning train.

It is to be hoped that some adjustment will be made in the near future.

Mrs. Jno. M. Denman and sons, Marian and Bul, are spending a few days visiting in Floydada with Mrs. Denman's mother, Mrs. Wm. Moore.

June Watts, of Paducah, Texas, but formerly of Lubbock, was one of the out-of-town visitors here this week.

## COUNTY TRACK MEET RESULTS ANNOUNCED

The Athletic League of the County Schools which met last Thursday were very poorly represented by the rural schools, Canyon being the only out of town school represented but the District meet which is held here Friday and Saturday, April 11 and 12, is expected to be well represented by all the neighboring counties or possibly 13 counties will have their pupils here.

The following is the result of last Thursday County meet:

## NEW INDUSTRIES WILL DEVELOP LUBBOCK TRADE TERRITORY

Lubbock as the logical distributing point of the South Plains will in several ways be benefitted by the project being worked upon toward erection of mills for the potash which has been located in the Alkali lakes particularly in Terry and Lynn counties which will no doubt be a great help to the towns in which the mills are located, as it will give them a payroll of several thousand dollars, also bring other business to these places, which will of course draw through Lubbock's wholesale houses their wares and also as Lubbock's Banks are one of the foundations of development in the South Plains being used by business men of all these adjoining counties will be helped to a great extent.

In conversation with M. V. Brownfield who has leased lakes to one of the companies who are now developing he stated that Ainsworth of Wichita, Kansas, who is one of the men leading this industry was now making Brownfield his headquarters and that he thinks without doubt that the mills be erected in a very short time, as yet nothing definite is known as to who will erect mills as one of the companies who are developing are composed of Fort Worth men who are still sending sediment to different laboratories for analysis.

Mr. Gurley, one of the men with the other company who we understand were the first to recognize the lake as being valuable, in conversation with us some time back stated that his company are through with their analysis, and that they knew exactly to what extent each product would contribute toward working as a paying basis, potash being the main mineral, while salt and other products would be found and milled which would pay their operating expense.

Judge Moore returned Thursday morning from Amarillo where he went as chairman of Lubbock County Loan Committee, to attend their meeting which was held there the first of the week. All reports from the parties who attended are that the meeting was a complete success, all the counties which were in this district had their representatives there.

Harry Snodgrass of Floydada, spent the first part of the week in the "Hub of the Plains" attending to business matters.

## FOUNDER OF BUCKNER ORPHAN HOME IS DEAD

Dr. Robert Cook Buckner, evangelist, author and founder of the Buckner Orphan Home, died at his home in Dallas yesterday. And, notwithstanding the fact that at the time of his death, he had passed his eight-sixth year, the news came as a shock to his many friends.

It would be impossible to give an adequate expression of appreciation of Dr. Buckner as a friend, counsellor, leader, and man. He has given his entire life to the cause of Christ and for the uplift of mankind, as the most casual glance will reveal. He has been one of the most useful men of his generation and has been looked upon as one of the foremost leaders among Southern and Texas Baptists. No man ever lived a more noble and unselfish life than Dr. R. C. Buckner. It was his desire all through life to be of assistance to others, and it may be stated that he did not fail in his attempt.

As a minister, Dr. Buckner was classed with the best. He was clear, scriptural and sympathetic and was the means of leading many souls to Christ.

But possibly his greatest work was that of caring for orphans. He founded the Buckner Orphan Home many years ago and has been actively caring for the home all these years. His life, which was dedicated to Christ, has been a blessing to many. In this home thousands of children have been cared for; each of them receiving a father's love. As a result many young men and women today are indebted to Dr. Buckner. Through him they were given a chance to live; a chance to grow up to useful manhood and womanhood.

The Buckner Orphan Home today is one of the largest orphan homes in the land and Dr. Buckner is due a large portion of the credit for its growth and success.

As a leader in Baptist affairs, he was conservative, broadminded and almost universally loved. His friends are numbered by the thousands and if he never had a real enemy it is not known. His life was spent for others, without a thought of self. At the time of his death a lot in the Dallas cemetery was his only worldly possession. All that he accumulated through life had been given to others.

## WESLEY CLASS BOX SUPPER AT DAVIS HOME

Notwithstanding the rain and sleet and the snow and the hail and the lightning and the thunder a number of people assembled at the hospitable home of Mr. and Mrs. Sam T. Davis last Tuesday night and enjoyed a box supper of the Wesley Bible Class, of the Methodist Sunday School. Had the weather not been so severe there would have been the largest crowd present that any occasion of like nature ever attracted. This class is composed of a live bunch of ladies headed by one of the most unique teachers in the state and they are developing into one of the strongest classes in any Sunday school, and they will be heard from later. We had a fine time—just a few of us. If it had not stormed more people would have had a riproaring time.

## CHURCH SUPPER IN METH. ODIST CHURCH BASEMENT

Last Wednesday night a supper by Methodist families in Lubbock was enjoyed by a large crowd after a splendid lecture in the main auditorium by Dr. J. W. Hunt, of Abilene. He is Conference Director for the Centenary movement that the Methodist church has launched and an eight days drive will be made to raise funds later in this month, and he was here in the interest of that movement and spoke most interestingly on the subject. A much larger attendance would have resulted had the weather been more favorable, but as it was there was an abundance of good things to eat, and a rousing good time.

## NEW DESCRIPTIVE BOOK LET NOW ON THE PRESS

A new descriptive booklet will be off the Avalanche presses within a few days. It is one of the nicest that the Chamber of Commerce has ever issued, and it will be a great help to those who wish to send out information to their friends and prospective purchasers of property in this section of the South Plains.

T. S. Jackson returned last Saturday from Burk Burnett where he has been for several days looking after interests there. Mr. Jackson had a well rig working in the oil fields there this past winter.

J. C. Prade and wife, of Tolia, were visitors here last Saturday.

## LUBBOCK HAS VARIETY OF WEATHER

### SUDDEN CHANGE CAME TUESDAY THAT THREW A CHILL OVER THE SOUTH PLAINS AND GAVE US SOAKING

## RAIN, SNOW, SLEET, HAIL, THUNDER AND LIGHTNING

### Fruit Crop and Gardens Get Close Call, But Most of it Weathered Through Without Material Injury. Continued Rains Bring Fine Season and Farmers Will Begin Planting Soon.

That Lubbock has had all the weather that is coming to her is not doubted by anyone who was here from Sunday till Tuesday. Sunday we had a typical sand storm from the Southwest kicking up considerable dust and whipping the real estate about much to the disgust of a few disgruntled. Monday was a better day and all was lovely, but by Tuesday the wind had slipped around to the northeast and came galloping across the plains from the direction of Oklahoma, and the further it went the faster it traveled and by the time it reached here it was going some. It was followed by a cold dampness which lasted the greater part of the day and just before dark it began to thunder and lighten and quite a bit of hail fell, followed by a hard shower of rain, which was followed by a fine sleet which covered the ground, then came a soft mantle of snow that whitened the face of the earth, and made it look like winter was here in all of its fierceness. This over the moon came peeping through the clouds and offered a spectacle that few people have a chance to behold. Its boldness however, was soon enveloped by the thickening of the clouds and more rain fell possibly giving us near an inch of moisture before Wednesday morning, at which time the sun came forth in its splendor and melted quickly the deposits of ice and snow, and while the wind remained in the north and northwest all day, when night came it calmed and most people kissed their fruit and gardens goodbye and went to bed believing that the weather during the night would do the rest toward ending the career of a perfectly splendid fruit crop and early gardens. But the temperature instead of dropping, seemed to rise after dark, and while there was some ice Thursday morning and some of the most tender

plants may have suffered severe frost-bites, it is the general belief that much of it will recover and make good yet.

It was indeed a variety of weather—such as is unusual in this section of the state. Further north from Plainview to Amarillo the snow fall varied, as we hear it from five to eight inches.

There is now a season in the ground that is seldom equalled in this country, and the farmers have their ground in fine condition, listed and ready for the rain which came and soaked it full of moisture, and now, since the spring time has come, they will be ready to plant as soon as the ground is sufficiently dried, and without a severe calamity—wind storm or hail strikes them, a crop is almost sure to result.

The prospects in Lubbock county could not be better from the standpoint of crops and range conditions, and our people are certainly much encouraged, and will make the effort of their lives to make good this year with a great crop, and successfully carry their herds of cattle and sheep through and work out from under the heavy expense account of the past two years, during which time they have fed heavily and got nothing in return.

It is one of the redeeming characteristics of this country to have the power to come back quickly, and those who have been on the plains for many years believe that within a short time the south plains will be one of the beauty spots of the west.

Building activities will increase in the towns and many nice buildings are under advisement now, and we are confident that by the beginning of summer several nice bricks will be ready to begin work on.

Come to Lubbock

## NEWS ITEMS FROM THE UNION COMMUNITY

We have had some pretty warm days the past week which was very much appreciated. After the good rains we have been having the warm sunny days will warm up the ground and the little seed that have been planted lately will soon be coming up.

The trustee election was held at Union Saturday and of course the voters put in the men they thought would serve them best. Mr. Bud Copp and Mr. E. Holt were re-elected. Mr. Copp, Mr. Holt and Mr. Russell held the election.

In spite of the little sandstorm Sunday there was a good crowd at Sunday school. The superintendent and teachers distributed the new literature among the scholars.

Tommy Richerson and family came in last Wednesday from east Texas. They left this country about a year ago, but decided there was no place like Lubbock county, so came back to make this their home. Tommy says it will have to get dryer than it has ever been if he leaves here again. We are glad to have them back with us.

Mr. Charley Griffin was in Slaton Saturday.

Mr. and Mrs. Teal were in town Saturday shopping.

Grandma Williams went to Slaton Saturday. She will spend this week with her grand daughter of that place Mrs. Emma Sherrod.

T. B. McDonald was in Slaton Saturday.

Misses Goldie and Estell Sooter were present at a social entertainment in the New Hope community Friday night. They report a nice time.

Mr. G. T. Copp, Grandma Copp, and Miss Lydia were all in Lubbock Monday shopping.

Frank Simanacher was in Slaton Saturday.

The Slaton baseball team came out and played ball with the Union boys Saturday afternoon. The Union boys came out winner. We hope that will not discourage them and they will come out and play again.

Mrs. Mamie Piley of near Wilson is visiting relatives of this community this week.

## PARTY OF LUBBOCKITES VISIT IN NEW MEXICO

Mr. and Mrs. R. K. Henderson, Mrs. Jessie Miller, Messrs. A. W. May, C. L. Quillen and Tom Duggan, Jr., visited at the Ely ranch in New Mexico last Sunday and after making a successful trip outbound and enjoyed themselves hugely as guests of that hospitable family, they decided to return to Lubbock. Mr. Quillen was at the wheel and May was piloting the boat. He being a pioneer on the plains he could not be fooled in directions so the party felt perfectly safe and drifted along for some time believing they were getting nearer home and were enjoying the trip. Soon they began to see strange things and finally drove up in front of a ranch house and inquired "where they were at" and the owner of the ranch informed them that they were just a few miles east of Albuquerque, and fifteen miles west and north of the Ely ranch from which they started. They had run a half circle and were nearly a hundred miles from Lubbock. They got their courses, however, and arrived safely in Lubbock, with sworn secrecy, but the Avalanche reporter got first information, which accuracy is unquestionable.

ALL DAY MEETING AT SHALL-LOWATER THIRD SUNDAY

On the third Sunday in April, Rev. D. C. Ross tells us there will be an all day service at Shallowater, at the new school building. There will be services of different kinds during the day, and a Mother's Day program, also dinner on the ground and a general good time. Everybody invited to come and bring a basket full of good eats.

Ralph G. Moore of the firm of Moore Brothers is visiting homefolks in McLennan County this week and intends visiting the oil field districts before returning home.

If you know how to save join a War Savings Society and help somebody else learn.

Ed Green returned Thursday morning from a business visit to Gorman.

## NEWS OF THE PAST WEEK IN LYNN COUNTY

**Lynn County News:**  
Brownfield reports that work will start on the lakes in Terry county within a short time to develop the potash industry. Companies of Ft. Worth are looking over the field and prospects are good for the establishment of a string of factories to produce this substance in both Terry and Lynn counties. Let the good work go on.

Messrs. H. C. Smith, District Court Stenographer, of the 72nd Judicial District, and Attorney Percy Spencer of Lubbock, were in Tahoka overnight Sunday on their way to Seminole to attend court. Judge Lockhart accompanied them to that city Monday.

The rainfall over Lynn County and surrounding country last Saturday, March 29th, amounted to .52 in., according to the local weather bureau. Grass is beginning to green up and business in all lines bids fair to pick up considerably within the next few weeks, and a more prosperous future for farmers and stockmen over the South Plains country could not be had at this time. Boost for Lynn county.

Later—since the above article was written another nice shower fell Tuesday night and Wednesday morning, amounting to .45 of an inch. With two or three more rains properly distributed, a bountiful harvest is assured in Lynn County.

Charley Doak was up from his ranch near O'Donnell this week visiting with his brother, I. S. and family. Mr. Doak stated that work on the big lakes near O'Donnell for the development of potash products, was at a standstill just now, but further developments would be made within a short time.

County Judge C. H. Cain, returned the first of the week from Austin, where he spent several days on business. Mrs. Cain, who accompanied him on the trip will visit relatives at

Information of the death of Private C. F. McDermott, received in a wire from the War Department to his wife of this place, stated that he was killed in action near the first of October last year. Later Mrs. McDermott received letters which she had written to her husband one of which had the information signed by Lt. Clarke of the 141st infantry, that his death occurred December 6th, and the other with the signature of Capt. H. E. Stone that death occurred November 12th. Mr. McDermott's cousin, who was in the army at that time, wrote a letter home stating that he saw him in a hospital, or rather a field hospital November the 1st. Private C. F. McDermott enlisted early in the war from Floydada and was in training only a few weeks.

H. M. Kennedy and family passed through here the first of the week enroute from Colorado to Corpus Christi. They are making the trip overland. Mr. Kennedy is a brother of Contractor Kennedy who helped to build the railroad from here to Seagraves.

B. M. Hunter of Terry County, passed through here the first of the week enroute home, having been to Amarillo on a business visit.

Mrs. L. W. Kitchens returned the latter part of last week from a few days visit with her daughter, Mrs. G. H. Kitchens of Roaring Springs.

### TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is made evidence of a neglected scalp; of dandruff—that awful scurf. There is something so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually bringing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

### County Home Demonstration Department

#### Girls Chosen as Demonstrators for U. S. Department of Agriculture.

Last fall the United States Department of Agriculture at Washington asked for a list of Club girls to carry on certain demonstrations with tomatoes, and the following names were sent in. For some reason the seed did not arrive until this week, but each girl will receive her package of seed and should care for it according to instructions.

The Department in its study of plant diseases has found a great deal of trouble caused by the Fusarium wilt. But they believe they now have a tomato plant that is wilt resistant, so the girls may plant these seed on land infested with tomato wilt last year and keep a close watch on them to see if they are really wilt resistant.

It is an honor for our Club girls to be helping to carry on this important demonstration and we feel that they will do their best. When any plant pathologist or other investigator from the department comes to visit us he will have a list of these demonstrators and we will visit some of them and inspect their plots.

**Can All You Can This Year.**  
 This good season gives us the promise of, not only good crops, but also of good gardens, whether we have water for irrigating or not.

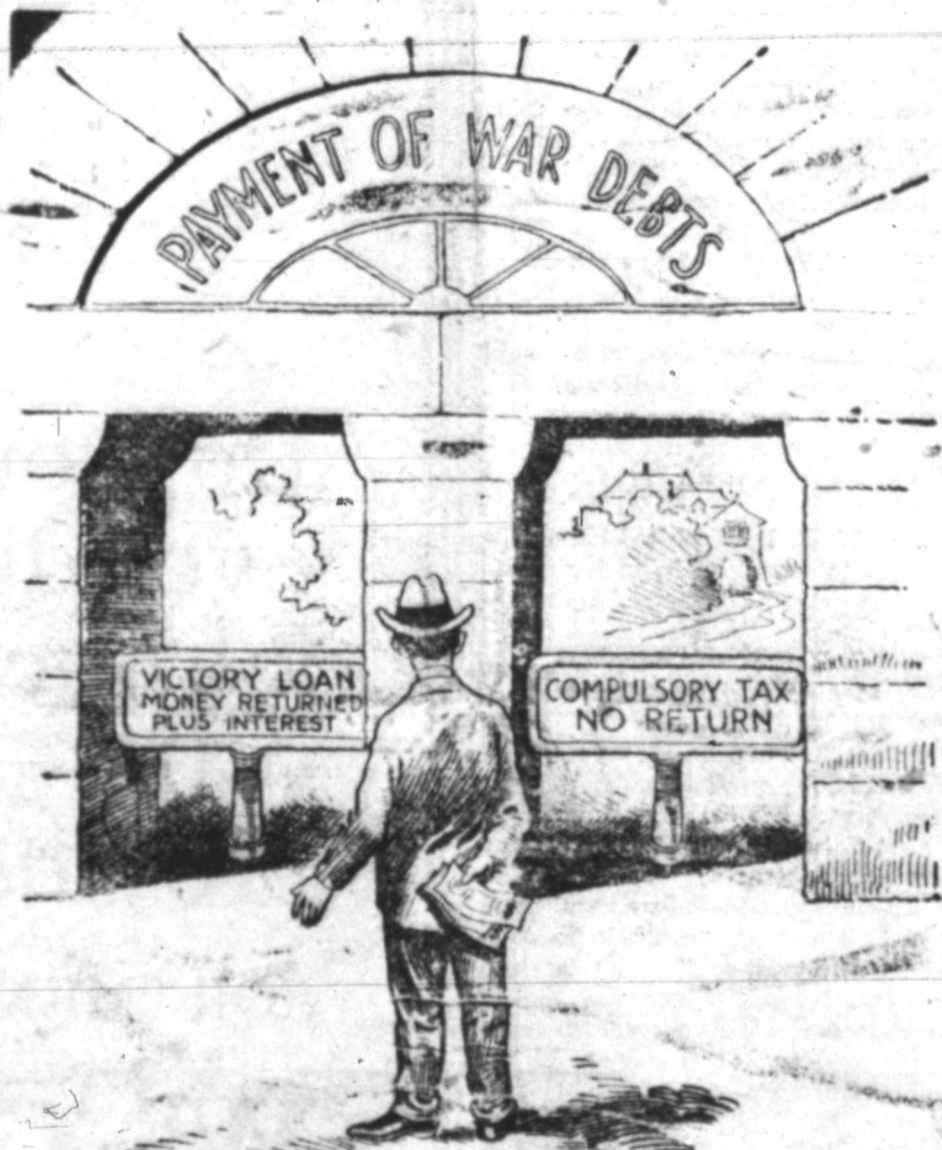

As all food products are still very high, and likely to be so for some time to come, it will be profitable for every home to have a garden this year.

But in order to get the most profit out of our gardens we want to plan for taking care of all surplus products. Whether you want to sell all your surplus or keep it all for home use we believe that you would do well to study the best methods of keeping it. When we see people raise a fine lot of garden products then let all they do not use fresh go to waste we do not doubt their remark that "it does not pay to raise a garden."

The two most common methods of saving food are canning and drying. Canning is the method applicable to the largest number of orchard and garden products, and the method which keeps them the most nearly like they were when gathered from the orchard or garden.

But, though the various methods of canning have been in use many years, there are a great many housewives today who can very little fruit and no vegetables at all. I am speaking

Henry and Pierce Hendrix of the eastern part of New Mexico, were visitors here the first of the week.

### Letters from our Boys in Service at Home and "Over There"

Collin C. McCoy,  
Bourges, March 9, 1919.  
Dear Homefolks:  
Will drop you all a few lines. Am o. k., hope you all the same. Have been here since February 26, and expect to be back at Nevers in week or ten days. I understand the camp at Nevers is breaking up since we left; if so it may be possible that we will go home from there. But it is impossible to guess at, can only live in hopes and guess at the future.

Just six months ago yesterday since I saw New York fade away in the distance and little did I know what was awaiting me on this side of the Atlantic. But so far everything has been fine, have always had the best of health and enjoyed being here very much, but am almost chuck full of France, French ways, rain and red wine.

I see quite a number of boys going

through on convoys to and from Germany, and they say it is much better to be there than here. It's a change and that is why I suppose.

This Red Cross is a heaven for us boys just now. We are having some fine music, can always get good eats francs or no francs.

I am entitled to my gold service stripe now, but surely don't want to stay for the second one. I often wonder what become of Gillon and if he ever got over here. Also of Earl, it don't seem as though you all ever wrote me at all.

Am in no humor to write today so will cut this short, so hope that all is well and that I will hear from you by the time I get back to Nevers. This is a big camp, it is Central Post Office and C Record Office also.

With best wishes to all, I sign,  
Pvt. Collin C. McCoy, No. 3506938

### AN EXCITING MEETING AT ATHLETIC CLUB

Last Friday night, after a few preliminaries by different members of the Club, in which several rounds of Wrestling was exhibited which keened the nerves of Bill Honey and Elwin wrestling was exhibited which keened was to be the real entertainment of the evening.

The first round was made with both men showing the value of the training they had received, and was evenly matched without either gaining points, but when the second round was brought to a thorough finish, which by the way was caused by Wheelock running against a right cross to the jaw, delivered by his opponent, and landing him safely on the mat, at which place he found comfort in remaining until the referee gave full count.

Elwin showed his sporting blood by challenging Honey for the coming Friday evening, for a ten round fight.

Mrs. Hugh L. Henry, who has for several days been visiting relatives in Young county, returned the last part of the week.

Mrs. S. P. Euff and daughter, Vintette, spent the week-end with Mrs. J. C. McDole.

On account of the bad weather on Wednesday, Miss Hickey did not get to meet with her club members.

Last Saturday was the day for electing one trustee for our school. Every voter considered well and tried to elect a man who can help to do a good part by all the pupils in the district. No school can rise higher than the best ideals put before them by the trustees, but we don't think we could hardly beat the one that is to go out. Mr. J. B. Sides was elected trustee.

Mrs. W. B. Burford had her pupils to come to school on Saturday morning to review up on some of their subjects.

#### WHAT THE KIDNEYS DO Their Unceasing Work Keeps Us Strong and Healthy

All the blood in the body passes through the kidneys every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 30 grains of waste matter daily, when unhealthy some part of this waste matter is left in the blood. This brings on many diseases and symptoms which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, dimness of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, drops, deposits in the urine, etc. But it can keep the filters right the danger is averted. Doan's Kidney Pills have proven an effective kidney medicine. J. H. Cooper, Prop., Locksmith shop, Sixth and Oak Sts., Colorado, Tex., says: "I have used Doan's Kidney Pills several times in the past. I took them for trouble with my back and from the results obtained, I know they are a good, reliable medicine. I gladly recommend Doan's to anyone, for they have surely benefited me." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cooper had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Do not allow the poisons of indigestion to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean as thousands of others do, by taking occasional doses of the old, reliable, agreeable, family liver medicine.

**Theford's Black-Draught**

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package.

**NEWS ITEMS OF INTEREST FROM MONROE**

The people of this community have been enjoying the fine rains of the past week and are preparing for a bumper crop this year.

About thirty of the Monroe people enjoyed a big supper at Mr. and Mrs. J. A. Long's last Sunday night. Those present were Mr. W. C. Vaughn and family, Mr. A. A. Bratcher and family, Mrs. Chess Shaw and children, Mr. McKinsey and family, Mrs. T. H. Cox and family, Mr. Leslie Beazate, Mr. Joe McDonald, Miss Delia Stevenson, Miss Grace Hoimer, Miss Bernadine Greenhill. It was quite an enjoyable occasion and a singing followed the supper.

Mr. and Mrs. A. A. Bratcher were shopping in Lubbock Friday.

Mr. Ernest Thaxton spent Saturday night with Mr. Dowling Cox.

Miss Willie Mae Bratcher spent Friday and Saturday night with her parents, Mr. and Mrs. A. A. Bratcher.

Mrs. W. T. Thaxton spent Friday at the home of Mrs. L. E. Stevenson, while Mr. Thaxton attended to business on his farm.

The following program was beautifully rendered at the school house Friday night.

Reading—Mable Long.  
Reading—Gertrude Greenhill.  
Reading—Joe Allen Parson.  
Dialogue—by school.  
Reading—Zella Greer.

Reading—Alpha Johnson.  
Dialogue—By school.

There was preaching Sunday at 11 a. m., by Rev. Brock.

Everyone was so jubilant over our recent rains, we are wondering how they enjoyed the sandstorms Sunday. But never mind the sandstorms just so we get another rain.

Preaching and Sunday School was attended by a large crowd Sunday afternoon.

Mr. and Mrs. Hudnall were in town Thursday.

Mr. A. A. Bratcher was in town Saturday. His daughter, Miss Willie Mae, accompanied him home.

Mr. J. G. King was in town Saturday.

Mr. Willie J. Collier was trading with Lubbock merchants Saturday.

Mr. W. B. Ray made a business trip to town Saturday.

Mr. and Mrs. A. E. Greenhill and daughter, Miss Bernadine, were Lubbock visitors Saturday.

Mr. C. C. Stephenson was in Lubbock Saturday with his produce.

Quite a number of the young people enjoyed a "forty-two" party at the home of Mr. and Mrs. A. E. Greenhill's Saturday night.

Miss Leola Cox spent Saturday night in Lubbock.

Mr. Hayden Warren was seen on the streets of Lubbock Saturday.

Mr. J. D. Warren spent the evening Sunday at Mr. W. D. Haney's.

Mrs. W. T. Thaxton was the guest of Mrs. T. H. Cox Monday.

Miss Willie Mae Bratcher spent Sunday with Miss Octa Ray.

Mr. and Mrs. Robert Boyd spent Saturday night in the Greenhill home.

Miss Lois Thaxton was a visitor of the Monroe School Friday afternoon.

Mr. Lewis Ray spent Sunday with his parents, W. B. Ray. He returned to Lockney Monday.

The young people are looking forward to a birthday party given in honor of Mr. Perry Vaughn and Miss Grace Hoimer, at the home of Mr. and Mrs. W. C. Vaughn Saturday night. Everyone cordially invited.

A. V. Weaver is here this week from Omaha, Neb., looking after business matters. He reports his family well and getting along nicely.

Neil Wright left the first of the week on a business visit to Amarillo.

**WILL YOU MISS HER**

(1)  
When death shall close her weary eyelids,  
And her loving heart shall cease to beat,  
And they lay her body down to rest,  
In some flowery bound retreat,  
Will you miss your loving wife when she is gone.

(2)  
When her foot-steps no more you hear  
And her lips are pale and cold in death,  
And a winding sheet of peacefulness  
Her frail form enfolds,  
Will you miss her christian influence  
When your loving wife is gone.

(3)  
When her lips shall never again  
Press a kiss upon your brow,  
But lay still and cold in death,  
Will you love her then or now,  
Will you miss your loving wife when she is gone.

(4)  
Perhaps while she sweetly sleeps beneath the sod,  
You will drop a tear of sweet remembrance on her grave,  
And sit alone beside her while the roses nod and wave a sweet repose  
Will you miss your loving wife when she is gone.

(5)  
One sweet hope her dear soul shall cherish,  
Till her fleeting life has flown,  
That sweet thought shall cheer her when she is dying,  
You will miss her when she is gone.

**ALLEN SAYS COTTON DECREASE IS ILLEGAL**

Topeka, Kan., April 2.—In reply to a telegram from J. S. Wannamaker, chairman of the South Carolina Cotton Association, requesting a further statement on his position regarding the effort to reduce the acreage of cotton in the South, Governor Henry J. Allen, in a telegram tonight, told Mr. Wannamaker that he believed the proposal was in violation of Federal Trade Commission orders. The Governor stated that the question at issue "seems to rest upon the right of any group of men to form a commission for the restraint of production." He cited two practices which the Federal Trade Commission has condemned. One forbids the "entering into an agreement or understanding or pool by competitors to maintain prices or allot business." The other forbids "agreement among competitors to limit output."

"It strikes me," the Governor's telegram says "that you gentlemen must be rather sure of your immunity from prosecution in attempting to run so contrary to a declared public policy. Having read an entire set of circulars which the cotton reduction propaganda has issued for the purpose of insuring a small acreage of cotton, I am constrained to believe that it is more a movement in the interest of those engaged in speculation of the product than in the growing thereof."

"The question at issue seems to be whether any class of business men having purchased a widely needed commodity on the market with the expectation that it would go higher, should be allowed to recoup their losses by stifling production. Your own declaration before the South Carolina Legislature that you expected a critical shortage of cotton before the 1919 crop becomes available makes it perfectly apparent that you recognize that the present cotton condition is not going to continue and that a situation which inevitably will become critical, you hope to make, even more critical by creating a condition in which there will not be enough cotton to meet the world's demand."

"I am receiving letters and telegrams from many of your own people informing me that this movement is in the interest of speculators and not of the cotton grower. If governmental action is necessary to stabilize the price of cotton during the period of industrial and economic readjustment, I will be glad to assist in the consideration of such a plan,

**This Corn Will Peel Right Off!**

"Gets-It" Makes Corns Come Off The "Banana-Peel" Way!

2 or 3 Drops Applied in a Few Seconds—There's No Fussing or Cutting—"Gets-It" Always Works!

the old savage way. "Gets-It" is the modern, painless, simple way. Lean over and put two drops of "Gets-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased. "Gets-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop limping on the side of your shoe, and go away with greasy salves, bandaging bandages, thick plasters and painful methods. Use "Gets-It," it's common sense.

"Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

but I can not bring myself to approve in the face of the great need of the world, a reduction in necessary commodities."

Lubbock will probably be represented at the Volunteer Firemen's Convention which will be held at Cuero, May 13-15th by L. H. Simpson, Roch Newton and A. M. Rankin. The firemen did not hold the convention last year on account of war conditions, and it is expected that this year they will have a good attendance and all volunteer departments of the state are invited to send delegates.

# HUMAN SIDE OF SOLDIER'S LIFE

## "Under Four Flags" Shows Occupation of the Doughboys in Their Lighter Moments in France.

There is a human side to the life of the Doughboys fighting in France. It is not always battle and the grim realities of war for them. It would seem that as soon as they are relieved from active duty at the front they forget all about danger and hardships and indulge in the usual playful pastimes of men at leisure. That they have a good time when off duty is made evident by a number of scenes in the new U. S. official war picture "Under Four Flags," which will be exhibited at

## The Lyric Friday Matinee, Night

Many and varied are the ways adopted by the boys for enjoying what they can of life. In one scene they are viewed in a human pyramid; in another there is a battle royal in progress—five or six men in the ring at the same time, each one taking a whack at any one who happens to come within the reach of his swings. The last man on his feet will receive a prize. They are seen handling the medicine ball, in pillow tilts, opposed in real ring battles and indulging in athletic sports of all kinds.

Relatives of the soldiers who see them at play will have the comforting realization that they are contented and are not taking as a hardship the work they are in France to do for their country.

"Under Four Flags" comes from the Division of Films, Committee on Public Information.

## HOME DEMONSTRATION DEPARTMENT

(By Miss Milie M. Halsey.)

(Continued from page 1, this section)

from personal observation, not from hearsay. Some say that it does not pay to can vegetables; that there is too much hard work about it, that the vegetables often spoil after being canned, and so on. But vegetables can be canned successfully. They can also be canned with much less work than some people think. There are modern methods of canning as well as there are of doing other necessary work. I will agree that in the past when we used the open kettle method of processing our vegetables and stood over a red hot stove to fill our jars, and then lost from twenty-five to one hundred per cent of our canned products, that canning did not "pay." Even in recent years when we packed our food in the jars and processed it intermittently in a vessel of water there was a great deal of work attached to canning and more spoilage of canned products than we liked to see. Now we are using the Steam Pressure method of canning vegetables, eliminating about two thirds of the work and reducing our chances of spoilage to such a minimum as to be able to say that we have practically none at all.

With the pressure canner either tin cans or glass jars may be used, though there are more points in favor of using the former. If you are canning for home use only use your glass jars, but if you have a surplus that you wish to sell, use tin cans. One can standardize his products and can in tin and find a market, but that could hardly be done when glass jars are used altogether. One of our local hardware stores will carry a full line of tin cans this season, so that it will be possible for you to get them here in whatever quantities you wish.

There are other things that can be canned besides fruits and vegetables. All kinds of fresh meats can be canned on the farm, by using the steam pressure method of canning. I was in a cellar not more than twenty miles from Lubbock last week where a woman could go at a moment's notice and bring out practically a whole meal. There were canned fruits, canned corn, beans, cabbage, and many other kinds of vegetables, canned soups, both meat and vegetable, and canned meats. There was a whole beef canned as roast, steak, liver stew soup, etc., then there was chicken fried, chicken fricassee, chicken stew and chicken soup, and some chicken meat prepared especially for making chicken salad. And as I looked at this array of delicious food, canned and carefully stored, I thought that we ought to have at least a hundred cellars filled like that in Lubbock County this year. We know, from experience, that we do not raise an abundance of everything every year, but by canning and saving what we do raise in the good years we could

be practically independent of high prices during the times of drouth. No farmer tries to cultivate his land with implements used one hundred years ago, he has learned that it does not pay. For the same reason no woman should cling to the old ways of canning, or to the old utensils and household appliances for doing her work. If keeping house is our business let's study the problems of the housekeeper and apply modern methods of work to our own tasks. Let's save all the food that we raise this year but not wear ourselves out in saving it.

If you want to know more about canning and other such subjects you should attend the meetings of the Women's Conservation Club in your community. If you have no Club get a few more interested people together and let's organize one. But whether you have a Club in your community or not we are going to give you the opportunity of learning more about modern methods of canning next week. No doubt you have heard of this, already, from your school.

Mr. H. A. Clapp, Canning Specialist of the A. & M. Extension Service is to be with us from April 14th to 18th, to give some work in meat canning. Mr. Clapp will explain to you the principles of canning and will be glad to answer your questions about the method of canning other things than meat, and also any questions you may have about using a Steam Pressure canner, and about using tin cans, etc. So you want to make an effort to attend at least one of these demonstrations.

In order to put this work within reasonable distance of every interested person in the County I have selected seven centers where Mr. Clapp will present the work. Places and time of demonstrations are:

Monday at Hardy, 1:30 p. m.  
Tuesday at Slide, 9 a. m., Carlisle at 1:30 p. m.  
Wednesday at Idalou, 9 a. m., Lubbock, 2:30 p. m., High School.

Thursday at Center, 1:30 p. m.  
Friday at Slaton, 1:30 p. m.

You can see that it would have been impossible to have given a demonstration in each community, so we want you to go to the one nearest you and consider it as much your demonstration as though it were given in your own home. We expect all grown folks who are interested to be present, and we are asking permission for all Club members to attend. They will not only learn something worth while to them personally, but will have something of interest to report to their classmates.

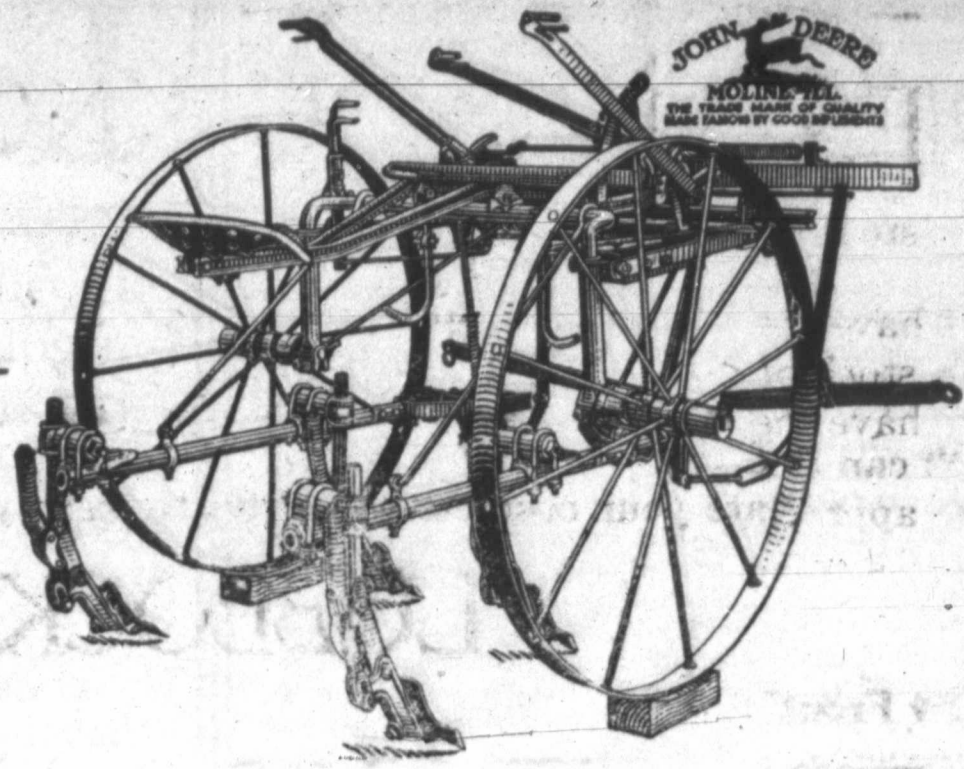

Let every one take advantage of these demonstrations. They are free, in fact they are just a part of our plan of Home Demonstration work in the county. Every person who expects to can a can of anything should attend the demonstrations.

Yours for a better living at home.  
MILIE M. HALSEY,  
Home Demonstration Agent.

Every boy or girl enrolled in the Poultry Club work is required to set three settings of fifteen eggs each and to care for the chickens hatched, keeping a careful record of all work, expense, sales, etc. We ask that all eggs set be from standard bred stock; we require that one setting be from standard bred stock. If a boy or girl is energetic and attentive enough to take up this work they should get something to work with that will pay them well for their time.

Many people are interested in keeping Standard bred poultry, but they do not feel that they can afford to sell off the flock of mixed chickens they have and buy all standard bred stock. Besides, some feel that they are not sure of the breed of chickens they want to raise.

These things being true, one of the best solutions we see is to let the boy or the girl buy a few eggs from standard bred stock, raise a few chickens each year and soon he will have a farm flock that you will be proud of. Any boy or girl over ten years of age could build up a standard bred flock at the same time by learning better methods of raising poultry, car-

ing for and marketing poultry and poultry products, etc.

The Lubbock Chamber of Commerce, always ready to help in any plan for the betterment of our County recently voted to set aside seventy-five dollars to be loaned Lubbock County Poultry Club members for buying standard bred eggs, in order that Lubbock County people might see the advantages of keeping only the best poultry as they now see the advantage of keeping standard bred stock and of growing pure seed, etc.

Any boy or girl desiring to borrow money to buy eggs should send his or her name in to me at once. I must know how many eggs are wanted, the kind wanted, and the time they are wanted so that I can locate them. When the eggs are received the Club member will make a note to the Chamber of Commerce for a sufficient amount to cover cost of his number of eggs. I shall have some blanks for the Club member to sign, stating that he will care for the eggs, and the chickens he hatches to the best of his ability.

We should like to see one or two Club members in every school district take advantage of this offer and get some standard bred eggs. We want you to begin this work at once. And we believe if you will work that in a few years you will have put every "scrub" chicken in your school district out of business. Not only that, but you will have a profitable business of your own. When every farm in the country has standard bred poultry you will see a material increase in the value of the farm products of the county each year.

Let me hear from you immediately boys and girls.

Sincerely,  
MILIE M. HALSEY.

### Carlisle Conservation Club

The Carlisle Conservation Club met Tuesday at Mrs. Bush's. On account of it looking so much like rain there were only three members present. Miss Halsey talked on bread making and demonstrated some on butter showing good firm butter from butter that was not firm.

Our next meeting will be at Mrs. Jones'. We want all who can and will be present at that meeting. All the ladies are invited. Mr. H. A. Clapp, canning specialist of the A. & M. Extension service will give a demonstration in meat canning and the use of the steam pressure canner at Carlisle School house, April 15, at 1:30 p. m.

Everyone in this community and other communities are invited to be

present and sure all will be benefitted by coming. Teh men as well as ladies are invited. Secy.

### Shallowater

Shallowater and Hardy Conservation Club members met at the new school building last Thursday, "our regular day." Miss Halsey was with us, even though the roads were very muddy.

Plans were made to furnish a club room in the new school building. Committees were appointed for getting information and ways to furnish it. This room will also be used for a domestic science room by the school in the near future. Plans were also discussed for the meat canning demonstration at the Hardy school house on April 14. And those from other districts that are to meet with us at the Hardy school house please accept this as an invitation if you do not hear of it through others.

From my own experience I know

that not a one can afford to miss this demonstration. Secy.

### Canning Demonstration at Slide

April 15th there will be a canning demonstration at the school building by Mr. Clapp, a canning specialist, and we hope everyone interested will take advantage of this opportunity and attend. We extend a hearty welcome to people of adjoining communities. Come and bring your neighbors.

There will be dinner on the ground.

**"ABE" MULKEY, NOTED EVANGELIST, DIED AT CORSICANA**

Within one week of his sixty-ninth birthday, Rev. Abe Mulkey, for forty years a famous Methodist evangelist of Texas, died at his home in Corsicana Saturday afternoon. His death removed from Methodism one of its strongest supports and from Texas one of its most fearless preachers.

Abe Mulkey has, in his own words, preached the undying truths of Jesus name in nearly every hamlet and city throughout Texas. There is hardly a Christian home in Texas where the name of Abe Mulkey is not a household word. More than half of his life was spent in the ministry of the gospel, during which time he and his faithful wife, Louisa, as he lovingly referred to her, ministered to the people of every creed.

The life of Rev. Mr. Mulkey was a spectacular one. He counted his conversion the greatest event of his life. Prior to his conversion he was a merchant in Corsicana. He was not as successful in his business career as he was in evangelistic work and it was after his conversion that he sacrificed all his property to meet his business obligations. His famous and most far-reaching sermon, "Restitution" was the story of his own life.

Rev. Mr. Mulkey's unwavering faith was his greatest strength. His early education was limited and he preached the Gospel in all its simplicity. During his evangelistic work of thirty-five years he contributed of his funds as well as his time to the institutions of his church. He believed in doing as well as preaching. It was due largely to his efforts that the Methodist orphanage at Waco was built. He did more than any one else to raise the funds for this institution, and he was known as the father of the Orphanage.

The famous evangelist was born in Arkansas, but spent his early life in Memphis, Tenn. He was the son of Rev. William Mulkey, also a Methodist preacher. For the past forty years he had made his home in Corsicana. Shortly after his conversion he joined with Rev. R. H. H. Burnett in evangelistic work and it was in connection with this great preacher that Abe Mulkey first became known in ministerial work.

The Mulkey Memorial Methodist Church at Fort Worth is a memorial to Rev. William Mulkey, the father of the Texas evangelist. It was built through the personal efforts of Abe Mulkey and his brothers.

Besides his wife, Mrs. Lou Mulkey, two brothers and two sisters survive. They are: George H. Mulkey of Fort Worth, Fletcher Mulkey of Dallas, Mrs. R. A. Patterson of Dallas, and Mrs. Nora Organ of Fort Worth.

Burial will be at Corsicana Sunday afternoon at 4 o'clock.

M. Beard of Clovis, was a business visitor here Monday and Tuesday.

**15,000 MEN NEEDED BY ARMY IN AIR SERVICE**

Enlistment in the Air Service of the army opens up a wealth of opportunities to the energetic, active young man. It enables him to wear the uniform of his country—the most honorable in the world—while completing his education and becoming an expert tradesman, and at the same time affording him the advantages of travel.

It is possible at this time for men who are now in the army to take their discharge, receive \$60, that is allowed each discharged man, re-enlist in the Air Service for one year, then be given one month's furlough, and in most cases it will be possible for that man to retain the non-commissioned grade that he has attained, and upon

re-enlistment, be allowed five cents per mile to his home. Inasmuch as he can obtain a one cent a mile rate when going on a furlough and return to proper station he can save from this amount a certain nominal sum. For men who had service in the army, it is believed that there is a decided advantage of the one year enlistment, or until labor conditions have become more stable, at which time, they can expect more positive market for their service in civilian life.

To the civilian who has not been in the service, or who has been in another branch of the service, the three year enlistment holds most promising prospects. The Air Service has a mechanical instruction school in operation and is about to create two or three others. The Air Service Mechanics Schools enables the young apprentice to complete his education and become an expert tradesman, qualifying him for large earnings. The advantages of learning a trade in a government school of mechanical instruction over a man's learning that trade by entering a machine shop as an apprentice are incomparable. In the first place he is sent to a mechanical instruction school where he is taught the principles of his trade and applies these principles to practical work which is given him at the same time. The government pays him his salary all the time he is learning. During this time no pay is deducted for sickness, he has the privilege of furlough and pass and his livelihood is a certainty. Another point to be considered is the question of retirement after thirty years' service. After thirty years service, an enlisted man is retired on three quarters of the pay he is receiving at the time his thirty years are completed, and in addition he is given allowances for heat, light, etc.

The chances of advancement in the Air Service are excellent. A good, bright, energetic and active young man with initiative and force, should not remain a private long, for with such qualifications a man should soon be promoted to grade non-commissioned officer. The following are the rates of pay in the Army:

- Private, \$30.
- Private, first class, \$33.
- Sergeant, \$44.
- Corporal, \$36.
- Sergeant Aviation Mechanician \$66
- Sergeant first class \$51.
- Sergeant, first class Aviation Mechanician, \$73.50.
- Master Signal Electrician \$81.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means a failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—can be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

## LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the end of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two or three lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness, tan and is the ideal skin softener, whiteness and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

## ANOTHER MILLION INVESTED IN TREASURY CERTIFICATES

Austin, Texas, April 5.—State Treasurer John W. Baker today invested \$1,000,000 of State funds in United States Treasury certificates drawing interest at the rate of 4 1-2 per cent per annum. These certificates mature on Aug. 12. As soon as all of the State funds now in course of collection are turned into the State Treasury, as required by the new depository law, another \$1,000,000 will be invested in United States certificates.

With today's investment the State now has \$9,200,000 in Treasury certificates and the total will soon go beyond \$10,000,000. These certificates can be cashed in at any time at par plus accumulated interest. The State's funds will remain at interest until depositories can be selected under the new law.

## ALIEN LAND BILL VETOED BY HOBBY

Austin, Texas, April 5.—Governor Hobby late today vetoed House bill 70, known as the alien land bill, and will have his veto proclamation prepared before leaving tomorrow for Laredo.

The bill was a most stringent measure, requiring resident and nonresident aliens owning land in Texas to either dispose of same or become citizens within a specified time; also forbidding aliens from acquiring land in the State. Violation of the law provided for confiscation of land involved and its escheatment to the State. Accompanying the Governor's veto proclamation is a letter written by Assistant Attorney General Maxwell, who expresses no opinion as to the validity of law. He merely calls attention to past history on legislation of this character and the probable effect of the bill. The letter tends to sustain the Governor's veto. The proclamation rejecting the bill follows:

"House bill No. 70 is disapproved because of its confusing terms. It is calculated to make Texas a less inviting market for long-time loans on real estate and because it is possible that undesirable complications may arise with respect to the privileges of foreign citizens in one of the United States at a time when such complications would tend to hamper negotiations which will bring about amicable relations throughout the world. Section 3 of the act declares that it shall not apply to lands now owned in this State by aliens so long as the present owners hold them, and another section of the act declares that the reason for its passage is because there are thousands of acres of valuable and fertile lands owned by aliens who refuse to assume the responsibilities of citizenship and there is no law adequate governing such ownership. In other words, one section of the law provides that present alien owners shall not be disturbed, while another section indicates that it is the intention to bring about forfeiture of ownership by present owners causing them to register.

**Would React On Loans.**  
The act allows aliens to acquire lands in the collection of debts on lands, but gives only five years to dispose of it, instead of ten years, as the present law provides. There is a very large loan business done in the State by aliens who loan money on reasonable terms. The time mentioned for disposal is too short and will mean a forced sale at a loss in many cases, which will probably react on loans on lands in Texas as a similar act did in 1891. This act contains several features similar to the act passed in 1891, found to be unreasonable and impracticable in their application, which caused the withdrawal of money and investments from Texas, serious injury to credits and business to such an extent that Governor Hogg found it necessary to call a special session of the Legislature in 1892 for the purpose of repealing these features of the act. In my judgment, the consequences that might arise from permitting this act to become a law are fraught with dangers too grave and serious to justify its approval by me. A copy of the opinion of the Attorney General with respect to the operation of this act should it become a law is filed herewith and made a part of this proclamation."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is cataract. Cataract, which is caused by degenerative conditions, requires constitutional treatment. Hall's Cataract Medicine is internally and acts thru the blood on the mucous surfaces of the eye, thereby dissolving the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Cataract Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. **THE HABIT OF DOING RIGHT.**

There is virtue in acquiring the habit of doing the right thing for no other reason than that it is the right thing. A curious story runs to the effect that a man asked God to reveal to him the hour of his death. He heard the words, "After six," and immediately concluded that he was to be summoned "after six" the next morning. The night was spent in the most solemn preparation. But "after six" he was still alive. His next conclusion pointed to "six days", during which time he observed studiously fixed hours of devotion. Six days went by, and he still lived. Then he was sure the revelation meant six weeks, during which time he maintained the habits of devotion formed during the six days of his imagined probation. But the six weeks were accomplished, and death still delayed. And now the man was sure that the oracle meant six months. During this period he still observed with the utmost regularity the round of devotion he had fixed for himself when he thought death imminent, and before the end of his self-imposed term he had not only acquired a devout habit, but a relish for devotion.

The Methodist Church will be the scene of an unique recital on Tuesday evening, April 25, when Rix Furniture & Undertaking Co., will introduce Vernon Dalhart, the talented American tenor, to a specially invited audience of music lovers.

Going to Church, daily prayer, the daily reading of the Bible as a veritable word from God—these are things concerning the value of which there is no dispute. Get the habit of doing them; and even when they have become only a habit, they serve as a restraint from sin. But seek earnestly to prevent the habit from becoming "only a habit" by remembering them as actual approaches to the presence and the majesty of God.—Sealed.

Mr. Dalhart is supreme at giving the wonderful old Southern Negro melodies. His method of singing them indicates an exhaustive study of the real sense and meaning of these charming old songs. Whatever he sings, from the most difficult operatic aria to the simplest heart song. Mr. Dalhart gives it with a voice that is bright, musical and pure. All his work commands admiration not only for his excellent voice but for his adaptability. After he has been heard it is entirely obvious why Mr. Dalhart is generally re-engaged wherever he appears. He has a repertoire of six-

## NEWS OF INTEREST FROM RALLS BANNER

Work on a new garage building, to be located on the lot just northwest of the opera house, will be commenced by Sam Dane in about thirty days. The building is to be 75x120, and will be occupied by the Ralls garage when done. We understand that several new buildings are to be constructed in our town during the summer, particulars of which will be given later on. The promising conditions now prevailing in this country mean a substantial growth for Ralls during the next few months.

A petition is being circulated at Ralls and Crosbyton, which will be presented to the Railroad Commission asking that our train be detained at Lubbock each day to meet all connections. This would give us much of our mail a day earlier, and would be highly appreciated by our people.

John Norris managed to get to town Saturday, notwithstanding the heavy downpour of rain, which continued almost throughout the day. He is looking forward to a bountiful harvest this fall, and in addition to other crops will plant a good acreage to corn. This is going to be a good year for corn, and every farmer will find it to his advantage to plant some.

T. N. Young, one of the substantial farmers living between Ralls and Crosbyton, was in town Monday on business. He says he has all his old land ready for planting and is now breaking sod. Mr. Young is paying considerable attention to poultry, and says he has 100 chicks hatched and 100 eggs setting. There is money in poultry, as farmers are fast finding out, and there will be more raised in Crosby county this year than ever before.

## NEWS ITEMS FROM THE TERRY COUNTY HERALD

J. T. May left this week for Purcell Okla., in response to a message saying his brother was very low. We hope he will find his brother improved upon his arrival there.

J. A. Rix, of Lubbock, was down last week looking over the furniture stock he recently purchased from the Brownfield Mercantile Co. Mr. Rix says that if Brownfield gets the chemical mills, he is going to put in a good stock of furniture here, otherwise, he may decide to move it to Lubbock.

The foundation for the Presbyterian church is finished and the building is now under construction, but is being greatly hindered on account of so much rainy weather.

Our general blacksmith, Jim Jackson, left this week for Lubbock, to take charge of the shop belonging to Mrs. Hopper. Jim formerly worked in this shop for Mr. Hopper, and was such a faithful employ, that he has been asked to return. Jim is a good blacksmith, and a good citizen, and Brownfield has sustained a real loss in the removal of this family. He has sold his shop here to P. A. Smith.

On account of the bad condition of the roads on account of heavy rains the mail men did not get away from Brownfield in any direction last Saturday. But we must learn to be patient with the mail men, for we believe they are doing all they can to give us good service. We are all prone to criticize, but let us remember to think what we would do if we had been in the shoes of the mail man last Saturday. One good point about the people of this town is that they do not ache much about things that cannot be helped.

## W. M. SLAGLE RETURNED FROM FRANCE THIS WEEK

W. M. Slagle, son of J. M. Slagle of this place, who enlisted here about 11 months back, and went to Camp Mabury where he was trained in the automobile school for some time, and later when the 36th Division had gotten ready to sail for France, he was transferred to the 131st Artillery of that Division going to France with them, is back and will probably don the clothes of the farmer.

Mr. Slagle reports the most exciting time for him in the Army life was probably his trip across the ocean when only three days from New York they were given the alarm of an approaching German submarine. A few days later they were attacked by three submarines, which resulted in the loss of two of Heine's little ships, the other one escaped but was captured the next day.

"It was because of the reason that we were trained for the use of American and British guns that we did not go to the front," he stated, "for when we arrived there we then put into a training camp to learn how to use the French gun."

## GERMANS YIELD STAND AGAINST OPENING DANZIG

Paris, April 5.—Marshal Foch has telegraphed the allied governments that the right of the allies to use Danzig as a port for the return to Poland of Polish troops in France, has been formally upheld in the conference with the German representatives.

In addition to Danzig it was decided to use other means of transportation for the Polish troops proposed by the Germans, so that the arrival of Polish troops might be accelerated, Foch's message adds. The use of the port of Danzig was provided for in the armistice of November 11.

## SHERIFF'S NOTICE OF ELECTION

THE STATE OF TEXAS, County of Lubbock:

Notice is hereby given that an election will be held on the 28th day of April, 1919, at the school house, in common school district No. 16, of this county as established by the County Board of Trustees of this county, of date the 8th day of February, 1919, which is recorded in Book 1 page 19, of the Record of School Districts, in the office of the county clerk of this county, to determine whether a majority of the legally qualified property owning voters of said district desire to tax themselves of and at the rate of not exceeding fifty cents on the \$100 valuation of taxable property in said district, for the purpose of supplementing the State School Fund, and to determine whether the Commissioners' Court of this county shall be authorized to levy, assess and collect annually a tax of said rate of not exceeding fifty cents on the \$100 valuation of taxable property in said district for said purpose.

All persons who are legally qualified voters of this state and of this county, and who are resident property taxpayers in said district shall be entitled to vote at said election.

Said election was ordered by the County Judge of this county, by order made the 29th day of March, 1919, and this notice is given in pursuance of said order.

Dated the 31st day of March, 1919. C. A. HOLCOMB, Sheriff, Lubbock County, Texas. (403)

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys, and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheath, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache, or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, hot water before meals, and obtain Anuric tablets, double strength, for 60 cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anuric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza. When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

**GROVE'S TASTELESS CHILL TONIC**  
Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood. It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its Strengthening, Invigorating Effect.

### NEWS LETTER FROM BAILEY COUNTY CORRESPONDENT

Several nice showers lately is causing the prairies to take on a beautiful green hue. Wm. Mattheson has a large field of fine looking oats. O. N. Robison made a trip to Clovis Sunday, returning Monday morning. Willis Rodgers visited homefolks Sunday. The change in time caused him to miss the train Monday. The "flu" has again made its appearance in our neighborhood. Homer Mardis has been quite sick with bronchial pneumonia following an attack of the flu. Clint Coventry is sick this week with typhoid fever. Ed Hupp is putting down a large irrigation well. One of the Spring Lake boys arrived in Muleshoe Tuesday from overseas. Matt Jesko passed through Muleshoe Wednesday morning on his way home from France. Matt says he is sure glad to get back to the old U. S. Mrs. Edd Hupp enjoyed a visit from her parents and brother, who live near Frederick, Okla. T. E. Millen left for Nebraska last Thursday, being called there by the death of Mrs. Millen's mother. Mrs. Emma Wilterding left Wednesday morning for a visit with her daughters near Lincoln, Neb. J. F. Willman and wife and Mrs. Ed Buhrmann were shopping in Clovis Monday. Miss Irene Booker has returned to Roswell, N. M., after a month's visit here with relatives and friends. Mrs. Sam Lane accompanied her home for a short visit. The farm sale of Doc Snyder was well attended in spite of the threatening weather. We understand he expects to move to Canada. We are sorry to lose him from the community. G. P. Kuykendall of Clovis, was in Muleshoe this week looking after his banking interests. Misses Tidenberg and Lambert, teachers in the Liberty School, enjoyed a visit with homefolks in Bovina Saturday and Sunday. Banker Eubanks and wife have moved into the residence recently purchased from G. P. Kuykendall. Mrs. O. N. Robison entertained the Banner Class of the Liberty Sunday School Tuesday evening. Everyone reports having enjoyed themselves. If Hurley gets a bank, a depot and the County Seat in the coming election we claim she will be some town. Rumors of an oil company for Bailey county are in the air, but nothing definite has been done. Arnold Morris and his cousin Dave Morris, returned to Wichita Falls last week. W. A. Fowler of Crosbyton, was here the last of the week to accompany his wife home. Mrs. Fowler has recently underwent an operation in one of the sanitariums. Home grown Sweet Potato slips, tomato plants, pepper both sweet and hot at Lubbock, J. C. Dean, Prop. Phone 401f. W. L. Johnson and wife left last Saturday to visit with their sons, Frank and James, of Plainview, they will probably be gone several days.

## Coal for the Cook Stove

Probably not much more heating stove fires will be required this season, but you will be casting about for the best coal for cooking purposes. Be sure to see us before you buy. We have just what you want. Plenty of feed for the horses, cows, hogs and chickens.

THE UNIVERSAL CAR

Take good care of your Ford car. Don't expect it to give you full service unless you give it some care and attention. Let us give it regular treatment occasionally. No "box" parts or inferior materials used in our shops, but genuine Ford materials and experienced Ford mechanics. We'll keep your Ford car serviceable for years if you give us the chance. Our prices are mighty reasonable. We want your trade. Why can't we have it? We will serve you better than anybody else.

### A CHILD MUST GROW

A child cannot choose its period of growth. Nature attends to this with laws well-nigh unalterable. A child of retarded growth or feeble vitality needs and should have help to promote healthful growth.

## SCOTT'S EMULSION

abundant in nourishing substances that promote growth and strength, is invaluable in its help to a growing child. Scott's helps a child over the weak places.

Scott's helps a backward child develop naturally.

### 10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliueusness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascares. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your drugist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

Mrs. W. A. Clark left the first of the week for a visit with friends in Fort Worth and probably will visit in Dallas and Terrell before returning.

Mrs. Joe Penney who is visiting her sister in Houston, will probably return home about Easter.

The Forest and Mysteries of Woodcraft were opened to six young men last Friday evening at a special call meeting of the local Woodmen lodge. The meeting was well attended and great interest shown by all in giving the new members a hearty welcome. The team is especially to be commended on their good work and their officers are to be congratulated on the interest they are putting in to make a good team, which is the very life of the successful lodge. Speeches were made by members who are enthusiastic in the lodge's unprecedented growth, and made resolutions for more activity than heretofore by each member with the intentions of making this lodge one of the best of the state.

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the stomach, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

H. A. Hawkinson, son of C. F. Hawkinson, shipping clerk for the Nobles Bros. Wholesale Grocery Co., of this place, has recently received his discharge from services in the 56th Engineers, and is here visiting with his parents. Mr. Hawkinson was attached to the 2nd British Army most of his time overseas, and was among the first Americans in Lille, on account of being in the detached service. He also was gassed though not seriously, but was confined to a hospital for some time.

F. E. Walters of Terry county passed through here the last of the week enroute to Plainview to get a bunch of horses that he has had on pasture near there the past winter, and will drive them home.

"Public Law 300, approved February 28, 1919, entitled every enlisted man discharged from the Army, Navy or Marine Corps after November 11, 1918, to five cents per mile from place of his discharge to his actual bona fide home or residence, or original muster into service, at his option. Men discharged hereafter will receive five cents per mile to place of induction into the service. Men already discharged will eventually be reimbursed for the difference between the travel pay they then received and the amount to which they are now entitled." No specific instructions have yet been issued by the Director of Finance as to how this application should be made and all discharged soldiers are advised to defer sending in their application until such instructions are received.
