AND STILL CITY OF LUBBOCK GROWS

ITS GROWTH STARTED IN EARNEST WITH THE ADVENT OF THE FIRST RAILROAD INTO OUR LITTLE CITY

THE BUILDINGS ARE MODERN AND SUBSTANTIAL

Many Public Buildings Have Been Erected. Splendid Residences Grace Many of the Principal Building Sites Over the City, Also Fine Sanitariums, Church and School Buildings.

Prior to 1909 Lubbock was truly the example of the proverbial "wide spot in the road". It was a little inland trading point with population of less than 1,000 but even in those days when freighters hauled all the merchandise to the city and freighted the products out Lubbock was recognized as the principle trading city.

In 1909 the first steam engine moved into Lubbock bringing with it the outside world's ideas of progressive business and its coteries of merchants, business men and hangers on. The first year the city increased to a population of 2,000 making strides ahead of any other city on the new railroad. With the railroad came building. Homes were erected, business blocks were put up to house the new business institutions and to care for the increasing trade. The city was in a hustle and bustle with business. Today the population is over 6,000 showing that the growth and development was substantial and has increased steadily during the ten years that the railroad has been here.

In the growth and development of a new city it is appropriate that the writer govern its stages of growth in periods of ten years each. Taking that as a criterion Lubbock is today facing its second period of growth and development. Of course it is not anticipated that this growth will be as phenomenal as the last ten years in numbers of immigrants yet there is no logical reason why in 1930 this city should not have a population of 15,000.

Reverting back to the history of building and building operations the reader may get some idea of the possibilities for the future. The building prior to 1912 was the usual construction of business blocks to meet the emergency, the building of new residences and similar buildings. In 1913 however, just three years after the advent of the railroad more substantial buildings were started and in 1915 the building fever was given a great impetus by the erection of the West Texas Sanitarium or the Overton Sanitarium. This is a three-story, modern, substantial brick structure erected at an approximate cost of \$70,000. The following year came the Lubbock Sanitarium, an institution which would do credit to any city west of the Mississippi, and which draws patronage from all the territory west of the Mississippi.

This building was erected at a cost of approximately \$125,000 and is the essence of advancement and development along this line. Modern in every respect the citizens of Lubbock and the Plains country are justly proud of it and the men responsible for its erection. During the last year the city school district has expended \$45,000 in the erection of two new school houses, brick in material, and modern and far above state regulations which is partly responsible for Lubbock maintaining a school system classed as the best of any city its size in the State. One of the most up to date and modern county government buildings to be found anywhere in the State of Texas was completed last year. This modern building, in the center of the square in the heart of the business district, surrounded by beautiful park and shade trees, was erected at a cost of approximately \$130,000. In 1917 the Methodist congregation erected a church edifice which is imposing and handsome and which cost in the neighborhood of \$50,000. The county expended \$95,000 for six new brick school buildings in the rural districts within the last year.

These buildings mentioned above are among the more important structures which have been erected which does not include several extremely modern business blocks, banks and mercantile establishments, two large wholesale houses and numerous residences. Some of these residences costing as high as \$15,000. A significant fact is that this building was not done under the auspices of a

DR. BATES BUYS J. C. WAYLAND HOME

Dr. Bates this week closed a deal with J. C. Wayland, for the Wayland home place northwest of the city. This is a fine 300 acre tract with good improvements and was purchased for a consideration of \$20,000. Dr. Bates will occupy the home as soon as Mr. Wayland can give possession. He is improving a tract of farm land several miles northwest of the city.

L. C. Penry, of the firm of Penry and Penry, of Ft. Worth, is attending District Court this week. Mr. Penry is former District Attorney of this district and has many friends and acquaintances here.

Mrs. D. D. Worlick, of Arkadelphia, Ark., has been in the city three weeks visiting her son, Marvin Worlick, leaving Tuesday for her home.

J. Wiley Horner, of Ralls, is in a local sanitarium this week sick with pneumonia. He is reported as doing nicely.

boom neither were boom methods adopted. The building was nothing more nor less than the results of foresight and good business judgment and the success and steady growth of the city has proven beyond a shadow of a doubt that those who were responsible for this building knew what they were doing.

Today with the exceptions of course of a few the buildings erected in the earlier days of the growth of Lubbock all the buildings now erected are modern, pretentious in many instances and substantial and handsome in all cases. The reader may get some idea of the advancement in the summary statement that more than half a million dollars was expended during the last year in public buildings and nearly an equal amount in business blocks, city residences, and farm improvement. And again the majority of these buildings were contracted under pre-war prices and if erected today would cost twice the amount paid for them.

And the general consensus of opinion is that Lubbock is again facing a building era and an era of progress and development. Several business blocks are to be erected soon or in other words as soon as labor can be secured and proper materials placed on the ground. Many of these buildings will be extensive and large structures and will replace some of the earlier day buildings which still stand as a monument to those sturdy pioneers who worked with so much diligence to bring about this steady development. There have been several new buildings completed at the present time, including the new building now occupied by the United States post office, which is located in such a place as to demand the extension of the business section of the city. It is estimated by the lumber dealers and those interested in the furnishing of the materials for buildings that at least thirty to thirty-five new homes are either in process of construction or contracts have been let for them while plans have been drawn and all arrangements made for the erection of many more as soon as material and help is available for the carrying on of the work.

Lubbock city proper is not the only point noticing the effects of the building. The farmers are making great plans for new buildings. In fact many have already improved their farms with imposing and handsome residences and barns while many others are awaiting the arrival of materials and labor for their work. Dozens of new and substantial farm homes have been erected during the last five years many of these modern in the extreme equipped with lighting plants, water systems and every convenience that the city resident enjoys. They are a progressive lot, these Lubbock county and Plains farmers. They are not hoarding their money attained by dint of hard effort and persistent endeavor. As rapidly as they can they place this money back into improvements and the provision of conveniences which makes their living worth while.

Civic improvement has also had its attention in Lubbock. Many miles of cement sidewalks have been constructed lined with shade trees and well kept lawns and at a recent election held on a paving proposition the vote was overwhelming in favor of the paving bond and only a few days ago a contract was let by the city commission for \$295,338.75, for paving. It is the plan to extend this paving from time to time until all available blocks in the city are paved.

This building operation comes as a result of the prosperous conditions of the Plains country which has been brought about by development of resources and means that it will continue with the development of resources and immigration. Lubbock today is considered the principal business center of the Plains country and will continue to grow and develop year by year.

Henry Thomas, colored, was tried in the district court this week for the killing of Lizzie Darden, colored, near Slaton, Nov. 11th, 1919. A verdict of guilty was rendered by the jury and a sentence of five years in the penitentiary assessed, the sentence being suspended on the usual conditions.

The Rix Furniture and Undertaking Co., has purchased the warehouse out near the railroad track from Jackson Bros., occupied at this time by Swift and Co. They have also purchased lots on the corner north of the Neil Boarding house and will erect buildings thereon to be used as a private garage for storing their horses and other cars belonging to the company.

Mrs. Clarence Lewis and Mrs. Dallas, of Brownfield, were here shopping during the past week.

Rev. W. E. Lyon, Missionary Secretary, left Monday for Amarillo, Quannah, and other points on Centenary business.

GOVERNMENT OFFICIAL HERE FROM EL PASO

Major H. G. Coykendall, of the U. S. Army, stationed at El Paso, spent several days in Lubbock this week doing work for the good old U. S. A. Major Coykendall was here in the interest of the recruiting work in this city and stated that the U. S. Army was very anxious to let the people know the army belonged to them, and that the officers in charge were endeavoring to make the army what it should be as far as possible. The Major stated also that the army was undertaking and succeeding in doing constructive work among the men along educational lines. A good many thousands of dollars having been appropriated for that purpose. He further stated that several thousand young men of the army were in school, in El Paso alone, and that much was being done all over the country for the men of all nationalities who were willing to take advantage of the opportunities offered by our government.

MUCH ACTIVITY IN REAL ESTATE

BOTH TOWN PROPERTY AND RANCH AND FARM LANDS BEING BOUGHT BY PEOPLE FROM EVERY SECTION

THE SOUTH PLAINS IS ATTRACTING MANY PEOPLE

There Will Be a Heavy Acreage of Farm Lands Put in Cultivation in Lubbock Territory During the Next Few Months Which Will Mean a Great Deal to This Country.

There is a great drift of population to this section of the country, or there will be within the next few months. Hundreds of deals have been closed for property in the Lubbock country within the past thirty days, and when the people who have bought this property begin moving their families here, it will look like a great army advancing upon us, and it will be, but not for hostile purposes.

Men have been here from most every section of the United States within the past ninety days for the purpose of investigating the land values and the general conditions of the much talked of Lubbock country, and they are almost without exception highly pleased with what they find here, and either invest in farms, ranch land or city property, or go back to the old home to get loose from what they have there in order to grasp the great opportunities they see in the South Plains lands.

Improved and unimproved lands are being bought, and there will be a heavy increase in cultivated lands in this section during the next few months. As soon as the farmers already here can get their crops gathered, they will begin in earnest to prepare a larger acreage for the 1920 crop. The farms already started will be added to, and there will be many entirely new ones made. The past year's yield as well as previous years shows conclusively that the South Plains lands will produce abundantly, and pay a greater dividend than most any other section of the great State of Texas, and outdoes the high priced lands of the northern and eastern states so badly that many of the people from those countries are looking this way for investments and homes.

In the city our splendid schools are attracting attention of people who want to come west for various reasons. Many attracted here by

the splendid commercial prospects, and are investing in nice homes, in building sites of business buildings, and this will very materially increase the city population of Lubbock. A number of new business enterprises will be launched here in the very near future and as is mentioned in another part of this paper, much public improvement is being arranged for.

Not less than three new brick churches are to be built this year and possibly others, and a large number of modern residences are also being planned and contractors are figuring them, additional school buildings are to be erected and the splendid paving campaign being actively prosecuted will place our city far in the front ranks of progress.

The prospect for continued activity along every line, agriculture, stockraising, commercialism, etc., is assured by the magnificent season that the lands of this great south plains has at this time of the year, guaranteeing another bumper crop, and continued prosperity among our people.

Never before in the history of the South Plains has there been as much money on deposit in the banks, and never before has there been such a large number of depositors, represented by all classes of people. Truly the great South Plains country of which Lubbock is the logical leading trading point is the center of attraction for investors and homeseekers.

We feel safe in saying, as we have often said before that this is the best all round country in the southwest, and is only yet in its infancy as to development, and there is yet much room for enterprising progressive people to expand their energies and capital and make for themselves happy homes and thriving business surroundings.

Come to Lubbock.

Baptist Woman's Auxiliary.

The Baptist Woman's Auxiliary met Monday afternoon Jan. 19, in the home of Mrs. E. A. Barclay for a social and business meeting. A program on our Foreign Missionaries and their work was rendered, led by Mrs. W. A. Bowen, which was very interesting. After this business was taken up, the election of officers was in order and the following officers were elected: Mrs. W. A. Stahl, President. Mrs. W. A. Bowen, Vice President. Mrs. R. W. Heim, Secretary. Mrs. I. F. Holland, Treasurer. Mrs. H. O. Waters, Press Reporter. There were quite a number present and all seemed very much enthused over the prospects of a new church building and the great work that is before us this year. We hope to be able to report great things in

every line of our work during the year.

After dispensing with all business the remainder of the afternoon was spent in a social way. Delightful refreshments of hot chocolate and wafers were served.

We hope for a large attendance next Monday afternoon as there is much for each one of us to do to make our work a great and glorious success.

The meeting was opened with a devotional led by Mrs. V. L. Graves who read 13th chapter of First Corinthians and followed with prayer led by Mrs. O. G. Kerabner. The President, Mrs. M. Fulton, then held a business session, appointing three committees for the year's work, viz: Flowers, Sick and visiting committees. The retiring committees gave reports showing that they were deeply in earnest and had accomplished much good. A motion was made and carried that this society hold a banquet just before Easter, the time place to be given later. They were delighted to have Mrs. H. D. Phillips join them and hope soon to have other new members. They will meet next Monday afternoon with Mrs. Ollie Whipp, on Cedar St. After adjournment Mrs. Fulton served delicious refreshments.

THE UNIVERSAL CAR

Reliable service for Ford owners can only be had where experienced Ford workmen using genuine Ford parts, or materials, have charge of the work. This is why we urge you to bring your Ford car to us when it needs "going over" and fixing up. Careful attention given to your car will lengthen the period of its usefulness—prove to be money well invested. We have every facility to meet your wants and we give you the benefit of standard Ford prices.

INDIGESTION GOES, GONE!

"Pape's Diapepsin" at once fixes Your Sour, Gassy, Acid Stomach

Stomach acidity causes indigestion! Food souring, gas, distress! Wonder what upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay miserable! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benefits so great.

CUMBERLAND PRESBYTERIANS WILL HAVE NEW BUILDING

Rev. A. A. Collins, of the Cumberland Presbyterian Church, of this city reports some very fine things about what his church is planning to do along material lines, in the very near future.

Among other things and the chief undertaking at this time is the erection of a magnificent brick church to cost not less than \$30,000. The building committee for this good church has already been appointed and are getting busy in their official capacity, and several thousand dollars for the building is already in sight.

The building committee is composed of the following and will be busy raising funds soon: E. P. Earhart, Paul Von Rosenberg, J. S. Slover, C. H. Peek, J. W. DeShazo, G. L. Davis, G. H. Watkins, A. M. Rankin, A. Judd.

Let everyone remember to line up with these good people in this most worthy undertaking. There is nothing better for a community than a good church.

Save the pieces when you break it. Labbock Welding Co. 307f

WHAT QUALIFIES THE WOMEN TO VOTE

January 15, 1920.

Hon. John W. Hornsby, County Attorney, Austin, Texas.

Dear Sir:

Answering your inquiry, with reference to what is necessary to qualify women to vote in the primary elections and to participate in the nominating conventions, held under the laws of this State during the year of 1920, you are advised:

1. Every woman who desires to vote in any primary election or who desires to participate in any nominating convention, shall, first of all, possess all of the qualifications necessary of an elector, such as twelve months residence in the State, six months residence in the county, and must vote in the precinct in which she lives.

2. In addition to possessing the qualifications of an elector, she must have paid the same poll taxes that are now required of male voters and must have paid said taxes and obtained a receipt therefor prior to the 1st day of February, 1920. The form of receipt now used for male voters shall be used for female voters.

In addition to the above requirements, the female voter must have paid, not only the State and County poll tax of \$1.75 but, if she resides in a city which levies a poll tax upon male voters, she must pay the city poll tax. In other words, she must pay the same poll taxes, State, County and City, which are required of male voters.

3. And further such female voter must pay said poll taxes in the manner required of male voters, that is to say, if she resides in a city of Ten Thousand inhabitants and over, she must appear in person before the Tax Collector and pay her taxes. If she resides outside of a city of ten thousand inhabitants, she may pay her poll taxes as is required of male voters, either in person or by a written order to an agent authorizing said agent to pay her poll taxes and providing the necessary funds with which said poll taxes are to be paid; and in which event, the tax receipt should be mailed by the Tax Collector to the female person paying same and shall not be delivered to her agent. The forms for paying poll taxes by agents now applicable to male voters shall likewise be applicable to female voters.

4. Female voters, more than sixty years of age, or those who are blind, or deaf and dumb, or permanently disabled, or have lost one hand or foot, shall be entitled to vote without being required to pay the poll tax, but such female voter, if she resides in a city of ten thousand inhabitants or over, shall be required to obtain her certificate of exemption from the County Tax Collector before the first day of February, 1920.

5. Female voters who will reach the age of 21 years after the first day of February and before the day of the following primary election or nominating convention, and who possess all of the other qualifications of a voter, shall be entitled to vote at such election, if she has obtained a

certificate of exemption from the County Collector before the first day of February, which shall specify the day when she will be twenty-one years old and contain all the other requisites of a certificate of exemption. Before the certificate of exemption shall issue, the applicant therefor shall make a written affidavit of her age to be administered and certified to by the county collector who shall file and preserve the same. The same rules as to residence now required of male voters to obtain tax receipts shall apply as to exemptions for both male and female voters.

7. No poll tax is levied on women and the payment of poll taxes by women cannot be enforced, but the payment is only prerequisite to the right of women to vote in primary elections or to take part in nominating conventions.

Yours very truly,
C. M. CURETON,
Attorney General.

Says George Bailey in the Houston Post: "The ballot is the very handmaiden of liberty and woe unto the people who neglect to use it, for when the ballot ceases to function corruption and tyranny become enthroned."

Texas faces many serious problems this year that can be settled only at the ballot box. Shall the schools be allowed to go to ruin, shall childhood be protected from the blight of industrial exploitation, shall the payment of the cost of the war be shifted off the rich upon the backs of the poor by unjust tax laws, shall the homeless be helped to secure homes, shall booze and vice again be legalized, and in general, shall all the progressive measures of the past few years be nullified?

The women of the state turned the tide and redeemed the state two years ago. Every call of duty and loyalty demands now that they prepare to protect the measures that they advocated and defend the men who listened to their pleas in 1917. The women of Texas are not quitters. They will pay their poll taxes and be prepared to fight for good government again.

To wait until the last moment to pay poll taxes is to give the enemies of woman suffrage an opportunity to prevent the receipt being obtained. For there are many tricks which may be worked to keep the late comer from ever reaching the desk of the collector. Especially is this true in counties where the collector is not friendly to the idea of woman suffrage. There is time now to pay poll tax in comfort, if you go at once, and secure the privilege of voting. Go today. It is worth making a special trip to town to accomplish this.

Your neighbor will mind the baby long enough for you to go to the court house and pay that poll tax. Armed with your tax receipt you can help elect the next president; without it you cannot vote for dog catcher.

Farmers—Bring those broken parts on your implements, gas engines, automobiles, etc., to us, we will weld them and guarantee them never to break. Save time and money. Labbock Welding Co. 307f

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

EASES A COLD

WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

W. J. West, one of Slaton's progressive farmers called at this office one day this week. Mr. West is up attending his wife who has recently undergone a very serious operation in a local sanitarium.

GIRLS! A MASS

OF WAVY, GLEAMY BEAUTIFUL HAIR

Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the Danderine and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to do up. All dust, dirt and excessive oil is removed. Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick, strong and beautiful.

ter a most delightful hour spent in the usual conversation and dainty needlework the following ladies were served: marshmallow pudding, hot chocolate with whipped cream and angel food cake: Mesdames Robt. Kimmel, A. G. Hunt, Stubblefield, E. L. Baker, O. B. Trinkle, Ed Green, John T. Smith, Simmons, C. W. Alexander, L. H. Simpson.

The 1911 Needle Club was delightfully entertained last Thursday afternoon by Mesdames D. Robinson and C. M. Ballinger in the home of the farmer. The afternoon was devoted to needle work, after which the annual election of officers was held with the following result: Mrs. L. A. Posey, president; Mrs. R. A. Barclay, Vice President; Mrs. J. S. Johnson, Secy-Treas.; Mrs. Roscoe Wilson chairman of the flower committee. Refreshments of sandwiches, olives and tea were served the following ladies: Mesdames—Ponton, Boerner, Johnson, Griffin, Duggan, Bledsoe, Posey, Wilson, White of Coleman, Posey, Barclay.

The Intermediate League was royally entertained last Saturday night in the hospitable home of Mr. and Mrs. J. P. Posey. The evening was spent in playing games of various kinds which all present enjoyed to the fullest extent. Before "good-bys" were said each guest was served with popcorn balls and apples. Those enjoying this delightful occasion were: Mrs. J. T. Griswold, Clarice Phillips, Jack and Lonnie Brown, Lewis Brown, Alton Hutson, Noel McCollum, Velma Tolar, Addie Connell, Evelyn Posey, Ferrell Maud Harvey, Edith Carter, Dorothy Louise and Leora Lokey, Eugene Wilson, Hallie and Lorene Dane, Edith Thomas, Lois and Evelyn Tubbs, Anita Green, Raymond Bullock, Robbie Turley, Marcie and Ina Mae McCollum, Susie Smith, Omae Wright, Robert Brown, Buck Overton, Lata Adams, Pansy, Dorothy and Addie Lou Posey.

Mrs. T. B. Duggan entertained a number of young people last Friday night with an informal dance, in honor of her son, Lee. Good music was furnished and the evening was one of great pleasure.

The Junior B. Y. P. U. was entertained last Friday night by Rev. and Mrs. W. A. Bowen, in their lovely new home. A large crowd of young people were present and enjoyed themselves to the fullest extent. Refreshments were served. These occasions are of great benefit as well as pleasure to the young life of our churches and this was a delightful affair.

The Missionary Society of the Methodist Church met for Bible study at the church Monday afternoon at 2:30 o'clock. A very interesting study of John's Gospel was conducted by Mrs. J. T. Griswold, the lesson being the fifth and sixth chapters. The next lesson will be 7th to 12th chapters inclusive.

The Wesley Bible Class met in their class room Monday night in business session. The president, Mrs. O. B. Trinkle, presided. The meeting was opened by singing the class song "The Touch of His Hand on Mine". Mr. Rylander then led in prayer. A short talk was made by the president, after which officers for the new year were elected. Mrs. O. B. Trinkle was unanimously re-elected president; Mrs. A. E. Rennels was elected vice president and Mrs. F. A. McCaskill secretary-treasurer, it having been decided to combine the two latter offices. Mr. W. C. Rylander, the very efficient teacher, was enthusiastically re-elected. Short talks were made by the newly elected officers in which the hope and promise were expressed for better things for the year that is before us. The class has grown during the past year under the leadership of the president, Mrs. Trinkle, who has proved a charming, kind and much

loved leader. At the close of the meeting a very beautiful talk was made by the teacher. He expressed his appreciation of and his interest in the class. He is an unusually good teacher. It is worth very much to any one to listen to him on Sunday morning. The class appreciates him very much and consider themselves fortunate indeed in having him. Every Methodist woman in town, who is not otherwise connected with the Sunday school and who is at all able to attend, should avail themselves of the opportunity of hearing him. We invite you one and all to join us. Come.—(Contributed.)

Mrs. Neil Wright proved a charming hostess to the Auction Bridge Club last Tuesday afternoon. Three tables of ladies enjoyed quite a number of games and Mrs. Rix made high score. Mrs. Wright served delicious refreshments of sandwiches, olives, salad, creamed oysters, potato chips, coffee, marshmallow pudding and wafers to the following: Mesdames L. T. Martin, O. L. Slaton, Chas. Rush, C. L. Griffin, J. A. Rix, L. S. Mast, J. E. Vickers, W. R. Powell, Shelby Robbins, William Peck, McLarty.

Last Friday afternoon Mesdames Neil Wright and J. A. Rix entertained the 24-42 Club in the home of Mrs. Wright. Six tables of players enjoyed a number of very interesting games and at the close were served a dainty luncheon consisting of creamed shrimps, grape fruit salad, bread and butter sandwiches, olives, margarites and coffee. The following ladies were present: Mesdames Duggan, Johnson, Robbins, Wilson, Bledsoe, Mays, Ponton, Slaton, Powell, Kimbro, Posey, McWhorter, Madgren, Oliver, Spencer, Ellis, Cole, Maddox, Mast, Jones, Vickers, Noone, Cosby, Peck.

Sunday being such a beautiful day many friends of Mr. and Mrs. Buell Boles motored out to see them. Those who enjoyed a fine dinner were: Mr. and Mrs. Brown, of Arizona, Mrs. Geo. Boles, and twins, Mrs. Ralph Farris and Sons and Mrs. Yancy Lee and son. Callers in the afternoon were Dr. and Mrs. H. C. Duering, Mr. and Mrs. H. T. Kimbro, Mr. and Mrs. Carl Roberts, Mrs. T. B. Duggan, Tom Duggan and Clyde Briley.—(Contributed.)

Mr. and Mrs. Joe Stringer are visiting relatives in Tahoka this week. Mrs. Raymond George who has been quite ill with gripe in a local sanitarium for the past ten days, was able to return to her home last Tuesday.

The Wednesday Needle Club will be entertained 28th of January by Mesdames W. A. Bowen and C. M. Ballinger in the home of Mrs. Bowen. Mrs. Miller of Balls passed through the city Saturday enroute to Wichita Falls where she will visit for a few days.

Fred W. Boerner attended the annual meeting of the Panhandle Swine Breeders Association at Canyon City this week.

Farm and Ranch Loans

At a Reduced Rate of Interest

I am glad to announce that I have completed arrangements whereby I can make you that farm or ranch loan at a reduced rate of interest to what you have been paying; with the privilege of payment of all or part of the loan at the end of the third year or any year thereafter.

I can also make you a loan with the privilege of letting you sell off any portion of the land at any time and the loan will be divided or released accordingly.

I have people who do not sell their paper and you always know where it is.

Can also make you a loan to build that house or barn or otherwise improve that farm.

I do my own inspecting and will look at your loan the day you make application and close the loan promptly.

See me at once if you need a loan or wish a loan to buy land.

Would you buy as pretty 80 acre tract of land as you most ever saw all fenced and in good state of cultivation, and about three miles from Lubbock at a price much less than the adjoining land sold for, if a small cash payment would handle it?
 Or would you be fool enough to pay \$37.50 per acre for 320 acres of fine land four miles from a little town and on main road, with one good house and one small house and 240 acres broke out, if it could be handled with a very small cash payment? and is, or is not rented for this year as you wish. This is a pick-up, better hurry.
 Would you buy a section well worth the price asked and cut it in quarters and sell off separately, and make some good money? This is in few miles of Lubbock.

LOCAL ITEMS FROM THE PLAINVIEW NEWS

At the present time there are but two resident pastors of Plainview churches—Dr. Ernest E. Robinson of the Methodist church, and Rev. Ingle of the Nazarene church. The recent resignations of Rev. Gordon Lang of the Presbyterian church, and Rev. R. F. Jenkins of the Baptist church, leave those congregations temporarily without pastors. Rev. Wm. Gardner of Canyon serves the Episcopal church as pastor one Sunday in the month. The First Christian church expects to have a pastor within a few weeks.

Wednesday night while Mrs. O. G. Fluke was returning home from a visit with a neighbor, S. R. Brannon and family, she fell and fractured one of her hips. The injury is a very serious one, and she is now in the sanitarium.

Eight hundred and eighteen Hale county citizens have paid their poll tax. About sixty of these are women. The county has nearly 2,000 men subject to poll tax, and possibly as many women.

Local coal dealers inform us that the coal situation is easing up, and they hope to soon have enough coal to fill all reasonable orders. They have enough coal enroute for this purpose. The present warm weather is helping out the fuel situation considerably. They urge that people conserve their coal as much as possible so the community can get back to normal conditions.

Z. E. Black, for years a well known citizen of Plainview, recently resigned his position in the editorial department of the Dallas News, to take an important position with the Dallas Chamber of Commerce, at a salary of \$3800 a year, so we understand.

LOCAL MENTIONS FROM THE LORENZO ENTERPRISE

Jim Bridges of Crosbyton, who was in charge of the Murphy Lumbar Yard here until he enlisted with Uncle Sam has been made manager of the same and is again "on duty". Mr. Earthman having resigned.

At a regular meeting of the officials of the First State Bank here Thursday afternoon the following directors were elected for the ensuing year: Fred Weise, W. P. Fulington, C. J. Goodman, H. C. Pearson, Emory Pieratt and Jno. A. Dilhart.

According to the census taken January 1, 1920, Lorenzo has a population of 567. The 1910 census taken January 1 of that year gave the population at 367. During the past year 140 people came here to make their home and is probably the best record of any town its size on

HIGH SCHOOL NOTES

(By Lonie Montgomery.)

The high school basketball team met last Thursday afternoon on the court. After playing until everyone was tired, a rest was called by Mr. Slagle so that a captain could be elected for this year.

Erberd Jordan, a graduate of the Lubbock High School is taking the county examinations. He is preparing to teach.

Our manual training department has been idle for about ten days waiting for repairs. While waiting for repairs, the machinery was given a good overhauling, which enables the boys to turn out more efficient work.

Friday morning Miss Nichol, the domestic science teacher, gave the school a talk on how a school girl should dress, demonstrating this by using some of the girls as models.

Misses Hazel Cooper and Grace Cole were visitors to the Senior class room Friday afternoon at the last period.

Prof. Slagle will start this week to build a baseball team which will take the cup from Plainview in the track meet. Supplies will be ordered at once so we can get to work in time to do good work in this line.

The biggest institute in West Texas, I suppose, was held at Lubbock, known as the "South Plains Institute" and comprising the counties of Cochran, Crosby, Dawson, Gaines, Garza, Hockley, Lubbock, Lynn, and Terry. The director, manager, secretary, treasurer and despot of this institute was Superintendent M. M. Dupre of Lubbock. Upon my arrival at the institute, the city of the plains

I found everything as Josh Billings once said, "greased for the occasion." It was really an inspiring audience and occasion, which was thoroughly enjoyed during my necessarily brief visit, and I was most highly pleased to receive from Mr. Dupre a telegram the next day announcing that everyone of the nine counties represented at the institute had organized and each pledged 100 per cent membership in the League this year. Look out for West Texas at the State Meet, for I am convinced it is coming stronger this year than ever before. As a side remark may I suggest that the plan of having joint county institutes has so many obvious advantages that other sections of the State might well consider single-shotting on a good general program, provided, of course, that ample time is allowed for the county section meetings to deal with local problems? The above was written by Mr. E. D. Shorter, Chairman of the State Inter-scholastic League.

In the general election of November, 1920, there will be submitted to the voters of the state a measure of paramount importance to the schools. This is the proposed amendment to the State Constitution whereby the present fifty-cent limit of the district school tax will be removed and all school districts permitted to vote such school taxes as they may deem necessary. If our schools are to continue to make progress, if we are to be able to attract and hold in the teaching profession persons of ability and training, this must not fail. It will not pass unless extraordinary efforts are made to line up support for the amendment.

BRADLEY AUTO CO.

It has been truthfully said in the past that opportunity comes at least once in the life of every man. If only every man could realize that and be able to take hold or grasp it when the opportunity shows up, then, by proper manipulation of the opportunity offered he would be assured a reasonable success in his line of life's work. Keenly alive to every day's offerings in the matters of opportunities where he could take hold and a backbone and will to push every advantage offered in the appointment line is a great factor leading to what is now known as one of the best in the commercial fields of Western Texas or the Bradley Auto Company of Lubbock, Texas.

J. C. Phillips and H. P. Bradley established the Phillips-Bradley Auto Co. in our city more than ten years ago or to be exact in 1908, by securing the agency for a car known the world over now as a blessing to mankind, the Ford.

Here was a car made on sound principles of manufacture and a product sold at a price in reach of the average man, offering the same efficient mode of transportation as those of much higher priced. People were wanting cars and they would buy if prices did not prohibit. Here was the opportunity and Mr. Bradley realized it and grasped it with a determination to successfully distribute it to all. He established his business on West Broadway in the Burrus building in this city and has grown to an extent that he was forced to find larger quarters. Therefore we find him in his large building now located on Ash and North 1st street. This move was made four years ago. The building in which they operate today is a modern fire proof brick, fifty by one hundred and twenty-five feet. The value of which nears forty thousand dollars estimated from offers made on it. This building is one that our city is proud of.

In the front part of the building is located the office and sales room, also a great deal of shelving and space devoted to accessories. This accessory line carried by the Bradley Auto Company is one of the largest and most complete in our State. In the rear of the building, facilities have been installed for a modern vulcanizing plant which is not only one of the best on the Plains but is known far and wide for its satisfactory work turned out in a pleasing efficient way.

In a separate and smaller building directly across the alley from the main building is found or located the service department of the Bradley Auto Company. This building occupies a space of twenty five feet by one hundred and twenty five feet; giving plenty of room for the mechanical workmen to give the service that they are envied for and the reputation they have over the South Plains for satisfactory work. It is one of the plans of this company to keep in the mechanical shop only workmen skilled in the different lines.

In 1919 J. M. Bradley, father of H. P. Bradley, entered the company as a partner and on January 1st, 1910 J. M. and H. P. Bradley bought the interest of Mr. Phillips and soon afterwards Mr. W. L. Barnes purchased stock in the company to the amount of \$400.00, and some three years ago Mr. J. M. and H. P. Bradley bought this stock at a price of \$15,000 and later H. P. Bradley purchased the interest of Mr. J. M. Bradley who now owns and operates the Oakland Sales Company.

The Bradley Auto Company has the agency for the Ford car and the Fordson Tractor in most of the counties of the South Plains, some of these being Crosby, Lubbock, Hockley, Cochran, Garza, Lynn, Terry and Yoakum. In nearly all of the counties there is a branch house of the Bradley Auto Company, where mechanical service is rendered and nice stocks of parts and accessories carried. Some of those places being: Post City, Ralls, Brownfield and Tahoka. By keeping a complete line of accessories for sale both by retail and wholesale, these branch houses maintain excellent Ford service by keeping in constant touch with the main house in our city who are noted for prompt handling of the out of town parts orders.

The Western Windmill Company

The Western Windmill Company of this city is one of the best firms handling hardware and kindred lines in West Texas. This store owned by this company in our city is what is known as the retail-department of the Western Windmill Company. The headquarters and the wholesale house being located at Sweetwater.

The Western Windmill Company in our city has been and is today under the management of S. C. Wilson. Mr. Wilson has been here in this position for seventeen years and is well known as a proficient worker for the good interest of the business and the up-building of our city and the extension of our trade territory over the South Plains.

This store carries one of the most complete lines of hardware and other lines embracing the features of hardware. The famous and well known Eclipse Windmill is only one of the many products handled by this store that has created a vast amount of patronage from the people of our section. This mill is probably one of the best known and most widely used in the Plains country. They also carry a line of Fairbank-Morse pumping engines, pipe and casing of nearly all sizes that are apt to be used in our section. Everything like the above mentioned are carried in stock that might be used for the successful management of a farm or ranch.

Besides handling these complete stocks of goods for the ranch the farmer will find at the Western Windmill Store a complete line of the well known and widely used John Deere implements. No comments are needed upon this line for its too well known. In addition this company carries a stock of stoves including the well known make bearing the name of Majestic and Round Oak; also Round Oak furnaces. These are products high in the esteem of the exacting buyers.

To the furnishing of the home in the wares such as enamel, tin and aluminum, dishes and glassware, this store keeps an enviable stock to serve its customers with.

This store is one of the largest in the city devoted to the hardware business. It is a one-story brick, 50 by 125 feet, with a warehouse in the rear of the same space.

To farmers, stockmen or others whose needs require: Harness or other leather goods; the well known lines of John Deere harvesting machines; anything in the way of shelf goods; water supply material; no better place can be found in our city to purchase these with the assurance that you will receive full value, courteous treatment, satisfactory to the house and the customer.

January Clearance Sale EXTENDED 4 DAYS ONLY

On account of the disagreeable weather the past week a good many of the out of town folks were unable to get to town and share in the avalanche of bargains offered during our January Clearance Sale, we decided to extend our sale four days more--until Saturday, January 25th.

SATURDAY, JANUARY 25th IS THE LAST DAY OF OUR SALE

ECONOMY

The safest plan, if you are seeking real economy, as most of us are, is to buy now all your needs for the year while you have the advantage of our January Clearance prices. The rapid advance in prices makes it impossible to replace this merchandise in the wholesale markets at even the prices we are asking during these sale days.

LOW PRICES

In every section of the store you will note January Clearance Sale prices. Prices that are now lower in proportion than will be made again this year, so we respectfully suggest and strongly advise that you take the fullest advantage of our sale period, and we know that you will save many dollars in doing so.

January Clearance Sale of Men's Suits and Overcoats

\$35.00, All Wool Suits, January Clearance Sale Price	\$27.50

\$60 all wool suits	\$48.50
\$65 all wool suits	\$52.75

We still have a wonderful collection of this season's coats, some are very attractive models, including double-breasted ulsters, waist line, and plain form fitting

Your Last Choice of Fall and Winter Ready-to-Wear at Prices Set for Final Clearance

Only a few Coats left in this sale, but every one is worth almost double the price, and some of them were the cream of the season's winter stock. Their becomingness and smartness will make them equally desirable even for next winter. We are selling them at these lowest of low prices simply to clear out our racks of every winter garment we have left over.

Final Selling of Winter Dresses

All practical styles and all reduced in price to the lowest figure, at which they will be sold. The woman who seeks economy will find a pleasing opportunity in the wide selections of styles and materials included in this last of the season's selling of reduced price dresses.

Notice

We will be pleased to show you some of the new spring suits and dresses that are already coming in, and which show the tendency of the fashions for the coming season which will be unusually early this year as Easter comes on Sunday, April Fourth.

Political Dates This Year

Democratic Primary to be Held July 24, While General Election is on November 2.

The Republican party in choosing its nominees this year for State, county and precinct offices can make use of either the primary election or convention system; the Democrats, however, must make use of the primary system. The reason for this is found in the election laws, which provide that parties casting more than 100,000 votes in the last general election must nominate by primaries while those which cast more than 10,000 and less than 100,000 ballots may avail themselves of either procedure. Delegates to the national convention must be chosen by both parties through the convention system.

Here are the dates, fixed by law, for the various political steps to be taken this year:

Poll Tax Payments.
Jan. 31.—Last day for payment of poll taxes or procurement of certificates of exemption.

Feb. 9.—At February term Commissioners Court shall appoint judges of elections.

March 10.—On or before this day each county tax collector shall make statement to county clerk showing number of poll tax receipts issued, and to whom, in each precinct.

April 1.—On or before this day each county collector shall furnish to the county election board (composed of county judge, county clerk and sheriff) certified lists of citizens of each precinct who have paid poll taxes or obtained exemption certificates prior to Feb. 1.

May 1.—Looking to the nomination of candidates for President and vice president, all parties shall hold precinct conventions on this day, sending delegates to county conventions.

May 4.—County conventions of all parties.

Republican Convention.
May 11.—Republican State executive committee shall meet at some place named by the State chairman and decide whether the party will make nominations for State, district and local offices by primary election or through the convention system, and shall certify its decision to the Secretary of State.

May 25.—State conventions of all parties to elect delegates to national conventions.

June 7.—Candidates for party nominations to be made by primary election for offices to be filled by the voters of the State at large shall file

applications on or before this day for place on the primary election ballot. Such applications may be filed either by the candidate or by any twenty-five qualified voters. Deposits of any such application in the United States mail by registered letter without the time limit herein indicated has been held to be sufficient.

June 7.—Candidates for party nominations to be made by primary election for office in districts composed of more than one county shall file applications with district chairman or with each of the county chairmen by this day. Twenty-five qualified voters also may file.

June 14.—State executive committee of party shall meet on this day to certify to county chairmen the names of candidates for State offices to be placed upon the primary election ballot, and to name the places for holding State convention.

Applications Filed.
June 19.—On or before this day, candidates for nominations for offices to be filled by the voters of a single county or a portion thereof shall file applications for place on the primary election ballot with county chairmen. Twenty-five qualified voters also may file.

June 31.—County executive committees meet to determine order of names on primary election ballot, to name sub-committees to make up ballot and to transact other business.

June 28.—On or before this day candidates in primary election must pay ballot fees.

July 12.—Subcommittees of county

committees meet to make up primary election ballot.

July 14.—Not earlier than this day (ten days before primary election day) nor later than July 21 (three days before such election day) qualified voters who expect to be out of the county of their residence on the day of such election may cast their ballot with the county clerk of their home county.

July 19.—On or before this day persons who have removed from one election precinct to another must present their poll tax receipt or certificate of exemption to the County Collector for record of such removal. Also on this day, Collector shall furnish to County Election Board supplemental lists showing such removals. These provisions apply only to cities of 10,000 or more inhabitants. Collector shall also furnish full list of qualified voters.

July 21.—If presiding judges of election have not been furnished with certified lists of qualified voters by this time, they shall send for and procure them.

Day for Primaries.
July 24.—"Primary election day" and "precinct convention day" for both Democratic and Republican parties. Primary election opens at 8 a. m. and closes at 7 p. m.

July 28.—Presiding judges of election shall make returns on or before this day to county chairmen.

July 31.—County executive committees canvass returns. Democratic and Republican county conventions held.

Aug. 3.—Managers of political headquarters, or others who have expended money in behalf of any candidate or political party, must file statement of expenses with County Judge within ten days after election. Within the same time candidates also must file statements of expenses.

Aug. 9.—Commissioners' Court may reform election precincts; shall serve notice of changes on the presiding judge of each precinct within ten days.

Aug. 9.—State Executive Committee meets to canvass returns of primary election. Majority of votes necessary for nomination. In cases where no majority has been received, a second primary election shall be ordered to decide between the two candidates who received the highest number of votes in the first primary election.

Aug. 10.—State convention of Republican party.

Absentee Voters.
Aug. 18.—Absentee voters can cast ballot for second primary election not less than three or more than ten days before the day of such election (Aug. 23).

Aug. 23.—County Clerk shall certify to each presiding judge the order of the Commissioners' Court giving number, name and bounds of the election precincts, and of their ap-

pointment as judges. This service is to be made by the sheriff or a constable within ten days after the entry of such order.

Aug. 23.—On or before this day persons who have removed from one election precinct to another must secure record of such removal by the County Tax Collector. Also on this day Collector shall furnish to county election board supplemental list of voters showing such removals. These provisions apply only to cities of 10,000 or more inhabitants. Collector shall also furnish full list of qualified voters.

Aug. 25.—If such lists of voters

have not been supplied to the presiding judge of election, he shall send for them.

Run-off Primary.
Aug. 28.—Second primary election (run-off).
Aug. 28.—District conventions to nominate candidates meet on this day (both Democratic and Republican parties.)
Sept. 1.—On or before this day Commissioners' Courts shall file with County Collector certified copy of order establishing election precincts.
Sept. 1.—On or before this day

UNITED STATES ARMY

builder of

MEN

TEN years ago it was necessary for the United States Army to argue men into its ranks.

But, today the Army like every other great university, points with pride to its graduates.

Four million of the nation's choicest young men were entrusted to the Army's care.

MOST of them are back in the ranks of industry today; and every parent in America, every employer, every teacher knows that they are better, abler men for their experience.

They stand straight upon their feet, a symbol of physical fitness.

They have learned how to execute orders, and how to give them.

THERE is, in their characters, a maturity beyond their years, a vision and a self-confidence that are fundamentals of success.

The months that they gave to the Army were not lost months; the records of the future will show more rapid progress for them because of the qualities which those months developed.

THE United States Army is open for enlistments today. It wants no inferior applicants; it seeks young men of character and purpose; and it promises those young men that the term of their enlistment will be fruitful years.

They will come back to civil life in perfect health—their muscles, their eyes, their bearing all evidencing the finest professional care.

IT IS the purpose of the War Department to develop in the American soldier those qualities which are the essentials to success in any trade or business and are the prime requisites in an American citizen.

Congress has appropriated \$2,000,000.00 to be used in Educational work in the Army Schools. In many camps and posts men are being trained in the skilled trades and at practically all Army stations, schools are in operation in which the soldier can improve his education.

Through enlistment the United States Army offers opportunities to travel. It provides good food, good clothes and good care. It gives a training which brings health—physical development—mental quickness and self-confidence. It sends you back to civil life better equipped for American citizenship than when you enlisted.

The Fourteen Arms of the Service

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. Horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence, and an enlistment in the Engineers can be the start of a young man's training in the various branches of Engineering and in any of the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and its going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether its laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPARTMENT—Good experience, good pay and training in all branches of hospital work and in the Dental Corps. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all part of the Tank Corps work.

QUARTERMASTER CORPS—The corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

FORMER FRANKLIN CO. FARMER SUCCEEDS IN LUBBOCK

H. L. Mote, of South of Lubbock, was in to see us Monday and advanced his subscription to the Avalanche and the Dallas Semi-Weekly News a year and sent the paper for six months to F. Mote at Mt. Vernon, Texas. Mr. Mote said he had been here for three years. He tried farming where he came from and never was able to pay out of debt, in Franklin county, so moved to Lubbock County, and left some debts behind. He dusted it for two years here, but last year made enough off his farm to pay his running expenses here, pay his debts down there and has enough on hand to run him another year. Not so bad for the west after all, and Mr. Mote is well pleased with Lub-

bock county, so much so that he wants more of his Franklin county neighbors and friends to come west.

Farmers—Bring those broken parts on your implements, gas engines, automobiles, etc., to us, we will weld them and guarantee them never to break. Save time and money.—Lubbock Welding Co. 30tf

HALBERT DECLARES 1920 WILL BE WET YEAR

H. A. Halbert, of Coleman, predicts that the year 1920 is to be even wetter than the wonderfully wet 1919. He says in his annual forecast for 1920 that only those crops which can flourish during a wet year should be planted in Texas. Among other things he says, "Texas as a whole and the contiguous states in the year 1920 will be another prosperous year with excessive rains in many sections in the eastern and central portion, to interfere with the planting cultivating and gathering of crops. In fact in accordance with cycles of a decade in duration 1920 is due to be the wettest year of the present cycle. This rule prevailed in Texas for 100 years up to the year 1920, that each year ending in the digit nought had the greatest amount of rainfall. Possibly a cog has been jumped in the revolution of the planetary system for the next 100 years up to the year 2,000, so that the years ending in the digit nine will be the wettest years of the decade. It is to be hoped so, anyway, for Texas will never need another year as wet, much less wetter, than 1919. Anyway, prepare for a wet year. Cotton and corn are safest and most profitable crops to plant a wet year. They can be gathered and marketed by the individual farmer and are not dependent upon someone else to get them ready for market, like small grain and hay, with a thrasher or baler. Millions of dollars' worth of grain and hay were ruined in fields by excessive rains before any thrasher or baler appeared. During the year 1920 cotton and corn will remain longer in the fields without excessive damage, than any other crop and can be gathered far into the next year. Cotton prices will be on a high level another year, even with a 15,000,000 bale crop, if the manipulation of the cotton gamblers can be prevented. The world will need and is willing to pay a good price for such a crop. Plant all the food stuff you will need first, and then do not be afraid of an excessive cotton crop. Even if the acreage may appear excessive you will have no assurance of an excessive yield. The cotton planter will have all the insects to contend with next year that are known to the cotton plant. The army worm will appear early in the season to strip the plant of its leaves in many sections of Texas, if not all over it. Then the boll worms and weevils will exact a large toll."

F. T. Stockbridge and wife left Saturday for Brenham, Houston, and other points south and east where they will spend several days visiting and attending to business.

CHANDLER SIX Famous For Its Marvelous Motor

Thousands Choose The Chandler Dispatch

MANY admirers of the Chandler Six choose the Chandler Dispatch. For two years this model has outsold all other cars of the so-called sport type. Its popularity is one of the high spots in motordom.

The new series Dispatch is a snappy, handsome car, seating four adults in perfect comfort. It is of most beautiful design and finish; mounted on the standard Chandler Chassis, famous for its mechanical excellence.

You are asked to pay much more for cars which might perhaps be compared with the Chandler. And cheap cars sell for but little less.

FOR DISCHARGED SOLDIERS SAILORS AND MARINES

Funds are now provided for far reaching educational advantages for Texas ex-service men. This includes Free Scholarships, Reconstruction Lecture Courses and Occupational Guidance.

A State Committee of leading business and professional men will have charge of administering this fund in the state, and is making elaborate arrangements to insure this to be one of the greatest opportunities afforded our returned soldiers, sailors and marines.

Local Educational Service Committees will be appointed and the work extended throughout the State especially into communities where there is no local Young Men's Christian Association, and every possible effort made to serve ex-service men in rural communities as well as in towns and cities.

City, Railroad, Industrial and County Young Men's Christian Associations will co-operate in this work and will be glad to have ex-service men call and inquire into details. Where it is not convenient to have a personal interview with local Association Secretaries, ex-service men entitled to this course are requested and urged to write for particulars with respect to Correspondence Courses, Free Scholarships, Vocational Training, etc., to L. A. Coulter, Executive Secretary, Young Men's Christian Associations, 611 Sumpter Building, Dallas, Texas.

Paul Von Rosenberg, County Commissioner of Precinct four, had us send the Avalanche to his daughter, Mrs. O. B. Hewitt, who recently married and is now residing in Temple, Texas.

The Peril of Our Public Schools and the Way Out

(By A. Cozwell Ellis, Professor of the Philosophy of Education.)

Teacher Shortage Disastrous
The civilization of Texas is facing a more subtle and serious danger today than when the Kaiser launched his legions upon a war of world conquest. Reports gathered during August from the superintendents of 21

typical Texas cities and towns and from a number of counties showed the following:

1. That practically one-third of the men and one-fourth of the women teachers had left their positions in the public schools during the past year;

2. That four-fifths of these leaving were among the better teachers;

3. That there were this year only one-third the usual number of women and one-fifth the usual number of men applicants for vacant positions;

4. That several thousand teachers below even our former lowest standard had to be put into schools in order to fill vacancies, and that even then over a thousand schools would be unable to open this fall for want of teachers. For example, Tarrant County lacked one hundred teachers at that time, Comanche sixty, and Erath forty.

A study made during October by the National Education Association showed the same conditions still present.

100,000 Children Without Teachers.

A more complete study made during November by Miss Blanton showed that conditions were growing worse, that over two thousand teachers' positions were still unfilled—those schools being closed and about one hundred thousand children roaming the roads and streets in idleness, with no visible hope of securing a teacher. Miss Blanton's study also indicates that, in addition to closing over two thousand schools, trustees have been compelled to put in about four thousand teachers utterly unprepared to teach—mere children themselves, often with not even a high-school education.

In short, we have lost one-third of our best teachers already and by next fall will have lost over one-half, and

we have no hope of finding worthy new ones to fill the vacancies. The numbers being prepared in normal schools and colleges for teachers have fallen off thirty per cent in America during the past four years.

Cause—The 48c Dollar.

The cause is plain. The cost of living has increased over a hundred per cent while teachers' salaries have increased only twenty-five per cent. The average salary of the rural school teachers of Texas last year was \$436, and the average for the city teachers only about a hundred dollars more. The average salary for hod-carriers was \$1220, for blacksmiths \$1760, bricklayers \$1890, and machinists \$1950. I maintain that we ought to pay teachers at least as much as we pay hod-carriers! If we don't pay them that much, we shall lose speedily from our schools all those who are really fit to teach. I can't believe that the people of Texas will permit such a tragedy.

Must Have \$10,000,000

To save our schools and our children, Texas must at once double the salary budget of her teachers. To do that she must raise about ten million dollars. Can it be done? Yes, easily, if we really want to do it and try to do it. We raised one hundred times that much in one year for the war, in the midst of terrible droughts and with over two hundred thousand of our able-bodied men drafted into the war besides.

State Teeming With Wealth

Now, the banks in the state have more deposits than ever before; the Federal Bank in Dallas is obliged to put on three times the regular force of clerks and work twenty-four hours a day to keep up with the piles of money sent in to pay off old mortgages and notes; a hundred and twenty million dollars worth of crude oil alone has poured up out of the ground this year in Texas; lumber, cotton, and other farm products are bringing about four times their former prices. The state never had so much money before or spent half so much on luxuries. The State Tax Commissioner asserts publicly, without contradiction, that only one-third of the wealth of the State is yet rendered for taxation at all, and that third is rendered on the average at only one-fourth its value.

Sources of Revenue Available.

I am not an expert on taxation, but even I can show a half dozen ways to raise this ten million dollars for our schools, any and all of which are constitutional and just, and bear only upon those who are able to pay easily.

1. A state equalization and full rendition law with some teeth in it. This hits tax dodgers—civic slackers—only. It helps those who are now paying taxes fairly.

2. A small additional tax on that one hundred and twenty million dol-

lars worth of crude oil, eighty per cent of which is owned by prosperous million dollar corporations.

3. A small tax on the refineries that turn most of this one hundred and twenty million dollars worth of crude oil at slight expense into from three hundred to five hundred million dollars worth of gasoline, kerosene, lubricating oil, etc., on the packeries, the lumber companies, the lignite, sulphur, and other corporations doing several hundred millions of dollars worth of business annually in our state. Neither the refineries nor the other corporations mentioned pay any business tax at all in Texas at present. Such taxes are just and are collected in most progressive states and nations.

4. There are 330,000 automobiles in Texas, probably a hundred thousand of which are expensive pleasure cars, pure luxuries, owned by those who are able, and who should be willing to pay a small tax for the education of the children of their state.

5. There are over 500 estates in Texas valued at more than a million dollars each, probably over two thousand valued at over five hundred thousand, and ten or twenty thousand and over one hundred thousand and each. A moderate graduated inheritance tax could raise the entire ten million a year for our schools without touching an estate worth less than a hundred thousand and without retarding enterprise or doing anyone an injustice.

There are other and possibly better ways in which the needed money can be legally raised. The above are specified merely to show that there is plenty of sources from which to raise lawfully and justly money enough to educate the children of Texas, if we will just determine to raise it.

Enough Votes to Do It.

There are about ten thousand mothers' club members, more than thirty thousand federated club members, more than twenty-nine thousand teachers, and more than five hundred thousand mothers and fathers of children in the public schools, children who have no other chance of an education if these schools fail. All these men and women have votes and can get from their legislators any reasonable thing that they determine to have.

The Remedy.

Let every mothers' club and every federated club discuss this matter at once and express itself and send a demand to the Governor and to its representatives that the Legislature be assembled and our schools be supported adequately. Ask the Governor, the State Superintendent of Public Instruction, and the heads of our institutions of higher learning in the meantime to call a state mass meeting and appoint a patriotic committee to work out at once a definite plan to present to the Legislature. Then, when the Legislature is assembled, write your representative and send his friends to Austin, if necessary, to help him fight the opposition of those interests that put money above children. Let every school hold a rally at once and put the situation before the parents and have them inform the Governor and their representatives that they want their schools supported, and supported adequately, right now before they are ruined.

Special Session Necessary.

We called a special session of our Legislature once to stop a prize fight. Surely our schools are infinitely more important. Let every friend of education, every citizen who loves Texas, every patriot who wants to keep faith with those boys who died that the world might be made safe for democracy join actively in this demand for action, and there will be action. If we sit still and let our schools go to pieces for want of funds in a state that is teeming with wealth and luxury, we shall show that we are not fit to live in a democracy but need a Kaiser to tell us what to do and to make us do it.

"FIDDLE-FIT"

Keep Liver and Bowels Clean and Active with "Cascarets"

Sick headache, biliousness, coated tongue, sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poison in the bowels.

A Cascaret tonight will have you feeling clear, rosy and as fit as a fiddle by morning. They work while you sleep.

IDALOU BAPTIST CHURCH IS NEARING COMPLETION

The thriving young Baptist church at Idalou is pushing to completion a neat, commodious church building of which that prosperous community is very proud. There is growing church of about 78 members.

After a fine meeting last summer they decided to build a house, and the money with which to build has largely been collected.

Bro. J. B. Cole furnishes us this item with the further statement that with the assistance of a fine brother from the aid field, this church has subscribed twenty-six thousand dollars to the Seventy-Five Million Fund lately raised. Bro. Cole thinks this is the largest amount raised by any church on the South Plains.

Bro. Cole takes special pride in the fact that he preached the first Baptist sermon for that community and led in the organization of that church. They now have a fine young pastor and the future of the church is bright.

TEXAS PRODUCED OVER A BILLION DOLLAR CROP

Dallas, Texas, Jan. 20.—Texas is the only state which, in 1919, produced more than one billion dollars worth of agricultural products, a summary of crop reports from the United States Department of Agriculture discloses upon research made by the Texas Chamber of Commerce.

Texas raises one-fifth of the nation's cotton. One-tenth of the country's sweet potatoes are grown in this state. To Lone Star farmers go the credit for growing more than one-fifth of our broom corn. Nearly one-half of America's entire crop of grain sorghums is produced by Texas dry land farming experts while more than one-seventh of the rice crop of 1919 was grown in Texas gulf coast farms.

King cotton still rules in Texas although diversifying aspirants in the shape of corn, oats, wheat, kafir corn, milo maize, rice, broom straw, pea-

John Deere Disc Plow—John Deere Pony Disc Plow Especially Built for Texas

The John Deere Disc Plow opens a full width furrow of uniform depth the first and every time around the field, and makes deep, square corners, turning either right or left—convenient levers make this fine work possible.

Cut of each disc can be set at 8, 10 or 12 inches—the design of the frame permits this.

Plow is held to its work by weight of driver and down-pull of team on the hitch—not by useless weight on the frame.

Adjustable scrapers keep discs clean and assist in turning and pulverizing the soil.

The John Deere Disc Plow is furnished as a one, two or three-disc plow.

24-inch discs are the regular size discs for the John Deere.

The John Deere Pony Disc Plow is built so that positive and even penetration is assured at all times.

This is a strong light plow, especially adapted for use with small mules or light horses. Genuine John Deere materials and workmanship throughout.

Weight of operator, down-pull of team on high hitch and setting of discs force discs into the hardest ground.

Special hanging lever controls furrow wheel. Plow can be made to take more or less land quickly and easily.

Spring hitch plate—advantageous when plowing in rough, uneven ground or across irrigation ditches. Plow does not jump out of ground.

Best quality steel discs. Set to insure best work, easy penetration and perfect pulverizing of the ground.

Scrapers prevent excessive pressure on discs. Give turning effect of moldboard and improve the quality of work. Adjustable up or down, forward or back.

Cast wheels with V-shaped tires hold plow to work. Equipped with oil-tight, dustproof boxes. Flanged tire wheels furnished when wanted.

The John Deere Pony Disc Plow is made in single and double-disc sizes.

nuts and sweet potatoes are wresting his power from him.

If Texas' estimated crop of 2,700,000 bales of cotton was distributed to the folks at home, each one of her 5,000,000 citizens would receive a half bale of cotton, valued at \$85.

Texas produced 202,800,000 bushels of corn in 1918. This supply was great enough for every corn fed Texan in this state to get a 2,151 pound sack, worth \$55. In 1918 corn hoeecake eaters of Texas had to make put on 689 pounds of corn for the crop was only 65,000,000 bushels.

The Texas Scotch will be happy

to learn that the 1919 oat yield in this state was 94,500,000 bushels, or enough for everybody to get nearly 19 bushels, valued at \$12, counting the price at 64 cents per bushel.

With a yield of 31,350,000 bushels, valued at \$62,500,000, this state was eighth in the production of winter wheat of which there were more than six bushels around. Texans will realize why they were stunted for bread in 1918 when they recall that there were not two bushels per person, the yield being only 9,000,000 bushels.

Texas raised nearly half of the nation's grain sorghum crop with 59,333,000 bushels of kafir corn, milo maize and similar dry land grains worth \$65,267,000. The Lone Star state is so far ahead of all other grain sorghum growers that she produced more than twice as much as the two next highest states.

As a rice grower, Texas ranks third. This state raises one seventh of all the rice grown in the United States. If Texans were rice eaters like the Chinese, each Lone Star state would have a bowl of rice three times a day every day in the year. The 1919 crop was 6,998,000 bushels. It was worth \$1,500,000.

Housekeepers of Texas need have no fears of a broom shortage. Texas grew 10,800 tons—not pounds, but tons—of broom straw in 1919. This straw, which was worth \$1,500,000, is enough to insure every housewife a brand new, clean-sweeping broom of which she may have a pardonable pride because her state raises one-fifth of the nation's supply of broom corn and stands next to the top.

This state is now second in peanut production, the 1919 crop yielding a heaped up bushel sack for every goober eater in Texas. The exact figures are 5,500,000 bushels and the value is \$13,200,000.

Lovers of old timey pumpkin yams will take a delight in abetting the sweet potato in snatching from King Cotton some of his acreage. Texas produced 10,450,000 bushels of sweet potatoes in 1919. This yield was more than enough for every Texan to have two bushels. This crop was worth \$15,675,000, the third largest among the states.

DODSON WOULD STOP SALE OF CALOMEL

Says Calomel is Mercury and Acts Like Dynamite on Your Liver.

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness. GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine. It is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

IDALOU ITEMS OF THE PAST WEEK

The school has bought a \$70 stage equipment. In about three weeks we have planned on a play. Our boys have their basket ball. The High School pupils have been moved upstairs. Miss Metcalf has been the former High School room. Miss Martin was absent Friday. Her brother filled her place. Mr. Earl Kerr made a real interesting talk in chapel today. Miss Ruby Hamilton visited the school Friday afternoon.

Mrs. J. R. Mitchell entertained a company of the Idalou boys and girls, at her home Saturday night. The affair was a birthday party in honor of her son Raymond. The music was enjoyed by all. After refreshments, consisting of hot chocolate and cake was served, the birthday cake was cut. The crowd left at a late hour and reported a nice time.

Rev. Odom held his regular appointments Sunday morning and night.

We are all very proud to see the new Baptist church being built.

Mr. Frank Nelson left last week for Coleman, where he is to stay

with his parents for a short time. Mr. and Mrs. C. W. Beene spent Saturday in Lubbock. Miss Page and Miss Bratcher spent the week end at their homes. A large crowd was present Sunday afternoon at singing.

SOUTH SIDE CHRISTIAN IS GOING TO BUILD

The South Side Christian Church is planning to build a splendid brick church edifice in the not far distant future. At a business meeting held Monday night, it was decided to find and secure a more suitable location than they now have, a location better suited to a larger usefulness.

The following men were selected as a committee to find and secure that location: J. O. Jones, Ora Embury, Claud B. Hurlbut, E. C. Foug and J. D. Quick.

In an interview with one of the prominent members of the church it was learned the congregation desired and expected to build a splendid church edifice.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

INCOME TAX INFORMATION

The year through which we have just passed has been a prosperous one for the stockman and the farmer, but especially for the cotton farmer. A bountiful yield and the high prices received for cotton and other products of the farm will no doubt more than double the number of income tax payers among the farmers for the year 1919. It should be borne in mind by those who have never made an income tax report, but who will be due a tax for 1919, that it is not necessary for the Government to notify you of your liability. The law places the duty squarely on you and you should inform yourself as to the requirements and comply with them. Ample time is allowed in which your income tax return may be legally filed—failure to file it on time renders you liable to severe penalties.

The Filing Date.
Returns (or reports) for the calendar year 1919 may be filed at any time after Jan. 1st, 1920, but not later than March 15th, 1920.

Where Filed.
They may be mailed to "A. S. Walker, Collector, Austin, Texas," or filed with a Deputy Collector if one is near you.

Income Tax-Forms.
Ask your banker for one—if he can't supply you, write to A. S. Walker, Collector, Austin, Texas, and ask for Form 1040-A if you made less than \$5000 in 1919 and for Form 1040 if your income exceeded this sum.

Single Persons.
Every single man and every single woman whose net income for 1919 was \$1000 or more must file a report. Remember that your board, lodging and other personal expenses are not deducted in figuring your net income.

Married Persons.
Every married man whose income, including that of his wife, amounted to \$2000 or more must file a report. Don't forget that \$2000 net income will require you to file a report—the fact that you may have dependent children entitling you to an additional exemption does not relieve you of making a report.

Widows and Widowers.
Widows and widowers, are required to file income tax reports if their net income for the year amounts to as much as \$1000. You may have dependents that will give you an additional exemption but the law says that you must file a report if your income equals or exceeds \$1000.

Do It Now.
Go through your bank book, cancelled checks, cotton tickets, store accounts and bills, and other records and figure up the amount of cotton and other produce sold and other income received. Make a detailed list of the expenses you paid from Jan. 1st, 1919 to Dec. 31, 1919. Then present your figures to the Deputy Collector nearest you—he is an employe of the Government and will assist you in making up your return without charge—that's his business.

BOX SUPPER FRIDAY NIGHT AT EASTWARD

The box supper given last Friday night at the Eastward school house is reported as being a great success.

There was present a fine, jolly crowd of people of most all ages except old people. The people in the Eastward community do not grow old, you know. Everyone seemed to enjoy a good time all the way thru.

Exceedingly lovely boxes filled with most delicious eats, were in evidence on every hand, and the bidding on these choice articles of satisfaction was lively indeed. The people had money and nerve to spend that good money.

A number of people were present from Lubbock and their help and presence is most highly appreciated.

A lively contest as to the prettiest girl was engaged in.

After a hard fought battle, a highly interesting contest, the prize, a fine cake, was awarded to Miss Arle Jones, one of Eastward's charming young ladies. The proceeds of this most delightful entertainment were

HOG PRICES HIGHER AGAIN

CATTLE AND SHEEP STEADY

Though hog receipts were liberal, demand was urgent and prices were 10 to 25 cents higher than Saturday. Sheep receipts were the largest of the year thus far. Lambs were quoted steady to weak, and other grades steady, top lambs \$19.35. Cattle were in moderate supply and sold slowly at steady prices. Native steers sold up to \$14.50 and pulp fed steers up to \$12.50.

Today's Receipts.

Receipts today were 16,000 cattle, 19,000 hogs, and 13,000 sheep, compared with 17,000 cattle, 16,000 hogs, and 6000 sheep a week ago, and 18,225 cattle, 29,675 hogs, and 1700 sheep a year ago. Outside of a few carloads of cattle from Texas, New Mexico and Colorado, and sheep from Colorado, the offerings were from Kansas, Nebraska, Missouri and Oklahoma.

Beef Cattle.

Prices for fat cattle today were practically the same as late last week. The early trade showed no particular snap, but later became fairly active. With hogs selling above \$15, and lambs \$18.50 to \$19.35, beef cattle are relatively low,

and many traders expect an improvement in prices soon. Most of the steers today were short fed grades that sold at \$12 to \$13.50, and better kinds up to \$14.50. Some Colorado pulp fed steers brought \$12.50. Cows and heifers sold at steady prices. "Canners" brought \$5.50 to \$6.25, cutters \$6.50 to \$7.50, and butcher grades \$7.75 to \$10.75, with prime cows \$11 to \$12.50. Veal calves and bulls were firm.

Stockers and Feeders.

Feeders sold at steady prices and stockers were quoted stronger. General demand was about normal for this season of the year. Stockers showed a wide range in quality with prices from \$7.75 to \$11.50. Feeder hogs brought \$12 to \$13.25, and others \$9.50 to \$11.75. Stock cows and heifers were in active demand at \$6.50 to \$9.00, and stock calves sold slowly at \$8 to \$11.50.

Hogs.

Active demand forced hog prices up 10 to 25 cents to the high level of last week. The top price was \$15.30, and the bulk of the offerings sold at \$15 to \$15.25. Quality of the offerings was about the same as last week. Average weight here is 10 to 15 pounds less than at other Missouri River markets, yet packers droves show a higher average cost here than at competitive points. Pigs and thin hogs are finding a ready outlet at \$13.50 to \$15.25.

Sheep and Lambs.

Sheep receipts today were 13,000, the largest supply since early in December, or before the market came in for a general advance. Lambs sold at \$18.50 to \$19.35, compared with an extreme top of \$19.40 last week. Some salesmen quoted a slight weakness in the trade. Fat sheep, feeding lambs, and breeding ewes were fully steady, with demand active.

Horses and Mules.

Another liberal supply of horses and mules is in sight for the auctions this week, with fully as many buyers here as last week. Prices at today's auction were steady. Practically all classes were in demand.
