**THE PECAN CROP WILL
BE SHORT THIS YEAR**

Houston, Texas, July 24.—The
pecan crop in Texas this season will
amount to only about one-third of
the usual yield, according to a re-
port issued by F. M. Johnson, agri-
cultural statistician here. Where
usually there are around 300 cars
this year's crop will total not more
than 100.

Continual rains during the flow-
ering period, which prevented prop-
er fertilization and destructive work
of the case-bearer, which had been
particularly ravenous, is blamed for
the poor showing.

Figures on the crop were gather-
ed from all parts of the state, and
the unfavorable condition is general
over the state.

**BILLIOUSNESS AND CONSTI-
PATION**

"For years I was troubled with
billiousness and constipation, which
made life miserable to me. My ap-
petite failed me. I lost my usual
force and vitality. Pepsin prepara-
tions and cathartics only made mat-
ters worse. I do not know where
I should have been today had I not
tried Chamberlain's Tablets. The
tablets relieve the ill feeling at
once, strengthen the digestive func-
tions, helping the system to do its
work naturally," writes Mrs. Rosa
Potts, Birmingham, Ala.

Knowing what not to do, in the
case of accident or illness, is more
important than doing something
wrong.

**MRS. LEONARD BEALL
DIED AT SWEETWATER**

A message reaching Sweetwater
Friday, bears the sad news of the
death of Mrs. Leonard Beall, who
died at 8:30 o'clock on Friday night
in Brooklyn, New York.

No details as to the funeral ar-
rangements were stated in the mes-
sage. It is barely possible that the
body will be brought to Sweetwater
for interment. The message was
received by Mrs. Beall's mother,
Mrs. Pope Beall.

Mr. Beall is the oldest son of Mr.
and Mrs. Pope Beall and lived here
practically all of his life up until
about six years ago, when he went
to California, where he was mar-
ried. Since that time they have
lived in the east, at Richmond, Vir-
ginia, Washington, D. C., New York
City and Brooklyn, New York. Mrs.
Beall left no children.

**STATE NORMAL SELLS
PIGS TO CLUB BOYS**

Canyon, Texas.—The Agricultural
Department of the West Texas State
Normal College sold four registered
pigs to the Boys' Pig Club of Can-
yon, receiving \$10 each for them.
According to Fred H. Ives, the de-
partment makes special prices on the
pigs sold to members of the club in
order that the club work will be
encouraged in this section.

The agriculture department owns
six registered sows and one boar
and all the produce from this herd
is sold to boys who belong to the
Boys' Pig Club.

**THREE ISSUES THAT WILL
PREVENT STRIKE SETTLEMENT**

Chicago, July 22.—Three main is-
sues tonight prevented settlement of
the rail shopmen's strike.

1. The question of seniority
rights of strikers.
 2. Discontinuance of contract
work by railroads.
 3. Establishment of a national
board of adjustment.
- Union leaders criticised Chairman
Ben W. Hooper of the Railroad
Labor Board because, they said, he
had given the impression to Presi-
dent Harding that seniority was the
only issue.
- In a long statement Bert M. Jew-
ell, president of the shopmen, de-
tailed the triple grievance. The
strike can only be settled by the
meeting of the three demands, Jew-
ell said.

**COLORADO NAT'L CHARTER
EXTENDED FOR 99 YEARS**

"Because of the excellent record
made by the institution during the
past forty years, as a sound and
conservative bank, this department
extends the charter of the Colorado
National Bank for a period of ninety
nine years," wrote the Comptroller
of the Currency at Washing-
ton in a letter, recently to Joe H.
Smoot, cashier of the Colorado Na-
tional Bank.

The Colorado National Bank was
chartered October 15, 1882, the per-
mit extending over a period of 20
years. April 12, 1902, H. B.
Smoot, as cashier of the bank, made
application to the Comptroller for
extension of the charter, which was
granted for twenty years, or until
October 15, of this year. April 13,
just twenty years after his father
had filed the first renewal applica-
tion, Joe H. Smoot, now cashier,
filed application for renewal of the

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

KANSAS CITY MARKET

Kansas City Stock Yards, July 24, 1922.—Today's cattle receipts were 18,000 and included the largest per cent of range cattle offered thus far this year. Average quality was only fair. Fed grades were scarce. Nothing prime in any class. Best grades were steady and others lower. Hogs were in active demand at strong prices. Lambs were 25 cents lower, and sheep generally steady. Few feeding lambs were offered.

Today's Receipts
Receipts today were 18,000 cattle, 9,000 hogs and 4,000 sheep, compared with 17,000 cattle, 7,000 hogs and 7,000 sheep a week ago, and 16,380 cattle, 7,450 hogs and 6,100 sheep a year ago.

Beef Cattle
Trade in fat cattle opened slowly. The few desirable fat cattle here were quoted steady, and the plain and common kinds which predominates were 15 to 25 cents lower. Some fairly good fed steers brought \$9.50 to \$10.05, yearlings \$8.75 to \$9.50, and grass fat steers \$8 to \$8.50. Nothing prime was offered and prices on the quality basis were steady. Ordinary and fair casses sold at \$5.75 to \$7.25 and showed the decline. Butcher cattle showed about the same price tendencies as steers. Veal calves were steady.

Stockers and Feeders
Good to choice fleshy feeders and the best straight stockers and feeders brought strong prices. Other grades sold slowly, with common kinds, down 25 cents.

Hogs
Hog prices were weak at the outset but later the market improved and the close was 5 cents higher. The top price was \$10.55 and bulk of saes \$10.25 to \$10.55. Shippers took 1200 hogs 240 to 270 pound

Lambs were quoted weak to 25 cents lower, with most of the desirable fat grades selling at \$12 to \$12.50. Light weight ewes brought \$6.50 to \$7.00. Practically no feeding lambs arrived.

Horses and Mules
Trade in horses and mules started the week at unchanged prices. Receipts were light, no new demand developed.

CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of this Treacherous Drug may Start Trouble.

You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-18

McDONALD SPENT VACATION AT SAN ANGELO ON CONCHOS

Alex McDonald and Frank Ater are at home again after a few days visit in San Angelo at the Sam Ross home.

They attended all base ball games of interest while there, and spent a great deal of their time fishing along the Conchos, where they enjoyed splendid fisherman's luck, and from all accounts had all the fish they could eat at all times.

Both are highly elated over the trip and declare the San Angelo country is unsurpassed for vacation time insofar as near to home playgrounds are concerned.

Messrs. McDonald and Ross were in the cattle and hog business here together throughout the fall and winter, and the vacation was taken as a rest from their long labors after the stock had been sold.

They are instrumental in creating a splendid home market for the feed stuff of this section, and we are in hopes they will operate on even larger scale another year.

New pens, feeding troughs, etc., had to be built preparatory to fattening the calves which were bought here in the fall, and as that work was done for permanency we are sure that getting in to this work earlier this fall will be found a great deal more convenient.

McDonald and Ross have done a great work, and we heartily congratulate them for the successful methods they employed in carrying it on.

IN MEMORY OF L. S. DUTHIT WHO DIED LAST MONDAY

Mr. L. S. Douthit was born in Midam county, Texas, March 3, 1890. Came to the west when only a small boy, having spent the most of his life here. He was 32 years, 10 months and 14 days of age when death claimed him.

On December 24, 1911, he was married to Miss Mina West of Oldham, Texas. To this union was born one child, a son, Sydney Allen, who was nine years of age at the time of his father's death.

Death claimed him on last Monday night, July 17, at about nine o'clock, after he had become fatally injured an hour previous to that time by running in front of a team which his little son had been driving to a go-devil and they had become so badly frightened that they ran away.

Again we try in our weak way to thank the good people of his community for their kind assistance which they gave in every way possible.

How our hearts thrilled with joy as we heard his many friends remark to one another, "He was a good man, a fine neighbor in every way, and we feel that our community has been made better by him having lived in it."

His dear wife and little son are heart broken, her life at this time seems only a blank, but we must try to help her bear this sorrow; we must cheer them who are so lonely. May God give us strength to do so.

We do thank the dear minister, Bro. Britton of Plainview, who tried to soothe our aching hearts by his comforting words, and the little group of sorrowing friends as they stood under the large shade trees by his casket and sang, "Jesus Lover of my Soul"; Nearer my God to Thee" and "In the Sweet By and By." It seemed that angel's voices couldn't have sounded sweeter than those voices did.

And we also want to thank the ones who met us in Lubbock and so kindly assisted us as we laid him to rest; and also for the floral offerings.

Let us pray earnestly for this lonely wife and little son and try to live right before him and may he grow up to be a noble man that we will all be proud of.

—A loved one.

AVIATORS STOP OVER IN LUBBOCK FOR OIL AND GAS

Lieutenant Earl Prosser and Reserve Lieut. Graham, of the Aviation service of Fort Sill, Oklahoma, stopped over in Lubbock Monday to supply their machine with oil and gas, and to take a few minutes rest. They were enroute to El Paso on a special mission, having left Fort Sill two and a half hours before reaching here.

They were in Plane AS63377, field number 83, one of the most powerful two-man machines built, and from their experience as related to an Avalanche reporter there is great fun in riding over the Plains by air. Lieutenant Graham had been out of the service for several months, and has been taking another training course the past two weeks, and declares that there is something fascinating about that work that is interesting beyond expression.

When questioned as to the appearance of the Plains as compared with other sections along their route, Lieutenant Graham declared that in all his life he had never flown over more beautiful landscape than the Plains.

MINERAL RESOURCES OF TEXAS

In the August 4th issue of the Avalanche Magazine Section, E. H. Sellards, geologist of the University of Texas, will tell our readers of the wonderful mineral resources of Texas. There are millions of dollars' worth of minerals in Texas, yet unnamed and, to a great extent, unknown. Read this story and keep posted on the potential wealth of your state. Also please mention the Avalanche to your neighbor, if he is not a subscriber, and tell him how much good reading matter and how much valuable information he is missing by not being on the subscription list. ROTARY ITEMS

Whenever Woody has charge of the entertainment for the Rotary luncheon, we are sure of a good program, and it was nothing out of the ordinary when he and our Mr. Sensenbagen, of the Boy Scouts, introduced A. C. Dunn of Dallas, deputy regional executive of the Boy Scouts for the Southwest, who outlined to the club the methods used by the National Council Boy Scouts of America in organizing councils to organize and supervise the Scout work in the first communities. Mr. Dunn stated in the course of his remarks that there were some half million Boy Scouts at the present time, and they have 20,000 adult leaders who are devoting part of their time to the service of the boys. The interpretation given for scouting by the speaker was that scouting means a leader, a boy, and the great out-of-doors. He further said that character was assim-

lated by the contact with other men, that there was no greater opportunity for any man to serve his community than to be Scout Master of a troop of 32 boys.

There are two reasons why we should have a man as Scout Master. One is that every man owes something to his community, and the other is that associating with the boys will react upon his own life in keeping himself full of vigor and energy.

The Council recommended a Council of the second class which will function, through the following seven committees: Troop Organization, Finance, Publicity, Civil Service, Camping, Leadership and Training, and Court of Honor. The Lubbock Council will be chartered by the National Council, and will have jurisdiction over Lubbock to promote scouting activities.

In speaking of the present industrial situation, Mr. Dunn mentioned what an important factor the over two million boys who have been affiliated in the scout work will play in politics in the next 25

years, saying that capitalist and labor will probably never come together, yet the son of the capitalist and the son of the laboring man meet on common grounds in the Scout troops.

The reason for scouting, the speaker mentioned, was for the leisure time activities for boys. Speaking of the three chief institutions, the home, the church, and the school, scouting is a compliment of these three. The average boy is awake 5,500 hours in the course of a year. Of that time he spends 100 hours in church, some 900 hours in school, and allowing 1500 hours in the home still leaves a balance of 3,000 hours when scouting will attract and interest the boy.

These boys are kept scouting from the ages of twelve to sixteen years, time spent in the development of scout craft. A boy at the age of fourteen should be a first class scout, and have started upon the Merit Badge subjects of which there are sixty. The fundamentals of practically every trade and occupation by which men are earning their livelihood are taught to scouts.

Butterflake Martin thinks he has a man sized job as chairman of the attendance committee, and has appointed eighteen men, six men to the team, whose duty it is to get the membership out to luncheons. This is a good stunt, and no doubt will improve the attendance percentage.

O. F. Sensenbagen responded to the subject, "Boys Work." They have organized four patrols and will organize one more which will make five. They meet three times each week, on Monday, Wednesday and Friday. Wednesday night is devoted to gymnasium work, and Friday nights to drill work. He gave a brief outline of the trip of the boys in charge of Bro. Bowen on their outing to Post. There were 33 Boy Scouts, and all reported a good time. Butterflake Martin furnished all of the bread for this outing, and Sherlock Allen furnished 900 pounds of ice, Briggs, Rix and Dow furnished transportation for the boys to return home. Mr. Thomason of Post, gave free boat service. These Boy Scouts outings are the proper thing to build character in the boy. They run up against the give and take proposition, and are broadened by so doing.

Colonel Mullican was called upon to see whether the Kiwanis Club wanted to play baseball with the Rotarians on Friday and requested that the baseball game be postponed in view of the fact that there were other entertainments and for the very important reason that he had to raise the money to build the stables for the artillery horses, and his request was granted.

The brilliant American Tenor will give a concert under the auspices of the Rotary and Kiwanis Clubs at the City Auditorium Monday night, July 31. William Mitchell is an eminent young American tenor who is widely known and is a most popular singer. He possesses a splendid tenor voice of beautiful

quality, very powerful, full of sweetness and appeal, as well as being forceful and dramatic where required. He is accompanied by Samuel H. Ball, the well known and brilliant pianist who has done concert work in all the Western states. Mr. Ball is a native of Texas and has spent a number of years in the City of New York, where he was a pupil of Godowski. This eminent teacher recently declared that Mr. Ball is one of the finest young pianists in the United States.

The music loving people of Lubbock will certainly want to hear this fine tenor. Some of our good citizens have been in the habit of going to Dallas and other places to hear Grand Opera singing, and I am sure will appreciate what the Rotary and Kiwanis Clubs are doing to get this brilliant singer here for them. The proceeds of this entertainment over and above what we have to pay for William Mitchell, will go toward paying for seats in the auditorium.

Mr. T. B. Stonerod, Jr., president of the Citizens National Bank of Colorado, made an extemporaneous talk, telling us of the oil development in Colorado. In closing his remarks, he complimented Lubbock on its growth and the fine country surrounding it, and said that if we keep on growing as we have been, we will have to change the slogan of our city from "The Hub of the Plains" to "The Hub of West Texas."

Following is a list of the guests: Neal Douglas, guest of James L. Dow; Percy Spencer, guest of R. L. Douglas; F. M. Maddox, guest of W. H. Ward; O. C. Dunn, deputy Scout executive of the 9th regional district of Dallas, guest of the club; Col. Clark M. Mullican, guest of L. T. Martin; W. F. Bond, guest of J. A. Wilson; T. B. Stonerod, Jr., president of the Citizens National Bank of Colorado, guest of Jed Rix.

ANOTHER CHANGE

I have sold the office which I bought from Dr. Hardy a short time ago to Dr. M. T. Council, who will take over all my patients and business.

I have been in practice 12 years and want to say that I can recommend Dr. Council as one of the best and most successful Chiropractors I have ever met. He has made a study of all forms of drugless healing and uses the method which he considers best for each individual case. I believe he is the only Chiropractor in Texas who is a graduate and thoroughly understands electricity in the treatment of disease.

In my ten months association with Dr. Council I have found him strictly honest and a gentleman, and advise all those who are sick to give him a trial, for I feel sure that he will help if not cure them. I am glad to be able to make these statements to some people, for reasons of their own have said otherwise. I am going to Illinois, where I have a state license, to open an office in my reason for selling and shall carry many pleasant remembrances of Lubbock and her good people with me.

DALLAS ATTORNEY SPOKE AT KIWANIS LUNCHEON

Walter T. Seay, of the law firm of Seay, Malone & Lipscomb, was in Lubbock this week looking after matters in District Court.

Mr. Seay was called upon to make an address at the Kiwanis luncheon at the Cova Hotel, having been there as the guest of Percy Spencer, and inasmuch as those with whom he was associated here are watched with careful attention by the local braves, Mr. Seay was called upon to tell whether he had come to Lubbock upon his own will, or upon an impressive request of the Ku Klux Klan of Dallas, to which he gave a very interesting answer. He is one of the really big lawyers of Texas, and immediately showed a spirit of good fellowship, which endeared him to the hearts of those who heard him speak.

TO THE VOTERS

I take this method of thanking all persons who supported me in the recent campaign for the nomination of Public Weigher. As no one received a majority of the votes we will have a run-off. I shall be unable to see all the voters between now and election day but hereby solicit your vote, and will appreciate any help you can give me.

"MAKING DREAMS COME TRUE"

COMPOSITION BY MISS ARTIE BOND
11th Grade Carlisle High School

Every great soul of man has had its vision and pondered it, until the passion to make the dream come true has dominated his life. "You will be what you will to be. Let nature find its false content. In that poor world environment, But spirit scorns it, and is free. "The human will, that force unseen, "The offering of a deathless soul, Can hew away to any goal. Though walls of granite intervene." Such are the thoughts of the poet, brought down to us through the ages of time immemorial. He tells us in those lines that we mold our very lives in the forms of our desires. We ever shall be what we long to be, if we persist to the bitter end and work without ceasing. We are told that the famous American, George Washington, when he was twelve years old, wrote a letter in which he said: "I shall marry a beautiful woman; I shall be one of the wealthiest men of the land; I shall lead the army of my country; I shall rule the country which I help to create." Every one of today knows how

those boyish dreams come true. We have been told that the "child is father of the man," which means that as the boy thinks, plans, and dreams in his sober earnest moments of boyish life, so will the mature man think, plan and dream in the years to come. Hold fast to our childhood dreams and they will come true with the years. We'll take the people of ancient Greece for illustration. Those mothers and fathers concentrated their hearts and minds on the ideas that their children should study art and beauty and what was the result. Greece became the greatest beauty model and art teacher the world has ever known.

Again, look at Rome. The early Romans concentrated their minds on Law, War and Power. What do we find? The Romans became the most powerful nation on the face of the earth and their kingdom embraced all the known lands of that day. Historians tell us now that Rome gave the law to the world while Greece gave the culture, refinement and beauty.

So we come to the theme on which my essay is built. If you concentrate your thought and hold to it persistently, work with it along the line of your greatest ambition, nothing can prevent you from making your dreams come true. But spasmodic enthusiasm, working some and lingering much, will get you nowhere. Dreaming without effort will only waste your power. The fellow that is forever blowing bubbles or building castles in the air will never make a success. The time comes to every person when he must face the stern realities of life and build his mansions of more substantial material.

Everywhere there are disappointed men and women who have tired of life because they could not get what they longed for. Perhaps it was a musical education, training for authorship, law or medicine, or some other vocation to which they felt they had been called. They are struggling along in an ungenial environment, railing at the fate which has robbed them of their own. They feel that life has cheated them, when the truth is they probably have cheated themselves. They did not insistently send out their desires and longings. They did not nurse them and positively refuse to give them up. Above all, they did not put forth their best efforts for their realization and thus life is a failure to them.

Three things we must do to make our dreams come true. We must visualize our desire, concentrate on our vision and work to bring it into the actual. All the necessary implements and materials are within our minds and hearts. No matter what the accidents of birth or fortune, there is only one force by which we can fashion our life material mind. Of two girls in the same wretched environment, one picks up an education, trains herself for place and power, while the other grows up a nobody. It is all in the girl. Each has the same material to work with. One changes it to gold; the other to lead.

Very few can realize the close co-ordination which exists between their visions, their mind pictures, and the actual accomplishments of their career. The principal cause of the majority of failures in life are due to the misunderstanding regarding the relation of thought to accomplishment. The gradual fading out of one's dreams, the losing of one's vision may be traced to this cause: When we first start out in life we are enthusiastic. Our vision is bright and alluring, and we

feel confident we are going to win a great success. But after a few setbacks, we lose heart and faith in our vision dies. Then we gradually awaken to the fact that our ambition is beginning to wane. It is not so sharply defined as before. Our ideas are dimmed, our longings not so fierce. We try to find reasons and excuses for our lagging efforts. We think it is due to overwork, or is caused by poor health, and that soon our desires to realize our dreams will return. But may I say to you: Beware of the wolf in the lamb's clothing. Once you lose your grip on your vision, you may never regain it. We must understand the mighty power back of it. For so long as we hold to that vision, so long we know our dreams will come true.

What we get out of life depends on our fidelity to our visions. If we believe in them we will not let them die for the lack of nursing. We will cling to them to our dying day. The man who believes in his vision of life, who is not a mere idle dreamer, who sees in his desire a promise of something which he is able to make true—he is the man who has ever made the world move. He puts his whole life into the work to make his vision a reality. People know there is something back of the dreamer who has such faith in his life dream that he will sacrifice everything to make it come true.

Never mind what discouragements come to you. Let nobody destroy your faith in your dream of what you believe you were made to do. Cling to your vision. You have no right to allow it to fade or become dim. Your success will be measured by your ability to hold on. You must not shrink before criticism. You must keep working and visualize to realize your dream. Put out of your mind forever the thought of failure. Set your face toward the goal. Resolve never to recognize defeat of your dream, and you thereby create a tremendous force for the drawing of your own to you. If you maintain the victorious attitude toward your vision, victory will crown your efforts and your dream will come true.

ONE DOLLAR SAVED, REPRESENTS TEN DOLLARS EARNED

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars.

Ferguson Says Prohibition Will Be Issue In Second Primary If He and Mayfield Are in Run-off

Dallas, Texas, July 24.—If Earl B.

Mayfield and James E. Ferguson are the two candidates left in the race for democratic nominee for United States Senate, the issues will revolve around prohibition, labor questions and the money system, according to Mr. Ferguson and Ben C. Richards, manager of the Mayfield campaign.

Mr. Ferguson in a statement to the Associated Press, in which he said he would be in the run off primary, declared the "issues will be much the same as in the campaign just closed. They will be money, or the federal reserve banking system, questions of labor, and prohibition."

According to Mr. Richards, if Mr. Ferguson is in the second primary as opponent to Mr. Mayfield, prohibition will be the main issue. "Mr. May-

field will stand for prohibition and Mr. Ferguson will be anti-prohibition," Mr. Richards declared.

The question of Ku Klux Klan and anti-Ku Klux Klan will not be so much emphasized in the second primary as in the primary July 22, Mr. Richards believes. Mr. Mayfield will continue his campaign along lines which do not recognize the klan as an issue, Mr. Richards said.

If Mr. Culberson should be the candidate against Mr. Mayfield in the August 26 primary, the issue will depend greatly on what Mr. Culberson makes them, Mr. Richards stated.

Klan Issue is Dead, Declares Richards

Dallas, July 24.—If Earle B. Mayfield and James E. Ferguson are the two candidates left in the race for democratic nominee for United States Senate, the issues will revolve around prohibition, labor questions and the money system, according to Mr. Ferguson and Ben C. Richards, manager of Mr. Mayfield's campaign.

Mr. Ferguson, in a statement to the Associated Press in which he said he would be in the run-off primary, declared the "issues will be very much the same as in the campaign just closed." They will be money, or the federal reserve banking system, questions of labor, and prohibition.

According to Mr. Richards, if Mr. Ferguson is in the second primary as opponent to Mr. Mayfield, prohibition will be the main issue. Mr. Mayfield will stand for prohibition and Mr. Ferguson will be anti-prohibition," Mr. Richards declared.

The question of Ku Klux Klan and anti-Ku Klux Klan will not be so much emphasized in the second primary as in the primary July 22, Mr. Richards declared. Mr. Mayfield will continue his campaign along the lines which do not recognize the klan as an issue, Mr. Richards said.

Robert L. Henry, one of the Senatorial candidates, openly espoused the Ku Klux Klan in the campaign preceding the July 22 primary, but the other candidates were non-committal on that question. Mr. Henry's elimination in the primary Saturday, according to the opinion of Ben C. Richards, manager for Mr. Mayfield, will eliminate the klan question from the coming campaign.

Senator Culberson did not come to Texas to take part in the campaign. His managers conducted it, stressing the fact that the Senator was remaining in Washington, attending the sessions of Congress and emphasizing that Mr. Culberson had supported former President Wilson and his policies. They also said repeatedly that Mr. Culberson's health was such that he could continue his duties as Senator.

Soon after crossing the Neuces River, in Southwest Texas, Indians attacked the family and killed Mrs. Gregg and her eldest son, Thaddeus. The Way to Be Happy
A hermit there was, and he lived
in a grove,
And the way to be happy, folks said,
he had got;
As I wanted to learn 'it, I went to
his cell,
And when I came there, the old
hermit said: "Well,
Young man, by your looks you want
something, I see,
Now tell me the business that brings
you to me."
"The way to be happy, folk say,
you have got;
And wishing to learn it, I've come
to your grove."
Now, I beg and entreat, if you have
such a plan,
That you write it down, as plain as
you can."
Upon which the old hermit, he went
to his pen,
And brought me this note when he
came back again:
"Tis being and doing and having
that make

All the pleasures and pains of which
mankind partake;
To be what God pleases, to do a
man's best,
And to have a good heart, is the
way to be blest."

No Worms in a Healthy Child
All children troubled with worms have an
unhealthy color, which indicates poor blood, and as a
rule, there is more or less stomach disturbance.
GROVE'S TASTELESS CHILL TONIC given regularly
for two or three weeks will enrich the blood, im-

throw off or dispel the worms, and the child will be

Ohio, this month and here is what happened the day he arrived. Dr.
G. T. Harding, father of the president, went out behind the chicken
house, performing that well-known execution (as shown here), which
meant his boy was to have chicken for dinner—a big "yaller leg" that
went fine with mashed potatoes, cream gravy and hot biscuits.

REAL APACHE HAUNTS IN Betty Compton's Great Paramount Picture "THE GREEN TEMPTATION"

The haunts of the Parisian Apache
are reproduced in Betty Compton's
latest Paramount picture, "The
Green Temptation," showing next
Monday and Tuesday, at the R. &
R. Lindsey Theatre.

This is somewhat a triumph in
motion picture architecture, as these
dens have never before been exact-
ly duplicated, for tourists are seldom
admitted to these underground re-
sorts in the old Roman catacombs
of this mysterious group of Parisian
secret societies.

The replicas were made possible,
however, by the co-operation of
Prof. Sigurd Russell, for twenty
years a resident of Paris now a
French instructor, and Theodore
Kosloff, screen player, who plays
the villain role of the chief Apache
in the new picture.

The "Cafe des Apaches" setting
was constructed from sketches sub-
mitted by Professor Russell. When
in Paris, Mr. Kosloff was invited by
Madame Efrosi to give an Apache
dance at a big function. To provide
an exact interpretation of the dance,
Mr. Kosloff visited the Apache
haunts with a member of the order.
There he observed the habits and
customs of the Apaches, which he
has helped to bring to the screen
in "The Green Temptation."

The picture, said to be a masterly
production, was adapted by Monte
M. Katterjohn and Julia Crawford
Ivers, from the magazine story,
"The Noose," by Constance Lindsay
Skinner. Others in the cast be-
sides those mentioned, are Mahlon
Hamilton, Neely Edwards, Edward
Burns, Lymore Lynnard and Mary
Thurman.

A SMILE WITH TOM MIX

"Say Tom," said William Russell
to Tom Mix, the Fox star, at the
Hollywood studio one day, "you
have been in New York recently.
What kind of language do they
speak in that Man's town now-days."
"Well," said Tom, slowly, "judg-
ing from what I observed, I think
they have three languages—English,
Yiddish and Telephonish."
Mix is at the R. & R. Lindsey in
"Up and Going," Saturday.
