Mr. and Mrs. J. T. May left Saturday for Lubbock, where they will visit their daughters Mesdames Royalty and Cardwell, and son, Arthur, and families over Sunday.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Mr. and Mrs. Claude Peek are rejoicing over the arrival of a fine boy at their home, who shall hereafter carry the name of C. H. Jr. The arrival of this young fellow was overlooked in our paper last week, and C. H. is of the opinion that C. H. Jr. is liable to come down and clean up on the reportorial staff of this paper if we do not give him some publicity.

LUBBOCK COUNTY SCHOOLS GET \$10,787.50 STATE AID

Judge Moore, County Superintendent of schools has been advised that the State had provided for aid to schools of Lubbock county in the amount of approximately \$10,787.50 which is, by far the largest amount yet apportioned to schools of this county and which amount is near the limit of which the State funds could be expended. There are various reasons for the big increase from the State for the school term of 1920-21. One is of course, the doubling of the State apportionment from its former amount of one million dollars. Another is that the apportionment to districts on the scholastic number was raised recently at a meeting of the state board from \$7.50 per scholar to \$8.50 per scholar, thus making the amount \$1,000 more for the schools of Lubbock county as the census gives the schools that number of student ages, (not including the three independent districts.) One of the biggest reasons for the large apportionment to Lubbock county and one that should be recognized by the patrons of the schools is the fact that this large amount was derived directly through the diligent and efficient work of the county superintendent. In the three years which Judge Moore has served this county in the capacity of County Judge and Superintendent of schools there has been apportioned \$25,000.00 for the schools of the county, an amount exceeding those of other years enormously.

The following amounts were apportioned: For the school year 1917-18, \$7,250; for 1918-19, \$6,450 and for 1919-20, \$10,787.50. This last amount is apportioned to the different school districts as follows:

District No. 1 applied for \$600 and received \$500; No. 2 applied for \$600 and received \$600; No. 3 applied for \$600 and received \$600; No. 4 applied for \$500 and received \$400; No. 5 applied for \$500 and received \$400; No. 6 applied for \$600 and received \$600; No. 9 applied for \$600 and received \$600; No. 10 applied for \$652.50 and received \$500; No. 11 applied for \$680 and received \$680; No. 15 applied for \$600 and received \$400; No. 16 applied for \$667.50 and received \$500; No. 19 applied for \$640 and received \$640; No. 20 applied for \$600 and received \$600; No. 21 applied for \$500 and received \$500; No. 24 applied for \$1400 and received \$900; No. 25 applied for \$500 and received \$500; No. 26 applied for \$600 and received \$250 (which amount is to be doubled); No. 30 applied for \$600 and received \$600.

Note: The Shallowater school has not been apportioned but application with Miss Blanton has been made for \$667.50 and it is thought the amount will be received alright.

Thus from the fund from the state apportionment and from the amount allowed for 1000 student ages, together with the county fund, there is available an amount approximating \$41,000.00 for the expenses of carrying on the 20 schools of this county.

There are 42 teachers in the rural schools of Lubbock county (this amount does not include teachers in schools of counties adjoined for judicial purposes.) These teachers are apportioned to these schools as follows:

District No. 1 has 2 teachers; District No. 2, 2; District No. 3, 2; District No. 4, 2; No. 5, 3; No. 6, 1; No. 9, 2; No. 10, 2; No. 11, 3; No. 14, 1; No. 15, 1; No. 16, 2; No. 17, 3; No. 19, 5; No. 20, 2; No. 21, 1; No. 24, 3; No. 25, 1; No. 26, 2; No. 30, 2.

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

MONEY MATTERS ARE VERY CLOSE IN THE EAST

According to a statement by the Amarillo News by H. A. Nobles, published in last Sunday's paper, money matters are extremely close in the east. Mr. Nobles has just returned from a business trip through the east and declares that the banks in that section are not opening any new accounts but are taking care of their old customers only. Speaking further of the matter, he says: "The banks in the east are determined to hold the European trade we inherited during the war. This is a very wise policy, but in doing so we must do our part and conduct business with our own capital, and conservatively."

WHY THE STATE TAX LAW MUST BE AMENDED

At the close of the meeting of the Panhandle Teachers' Association, Pres. Hill discussed for a few minutes the impending Amendment in regard to removing the fifty cent school tax limit. He is strongly in favor of the Amendment, as every one interested in the future welfare of this great country of ours should be. His reasons for favoring it are these: "If it is more important to the State of Texas that the fifty cent school tax limitation be removed than it is for the teachers. Teachers can shift to other occupations if they find it necessary. But it is fundamentally important that citizens should reach their maximum of production."

"The educated man is a greater producer of the things that the world needs. Education adds to the producing power of a man. Recently we have come to see that the purpose of education is not to enable one to escape work, but rather to do more. Underproduction is the thing that today contributes most to the restless conditions of the country. Many good people are really parasites. They are not producing, but are consuming. Education must be encouraged so that boys and girls may be better producers, may render to society better service, and may carry effectively a greater load than their fathers carried."

"Instead of the proposed Constitutional Amendment to remove the fifty cent school tax limitation and make the amount of tax that can be levied for school purposes unlimited, some people will prefer to raise the limit to seventy-five cents or some other fixed amount. They must be made to see that this adds to their power of local self government, as it gives each community the supreme authority in fixing its amount of tax."

Years ago Thomas Jefferson said that an enlightened mind was necessary in democratic government. That is just as true today as it was then. The danger from ignorance is as great now as it ever was. The conflict against ignorance has just begun. If this republic is to continue to be democratic, then our public school system must be perfected. If the Amendment fails, our cause of enlightenment will be seriously crippled, and so it is our duty to help win its passage, not because of our increased wages, but because of its importance in the future welfare of our great nation.

"Help put the Panhandle over the top one hundred per cent for the Amendment."—The Prairie.

THE LIQUOR AGENTS STILL ACTIVE

We are taking the liberty of quoting the following form a personal letter received by the editor from one of the regular practicing physicians of a neighboring city. He turns the light on the activities of the booze vendor and it is well to keep an eye open to their movements.

"I am in close touch with the drug business, and from my observations the liquor interest has its agents visiting every druggist in our country, using all the blandishments of the ancient serpent to persuade the druggist to handle whiskey."

"As to the medical profession: On yesterday a special agent out of the office of the attorney general of Texas called on the druggists here, and among the things he related was this: 'When in a Texas city, I called the attention of a practicing physician to the number of prescriptions he had issued for whiskey in ONE week—seventy-two in number. This agent went over the list of prescriptions written, checking each one, and asked the doctor: 'How many of these people are your bona fide patients?' The doctor could only show three out of the seventy-two that were such. Asked if he had received a fee for writing the prescriptions, the doctor replied that he had received a fee of two dollars for each of the seventy-two."

"As to the druggists: A few days since a very smooth talking agent of the liquor interest called on this same druggist here and unloaded all the schemes to handle whiskey. I am pleased to report, that this druggist said to the agent: 'The best element does not stand for the propagation of intoxicating liquors, and I do not propose to handle such.'"

"The wail of liquor is, 'Just let me live. Just let me live.' The liquor interest knows full well that if they can only place whiskey in the midst of the people, no matter how well its sale is copper-bound by law, there will spring leaks to keep going whiskey's life."

"But if you faithful 'watch dogs' know all this and will press the battle the foe is vanquished."

"And There Wasn't The Slightest Smell From Dead Rats."

Writes John Simpkins, farmer of Annandale, N. J. "Rats were costing me hundreds yearly; tried dogs, cats, poison, could not get rid of them. Bought \$1.00 pkg. of RAT-SNAP (5 cakes). Used half, not a live rat since. Dead ones aplenty. I

HIGH COST OF LIVING IN
LUBBOCK

The wife of a certain Lubbock man who recently moved here from Central Texas to make his home, called him to the telephone and asked him to bring home two loaves of bread. He remarked that the high cost of living was hitting him harder here than any place he had been, and explained that before moving to Lubbock only one loaf was required and now it is two. This is one thing that happens to most everybody that moves to Lubbock. They breathe the rich ozone of the South Plains and inhale the Western zephyrs for a few days and their appetite is sharpened till many do not stop at a double appetite but even have to get a third loaf occasionally. Great is the Lubbock country.

The Terry County Herald and the Lynn County News are having a controversy as to which town is the biggest and the most modern, and the most progressive. But, tut, fellows, you can never settle that. A true booster is as a true husband about his wife. He thinks his is better, prettier and smarter than the other fellow's, and it is the best policy to let him continue to think so. Just boost your own town and let the other fellow boost his, and both will grow and develop into a real good town. Both these towns are on the South Plains—that's enough to guarantee that there is a fine body of land under and around them to guarantee that there will likely be some wonderful developments in oil or potash or both around these towns, and will make them rich, and cause them to grow much more rapidly than even these optimistic editors dare dream of at present. Just keep on boosting, and when you need anything that you cannot get in your home town just run up to Lubbock, the hub of the Plains. The city on the main line railroads, where the merchants carry the largest stocks of merchandise in the South Plains, and supply your needs. Come to Lubbock.

MISLAID DAYS

Days are mislaid very easily, but they are not like jackknives or neckties or bedroom slippers—once they are mislaid you never can find them again. Let us suppose you have an important thing to do and you get up with the intention of getting it done. Then along comes somebody and distracts you for an hour, and then another distraction follows along, and another, with the result that the day is frittered away. There is a day mislaid. It's gone, and you can't get it back. There's just one system to follow: Have a purpose for every day, and don't let anything happen to stop you from carrying out that purpose. Do the essential thing first—and then take up other matters. Then you will have no mislaid days.—American Boy.

OBITUARIES

A gloom fell over the town last Thursday 11:10 a. m. April 1, when death claimed the well known pioneer citizen, J. W. Ellison, who had been suffering from an injury sustained while helping Mr. M. C. McCrummen remove a windmill which he had recently bought from Mr. Ellison.

Having been struck on the head by a falling piece of the windmill, rendering him partially unconscious, he was assisted into the house and immediately rushed to the hospital, where physicians first thought it only a minor injury, but only a few days revealed his condition critical and everything in surgical skill was futile.

For twenty-two days he suffered patiently, only at times recognizing either family or physicians, trying at such times to encourage same that he was better. This spirit, to help, comfort and endure for others, was characteristic of him through life.

Mr. Ellison, having resided in this country as a stock farmer near Slide until recently, had moved with his family into town, was well known throughout this entire country.

J. W. Ellison was born July 13, 1882 in the state of Alabama, from which he moved with his parents at an early age to the central part of this state, where he made his home until year 1903, when he moved to Lubbock county.

The principle of right was early demonstrated in his every walk of life. At an early age he connected himself with the Methodist church in which capacity he served faithfully at different times as Sunday school superintendent and steward, also ready and anxious at all times to serve in any way for the betterment of the community in which he lived.

Such does the country need the life and influence of such a man as J. W. Ellison for that reason we can not understand why such lives are taken from us.

He has gone to a better world to join the father, infant son, a brother and two sisters and friends who have preceded him.

He leaves to greatly mourn his departure, wife, seven children, an aged mother, Mrs. M. E. Ellison, sisters, Mesdames G. W. Starnes and H. M. Hitt, all of this place; brothers, Lee Ellison, Mt. Calm; W. H. Ellison, Prairie Hill and sister, Miss Mae Ellison of Fort Worth.

Funeral services were conducted at the Methodist church Friday morning by Rev. J. T. Griswold. The W. O. W. conducted the services at the cemetery.

Amid a host of friends and beautiful floral offerings, he was laid away in the Lubbock Cemetery, April 2.

PATIENCE

The kind of patience we have in mind isn't the patience of Job. It is patience with other folks when other folks bother you. You can't find two people in this world who act exactly alike, and consequently somebody irritates you every little while. It will pay big dividends in money and happiness and friends if you can school yourself to be patient and not to let little things other folks do upset your temper. Patience is only one form of kindness, and kindness is one of the two or three finest things in existence.—American Boy.

CARD OF THANKS

We wish to express our thanks and appreciation to the many friends for their kindness and sympathy during the recent illness and death of our much-loved husband, father, son and brother.

We also thank you for the beautiful floral offering.

May the spirit of kindness ever guide and direct each of you.

Little Holland is very courageous in repeatedly refusing to surrender the kaiser. But perhaps little Holland knows that secretly the allied governments do not banker for any more white elephants on their hands. While sawing wood in Holland the kaiser is perfectly safe. In the hands of the allies he would become a martyr and exceedingly dangerous. The allies may be good bluffers, but they are not fools.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

SOME ITEMS FROM THE RALLS BANNER

We are reliably informed that the Z-Bar-I ranch lands, consisting of more than 100 sections of fine soil, and belonging to Frank Corn, are to be divided into tracts of 160 acres, or more, and sold to farmers at a reasonable price. As is known, much of this land is in Crosby county, a large body of it lying in League 4. That this land will be eagerly purchased when it is placed on the market, there is little doubt, and when it is settled will mean an increase of several thousand dollars in the trade coming to Ralls each year. In fact, the settlement of this big ranch will mean more to Ralls than would several oil wells—the oil will become exhausted in a short time, but the land never will.

M. A. Moses this week sold his splendid farm in the Fairview community to Will Marr for a consideration of \$62.50 per acre. In the deal Mr. Moses comes into possession of Mr. Marr's residence in Ralls, also his automobile.

The Banner has heretofore failed to state that the School Board had re-elected Prof. J. K. He tells us that he has not yet fully decided as to whether

he will accept the work another year or not. Prof. Wester is not only a splendid teacher, but he is a good manager and an indefatigable

worker—he is at home anywhere he is placed in the school room, being one of the few men we find these days who can be designated as an all-round school man. It would be hard to find a superintendent who could take his place, and the Banner hopes he will decide to remain with us.

TO WHOM IT MAY CONCERN:

I have bought the A. S. Hopper blacksmith & machine shop equipment and is located in what is known as the South Side Garage Building, one block south of the court house square. It is my greatest desire to give the best service that can be had in Lubbock in my line of business. I have had twenty-two years of actual experience in this line. I believe I know what the public wants and must have. First is service, second is first class work, and right prices. Now I am endeavoring to please you and in order to do this, am working to the interest of the public as well as that of my own, and I must employ the best skilled workmen available in Texas. I have made a special effort to this effect. I now have with me Mr. Ed Brown, a well known blacksmith and general workman and also Mr. Laceywell, an all-around blacksmith machinist. Now Mr. reader, you can help make Lubbock headquarters of Lubbock county where people can send any kind of machinery or parts and get it repaired. By sending or bringing your work to my shop instead of sending such work to Amarillo or other towns, let it be done at home. I assure you that I appreciate your trade of any kind, from the tiniest job to the largest. My motto is to live and let live. Yours for business. Ed Greer. Come to Lubbock. 401

WACO MAN HERE TO MANAGE OIL STATION

A new organization has recently been perfected in Lubbock to be known as the Lubbock Oil and Gas Company, which is composed of several of Lubbock's business men. The purpose of the organization will be to install a gas and oil station in this city for wholesale purposes. M. W. Dickinson, brother of W. K. Dickinson of this city, of Waco, Texas, is here and will be in charge of the new concern. We are reliably informed that work will begin immediately upon the erection of a suitable building and that the tanks for the station will be installed within a short time. This company will handle various oils and gas to be distributed throughout the South Plains country.

CHANDLER SIX

The Most Closely Priced Fine Car

We Let You Know What The Chandler Price Is

THE Chandler Motor Car Company, ever since the first Chandler Car was built seven years ago, has, in every advertisement issued to newspapers and magazines and all other forms of publications, stated the list price of the Chandler Car.

It states it now and will continue to do so. There is good reason for this and many thousands of motor car owners know it. This is the reason—The Chandler Six is the most closely priced fine car in the whole medium priced field.

Look through the pages of this paper or a magazine that may be lying on your table. There are probably from ten to twenty automobile advertisements. How many name the price of the car?

True, the cost of automobile production has increased in the past year, and it is still increasing.

ing. But the Chandler Company, throughout 1919, with all its production greatly oversold, held to its price.

The Chandler Six of today is a highly perfected development of the Chandler Six seven years ago, which started the trend toward lightweight sixes. All the engineering skill and production efficiency at the command of the Chandler Company has been devoted to this one chassis and that fact is one of the reasons for the Chandler's leadership in its field today.

All Chandler bodies are mounted on the one standard Chandler chassis. Simple, sturdy and dependable throughout, its features embrace, as for years past, the really marvelous Chandler Motor, solid cast aluminum motor base, annular ball bearings, silent chain drive for the auxiliary motor shafts, and Bosch magneto ignition.

Organize
Listen, farmer friends, to reason,
We who till the soil;
Let's reach out the glad hand to each
other,
Let's organize.
Let's put our heads together, let's
have our own little band, and have
others look up to us, and take note
of our stand. Let's stand on a sure
foundation of honesty, perseverance
and truth. Let's blend our interest
together like beauty is blended with
truth. We can do wonders together
for where there is unity there is

**QUICK! YOUR HAIR
NEEDS "DANDERINE"**

Check ugly dandruff! Stop hair
coming out and double
its beauty

A little "Danderine" cools, cleanses
and makes the feverish, itchy scalp
soft and pliable; then this stimulating
tonic penetrates to the famished hair
roots, revitalizing and invigorating
every hair in the head, thus stopping
the hair falling out, or getting thin,
dry or fading.
After a few applications of "Danderine"
you seldom find a fallen hair or
a particle of dandruff, besides every
hair shows new life, vigor,
brightness, more color and thickness.
A few cents buys a bottle of de-
lightful "Danderine" at any drug or
toilet counter.

strength. Let's don't throw stones at
each other. Let us come together for
mutual gain and organize to do busi-
ness in a business way. Let's form
a league of farmers in each com-
munity where there is a school and
let each league be a unit; to all have
the same laws, the same interests,
and stick like a leach together. We
can organize and pool our cotton
and grain. We can also have our
representative or agent to buy at
stated times, such needs as groceries
or farm implements. We can get them
at a very much reduced price, in
fact, all our needs could be brought
much cheaper in bulk than in single
individual purchases.
Some people say farmers won't
stick. No, some of them won't, but
under our present conditions there
is only needed a little glue and that
glue has been so applied by profit-
eering that it will have the desired
effect to now stick. Some of the farm-
ers together, if only, say, ten fami-
lies band together in each commu-
nity, to better their condition, it won't
be long until the whole community
will also come to them. There are
doubtless in all communities and they
can soon be converted. Then when
our league is formed and properly
adjusted, most any up-to-date mer-
chant and grain dealer will be ready
to do business with such people and
at reduced prices in large lots and
buy our farm products at above home
market quotation. We could very
easily get a charter for such, by ap-
plying for it at Austin. Let's all
think. We cannot join the Federa-
tion of Labor for our interests are
somewhat crossed. They are not iden-
tical enough for farmer's coopera-
tion. So we stand alone and unorga-
nized. We are bound to fall, for
we are at present a house divided
against itself. Let's organize.

Yours truly,

**NEGRO CAUGHT HERE
WITH FINE CLOTHES**

Will Mackey, as he is known in
Colorado, Texas, made a brilliant
showing with the colored folks of
Lubbock, Texas, when he arrived
here last Saturday morning, dressed
in a brand new \$90 suit of clothes,
crowned with a fine Stetson and shod
with new \$15.00 shoes. In fact, he
was taking our village by storm and
having the time of his life, when in
stepped the owner of the precious
duds accompanied by the "law" of
Lubbock county.

Last Saturday evening late, Will
was called upon a very rushing busi-
ness matter to Sweetwater and in
order to further promote his exit
from Colorado he hired a negro to
take him in a car to that place. He
was dressed in his overalls, old shoes
and his old hat when he left Colo-
rado that night, but upon arrival at
Sweetwater, he came out of his room
dressed to perfection. The negro who
carried him to Sweetwater, just hap-
pened to have bought on of these
blue silk shirts like Will had on and
remembered where he done it.

The next morning after the negro
chauffeur arrived at Colorado he
heard that Green's Men Furnishing
Store had been robbed of several
suits of clothing, some shoes and
shirts. Remembering the shirt Will
had on at Sweetwater and that the
one he had on like it was bought from
this store, he went and told the
owners of Will and his fine clothes.

Messrs. Green and Bennett of Co-
lorado left immediately for Sweet-
water where they soon learned that
three negroes had bought tickets to
Lubbock. They came on to this city
Sunday and with Sheriff Holcomb,
went in search of Will. They found
him at the compress. He had sold se-
veral of the suits, ranging in prices
of \$50.00 and upward, for a few dol-
lars, and had also disposed of six
or seven pair of the \$15.00 shoes at
\$2.00 and \$3.00 per pair, altogether
he had received about \$35.00 for the
goods and was enjoying the wear of
the finest suit, shoes and hat when
he was caught.

Most all the clothes, including the
hats and shoes, were restored to the
owner of the Men's Furnishing store
and the money the various buyers
had paid out was refunded. The
sheriff of Mitchell county deputized
the two men and they took Mackey
in custody and returned to Colo-
rado.

**CENTER NEWS ITEMS
OF THE PAST WEEK**

The sand has been blowing so
much the past week that the news
writer of this vicinity had to scratch
out.

R. H. Haney and wife returned
home one day last week from Cali-
fornia, where they spent the winter
months on account of Mr. Haney's
health. They say they are feeling
fine now and saw many exciting and
interesting things while they were
gone but old Lubbock county still
looks good to them.

Mr. George Baker was breaking
sod for his grandfather near Idalou
last week.

Miss Emma Abney happened to
quite an exciting incident last Sat-
urday as she was going home from
Abernathy. Her team left her at
a gate, near home and she could not
catch them as the wind was blowing
the buggy on the team. They ran a
short way and turned the buggy over,
which tore up the top and a few
of the harness only was hurt.

(Delayed Center Items)
The farmers are progressing nicely
considering the number of sand
storms we have had.

Little Joe Baker is still improving
but is not able to be up yet.

Herbert Goeth and sister, Erna,
were callers at the Earnest Jones'
home Sunday afternoon. They re-
port a real nice visit.

Miss Lucille Baker spent the week
end with Miss Madge Abney.

The singing at Mr. Rieken's was
enjoyed by several Sunday evening,
but we certainly miss Mr. Bowleys,
as they were our main leaders.

R. Rieken and son, Richard, were
in Lubbock Saturday.

Mr. Bill Emory has put up a new
windmill on the place, where he in-
tends to make his home this sum-
mer. He is also putting up a new
house there.

Grandpa Emory is putting an ad-
dition to his home.

Mr. Habbings is expecting a new
jitney in one day this week.

The farmer who cleans his imple-
ments promptly and keep them in a
dry place generally has good ones
still when his less careful neighbor
is spending hard earned money for
new ones. Tomorrow is a poor day
for brushing things up—it never
comes.

**PARIS MAN PAYS \$62.50
PER ACRE FOR LAND**

Despite the fact that within the
past few weeks we have been visit-
ed with several hard wind storms,
real estate is still selling and at prices
that makes one feel optimistic. The
past week J. R. Harmon of Paris ar-
rived in Lubbock and prospected over
the country only a short time, re-
turning to his home Sunday after
closing a deal whereby he became
owner of the T. G. Nolley farm near
Idalou at a consideration of \$62.50
per acre.

Local real estate men state that
the sand storms have caused no halt
in the demand for homes and other
property in town.

Land Loans

Sooner or later you will likely consider putting a loan on
your land and it is a thing you should not do hurriedly, until
you consider carefully the terms and the company.

First, see that the options granted apply fully to all the
notes, including all interest.

Second, know who will be holding the notes.

My people hold all their own notes, take only one deed
of trust and will release portions of your land if you should sell
off during the life of the loan. These are things more than
important to you.

INTERSCHOLASTIC LEAGUE TO MEET IN LUBBOCK

The Meet of the University Interscholastic League of the Lubbock District composed of Bailey, Borden, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Motley, Scary, Terry and Yskam counties, will be held at Lubbock April 16-17.

We will need every available room in the city to accommodate the young men and young women who come to participate in the various events. Lubbock owes it to herself to give these young people the very best of everything.

We want the meet again next year, and to retain it we must demonstrate our ability to provide entertainment for all who come, and show the school boys and girls that we appreciate their presence in our town, and every one of them will want to come back again next year.

Every home represented in the grammar and high schools should en-

ertain two contestants. Parents, give your children permission to invite two of these school boys or two school girls to spend the two days in your home. It will do you good to come in contact with this young life, it will do your children good, it will help your school and your city.

Do not wait for some one to solicit your help, but phone G. N. Atkinson, No. 545, saying two for us. Thanking you, I am,
Your truly,
M. M. DUPRE, Director General
Lubbock District.

W. E. Baskin of Bowie, Texas, who is associated with Sidney Webb in building a gin in Lubbock, and who has been in town several days, was joined by his family Tuesday and they are now located in the home he bought and had ready for them, just south of the Episcopal church. Will has a number of friends in Lubbock who knew him in Seymour in his childhood, and are proud to have him and his most estimable family locate in our midst.

FREEZE DAMAGES GARDENS AND FRUITS OVER STATE

Wichita Falls, April 5.—Twenty-three degrees was registered by the thermometer twice within the past forty-eight hours, Sunday morning at 7 o'clock and at the same hour this morning the mercury dropped to 23 and remained between that level and freezing for several hours.

The low temperature badly damaged young plants in gardens.

Palestine, Texas, April 5.—Extensive damage to truck gardens was done by last night's frost in East Texas, local truckers said today, and the monetary loss will reach into thousands of dollars, according to preliminary estimates.

All tender vegetation was killed, the strawberry crop was destroyed in some sections and potatoes greatly damaged in many districts.

Waxahachie, April 5.—Great damage was caused to corn, fruit and garden vegetables in Ellis county last night by heavy frost. The temperature dropped to 25 degrees above zero during the night. The highest registration Sunday was 57.

Snyder, Texas, April 5.—Local thermometers registered 30 degrees Easter morning. It is feared that all fruit has been killed. A cold wave still is blowing and ice is abundant everywhere.

The greatest aid to bolshevism today is the high cost of living and the insatiable greed of the profiteers. And pussyfooting public officials who do nothing to check this crime of the age are simply pushing the under dog on to the point of explosion.

Are You Going to Build?

If you are going to build, let us make you an estimate. I bought 30 car loads of brick a month ago and I am in position to make you a very attractive price, and am in position to give you better service at less cost. No trouble to make estimates or answer questions.

CARLOAD EGGS SENT PLAINVIEW TO CUBA

Plainview, March 30.—The Panhandle Produce Company of this city shipped a full carload of eggs to Havana, Cuba, Wednesday morning of last week. This is the second car of eggs to be shipped directly from this city to Cuba. The order for the car was received on Tuesday and on Wednesday morning the car was cleared from the local yards.

Three years ago 643 cases of eggs were shipped from Plainview by freight and express. Two years ago nearly 6,000 cases were so forwarded. Last year over 12,000 cases were shipped by freight alone. This year the shipments have been much heavier and it is predicted that fully 25,000 cases will go forward from this point. The success of the West Texas State Poultry Show, permanently established in this city, has had a big influence in the growth of the poultry industry of this section.

DALLAS BUSINESS MAN LIKES LUBBOCK

Despite the fact that he has been in our city during some of the worst sand storms of the season, F. J. Boyle of Dallas who has been here a few days, says "We like Lubbock and believe that it will be made eventually into one of the prettiest towns in West Texas." By that, Mr. Boyle thinks that when the streets are paved and other touches are made toward civic improvements.

Mr. Boyle is here accompanied by his wife, spending a few days visiting at the home of Mrs. W. E. Robinson. Mrs. Boyle is a sister to Mrs. Robinson. They will return to their home in Dallas the latter part of this week.

BAPTISTS PURCHASE CLUB BUILDING AT EL PASO

Dallas, April 5.—As part of the peace time program of religious effort to be made among soldiers yet stationed in Texas army camps and posts, the Baptist General Convention and the Home-Mission Board of Atlanta, Ga., have jointly purchased the El Paso Country Club building and fourteen acres of ground, at a cost of \$50,000. It is planned to convert this property into a church and community building for the use of the soldiers located at Fort Bliss. Approximately 100,000 soldiers are stationed in camps and forts in Texas at the nine points at which Baptists are continuing the welfare work which was started during the war, and it is planned to spend \$25,000 in maintaining this work, exclusive of the amounts to be expended in added equipment and property. The continuance of this work is a part of the expansion program following the raising of \$90,000,000 in the Baptist 75 Million Campaign.

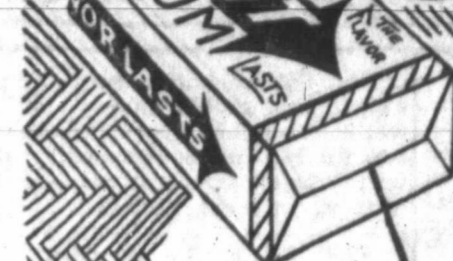

The Country Club building at El Paso is well adapted for the kind of work which is being planned at all the army camps where the convention has stations. The building will have a gymnasium, reading and writing rooms, well furnished rooms where the soldiers may hold their social functions, and a large auditorium where religious services will be held. It is planned to follow the same general outline of work in the other nine points where evangelistic and social work is being carried on. The points where the Convention is now working are: Ellington Field, Houston; Galveston, San Antonio, Bracketville, Del Rio, Eagle Pass, Laredo, Brownsville, and El Paso.

HOW FAR IS MEMPHIS?

Not so Far That the Statements of Its Residents Cannot be Verified. Rather an interesting case has been developed in Memphis. Being so near by, it is well worth publishing here. The statement is sincere—the proof convincing:

E. O. Sloan, prop. furniture store, Memphis, Texas, says: "I have used Doan's Kidney Pills off and on for a good while for weak and disordered kidneys and lameness in my back. Last winter I had an awful attack of the trouble. My back was so sore and lame at times I could hardly stoop over and it also ached a good bit of the time. My kidneys were out of order being irregular in action and bothering me at night. I used two boxes of Doan's Kidney Pills and they gave me great relief." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mr. Sloan had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

What a relief it would be, in this day of extravagant millinery creations, to see one of those ancient sunbonnets our good old grandmothers used to wear.

Sterling C. Robertson and Van Irion, and the unknown heirs of the said A. J. Robertson, and of Fannie H. Napier, and of Hays H. Robertson, and of Sterling C. Robertson and of Van Irion, are defendants, the nature of plaintiff's demand being as follows:

Plaintiff alleges that on January 1st, 1920, he was lawfully seized and possessed of the title to the following portions of the Jas. R. Robertson Survey, in Lubbock County, Texas, by virtue of Certificate 23-113, Patent No. 49, Volume 23, issued June 17th, 1879, described by metes and bounds as follows:

LUBBOCK TO GET
DISTRIBUTING HOUSE

C. E. Whatley, representing the Columbian Refining Company, arrived in Lubbock Wednesday morning of this week for the purpose of making arrangements to have a storage house to be used for distributing products of this company over the south plains. Mr. Whatley is well known over this section of the country having been interested several years ago in selling of land in Garza and counties south. He in-

terviewed the Secretary of the Chamber of Commerce Wednesday morning and produced creditable credentials and received an indorsement of his plans for Lubbock.

Mr. Whatley says his company will commence in a very short time the construction of a beautiful filling station in Lubbock in addition to the storage house. The company which he represents have 60 filling stations located in various sections of the State, and will locate one in each of the nearby towns surrounding Lubbock. They are making a

market for their products, Mr. Whatley says by making stockholders in each vicinity where the stations are built, thus creating a mutual interest in the company's welfare.

"In northern cities, bankers and capitalists and home-seekers are looking towards West Texas," says Mr. Whatley who returned only a few days ago from a business visit to Pittsburg. He says that 4, 5 and 6 per cent interest on money earned in the northern countries is turning many to look to West Texas for

investments and it is his opinion that the whole south plains country will be colonized within a short time by farmers and home-seekers of the north who are finding land too high for investments.

Mr. Whatley will establish temporary offices in Lubbock and will remain here several weeks or until he has completed his work of the establishment of the filling station and the distributing warehouse.

With the advent of this new company Lubbock will have another wholesaler and another fine station.

for the various expenses of the volunteer firemen and will also be used to further the social welfare of these men.

INTERESTING CHARACTER IN WEST TEXAS HISTORY

Many of the readers of this paper are probably familiar with the leading character of the following article. It appeared in the Texas Christian Advocate a few weeks ago, and as a matter of history of the West and the Territory included in the great West Texas, and has much to do with planting Methodism in this section of the State away back in early days. Articles in the Advocate from the pens of H. G. H., Horace Bishop, Gulliver and others relating to historical sketches of Methodism in Texas em-

bolden me to contribute the following sketches. Being one of the younger men I am hardly entitled to a place among the veterans mentioned above but looking through a stack of old books recently I came upon a pamphlet "Twenty-five Years on the Outside Row of the Northwest Texas Conference," by Peter W. Gravis. Uncle Peter was one of the most unique of the older generation of pioneer Methodist preachers in Texas. Born in Nashville, Tenn., in 1828, he came to Texas with his father, who was a volunteer in the Texas Army of Independence, in 1836. He had a great struggle in his conversion for the fact that he felt that he must preach and while he was converted in 1850 in Bastrop county, it was not until 1852 when he surrendered to the ministry that the peace came to his soul. After some years as a successful local preacher he joined the Texas Conference at La Grange in 1859 and was appointed to the Blanco and Perdevalle Mission, embracing all of Blanco county and parts of Hays and Gillespie counties. From that time until his superannuation he was an outside row man. If the borders were to be extended Peter Gravis was the pioneer. If some hard task was to be performed he was the man for the work. Indians were plentiful and bad men were everywhere. He met his share of both and aside from the loss of a horse or two and his saddle, blankets, revolvers, etc., stolen he came through unscathed. He was a wiry little man, insignificant in appearance, but a veritable giant in eloquence, in debate, and in zeal for the cause of the gospel. He was the first presiding elder of the Panhandle District, embracing practically the territory now in the Northwest Texas Conference. This District was ordered at the conference held at Waco in 1877. He reached Seymour in February, 1878, and found two preachers ready to

All Light Car Road Records Smashed

At Indianapolis recently an Overland 4 stock car was driven 5,452 miles continuously in seven days and nights, over frozen country roads.

This is an average of 778 miles per day—more than the distance between Toledo and New York City. This is another tribute to the cushioning effect of Triplex Springs and the quality of material in Overland 4.

take the lead in that vast territory now such a stronghold for our Methodism. These two preachers were J. T. Hosmer and Jerry Farmer. Hardeman Mission embraced Wilbarger and Hardeman counties with all territory west. He held the first Quarterly Conference at Vernon May 21, 1881, with J. T. Hosmer, preacher in charge, and J. A. Craiger, class leader; T. S. Hagry, Z. D. Bryant, and J. A. Craiger, Stewards. In the course of his tour that year he made a tour of the Panhandle, visiting Mobeetie and Clarendon. At the latter place he found a colony of Northern people led by Rev. Carhart, a minister of the M. E. church. Finding that the itinerant was a Southern Methodist they straightway closed their doors and did not even invite him to remain overnight. In line camps and at ranch headquarters he preached wherever he could get a congregation. Now and then he would find some hungry Methodists and a little society was organized and thus the nucleus of the great new Northwest Texas Conference was formed.

For a long time his home was at Comanche, Texas, and it was there that I came to know him when I was just a child. I can even remember hearing him on occasions preaching and what a preacher he was! Though unprepossessing in appearance and voice his message was clear and powerful. His body lies in the cemetery at Comanche in an unmarked grave. Perhaps he has been well-nigh forgotten, but his record is written in the Lamb's Book of Life and the history of our Methodism in Texas cannot be written without his name appearing prominently. He was not a prominent man in the councils of the church. He was not a great man as men count greatness. He died in poverty with his faithful daughter, Miss Ellen, who had been his companion on all his journeys throughout the Panhandle country, with him. His name is not emblazoned on the history of the church or state. But he was a faithful pioneer, going where the Church sent him, with little or no support and finding only hardships to endure as a good soldier.

He was my father's friend. When my father moved to the frontier town of Comanche in 1875 Uncle Peter was presiding elder of the Comanche District and until the day of his death father loved him. Many of the old-time residents of the frontier will remember him and perhaps this sketch will awaken in the minds of

many recollections worth while.

Save Money On Meat

Here are some real thrift recipes for tasty, nutritious dishes prepared from less costly meat. It is issued by the Division of Women's Activities, Department of Justice. Use this recipe and save money on meat.

Pot Roast With Vegetables
3 or 4 pounds chuck roast, 1 cup celery cut in bits, 1 cup sliced carrots, 1 cup sliced turnips, 1 cup sliced onions, 3 tablespoonfuls fat (preferably from salt pork).

If the meat is not sold in a solid piece, sew or tie it into shape, wipe it with damp cheesecloth, and roll in flour. Boil vegetables in salted water to barely cover until soft. Rub through a coarse strainer. Heat fat in a frying pan or Dutch oven. Put in the meat and brown on all sides. If the frying pan is used, transfer the meat, after it is browned, to a kettle, unless the pan is deep enough to hold the beef. Pour the vegetables and their liquid over the meat, together with any preferred

seasoning. Cover tightly and let simmer slowly for four or five hours, turning twice. Thicken the gravy a little, and pour over the meat.

Chuck Steak With Onions
2 pounds chuck steak, 5 or 6 onions with salt, butter or butter substitute.

Slice onions in water. Drain thoroughly. Place onions in a shallow saucepan, cover closely and cook over a slow fire for 15 or 20 minutes till tender. Use no water or fat, as the onions contain both moisture and richness. When the onions are done, uncover and brown slightly if preferred, but they are more digestible without browning. Heat a frying pan smoking hot, and brown the steak quickly on both sides; reduce the heat and turn the meat frequently until it is cooked through. Season the steak and salt the onions. Serve the meat on a platter with onions around it. Add butter if desired.

New England Boiled Dinner
2 pounds corned beef, 1 small head cabbage, 6 small turnips, 6 small carrots, 6 small beets, potatoes.

Wipe the meat and tie securely in shape. Put in a kettle and cover with cold water, bring slowly to the boiling point, boil for a few minutes, remove the scum and reduce heat. Finish cooking at a lower temperature. Remove to hot platter and cook the vegetables in the liquid from which the meat has been removed. If too salty add hot water. Too much salt will wilt the vegetables and spoil the flavor. The beets should be cooked separately or canned beets may be used.

To serve: Place the meat in the center of the platter and arrange around it border of the various vegetables. Sprinkle with chopped parsley or garnish with sprigs of parsley. The head of cabbage should be cut in eighths after cooking.

Pot Roast of Mutton With Currant Mint Sauce
2 1/2 pounds mutton (plate), seasoning.

Wipe meat, sprinkle with salt and pepper, place on rack in dripping pan and dredge meat and bottom of pan with flour. Bake in hot oven for 2 hours, basting frequently with butter or butter substitute. Serve with currant mint sauce.

Currant Mint Sauce—Separate 2-3 tumbler of currant jelly in pieces, but do not heat it. Add one to two tablespoonfuls finely chopped mint leaves and shavings from an orange rind. Serve around roast.

Escalloped Corn Beef
2 cups cooked corn beef, cubed; 1 cup medium white sauce; 1 stalk celery, chopped fine; 2 slices onion, chopped.

Cook celery and onion in sauce. Put the corned beef in a shallow bak-

SPRING FEVER

Following Colds, Grip or Flu,
Thin, Watery or Poisoned Blood

(By Dr. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alterative and blood purifier. Such a tonic as druggists have sold for fifty years, is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

SAN MARCIAL, N. MEX.—"I suffered for two years with frequent headache and pain in my left side and the small of my back. I was despondent and so nervous the least racket would upset me. I wrote to the Specialists at the Invalids' Hotel, and was advised to use Dr. Pierce's Golden Medical Discovery and the Anemic Tablets. I did so and immediately began to get better. My symptoms disappeared and in two months' time my health was regained. I took six bottles of each medicine and a few of the 'Pleasant Pellets' for regulating my bowels. I am now in perfect health and enjoying life.

"I cannot say too much in praise of these medicines and the kind and courteous attention given me."—Miss MAMIE COYLAND.

3 pounds veal shank.

Cook a veal shank in boiling water until tender. Remove as much meat as possible from the bone. Cut the pieces to resemble chops.

Take this veal and season well. Roll in crumbs, egg and crumbs again and saute in butter or butter substitute. Garnish with parsley.

For the soup take the remaining portion of the shank and put it into a kettle with 3 cups brown stock and a few peppercorns, salt, celery, salt and any other seasoning desired. Add 1-2 cup each of diced potatoes, turnips, and parsley. Cook for one-half hour.

This veal shank provides a soup and cutlets for a family of five.

Pork and Sauerkraut
2 pounds of spareribs, 2 cans of sauerkraut, seasoning.

Wash spareribs and place in roaster. Bake in moderate oven for 1 1/2 hours, after seasoning well with salt, pepper, and any other additional seasoning desired. Heat the contents of 2 cans of sauerkraut. Arrange spareribs on platter and surround with sauerkraut.

STANTON HOTEL OWNER
IS ONLY 97 YEARS OLD

Stanton, Texas, April 8.—John Glenn, proprietor of the Stanton Hotel at Stanton, Texas, is only ninety-seven years of age, but he is like the Turnersville Trolley, which meets all trains. He chews tobacco with the "best of 'em," and even had the temerity to say a few days ago that he proposes to "quit" the habit when he finds it disagrees with his health.

Born in Connecticut Glenn came west in 1871. Prior to that time he was one of the "wild rush" to California in '49. Tiring of the elusiveness of the gold game, he went to Australia and resided six years, and later spent some time in South America. Later he came to Midland and engaged in the hotel business.

Besides shopping for the hostelry, making rooms tidy and otherwise seeing after the comforts of his guests, Glenn aids his guests to the train and receives the new influx. During the leisure hours he cajoles the younger generation for being so lazy in their steps and walk. He takes great interest in politics and every day matters. He says his longevity may be ascribed to the pure ozone of West Texas.

Uncle Johnnie was at one time a resident of Lubbock, and was always hale and hearty, cheerful and ready to pull a good joke at most any time of the year, day or hour. His many friends in Lubbock are glad to know that he is still enjoying his "boyhood" days.

Ford

THE UNIVERSAL CAR

The Ford one-ton truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat its head off" when not working. The aggressive farmer has only to consider the possibilities of the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them.

WHISKEY A POISON IN INFLUENZA

There are still some doctors who are so ignorant or fossilized that they prescribe whiskey for certain ailments of their patients, and in so doing reinforce the disease with poison instead of relieving it—killing instead of curing. The eminent Dr. Harvey W. Wiley, president of the United States Pharmacopoeial Convention, and former efficient chief of the Bureau of Chemistry, Department of Agriculture, declares that whiskey and brandy have been eliminated as medicines, and that no mention of alcoholic liquors as medicines will be made in the next issue of the American Pharmacopoeia which is prepared every ten years. Whiskey instead of an effective remedy or preventative for influenza is a positive poison in such cases, says Dr. Wiley, adding: "In only one instance would I use whiskey for an influenza case, and that would be where I wished to hasten the departure to heaven of the patient."—The Evangelical.

California's O-K

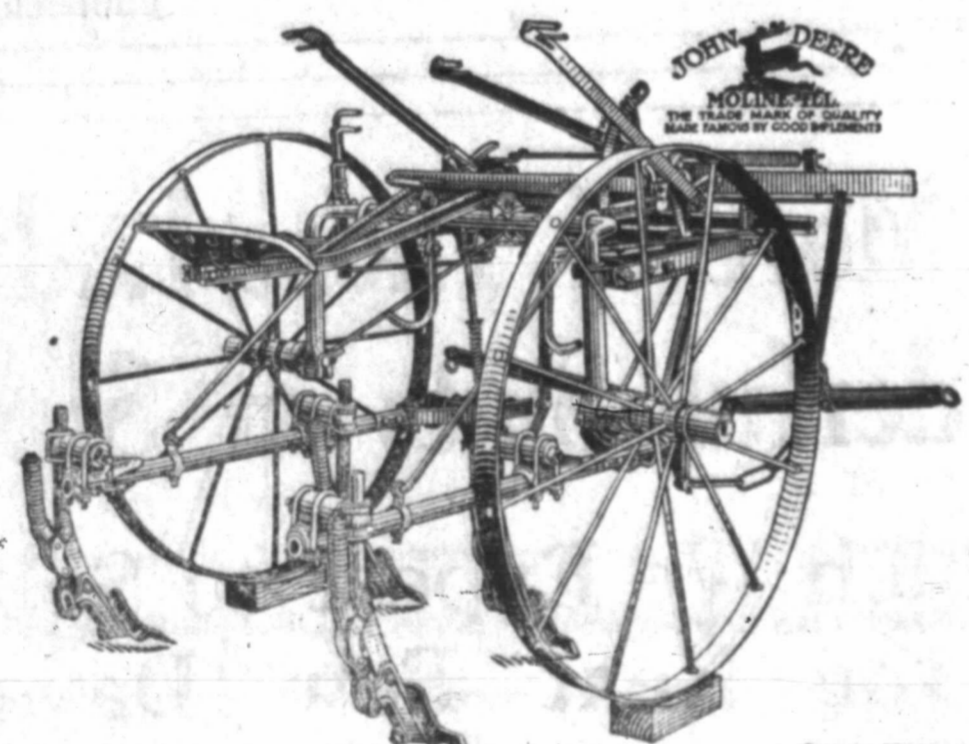

The State of California has placed her unqualified O-K on Horse-Shoe Tires by specifying them exclusively for all state owned cars.

This sixty-five thousand dollar contract was placed after Horse-Shoe Tires had proven their actual superiority. If a tire can make so good on the heat shrouded deserts, the snow clogged mountain passes and jagged mountain trails of California, do you wonder it is making so good right here? Let us tell you more about them.

John Deere KC Cultivator

The John Deere KC Cultivator has established, in actual use, a high reputation for giving special satisfaction to the user because of its features that make thorough work easier and faster.

It provides for all of the ordinary adjustments and requirements and, in addition, has several new and valuable features found only on this cultivator.

With the shovels of the John Deere KC Cultivator properly "set," the operator can drive into the field and adjust the machine for distance of cultivation from the row, for depth of cultivation and for level cultivation, without leaving the seat. There is a handy lever for every adjustment necessary to meet the different field conditions.

Easy to Handle on Crooked Rows—Does Thorough Work While Dodging
The rigs of the John Deere KC, being rigidly connected to the arch arms, are held firmly at a uniform distance apart, shifting with the arch arms and wheels when dodging. They are always parallel with the line of travel.

That means that the shovels on both rigs always face squarely in the direction in which the cultivator is traveling and cut out full width on crooked rows as well as on straight rows.

Spread Lever Space Rigs at Both Front and Back
You will be sure to like the way the John Deere KC's rigs can be adjusted for distance of cultivation from the row. A special lever, located within easy reach of the operator, spreads the rigs the same distance

at both front and back, instead of swinging them in and out at the back only. Spread either wide or narrow, the beams of the KC are always parallel. The shovels point to the front and hold their "set," assuring parallel level cultivation.

Front and Rear Shovels Penetrate to Same Depth
Another valuable feature of the John Deere KC is the level penetration of the shovels. The front and back shovels on each rig enter the ground level and continue level as they are lowered by the depth lever. The "set" and "suck" of the shovel are always the same regardless of the depth of cultivation.

Master Level Raises Both Rigs and Balances Machine
The master lever raises both rigs and balances the machine. The shovels lift high and level. With the machine perfectly balanced, the pole stays down when turning. Both team and operator are comfortable. When the rigs are lowered by releasing the master lever, the double bail rig hangers cause the shovel to penetrate level.

You Need the John Deere KC
Remember, good cultivation is one of the most important requirements of your business. Your young crop plants need the best of care. The quantity and quality of your crop yield will depend upon how well your cultivator destroys weeds and aids the soil in maintaining the proper amount of moisture. You will find the John Deere KC especially satisfactory in meeting all the requirements of good cultivation.

PANHANDLE SHORT LINE OFFICIALS HERE

Messrs. E. G. Cook, president, and W. A. Pritchard, secretary, of the Panhandle Short Line Ry., were here Saturday in the interest of the proposed railroad from a point on the Red River to Lubbock. These men made the trip from their home, Wichita Falls, to Lubbock in their car, coming through the counties of Clay, Wichita, Knox, Baylor, King, Dickens and Crosby, the route of the proposed road, for the purpose of knowing how people along the line felt regarding the road and to further investigate the country. Mr. Cook says that in every town through which they passed the people were enthusiastic about the road and expressed willingness to aid in its completion.

A meeting of the directors of the Panhandle Short Line Ry. is scheduled for April 27th, to be held at Dalhart, the home of the general offices of the company. The purpose of the meeting being to amend the original charter of the road and to provide for the loading, construction

and operation of a branch from Lubbock, through Crosby, Dickens, King, Knox, Baylor, Archer, Wichita and Clay to a point on Red River. Also to increase the capital stock of the road from \$300,000.00 to \$600,000.00 and to provide for the issuance of \$32,000,000 worth of bonds. A motion will also be made to move the principal office of the road from Dalhart to Wichita Falls, as Mr. Cook informs us that most of the stockholders reside in that city.

A prospectus is now in the hands of the printers and when the bond issue is made, plans for the commencement of the road will start. It was not the intentions of this company, they inform us, to accept bonuses or other compensations from the country through which they would run to promote the building of the road, but as the materials have risen to such an extent, they now think this plan will be adopted. If this is done, they say, they will make a trip through all the towns along the proposed road, probably in June, and accept bonuses, by making their proposition.

Mr. Cook left Sunday morning for points north, and Mr. Pritchard returned to Wichita Falls.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system, is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

BIG BANQUET FOR MASONS AT AMARILLO

In the interest of Masonry in the Panhandle there is to be held in Amarillo on Monday night, April 12, a banquet for the purpose of bringing together the members of that fraternity to discuss matters of interest and importance.

For the benefit of those who are not already informed it is confidently assured that the Imperial Council of the Order of the Mystic Shrine which convenes in Portland, June 21, 22 and 23 will grant a dispensation for a Temple in Amarillo to be dedicated to that division of Masonry.

Arrangements have been made for a place to celebrate the ceremonies but Amarillo Masons have determined to erect a Temple to Masonry that will be a credit to the Plains and a monument to that ancient and honorable fraternity.

The building, when completed, will stand five stories high and will accommodate all divisions of Masonry locally and meet the needs of the pilgrims who journey thence annually to Mecca to pay their devotions to Allah.

The first operation in the construction of this Temple will be outlined at the banquet and assurances are proffered that it will be the greatest fraternal event ever staged in the Panhandle. Speakers of more than ordinary ability will appear on the program and it is expected that representatives from all parts of this section of the State will be in attendance. Phone R. R. Swift at 338 for reservations.

The banquet will be spread in the dining room of the Amarillo Hotel. Price, \$1.50 per plate. Judge R. Walker Hall and Newton P. Willis have been invited to appear on the program.

PALAIS ROYAL STAR NEVER HAD BUT ONE "HATE"

Leola Lucey, one of Broadway's most popular musical stars, who is coming to Lubbock on Monday, Apr. 19th, for a concert, believes firmly in the good that is in all people. She is sure brotherly love rules the world, in spite of some evidence to the contrary!

At any rate the only genuine "hate" Miss Lucey has ever been able to scare up was for her red hair. As a little girl Miss Lucey's hair was very red and she wore it bobbed. And of course, those awful boys in school called her "red head." And so she came to hate her beautiful red hair with a very great hate, and she insisted on wearing a

cap that covered it 'most all up.

One day Miss Lucey confided to one of her mother's friends that she thought red hair was the most dreadful thing in the world. This friend was a very wise lady indeed, and she explained to Miss Lucey how honored she ought to feel at being singled out to have Auburn hair when nearly all the other girls in the world had blonde or brunette hair.

"Thereupon," says Miss Lucey, smiling, "I became exceedingly vain of my Auburn locks, and I was even proud of being called 'red head.'"

RETIREES AFTER 35 YEARS OF FAITHFUL SERVICE

The following from the Colorado Record will be of interest to many of our readers in the South Plains country. Colorado was at one time the trading point for all of this territory and many people went from here to take the train at Colorado to points east, and know W. A. Crowder, of whom the Record writes in the following article:

W. A. Crowder the efficient general agent for the T. & P. Ry. at this place after 35 years service, retired this week to private life. He is succeeded by J. J. Hamlet of Odessa, who was years ago cashier here.

Mr. Crowder came to Colorado in 1885 as cashier under the then agent J. W. Ayers, in the old depot that stood where the present freight depot now stands. In 1887 Mr. Crowder was made general agent and for thirty-five years he has hardly missed a day until Monday of this week, when he retired to private life. Mr. Crowder says he will do nothing for awhile but rest. It is not often that very many hold down one position without a break for 35 years and Mr. Crowder's many friends are glad that he can now take a rest and live in ease and comfort.

by the officers thereof to the chairman of the County Executive Committee of the party and to be used by the executive committee in making up a roll of the delegates to the county convention.

The County Convention.—The county convention shall be held on the first Tuesday after the first Saturday in May, 1920, which is May 4, 1920, and shall elect delegates to the state convention aforesaid.

Qualifications of Voters.—These conventions are affairs of the Democratic party, and hence only those who are Democrats can participate in same.

In the foregoing, wherever it is explained that only qualified voters can vote or participate in the conventions or be a chairman thereof, it means those qualified to vote in primary elections; that is, for instance, persons who, in addition to being qualified voters generally under the Constitution and laws of the State of Texas, are also full-fledged citizens of the United States; they must be either natural-born citizens or those fully naturalized; persons who have simply declared their intention to become citizens are not qualified voters within the meaning of the law governing the holding of these conventions.

Women are qualified voters within the meaning of the law governing the holding of conventions of this kind and may vote and participate in such conventions if they are otherwise qualified voters.

Presidential Primary Law.—It will be remembered that the statute passed in 1913 attempting to provide for the holding of primary elections on May 1 to select delegates to the national convention, etc., was held unconstitutional by our State Supreme Court. Thus we must resort to the convention system as above outlined, and which is provided for by a previous statute to the one held invalid.

ROMINGER WELL ATTRACTS CROWD ON GOOD REPORTS

The Rominger well, west of Bridgeport, furnished the sensation this week. Wednesday morning the report reached Decatur that a strong flow of gas had been struck, and within a short time, several auto loads of citizens were headed for the well. They found upon arriving at the well, that the report was true; gas had been hit at a depth of around 2,600 feet and a strong pressure was coming from the hole. When the bailer was brought up a lighted match was put to the bucket, and a flame, estimated to have been twenty feet high, shot up. There is, so the report states, 1,700 feet of water in the hole. With the water cased off, it is believed by the drillers, the gas will force itself high out of the hole. The drillers feel confident that one of the best wells in the country will be brought in within the next fifteen days. Acreage in the Rominger district has taken another big jump on strength of reports from the well. A number of orders for acreage between the Carey and Rominger wells were received in Decatur from Fort Worth and Dallas parties. It is said that some fancy prices were offered for close-up stuff. —Bridgeport Index.

TRAINING LITTLE CITIZENS
 By Ellen Eddy Shaw, Curator,
 Brooklyn Botanic Garden

An Indoor Garden For Children
 During the early spring it is delightful to have something growing in the house or in the school room to interest little boys and girls in what is going to happen very soon outdoors.
 If father or the older boys in the

manual training shop will make a rectangular box with glass sides, line the bottom with zinc, and have a glass cover which may be raised slightly to let in the air, the children will have a fine little conservatory of their own. Put about four inches of rich soil in the bottom of the box and either plant or transplant into the soil some bits of growing life. For example, buy a small coco palm, some holly fern, a pteris, any begonia except the Rep begonia, and a small asparagus fern, letting the last named trail along the soil of the little greenhouse. The earth should be kept

moist, and the box set in the sunlight, preferably in a sunny window. The cover should be raised a little during the day to allow the air to enter, but not wide enough to permit too much of the water within the little greenhouse to evaporate.

If it is impossible to buy suitable plants, and it might be in some places, plant in the soil some seeds of common geraniums, of beans, oats, corn and some of sweet alyssum. These seeds will sprout quickly, and while the grains will not last long, the little geraniums and sweet alyssum will last a long time.

If you live in the country where woods are close by, then get some moss from underneath the leaves and some hepatica plants and put these in the small greenhouse. You may use a large fish bowl for the purpose, but the box with the zinc bottom is really a better arrangement. Any child will take a great deal of joy and pleasure in having a little conservatory of this kind, and will also take a greater interest in working in the outdoor garden because of this experience.

KANSAS AND NORTHERN TEXAS EXPERIENCES SNOW STORM

Kansas City, April 3.—An Easter blizzard that raged all day over central western and northwestern Kansas and over parts of Missouri and the southwest, extending to the Texas Panhandle, continued unabated tonight.

Over western and northwestern Kansas the snow is drifting badly tonight, Concordia reporting drifts from five to six feet deep. Snow plows were at work in that part of the state and trains were being put through with difficulty. Four trains, one a passenger train, were reported stalled in snow drifts on a branch of the Atchison, Topeka & Santa Fe Railroad. It was estimated that from six inches to a foot of snow had fallen over central western and northern Kansas during the day.

Dodge City, in western Kansas, reported a blinding snow storm sweeping that part of the state tonight, with the mercury falling rapidly. A temperature of between 12 and 15 degrees was forecast for that part of the state by morning.

The snow was confined to the northern half of Missouri, with rain in the southern part. Rain was general in Oklahoma, while Amarillo, Texas, reported snow falling since noon and a temperature of 20 degrees tonight.

Continued cold weather with snow in sections is forecast for Easter Sunday.

Hits Nebraska

Lincoln, Neb., April 3.—An Easter blizzard descended on Nebraska today and tonight, with the storm increasing in violence. Prospects were for a bad tie-up of railroad traffic. A heavy snow fell all afternoon and continued tonight and this was driven by a wind that piled the drifts high.

JUST THE JOE BAILEY KIND OF DEMOCRAT

The Roscoe Times asks: "What kind of a 'Democratic' gathering is it that would feel insulted by a shout of approval of the great head of the Democratic Party?" And the Snyder Signal answers: "Just the Joe Bailey kind."

And Mr. Bailey got real angry during his Dallas coliseum speech when he criticised the chief executive and shouts for Wilson nearly broke up his meeting. He also remained off that subject during the rest of that address.

Have you read my ad about irrigation farm? J. S. Warner. 404

TEXAS WILL ENDORSE DEMOCRATIC ADMINISTRATION

Dallas, Texas, April 5th—All indications point to an overwhelming endorsement of the Democratic Administration on May first," said Clyde A. Sweeton, Chairman and Campaign Manager of the Democratic Administration Executive Committee.

"We now have the state practically organized by districts, counties and precincts; Democratic Clubs are being formed daily in all sections of the State; speakers will be on the stump discussing the issues of the campaign from now until Convention day. Men, busy men, in every walk of life, are volunteering their services for the preservation of the Party.

"The laborer, the ranchman, the farmer, the business man, the banker, and the professional men are all united in the opinion that the accomplishments of the National Administration should be endorsed and not repudiated. They realize that we are in the midst of the most prosperous period of the country, and that the constructive measures of the Administration which we are asked to condemn, are largely responsible for such conditions.

"The Democrats of Texas are not going to join the opposition in the wholesale condemnation of the party that has so successfully handled the momentous problems of the Government in peace as well as in war. "We have every reason to believe that we will win a sweeping victory."

We Believe in the Farm

We take pride in the record made by the farmers of this community and look for still greater achievements for the coming season.

To the farmer, as well as to the man in town, the bank is the financial center of the community, an institution for advice in working out of many of his problems. However capable and competent a farmer may be in the management of his affairs, he is glad to avail himself of the service a bank offers.

We back up our faith in the farm by offering our farmer clients—and those we hope to make our clients—the full facilities of this institution and every assistance possible, consistent with sound banking.

PUBLIC OPINION

This and That.
Mr. Editor, I want an injunction against Mr. A. Hy Wynnd or whoever it is that keeps piling up thistles against my fence and pitching them over inside. I have cleaned them out several times but somebody else seems to have lots of them and I would like for them to keep them or destroy them for I don't want any more of them. Its about all I can do to take care of my own weeds.

Well, I think about all the hogs are out of Lubbock now, that is all that have four legs and don't wear "briches," so why not attend to the dogs and chickens next? I think it would be a good idea to either kill or tax the dogs, not at their actual value in town, for that wouldn't be worth fooling with; but so much per head, say about \$5.00. Then put up the chickens so they can't damage the neighbors and disturb their peace, good nature and quietude; for one old hen in the garden is worse than two pigs in the pen. Now then, as I have disposed of the thistles, hogs, dogs and chickens, I want to say that I, with millions of other men, and I think about every mother heartily endorses "Tenderfoot's" ideas on militarism and compulsory military training for its a great breeder of war and evil morals, passions and emotions, and a destroyer of usefulness, energy, thrift and the true principles of Christianity, civilization and the best interests of humanity. Instead of training for war and destruction, why not train for useful labor, production, progress, peace, happiness, good feeling and the upbuilding and betterment of the world? With that kind of training and with world disarmament just think of the great good, and of the great saving of life, property, sorrow and suffering and enormous expense, waste and loss from useful pursuits and other ways. If one per cent of the money used for militarism and war was rightly used for peace and to prevent wars, we would have no wars and such awful consequences and conditions as we are now burdened with. Just think of the awful expense, waste, extortion, graft and profiteering under which we are struggling. Then in the name of God and for the sake of God, Christianity, morality, civilization, humanity and the fathers, mothers, wives and children, let's use our influence against the creation of more militarism, war, strife, hatred and destruction. But even if we should be forced into war, where was there ever better soldiers than the untrained and starved followers of Washington and Lee? No! We don't need compulsory military training, but if we don't protest, the war profiteers will put it over on us. O, for men a time like this demands. "True, honest, fair and reasonable men."

Yours for peace, liberty and justice to all.
T. J. ESTES.

Miss Mattie Patterson, a popular teacher in the public school of Seminole, was visiting in the home of F. W. Denham Saturday and Sunday.

Mrs. Tom Prudeaux of Brownfield returned to her home Wednesday, after visiting her husband, who has been very sick in the Lubbock Sanitarium for several weeks. Mr. Prudeaux is very much improved and his physicians think he may be well enough to return to his home in a week or ten days longer. His mother has remained at his bedside all during his illness.

Mrs. Tom Prudeaux of Brownfield returned to her home Wednesday, after visiting her husband, who has been very sick in the Lubbock Sanitarium for several weeks. Mr. Prudeaux is very much improved and his physicians think he may be well enough to return to his home in a week or ten days longer. His mother has remained at his bedside all during his illness.
