## PONTON SELLS HOSPITAL INTEREST

### HIS INTEREST TAKEN OVER BY FORMER ASSOCIATES AND WILL BE OPERATED UNDER SAME MANAGEMENT

## DR. J. T. KRUEGER WILL HAVE CHARGE OF SURGERY

### He Has Been With This Institution for More Than a Year and is Recognized as a Surgeon of Extraordinary Ability. Drs. Overton, Hutchinson and Peebler Remain Here

A deal of more than usual interest was consummated last Saturday afternoon when Dr. A. R. Ponton sold his interest in the Lubbock Sanitarium to his former associates in the institution, Drs. J. T. Krueger, M. C. Overton, J. T. Hutchinson and O. F. Peebler. The deal was made by mutual consent, and everyone connected with the transaction in any way seems to be highly pleased with the outcome. Dr. Ponton will leave about the first of May for Dallas, where he will probably locate, and engage in his chosen profession, and Dr. Krueger, who has been actively associated with the Lubbock Sanitarium for the past year, will take charge of the surgical work of the institution. He is recognized as a capable man in his profession by the man whom he succeeds as is shown by the signed statement below, and has had much experience in modern surgery.

Under the management of the Lubbock Sanitarium, which in the future will be largely the same as heretofore, the institution has enjoyed a wonderful patronage, and its reputation as a splendid place for afflicted people to come and receive the very best of treatment has spread abroad, not only over West Texas and New Mexico, but has reached far into the interior of the State and it is one of the great institutions of Lubbock that the people are justly proud of. It is under the management of physicians who are too well known over the state to need further comment from us, than they are all men of established reputation

and deserving of success. The Lubbock Sanitarium is one of the best equipped institutions to be found, and the management has in view some extensive additions as has been set forth in previous issues of this paper, which will enable it to take care of its rapidly growing business, and afford their patients every accommodation that is accorded in the larger cities.

The Avance regrets to lose from our city Dr. Ponton and family, as they have proven a great benefit to our city professionally and socially, and we join their many friends in wishing for them the greatest success possible wherever they decide to make their future home.

### To My Friends and the General Public

I have sold all my stock in the Lubbock Sanitarium Co. to my associates, Drs. Krueger, Overton, Hutchinson and Peebler.

Since I have been in Lubbock I have enjoyed a very large practice and I trust my patients and friends will continue to patronize the Lubbock Sanitarium. It is an institution second to none. I cheerfully recommend Dr. Krueger, who succeeds me in charge of the surgical work, as an able, conscientious surgeon. He has been connected with the institution for about a year.

I thank the people of the great Plains country for their patronage in the past.

Yours truly,  
A. R. PONTON.

## REGARDING THE RAISE OF TELEPHONE RATES

When asked regarding the increase in telephone rates in Lubbock Manager H. D. Phillips of the local exchange of the Southwestern Bell Telephone Company, said: "We shall increase the telephone rates in Lubbock, May 1st. On and after that date the business rate will be increased from \$3.50 to \$4.00 per month, and the residence rate from \$2.00 to \$2.50 per month. This is made imperative because of the rising costs with which we have been constantly confronted for the past few years. This has made it necessary that we obtain additional revenue.

"Public utilities are the only class of industry in the United States today that have to sell their products, which in our case is service, at a price lower than other lines of business, proportionately, and this notwithstanding the fact that we are confronted with the unprecedented and extraordinary increases in the cost of materials and labor. These have been costing us from 40 to 200 per cent more and we have had to pay more for the money used in the extensions.

"These extensions, by the way, are not made out of our revenue. If we add poles or a switchboard, we get the money to pay for it in the form of new capital. We have to bid for that money—and we are only able to get it in so far as we are able to show that the money already invested in our exchange is yielding a fair return. With the fixed rates, our revenue has remained stationary, while the expenses have been mounting higher and higher each month.

"However, there has been a nationwide recognition of the necessity of protecting the credit of the public utilities and throughout the United States local and state officials have recently granted relief to them in the form of increased rates. About 87 per cent of more than 500 requests for increases have been granted.

"Nothing like an adequate return can be expected in the new rates in Lubbock, because there will be further and permanent increases in the cost of furnishing service. The new rate will, however, lessen the burden and give us a better chance to consider to fulfill our obligations. We consider it to be our duty to furnish the best service to the greatest number at the lowest fair rate. But it is also our duty to fix the rate so as to pay adequate wages to our employes and earn a return on the investment sufficient to attract new money. The gravest danger to this community is that capital should lose confidence in our industry, making it impossible for us to obtain additional capital for extension to plant.

## LUBBOCK LADY RETURNS FROM PHILIPPINES

Mrs. M. Neal and children, who accompanied Mrs. Neal's brother, Capt. E. H. Inman and wife to the Philippine Islands where the Captain is stationed, returned this week. Mrs. Neal is a daughter of J. T. Inman of this city.

## PLANS FOR DODGE HOME NOW IN COURSE

We are reliably informed that the local agent for the Dodge car, W. W. Royalty, is contemplating the erection of a modern brick garage, to be constructed directly back of the postoffice. If the present plans materialize, this will be one of the largest one-story buildings in the city.

## THOUSANDS OF CATTLE SHIPPED RECENTLY

Lubbock's thirteen cars of northern cattle from the States of Wyoming and Montana that were shipped out this week to their former pastures, was probably the smallest single shipment of these cattle to go out from the South Plains. It is conservatively estimated that between forty and fifty thousand head are now enroute from this country to the above named states. Seagraves is probably the largest shipping point for these cattle and is reported to have sent several train loads out during the past few days.

As is remembered, thousands of cattle were shipped here last year from the drought stricken portions of Wyoming and Montana for grazing purposes. Now since the winter months have passed and with the large snow falls this winter in that country, the ranges are reported in fine condition. Although shipment is heavy in these cattle now, there will be many hundreds of them that will remain in the South Plains country indefinitely.

## LUBBOCK DEFEATED BY C. C. WINS AT AMARILLO

The Lubbock High school baseball team played two unsuccessful games last Thursday and Friday afternoon with Clarendon College on the college grounds. Thursday's game was reported to have been errorless until the 8th inning. Lubbock had two scores at that time. The next inning was followed by several errors, resulting in the college team running in 4 scores.

Friday afternoon's game was lost from the very beginning. Bad infielding was the feature of the Lubbock team and the score was 2 to 10 in Clarendon's favor.

Saturday the Lubbock team went to Amarillo and played that afternoon against the Amarillo High school team. Our boys were all on their toes that afternoon and by playing skilled ball defeated the Amarillo team by a score of 9 to 3. In the seventh inning the game was called off account of the inclement weather.

## ODD FELLOWS HAVE SUCCESSFUL ANNIVERSARY MEET

Approximately 200 out of town visitors were here Monday night to attend the celebration of the 101st Anniversary of the Odd Fellows Lodge. In all there were present Monday night at the meeting about 350 people.

Several talks on the fraternal order were made. The welcome address was made by Judge J. H. Moore who was highly appreciated by the members. A drill was carried out by the Rebekah Lodge. Music, including solo, and instrumental were enjoyed by the hour, following which was spread a fine lunch. Initiation through the various degrees of this order were made Monday evening, affording a great pleasure to many. Probably one of the most striking incidents in the celebration of the lodges anniversary was the presence of the three Hopper children of this city, who were introduced by Rev. A. A. Collins. These children were left fatherless several months ago and have been under the protection of the members of the local lodge. In his talk Monday evening, Rev. Collins laid a one dollar piece on the table as a gift to the children and asked those who wished to contribute to do likewise which resulted in a presentation to these fatherless ones a gift of more than \$150. Several interesting talks were made by the visitors, especially those from Crosbyton. All reports from the meet indicate that it was one of the few great successful events in the history of the order on the South Plains.

## WEST TEXAS SANITARIUM OPENED LAST FRIDAY

E. L. Late of Sudan, who arrived here last Thursday a very sick man, was taken into the temporary home of the West Texas Sanitarium Friday morning following the return of Dr. C. J. Wagner from a trip north. Mr. Late was the first patient to enter the new institution, which was hardly ready at the time he arrived, although everything is being put in readiness and are now in position to care for many patients. Dr. Wagner, widely known South Plains surgeon, who is making his permanent office in West Texas Sanitarium, will be in charge of the surgical work of this institution, we are informed.

## MRS. J. W. BURTON DIED HERE RECENTLY

The widow of the late J. W. Burton of Crosbyton, died in a local sanitarium in this city on April 17th, following an illness lasting since her husband's death. Her constant refusal of nourishment in any form, together with the sorrow caused by the untimely death of her husband, is conceded to have been the cause of her death. Every attempt to encourage life for Mrs. Burton was frustrated by her refusal to accept the encouragement and request for death to come to her to ease the agony of mind was made frequently. The body was shipped to Ottumwa, Iowa, the place of interment of Mrs. Burton's husband, where she also was laid to rest.

## IOWA MAN HOLDS DEMONSTRATIONS HERE

E. C. Bishop of Iowa, specialist in canning of products, was here this week and held a demonstration in the high school building Tuesday. Wednesday Mr. Bishop went to Slaton where he also had a canning demonstration in the school in that city.

Miss Halsey was in Slaton Wednesday for the purpose of attending the canning demonstrations.

## SPENDING \$8,000.00 ON STORAGE PLANT

The Lubbock Creamery has recently awarded a contract to a Mr. Cox of Plainview for the installation of an ice plant and storage room in the rear of this company's building on South Cedar street. Work is now in course. When finished the storage plant, which is of crushed cork, inlaid with asphalt, will hold about two cars of ice. The plant for the manufacture of ice will have a capacity of about 8 tons daily.

The management informs us that the plant will not operate for commercial purposes, but only for the needs of the company. The rooms for the storage of ice and ice cream will be equipped with ammonia pipes extending from the floor to the ceiling of the room. It is thought that with the use of these pipes, practically no loss of ice will be had. Cream set in the storage room will freeze in a course of a few minutes.

When completed, this plant will be one of the most modern creamery establishments in West Texas, with an investment amounting into the thousands of dollars.

## LUBBOCK NOW SUPPORTS FINEST AMBULANCE

The Rix Furniture and Undertaking Company of this city have recently received one of the finest equipped ambulances in the State. The management tells us that it is their intention of giving the people the best of everything, believing that the people of Lubbock are appreciative and deserving.

This ambulance was made especially for Rix's. Last summer, J. A. Rix, manager of the local company, made a special trip to northern factories for the purpose of placing an order for an ambulance. It is of a special design of the Miller Company's make and is propelled by a large Continental engine. It is so arranged that seats can be easily set up and give comfortable seating for seven or eight people. There are various contrivances unusual in this big machine that are distinctive and shows the desire of the owners to offer the best to Lubbock.

## TERRY COUNTY JUDGE TO HAND IN RESIGNATION

T. J. Price, pioneer Terry county citizen and father of the present county judge of that county, W. W. Price, who was here Wednesday of this week, informs us that his son will hand in his resignation of that position in a very short time and enter the oil fields in Northwest Texas. Mr. Price states that because of the low salary paid by that office and the larger remuneration obtainable in the oil fields is the reason his son has for resigning.

Mr. Price is now in the real estate business in Brownfield and has had exceptionally fine business during the past few months, he informs us. "I helped in the organization of the county," Mr. Price stated, "and am now trying to settle it up."

## SUCCESSFUL SALE MADE TUESDAY BY FARMER

M. P. Page, a farmer living near Dalou who came to this country about one year ago and purchased 160 acres for which he paid \$50 per acre, sold this farm recently for \$60 per acre and held a public sale of his stock, farm implements and household goods Tuesday. This sale was reported to have been attended by probably the largest crowd yet gathered for such an occasion. L. T. Martin, vice president of the Farmers National Bank of this city, attended the sale and acted as clerk. W. A. Nash of Plainview was auctioneer. The total amount resulting from the sale was \$2800.00.

## CLARENDON BASEBALL TEAM HERE MONDAY FOR GAMES

The Clarendon College baseball team, which defeated the Lubbock High School team in two successive games in their home town last week, will arrive here Monday morning and again meet our boys. The local fans believe that it was exceedingly good luck for the Clarendon team that they won out in the two games, and they believe they will defeat them on the local grounds. The High school team will play the college team on Monday afternoon and Tuesday afternoon the Elks Lodge team will meet the Collegians.

## LUBBOCK MAN RETURNS FROM PORT MARKET

"It is a big piece of foolishness to ship cotton to port markets," according to P. C. McCoy, a Lubbock county farmer who returned yesterday from a business visit to Houston. Mr. McCoy has heard frequently the past year of the profit to be gained in shipping to port points to sell cotton and decided to try it out as an experiment. He shipped about 30 bales to Houston several weeks ago and was unfortunate enough to be unable to find a sale for the staple. His trip recently to Houston was to investigate conditions first hand. While there, he says he could not find a buyer who would make an offer on his lot. Mr. McCoy says he was told that more than three hundred thousand bales were in storage in Houston and that no sales had been made of any of the cotton for several weeks. "For the average farmer, it is a big chance to take in order to save or receive a larger profit on the sale of their cotton," says Mr. McCoy, who now believes that the best way to market cotton for the farmers of Lubbock is found on the local markets.

## CONDITIONS ARE WORSE IN MEXICO

### RAPID PROGRESS BEING MADE BY REBEL FORCES; REVOLT THREATENS JUAREZ AS SONORA TROOPS GAIN GROUND

## AMERICAN TROOPS PREPARE TO DEFEND EL PASO

### Tampico Reported Surrounded. Some Important Points Have Been Taken and the Future Looks Bad for the Carranza Government as Rebels Get Closer to Mexico City

El Paso, April 28.—General Angel Flores, advised Governor Adolfo de la Huerta of Sonora that Tampico is being surrounded by forces of Gomez and Palaez and Matamoros is in a precarious condition.

Juarez, April 28.—Troops at Salina, Cruz commanded by General Alejo Gonzalez, have revolted and taken possession of the port one of the most important on the isthmus, according to a report received tonight.

El Paso, April 28.—Funds of the customs office in Juarez were brought to an El Paso bank late this afternoon.

Carranza officials in El Paso and Juarez tonight were prepared to move against a threatened attempt to swing the Juarez garrison into line with the Chihuahua revolution which was launched in the state capital yesterday.

Washington, April 28.—Mexican advisers today received through the American and rebel channels, notes of a rapid progress of the movement against the Carranza government, probably in the close vicinity of Mexico City itself.

Government officials here said they saw nothing in these rather scattering incidents immediate critical in the situation faced by federal authorities. The best available information indicate that the rival forces under arms were nearly equal in numbers. As indication of the character of the reported desertions of the federal ranks, federal officers

said the force was joined by the rebel standard in Morelos, making possible the occupation of Cuatla, was from the "Supremo Ponders," the famous organization of picked troops used since the deposition of Diaz as a guard for the national capital.

They also viewed the break in the garrison in Chihuahua as reducing the menace to the revolutionary forces in Sonora from that source.

Until the rebels operating in almost every part of the country are co-ordinated, Mexico City is in no serious danger, military men here believe, except by coup d'etat, or from a raid that chance turned into a more important movement.

El Paso, April 28.—American troops in El Paso tonight were ordered to be prepared for action in the event a threatened uprising in Juarez endangered this city. Military police in the city have issued rifles and ammunition, and the city police have made arrangements to patrol a dead line, the lower part of the city beyond which civilians will not be permitted to go in the direction of the Rio Grande.

General Francisco Gonzales, commander of the Juarez garrison when the city was attacked by Villa in 1919, and until recently provisional governor of Tamaulipas, arrived in El Paso this afternoon. He came with authority from Carranza to take charge of loyal troops in Juarez in event there is an uprising. Three hundred cavalrymen Ahumada garrison declared to be loyal forces, marched into Juarez late this afternoon after a forced hike from their post 80 miles south of the border.

## HOW AN AIRPLANE STAYS IN THE AIR

Few people know that about 66 per cent of the actual lifting force of the air is due to the suction on the upper surface of an airplane wing panel, while only 33 per cent can be created through the pressure of the air on the under surface. It is also a significant fact that the amount of force required to move a small line through the air is as great as that required to move a stream line airplane strut several times its diameter.

The influence of the streamline was formerly not understood and seldom taken account of in the design of the struts, fuselage and landing gears of the airplanes. Scientific research and wind tunnel tests and the introduction of smoke through the wind tunnel have revealed the necessity of cutting down head resistance, thus decreasing what is known as drag on drift. The actual course of the air introduced into the wind tunnel and its consequent effect upon the wing can actually be seen by the smoke through the introduction of smoke through the wind tunnel, and of course, accurate computations and decisions can be easily made in connection therewith. It indicated the necessity of changing the surface, the cross section of the wing panels, the section of the struts and other exposed surfaces to forms which would offer less resistance.

It is very easy to push a thing into the air but it is hard to get it out without creating a disturbance. If we take a broom handle, for instance, and sweep it through the air rapidly, we find if we could examine the air immediately following it that a vacuum is created just behind the stick itself, and thus causes an eddyling directly behind it, creating a shaped partial vacuum which decidedly increases the total power required to move the stick through the atmosphere. It was easily found by wind tunnel tests that by filling up this vacuum and changing slightly the entering surface, the stick could be passed through the air more easily and a considerably smaller amount of power would be required to move it. Any person can observe these facts on any airplane, at practically any aviation field. Notice the way the struts are streamlined, the shape of the fuselage and even landing gears, how they are streamlined. To cut down wind resistance on some of the types of plans being turned out by the manufacturers even the flying and landing wires are streamlined. Even such small details as these are taken into account which incidentally adds materially to the speed of the airplane.

## LUBBOCK MEN IN DALLAS FOR MASONIC DEGREES

Among the men who are in Dallas this week from Lubbock, for the purpose of initiation into the Shrine and 32nd Degree of Masonry are: O. E. Radford, Sam T. Davis, S. H. Weaver, Fred C. Oliver and G. G. Johnson. They were also accompanied by Chris Harwell who will see the performance "well done." These men left last Saturday night and are expected to return the latter part of this week.

LUBBOCK, TEXAS

### ITEMS FROM THE LORENZO ENTERPRISE

Lorenzo leads this county in building activities. There are now no less than six residences under construction and we hear that several more are being contemplated. The shortage of carpenters here is proving a hindrance to the progress made in these activities but in no way is it discouraging building.

There is a rumor from Lubbock that the Texas Utilities Company at that place has installed a 150 horsepower engine for the purpose of furnishing electric lights for Lorenzo, Ralls and Crosbyton. It is generally admitted to be a fact and we trust that it is for all three of these places need electric lights and especially on the streets. Why not investigate, Mr. Chamber of Commerce?

A deal was consummated the first part of this week whereby Jno. A. Dillard became the owner of the F. F. Herndon stock of groceries and also the building, W. B. Dillard, son of the purchaser, will be the manager.

The Patillo & Smalling Real Estate firm report that C. C. Shirley has sold a 236-acre farm to Messrs. Freeman and Hickman of Santa Anna. The consideration was \$9,776.

Tuesday night, April 20, twenty-five progressive business men and citizens of Lorenzo met in the W. O. W. Hall and perfected the organization of the Lorenzo Chamber of Commerce, electing the following officers: George Catching, president; M. F. Rushing, secretary; Emzy Pieratt, treasurer.

Bailey Guest suffered quite a loss last Tuesday afternoon about one o'clock when his barn and other nearby buildings burned. The fire started from a cigarette which was thrown down by one of the hired men and the fire had gained too much headway to be checked when it was discovered. The total amount of damage done was estimated at \$5,000. Mr. Guest carried no insurance.

Canada must be fixing to go dry. She is going to sell those war vessels which bear the wet names such as Niobe and Rainbow.

**You Do More Work,**

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

**NEWS ITEMS OF THE PAST WEEK FROM CENTER**

Some of the farmers are planting some in the dry ground while others are holding back for a rain.

Mr. H. Habbings has put up a new windmill tower this week. The winds have torn the wheel up and made the tower very weak, it being old anyway, so they just replaced both tower and wheel with a new one.

Mr. Baker and family motored to Plainview last Friday.

Mr. W. A. Dunn received his new jitney last Friday.

Miss Erma Goeth was ill last week but is all right at this writing.

Mr. B. F. Strume moved his family to Abernathy Friday. We certainly hate to see these people leave our vicinity but truly hope they will not forget us and will make frequent visits out here. Their two sons will stay out here until school is out.

R. H. Haney was taken ill last Thursday afternoon. Dr. Baugh was summoned Thursday evening and Drs. Hall and Wagner were called Friday evening. Mr. Haney seems to be some better at this writing but is still in a bad condition.

W. A. Dunn and family spent Sunday with friends of the Bledsoe vicinity. They report a very pleasant visit.

Edgar Abney and family spent Sunday with his brother and family, E. A. Abney of Badger Lake.

Mr. D. W. Williamson was seen passing through this section Saturday enroute to Abernathy.

Mr. George Baker was in Abernathy Saturday afternoon.

Mr. Harry Baker's baby was sick last week but is all right at present.

Mr. Pevehouse was ill Monday and was unable to get to school on time. We truly hope that he will be straight in a few days.

R. Rieken was among the Abernathy visitors Saturday.

Tom Cunningham was in Abernathy shopping Saturday.

Misses Alma and Carrie Mae Baker were callers of Miss Rena Habbings Sunday.

The dance at the Chas. Goeth home was a failure on account of the cloudy weather, but after all they were disappointed by not getting a good rain.

Every one is beginning to wear a long face on account of so much sand and no rain.

A recipe for making cream puffs: one half cup butter melted in one cup of hot water; put in a small tin pan on the stove to boil. While boiling stir in one cup of flour; take off and let it cool. When cold stir in three eggs, one after the other without beating. Drop on buttered tins and bake in a hot oven twenty or thirty minutes. Filling: one cup of milk, one egg, one-half cup of sugar. Thicken with corn starch or flour and flavor to suit taste with vanilla.

**LOCALS FROM THE CROSBYTON REVIEW**

The many friends of Rev. and Mrs. W. M. Pearce, formerly of this place but now of Dalhart, will be grieved to learn of the death of their little three and a half year old daughter, Maudie, which occurred at their home in that city on the night of April 9th. She will be remembered here as an unusually attractive and lovable child and it is with sadness that we learn of her departure from this life.

Rev. R. F. Dunn is conducting a revival meeting at the Webb school house on the East Plains this week, but will be back Sunday for the regular services at the Methodist church. At a meeting of the School Board since our last issue Prof. J. W. Martin was retained as superintendent of the Crosbyton public school for another term. Miss Freeman was elected principal and most of the teachers were offered their places for another term, all to get a 25 per cent raise in salary.

The Membership of the Church of Christ at this place commenced the foundation for their new house of worship just south of the Baptist church this week and they expect to push the work to completion. The building will be 32x42 and will be quite an addition to the church property of Crosbyton. Arthur U. Swearingin will have supervision over the work and will be assisted by the membership.

The baseball season has opened in dead earnest in Crosbyton by the organization of a strong team Wednesday afternoon. Clayton Carter was made president of the organization with Ed Johnson as secretary. The business men enthusiastically fell into line and gave the team a purse of about \$500 to defray expenses, etc. We may expect some interesting games to be played by our boys during the summer months.

Mr. S. P. Orand and Miss Pearl May Stockton were married at the Baptist parsonage yesterday morning, Rev. J. B. Cole performing the ceremony.

**DR. LLOYD DECLARES HE CAN STOP THE WIND**

By cultivation of the land of West Texas, leaving only a small portion in grass, the wind will cease to blow in the strong gales of the past, according to Dr. O. H. Lloyd of Vega, well known scientific farmer, who was here this week.

Dr. Lloyd's explanation of this sounds very reasonable at least. He claims that on the grass or unbroken land, during the day when the sun rays are strong against the earth, that down only an inch or more, a thermometer test will prove that it is cold. He says this unbroken ground acts on the sun rays as a mirror, reflecting the rays rebounding, causing the mirages of which West Texas is well known. Another test is that the thermometer in the unbroken ground will show a low temperature and one placed in ground broken, will test a temperature much higher. In other words, the broken ground will absorb the heat of the sun rays to a much greater depth during the day, and of course would have more heat to throw off during the night. By this cultivation, according to Dr. Lloyd, the days would be made cooler and the nights warmer, thus bringing the two extreme temperatures closer together, which he says is the cause of the high winds of this country.

"We cannot make it rain," says Dr. Lloyd, "although we can conserve the moisture, by cultivation of the land, this in years to come will be made because of cultivation. People then will say that the rainfall has increased."

We hear and read a great deal about overall clubs. This may be alright. But we are of the opinion that the great demand for overalls will run the price of them skyward, and soon the overalls will be selling for a price equal to a suit of clothes. If people will use a little common sense and economy the prices of things can be brought to a common sense basis. As long as the people demand fine clothes and will pay the extreme prices for them, just so long will the prices remain on the top round of the price ladder. When our merchants must have certain kinds of clothes to supply their trade they must pay the price the manufacturers ask, and so the price keeps going up. Wear the old clothes and a few patches in the knees and the other places and it will have a tendency to bring the prices down.

The unsettled condition of the country is causing grave concern to many people. Instead of improving, it appears to be getting worse. As fast as one group of men resume work after winning a strike another group walks out. This causes a continual boosting of prices to meet such demands, with the result that practically no one knows what the morning will bring forth. It is anything but satisfactory, or even encouraging.

The American extravagance is largely responsible for the extreme high prices. American people, when they have the money spend it freely and much of it foolishly. They want a thing they will pay whatever is asked for it. The prosperous months of the past years has brought lots of money into the hands of people and they are simply buying faster than the articles can be made, hence the high prices.

To the new comers the dry weather is very discouraging, but there is no use to worry. The rain will come in time for the South Plains to blossom and produce more than we can gather. This is speaking from experience of years on the Plains and but

very few years have we failed to make more than we could gather.

We think mighty little of a man who is loyal to his government just because he has to be. Some men, according to their actions now, were in that class during the recent world war. Those who are fighting the administration are those who were loyal because they had to be. It was loyalty or the prison bars.

We doubt if the price of building material will be lowered for several years, and the thing to do is to build. Build for yourselves or for rent. Those who prefer to rent will be willing to pay you a reasonable rent and in keeping with the high prices prevailing in everything else.

Attend the precinct convention Saturday. It is important that they be well attended, and then the County Convention afterwards deserves equally as great consideration. Good men should be sent to the State Convention and instructed to uphold the administration throughout.

Too many farmers planting the same thing the same year, will have a tendency to run the price of that article down. Diversify. Plant something of everything that will grow in this climate and you will not be in that class that is sure to suffer from over production.

The English have no confidence in the German government any more. Neither do the French, and it is not a good policy for the United States to place too much confidence in the promises given her by the German Government. Remember the scrap of paper!

The judge who has been filling this position for some time will likely not have to sit on a "Bench" any longer. He will probably bury himself in cushions the balance of his days.

There is a wonderful lot of consistency in the overall movement, when the wearer dons the overalls and wears a twenty-five dollar pair of shoes and a twelve or fifteen dollar hat.

The Floydada Hesperian states that the acreage planted to small grain is increased at least fifty per cent over last year.

Come to Lubbock.

**STEADY HANDS NEEDED**

The steady hands of wise men are needed in this country. There is entirely too much rocking of the boat.

Between the big corporations and the unions, and the grasping speculator and the middleman, to say nothing of an unscrupulous element among the retailers, the country is kept in a continual state of turmoil. Dissatisfaction is everywhere and a lack of confidence seems to be general. The country has expected congress to find a way out of the mess, but congress appears to be as hopelessly muddled as the rest of us. The boat is overcrowded and is beginning to dip. Only steady hands can keep it afloat.

**JUDGE BECOMES OILY RICH IN VERNON FIELD**

The many friends of Hon. Walker Hall, one of the judges of the Court of Civil Appeals at Amarillo, will be pleased to learn that he has gotten rich out of the oil boom at Vernon, Texas.

Judge Hall had about 320 acres of land near the well that recently came in, and he has disposed of part of the land for a small fortune. He still has the remainder, unencumbered by lease or otherwise.

It is rumored that since Judge Hall has met with this good luck, that he will probably retire from the bench in the near future.—Tulia Herald.

**KNOCKING THE PAPER**

One of the favorite American indoor sports is to knock newspapers. People engage in that pleasant pastime as a matter of course, and oftentimes it is the person who has been most favored by newspapers who knock the hardest. They lament the lack of news in the papers and re-marry with superior intelligence that they would never miss the thing if it did not come; yet they are the very ones to raise the loudest howl when they miss an edition.

Then there is the person of vast superiority who loses sleep over the typographical and grammatical breaks which have always crept into newspapers and will forever creep in. Readers of this class have a strong hankering to take charge of some newspaper and edit it just for one day, to show the ignorant editors how it ought to be done. They never stop to reflect that the newspaper writer works under tremendous pressure day in and day out, and turns out more "copy" in a week than the average person does in a lifetime.

The newspaper code is based on these three rules, in the order named: Accuracy, impartiality and brevity. If people observed the same code the world would be a happier place.—Abilene Reporter.

**Why the audience at Methodist Church was so completely mystified. Leola Lucey was inside the phonograph in all accepting physical presence**

At first reading, the story of the New Edison's performance recently at the Methodist church seems fraught with mystery. But the explanation is simple enough.

First, get a picture of what happened. Miss Lucey sang *Roses of Memory*. She stopped after the first few lines, but her voice flowed on without a break. No one even noticed she had stopped—until some eyes, keener than the rest, saw her lips were still. It was only then that realization dawned. The audience found it had been listening to the New Edison.

To every ear, the two voices, living and RE-CREATED, had been without a shade of difference.

That was what so mystified the audience. They had expected the RE-CREATED art to betray its phonographic origin. It was a step too advanced for their comprehension that this instrument should be all that Miss Lucey is, excepting her physical presence.

**The NEW EDISON**  
"The Phonograph With a Soul"

This extraordinary proof is the only means through which people learn to appreciate the true powers of the New Edison. If you are interested in music, it is indeed unfortunate that you were not present.

Yet, you know this is a test which no other phonograph dares to attempt. It is proof that no one can evade or deny. The New Edison is the only phonograph which RE-CREATES music and the soul of music.

Come in and hear it for yourself.

\*The instrument used in Monday's Tone-Test is the regular model which sells for \$295.00. It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

### SOCIETY NOTES

Mrs. A. B. Ellis  
Phone 605

M. K. Foster, Jr., celebrated his sixth birthday, Thursday, April 22, with a party for his many friends. After playing various games the children were ushered into the dining room where the table (with covers laid for twelve), was beautifully decorated with pink crepe paper streamers which dropped from pink and white balloons attached to the chandelier. The cake, occupying the center of the table, was lit with six tiny candles. After the refreshments, consisting of angel food cake and strawberry ice cream, each child pulled a streamer and captured a toy balloon to carry home as a souvenir. Mrs. Foster was assisted in entertaining by Mrs. M. E. Merrill and

Mrs. Edd Allen. At a late hour the children made their way homeward hoping that M. K. Jr., would have another party soon. Those present were: John Thomas Sears, Granville Dickinson, Billy Tubbs, Edward Allen, Sam McKinney, Marjory Meeks, Joan Sears, Catherine Barr, Mary Bowers, Edith Rodgers.—(Contributed).

Mrs. L. D. Rankin entertained last Thursday afternoon in honor of her little daughter Marvel's ninth birthday. The children spent the afternoon delightfully playing games and listening to music on the player piano. Refreshments of cake and fruit punch were served the following little guests: Maurice and Virginia Mullican, Louise Pauliger, Ruth Hutchinson, Mary Frances Royalty, Pauline Baker, Dorris, Pauline and Florine Ames, Maxine Bradley, Katherine Klett, Maxine Clark Alice and Sallie Bean, Mary and Carrie Jane Thomas, Murvel and Grace Rankin.

P. S. It pays to advertise.

Ben and Thomas Hutchinson, Max Davis, J. C. Alexander, Lewis Shipman, Sam T. Davis, Jr., Charles Wilson, Leland Mast, Walker Stafford, Charles and John Peebler, William Thomas, James Lee Chase, Miss Murvel was the recipient of many beautiful gifts from her little friends and will doubtless long remember the delightful time spent on her ninth birthday.

Miss Scottie Denton entertained with a slumber party last Saturday night in the home of her parents on postoffice street. At midnight a tempting luncheon was served. At 2:30 the guests retired to be awakened at six o'clock to an elaborate breakfast. The following were present: Misses Julia Johnson, Margaret Robbins, Annie Lee Simpson, Edith Wheelock, Alice Lee, Eunice Smith, Olene Bates, Louise Arnett, Frances Conley, Eddie Garrison and the hostess, Scottie Denton.

Mrs. Ponton was the honoree of a lovely party given Wednesday afternoon by Mrs. G. G. Johnson, Mrs. Floyd Beal, Mesdames Sam and Dick Arnett in the home of the latter. The house was beautifully decorated in cut flowers and pot plants and forty-two was the diversion of the hour. A plate containing chicken salad, bread and butter sandwiches, pickle, cheese straws and tea was served the following: Mesdames O. L. Slaton, R. Q. Pearce, W. R. Atkins, S. Johnson, E. L. Klett, A. B. Conley, T. B. Dugran, Arval Ponton, C. E. Maedgen, Neil Wright, L. T. Martin, J. T. Hutchinson, J. A. Rix, W. S. Posey. Mrs. Ponton was presented with a lovely gift by the four ladies entertaining, as a token of their appreciation of her. Mrs. Ponton has a large circle of warm friends who greatly regret her departure. She will be greatly missed but many good wishes follow her.

Miss Julia Johnson entertained Saturday afternoon with a matinee party at the Lyric. The young ladies enjoyed Theda Bara in "The Lure of Ambition", and then they repaired to Martin's Cafe where they were served all the following refreshments: eat. They followed a succession of good times, dancing, joy riding and finally an elaborate supper at the Elk Cafe. Those enjoying this delightful occasion were: Misses Eddie Garrison, Margaret Robbins, Eunice Smith, Olene Bates, Louise Arnett, Julia Johnson.

The Merry Bidders were delightfully entertained Thursday at the Rouse home with Mesdames Sid Rouse and C. C. Reed as hostesses. Cut flowers adorned the entertaining suite where much gay chatter was heard. Five tables of players enjoyed the games and Mrs. Hutchinson made high score. At the close of the afternoon, delicious strawberry cream and angel food were served to all following members and guests: Mesdames Carter, Baker, Hutchinson, Ellis, Stanton, Beakley, Bledsoe, Kimmell, Norwood, Davis, Bradley, Barnes, Kimmell, Woolbridge, Trinkle, Leonard, George, Guinn and Miss Conley.

The following couples were entertained Sunday afternoon in the home of Mrs. R. D. Benson. Misses Margaret Robbins, Julia Johnson, Eddie Garrison and Scottie Denton; Messrs. Henry and David Benson, Girard Locke and Glen Bates. Most delicious home made candy was served during the afternoon.

The advanced music pupils of Mrs. B. P. Hopkins will render an excellent program April 30, in the home of Mrs. B. P. Hopkins on West Broadway. All music lovers are especially invited to attend and are promised a real treat. On last Friday night other pupils of Mrs. Hopkins gave a splendid recital and those attending pronounced it very good indeed.

Mr. and Mrs. John Denman and children visited relatives in Floydada Saturday and Sunday.

Mr. and Mrs. Elton George were Lubbock visitors Tuesday.

Mrs. W. B. Powell will entertain the Auction Bridge Club next Tuesday.

Mrs. H. T. Kimbro has returned from a visit of several weeks in Taylor.

Mr. and Mrs. W. S. Posey returned last week from Ozona, Texas, where they have been some time for the benefit of Mr. Posey's health.

Mrs. Fain will leave Saturday for Denton to visit her sister indefinitely.

ly. Later she will be joined by her daughter, Miss Olena, who is visiting in Oklahoma City.

Mrs. Beakley of Abilene is the guest of Mrs. H. W. Stanton.

Mrs. Claxton of Hale Center is visiting her sister, Mrs. B. O. McWhorter.

Dr. and Mrs. Ponton will leave Saturday to make their home in Dallas.

Mrs. Sam Ellis of Estacado passed through Lubbock Monday enroute to Dallas to attend the funeral of her nephews who were killed in an automobile accident Sunday night.

Mrs. O. L. Slaton returned this week from Dallas.

Miss Ruth Hussey returned Wednesday from S. M. U. in Dallas. En route home she visited Miss Donnell in Colorado City.

Mrs. M. A. Richardson arrived Sunday from Granger to visit her son, Mr. J. H. Richardson and niece, Mrs. Durham.

Ivey, by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Lubbock County, Texas, on the 1st Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920, then and there to answer a petition filed in said Court on the 27th day of April, A. D. 1920, in a suit numbered on the docket of said court No. 1338 wherein J. C. J. Burns is Plaintiff; and B. F. Easley, and the unknown heirs of B. F. Easley; U. H. Helm, and the unknown heirs of U. H. Helm; M. E. Hanby, and the unknown heirs of M. E. Hanby; and J. E. Ivey, and the unknown heirs of J. E. Ivey, are Defendants, and said petition alleging:

Suit in trespass to try title for lots 5, 6, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, in the Easley subdivision of block 38, of the Roberts & McWhorter Addition to the town of Lubbock, in Lubbock County, Texas. Plaintiff also seeks to recover said lands by virtue of the

three, five and ten years statutes of Limitation, as against all the defendants. He also pleads the four year statute of Limitation against B. O. McWhorter, and L. W. Roberts, on three notes of \$262.50 each, dated January 1, 1909, and due, respectively, one, two, and three years after their date, signed by U. H. Helm, and given in part payment for said block 38, of the Roberts & McWhorter addition to the town of Lubbock; and against B. E. Easley, in whose favor there was retained an implied lien against the property sued for in a deed recorded on page 26, of vol. 24, and on page 501, of vol. 21, of the Lubbock county deed records; and against U. H. Helm, in whose favor was retained an implied lien in a deed which is recorded on page 303, of vol. 21, of the deed records of Lubbock county, Texas; and against M. E. Hanby and J. E. Ivey, in whose favor was retained an implied lien in a deed which is recorded on page 190, of vol. 28, of the deed records of Lubbock county, Texas. Plaintiff prays for the land and for costs and damages, etc.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this 28th day of April, A. D. 1920.

(Seal) SAM T. DAVIS,  
Clerk, District Court, Lubbock county, Texas. 444

# TO LUBBOCK COUNTY DEMOCRATS:

Lubbock, Texas, April 28, 1920  
As Chairman of Lubbock county for the endorsement of the National Democratic Administration I beg to submit the following:

## Why the Democrats Should Endorse the National Administration

- |   |   |
|---|---|
| 1st—The election of the United States Senators by direct vote of the people.  | 14th—The Selective Draft Act and other war measures making it possible for our army and navy to win the World War and preserve our liberty and freedom.   |
| 2nd—The Tariff Commission.  |   |
| 3rd—The Federal Reserve Law.  |   |
| 4th—The re-establishment of the Merchant Marine.  | 15th—The writing into the Peace Treaty the principles of Democracy and the protection of the weak peoples of the world against the aggression of the strong.  |
| 5th—The Cotton Future Act.  |   |
| 6th—The Federal Farm Loan Act.  |   |
| 7th—The Federal Aid Road Act.   |   |
| 8th—The Federal Trade Commission.   | 16th—A League of Nations, the purpose of which is to forever make wars impossible.  |
| 9th—The Federal Co-Operative Agricultural Act.  |   |
| 10th—The Clayton Anti-Trust Act.  | 17th—The Child Labor Law.   |
| 11th—The Act of the President in compelling Germany to acknowledge our right to the freedom of the seas.  | 18th—The Amendment to the Constitution of the United States prohibiting the manufacture and sale of liquor for beverage purposes.   |
| 12th—The Acts of the President in keeping this country out of war as long as there was any honorable way to keep out of that world cataclysm.   | 19th—The political emancipation of woman.   |
| 13th—Our entry into the war because our citizens were being murdered upon the high seas, our flag insulted, our honor assailed, our right brutally disregarded and our liberty and freedom imperiled. | 20th—The recommendations of the President after the war was won to reduce and simplify taxation, which recommendations have not been followed because the Republicans for almost two years have had control of both houses in Congress. |

## Mr. Bailey Opposes and Condemns Each and All of the Foregoing Accomplishments

The effort of the opposition, led by Mr. Bailey, is to repudiate and condemn each and all of the foregoing marvelous accomplishments. In his speech at Wichita Falls, as published in the Wichita Falls Record, March 30th, Mr. Bailey said: "Viewing the whole thing, taken from top to bottom, not one single achievement of the entire Democratic Administration meets with my approval." All those who subscribe to this sentiment will be found voting with Mr. Bailey to repudiate the Democratic party and thus make the election of a Republican President a certainty.

Respectfully,

## E. L. KLETT

Chairman Lubbock County Administration Democrats.

**A POUND OF COTTON—A SPOOL OF THREAD**

Ennis, Texas, April 24.—"A Pound of Cotton for a Spool of Thread," is the title of an interesting comparison drawn by A. H. Wicker & Co. of Ennis. The article sent out in the weekly market letter seeks to call the attention of the growers to the actual value of their cotton as sold to the spinner and the actual value of the finished products as sold to the grower.

"Recently a farmer we have known for years and respected for his high standing in the community entered our office and held up a small object, a very small object. It was only a spool of thread. In the other hand

he held a sample of low grade cotton, but good spinnable cotton. "I just paid fifteen cents for this," he said. "And I'll be darned if I can get more than that for this whole pound of cotton."

"He made the remark jokingly, but under it all was an element of pathos. Especially was it so in this era of Big profits. Have you ever figured out what it would mean to the producer to take one cent or one-half cent from the price of the thread and add it to the price of the cotton?"

"The answer is Organization and Method in Marketing the manufactured product on the part of the manufacturer and "Blind Marketing" on the part of the producer. The spinner spins the thread, and makes the price and gets it, or you do not get the thread. On the other hand when the producer has gathered the fruits of his year of gruelling toil, he brings it in and asks "What will you give me?"

"Cooperation, organization and fifteen cent spools of cotton. No method, inefficiency, waste, lack of independence, Blind Marketing and underpriced, undervalued, undersold cotton."

S. C. Wilson of the Western Windmill Company, this city, made a business trip to Sweetwater the first of this week.

**MANY THINGS BOOST THE HIGH COST OF LIVING**

We are wont to hear on every hand a great howl about the high cost of living. Various and sundry reasons are given with the majority accredited to under-production. While under-production may be one of the many reasons, sheer extravagance is the prime factor.

The farmer is the recognized backbone of the nation and yet fewer people are producing farm products now than ever before. The folks on the farm have been caught in the jazz maelstrom, moved to town and quit everything except spending. More people are traveling in all directions with no definite destination than before. Every traveler almost to a person is clothed in the best to be had with a suitcase in keeping with the fancy makeup of clothing. Trunks are too cumbersome for the harem-scarem journey of this day. The upper berths are taken first and berths of any kind are to be had only by applying in advance. The news "butch" sells his wares at exorbitant prices as fast as he can hand them out. Every traveler exhibits a roll of "bat" skins that would choke a horse and handles it with about as much care as a billy goat would a magazine. Trips of a few blocks are made in a taxi with a tip thrown in to further swell the high cost of travel.

Everyone howling about the H. C. of L. and at the same time spending money foolishly. People of the Ford class hit the Pierce-Arrow gate and keep it up. Prices of town property are high and still going higher. Rents are still higher with any kind of a stopping place at a premium. Still they come to town.

The laborer demands higher wages, the manufacturer grants them and immediately advances the cost of the manufactured article which, in most cases, is bought by the same fellow who demanded an increase in wages, only to learn that his wage increase means nothing.

If the immutable law of supply and demand is applied, there is but one logical conclusion at which to arrive: The craftsman, farmer and common laborer must produce more. There must be in a sense an over-production for at least two years in order to catch up.

So long as the principal occupation of half the population is loafing while the other half is getting by on half time labor, and the principal pastime is burning gas in an expensive car, prices will remain up—going higher all the time.

The false prosperity is but a phantom. We wonder where this deluge of money came from. During the war great sums were spent by the government. Production during the war and especially during the last year fell way below the usual standard. That same money thrown to the populace, whether wisely spent or squandered, it makes no difference is now being replaced in the treasury of our Uncle Samuel through taxation. The next question naturally arises, where is the next supply of money coming from when this is gone?—Clarendon News.

I was in bed with a sore leg for a week and the 'Discovery' cured it."—MRS. L. I. DANIELS, R. E. Box 20.

**John Deere KC Cultivator**

The John Deere KC Cultivator has established, in actual use, a high reputation for giving special satisfaction to the user because of its features that make thorough work easier and faster.

It provides for all of the ordinary adjustments and requirements and, in addition, has several new and valuable features found only on this cultivator.

With the shovels of the John Deere KC Cultivator properly "set," the operator can drive into the field and adjust the machine for distance of cultivation from the row, for depth of cultivation and for level cultivation, without leaving the seat. There is a handy lever for every adjustment necessary to meet the different field conditions.

**Easy to Handle on Crooked Rows—Does Thorough Work While Dodging**

The rigs of the John Deere KC, being rigidly connected to the arch arms, are held firmly at a uniform distance apart, shifting with the arch arms and wheels when dodging. They are always parallel with the line of travel.

That means that the shovels on both rigs always face squarely in the direction in which the cultivator is traveling and cut out full width on crooked rows as well as on straight rows.

**Spread Lever Space Rigs at Both Front and Back**

You will be sure to like the way the John Deere KC's rigs can be adjusted for distance of cultivation from the row. A special lever, located within easy reach of the operator, spreads the rigs the same distance

at both front and back, instead of swinging them in and out at the back only. Spread either wide or narrow, the beams of the KC are always parallel. The shovels point to the front and hold their "set," assuring parallel level cultivation.

**Front and Rear Shovels Penetrate to Same Depth**

Another valuable feature of the John Deere KC is the level penetration of the shovels. The front and back shovels on each rig enter the ground level and continue level as they are lowered by the depth lever. The "set" and "suck" of the shovel are always the same regardless of the depth of cultivation.

**Master Level Raises Both Rigs and Balances Machine**

The master lever raises both rigs and balances the machine. The shovels lift high and level. With the machine perfectly balanced, the pole stays down when turning. Both team and operator are comfortable. When the rigs are lowered by releasing the master lever, the double bail rig hangers cause the shovel to penetrate level.

**You Need the John Deere KC**

Remember, good cultivation is one of the most important requirements of your business. Your young crop plants need the best of care. The quantity and quality of your crop yield will depend upon how well your cultivator destroys weeds and aids the soil in maintaining the proper amount of moisture. You will find the John Deere KC especially satisfactory in meeting all the requirements of good cultivation.

**LUBBOCK JOINS IN ADVERTISING W. T.**

The meeting called by the Chamber of Commerce for Saturday evening, was postponed until Monday morning. Dr. O. H. Lloyd of Vega, accompanied by Porter Whaley, manager of the West Texas Chamber of Commerce and W. K. Whipple, were present at the meeting Monday morning and presented their plans.

Dr. O. H. Lloyd, who is true West Texas enthusiast, spoke for several minutes to the directors of the Chamber of Commerce and outlined their plans for advertising West Texas. In effect, his plan as outlined is: That by concerted effort on the part of the several counties constituting West Texas, a truck tour of sixteen states will be made. In this large truck, which will be donated by the Wichita truck people, will be booths of displays of the various counties represented in the tour. Dr. Lloyd will personally accompany the trucks and deliver lectures or talks on the various counties and in general tell the truth to the much misinformed people of the north and east about this country. Pictures will be made of several thousand feet in length, showing the various activities of West Texas and other scenes. We are told that at least two ten-thousand feet reels will be made to accompany the trucks on the tour. In addition to the trucks will be Mr. Whipple and another man in two planes, who will proceed ahead of the truck and advertise the meet. Advertising in the forms of bulletins will be made and scattered over the States to the interested parties. Preceding the showing of the real truth in pictures of West Texas, will be shown two thousand feet of pictures of the West Texas described by misinformed people and those envious of this section.

Forty thousand dollars will be needed to finance this scheme of advertising. In order that Lubbock may be represented in the display, \$1,000 was agreed to be raised by the Lubbock Chamber of Commerce Monday morning.

HOME DEMONSTRATION DEPARTMENT

The Composition of a Canning Club Girl

By May Cowart, 2nd Year, New Hope Club.

I joined the Canning Club to learn the use of vegetables and how to can them and because I liked the work. I have two patches of tomatoes. One is on the west side of our earth tank and the other is on the south side of the tank. My idea of having them near the tank was that I could irrigate without any trouble.

It was late before I could get my garden plowed, because the sand was piled in the garden so high and the wind and sand kept blowing until it couldn't be plowed until late, then it was plowed deep twice before I set my plants out.

I did not use any kind of fertilizer on my garden. I did not plant my seed in a hot bed. I planted them in rows in the garden and when they were large enough to transplant, I

transplanted them to my other garden, leaving a good stand where they were planted.

After I transplanted my plants I did not have to irrigate but once or twice and just hoed them two or three times. When I hoed them, I put the dirt to the plants with the hoe and that was all I cultivated them.

I did not prune nor stake my vines and no insects or diseases attacked my vines. But the worms bothered a few of the tomatoes. I could not do anything to prevent this.

When I gathered my tomatoes I always took a bucket to gather them in and a tub to pour them in. When I got the bucket full, after I got them all gathered, I would weigh them.

To grade them I would assort them to sizes and color.

Tomatoes was the only thing I grew on my garden spot. I canned all my tomatoes for home use and when I would start to canning I poured boiling hot water over the tomatoes and let them stay in the hot water several minutes then put them in cold water but did not let them stay in the cold water but took

them right out and peeled them. The labels have the 4H brand on them. The parts of the emblem are four-leaf clover, tomatoes and four Hs and book.

The four Hs represent the equal training of the head, heart, hands and health of every child.

Train the head to:  
Think  
Plan  
Reason

Train hands to:  
Be useful  
Be helpful  
Be skillful

Train heart to:  
Be kind  
Be true  
Be sympathetic

Train helath to:  
Resist diseases  
Enjoy life  
Make for efficiency.

The book is used as a background for the needs of education and definite knowledge on farm and home interests in order to make for better rural life.

The tomatoes signifies the relation of the garden products to a happy and contented citizenship.

The four-leaf clover represents the principles of scientific farming, rotation of crops, soil building and large production and greater profits for the common people.

In addition to the parts of the emblem at the top of books appears the word, "demonstrator." The word, "demonstrator" means that every club member is a demonstrator of the best known methods in modern agriculture and that they have not only agreed to read the instructions furnished by the farmers' cooperative demonstration work of the department of agriculture, but have followed these instructions during a period of not less than one year or not less than one acre in the corn club work and not less than 1-10 acre in the girls' canning and poultry club work.

At one of our meetings we had demonstrations on canning beans and squash. While this was cooking several of the girls were freezing ice cream which we all enjoyed very much after it was frozen and before going home some pictures were taken.

One special good time was at the Short Course, which was given for part of the girls, as all could not attend. The first day we were to get there at 12 o'clock and begin our work at 1 o'clock, which we did, and was taught eight different ways to prepare eggs. The Short Course lasted two and one-half days. We learned something different every day and every night we would go to the court house to practice our yells and songs and play games and have a good time and then we would go to the homes that were provided for us by some of the women in Lubbock.

The day after the Short Course was a picnic for every one. It rained that day and just a few came, but the ones that came brought plenty to eat and we had a nice dinner spread in the court house. After dinner we all parted and went to our homes, all having enjoyed themselves very much.

Vegetables are used to build up the body, to furnish energy, strength, heat and keep the body healthy.

I have learned that some vegetables should not be cooked as long as others.

One of the recipes I have used, is: Chili Sauce. Select only ripe tomatoes, wash but do not peel, cut out green cores and bad places, quarter, measure and place in open top porcelain lined or granite vessel over stove.

For each gallon of tomatoes add one level cup of finely-chopped onions, 2 level cups of chopped green sweet pepper (leave out seeds). Boil until soft and tender, mash through colander, measure pulp and add to each gallon of pulp the following:

- 1 level teaspoon ground cloves,
  - 2 level teaspoons red pepper,
  - 1 level ground allspices,
  - 3-4 pint sugar,
  - 1 and 1-2 level teaspoons ginger,
  - 1 1-2 level teaspoons cinnamon,
  - 1-2 table-spoons black pepper,
  - 6 table-spoons salt,
  - 1 pint vinegar.
- Boil until quite thick, much thicker than catsup. I have already gathered 430 pounds of tomatoes but that is not all of my tomatoes. I have 20 1-2 gallons of tomatoes canned.

### History of My Crop

By Julia Florence.

April 16, 1919 I began to prepare my hot bed and on April 18, 1919 I planted the seed. The name of them is Ponderosa. In May 20, 1919 I transplanted them but some of them died and I had to transplant them again in June 2, 1919. The weeds grew so bad that I had to hoe them in June 7, 1919 and July 21, 1919. I took as good care of my plants as I could but I had trouble with them. They took the rust and died. Then before the tomatoes got ripe, the most of them either rotted or was sunburnt, but still I had a pretty good crop. My first ripe tomato was in Aug. 1, 1919. In all of the tomatoes, I got 145 pounds. I sold \$1.10. We ate 30 pounds at home. I have canned all the rest. I have canned 5 quarts of cherries, 3 quarts of peaches, 3 1-2 glasses of jelly, 4 quarts of peach pickles, 1 glass of peach preserves and 2 glasses of tomato preserves.

## Real Estate and Fire Insurance

I am now engaged in the real estate and fire insurance business and have an office in room number five, Lowrey Building.

Already I have secured a sufficient number of responsible fire insurance companies to take care of all the business I can likely secure, and I would appreciate such a share of the insurance business as my friends may think I merit and they see fit to give.

Look over your policies and if you find you need more insurance, come in and see me. Too much or too little insurance is alike inadvisable, but no insurance is certainly poor economy. And if you are in the market for a good building site, in town, or a dwelling or a farm, I am in position to show you some real good values in the medium priced as well as the better homes.

### DOWNWARD COURSE

Fast Being Realized by Lubbock People.

A little backache at first. Daily increasing till the back is lame and weak.

Urinary disorders may quickly follow. Dropsy and often Bright's disease. This frequently is the downward course of kidney illa.

Don't take this course. Lubbock residents should profit by the following experience.

Mrs. J. H. Henderson, Snyder, Tex., says: "I have used Doan's Kidney Pills off and on at different times and have always got good results. My back caused me a lot of pain and sometimes I was so bad off, I could hardly get around. I was also troubled with swelling of my feet and ankles and mornings I would hardly feel like getting up, my back would be so sore. Doan's Kidney Pills have always relieved me of that trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Henderson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mrs. J. R. Burrus is in Slaton this week visiting at the home of her daughter, Mrs. Joe Kuykendall.

We are expecting a new shipment of CHEVROLETS in a few days. In this shipment you will be able to find a car that suits your requirements. We will be pleased to demonstrate at any time.

## MOTHERS' DAY

ALL THAT I AM OR HOPE TO BE, I OWE TO MY ANGEL MOTHER

—Abraham Lincoln.

### "FLOWERS FOR MOTHER"

Join the Millions of Men, Women and Children of this Great Nation in Paying Homage to Her.

This day has been set aside by an act of Congress as a day to be kept sacred in honor of the "Mothers" when we, as a Nation, turn aside from our usual tasks to pay homage to her who gave us birth, whose guiding hand and unselfish love made life's path smooth for our first faltering steps.

### FLOWERS

Profusely fragrant and delightfully refreshing, they will, if presented on this day, be a true token of love and devotion. It means so much to Mother, every petal, every leaf, every waft of fragrance is laden with a message for her. It speaks to her in language no human tongue can speak—it makes her feel that the pain, the anxiety, the fear, the sleepless nights, her silent sorrow, her sufferings have not been in vain—it sneaks to her of love returned, the sweetest of all compensations and it means so little to you measured by the standard of gold and silver.

The correct significance—White Flower for Mothers' memory, colored flowers for living mothers, any flowers are appropriate.

WE CAN MAIL OR TELEGRAPH YOUR FLOWERS IF YOUR MOTHER IS IN ANOTHER CITY. PLACE YOUR ORDER FOR MOTHER'S DAY NOW!

NOTICE!

I, J. R. Germany, City Secretary of Lubbock, Texas, in pursuance of the hereinafter set out ordinance, do hereby give notice of the matters and things therein contained, which said ordinance is as follows:

Ordinance

APPROVING AND ADOPTING THE ENGINEER'S STATEMENT, DETERMINING TO ASSESS PART OF THE COST OF IMPROVING PORTIONS OF SOUTH FIRST STREET, NORTH FIRST STREET, SINGER STREET, CHESTNUT STREET, CEDAR STREET AND ASH STREET AGAINST PROPERTY ABUTTING THEREON AND THE OWNERS THEREOF PROVIDING FOR AND SETTING A TIME AND PLACE FOR A HEARING TO PLACE THE MATTERS IN DISPUTE BEFORE THE CITY COMMISSION AND TO DIRECTING THE CITY SECRETARY TO GIVE NOTICE THEREOF AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF LUBBOCK; that,

WHEREAS, the City Commission of Lubbock has heretofore ordered the improvement of the following portions of streets in the city of Lubbock, to-wit:

South First Street from the west property line of Walnut Street to the east property line of Cypress Street.

North First Street from the right of way of the Panhandle & Santa Fe Ry. Co. to the east property line of Cypress Street.

Cedar Street from the north property line of South Third Street to the south property line of South First Street, and from the north property line of South First Street to the south property line at North First Street and from the north property line at North First Street to the south property line at North Third Street.

Singer Street from the north property line at South Second Street to the south property line of South First Street, and from the north property line of North First Street to the south property line at North Second Street.

Chestnut Street from the north property line at South First Street to the south property line at North First Street; and,

Ash Street from the north property line at South First Street to the south property line at North First Street; and contract for the making of such improvements including raising, grading, paving and filling same and making and installing concrete curbs and gutters with sewers, drains and appurtenances necessary to such improvements, such pavement to be seventy-two (72) feet wide from curb to curb on said portions of streets, except on said portion of Ash Street which shall be fifty-five (55) feet wide from curb to curb, and to be constructed of two and one-half inch Verticle Fibre brick on a five (5) inch concrete base in accordance with plans and specifications on file with the City Commission, has been let to the Panhandle Construction Company; and,

WHEREAS, the City Engineer has in compliance with directions, filed with the City Commission, a statement showing among other things, the estimate of the cost of such improvements and the portions of such cost proposed to be assessed against each piece or parcel of property abutting on said portions of streets and against the owners thereof, and giving the names of the owner of each piece or parcel of such abutting property, and showing all other matters and things required and provided by law and the City Charter, and in Ordinances and proceedings of this City for such statement, and said statement has been examined and corrected by the City Commission.

That the said statements as corrected be, and it is, hereby adopted and approved.

That the said City Commission does hereby determine to assess against property abutting on said portions of streets and against the owners thereof, all of the cost of the construction of curbs, and three-fourths (3/4) of the remaining cost of such improvements, exclusive of the cost of intersections. But in no case shall any assessment be levied

against any piece or parcel of property or the owner thereof until after the notice and hearing required by law and herein provided for; and in no case shall the assessment against any particular lot or parcel of property and the owner thereof, exceed the actual benefit to such owner in the enhanced value of his property by means of such improvement as ascertained at such hearing.

That the amounts to be assessed against such property owners shall on each portion of streets named to be improved, be pro rated according to the front foot plan or rule, that is, in proportion as the frontage of each piece or parcel of property is to the total frontage of such street. And the costs of making and constructing such improvements on each portion of streets named to be improved shall be considered independent of the cost of making and constructing such improvements on each and every other street, and, provided, that if the application of the rule in front plan shall in any case in the opinion of the Commission result in injustice or inequality to any owner and his property, then the Commission will adopt for the street on which such property abuts, such rule or apportionment as shall result in substantial justice and equality considering burdens imposed and the benefits received.

IV

That the descriptions of the parcels and tracts of abutting property on the said portions of streets to be improved and the number of abutting or front feet of each piece or parcel of such property; and the several amounts proposed to be assessed against each such piece or parcel of property and the owners thereof, for curbs and other said improvements and the estimated cost per front foot for each piece or parcel of property for paving, and the total estimated cost of such improvements thereof, all of the cost of the construction of curbs, and three-fourths (3/4) of the remaining cost of such improvements, exclusive of the cost of intersections. But in no case shall any assessment be levied

## CITATION BY PUBLICATION

**THE STATE OF TEXAS.**  
To the sheriff or any constable of Lubbock County—Greeting:

You are hereby commanded to summon J. C. Wilkinson, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court House thereof, in Lubbock on the 1st Monday in June A. D. 1920, the same being the 7th day of June A. D. 1920, then and there to answer a petition filed in said Court on the 29th day of April A. D. 1920, in a suit numbered on the docket of said Court, No. 1339, wherein H. C. Wilkinson is plaintiff and J. C. Wilkinson is defendant; the nature of plaintiff's demand being as follows:

Being a suit for divorce filed by the plaintiff against the defendant in which it is alleged that said parties were lawfully married in Terry County, Texas, on December 5th, 1918, and continued to live together as husband and wife until about March, 1919, at which time the defendant left the plaintiff, and has not since said date contributed to her support and said marital relations have not been resumed. Plaintiff alleges that the defendant was guilty of gross excesses towards her, as more fully set out in the petition filed in said cause, and that such excesses were of such frequency and nature as to render their further living together insupportable, as defined in the first section of Article 4631, Revised Civil Statutes of Texas, and plaintiff prays for an absolute divorce as against the defendant, and for special and general relief, legal and equitable, etc.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Lubbock, Texas, this 29th day of April, A. D. 1920.

(Seal) SAM T. DAVIS,  
Clerk, District Court Lubbock County, Texas. 444

## Faith in Strangers

The days have not yet come when the unsophisticated countryman ceases to be buncoed by smooth-tongued sharpers. Every day we hear of some one being duped, all because of innocent faith in strangers.

If we would confine our dealings as much as possible to people we know, we would fare much better. Instead of sending our money away to people we never saw and never expect to see, let's spend it where we know who gets it.

The biggest reason is that the fellow we know has to face us daily and he can't afford to "sting" us. He has a reputation for square dealing that he wants to keep. He's your local merchant—your friend. Learn to know him better. It pays you because he has to make it do so.

J. C. BLAIR MAY BECOME AGENT AT KRESS

J. C. Blair, first truck operator at the local passenger station, has recently sent in a bid on the agency at Kress. Being oldest in points of seniority, it is generally conceded that he will be the agent for that point. In the meantime, however, he and his wife are planning an extensive trip to cities of the south, New Orleans, Galveston and Birmingham. They will likely leave the first of the coming month.

It is the part of wisdom to think twice before punching your antagonist. He may not be worth a bruised fist.

### SHARP ADVANCE IN HOGS, CATTLE AND SHEEP STEADY

Kansas City Stock Yards, April 26.—Though hog receipts today were fairly liberal, demand was active and prices ruled 25 to 50 cents higher than the close last week, top \$14.50. Butcher cattle were higher and steers steady to strong. Sheep were quoted strong with no prime handy weight fed lambs offered. Some clipped Texas wethers sold at \$11.75.

**Today's Receipts**  
Receipts today were 6,000 cattle, 7,000 hogs and 5,600 sheep, compared with 8,000 cattle, 5,500 hogs and 8,500 sheep a week ago, and 14,350 cattle, 15,500 hogs, and 10,800 sheep a year ago.

**Beef Cattle**  
Cattle receipts today were not as large as a week ago or a year ago, and the market made a sufficient showing of strength to indicate that the decline, which prevailed last week, has been brought to an end. In most cases butcher cattle were higher and steers strong. The general situation is that killers will buy fat cattle readily this week, provided they can get shipments of beef to the east without delay. Beef steers today sold at \$10.50 to \$13.00, mostly \$12.00 to \$13.00. Most of the offerings were from Missouri, Kansas and Nebraska. About forty cars of South Texas steers sold at \$9.50 to \$10.75. Fat cows sold at \$8.00 to \$11.50, and canners and cutters \$4 to \$6.50. Veal calves were steady at last week's decline.

**Stockers and Feeders**  
Demand for stockers and feeders continued small. Receipts were light and there was sufficient shipping outlet to care for the supply. Prices were not changed. Improved demand will prevail as soon as shipping conditions are normal.

**Hogs**  
Hog prices were 25 to 50 cents higher, with packers leading the competition. The top price was \$14.50,

and the bulk of the offerings sold at \$13.65 to \$14.35. Receipts were fairly liberal and a general advance in prices of provisions added an incentive for buying. Shippers are still unable to make liberal purchases owing to restricted shipping conditions. Pigs continue in active demand.

**Sheep and Lambs**  
Prices for sheep and lambs today were quoted strong. Woolled lambs though wet, sold up to \$20.35 and others at \$20.00. Some clipped Texas wethers brought \$11.75, and fat goats \$7.90. Final shipments will be made from Northern Colorado feeding sections this week.

**Horses and Mules**  
Trade in horses and mules in a limited way was restored in the horse and mule market. Receipts were too small to try out the extent of the demand. Prices were quoted steady.

CHARLES M. PIPKIN,  
Market Correspondent.

**MANY EX-SOLDIERS HAVE TUBERCULOSIS**

Austin, April 26.—In answer to a statement of the Thomas Dismuke Post No. 52 of the American Legion at Houston, which has raised the issue that there are not sufficient tubercular ex-soldiers in Texas to warrant the erection of a hospital at Kerrville for their treatment by the Benevolent War Risk Society, from funds solicited throughout the State, Dr. C. W. Goddard, State health officer, and president of the Benevolent War Risk Society, has issued a statement in which he gives his authority for the estimate that 4,000 ex-soldiers in Texas will need treatment for tuberculosis. This estimate he attributes to Maj. John M. Holt, supervisor Fourteenth District, United States Public Health Service, who wrote Governor Hobby last October as follows:

"Texas contributed 174,000 men to National forces in the war. Ten per cent of this number, or 17,000

will probably be in some degree disabled. Possibly 25 per cent, or 4,000, would represent the number afflicted with tuberculosis. With this as an index and the fact that all available bed space has long since been taken up for tuberculosis cases and that we are receiving requests for relief from other tuberculosis patients every day in conjunction with the fact that we are now obliged to send these cases out of the State, and will be forced to do so until adequate facilities are provided, indicates the necessity for immediate action."

Dr. Goddard stated that from the nature of the disease it may be four or five years before there will be 4,000 cases in Texas requiring hospital care, but quotes Assistant Surgeon General J. H. White of the United States Public Health Service to show that even with the Benevolent War Risk hospital being conducted to care for 300 men and the United States public health hospital planned for 500, there will be a minimum of 450 excess cases in the immediate future to be cared for in private institutions.

**HOG CHOLERA BREAKS OUT IN SNYDER COUNTRY**

Dr. R. M. Harkey, veterinary surgeon of this city, was called to Snyder Wednesday of this week to treat a herd of hogs, infected with cholera. Dr. Harkey remained only a short time, returning home Thursday morning.

J. O. Jones returned Sunday from a visit of several weeks in Mineral Wells. Mrs. Jones is visiting her daughter, Mrs. Ruby in Wichita Falls and will return about the last of the week.

Miss Mamie Crump of Shallowater spent Tuesday in town visiting with friends and in the afternoon attended the meeting of the 20th Century club at the Methodist church.

**COMMITTEE OUTLINES  
SCHOOL LEGISLATION**

Austin, Texas, April 19.—After an all-day discussion the general educational advisory committee, which effected permanent organization here today, adopted resolutions outlining emergency legislation to be requested of the special session of the Legislature, which is now scheduled to be called for May 24. Permanent committees were created and recommendations for immediate relief to stop desertions from the ranks of the teachers and insure adequate school terms.

The five following cardinal principles were adopted:

First, increase of appropriations for higher educational institutions, including State Department of Education.

Second, increase of salaries of county superintendents, fixing the minimum salary and permitting county boards to fix the maximum salary and make allowances for office assistance and traveling expenses.

Third, direct appropriation from the general fund for the public schools to make up the deficiency necessary for their support and operation.

Fourth, repeal of the maximum salary law now applying to rural and small town schools.

Fifth, revision of laws as to certification of teachers, providing for reciprocity with other States and for some choice of subjects.

It was further decreed that the Legislature should amend the laws so as to clearly designate as schools and not eleemosynary institutions, the blind institute, deaf and dumb school, the State orphanage and the recently created home for neglected and dependent children. During the discussion Senator-elect Lynch Davidson remarked he favored the repeal of the entire board of control act.

**Needs of Medical College**

Upon motion of Representative Leonard Tilston, the Governor is asked to appoint a committee from the Legislature to investigate all conditions surrounding the State Medical College at Galveston as it exists today and report to the chief executive any changes which may be needed in the government of this institution. This will include an investigation of the appropriation made by the board of commissioners of the city of Galveston for the support of John Sealy Hospital, an inseparable adjunct to the medical college.

**AGED MAN IS KILLED AT SWEETWATER MONDAY**

Ned Dare, 72 years of age, was instantly killed when struck by an Orient switch engine on the industrial track near the Western Windmill Company's plant at 2:30 Monday afternoon.

When killed, Dare was coming to town from his home and it is presumed he did not see the engine. He was dragged about 60 feet, and the body was badly mangled.

Dare has been in the employ of the Williams & Miller Gin Co. as night watchman. He is survived by his wife and four children, Mrs. R. D. Rocheffe and Miss Lillie Dare of Sweetwater, Miss May Dare of Dallas, and Ed Dare of the United States Navy.

#### LAMB COUNTY SHORT HER SCHOOL LAND

Lamb County is one among the number of counties in West Texas that failed to get her pro rata of school land when organization was perfected, and this is working a hardship on the school system of that county. An effort will be made to have the legislature enact a law that will give this county as well as other unorganized counties the equivalent of the land in money, that they may have an equal chance with other counties of the state. Since the legislature set aside enough land to give each county four leagues of land, to be given the county as soon as it is organized, a number of new counties have been created and immediately organized, stepping in ahead of the other counties yet unorganized and exhausted the supply of State land. Lamb county was one of the unfortunates. Hockley and Cochran are two more and there are possibly one or more others that when organized, will have no county school land to help them along on their school funds. As it now stands Lamb county is paying much more taxes into the State School fund than she is getting back, and the shortage on the school land is working a double hardship on this county. We are of the opinion that these counties should have relief in some way, and the matter will likely come up before the next session of the legislature.

All of West Texas counties are paying a great deal more into the state school funds than they are receiving back, and many of the East Texas counties are receiving thousands of dollars more each year than they are paying into the fund. West Texas is not only educating her own children, but those of the people back east, yet we get nothing but knocks and kicks from the representatives in the legislature from the Eastern districts.

### In the Great Pecos Oil Field

The Accompanying Map Shows My Holdings in This New Field. I Will be Here for the Next 10 Days. If You Want Money Making Leases see Me Right Away.

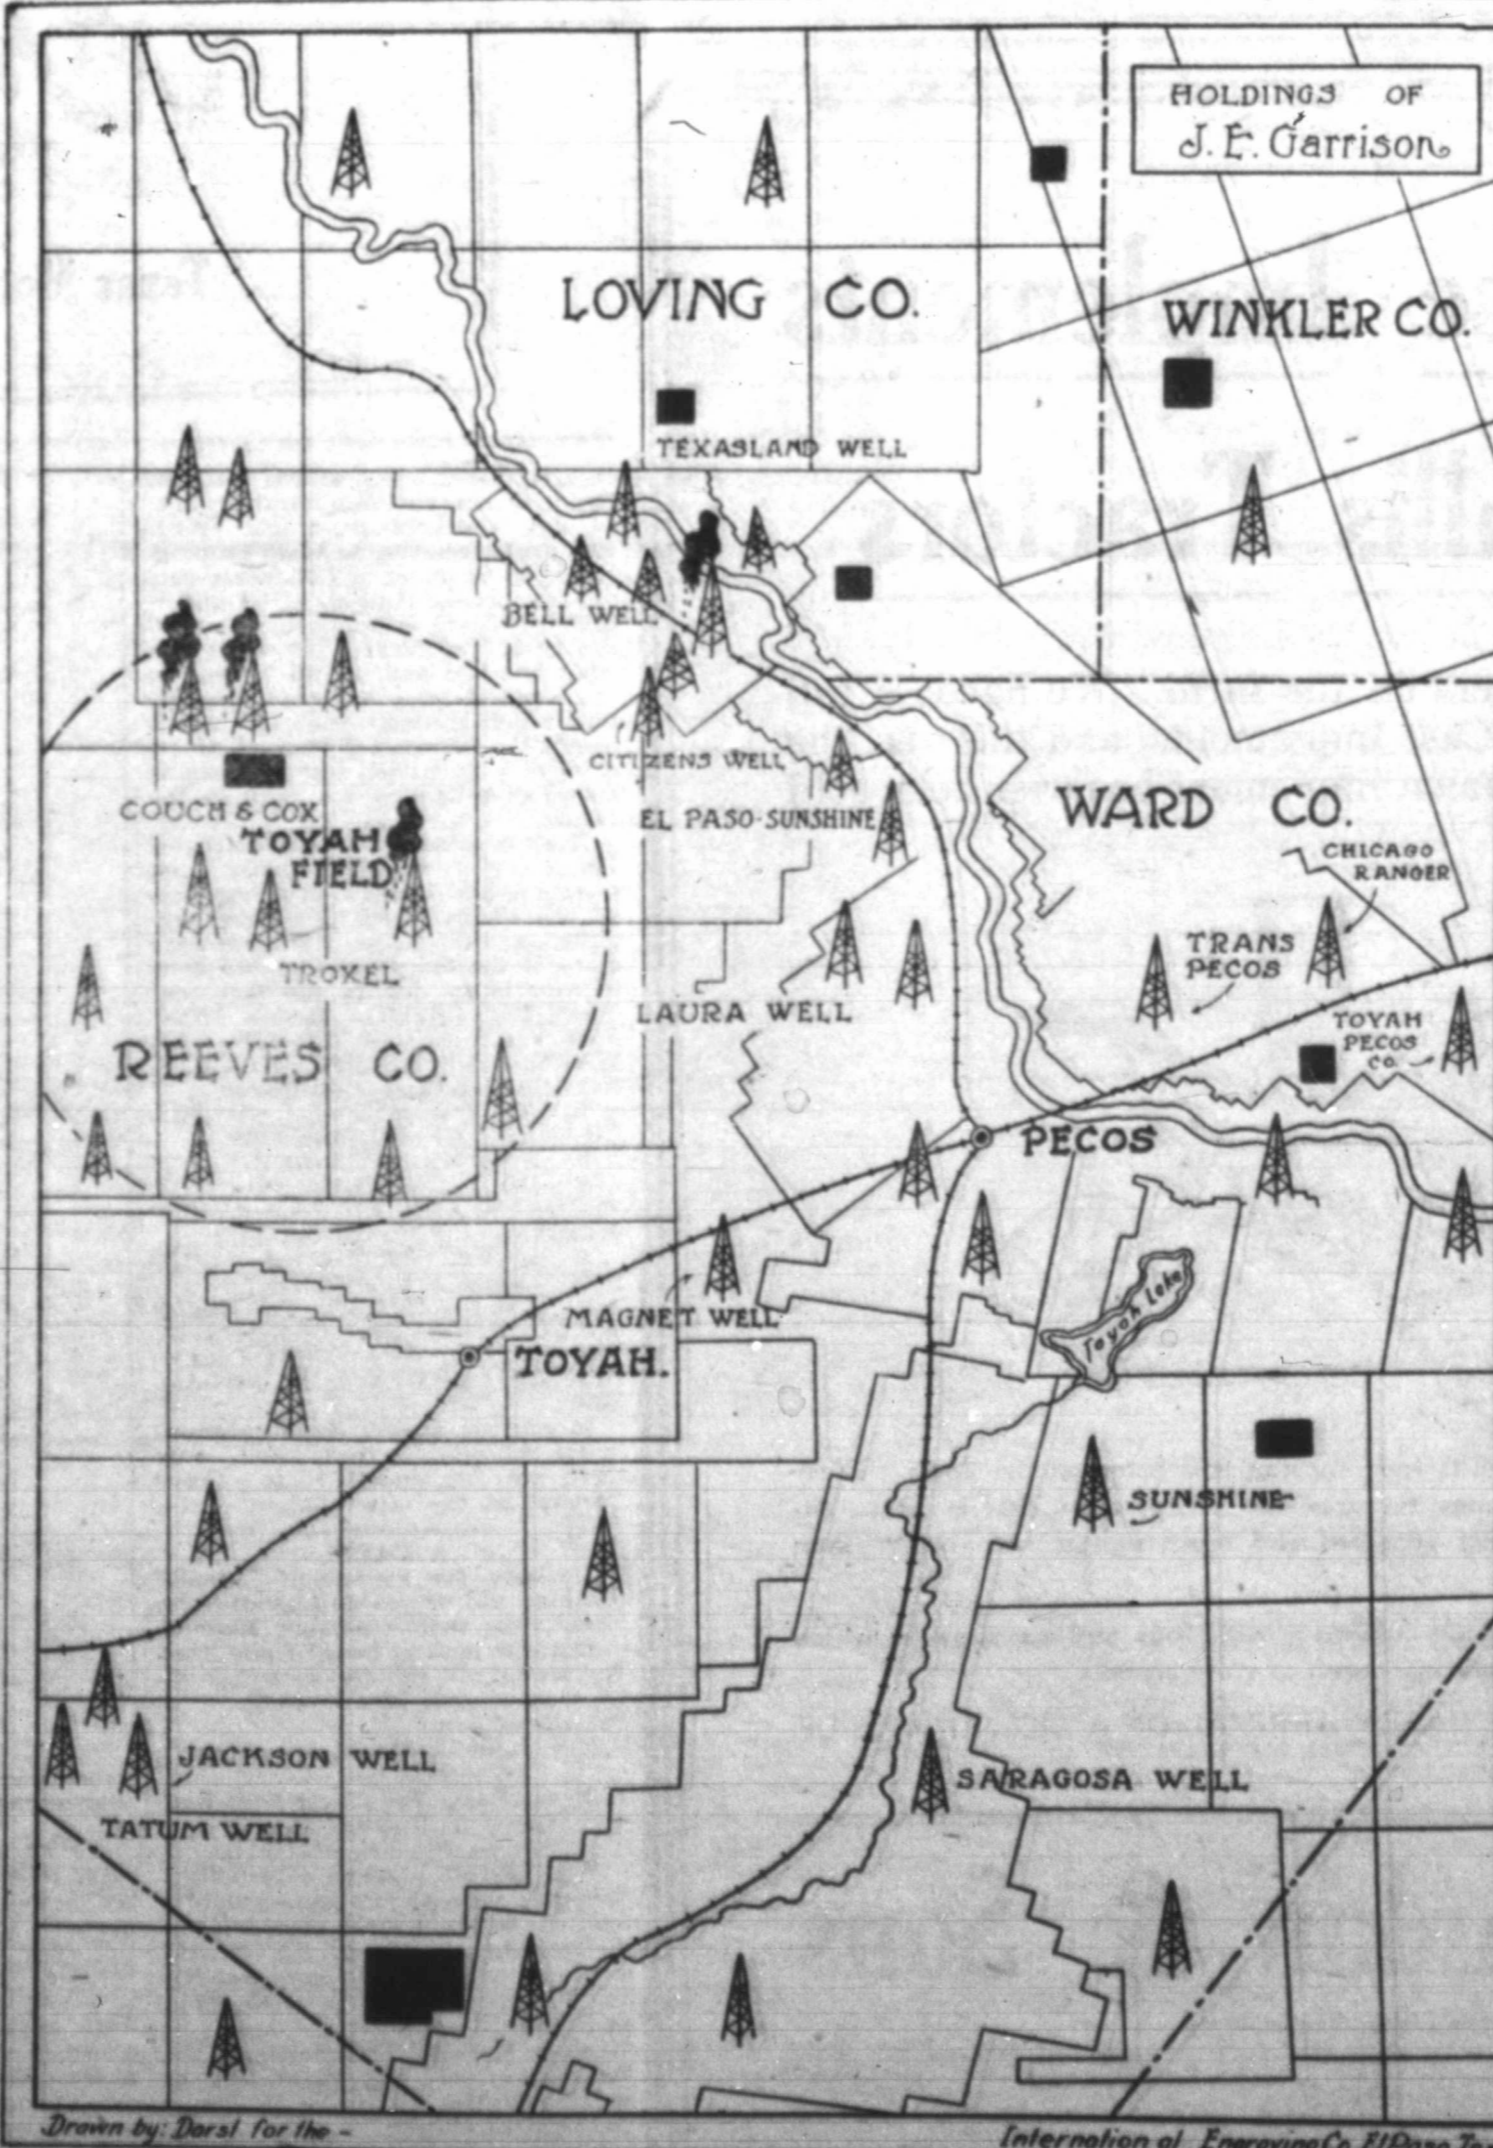

My holdings are surrounded by 150,000 acres of the big Dan Sully and B. H. Mason interests. These holdings have been located by the following geologists, who are the most famous in the world: C. W. Erickson, Dr. A. A. Hassan, D. D. Riddle, C. A. Fisher and Dr. Tucker.

Dr. Tucker is the man that opened the Pecos field, and all of these men are agreed that the great Pecos and Toyah field will prove to be the Tampico field of Texas.

I went into the field last year ahead of the boom, and on the advice of one of the above famous geologists, secured all the acreage that my finances would justify at that time. Fortunately on his advice, I now hold some of the best leases in this great field, and by getting in early I can save you money on this money making proposition. I will leave within the next ten days. If you are interested in the Pecos and Toyah field, see me at once. Let's talk this matter over. Let me show you where I can make you some real money on your investments. I will figure with you on a drilling contract, as I have as good acreage as there is in the field. The highest priced oil in the world is found in this field at a depth of from one hundred and five feet to seven hundred feet. It does not cost a fortune to drill your well.

### CHAMBER OF COMMERCE

#### The Plain Unvarnished Truth

There has never been a community organization but which at various times in its history has been the recipient of a liberal share of hard "knocks" and criticism. Constructive criticism is always in order and is the prerogative of every good citizen who is honestly doing his share toward the upbuilding and progress of his town or community. But the sad fact remains that much of this caustic comment is without foundation and cannot be verified or substantiated, and the vast majority of self-appointed critics are without a "leg" to stand upon in their unjust fault finding. "It is an unfortunate habit of human nature to disapprove of that which is not understood," is a statement which cannot be refuted.

The Lubbock Chamber of Commerce is not different in this respect from other community organizations. It has received its full quota of "knocks" and "boosts," of criticism both just and unjust. Sometimes it would seem that the "knocks" and unjust criticisms are vastly in the majority, yet a question which is continually buzzing around in the back of our heads is, "Do these knockers really have a right to find fault with this organization?"

The time is ripe for a general forward movement in Lubbock, and we believe from evidence apparent and manifested on every side that this development cannot be kept back or appreciably retarded; and the goal and desire of the Chamber of Commerce is to make Lubbock and this community the best one on the Plains in which to live.

The Lubbock Chamber of Commerce is working for a better Lubbock. If it is not infallible but is HONESTLY TRYING and in many things, both large and small, is suc-

ceeding beyond the wildest hope of the planners and despite the works of any knockers or unjust critics who are attempting to block its progress. The Chamber of Commerce cannot be successful in all of its undertakings. There is no business or industry on the face of the earth but what has had and is still having its "ups and down," but the organization which honestly tries to succeed merits the unqualified support of every live wire citizen who believes in his community and has faith in the future.

Keep in mind that the Chamber of Commerce is working while you sleep and has succeeded in doing some of the things which you have suggested, and the reason it has not done more of the things you wanted done is very likely due to the fact that YOU, MR. CRITIC, HAVE NOT PUT YOUR SHOULDER TO THE WHEEL AND HELPED TO PUSH.

- Ask yourself these questions:
1. AM I A MEMBER OF THE CHAMBER OF COMMERCE?
  2. ARE MY DUES PAID?
  3. DO I UNDERSTAND THE PROGRAM AND ATTEND EVERY MEETING I POSSIBLY CAN?
  4. HAVE I MADE A CONSTRUCTIVE SUGGESTION?
  5. AM I WILLING TO HELP WORK OUT THE COMMUNITY PROGRAM IN WHICH THE CHAMBER OF COMMERCE IS ENGAGED?

If you can answer these questions in the affirmative, then, and only then, are you qualified to throw "bricks" at the other fellow.

### REMNANT COTTON SALES HAVE AFFECTED THE MARKET

Ennis, Texas, April 17.—Farmers who give their cotton away for the picking are seriously influencing the low price on the market at the present time according to A. H. Wicker & Co., of Ennis, cotton merchants. Cotton secured for the picking has been sold for low prices, the low prices at one point have influenced the prices at other points with the result that the entire market has been affected.

"While giving away the remnants of cotton in the field for the picking may appear generous it is very derogatory. The pickers are enabled to sell at prices far below the cost of production even reaching seven and eight cents. These low prices have immediately been telegraphed and reported the world over, with the result that a few low basis of prices was established on low grades, and the farmer who has generously given his gleanings to his hands, has at the same time given away something that belonged to his neighbor, in the price of his unsold cotton.

"There may have been only a few of these bales, but they add that much more 'bear' material to depress prices this season and next season, and while the spinner as a rule would not buy that very low cotton, he points to it nevertheless as 'visible supply,' and as an argument for lower prices.

"The producer has in this way been furnishing ammunition year after year, to the speculator and the bear element interested in putting prices down, to buy it cheap and get the benefit of the producers' toil. The spinner will point out confidently that the producer will not sell his cotton below the cost of production yet he will at the same time point to eight cent cotton. There are many instances when the cotton had been better left in the field to rot than be brought on the market as a weapon to cheat the farmer out of his reward. This is only one of the many pitfalls of BLIND MARKETING.

### CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting:

You are hereby commanded to summon A. J. Robertson, Fannie H. Napier, Hays H. Robertson, Sterling C. Robertson and Van Irion, and the unknown heirs of the said A. J. Robertson and of Fannie H. Napier, and of Hays H. Robertson and of Sterling C. Robertson and of Van Irion, by making publication of this citation once each week for four consecutive weeks previous to the return date hereof, in some newspaper published in your county, if there be a newspaper published therein, and if not then in any newspaper published in the 72nd Judicial District; to appear at the next term of the District Court of Lubbock county, Texas, to be held at the court house thereof, in Lubbock, on the first Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920, then and there to answer a petition filed in said court on the 3rd day of April, A. D. 1920, in a suit numbered on the docket of said court No. 1334, wherein, W. R. Mosley is plaintiff, and A. J. Robertson, Fannie H. Napier, Hays H. Robertson, Sterling C. Robertson and Van Irion, and the unknown heirs of the said A. J. Robertson, and of Fannie H. Napier, and of Hays H. Robertson, and of Sterling C. Robertson and of Van Irion, are defendants, the nature of plaintiff's demand being as follows:

Plaintiff alleges that on January 1st, 1920, he was lawfully seized and possessed of the title to a part of the Jas. R. Robertson survey, in Lubbock county, Texas, by virtue of Cert. 23-113, Pat. 49, Vol. 23, patented January 17th, 1879, described as follows: Beginning at a stk. 1-320 vs. S. of N. E. cor. sd. sur; thence W. 952.22 vs. Thence S. 948.6 vs. a stk. for corner. Thence E. 952.22 vs. to stk. in E. line; thence N. 948.6 vs. to beg. containing 160 acres; to said date the defendants unlawfully entered into possession of the premises described and unlawfully ejected plaintiff, and withholds possession to his damages, \$1,000.00. Plaintiff prays for his damages, for the recovery of title and possession from defendants; writ of restitution, etc. Plaintiff also claims title under the three years statutes of Limitation, as defined in Art. 5-675, Rev. Civ. Stats. of Texas; and also claims under Five Year Statutes of Limitation, as defined in Art. 5-674, R. S. of Texas; and also claims title under Ten Year Statutes of Limitation, as defined in Art. 5675-5676, R. S. of Texas, claiming title under said Statutes of Limitation to all land above described.

Herein, fail not, but have you before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office at Lubbock, Texas, this 3rd day of April, A. D. 1920.

### PROBATE JUDGE'S TESTIMONY

Some years ago an investigation of the Probate Court records in New York City, Pittsburgh and Toledo brought to light the startling fact that over 85 per cent of the adult population leave no estate at death.

A further confirmation of this condition is found in the recent report of Judge Edward W. Bazille of the Probate Court in Ramsey County, Minn. He says:

"I have learned after twenty-one years of probate that 85 per cent of all adults die without leaving any estate to probate; one-third of all widows are left without the necessities of life and 75 per cent without the comforts. Most men live up to their income and some exceed it, which accounts for not leaving any estate. The husband dies, his business or profession is at an end. He may have been in partnership; the surviving partner has to close the affairs of the concern; his estate has to be probated, which takes a year or more. The widow and the children are given an allowance; the claims are paid and after the expenses of administration, inheritance and oth-

**TRAINING LITTLE CITIZENS**

**Team-Work For Children**  
By Emily V. Hammond

As a child I learned a Latin quotation which has always stood by me and which I have had occasion to use with grown-ups as well as with children. The translation is this—"In essentials unity, in non-essentials, liberty, in all things, charity." If all team work could be carried on in the spirit of this wise counsel, think of the petty quarrels and big feuds that might be avoided!

We mothers cannot begin too early to teach our children to "play fair" and to work together harmoniously; to emphasize the essentials of life, and not to quarrel about the non-essentials.

In the kindergarten the children learn in a very practical and effective way, although they probably could not state it in so many words, that the chain is only as strong as the weakest link. If Tommy is disobedient and pulls Sally's hair, then the harmony of the circle is suddenly broken. The other children are quick to appreciate this and when the next one is called upon to select a partner for a game, you may be sure Tommy is not chosen. Soon he begins to feel his exclusion, and it does not take him long to "put cause and effect together. In the future he

will think twice before pulling Sally's hair!

Treatment such as this proves far more effective than the kind usually administered by an older person. Most children are born with a keen sense of justice, and do not protest at having to suffer the just consequences of their wrongdoing, especially when meted out to them by a tribunal of their peers. This suggests that it is often a wise plan to keep hands off and let the boys and girls adjust their own differences. This helps to promote a good team spirit.

When the children leave kindergarten it is most important to foster their love of playing and working together in groups. I know of no better organizations for the purpose than the Boy Scouts and the Girl Scouts. The former takes boys of 12 and over and the latter starts with girls of 10. The Girl Scouts also have an organization known as Brownies which looks after little girls from 6 to 10. Any parent wanting to know more about the Scouts can obtain their handbooks at headquarters; Boy Scouts of America, 200 Fifth ave., and Girl Scouts, 527 Fifth ave., New York.

The Scout motto, "Be Prepared," is a great incentive to boys and girls alike to get together. To make the troop strong each boy and girl must develop strength of character, for we cannot have any weak links in the chain. With an efficient captain in charge to hold aloft a high ideal of service there are no limits which the Scouts may attain.

It will be a fortunate day for this country when there are kindergartens and Scout troops in every city and village of the land. These and kindred organizations will help to unite children in all walks of life. They will instill principles of freedom and justice and, above all, will inspire, through work and play, a spirit of comradeship which is indispensable to the welfare of a great democracy.

**SKILLED SURGERY SAVES LIFE OF SNYDER MAN**

One of the most remarkable incidents showing what skilled surgery is doing for the people, is the case of John Gladson, a cab driver of Snyder who was brought here for treatment under Dr. Arvel R. Ponton of the Lubbock Sanitarium. Gladson will return home Saturday, we are told, a well man. He arrived in Lubbock seventeen hours after he had been stabbed through the abdomen. Three hours or over that time in the case like this, we are told is the limit that one will live. Gladson was stabbed with a butcher knife and the contents of his intestines had emptied. Dr. Ponton personally attended the wounded man and on account of the delay in reaching the sanitarium, thought it practically impossible to save his life.

A. P. Seitz left Tuesday night for Eastland where he will be for a few days on business matters. He will also visit with his brother in Brownwood before returning home.

**DOUBLE BEAUTY OF YOUR HAIR**

"Danderine" creates mass of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the "Danderine" and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and so easy to do up. All dust, dirt and excessive oil removed.

Let Danderine put more life, color, vigor, and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful.

Dr. W. L. Baugh, City Health Officer, returned Sunday afternoon from Houston where he has been a few days attending the Health Convention.

D. J. Harris of Meadow, was in the city on business today.

A cast that is so well balanced that it would be impossible to pick out one who stands out from the rest is a feature in "When Bearcat Went Dry," the six reel super-picture that will be the attraction at the Lyric Theatre commencing Monday and lasting through Tuesday. This great picture play adapted from Charles Neville Buck's famous novel of the Kentucky mountains has more thrills in it than is usually found in three feature pictures. The running fights between two of the fighting elements that compose the inhabitants of this mountain district furnishes an audience with enough suspense that will satisfy the most exacting of audiences. Through the story runs a love romance that is as sweet as the water that trickles down the sides of the Cumberland mountains where the story of the play is laid.

Messrs. W. S. Posey and J. M. Denman, accompanied by their families, motored to Floydada last Saturday remaining over night and returning Sunday afternoon.

**COUNTY WILL SAVE MONEY IN PAVING**

According to John Dalrymple, the head of the Panhandle Construction Company, who have the contract for both the city of Lubbock and the county for the paving, says that a great saving will be made to the county, by the use of the curbs and gutters now surrounding the square. It was thought at first that it would be impossible to use them in the paving.

Active work on the gutters and curbs, the engineering, and other of the preliminaries of the paving are in course this week. The foundation, consisting of concrete, for the brick will be laid first, or completed before any brick will be laid. Over the concrete base will be spread what is termed a Monolithic formation in which the brick will be set, which will also act as a sound deadener.

If the price of news print continues to advance you will soon be able to trade off your copy of this paper for a new car.

### DEATHS.

I. W. Tatom of Snyder, died in a local sanitarium following an illness of several days, April 19, 1920. He is survived by a wife and two sons, one of whom is employed on the Slaughter ranch near this city. Burial was made in Snyder cemetery, April 20th.

Russell Johnson, age 5 years, son of Mr. and Mrs. W. E. Johnson of Snyder died in a local sanitarium following an operation on April 27, 1920. The body was shipped on the date of death to Snyder where interment was made. He is survived by his mother and father.

Mrs. J. M. Wilson, born September 12, 1881, died in a local sanitarium April 23, 1920. The deceased was brought to a local sanitarium for an operation, but attending physicians believed her too low to undergo it. She is survived by her husband and six children, one of whom lives near Dalou; a mother and one sister of Matador, who were also at the bedside. Funeral services were conducted by Rev. A. A. Collins of this city, and interment was made in the Lubbock cemetery April 24th.

Lucille Weathers, age 18 years, daughter of Mr. and Mrs. S. N. Weathers, well known residents of Tahoka, died at the home of parents in that city Sunday night, April 25, 1920, following a short sickness of acute indigestion. Interment was made in the Tahoka cemetery.

Infant son of Mr. and Mrs. Walter Lundy, age about three weeks, died at the home of parents, about 25 miles northwest of this city, last Saturday night. Burial was made Sunday afternoon, April 25th.

Infant daughter of Mr. and Mrs. A. J. Mullins of this city, age about three months, died at the home of parents April 15th. Interment was made in the Lubbock cemetery April 16th. Funeral services were conducted by Rev. W. A. Bowen, pastor of the Baptist church of this city.

### RED CROSS ELECTS OFFICERS FOR YEAR

A meeting of the Executive Committee of the local Chapter of the American Red Cross was held in the office of the Chamber of Commerce last Wednesday afternoon, at which the following officers and chairmen of standing committees were elected for the ensuing year:

- Geo. W. Briggs, Chairman.
- Mrs. J. S. Johnson, Vice Chairman.
- Mrs. M. Fulton, Executive Secretary.
- Mrs. W. S. Posey, Recording Secretary.
- John Denman, Treasurer.
- Mrs. S. C. Arnett, Public Health Nursing.
- Mrs. Roscoe Wilson, First Aid.
- Mrs. F. C. Oliver, Junior Red Cross.
- Mrs. Joe Penney, Home Service.
- B. H. Meskimen, Publicity.

In addition to the above named, Mrs. Lee Green, Chairman of the Station Branch of this Chapter, was elected a member of the Executive Committee.

Mrs. M. Fulton has recently returned from Austin where she has spent several weeks in receiving a thorough course in the various phases of the peace time program work of the Red Cross. It was voted at this meeting to retain her as the salaried Executive Secretary of this Chapter, to which work she is to devote her entire time. The present plan is to have her occupy a separate office in the rear of the County Treasurer's office on the first floor of the court house. Details of this proposed arrangements are now being worked out and it is expected it will be concluded within the next few days.

It is believed the Chapter at this point has sufficient funds to finance its activities until next Armistice Day, at which time the regular annual membership campaign will be launched.

### LUBBOCK COUNTY TO KEEP COTTON CLASSER

A special call meeting of the Lubbock County Cotton Growers' and Marketing Association, held last Saturday evening in the Court House, resulted in the unanimous approval of securing and keeping the services of a government cotton classer for the coming year. The salary of \$2500 was guaranteed by the association, aided by the four progressive banks of Lubbock, W. T. Williamson, present government classer, was heartily asked to remain and by vote of the association made unanimous his services were appreciated during the past season. Talks of the good that came to the farmers individually was made Saturday evening.

A new set of officers were elected Saturday, including a board of directors. The officers for this year are: Tom Tubbs, president, J. F. Goodnight, vice president and R. A. Karper, secretary.

Yes, we ran up against a genuine curiosity yesterday. Found a fellow who doesn't want to be president.

Lots of men would have backyard gardens if they had wives willing to work them.

### Lindsey Theatre, Thursday, May 6th

**HEAR SKOVGAARD**—Weave into tuneful fabric the entire gamut of human emotion—love, anger, joy, hate despair. Hear the music of mountain brooks, the laughter of little children, wild Hungarian Waltzes, sweet tender folk songs athrob with half forgotten memories. Hear him and feed your soul.

### Mrs. Edmund Wiley

#### The Southern Nightingale

Assisting Skovgaard, the Danish Violinist, Mrs. Edmund Wiley, colorature soprano, will delight you with vocal selections, consisting of arias from your favorite Operas, folk lore and national songs, correctly costumed. Mrs. Wiley has appropriately been called "The Southern Nightingale." Born under Southern skies, where the nightingales make the summer nights musical with their golden songs, she has caught the melody, and when she sings, the notes and scales and trills soar and dance and shimmer in a merry riot of entrancing tones. The South should well be proud to call as its own, one, who, by talent and perseverance has placed herself near the top of the ladder. Endowed with an attractive personality and a warm emotional nature, her first notes tell unmistakably that she has a message to give, and with a rarely artistic interpretation, she succeeds in imparting to her hearers its full import.

Representing thirty years of incessant training  
This is the insurance carried by Skovgaard on his left hand

This is an exceptionally rare treat, and to miss hearing this program is to deprive yourself of hearing two of the world's greatest musical artists.

LUBBOCK TO GET TWO GOVERNMENT TRUCKS

Knox Williams of Austin, a truck inspector, is in Amarillo this week for the purpose of assembling and distributing 24 new F. W. D. trucks to representatives of Panhandle counties that have requested trucks from the Federal government for road building purposes. Mr. Williams says that it probably would be two weeks or more before the actual distribution is started and that the county commissioners of each county will be notified when its quota of the trucks are ready to be delivered. The counties will be requested to send their representatives to Amarillo to receive the trucks.

The counties to receive these trucks, and their respective quotas are as follows: Eriscoe, 2; Dallam, 1; Carson, 1; Donley, 2; Foard, 2; Gray, 1; Hansford, 1; Lipscomb, 1; Palmer, 2; Potter, 4; Floyd, 1; Lubbock, 2; Ochikree, 1; and Swisher, 1. All trucks are of the three-ton capacity.

The 24 trucks to be distributed will make a total of 70 trucks that the Federal government has given for use in road building in the Panhandle, 46 having been allotted some time ago.

## BLEDSOE NEWS OF THE PAST WEEK

Mr. and Mrs. J. O. Day were transacting business in Lubbock Monday. Miss Margie Lyon spent the week end at home in Petersburg.

Miss Bertie Pool was a guest of Mrs. W. E. Bledsoe the past week. A very serious accident occurred to Miss Bertie Pool Saturday when her collar-bone was broken.

Mr. Andrew Reid, accompanied by his sister, Elizabeth, spent the week end visiting with their uncle, Mr. F. Bennie of Abernathy.

Mr. and Mrs. Givens entertained the young people of this community with a social Friday night.

Mr. J. O. Day and son were working on their car Saturday. Last week we stated that we hoped to have the recital at the school house May 1st, but have postponed it until May 8th.

Mr. Jay Phillips returned this week from Foard county, where he has been visiting his parents and friends the past two weeks.

Quite a crowd of young people from this community enjoyed the play put on at Idalou Saturday night by the people of Estacado.

Mr. Ray Furgeson, accompanied by his cousin, were in Sweetwater last week.

Messrs. Kenney and Gambrel Rankin passed through here enroute to Estacado Friday afternoon.

Mr. W. W. Furgeson returned this week from the East, where he has been visiting and transacting business several weeks.

Miss Katie Daugherty was a guest of Mrs. Buna Guinn the last of the week.

Miss Eva Pool was a welcome visitor at school Thursday.

The school literary society met Friday night and rendered an interesting program to a large crowd.

Misses Rose and Violet King were accompanied to Idalou Saturday afternoon by Miss Flossie Lou Furgeson.

## CARD OF THANKS

We wish to thank the many good people who proved themselves friends indeed, during the illness, and death of our precious wife and mother, Mrs. J. M. Wilson.

Your many deeds of kindness and words of sympathy shall never be forgotten.

ADMINISTRATION RIDICULED  
BY FORMER CONGRESSMAN

A small crowd was out Tuesday afternoon to hear Hon. Oscar Calloway, former Congressman of Comanche, talk in the interest of Joe Bailey.  
Mr. Calloway spoke very little personally about Mr. Bailey, although he spoke at length ridiculing the President and his administration. He claimed to have all the inside dope

on the administration; something that only those of Washington knew about, and that the newspapers even of that city did not know, or else were bought by the administration and therefore worked in harmony with it. He claimed to know that many large papers were bought by the administration and hinted strongly that Texas was the abode of some. He said that newspapers did not print what he said because he told facts and not opinions. He spoke lengthily upon the actions of the president and especially claimed that the platform or part upon which Wilson was elected was made for his advancement in the election and that "Wilson repudiated part of his platform before the ballots were all in."  
Calloway spoke about two hours and left for Plainview to speak Tuesday night "declaring that he heard the people of Plainview were in the dark, and that he should show them the light."

AMERICAN LEGIONS OR  
GANIZED AT RALLS

A mass meeting of the ex-service men of Crosby county was held at Ralls last Friday evening for the purpose of taking preliminary steps necessary to the organization of an American Legion Post at that point. At a special request from the parties in charge of this meeting, Messrs. John J. Noone and B. H. Meskimen, officers of the Legion at this point, attended this meeting and assisted in the preliminary organization of this Post.

Mr. Jakes Wade of Crosbyton was elected Temporary Post Commander, M. A. McLaughlin, Temporary Adjutant, and Carl Lewis, Temporary Finance Officer.

After some discussion, it was voted to name the Ralls Post the J. M. Brooks Post. About 40 ex-service men signed up for membership at this meeting, and it is expected that this number will be materially increased within the next few days.

**Everybody Likes The Chandler Dispatch**

THE popularity of the Chandler Dispatch, which has grown by leaps and bounds and reaches to every corner of the world, is based not only on the grace of its trim design and its beautiful Rainbow Blue finish, but is due quite as much to the standard Chandler chassis upon which it is mounted.

The Dispatch attracts young folks and older ones alike. It is a great favorite with young women. All love to drive it, and the charm of its beauty gives them additional satisfaction in its ownership.

The Chandler Dispatch seats four persons with utmost comfort. The driver's position is restful. The cushions are deep, well tilted and trimmed in the best of genuine hand buffed leather.

With its wonderful flexibility of power, its ease of driving and real comfort, characteristic of all Chandler models, everybody likes the Dispatch.

C. E. MAEDGEN ATTENDS  
MEET AT COLLEGE STATION

C. E. Maedgen, president of the Security State Bank & Trust Company, and who also is a member of the Agricultural Committee of the Texas Bankers Association, returned last Saturday from College Station where he attended the meeting of the farmers and bankers.

Mr. Maedgen was the only representative from Lubbock county to attend this important meeting, although the counties of Dawson, Crosby and others of the South Plains were well represented, some having as many as six men in attendance. This meeting was the first of its kind ever held in the State and had for its purpose the advancement of the agricultural resources of Texas. The meeting was such a success that it was decided upon to make it an annual event. Mr. Maedgen believes that at the next meeting next year Lubbock county should have enough representatives to justify the use of a Pullman. There were about four hundred visitors at the meeting, one hundred of which were bankers, the balance being farmers from various sections of the State.

### MR. GLOCKNER, EDISON ARTIST, PULLS A BADGER

Monday evening one of the most successful Badger fights ever staged in Lubbock was "pulled off" in the rear of the Griffin-McLarty Auto Co.'s sales room. Mr. Jacques Glockner, "Cellist and Conductor for Miss Leola Lucey, who gave a concert here this week, was the means of affording amusement for the crowd of over two hundred spectators who had gathered to witness the fight.

Mr. Jno. R. Span, representing the Texas-Oklahoma Phonograph Co., who has been conducting this party on its "recital tour," is greatly responsible for Mr. Glockner being so well posted on the art of badger fighting. All during their trip through West Texas Mr. Span made it a point to acquaint Mr. Glockner with the fighting qualities of a badger. He even went so far as to see that cow boys and ranch men whom they met on the trains would relate their experiences to Mr. Glockner. During the several weeks they were together, Mr. Span was careful to emphasize the fact that badgers found on the Plains of Texas were much more ferocious than any other variety.

As Lubbock is the "Hub of the Plains" and noted for its badger fights, Mr. Span thought this would be the logical place in which to entertain Mr. Glockner. On arrival of the party, word was passed to J. A. Rix, Manager of the Rix Furniture & Undertaking Co., Edison dealers in Lubbock, that Mr. Glockner was anxious to see a badger fight. This is all that was necessary, as it is not a hard matter to induce C. L. Griffin, Charlie Adams, Ed Green and a score of others to help entertain your friends with a badger fight.

During the day Mr. Glockner's curiosity was further augmented by being shown a stuffed badger that was procured from the Hunt Grocery Co. for the occasion. The time set for the fight finally arrived. Mr. Glockner was soon to have an experience he had been wishing for for weeks. He was so impressed with the opportunity that on the way to the fight he remarked to Mr. Span that he was so excited that he was "all a-quiver."

It is an easy matter to get a crowd together for a badger fight, but it is not always so easy to get some one to pull the badger from its cage. After much deliberation as to who would be allowed to "pull the badger," the honor was finally bestowed on Mr. Glockner. At first, he declined, stating he was "afraid the beast would attack him." After being assured that it would not harm him, he finally took the rope that controlled the "beast," but he did so with an expression on his countenance of one who feels that he is about to be destroyed by some monster, but is too brave to be called a coward by his fellow men. The time had now arrived when all that was necessary was for Mr. Glockner to pull the "beast" from its cage and let the dog attack it. The signal was given, and Mr. Glockner "pulled the Bad-Jar." He soon realized that it was not as ferocious an animal as he had been led to believe it to be.

For Mr. Glockner's benefit it must be said that he is a good enough sport to laugh at a joke, even though he is the goat.

(Editor's Note)—Span, Rix & Co. are contemplating going into the badger fighting business exclusively with the idea of entertaining other Edison artists who may tour Texas in the future.

**ORIENT WANTS TO SELL BONDS TO BUILD EXTENSIONS**  
Austin, April 16.—An application for authority to issue \$4,483,000 of bonds has been filed with the Railroad Commission by the Orient on 435 miles of completed roadway. Before acting on the application Chairman Allison Mayfield of the Commission, and Chief Engineer R. D. Parker will make an inspection of the property.  
The proceeds from the sale of these bonds are to be used for the purchase of equipment, and also for the construction of several gaps in the line in Texas, which, when constructed, will give the Orient a through line from Kansas City to the Pacific Coast via the State of Chihuahua, Mexico.  
One of these gaps is from Alpine, through Brewster and Presidio counties, to the Mexican border, where the road will enter the State of Chihuahua.  
Another extends from San Angelo to Del Rio, where it is contemplated to make connection with the Mexican lines. Part of the extension from San Angelo to Del Rio has already been built, and will soon be completed.

**NOTICE**  
(Continued from page 2 this section)

1920, at 2:00 o'clock p. m., in the City Office in the County Court House, in the City of Lubbock, Texas. Which said hearing shall be continued from time to time and from day to day as long as may be necessary and until all desiring to be heard shall be fully and fairly heard; and at which hearing any mistakes, irregularities or invalidities in any of the proceedings with reference to the making of said improvements, con-

tract or assessments may be corrected, and the benefits by means of said improvements and all sums to be assessed against such abutting property and the owners thereof, will be determined, and the apportionment of the cost of said improvements will be made. And after all desiring to be heard have been fully and fairly heard, the said hearing will be closed, and thereafter assessments will be levied and in accordance with law be levied against said abutting tracts or parcels of land the true owners thereof, wheth-

er such owners be correctly named herein or not.

**VI**

The amounts to be assessed against abutting property and the owners thereof shall be payable as follows: One-third thereof immediately upon the completion and acceptance of said improvements in front of and abutting such property, one-third one year thereafter, and one-third two years thereafter. And such assessments shall bear interest from the date of such completion and acceptance and until paid at the rate of eight per centum per annum, payable with each installment as same matures. Provided, however, that each and every property owner shall have the right to pay any or all of such installments with accrued interest at any time prior to maturity; and provided that the failure to pay any installment promptly as the same matures, shall, at the option of the beneficial owner and holder of said assessments, mature the entire amount thereof, and the same shall together with reasonable attorney's fees, and costs of collection if incurred, thereupon become immediately due and payable. And in all of said assessments there shall be included costs of collection and reasonable attorney's fees if incurred. And such assessments when levied shall be a personal claim and charge against the owners of such property and the first and paramount lien on the property against which it is levied, which shall be the first enforceable claim against the property against which it is assessed, superior to all other liens and claims, except State, County and Municipal taxes.

Portions of said improvements when completed may be accepted by the City though other portions of said improvements have not been completed. And the acceptance of any completed portions shall not in anywise affect or impair the assessments upon any portion, and shall not in anywise affect the contract or proceedings with reference to uncompleted and unaccepted portions. And whenever as much as three continuous blocks of said improvements have been completed, same shall be accepted by the City, but the City may accept completed portions of less than three continuous blocks. Upon the acceptance of any such improvements, the City shall issue to the contractor assignable certificates evidencing the assessments therefor.

# Some Telephone Facts

IT COSTS MORE to furnish Telephone Service today than it did a few years ago.

THE COST OF ALL MATERIALS AND LABOR has increased in the past few years, but telephone rates have remained fixed. IT IS NOW IMPERATIVE THAT TELEPHONE RATES BE SLIGHTLY INCREASED IN ORDER TO MEET THE CHANGED CONDITIONS.

We have not been earning anything like a reasonable return and we must increase the rate to our patrons to a point where we can earn a small return on the investment.

The new rate will not yield a reasonable return, but it is imperative that we increase the rate to a point where we will not suffer a loss. The readjustment of telephone rates, however, is nothing like that in other lines, proportionately, but they will enable us to survive and properly fulfill our obligations to the public.
