When this spirit is released from his tenement of clay he will step forth a mighty angel. No combination of chemical substances or of material matters can produce life. The leading biologists of our time have fully demonstrated this truth until it is no longer an open question with them. Material matter is used to clothe the life or spirit, but it is not the life any more than the clothes is the man Each individual life is a machine, unobservable under the most powerful microscope, that comes from the Holy Spirit alone, whether it be vegetable, animal or spiritual life. There are several orders of life, but they all come from the same source. Matter is just inert substance and no more; It forms and feeds the body and that is its office. The company is now confident that the hole will go down rapidly and that in the near future they will bring in a big gusher. tI will be joyful news to our many outof town readers to learn that drilling is to be resumed at once, and that we stil, have an excellent chance to secure the long sought after liquid gold.
