Distributing House For J. I. Case, Coming to Lubbock

W. R. Matherly, representing the J. I. Case Plow Works Company, has moved here from Dallas, and will be identified with the progressive element of West Texas.

Mr. Matherly has been with the Case Company as salesman longer than any other field man, and has been given this field because of his extraordinary ability to create a demand for the Case products, and he is highly elated over prospects here.

In discussing the work with an Avalanche reporter he said, the company had chosen Lubbock as headquarters for a salesman which is the first move toward establishing a distributing point here, which will materialize before many years.

He has been coming to Lubbock for some time, and it was through the influence of our hustling hardware dealers, Rankin & Sons, that the possibilities of establishing a house here was made clear. In speaking of conditions favorable to his work in this section, he said Lubbock offers the best opportunity for his company of any other town in Texas inasmuch as railroad facilities are good, and rapid development of the Lubbock trade territory merits the attention of those interested in getting in on the ground floor of the best territory. He considers the Case Company is lucky to be getting into this field at this early date.

Business in the implement line will be better as the development of the agricultural country adjacent to Lubbock is advanced, and we heartily congratulate Mr. Matherly for his keen judgment the move to Lubbock indicates.

He is a man after our own heart, as the first thing he did on arriving in Lubbock was to subscribe for the Avalanche, and said he wanted to call Lubbock his home town, and didn't feel like all arrangements had been made to exercise that privilege until his name was on the mailing list of the home paper.

You're in old fellow! Boost Lubbock! Call it your home town, for we already know we have another real one hundred percent booster here.

Mr. Matherly did not come to Lubbock alone by any means, as Mrs. Matherly will play a prominent part in the social life of Lubbock, and is also well pleased with her new home. They have a little girl, Emma Mae, who will be in school next fall.

ANOTHER ROAD IMPLEMENT FOR LUBBOCK COUNTY
The Commissioners Court of Lubbock County, received the ten-ton Holt caterpillar tractor Wednesday, and work was immediately started getting it in shape for road work here.

It is especially adapted to pull on sand and in lakes, and regardless of the conditions of the lake-beds it can pull through them, which will be a great help indeed in making our roads passable.

Roads in our opinion, are like chains: No stronger or better than the weakest link, and the sight of an impassable mudhole in a road, to which one is led by as fine a strip of road as could be wished for, looks like the builder of that road has used bad judgment, and we are in hopes that the new machine will enable our commissioners to keep the roads through the lake lands well worked, which they are very eager to do.

SMITH SHAW WRITES FROM SILOAM SPRINGS

Siloam Spgs, Ark., Route 3, Lubbock, Texas.

Dear Mr. Dow and other friends: Enclosed find \$1.50 to keep paper coming to me. This part of Arkansas is indeed a beautiful and healthy country. Will have an abundance of all kinds of fruits, and general farm prospects very good although we are having right now an over-supply of rains. We have hundreds of acres of the finest strawberries now wasting in the fields. They won't pay for crates and picking. Highest price received was \$2.00 per crate. They are now less than \$1.00.

People here are in bad shape financially. The same they are in our country but more able to stand it from the fact that they are used to it. These people run the same "Skin Game" you all do, but not on such a "Big Scale." Skinners there take the whole hide at one pull, while these peel off just a little bit at one time. But they both get it all in the end.

I am really doing nothing but "living up" my share of the skin that your expert skimmers gave me to leave that country. I never did learn the art. They gave me a recipe but it would not work over here. Therefore, I am by degrees being skinned out of the skin that I got here with. We have lots of people here with no skin left. However pretty good "picking" here yet for a good "skinner."

Some people leaving here for your country and some of your people coming here. Land valuations about one-third off to what they were two years ago, and taxes increasing steadily. Of course living expenses are some cheaper here, and many other conditions more pleasant and we like the people, but we still retain our love for our friends in old Lubbock county. While they are "Big Skinners" they are just as "Big-Hearted" and while they skin they pour on the healing oil and make you think it don't hurt much. Of course everybody knows that editors are strictly honest and would not even skin a little flea. But enough.

Love and good wishes to you all. We may visit you this summer and partake of some of that big-hearted hospitality that only the Plains people know how to bestow.

SLIGHT INCREASE IN RETAIL COST OF FOOD PRODUCTS

Washington, July 7.—A slight increase in the retail cost price of food products in eighteen out of twenty-two representative cities of the country occurred from May 15 to June 15, according to a statement today by the Department of Labor.

Newark, New York and Pittsburgh

noted an increase of 8 per cent; Bridgeport, Chicago, Cincinnati, Kansas City, Milwaukee and Rochester 2 per cent; Baltimore, Dallas, Fall River, New Haven, Philadelphia, Richmond and Scranton, 1 per cent; Portland, Maine, Washington, D. C., Manchester N. H., Norfolk and Providence, less than five-tenths of one per cent.

For the period June 15, 1921 to June 15, 1922, nineteen of the twenty-two cities show a decrease

Why your local dealer sells Goodrich Tires

The Goodrich principle of one quality only in the making of tires gives your dealer an advantage. He knows that the matter of size or price cannot affect the quality if it is a Goodrich product, and for that reason he can conscientiously recommend the tires to you.

The new Goodrich "55" clincher fabric anti-skid tire for cars using 30x3 or 30x3 1/2 sizes is an outstanding value. The Goodrich Silvertown Cord is the pioneer cord tire. No finer tire has ever been made, and your dealer can supply you in any size from 30 x 3 1/2 up.

Buy your tires, tubes and accessories where you see this Goodrich dealer's sign. It means satisfaction in every transaction.

Keeping Well

(By Dr. R. H. Bishop)

You can teach children naturally and simply to safeguard themselves against diseases.

Children fear pain. Disease means pain. The child can easily follow this simple logic.

You teach your children to walk, to talk, to eat; so also you can teach them a few simple hygienic rules, old but still useful and sensible:

Wash your hands before eating. Keep teeth, mouth and nose clean. Don't kiss other children and don't let adults kiss you.

Don't pick your nose or wipe it on hand or sleeve. Use a handkerchief.

Don't wet your finger in turning the page of a book, nor your pencil tip with your lips or tongue.

Don't spit on the sidewalk, the floor or on your slate.

Don't swap with other children such things as candy, chewing gum, apples, whistles, bean blowers, or any other toy or article which has been in the mouth of another.

Don't sneeze or cough into another child's face; turn your head away, using your handkerchief.

Don't let other children sneeze or cough into your face. Turn or move away.

Of course this means more "don't's" for the child, who probably gets too many as it is, but if these rules are taught to the child in an interesting way, they will come to be regarded as the rules of a very entertaining little game. Children like games. Make their health habits mere games for them and award points or small prizes for playing the game well.

FASHION NOTES

Three-Piece

Fashion authorities are predicting the three-piece costume will be the smart thing for the coming winter. These are embroidered and beaded and elaborately fur-trimmed.

Printed Fabrics

Printed fabrics are very popular now. Georgettes with very large figures are made up into charming afternoon and dinner frocks, with irregular hems and wide satin girdles.

Draperies

Wing-like draperies are featured on many of the lace and thin material frocks. They never end at the hem line, always above or below.

Metal Cloth

Metal cloth wraps are brilliant indications of a glittering year. They come in bright bold or bright silver, with luxurious fur collars and gorgeous linings. Often a bit of embroidery or brocade is added.

The Shawl

The silken shawl, heavily fringed and embroidered, is the popular wrap for evening while the crepe or shantung wrap does duty with the lingerie or afternoon frock.

Printed Velvets

Printed velvets are new, but by no means illogical fashion developments. They come in Persian design and colorings as well as stripes and checks.

Belts Not Favored

The loosely belted coat is said to be losing favor in Paris, where there is a tendency to do away with the belt altogether. Coats are wrapped loosely or draped, or held together with large clasps.

Brocade

Coats of brocaded material are smart, when combined with a skirt of plain material. Usually these are dark in color, and serve as a contrast for the gay jacket.

SHERIFF'S NOTICE OF SCHOOL BOND ELECTION

The State of Texas, County of Lubbock, Common School District No. 20.

To the resident property taxpaying voters of Common School District No. 20:

Take notice that an election will be held on the 29th day of July, 1922, within said district, in obedience to an order of the county judge of this county made on the 27th day of June, 1922, which is as follows:

On this 27th day of June, 1922, there came on to be considered the petition of A. Z. McDougal and

twenty-one other persons asking that an election be ordered upon the question of issuing bonds of said school district for the purpose of constructing and equipping a public free school building of brick, or brick and tile material within and for said district; and,

It appearing to the satisfaction of the county judge of said county that said petition is signed by at least twenty qualified property taxpaying voters of said district, and is otherwise in conformity with law, the said judge is of the opinion that said petition should be granted, and said election as prayed for should be ordered;

Now, therefore, I, P. F. Brown, in my capacity as County Judge of Lubbock County, Texas, do hereby order that an election be held on the 29th day of July, 1922, which is not less than thirty days from the date of this order, at the school building in said Common School District No. 20, of this county, as established by Act of the 35th Legislature of the State of Texas, 4th Called Session, H. B. No. 175, Chapter 27, Section 3, at which election, in accordance with said petition, the following proposition shall be submitted to the resident qualified property taxpaying voters of said school district for their action thereupon:

Shall the Commissioners' Court of said County be authorized to issue bonds on the faith and credit of said Common School District to the amount of \$10,000.00, to become due and payable serially, \$500.00 three years from their date and \$500.00 each year thereafter up to and including the year 1940, and \$1,000.00 each year thereafter during the years 1941 and 1942, both inclusive, and bearing interest at the rate of not to exceed 6 per centum per annum, payable semi-annually, for the purpose of constructing and equipping a public free school building of brick or brick and tile material in said district, and if there shall be annually levied and collected on all taxable property in said school district for the current year and annually thereafter while said bonds, or any of them, are outstanding, a tax sufficient to pay the current interest on said bonds and to pay the principal as it becomes due.

S. D. Pate is hereby appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same, and he shall, within five days after said election has been held, make due return thereof to the Commissioners' Court of this county, as required by law for holding a general election.

None but resident qualified property taxpaying voters of said Common School District shall be allowed to vote at said election.

The ballots for said election shall have written or printed thereon the following:

"For the issuance of the bonds and the levying of the tax in payment thereof."
"Against the issuance of the

ANOTHER VOTER FOR LAMB COUNTY ARRIVED SUNDAY

Political development in Lamb county are making things hum up Littlefield way, and the entire citizenship is glad to welcome anyone who is willing to boost that thriving little city, and perhaps that is one of the reasons that Miss Carline Marie Smith received such hearty welcome on her arrival Sunday.

She entered the home of Mr. and Mrs. Charlie Smith, of the Littlefield Garage, Sunday, July 2nd, and since women have something to say about the political affairs of community and State at this time, she will no doubt become an active factor in the manipulation of the political machinery of that section.

She is a fine big girl, weighing seven and a half pounds, is wide awake. (Charlie told us confidentially that she had been so wide awake on several occasions that he had walked several miles amusing her in the wee small hours of night), but at that he is about the happiest fellow in all Texas.

Mr. and Mrs. Smith are well known in this section, and their many friends rejoice with them at the arrival of the fine girl.

SOME LOCAL NEWS ITEMS FROM SLATON SLATONITE

The one-year-old son of Mr. and Mrs. B. G. Smith died Tuesday from the effects of drinking coal oil. Physicians were summoned but were unable to save the little fellow. His remains were laid to rest in Slaton cemetery Wednesday. The undertaking department of Slaton Furniture Company, had charge of the funeral arrangements.

A reunion of the McDonald family is soon to be held at the home of Mrs. C. C. Harie, at Mertzon on the Concho River. The brothers and sisters will meet in Slaton and leave here July 6. They are: J. S. Homer and Joe McDonald of this city; Mrs. R. S. Bell, Littlefield; Mrs. J. W. Wright, Bonita; Mrs. L. P. Johnson, Belin, N. M., and their families.

Arrangements are being perfected for the annual convention of the South Plains Odd Fellows' Association, which will be held in Slaton on Monday and Tuesday, August 14 and 15. This association comprises the counties of Dickens, Crosby, Lubbock, Garza, Lynn, Dawson, Yoakum and Terry. Something like four hundred Odd Fellows and Rebekahs are expected to attend this meeting, and they will be given a hearty welcome by the citizenship of Slaton.

On Tuesday, July 4th, Slaton was full of baseball fans from every section of the country, rooting for their favorites. Most of the out-of-town fans expected to see the Slaton Santa Fe Monograms go down in defeat before a picked team from Tahoka, O'Donnell, Lamesa and Big Spring, but they were disappointed. The Monograms "mopped up with them" to the tune of 4 to 1. Batteries for Slaton: Eckert and McAtee.

The visiting team got only one hit.

NEWS ITEMS OF THE WEEK IN POST CITY

Post City Post:

Last Saturday Southland voted a special school tax which carried 61 to 9. Good for Southland. Let's make our court house our issue carry with about the same kind of vote.

Last Friday night, June 30, at eleven o'clock it began to rain and rained all night until about 6 a. m. July 1. A precipitation of 6.4 inches; the biggest rain for years in this county. This rain extended all over the county, but was not so heavy in the southern part, and makes it look mighty good for a great big crop.

Born to Mr. and Mrs. Henry F. Lloyd on July 4, a fine baby girl. Mr. and Mrs. Lloyd have another baby, a boy, Maurice, 5 years old, who was also born on the fourth day of July. May both little folks live to celebrate many of their birthdays together and always be a source of pride and joy to their parents is the wish of the Post City Post.

There will be a picnic and barbecue at Southland Saturday, July 12. Candidates are expected to attend in full force. Two baseball games and other things will furnish amusement. We hope and expect to see a large crowd present.

After a lingering illness Mrs. J. L. Barrow died at the home of Mrs. Frank Wilks last Sunday. She leaves two sons in Post City to mourn her loss, Leonard and Louis Barrow, to whom we extend our sympathy. She was buried in Terrace Cemetery Sunday afternoon.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILDRIC gives regularly for two or three weeks will scotch the worms, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Forward to us for our booklet.

A TRIBUTE TO THE MEMORY OF JUDGE W. N. COPELAND
Written by His Friend, Judge W. R. Spencer.

A shadow of sincere sorrow fell over the hearts of many devoted friends and relatives when the Pale Horse and his all conquering Rider, on Wednesday, July 5, summoned Judge William Newton Copeland of

Lubbock, Texas, to eternal rest. William Newton Copeland, better known as Judge Newt Copeland, was one of the pioneers of West Texas. He was born December 7, 1849, at Subliqua, Georgia, and received his education in the public schools of his native State.

He came to Texas when 20 years of age and spent the greater part of his life on the frontier of West Texas. He assisted in the organization of Runnels County, this State, in the year 1880, and was elected first county district clerk and served two terms and refused to stand for re-election, and went back to his cattle business which by this time had grown extensive.

In the early 90's he moved to the Plains country and settled in what was then the unorganized county of Terry and engaged in stock raising, and also in the mercantile business at Meadow, in said county, in both which he was successful. He assisted

in the organization of Terry county in the year of 1904, and was elected as its first county judge, serving two terms. He afterwards served as county commissioner of said county for several terms.

He later moved to Lubbock, Texas, where he engaged in the drug business for a time, and also served for a time as city recorder, and in Lubbock he continued to make his home until his death. He was married to Miss ———— Dean, in Grayson county, Texas, on August 18, 1872, and for nearly 50 years of married life himself and his devoted wife "had climbed the hill together," and such a hill!

To this union were born six children, Ed, Otis, Charley, Harry, Newton, and Mrs. Irene Cosby, all of whom are living except Ed, the eldest, who died a couple of years since. His surviving widow and all of the living children were present at his funeral.

Judge Copeland joined the Baptist church when only 16 years of age and remained a staunch "Land mark Baptist" in all that term implies to the day of his death.

It will be forever a fond recollection to the writer that many hours were spent with this strong, brave and heroic soul, and in discussing the various problems of life. It was his greatest desire to leave the world better than he found it, and believing this he always aligned himself with the moral side of every question and was always found on the side of law and order. He was friendly with everybody and took a kindly interest in the things in which his friends were engaged.

A great writer has said: "When I go down to the grave I can say I have finished my day's work, but I cannot say I have finished my life. My day's work will begin again the next morning. The tomb is not a blind alley; it is a thoroughfare. It closes on the night; it opens on the dawn."

How true it is, that this little span we call human life, does not end with the dissolution of the body. Philosophy fails to relieve heartaches caused by death, but the departure of a good man with an untarnished record of honor and helpful usefulness does not leave the mourner so hopeless and miserable as does the giving of one who has not contributed to the happiness and betterment of the world.

Judge Copeland was truly a good and useful man. For nearly forty years the writer knew him intimately and well. As a friend he was loyal to the core.

The brightest spot in my memory for him, however, will be his devoted love for his family and his desire that they should be useful and honorable members of society.

Remembering our good friend's strong and happy personality, we can best express ourselves in the following beautiful lines:

"Sunset and evening star,
And one clear call for me!
And may there be no moaning at the bar,
When I put out to sea.

But such a tide as moving seems asleep,
Too full for sound and foam,
When that which drew from out the boundless deep
Turns again home.

Twilight and evening-bell,
And after that the dark!
And may there be no sadness of farewell,
When I embark;

For tho' from out our bourne of time and place
The flood may bear me far,
I hope to see my Pilot face to face
When I have cross'd the bar."

And we know that our friend, ready and without a tremor, met his Pilot face to face, that same good Pilot who said: "I am the resurrection and the life, he that believeth in me though he were dead, yet shall he live, and, whosoever liveth and believeth in me shall never die."

His friend,
W. R. SPENCER.

LOCAL CLIPPINGS FROM THE SEMINOLE SENTINEL

M. S. Doss left Tuesday morning for Lubbock, where Mrs. Doss has been taking medical treatment for some time. He expects to accompany Mrs. Doss to some point in the southern part of the state, hoping that this change would benefit her health.

We have been asked to announce that Rev. J. T. Weems will begin a meeting at the Fairview school house next Sunday, July 9. Two services to be held each day. The people of that community ask that everyone, regardless of denomination, co-operate in making this meeting a success. Everyone is invited to attend.

Mr. and Mrs. C. L. Walker and baby left last week for Rison, Ark. to be away several weeks. Mr. Walker is in the lumber business at that place and is there looking after his interests in that line.

MR. MERCHANT
You Need the Newspaper

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save them money, and, take it from John D. Rockefeller, the way to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right now. Just read what the merchants are offering. Notice the invitations for you to do business with them. Notice how attractively the advertisements are set up and how inviting they are.

Do you know that some firms think so much of a style of type that they buy series of it just for their advertisement? You can never mistake B. Altman's advertisement. As soon as you see the open type you know it is Altman's advertisement without looking for the name. This is true of many firms.

Business men—that is the successful ones—know advertising pays big returns. Unsuccessful men don't advertise because they are unsuccessful. That's the answer. Look over your town right now and pick out the big firms. They're the advertisers. Advertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today. Mr. Merchant, is your advertisement in this newspaper?

MONROE ITEMS OF INTEREST DURING WEEK

The Methodist meeting continued a week. A few additions were made to the church, and a Methodist church was organized at Monroe with thirty charter members. We had a large congregation out at the meeting most of the time.

The farmers are very busy with their crops at present. We need rain but the crops can wait quite a little while without being seriously damaged.

Mrs. Teal is slowly improving, but is still staying with her daughter, Mrs. Sherrod of Lubbock. We hope to see her at home again soon.

Miss Sadie Kerr, a relative of the Stephenson family, came in Monday to make them a visit. We wish her an enjoyable time while here.

There is a cotton gin under construction at Monroe. We hope to have it completed at the beginning of the ginning season this fall.

Miss Irene Cox made a three days visit in Ralls last week. She was in the homes of Mr. and Mrs. W. T. Thaxton and Mr. and Mrs. Earnest Thaxton. She spent an enjoyable visit in their midst and reported them as getting along nicely. The society will meet to render another program Saturday night. Be sure and come. Our aim is to make each program a little better than the previous one.

Acuff People Will Give Basket Picnic At School Wed.

There will be a basket picnic at the Acuff school house, Wednesday, July 19th.

Everyone is invited to come and bring well filled baskets. All state, district, county and precinct candidates are invited to attend and will be introduced to the people, and allowed to make an address. We will have with us the Kiwanians and Rotarians of Lubbock on this occasion.

The above item certainly reads well to us, and if nothing happens, and we still have an appetite, those people of Acuff will have occasion to know that there is some attention paid to their invitations for Lubbock people to picnic with them.

We have witnessed enough community picnics and entertainments in this county to know that there is a good time offered for all the participants, and if Acuff people are willing to offer the entertainment it ought to be pretty easy to get a crowd, and will if everyone looks upon that announcement with as much enthusiasm and good will toward the committee as does the writer.

Now about the candidates speaking, we are of the opinion that anyone interested in the county, state or national governments will look upon that part of the program with favor, and we know that all who attend the picnic will hear some good talks, for there are some political enthusiasts in Lubbock who are always eager for an opportunity to dispel their verbal accumulation of political dogma who are entertainers of merit, and it is a privilege to hear them talk.

So far as we are concerned the Kiwanis and Rotary Clubs will be well represented at the lunch, for there's a member of each club on the Avalanche force who have representative appetites for all occasions.

DEEP RIVER ORCHESTRA WILL ENTERTAIN ELKS

The entertainment committee of the B. P. O. E. Lodge, No. 513, Lubbock, has made arrangement for the Deep River Jazz Band of New York, Victor Record artists, to furnish music for a dance to be given at the hall here Saturday night.

The jazz band is on a vacation tour of the states, and is offering many people over their route an opportunity to hear the original band which is famous for its extraordinary ability to render jazz music.

MEADOW REALTOR RETURNS FROM VISIT TO TURKEY

N. E. Emerson, land dealer of Meadow, returned last week from an extended visit with relatives at Turkey, in Hall County, and was accompanied home by his mother, Mrs. M. A. Orr, who will spend the summer with him.

Mr. Emerson is one of the few land working land dealers, and his activities are certainly being shown in the development of that section. His many friends are glad to welcome the mother to that vicinity, and will do everything possible for her entertainment.

CLAUENE NEWS OF THE PAST FEW DAYS

"So here hath been dawning another blue day.
Think, wilt thou let it slip useless away?"
This is such a beautiful, pleasant morning. It makes everyone feel good. The farmers are "making hay while the sun shines." Soon crops will be laid by and there will be a few days of the only play time a farmer ever has.
Mrs. Patterson, Mrs. Nickell and Willie May Rice visited Mrs. Teague Monday.

Ulla King and Harry Palmer made a business trip to Lubbock Wednesday.
Clay Walker planned last week to leave for his home at Frederick, Okla., but when the time came to go he decided he had rather stay. So he contracted to stay six weeks longer. Which means that he will make a new contract when this one runs out, for this is too good a place to leave.
Willie Teague was very sick the past week with a severe case of tonsillitis.
Mrs. Tharp and daughter Annie Lou, spent Tuesday afternoon with Mrs. White.
Miss Beryl Cheney visited Miss Robbie Swafford Wednesday morning.
Mr. A. E. White returned Friday from an extended visit to Arkansas and other points.
Messrs. Cosby and Posey of Lubbock were business callers in our vicinity Saturday.
Mr. G. W. Tharp made a business trip to Brownfield Friday.
Mrs. Lillie Swafford and children called on Mrs. White Tuesday.
Beecher Swafford took dinner with Weldon Teague Sunday.
Mrs. Nickell and grand-child visited Wednesday in the J. L. Tharp home.
Mr. and Mrs. Bill Meares entertained the people of Moody Saturday evening. Cake was served to all the guests.
Earl Nickell took dinner Sunday at the Bob Swafford home.
Bill Heart, of Lubbock, is working for Bill Chiam.
Prof. Teague and family and Fred Reeves visited Sunday evening in the Jim Tharp home.
Mr. and Mrs. Bill Murray took dinner Sunday at the home of J. L. Tharp.
John Doyle and family of Lubbock, came out to his ranch the last part of the week to spend a few days and can some fruit. A Miss Hunt also came with them to assist Mrs. Doyle.
A number of Moody people attended a ball game at Ropes Saturday.
Messrs. White, Murray, Murray and Patterson spent Wednesday with Mrs. Mulline of the Hankin's ranch. They bought some fine fruit while there.
We were very sorry to learn of the death of Mrs. Hylie Boyd at a sanitarium at Lubbock Friday. We extend our sincere sympathy to the bereaved husband and children.

Is There Any Labor-Saver Equal to a Good Range?

Where does a woman spend almost half her waking hours? Does anything take more time every day than cooking? If you want to help "her" save the most work and time, what labor-saver can compare with a modern range for her kitchen? If her present range is a drag and a brake on her efforts, we invite you to inspect our stock of ranges, which features the

ROUND OAK CHIEF BOILER IRON RANGE

Now is the time to select your range, and have it installed in your home.

Begin now to plan for your heating this winter. If you inform yourself during these summer days as to the best kind of a heating stove, you don't have to look around when it does get cold. You can order your heater the first cold day and keep comfortable.

If you are going to put in a furnace, why not have the Round Oak Moist Air system or a Round Oak Pipeless Furnace. They will pay for themselves in a short time.

Mr. Anderson, Special Round Oak Representative will be here Saturday, to assist us in demonstrating the Round Oak line.

Come in and lets talk over the range or heating proposition.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive. Get a package from your druggist today—Ask for and insist upon Theford's—the only genuine. Get it today.

Easier a man's job is the more time he has to become disgusted with it.

MANY LAWS ARE VERY UNEQUAL IN TEXAS

At present women have special privileges under the law in some lines. For instance, a married woman can not be sued, neither is she liable for any contracts or obligations she may enter into.

Consequently a married woman can not sign a bond or security nor make contracts. A woman before she marries has all these privileges. She can contract, assume liabilities and obligations and as soon as she marries the law takes her under its wing and says that she can not be sued, contract or assume any liabilities whatsoever. It seems from this that a woman must lose her head, and her action in marrying shows that she has, so the Government feels sorry for her and casts a kindly protection around her, or else why should she be safeguarded more after marriage than before?

There has been a good deal of agitation for a change in the present laws that will give a married woman the same rights, obligations and privileges that she may have as a single woman. Discussion has been both pro and con on this subject as there is good argumentative material on both sides. Let us take the case of a married woman who is conducting a millinery business. She orders a large number of hats, but for some reason she refuses to take them when they are offered for delivery. Under the present Texas law the dealer has no redress, while if the milliner were a single woman, could sue her in the courts and get a judgment for his money. Thus it seems that justice should demand that a married woman should not be given this special protection under the laws but should be required to fulfill obligations that she may make.—Dallas Democrat.

THINGS ABOUT PULLMAN CARS YOU HADN'T THOUGHT ABOUT

Do you like to ride in Pullman cars? It would take 100 hotels, each with 500 rooms to provide sleeping accommodations for the average of 53,425 passengers who nightly occupy Pullman berths.

The Pullman cars on American railroads daily travel a combined distance equal to 4 1-2 round trips to the moon and back—and the moon is 238,840 miles away.

Astronomers awe us when they say the sun is 92,930,000 miles away. Yet Pullman cars last year traveled a total of 9 1-2 times that distance. Pullman passengers in 1921 rode the equivalent of 107 miles for every person in our country.

These highly interesting figures, published in the Pullman News, reveals that the luxurious Pullman car is more widely used than generally realized.

Readers who can remember back 65 years may recall when the first Pullman car made its initial trip between Bloomington, Ill., and Chicago on the night of Sept. 1, 1857. It was a crude car lighted by candles. The porter had to use hatchet and nails in making up the lower berths, and the upper berths swung unsteadily from ropes.

George Pullman, the car's inventor, was aboard on the first trip. The passengers intended to give him a gold-headed cane. But they were so sore and stiff the next morning that Pullman never got the cane.

Sixty-five years is a short period, a very short one in the history of humanity. Yet in 65 years the Pullman has become an almost palatial work of mechanical art.

The Pullman is super-luxury, compared with sleeping in old-time stage coaches.

We live in an age of luxuries that were denied the kings.

LOCAL NEWS ITEMS FROM THE LAMESA NEWSPAPERS

The Journal:
This country had a fine rain last Friday night, very heavy in some sections and light in others, but it came in good time and was most welcome. Sunday evening brought another rain, which, however, was more local. A heavy wind accompanied it and the clouds had a very ominous appearance, which for a time threatened a hail storm. But we have not learned of any hail in our section up to this time.

Last Sunday, in the Shumake neighborhood, a difficulty between two young men occurred which resulted in Zebe Holliday having his throat cut. The knife narrowly missed the artery, piercing the windpipe. Dr. Warnick was called and did what he could for the wounded man. At this writing he is doing as well as could be expected, but is still in a dangerous condition. Noah Cornett was given a preliminary trial before Squire D. W. Adams Monday morning and was allowed bail in the amount of \$500.

By a vote of 133 to 12, the voters of Lamesa Independent School District expressed themselves in favor of giving the Board authority to raise the tax rate from 50c to \$1 on the hundred dollar valuation. The vote was light, but the majority so decisive that it leaves no ground for doubt as to what the people want. Now let us all stand by the School Board and do all we can to give Lamesa a first class school.

CHANGE DATES OF THE FLOYD COUNTY FAIR

Floydada, July 4.—The dates of the Floyd County and West Texas Fair have been changed from September 7, 8, 9 by the fair committee of the Floydada Chamber of Commerce who have the organization and management of the fair in hand. The changes in dates were made to avoid conflicting with other district fairs in this section of the State. The plans of the committee are to have a big fair that will be participated in by the people of the South Plains and of the Caprock East. All adjoining counties are expected to participate, and it is in the mind of the committee having the premium list in charge to make up a special list for such counties as will exhibit.

RELIGIOUS DISCUSSION AT POST BEGINNING JULY 26TH

Post, July 3.—There will be a religious discussion at Post City, beginning July 26 (Wednesday) and lasting about one week. Rev. B. W. Dodson will represent the Methodist church and Mr. J. S. Washick will represent the Church of Christ (non-progressive).

There will be two sessions each day, 4 p. m. and 8 p. m. Visitors can have free camp and water at "Two-Draw Lake."

The discussion will be held in the Post City Auditorium. Both men are experienced debaters and a great crowd is expected.

LOCAL NEWS ITEMS FROM THE LYNN COUNTY NEWS

Friday night of last week one of the hardest rains ever recorded here fell over the larger portion of Lynn county, the precipitation measuring slightly more than four inches. Sunday night another gully washer visited a portion of the county, only a light shower of the last rain fell in Tahoka and immediate communities. The rain was much needed and supplied a splendid season for crops. It practically assures a grain and cotton crop throughout this section. The Panhandle will produce the best crop in its history this fall. The many friends of Uncle Bob Montgomery will be pleased to learn that he has fully recovered from a severe case of small pox, which he

underwent in Brownwood recently, and was able to return home the latter part of last week. The attending physicians stated that the case was a rare one in that the victim was so advanced in age, and his recovery was doubtful for a time. Many persons in that section died of the disease. We rejoice with the many friends of Uncle Bob that he is able to be at home again. George Briggs, who has for the past two years conducted a truck line between Tahoka and Lubbock, has sold the business to W. E. Taylor of Lubbock, who is now in charge. Mr. Briggs has moved his family to Lubbock, and Mr. Taylor will move his family to Tahoka from Coleman. The News is glad to welcome them as citizens of our town and community. Lawrence Sanford, son of Sheriff and Mrs. S. W. Sanford, had the misfortune to have a horse fall on him late Friday afternoon, while enroute home from the down town section on main street near the McCormack store, resulting in mashing up his right foot, which was very painful for a time. Fortunately no bones were broken and he is recovering nicely at this writing. Rev. J. M. Doshier was aroused from his peaceful slumbers Tuesday night by a rap at the door and inquiries made as to where the parson lived, to find a car at his front gate containing several young people; two of the party, Mr. Sidney Thomas and Miss Della White, of the New Home community, were in possession of the proper papers, which with the help of the parson, made the happy couple man and wife. G. R. Scott, State inspector of Weights and Measures, was a caller in Tahoka on official business Tuesday. Mr. Scott stated that he found all the new gasoline pumps recently installed in town o. k. Mr. Scott is a citizen of Lubbock. Last Saturday a sample of wool was brought into this office from the ranch of G. E. Lockhart, located just southeast of town. The wool was of the finest texture and measured four inches. Mr. Lockhart has a herd of 400 Rambles sheep. The sheep men were hit hard last year, but this year the price is good for good wool, the price being paid at the present time is 30c per pound. On Wednesday morning July 5, at the Methodist parsonage in Tahoka, Rev. S. J. Upton, the local pastor, united in marriage Mr. A. R. Lindsay and Miss Jessie May Brown. Both of these young people reside in the meadow community in Terry county, and have many friends who wish them many happy days of prosperity and contentment as they go through life. After the ceremony they returned to their future home at Meadow. Have you joined the Lubbock Mutual Aid Association No. 47 Just need 188 members to complete the 1000 organized sixty days ago, some fast work, eh? Say, No. 5 will start before you know it. Avoid Typhoid By Boiling Water On Vacation Trips

Take a supply of pure water with you on your camping or motor trip. This is the advice of Dr. O. C. West, county health officer, to Albuquerque people who would avoid the danger of typhoid. To those who have believed that the wayside spring or the old oaken bucket is a safe as well as satisfying source of refreshment, Dr. West's advice may come with a shock. He says, however that much of the water in the mountain districts is liable to pollution, and those who establish camps should see that they pick out a location where there is no possibility of the water being unfit for consumption. When the camp is made, Dr. West says it should be arranged that the campers themselves do not pollute the water. "Milk as is sold in Albuquerque is entirely safe and highly nutritious," Dr. West says, "because of the dairy regulations and inspections. But milk purchased from small farmers and ranchers who make occasional sales to passers-by, may be full of germs of typhoid because of careless handling and the presence of the disease in the seller's family." "If you do not know how the milk is produced and handled, the only safe thing to do is to boil it. Do the same thing with water if it comes from sources that may be polluted." "Flies may be carriers of typhoid, for they fly from filth to food. Screens will keep them out of the houses, but the only way to deal with them successfully is to prevent them from breeding. "Since we cannot always know who prepares our food and are many times dependent on the cleanliness of those who serve us, there is but one way to be absolutely sure of avoiding typhoid, and that is by taking typhoid vaccination treatment. This is a simple treatment, ask your family physician about it. "Every case of typhoid comes from a previous case or from a person who has had the disease and is still carrying the germs. Sometimes it happens by direct contact and sometimes by water, milk or other foods. Every case of typhoid is caused by carelessness or the failure of some person to observe the rules of common decency and cleanliness. It has been well said that for every death from typhoid someone should be changed." —Magus Independent.

HABITS AND CUSTOMS LEARNED THRU AD-READING. Historians who study newspapers, to learn the habits and customs of peoples say they gain more information from advertisements than from news accounts, and that the information imparted in advertisements is more accurate. Advertisements tell their stories without the intrusion of the editorial blue pencil. They show the development in transit, they disclose the changing conditions of the home, they announce the birth of scientific discovery and invention, they prove the worth of that which is true and lasting and unmercifully expose the sham and the fraud. They tell of our varying taste in dress, they show our belief in sanitation, they disclose our love of sport, describe our work, they mark the change in the status of womanhood and youth, they visualize the moulding of our morals and our methods and present to us humanity from the financier to the finale hopper. The newspaper subscriber who fails to read advertisements misses more than half the value of his favorite publication. Advertising is news of the highest importance and the most reliable news presented to the people. During the war, when Michael Friedsam, the "great New York Merchant", was appointed to serve as Fair Price Commissioner by the government, he was asked how the public could be best kept informed as to honesty of prices. His reply was terse and true: "Let them read the newspaper advertisements."

CALOMEL USERS TAKE AWFUL RISK

Very Next Dose of Treacherous Drug May Start Terrible Salivation

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-4

IT IS ALL BECAUSE OF YOU

Dear old Bob: I have your letter, And I'm glad to hear from you; Glad to know you're well and busy, But I fear you're feeling blue! For you write of folks immoral And of times so out of joint, That you're thinking of removing To some more "uplifting" point; That your neighbors are ungodly, Slaves to narrow, selfish pride, Giving all their time to pleasure, Swept away on sin's dark tide! That your land is but a Sodom, Steeped in greed of gold and lust! That the people are but heathen, Leaving naught to God in trust! But the words that most impress me Is the statement you have made, That "the place is God-forsaken." And that you are quite dismayed! Now, I trust you'll pardon briefness— I am busy here to-day— But I pondered o'er that statement And I have naught but this to say: If your land is God-forsaken, And you do not like the sin, Tell me, friend, why don't you let Him— Let that very God come in? It is up to you, good knocker, To alter a matter of your heart; For that God is not slacker, And he never will depart From the heart that doth awaken To its duty, loyal true. If your town is God-forsaken, It is all because of you! P. S. Quit your knocking; do your duty; God is in each passing breeze; If your land is God-forsaken, Get you down upon your knees!

LOCAL NEWS ITEMS FROM THE LOCKNEY BEACON

The little ten-year-old son of Mr. and Mrs. Hall, of Floydada, had the misfortune of getting his right arm dislocated at the elbow Tuesday, while trying to ride a trick mule at the show. He was brought to the Stewart Drug Store where his arm was dressed by Dr. Pennington. Work was started this week on the building for the new gin of Knox & Patterson, the new Denton county gin men. Mr. Patterson is here and is superintending the work. The main building is to be 22x60 feet. The building will house four 8-saw stands, with other modern equipment. Miss Elizabeth Smith and nephew, Tracy Smith, of Lubbock, were here the 4th visiting her brother and sister, Ben F. Smith and Mrs. W. R. Stone. Word has been received in Lockney of the death of the little 8-year-old girl of Mr. and Mrs. H. Armstrong of Wichita Falls. The Armstrong family will be remembered in Lockney, when they resided here several months ago, and when Mr. Armstrong was connected with C. R. Wilkinson in the produce business. The child died about a month ago. The friends of the sorrowing family in Lockney deeply sympathize with them in their deep sorrow. The little 9-year-old son of Mr. and Mrs. R. H. Boswell, who lives seven miles west of Lockney, met with a painful accident yesterday when he fell from a one-way go-devil which he was riding. An ugly gash was cut in his lip and three teeth knocked out. He was brought into town where medical aid was given him. It required several stitches to sew up the cut in his face. He will soon be alright again.

Two Mile Hike and Breakfast Cooked on Camp Fire, enjoyed By Local Girl Scouts Wednesday

What is work anyhow? A peculiar question, but nevertheless it is a sensible one and one that is not answered by half as many people as one might think, and realizing that great fact, Mesdames Fred Boerner and Percy Spencer have put much effort back of the Girl Scouts, local organization, as a result of which Lubbock now has one of the liveliest Scouts organizations in West Texas, and the members are given an opportunity to learn what true work is.

One of the members who has been in need of the proper kind of exercise for some time reported to Mrs. Boerner a noticeable improvement in health, and we were told by Mrs. Boerner that that young lady was one of the most enthusiastic workers in the Scouts. She started the work at the outset of the organization, and though at the beginning the scout drill and exercises, she was unable to participate in the full drill, she gradually gained strength and was toughened to the work, and is now one of the most robust members, and an enthusiastic leader in all drill and study work.

The Scouts met Wednesday morning at the Methodist church at the early hour of five o'clock, and made a two mile hike to the large pool south of the city, where they cooked their breakfast on a camp fire, after which some time was spent in executing the Scout ceremony, which was beautifully carried out.

The hike was not made altogether in hiking style, as the "scout pace" was practiced, the members walking fifty steps and making double time for the same space, making that one mile in that way without resting. The members are all taking more interest in the work, and will within a few months have perfected one of the most extraordinary organizations in the State.

The fact that the plans on which the Scout work was built are greatly hindered through the lack of tim-

berlands and hills, the work has been a little difficult, but in spite of that resourcefulness on the part of the leaders has proven a great asset, and the work is being carried on in a manner that conforms with the physical aspect of this country.

If there is an organization anywhere that offers a real opportunity to the young girls of the towns and communities the Scout organization is the one, and we heartily endorse its organization here.

If you think your girl is of too frail a stature to perform the duties of a scout you are wrong for the scout work is designed to strengthen them for life's work, which is the greatest asset to the success of any individual, with which even a good education is dim in a comparison.

Boost, back, boom, push and help the scouts, and it will not be long until Lubbock's girls will know something about true work—life's perpetual source of contentment.

A hike of similar nature will be made next Wednesday morning, the members leaving the church at the same hour—five a. m., and much enthusiasm is being shown in that meeting.

There were about twenty girls on the last Wednesday's hike, and it is expected that even that number will be exceeded on the next hike.

If you belong to the Scouts show some real Scout pep, and be on the grounds.

KANSAS CITY MARKET

Kansas City, July 10.—Cattle receipts today were fairly liberal but the run of hogs and sheep was below expectations. However, Chicago had a heavy run of all classes of stock and declines there weakened the markets elsewhere. Here best fat cattle were steady and others off 10 to 15 cents. Hogs were quoted down 10 to 15 cents, and sheep and lambs unchanged to 25 cents lower.

Today's Receipts
Receipts today were 15,000 cattle, 9,000 hogs and 6,000 sheep, compared with 7,000 cattle, 8,000 hogs and 6,000 sheep a week ago, and 8,700 cattle, 8,600 hogs and 8,850 sheep a year ago.

Beef Cattle
In a run of 15,000 cattle today, good to choice steers were in limited numbers and the market for them held fully steady. Local killers and shippers could have used more without disturbing prices. The plainer classes, especially short fed and sappy kinds, were down 10 to 15 cents, though demand continued to display large proportions. Good to choice steers sold at \$9.25 to \$10.00. Wintered summer grazed and short fed steers brought \$8.25 to \$9.00. Grass fat steers sold at \$5.50 to \$8.15. Cows and heifers were steady to 10 cents lower and calves steady. Mixed yearlings sold up to \$9.75.

Stockers and Feeders
Country buyers took a good many half fat steers for feeding and good stock steers were in limited supply. Buyers tried to depress prices, but buying orders were liberal and prices remained steady. There was a fairly good demand for stock calves.

Hogs.
Chicago had 58,000 hogs or 16,000 more than the combined supply in Kansas City, Omaha, St. Louis and St. Joseph. Declines in Chicago were easy for the buying side to obtain, and caused lower prices elsewhere. Here the decline was 10 to 15 cents with trade active. The top price was \$10.65, bulk of sales \$10.35 to \$10.60. In some cases rough heavy hogs were off 25 cents. Pigs sold up to \$10.50. Eastern states seem to have more fat hogs than western grain states.

Sheep and Lambs
Sheep and lambs were quoted weak to 25 cents lower. A few native lambs sold early at \$13.50, and were quoted steady. Later, the top was \$13.25, a full quarter decline being in evidence. Fat sheep were close to steady.

Horses and Mules
Six car loads of horses and mules were offered, and while trading was quiet, prices were considered fully steady.

Market Correspondent.

A Man Got on the Train Without a Ticket

And because of a rule of the railroad company he was forced to pay 1c per mile more to ride than he would have had to pay if he had purchased a ticket.

THE SAME PRINCIPLE APPLIES TO THOSE WHO PAY CASH FOR ICE

The railroad company would rather you bought a ticket in the regular way and at a cheaper rate than to have you pay the conductor cash—and for the same identical reason we ask our customers to buy ice books.

HERE ARE A FEW THINGS TO REMEMBER WHEN YOU BUY ICE BOOKS:

If your requirements are as much as 12 1-2 pounds per delivery (not day) and less than 50 pounds, you are entitled to ice books containing checks to pay for 300 pounds of ice and the rate will be 70c per hundred pounds.

The Cash rate is 80c per hundred pounds.

If your requirements are 50 pounds or less than 100 pounds per delivery (not day) you are entitled to a 1000 pound book which costs you only 65c per hundred. A saving of 15c per hundred pounds.

If your requirements are 100 pounds or over per delivery (not day) you are entitled to a 2,000 pound book containing 100 pound coupons and the cost then is only 60c per hundred pounds. A saving of 20c per 100 pounds!

We are wanting to give Lubbock people the best ice service in West Texas and we desire the co-operation of our customers in aiding us along by the purchase of Ice Coupon Books.

Catarrrhal Deafness Cannot Be Cured

There is only one way to cure catarrrhal deafness, and that is by a constitutional remedy, named condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result. Halls' Catarrh Medicine can be introduced and this tube restored to its normal condition. Hearing will be destroyed forever. Many cases of deafness are caused by catarrrhal deafness. Halls' Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrrhal Deafness that cannot be cured by Halls' Catarrh Medicine. Circulars free. All Druggists, The F. J. CHESBROUGH & CO., Toledo, O.

PARENTS AS EDUCATORS

Walks and Talks
(By Elsie F. Kartack.)

We were in the garden one morning, shortly after my arrival, John, Mary, Bobby and I. Mother had gone away for a vacation.

The garden was beautiful, and we were quietly enjoying all its loveliness when suddenly Mary cried, "Oh, there's an ugly toad, I'm afraid of it!"

John and Bobby ran toward it in eager anticipation of destroying it.

"I hate toads," said John with a vengeance.

"I'll step on it," exclaimed Bobby at the same time.

I was just in time with my "Wait, Bobby. Why are you going to kill it?"

"Because I hate it," he answered.

"And why do you hate it?"

"It's ugly."

"Oh, is it? I don't think so. Let's take a better look at it. Why,

see, it has beautiful jewels on its back, and look here at its gold rimmed spectacles."

The children looked surprised.

"Suppose we sit down and watch it while I tell you about it," I continued.

"Don't do that, you'll get warts."

This from John as I reached out to stroke the toad. "No, you won't," I replied.

"Not any of the books that I have ever read about toads say that you get warts from stroking them. The toad likes it and he sometimes sings a song, just as a cat purrs when it is stroked. Do you see the porch under his mouth? That swells as he sings. He cries, too, when he is hurt. There are different kinds of toads. The tree toad becomes the color of the surface on which he finds himself so that people or animals cannot see him."

"I wish I could do that when I'm playing hide-and-go-seek," said Mary.

"Well, you see the toad can do some things that you cannot do," I replied.

"Let's hear some more about it," exclaimed John, breathlessly moving closer to the toad.

"The mother toad lays the eggs in the water and covers them with a jelly for protection. After they are hatched, they are called tadpoles."

"Are those little things that swim around in the water tadpoles?" interrupted Mary.

"Yes. They live in the water six weeks and then they lose their tails, grow legs and swim to shore. After that they live on land. When a toad wants a new suit he splits his old one up the back, pulls it off, rolls it into a ball and swallows it and there he is in his new suit."

"Really?" the children all exclaimed at once.

"Yes, really," I replied, "and I have left the best for the last. The toad is one of our best helpers. He eats all the insects that would destroy our crops and flowers, so is very valuable to the farmer and gardener. If unharmed, he will live for years in our garden. There is one very old toad who spends his winters under my stone steps at home, and every spring I look eagerly for him to come out and he has not disappointed me yet," I ended.

Mary moved nearer. "I don't believe I'm afraid of you any more, nice old Mr. Toad."

"Say Bobby," said John, "let's be good to this toad and then he'll stay and maybe some day we'll see him change his coat. Anyway, we can take him into partnership in our garden work."

NEWS AROUND LOVINGTON FROM LOVINGTON LEADER

Mrs. Lizzie Adair, and son-in-law Mr. Crie, of Tahoka, Texas, her son, C. L. Adair of Wyoming, and Mrs. Geo. Berryhill of Plainview, were visitors to Lovington Thursday. Mrs. Berryhill came down to see a doctor.

Some of the finest fruit we ever saw is being brought in by our farmers and sold on the streets, such as peaches, plums, cherries and strawberries. What a pleasure it is to live in a high climate and eat delicious fruits of all kinds. Life is worth living.

A party of travelers from the flood districts of Oklahoma, arrived in Lovington recently, and from the story they told of wash-outs and floods, we believe we had better be contented without quite so much rainfall.

Last week while Mr. Jim Reed was on his way to Knowles community, his team became frightened and ran away throwing him out of the wagon and bruising him up pretty badly. Some men caught the team and he was able to drive them home, but suffered a great deal that night with his right arm which the doctor pronounced as badly sprained.

ACCORDING TO THY FAITH

BY ORVAL BURROUGH
11th Grade Pupil in Carlisle School

"According to thy Faith be it unto Thee," said Jesus Christ, and all through the Bible Faith is constantly referred to as a great healer and restorer.

By Faith Abel offered a better sacrifice than did Cain. It was faith that prompted Noah to build the ark; faith that led the children of Israel out of Egyptian bondage; faith that enabled them to walk across the Red Sea as though it were dry land, and it was faith that caused the blind man to bathe his eyes in the pool of Siloam in order that he might see.

Faith is the substance of things hoped for, the evidence of things not seen. It is the grandest, most helpful attribute of man; the finest gift of the Creator to the race. It

opens the door of ability and arouses creative energies. Faith is the link in the human soul that connects man with his Maker. It puts him in touch with God and opens the way to unbounded possibilities and limitless resources. No man can rise higher than his faith.

Men and women who have won fame in the world have been followers of their faith when they could see no light. Unquestioning, they have forged ahead while doubt whispered in their ears, "You cannot hope to win," and the "unseen guide" has led them to the promised land.

It takes faith to enable a man to fight his way through hardships, danger, and seeming failures without losing heart. It is just such

faith that has characterized every successful man and woman that the world has ever known. A man may acquire a vast amount of wealth and yet not be a success. He may have inherited it or he may have gained it dishonestly. Such a man, in spite of his fortune, is, as a rule, a failure. A man, in order to gain a real success, must work for it and he must have faith in himself and in his ability to overcome all obstacles and difficulties that confront him.

If a man enters into a fight with the crowning hope of victory in his heart and with an unconquerable faith in his ability to win; he has already won half the battle. But while it is necessary for him to have faith in himself, he must not allow himself to become vain, self-conceited and egotistical.

Napoleon thought himself to be a man of destiny, a man born to rule, to conquer. Had he been deprived of this belief, this faith in himself, he would not have been any more powerful than the dullest private in his army. But he had great confidence in himself and for many years he dominated almost half of Europe. Finally, however, he became self-conceited and ventured one battle too many; he took too long a chance; he played with fate—and lost.

The French peasant girl, Joan of Arc, the name most loved and honored of all womanhood in France, had chosen her to free France from her enemies. This faith enabled her to lead the French forces to victory. It was her mighty faith in her mission that gave her a miraculous force of character that compelled the French generals to obey her as a private obeys his superior officers. Faith transformed this peasant girl into the greatest military leader of the age.

Think what Christ's little band of chosen Disciples did for the world with all the Roman Empire pitted against them. What did they have that kept them at their tasks and nerved them to the privations and sufferings of a world which was their enemy? They had faith! An unshakable faith in themselves and in the message that they brought to the world.

Think what the faith of Magellan, Vesputius and Columbus has done for mankind. It has paved the way for the greatest civilization that the

world has ever known. Thus has it been through all time. The faithful pioneer has gone ahead and prepared the way and civilization has followed at his heels.

Every human being is sent into this world with a work to perform. He has a place in the great universal plan, if he will but find it. No other person can fill his place. If one keeps this in mind it will enable him to go a long way toward his ideal.

We find what we seek in this world. If a man looks for the faults that may be found in humanity he will find them. If he looks for the shams and shallowness of people, these, and these only will be manifest. If he has no faith in humanity, then humanity has no faith in him. But on the other hand if he seeks the good and the kindness of people he finds that also. If he has faith in man, then man trusts him in return.

A child's faith is instinctive and unless destroyed by wrong training will ever be present in his life's work.

If you told your child to jump into your arms he would not hesitate to do so, even though it was so dark that he could not see you. He would jump because of his faith in you. He would know that he was perfectly safe in doing what you told him to do.

When we are nearing the end of our declining years, why should we, if we have faith in our Creator, fear the dark passage? Why should we distrust the arms of the Infinite, when we come to death's door, which is only an entrance into another and better life? Why should we fear to cross the dark valley that leads to the new, peaceful life, if we have the faith that the Master is waiting on the other side with outstretched arms to receive us?

Again, let me say, that in this life and in the life to come: "According to thy Faith be it unto Thee."

CITY POLL TAX NOT NEEDED IN PRIMARY

Austin, July 7.—Shortly after the adoption of the woman suffrage amendment to federal and state constitutions, the attorney general held that payment of a city poll tax could not be required of either men or women as a prerequisite to their right to vote. This ruling pertained to the general election in Novem-

ber, 1920. Since that opinion was rendered questions have been raised as to whether or not the same rule applies to primary elections and to cities of 5,000 inhabitants or more. These questions are answered in the affirmative in a ruling recently rendered by the attorney general to Marvin Scurlock, county attorney of Jefferson county. In this ruling the attorney general said: "It is our opinion that the rule here announced applies to primary elections, as well as other elections, and that it also applies to cities and towns of more than 5,000 inhabitants, as well as to smaller cities and towns. We find nothing in the general laws, regular session of the Thirty-third legislature, which indicates that a different rule should be applied in cities of more than 5,000 inhabitants."

COTTON JUMPS \$7.50 PER BALE IN TEN MINUTES

New York, July 3.—Cotton jumped about \$7.50 a bale today within ten minutes after the publication of the first government forecast of the season. Heavy buying came in from all quarters as it was realized that the estimated yield of 11,065,000 bales would probably not meet requirements.

December rose 165 points to 22.50, which price was 184 points, or more than \$9.00 a bale over last week's close.

The percentage of condition of 71.2 for June 25 was about two points under general expectations and the indicated crop of 11,065,000 bales was about 200,000 bales larger than expectations entertained by many traders and brokers. The increase in acreage, estimated at 10 per cent, was somewhat larger than expected, but was offset by the other two items in the report.

HUBBERS DROP SECOND TO THE GASSERS

The Hubbers dropped the second game straight to the Amarillo Gassers Monday when an attempted squeeze play was broken up in the ninth with the score standing 5 to 4. It was a pitcher's battle between Pennington and Morton, but the Gassers seemingly had a little the upper hand on account of errors on the part of the Hubbers. Pennington held the Gassers scoreless and hitless with the exception of the third and fourth innings when the Gassers got five hits and as many runs. The Hubber's first count came in the fourth on a walk, a sacrifice and a single, and again in the fifth, Speegle walked, took third on Allen's double. Brooks then tripled against the right field fence and scored on a wild pitch, accounting for the third run in that frame. Brooks was the hitting "ace" getting two safeties out of three, one of which was a triple. The score: LUBBOCK AB R H PO A E Brooks, ss 3 2 2 0 2 0 Earnshaw, rf 3 0 0 0 0 0 Langford, cf 3 0 0 0 0 0 Brown, lf 3 0 1 2 0 0 Gober, 3b 4 0 1 1 1 0 Speegle, 1b 2 1 1 1 0 0 Allen, c 3 1 2 1 0 0 Battle, 2b 0 0 2 2 6 0 Pennington, p 4 0 0 0 4 0

Swenson was out Meador to Anheier. Battle doubled to center, scoring Speegle.

Woodriddle was gotten to in the third for five hits and six runs and was sent to the showers in the fifth when two more were counted against him. Speegle relieved him and held the Gassers to three hits. Fast fielding by Brooks and Gober and Langford's three doubles out of five trips featured. Speegle also scattered the feature board with a triple and a single out of four. WHY VOTERS SHOULD SUPPORT S. M. N. MARRS

I take this means to ask the people of Lubbock County to vote for my old classmate S. M. N. Marrs, for State Superintendent of Public Instruction. Read his professional record:

Graduate National Normal University; taught rural schools and was chairman board of examiners, Erath county; superintendent Hamilton, Stephenville, Cleburne, and in charge of the Public Schools of Terrell, twenty-five years; member State Text-Book Board, 1903; member State Board of Examiners, representative of this district, certainly knows how to make a bunch of typewriter punches and type slingers feel like the world is still a pretty good place to spend an existence, as she treated the Avalanche and Plains Journal forces with a box of fine home grown peaches of the most appetizing variety, Wednesday.

Noticeable Improvements in the Muleshoe Vicinity. Muleshoe, July 10.—The improvements in this section reported to the research department of the West Texas Chamber of Commerce include: \$15,000 for a new brick school building and \$45,000 for the connecting up of the highway, south and east to Littlefield, Lubbock and other towns.

We know some men who are fighting bravely, and what seems to be a losing battle, for no other reason than the lack of timely aid.

VOTE FOR

J. F. BUMPASS FOR Public Weigher PRECINCT NO. 1

I WANT TO BE YOUR WEIGHER FOR TWO REASONS: 1st. For the money there is in it. 2nd. I want to give you farmers first-class service, which you no doubt would appreciate.

If you bring your cotton early or late, I will be there to weigh it or have a competent man there to give you the desired service you pay for.

If you will vote for me as your weigher, you will not regret it. I will give you the best service you have ever had or would expect of any man.

S. M. N. MARRS Candidate for State Superintendent of Public Instruction.

- Friends of education in Texas, of all sections of the state are taking this means of expressing their unqualified endorsement of the candidacy of Mr. Marrs. We have absolute confidence in his ability and integrity, and respectfully submit his name to the careful consideration of the voters next Saturday, asking for their support and influence in electing a broad, experienced school man as our leader in the educational affairs of Texas.
