What are the facts about tobacco? it safe to use it? Everyone knows that the danger tobacco lies in the contained nicotine. There is said to be enough nicotine in one cigar to kill 100 rabbits. Combustion decomposes nicotine and renders it harmless. Unless the combustion is complete this desirable is not attained. Let us apply this test to the various methods of smoking: The pipe offers every facility for burning the tobacco. The saliva flows gravity down the stem into the ash. Countless matches are necessary to keep up fire in the soggy fuel. Needless to say, perfect combustion is impossible unless the pipe is kept dry. The last third of the cigar becomes soaked with the saliva. Naturally it won't burn readily. Therefore the "butt" of a cigar may be safe, because its nicotine will be burned away. The cigarette is paper-covered. Its nature and makeup are conducive to dryness and of necessity whole outfit burns readily. Especially if smoked in a holder to keep saliva away from the tobacco, cigarette is more likely to develop perfect combustion than is any other of smoking material. The pipe or cigarette were otherwise on equal footing the cigarette would bear away the palm. But too many users of cigarettes inhale the smoke. There can be no compromise here. Inhaling tobacco smoke is harmful to health, and in my opinion the practice shortens life. The moderate use of dry tobacco, treated as to remain dry till the it reaches it, and smoked without halation will do little harm to healthy adults. It is such a depressant and has such an effect upon the sympathetic nervous system, however, that certain vital functions are lowered if tobacco is habitually and excessively used in middle age. At his time of life one must choose between the greatest possible alertness of function and the joy and solace of the weed. Lastly, let it be remembered that tobacco smoke is a tangible and material thing. It is just as real as dust, and just as irritating to the membranes of the head, throat and lungs.

**MRS. LOCKETT ADAIR-IS NOW RESIDING IN LUBBOCK**  
Mrs. Lockett Adair, wife of the celebrated evangelist, who is well known throughout the United States for his great revivals, is in the city, and will reside here the balance of the summer for the benefit of her health. She was accompanied by her family which consists of Messrs. Elmer and Jack Adair, and Misses Willie and Virginia Adair. Their home is at Lone Oak, Texas. Mr. Adair, as usual, will spend the greater part of his time in meetings during the summer months. Many of the people of Lubbock will remember Mrs. Adair, she having been here with her husband some years ago, when he held a months' meeting in Lubbock. Her older son is representative of S. & H. Green Stamp Company, and spends a good deal of his time in Lubbock.

Boyce McKey, of Canadiap, was in Lubbock last Friday looking for a farm location. Mr. McKey stated that he was on a deal for a farm near Plainview, but did not like that as well as this part of the country, and after the deal fell through there he decided to come to Lubbock.

There's as much difference in the character of paints as in people. You want paint that not only looks well on your property, but that will give you the best service at lowest cost. That is the reason you should buy a paint containing the greatest amount of zinc. Without it paint rapidly darkens, scales off and decays.

Contains the highest percentage of ZINC, mixed in correct proportion with pure Lead and ground in genuine Linseed Oil. In point of appearance, great covering capacity, and longest wear, Pee Gee Mastic Paint has proved its worth during more than fifty years.

likely to be pooled will take the latter course. How much more will take that course depends upon the bankers and merchants and accordingly as they act within the next two weeks, we may expect gradual recovery or worse embarrassment in the cotton regions. The crisis is just ahead of us; we can pass it safely if we are wise and if we act resolutely. If we falter, if we allow ourselves to drift, I fear that the worst is yet to come.

"I make this final appeal to the bankers and credit merchants of Texas to save themselves and their farmer debtors while they can. It will be too late when the dumping begins, for the momentum will be irresistible."

### LOCAL NEWS ITEMS FROM THE LYNN COUNTY NEWS

The Tahoka Baseball Club won its tenth consecutive game of the season yesterday when they defeated the Lubbock regulars by the one-sided score of 7 to 1. Lubbock made her lone score in the first inning, but was unable to get another man around during the other eight times at the bat. Many errors were made by Lubbock, showing lack of team work. Tahoka was in perfect form and soon piled up a heavy lead off the delivery of the two would-be pitchers. After the fourth inning, the game ceased to be interesting. Lucy in the box and Gandy behind the bat did splendid work for the locals. Manager Doak will take his team to Lubbock Sunday for a return game. Lubbock will return here Sunday week.

County Clerk B. H. Robinson issued marriage license Wednesday to Earnest Broughton and Miss Margaret Heartill, of Gomez.

At sunset Saturday evening June 18, Mr. W. Carrington and Mrs. Ruth Wild Pemberton of Lubbock, were united in marriage at the courthouse. Justice of the Peace, I. T. Metcalf, performing the ceremony in the presence of a few friends and witnesses. Mr. Carrington is well and favorable known to many Tahoka citizens, having resided here at one time.

County Judge J. W. Elliott, spoke words Sunday afternoon that made Henry Tankersley and Miss Floy Russell man and wife. Miss Russell taught the Midway school the past term and made a host of friends in this community. The groom is a prosperous farmer and is held in the highest esteem by his acquaintances.

The residence belonging to Uncle Bob Montgomery, located two blocks west of the public square, and occupied by Ollie Sears and family, was totally destroyed by fire early Tuesday evening. The household goods was also a total loss. It is not known how the fire originated, as the family was away from home at the time. The building was insured for \$800, also the furniture was covered by a like amount.

Y. B. Terrice, of Roswell, New Mexico, passed through Lubbock last Saturday, enroute to Oklahoma, where he will spend the summer with his parents.

Prince H. Johnson and wife, of Houston, were in Lubbock Saturday of last week visiting and looking after business matters.

**T**he following is a list of the names of the members of the Cotton Marketing Association of the Texas Farm Bureau Federation. The following quotation is taken from the report of the bankers committee: "The committee is firmly convinced that the greatest difficulty which has always faced this section of the country at the maturity of the cotton crop is a necessity for either dumping the production on the market at the time the producers' notes mature and thereby greatly congesting transportation, banking facilities and demoralizing the market, or the necessity of creating some other kind of a credit instrument which can be easily handled, to serve in the gap between the harvesting and the gradual sale of the crop and the realization of its proceeds."

The committee recommends, in addition to the trade acceptances subject to Federal Reserve rediscount that the cotton growers marketing association arrange with the banks for Bankers' Domestic Acceptance Credits against which drafts may be drawn. Included in the committee's report are forms worked out for use in financing the Cotton Marketing Association.

The Texas Farm Bureau Cotton Marketing Association is now conducting a nactive campaign to sign up a million bales of cotton. Telegraphic reports from all over the State indicate a satisfactory progress. When the pool is completed Texas farmers will join with Oklahoma in marketing. Oklahoma has already signed up 412,000 bales.

Judge G. E. Lockhart, of Tahoka, spent several days in Lubbock last week transacting business matters.

### N. Y. Commissioner Of Health Opinion About Tobacco

What are the facts about tobacco? Is it safe to use it?  
I have certain convictions regarding this matter. The first is this: Tobacco is capable of producing positive harm to the immature and developing body. It has too powerful an effect upon the heart and the nervous system to justify any other conclusion.

Therefore tobacco—I presume we are discussing smoking alone—should never be used under the age of 20.

Whether it may be safely indulged in after 20 depends upon the individual and how it is used.

Everyone knows that the danger of tobacco lies in the contained nicotine. There is said to be enough nicotine in one cigar to kill 100 rabbits.

Combustion decomposes nicotine and renders it harmless. Unless the combustion is complete this desirable end is not attained.

Let us apply this test to the various methods of smoking:  
The pipe offers every facility for wetting the tobacco. The saliva flows by gravity down the stem into the bowl. Countless matches are necessary to keep up fire in the soggy fuel. Needless to say, perfect combustion is impossible unless the pipe is kept clean and dry.

The last third of the cigar becomes soaked with the saliva. Naturally it won't burn readily. Therefore the "butt" of a cigar may be harmful, because its nicotine will not be burned away.

The cigarette is paper-covered. Its very nature and makeup are conducive to dryness and of necessity the whole outfit burns readily. Especially if smoked in a holder to keep the saliva away from the tobacco, the cigarette is more likely to develop perfect combustion than is any other form of smoking material.

If pipe or cigarette were otherwise equal footing the cigarette would bear away the palm. But too many users of cigarettes inhale the smoke.

There can be no compromise here. Inhaling tobacco smoke is harmful to health, and in my opinion the practice shortens life.

The moderate use of dry tobacco, so treated as to remain dry till the fire reaches it, and smoked without inhalation will do little harm to healthy adults. It is such a depressant and has such an effect upon the sympathetic nervous system, however, that certain vital functions are lowered if tobacco is habitually and excessively used in middle age. At this time of life one must choose between the greatest possible alertness of function and the joy and solace of the weed.

Lastly, let it be remembered that tobacco smoke is a tangible and material thing. It is just as real as dust, and just as irritating to the membranes of the head, throat and lungs.

J. E. Brazeal, of Littlefield, Texas, was here Monday and placed an order for stationary, for his grocery store at that place. He was also distributing advertising literature for the Second of July celebration, which they are planning for that place.

## PEOPLE URGED TO SEND THEIR CHILDREN TO THE PLAYGROUNDS

EVERYTHING IN FINE CONDITION FOR CARRYING ON THIS WORK—FUNDS NECESSARY ARE ON HAND

### GREAT OPPORTUNITY FOR THE CHILDREN

Parents Can Well Afford To Take A Great Interest In The Playground As It Is A Wonderful Help To Little Folks During Vacation To Occupy The Long Days And Improve Their Time

The Red Cross and City Federation, who are at the head of the children's playground, are spending the entire week creating more interest in the people of Lubbock with the work being done for the benefit of the children. Many people have not yet learned that it is free to each and every child of the city, and for that reason are not showing the interest that they should.

A splendid program has been arranged by the Supervisor, Miss Gertrude Owens, in which all ages of children can be entertained each day, and we feel sure that every child under the supervision of this instructor will receive the best of attention.

The program arranged to make it as convenient as possible for all ages of children to attend each day is as follows: In the afternoon from four to six all children under eight years of age. This group will be entertained with folk games, singing games, musical drills, two sand piles, saw, slide, and the last hour of the day is story hour, during which the supervisor will read many interesting stories that will be of interest to the small children especially. We are also informed that Miss Owens will have two assistants, Miss Lena V. Griswold and Miss Ruth McKee in the afternoon to help with the small children.

In the morning from 7:30 to 9:00 o'clock, the boys and girls ranging in age from 12 to 16 will play tennis and indoor baseball. One day out of each week the girls of this age will be taken to the Fulton swimming pool south of town, and will be taught to swim by their supervisor Miss Gertrude Owens. The pool will be arranged especially for the children and will be drained and refilled to a depth of four feet.

From 9:00 to 10:30 o'clock, boys and girls from 8 to 12 will play tennis and indoor baseball. Many other games are being taught in connection with the regular schedule, and Miss Owens states that she has taught the children 34 games within the past three weeks.

From 3:00 to 4:00 in the afternoon will be used in teaching folk and aesthetic dancing and physical culture, for the girls from 8 to 12, and at the same hours the following day will be used for the same entertainment for the girls from 12 to 16 years of age.

At the present time there is an enrollment of about 150 children, but there should be at least 300 attending. Lubbock is real fortunate in having something of this kind for the benefit of the boys and girls, as the object is to teach clean sports, citizenship and fairness, and if the parents will always bring their children up in these steps they will be much more inclined to make better citizens than those who play on the streets. Boys and girls, you really don't know what you are missing but not taking advantage of this wonderful opportunity! Even though you can't attend every day it will be nice to go even once a week, and remember it is absolutely free.

## Senator Bledsoe Defends Senate Truck Bill No. 101

At the Rotary luncheon last Wednesday noon, Senator Bledsoe, who was invited to give some light on the much talked of Senate Bill No. 101, which has as its purpose the regulation of the operation of trucks over public highways, and defended the bill as one that is in the main, a just one.

"Few people have read the bill and know what it really stands for," Senator Bledsoe said, and as a proof of what he said called upon the membership and visitors at the Rotary luncheon who had read the bill to hold their hands up, and but two or three acknowledged that they had given the matter enough consideration to read it and try to digest the meaning of the bill.

Senator Bledsoe said that many people undertook to lay the blame of the bill upon the railroads of the country, but added that if the railroads showed any interest in the passage of the bill at all he never found it out. He said that the object of the bill was primarily and solely for the purpose of protecting the highways of the State, and stated as a positive proof that this was certainly needed in the case of the very large trucks, especially in the black land countries, where the roads were often made impassable for days after one of those trucks passed over it with his big tractor and trailers. He said the tax rate he believed not excessive, except possibly in the case of the extremely large tractors and even then in proportion to the damage done to roads, that he is of the opinion that the tax is nothing but just. He stated that the idea that the bill would affect the small trucks—the farmer with a Ford truck or similar capacity, was all a mistake—that this bill had no effect on that kind of a truck, and further than the regular registration fee that is required at the present time.

He gave as an example a truck operating between Lubbock and Crosbyton. He said that the probable cost of operating that truck over the roads would amount to about 85c, which he believed was not an unreasonable tax for a man to pay for the maintenance of the roads, and that the tax went direct to the counties where the truck operated through. The mileage in Lubbock county would be taxed and paid in Lubbock county, and the Crosby county mileage would go to Crosby county. The owner of the truck paying the tax in the county in which he resided, and that county would distribute the tax to the counties where it belonged, according to the report of the truck driver or owner making the report.

He said the bill had been severely criticized, and the legislators had likewise come in for a good share of the cussing for letting such a bill pass, but the criticisms came largely from the big truck manufacturers and the uninformed, who had been pumped full of propaganda by the paid representatives of the truck makers.

Judge Bledsoe stated in conclusion that as for him, he was going to stand by the bill because he believed it a just one and for the better interests of the State. Highways, and would work no injustice, that where a fellow used the roads he should be willing to help keep them up.

## Terry and Yoakum Counties Destroy 950 Quarts Hooch

District Judge W. R. Spencer issued an order last week for Terry and Yoakum Counties to destroy all of the liquor in their possession, which will total about 950 quarts. According to word from one of the county officials, it is left entirely up to the sheriff of those counties to dispose of the whiskey, and probably no one will know when or where it is destroyed, but at any rate 237 and 1-2 gallons of bonded goods added to the soil of those two counties should increase the value of the land several thousand dollars.

John Johnson, of this city, made a business trip to Floydada Wednesday, and reports that the farmers are very busy harvesting their wheat.

## BIG WAGE SLASH TAKES EFFECT NEXT FRIDAY ON EN RAILROADS

Chicago, June 27.—Employees on virtually every railroad in the country will feel the 12 per cent cut in wages, ordered by the United States railroad labor board to take effect July 1, following a supplemental decision today extending the order to nearly 100 accelerated roads.

The reductions authorized today were identical with those of the original order, the only change being the addition of rates for marine workers in certain harbors and of a section covering restaurant and dining car employees, whose wages were ordered reduced by 60 per cent of all increases received since February 19, 1920.

With the exception of a few subsidiary lines, whose parent owners filed petitions for reductions, every railroad in the country is affected. Ocean number two, the labor board six hundred million dollar wage award of July, 1920, has now been authorized to reduce wages an average of 12 per cent. Most of them have secured such permission for all classes of employees. In addition nearly two score other roads which voluntarily applied the increased scale set by the board in 1920, also have received authorization to make a simi cut.

The board recently estimated that 12 per cent reduction would lop approximately four hundred million from the nation's railroad wage bill, applied to all employees. Compulsively few roads now have a full pay of employees, but restoration normal conditions and application of the board's cut to all employees the larger railroads will make four hundred million dollar reduction a reality.

## Report Of The Eleventh Federal Reserve District Shows Excellent Crop Conditions

Dallas, Texas, June 27.—Industrial progress in the Eleventh Federal Reserve District during the past month included excellent crop conditions, an accelerated movement of cotton, wool and wheat, and the formation of plans for raising a \$50,000,000 fund for relief of the livestock industry in its present emergency, according to the monthly review of business and industrial conditions issued by the Federal Reserve Bank of Dallas. Other salient phases of the report follows:

No radical changes in the ordinary indices of business conditions developed in this section last month, the report stated. Wholesale and retail sales and collections showed slight increases over the month of April. An increase was recorded in public spending, while bank clearings and building activities showed slight decreases.

Credit readjustment continued throughout the month, despite seasonal conditions and influences which have heretofore caused marked credit expansion, the review says. Farm labor in the district is plentiful, despite the large exodus of Mexicans from Texas to the southern republic. Harvesting of grain crops is providing employment for much of the idle labor in the larger cities. The report states that labor conditions throughout the district generally satisfactory and free from disturbances.

The general trend of agricultural conditions, as shown by the review, reveals a decided improvement since the last report. Condition of the Texas cotton crop on May 25 was 71 per cent of normal, as against 60 per cent of a year ago. Reports from various sections state the plant is about two weeks late on an average. Some fear

was excited for the safety of the crop on account of probable boll weevil, a danger which it is believed has increased as a result of a mild winter. Reports indicate that many cotton fields in Central North Texas are already infested with weevils, and that it is believed damage from this source will be greater than usual this year.

Unfavorable reports from the fruit crop sections of Texas indicate that crop declined to 50 per cent normal. Wheat is well under way in Texas, and from Southern Arizona, New Mexico some reports of progress in the harvesting of wheat and oats, with yields somewhat diminished by drought during the later part of May.

Livestock in the district were generally benefited by June rains. Cooled drought in Southern Arizona and southern New Mexico, however, has caused heavy livestock loss from starvation, necessitating a feeding, the review says.

Last month movements of cattle and hogs to southeastern markets was far in excess of the usual seasonal volume, here receipts of cattle and sheep the most liberal of any month year. The calf supply was down to that of the previous month, irregularity than usual; few price movements at Fort Worth. During the first three of the month outside buyers the packers considerable attention, and as a result prices were marked strength in all divisions until the last week, when support all other buyers was lost and purchasers seized the opportunity to force prices to new low level.

## Sam Cates Found Guilty, is Given 14 Year Sentence

Sam Cates, who was tried here last week in District Court for the murder of Judge J. W. Burton, of Crosbyton, on March 8, 1920, was found guilty and sentenced to fourteen years in the State penitentiary. It was reported yesterday that his attorneys have arranged a hearing for a new trial on Wednesday of next week.

## CHILDREN'S PLAYGROUND ON HIGH SCHOOL GROUNDS

The playground is under the capable supervision of a playground director, Miss Owens, of Denton, Texas. It is free and every boy and girl from one to sixteen years old is especially requested to take part in this playground work. There are sand piles and a slide for the little tots, and ball games, tennis, swimming, folk dancing and gymnasium work for the older boys and girls. Parents may feel absolutely safe in allowing their children to go to the playground, because they are under the careful and constant supervision of Miss Owens. The parents themselves are invited to attend and see just what is being done for the children.

The first period is from 7:30 to 9:00 a. m. for the girls between the ages of twelve and sixteen. From 9:00 until 10:30, both boys and girls between eight and twelve years of age will meet for the various games, hikes, etc. From 3 to 4, the folk games and drill of the girls from 12 to 16, and from 4:00 until 6:30, all children under eight years of age.

## WHEAT BE SHIPPED OUTLYNN COUNTY

The first car of 1921 wheat shipped from Outlynn last Friday. It was shipped by Watt Bros. to an export firm at Galveston. The wheat yielded 7 bushels to the acre and tests pounds to the bushel. Wheat almost an unknown crop in county until a few years ago, farmers now realizing that Lynn can produce wheat as successfully as any other section, and a increase in the acreage is registered every year.

According to a sales agent for the Santa Fe truck, fifteen cars are being shipped county each day returned loaded with wheat. Weather conditions have been ideal for long and all needed cars are supplied, thus the movement of wheat crop is coming along fine.

Mrs. T. W. Patterson returned Tuesday from Dallas and Ft. Worth.

Never before in the history of the City of Lubbock, has such a great opportunity presented itself to the most representative delegate of the farmers from every section of the State of Texas, the best part of the State, as we will have when State Convention of the Farmers' Union meets here on July 12, 13 and 14, and we believe that Lubbock is alive to the importance of the thing here. We do not figure this in standpoint of dollars and cent the money that will be spent during their stay, in fact they could well be counted of no whatever in Lubbock during three days, and still it would be greatest thing that could happen this section of the state. There many reasons why this is true, so of which may be noted for reasons that they are important. One in the fact that these men are practical farmers. They are the men whom we depend on for food and clothing. They men who are depending upon culture for a living, many of it tenants no doubt, and we are at this time this country will look quite different to them after they have stayed here three days, than they could have ever pictured it through pages of literature, photographs or any other method of presenting it, and for that reason we are sure that their visit to this great South Plains land will mean much more to the country in years to come. So great is the fascination of this men that we are sure hundreds of men will appreciate here and the men here in this country, to the point where they will be joined in this country just what this country needs more than anything else—more good farmers. These men are not coming to this Convention for a swell time nor a vacation trip. They are coming here to better their condition and improve their methods of farming, and no greater improvement could they make than to shake loose from their old worn-out farm where they came from and come to the beautiful South Plains country and diversify—get clear away from that old crop patch, and put their energy diversified farming, dairying, hog raising, and acquire some for themselves.

This can largely be accomplished by the people of this section to have a warm interest in those delegates from the time they arrive in the until they leave and if possible their address and commence friendly correspondence with them to get better acquainted with them they will then begin to realize that all this talk about the blooming, blasted, blistering, drought-stricken, wild and woolly West is all a farce and will become interested in the country. Every delegate to this convention should be shown the rich fertile fields in this section. No car in town could be used to better advantage than to be placed at the disposal of these delegates during their three days stay out here. Take them wherever they want to go and if they have no special place to take them out for a joint through the agricultural communities that they may see with their own eyes the crops growing and producing in the fields of this country.

This convention should not be a Lubbock affair entirely. It should appeal to every farmer and ranchman within a radius of twenty or thirty miles over the Lubbock trade territory, and they should be taken and entertained in the farm homes as well as in the city. They will enjoy the farmer's entertainment better than the city homes, but every home in Lubbock that can possibly entertain one or more of them should be thrown wide open to them. It is the biggest Convention ever slated in any city on the Plains, and Lubbock will have the distinguished honor of entertaining this body of men from all part of Texas. Treat them royally. Show them that we appreciate them and we are glad they are here. That's Lubbock's natural style, therefore, it will be easy for us to do. Remember the date, July 12-13-14.

Neil H. Wright and family, and W. S. Posey and family left this morning for Devil's River, where they will spend about two weeks on a vacation trip, fishing, hunting, etc. The trip is being made by automobile.

George Green, of the Hill Ranch, spent several days in Lubbock this week visiting with business men. Mr. Green has many years experience in the Ranch, and has many acquaintances over the country.

J. W. P. returned this city visiting.

Corpus Christi  
 Had Well Padded  
 Census Report

Austin, June 26.—Reports of the investigators from the State Department of Education on the scholastic census of Corpus Christi, taken last March, shows padding of the figures, according to Miss Annie Webb Blanton, State Superintendent, who ordered the investigation.

Enumerators in the original census reported 6,045 scholars in the city. Miss Blanton's investigators found only 2,096 children of scholastic age, a discrepancy of 3,949.

Investigators proved to Miss Blanton that they found a great majority of the slips used in taking the original census had been signed by the enumerators and not by the parents of the children.

They failed to locate a certain street, said to have been in the original report of the census, on which 280 school children were reported living. Not a single child was found on the 64 streets which were listed, while the report of the original census showed 911 scholars on these streets.

A count in Robstown, Nueces County, in which Corpus Christi is located, showed the census there to be correct.

Miss Blanton was in conference with Governor Neff today and indicated that the scholastic census of several cities and towns in the State would be investigated, providing funds for such investigation could be obtained by an appropriation at the coming session of the legislature.

In the event this year's school apportionment of \$14.50 per scholar is maintained next year, Corpus Christi would receive under its March scholastic census, \$87,652, which would be \$57,260 more than due under the census as shown by the investigation of Miss Blanton. The census of 2,096, as reported by the investigators, would call for only \$30,392.

Robert Holgate, who has been in a local sanitarium for the past three weeks, and during that time underwent a serious operation, is getting along nicely and will be able to return to his home in Terry county within the next few days.

**Build a Home**

It never was as important that a man own his home as it is at the present time. There is many a person who would have stayed located if he had owned his home during hard times which if he had he would have been in much better shape. A rolling stone gathers little moss and a man owning a home roams very little. There are many arguments in favor and none against owning your own home. Do all you can to build one!

**If This Were Your Washing**

A small matter, this—yet only one of the risks incurred in sending the washing "out."

In what you wear, as in what you eat, purity and sanitation are important—and these you can be sure of only in a thoroughly modern laundry like ours.

Consider these things—what you send us is washed in billowy, purifying suds, in four fresh waters; it is rinsed not once, but three or four times, in more clean, clear water. Then ironed at 212 degrees and more, and wrapped, finally in a sun-lit room, and in a dust-proof package.

Not mere cleanness—but practical sterilization.

And you'll find it economical, and clothes-conserving, too. Try this modern way by sending us your next family washing. Phone today.

**EMPLOYMENT AGENCY IS BECOMING MORE USEFUL**

According to Mrs. M. Fulton, of the local Red Cross Chapter, who has charge of the employment agency of this city, it has done a great deal of good for people who have been unable to find work. Although many people have not taken the interest that could be expected, as there are several openings for work registered on file at the present time. This agency should be given more attention by both the employer and the people who are in need of work, as it has proven to be very successful since its organization.

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Worms will then throw off or disintegrate, and the child will be in perfect health. Pleasant to take. 60c per bottle.

## A FEW IMPORTANT THOUGHTS AND SUGGESTIONS FOR THE BETTERMENT OF LUBBOCK—DUTIES OF CITIZENS

**Be A Good American.**  
Are you proud that you are an American—or are you luke warm? Monday is July 4th, and every home and business house in the city should display an American flag. We are a new county, it is true, very busy and all of that, but there is absolute-

### SOUR STOMACH INDIGESTION

**Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.**

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. S.

ly no decent excuse in the world for our lack of observation of the National Patriotic days of the year. Memorial Day was hardly noticed in this community—and only two short years since the close of the war.

An effort was made to get enough ex-service men in uniform to observe the day in honor of their comrades who fell in the late war—but "we were too busy." That was the excuse given. Armistice day passed last fall and less than a dozen uniforms were seen during the whole day—and yet two years ago what did Armistice day mean to us?

It is not necessary that we let our observation of the great National honor days get the better of our judgment and common sense but when any Nation forgets the high spots in its history—the National Honor Days—then its citizenship is neglecting their most sacred duty and privilege.

Who would live in a Nation without honor?—and our Nation's honor was established by bloodshed, has been maintained by bloodshed, the heroes who have given their lives in death and in service are not only entitled to recognition, but our living citizens are due the privilege of pausing for a moment to review the past, as a means to words better appreciating the present and forecasting the future.

Let every home and every window carry an American flag Monday. Some of us know what the old Red, White and Blue means—and the National Anthem—is seldom heard more than once or twice in a lifetime! Square your shoulders, throw your head back and from the bottom of a rather rusty old heart thank God you are an American!

**Two Bits A Quart.**—No, not white mule, vinegar, corn lasses or soda pop—but flies—dead flies. Each Tuesday and Thursday the Secretary of the Lubbock Chamber of Commerce will pay the boys of the City of Lubbock twenty-five cents per quart for all of the dead flies brought to him on the courthouse lawn between the hours of four and five o'clock. Paper sacks are the best containers for dead flies and anyway they can be caught, trapped, killed or secured, counts. More than that—A prize of \$5.00

will be paid to the boy who has the most flies to his credit July 21, \$2.50 second best and \$1.00 for third best, and three .50 cent prizes. Boys and girls between the ages of five and sixteen may enter the swatting contest and get all of the help that you can.

Through the combined efforts of the Ladies Federated Clubs, the Lubbock Chamber of Commerce and the Rotary Club, the Fly and Weed nuisance of the city will be given close attention with a view of cleaning up the city.

Fly traps should be maintained around every home and store in the city. Lots should be cleaned up and generous sprinkling of lime made around the house, the out houses and yards of the city. Lime every day keeps the flies away and saves doctor bills.

Let's get the fly out of Lubbock.

**Make a Good Impression on Tourists.** Is there a new man in town? Have you a friend that might be interested in Lubbock? Are you going "back home" for the summer? Then you should drop by the Chamber of Commerce and have a talk with the Secretary. He needs to know the new folks coming to town. A letter from the Chamber of Commerce welcoming them to the city and extending to them the services of that organization, with the little touch of human friendliness that goes with such an interest makes the new man feel like he has found a real home town and we owe it to him to make him feel that way.

We are too busy to be human, like we should. A car of tourists parks on one of our streets—a dozen men are standing within easy speaking distance—they continue to stand. If the tourist gets to the sidewalk he has to run over somebody—the bunch stares, somebody passes a comment about something, maybe about the tourists, more like about something in no way connected with the tourists and they laugh. Can you imagine the feeling of friendliness the tourists takes away from the city?

Let the same car stop in the same place an hour later. You are not particularly busy, so when the tourist gets out to stretch his legs and buy a can of Price or a package of Camels, step down to the side of the car and speak to him. Ask him what his needs are and direct him to the nearest store that can supply him. Ask him about the roads down the way. (Which way don't make any more difference than does the conditions of the roads but that is the most vital thing in his mind on such a trip and you are trying to please him—not yourself.) Invite him to drop by the Chamber of Commerce

## Elberta Peaches!

### Elbertas are Coming Fine Now

What is better than a nice, large, juicy Elberta peach! We have a man right on the ground buying fruit and vegetables for us, and that is why you can always get such nice, fresh fruits and vegetables at our store.

Elbertas are scarce this year, and while they will be just a trifle high, sugar is so cheap that you can afford to put up a few crates of peaches and plums this season. Let us have your requirements early—ere the crop is gone.

We can make you a price this week and next at \$2.25 per crate for Elbertas and also those nice, large wild goose plums.

Give us your trade this month where you can get your fresh fruits, fresh vegetables, groceries, and fresh meats from Sid's market, all charged on the same bill. Just think what this means for your convenience. Of course we will expect every one to pay up on the first of each month, as our bills have to be paid, too, and if you will be prompt there is no telling how many debts a dollar will pay and how many hearts it will make glad, as it is passed along down the line. Once our customer, always our customer.

There is a reason.

## Martin & Wolcott

Store on Broadway

for further directions—or to spend the night at the Tourist Park on the fair grounds. Point out the hotels to him—be human and you know what he will say about Lubbock all the way back to the back side of nowhere and back.

A three-minute conversation with a tourist in the right spirit will do more permanent good for the city of Lubbock than \$10 worth of advertising and \$10 worth of advertising is worth ten times what it costs.

You meet folks on the street you have known for years and you never break the superior dignity of your face to even grin, much less say "Howdy." Yell it out—"HOWDY!" and smear a grin all over your mug and see how soon you will really be liking the folks you meet in the morning. They have not changed a bit—but you are different.

Let's make Lubbock the most human town in the world. Not only in the city, but let's write "back home" and tell the folks back there what they are really missing by not living here. There is not a single family in the town or county that cannot within one year bring one family to Lubbock county. If you will take five families, friends of yours, who have confidence in you, and once every month write them a good, friendly personal letter telling them about what is happening in Lubbock and Lubbock county, how much we have grown in the past ten years and are growing right now, and what great opportunities we have for the coming years—one out of the five will move here before the year is gone.

This office has distributed more than 50,000 pieces of Lubbock literature in the past ten months—four or five folks have read some of these pieces. At least a round hundred thousand have read about Lubbock through that means alone. Ten daily papers in the state have carried more than 5,000 inches of Lubbock news in the same period of time; that has been read by more than—it is impossible to estimate—but at least a million different folks—and all of that counts in the long run.

You don't know what human sort of folks we have here until you have tried being a bit human yourself. Limber up and say "Howdy," and see how you feel afterwards.

We have more real problems to the square inch here than any town in the world it seems. (It seems the same way in all the others, no doubt.) But none of them are hopeless and if we can develop the habit of putting a little grin into our work the problems will not be nearly so hard and much more quickly solved. We have a few natural born crooks—possibly, though I doubt it—but about 999,999 out of a possible 1,000,000 folks who live here are a pretty decent sort and it is your fault if you don't know it.

Come down off your grouch and be human.

**Flies Breed Disease.** "Flies breed disease" is a saying so old and trite that we are apt to lose the full value of the statement but the worst pest of flies are found throughout the west this spring than ever before in the history of the country. This is due to a number of things in Lubbock—and some remedy to the fundamental conditions must be found before any great results can be had from the situation.

First among the reason for the great number of flies in the city is the fact that we have had so much rain. The city is making every effort to drain every pool of water in and around the city to keep down flies and mosquitoes.

Next, the weeds and filth of the city. Of course it does not seem nice to speak of the filth of our own home town, but if you will pass down some of the alleys of the city and see and smell some of the cow lots right down in town you will be thoroughly convinced of the filth existing in the city. The City Health

Officer will be busy for the coming weeks and somebody is going to be forced to clean up their cow lots. Flies by the millions breed and grow in such lots.

There are more vacant lots in the city than there are lots occupied by homes and these have grown up in weeds, and are used as dumping grounds for tin cans, old buckets, and other refuse. More than two hundred wagon loads of trash have been hauled out of the city this spring and there are about that many more scattered around if folks would get it together.

And yet the recent health inspector from the State Health Department rated Lubbock first in a list of twenty-five towns that he had visited. More lime, less weeds, cleaner yards, and more fly traps, must be the order of the day for the coming month of July. If such a program is not put on there will follow an epidemic of sickness that will cost not only lives but hundred of dollars in wasted time and misery. Clean up and stay clean.

### LIVE STOCK PRICES LOWER; DECLINES ARE MODERATE

Kansas City Stock Yards, June 27, 1921.—Live stock prices were lower today. Declines in cattle and hogs were moderate, but there was a sharp break in lambs. The weakness in the general market was caused by a heavy run in Chicago, and the market then on both cattle and lambs was in a big slump. Some of the plainer classes of cattle were reported as unsalable. The decline in hogs here was 10 cents, top \$8.50, and bulk of sales \$8.25 to \$8.45.

**Today's Receipts.** Receipts today were 12,000 cattle, 12,000 hogs, and 4500 sheep, compared with 13,000 cattle, 12,000 hogs and 5000 sheep a week ago, and 6900 cattle, 9800 hogs and 6,700 sheep a year ago.

**July Fourth Holiday.** Monday, July Fourth, the Kansas City Stock Yards will be closed to all business, except receiving, feeding and watering stock.

**Beef Cattle.** Trade in beef cattle here opened slowly at weak prices, and later with a fair degree of activity showing prices in the extreme were steady to 15 cents lower, mostly 10 to 15 cents down. Some early orders for choice handy weight steers were filled at steady prices. Plain sappy and short fed classes showed the full decline. Colorado pulp fed steers sold mostly at \$8.00. Cows and heifers were weak to 15 cents lower, and veal calves weak to 50 cents lower.

**Stockers and Feeders.** Trade in stockers and feeders was quiet at unchanged prices. Demand was mostly for the better classes. Ordinary and common kinds show some accumulation in the yards.

**Hogs.** Hog prices were down 10 cents from the high point Saturday, but still well above last week's average. The top price was \$8.50 and bulk of sales \$8.25 to \$8.45. Trade was active with packers paying as high as shippers. A complete clearance was reported. Pig and stock hogs were quoted steady at \$7.75 to \$8.25.

**Sheep and Lambs.** Lamb prices were quoted off another 25 to 50 cents, and sheep were steady. Native lambs sold up to \$10.25 and no western lambs arrived. Sheep were in moderate supply, mostly shorn natives.

**Horses and Mules.** Trade at the horse and mule barns was quiet. Receipts were small. CHARLES M. PIPKIN, Market Correspondent.

## LUBBOCK'S GROWTH CONTINUES EVEN DURING SLACK TIMES AND MANY NEW BUILDINGS SHOW IT

Lubbock keeps up a lively pace of development and growth regardless of the slack times, and it is the wonder of hundreds of people who come here from time to time to see the continual growth of the town. This is not anything uncommon to the people of this city however, for Lubbock has always shown a wonderful lot of vitality, and while many other towns have complained of dull times, and slack business and almost entire absence of any building activities, our Hub City has kept steadily on and today there is more than \$500,000 worth of construction now under way in the city of Lubbock. The contractors have been able to gather around them such carpenters as they have known in the past as a result

of the slackness of work in other sections of the state. More than a hundred homes have been built in this city in the past twelve months that will average \$4,000 each. Approximately twenty are under construction at this time in addition to the \$125,000 West Texas Hospital, brick hotel, church buildings, and the \$215,000 street paving project now being completed. An \$8,000 swimming pool and recreation park has been opened within the past two weeks and other improvements are planned for the future. Real estate transfers have continued steady, although far below the records established last year, but the leading real estate men express the

opinion that the coming fall will see just as many new farm homes established in this section as were established last year. Land speculation will not be so prominently a part of the real-estate transfers but steady, continued growth is expected. There is a growing demand for a potato plant and a cotton warehouse to care for the products of this section and an effort is being considered by the Chamber of Commerce to bring about the organization and establishment of these enterprises. The dairy industry is rapidly developing throughout the section and enlargements are being made in the Clover Leaf Creamery plant of this city to care for the dairy products to be marketed here. General conditions are fundamentally sound and retail merchants report a steady increase in the volume of goods being moved. With the present crop prospects it is predicted that the fall will mark the full resumption of business throughout this section and that the South Plains will see the greatest year of growth ever recorded in the West.

### HOOVER WANTS CREDIT TO PREVENT SELLING OF COTTON

Washington, June 25.—Secretary Hoover today told a senate committee that efforts are being made by the administration to mobilize banking credits for carrying over surpluses of the country's cotton and sugar. He said the "object is to prevent forced liquidation of these commodities. The plan is identical with that being carried out for the cattle industry."

Hoover called to give his views on the Norris bill to create a \$100,000,000 government farm export corporation. He told the committee that he did not favor the measure. He said:

"I don't want to appear to depreciate any proposal intended to assist the agricultural industry because the situation today which reduced the purchasing power of the American farmer 67 per cent has put him in the most serious duress agriculture has ever had to face.

"The situation is the most acute and dangerous in the country at the present moment. Yet, I cannot feel that extension of further credit facilities for supply of food products to Europe would give any adequate remedy."

### BIG SPRING MAN IS SLASHED BY BURGLAR

Big Spring, Texas, June 24.—Ruperto Subia, 57 years old, was slashed in the throat three times Wednesday night by a burglar, who was trying to rob Subia's home.

Besides the wounds in his throat, Subia was cut a number of times on his hands in the fight with the robber.

Subia is reputed to have a considerable sum of money concealed in his home. After the attempted robbery the burglar escaped without securing anything of value. An arrest has been made.

"WEAR-EVER" Aluminum Cooking Utensils—are light in weight—are bright as silver—cannot rust—cannot form poisonous compounds with fruit acids or foods. They are pure and as safe as glass or china. They are solid metal—are uninjured by sudden changes of temperature—cannot crack or chip.

"WEAR-EVER" utensils are stamped from thick, hard sheet aluminum—are made without seam or solder. The enormous pressure of rolling mills and stamping machines makes the metal in "WEAR-EVER" utensils denser and harder than aluminum utensils made in any other way.

"WEAR-EVER" utensils should not be called "spun" utensils, for they are not spun. To "spin" aluminum it is necessary to use metal made soft by heating—producing a utensil uneven in thickness and easily dented, a utensil which it costs less to make and is worth less to the consumer.

The handles of "WEAR-EVER" utensils are made of the best tinned steel. Aluminum handles would become too hot.

Aluminum rivets with large heads grip the handles of "WEAR-EVER" utensils. The heads are not sunk into the side of the utensil—the metal remains of uniform thickness, strong enough to hold the handle on for years.

The outside of a "WEAR-EVER" utensil is polished. The inside is finished by a special process which makes the metal harder, smoother, less liable to be discolored by food or water containing alkali or iron, and more easily cleaned than would be possible if the utensils were not so finished.

### SEVERAL CATTLE DEALS REPORTED AT SEMINOLE

Fred Snyder was here the latter part of this week from Lubbock, in company with W. W. Driscoll, of Spear, South Dakota, who contracted quite a number of two-year-old steers. Among his purchases were 390 from B. B. Curry, 333 from W. T. Price & Sons, 107 from H. S. Hart and 75 from Bob White, of near Nadine, New Mexico. These steers will be loaded at Seagraves on July 1, and shipped to South Dakota.

Wales Eubank this week purchased two cars of high grade cows from E. H. Price, of near Lovington. He will ship these cows to his ranch near Magdalena, New Mexico.

Roy Martin, of Weatherford, bought 100 cows and calves from W. W. Harbour. These cattle will be pastured on the R. A. Taylor ranch east of town.—Seminole Sentinel.

### CHILD DIES FROM COTTON SEED IN LUNGS

Little Howard Walls, son of Mr. and Mrs. J. K. Walls of this city, died at a local sanitarium this morning of this week after an illness of thirty-two days. The boy, with two other playmates, were throwing cotton seed into his father's granary when he accidentally sucked one of the seeds into his lung. An operation followed but the surgeons failed to remove the seed. Pus formed in the affected place which led to the child's death. The body was laid to rest in the Lubbock Cemetery.

### BANKERS ENJOYED CONVENTION AT LUBBOCK

Henry Wilkinson, Albert Herbst and Clifford Acker attended the sessions of the Panhandle Bankers' Association, held at Lubbock, June 21 and 22. Mr. Wilkinson delivered an address.

### COLEMAN TO SERVE 12 YEARS FOR THEFT

The O. A. Coleman case came on trial Monday of this week, he having ten indictments to answer for theft and burglary. The defendant pleaded guilty to six of the charges, and received two years for each. The other four were thrown out of court. The six charges Coleman pleaded guilty to were five for burglary, and one for hog theft. The jury was out only a few minutes returning with a verdict of guilty and a sentence of twelve years in the State penitentiary.

the Citizens National Bank, has given out the following interview: "There is one big cause for encouragement in the crop situation for 1921 as compared with general conditions last year. "The days of feverish uncertainty are over—speculation as to how things were going to 'break' did not attend farming operations this year, the 'break' had already come—there is only the steady, uphill climb now before us.

"It has been aptly said that the depression of the past year was due not to hard times coming but to soft times going."

"That just about sums up the situation. This country now faces the task of forgetting entirely the easy-money times and getting down once more to good old-fashioned hard work and sensible economical living.

"As usual it is the American farmer who has set the example in planting and harvesting the 1921 crop. While the rest of the business world was hesitating and making only half-hearted efforts to keep production going in the face of unsettled conditions, the American farmer resolutely set his hand to the plow, knowing that if he didn't, his fellow-countrymen would go hungry.

"America owes more to the courage, the dependability, and the steadfastness of her farmers than she has yet fully realized. It is gratifying to feel, however, that America is waking to the situation and beginning, through legislation and other means, to take an interest in a more even and steady marketing of farm produce."

"Here in Lubbock County we have as good farmers as can be found anywhere. We have good land, good roads, good schools for our children. We can make it the best country in the best state of America. We're all glad we're here and don't care who knows it. It's a good world after all!"

Messrs. Louis F. Moore, Fred C. Oliver, Franklin D. Brown, Art Clark, J. F. Perry, E. C. Simmons, and families, spent last Sunday at Two-Draw Lake near Post City. A fine trip was reported, with the exception that it rained a heavy rain about noon of that day, which made speeding impossible coming homeward.

### NEWS ITEMS FROM THE ACUFF COMMUNITY

The Christmas Prayer. Dear Lord, my prayer to Thee each day is, that I may follow more closely the way

That Thou wouldst have me from day to day.

That I may Thy love to others show, Whom they love and care do not know.

That they, Thy way may go. That others may know and see Thy dear love reflected in me, And thus be drawn to thee.

That I may always heed The cry of those in need, And each day do some good deed. That when my life here is done, Thou shalt say:

"Well done thy faithful one, come home."

Many people come to Lubbock each week for treatment under various practitioners, and this week the following were noted as patients of a local Chiropractic: Mrs. J. N. Payne, Ralls; Mrs. W. G. ## Long-Bell JUST A SUGGESTION

Sometimes when we see an old house which has been given a new porch and a coat of paint, we think of the story of Aladdin and his Magic Lamp.

The improvement wrought in an old home by a good workman and a load of lumber has in it the element of magic—notice the pictures above. It is hard to realize until you have tried it what an improvement can be made in an old house at little cost.

Often a house is ugly because of a lack of some simple addition in the way of porches, dormers and the like.

A few hundred dollars spent for LONG-BELL material in improving the appearance of an old house, frequently adds a thousand to its selling price.

We will be glad to suggest how you may gladden up the old place and advise you about the cost of material and lumber.

A little backache at first. Daily increasing till the back is lame and weak. Urinary disorders may quickly follow: Dropsy and often Bright's disease. This frequently is the downward course of kidney ills.

Don't take this course. Lubbock residents should profit by the following experience.

Mrs. J. H. Henderson, Snyder, Tex., says: "I have used Doan's Kidney Pills off and on at different times and have always got good results. My back caused me a lot of pain and sometimes I was so bad off, I could hardly get around. I was also troubled with swelling of my feet and ankles and mornings I would hardly feel like getting up, my back would be so sore. Doan's Kidney Pills have always relieved me of that trouble."

### Big Death Toll From War T. B. Expected in 1924

The greatest loss to the Nation from tuberculosis caused by the war will be felt in 1924, said Dr. F. C. Smith of the U. S. Public Health Service in an address at the Annual Meeting of the National Tuberculosis Association held recently in New York.

Within the next three years, he said, approximately 50,000 will have received treatment for the disease.

Of 133,716 ex-service men who have been sent out as patients to the hospitals since the War Risk Act was passed, 35,150 were tuberculous, said Dr. Smith. Half of these had been under treatment since March, 1919, in hospitals owned or controlled by the Public Health Service.

David R. Lyman, M. D., urged that something be done to remove the limitations under which the Public Health Service is struggling at present. He said that it was a habit of the politicians to make political expediency and not national welfare the basis of appointments to positions of importance. The overwhelming amount of paper work required in government service and the interdepartmental dickers at Washington hindered their service.

The greatest hindrance to the successful execution of the plans of the Public Health Service are first, untrained medical staff, second, an almost total lack of cooperation from the man themselves, third, the failure of the public at large to understand the real nature of the problem.

### WOULD GO FROM HOUSE TO HOUSE

Tennessee Farmer Want To Go From House to House and Tell Everybody About Tanlac

"If I were not so busy with my farmwork I would go from house to house and tell the people about Tanlac," said A. J. Livingston, a well-known farmer, living near Ashland City, Tennessee.

"I had stomach and kidney trouble and suffered torment with my back and side. The doctors could do nothing for me so I wrote a friend of mine in Nashville about Tanlac and he advised me to try it, saying he had heard so many favorable reports about it and sent me a bottle.

"After taking the first bottle I felt so much better that I ordered another bottle myself and the result is I am a well man. I told a friend of mine about it and ordered a bottle for him and he had good results. I can eat anything I want and it don't hurt me and I can sleep like a log. To tell the truth, I just simply feel like a new man and have more strength and energy than I have had in years. It is simply the grandest medicine in the world. I would like to see all of my friends and get those who are suffering to try it and I hope you will reach them through this testimonial, which I have gladly given."

Tanlac, the celebrated medicine, which accomplished such remarkable results in this man's case, is a wonderful tonic, appetizer and invigorant. It builds up the system, creates a healthy appetite, promotes digestion and assimilation of the food and makes you feel strong, sturdy and well as nature intended.

Tanlac is sold in all leading drug stores.

The following letter was written to the *Lorraine Leader*:  
"Miss Isophene Toler of Lorraine, sister of Hubert Toler and Mrs. A. S. Dees and daughters, of this city, have gone to Roswell, New Mexico, to spend the summer. They made the trip in their car, and this letter to the *Lorraine Leader* describes some of their experiences on the trip."  
Roswell, N. M., June 10.

Dear Editor:  
Agreeable to my promise to write

you a letter telling of our trip. We left Sweetwater at 7:30 on the morning of the 14th, and just out from there we encountered bad roads of mud and water, which we ploughed through to Roscoe, and there the garage man told us that we would have to be pulled through one place just out of Roscoe a short distance. However, our Buick had already proven what she could do, but since

a man with his team was waiting out at the place, we let him hitch to it and pull us a short distance, yet, as we went on to Hermligh we pulled several places just as bad, and all the way from Roscoe to Hermligh the roads were bad—we didn't reach there until about noon. From there we made better time and about 1:30 p. m. we ate our lunch out from Snyder. Then we journeyed on to Post City, where we stopped at a drug store and had refreshments. The druggist remarked that business was dull as there hadn't been any sickness up there for more than a year.

Out from Post we viewed with interest the wheat fields and watched the heading and threshing of it. The harvesters told us they were getting 15 to 20 bushels to the acre. Another thing of beauty and interest was the sectioned pastures of green grass, stocked with fat, sleek Herefords, and the pretty spacious ranch homes, nestled among cottonwoods and other trees.

We reached Tahoka by 7 o'clock that day and stopped at the St. Clair hotel where we enjoyed the hospitality that only Western people know how to extend to weary travelers. The night was so cool that we slept under heavy cover and awoke next morning very much refreshed and ready for the next day's trip.

All along where we stopped for water or gasoline the men would eye us six "women folks" with an astonished look and say: "Are you making the trip by yourselves?" "It seems you must have struck some mud!" "How far are you going?" "You had better wait until the roads get better." "You women sure have nerve, but not much judgment."

We left Tahoka at 7 o'clock and soon reached Brownfield where we met up with Andrew and Morgan Copeland, our former Lorraine friends. They have employment in the First State Bank.

The next two places were Plains and Capps, small towns. One thing I noticed about all of these towns, they had lovely trees of black locust, cottonwood and willows planted about all the homes as well as the court houses, business places, etc. About 4 o'clock we reached Bronco, a small store and gasoline station. While we were getting gasoline from the storekeeper and P. M. a tall burly fellow about six feet came out on the porch and eyed us and said, "all of you women and making the trip alone?" Not liking his manner any top well and being a little afraid of him, since he looked as if he had just partaken of some of the famous "home-brew," Mrs. King remarked, "The rest of our crowd is coming on just a short ways back," (this being only a bluff), when to our astonishment three loaded autos came over the hill and soon stopped near us. They were the Lubbock ball team, who have played here the rest of the week.

We reached here at 8 o'clock and went to the Gikson hotel where we enjoyed another good night's rest. Then, next day, we were out early to find the house which had been secured for Mrs. Dees' family, and when

we did we were delighted to find it on the south side of town, a beautiful modern two-story residence consisting of 17 rooms, sun parlor, sleeping porches, private baths and all conveniences. It is on a hill and one can view the city below, and also, from our windows we can see Mount Capitan, just thirty-five miles away with its snowy dome.

We are soon to make a trip to the Rocky Mountains and other points of interest, such as the bottomless lakes. We have ridden down Lover's Lane for miles on either side of which are the irrigated tracts—farms, alfalfa fields, apple and cherry orchards and acres of strawberries. All of these fruits and every variety of vegetables we have on the table every day. We find the artesian water good and, of course an abundance of it.

This is a town of 8,000 population, consisting of miles of paved streets and pretty, modern homes with beautiful lawns and trees and flowers. The Chamber of Commerce is a live bunch and fully awake to the needs of the town. They have put up large posters for miles on the highway with "Welcome to Roswell" on one side, while on the other they have the distance and size of the town, etc. In the stores and everywhere we have been extended a warm welcome, and courteous treatment, until one feels it is good to be here.

Our old Lorraine friend, D. D. Wimberley and family, are here and have been to see us. I could write much more but fear this is too lengthy to get in. Here's hoping all is well with Lorraine and my dear friends and trusting that when I return I'll see the Tabernacle under construction. I am with kindest regards to all.

Jim Peeler, of Terry county; Zach Elder, of Gaines County, and J. P. Simmons, W. F. Cathey, N. B. Cathey, and H. H. Cathey, of Dawson county, were summoned as witnesses in a felony case pending in District Court, Wednesday. These gentlemen are all old time settlers of the South Plains and well known to many of our citizens. They report range conditions good, cattle doing splendidly, and crop prospects the best in many years.

W. H. Doyle, banker of Tullis, was a witness in attendance at District Court, the past week.

Levi Wingo, C. W. Broiles, R. E. Linn and J. K. Burke, were witnesses from Crosby county in the District Court, Tuesday.

G. W. Duke, of Tarrant county, appeared as a witness in District Court this week. This was Mr. Duke's first visit to the Plains and he was greatly pleased with the future outlook for a big crop this year, and was just a little bit surprised when he saw what was taking place in the farming business here.

### Walter E. Taylor Writes About His Trip to California

Horace Greeley said: "Take a dollar young man, go West and grow

up with the country." He should have added, "Stop young man as soon as you reach the West, the limit of which is the South Plains of Texas." If one must go farther he should shut his eyes while traveling the next 1,000 miles and open them when within 100 miles of the Pacific Ocean and view Belshazza's Gardens.

I left Lubbock before daylight last Tuesday morning. Did not

have to leave in the night. It was only because the train came along about that time. The country looked good and prosperous until we passed Clovis, New Mexico, then it frazzled out to nothing but gray weeds and mealy sand. Animal life was even more scarce than vegetable life. Our train stopped at a section house to take on a Mexican. I saw three animals there besides the Mexican, a cow, goat and burro. All were poor and looked sad. The burro was gnawing a soft place on a telegraph pole. The cow was chewing on a dwarfed bunch of bear grass and the goat was eating the paint off of some barbed wire.

I reached Los Angeles on the 17th, and the real estate army assailed me. They won the first round. In the second round I knocked them out for the count when I told them I was selling the best land in the world in Lubbock County, Texas, to honest farmers who never skinned a tourist. Nearly everybody and their sick kinfolks are here. This is the most beautiful spot I ever saw, but sometimes the earth has a fit, shakes and wabbles. Being an architect, I am naturally and professionally careful about a foundation. I want it to at least remain still when I am standing on it. The best place in the world is the South Plains of Texas.

#### ANNOUNCEMENT

We wish to announce to our friends the opening of the Protestant Hospital, Fort Worth, Texas. A modern one hundred and ten room building with the latest equipment including Pathological and X-Ray laboratories.

Our nurses home is a separate building and we are ready to receive fifty applications for nurses to enter the training school.

Those desiring to enter should address the Superintendent, Protestant Hospital, Fort Worth, Texas.

#### BIG CHICKEN DINNER

The Lubbock Cemetery Association announces a big CHICKEN dinner on the 6th day of July, at which time a membership campaign will be launched. Be prepared to attend—remember the date! Place of dinner to be announced later. 49tf

## That We May Work For Our Customers Interest

Protection of funds intrusted to this bank is the first and most sacred obligation that this bank has. For that reason this bank is a member of the Guaranty Fund of Texas and into that fund we pay regularly. No bank, a member of this fund, has ever failed to pay one hundred cents on the dollar to the depositors. Being, then, absolutely a safe place to bank, your next consideration should naturally be: who are the guiding men of the institution. You, who have been in this section long, know that this bank's officials have proven beyond a doubt, capable of meeting all requirements of first class banking.

These things are offered you to guide you in the selection of a bank—a very important step you must take.

#### CARRY A PLEASANT SMILE TO THE SICK

Many of us well-meaning fellows are chary of kindly words and acts. A friendly slap on the back, accompanied by a pleasant word of greeting, adds to the making of a perfect day. Cultivate smile wrinkles—they are a great asset. Carry them to the sick room. Do not ask the patient how he is feeling. Your good common-sense ought to tell you he's feeling bum, if he's on the "sick" list. Tell him he's looking fine. Do not bore him by staying too long. Leave him a rose or a bunch of flowers or send them. Tell him you will call again—and keep your word, your visit, your smile wrinkles, your little lie about how fine he is looking—if it is a lie—and your flowers may do him more good than medicine. Try it; you stand to win; you can not lose because in this game of kindness there are no blanks while the deal is on.

A word of appreciation during life is better than a eulogy after death.

A rose in the sick room is worth two wreaths at a funeral—Selected.

#### SHERIFF'S SALE

THE STATE OF TEXAS,  
County of Lubbock.

Whereas, by virtue of order of sale issued out of the District Court of Lubbock County, Texas, on a judgment rendered in said Court on the 27th day of November, A. D. 1913, in favor of, P. E. B. # DORT

Quality Goes Clear Through

Doubtless no year has thrown a clearer light upon the Dort and its high standing in the esteem of the American public than this year.

Enthusiasm towards the car and appreciation of its remarkable performance ability and operative thrift have grown and extended further and further, day after day, and month after month.

The regular Dort clientele that inevitably replaces one Dort with another has augmented with a rapidity that has outstripped our closest calculations.

And the only conclusion that can be drawn is that more and more people who in past years have sought other cars are now turning to the Dort as the most desirable automobile investment they could make.

Lubbock, Texas

This is one store that has liquidated its high priced merchandise and is now full of new merchandise bought at the New Low Price. Our buyer spent several weeks in the Chicago Market buying with this Clearance Sale in mind.

It would be almost impossible to imagine a more complete and attractive showing of Dry Goods generally and Womens' and Mens' Ready-to-Wear than we now possess—all bought at the New Low Price level and now offered at Cut prices for quick riddance.

90 per cent of our stock was bought recently at the lowest prices that has prevailed for 4 years and beginning Saturday, July 2nd, is placed on sale at prices that no competitor can or will equal.

Thousands and thousands of dollars worth of new, crisp merchandise bought at the New Low Price level is now offered at sacrifice prices for immediate clearance.

Twice each year we conduct this Semi-Annual Sale and this year conditions are such that we offer this stock at a less price than has prevailed for the past 4 years. Absolutely every article in the store is on sale at a Cut Price.

And now comes the time of the year when we give you unrestricted choice of our Womens' Ready-to-Wear stock at absolutely one-half of former price. Every Ladies Suit, Cloak, Dress, Skirt or Blouse. Nothing reserved. Your unrestricted choice at one-half price.

## The Reason

We will not carry merchandise into next season and our advice is buy now for your utmost needs while prices are cut.

Our Guarantee: We guarantee that our merchandise is of the highest standard to be found in the United States and that our prices during this sale will be lower than same grade of merchandise can be bought for elsewhere in Texas.

Cash and One Price to all. No approvals—no returns.

Sale opens Saturday, July 2nd, and continues throughout July.

### CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

#### PUBLIC OPINION

Lubbock, June 28.  
Dear Editor: I admire the stand your paper takes on so many things, for instance the causes of the different forms of vice among both boys and girls. I have long contended that but few boys and girls would go very far wrong if their home training was as it should be. If their associates were selected by their parents, provided those parents were capable of selecting proper associates for their children.

We mothers often get discouraged and think our efforts will surely be in vain when little Johnnie or Mary tries our patience almost to the limit, but we don't always know what ambitions even a ten-year-old may possess. The following letter, copied word for word, was written by a ten-year-old boy to his mother and placed in the library table drawer for her to find:

"Dear Mother: How are you this fine Wednesday morning? I am all right mother, I love you. I love you because you help me in my lessons. I love you because you buy my clothes. I love you because you are kind to me.

"Mother, I am going to be a preacher when I am grown. I am going to teach my children to do right. I am going to teach them to have nice manners. I am going to have them to be nice to one another. I am going to be a nice father and marry a nice wife. I am going to live in town. I am going to have a nice home.

"Well, I will close, your son."

#### CHI-RO-PRAC-TIC

We have now secured the services of Dr. Kate Castleman, of Nashville, Tennessee. She will be with us permanently and we desire to say that she is the most efficient of any help that we have ever had, being a three-year graduate of the National Chiropractic College, of Chicago. She will be pleased to meet you and to give free consultation and examination. Finley and Council, Phone 540, Burrus Building, Lubbock, Texas. 1-2

Judge J. H. Moore and several members of the Methodist church, started over to Ralls last Sunday to hold a Laymen's service at the Ralls Methodist church. They got as far as Lorenzo and ran into a heavy rain, and had to come back. They phoned to Ralls and found that the rain was still heavier there which caused them to postpone the date of the meeting.

Mrs. Percy Spencer and family, are visiting in Brownfield this week.

#### NEW HOPE NEWS OF THE PAST WEEK

Oh, my, how the weeds do grow! And the farmers are all busy. We are glad to report Little Jas. Cyril Floyd is improving.

There will be preaching at New Hope next Sunday morning. Everybody is invited to come.

Mr. S. D. Stewart and son Mitchell, were in town Saturday morning.

Some of our young people attended the party at Mr. Johnson's, in the Union community Saturday night. All report an enjoyable time.

Mrs. S. D. Pace and daughter Onita, were Lubbock visitors Saturday.

Mr. J. C. McDole and three children, visited at the home of Mr. and Mrs. Claude Keater, Sunday.

Mr. S. P. Eoff and daughter Vinetta, and son Ealy, were in town Saturday morning.

Mr. J. L. Floyd was a business visitor to Lubbock Friday morning.

Mr. and Mrs. M. Rhoades visited at the A. Emms home Sunday afternoon.

Miss Lavell and Johnnie Bourland spent Saturday night with relatives in the Shallowater community. They report an enjoyable time while there.

Misses Ethel and Vinetta Stephenson were in town Saturday morning.

Mr. Clarence Emms visited Mr. Ealy Eoff, Sunday morning.

Mr. Howard Wall underwent an operation in a Lubbock sanitarium Monday morning. We understand he had cotton seed furs in his lungs. We hope that he will soon be able to return home.

Mrs. J. L. Floyd and little son James Cyril, spent Monday afternoon at the home of Mrs. Floyd's parents, Mr. and Mrs. S. P. Eoff.

Miss Blanche Emms entertained a few of her Lubbock friends Friday night, complimentary to her cousin, Miss Laura Gay Allen. All present report an enjoyable time.

Mr. Calvin Eoff was a Lubbock visitor Saturday evening.

Mr. L. C. Boyd was in town Saturday.

Miss Vinetta Eoff is having a great deal of trouble with her face, caused from having a wisdom tooth pulled. We hope she will be all right again soon.

Mr. and Mrs. Curry and children, visited with relatives in the Shallowater community, Sunday.

Mr. J. C. McDole was in town Saturday morning.

We presume everybody is too busy to go visiting, as we never see anyone only in town, therefore, it causes news to be scarce in this part of the world.

Miss Johnnie Bourland is reported on the sick list this week.

Mrs. Wall, of Fort Worth, is visiting her son and family.

W. H. Doyle, of Happy, was in Lubbock Wednesday of this week, looking after business matters.

Miss Ida Richardson, who visited her aunt, Mrs. James L. Dow last week, has returned to her home in Colorado, Texas.

#### THE WEEKLY BATCH OF IDALOU ITEMS

The harvesters and wheat buyers are very busy. There is a continual exchange of wheat in town. The wheat is turning out fairly well considering the dry weather in the spring.

Dr. Summit has left for Mineral Wells, to spend a part of the summer for his health. He was accompanied as far as Gorman by his son Leslie, who will spend a few weeks with his sister. Mrs. Summit and little daughter Phyllis, went to Hale Center Monday to spend a few weeks.

T. Howard is repairing and painting the "J" schoolhouse.

Mr. Massey and Mr. Hicks were here Tuesday on business.

Miss Clara Summit and Mrs. Cooper of Lubbock, were in Idalou Tuesday, and visited at the Shelton home.

Idalou is going to have a basket picnic the Fourth. A short program will be rendered in the morning by the ladies and in the afternoon speeches will be rendered by out-of-town men.

W. B. Shelton vaccinated about fifty head of calves and yearlings Monday.

Lee Sanders entertained the whole community with a merry-making or moonlight party Saturday night. Old and young were present. Lots of good music was rendered with string instruments. Refreshments were served at a late hour and every one went away declaring the best time ever.

Viola Lambert was operated on in a Lubbock sanitarium Wednesday for appendicitis. She is doing nicely now.

Lillian Shelton took her Sunday school class on a picnic Saturday.

C. W. Beene and family, visited Mrs. Beene's parents near Ralls, last week.

Frank P. Henry, ex-county judge of Floyd county, visited with the family of Eugene Emery last week.

Judge Henry is one of the early settlers in Floyd county, and has a wide acquaintance over the Plains. Judge Henry served in the capacity of county judge of Floyd County for several terms, and it was during his term-of-office the splendid court-house of that county was erected. It has always been his policy to play the part of an optimist and he can always be counted on to assist in any worthy enterprise. He is now, and has been serving as postmaster at Floydada the past six years, and his services are truly commendable. Come to see us again, Judge.

The Colic that Does Not Affect the Head because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE.

We invite the attention of our readers to the announcement of Dr. Ponton, who has recently completed and now opened the Protestant Hospital at Fort Worth.

The chicken dinner which is to be given by the Cemetery Association next Wednesday, July 6, will be served in the rear part of the building occupied by the O'Neal Shop.

Mrs. M. S. Berry, of Benjamin, is here this week the guest of Mrs. M. F. Hinton. She is enroute to Bronco, where she will visit for a few weeks with her son.

### PEOPLE ARE URGED TO SEND CHILDREN TO THE PUBLIC PLAYGROUNDS

(Continued from page 1)  
cause of the liberality of the people in responding to their plans, and it is to be hoped that more of the people will take an interest in it and have their children participate in the work. It is recreational and educational, splendid for physical development of the children as well as for their mental development. It relieves the mother of much of the work of training the little ones, and it is the wish of the committee that you send the little ones to the play grounds at the High School Building.

### DEATHS

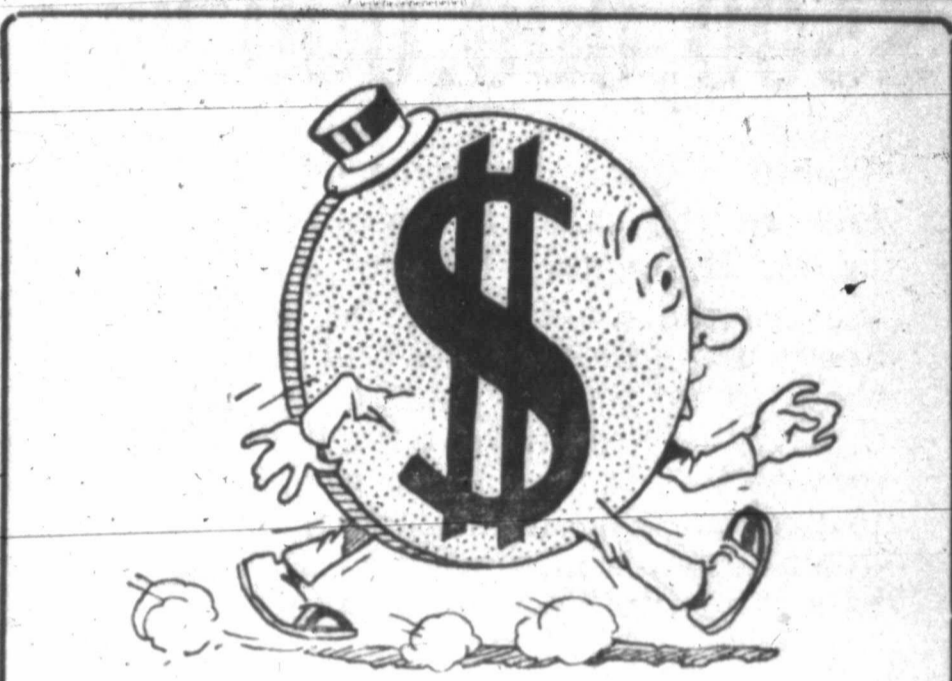

The little five weeks' old baby of Joe Ferguson died Wednesday of this week. The body was laid to rest in the Littlefield Cemetery.  
Walter Clark, of the Rix Furniture and Undertaking Company, accidentally cut three fingers to the bone, severing two arteries, while he was repairing a phonograph last Saturday. The wounds required twelve stitches to hold the flesh in proper shape to heal.

### NEWS ITEMS OF INTEREST FROM POSEY COMMUNITY

Tuesday night Mr. Jennings, our county agent, and Mr. Llewellyn, Farm Bureau speaker and organizer were at Posey for the purpose of organizing a local bureau. J. L. Benton was elected chairman, C. Z. Fine vice chairman, and Sam Gentry secretary. Every second and fourth Wednesday nights will be the time of meeting. Everyone come and bring a new member. We hope this movement will prove to be the emancipation of the cotton growers. There are about one dozen members enrolled here now. The speakers endeavored to show by actual figures the approximate loss to the cotton growers, by marketing under the old system. We have long been cognizant of the fact that something was radically wrong with our present marketing system, and can say, "Lord speed the days when the producers will be given a square deal."  
Most of our farmers are about to catch up with their work. It looked for a while as if "General Green" would soon be in command of most of the fields. Generally speaking, feed is fine but cotton is not so good as might be wished for at this time of the year. Have heard some complaint of lice on the cotton, but a few more days of sunshine like some of the past, and the louse will make his get-away.  
There is a summer school being taught at the Lutheran Church.  
Mr. Stallings, of Collin County, has been visiting his brother Josh Stallings, and his niece, Mrs. O. R. Patterson.  
Mr. and Mrs. D. H. Benton, of Rails, were visitors at the J. L. Benton home Saturday and Sunday.  
Mr. Eulas Gentry had the misfortune of losing one of his best horses one night last week.  
Mr. John Rabbitt left for Happy, Texas, Sunday.  
Mrs. Clompton, of Wilbarger County, niece of Mrs. S. A. Johnson, is visiting her at this writing.  
Mr. and Mrs. Clem, who recently moved into our community, left last week for Seagraves, where he has a position as section foreman.  
Mrs. Chida Pritchett and children, were visiting here Sunday.  
One of W. T. Gentry's little girls stepped on a piece of glass recently and had to be taken to the doctor Monday, but is better now.  
There is no sickness to report. The health report in our community is excellent, our greatest bother being fleas and mites.  
Mr. Pinkston and family, were dinner guests at Mr. Jack Lokey's Sunday.  
The writer heard a lady visitor at Sunday School recently say that she had lived in a number of different communities in several counties in Texas, but last Sunday was the first time that she had ever seen people shaking hands and inviting their neighbors to visit them, since she left the "old State." She has never lived in West Texas before and this universal spirit of friendliness and good will is very noticeable to people from some sections of the state.  
Bro. Morrison preached to a full house Sunday afternoon. His regular appointment is for the third Sunday afternoon. There were several visitors out at Sunday School. Everyone is invited to come.

### What's the idea of calling this new coffee of yours, Gold Plume?

A pretty, well dressed young lady asked me this as she was calling off her grocery list.  
"Well," I said to her, "Isn't that plume on your hat the highest part of your hat?"  
"Yes, I suppose it is—but what's that got to do with this coffee?"  
"That's the way with Gold Plume Coffee—it's the highest thing in town in the way of coffee, when it comes to quality and flavor."  
"As to the 'Gold' part—isn't it gold that makes us rich?"  
"Well, I can say this—there isn't a richer flavored coffee in town than Gold Plume."  
"You win," she said. "It's well named. Just for that I'll take ten pounds."

### Singing in The Home

Those who were fortunate enough to see the all-star performance of Hartley Manners' "Out There," which was given for the benefit of the Red Cross during the world war, will never forget the effect produced upon the audience in the hospital scene when "Auntie Annie" (Laurette Taylor) sang "Rock-a-bye-baby"

to a few wounded soldiers, until one by one, they ceased tossing and turning and fell asleep.

There is a human sympathy and a spiritual uplift induced by the singing of beautiful melodies, and the craving for music is part of the heritage of every normal person. Why is it then, that present day parents are so neglectful of this educative force, so careless of the necessity

for laying the foundations of artistic appreciation in the impressionable years? Why do so few mothers and fathers nowadays sing either to or with their children the songs which combine fine sentiment and really good music to offset the current atrocities which masquerade as melody? What has become of the parents who use to sing the nursery songs and other good melodies to their babies, and follow them with a wider range of music as the children grew older and needed it? Where are the grandmothers who knew all the fine old hymns and ballads, and were not afraid to let their voices be heard by admiring youth? Where, oh, where are the modern children who are brought up on anything-but-regime-or-jazz?

As a nation we are losing the power of expressing ourselves in song, and the younger generation is losing all the joy and cultural value of being brought up in households where music is as much a daily habit as speech, and father, mother and children sing separately or en masse as regularly as they eat and sleep. Nothing can take the place to the child of the living human voice as a musical medium. In no other way than by listening and trying to copy can he so easily be taught to sing himself. There is no fund of memories in later years which will yield him such rich treasure as those connected with the music of his childhood, provided it has been made by mother, father, and the rest of the family.

Whatever the reason for the disappearance of singing in the home, be it lack of time, fancied lack of ability, or the prevalence of the "record" or the family exodus to the "movie" every evening, the songless condition of the modern household is a national menace and should be remedied without delay if we want to do what we can to bring back to the world some of the old grace and charm and peace of the days that are gone.

If every mother and father would resolve to spend ten minutes a day singing with and to their children, preferably the songs of their own childhood, I venture to predict that in a few years there would be a marked change in the too often insolent, modern attitude of many children toward their elders, and that we should not hear so much as we now do of the bad manners of young people. Music still hath its charms,

## Just A Moment Please

Last September the R. A. Holland Abstract Co., was purchased by the undersigned and on July 1st, 1921, the style of this firm will be Wilson Abstract Co., and as manager of this firm, I desire here and now to express my appreciation for any and all favors shown the old firm and trust you will see fit to continue with the new.

It has been indeed a great pleasure to me to serve the people of Lubbock and in this connection permit me to say that we are sparing neither pains nor expense in keeping our abstract plant up to the highest standard of efficiency and we can truthfully say we have one of the best equipped plants in West Texas, and with our 12 years of experience in this line of work we offer you service second to none. We believe the best is none to good for the people of this country.

To owners of land in Hockley and Cochran Counties will say we have an abstracted copy of the records of these counties in our Lubbock office and are receiving a complete copy of all instruments filed with the Clerk of these counties and are in position to serve you promptly and efficiently from this office.

Again thanking you for all past favors and for a continuance in the future, we remain,

Yours for the development of the South Plains and for a GREATER LUBBOCK.

## BANKERS THANKFUL FOR SPLENDID CO-OPERATION

We, the bankers of Lubbock, desire to extend thanks to the people of Lubbock for the splendid cooperation in entertaining the Panhandle Bankers Association last week. While but few of the homes in Lubbock were called upon to entertain guests, there were plenty of them offered and the free use of cars in which to take the visitors anywhere they wished to go, furnished splendid opportunity for the people who visited to see the city, and was the source of much pleasure for many of the guests to have the privilege getting a good view of the city. We wish to express our thanks to Mr. Rix for furnishing the Convention with tables and chairs and other necessary pieces of furniture, and to each and every one who served in entertaining the Convention, we desire to extend thanks.

### MONROE HAPPENINGS OF THE PAST WEEK

Crops and gardens are growing, cattle getting fat on the grass, and "everything is lovely and the goose hangs high."

Some friends from Lubbock attended the closing of our Singing school on last Wednesday night, and we especially enjoyed their part in the program. Much merriment was produced by the "Chorus" from "Plainview" in which the costumes were very elaborate and "up-to-the-minute" styles were not represented. A charming lady and her small son, from Vernon, whose name we can't recall, were the guests of Mrs. Dyess recently, and attended our singing. She played the piano so well, and we enjoyed having her as well as Mrs. Dyess, who sings so beautifully.

W. D. Cox, who is attending the Summer Normal at Canyon, visited his mother Mrs. T. H. Cox, last Sunday. He made the trip by auto.

Mrs. Rufus Bundy and her sons, Frank and Glenn, spent last Monday in Lubbock, at the home of Mrs. A. A. Bratcher.

The Methodist minister, Mr. Howell of Abernathy, preached here last Sunday night.

The Monroe singers will meet to practice songs on each Sunday night. A young lady, who is a cousin to Miss Benny Ditto, is visiting in the Ditto home this week.

Mrs. Shrader has for her guest, her mother, who lives in Hale Center. Mr. and Mrs. Gillette, of Caldwell, attended church here last Sunday.

Clarence Williams and family, were callers in the home of Grandma Stephenson Sunday evening, having entertained her at dinner and brought her home.

### HEALTH FILMS SHOWN AT BOTH SHOWS THURSDAY

Through the courtesy of Mr. McElroy, manager of the Moving Picture shows of Lubbock, the Lubbock Civic Federation is having shown each week a film of from one to four reels dealing with some phase of health and sanitation. "Our Children," was shown June 16. During this week three films will be run by Mr. McElroy. They are "The Rat Menace," "Before the Doctor Comes," and "A visit from the School Dentist." These films are being furnished the Federation by the State Board of Health free of charge, excepting the cost of transportation from Austin and return. They are instructive and entertaining.

### TWO CLOVIS BOYS ARE DROWNED LAST SUNDAY

Clovis, New Mexico, June 27.—Guy Jernigan and Homer Stiff, two Hollene boys, ages 17 and 18, were drowned Sunday morning while playing in a large tank near the Texas line.

The boys with two companions were playing on a wire stretched across the tank and as the Stiff and Jernigan boy neared the center of the tank the wire broke, throwing them into the water which was several feet over their heads. The boys could not swim. Their two companions rushed to their assistance. All four boys sank but two of them were able to get to the shore. They called for help but when aid reached them-life was extinct.

## South Plains Duroc Sale Circuit Has Been Announced

A circuit of sales of registered Duroc Jersey hogs was arranged in Plainview this week by Helen-Temple Farm, Boerner's Duroc Farm, of Lubbock and J. I. Hammonds of Floydada. The tentative dates set are Boerner's Duroc Farm, Lubbock, on August 8th; Helen-Temple Farm, Plainview, August 9th; I. Hammonds, Floydada, August 10th. Adams & McCreary of Wayside, and Colonel Gould of Sulphur Springs, will be the auctioneers and will be assisted by the local auctioneers in the cities where the sales are to be held.

Sunday, Mr. and Mrs. Hammond from Floydada, and Mr. Boerner and J. W. Jennings of Lubbock, were in Plainview to spend the day with R. E. Prewitt, manager of the Helen-Temple Farm, and arrangements for the sale were closed.

The custom of auction sales of registered hogs is growing in favor in the Southwest. It is the approved method of selling in the North, and effects many economies in handling the sales, for a number of buyers can be brought together at the same time. A circuit also offers the buyer a better opportunity for if he wishes to buy several head he can take three or four days off, visit all of the sales and thereby have a greater variety of individuals and blood lines to select from.

The three breeders are leaders in the Duroc Jersey breeding business in their respective counties and have a reputation for selecting good breeding stock and developing herds of merit. The best blood lines of the breed are represented in the herds of these breeders.—Plainview Herald.

### DISTRICT JUDGE IS INDICTED FOR MURDER

San Angelo, Texas, June 25.—Investigation begun at Del Rio Friday morning by the Val Verde County grand jury ended at noon Saturday in the return of an indictment against James Cornell of Sonora, Judge of the 83rd Judicial District, for the killing of W. T. O. Holman, prominent ranchman on the streets of Del Rio Monday night.

Bail in the sum of \$5,000 was granted. Owing to the fact that the present term of District Court at Del Rio ends next week, the case will not be called until October.

R. E. Stantive, of Amarillo, passed through Lubbock Tuesday, enroute to Devil River, where he will spend two weeks on a fishing trip.

Fred Miller, of Lockney, passed through Lubbock Tuesday, enroute to Fort Sumner, New Mexico, where he goes to look after business matters.

## Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste,

It's Camels for you.

### THE LOCAL NEWS IN VICINITY OF LORENZO

Commissioners Court met in regular session Monday. The tax rate for 1921 was fixed at this meeting as follows: General Fund 25c; Road and Bridge Fund 30c; Jury Fund 8c, Courthouse and Jail Fund 9c. The valuations are about one-half million dollars below what they were last year.

Lorenzo is still building and there are rumors afloat of more buildings to be erected in the near future. For the past two years Lorenzo has enjoyed a substantial and steady growth equaled by no other town in the county. And she will keep her record.

The wheat around Lorenzo is turning out a great deal better than was expected by the most conservative who had estimated their crops around seven or eight bushels to the acre. Many of these are making from ten to twenty bushels per acre with a majority averaging around fifteen bushels per acre, some have made as much as 25 bushels and better.

Dr. J. P. Sewell, president of the Abilene Christian College, delivered two fine discourses at the tabernacle here Sunday morning and afternoon. Both of his talks were along the line of Christian education and were truly worthwhile and inspiring. A large number of people attended each service.

Last Sunday was the occasion of a happy reunion at the home of Mr. and Mrs. J. E. Huckabay in this city. For the first time in two years all the family of ten children had been together, and needless to say all had an enjoyable time. Two daughters, Mrs. Roscoe Hensley, and Mrs. T. Hale and families of this place were present. Out of town guests were Mrs. McGill of Dallas, and Mrs. Ervin of Plainview.

### FIVE YEARS SUSPENDED SENTENCE FOR FORGERY

Ernest Waldrop was tried in District Court here Monday, charged with forgery in two indictments. The defendant plead guilty, and was given a five year suspended sentence. During the trial, Ernest, who is 18 years of age, broke down and cried several times during the trial, but when asked after he left the court house if he did not feel much relieved, answered, "I didn't give a damn, win draw or lose, I was for them." Then he was asked if he did not think it a good policy to go straight from now on, owing to the fact that he had a five year suspended

### SOCIETY NOTES

College Girls' Club Organized Wednesday afternoon, June 22nd, Misses Nancy and Margaret Dupre entertained a number of college girls from five to seven o'clock. The first part of the afternoon was spent in greeting old friends and telling thrilling college experiences, after which 42 was enjoyed by all. Dainty refreshments consisting of iced tea, sandwiches and salad were served to: Lena V. Griswold, Blanche Bean,

Florence Jackson, Maggie Hensley, Irma Pryor, Floe Benson, Louise McKee, Ruth Foster, Nobia Slagle, Mrs. S. E. Cone and Irene Lowrey. The out of town guests were, Alice Johnson, of Eastland; Ida Richardson, of Colorado, Texas, and Neva Strickland, of Fort Worth.

At the close a club for the college girls home for the summer was organized to meet each Wednesday afternoon. The next meeting will be held at the home of Miss Blanche Bean. The following officers were elected: Lena V. Griswold, president, Nobia Slagle, secretary, and Irene Lowrey, press reporter. Then the guests departed after expressing their pleasure in having the out of town girls with them, and their enjoyment of the afternoon.

Surprise Shower Mrs. Elmer Cone, nee Miss Fern Parks, daughter of Mr. and Mrs. C. E. Parks, was complimented with a miscellaneous surprise shower at the home of Mrs. John Bacon, 1620 Broadway, Thursday afternoon, on June 16, from three to five o'clock.

Decorations were in pink and white, a profusion of daisies, gladiolus and pink Killarney roses being used.

Mrs. Cone, with her mother Mrs. C. E. Parks, was supposed to be making a short call with Mrs. Bacon, but when they arrived they found other guests there also, whom were Mrs. G. R. Bean and Misses Blanche Bean and Nobia Slagle. After a short conversation Miss Slagle was asked to compliment the bride with a selection at the piano, which turned out to be a lovely march to which a host of girls, friends of the bride of whom had not made their appearance, marched in to greet the lovely and happy bride. Following the girls came the little flower maids, Virginia Bacon and Edna Parks, very beautifully dressed in lovely organdie and lace of pink and white, drawing a wagon elaborately and artistically arranged with ferns and flowers, but to that was not all for in the wagon was none other than almost a complete set for the kitchen—useful kitchen utensils they were.

Miss Irene Lowrey presented the bride with each present in the wagon and read the inscription thereon. Mrs. Bean gave a very thrilling toast to the bride.

A dainty ice course was served to: Mrs. C. E. Parks, Mrs. Elmer Cone, Mrs. Bean, Mrs. Bacon, and Misses Irene Lowrey, Ida Lou Ellis, Louise McKee, Gladys Collins, Nobia Slagle, Willette Waters, Francis Conley, Blanche Bean, Virginia

Bacon, Edna Parks, Blanche Bacon, and Miss Bertie Lee Groce, of Holdenville, Oklahoma.

After the shower came the sunshine and the crowd assembled in cars and drove out to the beautiful and attractive home of the bride and groom, on West Broadway.

Department of Commerce,  
Office of the Secretary,  
Washington, April 14, 1921

Mr. H. F. Cellarius, Secretary,  
The U. S. League of Building and Loan Associations,  
My Dear Mr. Cellarius:—

On the occasion of your annual meeting in New Orleans, may I, through you, express to the building and loan associations of the United States my sincere hope that their work may greatly extend during the coming year.

Your associations, true people's banks, popularly controlled and locally managed, have sprung up voluntarily throughout the country. Through the system of weekly or monthly deposits by their shareholders they encourage thrift throughout the nation. Through the system of amortization, in which the building and loan associations were the pioneers, they have made their assets sound and worthy of confidence. Through loans principally upon homes they are an instrumentality not only in solving the housing problem but in developing self-reliance of our citizenry.

It is my earnest desire that the building and loan associations of the United States should be encouraged by the public-spirited citizens in every locality.

Yours faithfully,  
(Signed) HERBERT HOOVER.

Rev. James Hoffman Batten says: "The building and loan men and ministers are partners. The minister builds churches and the building and loan man builds homes, both to the glory and prosperity of the country."

Mr. C. H. Tucker, of Long Beach, speaking on the subject of "Building and Loan Secretaries", said in part: "What are you doing in spreading the gospel of thrift and home-owning? In citizenship, we building and loan secretaries should be second to none, as we are close to the throbbing heart of the home. Such simple, peace loving folk as home owners, are the backbone of the nation. Take a pride in your work, guard your reputation zealously, and as a good secretary, it will follow naturally, you will be a good citizen."
