## CO-OPERATION OF ALL CLASSES NECESSARY FOR GROWTH OF CITY

### HARMONIOUS ACTION OF TOWN AND RURAL PEOPLE WILL BRING THE BEST RESULTS

## MARKETING SYSTEM IMPORTANT MATTER

### Farmers Should Be Able to Sell Everything Produced—Freight Rates Should Be Reduced to Enable Profitable Handling of Produce and Eliminate Excessive Prices.

Looking out into the future we see a great need for much co-operation on the part of the people of the City of Lubbock, the people of the Independent School District, and the people of the rural districts. What the year soon to begin will bring to this section will depend largely upon the matter by which the people conduct themselves one class toward the other. It is long since a settled fact that the town cannot grow without the support of the rural population, and vice versa. Each is important in its place, and close co-operation of the two will make any community prosperous if there is any prosperity to be derived from any source whatever.

There should be a strong desire, and not only a desire, but a movement should at once be started to create a marketing system in this country for all products of the soil in this section. Lubbock, even with her rapidly growing population, cannot begin to consume the produce that our farmers can raise and bring to this place during the year. It behooves us to supply a market for the products, and have arrangements whereby these products can be sold any day of the year that they are offered here for sale by the farmers. Arrangements have during the recent years been made whereby there is a market for all the cream that is brought to Lubbock, and our poultry houses have been furnishing a brisk market for the poultry that is offered for sale here, and why could there not be a marketing arrangement made for garden and field products?

Our Chamber of Commerce and other organizations might do some real effective work along this line, and co-operating with the farmers organizations might be of great help, each to the other, and at the same time develop the greatest agricultural section of the great State of Texas. A very important step to begin with, will be the changing of freight conditions at this place. Lubbock, should by all means be made a common freight point. This would mean a saving of many thousands of dollars to the South Plains each year in the matter of freight. This saving properly distributed will effect every living soul in this trade territory. Lubbock business men could pass the saving on to their customers, and make very attractive prices on many articles that under the present conditions must necessarily remain high on account of the excessive freight on the articles. Many people will take this as a joke and just another means of upholding the merchant in charging a high price for much of the goods they sell, but one need only to get the freight bills of some of the concerns in Lubbock, and see the figures on them, and they will be convinced that this statement is true in every respect.

Co-operation comes in again in the matter of town building. The real burning need of the City of Lubbock at this time is the improvement of our educational institutions. We have outgrown them, and we are at the end of the row, so far as development along this line is concerned until some means is furnished whereby additional school buildings can be supplied. The closest co-operation is necessary along this line, and without such there will be little progress along these lines in Lubbock, and when progress on educational matters are retarded it has a very noticeable effect on everything in the city. It retards the development of the community, and it causes a dissatisfied feeling among the people of the community, and causes an uneasiness that keeps the larger things for the greater development of the community from materializing.

The beginning of 1922 is a good time to come together in a united effort for the betterment of conditions in the schools, in the city affairs, in the agricultural pursuits, and when this is done you will see Lubbock grow rapidly. You will see our people settle down in a more contented way, and our farming industries will thrive, and ere long we will have factories here on a large scale, we will have schools that will reflect creditably upon the intelligence of the people here. You will find the rural communities prosperous and the country settling up with a thrifty industrious set of folks. Our churches will be better attended, and the moral of the community will be improved, and at the end of 1922, you will scarcely believe your eyes that this is the same place and that conditions could possibly have been what this article portrays at this time.

Let's go!

Mrs. J. C. Stanford, of Slide, who was operated on the first of the week is reported to be doing well at this time.

## American Exports Show a Heavy Decline in 1921

Washington, Dec. 27.—American exports to Europe declined \$43,000,000 in November as compared with the previous month, according to an official summary of foreign trade issued today by the Department of Commerce. Imports from Europe increased in the same period about \$3,500,000.

Only to Africa and Oceania was the outgoing trade of the United States greater in November than in October. Exports and imports by principal countries during November compared with October follow:

France—Exports	\$19,262,000	highest against \$26,051,000; imports \$13,929,000, against \$10,677,000.
Germany—Exports	\$24,326,000, against \$21,250,000; imports \$5,912,000, against \$7,264,000.	
Italy—Exports	\$13,249,000 against \$19,554,000; imports \$5,807,000, against \$6,913,000.	
Great Britain—Exports	\$60,900,000 against \$85,958,000; imports \$21,887,000, against \$19,215,000.	
Argentina—Exports	\$5,099,000, against \$5,287,000; imports \$4,803,000, against \$5,822,000.	
Japan—Exports	\$26,125,000 against \$25,198,000; imports \$22,519,000, against \$17,077,000.	

## Debs Gets Into Trouble Soon As He Is Released

Washington, Dec. 27.—Freed by President Harding from the Atlanta Federal penitentiary, where he was serving a ten-year sentence for making speeches in violation of the war laws, Eugene V. Debs was reprimanded tonight by union station police here for making a speech without a permit before leaving for his home in Terre Haute, Ind.

Before boarding his train, Debs addressed a crowd of several hundred persons in the station, expressing his gratitude for his reception in Washington and closing with a reiteration of his opposition to war and belief in the force of love in the redemption of the world.

No effort was made by uniformed police in the crowd to interfere with the address but upon its conclusion a plainclothes man asked Debs if he had a permit to speak in the station, and upon being informed in the negative, declared:

"You have taken a great liberty." Debs, who had grasped the plainclothes man by the hand under the impression that he was a well-wisher, apologized and said he had not known he was doing wrong.

Debs went immediately to his train, but considerable excitement prevailed in the crowd when newspaper men tried to learn the identity of the plainclothes man. He refused to give his name, but finally declared he was the chief of police of the Union Station and flashed a badge pinned to his belt.

## MUSIC IS ORDERED FOR LUBBOCK BAND

A letter was received from Prof. G. A. Wright, of Plainview, today, stating that he had ordered a complete set of music for the band which will be in training Wednesday, December 3, and that owing to the fact that there would be so many places for the youngsters to go until school started he would not try to do anything about instructing them until that time, as then they will be in school and at work and will go into the lessons with more interest and pep.

There are a good many instruments to arrive too, but they will all be here by that time, and there will be nothing to keep the class from advancing rapidly from the start.

Lubbock is setting very anxious for a band and there are none here but who will do all they can to make it a success, and Prof. Wright will receive the close cooperation of the parents of all his students, and we hope he will make a complete success of this undertaking.

## NEW SCHOOL BUILDING FOR WOODROW COM.

Three loads of sand and window frames were hauled to the Woodrow school building that is under construction there. It is expected that several weeks will be required to complete the building.

## ONE DAY OFF PUTS THINGS OUT OF JOINT

Some folks wondered why the Avalanche was late with the first edition of the week, and some folks wondered that we issued a paper at all for Tuesday. Every minute counts in a printing office, and when a day is taken off it is hard to make up. The force took Monday as a rest day, and hence the delay of Tuesday's paper and we have not just caught up yet, but by the time the first issue in 1922 is due, we will be back in the regular groove, and you may expect the Avalanche promptly on Tuesday morning next week.

Everett Young, about twelve years of age, is at the Lubbock Sanitarium and was operated on recently for appendicitis and is reported getting along mighty well at this time.

## Santa Was Good to the Telephone Girls in Lubbock

The employees of the Southwestern Bell Telephone Company, of Lubbock, were very successful with their Christmas tree in the operating room as was seen from the armful of presents each of the girls had to carry home after the program was completed.

From every part of town came presents, until the large tree was loaded to its capacity, and the floor piled with huge packages that were sent in appreciation of the splendid service the young ladies had given the people of Lubbock during the past year.

The affair was bigger than the highest expectations of any of those who planned, as Mr. Phillips, the manager, said, that the young ladies were expecting only an exchange of presents from one to another, and the surprise that they received from the response with which presents came in after the business men knew they were to have a tree, was written plainly on the faces of each of them. One girl is said to have expressed herself so appreciative of the kindness as to say that "I am going to stay on the job here, so closely and give such good service that they will know that I remember these presents," which expressed the opinion of the entire force.

## Livestock Deals Are Reported Around San Angelo

San Angelo, Texas, Dec. 27.—Twenty-five hundred and seventy-five head of sheep and cattle have recently changed hands here at prices totaling approximately \$40,000. J. Walter Mann, live stock commission dealer, negotiated most of the deals and George Cauble, local stockman, was one of the heaviest purchasers.

Cauble during 1921 shipped 10,440 calves and yearlings from this section to market and to Middle Western feeders, his sales aggregating probably in excess of \$160,000. He bought 200 steer calves last week from Pat and Tom Martin of Schleicher County and shipped them to Ft. Worth. Eight hundred calves, bought from W. A. Davis of Eldorado, through Mr. Mann, for \$15,000 were sent to Oklahoma.

Three hundred animals bought from Byrd Phillips of Ozona and 135 head purchased from John Rae of Eldorado also were shipped recently. Mr. Cauble paid B. W. Hutchinson and George Allison of Sonora \$1,500 for 150 steer calves.

Through Walter Mann, Bob Russell of Hominy, Ok., and W. L. and M. G. Slaughter, who have a ranch near Barnhart, sold 500 steer yearlings to M. L. Smith, of Childress County for \$15,000. Llano County sheepmen through Mr. Mann, bought 1,000 yearling Rambouillet mutton from Tom Adams of San Angelo at \$4 a head. Bob Evans of Eldorado also sold to Mr. Smith 125 2-year-old dehorned steers at \$5,000.

## E. L. KLETT IS RE- ELECTED SUPERINTENDENT

A committee appointed by the Baptist church, met at the home of the pastor, Rev. W. A. Bowen, last Tuesday night, and elected officers for the Sunday School for the coming year. We were unable to secure the names of all the officers, but we are informed that Hon. E. L. Klett, who has been superintendent of the Baptist Sunday School for several years was unanimously re-elected to the position. Mr. Klett is well qualified for the position, and through his faithful efforts and hard work, the Sunday School is making splendid progress and with the increased room that the new church building furnishes, this school will no doubt make even better progress than in the past.

## FREEMAN MAN WILL PREACH HERE SUNDAY

Rev. Lewis, of Freeport, Texas, will preach at the First Presbyterian church Sunday, both evening and morning.

He is an able speaker and a good man, and it is expected that a large crowd will attend these services. At any rate there will be a great deal of good derived from hearing him talk, and no one will regret going, so make it snappy, and be at the First Presbyterian Church Sunday.

## AMERICAN LEGION DIS- APPROVES DEBS' PARDON

Dallas, Dec. 28.—Disapproval of the release of Eugene V. Debs was expressed in a statement by Wayne Davis, of Goliad, Texas, department commander of the Texas American Legion today.

The announcement read: "The American Legion of Texas feels the recent release of Eugene V. Debs after serving a small portion of his ten year sentence in Federal prison following his conviction on charges obstructing the draft is an insult to those who died as well as those who wore the uniform during the war, regardless of the fact that his release was camouflaged with sentiments of mercy as well as hedged about with political reasons."

### And From a Barren Boundless Pasture It Has Become a Rich Agricultural Part of the State With Great Possibilities and Thousands of Homes Dot the Plains.

## 2 Men Burned But Save Lives Of Two Nurses

Plainview, Texas, Dec. 27.—Misses Susie Fullingem and Gladys Meester, nurses in a local sanitarium were painfully burned Christmas night when Santa Claus garments which they were wearing caught fire from candles on a Christmas tree. D. J. F. Owens and Marvin Garner also sustained slight burns about the hands and face in extinguishing the flames.

The tree was loaded with gifts for the children in the sanitarium, and Misses Fullingem and Meester were distributing them. Some cotton trimming on Miss Meester's coat came in contact with a candle flame. Miss Fullingem's garments caught the fire from Miss Meester. Only prompt efforts by Dr. Owens and Mr. Garner saved the lives of the two nurses.

## Robbers Loot Safe at Dumas Monday Morning

Dumas, Texas, Dec. 26.—The safe of the Phillips & Son mercantile store was blown open early this morning and \$1,500 worth of Liberty bonds, notes and cash were taken. The door of the safe was blown across the store room and the wall was damaged where it struck.

Manager Jake Phillips stated that unless the robbers were able to sell the Liberty bonds, that the loot taken would not be worth over \$75 to them.

No clue as to the identity of the robbers has been found.

## JOE HESS VISITING WITH FRIENDS IN AMARILLO

Joe Hess, secretary-manager of the Lubbock Building & Loan Association and a member of the Hess-Sears Real Estate Company of that city was in Amarillo Wednesday, the guest of R. M. Nash of the Amarillo Building & Loan Association.

Mr. Hess is a pioneer in the building and loan business and believes that it is the greatest factor for city building ever established. He was instrumental in establishing the Oklahoma City Building & Loan Company twenty-five years ago and has been active in the work ever since.

"Towns are not built by people who do not come to them, but are built by the people who come and stay, and if means are provided for them to build homes, small towns may be built into great cities," Mr. Hess said.

He declared that the Lubbock Association, capitalized at \$200,000 is doing a good work, and through it he believes Lubbock will be made a good city.—Amarillo Tribune.

## TWO BALES OF COTTON TOP MARKET THURSDAY

W. M. Millsap was here from his farm, four miles southwest of Roperville, Thursday, with two bales of cotton, the last of a seventeen bale crop, which was gathered from thirty-two acres. The sample was mighty good, and the highest price was received for it, which shows that the continued dry weather has done him a great deal of good. The season for gathering crops was never better in the history of farming on the Plains, and we hope that before many days there will be a change and the best season for growing of crops will be ours.

## SALESMEN HAVE "HARD LUCK" AS STORES CLOSE

Possibly in the entire year local salesmen have not had such poor chances to sell their goods than they have experienced the past few days, as immediately after the close of the spirited Christmas buying a good many of the merchants have closed their doors to take inventory of their stocks, and are not contemplating buying anything until they know how conditions will be on the start of the new year.

These salesmen, however, are of the opinion that business will be especially good as soon as all invoices are made, as the Christmas shopping season depleted the stocks in many lines which they will be able to refurbish.

A. J. Parker was here Tuesday and Wednesday from his home at Roscoe.

By the time this issue of the Avalanche reaches most of our readers the Avalanche editor will have been in Lubbock sixteen years. Several of the citizens have been here longer than that. They came here years before, and were here before there was any thought of Lubbock, and were here before but few of the counties of this great South Plains were organized. This country then, even at the time we came, was largely in the hands of the ranchmen, with their big herds and their almost boundless pastures, and farming had not been tested out very thoroughly at that time, but was just in the beginning. The development has been rapid, and during the sixteen years that we cast our minds back over, years in which we have actually experienced the many drawbacks from living away from railroad facilities, the changes have come in quick succession, and today we find that Lubbock has grown from a village, with probably twenty-five or thirty residence houses to that of a real little city of substantial buildings, of fine homes and large business houses with stately municipal plants and located on the trunk line of one of the greatest railway systems in the United States, and at the point where numerous automobile highways intersect, and at the point where the coming big city of the Plains, and we dare say the Panhandle will in a few short years be built.

The agricultural developments have been none the less noticeable, and the rural districts present an entirely different appearance now to what they did then. Where the big pastures and the lonely windmills dotted the prairie, with the thousands of cattle which constituted the greater part of the inhabitants of the range, there are now hundreds of farm homes, and thousands of acres of land under the plow that promise each year a splendid yield, bringing before the world the greatness of this section from an agricultural and stock farming view point very vividly, and in a way that is attracting people from all points of the compass, who tiring of the arduous task of trying to farm in sections where the soil is thin, and the infestation of many of the enemies to the farmer predominate, are seeking relief by coming to this rich section of the State, and becoming established early in the development of this country.

We are sure that the next sixteen years will show even more wonderful development as the facilities are here for the more quickly bringing into reality the propositions that are presented, hence we believe that in less time that the great changes of the past have required the South Plains will be densely populated, and the city of Lubbock will have to large extent fulfilled the dream and the prophecy of the optimistic frontiersman who believed they could see in the future a great city and a rich farming country, to take the place of the little village and the sparse settled plains land that was so noticeable sixteen years ago.

## BROWNFIELD TO VOTE BONDS FOR LIGHT AND WATER

The town of Brownfield, county seat of Terry county, will hold an election today for the purpose of determining whether or not that municipality shall vote bonds to the amount of \$34,000 for the purpose of constructing an electric light plant and securing adequate water facilities for fire protection, according to S. H. Holgate, of the Holgate-Enders Hardware Company, of that place, who was here two days this week attending to business matters.

Only a plant necessary for providing enough power and light for present needs will be constructed according to our information, but the most important in the minds of the people of that city is water protection. Mr. Holgate predicts the issuance of bonds although claims there are many against them at this time.

Farmers are preparing for a large acreage of cotton in Terry county this year, according to Mr. Holgate, who states further: "That the present price of corn—about thirty cents per bushel—does not provide the farmer even a fair return on their labor necessary to haul that crop to market, that is if the farmer lives any distance at all from town."

Editor Quinn, of Lorenzo, was here the first of the week, looking after business matters, and was a pleasant caller at this office. He is preparing a special New Year number of the Enterprise, and this issue will appear Friday.

Ben Williams, of Eastland, was here looking after business Thursday.

## UNLESS COMMUNITY SPIRIT IS CULTIVATED NO CITY OR COMMUNITY WILL PROSPER AS IT SHOULD

The only criticism we have to offer on the Board of City Development is that they have not properly cultivated the community spirit and cooperation of the people of the city. We are not sure even that such a criticism is due them, or the fault that we do not have a proper community spirit is entirely chargeable to their account. However, they have the opportunity to cultivate that spirit and should make the most of it. We are fully convinced of the correctness of the fundamental idea back of a Board of City Development as against other forms of organizations. Its main weakness has been in securing the cooperation of the mass that is necessary to a proper community spirit. We believe that is due more to the attitude the Board assumes than to the system or the citizens of the town. In those cities having a Board of City Development where the board has been careful to cultivate the community spirit and mass idea the board has been a splendid success and is functioning satisfactorily.

Unless the board is careful to cultivate and keep alive a proper community spirit, there is a tendency on the part of the citizens to delegate their public duties for the welfare of the city to the board to perform for them and in their stead. A sort of proxy theory. It is wrong in theory and in practice and will work out to the deterioration and detriment of any city so unfortunate as to fall into this rut. Each citizen of the community owes a certain duty to his community. He certainly owes his good-will and hearty cooperation in creating a distinctive individuality for his community and in maintaining a lively and progressive community spirit. The city that allows this spirit to die is on its way to the cemetery of oblivion and forgetfulness. Cities grow and expand in exact proportion to the vision of its people and their willingness to cooperate in grasping the opportunities they see within their reach.

The Board of Development must lead the way in this matter and court the public favor. The citizenship will not push their cooperation and participation onto the board, but they will severely condemn the board for any failure of the city to secure the things which should come to us. Only men who are willing to render a large measure of service gratis for the public good should be appointed to the board, and the officers of the board should be selected for their peculiar fitness and ability to cultivate and maintain a proper spirit of cooperation between the people and the board. The secretary to the board is really the functioning officer and is an important office both to the board

and the city. He is a paid officer and should give his entire time to matters of city interest. The success or failure of the board will be largely measured by the ability of the secretary to live up to the important duties of his office and his ability to coordinate and use all the resources of the city in obtaining the objects and purposes for which the board was created.—Sweetwater Reporter.

### PARENTS AS EDUCATORS

"We Are Ready, Santa."

By Lydia Lion Roberts  
The minister made a jolly, plump Santa Claus, and the little ones waited before him in breathless, eager suspense. Suddenly one little voice piped up, "Are you coming to our house, Santa?" Immediately there was a chorus, "I've been good, are you coming to my house?" Finally one little girl cried, "We worked hard and cleaned all up for you, Santa. Are you coming to our house tonight?"

The last child had the right idea, and I think there must have been a happy, busy Christmas at her house, with mother and the little helper working together to keep the joyous time. Too many things at Christmas time are done by mothers for children when the ideal way is to do them with the children. In that way there are never any fussy, restless, bothersome children, but a willing, interested, unselfish group of youngsters having the real spirit of the day.

"Where's the pretty things?" wailed a five-year-old daughter as she surveyed the dining table on a holiday.

"I haven't had time to get the usual decorations," replied the hurrying mother. Then noting the disappointment on the child's face, she suggested, "You know where I keep them in the attic; why don't you get them and arrange them for me?"

The little girl trotted off happily and much to her mother's secret surprise, did get the simple napkins and crepe paper runners and flags, and placed them very daintily on the table. The proud delight of the child was a revelation to the mother, and after that she always said a few days before a holiday, "Well, daughter, we must soon be getting ready to make a nice holiday and have everything clean and pretty." Then would follow plans for a few simple ways the child could help.

The best Christmas of all to the children would be the one when they helped make table decorations, chains and paper flowers for the tree, helped pack the box of food or clothing and gifts for the unfortunate ones, and "worked hard and cleaned all up" for Santa Claus.

A letter was received from C. W. Alexander, who is in Mineral Wells, stating that he and his son, J. C., would return to Lubbock in a few days, but that his wife and daughter would remain there for several days.

Miss Clara Wilson, of Brownwood, is here for a few days, visiting her friends.

C. D. Denham, a student in A. & M. College, is here visiting friends and relatives a few days. He will go back to College Station Sunday.

## EXTENSIONS

The building program of Lubbock might well be classed under the caption of extensions. We have the foundations laid for a city of size and importance unequalled by any on the Plains, and we are now at the point where extensions are necessary to take care of the constantly growing demands. Lubbock is rapidly growing into the city and her people pictured years ago, and we must now push out the boundary lines and make room for the growth that is sure to result during 1922 from the campaign of publicity given this section during 1921, and through the various agencies that have been constantly working upon the people of the crowded East, South and North, and the boll weevil districts, and the districts of the boll-worm infested sections, in an effort to have them come to this great South Plains section and get a home far from the evil effects of these various pests. Business men have their eyes on Lubbock—"The Hub of the Plains." Factory heads are investigating our city, and the surrounding country. Railroad promoters are seeking entrance to our city, and the various highways are coming direct to the city, and all together the prospects for a greater influx of people into this section is growing more and more apparent, and the necessary for added equipment in the city to take care of this increase in population is very vivid. Our city plants are not sufficient to take care of this. Our city light, water or sewer plants are unable to take care of the business that is constantly being offered them, and even demanded of them, and hence we should extend these utilities to the extent of making them at least adequate to the present demands and requirements. Then our school equipment, it is entirely inadequate to the needs of the present day to say nothing of the future, so it behooves the people of Lubbock to get on their working clothes and get things in shape for the people who are coming to Lubbock.

## BE PATIENT AND OF GOOD CHEER

We are sure that to the newcomer the continued dry weather is growing a bit worrisome, but to those of us who have been on the Plains a good long time it is only another of those dry seasons that are of little concern after the days of the crop growing season go by. We only insist that the farmers who might become a little too worried over the dry weather situation on the Plains just go ahead about their work as best they can, and the crop season will be here in time for help with the spring cultivation. There is time yet, and if you don't think so ask some of your neighbors who have lived on the Plains long enough to be acquainted with all the weather conditions here.

Don't be grouchy. Get up and put a little pep into yourself. A grouch gets nowhere. He is generally a nuisance to himself, to those among whom he associates and gets nowhere finally. If the world depended upon him to move, it would stop. If the banks depended upon him to run and keep open, they would fail. If the churches and schools depended upon him to exist, help the people and make life worth living, they would quit. The grouch is kept alive by people who try and do real things. When the doers and actors of life quit, the grouch dies, because there is nothing left for him to exist on. God deliver us from a grouch; one who can see nothing good in himself, his neighbors, his country, his God or future existence. Unfortunately, every community has a few. The fewer in a community the more prosperous the community. The new year will soon be on us. Let every grouch in this section, change his attitude or leave this section with the dying of the old world. The silvery lining of the cloud beckons us onward and upward for 1922. Everyone will forget 1921 except the grouch; hence this is the reason that we pray and see that he is converted ere the going of 1921.—McKinney Gazette.

The Chamber of Commerce at Ralls has been re-organized, and will get down to real business for 1922. Good for Ralls. There is nothing any more important to the advancement of the town and community, than the work that can be done by a real live, wide-awake Chamber of Commerce. Here is hoping that the resurrected chamber at Ralls will prove one of long life and great activity.

Just because your taxes are high for City purposes and State and County purposes, is no sign that you should not favor the issuance of bonds for the erection of a High School Building, a thing that is absolutely essential to the growth and the development of the city and for the benefit of your children or your neighbor's children.

A McKinney boy was brought before the court, convicted and fined for betting on a ball game. Good! Here's hoping that the court and jurors of Lubbock will pep up, and take on courage enough to stick the maximum fine upon such violators, and it will have a tendency to ruin the taste for gambling on ball games.

The fact that a great many men do their best to evade jury service, is probably responsible for many criminals being freed or escaping with a very light sentence, and then too, the charge of the Judge is sometimes to blame.

If you have not procured a receipt (receipt) for voting in 1922 better call around and get one from the tax collector. He has 'em and every voter should have one. He has them for both male and female.

You had better get that auto tax receipt and seal or the cop will get your car.

## KEEP IT OUT OF THE PAPER

After years at the editorial desk, the average newspaper editor sometimes wonders just what sort of a newspaper would be published if he were to listen to all the daily pleas that he keep this but of the paper, "bury" that on an inside page, "go easy" on this other item, "tone down" this story on an eminently respectable citizen who slipped on the straight and narrow path, suppress that story that will hurt business, refuse to publish another which might let some of the people know something the rest of the people think they should not know, and so on an libitum and ad infinitum, also absurdum. After carefully considering the proposition one can come to no other conclusion than that if he acceded to all these requests the paper would come out blank each morning, and, of course, instead of pleasing everyone, that would please no one. Nothing remains, therefore, but to establish principles for the publication of a newspaper and go ahead in accordance with them.—Fort Worth Record.

This we hear every now and then, and if per chance we do heed the request, then we hear from the other side as to why we did not print that scandal, it would have been so interesting to us, etc. And there it goes, the newspaper is ever between two fires, and sometimes it is hard to determine which is the hottest. But we enjoy our work, just the same, and as long as we can please the majority of our readers, little do we care for the whims of the few who think they should be shielded from the publicity that they should probably have. The best way to do is "not to do" the things that you are ashamed to have put in print.

Some people are opposed to the Ku Klux Klan. The people are to blame for this organization, and if there is such an organization in Lubbock it is caused by the lack of proper prosecution of guilty persons when they are brought before the courts. If the people will elect men to office from the highest to the lowest position, who will enforce the law and see that crime is given the black eye and justice is dealt out to those who are brought before them, there will be no demand for such an organization anywhere, and more especially in Lubbock. However, as long as men violate the law and are given the minimum penalty, and often turned entirely loose, after peace officers have arrested them and have worked up the evidence, crime will continue, and there is little inducement for officers to put in their time trying to catch gamblers and bootleggers, etc. If criminals are given to understand that the people who claim to stand for law and order, are standing four square for the enforcement of the law and are backing the officers at every corner, and the courts are going to deal out punishment, there will be very little of such stuff going on.

The Parent-Teachers Association is doing a great work for the betterment of the Lubbock schools. It would be time well spent for this organization and every other organization of the town to see that every person in the Lubbock Independent School District possesses a poll tax receipt and be ready to vote on the question of bond for the erection of a new school building. This is a matter that carries much importance. It is a matter on which hangs the future progress of Lubbock. If adequate facilities are not provided for taking care of the education of the children who come here, Lubbock can not make the progress that she should. Bonds are the easiest route out of this difficulty, and will not require much additional expense to the taxpayer to take care of them. The petition for an election is being circulated now, and there will be no trouble in getting more than the required number of signatures, and there should be no doubt of the issue carrying, if—all will vote. Every lady voter as well as every man in the district within the voting age should express themselves at the ballot box on this question when the times comes to do so.

Don't give away our names! Don't let my wife find it out! Don't let my mother hear about it! Don't tell who it was! This was the way some of the fellows begged and plead a few days ago when the officers picked them up on the prairie for gambling. They gave fictitious names to the officers, but they were properly registered on the court docket as having paid fines, and as the records are public property their names can be found by calling for the record. It is a pity that there is not a law requiring the dockets of the courts to be published, especially in criminal matters, so that the people would know what was going on and who is doing the devilment.

From the announcements of many of our weekly exchanges that the editor was contemplating a vacation this week, we are sure that our exchange table will look very bare, and the much appreciated weekly visit of many of our exchanges will be greatly missed. We wish for them a most pleasant week, however, and we are sure that every one of them deserve the rest. As for the Avalanche we have kept plodding along, and with the exception of one day the force has been on its toes, and have done a great big Christmas week's work. We thank our patrons for the liberal patronage.

The teachers and members of the South Plains Teachers' Institute which was in session here last week, unanimously voted to return to Lubbock for their next session, after several propositions from some of the other places in the district had been considered. In appreciation of this friendly feeling of this body of South Plains teachers, Lubbock should certainly prepare a suitable place for them to meet before the next Institute comes in December, 1922.

Mr. Newcomer, you need not be uneasy about the crops. It will rain before the first of June, and you will then raise more crops than you can gather. This has actually been demonstrated in the South Plains.

Already we hear a fellow once in a while vow he is "agin" the issue of bonds for building schools in the Lubbock Independent School District. We hardly think there are very many in this class, however.

# Greeting the New Year With a New Location

The Plains Poultry and Hide Company, after January 1, 1922, will be located in our own building and will continue to maintain a consistent and positive market for produce, hides, etc.

New Location will be: Directly across the street from present location, one half block South in building formerly occupied by the Planing Mill.

We hope to be better able to serve you through the New Year than in the past and extend thanks for the business given to us.

The last of the family that imported the "niggers" to Terry county last spring, left this week. The old man quit his wife and left with the "fuzzy heads" some time ago, and this week his wife packed her traps and left for old South Texas where the niggers are rank in growth and small. We hope this is the last of this class of citizens—with all due respect for the prominent citizen of Lubbock, who so whole heartedly recommended this family.—Terry County Herald.

WITH LUBBOCK BUSINESS MEN

Quite a few of the Lubbock business men went to Crosbyton last night (Thursday) to be in attendance at a meeting held by the Chamber of Commerce in honor of their fellow-townman, S. A. Guy. A full report of the meeting will be published in the Tuesday issue of this paper.

The annual Mid-Winter Clearance Sale of the store of A. B. Conley, Jr. is starting this week, an event that attracts people from all over the South Plains. According to Mr. Conley's announcement in this issue of the Avalanche, one that should be read by every subscriber, he is making quite unusual offerings in the way of good merchandise with many concessions on prices.

W. S. Hodges says Lubbock is the best town he knows of when you go to talking about business. During his business career in Lubbock most people will agree that he built up one of the largest patronages of any like establishment on the South Plains if not on the entire Plains. Selling out this business he has had occasion to look about and finds that the towns enjoying such wonderful growth, etc., are not comparable to his own Lubbock and we are safe in predicting that whenever the time comes and W. S. Hodges decides to go back into business, that business will be located logically—in the Hub of the Plains.

It is significant that as usual the after-holiday trade in the Lubbock stores are holding up to its best traditions this year. The reason claimed by some of our oldest established stores is that Lubbock draws trade from a very large territory and therefore does a constant business as a result of supplying the needs of a great area. Traveling through the town, making railroad connections, awaiting until after Christmas, expecting lower prices, etc., keeps the business in Lubbock gradually moving onward. While a few of our men would howl calamity if they were not kept busy waiting on some one needing something. In other words they would if they could, but they can't.

Because of its likeness to life, "The Old Nest" picture now being shown at the P. and R. Lyric is rare. The great truth it revived and vividly portrays is bound to put folks to thinking and that is the producers object of the picture as explained in the closing.

It is a typical life of a mother and father, all men and women know. Intimate happenings of the family portrayed during the growth from childhood until maturity when they seek other fields to work out their individual careers. A family of six seated at the table partaking of their food are the antics of a reproduction of the same thing in almost every family of six in this country. Death calls away one of the boys, others are gone, here and yonder, the girls are married, and the old house which at one time was so filled with noise is now empty and the mother has only to look forward to the time when her children will come to see her. Each are busy and often forgetful of the birthday of their mother. Finally the children surprise the mother with a visit at which time there is much rejoicing.

It is not anything new and that is

## WHAT THE CENSUS TAKERS FOUND

The Avalanche will carry a list of names, and the address, including the house number and the street number, the number of parties in the house, each issue till the entire list is published. This list will be of great benefit to many people if they will preserve it, directory of the city, and if any mistakes in the names or initials, or the house number, the number in the house or the street number, please call attention of same to the Chamber of Commerce Secretary, that corrections may be made. It is quite likely that a City Directory will be printed in the near future, and a complete, and accurate list is desired for this purpose. The figures

### SUNSHINE COMMUNITY NEWS OF PAST WEEK

Those who were in Lubbock last week are Messrs. Charlie Phillips, Charlie and Herbert Goeth, Moritz and Norbert Goebel, Henry von Struve, Rudolf Fuchs and Miss Erna Goeth.

Mr. W. I. Adkisson came in from his trip to Kansas City last Thursday.

Mr. A. J. Fuchs had a fire on his place last Thursday, which might have been serious if help had not come just in time. They do not know how the fire started, but when they noticed it, it was well under way burning the loose fodder and driven by a strong west wind to a stack not far off. Mr. Fuchs was in town at the time, but his family fought the fire, after about half an hour, they saw how useless it was without more help, so they called for help and Mr. Fritz Fuchs and Mr. Bryan Dansfield came immediately. They opened the tank and let the water to the fire, finally quenching it, after much hard work. It burned not less than two feet from the stack. About two hours were spent in fighting the fire. It would have been a big loss for Mr. Fuchs if his large stack of sugar cane had been burned.

Mr. Ed Barnes surprised his daughter, Mrs. Bruno Fuchs, Thursday morning. He had not seen her since her marriage, one and one-half years ago. He will spend the holidays with her.

Miss Thea Goebel attended the Teachers Institute in Lubbock last week. She had a large program, Christmas tree and Santa Claus at Center school last Saturday afternoon. A large crowd was present, and everyone enjoyed the program but the children especially enjoyed the Christmas tree and Santa Claus. Many presents were distributed among those present.

Miss Hazel Johns went home with Miss Erna Goeth after the program and spent Christmas day with her.

Those who had Christmas trees in their homes are: Kieken's, Hobbings, Chas Goeth, Fritz Fuchs, W. D. Adkisson and A. J. Fuchs.

Mr. and Mrs. Bruno Fuchs, Mrs. Fritz Fuchs, Sr., Miss Bettie Fuchs, Mr. Rudolf Fuchs and Mr. Ed. Barnes spent Christmas eve with Mr. and Mrs. Fritz Fuchs, Jr., Mr. and Mrs. A. Goebel with their parents, Mr. and Mrs. M. Goebel, Mrs. von Struve and Mr. Henry von Struve, with Mr. and Mrs. Chas. Goeth, Mr. Neis and family and Mr. Habbings and family, with Mr. and Mrs. Kieken, Miss Erna Goeth also gave a little dance at her home. It is pretty certain that everyone enjoyed Christmas eve to the utmost.

Christmas day a large crowd was invited to the home of Mr. and Mrs. M. Goebel. A large dinner consisting of sandwich and cake was served. The afternoon was spent in pleasant conversation and many games were played by the young folks.

Miss Bettie Fuchs spent Sunday night and Monday with her sister, Mrs. Chas. Goeth.

### \$5000 BURNED BY PRIESTS HAS NOT BEEN CALLED FOR

Last week a letter was sent the priests of San Felipe, of the old Albuquerque, requesting that \$5,000 be buried in one of the city parks under penalty of death. This request was carried out by them but up to this time the money has not been called for. No doubt the senders of this anonymous letter has been scared off.

### Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

### Farmers Union Mill May Increase Its Capacity Soon

Farmers Union met Tuesday night December 27th. with a good attendance. Different subjects were discussed for the betterment of the farmers and community at large. A favorable report on the progress of the union flour mill was given by Mr. S. R. Merrill. He states that the mill is running full time, and if business continues to increase the company will have to install another unit and make it a 50 barrel capacity instead of a 25 barrel.

He also states that the company has purchased a 25 h. p. oil engine which they are going to install and will take out the electric motor. This change is being made because of the high rate on electricity.

The union is planning other things that will mean much to the farmers. But we need the co-operation of every farmer to make a success. It has been rumored that the union would not live longer than the first of the year but this was not true. The Farmers Union has come to stay, but the support of every farmer is needed to make it a success, so let's join the union and start the New Year right.—Abernathy Review.

### EX-STUDENT FUND FOR WEST TEXAS NORMAL

The ex-student loaned fund of the West Texas Normal, has been granted a charter by the secretary of state. This organization has no capital stock. The purpose is the establishment and maintenance of a fund of \$10,000 for the purpose of encouraging and assisting deserving young men and women of Texas to acquire an education fitting them to become leaders in their community, the state and the nation. The personnel of this corporation is composed of some of the most substantial men of the state. The board of directors are made up of some of the best educators and citizens of West Texas, and are as follows:

J. A. Hill, president West Texas State Normal College; A. C. Goeth, chairman board of regents, State Normal Colleges; L. C. Allen, dean of West Texas Normal; J. J. Powell, president ex-students association, West Texas Normal; Mrs. W. C. Black, secretary ex-students association, West Texas Normal; Senator W. H. Bledsoe of Lubbock and R. P. Jarrett, head of department of education, West Texas Normal.

### HAVE FAITH IN FUTURE CATTLE BUSINESS

Mr. and Mrs. W. D. Arnett, from the Spade ranch, were visitors in Abernathy Monday. Mr. Arnett says the company is feeding six thousand calves on the ranch that they bought last fall.

This goes to show that the management of this ranch has confidence in the future outlook for the cattle business.—Abernathy Review.

### BAPTIST LADIES WILL REPRESENT PLAY

The ladies of the Baptist church who are conducting the play, "An Old Fashion Mother," have been requested to represent the play from so many people that they have decided to present it at the church Saturday night. The play is very well carried out, and offers splendid amusement, and we are sure a large crowd will attend.

The main reason why the Congressional Record is so expensive is that it carries so much free advertising.

**Does Your  
Bank Help  
Keep Your  
Business  
Functioning?**

¶ A bank has to deal with commercial enterprises as well as agriculture. The merchant is a necessity and his welfare is linked with those of the rest. Banks in this country always try to help the farmer—plant his crop and harvest it. It is a necessity and without these aids our country would suffer. The cowman must have financing. Grass has to be paid for and expenses that accumulate through dull seasons must be paid. Banks trying to serve their purpose help the ranchman.

¶ In a corresponding manner the commercial enterprises of the country must be aided.

¶ In making a banking connection it is well to find one that has officials acquainted with these varied industries, as much of one as the other, so that when the time comes you must have aid, their advice will be sought because of their experience.

¶ We offer you the services of a bank studying the needs of the farmer, the merchant and the ranchman.

**Nature Study.**  
By Augusta B. Swan  
When the children bring us nature study material, remember always that the spirit is more important than the information. When we tell them of the birds, we do not think of ornithology, we think of the children, and try

to expand their sympathies. It is a good thing for the children to bring specimens, but let this be a means to an end, to correlate what a part is with what it does.

"Why do dogs howl at night?" was a question which in its answer involved a little of the life history of the dog, with his wolf-like habits. His barking is an inherited trait, developed from the howling of the wolf at night. This is the call of the pack to keep them together, as wolves hunt by night and in packs. Our pet dogs must be comfortably housed at night to keep them from becoming public nuisances.

A woodpecker on the tree before the arrival of spring taught us that he, with various other birds, spent the winter here because he does not change his diet according to the season. All the winter birds, chickadees, juncos, winter wrens and titmice feed on dormant insects, seeds and berries. The cardinal, as observed by one of our kindergartens is not naturally a migrant, he prefers to stay in one locality. By putting out corn, we may induce him to stay near our premises all winter, and finally make his home there in the summer time. By ridding us of flies and many garden pests, and by his singing and calls he will repay us for all our trouble and hospitality.

What shall we do with the numberless "pussy poplars" which are daily brought to us? Watch how the poplar seeds travel, how they are fitted to go long distances from the parent tree. The kingbird and cuckoo use these catkins for their nest building and insects depend on the poplar pollen.

So it is with our pussy willows and alders, which wake when all else seems asleep. These "pussies," or willow flowers give the bees almost their earliest spring feast. The pollen gives them bee-bread for their early brood, and they get their honey supply from the nectar which is produced in little glands at the base of each pollen bearing flower on the "pussy." We make furniture from the wood of the willow, and because it is light and tough when seasoned, it is used to make the wooden shoes worn in Europe. In our kindergarten we have a log cabin made of willow.

Our spring flowers! The children are interested to know that these plants can bloom early even in the snow because of the long stored up supply of food in their bulbous roots. While examining a bunch of Jacks in the Pulpit, one of the children said "They look like calla lilies" and she was most interested when told there were many families among the flowers, and that Jack in the Pulpit and the calla lily were really first cousins.

The fascinating sycamore or button balls, brought to us so frequently, not only are the sycamore's seeds made to fly away on hairy parachutes but they are the favorite pieces for the nest building of many birds including the Baltimore oriole. "Do apple trees grow in the winter?" Here is a chance to tell of the long rest, the sleeping and preparing for the spring awakening. Spring buds we all notice, but what of the winter buds? The leaves and blossoms of the apple tree come from the winter buds which are protected all winter by little downy scales. We know the great varnished winter buds of the horse-chestnut, and perhaps the white knobbed winter buds of the dogwood, but there is no tree in our winter woods that will not show its buds to anyone who wishes to see them.

A hornet's nest in one of our kindergartens attracted quite a great deal of attention, and one of the children asked how the wasps made it. Like the yellow-jackets, the white-faced black hornets build in trees. The nest is of paper made of bits of wood which the wasps pull off with their jaws from weather-worn boards. This wood is reduced to a pulp by a saliva from the wasp's mouth and is laid on in little layers. A wasp uses her jaws and front feet for tools, and she joins a strip to the edge of the paper and pats it into shape. The cells inside open downward, and are

cradles for the young wasps, not for storing honey. The babies hang face down, but are held fast by a sticky substance at the rear end of the body. Barely are these nests used more than one year.

Never be afraid to say, "I don't know," not as a damper to the child's interest, but with the promise of going with him further into the realms of nature; knowledge begins in wonder, and after all, is it not the unknown and the mysterious that bring forth our most ardent interest?

**GAMBLERS TRY NEW

Possibly in all the country there is no set of officers who are harder to evade than those of Lubbock, and some clever gamblers found that the most simple tactics do not always fool a wise bunch of dogs, when they failed to look innocent enough when they got out on the open prairie Monday in a "little game."

Chief of Police Hustelder, Constable Rhea, and Special Officers McCulloch and McKinney were on the trail, and before the gamblers knew what was about the officers were on the grounds in time to catch three of them with the "goods" who were perfectly willing to admit their guilt.

## NEW YEAR GREETINGS

The coming year will indeed be a memorable one in the history of this country. The business outlook is very promising and we wish all our patients and prospective patients A Happy and Prosperous New Year.

Healthy men and women are needed by their country. Happiness goes hand-in-hand with Health. If you wish to be HAPPY, you should therefore be HEALTHY.

Start the New Year right by investigating the wonderful SCIENCE OF CHIROPRACTIC. This drugless science is indeed a boon to humanity and the coming year will see thousands of recruits added to its ranks.

CHIROPRACTIC is the knowledge—not the theory or belief—of philosophy of cause of disease, the science of knowing how and the art or ability to adjust it. The human brain is the dynamo where life currents are concentrated. The spinal cord and nerves are the purveyors of the Mental Force, if Brain absorbs, Spinal cord conveys, Nerves transmit, and tissues, organs and Viscera receive this Life Current—HEALTH IS THE RESULT.

CHIROPRACTIC  
WILL GIVE YOU HEALTH

Obstruct the transmission of current and disease is the result. Body plus Life, equals HEALTH. Body minus Life, equals Death. Disease is the abnormal fluctuation between these two quantities caused by varying degrees of pressure upon nerves interfering with transmission.—The Chiropractor knows why, where and how to adjust the pressure to permit currents to continue transmission for the purpose of reconstructing Disease to HEALTH.

"CONSULT YOUR CHIROPRACTOR"

Make up your mind to possess Health and enjoy the Happiest and Healthiest Year You have ever spent.

### FELT LIKE AN IRON BAND AROUND HEAD

This is How Lynchburg, Va., Woman  
Declares Her Headaches Often  
Affected Her.

Everybody will read with interest the statement of Miss M. E. Woodford, 1808 Filmore St., Lynchburg, Va., who says:  
"I don't believe anybody ever suffered from headaches like I did. The pains felt like an iron band was being drawn around my head and my temples would throb until I was driven almost distracted. I shudder when I think of those awful headaches. I had no appetite either."  
"I owe Tanlac an everlasting debt of gratitude for entirely ridding me of those terrible headaches. My stomach has been toned up too, and everything I eat agrees with me now. Tanlac certainly brought me health and happiness."  
Tanlac is sold in all leading drug stores.

THIN, FLAT HAIR  
GROWS LONG, THICK  
AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant. 10-29

### Big Irrigation Project in the Pecos Country

Pecos, Texas, Dec. 29.—Operations are soon to begin for the putting in and irrigating of nine or ten thousand acres in Reeves county, north of Pecos and near Arno, on the Santa Fe railroad.

The Texas Irrigated Land Company of Chicago, is behind this big project and owns thousands of acres in Reeves county. C. J. Cooney, of Chicago, head of the concern is in Pecos this week in the interest of the project. The company is putting out \$500,000 in bonds to pay for the project and is said to be well financed to carry the job through to completion. It is planned to put in a diversion dam to carry the water through the Old Dixieland canal. Four miles of new canal will be dug above the old dam. The company plans to put in 1,000 acres of alfalfa at an early date says the West Texas Chamber of Commerce. This concern owns the townsite of Arno and is also one of the largest owners of oil lands in this vicinity. Affiliated with the land company is the Drilling & Development, which will resume operations on the "Helen S" well, near Arno.

### DOUBLE WEDDING SOLEMNIZED AT FIELDS HOME SUNDAY

Christmas bells were not the only bells that rang out the glad tidings of a bright Christmas morning, but the wedding bells pealed forth its glad tidings, announcing a double wedding in the afternoon of the same day of the marriage of Mr. C. C. Crow and Miss Bertha Fields, daughter of J. N. Fields, also Jess Snyder to Miss Kate Sanford, daughter of Mr. and Mrs. Sanford, living two miles southwest of town.

Both couples were married at the home of J. M. Fields, at four o'clock by the Rev. Hunt, in the presence of only a few invited guests. Both young couples were the recipients of many useful and beautiful presents by their friends and relatives.

After the wedding ceremony was over, a six o'clock dinner was served by Mr. and Mrs. Fields to the newly wedded couples and their friends and guests.

The two young couples will start housekeeping in Abernathy at once and will be at home to their friends as soon as they get moved into their new homes, and the blessings and many happy wishes from their hosts of friends will go with them into their homes.—Abernathy Review.

### Maize Sold for \$22.00 Per Ton When Fed Hogs

Abilene, Texas, Dec. 27.—G. H. Tucker of the Merkel section, a visitor here Saturday, told local newspaper men that he has demonstrated to his entire satisfaction that the most profitable way to market maize and other sorghum grains is "on the hoof."

Tucker, who specializes in Poland China hogs and Holstein Friesian cows, declared that he had kept a close account of his hog-feeding operations this year and has found that by feeding his maize to his own hogs, he realized \$22 a ton for the maize—whereas maize is a drug on the market at \$7 and \$8.

"There is always a market for the hogs," Tucker said. "It is not always possible to find a market for maize, and if you do find one, it is liable to leave you holding an empty sack. I have found that by feeding milk to young pigs from my big producing cows and by using home-grown maize instead of trying to market it I have done very well during the last four years. The work is lighter and the returns more sure. I used to be a one crop farmer, but not any more for me."

Tucker was a big winner of prizes in the hog division at the West Texas Fair at Abilene last September.

### GOLD ON THE NORTH PLAINS! WHAT NEXT?

The Shamrock Texan reports a gold find near Shamrock in Wheeler county, found by Tom Timberlake, a farmer of the county. Mr. Timberlake stated that a few years ago while living in Lamar county on a good farm, he dreamed several times that he would find gold in the North Plains and the dream was so firmly impressed upon his mind until he became disinterested, sold out and moved to Wheeler Co. 3 years ago. He was convinced that his dreams were not a myth that he began digging in a field near his home, and began finding indications at once. The showing kept getting better and after going to a depth of sixty feet, found much gold and some silver.

He has had the mineral tested several times, and his latest was made by a company at Joplin, Mo. and this company reported a good showing, and was interested enough to send a representative last week to see the owner and made him such a flattering offer that a deal was closed in the way of a lease and a contract signed immediately and work to begin.

### F. R. FRIEND RETURNS FROM VISIT TO OKLA.

F. R. Friend, who is associated with the Security State Bank and Trust Company of this city returned a few days ago from a visit to his old home, Childress, and a short visit with his sister in Mangum, Okla.

Mr. Friend reports' conditions fine for business in Childress and people of that section are optimistic as to what the future has in store for them. In the Mangum territory, however, there is a different condition present which is temporary holding business down, but which may, in the end prove beneficial. That is because of the fact that about 85 per cent of the farmers of that section belong to the Farm Bureau and as a result only enough money to about cover ginning, picking and incidental expenses have been realized so far. This condition will disappear shortly when the movement of the Farm Bureau Cotton begins is the opinion of the men of that section.

### MOODY NEWS ITEMS OF THE PAST WEEK

Christmas has come and gone, and sure enough, old Santa came to our place in a Ford as there was neither ice nor snow for his reindeers to travel on. But it is marvelous how much old Santa can carry in that old Ford of his. For he had a present for everyone in the community, and for some, twelve or fifteen, besides a present for each visitor. There was so much left of the general treat of fruits, nuts and candy that at Sunday School, Sunday, it was divided among all the different families of the community and each had enough treat to have sufficed had they not got anything at the Christmas tree.

New Year's day will soon be here. A time for making new resolutions to be broken the next day and each succeeding day, throughout the 365 days, until another New Year.

Walter Frazier, recently of this place, who left for Merkel, a few weeks ago, was back at Moody Christmas eve, to see the people and incidentally to attend the contest here, at that time. Walter rode a Broncho mule and he also won first place in the goat roping contest.

The cold wave that swept over us Saturday was quite a disappointment to us all. We had a good crowd present, but many who had planned to come, did not, on account of the bad weather. We noticed quite a number from Loveland and Ropes, besides the following ranches and possibly others, were well represented: Snade, Whaley and Jones, Abernathy, Johnson, and Slaughter ranches. In the horse race an animal belonging to Mr. Langley, won. But the foot race did not materialize for the lack of some one to run against Moody's runner, Ullis King. We do not think they were afraid of Ullis—but just didn't want to enter the race, but when the time came to run, all but Ullis had vanished without even so much as an excuse left to trace them by.

Mr. Mullins and family, of the Abernathy ranch, attended the exercises Saturday evening.

Mr. Moore and family of the John Jarrett place also attended the Saturday evening exercises and remained for the Christmas treat at night. They took supper at the home of Bill Murray. Both of the above mentioned families are new-comers to the Plains. We welcome them to Moody.

Mrs. Nickell's daughter is taking her vacation at home. She will resume her work at Post after the New Year.

Mr. Hyde, of the Johnston ranch, is spending the holidays with friends and relatives near Sweetwater.

Miss Johnny Busby is spending a few days with Mesdames Palmer, King and Murray.

Mrs. Claud Havens spent Wednesday afternoon with Mrs. C. R. Teague. Dick Buck is spending Xmas vacation with his parents at Crosbyton. Hazel Evans and husband, of Ropes, spent Friday and Saturday at the home of her parents, Mr. and Mrs. Bob Swofford.

The families of John and Bob Swofford and Roy Cline, were shopping in Lubbock Thursday.

The family of Prof. Dopson were Moody visitors Saturday. They live in the Foster school district, of Lubbock county.

W. G. Murray and wife and Prof. Teague and wife were shopping in Lubbock Friday.

School was suspended last week on account of Prof. Teague's having to attend the teachers institute.

Mesdames Pepper and Patterson, two more of Moody's new citizens, attended the exercises here Saturday evening and at night. They recently moved here from Stonewall county.

Mr. A. E. W. White, who is now in Arkansas sent home quite a lot of Mistletoe and Holly for the Christmas decorations. It was quite a treat as some here had never seen either except in artificial form.

Mrs. Bill Chism returned Sunday from a visit with her twin sister at Slaton.

In the trapping contest up to Christmas, Bill Murray had caught thirty-eight coyotes, and Ullis King fifty-six. Mr. King has been trapping on the Boyd ranch and Mr. Murray in Bailey County, near the Mexico line. Think what this means if each of these coyotes should have caught only one calf, or fowl, a year—which is not at all likely.

The singing at the school house Sunday night was well attended, but the singers were all so full of Christ-

### H. Carr Died Near Abernathy December 22nd

The death of H. Carr, on December 22nd, was not a surprise to his friends in Abernathy, as he was subject to heart trouble and had not been feeling well for some days, previous to his death. He was taken suddenly ill the first of the week with this old trouble and continued getting worse until Thursday morning, when death came to relieve him of all earthly pain.

He was buried Saturday afternoon in the Odd Fellows cemetery in Abernathy and was followed to his last resting place by relatives and sorrowful friends. Rev. J. H. Hunt conducting the funeral ceremonies.

The deceased was sixty-five years old at the time of his death, and was born at Falcon, Ark., moving to Texas thirty-six years ago, first locating in Lee county and from there moved to the coast country and remained there three years, coming to West Texas four years ago and settled at Southland, from which place he moved to Abernathy about a year ago, and has lived here ever since.

The deceased leaves a wife and five children, four boys and one girl. Two of his sons live here and two at Mexia, all four being present at the funeral. The daughter, Mrs. H. L. Cantloui whose home is at Greenville, Texas, was also present. Mrs. Jennie Carr Pittman, living at Prescott, Ark. was wired the news of her brother's death and arrived in time to attend the funeral.

Mr. Carr made many friends during his short stay in Abernathy which was manifested by their constant care and watching at his bedside during his sickness, and they all join in extending sympathy to the widow and family.—Abernathy Review.

### Work Will Be Resumed On the Abernathy Well

Progress is being made with rapid strides in every phase of the oil well proposition, and the rig builders are now on the ground ready to do what little rebuilding and repairing necessary on the rig in order to put it in the best of shape to stand the strenuous work of going to the depth of 3500 feet.

The money is being collected at this writing and only a very small percent is still uncollected, according to reports of the various committees and we feel safe in saying that by Saturday of this week all of the capital stock will have been subscribed and the money paid into the various depositories in the towns interested.

The attorneys are preparing the papers in regard to the organization, which is being done with great care so as to avoid any misunderstandings or complications in the future.

It now seems certain that the first of the coming year will see the drill going again and everyone is very hopeful for the final outcome. It speaks well for the progress of the Plains country that she can in these times raise the money to further develop a country already greater in many ways than most of the State of which we are a part.

Mrs. T. B. Stone left last week for Central Texas, where she will visit for some time with friends and relatives at her old home in Dallas and Forney.

Mr. and Mrs. R. Schroeter had Mr. and Mrs. W. A. Goeth and Mr. H. Ulrich at their home for the good things to eat on Christmas day.

Gleams of happiness and good cheer met the large crowd that attended the Christmas tree at the High School auditorium in Abernathy Saturday night.

The hall echoed with a merry greeting when Santa Claus made his appearance, and the little fellows eagerly awaited for their names to be called out from some package, mother and father, or brother and sister had placed on the tree. But the grown-ups were not forgotten, for many received handsome presents put on by parents, sweethearts and friends.

A short program, with prayer by Rev. Hunt preceded the distribution of the presents. After all this was over a few minutes were spent in the mingling of friends and merry conversation and when time was announced for lights out, the kiddies and grown-ups gathered together the good things that Santa had brought them and departed for home.

Mr. L. E. Pinson and family spent Christmas day with Mr. Pinson of Hale Center.

Mrs. "Dutch" Crow left on the South bound Santa Fe Monday morning to visit her parents and friends at Brownwood, Texas for a few days.

Misses Myrtle and Orressa Hembree, from Plainview, are spending a few days in Abernathy, visiting relatives and friends.

We noticed several loads of lumber going out of Abernathy to the country the past few days, a good indication of farm improvements among the farmers of this community.

E. P. Crow left last week for an extended visit to friends and relatives in and near Brownwood, Texas.

A large crowd gathered at the depot Monday morning to say farewell to friends and relatives who were visiting in Abernathy during

the holidays and who were leaving for their homes in various parts of the state.

The infant child of Mr. and Mrs. L. C. Campbell died last Sunday and was buried in the Abernathy Cemetery Monday afternoon.

J. A. Ludrick, a farmer and stock-raiser from near Hale Center, was in town Monday on business. Mr. Ludrick is putting on a sale of his fine registered young hogs, which are recognized as being the best strain of hogs ever brought to the Plains country.

Mr. and Mrs. Welcome Ragland were among the guests invited to a Christmas dinner at the country home of Mr. and Mrs. W. T. Young. Several other guests were present to enjoy the good things the host and hostess had prepared for the occasion.

Miss Ethel Young and Miss Carrie Lutrick are the week end guests of Mr. and Mrs. Welcome Ragland.

Miss Rosa May and Golda Jones spent Tuesday in Lubbock with friends.

Mr. and Mrs. Ed. Bledsoe left Monday to spend a few days with Mrs. Bledsoe's parents at Valley Mills.

Miss Helen Evans, one of the high school teachers in Bowie, Texas, is here for the holidays visiting her parents, Mr. and Mrs. E. R. Evans.

Will Murray from Floydada, spent Christmas in Abernathy, visiting his friends and relatives of this place.

Oliver Crow and wife came up from their home in Slaton for a two days visit to their parents and friends in Abernathy.

The good roads running into Abernathy from most every direction is a great convenience to the farmers in bringing their produce to market, and our town is gaining many new customers from a distance from this fact alone, not mentioning the inducements offered by our merchants in the way of cheap prices as compared with other places. It is often heard remarked by the shoppers coming here to do their trading that they can do better in the way of better prices than at any of the larger towns, and they are proving this by their loyalty to their "own home merchants."

Farm life proves profitable as well as a pleasure in the Abernathy community. A few more of our progressive farmers have just installed lighting plants on their places. Dick Neis and Chas. Goeth have one each, just installed and are well satisfied with their new car-bide light. With these improvements as well as many others going on, this locality among the farmers, it is needless to say that they are beginning to realize that farm life can be made as comfortable, convenient and enjoyable as it can in any town and more independent, and at the same time save up something for a rainy day.

Do not worry and look as blue as a Jay Bird. It does take some time to drill an oil well, or a gas well. Do not forget that we have a fortune right here, without the oil or gas well. And this fortune lies right in the

first 6 in. of soil. Of course we do not realize the profits out of farming as fast as out of an oil well or gas, but it is safer. It does take the good farmers and business men of Abernathy, combined to make a thorough test of the oil and gas possibilities. And we will sure enough have the test made.

Christmas in Abernathy was a day of worship, big dinners and general enjoyment. All day long the streets were almost entirely deserted. Grown-ups were enjoying the home comforts while the youngsters were taken up with their gifts from Santa Claus.

The Dallas News rises to remark that automobile license cost about ten times more than marriage license, and is not worth that much difference. Well that may be so in some cases.

Geary Redman, of the Lubbock Avalanche, spent Christmas with his father of the Review.

Mr. and Mrs. M. Goebel entertained many friends at their home, 6 miles Southeast of Abernathy on the afternoon of Xmas day.

J. W. Hembree, tax collector for our Independent School District, left last Friday for his home in Plainview, to spend the holidays with his home folks.

Mr. and Mrs. J. N. Daniels visited Lubbock Friday on a shopping tour.

Saturday, Christmas eve was a busy day for the merchants of the town. In making our rounds we noticed that in each store we visited an extra clerk was put on to wait on the crowds and eager shoppers that crowded the stores.

One day last week the Farmers Coal and Elevator Co. reports the buying of more than six thousand bushels of thrashed maize from the farmers of this territory, paying for same 60 cents per hundred pounds.

In company with C. C. Goodman, we visited Lubbock last Friday and found the town full of Christmas shoppers and things looked as though business was good in all lines. We passed one or two fields of wheat which looked surprisingly well, considering the long, continued dry weather.

Mr. and Mrs. Tom Arnett, brother of our postmaster, J. C. Arnett, came in from the Spade ranch last of the week and spent a few days here, visiting friends.

Miss Mary Evans, one of the teachers in the Amarillo schools is spending her vacation at home with her parents, Mr. and Mrs. E. R. Evans.

Miss Willie Pearson, Mr. Herman Shultz, Mr. Harry Edison, the Review man and his son Geary Redman of Lubbock were guests at a two o'clock Christmas dinner at the beautiful home of Mr. and Mrs. C. G. Goodman. The dinner was daintily served in three courses, presided over by the hostess who made each guest feel the spirit of the occasion by her personal attention.

It was a pleasure to be one of the guests on this occasion, the good dinner, the Christmas cheer and the home-like atmosphere that prevailed throughout the entire time, is not one soon to be forgotten, and speaking personally, will be remembered as one of the most pleasant Christmases spent by us in recent years.

### Large Sulphur Deposit Discovered North of Pecos

Pecos, Texas, Dec. 29.—Sulphur ore has been found in an area twenty miles square, thirty-five or forty miles north of Pecos, and in many parts of this section the ore found assays a heavy percent of pure sulphur. The ore is found in paying quantities in several sections and is in thick stratum right at the grass

roots in some places. The area covered and the tremendous deposits of sulphur, visible plainly even to the eye of the layman, is indeed interesting, especially when one considers the fact that there are few places on the North American continent where sulphur in paying quantities may be found and that only two other mines in the United States is said to furnish ninety percent of the world's supply.

Furthermore the proximity of the paying strata to the surface, in this field, makes it exceedingly promising for easy mining. The sulphur in the two great fields of the south, at Sulphur, Louisiana, and Matagorda, Texas, has to be brought up from a depth of several hundred feet.

Several companies have secured holdings in the Culberson county sulphur bearing field and two or three of these have started machinery for mining and refining of it. But none of these companies has made very great progress except the Toyah Valley Company. This company now has around 4,000 acres part of which is owned in fee simple and the other in leases. Information coming to the West Texas Chamber of Commerce states that immense investments have been made in buildings, machinery and equipment and same is now about ready to begin actual refining of sulphur on a large scale. The main plant at the mines represents an investment of over \$100,000.

Recent enrollments have compelled the managers of the Lubbock Business College to make considerable improvements in the class room, the latest addition being six new improved Remington Typewriters which were received last week.

There are more than twenty-five students enrolled at this time, and the school is rapidly growing, Mr. Nordyke said.

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use.

Mrs. M. Neal, Snyder, Texas, says: "When I bent, it was a painful task to straighten again, as the pain in the small of my back was so severe. I was greatly annoyed by the irregular action of my kidneys and mornings I would feel tired and languid. ### TAKING DESPERATE CHANCES.

It is true that many contract severe colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack and paves the way for the more serious diseases. Can you afford to take such desperate chances, when Chamberlain's Cough Remedy, famous for its cures of bad colds may be had for a trifle? 28F

ing the attention of thinking men, and many are trying hard to think of some remedy that might be applied to cure the terrible disease that our State is afflicted with: R. C. Horn, a prominent writer of McKinney has penned the following paragraphs which will no doubt be of interest and probably of value when it comes to helping conditions: That crime has been on the increase for some months is evident to those who read the records of our courts. The desire for money has, with criminals destroyed the respect for human life. Men are shot to death because they refuse to give up their money. It matters not how many crimes a man commits he has sympathizing friends.

notorious murderer, Tom Slaughter, had more respect shown for his career at his funeral than many of the best and lawabiding citizens. This respect shown for the life he lived is one of the breeders of crime it removes the fear of disgrace being attached to one's name. Criminals have been made heroes of life by the movies. In this way youths are educated in the plans of criminals.

**Light Penalties.** Another cause of crime is the light penalties attached to law violations. Men take the risk with a light fine or imprisonment; or hope of receiving, if caught, only perhaps by playing trusty an early pardon. Often criminals pay no penalty by pleading guilty and receiving a suspended sentence. Penalties should be made so severe that men would fear to take the risk for the gain.

**Idleness.** Another cause that leads to crime is a disposition to shun labor, unless its very light. I have never been able to understand how some men can dress well and do nothing unless they have inherited a fortune. Too many men are hunting soft jobs. The places they would like to have are filled by ladies, which is right. A young man who is too proud to do rough work is on the road to a life of lawlessness.

**Evils Follow War.** There is no doubt but the World War is the cause of the increase of crime. I remember that following the war between the States crime was multiplied four-fold, compared with years preceding the war. Men were murdered for their money or other valuables. The older men remember Ballew, Early, Blakemore and Thompson. Theft was a daily occurrence in our country.

**War Hardens Men.** As a rule soldiers lose all sympathy for a suffering man if he is an enemy. They become like the savages in nature. They look at the life of a man no more than that of an ox. They lose all their fear of future punishment for crime. To them the Bible teaching that "no murderer hath eternal life abiding in him" is a mere "scrap of paper." They fear neither God nor men.

**Suggested Remedies.**  
1. More severe penalties and much stricter law enforcement.  
2. Give the public the names and crimes committed of all law violators who are found guilty.

3. Let schools of all grades teach the evils of war and benefits of peace.

3. Let the preachers declare the judgments of God against the evil doer. Let them preach the hell and damnation of the scriptures until the criminal, like Felix of old, shall tremble.

**The Bible School.** The present Bible school work by the churches gives great hope for future peace. We should have lessons on the evils of war. We should show the boys and young men the useful life of the righteous and the evil life of the criminal. Draw a comparison between the life of a minister and a criminal. Instill honesty into their young minds as a principle and not a new policy.

If the conference of nations now in session at Washington City can agree on a plan that will cause the dove of peace to spread her snowy wings over the nations of the world, crime will soon be reduced to the minimum. All Christians should pray God to so guide them as to cause them to bring in the age when we will have "Peace" on earth and among men good will."

### MAN'S CUPIDITY CAUSE OF PREVAILING STYLE TODAY

New York, Dec. 26.—Responsibility for women's immodesty in dress has been placed squarely on man's cupidity by Bishop Alma White, the head of the Pillar of Fire denomination.

She told a Brooklyn congregation that man really was "the culprit behind the scene" and that all "the low-necked and sleeveless gowns, the short skirts and gauzy stockings were outgrowth of his schemes for gain."

For selfish and mercenary purposes, she declared, man had forced woman out half clad before the public gaze to become the object of unkind remarks and criticisms.

The bared neck, she asserted, was nothing less than a trick of the furrier and the jeweler. The length of the skirt was a subject woman never was consulted about, she declared.

## Wool Pool Sold By Farm Bureau Profits Growers

Dallas, Texas, Dec. 29.—"We have sold 1,000,000 pounds of wool and mohair in 60 days at prices that range from 5 to 12 cents per pound above those received by wool growers outside of the organization," said Geo. E. Rutan, Salesmanager of the Southwest Wool and Mohair Growers Association who has just returned from the North and East where he disposed of holdings of the organization direct to the spinner.

He sold 100,000 pounds of mohair, basis 23c, some clips at 15 to 30 cents. Kid hair brought 50c per pound.

Mr. Rutan states that he has open orders for more than 1,000,000 pounds of wool and mohair for the coming season.

Following are the prices obtained, according to Mr. Rutan together with comparisons with local markets on the same days: 300,000 pounds fine staple and 1-2 blood sold at 25c pound, while local Texas market prices range from 16 to 23c. 50,000 pounds 3-8 blood at 21c, local prices to non-members 15

and 16c. Seventy-five thousand pounds 1-4 blood at 20c as compared with local prices of 14c. 125,000 pounds fine medium staple and 1-4 blood medium staple at 22c as compared with 15 and 16c paid non-members by cash buyers.

Scoured seedy wools, according to Mr. Rutan brought 60 to 75c a pound while scoured wool was sold for 60c. There is no way of comparing this sale with growers sale because growers do not sell scoured wool.

J. E. Boog-Scott of Coleman, is President of the Southwest Farm Bureau Wool and Mohair Growers Association. There are 500 members in the organization.

## NEW PEACE DOLLAR TO BE FIRST CHANGE IN DESIGN IN OVER TWENTY-FIVE YEARS

San Francisco, Cal., Dec. 26.—Ray Baker, United States director of mints at Washington, who is here spending his holidays, described the new "peace dollar" which is to be minted soon.

"Inasmuch as there has been no change in the design of the silver dollar since 1875, I thought that the time was ripe for a new design," Baker said.

"The law provides that the design can not be changed within twenty-five years but that after that period it may be changed with the approval of the Secretary of the Treasury. This having been secured, the committee on fine arts instituted a contest in which eight of the leading sculptors of the country engaged. The award went to Anthony de Francisci.

"On one side of the new coin is a new Liberty head with 'Liberty' written across the top and '1921' at the base. On the reverse side the American eagle is disclosed standing in repose on a mountain peak with an olive branch in his claw. To the right of the eagle is a rising sun marking the dawn of a new era. At the top of the mountain peak is the word 'Peace' and at the top of the coin is the familiar 'E Pluribus Unum' and 'U. S. A.' and 'One Dollar' disposed as in all the United States coinage."

Before leaving the East, Mr. Baker arranged for the coinage of the new silver dollar at the Philadelphia mint.

**ESTIMATED COTTON YIELD FOR TEXAS**  
F. N. Gray, cotton statistician of the Bureau of Markets and Crops of the United States Department of Agriculture, makes the following estimate of the cotton crop in Texas for the year of 1921 and 1922 will amount to 1,052,480,000 pounds (not including linters), equivalent to 2,200,000 bales of 500 pounds gross weight (478.4 pounds lint and 21.6 pounds bagging and ties estimated per 500 pounds gross weight bale), according to the Texas cotton crop statement issued today, by F. N. Gray, cotton statistician, Bureau of Markets and Crop Estimates, United States Department of Agriculture. The statement continues:

Total production in 1920 was 4,345,282 bales, 500 pounds gross, according to the census.  
The average yield of lint cotton per acre is estimated at 96 pounds, and the harvested acreage at 10,961,000 acres.  
This is one of the lowest productions in history; the lowest within the crop of 1907, when the production was 2,267,283 bales, 500 pounds gross weight.  
The total crop for the State of Oklahoma was announced as 530,000 bales.

**SEVEN LEADING NEWS-PAPERS OF TEXAS SUED**  
Seven of the leading newspapers of Texas were made defendants in suits of \$50,000 each, or a total of \$350,000, for alleged libel filed by Maj. C. C. Cresson, Judge Advocate General, Department of the army. These suits are based on a story claimed to have been printed by these papers in August 1921, revolving a report of the Congressional committee, which investigated the Bergdoll and Hunt cases.  
Major Cresson, who prosecuted both Hunt and Bergdoll, charges the story fails to correctly state the committee report and does him a grave injustice. The newspaper companies sued are: A. H. Belo and Company, publishers of the Dallas News, Galveston News and Dallas Journal, against which three suits were filed; the Wortham-Carter Publishing Company, publishers of the Fort Worth Star-Telegram; the Record Company, publisher of the Fort Worth Record; the Houston Printing Company, publishers of the Houston Post, the Chronicle Company, publisher of the Houston Chronicle.

**FALL FROM HORSE IS FATAL TO ABERNATHY MAN**  
G. E. Johnson, well-known and successful farmer of Abernathy, died at a local sanitarium here Wednesday morning as the result of wounds received when his horse fell on him while riding after some mules on his farm, four miles west of Abernathy Tuesday evening about eight o'clock. Immediately after the accident he was rushed to Lubbock where medical attention was given him, but he never gained consciousness.  
The remains were prepared for shipment by the Rix Undertaking Company and removed to Carey, Childress county, Texas.  
Deceased was about thirty-five years old, and leaves a wife and four children, one brother at Abernathy and one at Hale Center and has been a resident of that community for about three years.  
In the old days we used to drown sorrows; now we just let them die of thirst.

**MORE FARMERS FOR LUBBOCK COUNTY ARRIVING**  
W. K. Johnson, of Shackelford county, was in the office Tuesday and said he was looking for a farm for himself and a son, Haze Johnson, and they expect to farm here next year.  
He said he had raised only about one-fourth of a bale of cotton on the Shackelford lands and was willing to try the Plains for a while. We are sure that through their coming here Lubbock county has gained some farmers of real ability.

**No Worms in a Healthy Child**  
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

## Senior Class Play, "When a Feller Needs a Friend" Was Well Attended Last Thursday at the Lindsey Theatre

The farce comedy, "When a Feller Needs a Friend," presented by the Senior class of the Lubbock High School, at the Lindsey Theatre Thursday, of last week, was a complete success, and every part was acted well.

The young people of this class are taking advantage of every educational opportunity, and that they are training themselves as such competent entertainers speaks well for them, and is a credit to their instructors.

We are sure that everyone who saw the play was impressed with the manner in which it was conducted, and feel that Lubbock is fortunate to have within its borders such alert, ambitious and worthy school students, who are a credit to the town and bid fair to develop into its most successful builders and boosters.

The present day schools, while they are often commended on as being inferior to the old-style systems of reaching, or applying practical business training with the regular lines of study, and the business men who fall to keep step with the march of time, are liable to awaken someday facing a superior competitor in the business world when these students are away from the daily routine of school work, and thrown upon their own resources, as in this school the young men of the Senior class are accepting the responsibility of some of the school work with the aptitude of an experienced business man, and in this they are meeting with splendid success, which proves that they are looking upon the business side of life, and making rapid progress in attaining the real essentials of a successful business career.

The splendid manner in which this play was conducted merits the best words of encouragement any of us might offer, and we hope that those who witnessed their performance throughout the play, will be thoughtful and express their appreciation to each and every member of the class, as there is nothing in the life of a young person that is more elevating or creative of ambition than to know that what they do is appreciated.

The class has worked hard on the play, and we are sure that in every town where it will be shown the people of Lubbock will go with them, proving to the people that it is worthy of their best consideration and good patronage, which it is.

A very noticeable and attractive program was prepared and printed for the occasion, which is proof enough that the young men who are managing the play are leaving nothing undone in making it appear as the performance of a first class lyric course or chautauqua number,

which was favorably commented upon by the audience.

J. R. Bow, Kent Knox, Carlisle Tubbs and Guy Pierce, Misses Alta and Ala Burrus, Sylvia Wilson, Annielee Simpson and Edith Wheelock were the participants in the play, and we hope that they will continue to enjoy the same success throughout the term as they have this far, and assure our readers that when they advertise an entertainment of any kind, it will be everything they say it will, and more, for they are doing some hard work this year and it is plainly seen in their every undertaking.

They expect to play at Littlefield, Post City and Floydada in the near future.

### LOCAL ITEMS FROM THE LYNN COUNTY NEWS

It has been suggested by a good Lynn county farmer citizen that the Tahoka Chamber of Commerce take a census of the north, northwest, east, and northeast portions of the county to ascertain the number of bales of cotton that has been raised this year. A large portion of the cotton raised in these communities is ginned in Lubbock, Slaton, Southland and Post. The News is in hopes that the local chamber will act on this matter and secure first hand data for publicity throughout the state.

Early Friday morning of last week Messrs. Eli Lam, B. C. King, Jno. Donaldson and two gentlemen from the Grassland community, departed overland on a hunting expedition on the Llano river in Mason county. They expect to be absent from home one week, returning today.

J. S. Weatherford, a former Tahoka citizen, spent the week-end in Tahoka looking after business matters. Mr. Weatherford moved his family to Lubbock several weeks ago in order that Mrs. Weatherford might receive medical aid in a sanitarium. Presiding Elder G. W. Shearer accompanied by Rev. Ross, of Lubbock, filled the pulpit at the Methodist church Saturday night and Sunday morning.

Rev. E. M. Brunson, Baptist minister, residing just south of Tahoka, united in marriage Saturday afternoon, Mr. Jim Fenton and Miss Cora Parryman, popular young people of Lynn county.

Will Montgomery went up to Lubbock Friday to be in attendance at the bedside of his sister-in-law, Mrs. Hardy Montgomery, who was in a critical condition with flu-pneumonia at that time. She is reported very much improved at this writing.

### WEEKLY MARKET LETTER

Kansas City Stock Yards, Dec. 26, 1921.—Though some of the other markets were closed and there was a general holiday in other lines of business, the market here for live stock was active with prices strong to higher. Fat hogs sold up to \$7.50 the highest price this season and lambs sold up to \$10.85 the highest price since last June. Fat steers and stockers and feeders were steady, and butcher grades strong and active. A good clearance was reported.

**Today's Receipts**  
Receipts today were 3500 cattle, 4500 hogs, and 10,000 sheep, compared with 10,000 cattle, 8000 hogs, and 15,000 sheep a week ago, and 4900 cattle, 300 hogs, and 5200 sheep a year ago.

**Beef Cattle**  
Receipts of fat steers today were small, and while packing houses were steady the supply was cared for at steady prices. Most of the offerings were plain steers that brought \$6.25 to \$6.85, yearlings up to \$7.25. Average quality was plain. Butcher cattle sold readily at strong prices. Killers wanted good cows and heifers. Veal calves quoted strong. The general position of the market is firm. The packers have normal supplies of men at work, and the congestion at Eastern beef distributing centers is clearing up.

**Stockers and Feeders**  
Trade in stockers and feeders was active at steady prices. Receipts were small, and the offerings cleared readily. Good to choice classes were scarce. The run of stock calves is about ended.

**Hogs**  
Trade in hogs opened early at strong prices and closed 10 cents higher and active. Packers were the principal buyers. Shipping demand was small. The top price was \$7.30 and bulk of the offerings sold at \$7.10 to \$7.20. Pigs sold up to \$7.35. Shippers will be in the market the rest of the week with increased orders.

**Sheep and Lambs**  
Lambs were quoted 10 cents higher and sheep strong. Most of the fat lambs sold at \$10.50 to \$10.85, or the highest prices since early June. About 5000 Texas sheep and lambs were on through billing to Missouri feed lots.

**Horses and Mules**  
Trade in horses and mules was practically suspended until after the holidays. Early January is expected to bring increased trade.

## Representative of Children's Aid Society Is Here

Norma A. Cunningham, with headquarters at Amarillo, was here Thursday looking after the interest of the Texas Children's Home and Aid Society, and will return again Saturday and will work in the interest of the association here.

Any one wishing to adopt an orphan will be given the attention of Miss Cunningham Saturday at the Red Cross Rooms, where she will make her headquarters while here. We are called to the attention of the depressing conditions which exist throughout our own state from the improper care and neglect of children by a little bulletin or folder distributed by the association, and the information it contains is very valuable, and is designed to make one feel more their responsibility of caring for those who are unfortunate in the time of their lives when they are incapable of taking any blame whatever for their condition. "A child saved—a Citizen made" is the slogan of the society, and we are sure that the people who head this great institution are alive to the needs of these little ones, and are wanting to place them in the hands of those who are more able to provide for them. Human service to these little ones is the best contribution one could possibly give to charity, and if there is anyone in Lubbock who would be interested in adopting a child we insist that they get in touch with Miss Cunningham Friday.

The association is also asking money from those who are in a position to help carry on their work, and if there is anyone who is able to place money at the most needed place, it is the heads of such organizations or associations as the Texas Children's Home and Aid Society, who are insisting that the children of Texas be given "Childhood's rights" instead of being allowed to drift on through the various human scrap heaps of reform schools, and who are designating these rights: "A normal family home, religious, educational and recreational opportunities," and whose mission it is to "Form—Not Reform."

It will be well worth your time if you are interested in the present problems of society to call on Miss Cunningham and receive a first hand information about the work, and for whom, and why this great organization, of which she is a part, was instituted. Remember she will be at the Red Cross room Friday.

**CHAINS NECESSARY FOR WOULD-BE ELKS**  
"What did he do?" and "How many years did he get?" were some of the common questions asked on the streets Tuesday when the local Elks chained some of the to-be candidates for the initiation Tuesday night to lightposts on the main streets to insure their being on hand for the meeting, and as Curtis A. Keene and Dr. Castleberry looked a little suspicious and some fear was held that there was a possibility of their evading the meeting, they were necked together with a large chain, and made to watch each other very closely, and it is needless to say they reported to the meeting, as there was the only place the proper key to unlock the chain would be used.

They had a good time from all reports, and Hubert Crawford was initiated into the order, and the second degree was given him, together with two of the older members, C. B. Musgrove and Walter Neves.

**ATTORNEY GEN. DAUGHERTY CALLS UPON STATES FOR AID**  
Washington, Dec. 27.—Co-operation of State law enforcement officials with those for the Federal Government was asked by Attorney General Daugherty in letters sent late today to the Attorney Generals of the various states. Such co-operation, it was maintained, would result in better and more uniform enforcement of all statutes.

Enforcement of the prohibition and the food and fuel supply laws were particularly referred to, Mr. Daugherty explained, in announcing the dispatch of the letters. There was no disposition on the part of the Federal Government to evade responsibility, he said, but there was a feeling that the State should make every effort to enforce their laws which might be a duplication of Federal statutes.

**LUMBER FOR SALE**

### THE CALDWELL NEWS OF THE PAST WEEK

Almost all of the people around here are done pulling holes for this season.

Mr. J. I. McDonald and wife are visiting with their relatives near Anson this week.

J. C. Shaw has been visiting in Red River County, but has returned. G. P. Malone has been having some trouble with his windmill, but just about got it in running shape again.

Miss Gertrude Snyder and Bill Waldrup, of Childress, were united in marriage December 18. We wish them a happy and prosperous life. They returned to his home Monday the 20th. May God's blessing be bestowed on them.

Knox Landers is visiting with his parents and other relatives near Roton, Lamar County, this week. He says it is raining down there and things are somewhat wet.

Mrs. D. F. Cooper, of Crosbyton, has been visiting with her sister, Mrs. G. P. Malone, but returned home Wednesday.

Mr. and Mrs. George Broose, of Childress have been visiting with her parents, Mr. and Mrs. Snyder.

Joe McDonald and wife are spending Xmas with her parents, Mr. and Mrs. Edd Jillett.

Mr. Hess and family were visiting in the Tomlyson home near Badger Lake Sunday.

Miss Viola Parker, of Crosbyton, is visiting with her sister, Mrs. Cora Shaw.

Miss Jimmie Montgomery, sister of East Texas, is spending a few days with her.

Miss Katie Sanford and Jess Snyder were happily united in marriage, Sunday December 25. We wish for them a long and happy life.

**LARGE WAGON FACTORY TAKES BANKRUPTCY ROUTE**  
Buffalo, Dec. 28.—A marked shrinkage in the demand for wagons is given by the Wayne Wheel Company of New Ark as the chief reason for a voluntary petition in bankruptcy now before the federal court. Liabilities are placed at \$122,050 and assets at \$182,424.

Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

### AMERICANS SPEND MILLIONS TO SEE THE MOVIES

Washington, Dec. 27.—The American people spend from \$750,000,000 to \$1,000,000,000 a year to see motion picture shows, the Senate Finance Committee was told today in the course of arguments for and against a high tariff on foreign-made pictures. The investment in the industry totals about \$250,000,000 and employment is given to about 250,000 persons.

Paul B. Turner of New York, speaking for the Actors' Equity Association, testified that the idea that everybody connected with the industry made "big money" was erroneous; that 96 per cent of those engaged in making films received only "a living wage."

C. E. Maedgen is visiting relatives in Temple, Troy and Dallas, and will be away until about the third of next month.

R. D. Waters was here from Corsicana Tuesday and Wednesday.

A. M. Arnold, of Ralls, transacted business here Tuesday.

F. C. Spree and J. B. Gipple, of Ralls, were here Wednesday.

Miss Venita Eoff, who was operated on for appendicitis in a local sanitarium was carried home Thursday. She is a daughter of S. P. Eoff, who lives six miles south of Lubbock.

Jess Harrison, of Spur, was here Wednesday and Thursday shopping.

**A Cheap Way of Paying Your Board**

**THOUSANDS OF DOCTORS SAY  
THERE IS NO MEDICAL PROPERTIES  
IN WHISKEY, BEER OR WINES**

Chicago, Ill., Dec. 22.—Three thousand and sixty-three physicians in Indiana and Illinois, replying to the alcoholic liquor questionnaire sent to 53,900 doctors by the Journal of the American Medical Association, divided almost equally on the value of whiskey as a therapeutic agent; while a big majority declared they did not consider that wine and beer had any value in medicine.

The Journal in its issue of Dec. 24 will announce the tabulation in these two States, the first in which

the canvass has been completed. In Illinois and Indiana combined 1,552 doctors declared they did not regard whiskey as a necessary therapeutic agent in the practice of medicine, while 1,511 replied they did regard it of value. In Illinois alone 1,149 physicians replied in the affirmative and 594 in the negative, but the Indiana returns reversed the combined totals, 598 Hoosier doctors opposing whiskey and 362 favoring its use.

**Beer Is Opposed.**

On the question of the medicinal value of beer, 855 doctors, 668 in Illinois and 187 in Indiana, believed it to be of value, while 2,193, of whom 1,438 live in Illinois and 755 in Indiana, opposed it.

Wine as a medicine found 1,015 supporters, 804 in Illinois and 211 in Indiana; while its opponents totaled 2,028 being Hoosiers and 1,288 Illinois practitioners.

Five hundred and ninety-three

doctors reported they know of incidents in their own practice "in which unnecessary suffering or death has resulted from the enforcement of the prohibition laws." On the other hand, 2,226 reported they had encountered no such incidents in their practice.

The doctors of both States returned a majority in favor of restrictions on the prescribing of whiskey, wine and beer, and a limit on the number of prescriptions to be issued by any one physician. In the two States, 1,813 replies, 1,163 from Illinois and 650 from Indiana, favored restrictions on the prescribing of alcoholic liquors, while 1,166 opposed such restrictions, 891 of the negative answers coming from Illinois and 275 from Indiana.

On the limitation of prescriptions, 1,781 answers ranged from absolute prohibition of liquor to an increase in the present allotment of 100 every three months, while 1,118 favored the removal of all limitations.

**CALOMEL SALIVATES AND LOOSENS TEETH**

The Very Next Dose of this Treacherous Drug may Start Trouble.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-18

**LUBBOCK BRANCH S. W. BELL TELEPHONE COMPANY**

There are some interesting facts in the development of the Lubbock branch of the Southwestern Bell Telephone that cast a wonderful reflection upon the local management, and the entire population of Lubbock. Lubbock now has more telephones per capita than any other town in the state, and the local manager recently announced that plans are being made to build more lines after the first of January, and as the business has outgrown the expectations of the management when the switchboard was installed, all the plugs are used at this time, and before anything can be done to increase the business another addition must be made.

**New Year Greetings**

**1922**

In recent years the thought of the community rather than the individual has been developed to a remarkable degree. Men are coming more and more to realize that it is both a privilege and duty, as well as good economics and sound business sense, to consider the community, its development and advancement as seriously as they consider their individual well-being. They are coming to know that if the individual is to prosper, the community as a whole and every enterprise in it must also prosper. Now is a time to carry this thought even further and to realize that this wonderful district, which is one of the most productive in the United States, is one big community. Never was there greater need of the community thought as applied to this district as a whole.

May the New Year be replete with opportunities for each and every citizen to contribute by word or deed to the advancement of every community in the district.

Sincerely appreciative of the part your good will, spirit of co-operation and patronage have played in our progress, we extend to you our sincere good wishes for a New Year of continued co-operation and prosperity.

**COTTON FREIGHT RATES LOWERED 10 PER CENT**

Austin, Dec. 23.—The railroad commission in a circular issued today granted a 10 per cent reduction in rates on cotton in Texas, the application for such a reduction being made by the railroads.

Cotton is the first commodity on which rates were reduced under the agreement of the railroads to reduce the rates on all farm and ranch products 10 per cent. It is expected that the railroads of Texas will immediately submit applications for the reduction on the other products.

**HUNTING PARTY HAS SPLENDID DAY**

From all accounts there will be few hunters remember the sporting season of this time of year more favorably than the Brownfield and Houston Spikes and L. E. Hunt, as they motored to Brownfield Monday and from there a few miles North made a sweeping crusade on the quail, until fifty of them were racked, and on the return home a direct hit brought down a beautifully furred quovote.

The men were all three able to be about their work Tuesday and were mighty glad they decided to make Brownfield their hunting ground on this occasion.

**MAN COUGHS UP BULLET RECEIVED IN BREAST IN 1864**

Greenville, Texas, Dec. 22.—R. C. Jones, a farmer, residing in the Center Point community, southeast of Greenville, coughed up a piece of bone in which was imbedded a Minie ball. It was a ball with which Mr. Jones was shot during the Civil War.

While serving in the Confederate Army he was shot just below the breastbone, the ball drilling almost completely through his body at the time. At the time of his injury, in May, 1864, Mr. Jones was 20 years old. He apparently had suffered no ill effects from his wound until a few months ago, when he was seized with coughing spells. These continued with increasing severity until he coughed up the bone in which was embedded the piece of the Minie ball.

Mr. Jones is reported to be resting easy after his experience.

**THE WORLD'S BIGGEST JOB OF HOUSEKEEPING**

Washington, Dec. 24.—Meet the busiest housekeeper in the world. A man, too—Elliott Woods, architect of the National Capitol here. He's a housekeeper on a large scale.

When he outlines his round of duties he makes provision for work carrying him over 60 acres, for one of his minor cares is the upkeep of the grounds of the Capitol which cover that much space. He looks after the drives, the sidewalks, the grass plots, the trees and shrubs, and the Capitol itself.

He also has charge of the Capitol power plant which furnishes heat, light, and power for the Capitol, Library of Congress, and the Senate and House office buildings. Among his other duties is that of keeping the interior furnishings of these buildings in shape.

Architect Woods has finished a hard year's work. Under his direction the walls in the legislative chambers of the Senate and House have been painted; the ceiling lighting of the House has been increased by 2,000 square feet; the ceiling ventilation has been doubled; and more than 14,000 feet of new marble tiles have been laid in the Capitol, and more than 12,000 square feet re-surfaced. The steady march for half a century through the corridors of the Capitol had resulted in a tremendous wearing down of the floor surface, making these repairs necessary.

### CHAMBER OF COMMERCE

By explanation of the downward plunge in industry and the general effect on business, Roger W. Babson, the world famous statistician, cites 12 periods in each business cycle. By the study of these he believes it is possible to forecast with certainty what any industry or section will next enjoy or suffer in a business way. Mr. Babson's summary of the situation, past, present and future, accompanied by his opinion that the sixth period is at hand, follows.

#### The Business Cycle

1. Every cycle begins at the peak of prosperity, accompanied by large profits and high wages.
2. This is followed by a period of inefficiency, accompanied by declining bond prices.
3. Next we have the period of dishonesty and profiteering, accompanied by declining stock prices.
4. Then comes the periodical crime wave with declining commodity prices.
5. Lack of confidence is then everywhere apparent, which results in general unemployment.
6. People must then cut down living expenses, families double up, all of which results in declining real estate prices. This is the end of the general decline and improvement usually begins at this point of the cycle.

#### Improvement Begins

7. Thrift becomes more evident and this results in declining interest rates, allowing banks to loan money to start new building and again set the wheels of industry moving.
8. The unemployment period always results in greater efficiency, which is evident at this point in the cycle. Increasing bond prices are noticeable at this time.
9. People become more honest, fairer prices are asked by both merchants and labor. We get a dollar in value whether buying merchandise or labor, which we did not get during the period of prosperity.
10. Renewed religious interest is now evident, resulting in restored confidence, greater buying with the strengthening of commodity prices.
11. This followed by great activity in all lines, with labor fully employed.
12. The cycle has been completed; extravagance and waste are again in evidence with high money rates.

#### Drop in Here Any Day And See for Yourself

The Chamber of Commerce, like an individual, cannot always be popular; cannot always be right; but it can always be honest and it can always be fearless.

The question occasionally is asked "What is the Chamber of Commerce doing?" It is hoped that the member who makes such inquiry will take the time to come over to the Chamber of Commerce building and learn by observation how progressive we are. It is impossible at any time to carry the office around and show it to the members. You should be interested enough to call around once in a while and see for yourself that you belong to a live organization.

#### NOTICE OF TRUSTEE'S SALE THE STATE OF TEXAS, County of Lubbock.

Whereas, by virtue of authority vested in me as Trustee, named and appointed in a certain deed of trust dated July 6, 1920, executed by J. I. Powell and recorded July 10, 1920, in Volume 14, page 404 of the Deed of Trust Records of Lubbock County, Texas, describing and conveying to said Trustee all of Surveys Nos. Nine (9) and Fifteen (15), Block "D", Lubbock County, Texas, containing 1280 acres of land, for the purpose of securing the payment of one certain promissory note for the sum of Twelve Thousand Five Hundred (\$12500.00) Dollars, dated July 1, 1920, signed by J. I. Powell and payable to the order of the Citizens National Bank of Lubbock, Texas, on November 1, 1920, with interest thereon at the rate of eight per cent per annum from maturity until paid, and ten per cent additional if placed in the hands of an attorney for collection; and,

Whereas, said Citizens National Bank of Lubbock, Texas, is the holder and owner of said note, and said note is past due and unpaid, and the said J. I. Powell has failed and refused to pay the same, and wholly made default in the payment thereof; and,

Whereas, the said Citizens National Bank of Lubbock, Texas, has requested said Trustee to enforce said trust and sell and convey said land in accordance with said deed of trust, and as provided by law; and whereas, said note has been placed in the hands of an attorney for collection and the ten per cent attorney's fees have accrued and the whole of the

principal, interest and attorney's fees aggregate Fifteen Thousand Two Hundred Sixty (\$15260.00) Dollars. Now,

Therefore, I will offer for sale at

public auction to the highest bidder on the first Tuesday in January, 1922, between the hours of ten o'clock A. M., and four o'clock P. M., at the court house door in the town of Lubbock, Lubbock County, Texas, all of said Surveys Nos. Nine (9) and Fifteen (15), Block D, Lubbock County, Texas, with all rights, members and appurtenances thereto in anywise belonging.

Witness My Hand, this the 8th day of December, A. D. 1921.

FRANCE BAKER,  
Trustee.

#### ROAD CONTRACT IS AWARDED IN REEVES

Pecos, Texas, Dec. 23.—Lee Moor of El Paso was awarded the contract for construction of twenty-seven miles of the Old Spanish Trail through Reeves County for \$88,000. The total cost of the improvement is expected to reach \$100,000, which is available. The road will be gravel surfaced and pass from the Pecos County line through an irrigation district, touching Balmorhea and will reach the Head Springs.

A four-mile branch will connect Saragosa with the road. The Pecos-Saragosa road will probably be built next year. Contractors are now working on a forty-mile stretch of the Bankhead Highway through Reeves County.

## SID CARAWAY [HIMSELF]

## Truck Farmer Buys Ten-Acre Tract Near City

The Lewis-Mededith Land Company sold a ten acre tract of land and improvements located two miles south of town to R. C. Stevenson, of Arkansas, Thursday. Mr. Stevenson will make arrangements to occupy the place in the near future and we learn he will plant a large garden there another year, the products which will be sold on the local markets and shipped to other towns. This will prove a profitable business here, we are sure, as all the farmers here make a great deal more than they use at home, and large amounts of it is offered for sale. That does not mean that a plan of raising it here would not pay, as he could buy enough from these farmers to ship in large quantities, and secure a better price than could be paid here during the vegetable seasons. We consider this another business for Lubbock, as those ten acres can produce an enormous amount of foodstuff that is in great demand throughout the year, and we are sure that before many years pass some progressive individual will see the possibilities of large financial returns being realized from a cannery here, and will create a home market

that will care for the entire county's production. Take it for what it might be worth there is no getting around the fact that this section cannot be equaled as a garden country, so why doesn't someone pioneer this section as a packer, and get the ground floor for that industry.

### SOCIETY NOTES

**Mrs. Jno. E. Conner Entertained**  
One of the merriest of the social affairs which have heralded the approaching Yuletide season was the Christmas party given Thursday afternoon of the past week by Mrs. Jno. E. Conner at her home 1618 West 13th Street, honoring the members of the Idle Hour Needle Club.  
A Christmas atmosphere was created by the use of bright adornments, Christmas bells, cedar and holly decorations, emblematic of the season which were used in a most artistic manner in adorning the home for the occasion. Upon entering the home, the guests deposited their gifts in a beautifully decorated "Pandora" box and to each gift, a ribbon and card with the name of the recipient written thereon, the names of which had been drawn at a previous meeting of the Club. At the appointed time, the guests were taken to task in hunting out their cards, causing much laughter and merriment in the scramble.  
Following the distribution of gifts, several hours were spent in needle work and games of forty-two, after

which a delicious course of baked apples stuffed with dates, whipped cream, sandwiches, coffee, and angel food cake were served.

Those enjoying the hospitality of the occasion included Mesdames Chas E. Wright, F. C. McSpadden, Ed D. Allen, Guy C. Hufstetler, Hubert L. Allen, H. C. Smith, J. J. Adams, W. K. Dickinson, Jr., Louie F. Moore, Harvey L. Hicks and the hostess Mrs. Jno. E. Conner.

### Cock-Easter Wedding

At one o'clock Tuesday afternoon, December 27th, in the presence of quite an assembly of friends, at the home of the bride's mother, Mrs. James J. Easter, 812 Avenue K, Elder Smith performed the ring ceremony, which united in the holy bonds of wedlock, Mr. Robert Lee Cock and Miss Della Easter.

Miss Easter is well known and much loved by a host of Lubbock people, having been associated in a business way with several of the leading dry goods stores and one of the banks of the city, her friends are numbered by her acquaintances. Her courteous manner and winning smile, made her an especial favorite.

Mr. Cock has been connected

with the Columbia Mill, for some time, with his present headquarters in Denver, Colo., and comes to us highly recommended, as a man of merit and ability.

The home was beautifully decorated in a color scheme of white and red intertwined with evergreen. Vases, pots of fern and palms placed artistically about the room added much to its adornment.

Before the ceremony Mrs. Joe Hilton sang "Greetings." Then to the strains of Mendelssohn's wedding march, rendered by Mrs. B. P. Hopkins at the piano, accompanied by Miss Mary Meador on the violin, Mrs. Ernest Conley as matron of honor, dressed in a gorgeous black velvet gown, carrying an arm bouquet of pink roses entered the bridal chamber and approached the altar, followed by the groom, with the bride beautifully attired in a brown duvetyne suit with accessories to match and wearing a corsage bouquet of white roses and lilies of the valley.

An informal reception was held after the ceremony. Many good wishes and hearty congratulations were offered the happy couple.  
Mrs. B. U. Malone presided at the punch bowl. Mr. and Mrs. Cock left immediately for Denver, by the way of Kansas City, where they will spend some time, before arriving at their destination.

### CHURCH NOTES

**Cumberland Presbyterian Church**  
New Year's Greetings:  
To all that this may concern:

At the close of 1921's opportunities, which were equally fraught with responsibilities, joys and sorrows; sacrifice, and toils by which and thru which all real successes must come. It therefore is the earnest desire of the pastor of the First Cumberland Presbyterian church of the city of Lubbock, as a regularly called and commissioned ambassador of the Lord and Savior, Jesus Christ, on His behalf and for the future success of His righteous cause in the hearts of all of Lubbock's people to thank each and every one who has in any way contributed to the success of the King's business under the Cumberland Presbyterian Banner.

And may the Blessings of our Loving Heavenly Father rest upon each of you as you enter the open door of the New Year. And may you redouble your diligence for the Salvation of the Lost, realizing that as another year has passed, that you are nearing the Coming Night when no man can work.

Regular services on the coming Lord's day. Start the New Year right by being present in the services of the Sanctuary.  
Yours earnestly in His Service,  
J. F. Baker, Pastor.

### CARLISLE NEWS OF THE PAST WEEK

The time which everybody has looked forward to has come at last. We had a Xmas tree at the school house. Old Santa was very nice to us. A large crowd was there. If some of the parents who were there, would come to Sunday School, our superintendent would appreciate it very much. Everybody turn over a new leaf and come to Sunday School every Sunday in the coming year.

Mrs. Roy Saunders and children, of Post City, spent Xmas with her parents, Mr. and Mrs. F. A. Sims.

Mr. Tom Hammer has returned from a visit in Merkel. His uncle, Mr. Smart, from Merkel, has moved into our community. He will live on grandpa Randolph's farm next year.

Mr. Will Moore and family, Miss Clara Moore and Mr. Othel Moore, of town, were dinner guests at their father's home Sunday.

Our school will begin again next Monday.

Mr. Martin is building a house on Mr. Henson's farm, two miles South of the school house.

Mr. R. I. Tubbs and family, Mr. and Mrs. Fluke, Mrs. Jack Tubbs and son, Mrs. Lee Tubbs and daughter, Evelyn and Miss Freda Chauncy, of town, Misses Bess Sims, Oeta Ray, and Mr. Lester Sims were dinner guests at the Tubbs home Sunday.

Mrs. L. T. Thaxton visited Miss Oeta Ray last week.

Mrs. Clifford Bond and baby are visiting her parents in Hall county.

Mr. Bailey Hankins has moved on a place near Prairie View school.

Mr. G. W. S. Staton's grandson was in the sanitarium several days last week, suffering from inflamed tonsils, but has gotten over it and has returned home.

Mr. and Mrs. J. A. Burroughs gave a party Monday night. A large crowd was present and everybody reported a nice time.

Miss Helen and Mr. Overton Ribbles, the Misses Littles and Messrs. George and Frank Heith of town, were present. We were glad to have them and invite them to come again.

Mr. and Mrs. Bond gave the Juniors a party Monday night. Everyone reported a nice time.

Miss Davis, of near Post City, is visiting Miss Bess Sims.

We wish every reader of this paper a Happy New Year.
