## CLUB BOYS AND GIRLS RALLY DAY

WILL BE SEPTEMBER 20TH AND A SHOW OF PRODUCTS AND THEIR WORK WILL BE EXHIBITED

## A NICE LIST OF MANY PREMIUMS WILL BE OFFERED

Every Club in the County Should be Represented in This Grand Rally. In the Absence of a Regular Fair Let This Show for Itself the Development of the South Plains

As much as we regretted it last week we announced that there would be no fair this fall in Lubbock county. The reason assigned being the inability of procuring a suitable place for exhibition purposes.

The Boys, Girls and Women's Clubs all over Lubbock county under the supervision of Mr. Thompson, County Farm Demonstrator and Miss Millie Halsey, of the County Home Demonstration Department are to have a rally day the twentieth of September which will give them an opportunity of carrying on their work unmolested by the change of plans for the fair.

Lubbock county boys and girls and women are possibly the best organized of any county in the state, and they have all been doing great work this year, and had progressed to a point that would work a great hardship and disappointment to abandon the idea of exhibits from these departments. So it has been decided that on the 20th of September there will be a rally for these club members and their friends, and a list of premiums will be offered by the Chamber of Commerce to encourage their work. The list will appear next week, as it was too lengthy for publication in this issue.

It is to be hoped that the clubs will make this a really rally day and that every club will be represented and the entire membership present as near as possible, so that it will make a good showing. The club work in Lubbock county is developing some splendid talent and it is expected that the showing from the various sections of the county will surprise even those who have kept up the closest with the work they are doing.

The clubs, if they will join in the campaign for a sure enough exhibit hall for the fair next year will bring it to pass without a question, and at this meeting there should be launched a campaign for an exhibition hall and fair grounds for the 1920 fair, which we trust will not go overboard for the same reason that this one has.

Lubbock county cannot afford to let this occur again. The development of the great South Plains is too important and the exhibition of the products in county, state and interstate fairs is of too great value to permit the question to lag.

Do not let the pressure of farm work interfere with this rally, but take a day off and attend. Make it a banner day for the County Agricultural and Home Demonstration Departments of this county.

## STORY TELLING HOUR FOR CHILDREN TO BE CHANGED

Tomorrow afternoon, Friday the 5th, will probably be the last "Story Telling Hour" to be held on that date. School opening Monday morning, will cause the hour to be changed to Saturday afternoon. This movement has been greatly enjoyed by the small children of Lubbock and the 20th Century Club should receive thanks from the City's populace for this good work, also congratulations are due Mrs. Frank Winn, and Mrs. Floyd Beall, for the interest they have created among the small children in this hour. These ladies, being active members of the committee holding the "story telling hour" under their supervision. It is earnestly requested that all the children that can, be present tomorrow afternoon at 4 o'clock.

## RALLY DAY FOR BOYS, GIRLS AND WOMEN'S CLUBS

While it has been impossible to secure space for a fair this year, the Board of Directors of the Chamber of Commerce have decided to hold a rally day for the club members who have been doing work under Miss Halsey and Mr. Thompson. This day will be September 20th. The exhibits will be placed in the two frame buildings just opposite the Avalanche office. All exhibits must be entered by ten o'clock in the morning, and judging will begin immediately after dinner.

## PLANS BEING MADE FOR FOUR STORY HOTEL

Preliminary plans, specifications, and estimated costs, for a hundred thousand dollar, modern four story hotel building, is now in course of making by our local Architect, Walter E. Taylor.

This building will be equipped modern throughout, a lobby with 2160 square feet of floor space, eighty guest rooms, each equipped with baths and steam heat, also an elevator.

Who is having the plans and specifications made is not known by us at the present time nor the location where the building will be erected. However in a few days we hope to give this news to the public. That Lubbock is in dire need of such a hotel building is well known. Several times in the past we have seen people here unable to secure lodging within the city and have left on that account.

## RALLY DAY FOR BOYS AND GIRLS AND WOMEN'S CLUBS

While there will be no regular fair this fall on account of the lack of space, the Chamber of Commerce will hold a rally day for the clubs working under the supervision of Miss Halsey and Mr. Thompson, Saturday, September 20th. The premium lists will be announced in the next issue of the Avalanche, and will be based on the work of the clubs. Owing to lack of space this list is held up. Let every club member be prepared to enter.

When a proposition was put up to Mr. E. P. Norwood of Dallas, by a certain tractor company, concerning the district in the State of Texas that he preferred to make his home, also for the district which he thought would be best for sale of tractors, it was answered by him "South Plains."

Mr. Norwood and wife have recently arrived in our city and will make their home here in the future. Mr. Norwood, in choosing the south plains for the agency of this tractor (which is a Texas product) had for one of his best reasons that of the large territory, practically undeveloped; the era of development which is at hand and the tremendous success of the tractor for farming large acreage in the smooth country.

## LUBBOCK COUNTRY IS ATTRACTIVE

PEOPLE ALL OVER THE UNITED STATES ARE LEARNING ABOUT THE GREAT SOUTH PLAINS OF TEXAS

## OUR BUMPER CROPS ARE ATTRACTING MANY PEOPLE

Farmers Who Have Been Renting in Other Sections are Looking This Way for Homes and are Highly Pleased When They See Our Great Crops and Fine Farms

Last year when the west was getting such an array of criticism. When the writers in the daily papers in the east were telling of the awful conditions of the west. When they were picturing the people of the west as in destitute circumstances, unable to stay and unable to go. When they were writing column after column about the devastated condition of the west and predicted that its doom was forever sealed. That there would never be a day that people would ever think of coming back here to live, we thought they were doing us a grave injustice, but in place of that it was probably the very best thing that could have happened to bring this great rich productive country in to the eyes of the people. Every prediction that this country would never come back has fallen flat, and proves that the writers thereof knew nothing about the great west.

The drought was broken last fall and with one crop season the South Plains has redeemed itself, and shows that no country in the world can come back and recover from a severe drought as rapidly as the great South Plains—the Lubbock country.

Hundreds of prospectors are coming here every week, and many have bought, others are buying and many will return when they have marketed their crops on rented farms and will buy a home of their own in the Lubbock country. Others are buying residential property in Lubbock and some are coming here to engage in business. It goes to show that this country has got their attention and they are coming to the great west for homes and investments.

The crops in this country this year are greatest in many seasons and the prices are going to be the highest which is bound to net the farmers a good profit, and these immense crops are attracting the attention of those who have heard of them and have come out here to see for themselves. Many of the maize and kaffir farms will produce over two tons of grain per acre, the corn from twenty to forty bushels to the acre and very little of it less than twenty-five.

## METHODIST REVIVAL CLOSED—WAS GREAT SUCCESS

Rev. G. A. Klein, of Memphis, Tenn., who has been in this city about two weeks, holding a revival meeting, in the Methodist Church, left Monday morning for Slaton, after closing his meeting here Sunday evening. Rev. Klein began a meeting Monday evening at Slaton.

The meeting here was a great success in every way. And good attendance for each sermon. Altogether one hundred and five new members were added to the Methodist church, twenty-five by letter and eighty by conversion. There are others expected to join soon.

Ross Renfro and wife, of Brownfield, are here this week. We understand that Mrs. Renfro underwent a serious operation Wednesday morning after his property interest.

Wm. L. Rush, brother-in-law of A. B. Conley, Jr., of Decatur, and son, are here this week visiting at the Conley home. Mr. Rush is a banker at Decatur.

Miss Ruby Deakins, of the Manhattan Parlor, returned home this week from a few weeks visit and vacation in Mineral Wells, Weatherford and other points.

George W. Neill, abstractor of Brownfield, passed through here today enroute home, after spending several weeks in Gorman, attending to business matters.

Rev. Smith, pastor of the Methodist church at Crosbyton, accompanied by his family were here Tuesday. Mrs. Smith was over having some dental work done.

Miss Ina Mathis, of Lorenzo, passed through here last Saturday morning enroute to her home, after spending the week visiting with relatives in and near Brownfield.

wheat the best that has ever been raised in Lubbock county, also the finest oat crop. Sudan equal to the banner crop year, and cotton will make from a third to a bale to the acre. This is the way the crop conditions are stacking up, and it looks good to the fellow who is used to getting less off \$250 acre land, while this can be bought for \$60 an acre and down according to the improvements and the distance from railroad or county seat.

Secretary Briggs, of the Chamber of Commerce, says he is receiving more inquiries along all lines this year than this organization has ever handled, and from sources that really mean something. They do not come from people filled with idle curiosity, but from investors and people who are really wanting a new location in which to buy a farm, a home or open a business.

Chester T. Crowell, representing the West Texas Chamber of Commerce is now in Indianapolis, Ind., where he is in charge of an exhibition of farm products from West Texas Counties, at the Indiana State Fair, writes the Chamber of Commerce here for additional literature about the Lubbock country. He says the West and especially the South Plains is attracting more attention than any other section of the United States, and the exhibits from the west are opening the eyes of home-seekers and investors. The result of this exhibit will mean a great deal to all of the west, and many people in all lines of industry will be attracted to this section of Texas who otherwise might never have heard of it.

The Chamber of Commerce are preparing to have a large quantity of advertising literature printed and will send it to Mr. Crowell and will also distribute several hundred thousand copies at the Dallas State Fair. The west is not only coming back, but is already in the redeemed class, and the people have found that this is one of the greatest countries in all the United States.

Come to Lubbock.

**SUCCESSFUL TERRY COUNTY  
FARMER MOVING HERE**

S. A. Shepherd, farmer-stockman, of Terry county, has been in this city several days attending the bedside of a daughter, who was able to return home the latter part of last week. He will make his home here soon, according to information from Mr. Shepherd. He has secured a home here and will be in it by the time school starts.

Mr. Shepherd is a pioneer farmer on the south plains, and has a fine three section ranch, which he has stocked with good cattle. We welcome this family to Lubbock.

**LOCAL NEWS ITEMS  
FROM THE RALLS BANNER**

While attending services at the Christian Church last Sunday night, Bert Moore, son of Mr. and Mrs. N. H. Moore, was stricken with meningitis. He was taken to the home of M. C. C. Kirksey, and for several hours his life was despaired of. There was no serum in Ralls, and Dr. Ponton, of Lubbock, was telephoned for. He arrived in due time, bringing the serum with him, and after its injection the young man's condition improved, and at this writing he is getting along nicely, and will, no doubt, soon be restored to health.

Jim Griffith this week sold to Luther Hendrick one hundred tons of maize at \$30 per ton, this being perhaps, the best price paid in this territory during the week. Something like 500 tons of maize have been purchased by our buyers during the past few days, and still a constant stream continues to flow in. Much vacant ground around the elevator is now occupied by huge stacks of the grain. At present wheat is tied up so it will be impossible for our buyers to handle it for several days to come. It cannot be shipped to the mills, and the elevator is full to overflowing.

The Christian meeting which has been in progress here, closed Sunday night. The series of sermons preached by Dean Speck were both edifying and entertaining, and much good resulted; several new members were added to the church, and the spiritual condition of the members greatly revived.

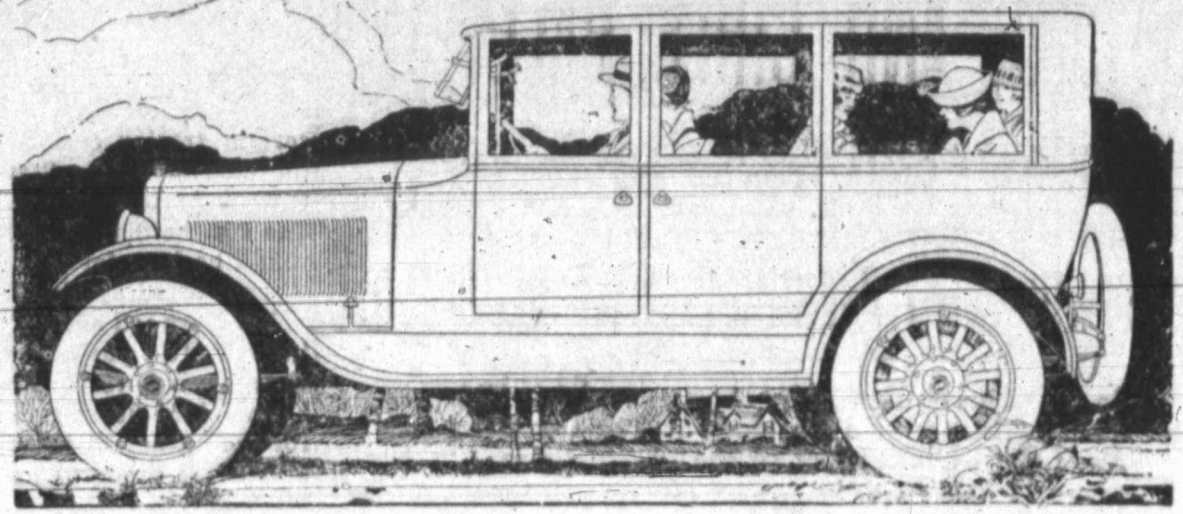

Green Bury, little son of Mr. and Mrs. Joe Harrison, of near Crosbyton, happened to what came near being a serious accident Saturday. He was riding a horse and the animal became unruly and threw him to the ground with such force as to render him unconscious for some time. At this writing he is doing nicely.

R. R. Jones this week sold his 80 acre tract of land to Mr. McElroy for a consideration of \$80 per acre, and then purchased 203 acres from Messrs. Ralls and Bowers for a consideration of \$65 per acre. There is no improvement on this land, and the price at which it sold in each instance we think, breaks the record for unimproved land in this county. Mr. Jones tells us that he will put something like \$2,000 improvements on

Ed Harris, one of our prosperous and contented farmers, was in town Wednesday marketing maize, and while here called at the Banner office and left us some cash to apply on subscription. Thanks. Mr. Harris is cultivating 400 acres this year, 100 of which is in cotton, and he says the prospective yields will more than compensate him for any inconvenience suffered by drouthy conditions of the past. The fertile South plains is generous and, while at times, she denies the inhabitants a full measure of the bounties continued in her bosom, always makes up to them for any ill that may result as a consequence.

The constant noise of the wagons, the fine pulverized dust ascending heavenward, the whistle of the drivers to their teams, intermingled with the constant roar of the steam thrasher have become familiar sounds in Ralls. From the earliest light of dawn to the black hours of night the grain wagons rumble down our streets and then back again, consequently these are busy days. Our merchants are busy, the farmers are busy, and even the printer is working overtime, all caused by the constant flow of wheat and maize into our little city, and hence the exchange of the filthy lucre. By it we are all benefitted and made more prosperous.

# Briggs & McWhorter—Now Briggs & Young

This change is not a change in management, but simply a change in name. The management of this firm has been in the hands of Briggs & Young for over a year. The only change is that Mr. McWhorter no longer has any interest in the business.

INSURANCE is a business that takes considerable ability, and close attention to details. Many people believe that all that has to be done is to write a policy for so much on a piece of property, and if there should be a fire, collect the money.

IF YOU could spend a day with us in our office and go into the various details of taking care of your insurance, you would realize that it is worth while to have a firm handle your business, which absolutely knows how, and is always on the job.

IT IS EASY to make mistakes, to over-insure or perhaps under-insure, write your policy in a way that does not correctly cover your property, and thus cause trouble when a fire loss occurs. We have never in the four years we have been in business, had trouble with our adjustments. Our companies, today, realizing our care in writing insurance give us more privileges than they do the average agent.

ANOTHER POINT OF ADVANTAGE, is the fact, that we always have someone on the job, at the office. You can always get transfers, and changes made in your policies at our office.

MANY PEOPLE think that anyone can write insurance, so we always have new agents springing up. They come around and solicit your business, and some times you take some of it away from the agency that has been handling it, and give the new agent a slice, possibly to get rid of his importunity. A few months later, you may desire to make a change in your insurance, and you look up this new agent, and after chasing around for awhile, you either find him off on some other business, because insurance is but a side line with him, or perhaps he has quit writing insurance entirely, and you don't know where your insurance is.

**The Firm of Briggs & Young Have Been in the Insurance Business for Years They Intend to Stay--You Know Where to Find Them--You Know That When They Write Insurance it is Correctly Written**

SO WHY NOT LET THEM TAKE CARE OF IT ALL? You may make an occasional additional sale of goods by splitting up your insurance business, but in the end have you gained anything, if your insurance is not well taken care of?

INSURANCE IS A BUSINESS FOR SPECIALISTS IN THE SAME SENSE THAT THE LAW OR PRACTICE OF MEDICINE IS. Therefore it pays to let specialists attend to your insurance needs.

We Write fire Insurance, plate glass and all kinds of bonds. We write many of our bonds right in our office, and you don't have to wait. The same is true of automobile and farm insurance.

### LUBBOCK MAN ARCHITECT FOR CROWELL CHURCH

### NEWS NOTES FROM THE LYNN COUNTY NEWS

On Sunday afternoon, August 24, at the home of the bride's parents in the Three Lakes community occurred the marriage of Mr. Herbert Lewis and Miss Eunice Edwards, Rev. J. B. Vinson, of Kress, performing the ceremony. The News joins a host of friends of the young couple in wishing them a bonny voyage over life's matrimonial sea.

The Fall term of the District Court for Lynn County, will convene in Tahoka Monday morning, September 1st, with Hon. W. A. Spencer, Gordon B. McGuire, and Court Stenographer, C. H. Smith, will be on hand Monday to start the term, which will probably last two weeks.

Lynn county has received slightly over two inches of rain since Tuesday night of last week; thirty-six hundredths of an inch was reported by the local weather bureau on the 19th and one and thirty-six hundredths on Sunday and Monday of this week, making a total fall of two and two one-hundredths inches up to Monday night. It will be of vast benefit to many late crops and will help cotton. Some fear is expressed that cut worms will become more numerous and cut down the cotton yield more than would have the dry weather. Tons of feed stuff will be gathered in this section this fall.

The 1919-20 session of the Tahoka public schools will begin its session Monday morning, September 1st, un-

der the superintendency of Prof. H. P. Caviness, assisted by a full corps of efficient teachers. The term promises to be the best in the history of the town. Already many families are moving here preparatory to sending their children to the Tahoka school this year.

## LUBBOCK SOCIETY NOTES

MRS. A. B. ELLIS, Phone 605.

Mr. George W. Dodson and Miss Nellie McCaslin were quietly married early Sunday morning at the Baptist parsonage, Rev. W. A. Bowen officiating. The bride has made Lubbock her home for a number of years and is greatly loved for her many womanly charms and christian character. The groom is a young man of good business ability and splendid integrity. Immediately after the ceremony Mr. and Mrs. Dodson motored to Slaton, where they took the early train to Amarillo and other points. They will return in a few days and continue to reside here. Their many friends wish them much happiness.

## Littlest Child Not to Young to be Taught Self Reliance

By Helen Campbell.

School had opened in the district and all through an exciting day, all varieties of the four-year-old, accompanied by all types of "the mother," were applying for admission.

Mary's mother, of calm, firm, but gentle bearing, stepped forward and the duty of registration properly fulfilled, presented her little daughter. Mary possessed the same calm manner as her mother and in addition a strange childlike dignity and poise of her own. Her two little bright eyes bespoke thought and understanding as she stood there on the alert for every question, at times even assuming the responsibility of the conversation herself. She had been carefully prepared by her mother for this new period of development, and so could face it without fear. Therefore, it was no surprise to us to hear her mother say at the conclusion of her visit: "Mary can take off her coat and wait upon herself. She will not cry, for I told her she was coming to school and explained what she would have to do. She is a great help to me at home and I am sure will give you no trouble." Then, turning to Mary, she waved a "goodbye, dear," and Mary, smiling with satisfaction, sat down in her little chair.

We were not allowed to waste much time with Mary just then for suddenly there was a great pushing to the front and hurried childish sounds of "I'm 4 years old, I'm waxinated, I live at 538 East. My father's

name is Jimmy and he's dead and I want to come to school every day! Now can I have a little chair? Can I play with your balls, and make houses with blocks, and sew cards and bring home things every day like all the other boys that go to kindergarten?" When Jimmie stopped to catch his breath, I fully realized that he had made up his mind to come to school, and that, indeed, he was quite ready to do so. When asked where his mother was he said: "She's home, and my big brother he goes upstairs in this school, but I came all alone by myself."

Yes, Jimmie, the youngest of nine, entered school alone, but full of enthusiasm and ambition, with a brain eager for stories and games, and with hands that wanted to work, to learn and to do. Fate had seemed unkind to him, but although a victim of rough circumstances he had developed fortunately and accidentally in the right direction. He turned out to be a most interesting pupil in the classroom and soon became an obedient, law-abiding child.

Two big, blue sleepy eyes, mounted in a great wonderful head, supported by the stockiest of frames, there were the striking characteristics of the next little fellow who stood before me. A poor, indulgent mother held his hat in one hand and his apple in the other, together with a penny to give him when he cried and a basket of cakes for fear he might be hungry. As she pushed her son toward me she gave his name as Joseph Carlson.

"Good morning, Joseph. Are you glad you can come to school?" No movement of the eyes or face; no sign of comprehension. "He doesn't like to talk very much," his mother answered. Then his cake fell to the floor and when I asked him to see if he was big enough to pick it up, again it was the mother who replied, "He doesn't do everything like that," and she stooped and picked up the cake herself.

Her mission of registration over Mrs. Carlson started to go, but suddenly returned to make these feeble remarks: "You know, teacher, he is 4 years old, but he isn't any good to himself. I have to do everything for him and if I don't he cries. I know I pet him too much, but try him and see if you can teach him something. I can't."

Joseph looked impervious to knowledge, but I had no reason to anticipate that he would prove at all troublesome. "Goodbye, be a good boy," called his mother from the door. For the first time Joseph demonstrated that he possessed some sense of what was going on outside of himself. His screams brought his mother quick

reason some of them were not severe was that it was not winter time.

Everywhere the health authorities are very anxious over another epidemic of influenza as soon as cooler weather sets in. They look for the disease to again sweep the country the coming fall and winter. So far no sure treatment has been found, in fact a local physician declares that the medical fraternity is "up in the air" as to its treatment as much so as last winter. The general consensus of medical opinion is that the serum treatment is no good, for statistics show that as many persons who have been inoculated with the serum contract the disease as those who have not.

The best preventative is in observing the general laws of health and hygiene, say authorities.—Plainview News.

### CONDITIONS IN WESTERN NEW MEXICO ARE GOOD

Following one of the severest winters ever known in the western portion of New Mexico, grass and water is more plentiful than many years. This information we learn from Jay McPhaul, former citizen of the South Plains, who was here the first of the week visiting with acquaintances and attending to business matters. Mr. McPhaul says that cattle and stock of all kinds are in fine shape this year in the Magdalena country. Mr. McPhaul and brother, Will, have a nice ranch about forty-five miles northwest of Magdalena. Incidentally he tells of his oats, waist high, and fine as can be.

### FRED ALLEN WANTED FOR MISAPPROPRIATION OF FUNDS

Sheriff Holcomb received a telegram this week from the Gorman Home Refining Company of Gorman, Texas, stating that Fred Allen, former representative for this company, was wanted for misappropriation of the Gorman Home Refining Company's funds.

Mr. Allen spent several days in Lubbock only a short time ago. He also did some advertising for the company which he represented in this paper. Numerous conversations carried on with Mr. Allen, suggested to one that he was selling lots of the stock in this city. Several parties became intimately acquainted with him while here. He was a foreigner, and spoke broken English, was about forty years of age. The last time he was heard of in this city was about ten days ago, when he notified parties here that he was going to Amarillo for a two or three day business trip and would return here to attend to some business. Readers will notice in another part of this paper a warning sent out by the Gorman Home Refining Company.

### ITEMS FROM THE CROSBYTON REVIEW LAST WEEK

Mrs. F. Littlefield and little son, Harvel, of the East Plains, returned Tuesday from a three weeks visit with relatives at her old home in Falls county. She brings back the news that the cotton crop is very short in that country, caused by too much rain and the depredation of boll weevils and worms but the corn is very fine she says. Her mother is nearly 90 years of age and is hale and hearty.

J. H. Moore, of Big Four, carried his son to a Lubbock sanitarium Saturday to have his tonsils removed. Mrs. Moore is still in the sanitarium there, but her health is gradually improving.

Mrs. W. H. Hames returned Saturday from a Lubbock sanitarium where she underwent an operation some days ago.

Clarence Kirk, one of the enterprising farmers of the McAdoo country, was a pleasant caller at the Review office while in town Monday afternoon, and left a sample of his seed barley with us. He planted ten acres in barley about the first of March, putting about a bushel of seed per acre, and it averaged a fraction over 70 bushels per acre by thresher measurement.

Rev. I. A. Smith returned Tuesday afternoon from Lamesa where he has been engaged in a revival meeting. He reports a good meeting but was rained out on the last. It rained there Saturday, Sunday and Monday, and about six inches in all, he says.

### WRECKED FREIGHT TRAIN DELAYED PASSENGERS

A wreck of the extra 934 freight train south bound, near Sweetwater, late Monday night, resulted in all passenger trains northbound, being several hours late Tuesday. We understand several cars were derailed in the wreck, but no one hurt.

### TERRITORIAL SAVINGS ADVISER ATTENDS INSTITUTE

Robt. L. Dudney, territorial savings adviser of the Lubbock district left Tuesday morning for Plainview where he will make an address at the opening of the Hale County Teacher's Institute. Mr. Dudney was also present at Slaton Monday morning of this week at opening of the Slaton school and made a "thrift" address. Mr. Dudney reports that the buying of thrift and savings stamps is rather light at this time, possibly because of everyone being busily engaged in the harvesting of their crops.

There is such a diversity of effects produced by panels, pleats, sashes and draperies; and touches of fringe, braids, embroidery, beads and buttons, lend a charm which is altogether irresistible. To see these new dresses is to desire them and their very moderate pricings make possession far from difficult.

Oh! Such Pain! dizzy—dragged-down? With dull headache, backache—racking with pain here or there—a poor woman, she's one of many. On those days each month, when in other circumstances she would go to bed, she must still be at the desk or counter, or struggle through the day as best she may with her housework or her family cares. Usually she who feels those dragging-down or dizzy symptoms, and other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of these pains. Faded, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. In liquid or tablets.

MEMPHIS, TENN.—"For many years I have depended on Dr. Pierce's Medicine to keep me well and healthy. I was once restored to health by the use of the 'Favorite Prescription' and the 'Golden Medical Discovery' when other medicines and doctors had failed to give me any help. The 'Favorite Prescription' has no equal as a woman's medicine."—Mrs. E. C. Wilson, 622 N. 9th Street.

## THE BAPTIST 75 MILLION CAMPAIGN

"The end of August, which was designated as Information month in the Baptist 75 Million Campaign, finds all the state organizations perfected, most of the associational organizers and publicity directors. appointed and many of the local church forces organized for business," Dr. L. R. Scarborough, general director of the campaign, has advised the Texas Campaign headquarters at Dallas.

"Although no solicitations of gifts will be made until Victory Week, November 30th-December 7, many gifts are already coming in voluntarily," Dr. Scarborough continues. "An Alabama Baptist Layman has given a thousand acres of fine land to the campaign. The prospect is that there are valuable minerals hidden in this land, and if this prospect materializes the value of the land will run into many, many thousands of dollars, as the mineral properties are developed. Standards of vision and service and of giving are being raised everywhere.

"The religious and secular press are falling in line with full cooperation with the purpose of the campaign and enthusiasm, like a rising tide, is reported from New Mexico to Maryland and from Missouri and Illinois to Florida.

"More Baptist people are willing to work in this campaign than were ever dreamed of for any other movement among the Baptists, and we are going to have something for all of them to do."

## Get Your Money's Worth

Hearing the New Edison for the first time is like opening the blinds to the sunlight.

You expect to hear the familiar talking machine "tone." You are agreeably surprised to hear something different—something that you did not expect to hear from a phonograph. You hear the human voice and the music of human-played instruments in all their natural beauty—positively indistinguishable from the performances of the artists themselves.

When we sell you an Edison RE-CREATION we sell you the actual voice of the artist, or his instrumental performance—nothing more, nothing less.

If we sold you an Edison RE-CREATION, knowing that it was not 100% true to the actual recording of the artist, we would be guilty of not giving you your full money's worth. We know that when we sell you an Edison RE-CREATION we are giving you your full money's worth because we have proof.

Two thousand music critics have endorsed our claim that

## SOME CLOWNS—YANKEE ROBINSON HAS PLENTY OF 'EM

One word there is that has its sacred traditions of the circus, and that word exists with the Yankee Robinson Big Three Ring Wild Animal Circus which is coming to Lubbock for a one day's visit on Wednesday, September 17, just as it has existed with every circus since the olden days.

"CLOWNS".  
For, you see, a circus wouldn't be a circus without clowns, and in spite of all the other attractions, Plestina, World's Champion Wrestler, Irene Montgomery, beautiful and dashing equestrienne: In spite of the elephants and trained polar bears and the score of aerialists and acrobats, much of the attention this year has been given to the producing of clown acts and the gathering of "Talent."

Producing? Certainly. For clown acts must be produced and rehearsed perhaps more carefully. It's no easy job to be a clown. With mimicry and pantomime alone must the work of fun be done. There is no chance for words in a tent that holds ten thousand people. Every action; every movement must have a meaning—and that meaning must be one to bring merriment, or the ax falls in the treasury wagon and another clown has gone out upon the highway alone to seek a new job.

So it is that the clown for an important part of the circus. And so it is also that the Yankee Robinson Circus add to the list of other things that can be seen, that line of so much meaning.

"Thirty Clowns." 10-1

## THE NEW CONGRESSMAN.

(A Parody)  
By T. J. Estes, Lubbock, Texas.

How dear to my heart were the votes of the people,  
As great aspirations arose to my view  
I wanted to serve them and work for their interests  
And I promised them everything both old and new.  
The old rotten congress, the dirty old congress,  
I'd work it all over and make it all new.

The pork barrel silage and twenty per cent mileage,  
The trusts and the robbers and grafters galore;  
I'd bust every faction, investigate their action,  
And send them to prison or some foreign shore.

The pork barrel congress, the twenty cent congress;  
I'd work it all over and make it all new.

But the trusts they grew bigger, war profits I can't figure,  
And the high cost of living is done out of sight.

My people they are cussing, because I've done nothing.

But appropriate, investigate and hold the lid tight.  
The appropriating congress, the investigating congress,  
The trust busting congress, I was going to make new.

Now there is a nigger in the woodpile that's bigger,  
Than anything yet we have pulled as a stunt;

For the war is a booming and everything consuming,  
But business mustn't suffer if the people do grunt.

And it's the same old congress, the investigating congress,  
The trust-busting congress I was going to make new.

I'll conscript the boys and make a great noise,  
While the profiteering bunch are pulling the plums;

This bunch, we don't need them, but still we will feed them,  
When we ought to conscript them and send them to the Hun.

The appropriating congress, the pork barrel congress,  
The trust-busting congress I was going to make new.

And now the war is over, profiteers still in clover,  
And who will pay the cost of this great war?

Our boys did the fighting, profiteers did the kiting,  
And they take the place of Kaiser and the Zar.

Now we want a peoples congress, an economic congress,  
That will work for all the people and not the few.

Our Uncle Sam is able, and that is no fable,  
To run his own business, and do it right well;

He could take the law-breakers, the grafters and fakers,  
And conscript their business and send them to "the pen."

The contracting rakers, the price-boasting fakers,  
The war profits takers and all the bad crew.

Above composed in part from criticisms and promises of Tom Blanton, of Texas, at Lubbock, on his campaign for congressman from this district.

**You Do More Work.**  
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

**The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

### FARMER HAS HARD LUCK DISPOSING OF WATERMELONS

When a farmer goes out into his watermelon patch, gathers sixty large melons, loads them in his wagon and drives several miles to town for market, and gets there and finds no market, but trades for more melons, which he has to take back home to feed hogs, we can't keep from sympathizing with him.

Anyway, that's the experience of one Lubbock county farmer, who gathered sixty fine melons last Friday, brought them several miles to town, found no market, and in an attempt to dispose of them to a peddler of melons, agreed to give or take. Thus he bought twelve more nice melons and drove home to feed the hogs. And still the consumer pays 35c to 45c for melons on the Lubbock market.

### FARMERS WILL PAY \$2.00 CWT. FOR COTTON PICKING

Two dollars per hundred pounds for picking cotton in Lubbock county, laborer furnishing his own board, is the price set by a recent organization of Lubbock county farmers. This organization was perfected last Saturday afternoon. George W. Briggs was elected president and Carrol Thompson, Secretary. That Lubbock county might secure labor if available to gather the crop of maize, cotton and etc., will be one of the features of the organization. Another will be the setting of a price, which will be agreeable to farmers in various sections of Lubbock county.

The local Chamber of Commerce has had in view for some time the necessity for importing to Lubbock county labor to gather this year's crop. Different points, labor officials and organizations have been communicated with by letter and by wire. A request from the local Chamber of Commerce sent to government officials, for advice regarding the importation of foreign labor, especially Mexicans, was answered to the effect, that by a process of red tape preliminary permits and the expense of shipping the labor here, a few might be secured in the El Paso territory. This however, did not appeal to the farmers at the meeting last Saturday. Mexican labor for cotton picking, especially when brought here only for that purpose has been found unsatisfactory by the farmers who have heretofore tried. Recent communication with men who secure Mexican labor in the Brownsville territory, state that at the present time it is practically an impossibility to find any unemployed.

These matters, informing our county, regarding the prospects of securing outside labor were discussed at the recent price fixing meeting. No definite steps were taken at the meeting toward further investigation. It was decided however, to place an ad in some widely read newspaper for cotton pickers. No decision was made regarding the price that will be paid for maize heading and other farm labor. A chairman from each school district in this county was elected or appointed for the purpose of notifying the whole community of the fixed price to be paid for cotton picking, with a view of ratifying the work done at the last Saturday meeting.

Dr. A. C. Scott, of Temple, who owns property in Lubbock county, was in town the first of the week, transacting business and visiting at the L. B. Wright home in this city.

### BURLESON NOT ACCUSED OF ACT OF MAIL CARRIER

John Waldrop, the new mail carrier between Brownfield and this place, on the Plains Lubbock daily line, had tough luck the first day on the run. John has lived on the South Plains for several years. The development of the country, however, changed the looks of a portion of the country to him. The first day he made the trip to Lubbock to get the mail was made OK. Returning as he thought by the way of Slide, and driving several miles further than he had before estimated, he began to wonder. No doubt he was shocked, when he drove up to the Tahoka Post office to unload, and was reminded that he was carrying mail to Brownfield, not Tahoka. Slide was some town, the day, but she had to do without one day's mail, and John reached Brownfield, his destination, some time late in the afternoon.

So far the fault has not been put upon the shoulders of Mr. Burleson, however, he might get it yet.

## Calomel Today! Sick Tomorrow!

### I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start

your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may siltivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

Messrs. W. H. Dallas and Fred Seunday, of Brownfield, were here Sunday and Monday. Mr. Dallas is here attending the bedside of his wife who is ill in a local sanitarium.

**No Worms in a Healthy Child**  
All children troubled with worms have an unhealthy color, which indicates poor blood, and a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

B. W. Stinson, of Brownfield, passed through here last Saturday enroute home, after spending several days in Eastland, visiting with acquaintances and attending to business matters.

### "BATTLE OF LEGGS" BETWEEN U. S. AND FRANCE IS IMPENDING

New York, Aug. 20.—There is possibility that France and the United States will become locked in a terrific struggle.

The most beautiful legs of France are visiting here, according to a press agent attached to Mlle. Diets Mistinquet, Parisian dancer. Ann Pennington, New York actress, who is said by first-nighters to possess dimpled knees, says she is willing to enter into a competition with the French beauty.

Pearl Eaton, another Broadway favorite, was looking over her best silk stockings and holding herself in readiness to plunge into the contest. It has been suggested that the battle of legs be staged for the striking actors' fund at Madison Square Garden or the Polo Grounds.

What next? Shall we say: "Come to Lubbock." O no, it's not necessary I presume, as we already have a great variety of such exhibitions in the Lubbock movies, at least I suppose so by the street advertisements, especially those presented last winter and spring, some almost absolutely nude. Of course the nude immoral and absurd hasn't the bad and lasting effect in so great degree, on the old, as it does on the phant and untrained and inexperienced minds of the young. With decent, moral, truthful and instructive scenery movies are not harmful, but beneficial, but when the leading features are nudity, immorality, sex familiarity, compromising love making, and canditry, robbery, incendiarism, rapine and murder, and the handling of murderous weapons instead of useful tools; the living of false, immoral, dissolute, dishonest and profligate lives, then they become harmful and corrupting, to the young especially. Money, and even whiskey, if rightly used, is good, useful and beneficial, but O, how great the harm and bad effects when wrongfully used. Even so is the movies. The minds and lives of the young are being shaped and formed largely by the movies, style, fashion, and what they see and read in the popular papers and magazines, and a great deal of that is not truthful, elevating or refining; and why is it these with the popular fixers and the movies. It's because there is so little protest and that the general public seem to relish and sanction such; and if they have the indulgence and endorsement of the parents, the children take it as right and proper, for a good and dutiful child thinks what father and mother does is surely right.

What kind of man or woman do we want our child to be and how do we want them to live and act their part in life? Well, that is just what we parents should be, do and teach our children, for we are their models, ideals, teachers and above all, their guardians, and think what great responsibilities rest upon us. In this wild, exciting, frivolous, distracting, emotional, uncertain and

chaotic age, torn by war, extravagance and greed, it seems like the world's gone mad and all unbalanced and we parents have almost lost sight of our children's training and welfare and of their future good and usefulness.

Yours for better fathers, better mothers, better children and a better Lubbock. Citizen.

**MEAT CANNING**  
By Harry Austin Clapp, Canning Specialist, Texas A. & M., College Port, Texas.

For the successful sterilization of meats of all kinds, including wild game, sea foods and similar products it is necessary to use some apparatus which will provide heat in excess of that supplied by boiling water. As stated in lesson one, the bacteria found in animal products have ability to withstand ordinary temperatures. Any apparatus which will enable one to raise and hold steam under a pressure of fifteen pounds will supply a temperature of 250 degrees and this will kill all bacterial life. Several reliable firms make such equipment and your County Agent will place you in touch with the manufacturer and order them for you. Besides this outfit provide yourself with two capping steels and two tipping coppers, some string or wire solder, some bar solder, flux and the required number of tin cans. Generally we prefer No. 2 and No. 3 cans with an opening 2 1/16 inches and provided with solder hemmed caps. This is the standard tin can generally used for home canning. The use of glass for meat canning is not advised. The seal is not secure enough and one is almost certain to have some losses. Tin is the safe, cheap package. To make flux: buy ten cents worth of muriatic acid, put into a glass jar (never a metal one) add pieces of zinc (use top of Mason jar, zinc from a discarded battery). When the acid comes in contact with the zinc it will react, boil, bubble and dissolve the zinc. When the boiling ceases it indicates that the acid has dissolved all the zinc it can hold in solution. Take out any undissolved zinc, wash in water and put away for next use. Strain the liquid thru piece of cloth, add equal quantity of water and put in glass bottle. This is called flux. It is a poison, will corrode clothing and should be handled with care. It is used for cleaning the tools and making the surface to be soldered clean and free from grease or dirt. Secure a small stick and wrap some rag around it or take a piece of sash cord and use either for a small mop. The capping steel and tipping copper must be kept clean and bright in order that the solder may flow evenly when sealing

the cans. Dirty, rusty, uneven tools are an abomination. Good tools mean easy and safe soldering. They may be cleaned with a file, coarse sand paper, brick always keeping the edges true and even. For tinning these tools procure a No. 2 tin can, melt the top off (not the bottom) and put in the can some pieces of waste solder and a small quantity of sal ammoniac. Heat the smoothed capper until very hot; wipe on an old rag, dip into some of the flux then into the tin can with solder and sal ammoniac, turning about until the solder is melted and the copper is bright, clean and well coated with solder. Then dip into flux a second time, wipe off any particles of dirt and it is ready for use. After you are through canning treat the tools in this manner before putting them away. Keeps them from rusting, and will save considerable work when ready for a second use. This is lesson two. Those interested are advised to cut out and preserve these articles. Following lessons will take up preparation of meats, filling cans, exhausting, tipping, processing and some reliable recipes for the preparation of meats.

Dear Club Members:  
I hope that each one of you is reading the Canning Lessons by Mr. H. A. Clapp that are now appearing in the Avalanche each week. If you will read these articles then clip them and keep them I am sure that when we begin canning in tin you will not

find it hard to do. I believe that within five years, or less time, every family in Lubbock county will own a Steam Pressure Canner, will can all their food in tin cans, and will wonder why they ever did it any other way.

At present practically every family grows a garden. Most families do quite a little work in that garden, and some families are very well satisfied if they produce a few fresh vegetables for table use during the summer months. But this old custom is rapidly going "out of style." In the future our gardens will be expected to yield every pound that is possible, but none of it will be wasted. The farmer will see to it that his family has all the necessary equipment for taking care of every ounce of surplus from orchard and garden. Not only that, but every farm home will, at all times, have an adequate supply of fresh pork, beef, and poultry on hand. This can easily be done, it is being done in other places, and I am sure that Lubbock County homes are going to be among the very first to become self sustaining.
