

State Board Outlines the Care Of Dirt Roads—No Water Should Be Allowed to Stand on Grade

Austin, Texas.—Instructions for the drainage and dragging of earth roads, the mileage of which in Texas is far in excess of the total mileage of all other types of roads, must necessarily bear the burden of the traffic, have been sent out by the state highway department.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her. "I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since. I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life." For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments. If you suffer as these women did, take Cardui. It may help you, too. At all druggists. E 85

"It is very important that no water be allowed to stand either on the surface of an earth road or in the side ditches," said the department's article. "This can be accomplished by giving the proper crown to the surface of the road and keeping the surface free from ruts or holes by dragging so that water will drain rapidly to the side ditches.

"The surface of the road should be kept smooth, free from ruts and holes by frequent dragging or blading. This can be done by the use of steel road drags, road planers, or graders, numerous types of which are on the market, if properly handled. "The proper time to drag or plane the surface of the road will depend largely upon the character of the soil and experience alone will teach the patrolman when different sections of his road are ready to be dragged. In general, however, work should begin as soon after a rain as the surface of the road is sufficiently dried out so that the material is easily loosened and will roll and spread evenly in front of the drag or planer. If the road is too wet the material cannot be moved ahead of the drag or planer into the ruts or holes. If the surface is too dry it is more difficult and expensive to drag or plane out the ruts.

"As the center of the road dries out more rapidly than the sides, the dragging should begin along the center line. After the center of the road has been properly smoothed up the patrolman should then start on the edges of the traveled way and work towards the center of the road. Care should be taken that only sufficient dirt is moved toward the center of the road to fill up the ruts and holes and not give excessive crown. The dragging should continue until all ruts and holes are filled and the surface of the road is in a smooth and even condition. The rate of speed at which plane or drag is drawn should not exceed four miles per hour.

"In those sections of the state where the soil is sandy and the roads become cut up during dry weather they can be greatly improved by adding sufficient clay to form a binder for the sand."

Will Hays has stopped the Automobile pictures, so some people think he has earned his big salary.

In 1921 Texas Had 24,995 Fires—With Billion Dollar Loss

Austin, April 28.—Amount of liability assumed by the 108 stock fire insurance companies doing business in Texas during 1921 aggregated \$1,826,566,491, according to a combined classification report just issued by the State Insurance Commission.

The amount of premiums paid reached \$19,644,429, while the losses adjusted reached \$18,931,356. The average rate was 1.075 per cent, burning ratio .762, loss ratio .709, average loss \$557. The report also shows there were 24,995 fires in Texas during 1921.

The classifications shows that dwellings and furniture led in the amount of liability assumed, being \$528,056,684, with premiums of \$4,109,415. Contents of mercantile buildings, brick, is second with \$206,569,784 liability assumed, and premiums of \$2,948,519.

The loss ratio of .709 indicates that the stock fire insurance companies operating in Texas during 1921 lost money, as it is pointed out that in order for the companies to break even the loss ratio would have to be not in excess of 60 per cent as the expense ratio is figured by the companies at between 40 and 42 per cent.

In 1920 the loss ratio was .612, so the companies broke about even, while for 1919 the loss ratio was only .306, which clearly indicates that the companies made good money in that year.

Pioneer Cowboy on Matador Ranch Is Injured Last Mon.

Jack Carr, one of the oldest employees of the Matador Land & Cattle Company in point of service, met with quite a serious accident Monday afternoon. A water gap, on the head of Boggy, where he was stationed at what is known as the Mott Camp, had washed out and he was dragging it out by the horn of his saddle, back into position, when his horse became unmanageable and threw him to the ground, dislocating his right leg at the neck of the femur, and fracturing the socket.

The most unfortunate feature of the accident was the fact that he was rendered helpless, and no one else being present or knowing of the accident, the unfortunate man laid out there from the time of the accident, about three o'clock Monday afternoon, until he was found about eight o'clock Tuesday morning, and during that time he was exposed to the heavy rain that fell during the night. A less rugged man would have never survived the ordeal.

Hamilton and Trawek were both called and reduced the fracture, and everything points to a speedy and complete recovery.—Roaring Springs Review.

ITEMS FROM THE LYNN COUNTY NEWS

Rev. J. B. Cole and daughter, Miss Lena, also a son, Fred Cole, wife and baby, passed through Tahoka Thursday enroute from Crosbyton to El Paso, to make their future home. Rev. Cole has served as pastor of the First Baptist church at Crosbyton the past several years.

Tahoka got sweet revenge when they defeated O'Donnell on their own grounds last Thursday afternoon. O'Donnell defeated Tahoka in the first game played here week before last. The Tahoka team is fast rounding into shape and will be ready in the near future, to take on the stronger teams over the South Plains.

Sheriff S. W. Sanford is in a sanitarium at Lubbock this week having his ears treated. Deputy Sheriff A. M. Sullivan is preserving law and order during Mr. Sanford's absence.

All of the teachers in Tahoka Public Schools have been elected for the year 1922-23 with the exception of the Spanish teacher. They are as follows: Supt. H. P. Cavness; principal, N. B. Hood; Mrs. Hansford Tunnell, English; Mrs. L. F. Craft, primary; Misses Faye Gooch, Perle Franklin, Helen Brashear and Thelma Hickerson, will teach their respective grades taught last year. It is understood all the above teachers have accepted positions tendered to them by the board.

In the official announcement of postmaster appointments appearing in the daily papers Thursday of last week, appeared the name of Hon. D. A. Parkhurst as newly appointed postmaster for Tahoka. Mr. Parkhurst has not yet received in official form his appointment, but it is expected that it will only be a matter of a few days until same is in his hands. Mr. Parkhurst will take the place of Miss Amanda Leedy, having been duly appointed to fill out the unexpired term of J. B. Walker several months ago. Miss Leedy also served as assistant postmaster under Mr. Walker for a number of years. Mr. Parkhurst has been serving Uncle Sam as carrier on Route 1, out of Tahoka for a number of years, and when he takes over the reins for the postmaster the job will not be entirely new to him. In conversation with Mr. Parkhurst the early part of the week he stated that he would likely appoint Jack Alley of this city as his assistant. Miss Leedy, assisted by John Thompson, has given entire satisfaction to the patrons of the local postoffice during the few months Miss Leedy has had charge. There were a number of applicants for the Tahoka post office.

A crew of five men have been engaged the past week in cleaning up the local golf links located southwest

Consider the Builder

He is the man who does not look upon the dark side of life, nor does he wait until the proper time comes to do things; he goes out and makes the times right for his work by being incessantly on the job, and making the job fit the times by doing it in time.

If you contemplate building, why not come in at once and let us figure with you. Don't be discouraged about the cost of building before you have been given the right figures from us.

A. G. McAdams Lumber Company

Lubbock, Texas

of the city limits. The course is being given a thorough overhauling and being placed in first class condition. The sand on the greens has been given a coat of oil and otherwise placed in perfect condition. The Tahoka golf links now rank with the best on the South Plains. J. L. Heare, local Santa Fe agent, is overseeing the work.

GET READY TO SAVE THE FEED CROP EARLY

Generally speaking, there will be no excuse for any farmer in the Southwest to buy a large amount of feedstuffs to carry his stock through the winter of 1922-23. Those who have a fair amount of stock will undoubtedly have to buy some kinds of feed, but most farmers will probably have the opportunity to have on hand a goodly supply of oats, corn, hay, grain sorghums and other kinds of feed produced so abundantly in the Southwest, and they should not neglect to make timely preparations to take care of it.

It has been the history of the Southwest that when abundant rains fall in March and April, the feed crops are almost assured. This season may prove to be an exception, but the chances are most favorable. It will be a mistake to sell the surplus you will need next winter even though prices become attractive, for the odds are against you. As a rule the farmer who sells his oats or other grains and feedstuffs at harvest time with the expectation of supplying his needs in the fall and winter by purchase, is disappointed. He most always pays a price much higher than he received for his own product.

Every farm should be equipped with corn-cris and grain bins and also a shed room in which to store the rougher feedstuffs, either in bulk or in bales. A farm without a place to protect grains and feedstuffs is not properly equipped and can not be operated on an economical basis.—Farm and Ranch.

ORIENT AGREES TO RESTORE SHOPS

San Angelo, April 27.—The Kansas City, Mexico & Orient Railway of Texas will be given two and one-half years in which to restore the headquarters, offices and shops at San Angelo to prewar strength, under a contract which the Board of City Development has authorized Judge W. A. Wright, local attorney, to close with Orient officials.

Judge Wright recently returned from Kansas City, where he conferred with W. T. Kemper, receiver for the Orient, who he said is willing to enter into such an agreement. A contract already exists between San Angelo and the Orient whereby the offices and shops are to be maintained here. During the war however, the forces were greatly reduced and several weeks ago citizens, through the Board of City Development, contemplated bringing suit to enforce the contract.

The Orient, through its local representative, then countered with a proposition that if the city would forbear legal proceedings at this time, the road would waive any rights it might have under the statute of limitations. This was accepted.

BUILDING ACTIVITY BOOMS ARE MARKED AT SNYDER

Snyder, Texas, April 24.—Building activity in Snyder, which has been at a standstill since last fall, awoke with a rush last week. "Contracts have been let for four dwellings at prices ranging from \$1,500 to \$5,000. Building material dealers report increasing sales to individuals, which indicate extensive repairing and renovating. With the construction of the \$75,000 school building and the \$40,000 Baptist Church, prospects are bright for the carpenter and building trades for the present year.

LAMESA MAN STRUCK BY JITNEY MONDAY

Monday about noon W. E. Anderson was struck by a jitney and knocked down. He was not seriously injured but considerably shook up and somewhat bruised. The accident occurred near the First State Bank corner. The injured man was taken to a room in the Kelly Hotel and a physician attended to his injuries.—Lamesa Journal.

From his reputation as a killer, General Semenov's name must be pronounced See-men-off.

Makes Indigent Widows and Orphans Impossible

The man who contributes \$10,000 to the support of an orphan's home is looked upon as a real benefactor. We take off our hats to him. He has discovered, dimly and uncertainly, it may be, the brotherhood of man.

The man who induces another to take out a \$10,000 Life Insurance Policy is just as great a benefactor. He has taught that man, the root principle of life—how to take care of his own and himself. After all that is doing humanity a greater service than building a home for widows and orphans.

A Life Insurance Policy makes indigent widows and charity orphans impossible.—Norval A. Hawkins.

"It does make a difference in what company you buy"

Eight Inches of Rain Fell at Coleman During Month of April

The week's rainfall at Coleman shows 4.67 inches, according to the gauge at Mrs. J. E. Stevens' weather observatory. The rains began falling early Sunday morning and continued intermittently until early Wednesday night. Thursday morning dawned clear and warm but the weather still unsettled.

Total April rains to date aggregate 8.62 inches, which is the greatest April rainfall for any year except April 1908, when the precipitation totaled 10.63 inches, and in which year Coleman county produced 65,000 bales cotton. In April 1900 the precipitation was 7.87 inches and in April, 1915, there was 7.25 inches rainfall.

Very Little Water Damage
Jim Ned creek was reported higher this week than for any year within the last twenty. Hords' creek was only bankfull. The city lake at Coleman was raised only about five feet. But little road damage was reported in the county.

The approaches to the Wildcat and Home Creek bridges on the Gould-busk road were damaged slightly, a yard or two of gravel being moved. The Santa Fe tracks on Elm creek near Ballinger were washed out for a short distance, there was a wash-out on the Frisco south of Brown-wood and about 100 feet of track was washed out on the Santa Fe between San Saba and Richland Springs.

Star Route mail lines operating out of Coleman were all tied-up Wednesday except Glen Cove.

MEXICAN QUAIL BEING DISTRIBUTED IN TEXAS

Austin, April 25.—The Texas Game, Fish and Oyster Department has secured from Mexico 500 pairs of Bob White quail and the department is now distributing them over the State to replenish depleted districts.

The distribution is being made in the counties radiating from Panhandle, Decatur, Kerrville, Laredo, San Saba, Austin, Houston, Dallas and El Paso.

of stocking West Texas desert regions.

Game Commissioner Boyd now has some of these Mexican birds at the Dallas fish hatchery, where it is to be determined whether the mixture can be produced. A similar effort to cross the ring-neck pheasant with the chachalaca (Mexican pheasant), failed, Mr. Boyd said.

CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of this Treacherous Drug may Start Trouble.

You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headache, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-15

O'DONNELL TO BUILD NEW SCHOOL HOUSE

O'Donnell, April 28.—O'Donnell has several new building under construction. A new cotton gin is being erected. It is a five stand double air blast and will be a modern gin in every respect. The construction of the main plant is well under way. A new high school building is to be erected in a few days as soon as material can be placed on the ground. It is to be a modern school building with an auditorium that will equal any in this section of the country. The building will cost about twenty thousand dollars.

Two new business houses will be erected this spring. The brick and tiling is on the ground. There are several dwellings under construction now and with the splendid rains the town is expected to grow rapidly.

Cotton Seed for Planting

You would not fool your labor and money away growing Scrub Livestock. Neither should you grow Scrub Cotton. There is as much or more difference in cotton as there is in livestock.

Our Panhandle grown Acala cotton seed are as pure as are to be had. They have been bred for Earliness, Strength and Length of Staple, Quantity Production, Lint Turnout, Storm-Proof and Drouth Resisting Qualities.

It has proven to be one of the earliest if not the earliest cotton grown. It is a medium boll. Stays in the boll well, yet because of its staple it picks easily.

Following is a comparison of the average results of our cotton last year as compared with common cotton that only thirds itself which you have considered good:

1500-lb seed cotton ACALA 38 per cent; lint 575-lb bale at 19 1-2c; \$111.02. 1500-lb seed cotton, ordinary, 33 per cent; lint 500-lb bale at 18c, \$90.00. Difference 5 percent, 75 pounds, 1 1-2c; \$21.02.

This is enough to pay for the picking. Or in other words the Acala was worth as much in the field as common cotton in the bale.

All our seed are state tested. —PURITY test 99.7 percent. Germination test 93 per cent. Price \$2.00 per bushel delivered. Buy from your dealer or write direct.

Important Dates On The Political Calendar During The 1922 Campaign; Primary To Be Held On July 22nd.

Because state and county elections will be held this year there are numerous dates of importance on the political calendar.

The principal dates are the two Democratic primaries, the first to be held July 22, and the second, or "run-off," which will be held August 26. Only in the past few years has the double primary been in effect. It is mandatory only as to state and district offices where there are more than two candidates and neither receive a majority in the first primary. It is optional as to county offices.

June 5 is the last date for candidates to file when the office which they seek is decided by the ballots of more than one county. June 17 is the last day for filings for county-wide or precinct races.

If you will cut this out and paste in your scrap book or in some other place for ready reference, it will come in handy many times during the year as it contains valuable information on the elections.

Following is the political calendar for the year:

May 9.—Republican State Executive Committee shall meet at some place named by the State Chairman and decide whether the party will make nominations for State, district and local offices by primary election or through the convention system, and shall certify its decision to the Secretary of State.

June 5.—Candidates for party nominations to be made by primary election for offices to be filled by the voters of the State at large shall file applications on or before this date for place on the primary election ballot. Such applications may be filed by the candidate or by any twenty-five qualified voters. Deposit of any such application in the United States mail by registered letter within the time limit herein indicated has been held to be sufficient.

June 8.—Candidates for party nominations to be made by primary election for offices in districts composed of more than one county shall file applications with district chairmen or with each of the county chairmen by this day. Twenty-five qualified voters may also file.

June 12.—State Executive Committee of party shall meet on this day to certify to county chairmen the names of candidates for State offices to be placed upon the primary election ballot, and to name the place for holding the State convention.

June 17.—On or before this day, candidates for nomination for offices to be filled by the voters of a single county or portion thereof shall file application for place on the primary election ballot with county chairmen. Twenty-five qualified voters may also file.

June 19.—County Executive Committees meet to determine order of names on primary election ballot, to name subcommittees to make up ballot and to transact other business.

June 26.—On or before this day candidates in primary election must pay ballot fees.

July 10.—Subcommittees of county committees meet to make up primary election ballot.

July 12.—Not earlier than this day (ten days before primary election day), nor later than July 19 (three days before such election day), qualified voters who expect to be out of the county of their residence on the day of such election may cast their ballot with the county clerk of their home county.

July 17.—On or before this day persons who have removed from one election precinct to another must present their poll tax receipt or certificate of exemption to the county tax collector for record of such removal. Also on this date the county tax collector shall furnish to the county election board supplemental lists showing such removals. These provisions apply only to cities of 10,000 or more inhabitants. The county tax collector shall also furnish a full list of qualified voters.

August 23.—If such list of voters have not been supplied to the presiding judge of election, he shall send for them.

August 26.—Second Primary election (run-off).

August 26.—District conventions for nominating candidates meet on this day. (Both Democratic and Republican parties).

September 1.—On or before this day presiding judges shall make returns to County Chairmen.

September 1.—On or before this day Commissioners' Courts shall file with County Tax Collector certified copy of order establishing election precincts.

September 4.—State Executive Committee meets to canvass returns of second primary.

September 5.—State Democratic nominating convention begins.

September 5.—Candidates, campaign managers and others must file statements of campaign expenditures on or before this day.

October 1.—Commissioners' Courts shall furnish County Tax Collector supplies for poll tax business before this day.

October 1.—Citizens of cities of 10,000 or more inhabitants who intend to be absent from before October 1 until after January 31, may provide for payment of poll tax through an agent who must be authorized in writing as prescribed.

October 7.—On or before this day the Governor shall make proclamation of the general election. County Commissioners shall give notice of same. Secretary of State shall prescribe to each county judge forms of blanks necessary for the election and returns.

October 16.—On or before this day any nominee may decline or annul his nomination.

October 28.—Absentee voters can cast ballot for general election not less than three nor more than ten days before the day of such election. (November 7).

November 2.—On or before this day persons who have removed from one election precinct to another must apply to County Tax Collector for record of such removal on their poll tax receipts or certificates of exemption. On this day County Tax Collector shall furnish the county election board with supplemental lists of such removals. This provision applies only to cities of 10,000 or more inhabitants. The collector shall also deliver a full list of qualified voters.

November 3.—If certified lists of voters are not in the hands of any presiding judge of election by this day, he shall send for and procure them.

November 6.—Sheriff on this day shall deliver writ of election and forms to presiding judges of election.

November 6.—Any one-fifth of the candidates may on this day agree upon and select two supervisors of the election.

November 7.—General Election day. Polls open from 8 a. m. until 7 p. m.

November 13.—Commissioners'

nish a full list of qualified voters. July 19.—If presiding judges of election have not been furnished with certified lists of qualified voters by this time, they shall send for and procure them.

July 22.—"Primary Election Day" and "Precinct Convention Day" for both Democratic and Republican parties. Primary election open at 8 a. m. and closes at 7 p. m.

July 26.—Presiding judges of election shall make returns on or before this day to county chairmen.

July 29.—County Executive Committees canvass returns. Democratic and Republican county conventions held.

August 1.—Managers of political headquarters, or others who have expended money in behalf of any candidate or political party, must file statement of expenses with County Judge within ten days after election. Within the same time candidates must also file statement of expenses.

August 7.—State Executive Committee meets to canvass returns of primary election. Majority of votes necessary for nomination. In cases where no majority has been received, a second primary election shall be ordered to decide between the two candidates who received the highest number of votes in the first primary election.

August 8.—State Convention of Republican party.

August 14.—Commissioners' Courts may reform election precincts; shall serve notice of changes on the presiding judge at each precinct within ten days.

August 16.—Absentee voters can ballot for second primary election not less than three nor more than ten days before the day of such election (August 26).

August 17.—County Clerk shall certify to each presiding judge the order of the Commissioners' Court, giving number, name and bounds of the election precincts and notice of their appointment as judges. This service is to be made by the sheriff or a constable within ten days after the entry of such order.

August 21.—On or before this day persons who have removed from one election precinct to another must secure record of such removal by County Tax Collector. Also on this day County Tax Collector shall furnish to county election board supplemental list of voters, showing such removals. These provisions apply only to cities of 10,000 or more inhabitants. Tax Collectors shall also furnish full list of qualified voters.

August 23.—If such list of voters have not been supplied to the presiding judge of election, he shall send for them.

August 26.—Second Primary election (run-off).

August 26.—District conventions for nominating candidates meet on this day. (Both Democratic and Republican parties).

September 1.—On or before this day presiding judges shall make returns to County Chairmen.

September 1.—On or before this day Commissioners' Courts shall file with County Tax Collector certified copy of order establishing election precincts.

September 4.—State Executive Committee meets to canvass returns of second primary.

September 5.—State Democratic nominating convention begins.

September 5.—Candidates, campaign managers and others must file statements of campaign expenditures on or before this day.

October 1.—Commissioners' Courts shall furnish County Tax Collector supplies for poll tax business before this day.

October 1.—Citizens of cities of 10,000 or more inhabitants who intend to be absent from before October 1 until after January 31, may provide for payment of poll tax through an agent who must be authorized in writing as prescribed.

October 7.—On or before this day the Governor shall make proclamation of the general election. County Commissioners shall give notice of same. Secretary of State shall prescribe to each county judge forms of blanks necessary for the election and returns.

October 16.—On or before this day any nominee may decline or annul his nomination.

October 28.—Absentee voters can cast ballot for general election not less than three nor more than ten days before the day of such election. (November 7).

November 2.—On or before this day persons who have removed from one election precinct to another must apply to County Tax Collector for record of such removal on their poll tax receipts or certificates of exemption. On this day County Tax Collector shall furnish the county election board with supplemental lists of such removals. This provision applies only to cities of 10,000 or more inhabitants. The collector shall also deliver a full list of qualified voters.

November 3.—If certified lists of voters are not in the hands of any presiding judge of election by this day, he shall send for and procure them.

November 6.—Sheriff on this day shall deliver writ of election and forms to presiding judges of election.

November 6.—Any one-fifth of the candidates may on this day agree upon and select two supervisors of the election.

November 7.—General Election day. Polls open from 8 a. m. until 7 p. m.

November 13.—Commissioners'

COAL GRAIN AND HAY

Our Specialties:—Milk Feeds, Cooking, Heating and Furnace Coals, also Tankage and Chicken Feeds.—We buy and sell grain and hay in car lots or less.

Court will meet on this day "and not before" to canvass returns, but in event of failure to meet at that time, then shall meet as soon thereafter as practicable. County judges shall immediately report the results to the Secretary of State.

December 7.—County judges in counties to which returns for district offices are made shall on this day canvass such returns and report on same to Secretary of State. All county judges shall report to the Secretary of State the names of county and precinct officers elected.

December 17.—Secretary of State canvasses returns for all State offices (except Governor and Lieutenant Governor) and for district offices.

1923, January 9.—Legislature meets. In first week after organization shall canvass returns for Governor and Lieutenant Governor.

January 16.—Inauguration of Governor and Lieutenant Governor.

STATEMENT
A statement of the ownership and management required by the act of Congress of August 24, 1912, of the Lubbock Avalanche, published in Lubbock, Texas, for April, 1922:

Before me a notary public in and for the State and County aforesaid, personally appeared James L. Dow, who having been duly sworn deposes and says that he is the business manager of the Lubbock Avalanche, and that the following to the best of his knowledge and belief is a true statement of the ownership of the aforesaid publication:

That the name and address of the publisher, managing editor and business manager is James L. Dow, Lubbock, Texas. That the known bondholders, mortgagees and other security holders owning one per cent or more of the total amount of bond, mortgages or other securities is the Mergenthaler Linotype Company, New York, N. Y.

JAMES L. DOW, Manager.
Sworn to and subscribed before me this 1st day of May, 1922.
(Seal) J. E. HENDERSON,
Notary Public in and for Lubbock County, Texas.

THE STATE OF TEXAS
To the Sheriff or any Constable of Lubbock County—Greeting:
You are hereby commanded to summon J. C. Williford, Ben L. Williford, Neely B. Williford, Winnie E. Lyons, a married woman and her husband Herf Lyons, Mrs. D. L. Musgraves and her husband J. W. Musgraves, Lee Roy Wright, Matt Henry Wright, Alice Lemond, John Neely Center, and John Neely Lemond, and of the heirs and legal representatives of each of said parties, and of the heirs and legal representatives of T. H. Lemond, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the second Monday in June, A. D. 1922, the same being the 12th day of June, A. D. 1922, then and there to answer a petition filed in said Court on the 13th day of April, A. D. 1922, in a suit, numbered on the docket of said Court No. 1564, wherein L. Fitzgerald, is Plaintiff, and J. C. Williford, Ben L. Williford, Neely B.

SPECIAL SESSION URGED IN BEHALF OF SCHOOLS
Austin, April 25.—Letters and petitions urging a special session of the Legislature continue to be received at the Governor's office. Many of these petitions are from rural schools appealing for relief and assertions are made that numerous schools will be forced to close if funds for salaries of teachers are not provided.

NOTICE
Notice is hereby given that the Annual Meeting of the Stockholders of the South Plains and Santa Fe Railway, will be held at the General Offices of said Company in Lubbock, Texas, on Wednesday, June 7, 1922, at the hour of 10:00 a. m., for the purpose of selecting a Board of Directors for the ensuing year and for such other business as may come before the meeting.

The Annual Meeting of the Directors of said Company will be held on the same date and place, immediately after the meeting of the Stockholders.
W. S. Posey, Secretary.

BAPTIST REDEEM MORTGAGE EXECUTED FORTY YEARS AGO
The congregation of the First Baptist church learned Monday that a mortgage executed in 1882, when the First Baptist Church in Colorado was built, had never been paid, and immediately took action to pay off the mortgage. It was to secure a loan of \$250 obtained when the church here was built.

The mortgage was held by a New York bonding company and the loan was made to the church without interest.

Had the loan drawn interest at the rate of ten percent, compounded annually it would have accrued \$11,043.87 in interest, placing the total amount due at maturity at \$11,297.87.—Colorado Record.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood-on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. L. CHAMBERLAIN & Co., Toledo, Ohio. Sold by all Druggists.

RULE IS GOING TO HAVE A PUBLIC LIBRARY
Rule, May 2.—Rule is planning to have a public library in a short time. The local Chamber of Commerce is now working on the proposition with the assistance of the West Texas Chamber of Commerce.

Piles Cured in 6 to 14 Days
Druggists refund money if PAIN EXTINGUISHER fails to cure itching, blind, bleeding or protruding Piles, instantly relieve itching, pain, and pro- cess, and prevent relapse after the next evacuation. Price 50c.

Spain is beginning to be glad that the interposition of the American Continent prevented Columbus from carrying out his intention of discovering India.—New York Tribune.

SOME POINTS ABOUT THE SPREAD OF DISEASES AMONG CATTLE BY DIRECTOR T. O. WALTON

The following extracts from letters by Dr. J. R. Mohler, Chief of the Bureau of Animal Industry is being sent you for your information:

"An article appeared in the March 19 issue of the San Antonio Express, stating that many cattle are being imported into Mexico from South America, and that they are being sold at such low prices that our Texas cattlemen are practically excluded from the Mexican markets because they are unable to compete with the importers of South American stock.

"As foot-and-mouth disease exists extensively in South America, infection is apt to be carried into Mexico. Since there is a possibility of the disease suddenly reaching the United States through infected cattle from South America, or Mexican cattle that have become infected from them, Bureau representatives located in the Southwest are cautioned to keep in close touch with the condition and movement of cattle along the Mexican border in order to guard as much as possible an invasion of foot-and-mouth disease from that source. Please instruct the members of your force accordingly. Respectfully (Signed) J. R. Mohler, Chief of Bureau.

"Dear Sir: Referring to previous letters from the Bureau relative to foot-and-mouth disease, according to the reports received by the Bureau from January 1 to March 5, this disease appeared in 966 herds in Great Britain, requiring the slaughter of 43,735 animals. The United States has been very fortunate thus far in having escaped an invasion of the plague, as it is exposed by commercial contact with many countries in which the disease has been unusually prevalent since the war. The Bureau of Animal Industry is using every reasonable precaution to prevent an invasion of the disease, and it will continue to do so, but there are some sources of danger which are very difficult to guard against. For instance, it seems possible for the virus of the disease to be carried long distances in the clothing or other belongings of immigrant farm laborers, or in hay and straw used as packing for crockery and other goods.

"It is believed that the State regulatory authorities should give publicity to the danger of an invasion of the plague to which we are now exposed, in order that all who are interested directly or indirectly in our livestock industry will be on the alert for the first appearance of the disease should we be so unfortunate as to have another outbreak. It is suggested that State and municipal authorities prevent, if possible, hay and straw used for packing imported goods from reaching susceptible animals, and that where possible the animals attended by immigrant farm laborers arriving recently in a community be observed from time to time to ascertain whether or not they develop the disease. Yours very truly, (signed) J. R. Mohler, Chief of Bureau.

Note—Up to March 25, the disease has appeared in 1,045 herds.

Let me suggest that you pass this information on to any interested parties in your county and that it might be worth while for you to ask your local papers to publish Dr. Mohler's communications. It is evident that we cannot be too strenuous in our efforts to prevent this disease from getting a foothold in our State.

Yours truly,
T. O. WALTON,
Director.

103RD ANNIVERSARY I. O. O. F. CELEBRATED TUESDAY NIGHT

One of the most enjoyable events of the season was the entertainment at the Odd Fellow's hall Tuesday night, celebrating the 103rd anniversary of the founding of that great order. This was an opening meeting, the friends and families of the membership being specially invited guests, and the number in attendance attested the good will and fellowship emanating from the order for the house was packed to capacity with men, women and children, and a great get-acquainted and most enjoyable time was had.

The meeting was opened with a welcome address by Rev. Clinton, who extended a most hearty welcome and good will to all present, and continued: "I have not had the privilege of enjoying membership in such a great organization as long as some who are here, and I feel that I have missed a great deal. The church I consider the greatest institution in the world, but next to the church, in my mind comes Odd Fellowship.

Rev. J. W. Baker then gave a very interesting and instructive talk on "The good of the order of Odd Fellows," in his talk citing several instances whereby families in dire need have been materially helped by the order. "The three connecting links of the order, Friendship, Love and Truth, should thoroughly permeate the membership, for on these three principles are based the future development of civilization and the progress of the world."

Several more short talks were made by both members and visitors and thoroughly enjoyed by all. Interspersed among these the meeting was favored by two splendid numbers by Miss Garrison, accompanied by Mrs. Neal on the piano, after which a banquet royal was spread and partaken of freely, everyone seemingly having shown a willingness for that time to come.

A good time was pronounced by all present, with hope that the great order of Odd Fellows may soon have another birthday.

Half County School Census May Fall Below the 3000 Mark

In order to provide separate offices for County Judge and County Superintendent of Public Instruction the scholastic population of the county must be 3,000. Work has been practically completed by the census enumerators, and it is questionable, according to County Judge L. D. Griffin whether the completed census will show a total of 3,000 of scholastic age in the county. Since the work of the enumerators has been completed Judge Griffin has enumerated three for a supplemental report. It is known that some residents of the Bartonside district were enumerated in the Lubbock County Line district.

Judge Griffin thinks that it is important that every child of scholastic age be enumerated, for there are distinct advantages in having the offices separated and requests all who know of children of scholastic age within the county who have not yet been enumerated advise him so that the matter may be attended to. Even as few as a half dozen overlooked might prevent the separation of the two offices.—Plainview Herald.

Some Flimsy Complaints About the County Agents

"The county agent hasn't been out to see me and he's been here two years." That is one of the criticisms I hear pretty often of our county agents. At first thought it is a just one. At second thought, it isn't.

I was in Farm Bureau work some weeks ago where the county agent was discussing this very thing. Here is what he said about it: "If I should call at every farm in this county and spend a half hour at each place it would take me fourteen months working fourteen hours a day to cover the field."

If our agents did that, then what about the demonstration meetings, the calf, pig and poultry club work? The county agent will call at your farm if you ask him and if he can possibly get there. He has been to my farm two or three times this year. Once I ask him to come directly and the other times I asked him to stop some time as he was passing. He did.

His work can be done better in groups. If he can spend an hour talking to twenty-five, fifty or one hundred farmers it is much more efficient than if he comes to your farm and spends that time alone with you.

There is another way to get the good of your county agent and that is by letter. Do you want to know the best ration for the steers you just bought? He has this on file and can easily figure out about the best feeding combinations possible. He can do this from experiments at a half dozen different colleges and experiment stations. That's book farming but it is practical, too.

Maybe you wonder about your laying hens—or the ones that don't lay and should. Write him and see what he says. It will cost you two cents or so. But you can do as you wish when you get the reply from the agent. The chances are that you will profit by it.

Some folks think that the county agent gets too much money for the work he does. He is paid as much for what he knows as what he does. He spent several hundred dollars at least in getting this knowledge that puts him in line to be your county agent. That must be paid back somewhere.

Use your county agent in every way you can, but don't expect him to come to your farm unless you request it. He can't do it. He must spend some time each week in the office as there is much clerical work to be done and there must be certain times when farmers can find him at his office. Much information is given out at the office. It's a good place to get it, too, because if there is anything that the agent doesn't know he has every sort of information at hand for reference.—Earl Rogers.

Big Crowd Attended the Singing Convention At Slaton On the Fifth Sunday Regardless of Rain

The leaders of the Slaton class had prepared to give a surprise to their town in the great singing crowd that would turn out to the convention, if the weather be favorable. But the surprising joke was on us when after it rained till noon and the mud was fierce we informed all our people there would be no use in taking dinner to the church, as there would be no guests to feed, more than a few of us could carry home with us for lunch. We stopped all arrangements we were making to entertain the crowd. Then upon arriving at the church, after lunch, we found the streets lined with muddy cars and the house filled with enthusiastic singers, who had battled through mud since ten o'clock and were as hungry as mud could make them.

It took only a short time though to send trucks and bring meat and rolls sufficient to fill them and soon they were singing as only well-fed birds can sing.

Our register shows about 425 were in attendance, about one-half of them were visitors, principally from Carlisle and Posey, though many communities and counties were represented.

After welcome address by C. M. Holland, Prof. Pevehouse, of Car-

lisle was made chairman in absence of president Dyess. There was a scrambled singing led by Gentry, Pevehouse, Thomas, Owens, Prof. Pirdie, and a young man from Lubbock, whose name I can't spell. Then the Vaughn Quartette arrived and favored us with the finest singing I have ever heard from four men. Mr. V. O. Stamps, their leader is author of many of the most beautiful songs in our "Hallelujahs" and is the best baser I ever heard.

Carlisle, Posey and Slaton classes sang a contest and the judges decided in favor of Posey and announced Posey should have the next convention in absence of the banner to present them.

It was decided best to not transact any business at this meeting in absence of the regular officers and a majority of the classes.

Everybody seemed to enjoy the occasion hugely.

I wish to express my pride in what I know the Slaton folks did in arranging to entertain the large crowd. If the weather had been favorable there would have been more people here than could have been stacked in the city square and yet I am sure we would have bountifully fed all that crowd.

Slaton is ready to start the build-

ing of a great auditorium and I am sure the singing convention will be welcome to hold their sessions in it without a cent of donation from the singers. Of course they might be expected to bring their lunches like any other town would expect of them where their sessions are permanently located.

Anyway, we extend a glad welcome again.—W. P. Florence.

P. S. Since writing the above the president writes to know if it would be O. K. to try to have the convention over at Slaton on the 2nd Sunday. I answer:

"By all means the convention ought to meet again at Slaton the 2nd Sunday. But our folks made such great entertainment preparation that went to waste, I would hate to ask them to repeat their trouble, and as that is commencement day we could not ask for the morning service. But everybody in the county could get here by 2 o'clock and do all that is necessary in the afternoon. If they wish they can bring lunch and spend the morning and noon at the club house and go to the M. E. church to begin at 2 o'clock. The people here would be delighted and I believe the convention owes it to us.—W. P. F."

A BATCH OF NEWSY ITEMS FROM MOODY

Rain? I reckon it has! Our east Texas neighbors would not believe it, if we were to tell them that the West Texas farmers were off duty on account of so much rain. But it's great to be on these plains where there is such a grand climate and where we have (usually) just the right amount of rain. "No more and no less."

All the old experienced farmers say that good crops are practically assured with the rain we've had. A few of our citizens were attending court Monday.

Mr. A. E. W. White was having some notary work done Monday by Prof. Teague, Notary for Hockley County.

The Murray boys, Bill and Gentry were having Notary work done Friday.

Mrs. Nickell and grandchild, Willie May Hice, visited Mrs. J. L. Thorp Thursday.

A number of Moodyites attended a baseball game at Ropes Friday.

Mr. Ullis King was very sick Friday night and Saturday. But at this writing he is feeling much better.

Meglamen Murray, Palmer, and White were to see Mrs. John Swafford Thursday.

Mrs. Bob Swafford spent Friday afternoon with Mrs. Chism.

Mrs. Claud Havens was over at the close Thursday.

Prof. Teague and son, Weldon, were in Lubbock Saturday on a business trip.

One of these city peddlers, I believe they call them, uh-uh, Drummers, dropped in at the store again last week. Guess he's heard of the bargains at the Moody store, too.

Anne Lou Thorp spent Sunday with Wilsie Teague.

Mr. and Mrs. Bernice Evans of Ropes, visited Mrs. Evans' parents, Mr. and Mrs. Bob Swafford Sunday. We were glad to have them with us in Sunday school.

Mr. Pepper is having a well put down on his place. Mr. Boyd is digging the well.

Mrs. Gunn and daughter, Josie Lee, were both very sick Saturday. But last reports were that they were both better.

This cold, damp weather is causing quite a lot of bad colds. Wilsie

Do You Want the Greatest Value for Your Money?

Then Accept None But the Eclipse Windmills

Eclipse Windmills pump more water for less money for a greater number of years than any other power.

To build a windmill that will be the most economical investment for the purchaser is the one object kept in view in constructing the ECLIPSE WINDMILL.

It is safe to say that there are hundreds of ECLIPSE WINDMILLS now in service that were installed over 25 or 30 years ago. This remarkable record has not been attained by any other Windmill.

In the ECLIPSE is embodied all those ideas for making a windmill strong, durable and efficient, which have been developed in 50 years experience in building windmills. It can safely be said that the Eclipse will pump a greater quantity of water, for the longest term of years, at the least expense, of any windmill built, without exception.

The Western Windmill Company

THE WINCHESTER STORE Phone 127 1212 Avenue I

Teague and Annie Lou Thorp left school today sick with colds.

The school has been out of coal for about a month, as they keep thinking it will get warm. But Prof. Teague has decided that it isn't, and he takes an armful of coals each morning which keeps them fairly comfortable all day.

Dick Buck left Friday for his home at Crosbyton. We regret to lose such boys as Dick from our number, as he was so nice and quiet and always attending to his own business instead of everybody else's.

Mr. Wesley Williams and family spent several days last week with Mrs. Williams' parents, Mr. and Mrs. J. L. Thorp.

Mrs. John Swafford and children spent Sunday at Mr. Bob Swafford's.

Mr. and Mrs. Cecil Gunn returned Saturday from an extended visit with Mrs. Gunn's parents, Mr. and Mrs. Thompson of the Acuff community.

Mr. and Mrs. White visited her son, Ullis King and family Sunday.

SHALLOWATER NEWS ITEMS

OF THE PAST WEEK

One of the best, if not the best, programs was given by Miss Carter and Miss Brown Lee. Expression and Music classes at the school Saturday evening. Everyone did their parts so well that it was hard to decide which number was the best. Misses Carter and Brown Lee know how to give a program so there is never a dull moment the entire evening. About \$35.00 was taken in, and with the help of our good people we have enough money to pay Miss Carter and her representatives expenses to Austin this week. Yes, we are expecting them to win at Austin, why should we doubt them?

Will Wright, Mrs. Jess Hardy and others of Dimmitt visited over Sunday with Mrs. J. M. Wright.

We reported rain last week and can report rain again this week. In fact last week we had rain nearly every day, with not much sunshine in between times. The farmers are all happy over the prospect and we are sure that there will be a bumper crop also.

Judson Dodd and friend of Lubbock, came out to attend the program and spent Saturday night at Judgson, Aunt, Mrs. Bowles, returning home Sunday morning on the train.

Shallowater ball team went to Groesville Thursday and played a game with their team the score being 13 to 10 in favor of Shallowater.

That's right boys, keep it up, don't spoil your record as we understand that Shallowater team has not lost a game yet this year.

Tuesday afternoon one of the worst hail storms visited this place and north of here, which was very destructive, tearing roofs off houses.

Mr. Baker, brother of Okla is visiting with him a few days.

Mrs. J. M. Wright is visiting in Dimmitt this week.

LEGION FIRST TO GO 100 PER CENT ON AUDITORIUM LIST

Allen Bros. Post No. 148, The American Legion, has the distinction of being the first organization in the city to pay in their full quota of subscription to the Community Auditorium Fund. The funds are being raised by public subscription through the different civic organizations of the town, each being assessed a certain amount to be raised among their membership, and to the present the American Legion is the only one to turn in its full quota.

M. M. Dupre, of the City Schools left Wednesday, accompanied by Coach Marr and the track boys, for Austin, where he goes in the interest of the bonds recently voted and sold here.

NEW FILLING STATION WILL SOON BE READY FOR USE

A. W. Allen, formerly of Wichita Falls, but now a boosting citizen of Lubbock, is about through with the construction work on his beautiful white, enamel, filling station on the northeast corner of the square, and has announced through an ad in this issue of the Avalanche that he will be ready in his business Sunday morning.

Mr. Allen is one of the business men of today who realizes thoroughly that there is nothing to trying to make anything in a town without first contributing to the general betterment of said town, and his building is certainly a fine example of what he is as a builder, for nowhere in this section has there been built a more beautiful or more expensive filling station than the one he is about to complete.

Mr. Allen is a live wire, and it is indeed fortunate for Lubbock that he has seen fit to make his investments here.

There is plenty of room in this city for energetic, liberal, wide-awake business men and the Avalanche is always glad to welcome one of that sort of Lubbock.

Lon D. Marrs of Amarillo, Mayor of that northern Metropolis, visited and transacted business here Wednesday and Thursday.

THE COVA HOTEL CHANGES HANDS

Monday, May 1st, the Cova Hotel, formerly operated by Mr. and Mrs. Sam Darby was bought by F. H. Bauers.

Mr. Bauers is an experienced hotel man, having engaged in that business for many years. He was owner at one time of the Morrill Hotel at this place, but for the past year or two has been in the central part of the state in the same business.

We are glad to welcome Mr. Bauers back to our town and trust that this time he may see fit to remain with us.

We understand that Mr. Darby will again enter actively in the grocery firm of Darby and Willeford.

Edgar Jennings, returned this week from Roswell, Texas, where he has been for the past several months. He says he was drowned out down there, and is hunting a place to test his foot without stepping in the mud. He will locate on the ranch close to Maleshoe.

Lee Duggan, arrived this week from Dallas, where he has been for some time. He will be associated with his father here in the Loan business.

EAGLE PENCIL COMPANY, NEW YORK

Prices Must Be Lowered If Business Is Brought Back To Normalcy Is Claim of Senator McCumber

Washington, April 20.—Launching the administration tariff bill today in the Senate, Chairman McCumber of the finance committee warned manufacturers, factory laborer and retailer alike that a protective tariff alone would not bring a revival of business; that there must be a reduction of costs within the reach of the consumers pocket book before there could be a return to "old prosperity."

Senator McCumber said the way to reduce costs was for the manufacturer and retailer to be satisfied with "most meagre" profits for a while, and for the factory employes to increase their efficiency "to the highest possible degree in view of the present high cost of living," he added, it would be "most unjust" for the manufacturer to begin his economy by cutting wages.

After Senator McCumber's address there was a dispute between Republicans and Democrats as to procedure with a result that adding of the 440 page bill was ordered. This consumed the remainder of the day and it was announced that when the Senate convened tomorrow it would consider the 2,000 odd committee amendments.

Democrats Object
Objecting today to immediate consideration of committee amendments Senator Simmons of North Carolina, declared the minority had not had sufficient time to prepare themselves. He said the Democrats had been working diligently, and gave assurance that they will not "obstruct, but will do everything possible to facilitate the speediest possible final determination."

Senator Jones, Democrat, New

Mexico, asked whether the majority proposed to take up the question of adopting American or foreign valuation. Senator McCumber said the majority was committed to foreign valuation, and added that he did not believe the question would be raised in the Senate, although forming the subject of a difference with the House later. Senator Simmons declared the Senate should go on record on the question or otherwise here might develop a situation where it would have to accept American valuation after the bill was in conference.

In opening his address Senator McCumber, told the Senate that a production costs were necessary "to reconstruct the commercial bridge across the chasm separating the cost of production in the United States and abroad."

Health Official Says Pellegra Disease Is Curable

Washington, April 24.—Pellegra, which has caused widespread illness and taken a heavy toll of life in the United States and many countries of Europe, is caused primarily by lack of animal protein in the diet and is both preventable and curable by both quantities of animal protein being included in the diet, it is announced by the United States Public Health Service.

Drs. Joseph Goldberger and W. F. Tanner, surgeon and assistant surgeon, respectively, of the United States Public Health Service, reporting the results of many years study of the disease, assert that forty grams per day of beef or milk protein in the diet will, for practically all normal individuals, prevent the contraction of pellegra. The necessary forty grams of animal protein are contained in about a half pint of beef or three pints of milk.

NEW PIPE LINE BEING BUILT TO AMARILLO

Amarillo, May 2.—An additional main from Amarillo to the gas fields north of the city will insure protection to fuel consumers in case the present lone main should break or be washed out. The new line will connect this city with the Bivins gasser, according to the local unit of the West Texas Chamber of Commerce.

Come to Lubbock.

FEWER CATTLE TO BE PASTURED IN KANSAS

The aggregate number of cattle to be grazed in Kansas this season will fall short of a year ago which was also an off year, the United States Department of Agriculture reports. This is in spite of an increase in cattle from Southern Texas because of a new dipping rule which gives buyers access for grazing purposes to many aged steers in that country.

Fewer Texas owners are expected to graze their own cattle in Kansas. A large part of the cattle will come from Texas, however, having been purchased by cattlemen from other states. Very few cows will be grazed as owners are able to borrow money on them and are holding the animals for breeding purposes. An official of one of the railroads that hauls most of the cattle from the Southwest for grazing each year reports that this road this season will be short about 1,000 cars.

Owners of Kansas grass lands have leased about all of their pastures for the season, the Department also reports. Most of the steer pastures in Greenwood, Chase, Wabaunsee, and Butler counties have been leased at \$8 to \$8.75 a head for the season, although leases at \$9 are not uncommon and a few in Chase county were made at \$9.25. In Wabaunsee county some leases were made up to \$10, the highest for the year.

Prices for pasture averaged \$1.50 to \$2.50 lower than a year ago and show a decline of about \$4 since 1920. Much of the pasture costing \$8.50 to \$9 this season was leased a year ago at \$10 to \$12 and during 1919, when the pasture rentals soared to a record level, the same pastures cost \$18 to \$20. Some pasture for cows has been leased at \$6 to \$7 a head for the season.

Most of the pasture for steers is on a basis of 4 to 5 acres a head. Most of the steers will be 3 and 4 year olds, although there will be a moderate number of 5 and 6 year olds also. Advance reports indicate that cattle going into the pasture section this year will be of good quality. Normally these pasture cattle are practically all marketed by October 1.—Amarillo Tribune.

Lubbock High Track Team Gone To State Meet

The Lubbock High School Track and Declamation teams left Wednesday for Austin to participate in the State Meet to be held there Friday and Saturday. The boys going from here are the ones who recently won in the district meet held here. They go to Austin full of pep, and confident that they are going to bring back some honors. They contest there against the winners from all parts of the state, but inasmuch as several state records were broken by them here during the meet, it is expected that a great showing is going to be made by them.

The different teams, accompanied by Coach Marr, left Wednesday for the Capitol city, and are as follows, together with the events in which they will enter:
Weldon Woodriddle—Tennis Singles.
Lawrence Bacon—Senior Boys' Declamation.
Jenkins Ater—100 yard dash, 220 yard dash, and the broad jump.
Alex Hensley—440-yard run.
Clarence Christian—High and low hurdles.
Rankin Dow, assisted by Hensley, Ater and Christian—One Mile Relay.
Recently the stock judging team went down to the metropolis and took away State honors in that division, and it is hoped that these boys will show they are made of the same stuff, and equally as efficient as their predecessors.

WHOOPIING COUGH.

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, it is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.

LION'S CLUB AT RANGER AFTER TOURIST CAMPGROUND

Ranger, Texas, May 2.—A tourists camping ground, together with municipal tennis courts close in, are projects to which the Lion Club pledges its support to attain during the spring. These are things which the West Texas Chamber of Commerce has recommended for Ranger. Ranger daily caters to many tourists traveling in a auto. The club also went on record as favoring increasing the school tax from fifty cents to one dollar.

DON'T ALWAYS BLAME HENS WHEN EGGS ARE SCARCE

Rats may be getting them—U. S. Government Bulletins prove they know how to get them. Break a cake of RAT-SNAP into small pieces and place where rats travel. If there, RAT-SNAP will get them—positively. Three sizes, 35c, 65c, \$1.25.

PLAINVIEW TO BEAUTIFY FOUR BLOCKS OF PARKING

Plainview, May 2.—Four blocks of parking in the center of Ash Street, which has been recently paved, will be beautified by local organizations. The Kiwanis Club, the Rotary Club, Boy Scouts and the American Legion Post has each taken one block to park and considerable rivalry exists to have the most attractive block by the time of the West Texas Chamber of Commerce Convention.

Lubbock Contractors Get Tahoka School; Work Begins Soon

The contract was let this week for the erection of Tahoka's new school auditorium and rural school building to the firm of Gentry, Nugent & Neves, building contractors of Lubbock. Mr. Neves was in Tahoka Monday and completed arrangements for the erection of a shed for a tool house to be built at once.

The main auditorium is to be built of brick, measuring 50 x 90 feet, and will cost \$16,000.00. The building will have a seating capacity of 1000. Besides the large assembly room, the building will contain the superintendent's room, the library room, a complete stage setting and will be electrically equipped. It will contain six unfinished class rooms below.

The present brick high school building will be equipped with modern toilets and septic tanks, etc., at a cost of \$2,500.00.

The rural school building, to be erected just southeast of the city, will be built of tiling with dimensions 20 x 26, costing \$2,000. This building will be steam heated.

The contract calls for the completion of both the auditorium and rural school building by September 1, this year.—Lynn County News.

RAINS LIVE FISH IS REPORT FROM SLAUGHTER DRAW

Folks from the Slaughter Draw neighborhood, twenty miles northeast, claim that Hereford has not had any rain to speak of yet. It rained ten inches in a very congested space of time in that country on Monday. Furthermore, men of good reputation in that neck of the woods claim to have again witnessed that reported phenomenon where a heavy rain produces live fish.

The statement is made that after the heavy rain Monday a lot of live fish were found wriggling around on the ground near the Draw, one of them being a 7-1-2 pound bass. The fish was found on the Bill Cage place.—Hereford Brand.

A. & M. RIFLE TEAM WINS OVER REGULAR ARMY TEAM

College Station, Texas.—The A. & M. College of Texas rifle team defeated the team of the Ninth Infantry in their match at San Antonio recently by four points. The winning points were made in the final stages of rapid fire.

Joseph Fuchs of Cypress Mills, Texas, member of the A. & M. team, was high point man of both teams, making 332 hits out of a possible 350.

As a result of this winning of A. & M. men over one of the best trained regiments of the regular army, the superiority of the training given the cadets at this College is very definitely and undisputedly established.

The Roman catacombs are 580 miles in extent, and it is estimated that something like 15,000,000 dead are interred there.

The harp is believed to have originated from the hunting bow, the tightly stretched string of which will emit a musical note.

Take care of your sense and your dollars will take care of you.—Newspaper Enterprise Association.

CONGRESS ASKED TO ADOPT NEW CALENDAR, 13 MONTHS

Dr. W. W. Campbell, Director of Lick Observatory, has prepared a calendar that would never change, that would be good for a million or a trillion years. A bill has been introduced asking Congress to adopt the calendar. The calendar provides for a year of thirteen months with exactly twenty-eight days each, with twenty-four working days in each month. The calendar for every month of the year would be just like this:

M.	T.	W.	T.	F.	S.	S.
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

By this calendar the first of every month would fall on Monday and the last, of course, on Sunday. It is estimated that if such a calendar can be arranged and the world can be persuaded to adopt it, as, for example, it adopted standard time, such a calendar would save annually more than \$40,000,000 in the reworking, printing, and lithographing of

new calendars for each succeeding year. The saving in time and money along other lines by this reform of the Gregorian calendar would be approximately \$700,000,000 a year, according to estimates of those astronomers and other scientists who are endeavoring in every country on the globe to bring about this uniform, perpetual division of the year into its 365 parts. This calendar provides for "New Year's Day" to come between December 28 and January 1 every year and for "Leap Day" at the end of June every fourth year. No other names would be given to these days—that is, they would not be called Sunday, Monday or by any other of the names of the seven days of the week.—Christian Advocate.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEP-SIN" is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

"Wants to help those who try"

THE Marking Car of the AVenger Q. Mills Highway Was Here Tuesday Enroute to Texico

Two do By L. T. Martin. of the chicken Club of Texas arrived Tuesday morning, marking agent of Roger Q. Mills Highway. These status in charge of Lewis Hancock in the hills.

conducted the Q. Mills Highway be took his case Texas line on the east compiled report, La., and extends to showed the line on the west at Texhena, with. The distance traversed highway is 720.9 miles and ghway is a most prolific portion farmers keep Mr. Oats d that "the a farm are p of the value than if that standard. Red persons would stocks would revenue as high Mr. Oats said of the sales h came from m this being true that

of the State, connecting at central portions with other branches of state highways as well as continental roads.

The marking is a characteristic white band surmounted by a black band with a similar band below. The white will be stenciled with the initials letters of the highway, and a numeral. This numeral is that number as designated by the State Highway Department at Austin. As in Lubbock the number is seven.

At every turn that might offer

confusion on this 720.9 mile stretch across Texas, markers are placed. If the turn to be made is at a crossroads, there will be found three markers upon telephone poles and in some cases there will be four markers. Should the tourist continue ahead at a crossroads, there will be placed a marker before and after the crossing. All markers are to be passed. In a city where the tourist might become confused, a marker will be found usually in every block.

In the "Staked Plains" northwest of Lubbock where the Plains are not staked as the name might adversely apply, the highway will literally be staked. Here where telephone poles or fence poles will not be found, will be placed four by fours in the ground. These will have the black and white bands of the R. Q. M. Highway.

The car used by Mr. Hancock is worthy of comment. It is a special built, one mounted on a standard chassis. A complete camping outfit is carried. A newspaper camera and wireless telephone are included in the appointments of the car.

CHAMBERLAIN'S TABLETS ARE MILD AND GENTLE IN EFFECT

The laxative effect of Chamberlain's Tablets is so mild and gentle that you can hardly realize that it has been produced by a medicine.

Save the surface and you save all!

\$82 spent for paint brought a \$1,500 loan on this house

FINDING it necessary to place a mortgage on a small dwelling which I owned, I had the property inspected and was surprised to learn that the appraiser advised reducing the insurance one-third.

The best loan I could get was \$800. The house was four years old and had never been painted. A real estate friend said "That is the trouble."

I got in touch with a paint dealer, invested \$42 in ready mixed paint, hired an old negro for \$40, who put two coats on the house.

With this \$82 investment I had no difficulty in securing a loan of \$1,500, and my insurance policy was increased one-third.

G. E. LEMMON, Savannah, Georgia

Paint your home with S-W House Paint

SWP, Sherwin-Williams House Paint is a long-lived paint made of pure lead, pure zinc, and pure linseed oil. Its use cuts painting costs in half.

We'll tell you how paint increases the value of your property

You can borrow more on your home, sell it at a higher price, live in it more comfortably, if it's properly painted. SID CARAWAY (HIMSELF)

Red Cross Doing Much Valuable Work in Lubbock

(By L. T. Martin)

The Lubbock Chapter of the Red Cross of which Miss Ellis is secretary has many peculiar things with which to contend, and it is a real pleasure to her, after sifting down the evidence in a case, to know that she is doing real good for humanity.

What would have happened to a young woman about twenty-five years of age had it not been that Lubbock had a Red Cross office for her to come to? Her story told to Miss Ellis revealed the fact that her husband had deserted her, her father was in the penitentiary, and her mother on a poor farm. She had a married sister who could support her no longer because of the lack of funds. While she was in the Red Cross office, the secretary trying to find work for her, she became very ill. The doctor was summoned who said she was unable to work, and should go home and go to bed—where? The Red Cross secretary made arrangements for her at a nearby rooming house, saw that she had proper diet, and made arrangements for her to return to a place where she had formerly worked and where she would be cared for until stronger.

What a satisfaction it should be for the people of Lubbock to know that they were responsible for the taking of even one girl out of a world of sorrow, and caring for her as the Red Cross has done for this unfortunate girl.

This is just one of the many cases that come to the Lubbock Red Cross office. The American Red Cross workers were the first people to have nurses and doctors on the field with food and clothing for the relief of the flooded districts of not only Fort Worth and Dallas, but also along the Mississippi where the river had broken through the levees.

When we stop to think of the great good this organization is doing, we should all want to contribute—no matter how little—but at least have our names on the honor roll as helping the unfortunate.

ANOTHER GIN FOR BROWNFIELD THIS SEASON

Brownfield, May 3.—Before the cotton seasons opens Brownfield will have another gin. J. A. Reynolds of Tuscola, Taylor County, is moving his machinery and lumber for the new ginnery, which will be located near the school. Many new gins are being erected over the Plains country, according to the West Texas Chamber of Commerce, which reports two news gins for Slaton, Lubbock County.

If You Want to Save Money—

—And go to your banker for advice he would most surely tell you the best way to save is to spend a little less for necessities than you are making, and spend nothing foolishly.

—That is what we would advise, and the way to keep the necessities down to the minimum is to buy your groceries for Cash and get them Cheaper.—We sell Them That Way—For Cash For Less.

Buy Your Groceries Here and Bank the Savings.

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour-bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle, or you may get an imitation fig syrup.

W. T. Ross, of Whitewright, Texas, brother-in-law of A. N. Julien, is visiting here this week.

LOCAL MEN ATTEND CONCLAVE IN FORT WORTH

Geo. W. Briggs and L. C. Ellis returned the first of this week from Fort Worth and New Orleans, where they have been in attendance at the Commandery Conclave of the Masonic Lodge. In passing through Abilene they were joined by O. E. Radford and wife, who still claim Lubbock as home.

The annual State Convention of Texas was held at Fort Worth, and from there the representatives went on to New Orleans to attend the Tri-Annual Conclave, which is a national affair, and held every three years. A most interesting and enthusiastic meeting was had at both places, so we are advised, and some of the most beautiful programs and parades ever seen were enjoyed. Contestants come from all over the United States to try their skill against others in competitive drill, and some of the most perfect and faultless drills are exhibited.

The Tumble "N"

Yes Get the Suit, for on the Evening of Wednesday, May 10, 5 O'Clock, the Pool Will be Opened for the Season

This, the Opening Day, will be FREE FOR ALL and everything is being rushed to the limit to have it in shape and nothing is being spared to make it the CLEANEST place in the city.

The heating plant will be in operation and the water will be fine.—A Program is being arranged and Prizes will be offered. Watch the Tuesday's paper for announcement of program.—The Pool has been leased to H. T. Perry, an experienced man, and a man who everyone knows and he is going to make this the playground for the children during the days of the summer.

The Construction will soon be started on the large deep pool, and completed within 3 weeks, but it is being built separate and will not interfere.

Lets All go and Make it a Place We Can All Enjoy With Our Families.

Henry Ford Is Turning Out Daily 27,000 Yards of Leather Substitute For Use in Curtains of Ford Cars

Henry Ford is now reported as turning out daily 27,000 yards of leather-substitute for use in the seats, tops and curtains of Ford cars. In 1920, we are told by Kennedy H. Cassidy in an article in the Michigan Manufacturer and Financial Record (Detroit), the Ford Motor Company built 840,000,000 motor cars, necessitating the purchase of approximately 81,875,000 square feet of rubber cloth material for tops alone. The process by which Ford is producing this great quantity of "artificial leather substitute daily with a working force of 63 men may be well classed, the writer asserts, among the wonders of the Ford industry, and is one of the answers to "How does Ford do it?" He continues:

"The story of this branch of the giant industry, its gradual evolution from a struggling infancy, and the radical departure from all previous methods involved, forms an interesting chapter in Ford's industrial progression. Prior to 1919, an engineer in Ford's employ conducted experiments in leather substitute making for more than two years. In the latter part of 1918, preparations were made for actual production. On January 6, 1919, 840 yards of sateen were given the first two coats of mixture, as it is called. Since that time the growth of the industry has been rapid, until the estimated output for the current year is in excess of eight million yards.

"Three grades of leather substitute are being manufactured. The raw material is sateen. A twenty days' supply of cloth is kept on hand. The roll is first weighed and inspected. Then it is placed on the unwinder, a special machine equipped with a regular Ford brake which regulates the flow of the cloth into the ovens.

"From this machine the cloth enters the ovens. Seven feet square at their base, they extend thirty feet upward through the roof. Within each oven are coils of steam pipes and a temperature of 190 degrees is maintained.

"Before the cloth enters the oven from the unwinder it is given its first coat of mixture. It is this mixture which changes the sateen into leather substitute. The ingredients and the amount required for a batch are as follows:

"Nitrated cotton, 1,420 pounds; bleached oil, 1,120 pounds; drop black

1,300 pounds; butyl acetate, 33 gallons; ethyl acetate, 320 gallons; benzol, 650 gallons.

"The nitrated cotton used is not quite as highly nitrated as that used in the manufacture of gun cotton and is non-explosive. This is dissolved into the acetates, thinned with benzol, and the other ingredients added. Blended oil is used to assure flexibility.

"At the present time this mixture is received in barrels, already mixed. Ford, however, in the near future plans to do his own nitrating.

"The mixture flows from the supply tank through a pipe directly above the cloth in a thick, black stream. It is spread out and the coat made uniform by the means of a knife which scrapes over the cloth and the excess mixture flows into a trough and is pumped back to the supply tank.

"The prepared cloth passes into the oven, travels to the top of it and down again, and then emerges on the opposite side. By this time the first coat of composition has been baked on. This sateen then receives a second coat of mixture and then travels into another oven. This process is repeated into seven ovens. Coats one and two are not as heavy as the other five, thus providing a thorough penetration of the cloth, which travels on rollers moving at a uniform rate of eighteen yards per minute.

"After emerging from the ovens, the cloth is cooled by merely running it up and down in the oven.

"From the ovens a roll of cloth is carried to the embossing press, which exercises a pressure of 200 tons and makes seven and a half presses a minute. After the leather has been grained, a finishing coat of mixture is applied. When the coating process is finished the material is inspected, rolled, packed into box cars and shipped to the assembly building where it is made into seats and backs. The yardage of finished leather exceeds the original yardage of cloth, due to a slight stretching of the material."

The foregoing details are of the manufacture of a heavy material for seats. In making top and curtain leather a different grade of sateen is used. Only four coats of mixture are applied and only four ovens are necessary. More oil is also used to give increased flexibility. Mr. Cassidy proceeds:

"Approximately 2,000 pounds of nitrated cotton are used every day. The ingredients are mixed in a large revolving tank having a capacity of 1,500 gallons. The mixing of a single batch requires from six to eight hours.

"Prior to Ford's experiments all ovens used in making artificial leather were of the horizontal type. With the horizontal oven there is the necessity of transporting the cloth from one oven to another, and a forced draft is necessary to carry off the heavy fumes while in the vertical oven natural draft is sufficient. Finally, danger from fires is greatly lessened. With the vertical oven the

flames are confined to the oven and escape through the roof. Ford has taken every precaution to avoid fire. Everything is grounded for static electricity. All lights are outside of the building and so arranged that they shine through the windows.

"There are some interesting bits of salvage work in connection with this production. It was noticed that when the barrels of cellulose were emptied considerable of the material adhered to the sides of the barrels and was wasted. By rigging up a barrel tumbler—a revolving platform to which the barrel is fastened—and by the addition of a thin oil most of this loss is now recovered.

"Another saving has been made in the photographic department. All Ford Weekly films and negatives of pictures that are discarded are sent to the artificial leather building where they are soaked in hot water and the cellulose recovered. This is used in the mixture.

"Ford is also preparing to make his own cloth and, from present indications will, in the near future, be able to manufacture enough for his own use. At this time three looms are turning out 120 yards daily.

"Should Ford obtain possession of the nitrate plant at Muscle Shoals, one operation there will be the nitrating of cotton. If this can be accomplished, Ford will be weaving his own cloth, nitrating his own cotton, preparing his own mixture, and manufacturing his own leather substitute. It is possible that should matters turn out as expected, his entire plant will be transferred to Muscle Shoals. At this time, sixty-three men are turning out from 27,000 to 36,000 yards per day."

A GLIMPSE OF SHALLOWATER AS WRITTEN BY A SUBSCRIBER

We see so much regarding communities in your grand paper, we just want many to know that eleven miles northwest of your city of Lubbock, in Lubbock County, on the main line of the Santa Fe, is the progressive town of Shallowater with the most wide-awake, up-to-date, and up and doing set of citizens whose equal is hard to find. Not many years ago we were a bald prairie but today a smiling little city with three big stores, where you can obtain anything from a hair pin to a hair-cut, a box of pills to a lister, a can of ketchup to your daily mail, then if not satisfied stroll through our beautiful eight-acre park, surrounded by trees, mop your brow, drink of the clear cool water from our park water system, and stretch yourself under the nicely growing young trees, watch our large sign press your fleecy staple into bales, or see our porkers or beef cattle crowded up the loading chute into cars on their way to market, or watch the carpenters toil away on some new door frame in our big lumber yard, trying to keep abreast with the many new farm homes being built in our community. Perhaps you are growing tired of this, so step up to the garage, have a service car drive you through our newly registered herds of cattle, or our smiling farm-greens with tender wheat, or smiling corn, or growing cotton. Last, but not least step into our \$20,000 school building, which is second to none and only equalled by few in the country, and see four teachers dutifully instructing a hundred or so pupils up to the eleventh grade, or perhaps if it were Sunday, you would attend Sunday School with us, and later join us in listening to one of the many beautiful sermons, by one of the several good ministers who lead us righteously in the way of the Lord.

A SUBSCRIBER.

OFFICIAL REPORT OF THE WEATHER DURING APRIL

Lubbock, Texas, May 1, 1922.—The following is summary of the weather conditions prevailing during the month of April, 1922.

Maximum temperature 87 degrees. Minimum temperature 31 degrees. Mean temperature 58 degrees. Departure from normal, .97 degrees.

Maximum relative humidity, 89 per cent. Minimum relative humidity, 18 per cent. Mean relative humidity, 61.68 per cent.

Total wind run for month, 7,875 miles. Normal wind run for April, 7,701.25 miles. Departure from normal, 326.25 miles.

Total evaporation, 6,356 inches. Number of clear days, 15. Number of partly cloudy days, 2. Number of cloudy days, 13. Total precipitation for April, 3.59 inches. Departure from normal, plus 1.76 inches.

Total precipitation from January 1 to May 1, 1922, 4.58 inches. Normal rainfall, January 1 to May 1, 3,989 inches.

R. E. Karper, Supt. Lubbock Experiment Station.

GARNER HILL, GLADSTONE, N. J., SELLS RAT-SNAP, HE SAYS

"I sell and use RAT-SNAP. Like to look any man in the face and tell it's the best. It's good." People like RAT-SNAP because it "does" kill rats. Petrifies carcasses—leaves no smell. Comes in cakes—no mixing to do. Cats or dogs won't touch it. Three sizes, 35c, 65c, \$1.25.

RULE BANKERS PLEDGE ASSISTANCE TO LIVESTOCK

Rule, Texas, May 2.—Haskell and Knox County Bankers' Association at a recent meeting pledged itself to assist and encourage the raising of cows and better livestock and poultry, and diversified farming in the town counties in line with the campaign now being conducted by the West Texas Chamber of Commerce. Benjamin was selected as the next meeting place six months hence.

Opportunities

Now lie all around for the man who has "ready money". The man who hasn't it, is always embarrassed by seeing the other fellow seize the "big chance" and forge ahead.

Don't envy him his "luck." Practice his forethought. Why not open a Savings Account here.

The amount doesn't count. It's the start—that's the thing.

The Lubbock State Bank

Capital and Surplus \$165,000.00

Wheat Condition Of Texas Reported 65 Percent Normal

Austin, May 1.—The State Department of Agriculture has made public report of the acreage of principal farm crops planted this year as compared with last year. The estimate was based on reports from 155 counties. The report is incomplete as some correspondents stated some crops were not sufficiently advanced to give accurate information.

The acreage report follows: corn, 96.8 per cent; cotton, 106.8; wheat 84; oats 86.9; hay 95.4; feed sorghum 102.9; syrup sorghum 99.0; ribbon cane 109.9; field peas 102.0; sweet potatoes 107.3; peanuts 94.1; watermelons 109.9; cantaloupes 100.5; strawberries 105.0; tomatoes 111.0.

More than 1,400 cars of tomatoes were shipped last season and with the increased acreage this year the shipment will be materially increased, with a probable yield of 1,500 to 1,800 cars.

Some of the fruit and vegetable crops grown in different sections of the State are mentioned in the report on them were too meager. The acreage of peaches is about the same as last year, but a small yield is predicted because of the March freeze.

The cabbage crop of the lower Rio Grande Valley has been harvested with a yield of 3,380 cars as compared with 1,507 cars last year.

The acreage of onions appears slightly increased but the March freeze will affect the yield per acre. However, 2,417 cars had been shipped up to April 22, compared with 1,549 for the same period last year. The total yield is estimated at between 3,500 and 4,000 cars.

FISHER COUNTY'S CROPS WASHED OUT BY DOWNPOUR

Roby, Texas, May 1.—Mail arrived over the Katy to North Roby at eleven Friday morning for the first time since last Tuesday, due to wash-outs on that road, one of which was near Hamlin. There has been no mail over the Orient since Tuesday, and it is reported that it will take several days to restore service on that road.

The rain falling Tuesday afternoon and night was the heaviest recorded in this county for years, registering more than five inches in places.

A great many farmers had planted feed and the greater part of their cotton but from reports over the county they will have to plant over practically all their cotton and most of the feed.

According to reports from over the county there were only a few bridges washed out and they were smaller ones. No serious damage done to the larger type of bridges, but the roads are reported in bad condition in some places.

Last week's rains bring the total for the month of April up to something near twelve inches, the first we have had in nearly nine months.

RED HENS THAT ARE GREAT LAYERS

I have two breeding pens of Rhode Island Reds that have been bred and fed to lay for several years. Last year they were carefully tested by a Hogan expert according to the Hogan standard of laying capacity. This capacity was very great indeed. They have made a wonderful record this year. One of these hens began laying early last spring and laid all spring and summer. She was shipped to Lubbock with others in October. I supposed she would stop laying and moult. She missed three or four days and began laying again and has laid continuously to date. She has not attempted to set and has not moulted. I believe this hen has laid three hundred eggs in one year. Her eggs are fertile and are hatching strong chicks. The color has faded from this hen's legs and plumage. The great egg producers do not retain their rich plumage. The Reds are no exception to this rule. This strain in the hands of my son won nearly all the prizes at the Poultry Show held in Amarillo in December. These hens are mated to a cock and cockerel of dark rich red plumage and are reproducing remarkably well. May and June are the best months to hatch prize winners for the Fall and Winter shows, provided too, they have good care. If interested phone or see me between the hours of twelve and two o'clock, any day except Sunday. See my ad in the Avalanche.

C. N. FERGUSON.

Run-down, Nervous?

Weak Women Can Find The Help They Need.

Greenville, Miss.—"When I first began taking Dr. Pierce's medicine I only weighed 103 pounds; I now weigh 112. I was a nervous wreck and could not do any of my housework. At first I was afraid I had heart disease. A friend told me of Dr. Pierce's wonderful medicines, and I began taking them. Now I do not know what it is to feel fatigued. I highly recommend both the Favorite Prescription and the Medical Discovery for I have proof that they are good even when other things fail to help. I always recommend them to my neighbors."—Mrs. Jimmy Scott, No. 610 Deaton Street.

Write to Doctor Pierce, President Indaldis' Hotel in Buffalo, N. Y., for free medical advice.

The younger Stephens is said to have fired seven times with a .45 automatic revolver at his grandfather, all taking effect. The older man lived only a few seconds. He died without making a statement.

Wiley A. Stephens surrendered to the local officers and a charge of murder has been placed against him.

The shooting occurred in front of the victim's place of business on South First street. Wiley Stephens, is married and one of the proprietors of a restaurant near the establishment of his grandfather.

The dead man moved to Abilene from Afton Texas, about a year ago, and was formerly proprietor of the Commercial hotel of this city, but was later engaged in the grocery business.

J. H. Moore left Monday of this week for Nashville, Tenn., to be in attendance at the General Conference of the Methodist church. He goes as a delegate from the Lubbock District.

MERCHANT DIES AFTER SHOOTING MONDAY

Abilene, May 1.—J. S. Stephens, 76 years old, was shot and almost instantly killed at 9:30 o'clock this morning. His grandson, Wiley A. Stephens, is under arrest. Alleged threats against the younger Stephens and his wife by the elder Stephens are said to have been the cause of

Church Membership During 1921 Made Greater Increase Than During Previous Year According to Statistics

Gloomy persons find a pleasing discomfort, apparently, in bearing witness to the current dissolution of all things high, holy and wholesome. To their way of seeing, evil has encompassed the land and spread out upon the face of the seven seas. Vanity and emptiness confront them wherever they cast their disillusioned glances and crime and woe lurk close at hand on every side. And yet the churches, usually accepted as the bulwark of moral progress and civilized advancement, are shown to have gone forward during 1921 at a more rapid pace than in 1920. More than three quarters of a million souls were added to the several denominations of the United States last year. The figures would have been larger but for the fact that 1921 statistics for the Baptist denominations were not available.

The statistics as collected for the Christian Herald are worthy of study. They show that the Methodist bodies gained nearly 300,000 adherents during the year; one-third of this being accounted for by the growth of the colored Methodist Episcopal church. The Presbyterians advanced by 62,449, giving them a total membership of 2,318,342. The increase of the Salvation Army was 59,247, while the increase in the Catholic Church is put at less than 50,000—the smallest increase in many years. The fact that the Catholic increase of 1920 was more than twice that of 1921 would seem to indicate that possibly immigration restrictions have affected the growth in this instance, as immigration had been heaviest in recent years from countries

where the Catholic Church is predominant. The Latter Day Saints of Utah gained 45,000; the Protestant Episcopal Church, 5,000; Disciples of Christ, 24,000, and the United Brethren, 13,245. The Christian Scientists are not represented by statistics, the same condition prevailing in the religious census of the Government in 1916, because of the policy of the church toward withholding information as to numbers. The totals for communicants which the Christian Herald finds to obtain at present give the Catholic Church 15,342,171 adherents; Methodist 8,001,606; Baptists (1920 figures instead of 1921), 7,825,598; Lutherans, 2,429,561; Presbyterians, 2,318,342; Disciples of Christ, 1,519,715; Protestant Episcopal, 1,092,806; Congregational, 819,225; Eastern Orthodox Catholic 645,444; Jewish Congregations 357,135; Adventists 136,579; Friends, 117,391; Unitarians, 71,110; Universalists, 59,650.

MEDALS AWARDED MUSIC PUPILS AT BROWNFIELD

At the conclusion of a Musical Recital at the high school auditorium last night, given by pupils of Mrs. W. H. Dallas, a gold medal was awarded to Deotta Pounds, daughter of Mr. and Mrs. L. S. Pounds, and a silver one to Elizabeth Downing, daughter of Mr. and Mrs. W. B. Downing. These medals were offered for best piano practice.

Flappers dress for speed and comfort.

SLATS' DIARY

Friday—Wife digging around threw the remains after ma had cleaned up the house I found a book entitled How to Bring up Boys. I red it all evening and was dismayed to learn that I have not been brought up a tall properly. But I shud ought to wirry about that.

Saturday—Getting redder to go out to Ant Emmys tomorrow wich is Sunday. I dont xpect to have much fun as it nocks me out of a ball game meebby. Pa likes to go out there for he all ways eats enuff to make him sick. He says Ant Emmy shakes a mean skillet.

Sunday—Had a good time out to Ant Emmys xcept pa witch had ate so much he got 1-2 sick and busted his Nuckle on a spark Plug and cussed without thinking. Met a boy-out there witch said he was so tough the can walk on broken bottles bear footed with a pole cat in each hand looking for a mule to kick him so as he could digest his breakfast. Did not take much stock in him. But sed nothing.

Monday—Teacher past quite a pompous one today. She sed she had a high position 1 of these days. The reason why she sed the same being that I kinda failed to have my lesson and give such a good excuse for not having same that she sed I had the qualits for a Successful congressman or etc.

Tuesday—Ma was xtraordinarily sweet and kind today till pa spoilt it all by making an unhappy remark at the rong sykological moment. I ast him why they most nearly all ways had married men on Juries insted of Single men and he answered by replying They must have people who do not have or express any Opinions.

Wednesday—Ma brot home a new hat and she put it on her hed and sed to pa. Aint it a dear thing. And pa picked up the bill and give it a hard look and sed. Yes, It certnly is.

Thursday—Jane got mad at me agen. She handed me a package & sed Bitterly. Here take back your old pin. Be the joke is on her. And I wonder who give her the pin.

MONROE NEWS ITEMS OF THE PAST WEEK

All of Monroe was in tears last week, when the sweet, gentle spirit of Mary Thomas, left this earth and returned to God, who gave it. Mary was 12 years old, in the 6th grade and was loved by a large circle of friends. The funeral and burial took place in Lubbock, and the rain kept many friends from attending. The married children of Mr. and Mrs. Thomas attended the funeral, but I failed to get all the names and addresses.

Many friends called at the Thomas home and sincere sympathy is felt for the entire family, in giving up their precious Mary.

Mr. Ed Gillet has been nominated for Trustee of Monroe school, to fill the vacancy made by the resignation of Rufus Bundy, but no election of Trustees has been made yet.

Mr. and Mrs. B. G. Sherrod, of Lubbock, spent last Sunday with their parents, Mr. and Mrs. Teal.

Miss Leola Cox and Miss Geunie Lightfoot, came in from their school near McAdoo last Tuesday to visit Mrs. H. Cox. They put on the play "Mrs. Tubbs of Shanty Town" at the close of their school. While motoring to Lubbock on last Friday night, the car was turned over near the residence of Mr. Daugherty, and the occupants of the car suffered as follows: Mr. Hugh Barber, who was driving car, a severe case of regret; Miss Lightfoot, a black eye, and mud on her pretty new silk dress; Mr. Ira McNeely, arm out of place; Miss Leola Cox a broken heart. But they went on to the show at Lubbock and report a pleasant evening.

Messrs Ed and Lonnie Teal were talking some girls driving on last Saturday p. m., when they had car trouble and had to postpone their anticipated trip to visit Miss Bera Teal.

Mr. Paul Morgan spent last Sunday and Monday in Lubbock with friends.

Adrain Merrill and Mable Long, who attend school at Abernathy and ride on horseback found almost high water in the road on last Monday. Miss Lightfoot left for her home

Miss Leola Cox entertained a number of her friends with sweet music on her victrola on last Sunday p. m., in the Cox home.

SHORTAGE OF FOOD THREATENS BRONTE

Bronte, May 1.—Some concern is felt here over the continued interruption of communications as a result of the recent floods, as the food supply in the town is running low, and as it is not known when trains will be again running.

The situation was aggravated by another three-inch rain this morning, which again put the Orient bridges out of use. No trains have reached here from San Angelo in a week. Three regular trains and one freight train arrived here from the north during the week.

All wagon roads leading into town are impassable—a condition that eliminates the possibility of bringing food supplies by wagons or trucks.

JACK MCGINNIS LEAVES FOR BOMARTON MONDAY

Jack McGinnis, formerly employed by the Hunt Grocery Company, and well known here, resigned his position the first of the week, and left Monday night for his home at Bomarton, Baylor County, Texas, where his parents reside. Mr. McGinnis may possibly enter business at that place. While here he made many friends who regret to see him leave, for he is a young man of sterling character, and one who will be missed from the activities of the town. May he prosper in his new undertakings, whatever they might be, is our wish.

ARTHUR LANE MARRIED SATURDAY OF LAST WEEK

Saturday, at the beautiful little Christian parsonage in the south part of town, two happy young hearts were made to beat as one. Mr. Arthur Lloyd Lane and Miss Agnes Mildred Phillips were very quietly united in marriage by the pastor of that church, A. N. Julien, with only one or two close friends of the contracting parties being permitted to attend.

Miss Phillips has lived for some time east of town, and is a highly refined and accomplished young lady. Mr. Lane is well known here and has a host of friends who join us in wishing for him a long life of happiness and success.

Mr. and Mrs. Jno. B. Vaughn have moved to Lubbock, where Mr. Vaughn has formed connection with one of the banking institutions. We wish them well in their new home.—Lamesa Journal.

Alarmists seemingly regard the rising generation as a falling one.—Norfolk Virginian-Pilot.

Washington, May 2.—President Harding is to be asked by the Senate Finance Committee Republicans to approve a soldiers' bonus bill differing from the House measure only in minor essentials.

This was decided at a conference of committee Republicans today at which, Senators said, the Smoot plan of substituting a twenty-year endowment life insurance plan for the adjusted service certificate was discarded without a record vote. The Smoot plan would have provided for no specific loans on the policies.

The measure to be taken to the President is what is known as the McCumber plan, which would provide for immediate loans to the veterans equal to fifty per cent of their adjusted service pay at the rate of \$1 a day for domestic service and \$1.25 a day for overseas service. At the end of three years the loan value of the certificates would be eighty per cent of the adjusted service pay plus four and a half per cent interest annually.

Joseph S. McCoy, the Government actuary, presented estimates to the committee showing the cost of the McCumber plan for the fiscal year was \$77,000,000; \$92,000,000 in the second year, \$73,000,000 in the third year, and \$376,000,000 in the fourth year, with the ultimate cost approximately four billion of dollars.

The cost includes payments on account of death, cash to veterans entitled to not more than \$50; vocational training and farm and home aid. The land settlement option has been eliminated from the bill.

Perhaps we could cut our navy down to three days a week.

Don't Discard Your Tread Worn Tires

If your worn tires have a sound body, there is mileage in them, and our business is to help you get this mileage.

One Hundred and Twenty-Eight Contestants In Music Interscholastic Meet At Belton, Texas, Last Week

With 182 contestants present from 21 towns, the first Annual Texas Interscholastic Music Meet was opened at 11 o'clock yesterday morning in Alma Reeves Chapel, with Dr. W. M. W. Splawn of the University of Texas presiding. Towns represented were, Belton, Bonham, Calvert, Dalhart, Hearne, Hubbard, Laredo, Lorena, Port Lavaca, San Antonio, Temple, Waxahachie, Marble Falls, Jacksboro, Coleman, Lubbock, Waco, Honey Grove, Reagan, New Boston, Cameron.

The meet was opened by an address of welcome by Dr. J. C. Hardy in which Dr. Hardy paid tribute to Director T. S. Lovette, Baylor College Conservatory of Music for inaugurating an interscholastic music meet and attributed Superintendent L. H. Hubbard with the idea of such a contest.

The first contest held was that for piano solos in which twenty-three contestants took part. Miss Dorothy McGee of Waxahachie won the first prize, one year's tuition with a value of \$225, under Dean T. S. Lovette. The second prize, one year's tuition under Miss Ruth Burr, valued at \$105 was won by Dorothy Helen Derby of Laredo. The compositions played in the piano contest were Nocturne in D minor by Lovette and Sonata in D-major No. 7 by Hayden.

The first of the two selections was composed by Dr. Lovette, director of the music meet, who besides being dean of the Baylor College conservatory of music is a composer of note. The playing of this nocturne was a compliment to the director of the meet.

The second contest of the day was for soprano soloists. The compositions sung were the "Birth of Morn" by Leoni and "Happy Song" by Riego.

Miss Nina White of Bonham won first prize in the soprano contest and Miss Elsie May Gates, Temple, won second place. The first prize is a scholarship worth \$105 for one year's tuition under Eva Whitford Lovette, head of the voice department of Baylor College. The second prize worth \$105 is tuition for one year under Miss Ethelene Morgan, Baylor College.

Following the announcement of the prizes by the judges, Horace Clark, composer of Houston, E. Clyde Whitlock, violinist of Fort Worth and Julius Albert John, pianist of Dallas, the meet was adjourned for lunch.

The second session of the meet was opened at two o'clock in the afternoon by Dr. W. M. W. Splawn, chairman of the day. Dr. Splawn said that Baylor College is the greatest center for music in Texas and that the best teachers to be found are here. In a few years, Dr. Splawn thinks that Texas people will not find it necessary to go East to hear the best music of the world, for the best musicians will be produced here at home. Dr. Splawn praised the work of Dr. Lovette and said that it was very appropriate that the music meet should be located here, both because of the interest which the dean of the music department of the college takes in the meet and because L. H. Hubbard, who suggested the meet is the superintendent of the Belton schools.

The violin contest with eight contestants took place after Dr. Splawn's address. Saul Klein of San Antonio, won the first place and Miss Camilla Marrs of Marble Falls won the second place. Both prizes were a year's tuition under Kenneth Wood head of the violin department of Baylor.

In the interval between this contest and the next, Mrs. Allie Coleman Pierce mezzo-soprano, sang "Spring" by Cadman and "Lullaby" by Napravnik, and Mr. Wood violinist played the two selections.

The prize in the contralto contest was awarded to Miss Anna Earl Gibson of Temple who was the only contestant. The prize was a year's tuition under Mrs. Allie Coleman Pierce of the voice department of

the college. The selections sung were "At Dawning" and "When Love is Kind."

Dr. Splawn introduced Mrs. Eva Whitford Lovette who has assisted so ably in getting ready for this meet and who took over the direction of the preparation during the recent illness of Doctor Lovette.

Mrs. Lovette responded graciously. The remaining three contests were group contest, the prizes for the winners being platinum loving cups.

Three quartets, one orchestra and four choral clubs were entered in the contests. Benton was a winner in the girl's quartette. Temple in the choral club contest, and Waco in the orchestra contest.

Just before the singing of the last choral club, Dr. Lovette invited each of the year's contestants to come to the meet next year and briefly outlined plans for the next annual interscholastic music meet. He also accredited Mrs. Lovette, Miss Eva Workman and Dr. Hardy with the success of the meet.—Belton Evening News.

THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, Greeting:

You are hereby commanded to summon R. S. Duke, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in June A. D. 1922, the same being the 12th day of June, A. D. 1922, then and there to answer a petition filed in said Court on the 11th day of March, A. D. 1922, in a suit, numbered on the docket of said Court No. 1560, wherein Lena Duke is Plaintiff, and R. S. Duke, is Defendant, and said petition alleging: A cause of action for divorce.

Plaintiff alleges she is a bona fide resident of Lubbock County, Texas, and has been for more than six months next preceding the filing of this suit, and that she has resided in Texas for more than twelve months next preceding the filing of this suit. That she and defendant were married February 24th, 1919, and separated on March 20th, 1921, on account of the cruel treatment of the defendant. That soon after they were married the defendant began a course of harsh, cruel and unkind treatment toward her and continued such until about the time they were separated; that he assaulted plaintiff with his fist and threatened her life without just cause; and that the defendant wholly failed to support and maintain plaintiff—such treatment was of such nature and character as to render their further living together insupportable.

She prays for citation by publication against the defendant and that on hearing, she be decreed a divorce and for any other relief she may show herself entitled to.

Herein I do Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Lubbock, Texas, this 4th day of May, A. D. 1922.

(Seal) LOUIE F. MOORE, District Court, Lubbock County, Texas. 20-4F

EVILS OF CONSTIPATION
Perhaps the most serious of the diseases caused by constipation is appendicitis. If you would avoid this dangerous disease, keep your bowels regular. For this purpose Chamberlain's tablets are excellent, easy to take and mild and gentle in effect.

Fourteen Sinn Feiners were released from English prisons last week by the government. They are believed to be the last of such prisoners.

We Figure That This is Good Business

Everybody we talk to about it agrees with us that it's good business:

- To diagnose battery troubles as carefully as a doctor diagnoses his cases.
- To advise and make repairs only when we know repairs will pay.
- To recommend the purchase of a new battery only when repairs on the old one would not be a good investment.
- To speak frankly, plainly, and with a thought of the best interests of the battery owner whether his is a Willard Battery or not.

WEEKLY MARKET LETTER

Kansas City Stock Yards, May 1.
—With moderate receipts where trade in fat cattle ruled active at strong prices. Chicago quoted a quiet trade at 15 to 25 cents lower prices. Hog prices were 5 to 10 cents lower than last week's close and 10 to 15 cents higher than a week ago. Trade was active at the decline. Sheep and lambs were in active demand with prices 10 to 25 cents higher.

Today's Receipts
Receipts today were 10,000 cattle, 11,000 hogs, and 7,000 sheep, compared with 13,000 cattle, 13,000 hogs, and 8,000 sheep a week ago, and 9,975 cattle, 19,085 hogs, and 8,815 sheep a year ago.

Beef Cattle
The strong demand which developed for cattle last week continued today with prices firm at last week's advance and 25 to 40 cents higher than a week ago. The advance here has been maintained in the face of lower prices in Chicago and is due to a large general demand. Seaboard cities continued to take a large number of heavy steers. Orders from other sections were for light weight steers and mixed grades and local killers bought all classes. The bulk of the good steers sold at \$8.00 to \$8.50. Cows, heifers, and bulls were fully steady.

Stockers and Feeders
Trade in thin cattle was active at strong prices. Receipts were light and some orders remained unfilled. Fleshy feeders sold more readily than last week.

Hogs
In order to get a moderate price reduction packers fell short on their orders and on the close paid nearly steady prices. At the outset prices were down 10 cents and soon they strengthened. The average was down only 5 cents. The top price was \$10.30 and bulk of sales \$10.10 to \$10.25. Pigs sold up to \$10.50 the highest price in several weeks past.

Sheep and Lambs
Prices in the sheep division were mostly 15 to 25 cents higher. Colorado woolled lambs sold at \$15.25 to \$15.50 and Texas clipped wethers \$9.00 to \$9.75. Trade was active.

Horses and Mules
Trade in horses and mules held to about the same lines as in former weeks. Good grades sold readily, but the plainer kinds were in small demand.

CHAS. M. PIPKIN, Market Correspondent.

Approval of fifty-five advances for agriculture and live-stock purchases, aggregating \$1,911,000, were announced last week by the War Finance Corporation. The loans included Georgia, \$25,000; Louisiana, \$120,000; North Carolina, \$745,000; Tennessee, \$30,000; Virginia, \$35,000.

A Message of Hope

May we talk to you for a few minutes as one friend to another, about the one thing so essential to your happiness and welfare—HEALTH?

If you are sick, or some one dear to you is sick and you are discouraged, because health is denied you or your loved one—if you have tried everything else without success—then we want you to know that there is still a MESSAGE OF HOPE for you through Chiropractic—THE BETTER WAY TO HEALTH.

My many years of successful experience proves that my methods get results when all other means fail.

My Assistant, Dr. Jennie Rorabacher is a graduate of the National College of Chiropractic, Chicago. She has had over eleven years practical experience, has passed the Illinois State Medical Board and the New Mexico State Chiropractic Board examinations and holds licenses to practice in both those states and is well qualified as a practitioner.

A spinal analysis will tell the cause of your ill health and consultation is free at my offices in the Burrus Building.

LAMB COUNTY COURTHOUSE IS DESTROYED BY FIRE

Plainview, May 1.—The Lamb County courthouse at Olton, twenty-five miles west of Plainview, was destroyed by fire of unknown origin at an early hour this morning. Heroic efforts on the part of the citizens of the little town saved most of the county records.

Sheriff Tom Keen and other county officers are making an investigation of the origin of the blaze. The total loss to the county is about \$10,000.

Seven hundred pounds of fir seed for the restoration of French battle fields are to be given to the French government by the President of the American Forestry Association. This amount is considered sufficient to plant 20,000 acres of forest land.

For the first time since the war an investment trust has been formed in Germany to list securities of German corporations in this country.

SUNDRY SUPPLY SHOP IS OPENED BY MRS. DARBY

Mrs. Albert S. Darby this week opened on Avenue 2, between the Avalanche and Terrell's Grocery, a business known as the Sundry Supply Shop. Mrs. Darby says that she is carrying everything from rubber balls to household furnishings, and although the stock is not as full as she expects to have it at a little later date, when she will put in a small line of Ready-to-wear, and will maintain a cold drink stand through the summer months.

Germany is taking up prohibition officially in a serious way. Reichstag delegates of all parties having requested the government to investigate the industrial, social, and economic results of prohibition in the United States and report.

A bronze statue of Booker T. Washington, founder of Tuskegee Institute, was unveiled at Tuskegee on April 5.

HUBBERS LOSE FIRST TO AMARILLO GASSERS

Before a crowd of nearly 3000 on the Amarillo Park, the Lubbock Hubbers sustained their first loss of the season Tuesday afternoon by a score of 8 to 6.

Langford got three hits in three times up, one being a homer, one a two-bagger, and a single.

Anheier, for Amarillo, drove out a three-bagger in the first stanza with the bases full, accounting for the lead in the first.

The Hubbers "waded in" in the seventh, and forced three across, two more following in the eighth, but were shut out in the ninth.

Green hurled excellent baseball, errors being responsible for the loss of the game.

Hubbers lose second to Amarillo Gassers

Wednesday afternoon on the Amarillo diamond the Lubbock Hubbers lost the second of a three-game series by the score of 20 to 4.

The game was slow from the beginning, and although the Gassers again got away with a good lead in the early stages, thirteen hits were stacked up against their twirler, while sev-

enteen hits were gotten off the four men used by the Hubbers on the mound.

A triple play was recorded in the eighth by Amarillo, the second that has been recorded in baseball history this year.

Some Common Sense Talk On The School Consolidation in Texas
By T. N. Jones, of Houston, Texas

The teachers and all the people are entitled to know facts, and the facts are that practically every special interest in the state had its representatives quartered in Austin during the special session of the legislature to aid in defeating the appropriations for the schools. In addition, they retained, at heavy expense, special counsel to plan and manage the campaign, ostensibly against increased taxation, but in reality to prevent the further improvement in the education system. The University was the institution against which the main attack was made for two reasons: The special interests knew that it would be less difficult to create prejudice against that institution than some others, and they also desired to prevent, if possible, a compliance with the constitutional demand that a university of the first class be established.

We can make no substantial progress in rural school conditions until we know the enemies of public education and understand their strength.

We must know that there are special interests and large taxpayers who are tired of paying "taxes to educate children of a lot of

sorry." They want those children for their slaves. We must know that there are large landowners in Texas, and those who live by exploiting the people, who will continue to insist that the overworked and underfed boys and girls must be kept on the farms to produce and gather the crops, rather than in the schools during eight months in the year.

Schools Injured

One high in authority said, in effect, that if the people in the rural districts desired to support and maintain their schools, they could accomplish this by voting \$1.00 tax authorized by the amendment to the constitution. Many of the rural districts are so poverty-stricken that a \$2.00 tax would not save their schools from the irreparable injury by reason of decreased appropriation by the state.

The situation for all the schools is this:

The apportionment for all the schools for 1922-23 will be decreased at least \$2.50 per pupil. The distribution for aid of the rural schools will be only 50 per cent of that for 1920-21.

The immediate result will be a reduction of the salaries of the teachers and a general decline in the standard of the public free schools throughout the state. The rural schools will suffer more than those in the large cities, but all will feel the effect of that tragedy enacted at Austin from January 1st to August 15th, 1921.

Two things must be done before September 1st, 1922. There must be a special session of the legisla-

ture for the purpose of making appropriations for all the schools in the state and to increase the rural schools. If those in authority at Austin are in favor of educating the children, a special session will be called. If they are not in favor of educating them, and are unwilling to aid in bringing about a compliance with the mandate of the constitution, that an efficient system of public free schools shall be established, then and there should be other men and women selected in the July primaries to take their places.

Cattle vs. Children

The same legislature and the same governor that cut down the rural school appropriations \$6,500,000, only cut the appropriations for the state university \$50,000. At the same time that the State Department of Education was allowed only \$71,500 for 1921-22 there was handed over to the Livestock Sanitary Commission the sum of \$271,050, nearly four times as much.

There are influences and interests in Texas which are much more concerned about the production of cattle than they are about the education of the children. Those interests need cattle for slaughter, and they desire uneducated slaves to do the manual labor necessary to operate their farms.

There must be women and men nominated in that primary who are unqualifiedly committed to a platform in favor of all those measures and appropriations necessary to improve and perfect our educational system, from the University to the school in the most benighted rural district. We must have men and women who are not only committed to educational advancement, but who earnestly desire to educate the masses.

Every child must be given a satisfactory common school education, regardless of where he resides or what it may cost.

Consolidated Schools

I favor the creation of some state agency to supervise and order the consolidation of the schools by and with the assistance of the county trustees.

The children must be transported free of charge, to the consolidated schools.

A teacherage, as a part of the school property, must be provided at each consolidated school.

Libraries must be provided in each rural school district, with sufficient variety of books to accommodate the children of the district.

Vocational training must be given in every public school in the state. The youths turned out of the public schools are not equipped for any particular service.

The schools should have sessions for twelve months during each year, so arranged as to furnish each child an opportunity to attend at least eight months each year.

The qualifications of the district and county school boards must be raised, and the statutes amended so that their terms of office should extend for six years, a part of them to be elected every two years at some regular election or at the general primary.

The county superintendent of public instruction must be appointed by the county school board.

County Districts

The statutes must be so amended that one or more counties can comprise an independent school district, and the administration placed under the control of the county board of trustees. Where more than one county is included in a district, then a board should be created to control the schools interested therein.

The available school fund must be distributed to the several counties according to their scholastic population, placed under the supervision and control of the county board of trustees and the county superintendent of public instruction, and apportioned in such manner as will be most beneficial to the school interests of the county.

Special appropriations should be made with which to pay the tuition of those from the rural districts who attend the high schools in the cities or towns.

The compulsory attendance law must be amended so that it can be enforced and so that its operation will result in the education of all of the children of the state in the elementary branches up to and including the eighth grade, and this regardless of the age of the child.—The Southern Farmer.

Colorado Flood Damage Is Heavy Reports Declare

Colorado, Texas, April 28.—Five inches of rain, the heaviest in forty years, fell here Tuesday afternoon in the space of an hour and a half. The Colorado river reached the 25-foot stage Wednesday morning and Lone Wolf Creek in East Colorado went out of banks, damaging the Second street bridge and property in that section.

County Judge J. C. Hall estimates the damage to county roads and bridges at \$100,000. Scores of bridges and culverts were washed out and the roads were damaged all over the county.

The city was isolated from the outside world from Monday night onward, the Texas & Pacific tracks being washed out on both sides of Colorado. The railroad bridges over Morgan creek, on the west and Champion creek, to the east, were both washed out.

The new five room farm bungalow of S. W. Lee, five miles east of Colorado, was carried away by the flood waters of Champion creek.

All telephone and telegraph communications were cut off from Tuesday until Thursday. Colorado was without electrical current for 24 hours. No casualties are reported but property damage will run into the thousands of dollars. Water 10 inches deep ran through the streets in the business district Wednesday morning. The water rose into the stores.

Coleman Gets A Plenty

Coleman, Texas, April 28.—The heaviest rain that has fallen in Coleman county in two years fell here between five and nine o'clock Tuesday evening. The rain continued thru Wednesday.

The county is thoroughly soaked and Hord's creek, Jim Ned and Pecan Bayou overflowed their banks. The city lake received a vast quantity of water, assuring Coleman an abundant water supply for months to come.

Six Inches at Bradshaw

Bradshaw, Texas, April 28.—A six-inch rain fell here in forty-eight hours ending Wednesday, playing havoc with the roads and highways by washouts. Officials of the A. & S. Ry. reported washouts south of here, with the results no trains went further south than Winters. Farmers report that a planting-over of most crops will be necessary.

Prison System Loss Is Over Million Dollars

Austin, April 25.—The Texas prison system operated at a total loss of \$1,293,579 last year, according to the auditor's report for 1921, recently filed with Governor Neff. The net loss from operating was \$1,056,646 and the loss from sale of the 1920 cotton of \$238,941 and a fire loss in 1921 of \$23,991 brought the total loss up to the above figure.

All of the thirteen farms operated by the prison system showed losses for the year, as did the cotton oil and sugar mills.

The only concerns operated by the prisons that made money in 1921, are the cabinet shop, the drug store, the "store" and the shoe shop. The total profit of these, together with a gain in adjustment of the 1920 profit and loss account, amounted to \$14,323.

At the close of the year there was a total indebtedness in the State prison lands of \$576,793.—The State owns 81,120 acres of land, valued at \$3,448,073. The other property of the system is valued at \$1,973,668. The system leases 6,020 acres. It also owns 256 head of horses and mules valued at \$263,412. The average cost of maintenance per day per prisoner during the year was 41.9 cents; for guarding prisoners it was 22.9 cents and for both it was 64.8 cents.

The resources and liabilities of the prison system for the year amounted to \$6,927,237. The monthly report of the system for March, 1922, filed at the same time, shows a total of 3,335 convicts on hand, which is approximately 500 more than when Governor Neff took office in January, 1921. In population the system increased by 53 during that month.

Women in China never kiss, and when a Chinese woman wishes to show her affection she gently touches the hand of her beloved.

There have been over one thousand different varieties of potatoes, but only a few of these are worth cultivating.

HOUSEHOLD

Smoked Salmon and Anchovy Canapes.

Remove the crust from stale bread which has been cut in one-fourth inch slices, and cut the slices in squares, rounds or triangles. Saute in butter. Spread with anchovies pounded in a mortar and mixed with butter.

Force through a strainer the finely chopped whites and yolks of hard-boiled eggs, and also the flaked smoked salmon. Place in fancy forms on canapes. Garnish with olives stuffed with anchovies.

Tomato Bisque Soup.

Mix one-half can tomatoes, one bay leaf, stalk of celery, one half an onion, few cloves, few peppercorns, and a sprig of parsley. Bring to boiling-point, then let simmer twenty minutes. To three tablespoons melted butter, add tablespoons flour, and pour on gradually, stirring constantly. Add to one pint scalded milk and serve while hot. This soup may be garnished with whipped cream if desired.

Planked Club Steak.

Prepare a mixture composed of one half pound of butter, one-half teaspoon each of red pepper, and black pepper, one-half teaspoon of finely chopped parsley, and one-fourth tablespoon finely chopped onion, and one-half tablespoon lemon juice.

Spread half of this mixture on the plank where steak is to be cooked. Have a porterhouse steak cut one and one-half inches thick, broil on plank four minutes, then spread with other half of mixture, and arrange cream potatoes near edge of plank, then put in oven and finish cooking; cook the length of time desired. Garnish in any preferred way.

Tomato Salad.

Select firm, ripe tomatoes of an even size. Peel and put on ice until very cold. Then hollow out, being careful to preserve the top. Dice cold celery very fine, and add to this one-fifth the amount of finely chopped olives. Mix any dressing desired, the following is very nice: two tablespoons cream salad mustard, three tablespoons sweet cream, one tablespoon sugar. Fill the tomatoes and sprinkle over the top a garnish of paprika. Serve on lettuce leaves.

Pineapple and Raspberry Neopolitan.

Dissolve one package of jell-o or gelatine in one-half pint of boiling water, add one pint of juice from canned pineapple. When cold but

still liquid whip to consistency of whipped cream. Fold in two or three slices of canned pineapple finely chopped. Turn into a square mold filling half full. Dissolve a package of raspberry jell-o or gelatine in half a pint of boiling water and add one-half pint of juice of canned or fresh raspberries. Whip and fold in berries. Pour into mold after the lemon jell-o has hardened.

Lady Baltimore Cake.

Two cups sugar, 1 cup milk, one-fourth cup butter, one teaspoon flavoring, three and one-half cups flour, three and one-half teaspoons baking powder, whites of six eggs.

Cream the sugar and butter. Sift the baking powder and flour three times, add to the butter and sugar, alternating with milk and flavoring; add eggs last, bake in three layers and ice.

Filling: Three cups sugar, one cup water, three eggs (whites), one cup chopped raisins, one cup chopped nut meats, one-half cup citron, one-half cup candied cherries (cut fine), two tablespoons lemon juice.

Stir sugar and water; fill sugar is dissolved, then let boil without stirring until syrup will thread from spoon. Pour over well beaten egg whites, beating constantly. Continue the heating until icing is cold, add fruit and spread on cake.

A Good Business Proposition.

The Bonham Sweet Potato Curing Association would be glad to sell some suitable business man its new plant. Someone who is qualified and able to run the plant and know how to cure sweet potatoes. We would consider land in Lubbock county at a fair price. This plant cost \$30,000 in cash and is up in good shape every way. Fully paid up. Write Philip Wise, Bonham, Texas. 18-4

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets). It cures the Cough and Headache and works off the Cold. E. W. GROVE'S Dispensary, each box 25c.

In the 16th century it was customary to put on one side of the blades of table knives the musical notes of the benediction or grace before meat, and on the other side the grace after meat.

Some Pointers On the Cultivation Of Gardens Given By W. B. Lanham Director Extension Service, A. & M.

The same principles of cultivation applied to field crops are applicable also to garden vegetables. It is assumed that the garden has been properly planted, preferably laid out in long rows and not on high beds. As a general rule it is a mistake to bed gardens, as they will dry out much worse than if planted level.

Purposes and Advantages of Cultivation: One of the purposes of cultivation is to destroy weeds, but this is not the prime purpose, although many people quit cultivating when there are no weeds growing. Some of the other advantages are:

1. The soil is made warmer and air admitted by cultivating.
2. The amount of plant food is increased by the stirring of the soil.
3. Evaporation is checked by keep-

ing a mulch of loose soil on the surface and not allowing the soil to bake.

Tools: For the home garden, the principal tools are the wheel hoe with its attachments, the hand weeder, and the ordinary hoe and rake. If the garden is sufficient size and has been planted in rows wide enough apart, much of the cultivation can be done with horse drawn implements. In any event it should have been planted so that the major portion of the cultivation can be done with the wheel hoe.

Time: The soil in a garden should be kept in a good state of tilth at all times. Weeds should not be allowed to grow, nor crust to form. The soil should be cultivated after each rain, or watering, and at least every seven days. The depth of cultivation will depend upon the plants grown and on the type of soil. Such plants as potatoes are cultivated much more deeply than lettuce or radishes. Also a sandy soil is cultivated more deeply than a tight clay soil.

Watering: Water can be applied either by sprinkling or by running the water in furrows between the rows. The latter method is much the better, as a general proposition, as it allows the water to soak into the soil thoroughly, wetting it without the formation of a crust. If the water is to be applied from a sprinkling can or hose, a very fine mist should be used, moving the stream constantly to prevent washing out the small plants. In any event the soil should be thoroughly soaked at intervals or from five to eight days, rather than sprinkled lightly daily. If the soil is simply sprinkled a crust will be formed that dries out readily. This practice causes the roots to form near the surface and if this sprinkling is interrupted the plant dies quickly.

Thinning: Usually most garden vegetables are planted too thick. The seeds are small and it is hard to properly distribute them. Also, it is

a good practice to plant more than is necessary, in order to insure a good stand. However, plants will not grow well if crowded, so as soon as they are up well it is a good plan to thin out the small inferior specimens the distance apart depending on the plants. Such small rooted crops as lettuce should stand about two inches apart in the rows; beets, turnips, peas and beans about six inches apart. Beets and lettuce, can be transplanted if irregular. Lettuce can be left fairly thick until large enough to use, then thin out, leaving one plant every eight to twelve inches.

Panhandle Hardware Association Program Amarillo, May 8-9th

The Panhandle Hardware and Implement Association will meet in Amarillo in thirteenth annual convention, May 8th and 9th.

Program for the two days session has been issued and subjects vital to the business of hardware and implement dealers will be discussed.

The sessions of this convention will begin at 10:30 o'clock Monday morning with an address of welcome by Mayor Lon D. Marrs. The address will be responded to by H. H. Tracy of Tulsa. The Rev. Roy Ruthford, pastor of the First Christian Church of Amarillo will pronounce the invocation. J. N. Riggs of the Panhandle Motor Company will introduce the visitors and E. P. Thompson of Memphis, president of the Association will deliver the annual address.

At 2 o'clock Monday afternoon, the business sessions of the convention will begin and continue throughout the two days.

Following is the program as announced:

Monday Afternoon, 2 O'clock.

2:00 p. m.—Question box, led by S. T. Harrison, Memphis.

2:30—Address and Discussion: Hamp Williams, Hot Springs, Ark.

3:30—Address: "Credits and Collections"—W. T. Witt, Roswell, N. M.

4:00—Address and Discussion: "Your Association Insurance"—D. D. Fox, Dallas.

Banquet given by the Phit Club.

Tuesday Morning, 9:30 O'clock.

9:30 a. m.—Secretary's Annual Report—L. Thompson, Canyon.

9:30—Question Box, led by Geo. Yates, Hale Center.

10:30—Address: "How to Operate a Hardware Store and Know When Making a Profit."—S. E. Cole, Lubbock.

11:00—Address: Price Information Service—T. C. Thompson, Canyon.

11:30—Address: "The Relation of a Traveling Salesman to his Customer"—R. H. Stiteler, Amarillo.

Tuesday Afternoon, 2:00 O'clock.

2:00 p. m.—Question Box, led by M. S. Henry, Crowell.

2:45—Address: "How to Increase Your Turnover."—Fred L. Brown, Plainview.

3:15—Sales Demonstration, article, Lister.—W. R. Matherly, Dallas, and Pete Lear, Dallas.

4:00—Report of committees; election of officers; selection of date and place of next meeting; adjournment until 1923.

The Panhandle Hardware & Implement Association is affiliated with the National Federation of Implement and Vehicle Dealers' Association.

The officers and executives of the association include: E. P. Thompson, Memphis, president; S. E. Cole, Lubbock, vice president; C. L. Thompson, Canyon, secretary and treasurer. Directors: J. L. Mabie, Roswell; C. W. Taylor, Clarendon; Fred L. Brown, Plainview; J. R. Fox, Doherty; W. B. Upton, McLean; E. W. Pipkin, Amarillo.

The Closing of the Schools Thruout the Plains Section

Commencement at Lamesa.
Lamesa, Texas, April 28.—Monday evening, May 1, at the High School auditorium, Prof. James Cox of the Abilene Christian College, will deliver the commencement address to the Lamesa High School graduates. There are eighteen in the class. The new members of the Lamesa school board have qualified and have elected several teachers for the new school year. Several vacancies are yet to be filled.

Lorenzo High Closes.
Lorenzo, April 28.—The closing exercises of Lorenzo High School was held Friday. Rev. Mr. Shearer of Lubbock, delivered the baccalaureate address. Those graduating were Vivian Watkins, Mollie McCall, John Jenkins, Hubert Perkins and Otis Sanders.

Graduates at Floydada.
Floydada, April 28.—Gladys Dobson, daughter of Mr. and Mrs. J. T. Dobson of the northern part of Floyd county, is the valedictorian of this year's graduating class of the Floydada High School. This graduating class, composed of thirty-three students, is twice as large as any previous class. Besides Miss Dobson, the other honor graduates are Roy Haynes, son of Mr. and Mrs. A. V. Haynes, and Chauncey Garrison, son of Mr. and Mrs. Doyle Garrison, all of Floydada. Miss Dobson's average grade for the year is 95.

Graduating exercises will begin with the baccalaureate sermon on May 14 and close with the exercises May 19, which marks the closing of the local public school.

The thirty-six students who will graduate are: Ona Bagwell, Roy Baker, Bill Beedy, Audrey Mae Borum, Bill Colville, Henry Conway, Chester Day, Elms Eubanks, Gladys Dobson, Chauncey Garrison, Samul Green, Roy Haynes, Eura Horn, Audrena Jones, Rosa Jones, Arthur Jordan, Thelma Kinnard, Ira Marshall, Myrtle Muney, Jerome McCauley, Clement McDonald, Ruby Noland, Virginia Price, Jack Scott, Ralston Scott, Roy Smith, Foy Smith, Ruby Stanley, Edwin Stiles, Aileen Stovall, Emma Della Summerville, Leslie Surringer, Thelma Teeples, Vaughan West, Maude Williams and Louise Wright.

Crosbyton's Honor Graduates.
Crosbyton, April 28.—Honor pupils of the graduating class of the Crosbyton High School are as follows: Victoria Kiker, daughter of Mr. and Mrs. Milton Kiker, is valedictorian; Pauline Buck, daughter of Mr. and Mrs. James T. Buck, is salutatorian; third honor pupil is Russell Allen, son of Mr. and Mrs. Edgar Allen; fourth, Chester Chipley, son of Mr. H. D. Chipley; fifth, Velma Swearingen, daughter of Mr. and Mrs. A. M. Swearingen.

Other members of the class are: Nadine Sherwood, Mattie Fullingim, Marie Kiker, Hazel Jones, Roenna Zinn, Dave McCurdy and Cecil McDaniel. May 21 will be baccalaureate Sunday, and on the following evening graduation exercises will be held.

"WE PICKED UP SEVEN LARGE DEAD RATS FIRST MORNING USING RAT-SNAP."
So writes Mr. B. E. Carpenter, Woodbridge, N. J. "We lost 18 small chicks one night, killed by rats. Bought some RAT-SNAP and picked up 7 large dead rats next morning and in 2 weeks didn't see a single rat. RAT-SNAP is good and sure." Comes in cake ready for use. Three sizes, 35c, 65c, \$1.25.

BOY BREAKS LEG.
While vaulting at his home in this city Tuesday afternoon, John, the thirteen-year-old son of Dr. and Mrs. A. C. Trawick, had the misfortune to fall and break his right leg, just above the ankle.

It was a severe fracture, accompanied by considerable pain, and recovery is proving rather slow.—Roaring Springs Review.

To the presence of dust particles in the air we owe the existence of fog and haze.—Without dust to reflect the sun's rays, daytime would be dark.

QUALITY

CALLS YOU HERE

Did you ever find that after using the merchandise of one grocery it was almost impossible to get used to any other line of goods?

Sure you have. There are many people who feel that way about this grocery. They have found that the quality of our goods, the service we offer and the low prices at which we sell demands their attention.

A. & M. Collecting Samples For The Grading Course

College Station, Texas, April 29.—Samples of grain to be used in the school of grain grading which will be inaugurated at the A. & M. College of Texas this summer, for the purpose of training practical grain graders and fitting men for positions as grain inspectors in the state and federal departments of agriculture, are now being collected from all parts of the state. Many samples, representative of the various sections of the state, are being procured by Dr. J. O. Morgan, director of the summer session, from the agricultural experiment substations located in different parts of the state, others are being secured from grain stores and still others from farmers.

The grain grading laboratories at the College have already been equipped with all of the modern apparatus needed in official grain grading and this equipped and with one of the most practical and experienced grain graders in the United States in charge of the instruction, it is the intention of the College to turn out a big class of graduates this year who will be fully qualified to pass the state and federal examinations for positions as grain inspectors.

William Cunnings of Kansas City, will be in charge of the course. He is a licensed grain grader of many years' experience, having been connected with the Federal Grain Supervision Service, since the passage of the act establishing it.

LOCAL ITEMS FROM THE RALLS BANNER, APRIL 28

Zeb Payne, who has been employed as bookkeeper at the McAdams-Lumber company here during the past three years, is making preparations to move to Sudan, where he will have charge of one of the McAdams lumber yards. We regret very much to lose Mr. Payne from our midst, but hope that he may find contentment and prosperity in his new home.

From publication appearing in the Banner today it will be noticed that one people are preparing to take a long step in the direction of progress by calling an election to determine the desire of the people in the matter of issuing \$20,000 in bonds, the proceeds of same to be used for the purpose of erecting a new \$20,000 school building in that district. Good for Cone. That is a commendable move and speaks well for the enterprise of the people.

The Fuller gin crew is here this week for the purpose of entirely overhauling and putting the gin at this place in shipping condition. Indications for a good cotton crop this year is making our gin men hustle to get their gins in the best possible condition.

NOTICE

Having bought the Electric Home Laundry, will appreciate your work. My motto: "GOOD SERVICE AND Satisfaction." Call 797. We do the rest. C. W. Wall. 15-4f

DYE ANY GARMENT OR DRAPERY WITH "DIAMOND DYES"

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run. 3-10-22

RALLS COUNTRY IN SPLENDID CONDITION

A Banner man made a trip to the south part of our trade territory Saturday in company with Nyles N. Morris. On most every farm we found that planting was under way, and in many instances there were growing crops of maize, kafir corn and native corn, and it was looking good.

On our tour we stopped at the home of John R. Freeman, and found John R. in high spirits and very optimistic over the crop outlook. We also visited the home of J. A. Isahell, who is a new-comer, but who is more than pleased with our country, and found that he was employed in the work of planting feed and cotton.

The rain Monday, while we understand was very beneficial to the places that it reached, and the crops are growing at a rate that is unprecedented and unheard of, and we are told that the precipitation, without further moisture, will mature a bumper grain crop and will practically make cotton.

Truly, there is no place like the South Plains, and any and all people who are seeking a location will do well to visit our section.—Ralls Banner.

To Stop a Cough Quick

HAYES' HEALING HONEY. A cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-FEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey is due to the combined effect of the most potent ingredients in the world, the finest of which are contained in the honey.

Such remedies are packed in one carton and the cost of the combined treatment is 50c.

Just ask your druggist for HAYES' HEALING HONEY.

The ostrich, the largest bird in the world, has proportionally the smallest brain.

IN MILADY'S REALM

BY MRS. CURTIS A. KEEN
Residence 1119 Fourteenth St.
Phone 45J

A thought for today:
The greatest happiness in the world comes through individual happiness and our happiness is given in true proportion to the sunshine that we bring to other hearts. The kindly word the smile and best of all that real handshakes are the things that make a day seem brighter.

Remembrance

There is something beautiful about birthdays—and every time a year is added we become richer in experience—in the sacred privilege of the association with our dear one and with an ever increasing appreciation for our friends. Remembrance means often but an extra step to the one who remembers—but the joy and the happiness that it brings to the heart of the one who is remembered would reach in steps to the tinted blue of the horizon.

Mrs. T. B. Williamson was the guest of honor on Tuesday afternoon when her two daughters entertained in honor of her birthday, with a delightful party. Interesting contests were planned and were the cause of much merriment, especially the one in which the ladies were required to prove their art by making a rag doll—and the honor in this case goes to Mrs. Chase and Mrs. Sam Spikes. An appropriate musical program was given and the songs were brought out in all their sweetness when Mrs. Bean and Mrs. Trinkle sang: "When you and I were young, Maggie" and "Silver Threads Among the Gold." Mrs. A. B. Ellis assisting as accompanist.

The rooms were a picture of spring daintiness with cut flowers and potted ferns. Mrs. Williamson was the recipient of many beautiful gifts as a token of love and remembrance from the many friends. An elaborate luncheon was served of fruit salad, sandwiches, olives, potato-chips, cake and fruit punch. The following ladies were present to greet mother Williamson and to wish her many happy returns of the day:
Mesdames J. B. Lindsey, Burgess, W. K. Ames, Sam Spikes, J. T. Hutchinson, M. Greep, A. F. Chase,

Lon Mullican, Livia Urey, E. J. Bellah, O. B. Trinkle, J. B. Green, T. W. Thomas, O. B. Collier, W. N. Green, A. B. Ellis, George H. Bean, W. D. Benson, Barnes, James R. Robinson, S. W. Wilkenson, J. K. Shipman, J. T. May, and Mrs. T. B. Williamson, the honor guest.

Civic League Meets Saturday

The Civic League will meet at the Court House at 3 o'clock on Saturday afternoon, and all members of all clubs of the Federation are urged to attend as well as delegates. An interesting program has been arranged. Dr. Ballenger will speak on "Children's Teeth" as a suitable subject for the conclusion of health week. Miss Craven will read and those who had heard Miss Craven know that a real pleasure awaits them.

A request is made that all the Captains of the clean-up campaign be present to report to the League.

Charles Pierce Party

Mr. and Mrs. Charles Pierce entertained last Wednesday evening with a delightful bridge party. The rooms were fragrant with cut flowers and spring time tints and the group of twenty guests spent a pleasant evening. Mr. O. L. Peterman and Miss Adeline Bellah won bridge honors. After the game Mrs. Pierce served a delicious two-course lunch of crab meat cocktail, fruit salad, sandwiches, olives and crackers, followed with coffee demitasse.

The guests for the evening were: Mr. and Mrs. Clark Mullican, Mr. and Mrs. C. C. Lindsey, Mr. and Mrs. Germany, Mr. and Mrs. H. Griffith, Mr. and Mrs. Howard Wheelock, Mrs. Hoffer, Mrs. Barvier, Miss Winnie Bates, Miss Inge Brandt, Miss Adeline Bellah, Miss Greta Teal, Mr. O. L. Peterman, Mr. Ross McWhorter, Mr. Amos Howard, Mr. Pete Spaulding.

Inter-scholastic Meet at Belton

Lubbock always to the front, was among the towns to send contestants to the State Music Meet, Alameda Murray and Margaret Robbins were chosen from this school to go

and while they did not carry off the laurels we are proud to state that out of twenty-three piano contestants they ranked among the best next to the winning soloist. We feel that the girls have gained much from this experience. With such capable teachers there is no reason why some of Lubbock's girls cannot come off with scholarships next year. It has been announced that the literary feature will be added to the program next year.

T. E. L. Class

The T. E. L. class of the Baptist church met in the home of Mrs. Joe George Tuesday afternoon, May 2nd, with Mrs. Waldrop, Mrs. Moore, Mrs. Osborne and Mrs. Hawkins as joint hostesses. Dainty refreshments of angel food cake and ice cream were served to the following members and guests: Mesdames Raybon, Rodgers, Simmons, Shaw, M. Gunn, Hawkins, W. C. Bryan, G. A. Gunn, Archie Hall, I. J. Osborne, Morris, Minor, F. K. Mitchell, McCrummen, George Moore, John Demman, Waldrop, A. Harris, W. C. Barnett, Joe George, and the three guests, Mrs. W. A. Bowen, Mrs. Twitty, and Mrs. T. L. Vaughn.

Mildred Clinton is Crowned Queen of May

With a blast of the trumpet, sounded by William Thomas, the coming of the May Queen was announced and with all the regal dignity that such an occasion demanded, the charming little lady made her appearance. The train bearers were quaintly dressed in neat black suits and black hats with white plumes and were John Vickers and Kay Carter.

Merry Shamrock Club

The Merry Shamrock Club met at the home of Mrs. J. D. Rankin on Wednesday afternoon, with our president, Mrs. W. B. Hilton as hostess. We were ushered into the large beautifully arranged living room, decorated with flowers and ferns and most beautiful and conspicuous of all was a trailing fern basket filled with sweet peas. A very pleasant hour was spent in beautiful dainty needle work and jolly conversation. While Mrs. A. B. Ellis furnished several piano solos. After a short business session in which it was decided that the club take up a study of which the club will determine at the next meeting which will be held at the home of Mrs. J. H. Jenkins.

Mrs. A. L. Kirkwood and Mrs. Jenkins will entertain the club jointly which will be Wednesday, May 17th. After the business was all disposed of our hostess served delicious refreshments to the following: Mesdames H. W. Sims, A. B. Ellis, F. A. Sanders, Clark Mullican, T. G. Waldrop, W. S. Rayborn, J. E. Alexander, Harmon Jenkins, Lanson A. Penson, J. C. Blair, C. L. Adams, T. G. Schillingen, W. C. Barnett, W. B. Hilton, A. L. Kirkwood.
All voted a most enjoyable time.
Reporter.

Special Song—Volunteers. Benediction.

Do Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE.

A one-cent British Guiana stamp, issue of 1856, sold last week in Paris for \$39,000. It was bought by an American.

LADIES TAKE NOTICE

Demonstration and sale of 6 point Perfect Art Needle, the only needle of its kind that will work on any kind of material. Its wonderfully simple, yet simply wonderful. Does French knots and raised embroidery. Everything from the daintiest work to the coarse rag rug and wool rug. Easy to use. So simple a child can operate it. See window display of bed-room set on unbleached muslin, made in French knots. Don't fail to see this at Barrier Brothers Dept. Store. 20-1

During the calendar year of 1921 a total of 528 State and private banks in the country failed. One hundred and sixty-three of these banks were able to reopen or otherwise liquidate their liabilities.

Attention Lubbock Mutual Aid Association No. 3

Calls attention to the fact that its membership has passed the 800 mark and will make up the balance of the 1000 members in very few days, and suggests that those who have been intending to join, do so at once. No 4 will be started in a few days.

ELMO WALL, Secretary

We Sell Quality Groceries

As has been the policy of this Grocery in the past. Mr. Ed. Wilson is still answering the telephone and filling orders, and Mr. Joe Williams is continuing his services as deliveryman.—Every day that comes will find us striving to sell better goods at smaller cost.
