DEMOCRATIC PREC. CONVENTIONS

WILL BE HELD IN COUNTY PRECINCTS NEXT SATURDAY TO ELECT DELEGATES TO COUNTY CONVENTION

ATTORNEY GENERAL EXPLAINS RULES OF CONVENTION

Chairman of the County Democratic Executive Committee Has Issued Call for Precinct Conventions and Every Voter Should Be Interested Enough To Attend

Call For Democratic Precinct Conventions

Lubbock, Tex., April 22nd, 1920.

As Chairman of the Lubbock county Democratic Executive Committee, I hereby call a precinct convention to be held in each of the voting precincts of said county on Saturday, May 1, 1920, at 2 o'clock P. M. for the purpose of selecting delegates to the County Convention of said county to be held on the 4th day of May, 1920, at 2 o'clock P. M., at the county court house.

At such precinct conventions all qualified Democratic voters, as well as all women who have paid their poll tax as required by law, residing in such voting precincts, will be entitled to participate and vote.

Each voting precinct will be entitled to select one delegate for each twenty-five votes and major fractions thereof, cast for the democratic nominee for governor of Texas at the last general election.

J. E. VICKERS, Chairman Lubbock County Democratic Executive Committee.

Austin, Texas, April 20.—Information relative to precinct, county and State conventions to select delegates to the national convention is contained in an opinion given by the Attorney General's Department and prepared by Assistant Attorney General L. C. Sutton to John W. Hornsby, County Attorney of Travis county. The information contained in the opinion follows:

The State Convention.—The State Democratic convention to elect delegates to the national Democratic convention will be held at such place as may be designated by the State Executive Committee of the party on the fourth Tuesday of May, 1920, which is May 25, 1920.

Selection of Delegates.—Said State convention shall be composed of delegates duly elected by the voters of said political party in the several counties of the State in the following manner:

Precinct Convention.—On the first Saturday in May, 1920, that is, May 1, 1920, a primary convention shall be held in each voting precinct of the county which precinct primary convention shall elect delegates to the county convention.

Hours of Holding Precinct Convention.—The precinct convention shall be held between the hours of 10 a. m. and 8 p. m. on May 1, 1920.

Qualifications of Members.—Only qualified voters of each voting precinct are entitled to assemble and participate in the precinct convention.

Presiding Officer.—Appointment and Qualifications.—The precinct convention shall be presided over by a chairman, who shall have been previously appointed by the county executive committee of the party, and said chairman shall be a qualified voter in said election precinct.

Officers of Precinct Convention.—Said precinct convention may elect from among its members a secretary and such other officers as may be necessary to conduct the business of the convention.

Powers of Chairman.—The chairman of said precinct convention shall possess all the powers and authority that is given to election judges

under the provisions of the election laws of this State. This means, among other things, that he may swear members and interrogate them relative to their qualifications and require them to establish their right to participate in the convention.

List of Voters.—Before transacting any business, the chairman of the precinct convention shall make or cause to be made a list of all qualified voters present; and the name of no person shall be entered upon said list, nor shall he be permitted to vote or participate in the business of such convention, until it is made to appear that he is a qualified voter in said precinct from a certified list of qualified voters, the same as is required in conducting a general election.

Election of Delegates to County Convention.—After the precinct convention is organized, as above provided, it shall elect its delegates to the county convention and transact such other business as may properly come before it.

Record of Proceedings.—The officers of said precinct convention shall keep a written record of its proceedings, including a list of the delegates elected to the county convention, which record shall constitute the returns from said convention.

The same shall be signed officially, sealed up and safely transmitted by the officers thereof to the chairman of the County Executive Committee of the party and to be used by the executive committee in making up a roll of the delegates to the county convention.

The County Convention.—The county convention shall be held on the first Tuesday after the first Saturday in May, 1920, which is May 4, 1920, and shall elect delegates to the State convention aforesaid.

Qualifications of Voters.—These conventions are affairs of the Democratic party, and hence only those who are Democrats can participate in same.

In the foregoing, wherever it is explained that only qualified voters can vote or participate in the conventions or be chairman thereof, it means those qualified to vote in primary elections; that is, for instance, persons who, in addition to being qualified voters generally under the Constitution and laws of the State of Texas, are also full-fledged citizens of the United States; they must be either natural-born citizens or those fully naturalized; persons who have simply declared their intention to become citizens are not qualified voters within the meaning of the law governing the holding of these conventions.

Women are qualified voters within the meaning of the law governing the holding of conventions of this kind and may vote and participate in such conventions if they are otherwise qualified voters.

Presidential Primary Law.—It will be remembered that the statute passed in 1913 attempting to provide for the holding of primary elections on May 1 to select delegates to the national convention, etc., was held unconstitutional by our State Supreme Court. Thus we must resort to the convention system as above outlined, and which is provided for by a previous statute to the one held invalid.

and its original. The climax of the "Miracle Concert" came with the darkening of the room during one of Miss Lucey's selections. The audience depended upon its powers of hearing alone in determining whether her voice came in double volume or only from the New Edison.

At first everyone doubted his own ability to judge, but as her previous proofs were forgotten in the spell of the song, the audience became more and more convinced that no instrument could sing as this voice was singing, and that Miss Lucey was making no more pauses in her own performance. Suddenly the lights were snapped on. The audience was astonished to discover that Miss Lucey was not on the stage and that the New Edison had furnished the song alone.

It was as though two artists with the same tone-quality, the same expression, the same timbre, were singing together. The effect was somehow unreal and weird, as though one singer had been bewitched into two by some magician's art. Such miracles are indeed the work of a magician—but a most benevolent one. For the wizard, who accomplished this miracle of Re-Creation, Thomas A. Edison, is an anxious that it shall add to the comfort and joy of mankind, as he has been that his other inventions be used for the good of the race. Thousands of New Edisons, made up in special form durable enough to stand the hard knocks of Army and Navy usage were furnished to our boys on shipboard and in camps and were a proof of his generous interest in happying the world, without regard for personal gain—for these Army and Navy models were made and sold with no financial gain for Mr. Edison.

PROMINENT STOCKMAN DIED AT PECOS LAST WEEK

F. W. Johnson, prominent ranchman, well known to many of our citizens, died at his home in Pecos last week, and the remains were laid to rest at that place last Friday.

Rev. J. B. Cole, former pastor of the Baptist church there, and for a number of years pastor here, was called to conduct the funeral services of Mr. Johnson, and he returned from that place the early part of this week.

Mr. Johnson was a very popular man in Pecos, and had hosts of friends. The large church there was packed with friends of the deceased and his family, and his death caused a gloom to pass through the city, and his demise will be very greatly felt.

Since the time of my birth I have helped others.

I was born of the craving for knowledge, more efficient work and deeper spirituality.

I dispel ignorance, remove prejudice, overcome indifference, and arouse interest.

I encourage giving.

I increase prayer.

I develop Christian character and provide missionaries.

I am one of the worth while things, and you should learn to put first things first.

I will do these good, and yet there are some who say they have no time for me.

There are many ways to answer the call of the colors.

The Battalion of Life will begin its march at three o'clock, Monday afternoon at the Woman's Missionary Society, in the ladies' parlors, of the First Methodist church. This battalion will march through all the foreign lands. Will you come at that hour and answer when your name is called?

MRS. W. C. RYLANDER, Supt. of Publicity.

The young married ladies of the Baptist church have organized a Sunday school class with the following officers: Mrs. E. L. Klett, president. Mrs. Staggers, vice president. Mrs. Germany, secretary-treasurer. Mrs. Add Clark, recorder. Mr. Starcher, teacher. They wish to extend an invitation to others to join.

STAMFORD IS GIVEN 3,004 POPULATION

Washington, April 15.—Stamford, Texas, has a population of 3,004, as shown by the 1920 census, announced today, or a loss of 188 people compared with ten years ago, or 5.1 per cent. The town was incorporated in 1901.

GROVESVILLE COMMUNITY AFTER TELEPHONE SERVICE

Smith Shaw was in to see us a few days ago, and stated that the people of his community are working on a proposition to put up a private telephone system in his community, connecting with the Southwestern Telephone and Telegraph Company at Lubbock. They are figuring on putting up their own line and furnishing their own boxes.

DR. BANKS ADDRESSED AUDIENCE MONDAY NIGHT

Dr. Louis Albert Banks, representing the Anti-Saloon League, addressed a good sized audience at the Baptist church last Monday night beginning at 7:15 o'clock. For one hour he spoke interestingly on the subject of World Prohibition.

Dr. Banks is one of the foremost theologians and authors in America and presents the question of National and world-wide prohibition under the auspices of the Anti-Saloon League of America.

SOCIETY EVENTS OF THE PAST WEEK

The Baptist Women's Auxiliary had a call meeting Tuesday, April 13th, in the home of Mrs. R. A. Barclay, for the purpose of meeting Miss Essie Fuller, our field representative of the W. M. W. She made quite an interesting and helpful talk on the work and it was a rare treat to have her with us. Her subject was "Woman" and she brought out many women characters of the Bible for examples, showing how they figured in the work in Christ's time. The Auxiliary met Monday, the 19th at the church for a missionary program. Several ladies were present and a short program was rendered. We were glad to have with us as a visitor, Mrs. Williamson of Belton. Our meetings are growing in interest and we feel that God is blessing our efforts. Our next meeting will be a social in the home of Mrs. Ad Clark.

The 1916 Needle Club was delightfully entertained Tuesday in the home of Mrs. A. G. Hunt, with Mrs. J. T. Smith assisting the hostess. Carnations were effectively used as decorations and the afternoon was one of great pleasure. Angel food and ice cream were served to the following ladies: Mesdames Ballew, Quillen, Spikes, Ellis, George, Kimmel, Green, Baldrige, Ellis and the hostesses, Mesdames Smith and Hunt. Mrs. Williamson of Bonham was a much appreciated guest.

(Delayed) Mrs. L. H. Simpson entertained the Needle Club Friday of last week in the lovely home on South Polar street. There was an unusually good attendance and every one present enjoyed the afternoon to the fullest extent. Assisted by her daughter Mrs. Simpson served angel food and ice cream to the following guests: Mesdames Payne, Mitchell, Scott, Clark, Waters, Ruby, Denman, Pryor, Bryan, Walker, Minor, Westlake, Earhart, Boren, Twitty and Maxine Clark and Jack Walker.

(Delayed) The Auxiliary of the Presbyterian church was entertained Monday of last week in the home of Mrs. E. L. Robertson. A very interesting program was rendered which consisted of a vocal duet by Shelby Robbins, Jr., and John Thomas Sears; reading by Mrs. Briggs; song by Virginia Bacon; piano number by Mrs. Robertson; a Biblical contest was held in which Mrs. Smiley Wilson was the victor. Delicious refreshments of devil, food cake and apricot whip were served by the hostess to a large number of ladies and a delightful afternoon was spent by all.

Mrs. O. F. Peebler entertained the Auction Bridge Club Thursday afternoon in her home on Broadway. Three tables of players enjoyed a number of interesting games and Mrs. Shelby Robbins made high score. A salad course was served to the following ladies: Mesdames Wilson, Winn, Robbins, McWhorter, Mast, Noone, Rix, Wright, Simpson, Griffin, Beal, Martin.

INTER-SCHOLASTIC SCHOOL MEET

TWO DAYS OF LIVELY CONTEST BY REPRESENTATIVES OF EVERY COUNTY IN THE DISTRICT

WERE ROYALLY ENTERTAINED IN LUBBOCK HOMES

The Meet This Year Exceeded Any Previous Record for Attendance And Was Pronounced as One of the Most successful Ever Held in This District

The Interscholastic League met here last Friday and held away till Saturday night, the final contests being held Saturday night. There were some real lively competition in the various contests, and the attendance far exceeded any previous meet by far. Every county in the district was represented, and competed for some honor, and everything moved along nicely. It is estimated that a thousand visitors were in the city during the meet, and Lubbock entertained them splendidly. Mr. Dupre, conductor, stated to a representative of this paper that he heard no complaints and that every body seemed pleased with the way the meet was conducted and the manner in which Lubbock people took them into their homes and entertained them while in the city. The weather was rather disagreeable for the outdoor contests, but all the games were played, and were warmly contested from the beginning to the end.

The following is the result of the various contests as we received them from the proper authority:

Debate—Lamm and Conrad of Tahoka.

Rural Debate—Potts and Crim, Canyon.

Discus—First, Blankenship, Lubbock; second, Crowder, Snyder; third, Diebel, Lubbock. 100 feet, 11 inches.

Grammar School Items

The prize in the contest between the High school and Grammar school in securing the greatest number of persons to attend the prohibition lecture at the Baptist church Monday night was won by the Grammar school. It is a beautiful U. S. flag, 6x8, and is very much appreciated by the school. We will soon have it floating from our building.

James Ater, our champion speller, did not win out in the finals but for a junior he did exceedingly well and we are proud of him.

Miss Donnell's class in drawing had a beautiful display in a downtown window during the district track meet. The pupils appreciate the many compliments they received on their pictures.

Mesdames White, Castle, Dean and Keister were recent visitors to our school.

The seventh graders are making preparations for their graduating exercises. Miss Ava Moss will be valedictorian and Miss Zelta Beard salutatorian.

Two of our sixth grade boys, Paul Hargis and Jim Watson, have recently had an arm broken, one by falling and the other by cranking a car. Both are back in school.

Mr. Bright, our History teacher, was recently called to Seminole to referee a basket ball game. Mr. Allen supplied for him in his absence.

The Grammar school boys took an active part in the district track meet. Three men placed in at least two events. Jenkins Ater ran in the relay, and took a second place in the 220 yard dash. Henry Diehle won second place in the shot put, and third in the discus throw. Clarion Christian won second place in both the 120 yard and 220 yard hurdles. Ater will doubtless go to the State meet; his work on the 220 and relay were remarkable and gained him much praise. He will likely develop into one of the best middle-distance runners this district has seen.

Mrs. R. B. Haynes and little daughter, Juanita, Mrs. H. M. Larkin and Mrs. G. E. Lockhart, all of Tahoka were the guests of Mr. and Mrs. E. R. Haynes during the Interscholastic meet.

Mr. and Mrs. Raymond Weathers of O'Donnell were visiting in Lubbock Wednesday.

Mrs. Fulton returned last week from Austin, where she has been taking a special course in the University.

Mr. and Mrs. A. J. Hicks visited their daughter, Mrs. Collum, in Amarillo last week.

Mrs. J. P. Simmons and little son of Spur have been visiting in the home of Mrs. R. W. Walker.

Mesdames J. M. Kinney and E. R. Richards of Wichita Falls, are guests of Mrs. W. E. Faulk and Mrs. C. C. Ray.

Miss Katie Rae McGee of Amarillo, visited her cousin, Mrs. E. L. Robertson, last week.

Mrs. R. W. Walker has as her guest, Miss Amelia Cowart of Bonham.

Mrs. Fred Fite of the Sunshine Ranch is visiting her sister, Mrs. R. W. Walker.

Mr. E. L. Robertson visited in Waco last week and while there attended the Rexall Convention.

BETTER SCHOOLS CAMPAIGN BEGINS APRIL 25TH

A crisis has been reached in the school interests of Texas. Not for a generation has the situation been so grave. It is conceded by all that there is ONE HOPE.

Only One Hope
In the November election there will be submitted to the voters of Texas an amendment to the State Constitution. This amendment purports to remove the limit on the amount of taxes which the people of any district may vote to support their own schools. If this amendment carries, the people of any district can vote money to pay teachers better. Those districts which desire to have good schools and to keep well-prepared teachers, will have liberty to take such steps as they deem proper towards this end. Those which prefer to leave their school situation as it is at present, will also be free to do this. The amendment is a local option measure. It does not raise taxes; it merely permits each school district to make such provision as it chooses for the support of its schools. Those who favor local self-government cannot consistently oppose this measure.

The Situation Critical
This year Texas schools needed about 2,000 more teachers than could be secured for the schools. About 70,000 children did not attend school, because of this teacher shortage. In most cities teachers taught two shifts of children per day. Many teachers below the standard were employed because qualified teachers could not be secured. More than fifty per cent of our rural teachers were mere boys and girls, holding only second grade certificates. Last year Texas lost 80 per cent of its teachers, and two-thirds of this number were among our best teachers. Many are now informing their superintendents that they will not teach next year. More remunerative employment is claiming them.

The Remedy
Teaching must be made attractive, in order to induce capable people to enter the profession, and in order to hold them in the work. We must specify the qualifications and preparation which we expect of teachers, and make it worth while for them to offer these, by paying adequate wages to those who measure up to the requirements. We must fix adequate salary schedules and make it profitable for teachers to enter the profession, and to improve themselves.

This appeal is made to you, not for the sake of the teachers, for they can find other employment; but for the sake of your children. We must have the BEST, to teach Texas children.

Does Not Affect Large Cities
The State Constitution permits nearly all large cities of Texas to vote for their schools such support

as they choose. Why should this privilege be denied to the smaller towns and the rural districts?

The Amendment Must Not Fail
If the proposed amendment should be defeated next November, it will probably be several years before the Legislature will again submit it to the vote of the people. No other measure promising adequate relief in our present crisis in the schools is possible at present. It, therefore, devolves upon all friends of education in Texas to unite efforts in the campaign for this amendment. But it will not pass unless extraordinary efforts are made to line up support for the amendment. A hot campaign must be waged. To wage an effective campaign thousands of dollars are required.

Tag Day
May first has been selected as a TAG DAY for every city, town and community in the State. You are requested to help in making this tag day a success. Let no man or woman escape you. Let each have a tag for any sum that they will contribute, provided it is not less than ten cents. Encourage them to contribute in proportion to their means. Remember, we want not only the money; we want everybody in Texas to know our danger and to work and vote for better schools.

If the first day of May should be too stormy for an effective Tag Day, select a later date, and hold the Tag Day.

Educational Sermon, April 25—
All the ministers of Texas are asked to preach an educational sermon, not simply to make a plea for the poorly paid teachers, but to make a plea in behalf of the cause of education and the children of this great State of ours. Will you help get the request to the ministers of your county?

Public Discussion—Women's clubs and men's clubs are urged to cooperate in getting the subject of better financial support of schools and better pay for teachers discussed in club meetings and in all public gatherings during the week.

Picture Show Exhibit—Teachers' organizations and club ladies are asked to appoint a committee to confer with picture show managers, enlist their cooperation, and get thrown on the screen during this week statistics showing the rank of Texas educationally, the comparative amount of money spent per capita for education, the average salary of Texas teachers, the number of vacancies this year, and therefore, the number of children deprived of educational advantages, etc.

English Essay Contest—English teachers are requested to have pupils write an essay on "Better Pay for Teachers and Better Schools for Texas," or some kindred subject. Offer a prize for the winner, and have the winning essay read at the educational rally at the close of the week.

Educational Rally—The parent-teachers' organizations are asked to

TOO SHORT TO DO UP AND STILL FALLING

A Little "Danderine" stops your hair coming out and doubles its Beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

Land Loans

Sooner or later you will likely consider putting a loan on your land and it is a thing you should not do hurriedly, until you consider carefully the terms and the company.

First, see that the options granted apply fully to all the notes, including all interest.

Second, know who will be holding the notes.

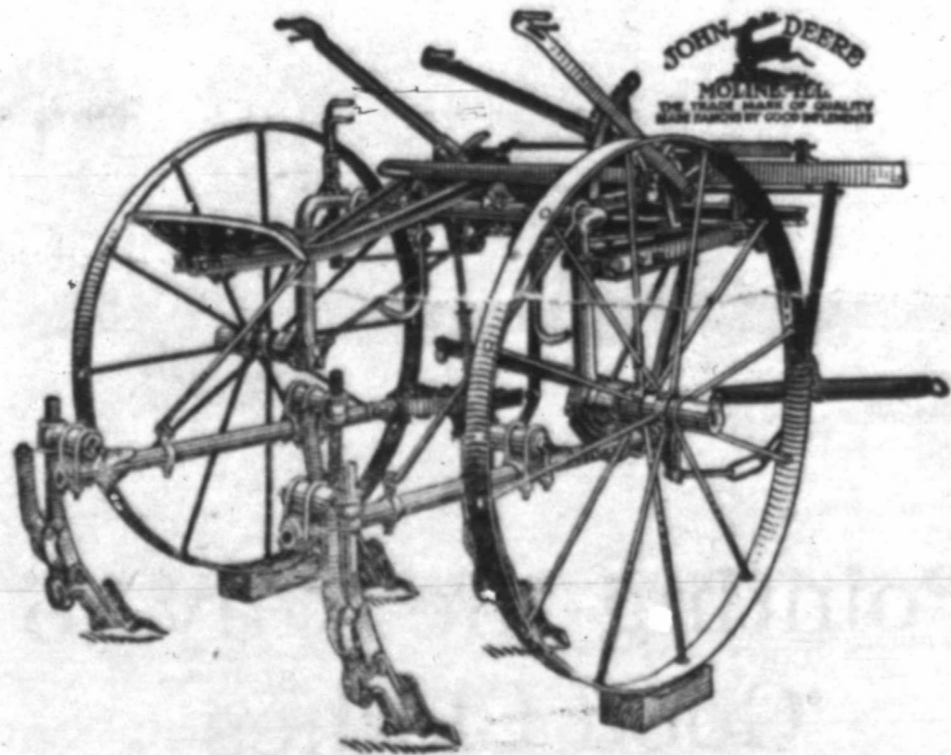

My people hold all their own notes, take only one deed of trust and will release portions of your land if you should sell off during the life of the loan. These are things more than important to you.

John Deere KC Cultivator

The John Deere KC Cultivator has established, in actual use, a high reputation for giving special satisfaction to the user because of its features that make thorough work easier and faster.

It provides for all of the ordinary adjustments and requirements and, in addition, has several new and valuable features found only on this cultivator.

With the shovels of the John Deere KC Cultivator properly "set," the operator can drive into the field and adjust the machine for distance of cultivation from the row, for depth of cultivation and for level cultivation, without leaving the seat. There is a handy lever for every adjustment necessary to meet the different field conditions.

Easy to Handle on Crooked Rows—Does Thorough Work While Dodging

The rigs of the John Deere KC, being rigidly connected to the arch arms, are held firmly at a uniform distance apart, shifting with the arch arms and wheels when dodging. They are always parallel with the line of travel.

That means that the shovels on both rigs always face squarely in the direction in which the cultivator is traveling and cut out full width on crooked rows as well as on straight rows.

Spread Lever Space Rigs at Both Front and Back

You will be sure to like the way the John Deere KC's rigs can be adjusted for distance of cultivation from the row. A special lever, located within easy reach of the operator, spreads the rigs the same distance

at both front and back, instead of swinging them in and out at the back only. Spread either wide or narrow, the beams of the KC are always parallel. The shovels point to the front and hold their "set," assuring parallel level cultivation.

Front and Rear Shovels Penetrate to Same Depth

Another valuable feature of the John Deere KC is the level penetration of the shovels. The front and back shovels on each rig enter the ground level and continue level as they are lowered by the depth lever. The "set" and "suck" of the shovel are always the same regardless of the depth of cultivation.

Master Level Raises Both Rigs and Balances Machine

The master lever raises both rigs and balances the machine. The shovels lift high and level. With the machine perfectly balanced, the pole stays down when turning. Both team and operator are comfortable. When the rigs are lowered by releasing the master lever, the double bail rig hangers cause the shovel to penetrate level.

You Need the John Deere KC

Remember, good cultivation is one of the most important requirements of your business. Your young crop plants need the best of care. The quantity and quality of your crop yield will depend upon how well your cultivator destroys weeds and aids the soil in maintaining the proper amount of moisture. You will find the John Deere KC especially satisfactory in meeting all the requirements of good cultivation.

TRAINING LITTLE CITIZENS

The School as an Americanizing Agency

When Dr. Anna Howard Shaw was chairman of the Women's Committee of War Defense, she wrote from Washington: "I get many letters from teachers, in country schools particularly, which say, 'We love our country and we want to help it; what can we do to serve it?' She continued, 'I have one answer to make; 'Stick right to your job.' There is no work that any woman can do for her country today that is more needed, more patriotic than to stay by the school and teach patriotism to the youth of the country.' This is just as true today as it was during the war.

In a hundred ways the average teacher can stir the love of country in the hearts of her pupils; by the saluting of our flag each day after its significance has been explained; by enthusiastic singing of patriotic songs and by stories of American discoverers, pioneers and heroes. In these and other ways the teacher can bring about a wonderful quickening of the children's right emotions, directing them into happy and useful activities.

Young children of kindergarten age can carry into their homes love and appreciation for our nation, as shown by the following story. A certain kindergarten located in one of the "doubtful" districts of Chicago, was in charge of a most enthusiastic and patriotic young kindergarten. On the first Memorial Day after our entry into the World War each child in the kindergarten made a little American flag. They were delighted to take this bit of hand work home to their fathers and mothers.

A few days later the kindergarten noticed that one little five year old boy had been absent so she decided to visit him. His address brought her to a rather disreputable looking saloon in a neighborhood in which several arrests had been made for unpatriotic utterances. Finding

herself in such surroundings, she hesitated and then strengthened her courage by realizing that any home welcomes the person who is interested in its children.

She knocked at the side door which evidently led into the living apartment. The mother of the child opened it and the young kindergarten was invited in. The mother stated that she had kept the little boy at home because he had not been well. The chat drifted into talk about the kindergarten and the pleasure which it had brought him.

Finally, rising eagerly to her feet, the mother said, "Just you come here—I show you what my man has done." Timidly tiptoeing, as if she herself were afraid, she led the way to the door which connected with the saloon and opening it cautiously, said in a whisper, "Just look there. He has put little Fritz's flag on his big looking glass," and sure enough, in a conspicuous place, fastened to the edge of the big looking glass over the main bar was the little paper flag which the child had made and brought home from the kindergarten.

Fritz's father was a man who had been known to utter bitter denunciations of the American Government before the war began and in his saloon many inflammatory meetings had taken place.

This is but one instance of how "a little child shall lead them."

Mrs. J. P. Potts and family spent Sunday with her parents in Lubbock.

Mr. and Mrs. Abner Sides and family and several friends from Lubbock went picnicing on the Canyon Sunday.

Mr. and Mrs. Raymond Pinkerton from Ralls spent the week-end with the latter's parents.

Mr. Roy Potts was a pleasant caller at the home of Mr. and Mrs. Estes Saturday night.

Several of the farmers attended the speaking of the Cotton Growers' Association Saturday afternoon.

Bro. Bowen and wife from Lubbock took dinner with Mr. and Mrs. J. F. Goodnight Sunday.

The daughter of Mr. and Mrs. Akins from Ropes is visiting them this week.

The infant son of Mr. and Mrs. J. C. McDole died Tuesday from the effects of the flu which developed into pneumonia. The interment took place in the Lubbock Cemetery Wednesday morning. The relatives have the sympathy of the entire community in the loss of their loved one.

Most everyone went to the track meet Friday and Saturday.

Bro. Bowen rendered a good discourse to a large crowd Sunday.

Mr. Henry Webb is hauling sand Saturday. He is preparing to build a new house.

Mr. Kimbrell was a Lubbock visitor Saturday.

Mr. and Mrs. Jud Pounds and family are spending several weeks with Mr. and Mrs. Thurman Potts. Mr. Pounds will probably live here this year.

Misses Mary Potts and Inez Crim were very successful in winning in their debate both at the county and district meet. This will entitle them to a trip to Austin. The school and community are proud of these girls. They are the first to get a trip to Austin from this district in the Interscholastic Meet.

The car of Mr. Jewel Potts turned over with him Friday. Some part of the car broke which caused the accident. He was accompanying his sister, Mary, to school. No one was seriously hurt.

Mr. and Mrs. H. M. Williams and family were Lubbock visitors Saturday.

A number from this vicinity attended the tent show at Lubbock Saturday night.

CANYON HIGH SCHOOL NOTES

Our school is getting more interesting every day, because all the pupils are getting down now to real work and working very hard to get exempt from final examinations, as we only have about one more month of school.

Those that were absent from school last week were: Maud and Ora Hufstader and Dudwain Gaither.

Dudwain Gaither has gone home this week and will be absent from school several days.

We had real good luck at the county meet, but we lost most everything in the district meet. Mary Potts and Inez Crim were very lucky in winning first place in the rural debate.

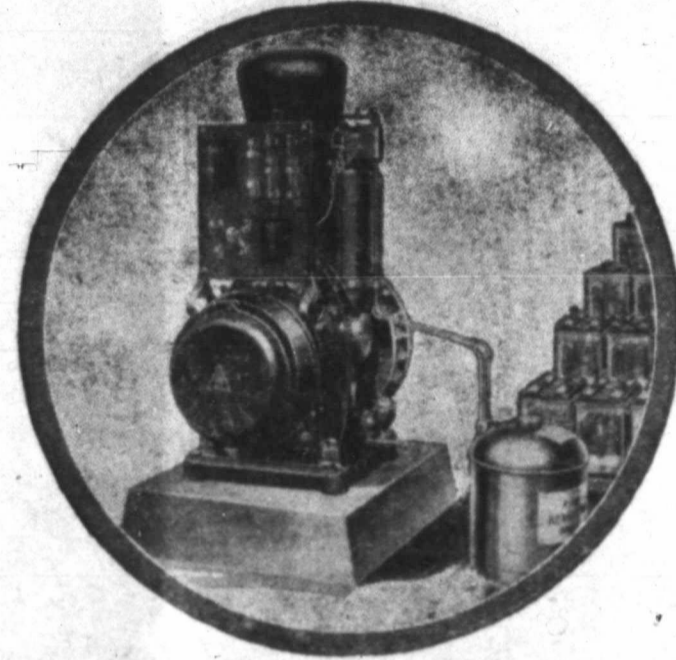

We are going to have a program at the last of school. Everybody is invited.

SENATOR BLEDSOE DEFENDS NATIONAL ADMINISTRATION

Lubbock county voters will black Joseph W. Bailey's name for Governor of this State and will vote to send delegates to the Democratic National Convention with instructions to work in harmony with the present Democratic administration, according to the applause accorded Senator Bledsoe last Saturday afternoon when he spoke in behalf of the administration, following a prolonged speech made by Attorney A. T. Cole, in support of Bailey for Governor. Attorney Cole ridiculed the administration activities inasmuch as he charged it with needless and unanswerable extravagance. In closing his first talk, Cole read an eulogy on the administration's leader, acknowledged to have been pronounced and written by the Republicans.

In answering, Senator Bledsoe likened Bailey to Benedict Arnold, a betrayer of his country, inasmuch as he had denounced and ridiculed their actions, after they had conferred their honors upon him. In effect, it was his opinion that denunciation of Bailey for Governor, would be as unanimous as that of the United States against Arnold.

Senator Bledsoe defended ably the Child Labor Law, stating that it was his belief that it was one of the grandest laws now upon the statutes. Senator Bledsoe also quoted part of the Constitution of Texas for authority that Bailey was not an eligible candidate for Governor. Applause after applause followed his defense of Wilson.

PICTURE SHOW AT EAST WARD SCHOOL HOUSE

We will have a very interesting picture show at the East Ward school house, Friday night, April 23rd. The show will be given for the benefit of the school children, but it will be very interesting to grown-ups as well. Everybody is cordially invited to come. No admission charged.

Are you afraid of death? We can write you an insurance policy covering it. Briggs & Young. 431

"Gosh! How my back aches!" After Grip, "flu" or colds, the kidneys and bladder are often affected—called nephritis, or inflammation of kidneys. This is the red flag of danger—better be wise and check the further inroads of kidney disease by obtaining that wonderful discovery of Dr. Pierce's, known as Anuria (anti-uric-acid), because it expels the uric acid poison from the body and removes those pains, such as backache, rheumatism in muscles and joints. Naturally when the kidneys are damaged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations. Dr. Pierce's Anuria is many times more potent than lithia.

Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

YOKUM, TEXAS.—After using different kinds of medicines for kidney and bladder troubles will say that I have given Dr. Pierce's Anuria Tablets a fair trial and was greatly benefited, and do hereby cheerfully recommend Anuria to all persons suffering from kidney and bladder troubles. HENRY ROTH, Route 4, Box 128.

JOHN B. STEEL ECMMITS SUICIDE FRIDAY MORNING

John B. Steele, age 55 years, a farmer living about 5 miles south-east of this city, died Friday afternoon about 1 o'clock result of a wound self inflicted from a .32 automatic pistol. Post-mortem examination made by Justice of the Peace E. C. Fain and County Attorney Jno. R. McGee, reads to the effect that death was "the result of the self-inflicted wound, caused by ill health and despondency."

The deceased had lived in Lubbock county only about three months coming here with his family in February, shortly after he had purchased one of the finest sections of land in the county. For this land the deceased paid \$65 an acre, and we are informed that he paid more than \$13,000.00 cash payment on the land. Immediately after arrival in this county the deceased, together with his two older boys, went to work to improve the newly purchased home. They purchased a nice residence and moved to their farm. They also had prepared a large body of land for cultivation for this year.

The deceased raised and gathered a large crop of cotton near Roxton, Texas, the place of his former home, and had held this cotton awaiting for better market conditions. He had planned to leave on Saturday for Roxton, we are told, to see about the disposal of the cotton. According to the best information obtainable, his wife tells that her husband had been worrying a great deal of late of the crop of cotton and the dry weather prevailing here, and often remarked recently that he did not think he could stand to live in this country.

About 11 o'clock, it is supposed, Friday morning, the deceased went out from the house, toward his two boys who were working on a fence some distance from the house. He evidently stopped in the path that the boys would travel going to dinner, so that they could find his body. He was within about two hundred yards of his sons, when the shot was fired into his temple.

Death came about two hours following the wound and Justice Fain and Attorney McGee were called to hold the Post Mortem examination.

The deceased is survived by his wife, three boys and one girl of this county, and several brothers who reside in Roxton, Lamar county. The body was shipped to that place last Saturday for interment.

LUBBOCK COUNTY SCHOOLS RECEIVE FURTHER STATE AID

County Judge J. H. Moore this week received additional state aid money from the State Superintendent which runs the total received this year up to \$10,709 for the nineteen schools in the county, which makes an average of \$567 per school. Hardy's appropriation was increased from the last report and Shallowater received her full amount, \$670. A noticeable feature about this is that eleven out of the nineteen schools received all they applied for, which is very conclusive evidence that the schools have made good on the requirements by the state aid board, and are up among the best in the State.

Miss Halsey met with us Wednesday afternoon, April 14th, at the home of Mrs. G. C. Davis. This being our first meeting for the year, there were not as many present as we had hoped for. The afternoon was spent in planning our year's work and in election of new

officers, after which refreshments consisting of sandwiches and chocolate were served. The officers elected for the year were: president, Mrs. Douglas Pounds; vice president, Mrs. R. E. Davis; secretary, Mrs. O. E. Rush; committee, Mrs. M. S. Sharp, Miss Pearl Mitchell and Mrs. G. C. Davis.

We are always glad to have Miss Halsey with us. We were also very glad to have Mrs. J. C. Morris and Mrs. W. C. Terrell from Lubbock, who accompanied Miss Halsey on this occasion. We want to insist on every lady in the community attending these meetings. We believe you will be benefitted. Our next meeting will be the second Wednesday in May, at the home of Mrs. T. J. Strickland. Everybody come. Let's see if we can't accomplish more this year than ever before.

SECRETARY.

EAGLE SHIRTS

IT is our business to know good merchandise. We recommend Eagle Shirts.

Experts have experimented in the maker's own mill with designs, colors and varieties of yarn to achieve exceptional patterns—as if pattern were everything. Fabrics have been woven in the maker's mill where they are conceived—with as much care as though beautiful cloth were the only consideration. This manufacturer of over fifty years' experience has been constantly bettering every detail of cut and tailoring—as if workmanship alone would sway a man.

We know these things. That is why we believe in Eagle Shirts. That is why we want you to see our window display of Eagle Shirts; why we want you to come in, examine them, buy them, wear them. You'll understand then why we recommend them so heartily.

Every shirt the ultimate in value

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kanis of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh affects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.

For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.

Sold everywhere in tablet or liquid form.

Paul Barrier of Floydada was here on business this week. This life is full of trouble, but it comes mostly to those who hunt it.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Lubbock County, Greeting:
You are hereby commanded to summon A. J. Robertson, Fannie H. Napier, Hays H. Robertson, Sterling C. Robertson and Van Irion, and the unknown heirs of the said A. J. Robertson and of Fannie H. Napier, and of Hays H. Robertson, and of Sterling C. Robertson, and of Van Irion, by making publication of this citation once in each week for four consecutive weeks previous to the return date hereof, in some newspaper published in your county, if there be a newspaper published therein and if not, then in any newspaper published in the 72nd Judicial District, to appear at the next term of the District Court of Lubbock County, Texas, to be held at the court house thereof, in Lubbock, on the first Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920 then and there to answer a petition filed in said court on the 3rd day of April, A. D. 1920, in a suit numbered on the docket of said court No. 1333, wherein P. H. Herndon, is plaintiff, and A. J. Robertson, Fannie H. Napier, Hays H. Robertson, Sterling C. Robertson and Van Irion, and the unknown heirs of the said A. J. Robertson, and of Fannie H. Napier, and of Hays H. Robertson, and of Sterling C. Robertson and of Van Irion, are defendants, the nature of plaintiff's demand being as follows:

Plaintiff alleges that on January 1st, 1920, he was lawfully seized and possessed of the title to the following portions of the Jas. R. Robertson Survey, in Lubbock County, Texas, by virtue of Certificate 23-113, Patent No. 49, Volume 23, issued June 17th, 1879, described by metes and bounds as follows:

First Tract—Beg. 2268.6 vs. S. of the N. E. cor. sd. sur; thence W. 1,121 7-12 vs. a stk; thence S. 1108.4 vs. to S. line sd. sur; thence East 1121 7-12 vs. to S. E. corner sd. sur; thence N. 1108.4 vs. to beginning, containing 230 acres of land.

Second Tract—Beginning 1320 vs. S. and 952.22 vs. W. of N. E. cor.; thence W. 838.78 vs. to E. B. L. subdivision 3, sd. survey, a stk.; thence S. 368 vs. to S. E. cor. sd. sub-div. 3; thence W. 451.5 vs. to N. E. cor. Sub-Div. 4, sd. sur; thence S. 579.6 vs.; thence E. 1289.28 vs.; thence N. 948.6 vs. to beginning, containing 160 acres.

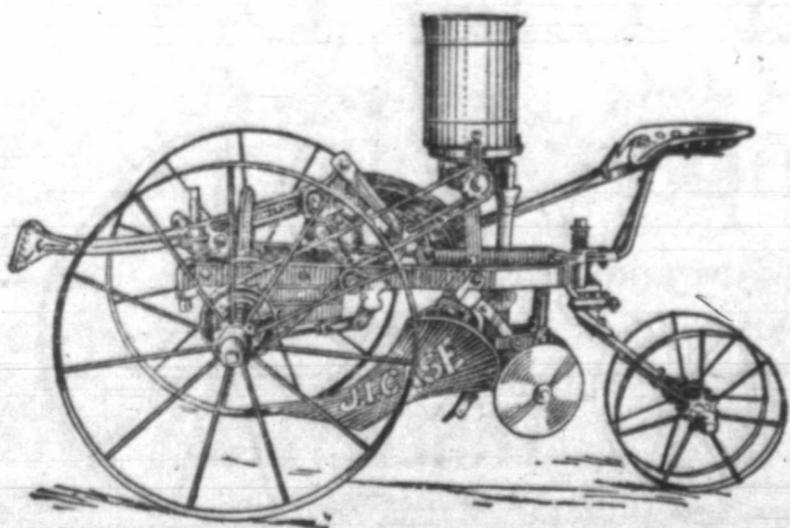

Third Tract—Beginning 1121.7 vs. W. of S. E. cor. sd. sur; thence N. 1108.4 vs; thence W. 1121 7-12 vs; thence S. 1108.4 vs. to S. W. corner sub-div. 5, sd. sur; thence E. 1,121 7-12 vs. to beginning, containing 230 acres; that on said date the defendants unlawfully entered into possession of the premises described and ejected plaintiff, and withholds possession to his damages, \$1,000.00. Plaintiff prays for his damages; for the recovery of title and possession from defendants; writ of restitution, etc. Plaintiff also claims title under the three years statutes of Limitation; as defined in Art. 5675, Rev. Civ. Stats. of Texas; and also claims under five year statutes of Limitation, as defined in Art. 5674, R. S. of Texas; and also claims title under 10 year statutes of Limitation, as defined in Art. 5675-5676, R. S. of Texas, claiming title under said statutes of Limitation to all lands above described.

Herein, fail not, but have you before said court on the first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office at Lubbock, Texas, this 3rd day of April, A. D. 1920.

California's O-K

The State of California has placed her unqualified O-K on Horse-Shoe Tires by specifying them exclusively for all state owned cars.

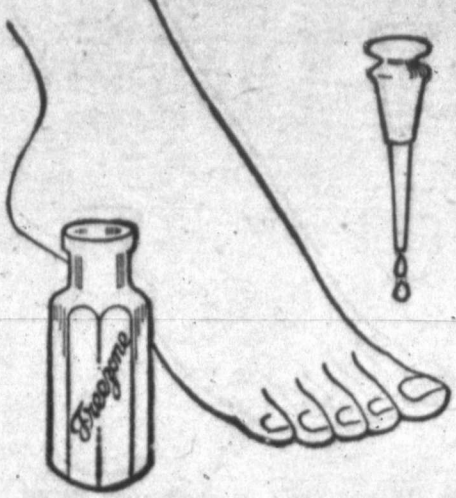

This sixty-five thousand dollar contract was placed after Horse-Shoe Tires had proven their actual superiority. If a tire can make so good on the heat shrouded deserts, the snow clogged mountain passes and jagged mountain trails of California, do you wonder it is making so good right here? Let us tell you more about them.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Taft says the president's "stubbornness" defeated the treaty. If Taft, when president, had had a little of that same "stubbornness" when a tariff bill was sent to him to sign, he might have had a second term.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prime of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time..."

I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. about my taking Cardui. He said, "It's a good medicine, and good for that trouble," so he got me 5 bottles. After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

Club work among boys and girls has proved popular in the past and is maintaining a healthy growth.

AN INTERESTING BIT OF TEXAS HISTORY

Washington, April 10.—The first census record for the State of Texas was the enumeration of 1850, the Republic having been accepted as a State in 1845, at which time its total population was 212,592, or more than one square mile for each person enumerated. The city of New York that year had a few more than 500,000 people. In 1910 the Texas population was 3,896,542. No prophecy may be made as to total population based upon past percentages of increase owing to the great variance between decennial enumerations, but it is believed that this year Texas will go considerably above 5,000,000 which may give it fourth place among the states. It is now fifth.

When Texas was admitted as a State in 1845 it claimed considerable territory not now within its confines. In 1850 it sold to the Federal Government for \$10,000,000 all claimed outlying area which reduced to the size as shown by present day maps. The enumeration of 1850, the first, was by no means complete. The country was thinly settled and the Government facilities of seventy years ago were not as complete nor as carefully employed as today. Only twenty-three cities and their populations were separately listed in the first census. They were Austin 629, Bonham 211, Castroville (Medina county) 366, Comaltown 286, Corpus Christi 533, Crockett 150, Eagle Pass (then in Bexar county) 383, Fredericksburg 754, Galveston, Hometown (Comal county) 139, Houston 2,396, Indianola 379, Lavaca 315, Marshall 1,189, McKinney 192, Nacogdoches 468, New Braunfels 1,298, Palestine 212, Richmond 323, Rusk 355, San Antonio 3,488, Victoria 806 and Zodiac (Gillespie county) 160. Only eleven counties were listed, the largest being Harrison, with a population of 11,822, of whom 6,213 were slaves.

58,161 Were Slaves
Only 154,034 of the people in 1850 were white. There were 397 free negroes and 58,161 slaves. The population given for the cities and towns includes persons of all classes. Galveston had 678 slaves, Houston 527, Marshall 421 and San Antonio 220. Of the white population throughout the State 84,869 were males and 69,165 females. The persons of foreign birth were shown to be 17,620, of which 4,459 were Irish, 3,191 Germans, 1,403 Irish and 1,002 English. The greatest proportion of the native population came from Tennessee, Virginia, Georgia, North Carolina, Alabama, Mississippi and Kentucky. The State had only two members of Congress. The Northern, or first district, embraced all the territory north of a line running a short distance above the southwestern corner of Oklahoma in a semi-circle, including Tarrant and Dallas counties, and down the Trinity to the coast some distance west of Galveston. The second district reached from the upper Panhandle to Brownsville and included everything west to El Paso. The first members were David S. Kaufman of Sabinetown and Timothy Pillsbury of Brazoria. Kaufman died Jan. 31, 1851, and was succeeded by Richardson Scurrey of Clarksville, and Pillsbury was succeeded by Volney E. Howard of San Antonio.

Kaufman died Jan. 31, 1851, and was succeeded by Richardson Scurrey of Clarksville, and Pillsbury was succeeded by Volney E. Howard of San Antonio.

The enumeration revealed there were only two schools listed as colleges, with seven teachers and 105 pupils. The public schools numbered 349, with 360 teachers and 7,946 pupils, and the annual income of the schools was \$44,088. There were ninety-seven academies "and other schools," with 137 teachers and 3,389 pupils. There were 10,583 persons, including free negroes who could not read and write. Under the classification of professions, 701 persons were listed as "blacksmiths and whitesmiths," 1,361 carpenters, 25,054 farmers, 107 boatmen, 2 fishermen, 44 hat and cap manufacturers, 155 innkeepers, 152 "rangers" and 11 sailmakers.

Small Improved Acreage
The land embraced among farms was reported as being 639,117 acres improved and 10,759,220 acres unimproved. The farms were rated at an aggregate value of \$16,398,747 and the improvements at \$2,133,831. The following live stock enumeration was shown: Horses 75,403, mules 12,374, dairy cows 214,868, work oxen 50,482, other cattle 652,174, sheep 99,096, swine 683,604. The value of the live stock was given at \$10,267,710. Texas produced in that year wheat 41,729 bushels, rye 3,108 bushels, Indian corn 5,978,590 bushels, oats 198,717 bushels, rice 88,203 pounds, tobacco 66,897 pounds, cotton 57,596 bales and 400 pounds each, wool 131,374 pounds, sweet potatoes 1,322,955 bushels and butter 2,308,080 pounds.

Texas had 341 churches. There were 82 Baptist, 5 Christian, 5 Episcopal, 7 Free churches, 176 Methodist, 45 Presbyterian, 2 Union, 6 minor sects and 13 Catholic. The total church property was valued at \$204,930. The Roman Catholic was the richest church with a property value of \$79,700.

over the beef, then sprinkle with coarse crumbs, and brown under a flame or in a hot oven.

For sauce—for a three-pound piece of meat—cut up half a cup of green onions and cook these with two tablespoons of butter or butter substitute. Brown slightly. Stir in two tablespoons of flour, add a cup and one-half from the stock of brisket, and tablespoon of minced parsley. Keep the sauce over hot water, or in a double boiler, until the meat is finished. Pour the sauce over the meat and serve.

From left-over prepare beef croquettes. There should be enough left from this roll to prepare croquettes for a family of five for the second meal.

Quick Meat Loaf

3-4 pound round or some other solid meat run through meat grinder twice.

3-4 cup softened bread

1 beaten egg.

Salt and pepper.

Lemon juice.

A little nutmeg.

Onion juice added to bread. Add the bread mixture to the meat. Shape in a bowl and sprinkle well with flour. Melt two teaspoons of butter in a frying pan, put in a sliced onion, cover and cook slowly, until the onion is a light brown; remove the onion; put the meat loaf into the hot pan with the floured side down. Cover and cook for ten minutes, then sprinkle the top with flour, turn carefully, and cook for five minutes longer. Lift the meat loaf on to a platter with a cake turner, place the cooked onion on top and pour over the juice remaining in the pan. This meat loaf can be served either hot or cold.

CATTLE LOWER; HOGS HIGH-ER; SHEEP STEADY

A big advance in prices for fat cattle late last week, together with improved railroad service, resulted in fairly liberal receipts of cattle today, and prices were down 35 to 50 cents, though still materially higher than a week ago. Hog prices were 15 to 25 cents higher, top \$15.50, and bulk of sales \$14.50 to \$15.25. Sheep receipts were liberal but the market held steady.

Today's Receipts
Receipts today were 8,000 cattle, 5,500 hogs, and 8,500 sheep, compared with 5,000 cattle, 750 hogs, and 3,000 sheep a week ago, and 14,700 cattle, 19,600 hogs, and 16,800 sheep a year ago.

Beef Cattle
More than 50,000 cattle, practically all of them fat enough for killers arrived at the principal Western markets today. This supply was too large considering the fact that shipping conditions are not fully normal. Late last week Chicago prices were sharply lower, and further declines prevailed there today. Here prices for steers, and butcher grades were 35 to 50 cents lower than Friday and 60 cents to 75 cents under Thursday, the high point last week, though still 40 to 50 cents higher than two weeks ago. Choice heavy steers sold up to \$14.25, and yearlings up to \$14.00. Cows sold mostly at \$9.50 to \$10.50 and heifers \$10.00 to \$13.25. Veal calves were 35 to 50 cents lower, top \$16.00.

Stockers and Feeders
Today's receipts included few cattle, suitable for stock and feeding purposes. Demand was not urgent, and prices were unchanged. Neither dealers or commission men are counting on any large trade in this cattle until normal shipping conditions are assured. Some feeders today sold at \$10.50 to \$11.50.

Hogs
Hog prices today were quoted 15 to 25 cents higher. Shippers were not in the competition, and packers bought the entire supply. The top price was \$15.25 and bulk of sales \$14.50 to \$15.25. In buying the supply, packers made less discrimination between heavies and medium weights. Light weights still command a premium. Packers are in a position now to handle increasing supplies, and shippers are expected to be in the competition by the middle of the week.

Sheep and Lambs
The liberal supply of fat sheep and lambs was taken at steady prices.

Good Land--City Homes Easy Terms

*—and no one could
tell the difference*

Last Monday's audience mystified

*Tries vainly to detect difference between voice of famous soprano
and RE-CREATION by Edison's new phonograph*

Those present at the Methodist Church last Monday night saw Leola Lucey walk onto the stage. They saw her take her position next to a beautiful cabinet. They saw her lips give voice to the opening lines of *Roses of Memory*. Then suddenly her lips were still—but the song kept flowing on.

How came this? They were hearing Miss Lucey's voice, yet Miss Lucey was not singing. The entire audience gasped as it slowly realized that it had been unable to distinguish between Miss Lucey's voice and the RE-CREATION of that voice by the New Edison.

This was the daring test undertaken last Monday night at the Methodist Church by Thomas A. Edison. He sought to prove that no difference exists between the voice of the living artist and its RE-CREATION by the New Edison. The musically cultured of Lubbock were invited to pass judgment. No test could have been more exacting.

Miss Lucey made comparison after comparison. The mystified audience tried vainly to catch a difference between the original rendition and its RE-CREATION by the New Edison. No one could tell one from the other. It was a triumph whole and complete for the New Edison.

The NEW EDISON

"The Phonograph With a Soul"

The instrument used in Monday night's tone-test is the regular model which sells for \$295. It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

The New Edison alone of all phonographs is capable of sustaining this test. Until Mr. Edison knew it would do so, he regarded his work as unfinished.

Ask some one who was present last Monday night. Learn the amazing truth. Then come in and let us prove it personally to you.

DISCARDED AS DANGEROUS

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

BLEDSOE NEWS OF THE PAST WEEK

The Bledsoe Community Club met Friday afternoon, when one of the most interesting and enthusiastic meetings of the year was held. **Battery Repairs and Re-insulation
Better Service—Better Batteries**

Battery repairs are often the result of failure to use that service which Willard has established for the car owners of America in over seventeen hundred places.

There are two distinct sides to Willard Service: One is paid service—*curing battery troubles* by skill and thoroughness in handling repairs—doing the job in a workmanlike fashion so that it doesn't have to be done over.

The other side of Willard service is *prevention of battery trouble*—and that you do not pay for. Registration of new batteries for special service, cards entitling any owner to testing and filling, good advice, informative literature and general helpfulness.

Every Willard Service Station sells the Still Better Willard Battery—a battery that was already better in material, workmanship and record of service, and was made *Still Better* by the invention of Threaded Rubber Insulation.

A Better Market For Farm Products

In these days of the extreme high cost of food it is necessary that every family save as much food as is possible by canning meats of different kinds, vegetables, fruits, etc., by drying fruits and vegetables, and by preserving a good supply of eggs in waterglass.

However, practically every farm that produces these things, and milk and butter, for home use, has a surplus which is offered for sale. In fact, every farmer has been urged constantly during the past four or five years to produce as much food as possible above his home supply. But he often meets with a great deal of discouragement when he is ready to dispose of this surplus, for the

farmer often feels that the prices paid on the open market for milk, butter, eggs, fresh garden stuff and the like, is not sufficient to justify him in bringing these things to town.

Yet, though it seems hard to say it, we, as farmers, are often largely to blame for the fact that we have no better market and are so often forced to take whatever the buyers offers us instead of demanding and receiving a fair price for our products.

Small Products Not Considered Important

In the first place too many farmers have the idea there is no money on the farm except the main crops. How often have you heard a man say that a garden or orchard is "not

worth fooling with. I could plant the space they would occupy in cotton, maize or sudan and buy more fruit and vegetables than that much land will produce." Maybe so, under some conditions. But I want to ask how many of you ever saw a farmer with a variety and abundance of good food upon his table the year round getting very far ahead if he depended upon his field crops to pay for it all?

Standardize Your Products. The next big mistake we make is in paying too little attention to the quality and appearance of what we have to sell. Too often we think in terms of quantity instead of in terms of quality. Consider the question of fresh vegetables, berries or fruit. As a rule, if we have a surplus of onions, potatoes, tomatoes, or other such garden stuff we just gather up a large quantity of it and take it to market in practically the same condition that we gathered it, i. e., if we are selling tomatoes they may be dirty, bruised, green, medium ripe, and overripe, and of various shapes and sizes all carried in the same container. Then we rail at the merchant if he offers us a small price for our products or tells us that he cannot use them at all, while we know he is handling quantities of "shipped in stuff." Did you ever examine the "shipped in stuff?" You note that it is all graded as to size, color, soundness, etc., so that the merchant can estimate very closely at a glance what his profit or loss on each barrel, box or crate, will be.

But if you are too far from a market to sell fresh vegetables you may want to sell some of your canned products. Here also is a need for standardization. Here thinking and planning and a careful estimation of the cost is required. Under Home Demonstration methods, club members, both girls, boys and women learn to put up fruits, vegetables and meats, pickles, preserves and jellies in such a way that these products will command just as high a price on the market as any of the "577 varieties," or other factory products. When a canning club girl cans a can of tomatoes in this section it should contain exactly the same thing that would be found in any other canning club girl's can of tomatoes no matter what part of the State it comes from. Not only that, but if these vegetables are canned in tin and strictly according to demonstration methods, a sample of what you have to offer is so convincing that it usually guarantees a ready sale.

Take the question of dairy products, butter for example. As long as the home maker hastens her butter-making by pouring quantities of boiling water into the milk, instead of ripening the cream properly and churning it at the right temperature; as long as the butter is overchurned, so that the milk cannot be washed out nor the salt worked in; so long as butter molded into various shapes and sizes and sent to market wrapped in cloths or newspapers, just that long will country butter bring a low price. On the other hand when the milk is properly cared for, the cream churned and the butter washed and worked as it should be, the butter carefully molded into pound sizes, wrapped neatly in butter paper and placed in clean cartons and sent to market, the home maker can name her price. For this is a product that will not only sell readily that one time, it will create a demand for more of the same quality and she will have to call upon her neighbors to help supply the demand. Then she will wonder why more people are not selling that kind of butter. Well, aren't they?

Take a Real Ride in the Cleveland, and You'll Know What a Car It Is

The Cleveland Six, the sensation of the year among light sixes, is selling itself to thousands who use discrimination in picking out the car they want.

To attempt to describe the qualities of the Cleveland Six is no easy task. You must ride in it to know it. Take a real ride and you begin to understand that here is a better light six, very much better. It has an enclosed over-head valve motor, of exclusive Cleveland design and manufacture and tested in road work for three years before being offered the public, that gives performance unsurpassed.

A real ride will show you, better than can be told you, that the Cleveland has power and pick-up and flexibility and ease of driving that do not come with many other cars. Low-hung spring suspension and splendidly upholstered cushions wipe out the road-bumps. Beautiful body lines place the Cleveland above the usual plane in appearance. Upholstery is of genuine hand-buffed leather.

Come let us show you what a car the Cleveland is

THE UNIVERSAL CAR

The Ford truck is really a greater necessity to the farmer than is a team of horses. Certainly it is a greater utility and economy for him. It saves time, it gives prompt and almost unlimited service along the entire line of farm work from carrying the milk to marketing the products of the farm. It is not expensive to maintain and has all the Ford simplicity in mechanism that makes it easy to operate. The price, too, is attractive, about the price of a team of horses; \$550, without body, f. o. b. Detroit.

create. This rubber stamp can be bought from a firm in Texas and will only cost a small sum. You can have it give your name, the name of your farm, or a number, (so that the buyer knows who is responsible for the eggs), and the word "infertile." By thus guaranteeing every egg you sell you will be sure of a good price for two reasons, one is that your dealer knows that your eggs will sell readily, another is that it saves him the cost of candling the eggs before he sells them. Some of you may be satisfied with the price you are getting and do not wish to change, but if you do want a better market, let's think these things over, then get busy. Our part is to make every product we offer for sale from our farms a quality product.

Sincerely,
MILIE M. HALSEY,
Home Demonstration Agent.

Have you read my ad about irrigating farm? J. S. Warner. 404

But it seems to me that the one farm product most neglected, wasted, and for which it is hardest to get a good price is eggs. It is said that in the United States alone forty-five millions dollars is lost each year through carelessness in the production and handling of eggs. Isn't it just about time we were stopping this enormous waste? And while stopping the waste we can build up a good market for our products. Let's consider Lubbock county. There being no large city in our county, it will be found that the largest percent of families in the county produce their own eggs for home use. Nearly every family outside Lubbock and Slaton produce a surplus, which they expect to bring in a little money. But, there being no great demand for eggs locally, the buyer here must depend upon shipping the greater number of eggs that he buys. These eggs must be shipped in cartons, but he can never get a car of eggs in one day or in two, so they must be kept here in Lubbock until enough are collected to fill a car. Lubbock has no cold storage plant. People at some distance from town bring in eggs only once a week. Maybe it takes a week to get enough to fill a car. Result: Fertile eggs two weeks old, kept at room temperature for two weeks. Do you know what kind of eggs you would have? Do you, then, wonder why you cannot get a big price for your eggs? Here are some things you can do to help. As your eggs are being shipped they may be in cities where fair, medium, and fancy prices are paid for eggs. You can have eggs all of one size and one color if you keep standard bred poultry. If you keep a mixed flock grade your eggs according to size and color, discarding all dirty ones and those from stolen nests or from nests where the sun shines on the eggs. But, even when you have done all of this you still have something to do before you have a choice market eggs. Your eggs should be infertile. An infertile egg is an egg that will keep even if it does have to be kept for a few days in the summer time. If every family in Lubbock county would get rid of all the roosters in their flocks at the beginning of warm weather, say not later than the middle or latter part of May, the increased price they would get for their eggs through the warm months would enable them not only to buy standard bred roosters to place at the heads of their flocks another year, but it would leave them a nice surplus as well. In conversation with one of our local buyers during the past week he mentioned that the large number of infertile eggs produced during the past year in our county was largely responsible for the price we received for eggs the past summer. In talking with a number of people who sold eggs all the year, I find that the average price throughout the year was around forty cents per dozen. After producing infertile eggs, gathering them often, grading them according to size and color, stamp each one as you count it into your

Grow Succession Crops in the Garden

To get the best results from a garden, the land should be kept constantly producing throughout the season. Whenever an early crop is re-

moved a later one should be grown in its place, according to horticulturists at the University of Missouri College of Agriculture. The following crops may be on the same species

or of a different species. A succession of radishes may be grown on the same ground by re-seeding parts of the row as fast as the radishes are used. Lettuce may be grown in the same way. In the southern part of the state an early crop of potatoes may be followed by a potato crop for winter. Seed from the first crop may be used to plant the second. Early sweet corn may be followed by winter cabbage or celery set in early July or by turnips sown broadcast the last of July. Beets, particularly in this climate, become woody with age and lose their crispness and sweet flavor. Those to be started for winter should not be planted earlier than the first of July. Carrots are a delicious garden vegetable when young. One reason why they are not more often grown for winter storage is because they are usually planted in early spring, and by autumn they become so woody as to be unpalatable. Carrots for keeping over winter should be started in July.

Where good tillage is given, the ground following an early crop will be in the best possible condition for a second crop. The early crop shades the ground keeping it mellow; its permeating roots fit the soil for the rooting of the following crop; tillage of the former crop conserves the moisture and kills weeds; the second crop requires less labor than the first or, in other words, a part of the benefits of tillage given the first crop is bestowed upon the second. On poor soils where a single crop uses most of the available plant food, the foregoing statements may not hold fully true. On rich soils they are to be emphasized.

Succession cropping can be made much more effective if a hot bed or cold frame is available in which to start a supply of plants to set in the garden whenever space is made available.

Paint Up The Farm Buildings

The same farmers who keep their houses in excellent "paint condition" often neglect their barns. The barn is often out of sight of the road and nobody pays particular attention to it anyway. Why paint it? The reason why barns should be painted may not have occurred to you. It is because a barn that is regularly and well painted will last indefinitely. One that is not, will rot away and loosen up in a very few years. Give your barn a chance for a longer life. A barn 30 feet long, 16 feet wide and 16 feet high on the sides will have a painting area of about 1500 square feet. This will take less than four gallons of paint at say \$4.00 per gallon, or \$16.00 to protect the barn for four years. That is at the rate of \$4.00 per year. Can you afford it? Any bank will lend from 10 per cent to 30 per cent more on a painted barn or any other structure than on one which needs paint. That is why farmers are painting as they never have before, according to F. A. Meckel of the University of Missouri College of Agriculture.

MASS MEETING SATURDAY APRIL THE 24TH

Dr. O. H. Lloyd of Vega, Exponent of Optimism and West Texas, will deliver an interesting address.

A mass meeting of all members and citizens of Lubbock will be called by the Chamber of Commerce to be held in the district court room of the court house at this point, Saturday, April 24th, at 7:30 p. m.

Dr. O. H. Lloyd of Vega, who is a member of the West Texas Chamber of Commerce, and who has been actively connected with a number of progressive movements conducted by the State Fair of Dallas, will arrive here by car from Brownfield some time Saturday and will deliver an interesting address at this meeting. Mr. Lloyd is representing a movement to conduct a National Advertising Campaign for West Texas by means of two railway tours which will be conducted simultaneously, one of which will cover the central and northern states and the other the southern and southeastern states. Special cars containing agricultural and other exhibits from all parts of West Texas will be used on each of these tours, and stops will be made at various leading towns and cities along the routes followed.

We are reliably informed that every city and town visited by Dr. Lloyd so far has been highly enthusiastic regarding these plans. Incidentally, Dr. Lloyd is an interesting and entertaining speaker and a firm believer in the future possibilities and opportunities of West Texas. He has a message which sparkles with faith and optimism and every live and progressive citizen of Lubbock should make it a point to be present at this meeting. Come out and BUCK FOR LUBBOCK.

Jno. P. Lewis Real Estate and Fire Insurance

The firm of Spikes & Lewis, by mutual agreement, has been terminated. The Spikes Land Co., Fred Spikes, Mgr., will continue the land business in the Spikes & Lewis offices, and I bespeak for them whatever of success they merit.

Speaking now for myself, I am not ready to abandon the land business with so limited experience, and in spite of unfavorable conditions, of winds and shifting sand, for really I know no country without some detracting features.—I still have strong faith in Lubbock and the Lubbock country; faith in the value, productiveness and relative cheapness of the soil; faith in her institutions—her schools, churches, sanitariums and other enterprises; faith in the sterling character of her citizenship; faith in her future growth and success in every way. So I have decided to engage in the Real Estate and Fire Insurance business for myself, at least for the present.

I have secured a sufficient number of good fire insurance companies with the RESOURCES and commendable REPUTATION for paying their losses. As fire insurance is for protection, not profit, it is of course of first importance that one should know before the loss occurs, that he is insured by a THOROUGHLY RESPONSIBLE company. It may not be improper in this connection to say that I have had a number of years experience in fire insurance, and have reason to think that I understand fairly well the insurance proposition from the viewpoint of the company and the insured, and hence am in position to see that you get an equitable deal. I recognize there are other worthy and thoroughly responsible agencies here entitled to your patronage—agencies that I have been and am now delighted to patronize, but I should like to have and will appreciate at least a share of your business.

In real estate, I shall soon have representative lists of desirable investments in ranches, farms and city property—improved and unimproved. Hence, if you wish to buy or sell anything in real estate, or have anything to insure against fire and storm, I shall appreciate an opportunity to serve you. I shall be glad to have you call and list your property for sale, assuring you of due appreciation, and of my best efforts to promote our mutual interests. Exclusive rights will be widely and persistently advertised UNTIL sale is consummated, or as long as in my hands.

Please note the following desirable investments in city property:

10-room, two-story dwelling, southeast corner, east front, city water, side walk, nice shade trees, 5 blocks of Methodist church. A splendid value at \$4,500.00; \$2,500.00 cash, balance easy.

4-room dwelling, southeast corner, 3 large lots, east front, well, mill, fruit trees, close to High School building. Price \$2250.00, \$1500.00 cash, easy terms, or substantial reduction for all cash.

See me for investments in unimproved city property.

GOVERNMENT REALIZES PAID ADVERTISING IS BEST

Economy and good results obtained by former paid advertising campaigns for recruits had determined the policy of the War Department in a new campaign of paid advertising which has been approved by the Adjutant General. As a beginning the department has set aside \$85,000 to be expended for advertisements in newspapers in the cities where main recruiting stations are maintained, and in capital

cities where there is not a main office.

This sum will be largely increased within a short time for the purpose of extending the campaign to the smaller towns in which sub-stations are maintained, and to county papers throughout the United States. The campaign promises to be one of the largest advertising projects ever undertaken by any organization, public or private.

"Finding beyond question," says the letter of the Adjutant General to editors and to the commanding officer of the El Paso district, "that the cheapest way to recruit is through paid advertising, and with the war over and desiring to economize as much as possible, we are launching immediately in the newspapers of our main station cities and state capital cities another paid advertising campaign."

Advertising matter for the drive will be handled from the New York office of the advertising agencies corporation, an organization of 116 members of the American Association of Advertising Agencies, formed to assist the government in its advertising.

War Department announces winners of national prizes essay contest, "What are the benefits of an enlistment in the U. S. Army," as follows: First prize, Donald I. Campbell, Clinton High school, Clinton, Iowa; second, Marjorie Sheetz, Chillicothe High school, Chillicothe, Missouri; third, Bettie Bowen Eason, DeSoto County High school, Olive Branch, Missouri. Crene Lasater, Santa Fe school, Santa Fe, New Mexico, winner of El Paso district, was fourth on list of ten honorable mentioned. Honorably mentioned will receive autographed certificates from Secretary of War and Generals Pershing and March, who judged the contest. Winners in other forty-three recruiting districts will receive autographed letters from Secretary of War.

For information in regard to contest winners, apply to Corporal Chas. Gail, Army Recruiting Station, room 205, Security Bank Building, Lubbock, Texas.

FAMOUS LECTURERS COMING ON CHAUTAUQUA

We are to have a week of Chautauqua shortly, May 27th to be exact. Redpath-Horner, whose Premier Circuit serves this community, are particularly noted for the standard of excellence maintained in their programs. Redpath-Horner in Chautauqua means that the program is the result of thought and work far beyond the ordinary haphazard array of talent. Horner programs have a balance and logical sequence through the week like the arrangement of a symphony orchestra. The program which we will have this summer will be a delight throughout and a week which will stand out in retrospect through all the year.

There are to be six lectures touching on a wide range of subjects of vital interest to American audiences at this particular time. The Horner programs have been especially strong in the lecture feature because. Mr. Horner is anxious to get to the great audience Redpath-Horner serves the very men who are best answering the call of the hour. The arrangement of lectures this year is a masterful symphony with America as its theme.
