

THE LUBBOCK AVALANCHE

VOLUME XXIII. No. 48.

LUBBOCK, LUBBOCK COUNTY, TEXAS, FRIDAY, AUGUST 11, 1922.

PUBLISHED TWICE A WEEK

LUBBOCK COUNTY FARM BUREAU WILL BE HELP TO OUR FARMERS

APPLICATION OF BUSINESS PRINCIPLES IN MARKETING FARM PRODUCTS IS MAIN OBJECTIVE

LOCAL ORGANIZATION OFFICERS ACTIVE

They Realize Need of Concerted Effort On Part of Farmers Everywhere and are Helping In That Work. Farm Bureau Will Help Keep Farm Prices to Profitable Levels.

An Avalanche reporter is glad to have attended a meeting of the Lubbock County Farm Bureau at the Courthouse Tuesday evening, as at that meeting we had an opportunity to look into the farming situation from the farmers viewpoint, which will no doubt help us in our attempts to render our farmer friends better service in our attempts to advance his cause in every manner possible, which we have endeavored to do.

Many prominent speakers were on the program, not so prominent as speakers, but as successful men in the matters about which they spoke, and from them we got first hand information as to what is being done to better the conditions of our farmers.

The Lubbock County Farm Bureau is one of the most important organizations in the county, and we mean important in its scope and possibilities. Not because there is a good many members in it at this time, nor because those members represent a great portion of our wealth-producing population, but we mean by its being important, is because it more nearly affects the well-being of every individual, industry and business in the entire county than any other organization within her borders, and anyone thinking for a moment that statement is misleading, is missing a great deal.

The fact that the Farm Bureau of Lubbock county has as its members the most substantial farmers in this section can be seen from the fact that the following citizens are officers in the organization: R. E. Overstreet, president; L. O. Burford, vice president; Fred Boerner, treasurer; J. W. Jennings, secretary; S. C. McCarty, W. O. Sheely, W. W. Ferguson and Jim Benton, directors.

The fact that the Farm Bureau is an organization to which a farmer must obligate himself in becoming a member is proof that the farmer who belongs will not be molested by haphazard marketing of his fellow members' crops, a feature that is lacking in all other farm organizations, and we heartily endorse the Bureau's operations in Lubbock county. We are glad to know that the officers of the Bureau have worked out a systematic marketing system, using its great credit power as a lever through which to relieve its members while their cotton is going through the process of sale, and that the return of the farmers on the balance of the money coming to them after the initial payment on the shipment is sent at designated times, allowing him to make his notes at the bank (if he should be compelled to borrow money) payable on the date said balance is to be received, which, according to reports made at the meeting, is agreeably received by local bankers.

The Farm Bureau is a business proposition, permitting our farmers to conduct their cotton marketing on a business basis, and anyone familiar with its methods will see that the local organization bids fair to become an asset to the development of this section, inasmuch as it will enable farmers to make more money from their crops.

President Overstreet, of the local organization, in an address to the members, assured them that the Farm Bureau did not hope to offer the farmer inside the organization a great deal more than he could get on open markets, but that the intentions of the Bureau is to keep prices of cotton just as favorable to the producer as it is at all possible, and that outside buyers would naturally be compelled to pay higher prices for what they bought than they would pay if the Bureau was not in existence, which is indeed true.

Farmers need not expect to get much more in the Bureau than in open markets, but the Bureau will be instrumental in keeping prices high, and is recognized as the greatest factor in that work in operation today.

Farmers interested in the contracts made by the Farm Bureau members, should read Sections 17, 25 and 26, of General Laws of Texas on "Co-operative Marketing Associations—providing organizations of, and defining their rights, duties, etc."

William Davis, prominent citizen of Idalou, is in a local sanitarium under care of specialists.

R. E. Overstreet, president; L. O. Burford, vice president; Fred Boerner, treasurer; J. W. Jennings, secretary; S. C. McCarty, W. O. Sheely, W. W. Ferguson and Jim Benton, directors.

\$8,500 CLUB HOUSE FOR LUBBOCK COUNTRY CLUB

Architects Taylor and Peters have completed plans for the Club House of the Lubbock Country Club, and the contract for the building has been let to Contractor E. L. Noey.

The building will be a frame structure, which will cost the club something like eight thousand five hundred dollars.

A kitchen, keeper's room, dining room, ladies parlor, gentlemen's parlor, and dance hall are provided for, with modern conveniences throughout, and when completed the building will be one of the most attractive of its size in West Texas.

Everything possible has been done to beautify the grounds, and before many months the members will have one of the most attractive and convenient playgrounds in this section.

The lake will offer splendid duck hunting and boating advantages and the conveniences of the club house kitchen will be fully realized during the duck season, as the hunters may have their kill prepared for them in the club house, which will add greatly to the sport.

INSPECTING PARTY VISIT SWEETWATER

Sweetwater, Aug. 8.—Clarence E. Gilmore, State Railroad Commissioner, Clyde M. Reed, Chairman of the Kansas City Public Utility Commission, were in Sweetwater for a short while, Saturday morning on their return trip of inspection of the properties of the Orient railroad. They stated that the only way the road could continue to operate was to secure the full co-operation of the public served by the road in the way of additional business and the reduction of taxes for the current year by reducing the valuation of the road to a minimum of \$100 per mile.

It is understood that efforts are now being put forth through the chambers of commerce along the line to have these requests complied with. The party left at nine thirty over the Santa Fe by the way of Amarillo to Kansas City.

NOMINEE APPOINTED DISTRICT ATTORNEY

Amarillo, Aug. 8.—Lloyd Flecher has been appointed acting district attorney in the absence of W. H. Childers and has assumed his new duties. Flecher, a former special agent for the department of justice, was nominated in the Democratic primary for district attorney of the Forty-seventh Judicial District.

AMARILLO SEEKING RELIEF OF PRESENT WATER SCARCITY

Amarillo, Aug. 8.—The city commission is contemplating the employment of an engineer to study the local water situation with respect to finding the most economical and practical source. Amarillo is growing rapidly and the present supply from 36 wells is proving entirely too small.

CATTLE SALES REPORTED BY EL DORADO RANCHMAN

El Dorado, Aug. 8.—Thomson Bros., Thad A. Thomson and W. D. Swift, sold to Singidecker, through J. T. Clegg of San Antonio, 1200 calves for November delivery. T. K. Jones sold 150 head of calves to Singidecker, November delivery at \$22.50 a head. E. C. Parker sold about 30 calves to the same person at \$25 per head.

REPUBLICANS AT FORT WORTH HAVE VICTORY HOPE

Fort Worth, Aug. 8.—Unqualified disapproval of the Ku Klux Klan, which has been the subject of the hearing-administration—prediction that the Republican party would assume control of Texas government in a few years and a plea for tolerance in carrying out the party's program were the high lights of the opening address of State Chairman of R. B. Creager of Brownsville, before the biennial convention of Texas Republicans here this morning. Chairman Creager's remarks were frequently loudly applauded by the 350 delegates present.

William Davis, prominent citizen of Idalou, is in a local sanitarium under care of specialists.

The Union Side of the Railroad Strike As Told By W. S. Patterson One of the High Officials of the Union

Some of the reasons why the shopcraft employees would not accept a decision which was unjust and were forced to quit work:

Increase in passenger rates, freight rates and Pullman rates were granted to the railroads by the Interstate Commerce Commission, and these increases were placed upon the traveling and shipping public.

On July 1, 1921, United States Railroad Labor Board decision No. 147 reduced the railroad employees' wages 12 per cent. How much of this saving did the public get?

On August 16, 1921, United States Railroad Labor Board in decision 222 gave the shopcraft employees a further reduction of approximately 10 per cent. Did the traveling public receive any part of this reduction? No!

On July 1, 1922, the United States Labor Board in decision No. 1036 again gave the shopcraft employees a further reduction of 12 per cent, or a total reduction of 34 per cent in their wages within one year.

Ask yourself the following questions:

1. Have the passenger rates been reduced 34 per cent?

Have the freight rates been reduced 34 per cent?

Have the high salaries of railroad officials been reduced 34 per cent?

Has the price of rent been reduced 34 per cent?

Has the taxes been reduced 34 per cent?

Has the street car fare been reduced 34 per cent?

Has flour been reduced 34 per cent?

Has your gas been reduced 34 per cent?

Has your electric light bill been reduced 34 per cent?

Did you ever read a decision that the salary of the Labor Board has been reduced 34 per cent. They receive \$10,000.00 each per year, \$36.00 per day, or \$6.00 per hour, and the railway employees help pay this board which has cut the wages of one class of employees to 28 cents per hour.

Do you know that during the last six months of 1921 the total payroll each, including the lay-offs, was running at the annual rate of one billion, three hundred million dollars per year?

Do you know that eleven railroad presidents draw more salary than the President of the United States, a total of \$865,571.06 per annum, an average of \$78,701.97, or \$52.00 per hour for a four-hour day?

Do you know that twelve other railroad officials and attorneys draw salaries amounting to \$670,960, an average of \$55,960 per year?

Do you know that forty-eight railroad officials and attorneys draw a total of \$1,588,150 per annum, an average of \$33,044 per year, and do you know that the grand total of the annual salaries of seventy-one railroad officials and attorneys is \$3,022,901.06?

Do you know that 23,000 individuals, families and estates own and control one hundred and twenty billion dollars, or one-third of the National wealth?

total strength of the Texas guards to more than 8,000, according to guard officials. The expansion of the guard organization is a part of a general plan of expansion of this branch of service, under which it is expected the Thirty-Sixth Division will be entirely recruited by June 30, 1924, and will include a total of 16,942 officers and men.

This organization is designated to perpetuate the Thirty-Sixth (Texas) Division which served overseas in the World War. Many of the present members of the guard units are former members of the division during the war.

A concerted drive will be opened at the close of the present guard encampment to recruit the number of guardsmen contemplated by Jan. 1, guard officials said. Special organization officers will be dispatched to various parts of the state to carry on the recruiting work. Designation of the headquarters of the new units will depend to a large extent upon the success of the recruiting campaign in the various centers, it is said.

STRIKES DELAY WORK ON NEW AUDITORIUM

Amarillo, Aug. 8.—The new \$350,000 city auditorium being built in the north part of the city will not be completed within the 150 working days agreed upon by city and contractor, due to the railway and coal strikes and other conditions. Instead of being completed in November of this year it can not now be finished before January even under the most favorable conditions, it is said.

MADDERN BROS. RELEASED ON \$1,000 BONDS EACH

J. Y., and Will Madden, who were acquitted by the jury in the District Court in the case of State of Texas versus J. Y., and W. M. Madden for the killing of brakeman Jerry Redden, at Roundup, Texas, in June, and who were kept in jail pending court procedure in the case of State of Texas versus J. Y., and W. M. Madden for assault with intent to kill Jim Vaughn, Santa Fe conductor, which occurred at the time of the Redden killing, were released Wednesday on one thousand dollar bonds each, and J. Y. is now at work on the Geo. W. Pickle building, and W. M. has worked part time in a local boarding house as cook.

PRINCIPLES OF KNIGHTS OF KU KLUX KLAN DISCUSSED

W. A. Hamlet, D. D., well known in West Texas as a lecturer, spoke to a large crowd here Wednesday evening, beginning at 8:15, on the "Principles of the Knights of the Ku Klux Klan," at the courthouse lawn.

Hundreds of people assembled on the lawn, while many automobiles were parked along the curb, making an estimate on the number who heard the address hard to make.

Much interest is shown here at each Klan discussion. Rev. Hardesty of the Elmore Baptist church, being the first to lecture here on that subject.

Thurman Jones of Tabeta, underwent an operation for appendicitis here Sunday night in a local sanitarium.

A. B. Chanbers, traveling salesman of Sweetwater, is in a local sanitarium for medical attention.

CUMBERLAND'S HOME-COMING DAY GREAT OCCASION FOR THE CHURCH

ALL-DAY SERVICES AT THE CHURCH AND CHURCH PARK BY MEMBERS WHO ORGANIZED CHURCH HERE

CHURCHES OF MANY TOWNS REPRESENTED

Lubbock Church Was Organized With But Few Members Whose Work Has Been Constant and Faithful, Helping That Church to Become One of the Strongest in West Texas.

Two Injured In Storm Near Abilene Last Tues. P. M.

Two men were injured, one of them believed fatally, when the cotton gin at Truby, 20 miles north of this city, was wrecked by a small tornado which struck there about 5:30 o'clock Monday afternoon. The injured are:

T. G. Tedford back reported broken; G. F. Freeman, 55 years old, left leg broken above and below the knee and right hip dislocated.

First news of the disaster reached this city soon after the occurrence, when a hurry-up call was sent to the Laughter Undertaking Company for the motor ambulance.

Several people from the city went to the scene. When the ambulance reached the scene first aid had been given the injured men, and Mr. Freeman was placed in the ambulance and brought to this city to a local hospital.

On account of the critical condition of Mr. Tedford, he was not moved from that community. It was stated here Tuesday morning that Mr. Tedford was not expected to live.

Buried in Wreckage

The injured men were working with six or seven others in the gin, repairing it preparatory to its operation during the cotton season. The gin was burned some time ago. Suddenly and without warning the cyclone struck the gin and all the men but the two injured men and a son of Mr. Freeman, Tony Freeman, escaped. Tony Freeman was buried in the wreckage, but when dug out by the crowd which had assembled, was found to have escaped without a scratch. He accompanied his father to this city. It was stated by the attending physician Tuesday morning that Mr. Freeman will recover, although he received a bad break in the left leg. No other damage was done by the tornado in the Truby community, it was stated here Tuesday.

High Wind at Hawley

Hawley, Aug. 8.—A tornado struck this place Monday afternoon accompanied by a half inch rain and did considerable damage to property. One house was blown down, three show windows in the J. E. McCaleb store were broken in, tops were blown off automobiles and the old gin plant was completely wrecked. The machinery from the plant, however, has been assembled in a new concrete plant, which was not damaged. So far as known no one was hurt.

COURSE IN VOCATIONAL AGRICULTURE STARTS MON.

Ray C. Mowery, instructor for the short course in Vocational Agriculture, is making all necessary preparations for the school to start Monday at one thirty in the afternoon, and many farmers are showing a great interest in the course.

Mr. Mowery spoke to the members of the Lubbock County Farm Bureau at the Courthouse Tuesday afternoon, giving the members an insight into the work that will be done.

Farmers interested in attending the course should get in touch with Mr. Mowery. There is no cost to the farmer whatever in attending this course.

LITTLE AVALANCHERS WILL SEE MOUNTAINS OF COLO.

Melvin and Harold Dow, sons of the Avalanche editor, left Thursday morning in company with Mrs. J. T. Hutchinson and children, Charles Bacon, Dr. and Mrs. R. B. Hutchinson, and her brother, Crawford Black, for an automobile trip into Colorado.

A great time is anticipated, and we are looking forward to their return, as we can get a complete account of how everything looks in that state, as the young journalists are close observers, and will no doubt see many wonderful things of which to tell on their return.

Miss Fay Scott of Muskogee, Oklahoma, is the guest of her sister, Mrs. Chas. Adams. Miss Scott has just returned from Greeley, Colorado, where she has been attending school.

Mrs. J. A. Snoddy of Brownwood, is visiting her sisters, Mrs. J. T. Inman and Mrs. E. J. Yates.

Mrs. C. W. Hudson and Mrs. E. R. Smith of Seagraves, were in Lubbock Sunday and Monday.

Early in the morning of August 9th, cars began to arrive from Floydada, Ralls, Petersburg, Shallowater, and other points, and by 11 o'clock hundreds of people had arrived. Promptly at 11 o'clock Rev. O. N. Baucum, pastor of the Floydada congregation of the Cumberland Presbyterian church, brought a stirring message on "The Great Eternal Home-Coming" from Rev. 21:1. The church auditorium was filled to overflowing.

Immediately at the close of the morning service every one was invited to the Cumberland Park where an old fashion West Texas feed was ready and waiting at the lunch counter, and there was sure enough plenty and much to spare. Fact of the business many remained for supper and still there was much left yet to eat. Hundreds quenched their thirst on ice cold lemonade, water and tea.

The Lubbock Cumberland Presbyterian church was organized on the 9th day of August, 1908, with seven charter members. One of these has been called to the great eternal gathering where there will be no farewells, nor benedictions. Five of the charter members were present, which are as follows: Mr. and Mrs. E. P. Earhart of Lubbock, Mrs. R. A. Rankin of Lubbock, and Mr. and Mrs. W. R. Buchanan of Petersburg. This congregation has grown steadily from the day of its organization, and to day it has a membership of nearly 200, with one of the best Sunday schools in the city. This membership is composed of those who have separated themselves from the world and its allurements, and refuse to engage in many of the worldly amusements that so easily destroy a Christian's influence.

Thank God for clean Christian men and women who are willing to deny themselves and take up their cross and follow Jesus, instead of the world and its folly.

In the afternoon, a splendid program was rendered by the Elders of the church and thereby reviewing the brief history of the local congregation. These talks all brought out one great fact and that was the faithfulness and self-sacrificing characters who have labored both in the pulpit and in the pew.

This was a great day for all who attended and it was the unanimous decision of all who were present both Cumberlands as well as the great host of friends and visitors.

It is the desire of the Committee on arrangements to express their sincere thanks to the various committees for their splendid work, and to all who in any way contributed to the success of this event. Let us be faithful, and labor for the Master with true loyalty to our dear church, and may the God of all goodness spare our charter members to see August 9, 1923, when we hope to have even a greater gathering than this.

STOMACH TORTURED? TRY YEAST

But Be Sure It's Ironized Yeast

You can't give your job the best that's in you, if you suffer with indigestion, dyspepsia or other distressing stomach ailments. The thing to do, if you want to feel in tip-top condition, with never a thought of stomach trouble, is to try Ironized Yeast. Simply take two tablets with each meal. In all probability you will notice highly beneficial results within the first 24 hours.

Yeast, as everyone knows, contains certain elements which have a wonderful effect on the functioning of our stomachs, and in toning up the system. But Ironized Yeast embodies the new scientific process of ironization which makes yeast just doubly effective. Forget stomach troubles and keep yourself 100% efficient. Get Ironized Yeast today. To try it free simply mail post-card for famous 3-Day Test. Address Ironized Yeast Co., Dept. 86, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

LUBBOCK DRUG COMPANY

A COMMON ERROR

The Same Mistake Is Made By Many Lubbock People.

It's a common error. To plaster the aching back. To rub with liniments, rheumatic joints.

If the trouble comes from the kidneys. It's time to use Doan's Kidney Pills. Here is convincing proof of merit. G. W. Filler, 2001 East Ave., Colorado, Tex., says: "Doan's Kidney Pills did me so much good I cannot say too much in praise of them. A couple boxes of Doan's entirely cured me of kidney trouble several years ago."

Seven Years Later, Mr. Filler said, "I don't have occasion to use Doan's any more as they gave me a permanent cure."

WOLF CLUB ORGANIZED AT BRADY TO KILL WOLVES

Brady, Aug. 8.—A wolf club has been organized here and efforts will be made to secure a large fund from which to distribute bounties for wolves and other predatory animals. One lobo ranging many sections of land ten miles east of town, has done hundreds of dollars worth of injury to the livestock interests. He has been sighted a number of times, shot at without effect, and has been unusually successful in eluding traps set for him. It is hoped to make the bounty sufficient to induce trappers and shooters to come and rid this section of these animals, said to be increasing in numbers.

Farm Bureau Cotton Brings 3c Premium Above Regular Price

How a tenant farmer of Vernon, Texas, by selling his cotton on the open market lost three cents per pound as compared with the price received by his landlord Dr. R. Crow, was brought out by J. W. L. Hall, director of the Texas Farm Bureau Cotton Association.

In relating his experiences, Mr. Crow, who lives at Edna, Texas, and whose farm is at Vernon, told Mr. Hall that his tenant sold his cotton on the Vernon market at 19c at the same time Mr. Crow shipped his one-fourth to the Farm Bureau, receiving to date, 21-25c with final settlement yet to be made, which will make a total around 22c or \$15.00 per bale more than that received by the tenant.

TO THE VOTERS OF LUBBOCK COUNTY

November 26, 1920.

Hon. J. H. Moore, County Judge, Lubbock, Texas.

Dear Sir:

The Attorney General is just in receipt of yours of the 15th inst., in which you state among other things that at the last general election C. A. Holcomb received 54 votes as Sheriff and 8 votes as Tax Collector and 1260 votes as Sheriff and Tax Collector of your county. You also state that S. C. Spikes received 1087 votes as Tax Collector.

From previous correspondence we understand that the 1910 United States census showed your county to have a population of less than 10,000. But after the primary election and before the general election, a certificate was issued by the Director of Census showing your county to have a population in excess of 10,000 inhabitants. Under these circumstances you propounded the following questions:

1.—This being the case, whose bond should the Commissioners approve for this office, and to whom should I, as County Judge, issue certificate of election for these offices?

2.—Should I issue certificate of election to C. A. Holcomb as Sheriff and Tax Collector, or should I issue certificate to him as Tax Collector? Should I issue certificate of election to S. C. Spikes as Tax Collector?

3.—In the event that bonds are presented to the court, should they approve bonds in accordance with the votes cast, or should they approve bonds as stated below.

(a) Holcomb as Sheriff and Tax Collector, or as Tax Collector, should he present a bond made out in that form; in other words could he under the present status choose which of the two offices he would assume duties?

(b) Should he approve the bond of Spikes as Tax Collector?

(c) Or should he approve all of the bonds and let the court decide which is entitled to which office?

Under the facts here stated your county was not entitled to elect or could not legally elect one and the same person the office of Sheriff and Tax Collector. There being no such office to be filled in your county by election or otherwise, at such election.

On the contrary the county was required to elect and have two different persons for these respective offices. That is, one as Sheriff and the other as Tax Collector. (State Constitution, Sec. 23, Art. 5; State Constitution Sec. 16, Art. 8; R. C. S. 1911, Arts. 7119, 7120, 7605, 7606, 7607.) Under these facts you are advised that in the opinion of the Attorney General Mr. Holcomb is entitled to the office of Sheriff of that county, and is entitled to a certificate of election to that office, and has the right to qualify as Sheriff of that county, in the manner prescribed by law, but that he is not entitled to a certificate of election to the office, nor to a certificate of election as Tax Collector, also that he has not the right to choose between these two offices, as to which he will accept. You are also advised in the opinion of the Attorney General, S. C. Spikes, is entitled to a certificate of election to the office of Tax Collector in your county, and has the right to qualify as such in the manner prescribed by law. For your fur-

ther information we are enclosing herein a copy of the opinion No. 20249, rendered by this Department September 11th, 1920, addressed to Peyton B. Randolph, and there is in which the question raised by your inquiry are discussed at some length.

Yours very truly,

W. W. CAVES, Assistant Attorney General

To The Voters of Lubbock County

Greeting:

The above and foregoing article, speaks for itself, and shows clearly that I was elected to the office of Tax Collector of this County, during the year of 1920. I was installed as Tax Collector of the County however, after a long hard-fought suit for the office was decided in my favor, and have actually had possession of said office since in April of this year.

Being a lifelong Democrat, I am naturally a candidate for re-election for a second term to the office, solely upon my own merits, and not upon the DEMERITS of some one else, and because I know that I am competent and qualified to fill the duties of the office.

At my OWN EXPENSE, I have employed a competent and reliable assistant, for NO MAN can be at the office every hour in the day, six days a week, twelve months a year, therefore the necessity of an office assistant, in order that I may give you the VERY BEST SERVICE POSSIBLE, and give it when you come for it, so that it will not be necessary for you to call a second time for the same service.

Considering the means at my command, I have contributed liberally to all worthy causes presented to me, or coming to my notice, including needy individuals, churches, schools and railroad bonuses, and only regret that I was not able to give more.

Lubbock is my future home, whether elected or defeated, and whether or not Lubbock County is the BEST COUNTY IN TEXAS, it is good enough for me, as is proven by the fact that I have lived in Lubbock continuously for 21 years, during which time I have had no desire to move away, and I hope to see Lubbock County continue to develop and come into notice and prominence more and more each and every year in the future.

I am indeed thankful to every one that voted for me during the year of 1920, and at the July Primary of this year, and believe that you will by your majority vote, nominate me again for a Second Term of office in the Second Primary Election on August 26th, and for which I shall again feel very grateful, for the office is a gift of the people and I desire to be your obedient servant for another Two Year Term, and am sincerely yours, 45-8t S. C. SPIKES.

"WHY I PUT UP WITH RATS FOR YEARS," WRITES N. WINDSOR FARMER

"Years ago I bought some rat poison, which nearly killed our fine watch dog. It so scared us that we suffered a long time with rats until my neighbor told me about RAT-SNAP. That's the sure rat killer and it cost me only \$1.25. Sold and guaranteed by Cole-Myrick Hardware & Implement Co., and City Drug Store."

A compromise is when a man agrees to let his wife have what she wants if she will shut up.

Be Independent! Own a Granary

Why risk losing the profit on your grain crop by being compelled to sell when you thresh.

You can be independent and own your own storage at the cost of a very few cents per bushel.

Get right. Build a granary. Sell your grain when the market is right. Don't be forced to sell from the machine.

Farm storage relieves you of hauling grain when you could more profitably be at work on the preparation of the ground for next season's crop.

Lumber produces ideal grain storage. We have the plans you need and just the right material to construct a granary.

THREE ADDITIONAL OIL TEST WELLS NEAR CANADIAN, TEX.

Canadian, Aug. 8.—A contract has been closed for three additional oil tests on land lying north and northeast of here, the closest well to be about 15 miles away. Contractors are H. E. Hoover, general attorney of the Panhandle-Santa Fe railroad, W. E. Meredith and others. Drilling on the Hopkins well 16 miles east will be resumed at an early date. Dan Witt and associates are blocking acreage south of town in view of drilling contracts. M. W. Rogers and associates of the Zych community in the southeast part of the county are blocking acreage.

Due to the abundance of water and prospects of a great oil field being developed in this section a large oil refinery is being promoted according to word reaching local circles.

Many Plants in Texas Poisonous Says Pathologist

Austin, Aug. 2.—The time for numerous complaints about poisons and skin irritations contracted by campers and vacationists is at hand, J. M. Cutro, plant pathologist of the department of agriculture, reports. Every summer many persons suffer from rash and other manifestations as a result of contact with poisonous plants, Mr. Cutro said, and to warn travelers about plants that thrive in Texas and are causes of such trouble, he has prepared a summary of the most common types and the nature of the irritation or poison contracted from such plants.

"Many individuals are highly susceptible to poisons and irritations as a result of contact with plants," Mr. Cutro stated, "while others are resistant and have little difficulty in this way. In some cases only contact with the plant is necessary to cause skin irritations, while with other plants, no effect is produced except when the plant is crushed. There are many and various kinds of plants that thrive in Texas which cause campers trouble. Perhaps the most common of these is the poison oak, which grows extensively over the state. Exceptional cases have been reported where the common daisy causes severe skin irritation accompanied by intense itching sensation. Nettles are also common sources of trouble.

"Pollen or the fine dust particles which fall from the flowers of plants many times cause an irritation of the mucous membrane of the eyes, nose and mouth, a trouble known as 'hay fever.' In the vicinity of Austin the pollen from cedar is in all probability the cause of 'hay fever.' Many cases of poisoning are frequently reported as the result of eating wild or ornamental plants. Among the most important of these are the following:

"The oleander shrub is a poisonous plant, often resulting from chewing twigs and leaves of the plant. Some of the privets or Ligustrums are poisonous.

"The common garden night shade, one of the most widely spread weeds, is exceedingly poisonous under some conditions. The effects depends upon the climate, soil and growing conditions. While it is used in some parts of the nation in place of spinach and the fruit as a substitute for raisins in puddings, many cases are on record showing the plant to be poisonous."

SAME OLD STORY BUT A GOOD ONE.

Mrs. Mahala Burns, Savannah, Missouri, relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux

(dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people, since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Herman Schulz of the Schulz Land Company of Abernathy, was here Saturday evening.

POST

Post City Post

Monday morning while engaged in repairing some scales Earnest Fungilli was accidentally hit on the head by a falling weight and knocked unconscious. He is doing nicely at this writing Tuesday afternoon and will soon be at his place of business again.

The Postex Ball Club went over to Crosbyton one day last week and defeated those boys by a score of 8 to 5, and Sunday afternoon repeated the dose, only made it larger when they came over here for a game. The score was 21 to 7. Our bunch is playing better ball lately. Travis Boren and Gandy did the battering work for Postex Sunday.

A Clark, who was operated on at Lubbock last Monday, is doing nicely and it is hoped that he will soon be home again. Mr. Clark had one of his eyes taken out.

About twenty-five young people attended the Lubbock District Singing Convention held in Lubbock last Sunday.

Ross Mathis got a little piece of steel in his eye last Saturday, while at work at Slaton. He came to Post and the doctor removed it. We are glad to state that his eye is doing nicely at this writing.

It is with great sorrow that we report the death of Mrs. Mittie Bell. She once lived here and was loved by all. She was a devout Christian,

lived her religion every day. She had been a widow for a number of years. Her husband died in Coleman county. She leaves three children, Mrs. Newton, Clarence and Claude Poston, and a stepson Dillard Poston, whom she loved as her son. We will miss her bright smile and cheerful words. She was an invalid for five years, but never complained always looking on the bright side. Weep not loved ones, she is at rest.

R. P. Tomlinson has resigned as keeper of the Two Draw Lake and will take charge of the Post Produce Company's dairy. Mr. Tomlinson has been a good man for Two Draw, and the patrons will regret to see him and his good wife give it up.

The directors of Garza County Fair Association met in called session last Friday and perfected arrangements for the fair this fall, which will be held in October. Are you getting ready for it? If not, why not? Garza County should have the best fair yet this fall and we can if everybody will help make it a good one. Boost the fair and get your exhibits in shape. It's only

a short time now.

Sunday night or Monday morning at about 1 o'clock the building formerly occupied by Post Athletic Club and recently occupied by Post Produce Company, was discovered to be on fire and before the fire boys could get busy, was totally destroyed. It is supposed that the fire was caused by an engine which was doing some switching near there about 12 o'clock. The building was the property of the Double U Company, and was insured. The contents, property of the Post Produce Company, was also partially insured. The building sheds and contents were totally destroyed.

QUANAH TO HAVE A NEW FIVE STAND GIN

Quanah, Aug. 8.—A car of machinery for the new Co-operative Gin Company has arrived. The new gin will be five stands of eighty saw gins. Overhauling of the other four gins here will be undertaken at once to get them in shape for the fall run.

SUMMER COLDS

usually leave a trail of weakness. Build up on **Scott's Emulsion**. It promptly, pleasantly and effectually adds strength to the body. It builds up resistance!

Scott & Bowne, Bloomfield, N. J.

SLATON

The Slatonite

On last Sunday morning before the close of church services M. M. Taylor and Mrs. Octavia Short walked to the altar and were united in marriage by Rev. Jno. P. Hardesty, who performed the ceremony in a short, but impressive manner. The bride has been a resident of Slaton for several years. The groom came here recently from Texarkana, but was formerly a resident of Slaton. The newlyweds have gone to house-keeping in South Slaton in a home that had already been prepared.

Mr. and Mrs. R. A. DeLong, son William, and Miss Flora Duncomb have returned from a six weeks' automobile trip to the Pacific coast and other points of interest. They first went to Riverside, California, where they visited Mr. DeLong's mother, who accompanied them on their return. From California they visited Old Mexico, then went up the Pacific coast, coming back by the way of Salt Lake City and Denver. They drove over 5,000 miles and report a delightful outing. Alex has some excellent fish stories to tell of his adventures in catching game fish in the mountain streams.

The Presbyterians of this community are going ahead with the proposition of getting a church home of their own for the near future. Those handling the matter have been surprised to find so many Presbyterians in this community. They hope to have their own building before the winter is over.

The Slaton Masonic Blue Lodge No. 1094 will lay the cornerstone of the new East Ward school building at 5 p. m., Monday, August 7th. The Rev. J. P. Hardesty, Moderator of the church, will officiate. The Rev. J. P. Hardesty, Moderator of the church, will officiate. The Rev. J. P. Hardesty, Moderator of the church, will officiate.

Women, Here's Your Chance to Buy

CROCKWARE

We have nearly a carload of crockware and are offering it today at the remarkably low price of

15c A GALLON

If you need crockware for milk, lard or a hundred other things buy now while these exceptional prices are in effect.

ARE YOU THINKING ABOUT A STOVE?

We invite you to compare the Buckeye line we have before you purchase. Winter is not many days ahead and you will soon be in the market and we advise you to not purchase until you have investigated the Buckeye stoves. We have them in varying sizes and prices.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone, knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

THINGS TO REMEMBER

Advertisers, contributors and all parties interested in the Avalanche please remember these things: We print the Tuesday Avalanche on Monday, press hour, 8:30 p. m. Friday Avalanche on Thursdays, press hour 3:30 p. m. Please have copy for local notices in not later than noon Mondays and Thursdays. Ad changes and copy should not be later than 8:00 a. m., Mondays and Thursdays. It takes a schedule like this to get your ads in the paper in good shape, and helps us give our readers better service, which means that the paper will be of better service to you, which we earnestly desire it to be. We do not want to be exacting but we must demand some things of you, if you expect us to come up to the notch.

ROADS TO LUBBOCK LOSE TRADE TO CITY

There is no question in our mind that Lubbock loses in the course of the year enough trade on account of the "awful" roads than it would take to keep them in good repair, besides the inconvenience and the unfavorable publicity that we get out of it. The Lynn County News contained the following editorial last week, which is a pretty good indication of how the people in that part of the county feel regarding the indifference of some of our commissioners on this important question:

"Lubbock county commissioners still refuse to fix up the highway running south out of Lubbock to the Lynn county line. The News has been reliably informed that the commissioner that has this particular stretch of highway under his jurisdiction resides in Slaton, and it is indeed doubtful if the road will ever receive attention, since he no doubt is not sufficiently interested in our section to care a great deal about the deplorable condition of the road. It is also very probable that this commissioner residing in Slaton would just a little rather traffic would be directed by Slaton than through Tahoka coming south out of Lubbock,—naturally so. There should be some means other than thru this lone commissioner to get action and have this main highway placed in proper condition. It is no uncommon thing for the traveler to remark on the splendid condition of Lynn County roads, but under existing conditions, it is hardly worth while for Lynn county to have first-class pikes when you can't get anywhere after you cross the line."

Lubbock is the principal trading point in this section of the country, and we should certainly take care of the trade. We should by all means keep every road in good condition that leads to Lubbock from every direction. Our trade comes from as far south as Lamesa and Seminole. We draw trade from way over in New Mexico, and away north of Abernathy, and to the Cap Rock to the East, and the people will come here to do their trading if the roads are anything like reasonably good. Lubbock county should certainly meet Lynn county in making the roads equally as good as their roads, which would mean much for Lubbock county in general.

A party from Abernathy was in our office a few days ago, and said that Lubbock should not ask or expect any trade from that territory until they have provided a half-way decent road to travel over. Heavy loads cannot be pulled over the roads in their present condition, and automobiles have to creep along to prevent being torn up. This is a condition that should not be tolerated. The commissioners of those precincts should certainly be given to understand that these conditions must not continue, and their utter indifference toward the roads leading to Lubbock must cease. Lubbock is losing business and the county is getting a black-eye as a result of these bad roads. Both the roads mentioned are on highways, and tourists are certainly very unfavorably impressed with Lubbock county on account of this stretch of road which is equal to almost the entire distance across the county north and south. The Chamber of Commerce, the Rotary Club, the Kiwanis Club and the Ku Klux if necessary, should get after this road situation and bring things to pass that will correct this bad condition of the roads.

ONE KIND OF DEAD BEAT

There are several kinds of deadbeats, if we are correctly informed, and one of that kind is the base ball dead beat. When the Hubbers play ball in the home park, a lot of fellows make a practice of sitting on the fence and witness the game, apparently preferring to be an ordinary dead beat, rather than to pay the price of admission, enter the park and enjoy the game with loyal citizens. It is a motly crowd that peep over the fence and through the cracks every game. Yesterday there were forty or fifty negroes and deadbeats who witnessed the game in that way and each day the crowd on the fence grows larger. We believe we are right when we say that a few automobiles and trucks have taken their position along the fence at seventy-five percent of the games that have been played, whereupon were perched from one to a half a dozen people, who would rather class themselves as deadbeats, and let the ball club foot the deficit, than to pay the admission fee. If a game is worth seeing, it is certainly worth the price of admission, and one certainly lowers themselves in the estimation of good, honest, upright, loyal citizens when they undertake to see the game in any other way than to pay the stipulated price of admission. If there is not a law to prohibit it, there should be, as the law of loyalty to home institutions do not seem to appeal to some folks who are ordinarily looked upon and respected as good citizens.

RECKLESS DRIVING

Reckless driving, and the absolute disregard for road rules has in the past been the cause of much loss of life and many injuries the past year, and bids fair to increase at an alarming rate the next twelve months, if something very radical is not done to check the present practices. No one, we judge, purposely kills anyone with their automobile, nor expects nor intends to injure anyone by fast driving, but such is being done every day somewhere in the State of Texas, and quite frequently in Lubbock, and while personal injuries do not result in many instances, property is damaged and the chance of personal injuries increased. Lubbock should by all means have a traffic cop, and one who will absolutely make people toe the line or suffer the consequences. If the speed laws are not right, the best way in the world to get them corrected is to enforce them. Public opinion will see to it that they are straightened out. With the hundreds of automobiles in operation around Lubbock and with so many of those operating them, careless about driving, people are in much danger, and we look for some very fatal accidents to happen most any time. Cars are smashed up and damaged in Lubbock most every day, and ninety-nine per cent is caused by carelessness on the part of someone. A few good stiff fines will make the average auto owner much more careful, and thereby lessen the chances for innocent parties being run down and killed or injured.

KEEP THE SCHOOL SYSTEM IN GOOD WORKING ORDER

Down Sweetwater way the people seem to be having quite a bit of trouble in school matters. The starting point of the whole thing being the defeat of the maintenance tax by the knockers and tight-wads of the city, who refused to vote enough tax to maintain the schools of that city. As a result, part of the school board gave up in despair, and quit, not feeling able to cope with the situation. Another result being that a number of their best teachers resigned their position with the school to accept positions where their salary is more certain, and the amount of wages more in keeping with the demands of the times. It is certainly a great mistake when people fail to recognize in the schools one of the greatest factors in town building, and community building than is found anywhere else. When the schools are crippled it cripples the whole machine that pulls the town building brigade. Keep the school system working good, and it will help a lot in making up for other deficiencies that might exist in a town.

BLUES! BLUES! BLUES!

This seems to be an age of the blues. How could a fellow be optimistic—never have the blues? When a fellow leaves home in the morning with the Victrola whining "Wabash Blues" meets a fellow on his way to work chopping out another strain of "Blues," get to the office and the office devil is scratching out a different variety of "blues," go to the Rotary or Kiwanis mid-day luncheon and the orchestra renders "blues" again in all the variations, back home in the evening and the player piano or the daughter is drolling out "those awful b-l-u-e-s." Go to the movies, and it is still b-l-u-e-s. Step into the ice cream parlor, and the nickle-in-the-slot machine chimes in "those whang-whang blues." Oh, it's awful! But in the face of all this a fellow should be extremely optimistic. But how in the world is a fellow going to be an optimist under such conditions. It's too much for us!

THE STRIKER'S SIDE OF THE STRIKE

In another part of this issue of the Avalanche will be found a statement from one of the high-ups in the Union, which gives their side of the question. The Avalanche is not publishing this as an argument in their favor or against the railroads, but merely to give the reading public their side of the question as they give it in their official statements. No doubt the railroads have good argument too, and there is always two sides to the question. The strike situation is getting to a point that is becoming very serious, and there should certainly be some way to bring about a peaceful settlement of the difference.

The News at Plainview tried hard to say something that would discredit the speaker who is touring the State speaking on good government and explaining the principles of the Ku Klux Klan, but failed to find anything in his speech that he could very well find fault with. Klandum may not be right, and many thousands of people believe it not right, and we have not said that it is the proper way to bring about better conditions, but we believe that we can see that its influence is having a good effect, and according to their outspoken principles, their intentions are for good, and if they can inculcate their principles into the minds of the people, they will no doubt do something worth while. There may not be need for the Klan, but the laxness of many officials has brought about the need for something along that line. Crime must cease or America is ruined.

Experts have said that West Texas is one of the best sections of the State for the production of poultry, and the South Plains is probably the best part of West Texas when it comes to raising poultry of every description. There is good profit in it too, and for that reason the South Plains people who raise poultry and have a few dairy cows, are the people who seldom have to ask the banker for financial assistance, and who increases the deposits in the bank.

The Tulia Herald last week issued a twenty-eight page "Railroad" Special Edition, which was a most creditable number. It was well gotten up, newsy and neat. It contained much valuable information about the Tulia section and the business men of the town gave the number a very liberal patronage. We congratulate the Herald on the success of the issue.

The Plainview News speaks with authority as follows: "It's hot on the Plains, but it's a darned sight hotter everywhere else. Come to the Plains." Jesse has been down in the State recently.

WHAT OTHERS SAY AND HOW THEY SAY IT

IN WEST TEXAS OUR FUTURE LIES

Representatives of all West Texas met at Brownwood Monday to discuss the problems of that section and to make plans for the year's work of the West Texas Chamber of Commerce. The fact that that body is the largest of its kind in the United States speaks volumes for the importance of West Texas and the enterprise of its people. They know that they have a great country and a big job in developing it. And they are using big and forward-looking methods.

In the Record organization the motto is "The Future of This Institution is the Future of Fort Worth and Texas and Particularly of West Texas." That is a motto that might well be adopted by every citizen and business concern of Fort Worth. The future of this community lies in the development and prosperity of the trading area which makes this city great. The fact implies both a privilege and a responsibility.

There never was a time when the feeling in West Texas was so favorable to Fort Worth. This city has demonstrated that it has no axes to grind in the West Texas Chamber of Commerce. It has always contributed liberally to the support of the organization but has never attempted to use it for selfish purposes, preferring to let its control lie in the smaller cities and communities which must be the backbone and chief support of the body.

The raising of the Fort Worth quota of membership dues to \$20,000 and possibly \$25,000 is well under way. Already \$16,500 has been subscribed. That is concrete evidence of Fort Worth's faith in West Texas and its great commercial organization. And West Texas appreciates it.

West Texas is looking to Fort Worth to lead in the building of a railroad to the plains. West Texas is looking to Fort Worth aid in the development of a statewide system of irrigation, water conservation and flood control. West Texas is looking to Fort Worth for aid in the establishment of a West Texas Agricultural and Mechanical College. West Texas is looking to Fort Worth to establish manufacturing establishments to make West Texas raw materials into finished products and ship them over our unparalleled rail outlets to the great markets of the nation. West Texas is looking to Fort Worth to enlarge its jobbing establishments and establish new ones so that West Texas can trade in a West Texas metropolis for those things not to be found in the local communities.

Fort Worth enjoys great advantages as the metropolis of West Texas. But there are responsibilities attached to that desirable status and Fort Worth cannot be too quick in meeting them.—Fort Worth Record.

REDUCE THE NEWS-PAPER POSTAL RATES

It is a matter of common agreement that the newspapers of the country are a powerful factor in education and in keeping the people informed as to political, economical health and other matters. Under the direct primary system it is doubtful whether one in ten voters would have any knowledge of the candidates and their platforms without newspapers.

Most educational institutions have a subscription from the state or large endowments raised by the people or by philanthropic reasons. It is quite the reverse with the newspaper which must pay its own way, which delivers its product to the reader at a fair price far below its cost and which devoted valuable space to every good cause without money and without price.

Further than this, the press of America is paying postal rates imposed in war-time as a revenue measure despite the fact that the newspapers were forced to carry war burdens that no other class of business was compelled to shoulder. These rates have been a heavy load to all papers and have proven fatal to hundreds of papers, large and small, as is witnessed by the great number of suspensions during the last year or two.

The Record has brought its subscription prices down so that the people may have a great and complete newspaper at the lowest possible price. But it is carrying heavy and irksome war-time postal rates which ought to be repealed by congress in the interest of the people, that there may be a wider circulation of all newspapers and better and more features.—Fort Worth Record.

Right Spirit—

After all the building that has been done, and is now under way, there are not enough dwelling houses in Lubbock to take care of the people who want a place to live.—Lubbock Avalanche.

While this condition may be unwelcome to those who are seeking homes, yet it is a mighty good sign that the times are getting better, particularly for Lubbock. This condition is true in many West Texas towns, now that crop conditions were better this spring and summer than for many years before, and it is but one of the many signs that this section of the State is coming into her own. Of course, every town wants to provide homes for all those who come to live within her domain, but it is not always possible, due to the fact that the houses cannot be built fast enough, so great is the rush. Every town likes to hear that every other town or city is prospering, that people are coming in large numbers; that many houses are being built; that crop conditions are good; and that everything is all right. That is to say, this should be the spirit of West

Punchettes

by Rev. M.A. MATTHEWS D.D. LL.D.

PRACTICAL EDUCATION

The child's brain is susceptible of the highest development, but it should be developed along the line of its inclinations and for practical purposes. If ever there was a time when sanity in education was needed, now is that time. Our schools and colleges are educating the youth of this land away from the natural tendencies and from the human instincts of well developed boys and girls.

American master mechanics, the factories of the land would have to close. The majority of the master mechanics controlling the factories today have been trained in foreign schools. There are very few apprentices. We have permitted the tyrannical labor unions of the country to destroy the school of apprentices. The idea of organizations or institutions arbitrarily saying how many apprentices they will permit to be trained! Such a tyrannical suggestion from an organization should not be permitted. Such a doctrine is a damnable curse to the manufacturing plants of this land.

The education of today seems to destroy initiative, self-reliance, courage, and a desire for self-support. The educational system of today has apparently destroyed the desire on the part of children to be contributing members of society. They seem to think that the state owes them something because it gives them a free education. There are very few boys learning to be master mechanics. The majority are trying to find an elevator by which they can ride to the top story of Success. Success was never reached by an elevator. The mountain peak of Success can be reached only by climbing over the rocks and by enduring the hardships, dangers, and difficulties.

Men of brains and money should spend their time and money and their energy in founding, erecting, and directing technological schools for the training of boys and girls in the great mechanical trades of life. There should be a great technological school in every city of this land, and our boys should be encouraged to learn trades, to master trades, and to become masters in their trades.

We have too many counter-hoppers, too many clerks, too many nonentities, and too few technically trained mechanics coming from the public schools of our country.

If the manufacturing plants of this country had to depend upon

M.A. Matthews

Poem by Uncle John

"THE UNEMPLOYED"

Each day abounds in mystery to tax the thoughtful mind, and add its bit of history in lore of human kind. Each problem up for solving demands a potent skill, and keeps the wheels revolving in life's perpetual mill.

To me, the unsolved question is ever as before; dumbfound with its ingestion—bewilders more and more. I grope amid its fastness, and tremble at its frown. I marvel at its vastness—no soul can put it down!

The question I refer to, is of the "unemployed." The ones a job is dear to—but seldom is enjoyed. They cry aloud to Vulcan, and Agricola's King—they crave to strike a welkin which never seems to ring!

My soul is wrapped in wonder.—It is, so help me Mike! I have to work like thunder—I ain't got time to strike! The ardent prayer for leisure is ever on my mind. I'd pour out all my treasure, for a job I couldn't find!

HONEY PHILOSOPHY FOR 1922

Here was young Jim Jones just went into his back garden to see how his grape vines were coming along, and every one of them was dead—not a leaf in sight. He was sure he had doped the whole thing out so he would have a wonderful grape juice crop this year. He got the finest vines, planted them with the greatest care, and then gave them a dose of manure he was sure would make them come up great. In the winter months he dug around them, and gave them more manure to keep them going through the cold spell. "Burned up," remarked old Jake when he saw them. "Ain't nothin' better'n manure, but too much kills. Plants are like humans. Grapes most of all—grow best when they have to fight, and don't get rich food too easy."

Texas, and Clip & Comment believes that it is the greater number of cases. Prejudice between cities never got anybody anywhere, and the sooner that kind of attitude is done away with, the better it will be for all concerned.—Abilene Reporter.

CRIME IN PRESS

Many times newspaper men hear the complaint that there is nothing in the paper except "crime news." A recent investigation has shown the falsity of such an assertion.

A class in journalism in a New York university measured the crime news in a large number of New York City and State newspapers. The class found that only about 4 per cent of the space in New York City newspapers was devoted to crime news.

The percentage in the smaller city dailies was only 2 to 3 percent. It is a good thing for journalism that some of the lies about it are nulled. The next time you think that your newspaper has too much crime news, just compare the inches with the total news space in the publication. The record won't be near so bad as you believe it is.—Amarillo News.

The problems of the poor consumptive are his; the problems of the consumptive poor are ours.

THE LUBBOCK AVALANCHE

Evangelist Arceneaux Preaching to Large Crowds at Community Tabernacle Each Evening, Good Morning Crowds

At the Monday night service Evangelist Arceneaux spoke concerning "The Mysteries of the Bible." The text was Deut. 29:29—"The secret things belong unto the Lord our God: but those things which are revealed belong unto us and to our children for ever, that we may do all the words of this law."

From the address the reporter gleaned the following thoughts being substantially as spoken by Rev. Arceneaux.

The Bible must be comprehensible else it would not be revelation. The mysteries may all be understood though possibly no one person may understand them all. One learns more and as he lives to study the Bible. What is a mystery to one, may not be to another. That which is a mystery in one age may be well known in another.

All things come under one of two classes, "Secret Things," or "Revealed Things." The things of the Bible are "revealed things." The Christ promises that "If any man will do his will, he shall know of the doctrine whether it shall be of God or whether I speak of myself"—Jno. 7:17. To desire to know God's will, and not to desire to do it, will bring sorrow in the future.

Morbid curiosity often leads to an effort to learn the secret things. People ask such questions not to learn that they may obey God, but to satisfy their own prying curiosity. The frame of mind that pleases God is that of desiring to know the revealed things that one may do the will of God intelligently.

An objection often urged against the Bible is that it contains accounts of miracles, and they are "impossible," but as Paul says, "why should it be thought a thing incredible with you that God should raise the dead?"—Acts 26:8. Things impossible for man are possible for God. Unless a man is an atheist, it is unreasonable to object to miracles. The infidel makes his ignorance the major premise from which to draw a conclusion that the Bible is untrue. The fact that one does not believe in miracles proves nothing as to their possibility.

Others object to the account of Jonah and the fish, the miracle of the water being made wine, and the feeding of the multitude with the few loaves and fishes. He who was the creator could easily "prepare a fish" that could swallow Jonah. His divine Son could as easily have done the other miracles. The creator multiplies the melon seed four hundred thousand times, in growing the melon, then why doubt the power of the Son of God to multiply the loaves and fishes?

In Eph. 3:1-3, Paul tells of a mystery that was "made known." In Rom. 16:25-26, he says it was made known for obedience to the faith. This revelation was made to God's New Testament Apostles and Prophets for the world.

Another reference to the mystery of the gospel and its revelation is found in 1 Cor. 2:7-16. Here the Apostle is showing, as in Eph. 3:1-3, that God reveals his mysteries, not to natural men, but to supernatural men. Those supernatural Apostles and prophets were those through whom God made revelations. One of the most hurtful theories taught today contends that a man must be inspired to understand the word of God. The great revelation concerning history made through Daniel to Nebuchadnezzar, and other Old Testament accounts, illustrate and explain what Paul meant by saying the "Natural man receiveth not the things of God." God reveals them to supernaturally inspired men, to Apostles and prophets.

There is no mystery connected with what Jesus says about being saved. It is very simply said in Mark 16:16-18, Matt. 28:19, and other passages, these "revealed things" are for us and our children that we may do the will of God.

Tuesday evening Evangelist Arceneaux delivered a very able sermon on "The Wonderful Preservation of the Word of God." In his remarks he said that since about the time of the Nicene Council, A. D. 325, the New Testament has been well known in Greek and Latin and Syriac manuscripts that have been translated into every language. Before the year A. D. 350, the entire New Testament could have been gleaned from the writings of the Anti-Nicene fathers, Eusebius, Origen, Polycarp, Tertullian, John and others were acquainted with the New Testament just as we know it. There was no period during which the New Testament could have been written except during the first century. The Roman conquest and de-

struction of Jerusalem A. D. 70, so changed customs and destroyed the Jewish atmosphere that would have been impossible for the books to have been written then.

If the character of Christ is a fiction, then its creation was the greatest of miracles. The New Testament account fits so accurately with every known fact of history that it could not have been written at any other time than the first century. From what is known of the New Testament writers they had ample opportunities to know the things they narrate. Their martyrdom proves their honesty, and we must accept the testimony of such men.

The difference between the Catholic Old Testament and that of Protestants is not hard to settle, for the Jews to whom the Old Testament was given all acknowledge the protestant list of Old Testament books. Their Septuagint versions contain them all.

Large and interested audiences are hearing Mr. Arceneaux at each service. Fifteen have been added to the church up to date.

S. A. Ribble, Reporter.

SLIDE NEWS ITEMS OF THE PAST WEEK

Rain! rain! It has rained every first Sunday for the past four months. We had about 2 1/2 or 3 inches of rain Sunday night. It came just at the right time, as all the crops were very badly in need of rain.

Mr. J. W. Moore and wife, Sam Moore, J. B. Stanford and family and Andy Moore and family, were in Mexico the latter part of last week visiting relatives and prospecting.

Mrs. Lonnie Williams and children are at Seymour, visiting relatives for a few weeks.

Mr. J. C. Staggis left the latter part of the week for his father's home. His father is reported very low.

Mr. J. H. Cooke and family, of Knox county, visited at the home of R. W. Harrist and family, Friday night and Saturday.

W. L. Smith and family, and Mr. Horace Felder, from Post City, spent Sunday at the home of T. J. Davis.

Herschel Davis spent from Friday until Sunday, with Ewell Johnston.

Mr. Clarence Farris spent Saturday night and Sunday with Cleburne Staggis.

There was a singing given at the home of Mr. L. T. Harris last Sunday night. On account of the rain there was not a very large crowd, but all present report a good time.

Mr. R. A. Wisener and niece, attended services at New Home Sunday night.

Born, to Mr. and Mrs. Hubert Blair, a fine boy on August 3. Mother and babe are doing nicely at this writing.

Several in the community attended church at Woodrow Saturday night.

Mr. C. L. Reiger and family, spent Sunday with Hayden Bateman and family.

Messrs. J. C. Stanford and Jim Mabray vaccinated their cows and calves last Saturday at the old Reiger ranch place.

Mr. R. A. Wisener started a singing school over at New Hope Monday morning. It is not known how long it will last, but we wish Mr. Wisener success with the school.

Herschel Davis went to Lubbock last Monday.

Mr. Harrist and family visited relatives near Slaton Sunday.

Mr. Madden spent one night the first part of the week, at the home of R. W. Harrist.

Mr. J. B. Rieger and family, from Slaton, were transacting business in the community Monday.

Mr. J. M. Staggis and family, from Plains, and Mrs. Wade, came in Monday to visit Mr. Stanford's brother, J. C. Stanford and family.

Mrs. H. T. Bateman and little daughter Mydonna, went to town Monday to visit relatives for a few days.

Mrs. Jim Mabray and son Bill, went to town Monday and Mrs. Mabray's granddaughter came home with them to visit for a few days.

Messrs. Hugh Greer and Harvie Smith, from Post City, visited at the Davis home the past week.

The Pretty, New Stetson Hats for FALL are Here

In our new stock you will find a variety of shapes and colors to select from.

The proof of the value of the Stetson is the satisfaction it gives.

We will be glad for you to come in and inspect the extra values we have.

Some News Items From Muleshoe Community

Miss Irene Anderson is leaving this week for Seagraves, Texas, to visit her uncle.

The first week of the revival meeting being held here by Rev. Florence of Bovina, has been attended by many Bailey county folks. This week meetings will be held morning and night.

Nick Mathewson was in Clovis Saturday on business.

Mr. and Mrs. Jas. H. Sweet will entertain the young folks of the Liberty Sunday School next Saturday night.

E. C. Eubanks and J. L. Taylor were in Clovis last week on business.

Mrs. L. E. Wiggins and daughter, Miss Lena, left this week for Kentucky to visit relatives. They will be gone about a month.

Chas. K. Warren of Three Oaks, Michigan, who is co-owner of the U-Bar ranch and other ranches in New Mexico, left here Monday for his home. He has been here about two weeks overseeing the branding of their cattle.

The Sunday School picnic which was held in E. R. Hart's grove about a mile north of here, was attended by many Bailey county people and quite a number from the neighboring counties. A basket dinner was given and everyone reports plenty to eat and a good time.

Judge R. J. Klump has been advised by the Attorney General that the \$16,000 school bonds for Muleshoe have been approved and construction of the building will start in the very near future.

J. L. Taylor made a visit to Canyon Saturday evening returning Sunday.

G. P. Kuykendall of Clovis, was a visitor in Muleshoe and vicinity Sunday.

Henry King has just finished threshing his wheat, and it threshed twenty bushels per acre and tested 64 pounds to the bushel.

H. M. Packard of Spring Lake, was a visitor in Muleshoe Monday.

STOP! Let us tighten the spokes in the squeaking wheel. We can do it quickly and the cost is little.

Seitz Filling Station.

in a forceful manner. Claude Womack, of Colorado, is leading the song service. He is at home with that work. The people seem to be in earnest about the work and much good is being accomplished.

Friday morning about ten o'clock Leon, the son of Mr. and Mrs. O. O. Love, fell from the railroad tank and broke both collar bones loose from the sternum bone. He, with some other children, drove their burro to the tank and were climbing about on it, when his footing missed and he fell with the above results. He was unconscious for a while but his companions bathed his face with water and soon he regained himself. Dr. Hughes was summoned and bound up the wounds.

CARLISLE NEWS ITEMS OF THE PAST WEEK

The Baptist meeting started last Wednesday. Bro. Tennyson has preached some good sermons. Everybody come and help.

Miss Elsie Mae Ray spent Friday with Miss Juanita Bush.

Mr. Turner and family, of near town, spent Saturday night and Sunday night in the Moon home.

Mr. Jim King and family, of Monroe, attended church here Sunday and took dinner in the Ray home.

Mr. Worden and family, of San Angelo, are visiting the F. A. Sims home this week.

Mr. Howe and Miss Elizabeth Jones, spent Saturday afternoon in the Ray home.

Misses Ona Ray and Jewell Moon spent Saturday with Miss Eloise Jones.

Misses Artie Bond, Thelma Hinson, Marie Coffey and Nell Hawkins attended the slumber party given by Misses Bess and Ted Sims Saturday night.

Misses Florence and Thelma Smart spent Sunday night with Miss Elsie Hamner.

Mr. Cecil Collins spent Saturday night with Mr. Glenn Jerden.

Miss Elsie Hamner and Mr. Prentiss Jerden, spent Monday with Carl and Ona Ray.

Mr. and Mrs. W. B. Ray and little children, spent Monday in the Rollins home.

Mr. Max Brownlee spent Saturday night, Sunday and Sunday night with Messrs. Prentiss and Sterling Jerden.

Mr. and Mrs. Spence and children, of Idalou, are visiting their sisters, Messdames W. A. Price and Mrs. Turnell, this week.

Misses Opal Burroughs, Artie Bond, Marie Coffey, Bernice Casey, Thelma Hinson, and Messdames Coffey and Sims, and Messrs. Ragen and Baron Coffey, Newman Casey, Walter Willingham, Orval Burroughs and Sims were dinner guests in the Sims home Sunday.

We certainly did appreciate the fine rain that fell Sunday night.

Misses Elsie Mae Ray, Mae Etta Rollins, Stella Altman and Elizabeth Jones, spent Monday in the H. H. Guinn, Jr., home.

Mr. Everett Price spent Sunday night in the Jerden home.

Mr. J. E. Hinson is on the sick list this week.

Miss Elsie Hamner spent Tuesday night with Misses Thelma and Florence Smart.

Miss Ona Ray spent Tuesday with the Wiggins family.

Mr. Loraine Hinson spent Tuesday with Mr. Carl Ray.

LOCAL NEWS ITEMS FROM THE ROARING SPRINGS RECORD

Wednesday morning about nine o'clock the fire alarm was given in our town and it seemed the whole east end of Broadway was in flames. The Tailor department belonging to R. P. Ivey was entirely enveloped in flames before water could reach it. The fire department did quick work and within two minutes after the alarm was given the boys were busy and soon the flames were brought within control. The Ivey Tailor Shop, the City Meat Market and the household goods of Mr. Vance suffered a great damage. The building of the meat market was not much damaged, but the entire stock of meats was a complete loss. The origin of the fire is not known, Mr. Ivey had just left his business and walked to Womack's store, one block west, and looked back to find his business in flames. How the ignition was caused no one knows. It was lucky that the water supply was sufficient. We have had a shortage of water lately as the drought has caused much irrigation in the gardens. If the water had been exhausted at this time our entire town would have gone up in the conflagration. We hope the people will be conservative with the water in the future. Better do not vent any danger of fire. Better do without a garden rather than lose a business.

The meeting under the direction of the Methodist church which began here, July 23, is still in progress. The interest is growing and the attendance is good. Rev. D. B. Doak, pastor of the First Church at Sweetwater is doing the preaching and is bringing the people some great messages. Rev. Doak is a fine speaker and drives his points

PUBLIC OPINION

In the run-off primary election now pending in Texas, the main issues between the opposing candidates are: One side stands for, or neutral as to the Ku Klux Klan, for prohibition and open shops.

The other side stands against the Klan, prohibition and for closed shops. I am for prohibition, because it is the best for poor old human nature. I am opposed to closed shops because I think it is wrong and unlawful. Any man or number of men have a lawful right to quit work, but no man or set of men have a legal or moral right, by force or intimidation to keep other men from working.

As to the Klan, I am neutral, and as I now feel don't think I have to take any side to keep my cool.

GEO. L. BEATTY.
Lubbock, Texas.

Mrs. W. B. Norman, of the Monroe community, is in a local sanitarium for medical treatment. Her many friends are eagerly awaiting her return to normal health, that she may be able to return to her home.

Mr. Loice Rankin, of Lamesa, left a local sanitarium Tuesday, after several days here, having undergone an operation.

Farm Bureau Will Sign Up About A Million Bales and the First Advance Will Be \$50 Per Bale—Want Warehouse

Dallas, Texas, Aug. 8.—Having done \$8,777,799.12 worth of business in its first year the Texas Farm Bureau Cotton Association decided here at a statewide convention of 300 cotton farmers to put on a membership campaign to sign up 1,000,000 bales of cotton. The campaign is to start on August 7 in South Texas and move north to the border, taking as much time as is necessary.

was made amidst much enthusiasm after a two day session during which farmers from all parts of Texas investigated the workings of the first year of their cotton association. President John T. Orr and the board of 21 directors, all of whom are dirt farmers living and working on farms, outlined plans for more growth of the Texas Farm Bureau Cotton Association.

Secretary J. W. L. Hall of New Boston, says that the campaign will

depend very much on local support so as to keep down expenses. An advance of \$50.00 a bale will be made when bank draft is attached to the bill of lading. Another check will be sent the farmer as soon as his cotton is classed.

The Texas Farm Bureau Cotton Association was organized September 1, 1921, receiving its first cotton one week later. Texas was one of the first states to market cotton co-operatively, the others being Oklahoma, Arizona, Mississippi, Arkansas, Georgia, North Carolina, S. Carolina and Alabama. Texas, however, signed less than 20 per cent of its cotton, or 600,000 bales.

Starting with no friends, the young organization now numbers among its supporters the War Finance Corporation, the Federal Reserve Bank, many leading local banks, A. & M. College of Texas, and many newspapers. Large quarters have been rented, the clerical force has been improved and increased. A field service under Mr. Hall will be maintained permanently for the information, aid and service of its members. An expert corps of cotton classifiers have been employed. Relations have been established with cotton co-operatives of other states through the American Cotton Growers Exchange. Very advantageous contracts have been secured for the handling and storing of cotton. Financial arrangements have been made which include banks' acceptances some of which last year were made as low as 4 per cent. A loan up to \$9,000,000 has been negotiated with the War Finance Corporation at a low rate. This was all asked for. E. F. Florence, vice president of the Republic National Bank of Dallas, says that the Association's finances are so sound that the Texas Farm Bureau Cotton Association can command enough money to finance every bale of cotton in America.

An Egg Laying Contest Inaugurated At Rotan Oct. 15th

Rotan, Aug. 8.—October 15 will witness the inauguration of the first West Texas Egg Laying Contest and it will be staged over a period of one year. According to Supt. B. W. Eaton, indications are excellent for one hundred hens to be entered, and prospects are that West Texas will be well represented. The period of one year for the contest will make an official year's test for hens in the contest. The rules are practically identical with those of other contests in which hens are entered for a year. The contest is promoted by the local Chamber of Commerce with the assistance and support of the A. & M. College and West Texas Chamber of Commerce.

The first unit of the equipment consisting of an attractive concrete poultry house surrounded by substantial iron and steel fences is complete, which, when needed, will be augmented by other units.

J. D. Cohn, president of the local chamber of commerce, declares the contest is an outgrowth of the rapidly growing interest in the poultry industry in this section. Its purposes, he explained, are to encourage the industry to develop along proper lines by centering interest on high production as a necessary quality of a useful hen.

OFFICIAL RESULTS OF THE PRIMARY ELECTION JULY 22

Representative 119th District: R. A. Baldwin 362; Chas. W. Roberts 338.

County Judge: D. J. Broughton 798.

County Attorney: R. L. Graves 24; Geo. W. Neill 480.

County and District Clerk: H. R. Winston 805.

Sheriff and Tax Collector: Wood E. Johnson 751.

Tax Assessor: W. R. Bridges 113; R. W. Glover 145; J. C. Green 279; Mrs. Munford Smith 273.

Hall's Family Pills for constipation.

COMPRESS AND WAREHOUSE BEING BUILT AT PADUCAH

Paducah, Aug. 2.—The West Texas Compress and Warehouse Company's cotton compress and warehouse is well under way. This will be a modern plant in every detail and one of the best in this part of the State.

Greenwood & Phillips of Greenville and Athens are the owners of the same. Some hot winds are being experienced in this part of the State just at this time, yet a good cotton crop is expected, as there is estimated to be 100,000 acres planted to cotton in this county, with an estimated crop of 30,000 to 40,000 bales.

COLORADO METHODISTS TO ADOPT TITHING PLAN

Colorado, Aug. 8.—The Colorado Methodist church has adopted the Bible method of financial support following the visit of Evangelist O. F. Zimmerman. The membership took the tithing pledge. Stewards will not longer collect sums for the salary of the pastor, but tithing funds will be distributed among the several needs. This is the sixtieth Methodist church in Texas to adopt the tithing system of support, other towns in this section which have already become tithing churches being Sweetwater and Snyder.

HOT WEATHER DISEASES

Disorders of the bowels are extremely dangerous, particularly during the hot weather of the summer months, and in order to protect yourself and family against a sudden attack, get a bottle of Chamberlain's Colic and Diarrhoea Remedy. It can be depended upon. Many have testified to its excellence.

WINS FIRST PLACE FOR STOCK JUDGING

Cherokee, August 4.—County Agent Roy W. Hendrix returned this week from College Station, where he attended the A. & M. Summer Short Course, and was winner of the first place in this district in the stock judging contest, and of second place in the state.

Miss Fannie Richmond, our county demonstration agent, and the young ladies who accompanied her to the A. & M. Summer Short Course have also returned to this county.

HODGE BROS.

In the congressional and representative races, the complete unofficial returns show the following results in the Panhandle and Plains sections of Texas:

Representative
11th District—Place I. E. P. Gibson, Wichita Falls, nominated. Place 2, D. Avis and J. D. Parnell, opponents in run-off.
112th District—Ceil Storey, Vernon, nominated. Unopposed.
113th District—C. L. Martin, Baylor County, nominated.
114th District—E. L. Covey, Goree, nominated.
115th District—C. H. Rowland, Anson, nominated.
116th District—W. P. Green, Abilene, nominated.
117th District—R. M. Chitwood, Sweetwater, nominated. Unopposed.
118th District—J. A. Merritt, of Snyder, nominated.

119th District—R. A. Baldwin, of Slaton, nominated.
120th District—B. W. Mathes, of Plainview, nominated.
121st District—S. A. Bryant, Memphis, nominated.
122nd District—Dewey Young, of Wellington, nominated.
123rd District—Lee Satterwhie, of Panhandle, nominated. Unopposed.
124th District—L. Ashby, Dalhart and J. L. Jennings, Canadian, opponents in run-off.

Congressional
There were eleven contested races for Congress in the July primary. The final results were:

First District—Eugene Black, incumbent, received 18,038 votes and Cyclone Davis, 17,632. Majority for Black 406.
Second District—John C. Box, incumbent, received 18,861; John C. Burns 11,972; I. D. Fairchild 8,288; George F. Oliver 2,442. Burns has decided not to be a candidate in the run-off, which gives the nomination to Box.
Fourth District—Sam Rayburn, incumbent, received 18,122; Ed Westbrook 16,833. Rayburn's majority 1,284.
Fifth District—Hatton W. Sumners received 28,243. L. M. Balow 6,469. Sumners' majority was 21,774.
Sixth District—D. E. Garrett, incumbent, received 20,548; J. F. Maddox 3,863. C. A. Murphy 7,372. Garrett's majority 9,313.
Ninth District—J. J. Mansfield, incumbent, received 8,019; W. M. Fly 6,206; I. W. Griffen 3,357; W. S. Holman 2,429; Mrs. F. M. B. Hughes 1,447; G. J. Schleicher 4,508. Mr. Fly has announced that he does not intend to be a candidate in the run-off, which gives the nomination to Mansfield.
Eleventh District—Tom Connally, incumbent, received 25,984 and W. D. Lewis 5,326. Connally's majority 20,658.
Thirteenth District—Gunn Williams, incumbent, 28,415; R. V. Bell 3,434. Williams' majority 24,981.
Fourteenth District—Carlos Bee, 7,008; John H. Cunningham 13,004; Harry Hertzberg 12,532; W. D. Glover 202; S. D. Hopkins 875; James A. Harley 2,622. Cunningham and Hertzberg will go into the run-off primary August 26. The district is now represented by Harry Wurzbach, Republican. The vote for this district is incomplete, Kendall county being missing.
Fifteenth District—John N. Garner, incumbent, received 9,979 and John T. Briscoe 5,862. Garner's majority 3,117. No returns from McMullen county.
Seventeenth District—Thomas L. Blanton, incumbent, received 24,774; Oscar Callaway 10,437; W. J. Cunningham 9,338; J. B. Dibrell 5,142; N. S. Holland of Anson, 544. Blanton and Callaway will be opponents in the run-off primary.
The following candidates for Congress were nominated without opposition: Third District, M. G. Sanders; Sixth District, Luther A. Johnson; Seventh District, Clay Stone Briggs; Tenth District, J. P. Buchanan; Twelfth District, Fritz G. Lanham; Sixteenth District, Claude Hudspeth; Eighteenth District, Marvin Jones.

Vote for S. M. N. Marrs, the peoples candidate for State Superintendent of Education. 47-2.

CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose may Salivate, Shock Liver or Attack Your Bones.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 10-20

A PIONEER WEST TEXAS DRUG MAN DIES AT STAMFORD

Stamford, Aug. 1.—J. S. Donaldson, 89, pioneer and senior member of the firm of Central West Drug Company, died yesterday and was buried today.

He came to Midland in 1905 and to Stamford in 1911, after a 52-years residence in Ladonia. In 1884 he was married to Elizabeth Wynn to which union ten children were born, five surviving—three sons, G. W., of Dallas, J. E., of Stamford, and Will T., of Achilles, Okla.; and two daughters, Miss Lude and Mrs. L. M. Jones, Stamford.

MR. VAUGHN, FARMER, TELLS HOW HE LOST ALL HIS PRIZE SEED CORN

"Some time ago sent away for some pedigreed seed corn. Put it in a gunny sack and hung it on a rope suspended from the roof. Rats got it all—how beats me, but they did because I got 5 dead whoppers in the morning after trying RAT-SNAP." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Cole-Myrick Hardware & Implement Co., and City Drug Store.

NEW PRODUCE HOUSE OPENED AT VERNON

Vernon, Aug. 8.—G. P. Foster & Company have opened two produce houses in this section recently, one here and the other at Chillicothe. It is understood that they will open a string of nine houses shortly in Texas and Oklahoma. They succeed the White Produce Company in this section. J. B. Jones of Durant, Oklahoma, is superintendent of the houses west of Wichita Falls.

ABERNATHY NEWS

FROM THE REVIEW

A very quiet wedding took place last Sunday afternoon when Miss Edith Crow was united in marriage to Henry Harrol by Rev. J. T. Howell. The ceremony took place at the bride's home in the presence of a few friends and the immediate families of the bride and groom. Miss Crow is the youngest daughter of Mr. and Mrs. J. T. Crow and a very attractive and accomplished young lady, with many friends in the neighborhood in which she lives and a large number in Abernathy, where she graduated from the high school last year.

Mr. Harrol is the oldest son of W. A. Harrol one of our substantial citizens. He is a young man of irrefragable character and stands high in this community with many friends who wish for him and his new bride a happy home. The young couple left immediately after the ceremony for a week's travel before settling down in the love nest that the groom has prepared for the little wife.

Rev. J. H. Gossner, Lutheran minister from Kress, preached a very interesting sermon Sunday afternoon to a good sized audience. His sermon was well delivered and interesting from first to last. The members of his church here have arranged for him to preach in Abernathy two Sundays out of each month. We also understand that the members will, in the near future, build a church for the congregation to worship in. This can be done if a suitable lot can be secured. This church we understand, has a church fund to loan to the members for building churches where it is needed and where they can furnish a lot.

Plainview is making arrangements for a very creditable fair the last three days in September. It is to be an exhibit of various kinds of farm products, livestock and style show. The agricultural display, the style show and merchant's stalls will be held in the auditorium, while the stock show will be held just across from the auditorium where pens will be provided for all stock that will be on exhibit. It is planned to have a musical festival with radio concerts in the auditorium and many other attractions will be secured to bring large crowds to the capital city from all parts of the country.

S. W. Smith, secretary of the school board, is in receipt of a letter from Miss Audrey Criswell, tendering her resignation as one of the teachers in the school here for this term. She gives as her reason that her mother is in bad health and feels that it is her duty to remain at home with her. Her place will be filled by Miss Gladys Pickens of Mullins, Texas, a friend of Miss McDonalds and who comes well recommended as a teacher of wide experience in school work.

The Methodist revival that has been going on at the tabernacle here for the past two weeks, closed Sunday after a very successful meeting. There were some conversions and a number united themselves with the church during the meeting. Rev. Howell preached some fine sermons during this revival and the seeds sown will spring up and cause many to pause and think of their waywardness in their present and future life.

The coal dealers of Abernathy are not lagging in getting in their winter supply of coal for their customers and it is being taken out about as fast as it arrives. Several are taking advantage of this opportunity and laying in their winter

fuel while it is to be had. Should the strike continue much longer, there might be a coal famine in Abernathy.

The Review is in receipt of a weekly publication printed at Rowena, Texas, with the name of Rob. E. Downey at its mast head as owner. It will be remembered that Mr. Downey once published the Abernathy Breeze at this place which was an up-to-date, breezy weekly. The paper he is now publishing at Rowena has the ear marks of Downey's old time breeziness of a regular newspaper.

Robert Robertson, brother of Mrs. George Ragland, is here for a few days visit. Mr. Robertson has been attending the State Normal at Fayetteville, Ark., and is now on his vacation. He will return in September to Fort Smith where he will take the position as English teacher and foot ball coach in the University at that place.

C. B. Gray returned Monday from a three weeks' trip to his old home in Washington where he has been on a visit to his family. Mr. Gray has considerable interest in and near Abernathy and spends considerable of his time here. He says conditions in that country are not as good as he has seen them—needing rain there as they do here, and elsewhere.

Prof. Cooper and family arrived last week from Canyon, and we learn have rented Mrs. Legg's home for the winter. Mrs. Legg, who is now on a visit to her father, will, on her return home, move to Plainview where she will make her home during her tenure of office as county superintendent.

Considerable speculation as to the outcome of the senatorial run-off on the 26th between Mayfield and Ferguson. Some claim a victory for one and some for the other. Our guess is that Mayfield will have a majority of about 60,000. While he is not our choice, but between the two evils we take the lesser.

C. G. Goodman returned from his ranch in Terry county Tuesday after spending a few days there inspecting conditions of things. In speaking of rains Mr. Goodman says that light showers extended all the way south as far as he went but were very light and done but little good in the way of stock water and to the grass.

Rev. J. T. Howell began a meeting at the Lake Side school house last Sunday, assisted by Rev. Davis. From reports coming in from there, the meeting is proving a great success and some very interesting sermons are being preached by both ministers. Much good is expected to come from this revival.

Rev. J. W. Cone and wife came in Monday from their home in Burlington, Kan., and is spending a few days in Abernathy looking after real estate that Mr. Cone recently bought three miles northwest of town. Mr. and Mrs. Cone are very well pleased with this country and especially with their recent purchase.

The editor, in company with Messrs. Falmot, Schulz and Gilbert, made a short business trip to Lubbock Tuesday and incidentally took in the ball game between Lubbock and Abilene, and also placed a large order for gin supplies and blanks for both of the Abernathy gins.

Last week W. E. Bledsoe placed an advertisement in the Review to be run two weeks want a man and wife on his ranch. After the paper was out two days, we got notice to stop the ad as the place had been filled and was not necessary to run longer. It pays to advertise.

F. P. Scott and son were in Abernathy Friday from Berleson county, prospecting on the South Plains. They have travelled over a great deal of the country but are better pleased with this immediate section than any other part of the Plains.

J. M. Williams and his three sons, Grady, Earnest and Bryant, left last week for Northeastern New Mexico on a prospecting trip. If they find something to suit they will probably locate.

T. B. Stone has been busy the past two weeks overhauling and putting into first class shape, his gin, preparing for the ginning season which will begin about the first of October.

Alven Crow and family from Slaton, brother of E. E. Crow, spent Sunday here and attended the wedding of their sister Miss Edith Crow who was married Sunday afternoon to Henry Howell.

C. J. Falmot has his gin building about complete and will be ready for the machinery, which is expected any day. On its arrival the work of installing it will begin and will

have everything in readiness for this season's cotton crop.

Rev. J. T. Howell began a protracted meeting at the Lake Side school house last Sunday night. The meeting will last one week and maybe longer.

Charlie Daniels and family are here from their home in Wellington, visiting their parents Mr. and Mrs. J. N. Daniels.

Mrs. Ola Legg and son Eugene, left Monday morning for a few weeks' visit to Mrs. Legg's father who lives near Dublin, Texas.

Mrs. J. M. Fitzgerald and family are visiting her parents this week at Plainview where they have moved recently from Siloam Springs, Ark.

Mr. and Mrs. W. M. Simpson, parents of Mrs. E. E. Crow, left Sunday for their home in Blanket, after a few days visit here.

Will Pearce and family left Monday for Fort Worth where they will make their future home.

Miss Pearl Robinson of Lubbock visited at the home of her sister, Mrs. Fitzgerald Friday and Saturday.

Charlie Williams made a business trip to Lubbock Monday.

M. Z. Holland was a business visitor to Plainview Monday.

Chas. Schler of Petersburg, and Miss Constance Iverson of near Abernathy were guests of Miss Grace Evans Sunday.

Rev. and Mrs. J. H. Hunt left last Thursday for Canyon where they will attend the Baptist Encampment, after which they will go to Las Vegas, N. M., for a few weeks outing in the mountains of that locality.

Mrs. Minnie Lee Hester returned to her home at Plainview Monday after spending several days in Abernathy visiting friends.

Miss N. O. Arnold was in town Saturday getting prices on lumber and building material for a new home to be built on their block of land in the south part of town. They expect to start operations on their new home at an early date.

J. L. Crow of Plainview is visiting relatives here this week.

Aubrey Hardesty was a Lubbock visitor Tuesday.

E. P. Crow left last week for a few days visit with his son and friends in Brownwood.

Mrs. J. R. Harrol and daughter, Miss Wilma, accompanied by Miss Wilma Finch, attended the Baptist Encampment at Canyon the past week.

RALLS

Ralls Banner

Miss Bess Johnson has returned from a sanitarium at Lubbock, and she and her mother are nicely domiciled in one of the Hinson houses.

Albert Lockwood has returned from the Lubbock Sanitarium where he has been during the past few weeks under treatment for appendicitis. The banner is glad to note that he is much improved.

We are informed that there is hog cholera on the farms of Mr. Clark and Mr. Strange. We understand that these gentlemen have already had several valuable hogs. As soon as the disease broke out County Agent Jackson telegraphed to Austin for an expert in treating the disease. He arrived Thursday morning, we do not apprehend any trouble from the epidemic.

Miss Edna Birch, sister of Mrs. C. E. Dean, left Thursday after an extended visit in Ralls for White Deer, to visit another sister, Mrs. Lyles. Mrs. J. Edd McLaughlin and Mrs. Dean accompanied her to Lubbock.

We are requested to announce that Elder Chester A. Stell will commence a revival meeting at the Church of Christ on Saturday before the first Sunday in August. Everybody cordially invited to attend. Elder Stell comes well recommended as an able expounder of the golden truths.

It is generally known, now, that Troy Morris and Miss Irene Dean are married. In fact, they have been married about two months, but in some way managed to keep it a secret until last Saturday, when seeing that there was about to be a revelation of same, they hurriedly boarded a car and made their way to Jayton, where they visited friends until Monday, when they returned home, and are now receiving the congratulations of their many friends.

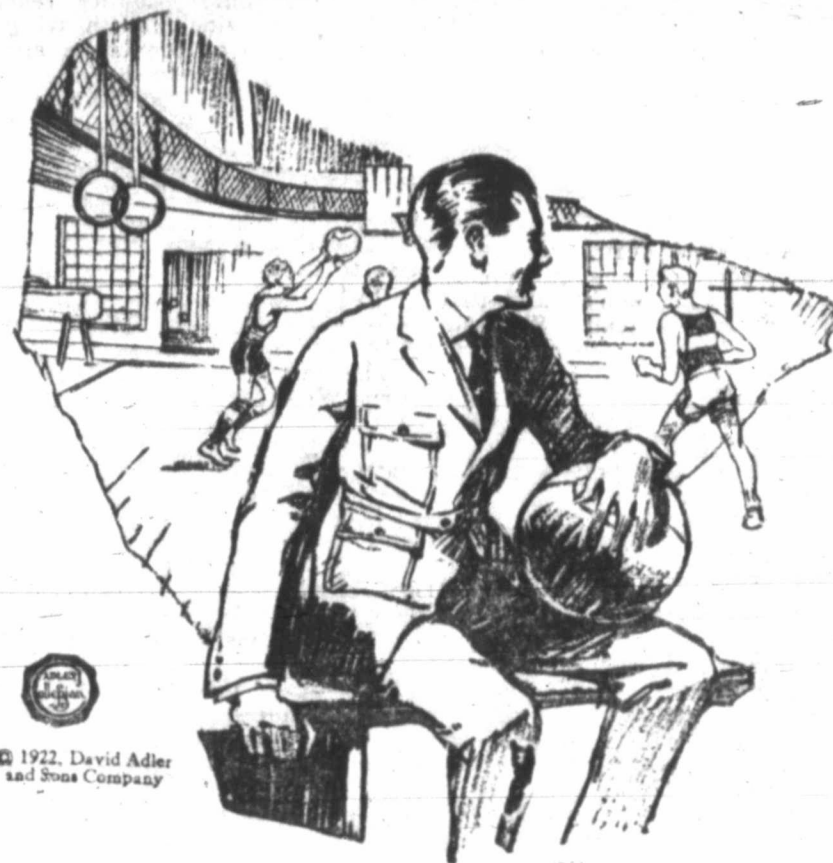

Mrs. J. H. Webster, who has been quite sick for some time, has been growing gradually worse for quite a while, and last week it was decided to take her to the Lubbock Sanitarium for treatment, and such was done. At this writing, we are not informed just how she is, but hope she is better.

Mr. Igo and family were here during the week from La Grange visiting at the home of Mrs. Igo's parents, Mr. and Mrs. G. Sherrod. Mr. Igo reports crop conditions in his section about like they are here, with the exception of corn, which he says will average about 35 bushels to the acre. However, more rain has been general in his section than has in ours, which, of course has given greater zest to the work of the boll weevil.

In commissioners precinct No. 1 Early Long received 381 votes and E. F. McElroy 395, giving Mr. Long the nomination by a majority of 46 votes. Precinct 2, Crosbyton, nominated Ondy Wooten by a majority of 21. In precinct No. 3, (Cone) Leslie Ellis was nominated by a majority of three votes. Roy Terrell had no opposition in Precinct 4, and received 133 votes. In Precinct 1, W. A. Townsend was nominated by a majority of three votes. In the Crosbyton precinct N. W. Landers was nominated over Leslie Edwards by a considerable majority.

The Baptist revival meeting closed Sunday night. Ninety-nine conversions and many restorations, 73 additions to church, 50 for baptism, 23 by letter. Many say this was one of the greatest and most far reaching meetings Ralls has ever had.

It will be remembered that arrangements were made a few weeks

MEN'S AND BOY'S OUTFITTERS "We will make right that which is not right"

Effort Being Made to Install Home Demonstration Agent in Hale County Proposition Submitted to Com. Court

Miss Bess Edwards, District Home Demonstration Agent, will be in Plainview, Monday, August 14, for the purpose of interviewing the Commissioners' Court regarding the installation of a Home Demonstration Agent for Hale county. Miss Edwards comes at the request of a representative group of Hale County women. There is no doubt that the women of Hale County really want an Agent. Women's Clubs in the various communities have endorsed the movement to install one. In some of the communities petitions have been circulated requesting the Commissioners' Court to make the appropriation. It was the purpose of the Hale County Federation of Women's Clubs to circulate such petitions in each community, but it has not been possible because of the busy season.

It would hardly seem necessary to speak of the nature of importance of the work, as probably everyone is familiar with it, but we can but add that the sight of boys and girls, men and women assembled at College Station last week for the Farmers' Short Course, which, as Mrs. Phebe K. Warner says, is the "Commencement Exercises of the Extension Workers," was an inspiring one.

There are girls and women over the State who have never had the opportunity of attending a College of Industrial Arts, who have gone into the business of home-making with no other preparation than they were able to absorb in their former homes, and with the good wishes of

their families, which, however efficacious, do not give any real instruction in the business of administering the family income economically, advantageously, and artistically. The Home Demonstration Agent comes to the home, and teaches up-to-date methods in the production, preparing, and preservation of food, of making and making over besides the selection of clothing, and of house decoration, etc. Surely no woman in Hale county is so well satisfied with her methods of managing a home that she is not eager to learn more. Surely we want our girls to know as much about home-making as girls in other sections of the State, and further more, we want their recognition. We want a representative team of girls to go to College Station next year and bring home the prizes in Clothing Contests, Bread-making Contests, etc.

The Hale County Federation of Women's Clubs gave one of the prizes in the Clothing Contest this year, which is evidence of the interest they are taking in the work. Now let's have another expression of that interest in a petition with a long list of names to present to our commissioners court next Monday; let every woman interested find an opportunity to speak to her commissioner between now and then, and let us have a representative committee to go with Miss Edwards to meet those commissioners and convince them of the wisdom and economy of employing an agent for our county. —Abernathy Review.

CLEAN-UP CAMPAIGN FOR LUBBOCK IS NEEDED

Those of us who have been interested in the development and maintenance of Lubbock with a view of having her keep her place among the most attractive and substantial towns in West Texas have too many good things to see in the way of buildings under construction, streets that are being improved, and other things that are adding beauty to the town to desire to look for her faults, but the fact that the streets of Lubbock need to be a great deal cleaner than they are can not be overlooked by anyone, and we believe that Lubbock would please the tourists, who pass over the streets daily to a higher degree if those streets were not so dirty.

The main streets around the block are so literally covered with particles of paper, cigar and cigarette stubs, dirt, oil, match stems, and a thousand other unsightly particles that one cannot help but observe them, and we believe that that dirt is as great a menace to Lubbock

as anything could be. People like cleanliness in a town, as well as in an individual, and anyone familiar with the appearance of our streets will have to admit that there is entirely too much trash on the pavements. This article is certainly not meant as a criticism, but is to remind our people that more care should be taken of the streets. It would require but little time for the accumulation of trash that has blown in front of the doors of Lubbock's business houses to be removed and we are sure it would add greatly to the appearance of the town.

There are hundreds of tourists going thru Lubbock each day who are going away from here with one kind of opinion, and another about Lubbock, and the things they see will create that opinion.

Let's make this town just as clean as it deserves to be, and there will be nothing to make the tourists discount Lubbock's real worth. Cleaning the entire town is a small job if everyone will join in the work, and a good, genuine clean-up campaign would do a great deal of good.

TESTIMONY BEGUN IN THE HOUSTON UPTON TRIAL NOW ON AT CLARENDON

Clarendon, Aug. 8.—Testimony in the case of the State of Texas vs. Houston Upton, 18, charged with murder in connection with the killing of Gladys Solomon, 15, in Floyd County on the morning of February 27, was begun in the District Court here this morning before District Judge Henry S. Bishop.

The jury was completed Monday evening, after sixty-eight of the 115 veniremen had been examined. The jury is composed of C. F. Weaver, J. M. Acord, R. F. Weidman, J. W. Bland, J. D. Pope, T. R. Adkins, W. A. Gentry, J. W. Gatewood, W. A. Black, and Ben Bentley, farmers, Fred Ballew, automobile mechanic and J. C. Stlack, printer.

Insanity will be plea of Upton in the trial, it is understood, and no intimation has been made as to whether he will take the stand on his own behalf.

The prosecution will ask for the death penalty, it was indicated today.

Two witnesses were placed on the stand by the State during the morning session, Sheriff J. A. Grigsby of Floyd County, and Vera Wilson, star witness for the prosecution and an eye witness to the tragedy. Miss Wilson completed her testimony about noon.

Sheriff Grigsby testified to the effect that he was called to the Umberson home on the morning of February 27th, about 6:30 o'clock, and made an examination of the circumstances surrounding the death of the two girls, Gladys Solomon and Nell Umberson, which was a mystery until the father of Houston Upton appeared and said he had found his son, Houston, probably mortally wounded in the school house on the Umberson farm. The boy said he had shot himself and also confessed to killing the two girls, the sheriff said. He also testified that the boy refused to give any reason for killing the two girls.

Vera Wilson testified that on Sunday evening she left the B. Y. P. U. meeting at the church in the vicinity of the Umberson home in company with Gladys Solomon, Nell Umberson and Kenneth Umberson, and that they, the quartet had walked about fifty yards from the church, Houston Upton appeared and stated he wanted to talk to Gladys.

Houston Upton and Gladys Solomon then left the others and walked home together. Miss Wilson testified, and met the others at the gate of the Umberson home. She said Upton's attitude indicated that he was angry. She also testified that she later saw Gladys Solomon in the house weeping but that the girl refused to tell why she was weeping.

Miss Wilson testified further that she was awakened during the night by Gladys Solomon crying "Please don't shoot—please don't" and that she covered up her head. She said she later heard three gun shots and also saw the flash of the gun. She testified she recognized the voice of Houston Upton talking to Gladys.

The witness was calm and confident during the time she was on the stand and seemed to have no doubt as to the correctness of her contention that she recognized Upton's voice.

Houston Upton was 18 years of age on January 20 preceding the tragedy.

Upton was found in a school house located about a half mile from the Umberson home, about daylight on the morning of February 27, following the shooting which took place about 4 o'clock. He was wounded, a bullet wound through his left side in the region of the heart. He was taken to a hospital at Floydada, where it was believed for a number of days he would not live.

Gladys Solomon, for whose murder young Upton is now on trial, was 15 years of age at the time of the tragedy, and Nell Umberson, who also was a victim of the tragedy, was 14 years of age. Vera Wilson, age 14, also was a visitor in the Umberson home.

About seventy-five Floyd county residents have been subpoenaed and are present to testify in the trial. A large number of these are character witnesses.

Upton is being defended in the trial by A. B. Martin of Plainview, Kenneth Bain, Lubbock, and W. T. Link, Clarendon, Judge J. A. Fires of Childress, E. A. Simpson, Clarendon, A. T. Cole, Clarendon, District Attorney Lloyd Fletcher, Amarillo, represents the prosecution.

It is expected the trial will be completed by Friday night.

The State rested its case Tuesday afternoon and the defense began efforts to show that young Upton suffered from a form of insanity peculiar to young persons nearing maturity.

The State attorneys never showed why Gladys cried after leaving Upton at the gate of the Umberson home several hours before the murder, and after they had attended a B. Y. P. U. meeting with other young people of the Sunset community in Floyd county.

Mention was made of a ring present from Houston to Gladys, by Kenneth Umberson, brother of the slain girl, that apparently caused the trouble, as Houston is said to have remarked "he would get the ring no matter what it cost."

All of the witnesses Tuesday admitted that Upton had been raised well and as far as they knew was a good, moral young man.

Joe Umberson, another brother of Nell, said that he had seen Houston with a revolver, but it was in the Upton residence.

He also testified regarding a fall from a horse in which Upton struck his head.

Mrs. Smith, the grandmother, who was in the Umberson home the night of the murder, had seen young Upton many times and never noticed anything wrong with him.

Attorney for the defense, in opening their side of the case, announced they would call physicians, specialists, nurses, a minister and others in their efforts to show the accused was a victim of insanity, and at the time of the crime and for several weeks afterward, was mentally unbalanced.

The courtroom was filled to overflowing Tuesday, spectators from Floyd and other nearby counties vied with Donley County residents in getting inside and hearing the sordid details of the crime and the events that led up to it.

May Not Take Stand

Young Upton, the son of a Floyd county rancher, went to school with Gladys Solomon and other principals in the case. Miss Solomon was his sweetheart, and he escorted her to the Umberson home, where she was to spend the night after the B. Y. P. U. meeting in the Sunset school February 27. He is not expected to take the stand.

The case will probably go to the jury Wednesday night or early Thursday.

"I'm going to have that ring, no matter what it costs."

These words, alleged to have been uttered by Houston Upton regarding a ring given by him to Gladys Solomon, his sweetheart, caught the attention of the spectators at the Tuesday morning session of the Upton murder trial.

Girl's Brother Testifies.

Kenneth Umberson, 15, brother of Nell Umberson, who, with Gladys Solomon, was shot to death in bed in the Umberson home the night of Feb. 27, testified that young Upton had made this remark. He also testified regarding the B. Y. P. U. meeting at the Sunset school the night of the tragedy. Gladys and Solomon walked to the Umberson home together and Houston left Gladys at the gate, he said. Gladys was crying when young Umberson found her.

Vera Wilson, 14, who was in bed with the two girls when they were killed, spent an hour on the witness stand. She toyed nervously with a fan as she slowly gave the details of the night upon which the lives of her chums were snuffed out.

After the meeting the girls went to the Umberson home to stay all night. Sometime during the night Vera awoke and heard Gladys saying "Don't shoot, please don't" to some intruders.

The girls went back to sleep without arousing the Umberson family and too frightened to get up and close a door that had been opened. Later three shots awakened Vera, she declared.

A voice which she said was Houston Upton's asked, "Who are you," and pulled at Vera's hair. She then called to members of the Umberson family.

Trouble Not Mentioned.

Attorneys for the defense brought out the fact that neither Vera Wilson nor Kenneth Umberson had told officers after the tragedy of the trouble between Gladys and Upton and that the girl did not tell of the disturbance in their room previous to the shooting until after Upton had been arrested.

J. A. Grigsby, sheriff of Floyd county was the first witness called. He told of investigating the murder and finding Upton in the school house less than a mile distant, dangerously wounded. Upton admitted shooting himself and the girls the sheriff declared. He showed two small snapshots of Gladys Solomon in company with other girls found in Upton's pockets. A strand of hair unlike either the hair of Gladys Solomon or Nell Umberson was found clinging to the lad's coat sleeve, the sheriff said.

PRIEST APPOINTED FOR CATHOLIC CHURCH OF SLATON

Rev. M. G. French has been appointed to take charge of the Catholic Church of Slaton, and will conduct mass each Sunday at 8 and 10 a. m.

Rev. French is well known throughout Texas, and the church directors feel that they have been fortunate in securing his services.

All Catholics of Lubbock are invited to attend services, and Rev. French will be glad to become acquainted with every member in Lubbock county.—Church Reporter.

RIX'S

Big Spring, Lubbock

THEY'VE PROVEN BEST BECAUSE THEY'VE STOOD THE TEST

YOU GET HIGHEST QUALITY WHEN YOU BUY ECLIPSE WINDMILLS

Eclipse Windmills Pump More Water, For Less Money, for a Greater Number of Years, Than Any Other Power

ECLIPSE WINDMILLS govern themselves perfectly in all kinds of winds. By means of a weight, nature's own force, gravity, is used to keep the wheel facing the wind. When the wind becomes too strong, the wind pressure a force of the wind. There are no springs to wheel away from the wind and cuts off the force of the wind. There are no springs to weaken or break, just when the mill needs governing most.

Material used in Eclipse Windmills is the highest grade that can be gotten. Wood parts are of the toughest, yet lightest wood that can be secured.

Ample provision is made for oiling every working part.

THE WESTERN WINDMILL COMPANY

Phone 127 THE WINCHESTER STORE 1212 Ave. L.

KANSAS CITY MARKET

Kansas City Stock Yards, August 7.—Cattle receipts today were 27,000, the largest supply since late October last year. Prices, though lower increased the general demand, and there was a fairly good tone to the trade. Choice fat cattle were scarce. Grass fat grades predominated. A sharp decline at more Eastern markets weakened hog prices here for a 20 to 30 cent decline. Sheep and lambs were quoted steady to 25 cents lower.

Today's Receipts

Receipts today were 27,000 cattle, 11,000 hogs and 5000 sheep, compared with 17,000 cattle, 9,000 hogs and 7,000 sheep a week ago, and 23,100 cattle, 7,300 hogs and 10,400 sheep a year ago.

Beef Cattle

In a liberal run of cattle from Texas, Kansas, Oklahoma and Missouri, grass fat grades predominated, and prices ruled lower. The large receipts however attracted demand from all sources and the volume of trade was large. Grass fat classes, both butcher grades and steers declined 15 to 25 cents, and full fed steers were scarce and nearly steady. Short fed kinds were lower. Most of the grass fat steers brought \$5.50 to \$8.00. Those below \$6.25 were ordinary quality. Fed steers sold up to \$10.35. Grass fat cows sold at \$4.25 to \$6.25. A few choice veals sold higher, but the general market was weak.

Stockers and Feeders

Liberal arrivals of thin cattle, brought out a large demand and prices held nearly steady. Iowa, Missouri and Illinois after buying freely last week were in the market again today. Indications are that the corn belt will need a large number of thin cattle.

Hogs

Hog prices were 20 to 30 cents lower than last week's close. The top price was \$10.15 and bulk of sales \$9.40 to \$10.05. Pigs sold up to \$10.75. Sharply lower prices in the East, together with a slow demand from shippers caused the decline. Country buyers continued to take all the thin hogs and pigs offered.

Sheep and Lambs

Sheep were nearly steady and lambs 25 cents lower. Colorado and native lambs sold up to \$12.50. Most of the good fat ewes brought \$6.25 to \$6.75, and Texas wethers \$7. Few feeding lambs arrived but prices were quoted steady.

Horses and Mules

About 250 horses and mules were in sight for the two day auctions. Prices were not notably changed though there was a better feeling in the trade.

CHAS. M. PIPKIN, Market Correspondent.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Remedy for the whole system. Worms will then grow off or dispel the worms, and the child will be in perfect health. Pleasant to take. One per bottle.

Mrs. J. J. Chauncey and daughters, Wade, Freda, Sarah Maude and Clara Paul, and Mrs. Chauncey's nephew, James Gammon of Lubbock, spent Friday night in Retan with Mrs. L. A. Dowell and A. C. Collins, and met many old time friends. They had been to Abilene to visit relatives and were on their way home.—Retan Advance.

DRY GOODS AND MILLINERY STOCKS BEING PURCHASED

Mr. and Mrs. Ernest Conley, and Mrs. Abney, of the Conley Dry Goods Company, are in New York buying fall and winter merchandise for the store. Mrs. Abney making purchases for the millinery department, while Mr. Conley is buying for the other departments of the fast growing dry goods business. They will spend some time in both New York and Chicago before the complete selections have been made. The Conley building, formerly occupied by Barrier Brothers Department Store, is being remodeled to accommodate the Conley stock, and will be occupied as soon as that work is completed. Some of the new goods which have been purchased by Mr. Conley are arriving, and the entire force is making haste in getting it properly arranged for inspection by their many customers.

YOUNG BUSINESSMEN IN MARKET FOR FALL GOODS

Clifton Lindsey and Gerald V. Smith, of the Texas Variety Store, left Saturday for Dallas, where they will spend some time purchasing goods for their store, leaving there Wednesday for Oklahoma City, Kansas City and St. Louis, to continue purchasing goods for their fast growing business. Messrs. Lindsey and Smith are two young men who are proving the falsity of the old theory that long whiskers and a series of tons of years are necessary in the making of a real business head, evolving many original sales plans, which they put into practice successfully, proving themselves businessmen of the most expert class. The Avalanche is proud of Lubbock's young businessmen, and is glad to know of their winning out in their undertakings, and a survey of the things these two young men have accomplished, certainly puts them high in our estimation.

J. N. Morrison of Plainview, is in Lubbock managing the Lubbock Creamery, owned by his father, Young Morrison is an enthusiast about Lubbock's development, and said he was glad to have the opportunity to be associated with the business men who have made Lubbock the progressive little city it is.

Dr. and Mrs. Weideman of Brownwood, Texas, who have been visiting Mr. and Mrs. J. T. Inman and Mrs. E. J. Yates of this city, have left for Colorado Springs, for a visit. Dr. and Mrs. Weideman are making the trip in their auto.

NOTICE

Notice is hereby given to the public, that J. N. Morrison is sole owner, and in control and management of the Lubbock Creamery, and no one except said J. N. Morrison has any right or authority to make any contracts on behalf of said Creamery.

J. N. Morrison. 48-St.

Jim Ferguson Given Place On the Second Demo. Primary Ballot

Dallas, Aug. 7.—By unanimous vote the State Democratic Executive Committee today decided to certify the name of James E. Ferguson of Temple, to the county chairmen, as one of the run-off candidates for the United States Senate in the primary August 26.

The motion to certify Mr. Ferguson as a candidate was seconded by Judge Barry Miller, who was the manager of Senator Culbertson's campaign for the July primary. Judge John W. Gaines of San Antonio, who sought to prevent Mr. Ferguson's name going on the ballot for the August primary, spoke against certifying Ferguson's name. At the end of his speech the motion to adopt the resolution naming Mr. Ferguson with Earle B. Mayfield as the candidates for the senatorial nomination was put and adopted.

Judge Gaines protest was the only one against the action of the committee, which recessed at noon until 2 o'clock.

When the committee reconvened Mr. Ferguson was present, but did not remain until the final action on his candidacy. Mr. Mayfield was not present in person, but was represented. He has made his position plain as opposing action which would eliminate Mr. Ferguson from the August primary.

The committee today first canvassed the vote of the July primary,

MCCORMICK and DEERING BINDERS

Ready to go into your fields and do the work you have for them in the quickest and most satisfactory manner.

Cole-Myrick Hardware & Imp. Co.

and then certified the names of candidates in the same order as the unofficial tabulation of votes by the Texas Election Bureau showed the respective positions.

MR. CROMER HAS BECOME DROUTH WISE AND IT PAYS

J. C. Cromer, one of the fellows who has been on the plains long enough to be drouth wise to the extent that he is not worrying about the present momentary need of rain, was in town Monday transacting business.

It sounds pretty funny to say anything about those fellows coming in on business, when as a matter of fact the town is filled every Saturday with them, but it is a fact that there was a genuine reason for Mr. Cromer being in town Monday—that to bring in a few salable articles from his farm, which he has a regular habit of doing, which helps to make his farm a paying proposition.

He reports everything getting along fine and dandy on his farm, and though a good rain would come in mighty handy and is needed to a noticeable extent, he has not started a calamity howl as yet, and doesn't intend to.

Stay in there old man Cromer. We'll bet a pint of ink against the juiciest ear of corn in the county that that kind of optimism constantly practiced is worth more to Lubbock county than all the rain that could fall within forty-eight hours.

CAUSE OF APPENDICITIS

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

PLANS GOING FORWARD FOR FIRST MITCHELL COUNTY FAIR

Colorado, Aug. 8.—Elaborate plans are being prosecuted to make the Mitchell County Fair to be held here September 22 and 23 a successful exposition, according to R. H. Ratliff, secretary. Cash prizes will be offered for agricultural exhibits and for best animals and poultry shown.

"RAT-SNAP BEATS THE BEST TRAP EVER MADE," MRS. EMILY SHAW SAYS

"My husband bought a \$2 trap. I bought a 65c box of RAT-SNAP. The trap only caught 3 rats but RAT-SNAP killed 12 in a week. I'm never without RAT-SNAP. Reckon I couldn't raise chicks without it." RAT-SNAP comes in cakes. Three sizes: 35c, 65c, \$1.25. Sold and guaranteed by Cole-Myrick Hardware & Implement Co., and City Drug Store.

CROSBYTON

From The Crosbyton Review

R. L. Bowman, one of the leading citizens of the old Emma community and a member of the County Democratic Executive Committee, was in town Saturday to help canvass the returns and in commenting on the run-off of the Senatorial race said the issue would be strictly wine and beer versus tar and feathers, and that he would take the light wine and beer in "his'n" in preference to tar and feathers.

Mr. and Mrs. Joe E. McDuff, of the Fairview community, were in town some days ago. Mr. McDuff has just recently recovered from a very severe spell of sickness and is yet showing the results of an operation, but we are glad to know his strength is gradually coming back and hope his former good health may soon be fully established.

Mrs. Vester Haltom returned last week from the Lubbock Sanitarium where she underwent an operation some days before. We are pleased to know that she is steadily improving and may soon regain her former strength.

Levi Anderson, Jr. of Desdemonia, who is connected with the State Banking Department, was a business visitor in our city Wednesday. I. C. Rous carried him to Crosbyton in the evening in his car, they being old friends.

Rev. Edgar Pippin, Baptist minister of Chillicothe, and also a traveling representative of the Murray Gin Company, spent Wednesday night at the City Hotel—John K's place. He told the Review man that many gins were being erected all over the country by the Farmers' Union and that he had heard a new gin was being talked of for Crosbyton. He left yesterday morning for Lubbock, but expressed the thought that he would return some time next week and would be glad to get in touch with the promoters of the new gin.

Dr. and Mrs. F. A. Greene went to Plainview Sunday and are spending the week there with friends. Fred Greene motored to Lubbock with them.

The friends and admirers of Rev. J. B. Cole, former Baptist pastor at this place, now residing at El Paso, were pleased to have him with them from Saturday evening until Sunday afternoon. He filled his did pulpit at the 11 o'clock hour Sunday morning. Bro. Cole and wife had attended the annual reunion of the Hedgecock family, Mrs. Cole's people, that met at Post City, and he took advantage of the nearness to Crosbyton to run up and be with his friends here again while his good wife visited her sister, Mrs. Haynes, in Lubbock. No preacher that we can remember has ever lived in our town that is better liked than Bro. Cole, and we are always glad to extend him a welcome and hearty handshake. His removal from our midst was for his health and we were glad to see him looking so much improved and hope he may soon regain his former good health and strength. He reported his son Fred as doing a good business in El Paso, and that his daughters, Misses Ruby and Lena, have been employed to teach in the public schools of that city the coming session. The many friends of the family are pleased to know all are so pleasantly situated together in their new home.

W. S. Roberson, a young barber from Ralls, has fitted up a shop next door east of the Highway Garage where he will be pleased to meet the public. He is making a cut in the prices of barber work.

CARD OF THANKS

I take this opportunity to thank the people of Lubbock county for the large majority you gave my old college chum, S. M. N. Marrs, for State Superintendent of Education in the first primary, and earnestly urge you to give him your vote again in the second primary. He is the candidate of the whole people and not of the cliques and clans.

Respectfully,
M. M. DUPRE.

47-2t

I WISH TO TAKE THIS MEANS--

Of thanking my friends who supported me in the July Primary for Commissioner of precinct No. 1, and solicit your continued support in the run-off primary.

It has come to my notice that some residents of the precinct thought they were voting for Charlie Burrus and after the statement published by Mr. Burrus that he was not a candidate for any office, it was understood that I was out of the race. This is all an error. I am in the finish unless counted out August 26. I stand for a strict business administration of the County's affairs and solicit your support and influence.

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficacy of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. R. W.

The problems of the poor consumptive are his; the problems of the consumptive poor are ours.

PROGRAM ON "MEXICO" TO BE ATTENDED BY LOCAL MEX.

The Philathea Class of the First Baptist Sunday School will give a program on Mexico Sunday evening, August 13, at the church. This program bids fair to be very interesting inasmuch as there are to be some very entertaining speakers.

Mrs. Owens of Slaton, a very talented and educated woman of Spanish descent and who has done a very commendable work with the Mexicans of the county, is to be one of the principal speakers. Some of the local Mexicans will also assist in the evening's entertainment with songs and instrumental music, which will be interesting and beautiful.

It is indeed wonderful that the subject, "Mexico," can be discussed with personal representatives of the country spoken of to be present, and we are sure the program will be one of exceptional entertaining qualities.

The class members have been active in bettering conditions for the local unfortunates from that country, and we feel that in the Mexican's participation in that program will be given a clearer idea of

REV. C. E. LYNN HERE ON MONTH'S LEAVE OF ABSENCE

Rev. C. E. Lynn of Textline, pastor of the Methodist church at that place, is here for a thirty days rest and recuperation. Rev. Lynn made his home here for several years. He was preacher in charge of the Lubbock Mission for a time, but was given the pastorate of the church at Textline at the Annual Conference last fall. The work has been moving nicely, and he has had a very successful year so far, but the altitude of that place has proven too high for his family and for his own good, and he will have to seek lower altitude in order that he may better care for himself and family. He will likely move back to Lubbock to make his home at the end of the present conference year. His many friends in this section of the country will be glad indeed to have him and family back with us.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

NEW FRUIT HEDGE PROVES ADAPTABLE TO PLAINS

Hereford, August 7.—Experiments made here by L. P. Landrum, proprietor of the Hereford Nursery, with a cherry shrub prove that it will grow and bear prolifically when planted and grown as a hedge. The bushy tree is known as the Compass-cherry and is pretty, practical and profitable. Those now grown in hedge-rows at the nursery are now ready for shipment to the fruit. They can be placed from three to five feet apart and will produce a crop every year if properly cared for.

Vote for S. M. N. Marrs, the peoples candidate for State Superintendent of Education. 47-2.

KANSAS MAN DROPPED DEAD IN AMARILLO

Amarillo, July 27.—A. Hearn, 70 years old, dropped dead at the Verdun hotel here yesterday afternoon. Mr. Hearn was enroute to the southern part of the state on business and had made a stop over in Amarillo for the day. His home is in Plains, Kansas. Witnesses stated that he had just entered the hotel, presumably coming direct from the Santa Fe depot.

N. S. Griggs, called the Plains State Bank of Plains, Kansas, for information concerning the dead man's estate. Griggs stated that Hearn had left there Tuesday morning, and officials of the bank were hard to convince that the man for whom information was being asked could possibly be Hearn.

The body is being held pending advices from relatives in Kansas. If you wrong another you wrong yourself.

Schools On the South Plains Make Fine Progress—The Swisher County Schools Improving Rapidly

Citizens of Tulia are rather proud of their public schools, and right they should be. Few cities the size of Tulia can boast of a better public school system or more competent instructors.

Under the direct management of Superintendent I. C. Bagwell and Principal C. C. West, the schools have made great progress. And while due credit should be given these men, one must not overlook the efficient corps of teachers who have so nobly assisted them, and it is a well known fact that no school will succeed unless peace and harmony prevail. There must be team work and co-operation, and in this Tulia has never been found lacking.

The Tulia schools are affiliated with the State University, and has 20 1-2 credits, two additional credits being added during the past term.

In a way progress has been hampered because of an inadequate seating capacity, but it will be only a short time now until that will have been overcome. A hundred thousand dollar school bond issue has been voted and the contract let for another modern building. Work, however, is being delayed because of the inability of contractors to procure material. It is thought,

though, that within a few weeks actual construction will begin.

With the completion of this building future prospects for the school's advancement appear bright.

Rural Schools Making Progress

Considerable progress is being made by the rural schools in Swisher County. A new \$25,000 building is to be erected at Love. Bonds have also been voted to erect a new \$15,000 building for the consolidated districts of Central Plains and Auburn.

There are twenty-four school districts in the county of which sixteen have voted a special school tax of one dollar. Two schools, Elkins and Love, have erected teacherages.

The schools of the South Plains are all making splendid progress. The people as a rule are progressive and believe in good schools. They are willing in most cases to supply the school boards with the necessary funds with which to push the work along, and as a result the schools in the plains country instead of being inferior, as a great many people in the east would believe, are above the average, and in many instances lead the list in school improvements and points of affiliation.

SEMINOLE

From the Sentinel.

M. A. Salley, of Scurry county, has been visiting at the home of C. H. Wescott and family, southeast of town the past week, and while here he purchased 320 acres of land one mile north of Fairview school house. He intends moving here the coming fall to make Gaines county his home.

Dr. and Mrs. L. D. Richards were called to Midland Tuesday to attend the bedside of the latter's brother, Cliff Longbottom, who underwent an operation for appendicitis. Dr. Richards returned Thursday while Mrs. Richards will remain there a few days.

B. F. Renfro and family arrived Friday from Goldthwaite and expect to make Seminole their future home. Mr. Renfro states that before leaving for Seminole that all the gin machinery was loaded on the cars and that it should arrive the latter part of this week. He expects to put a sufficient force of men on the construction work to have everything completed and ready for ginning to start in 40 days.

Nick Alley, of Hale Center, who ranches southwest of Seminole, the first of the week delivered 600 steer yearlings he recently sold to Jenkins & Armstrong of Floydada. They were loaded at Seagraves.

TAHOKA

Lynn County News

The annual Methodist revival meeting will begin at the city tabernacle next Sunday, according to previous announcements given out by the pastor, Rev. S. J. Upton. Rev. C. V. Williams of Melrose, N. M., who conducted the meeting in Tahoka for this denomination last year, has been secured to conduct the services again this summer, and the Christian people of the town and community are looking forward with interest to the beginning of the meeting, as Rev. Williams has already proven that he is a speaker of the gospel of unusual ability. Large crowds attended both day and night services held last summer. All the singers of the town and community are invited to take part in the song service. The meeting will continue for two weeks. In the election held Saturday, July 22, to vote on the maintenance

tax for school purposes, same carried by a majority of 86 to 44. Tahoka has never yet failed to vote right on any matter that pertains to the advancement of the town and community. Tahoka has one of the best public schools in this section of the state. If you are looking for a place to live where you can have access to a live school, move to Tahoka.

Cary King, director of the Tahoka Chamber of Commerce Band, has announced that he will take the band to Post Saturday evening, where they will render special selections and spend the night at Two-Draw Lake. It is likely that the band will be accompanied by a number of Tahoka people, and we are sure the outing will be thoroughly enjoyed by all.

The News overlooked an important item of news in last week's issue, in not mentioning the jail breaking of Will Dulaney, age about thirty-five years, who made his escape from the Lynn county jail located on the third floor of the court house, the night of the 23rd of July. A \$25.00 reward has been offered for his arrest. Dulaney is said to be a gambler and all around crook and dope runner. He has a scar on the right side of his head and the end of his nose is gone according to a description sent out by the sheriff's department. He is charged with white slavery. No trace of the escaped prisoner has been found up until Wednesday night of this week.

The Baptist revival meeting which has been in progress at the city tabernacle the past two weeks, will probably come to a close the latter part of the week. Rev. R. E. Smith of Waco, assisted by singer, Rev. Cowles, and pianist, Miss Smith, have worked hard and faithfully during the progress of the meeting, and although there has been only a few conversions to date, it is evident that their labors have not been in vain. Rev. Smith's plain gospel messages have been received favorably by the people of every denomination, and if there were any church members who were not inspired by his gospel messages and who within their hearts failed to find a responsive chord, there was some thing wrong with them, we are surprised. The News feels that Tahoka and surrounding territory has been greatly helped by the meeting and much good has been done for the cause of the various churches in the town of Tahoka.

Rev. E. N. Brunson, Baptist minister of Midway, performed the ceremony Saturday afternoon, uniting in marriage Mr. Thomas Brower and Miss Holley Pearl Jackson, pop-

ular and highly respected young people of the Midway community.

TRADE TERRITORY OF JEWELER REACHES FAR AWAY

Oscar Collier, of the G. K. Watkins Jewelry Store, watch maker, has the reputation of being the greatest expander of trade territory of any other local business man, that reputation being established last week when he received a watch from a customer at Clairmont, Wyo.

A letter accompanied the watch, stating that the owner, Malcolm Chism, had taken a dip in Powder River, taking his watch along, and as he was in the water some time, the watch had gotten thoroughly soaked, the case being half filled with sand which had sifted through the top, one of the rings around the stem having been removed at another time.

Mr. Collier took great care to have the watch going again in the least time possible, and the Wyoming customer is by this time enjoying the use of his watch.

Mrs. A. C. Costin of Lamem, mother of Mrs. F. R. Pickens of this city, is in a local sanitarium for medical attention. She is well known in Lubbock, and is being cared for in every respect, as her friends and the friends of Mrs. Pickens are glad to offer every comfort possible, and we are sure that under such favorable conditions her absolute recovery is a matter of only a few days.

Miss Elizabeth Robbins underwent an operation for appendicitis in a local sanitarium Wednesday, August 2, and will soon be able to be out again. Miss Robbins is popular in Lubbock, being a prime factor in all social events of the younger set.

A BATCH OF INTERESTING NEWS FROM MONROE

Mr. Reynolds, a minister from Plainview, finished a ten days meeting here Sunday night. Seven additions were made to the Church of Christ and two restorations. The same preacher is to begin a meeting at Abernathy Friday night.

The Baptist meeting begins Friday night at this place. Mr. Tenyson, we understand is to hold the meeting.

Everybody should be at the Literary Society Thursday night. We are making wonderful progress as the member are always ready to respond when called upon and the committee is hard at work on good programs.

Mrs. Matheny has been on the sick list, but is now up again.

Mr. Spencer Wilkenson and father are here rebuilding their gin that was brought from the boll weevil district. The work is progressing rapidly. The equipment is all practically new, and the ginners are glad to be locating it here on the Plains where cotton grows and has none of the parasites so well known in other countries to hinder its yield. The location on the Monroe switch is ideal. May they enjoy a good business and add materially and personally to the betterment of Monroe is our desire.

The Teal family left Wednesday morning for a two weeks' visit in New Mexico.

We are glad the road is being graded between here and Lubbock. We see no reason why we should not have a good earth road until it is graded which we hope will be in the near future.

Many hearts were made glad by the falling of a good rain here Sunday night. When we work and do our part the season usually comes. The crops have freshened up and we hope for a good yield.

BELL COUNTY MAN NOW MANAGER OF TUMBLE N

E. H. Davis, formerly of Bell County, but now a citizen of Lubbock, has taken management of Claude Harbut's Tumble N Pool, and is now exerting every energy to make that one of the most attractive and interesting playgrounds in the city.

Mr. Davis was one of Bell county's most substantial citizens, and owns considerable property there, and in Lubbock county, and it was after several days spent here prospecting that he became so well pleased with Lubbock that he decided to make his home here, and Mr. Harbut is to be congratulated for having secured his services as manager of the Tumble N.

He is congenial, accommodating and always looking after the interests of his patrons, with a view of rendering every service possible in connection with the regular accommodations of the pool, and has announced that before many days he will add several features to the pool which will make that already popular playground more accommodating for the little folks as well as the grown-ups.

He emphasizes the fact that the park adjacent to the pool is open to the public at all times, and that the people of Lubbock are welcomed there for their parties, picnics, etc., where such place can be used.

Within a few years, when the recently planted trees are of sufficient size to offer much shade, the improvement work the Tumble N management has done will be more clearly realized.

Born to Mr. and Mrs. James P. Markham, Monday, August 7th, an eight pound girl.

Some Non-Essential Industries May Be Shut Down Sept. 1st

Washington, Aug 7.—A nationwide shutdown of non-essential industries will come by September 1, unless the coal strike is settled, Government officials keeping a close watch on the rapidly growing fuel shortage said tonight.

The huge coal reserve of 65,000,000 tons which existed when the strike began on April 1, is now virtually exhausted and production is only about half of the country's normal requirements.

Production increased 300,000 tons during the last week, according to figures made public tonight by the United States Geological Survey. But this is a comparatively small amount. It was said to be due to better transportation facilities in the middle Appalachian Coal Fields and not to the reopening of more mines closed by the strike.

The number of mines that have reopened under the President's plan by troop protection is extremely small, probably not more than fifteen, according to reports to Government officials.

While President Harding and his advisers are looking hopefully toward the miners-operators conference called by President John L. Lewis of the miners to meet in Cleveland Monday, the fear is openly expressed here in official circles that it may not succeed. Miner

leaders here, however, are confident of success, although the only operators expected to attend are some groups from Ohio and possibly a few from Western Pennsylvania.

Mr. and Mrs. J. C. Kyle and little daughter, Lucy Blanche, of Stamford, are visiting Mrs. Kyle's parents, Mr. and Mrs. J. A. Jordan.

HUBBERS TAKE SECOND GAME FROM ABILENE EAGLES

Dick Morgan held the Eagles to seven hits Monday, and Lubbock took the second game of the series from them 5 to 3. Keisler was hit hard in the pinches, and hits were made to mean runs.

The visitors held the lead until the seventh frame, when the locals bingled Keisler for two runs, with a follow-up of another in the eighth.

Langford clouted out his twentieth homer of the season, besides hitting a double and a single out of three.

Although Morgan worked into some bad holes, he always came out, three double plays on the part of his team mates being partly responsible. The score:

HUBBERS WIN THIRD OF SERIES IN 7TH WITH 11 SCORES

Lefty Ward, for Abilene, threw airtight ball Tuesday until the seventh inning, allowing only one hit up to that time, but he was jumped on in the seventh for five hits, two walks and an error, netting six runs, after which he was relieved by McFarland with the bases full, and five more runs were made before he could retire the side, the local boys lacking two men of hitting around the lineup twice.

Eli Edgar pitched consistent ball all the way, allowing only seven hits which he kept well scattered, and was never in danger although the visitors took the lead in the first part of the seventh.

Langford chalked up his twenty-first home run of the season. Jack York led the locals in hitting, getting three singles and a double out of five. Battle hit two out of three.

ABILENE TAKES LAST EVENING SERIES WEDNESDAY

Abilene took the last of the series from the Hubbers Wednesday, evening the series, taking the first and the last games. The score was 5 to 3.

The locals took the lead on the game, scoring one each in the fifth, sixth and seventh, but were not able to score beyond the seventh. The visitors came back in the seventh for three runs on a walk, two singles and a triple, with one each following in the eighth and ninth.

Davis hit three out of four, and was responsible for two runs of the three gotten by the Hubbers. The score:

HARLEY SADLER BUYS ORPHAN CLUB; WILL TAKE IT HOME

The Orphans have been adopted. The Stamford Colonels will go back to the old home town and finish the season.

Harley Sadler, owner of Brunk's Comedians, tent show, now playing here, yesterday announced that he had purchased the Stamford franchise and club of the West Texas League, and will maintain it at Stamford for the balance of the season.

The Stamford franchise was recently allowed to revert back to the league and for the past ten days has been carried by the league with Tom Price as manager. Price was released as manager, and will probably go back to umpiring in the loop. This will meet with the approval of the West Texas League fans.

President Gordon W. Northern of the West Texas League was in Amarillo yesterday, when the franchise was placed with Mr. Sadler.

Mr. Sadler assumed all obligations of the Stamford club, it was announced, and is confident that he can make it go over in Stamford, which is his home town.

"Sadler will make a go of the club," said Mr. Northern. "He is popular in Stamford, has the moral backing of the town, and will make a mighty good owner."

All other clubs will stay in the league throughout the season, said Mr. Northern, who returned to Abilene last night.—Amarillo Daily News.

ROTARY WILL PLAY THE AMARILLO AND LUBBOCK CLUBS DOUBLE HEADERS

"The Advantages of Living in Plainview" was the subject of the principal talk given at the regular luncheon of the Rotary club Tuesday.

The institutions and business of Plainview were praised by the speaker. The challenge of the Amarillo Rotary baseball game on August 23 was accepted. Plans were discussed to have the Lubbock team participate the same day in a double header. The game will be played in Plainview and the proceeds will go to the Rotary boy's work.—Plainview Herald.

WILLIAMS' TWO HOMERS IN ONE INNING, RECORD

St. Louis, Mo., Aug. 7.—Veteran baseball writers tonight said that Kenneth Williams, left-fielder for the St. Louis Browns, who knocked out his twenty-ninth and thirtieth home runs in the sixth inning of today's games between the Washington and St. Louis Americans, set a new modern major league record as they could not recall any other instance in modern baseball where only one player cracked out two circuit drives in the same inning.

By hammering out the two homers, Williams forged ahead of Rogers Hornsby of the St. Louis Cardinals who has twenty-eight home runs for the major league championship of the season. Jacobson was on base each time Williams clouted the ball in the right field bleachers.

HUBBERS OPEN HERE SUNDAY WITH AMARILLO; 4 GAMES

Here they come, boys, that purported bunch of Amarillo Gassers. They will open here Sunday for a four-game series, and everything bids fair for a royal fight for all the four games. The Gassers now have a slight lead on us in the percentage column, with Clovis leading them by little over a hundred points and believe me, we are going to have to "whoop 'em up" if we overtake that lead gained by Clovis.

Abilene is now tied with us for third place, and as they are playing the balance of the season in the south among the weaker clubs, they themselves are still in the running yet. We practically finish the season against Amarillo and Clovis, the League leaders, and it is going to take some fight on our part to cop that second half pennant. However, we understand that a couple of new pitchers and an outfielder has been procured to report immediately, and something is going to pop, or we will bust a trace.

Believe me, Geraldine, we haven't lost this pennant yet, and we are a long way from losing it. The old Hubber Boys are in there fighting with all that they have, and it is up to us to do the rest. At least half of the balance of the season is to be played on the home lot, and these games must count. We want four games from Amarillo in the series commencing Sunday, and must have at least the big end of the series. Come out to this series, for it is going to be some FIGHT, and as for that matter the balance of the season is going to be SOME fight against the League leaders.

BASEBALL SUMMARY

Monday's Games:

Conditions Are Improving In Europe And Are Better Now Than Since the War, the Cotton Manufacturers Say

Financial conditions have not looked better in England, France and Holland since the days before the war, while in Germany the most intensive 'agricultural' campaign in that country's history is in progress, according to E. B. Guthrie, cotton factor, who has just returned to Dallas after a two months' business tour of these countries.

"I have never seen a time when there were as many Americans in all the principal cities of these countries," he declared. "On all the chief railway systems there is such a congestion that one may have to stand up during at least 100 miles of his journey."

"Americans who are touring the countries of Europe voiced their delight in seeing living conditions, and especially prices in the leading hotels, even lower than in New York and other American cities. Hotel accommodations come higher in Holland than any of the countries I visited, but at Bremen one is able to obtain the best of hotel accommodations, including private baths, for less than \$2 a day, and meals, including choice and elegant wines, for less than \$1.

"In London prices compare favorably with those of Paris and with the best hostleries in New York. The people are beginning to get back into their old pre-war strides and are looking for still better conditions."

"Many Americans in Europe where all the Americans are coming from seem to mystify all the people in Europe, and the money that the Americans have to spend is not being ruthlessly squandered. 'Naturally,' said Mr. Guthrie, 'I was interested, primarily in the cotton conditions, feeling greatly elated over what I saw.'

"Some cotton mills in Manchester and other cotton milling centers of England are idle, still more looms are running now than at any time since the war, and Liverpool interests indicate that they will draw a heavy cotton supply from America

this year. Cotton stocks are depleted and much Texas cotton will go to Europe this year.

"The French claim that they will operate the famous cotton mills of Alsace and Lorraine at full blast this season, and are looking for conditions as favorable as when these districts were under German rule."

"Banks of England, from all appearances, are granting better credits and are more liberal than in the past with their clientele. Banking and business interests are optimistic but are not looking for full return of normal conditions this year. Their attitude today as compared with a like period last year shows how well Europeans are rallying from the cruel effects of the war and its after effects of unrest."

Dutch Credit Good
"Holland, one of the richest countries of the world, has not suffered impaired credits, and conditions there are excellent, the Dutch guilders being almost on a par value with the American dollar. I can remember when I was at The Hague and met only two Americans during a lengthy stay there. Today you find them standing in groups on every important corner."

"Merchants in Germany are very blue over the attitude of France in failing to show any signs of leniency in the reparation payments, according to the stories related by the wealthiest merchants and dealers," Mr. Guthrie said. The efforts of the German government to obtain a thirty months' respite before meeting with direct and heated opposition on the part of the French, all German merchants declare.

"There seems to be a general feeling that the French charge Americans twice as much on anything they purchase as they demand from the natives," he said. "At that, though, French prices are not what we would call exorbitant."—Dallas News.

ORDER OF SALE

THE STATE OF TEXAS, County of Lubbock, In the District Court of Lubbock County, Texas, Long Bell Lumber Company, Plaintiff, vs. John Bernard and E. B. Bernard, Defendants.

Whereas, by virtue of an order of sale issued out of the District Court of Lubbock County, Texas, on July 20, 1922, on a judgment rendered in said Court on the 15th day of June, 1922, in favor of said Long Bell Lumber Company against said John Bernard and E. B. Bernard, No. 1559 on the Docket of said Court, I did on the 24 day of July, 1922, at 4 o'clock p. m., levy upon the following described land in Lubbock County, Texas, belonging to said John Bernard and E. B. Bernard: Lots Nos. Two (2), Three (3) and Four (4), Block No. One Hundred and Eighty-eight (188), Original Town of Lubbock, in Lubbock County, Texas, and on the 5th day of September, 1922, being the first Tuesday of said month, between the hours of 10:00 a. m. and 4:00 p. m., on said day, at the Court-house door of said County, I will offer for sale, and sell at public auction, for cash, all the right, title and interest of the said John Bernard and E. B. Bernard in said property.

Dated at Lubbock, Texas, this 24 day of July, A. D. 1922, 44-4-F C. A. HOLCOMB, Sheriff of Lubbock County, Texas.

By Charles Sughree

Farmers Should Not Buy Planting Cotton Seed From Pink Bollworm Infested Sections of the State

The pink boll worm is recognized as being a very destructive insect. Wherever it has become established it has greatly reduced the production of cotton. There is no reason to believe that when once it gets a strong foothold in Texas it will not do the same thing. It has been found in about twenty counties in this state and exists in enormous numbers in Mexico.

It is an insect that does not attain its worst for some time after an introduction. A locality may be infested for some time before it is realized. It is possible that it exists in parts of Texas that we do not know about. The cotton fields are so enumerable that it is a physical impossibility to inspect them all. Besides, a light infestation is difficult to discover. Even inspection by an expert does not guarantee that the insect is not there.

The pink boll worm has a habit of going inside cotton seed and remaining there for long periods of time. If such infested seeds are shipped to a new locality the worm goes along. We built a disinfecting machine and shipped it to Mexico and gave it a thorough trial. We found that we could kill every pink boll worm in cotton seed by warming them to 145 degrees Fahr. Very thorough and extensive experiments showed that cotton seed would not be injured until they are heated above 165 degrees. For the planting season of 1922 we have disinfected in Texas 13,181,000 pounds of cotton seed with no injury to germination. In the regulated zone around Marilee in North Texas there were such complaints. Heavy rains and cold spells during planting time made germination of all seed bad in that section. A house to house canvass of the district showed that 44 per cent of the acreage planted to disinfected seed failed to come to a good stand the first planting and 43 per cent of the acreage planted to seed not disinfected failed to a stand the first planting. For the second planting 7 per cent of the disinfected seed failed to come to a stand and 17 per cent of the seed not disinfected. This shows to any fair minded person that this process does not injure the seed. There were a few complaints from other sections of the state. Tracing them down we found that the bad stand was due to some other cause. Disinfection will not hurt any seed. This is proved beyond any doubt.

The machines to be used for the 1923 planting will be equipped with recording thermometers and the records for each bushel of seed disinfected in Texas will be kept in this department. No permits will be issued for seed unless they are treated precisely right. Therefore, anyone buying disinfected seed may be assured that such seed are free from any pink boll worms and that the germination has not been injured.

The introduction of the pink boll worm into a community means quarantine measures and more or less inconvenience. It also means the introduction of a ruinous cotton pest. It further means the lowering of the value of farm lands and other property. It is, therefore, to the interest of all citizens to keep this pest out of their community. We undertake to keep seed that are known to be infested from getting out but we have no control over other seed; and as stated above, the

The Signs of the Times

The fact that today the Ford Motor Company is making more cars than ever before is an indication that the fundamental conditions of our country are on the upgrade. It proves beyond a doubt that thrift is being practiced. Just so long as people in all stages of life find the Ford delivering dependable transportation in its usual economical manner, satisfied with millions of others, that the Ford is the best car money can buy where thrift is considered, just so long will prosperity reign.

Reflection will bring to your mind the period of inflation when everyone was spending wastefully, and it will also show many Ford owners turning to more extravagant cars. Today they have begun or are beginning over—and a lesson of great good has been learned.

Do as Henry Ford Has Said--

"Buy a FORD and Spend the Difference"

CAUTION

Once a man becomes acquainted with the principles applied by the Ford Motor Company in its desire to keep up the service of its cars, it is seldom he ever buys a part for a Ford car only from the authorized agency, and in Lubbock and in the Lubbock trade territory, we are sole agents.

Apportionment For School From State Will be Small

Austin, August 1.—Warrants are going out for \$468,500 in available school fund to the various schools of the State, representing a payment of 50c per capita on last year's apportionment of the State fund of \$13 for each child within the scholastic age.

There is yet \$1.50 due on last year's apportionment, or a total of \$1,945,500. Last year's census showed 1,297,279 scholastics.

It is not expected that this year's apportionment will exceed \$10. Miss Annie Webb Bianton, State Superintendent of Public Instruction, said today that per capita allowance probably will be \$9.50 or \$10. The State Board of Education meets on August 10 to make the annual apportionment.

An estimate of the scholastic for this year shows a total of 1,300,000. Only a very slight increase is expected over last year, as revisions at certain places showed alleged padding, and there will be decreases in several places this year.

Last year's total apportionment was \$16,864,861. With 1,300,000 scholastics and an apportionment of \$10 each, the total this year will be \$13,000,000. Decreased taxable values and a slump in oil and other gross receipt taxes has caused a diminution of the available fund.

MALE AND FEMALE FARMERS IN THE UNITED STATES

Of the 6,448,366 farmers in the United States, 6,186,813 are male and 261,553 (4.1 per cent) are female.

Of the farm-owners 3,737,326 are males, 187,769 are females; of the managers 67,762 are male, 763 female; of the tenant farmers 2,381,725 are male and 73,021 female.

Of the 2,455,746 tenant farmers (1920) 1,117,730 tilled on shares 561,005 (in the South) were "croppers"; 127,834 were on share-cash basis; 480,927 were cash tenants and 104,987 (in the South) were standing renters. Tenant farmers in 1910 numbered 2,354,676.

Native white farmers were 76.3 per cent of all farmers in 1920, as against 75 per cent in 1910; foreign-born white farmers were 9 per cent as against 10.5 per cent in 1910; colored farmers 14.7 per cent as against 14.5 per cent.

In New York state in 1920 foreign-born white farmers were 13.3 per cent of all farmers, as against 12.5 per cent in 1910.
