

THE LUBBOCK AVALANCHE

VOLUME XXII No. 24

LUBBOCK, LUBBOCK COUNTY, TEXAS, FRIDAY, NOVEMBER 18, 1921

PUBLISHED TWICE A WEEK

INTERNATIONAL HARVESTER CO. WILL HOLD SHORT COURSE HERE

ABLE MEN WILL BE ON THE PROGRAM TO DISCUSS THE VARIOUS SUBJECTS OF COURSE

FARMERS SHOULD ATTEND EVERY SESSION

The Date and Place of Meeting Will Be Announced As Soon As Necessary Arrangements Can Be Made and Further Information Will Be Given.

Live energetic business men of Lubbock are behind a move to secure the Agricultural Short courses of the International Harvester Company for our farmers, which will be held for two days in the near future. The date and place will be published in a few days, just as soon as all the data can be gathered.

The International Harvester Company is sparing neither time nor money in offering the farmers as good courses as can be made possible, and the lessons are so simplified by the able speakers that there is no trouble at all in getting the full benefit of the meetings.

The course is taught by a corps of as fine instructors as were ever assembled, and there is a specialist for every line. From a pamphlet of the Company we have the following facts about one of the principal speakers, H. S. Mobley. "Mr. Mobley, practical farmer, dairyman of many years' experience sees things from the farmers' viewpoint. A leader among community builders. National chairman at Washington of the Farmers' Organizations Legislative Committee during the discussion and adoption of such laws as the Farm Loan Bank, Parcels Post, and Smith-Lever Bill" and in this short course Mr. Mobley will speak on subjects of such importance to farmers as Soil and Soil Fertility, The Dairyman's Problems, Alfalfa, Corn, Livestock, Poultry on the Farm, Home Building, Better Rural Schools, Co-operation, and Committees are made of Folks, and from these subjects and their discussion we are given the opportunity of hearing this man of known ability solve those knotty little problems that are always bobbing up when we should all be pulling together in one direction, and with one aim in view.

To the man who would like to know the best way to make money under hazardous circumstances Mr. Mobley will be a great help, as he is well posted on all kinds of farmers' problems and can help make money on a certain soil, or can tell the best system to employ in reviving soil that has become unuseful through foul care.

Prior to Mr. Mobley's instructions, however, we will be given the assistance of one of the Company's most able farmers, Mr. George W. Anstrand, live wire, successful organizer, who will help organize the course here about one month before the arrival of the instructors. Mr. Anstrand will explain the course completely to our people, and will work up considerable enthusiasm about the course, as he understands it thoroughly, and realizes its value to any farming community. The real work of organizing the committees, members of which will secure the building in which the courses will be taught, and give it wide publicity will be started immediately upon Mr. Anstrand's arrival here.

H. G. Shallenberg, manager of I. H. C. Agricultural Extension Department, and Ralph A. Hayne, Supervisor of short course, will not be at the meeting here, but their work is sent out from headquarters and they keep in touch with the traveling instructors that they may be given the latest needs of the communities where they will do their work. Mr. Hayne completes all plans from his office several days before the date of the course, and will help our home people arrange their part of the program as well as those under his management. This will be a valuable service indeed, and the short course will be enriched with songs, speeches, and other entertaining features by local people, all of which will be directly under Mr. Hayne's supervision.

The management of the I. N. H. has certainly not overlooked the home side of their work, and has an expert champion of home problems in Mrs. Bertha Dahl Laws, a home woman with a message for men, women and children whether they live in country or town. Mrs. Laws is a woman of wonderful ability and practical experience, and her time is spent in helping others with their part of the program, as well as offering a very instructive and interesting part of her own. It will be of interest to every person in this country to hear Mrs. Laws speak on such subjects as Woman's Work in the Community, Thrift, a National Asset, Good Health in the Home, Fight the Fly, The Home, its Furnishing and Care, Our Food—its Production, Preparation and Preservation.

Together with the instructors talks a motion picture program is carried out that is of great help to both old and young, and carries well defined instructions for all the branches of farming, stock raising, poultry raising, household conveniences, canning, and the use of modern machinery on the farm. It requires about twenty minutes to show each reel, and we do not know how many of the reels will be shown here, but will

cover this in the next article when the date, place, and program is all planned.

This is a great move on the part of our progressive farmers and business men to secure this course for the Lubbock Community, and should be given the attention and support of every person interested in making the Great South Plains a better and more profitable place in which to live.

The International Harvester Company Extension Department furnishes the speakers, and all that is asked of the people here is to get behind the project with personal interest, furnish the hall in which the meeting can be held, and make it as widely known as possible, that a large hearing will be given them.

The men who are starting this are for Lubbock, are going to furnish the hall, and arrange a home talent program and will do all they can to make it known to all our people and it is up to the farmers and home owners to give their attention to the matter, and be on the grounds the day the course is started.

Lubbock Lady Died in Hospital at San Angelo

San Angelo, Nov. 14.—Mrs. L. A. McDaniel of Lubbock, died at a local sanitarium at 10 o'clock Friday night. Mr. McDaniel had brought his wife here about four weeks ago on account of ill health. The husband, a baby girl three days old and a daughter 10 years old survive.

The body was to be shipped to Antlers, Okla., Sunday by the Robison Undertaking Company. A brother, Robert Wood, and Mrs. Robert Wood and Mrs. Maud Pierce arrived in San Angelo Saturday from Antlers, and were to accompany the funeral party from here Sunday. Mrs. McDaniel was 35 years old. She had been a member of the Baptist Church since early childhood. Mr. McDaniel, a contractor, said that he would probably return to Lubbock and resume his business there.

"Live at Home" Meeting at Court House Saturday

The entertainment committee of the "Live at Home" movement for which there is going to be a meeting at the court house Saturday afternoon, beginning at one o'clock, has secured the help of Mr. P. B. Woods of College Station, who will speak on the "Reduction of Cotton Acreage." Mr. Woods is an able speaker and is well informed on this subject, and as it also covers the diversification and marketing of crops the farmers of this county will do themselves an injustice if they fail to hear this lecture.

There is a great work to be done by the "Live at Home" Organization, and no time is being spared to do all it can toward the work to which it is stationed.

The farmers and business men of this country are in need of this movement, as it is a get-together proposition, and offers splendid opportunity for better understanding to exist between them.

It is hoped that a good hearing will be given Mr. Woods, as there is plenty room in the court house to accommodate a large crowd, and there is no mistake about the fact that he has a message to deliver to every farmer and business man here in regard to the raising and handling of the products of this great country.

FORSON CHILDREN SUFFER SPRAINED AND BROKEN ARMS
P. H. Forson, of Lubbock, reports that his little ten year old daughter, Mary, fell and dislocated her right arm Friday. Mr. Forson had received a telegram from Temple the day before that his nineteen year old son, Glen, had broken his right arm, and sprained his wrist in an attempt to crank a Ford car.

The girl is now able to attend school, and the boy is reported to be doing as well as could be expected.

Rev. John P. Hardesty, of Slaton, was here Wednesday, looking after business matters. Mr. Hardesty is now publishing a paper called the Bulletin, which is the official organ of the Baptist Brownfield Association, and the first issue was published last month. It is to be published monthly.

Children being weighed and measured in the baby clinic at Sugar Creek Missouri. About 30 babies and their mothers attend this clinic each time it is held. The two shown in this picture are 100 per cent perfect. They are (standing) Thomas Walker Rodman, age 21 months, weight 31 pounds, 1 ounce, height 37 inches; (seated) Charles Raymond Jolly, age 10 months, weight 19 pounds, 8 ounces, height 28 inches.

SECRETARY HUGHES ASTOUNDS THE WORLD WHEN AMERICA'S PROPOSAL FOR DISARMAMENT WAS MADE SAT.

Washington, Nov. 13.—The American proposals for reduction of naval armament, submitted by Secretary Hughes Saturday briefly summarized are:

1. The United States, Great Britain and Japan agree to a navy building holiday for ten years during which time no new ships shall be built except for replacement of tonnage within the agreed maximum of each nation.

2. All uncompleted capital ships and numerous specified older capital ships to be scrapped at once.

3. All building programs, either actual or projected, to be abandoned at once.

4. The seapower of the three nations to be maintained on a basis of a tonnage parity between the American and British navies and of a Japanese navy of three-fifths the tonnage of either of the others.

5. The capital ship to be the unit of measurement of naval strength and a proportionate allowance of auxiliary craft to be prescribed.

6. The size of the capital ships built for replacement shall be limited to 35,000 tons, compared with 46,000 tons, the maximum now building, and aggregate capital ship tonnage to be limited to 500,000 each for England and United States and 300,000 for Japan.

7. Auxiliary cruisers and destroyers, the keels of which have been already laid, to be completed, but replacements to be on a basis of a maximum 450,000 tons each for England and the United States, and 270,000 tons for Japan.

8. Same provisions for submarines with the maximum tonnage 90,000 each for England and the United States and 54,000 for Japan.

9. Total tonnage of airplane carriers to be limited to 80,000 each for England and the United States and 48,000 for Japan.

10. Only capital ships and airplane carriers 20 years old, cruisers 17 years old and destroyers and submarines 12 years old may be replaced.

11. Limitation of naval aircraft deemed impracticable because of the easiness of converting commercial aircraft to war uses.

12. Conversion of merchant marine to warships to be regulated by agreement.

Dr. W. B. Pinson and wife are here from Mineral Wells, where Dr. Pinson was pastor of the Nazarene church last year, and he has begun his work here as pastor of the Lubbock Nazarene church.

Regular services are held at the church each Sunday, with Sunday School at 9:45, preaching at 11 a. m. and 7 p. m. and prayer meeting each Thursday night.

Dr. Pinson is an able pastor and his services will be greatly appreciated by his people here. He was in Lubbock several years ago, and is glad to be able to be associated with the people here again.

Dr. Pinson expressed a desire for us to state that it is his wish to cooperate with all pastors, business men and other people of this community in any way that will result in doing good for the general welfare of Lubbock.

TEXAS UTILITIES LIGHT AND ICE PLANT DESTROYED BY FIRE

ORIGIN OF THE FIRE IS UNKNOWN AND PLANT WAS ALL ABLAZE WHEN FIRST DISCOVERED

FIRE DEPARTMENT RESPONDED PROMPTLY.

The Nearest Fire Plug Was On Northwest Corner of the Square and a Long Line of Hose Had to be Laid and Cross Switch Yards to Get to the Fire—Adjoining Property Saved.

Baptist Revival Will Close With Sunday Evening Services

The meeting that has been in progress at the Baptist Church since Sunday, November 6th, will close Sunday evening.

To date there have been forty eight conversions and there is ample time before the close of the meeting to bring that many more into the church, and Rev. T. F. Evans is giving the people here an opportunity to hear some splendid sermons.

Rev. Evans and L. E. Payne, the chor director, make a great team, and are alive to the needs of the church, and keep constantly at their work, and the above results speak for what they are doing in Lubbock.

This meeting will do a great deal toward reviving the church-going spirit among our people.

Rev. Bowen, the pastor, is at all times alive to anything that will bring new spirit into the church, and will be so congratulated for having secured such expert help in carrying on the work here.

J. W. Patterson, of Plainview, was here Thursday looking after business. Mr. Patterson and family will make Lubbock their home in the near future, and he will go into business here.

Presiding Elder, Geo. W. Shearer, was at Lorenzo Wednesday, presiding over the Pastors and Laymen meeting held at that place this week.

Editor J. T. Buck, of the Crosbyton Review, was here Wednesday, looking after business matters, and reports everything coming along in good shape over his way.

Dr. McBride, of Abernathy was here Wednesday, looking after business matters in our city. He was accompanied by S. J. Redman, editor of the Abernathy Weekly Review.

Roberta Hughes, of Post City, was here Wednesday.

Tuesday night, about 11:00 the entire ice and light plant of the Texas Utilities Company was destroyed by fire, of unknown origin. When first discovered the flames were flashing through the interior of the building, and soon the entire structure was enveloped in flames. The alarm was immediately turned in and the local fire department were soon on the job. The distance from the nearest fire plug, which was on the northeast corner of the square, and the fact that the hose line had to be laid across the Santa Fe yards, took more time than ordinarily, and by the time the water was available the entire building was a raging mass of fire.

The attention of the firemen was directed to the south side of the plant which was the ice storage vault, and which was close to the Fuller gin, and greatly endangered the latter plant, which no doubt would have burned had it not been for the faithful work of the fire boys. Also a number of other buildings in that immediate vicinity were saved by the heroic work of the department, and the boys deserve great credit for their splendid work, and we are sure their efforts are properly appreciated by those who know the situation, and know just what they had to do to accomplish what they did.

A long string of box cars, loaded with various kinds of merchandise and products were in great danger of being destroyed and had it not been for quick action on the part of the operator at the Santa Fe Depot and the switch crew, no doubt the loss on the part of the Santa Fe would have been heavy, while as it is, it is very little, and that was caused by the heavy explosion of the ammonia tank at the plant which was severe enough to break window glasses in the depot and other nearby buildings. When this tank blew up it also made its getaway from the flames, and although it weighed about 250 pounds it was tossed over across Broadway, into the gin yard of the Worth Gin Co., a distance of about two blocks, and this relic of the fire is now being exhibited at the fire station.

No statement of the loss to the Utilities Company has been made public at this time, but we are sure it will amount to about \$100,000, and the insurance is believed to be light though not definitely known. It was well equipped with light and ice machinery, and many improvements had recently been made in both the light and ice equipment. The plant is operated with crude oil, and we understand that two cars of this fuel had just been transferred from the cars to the storage tanks, and was included in the loss, and also added to the difficulty of extinguishing the flames, as water was of little avail against burning oil.

H. L. Allen, local manager of the plant, told an Avalanche reporter that considering the hazardous task of the fire department it is hard to understand how they were so successful in checking the flames. With absolutely everything against them the men were not checked in the least in their attempt to control the flames, and were on the job until the last bit of danger of anything else becoming caught was abolished. I cannot say enough in their behalf he said.

J. B. Scott, general manager of the Company, with headquarters at Plainview, was here Wednesday, and said the plant would probably be rebuilt in a few weeks.

This company has a high line from Plainview, which enables them to give their customers service, even if the plant here is in ashes, and it only took them a few hours to get all their customers back in full service from the Plainview plant, and their prompt service in this instance is greatly appreciated by the people here who are on their lines.

They also were able to supply their customers with ice on regular schedule, and without any delay at all, and we are sure that their service along this line will not be less efficient than heretofore, and that the new plant will be in operation in time for the next summer season.

S. W. Smith, salesman for the Western Hock Salt Company of Kansas City, was here Tuesday looking after the needs of our merchants in that line, and said the Davidson Feed Store a good bill. Mr. Smith has been selling salt to Mr. Davidson for the past twelve years, and says he is about the best customer in his territory.

W. C. Rylander and party returned from Houston last Saturday, after spending a few days in that city, in attendance upon a meeting of the State Life Insurance Company. He reports a very pleasant visit to that city, and the meeting was one of great importance and will be most beneficial to all who were privileged to attend.

Floyd County Is To Have Poultry Show Nov. 26th

Floydada, Nov. 11.—Detailed arrangements for the biggest and best poultry show ever held in Floyd County and perhaps in this entire section of the country are being made, it is announced by H. P. Coleman, vice president of the Floyd County Poultry Association.

The show is to be of three days' duration, beginning Thursday, November 24 and running through Saturday, November 26. Arrangements are being made to accommodate at least 500 birds, Mr. Coleman says. An entrance fee of 25 cents for each bird or \$1 for a pen is to be made, and the entrance fee money will be used to swell premium money. An attractive premium list is being prepared.

An experienced poultry man will have charge of the judging of the birds, which will begin Friday morning, the second day of the show. The judge will be on hand the last two days of the show to give the visitors advantage of his knowledge of the birds, their good and bad points, making the show one of educational value.

The show is open to exhibitors and poultry breeders from over this entire section of the country and a large attendance is expected at the show.

MOODY ITEMS OF INTEREST THIS WEEK

Everything is progressing nicely in Moody vicinity. Prospectors are out most every day, looking over our land with a view to buying a home. Three laborers of land have sold within the last few days. Each to different parties for homes.

Mr. Bob Swofford is making quite a bit of improvements upon his new block of land, No. 25.

A daily, Star Mail route has just been granted to this section of the country. The people are asked to map out the exact route they wish the mail to take, and then an inspector will be sent to look over the road, immediately. This route will run from Ropesville to Leveland, via Moody, and it certainly will be a great convenience for the people all along the route.

Mrs. Ullis King surprised her husband on the 8 inst., with a six o'clock dinner in honor of his birthday. I'm not permitted to say just how old he was.

The invited guests were Mrs. White, Mr. and Mrs. Bill Murray, Mr. and Mrs. Harry Palmer, and son, Teddy, Joe, Fred Reeves, Professor Teague, Wilsie Teague, Euel Hall and Ruel Hall.

Mr. Ullis King happened to a peculiar misfortune this week, of having his wagon burned. It was standing in the field loaded with about 200 pounds of cotton when someone noticed it as on fire. But before the fire could be extinguished, all the cotton and the wagon bed were a complete loss.

Mr. Slaughter is now having a residence constructed near the Zavalla Camp. This is to be a real modern home in every respect.

Mr. Swofford is putting up buildings on the Grimes block, adjoining the school ground. This place is to be occupied, soon, by Prof. Teague and his family.

Mr. Harry Palmer is building an addition to his barn to accommodate the feed he has to store up.

Quite an interesting basket ball game was played last Friday afternoon at the Moody school grounds. The game was between Moody and Leveland. At the close of the first half they stood even, 6 and 6. But in the last half Leveland gained a few points and won the game by a score of 13 to 8. Prof. Gunn acted as referee.

Bill Murray and Ullis King left Friday for Clarendon. Mr. Murray had been called there in connection with the settlement of the estate of an old bachelor Uncle of his.

Mr. Thorp spent the day with Mrs. White Monday.

Mr. and Mrs. Nickell and son, Earl left Monday for Tahoka. They were called there on business matters.

Mr. Bill Chism made a trip to Meadow, Thursday, and incidentally he brought back a load of coal.

There is to be a program rendered at the school house on Thanksgiving night. The proceeds will go for the needs of our new school. The play is entitled: "Woe By a Wager," and it promises to be a great success. There will also be some readings and a monologue given. Besides a negro sermon will be delivered, and there will be plenty first class music, both vocal and instrumental, throughout the program. We certainly shall appreciate your presence and hearty cooperation in this—our first attempt to render a program at our new school building.

It was quite an eye-strain upon the people Monday, as they watched so eagerly, the air plane as it passed over Moody going from east to west. The school turned out enmasse to watch it. Some had never seen an air plane.

Mr. Mears has just erected a windmill upon his place.

Oil Developments In Mitchell County Are Looming Up

Colorado, Mitchell Co., Texas, Nov. 13.—Sloan and associates will drill a well between the Underwriters No. 1 north of Westbrook and Foster No. 1 at Lotan. Material is being hauled to the location.

Mr. Sloan believes Mitchell County will show wonderful development within the next few months if operations now under consideration by different operators are carried out.

Another important item to be considered is Mitchell County oil comes from sand and such wells are usually long lived and the oil is high in gasoline content.

G. S. Owens of the Underwriters Company has returned from Tulsa. He reports that work on Coleman No. 1, near Cuthbert, in the northwestern part of Mitchell County, will be resumed at an early date.

Smith No. 1, five miles west of Colorado, is drilling below 1,000 feet. Drilling water is getting scarce.

Conway No. 1 well, fourteen miles southwest of Colorado, is making slow progress, as drilling water has to be hauled by truck. The formations continue to look favorable. The drillers have not yet passed through the oil sand pierced at 3,029 feet.

Foster No. 1, near Lotan, has set big casing and is drilling below 500 feet. Production from Foster No. 1 continues to hold up well.

The Lotan operators are the only ones not troubled with water shortage. Messrs Brown, Gardner and Hanley of the Gulf Refining Company were here nearly a week inspecting the field and purchasing leases. Messrs Reece and Amery of the Texas Company have also been here again on the same mission. Mitchell County is well worth watching.

WINNERS OF A & M EGG LAYING CONTEST ANNOUNCED

College Station, Texas, Nov. 16.—The Fourth Texas National Egg Laying Contest, conducted at the A. & M. College of Texas by Professor T. J. Conway, poultry husbandman, closed October 30. The highest laying hen for the entire year was one of Barred Plymouth Rocks, owned by M. A. Lee of Seadrift, Texas, with a production of 868 eggs. It is of interest in this connection to not that Mr. Lee won the contest last year and the contest three years ago.

The second highest pen were S. C. White Leghorns owned by W. M. Moore of Dayton, Texas, with 856 eggs.

The highest individual was a S. C. White Leghorn owned by J. L. Batts of Decatur, Texas, with 222 eggs.

The highest pen for October was Barred Plymouth Rocks of M. A. Lee with 90 eggs.

A. B. Conley, Jr., of Lubbock, was here this week greeting old friends. He was jubilant over the prospect of the Bock-Wilmoth coming in a paying oil well at almost any time. —Bridgeport Index.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Mrs. Maud Turnell, was here from her farm southwest of town, Saturday, with a nice load of turkeys.

WORN NERVES

Nervous troubles, with headache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney-weakness and to try the remedy that has helped your neighbors. Ask your neighbor!

Mrs. F. G. Shotts, 401 Pine St., Big Spring, Tex., says: "I have had pains in the small of my back that were awful. It was worse than toothache and when I bent, my back hurt so I could hardly straighten. I became so nervous, the least thing irritated me and I was bothered with dizzy spells when spots before my eyes blurred my sight. I couldn't get much rest and I got up mornings feeling all tired out and without enough ambition to do anything. I started using Doan's Kidney Pills and the trouble soon began to leave me. Before long I was entirely cured and I have had no return of kidney complaint."

Lamesa is Rapidly Developing Into A Splendid County Seat City With a Very Fine Future Prospect

The South Plains is enjoying probably an era of the greatest development in the history of the state. The Lamesa Reporter in its last issue contained the following information about the town of Lamesa, which will

be of interest to the many readers of the Avalanche. The town of Lamesa is the only town in the county and has a population of something like 2,500. The last census gave the County 4,309 but there are today perhaps 6,000 people in the county. There are thousands of the finest acres of land in the world that has never been broken. At least 96 per cent of the soil is tilable and will produce as high as a bale of cotton per acre. The county has been boosted but little and yet land is selling all the time and the big pastures will soon be a thing of history. New houses are going up on new farms all the time. We do not want a boom. We prefer a steady growth like we have had in the past. If the soil won't do its own talking then let it alone. If when you see it you don't believe it is the best part of Texas today let her go. Others are coming all the time who and in 5 more years if you get a foot of this land you will pay \$100.00 per acre for it. Your chance is now. We have in 5 years seen it go from \$10 to \$45.00 per acre.

Lamesa has 5 grocery stores, 2 banks, 3 garages, 4 drug stores, 1 meat market, 4 gins, 2 furniture stores, 3 confectionaries, 4 churches, with local pastors all the time, a public school building, 3 stories high that, when complete, will cost around \$100,000.00, this is an all brick structure and has a faculty of 12 teachers, 3 blacksmith shops, 3 hotels, 3 restaurants, 3 rooming houses, 1 electric light and ice plant, the Santa Fe

railroad, 1 telephone system, 4 doctors, 4 lawyers, 2 abstract offices, 2 tailoring shops, 1 photo studio, 1 tin shop, 2 barber shops, 1 bakery, 3 rural routes, 2 hardware stores, 1 picture show, 2 lumber yards, 1 electric supply house, 4 filling stations, 2 wagon yards, 2 dray lines, Master Masons lodge, Royal Arch Lodge, O. E. S., W. O. W., I. O. O. F., Circle and Rebecca, two real estate, Chamber of Commerce and Civic League. Splendid brick store houses, a \$200,000.00 court house. The best water in the world at a depth of 100 to 125 feet which you can't pump dry with a windmill. Every person can have their own water system, bath, etc., and be independent when they want to irrigate the garden or flowers. Fruits vegetables and in fact anything that will grow any place will grow here in abundance. The record shows that any ten years a single hand will produce more in Dawson County than they can possibly on the best black land in this or any other state. If you can't believe this statement, come out and we will prove it with the stuff. Our jail is vacant and stays so. No one locks a door here. Ladies may go anywhere they will at night alone without the slightest fear. The town is closed as tight on Sunday, as a mierssp purse. Nearly everybody professes to be religious.

UNITED STATES CORN CROP LESS THAN LAST

Washington, Nov. 10.—The corn crop declined slightly during October, today's preliminary estimates of the production made by the Department of Agriculture being 11,365,000 bushels less than was forecast a month ago.

The total crop this year will be 3,151,698,000 bushels, still one of the largest ever produced.

Preliminary estimates of other crops were announced as follows: Buckwheat 14,894; potatoes 356,076,000; sweet potatoes 105,841,000; tobacco (pounds) 1,020,874,000; flaxseed 9,300,000; pears 9,780,000; apples 102,290,000; sugar beets (tons) 7,480,000; kafirs 125,724,000; peanuts 33,664,000.

TO HOLD EXAMINATIONS AT LOCKNEY AND STARTFORD

Washington, Nov. 12.—The Civil Service Commission today set December 10 as the date for holding examination to fill postmaster vacancies at Startford and Lockney.

The Lockney office pays a salary of \$2,100 and Startford \$1,400. The commissions of the present postmasters expire late in January and it is expected that new postmasters will qualify at that time.

At the Civil Service Commission today it was said that papers of the men taking the Amarillo examination have not yet been graded.

THIN, FLAT HAIR GROWS LONG, THICK AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant. 10-20

COMMISSIONERS CONTRACT FOR A COUNTY FARM AGENT FOR YEAR BEGINNING DECEMBER FIRST

Everything is not done in a day. In fact it takes days, weeks and even years to do something that it looks like should be done in minutes. But the progressive majority of Lubbock County carries all opposition before it in the end, although things may be balled up now and then and delayed by certain "Aginers" among the citizenship of the County.

Again Lubbock County has a Farm Agent under the Commissioners Court. They have had a Farm Agent for the past year, but he was paid thru the Lubbock County Livestock Association and the Lubbock Chamber of Commerce. This work is well known among the progressive farmers of the County and is appreciated by them. Due to opposition on the part of a few of the disgruntled brethren of the county it was discontinued last year, but the steady demand of reasoning, constructive men of the County convinced three of the Commissioners that it was not only needed, but that the people of the County wanted it and it was reinstated Wednesday in the regular term of court by a vote of three to one.

Mr. Wheeler, the Commissioner from Idalou, made the motion that the work be reinstated, stating as he did so that the majority in his district wanted the work and the agent

and that he, as their representative, was therefore in favor of reinstating the work.

Mr. Von Rosenberg, who has always stood flat footed for the work, both the County Agent and the Home Demonstrator, seconded the motion with little comment for everyone has always known where Mr. Von has stood on this matter as well as all other constructive, progressive matters that come before the Court.

Commissioner Crawford has sided Mr. Von Rosenberg for the past several weeks in his position in favor of the work and voted with the motion and it was therefore passed over the dissenting vote of Mr. Talley of Slaton, who has bitterly opposed the work ever since he has been a commissioner.

Lubbock County has been very fortunate in securing the services of the present County Agent. He is recognized by the College as one of their best workers and is recognized throughout the West as a capable judge of livestock, agricultural produce and other technical phases of his work, as witnessed by the great demand for his services as a judge at their many fairs throughout the year.

The opportunity presented to Lubbock County to take and hold the

INSURANCE

lead of the entire South Plains not only in a commercial and industrial way but also in an agricultural way is more evident every year. The County Agent is a major factor in both taking and holding such a lead. Lubbock County is to be congratulated again upon the fact that a sufficient number of constructive, progressive farmers appreciate this work to impress upon the County Commissioners their obligation to the County to provide it for another year.

Later in the session the matter of a Home Demonstration Agent was given attention by the court, but just at this time they did not feel able to employ a person for this position. We regret very much that this could not be done at this time, but we are sure the court acted in accordance with their means and for what they considered the better interests of the people in general.

TEACHERS EXPRESS THANKS TO THE ROTARY CLUB

A vote of thanks would not express, for so many words we'd have to repress; But one and all in one big voice say: "We thank you from our hearts, dear Rotary, For the wonderful time you gave to us, On the night of your dinner when you invited us. We surely know and appreciate all. Not a teacher was there who would not call You a friend to the School, whose big heart means Push, progress, and work till all Lubbock beams With pride in the future her great schools to be The hub of the South Plains and city you'll see. Be assured that we as a faculty are with you good and strong, And every one will do his part to help you push good things along. Then Rotarians, three cheers and a hearty hand clasp too! For our many thanks are surely given to you."

COLORADO AFTER BETTER FREIGHT ON GRAVEL

Colorado, Texas, Nov. 16.—The Chamber of Commerce has written the Texas & Pacific Railway Company, asking them to investigate the present freight rate on sand and gravel from Colorado to Abilene. Local contractors supplying this material have complained of losing orders for a large number of cars on account of points on the Abilene & Southern Railway having an advantage of 10 cents per hundred pounds on the freight rate into Abilene.

Colorado's sand and gravel deposits is one of the best quality in this section of West Texas, and the demand is increasing rapidly. This difference in freight rates has been called to the attention of the Traffic Bureau of the West Texas Chamber of Commerce.

PANHANDLE FOOTBALL TITLE TO BE DECIDED BY GAME AT AMARILLO NEXT SATURDAY AFTERNOON

The Panhandle football championship will be settled at 3 o'clock next Saturday afternoon at Amusement Park, when Pampa and Childress high schools clash. Both teams have been undefeated this season, and this game is necessary to settle the championship under the rules of the

inter-scholastic league of Texas. The game was arranged at Amarillo at a meeting of Coach A. S. Douglas of Childress and Coach Buel Irvin of Pampa, when the two coaches met it took them only a short time to decide that their teams should meet in the championship match. The coaches agreed upon Chief LaMotte, former Carlisle Indian star, as referee. LaMotte was known as "Lone-Wolf" when he was with Carlisle. His work in the game here Friday between Amarillo and Plainview satisfied both teams, and the coaches believed that they would like to have him. When they saw him late yesterday he readily agreed to serve. The promptness and the unquestioned fairness with which he called decisions Friday made him very popular with both the teams and the fans.

Coach Douglas of Childress is a former T. C. U. star, playing on the 1916 and 1920 teams. He was in military service several years, and that accounts for the intervening years. He also played baseball, and is now with the Cincinnati Reds, formerly being a pal of Donahue, who played with the Amarillo Grays last season. Coach Irvin of Pampa does not have so enviable a sporting reputation as Douglas, but he has shown unusual ability in coaching a team for the first season. He received an A. B. degree from Simmons College in 1921, and played on the football squad, although he was a substitute. He is a protégé of Easterdale, Pittsburgh star, and is making good with his North Plains team, which has not been scored on in eight games.

Tom Henry, captain; Charles Dunkle and Harry Wilson, all of the Pampa team, were also in Amarillo yesterday with their coach. Amarillo News.

Claude, Nov. 14.—In attempting to play the Canyon Normal football team Saturday afternoon on the Claude grounds, the Claude High school team made its most ambitious effort to win honors. The odds were against them and the score stood 21 to 6 in favor of the Normal boys when the game ended. The condition of Captain Bill Daw-

son, star tackle on the Amarillo High School Savages football squad, who was injured in the game with the Plainview boys, looks here Friday as reported to be much improved. He was back in school Monday.

Dawson was struck in the head during the last few minutes of play and was carried off the field in an unconscious condition. Amarillo News.

The Clyde football squad defeated Merkel on the Clyde ground last Friday afternoon in a hotly contested game, the score being 20 to seven. The Clyde boys started off in a dash making a touch down in the first few minutes of play. Merkel's touch down came in the first of the second half. Clyde's 20 points were all made in the first half. Clyde Enterprise.

Brownwood, Texas, Nov. 12.—Abilene High School defeated Comanche High here Saturday, 20 to 7, and won the championship of this district. Nolan of Abilene could not be stopped by the Indians, although Comanche worked a number of wonderful forward passes for long gains.

The Hale Center boys lost another grid game last Friday to the Tullia High School. The score was 7 to 0. The boys played good ball, but not as good a usual. Some of their men were unable to go and that went a long way toward losing the game. Hale Center got within a few yards of Tullia's goal several times but were unable to carry the ball across. The outstanding feature of the game was an 80-yard run by Roland Harvey, Tullia kicked off, and Harvey received the ball between Hale Center's goal post, and carried it to within about 6 yards of Tullia's goal. Tullia held them for downs.

EDITH'S DAUGHTER IS MARRIED AT FORT WORTH

Wednesday night at 8:30 o'clock, Miss Sadie Earle Adams and Mr. Edwin Quincy Perry were married at the First Christian Church in Fort Worth, the Rev. Mr. L. D. Anderson, pastor, performing the ceremony. The father of the bride, Mr. and Mrs. J. F. Garrison and little daughter, Anna Louise, of Fort Worth, were the only ones present.

Sadie Earle and her father had been on a trip to the Southeastern States, and on their return were met in Dallas by Mr. Perry, Tuesday, and the wedding followed the next night. The bride is the daughter of the editor of the News. She is a graduate of the Plainview High School and of Sullins College in Virginia, and also attended Crescent College in Eureka Springs, Arkansas, one year. She has been keeping house for her father since the death of her mother in December.

Mr. Perry is the son of E. H. Perry, of this city, and is the head of the Perry Motor Company, which handles the Moline line of implements. He graduated from the Kansas Agricultural College, and during the war was a lieutenant with the army in France.

Mr. and Mrs. Perry are spending several days in Dallas, after which they will visit his sister at College Station, and then come to Coleman to spend a day or so with her relatives. They will be at home in Plainview after November 10. They will make their home at the Adams place on West 9th Street. Plainview News.

Rev. D. C. Ross, Superannuated Methodist preacher who owns a nice little farm southwest of Lubbock, two miles, went over to Lorenzo to attend the Methodist Preachers' meeting Wednesday. While brother Ross has no regular work assigned him he is doing some work among the nearby communities. He has recently organized a Methodist church at East Ward school house and has a Sunday School started there with an enrollment of about thirty.

Rev. J. W. Hunt, President of McMurry College, the new Methodist school building at Abilene, was here Tuesday enroute to Lorenzo, where a meeting of the pastors and laymen of the Lubbock District had a meeting Wednesday. Mr. Hunt addressed the meeting in the interest of the school, and gave a very interesting report of the progress of the work of the school.

W. D. Nevils was here Tuesday from Tahoka.

LIVESTOCK MARKET

Cattle and Hogs Steady to Lower, Lambs Higher, Active.

Another heavy run of short fed cattle in Chicago, following last week's slow trade there, added further weakness to the market, and caused a rather slow trade at point that had moderate receipts. Here receipts were less than a week ago, and materially short of a year ago. Trade was rather slow with prices steady to slightly lower. Hogs were steady to 15 cents lower, mostly 15 cents lower. Lambs were strong to 25 cents higher. Straight range lambs sold up to \$9.60.

Today's Receipts. Receipts today were 23,000 cattle, 8000 hogs, and 6000 sheep, compared with 25,000 cattle, 7500 hogs, and 3500 sheep a week ago, and 38,000 cattle, 11,650 hogs and 8250 sheep a year ago.

Beef Cattle. Cattle receipts 23,000 carried only a small per cent suitable for killing purposes, but the trade was slowed down considerably by the heavy run of short fed steers and lower prices in Chicago. Here the best cows, steers and heifers were steady. The medium to plain kinds were 10 to 15 cents lower, and common kinds slow also, though close to steady. Average quality was ordinary. No full fed steers arrived. Calves were 50 cents to \$1.00 lower.

Stockers and Feeders. Though a good many country buyers were here and the supply of thin cattle large, trade was rather quiet. Good to choice classes sold readily, and the plain and ordinary kinds were slow sale. Prices however were held steady as indications are that the demand will broaden later in the week.

Hogs. A few medium and light weight hogs that sold early to order and shipped buyers at \$6.75 to \$7.00 were quoted steady. Packers however held off for lower prices, and finally gained concessions of 10 to 15 cents. The packers top was \$6.90 and bulk of sales \$6.40 to \$6.90. Pigs sold up to \$7.75. Receipts though larger than a week ago, were smaller than a year ago.

Sheep and Lambs. Some range lambs sold at \$9.00 an almost of the ewes which were ordinary quality sold at \$3.75 and \$4.00. The market was quoted to be steady on fat sheep and strong to 25 cents higher on lambs. The few feeding lambs here brought \$7.75, fully steady.

Horses and Mules. Fairly liberal supplies are in sight for the horse and mule auctions this week. Today's horse prices were unchanged. Demand was fairly active. Charles M. Pinkin, Market Correspondent.

NEWS ITEMS OF INTEREST FROM SUDAN COMMUNITY

G. W. Givens spent the past week in Muleshoe. Miss Bertha Hay, of Ottawa, Ill., is the guest of her brother, Mr. S. D. Hay.

Saturday closed a busy week in the cattle business, judging from the number of cattlemen in town, an impromptu... was celebrated. Some of these were: Erwing Halsell and his father of Kansas City, Maple Wilson, Malone Brothers, of Alida, New Mexico, Porter Ernest, C. J. Jackson and Albert Taylor of Lubbock. S. A. Lucky returned from Lubbock Saturday morning, where he has been in a local sanitarium.

Mrs. Joe West is enjoying a visit from her father and sister of Hadro, Oklahoma. Elmer Haskins, Bailey County cattle inspector, was in Sudan Saturday.

FORTY-FIVE CARS PLAINS CATTLE SHIPPED TO KANSAS

Forty-five cars of fine cattle were shipped from the South Spout pastures to Price and Jones, Kansas cattle dealers, who will place them on their ranch near Lebo, Kansas. These cattle were all in fine shape, and are all young, and the Kansas men are keeping an eye on the plains for such herds.

No Worms in a Healthy Child. All children troubled with Worms have an unhealthy color, which indicates poor blood, and are rickety, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

State Weights and Measure Inspector Is Here This Week

G. R. Scott, State Inspector of Weights and Measures, has been inspecting scales and counter measures here for the past several days. He reports Lubbock merchants O. K., and says that his dealings with them has been very pleasant.

Mr. Scott also says that his chief, Chas. E. Baughman, State Supt. of Weights and Measures, will in the near future have equipment ready for the inspection of all water, gas and electric meters. An inspection of all meters will be made by experienced men, and the users of water, gas and electricity, will have their meters inspected and properly sealed by a competent State Inspector.

Mr. Scott has completed inspection of scales in Lubbock, and will leave Nov. 15th for Amarillo, where he will speak at the District Chamber of Commerce Convention, Nov. 17th.

SHALLOWATER ITEMS OF THE PAST WEEK

Yes, we are still on the South Plains, and here to stay, even though we don't make much noise.

Most of the Ex-service boys of this place attended the Armistice program at Lubbock Friday.

The second number of the Lyceum course, which was a lecture, on Northwest was given Saturday night by Mr. Cook.

Mr. Cook was a very able speaker, and reminding us about living today instead of thinking of tomorrow, was a good lesson for any one.

Our school is progressing nicely with our three fine teachers beside Misses Carter and Brown Lee, who teaches Expression and Music.

There has been over a thousand bales of cotton raised in this vicinity this year. A large per cent was sold before the drop in price came.

The families of Pate Hardy, Emet Wright, Chester Wright, and Wright and Mrs. Wright met relatives from Demit, northwest of Shallowater for a picnic Sunday. All reported a good time.

Mr. and Mrs. Blackwell of Lubbock, were out at this place looking over the country.

Mr. and Mrs. Blungart of Kansas, have been visiting The Farmer Brother, Geo. Blungart.

Mr. and Mrs. Gland Denton of Lubbock, passed through here Sunday to attend the Hardy-Wright picnic.

J. J. Carroll was here Saturday, buying supplies, he also sold a nice bunch of turkeys to the Rucker Produce Company.

REV. ODEN HERE FROM PLAINS TUESDAY MORNING

Rev. J. E. Oden, preacher in charge of the Plains Circuit, who was on the Lubbock Mission last year, was here Monday enroute to Lorenzo, where he attended the Pastors and Laymen's meeting of the Lubbock District Wednesday. Mr. Oden reports his working coming along nicely in the Plains country. He has seven appointments now and will take on two more soon, which will give him nine preaching places a month. He says Plains has a nice church building, and arrangements are being made for erecting a new church, at Meadow. The new building will cost about \$2500 dollars, and he thinks there will be no trouble in raising the amount of money and that work will begin on the new building within a short time. Meadow has a Baptist church building and is making splendid progress in town building.

J. L. Coleman and wife were here Tuesday from their farm fourteen miles south of town, buying fixtures for their home. Mr. Thompson renewed his subscription to the Avalanche while here, and expressed himself as being pleased with it.

R. Martindale and wife were here from Lockhart last week.

THE BETRAYAL OF A NATION

The history of the fight to destroy the League of Nations, or at least to make it impotent, is being written much earlier than many politicians anticipated. The motive behind the fight was thought to be successfully hidden in the innermost recesses of the minds of those who conceived the plot and executed it. Crimes against individuals have often remained concealed apparently for all time, but crimes against a nation are eventually recorded in history. In the case of the League of Nations, the inside facts are being revealed and a record made. The motives of those who met in secret even before all of the contents of that famous document were known to them, and planned its destruction along with the elimination of President Wilson, stand out today as the most damnable and selfish ever conceived in the mind of a politician who places party first and the Nation second.

Prior to the receipt of the treaty of Versailles and League of Nations document in this country, but after party leaders had been informed somewhat of its scope, Senators Lodge, Knox, (now deceased), Brandegee and a few other party leaders, met in secret at a prearranged dinner party where Senator Lodge presented his plan to restore the Republican party to power. At this dinner Senator Lodge is reported to have said:

"President Wilson has brought back from France the most important State document ever formulated in the history of the world. If the Senate ratifies this League of Nations covenant and treaty of peace, it will be known and recorded and heralded as an achievement of the Democratic party. As Republicans, we can not allow this to occur. For such an instrument of such world-wide importance to be ratified and chronicled as the achievement of a Democratic President and a Democratic Administration would cast a blight on the Republican party and its future and would keep us in the background perhaps for years. Our only remedy is to kill the League of Nations and treaty of peace and in order to do this we must eliminate President Wilson."

In this statement Senator Lodge acknowledged the treaty of Versailles and League of Nations as the greatest State Document ever formulated in the world. His objection to it was that it was the product of a Democratic President and a Democratic administration. To him the success of his party was a greater moment than the revival of industry and the promotion of the cause of peace throughout the world. The fact that failure to ratify this treaty would plunge nations into war; that millions of women and children must suffer the pangs of starvation; that the world would continue in a state of turmoil and that the United States would be placed in a position of renouncing its world obligations, were of little weight as compared with party success.

This editorial is not written in support of the League of Nations but in condemnation of all party leaders, Democratic and Republican, whose loyalty to party and to their own selfish interests is greater than their loyalty to the Nation itself.

How long will we continue to send men to the United States Senate and to the House of Representatives whose only thought is for political power and who subject the welfare of the Nation to whims of leaders who play the game from a professional standpoint and according to rules of a half century ago?

Judas Iscariot betrayed Christ for a few pieces of silver. Benedict Arnold surrendered the fortress of West Point to the enemies of his country for a few dollars and a commission of Colonel in the British army. Both acts are condemned by all Christian people. Crimes as black as any recorded in history are committed in the name of the Party.—Farm and Ranch.

HEALTH IN THE SCHOOLS

A nation-wide campaign to teach health rules to the 25,000,000 children in the country through the medium of the public schools is urged by the United States Bureau of Education. The plan of the campaign is outlined in a government pamphlet on "Suggestions for Health Teaching in the Elementary Schools," which is now being distributed broad-cast. The goal is to make health instruction as fundamental a part of the child's education as are reading and arithmetic, and thus to make ill-health as rare as illiteracy. The bureau claims that out of the 25,000,000 children in the country, no fewer than 15,000,000 are suffering from physical defects which might be prevented or corrected. If this is true and such a statement would not be sent out by a government bureau without having knowledge of the facts, it reveals a startling state of affairs and makes such a campaign as is proposed highly necessary.

About the most disgusting sight we have seen is for a Lubbock young lady to be sitting on one of these shoe shiners' chairs having a greasy son of Ham shining her shoes and carrying on a conversation with the dusky burr head. That happens in Lubbock! Something else will happen some day that will bring sorrow to some family. Your daughter may be the victim. Better buy a few bottles of shoe polish and let her work up a good batch of elbow grease. It would do some young folks more good than anything else to do a little work. They have worn drug store complexion now till they look like a puff box and smell like a perfume factory.

We believe that Lubbock should have a flour mill. It would have a tendency to stimulate the wheat industry of the South Plains. Lubbock is so situated from point of railroad outlets to make it the best location for an industry of that kind.

Too many people hunting soft jobs often make hard times.

Indeed Mr. Arbuckle has his fat in the fire!

THE RED CROSS DRIVE.

Today the big membership drive begins for the 1922 Red Cross campaign. The people of Lubbock should certainly get in behind this movement and put it over strong. We believe that the business men of the town can well afford to subscribe liberally to the Red Cross drive, and eliminate so much promiscuous giving to everyone that comes along with a pitiful wail and a pathetic story. We cannot tell whether one is a genuine honest to goodness deserving person or not, and the busy man has no time to investigate, and many would rather give a few dollars to undeserving ones than to turn away one deserving person, which is a good spirit in a way, but encourages a lot of crooks to keep up their game. Put your contributions for general charity into the Red Cross and they will see that all worthy cases are given attention and helped to the full extent. You can still have a field to work in around your own neighborhood, or with your own church or lodge if you see fit, but for the general work, we are inclined to think that the best plan is to let the Red Cross do it. But give the Red Cross something to do it with.

The best way to cut out the street peddler is for the merchants to buy their produce when it is brought to town. Farmers must sell their products if they buy your goods. Most of them would rather sell it in bulk—lump it all off to you at one time but when the merchant says he has all he can handle then the next thing is to peddle it out. Of course the merchants cannot buy it all, for local consumption, but there should be a market created in Lubbock for all produce that is offered. How are we going to do that? We don't know, but we have always heard where there is a will there is a way. Let some fellow figure out a way.

The Avalanch has been requested to publish the docket of the court in city, justice and county court, but we dislike to do so. However, if that will help to stop this craze of gambling we will be glad to comply with this request, and when we do there will be some revelations in this old town that will cause people to stand up and take notice. This will serve as a warning. We propose to let bygones be bygones, but in all probability some folks whom we have refrained from giving publicity along this line will see their name in print, under very unfavorable conditions.

The Government will furnish the paper and print envelopes cheaper than a local printer can even buy the blank envelopes. How can he do it? Easy! He taxes the local printer for enough money to pay the salary and expense of the Government printer and print shop. Any old fool printer can do work cheap if somebody else will pay the expenses. We do not believe that Uncle Sam is giving us a square deal.

The first issue of the Abernathy Review made its appearance Thursday. It is a four page six column paper, and is starting out with a splendid patronage. Most every firm, if not every one, is represented in the advertising columns of the new paper, and Abernathy is strictly behind the proposition, and expects to make the Review a real representative newspaper of the South Plains.

The Sweetwater Reporter last Thursday issued an American Legion Memorial Edition of twenty six pages. It was a most creditable issue, contained a lot of valuable information about the American Legions and also a good amount of reading matter about Sweetwater. It was well patronized by the business men of the city. The Reporter is to be congratulated, in the achievements.

The Lubbock officers are going after the boot-leggers of this town in dead earnest, and with the proper backing of the citizens of Lubbock, the atmosphere will be considerably cleared of this kind of folks. The maximum punishment should at all times be given people who will resort to the low level of dealing out such stuff as booze to folks.

One kind of K. K. K. is absolutely all right, and that is probably the only kind that is organized in Lubbock county—Knights of Cream Kan. Its members sell cream daily from their bunch of Jersey cows and bring in a nice little income for the support of their family. Join the K. K. K. Club and be happy.

Congressman Blanton wrote a two page legal cap size sheet full and asked us to print it, trying to justify his actions in printing a lot of stuff in the Congressional Journal. Blanton may not have done anything wrong, but he might have been using his time to better advantage.

Lubbock is making splendid progress in most every line. Many new residences are now under construction, and still more are being planned. Also several new business houses are being built and plans being drawn for more. Let the good work go on!

Some boys were recently arrested in Breckenridge for making eyes at some girls. Oh! my, how attentive some officers are in some respects. Probably folks are gambling in open day light and the officers would not make a move to get them.

Gamblers are often very smooth guys, but none are so smooth that they cannot be caught, and take this warning. Some of you who have been "lucky" heretofore, will be caught some night before you know it.

Time is money, but it won't buy food and clothing for the family on a rainy day. Better put away a few dollars for occasions of that kind.

We have known some men that claimed to be self-made who were first class fools—Bootleggers for instance.

Even a high school ball team cannot play a game without a lot of fellows having to bet on the outcome.

America squalling hard times and spending \$44,000,000 for chewing gum does not harmonize exactly.

SOME CROP AND DRY WEATHER REPORTS

Temple, Nov. 14.—Drouth conditions are getting more serious every day in Bell County. There has been no rain for over two months, and Fall grain planting is being held up. Some grain planted early has come up, but lack of moisture is holding it back.

Thus far there has been no shortage in the city water supply, but a few farmers are complaining of short age in stock water.

Abilene, Nov. 14.—From a normal daily consumption of over 2,000,000 gallons, Abilene Water users have been induced to cut the daily consumption to less than 800,000 gallons. It is estimated the water in Lytle Lake is good for another months' supply. Lake Abilene has an immense amount of water and as an emergency measure a temporary pipe line may be laid to it to keep the city from facing an absolute water famine.

Bronte, Texas, Nov. 14.—Notwithstanding the protracted drouth citizens of Bronte are not downhearted, but are going forward believing that their town has a future. Building and remodeling and improving is the order of the day. As a result the local lumber dealers are kept busy. Both residence and business houses in large numbers are being remodeled and modernized.

Partly cloudy and warmer weather is predicted for Sunday in Dallas. The weekly forecast indicates generally fair weather with normal temperatures. The lowest temperature yesterday was 41 degrees and the highest was 69.

The last heavy rain in the vicinity of Dallas fell in June. J. L. Cline, director of the local office of the Weather Bureau, said last night that the last four months constitute the longest dry spell Dallas has experienced since the volunteer weather office was started by G. A. Eisenlohr in 1882.—Dallas News.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and stops germs by its Strengthening, Invigorating Effect. 60c.

WHEAT ON THE PLAINS BETTER THAN ELSEWHERE

Mr. J. B. Downs, our veteran land man, says that he has recently been over a large portion of the Plains country, and under the Cap Rock, and says that the wheat prospect is fine, especially the early wheat and the late wheat that was "dusted in," as we call it, will lay in the ground until sufficient moisture comes to bring it up. There is not enough moisture to sprout same and there will be no bad results by reason of it laying in the ground—Lockney Beacon.

PIONEER CITIZEN OF FLOYD DIED SATURDAY

Frank McMillan, who resided at Lockney at one time, and who will be remembered by a number of our older citizens, died at Fort Sumner, New Mexico, a few days ago, and funeral and burial took place at Kress. He was a member of the Masonic Fraternity, and was buried by that order.

NEW GROCERY BUSINESS TO OPEN IN A FEW DAYS

Tom Sowell, brother of the Manager of the Clover Leaf Creamery Company, is having store fixtures installed in the front of the building occupied by the creamery and will conduct a grocery business. Mr. Sowell is a good business man and comes to Lubbock well recommended and his success in the grocery business here is assured.

CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of this Treacherous Drug may Start Trouble.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-18

J. T. Estes Gives Analysis of Four Classes Gamblers

The question of gambling seems to be agitating the public quite a bit, but the editor of the Avalanche seems to be the only one that throws his "shot punch" over his shoulder. He terms loose an "Avalanche" of shot, but it seems like just a few black birds and Mexican quails are bagged, and the big ganders, cackling geese and smother ducks and snipes seem to escape unharmed. Now I don't believe the afore said "nimrod" wants to miss them, but somehow they escape. Before I get through you may be able to recognize some of these birds. I may not get terms or gaming expression exactly correct, as I never knew how to play a game of cards and never bet a penny in my life, and I want to tell the little boys and girls too, that I am mighty proud that I never did, and in this preliminary, I want to say that I don't believe there is a man or woman in Lubbock that despises gambling more than I; so you may see that I am not trying to condone or shield anyone.

We will divide gamblers into 4 classes and give each a little analysis as follows: Two, 4 or more "Blackbirds" or "Mexican quail" get off to themselves in the canyon or some where else and put up their dimes on craps. No children about, or anybody else, for they are afraid they'll be "killed." They play until one or two get all the dimes and quit. Another bunch surround a fine table in a fine hotel or hall and put up \$\$\$ and play straight old poker. They make a business of this and sometimes I have heard them called "blackleg gamblers." I believe the grand jury of Lubbock County recently went gunning and got 2 or 3 of these birds, and some more hit the breeze and flew away, so we got rid of them, to say the least.

Then we have the public sport gamblers, such as, prize punching by two big loafers, or wrestling matches, ball games, etc. No work or effort on the part of the gamblers here. What's the effect of this on the boys and girls growing to manhood and womanhood? Yes, I repeat: What is it?

That's three classes of gamblers and some people say they are very bad and very injurious to good morals and good society. But, there is still another class that gather in the parlors of the fine homes of "High Society" in the presence of the young and of tender little children and put up a prize to play for, and play, perhaps until 12 sharp, Saturday night and maybe get so interested in winning that prize that they suddenly discover the hour hand on the honest faithful old clock at one or two in the morning, and at the final end of the game, some good old sister; Elder or Deacon of some respectable church wins the prize and promptly takes it home to hers or his girls and boys. The son or daughter says: Mamma, or Papa, where did you get that? And the correct and plain answer in English would be: I don't know. Last night playing cards (gambling) and the son might say: Why, Mamma, or Papa, was you out gambling last night, while I was here at home soundly sleeping? Well! I'll go out tomorrow night and see if I can't win something from some poor ig-

norant boy. If it's alright for you in "High Society," then it's alright for me in low society. So, where have you put your boy? And what about your girls? Can you blame them for being out late? Can you blame them for gaming? Now I say to you old Brother, Sister and should be Friends. If you are interested in the welfare of your sons and daughters as you should be. If you want better morals, better conditions and a better town—if you want better, more elevating and beneficial society; if you are a Christian or good moralist, then don't get miffed or blame me for writing this for your good, your children's good and Lubbock's good.

There is nothing personally intended, but I just think it is absolutely needed to be said for the good and best interests of town children and society and to make you think for the best.

Now, when we go gunning for game, let's get the game; all colors, sizes, styles and classes. The bigger the finer and fatter the game, the better. But, get the game! For the best and the greatest good for all, I am just plain old Thos. J. Estes.

WITH LUBBOCK BUSINESS MEN

Friends and acquaintances of E. L. Robertson; the efficient and affable manager of the City Drug Store, will be pleased to know that Mr. Robertson is now sole owner of the City Drug Store, having purchased the half interest owned by W. L. Barnes. Mr. Robertson has been in charge of this store since 1917, at which time it was started in the present location and has made a signal success of the business and established a reputation for having one of the prettiest and best arranged stocks in this section of the country. Mr. Barnes has never been actively connected with the management of this store.

J. A. Medlock is facing a proposition which might prevent the Avalanche from getting the opportunity of telling the merits of Medlock's Dairy. It's this way:

There is the proposition of purchasing another delivery car to care for the increase in business. Either this car must be added to the delivery service, according to Mr. Medlock, or the public will not get the service that he intends to see that they do get. Whether he should add this extra delivery service or discontinue telling the public why they should use pure wholesome and nourishing food, is the proposition he faces.

Having a meritorious product to offer to the public which poses superior qualities demands or obligates the owner to let the people know about it and give them an equal opportunity of purchasing same. Auto salesman! See Medlock, because he's after big business and intends to give good service.

O. E. Radford says that Lubbock is his home; that whenever he registers at hotels he invariably registers at Lubbock and he wants it strictly understood that, just because business matters keep him temporarily in Abilene is no reason for Abilene being called his home. In other words, yet out of town, Mr. Radford is still a Lubbock booster and a loyal citizen. He'll come home some of these sweet days!

Hockley county is going to be inhabited by farmers in a few months. The land of large ranges big pastures, big herds of cattle is going to be a land of fine farms and of people who want to own a home of their own and make their living by tilling the soil. And the Texas Land Exchange, composed of brothers, C. W. and J. E. Alexander, is one of the firms of Lubbock that are helping settle up Hockley county. Out of fifty-four tracts, they secured the right to sell, only ten are now remaining unsold and a family for each of the ten tracts are trying to arrange to buy them. Seventy-five per cent of the tracts sold will be improved and cultivated the coming spring. About twenty-five per cent of these tracts were purchased by people for investment and speculative features.

Now you can just hear some of the "tight-wad" real estate dealers saying, "I don't believe they have sold that many tracts." The fact of the business is that the Texas Land Exchange cares little about what some other dealers think of the amount of business they are doing. They are on the job and have been throughout the fall. They have not stood around on the curb waiting for some East Texan to pull his money out of his pocket to convince them that they wished to purchase land. In other words they have had "open door" all fall, advertising as if business was fine and all of a sudden it was fine.

Just to give one an idea of who is buying in Hockley county and how fast they have been selling we give the names of those who closed contracts for eight tracts of these lands since last Saturday morning: F. M. Aycock of Rule, who leaves word that he will be farming his land in the Spring, moving here to make his permanent home. W. D. Aycock, a renter of Loren-

Nearly twice as strong

Look up at your ceilings!

IS the plaster cracked, dangerously sagging? Nearly every home has one room that needs attention.

There is an easy way to do over broken sagging plaster. **Upsone!**

Your carpenter can nail the big, sturdy panels of Upsone Board right over the old plaster—and you'll have a ceiling that can never crack, chip or fall.

UPSON-BOARD

Because of its quality, Upsone Board has always sold for a trifle more than ordinary wall-board, but it is by far the cheapest in the end.

It is harder, stiffer, nearly twice as strong—so it handles without costly breakage and holds to the nails, where weak boards will pull away.

And its non-absorbent surface saves \$5 to \$15 per room in cost of painting. Phone us today for samples. The price has been reduced.

Music Club is Organized by Lubbock Musicians

Monday night a number of Lubbock's most prominent young people met at the Elk hall and took preliminary steps toward organizing a club for the advancement of Music, Literature and Art in Lubbock.

These people are enthusiastic about the work, and feel that through co-operation they can do a great deal toward developing home talent to of-fer wholesome amusement to home people and to the people of adjoining towns, as there are several of our young persons who are able entertainers, and it is thought that to give them an opportunity to develop their talent will be a great work, and that within a few months there will be ample evidence of the time and expense entered into in this work.

Another interesting and commendable objective of this organization is to encourage the bringing of artists to Lubbock that those interested in the various phases of work might be given the opportunity to view other persons work, as an incentive to encourage them.

This meeting was presided over by Curtis A. Keen, who is well-known as a live wire among the business and social leaders of Lubbock, and with the assistance of the other art enthusiasts who are giving their attention to this work we are sure that this club will be a success and

that it will do much toward keeping the young people of this city interested in their home town.

SALTILLO MAN WILL MOVE TO LUBBOCK SOON

T. J. Taylor was in Lubbock for several days from his home at Saltillo, Texas, visiting his brother Ira Taylor, of the Lubbock Battery Company, and has decided to dispose of his farm properties at Saltillo and make this his home. We are glad more men like Ira Taylor are coming to this country, as he is a town booster and it is his kind that is keeping Lubbock on the map.

E. BAYER SELLS LOT OF TURKEYS HERE SAT.

E. Bayer was here Saturday from his farm with thirty-six head of turkeys that weighed four hundred and ninety-six pounds, which were bought at a big price on the local market. These turkeys were of little expense for Mr. Bayer, and the money received for them looks like the turkey business on the plains might be a paying proposition. Come to the plains where you can make more money accidentally than by trying in other sections.

NEWS ITEMS OF INTEREST FROM POST

Last Thursday night there was a called meeting of the Commercial Club at which time we had with us Mr. Porter Whaley, manager of the West Texas Chamber of Commerce who gave us a splendid address on Commercial Club work which was a great help and created quite a bit of enthusiasm, in that, at our regular meeting Monday night we had a large enthusiastic crowd who got busy and "did things" and are going to keep "doing things" that will be worth while to our town and country.

K. M. Sartain one of our prosperous farmers raised 30 bushels of corn to the acre this year on some of his land. The corn is native Mexican corn and well adapted and acclimated to this part of the West. This corn makes in 75 days. Mr. Sartain has a few bushels left that he will sell for seed.

Sunday night the editor received a message from McNell, Ark., stating that Mrs. L. A. Wright, his aunt had died at that place.

Mrs. Wright was also the only sister of Dr. J. W. Warren and well-known in West Texas as she had visited in the doctor's home at Snyder several times. Aunt Black was the oldest member of the Warren family and has been in ill health a long time.

Mrs. Jake Taylor is moving her household goods to Lubbock this week, where she goes to join Mr. Taylor who is working there.

J. F. Lloyd found one of his best Jersey milk heifer that had been shot by hunters and killed. It is not only against the law to hunt quail now but it is a crime for boys or men to be so careless and thoughtless that they do not look or care where or what they shoot. Mr. Lloyd has posted his property, and anyone caught hunting or trespassing will be prosecuted to the full extent of the law. Such actions as this is the only way the farmers can protect his property.—Post City Post.

SHERIFF'S SALE THE STATE OF TEXAS, County of Lubbock.

WHEREAS, By virtue of an execution issued out of the District Court of Lubbock County, Texas, on a judgment rendered in said Court on the 14th day of June A. D. 1921, in favor of J. B. Earhart and against J. F. Norfleet No. 1437 on the Docket of said Court, and to me, as Sheriff, directed and delivered. I did, on the 2nd day of November A. D. 1921, at 11:30 A. M., levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to J. F. Norfleet to-wit: Lots 23 and 24 Block 3; Lot 3 Block 29; Lot 4 Block 53; Lot 4 Block 181; Lot 14 Block 217 and Lot 2 Block 222 all in the original town of Lubbock, on the 6th day of December A. D. 1921, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the Courthouse door of Lubbock County, Texas, in the town of Lubbock, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said J. F. Norfleet in and to said property.

WITNESS my hand, this 2nd day of November, A. D. 1921.

NEWS ITEMS FROM LORENZO ENTERPRISE

Mrs. Ruth Hopki died at her home in the Cone community last Saturday following an illness of only a few weeks. Funeral services were conducted at the home by Rev. Berrie, pastor of the First Presbyterian Church of Ralls, Sunday afternoon and interment was made in the English cemetery at Old Emma. A large concourse of friends from Emma, Ralls and Crosbyton were present. She was the daughter of Mr. and Mrs. Chad Gotl, of the Cone community and had many friends in this county.

Mr. O. Stephens, manager of the Murphy Lumber Yard at this place, began the erection of a nice home in this city the first of this week. The home will be built on the bungalow plan and will contain five rooms. It will be modern in every respect.

Mr. Stephens says he expects to have it completed within the next three weeks.

The fire of Jno. A. Dillard & Son, gents furnishing establishment of this city is putting on a big reduction sale of mens and childrens clothing this week and the sale will likely continue for ten or fifteen days. The Enterprise printed several thousand circulars early Monday morning and

they tell us they are enjoying a big business and their sales have run something over a thousand dollars each day. Mr. Dillard is closing out his stock here preparatory to entering a different line of business.

The Crosbyton basket ball team mustered courage and came over here last Friday for a red hot game with the Lorenzo team. Obed Williams, one of Lorenzo's main players was injured in the first half and a substitute was put in. Just the same Lorenzo gave them a sound flogging which will likely keep them cured for a while. The score was 18 to 36 in favor of the home team of course.

Public Weigher, W. J. Combe reported Thursday morning that there had been 3,100 bales of this years cotton weighed at the cotton yard up to Wednesday night and that the figure would probably reach 3500 by the end of next week. This amount is considerably more than was estimated would be raised here. Another week or two will very likely wind up the cotton picking in this section, unless bad weather sets in.

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. 10-20

Lubbock County Farmers Union Met In Regular Session in Lubbock Last Friday at Court House

The Lubbock County Farmers' Union met in regular session at the Court House last Friday. Short session in forenoon and quite an interesting session in the afternoon.

The representation was not large, but those present were live-wires and that's what counts.

Our County Union meets on Friday and a few come in to attend to what is the business of all and for the benefit of all. The balance haven't time, or they are dead rubbish, floating down-stream with the tide. Which are you, my Union-brother?—On Saturday the next day after the County Union meeting, perhaps 10 or 20 times as many members are on the streets of Lubbock, and quite likely

half or more, have little or no business and nothing to do but stand and talk and tramp the sidewalks. At the meetings you can have a restful, comfortable seat and you can talk too, and we will all listen if you have something good to say.

Brother Isham Tubbs made us a fine talk on the work of the F. B. F. and other things, and President J. C. Shaw said many good things as did also other members. Brother Bennie is one of the live-wires that never fails, and he always comes loaded. If composed of such as Shaw and Bennie, we would be doing things and bringing results.

In the beginning of our farm organization in Lubbock County, there was a little misunderstanding and a little jealousy by some, but I believe and hope that is about all passed, as it should be. Our interests, and purposes are the same, and there certainly is nothing gained by opposing each other. That is exactly the way the workers and producers have been cutting their own throats. We have too many branches of the great army of workers fighting and opposing each other, for some fancied or selfish reason, most of which is caused by, or through the influence of the big profiteers and corrupt politicians riding on our backs. They know very well, if the great army of workers get together and demand justice, fairness and equal rights, they will have to hop off of our backs and lighten our loads, or we'll buck them off, and if we buck them off, they have grown so fat and big they would likely "bust" and as the old darkey says: What then, would be the quines-quances? especially if we failed to have a good supply of disinfectants, chloroform and perfumes.

Well, we had much rather they would get off without being bucked off. It would be much better for them and us also. Well you know an army composed of independent company, all jealous of each other and opposing the movements of each other, never did, never can and never will accomplish much. It takes unity, solidarity, co-operation and action to accomplish great things. What could, or couldn't the farmers of America do if they would unite and co-operate?

But they are the most conservative, agreeable and lenient people on earth. They are the fairest, and certainly the most hopeful, trustful, patient and long-suffering.

They do not, and never have, asked anything but justice, fairness and equal rights, but this they will never get without unity, co-operation and action, or demand.

In the evening session the following Resolution was presented and unanimously adopted:

Whereas, Certain U. S. Senators have formed what is called "The Farm Blo" (Stigmatized), "The Ken-Kap-Kian" for the avowed purpose of passing some legislation beneficial to the farmers of America, and for preventing legislation detrimental to them and the public good, now, therefore, be it

Resolved, by the Lubbock County Farmer's Union, of Texas, in business session, assembled: That we do hereby express our endorsement, thanks and appreciation for said movement, which has been so woefully neglected and so badly needed by the producers of America; And be it further,

Resolved: That copies of above Resolution be sent to said Senators. No class is more numerous, or more essential than the farming class, and none are more deserving of recognition in the legislative bodies—State and National, yet, it seems like there is none worse neglected, and why? Because we do not keep in touch with the law-making bodies as we should. We do not demand and back up our demands as others do. They are "Johnny on the spot" with urgent and compelling forces, and it takes men of nerve, stamina, courage, and a will to resist or antagonize them, and when such men do enter the arena in our behalf and prove their worth and sincerity, it is our imperative duty to show our appreciation and back them up with our help, encouragement in their noble efforts in our behalf, regardless of party or religion.

Next County meeting will be Friday, December 9th. And every member that possibly can, should be present.

Regular meetings for Lubbock Local are 2nd and 4th Saturday nights in each month.

T. J. ESTES.

SOME LOCAL NEWS ITEMS FROM HALE CENTER RECORD

A prairie fire got started in the Spade pasture just south of Hart's camp and burned up about fifteen sections of grass. The fire burned to Hart's Camp. This pasture was called the middle pasture and was the wintering place for a great many cattle. It is understood that the fire got started when some one was burning fire guards and let the fire get away from them.

The old Crocket place, four miles east of Hale Center burned to the ground Monday afternoon. The house and one out building was completely destroyed. The fire was started when an oil stove exploded. Water was thrown on the fire, which caused it to spread. Ralph Cox was living

on the place at the time of the fire. The Quick Service Garage was robbed again Sunday night. This makes the second time his garage has been entered by thieves in two months.

The thieves made their entrance through the back door. The only known loss was some tools.

DYED HER DRAPERIES AND A FADED SKIRT

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Dia-

mond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods.

ALLEN BROTHERS POST AMERICAN LEGION IS PUTTING ON CAMPAIGN FOR NEW MEMBERS FOR THIS POST

At a meeting of the Allen Bros. Post of the American Legion last Friday evening at the courthouse it was urged that something be done to revive the membership here, and an open meeting to which all ex-servicemen, whether members of the Legion or not, are invited to attend, will be held at the courthouse Friday night, November 25th., and a program is being worked out that will be interesting and instructive, with enough pep to make the boys think of the "old days" inserted in each number.

Active members in the Legion are very enthusiastic about the work they are enabled to do, and they desire the assistance of more of the ex-soldiers than they now have, and it is thought that misunderstanding of the Legion's policies is one thing that is keeping a good many of them away from it.

Some of the prominent members who were fortunate enough to attend the National Convention, at Kansas City returned with a new vis-

ion of the various works of the order, and it is expected that as soon as enough of the men understand the new spirit that is being brought in to the Legion, there will be more of them lined up with the local post.

One of those in attendance at the national convention has made absolute "about face" in regard to the bonus for soldiers, as prior to the convention he was against the bonus bill, but more light was thrown on the matter at the meeting and he is now strong in the belief that the boys are entitled to the bonus, as the plain facts as laid out at the convention are quite different to the propaganda that has been so well circulated by those opposing the plan.

These men are sincere in their efforts and desire the co-operation of all their "buddies" in keeping the American Legion alive and ready at all times to combat those who oppose the rights of the American soldiers.

A COATED TONGUE?

What It Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloe and put into ready-to-use form by Dr. Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

San Antonio, Texas—"It gives me pleasure to recommend Dr. Pierce's Pleasant Pellets as doing what they are advertised to do. I have used them in my family for nearly fifty years, with never-failing success."—Rev. John C. Groth, 827 Denver Blvd.

SOCIETY NOTES

Abney-Conley Wedding Announced.

Mrs. Abney, and Mrs. Malone entertained with an informal tea, Friday afternoon, Nov. 4th, from three to five at the home of Mrs. Abney on Avenue L, complimentary to their daughter and sister, Miss Carey.

The house was very attractive in color scheme, of pink and yellow, vases and baskets of cut-flowers were in profusion everywhere. A huge bell of cream chrysanthemums hung over the dining table, where a wedding party of cupies in full dress furnished the attractive centerpiece. The guests were received by Mrs. Malone in such a charming way that each entered at once into the spirit of the occasion.

Mrs. Abney, Miss Abney, and Mrs. Conley stood in the receiving line. Miss Abney was most beautiful in an afternoon dress of purple satin and gold lace. Seated in the receiving line and smiling their approval were the beautiful white haired grandmothers, Mrs. Easter, mother of Mrs. Abney, Mrs. McAndrews, Mrs. Conley's mother.

Music by some of Lubbock's most gifted artists, friends of the honoree, was rendered all during the occasion. Miss Bates, piano, Miss Meador, violin, played as they had never played, sweet strains of love and devotion.

While Mrs. Joe Hilton, and Miss Lee in their sweetest notes sang melodies of love.

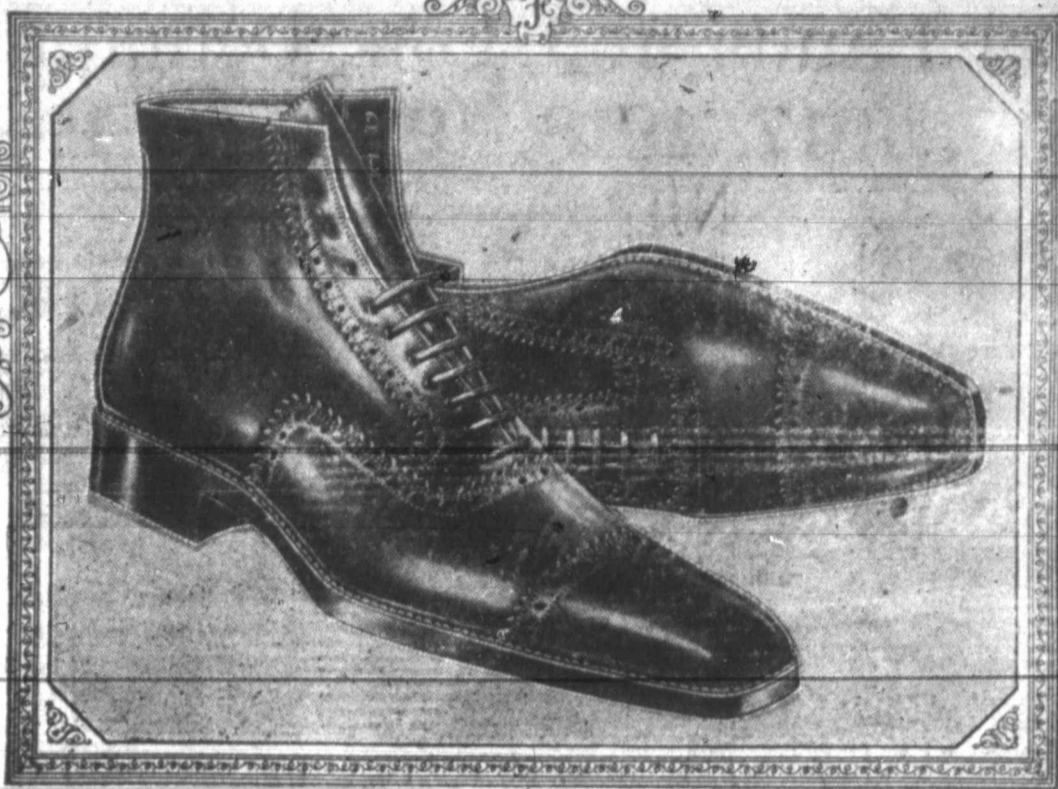

Seated at the dining table were Mrs. H. W. Meador, Mrs. Temple Ellis, Mrs. Walter Gillon and Miss Easter. Chicken sandwich, Russian tea, wafers and mints, together with a beautiful souvenir card upon which was written, Abney-Conley, Nov. 22, 1921 was passed to each guest, by Misses Bellah, Woffarth, Wheelock, and Easter, who assisted in serving, and also ushered each guest into a beautifully decorated room, where Mrs. Guy L. McAfee in her most pleasing manner presided at the brides book, friends, numbering 135 registered and passed out by the receiving line, where they expressed their dearest wish for the bride-elect.

Miss Carey Abney is one of Lubbock's best-known and best loved young ladies, and Mr. Conley is to be congratulated upon winning such a lovely girl for his wife.

The Young People's Bible Class enjoyed a delightful evening at the home of Misses Ala' and Alta Burrus on Thursday of last week. A large crowd gathered promptly at the appointed hour, and games, music and other amusements furnished the program for the evening. At the close, dainty refreshments were served by Misses Evelyn M. Donald, Sylvia Wilson, Loula Denham, Mod-ile Simpson, Lita White, Helen Ribble, Grace Farris, Stella Brown, Inez Winn, and Esther Stagner, Messrs Oscar Meredith, Roy Brown, Paul Clark, Erton Hawes, Ervin Jay, Harbert Hooker, Murlin Hawes, Johnnie Brown, Abe Vaughn, Alvin Brown, Perry Patterson, Vergil Stokes, Elmo Payne, Troy Phillips, and Arvie Green.

On last Thursday afternoon Mrs. G. C. Barrier with Mrs. Will Murray as assisting hostess, charmingly entertained with an elaborate party

in her lovely home on 1802 Ave. I. Patriotic decorations were effectively used in minute detail throughout the entire house, in-

Wednesday Needle Club.
Last week the members of the Wednesday Needle Club met in the home of Mrs. W. B. Atkins, with Mrs. J. F. Bacon, joint hostess.

The reception suite was very attractive in chrysanthemums and ferns.

Eighteen of the twenty-four members were present and a most delightful afternoon was spent. Delicious refreshments of date-nut pie, with cheese balls and hot coffee were served to the following guests and members: Mesdames Robbins of Ralls, Winn, Sensabaugh, Robbins, Ballenger, Maddox, Thomas, Bowen, Karper, Wagner, Wilson, Davidson, Hilburn, Briggs, Smith, Ellis, McKee, Bacon and Adkins.

A Xmas Bazaar.
The Xmas Bazaar to be given by the Presbyterian ladies at Rix Furniture store will open promptly at nine o'clock on Friday and Saturday a. m.

Friday Afternoon Club.
Mrs. F. N. Payne very charmingly entertained Friday Afternoon Club on Friday of last week and a number of invited guests.

Making Christmas presents was the delight of the occasion, after which a delicious salad course was served. The guests present on this occasion were Mrs. Bedford of Plains.

Mesdames Boyd and Allen of Aspermont.
Mesdames Germany and Geo. Reed. The club will meet the fourth Friday with Mrs. Dunbar as hostess in the home of Mrs. J. D. Lindsey.

"Moriposa Bridge Club"
Thursday of last week was indeed pleasant for the members of the "Moriposa Bridge Club" and several invited guests with Mrs. Bass Arnett as hostess.

In Auction Bridge, Mrs. Joe Hilton won a beautiful hand-made linen handkerchief as high score prize and at the close of the afternoon delicious hot chocolate and cake were served. The guests present were Miss Della Wilkinson and Mesdames Wood and Swift.

The club will meet on Thursday of

next week with Mrs. Sam Cooper as hostess.

Bride-Elect.

The home of Mrs. A. V. Weaver was the scene of a pretty shower party on Saturday afternoon, Nov. 12th, complimenting Miss Carey Abney. Yellow and pink furnished the color scheme. A profusion of beautiful chrysanthemums were used throughout where lighted candles cast their soft glow.

The following musical program was rendered.

Mrs. B. P. Hopkins.....Piano Solo
Mrs. O. Sears.....Reading
Mrs. Joe Hilton.....Vocal Solo
Mary Meador.....Violin Solo
Mrs. C. Keen.....Vocal Solo
Mrs. Hilton, Miss Wheelock, Miss Lee

Trio
Miss Winnie Bates Melodies of Love Songs.

Honor Guest Miss Cary Abney.
Hostesses: Mrs. Weaver, Meador, Huribut and Miss Mary Meador.

The shower was announced by the following appropriate lines:

Cary we bring to you today with right good cheer,
These tokens from friends who love you dear,
And as each one feels that are here, just the same,
That you Cary dear, deserve all that we bring.
That each little gift that is brought to you today,
Are filled with good wishes and they will last always,
So accept these from each of us;
And as the years go by,
May nothing mar your happiness.
Not even a cry;
So good wishes, many kisses and happiness to,
Is tied up with all the bundles,
That are waiting for you.

Little Catherine Weaver in a becoming organdy frock of pink, and Neal Wright Jr., in a Sailor suit appeared drawing a canary colored wagon containing beautiful gifts, followed by Charlotte Hopkins carrying a pretty basket, also laden with gifts.

The honor guest unticing the packages expressed her appreciation in a most pleasing manner.

Monday afternoon was indeed pleasant for the ladies of the First Presbyterian church with Mrs. Neil Wright as hostess.

After an important business meeting, needle work utilized the hour until a dainty refreshment course was served.

1916 Needle Club.

Tuesday afternoon was delightfully spent by the members of the 1916 Needle Club with Mrs. Temple Ellis as hostess, and Mrs. K. Carter as joint hostess.

The attractive-Ellis home was indeed pretty in a profusion of beautiful flowers.

Needle work furnished a delightful pastime. At the close of the afternoon's merriment a dainty salad course was served.

A Few Suggestions to the Teachers of Lubbock County by County Superintendent E. R. Haynes

In some of my recent visits to the schools of the county, convince me that a few words to the teachers on the subject of arithmetic and reading, is necessary. In your primary (1st, 2nd, 3rd.) grades see that your pupils learn simple addition, subtraction, division and multiplication (long and short). Pupils completing third grade should be able to divide by any number of two figures and prove work. My test for many years for promotion to fourth grade arithmetic has been 123456789 divided by 76 and prove. Don't worry over the text-book in arithmetic for the lower grades, but teach the fundamental operations and have practice on them until the pupils are proficient. Don't waste time with long series of connected signs and complications of fractions and confuse the child; but teach him to add, subtract, multiply and divide; and to prove his work. In my visits I shall give tests in these fundamental operations to ascertain if you are stressing the mechanical work.

Discipline.

I find all the teachers I have visited seemingly earnest, faithful and energetic in their efforts to do good work. Some have the tact for teaching and the tact to secure and preserve order with little apparent friction, while others, unfortunately, make a complete failure in securing

that co-operation of pupils that insures success, in either subject matter or discipline. "Your pupils are just what you allow them to be."

It is easier for teacher and pupils to do regular systematic work, and preserve order at all times.

I believe in allowing pupils the greatest possible freedom of action consistent with reasonably good order and effective work. If you cannot preserve such conditions in your school or room, you have chosen the wrong occupation, or certainly the wrong location.

We have no right to take the children of any community under our care and allow them to form habits of idleness, carelessness and disorder. Character is the ultimate end of all training, educationally. Character is the sum total of all the habits formed in childhood, youth or manhood. As teachers we are responsible to a great extent for the character of the men and women of Texas, for these characters are based upon the habits we allow them to form in the school room.

No successful teaching can be done until order prevails. Establish order today, even if you have to put off teaching until tomorrow.

Appeal to the manhood and womanhood in your pupils; admonish, persuade; use all kindly measures; appeal to their pride in their school and in their community; appeal to their love of approbation of parents and teacher. Try all these and any or all other kind and persuasive measures. If all these fail try something stronger. Have order at any cost, let the means be what they may.—E. R. Haynes, County Superintendent.

THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, Greeting:

You Are Hereby Commanded to summon Mrs. I. J. Faulkner and her husband, E. W. Faulkner, and Mrs. M. F. Mangold, and the Unknown Heirs of F. E. Eller, deceased, their Heirs and Legal Representatives, whose names and places of residence are unknown to plaintiff, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, on the 2nd Monday in December, A. D. 1921, the same being the 12 day of December, A. D. 1921, then and there to answer a petition filed in said Court on the 9 day of November, A. D. 1921, in a suit, numbered on the docket of said Court No. 1502, wherein Mary E. Simpson, individually and as Executrix of the Estate of C. P. Simpson, deceased, is Plaintiff, and Mrs. I. J. Faulkner and her husband, E. W. Faulkner, and Mrs. M. F. Mangold, and the Unknown Heirs of F. E. Eller, deceased, their Heirs and Legal Representatives, whose names and places of residence are unknown to plaintiff, are Defendants, and said petition alleging that plaintiff is the absolute owner in fee simple of Lot No. Nineteen (19), Block 82, Original Town of Lubbock, in Lubbock County, Texas, and was on the 1 day of November, A. D. 1921, when defendants unlawfully ejected plaintiff therefrom; and that plaintiff also claims title by the five years statute of limitation, and plaintiff sues for the title and possession of said property.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this 9 day of Nov., A. D. 1921.

Broadway Hits reach you FIRST via EDISON

NOWADAYS—if you want to hear Broadway's newest songs, and dance Broadway's latest dances, you must watch our windows and visit our RE-CREATION department.

Edison is 10 to 90 days ahead with Broadway hits. This incredible speed is due to two factors. First—the "Edison Bunch on Broadway". They get every new song, musical comedy score and dance hit the moment they break. Second—Mr. Edison's new department for rapid manufacture of "Hits".

We are now getting the Edison "Flashes from Broadway" by fastest express. In several cases, the Edison RE-CREATIONS have beaten the sheet music in.

Get the habit of watching our windows for the new hits. Come in and hear how truly wonderful the Edison RE-CREATION of a Broadway favorite is. Tests of direct comparison have proved that the Edison RE-CREATION of a hit and the performance of the living artist cannot be told apart.

The NEW EDISON

The Ideal Instrument for Every Family Use

Give your family a New Edison for Christmas. Its leadership has never been seriously disputed. If you want the real performances of living artists, remember that the New Edison is the only phonograph which sustains the test of direct comparison. Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

NEWS LETTER FROM LEVELAND, HOCKLEY CO.

Well here we are. After countless ages of waiting a new town is born in the center of Hockley County and bids fair to become one of the best towns on the plains. We now have five families living on the town site and two more ready to come in next week. Twenty-nine were present at Sunday School, Sunday afternoon. The Baptist Missionary will be here next Sunday, Nov. 20, to organize a Baptist Church at Leveland. Near by Baptists are invited to attend. Mr. Geo. P. Smith attended Armistice program at Lubbock Friday. Our school basket ball team played the Moody team Friday and won 13 to 8. Mr. Bowers and Mr. Gunn went to Lubbock Saturday on business. As this is our first time to write we will close by inviting you to come over and Buy A Home in Leveland.

C. M. RICHARD AND FAMILY NOW IN COLORADO

The Avalanche is in receipt of a letter from C. M. Richards, who left Lubbock about a month ago for points in Colorado. They are well pleased with their new home, and ordered the Avalanche sent to them at Delta, Colorado.

Permanent Exhibit of Agricultural Products Is Important

The Clover Leaf Creamery Company is making additional improvements in their equipment that is overflowing their present workroom and a part of it is being installed

in the front of their building. This necessitates the removal of one of the best agricultural displays ever established in this city and one that has gained considerable attention, not only from local folks, but from visitors to the city passing along the way between the city and the depot.

Brownfield, in Terry County has consistently won first place in the South Plains Fair each year and are known at the Dallas Fair for their long period of representation at that place. They not only have

one or two men who know how to arrange an exhibit to be effective but also to win awards and represent the county. And better than that—they have a bunch of progressive farmers who appreciate the value of showing the best possible produce from their county to the outside world and the result is that the Exhibit Committee never had any trouble getting the proper material with which to arrange an exhibit.

It is a plan that has long been under consideration with the Lubbock Chamber of Commerce but for various reasons has been delayed to erect a special building or reserve a special space in some building near the station or at the station for the exclusive purpose of presenting to the traveling public the remarkable products produced throughout the South Plains section. When this is done, each of the South Plains counties will be invited to maintain an exhibit in the space granted them together with advertising of their county and section and in this way we will be able to present to the traveling public a united front to show them the productive possibilities of our South Plains Section.

Terry county is to be congratulated upon the spirit of her citizenship, and especially her progressive farmers through whose efforts and care it is possible to always present a real exhibit to the public that is specially advertised in the county. It takes a lot of time and trouble to get the proper material together in the proper condition and at the proper time and folks have to have an unselfish interest in their section to take that time and trouble.

Lubbock was glad to have their exhibit at the fair and in the city up until this time and hope that it will be maintained.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surface of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in their medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for free literature. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists. 75c.
