

THE LUBBOCK AVALANCHE

NINTH ANNUAL SOUTH PLAINS FAIR OPENED TODAY WITH BIG PARADE---FIVE COUNTIES ARE COMPETING FOR PRIZES IN COUNTY EXHIBITS

BIGGER AND MORE EXHIBITS ARE IN COMPETITION THIS YEAR--MANY NEW DEPARTMENTS ARE NOTICED

Community and Industrial Booths are Numerous and There is a Large Display of Poultry, Hogs, Horses and Cattle--Industrial Building is a Thing of Beauty, Showing Many Lines--Big Showing of Automobiles and Farm Implements.

What is believed to be the greatest meeting of the Plains people in the history of the Plains country started this morning, when many cars from over this district began to arrive at the fair grounds to attend the ninth annual fair of the South Plains Association.

The agricultural hall was without doubt the busiest place on the grounds yesterday, when agriculturalists from all over West Texas began to arrive to place their products on exhibit.

The Dawson County booth was prepared by Claud Ray and Mr. and Mrs. O'Neal. Mr. O'Neal being Treasurer of the Lamesa Chamber of Commerce. The exhibit is well arranged, and reveals with beauty the splendid agricultural possibilities of that county.

The Lamb county exhibit was prepared by men from Olton and Littlefield, Gus Shaw, C. D. and Rev. Jordan representing the latter, while two progressive agriculturalists represented Olton, and the fine array of exhibits gathered from that county makes that section of the Plains show up mighty well in comparison with the other counties about over the district.

On to Dallas for the State prize is the slogan of Messrs. W. T. Dunn, D. E. Ayres, G. D. Atkinson, Harry Sherrod and W. R. Lamm, who have the Crosby County exhibit here, as they won the community prize at the Crosby County Fair, and declare that they will win the District prize here, and are ambitious to get to Dallas to tackle the other counties of the State in keen competition for State championship and to this end have already chartered an express car to have the exhibit taken to Dallas immediately after the close of the fair here.

more to West Texas than any of us have realized, and even so that it is fortunate that the fair management realized the possibilities of great work among the people of the various communities of the district, as a result of which they arranged for community and individual booths, which are indeed a credit to the fair.

The next individual booth was prepared by Mr. J. C. Potts, also of the Canyon community, and is indeed a credit to the progressiveness, energy and broadmindedness of Lubbock county farmer, who has always taken a leading place in agricultural work as well as in live stock growing circles.

Paralleling in splendor the county booths, and bringing home the fact that the various communities over the great South Plains are alive with that same enthusiasm and progressiveness which seems to center about each county site, and in every way showing that pride which characterizes our people, the community booths were whipped into shape yesterday in great haste until this morning the agricultural building is one of the most attractive buildings on all the great South Plains country no doubt, as everything that grows is displayed in some one of the booths, and competition for championship in community work is just as keen as for county championship, which no doubt will have far reaching effect in boosting the communities represented to those who will be here for this occasion.

The Sudan booth reflects well upon the agricultural possibilities of that section, and Mrs. L. E. Slate, H. Slate and the Texas Land Exchange are to be congratulated for having gotten together such splendid exhibits, and the manner in which they are to be displayed is great, a map being made of six counties, Bailey, Lamb, Hale, Cochran, Hockley and Lubbock, all lines being made with Sudan seed pasted to the board on which the outline is drawn, and it is pleasing to note that Lubbock, the hub of the plains, was recognized by the artist, as a small wheel indicated Lubbock's location, with a highway and railroad running to Sudan, which is marked with nine squares of that many kinds of field seeds, indicating the town blocks of that fast growing little city.

We got second place last year, and it's perfectly natural that we want the first prize this year," J. B. Sides with the Canyon community booth said, explaining the reason for so much activity about the booth, and the exhibits they are showing look like they have been going after that first prize for a good long time. Pat Nix, J. F. Goodnight, J. B. Sides and son, W. B. Sides, are responsible for the appearance of the booth insofar as its arrangement is concerned, and the rest of the population of that community are to receive credit with them for gathering the products shown. With the individual exhibits told of in another place shown from the Canyon community it looks as though those people are going to get recognition by the hundreds and thousands who will attend the fair these three days.

H. C. MORRISON, D. D.

from all accounts those in charge of the Acuff booth have started something worth while for that community, that the success in development of the Hub city of the Plains may be again demonstrated in the development of the "Hub community" of this district. Along the five spokes of the wheel, which are all equal distances apart, is written "To Lorenzo, Crosbyton, Slaton, Lubbock and Idalou," respectively, making the little hub the very center of attraction in the district, to which we must give the geographical ability of some Acuffite much credit for having reminded us of the proper location of that thriving community.

The people of the Carlisle community left it with the farmers to supply material for a sign, fettered heads being properly shaped to make the word, "CARLISLE" show up in grand style, and red and white pickets, made of the red and white kafir, with the white heads at the top of the fence, and the red ones at the bottom makes the booth show up nicely, and the painstaking that was necessary in constructing the fence is evident, to which we must give much credit to Mr. and Mrs. W. M. Pevehouse, John Burroughs, J. T. Hembree, Reagan Coffey, B. W. Casey, Newman Casey, and Mrs. C. C. Casey, for the artistic touch given the booth.

Idalou, the "Oasis of the Plains," is well represented among the booths with a well arranged exhibit, put up under the directions of Judge C. W. Beene of Lorenzo, who was assisted by C. S. McCurdy, A. G. Ross, H. W. Lasiter, Paul Sherrod, Mesdames Jess Joiner, Carl Barr, T. Walker, Mr. T. Walker, B. F. Hutson, T. Howard, Mr. and Mrs. J. L. Herbst, and J. H. Vand, who worked with great energy in preparing what they hope to be the champion booth of the community class.

As usual the people of the Posey community are awake to the possibility of advertising that vicinity, and to that end have prepared one of the most complete exhibits in the agricultural booth, on which Mr. and Mrs. C. Z. Fime, Mr. and Mrs. W. A. Bessett and J. L. Benton displayed great ability in arranging the splendid exhibits. It is gratifying to

note that they are also hopeful of gaining first place among the prize winners, and should this ambition be realized, we will not be at all surprised.

The strides that have been made in developing livestock breeds on the Plains is well shown at the fair today, as the hogs, sheep, goats, cattle, horses and mules are living examples of what can and has been done in perfecting breeds on the Plains.

The interest that has been shown in thoroughbred stock for the past few years is great, and the livestock owners realize that their efforts are well repaid in the fine herds that have been developed, and their pride in their stock is shown in their being placed on exhibit at the fair.

The Animal Husbandry class, of the Lubbock High School of the 1921 term, instructed by Ray C. Mowery, A. & M. Graduate, received much publicity for the things done by the boys in stock judging, but that publicity and the work they have done is divided in comparison with what some of the boys have done this year in putting their work into practice. Raymond Boyd, outstanding character in the State stock judging contest at Fort Worth last year, who beat the second man by twenty points, is proving that he knows how to use the many instructions laid down in the text books, as he is exhibiting at the fair today nine pure bred Poland China hogs, which are champions in their class, and which are receiving much attention from those in attendance.

Roy Davis, well known in local school circles, and an outstanding character in the stock judging team last year, is also on the job, having fitted eight head of pure bred Herefords for the Sunshine Ranch, owned by Moorehouse and Johnson. Davis having worked on the ranch this year for the opportunity to apply his knowledge of stock raising to taking care of the fine ones on that ranch.

MANY HERE TO ATTEND THE BIBLE DISTRICT CONFERENCE, INCLUDING PREACHERS OF NATIONAL NOTE

Those in Attendance Are Being Cared for in Hospitable Lubbock Homes--Value of the Conference to the Local Church Membership is Great, This Being the First Conference of This Character to be Held on the Plains.

Beginning today the District Conference of the Lubbock District, Northwest Texas Conference began at the Methodist church at this place. This is an adjourned session of the conference, which was held in Matador in May, but on account of the weather being unfavorable, and but few delegates could attend only a small amount of business was transacted and continued over to this session, when it will be completed.

Presiding Elder, George W. Shearer is presiding, the first session being held at 9 o'clock by devotional services being conducted by Rev. W. A. Bowen, pastor of the First Baptist church of this city and the following is the program for the four days:

Program, Adjournment Session, District Conference and Bible Conference.
Thursday Morning.
9:00 to 9:30--Devotional Services, Rev. W. A. Bowen.
9:30 to 10:00--Centenary Report, Rev. W. E. Lyon.
10:30 to 11:00--Romance of Preaching, B. W. Dodson.
11:00--Sermon, Rev. H. C. Morrison, D. D.

Thursday Afternoon.
3:00 to 4:00--Program of the Christian Religion, Rev. R. E. Dickenson, D. D.
4:00 to 5:00--Romance of Preaching, B. W. Dodson.
7:30--Sermon, Rev. H. C. Morrison, D. D.

Friday Morning.
9:00 to 9:30--Devotional Services, Rev. J. M. Lewis.
9:30 to 10:00--Educational Report, Rev. J. W. Hunt.
10:00 to 11:00--Program of Christian Religion, Rev. R. E. Dickenson, D. D.
11:00--Sermon, Rev. H. C. Morrison, D. D.

Friday Afternoon.
3:00 to 4:00--Business Session of the District Conference.
4:00 to 5:00--Romance of Preaching, B. W. Dodson.
7:30--Sermon, Rev. H. C. Morrison, D. D.

especially urged to hear the great sermons at eleven and seven-thirty each day by Dr. Morrison.

Speakers and Prominent Men Here for the District Conference and Bible Conference.

DR. ROBT. E. DICKENSON

Dr. Robert E. Dickenson is another prominent man who will be here during the session of conference and will speak on the subject of "The Program of the Christian Religion." Dr. Dickenson is one of the outstanding men of the church, was pastor of the Colorado Springs Methodist church for several years

and while there was considered one of the strongest preachers in that city. He has for the past few months been the pastor at Vernon, and is at this time holding that responsible position. He is well educated, is in the prime of life, and is going to add much to the interesting program of the Bible and District Conference.

B. W. Dodson, is another who will have a prominent place on the program, taking the place of Rev. J. W. Hunt, of Abilene, who could not be here to fill the place on the program assigned to him, lecturing on the "Romance of Preaching." Brother Dodson is one of the strong doctrinal speakers of the Methodist church, and is an ex-student of the Vanderbilt University, is a Tennesseean, has been pastor, presiding elder and teacher of Bible in colleges and is at present pastor of the Methodist church at Post City.

PROGRAM FOR TODAY
Everyone enjoyed the baseball game yesterday, and it will no doubt be good news that another one will be played this afternoon.
The much looked for Rodeo stunts will be given after the ball game.
The airplane stunts and Parachute Jump to follow the ball game.
Last but not least, the fireworks, under the direction of H. H. Griffith, assisted by the local Cavalrymen, will be given. Griffith had charge of the fireworks last year, and the materials that will be used this evening were purchased from the same firm that furnished them last year, which assures a splendid showing.

CONFERENCE NOTES
W. C. Hart of Roaring Springs, is among the number of preachers here this week attending the conference. He is a guest of Rev. and Mrs. Pickens, while in the city.
Rev. Orlan of the Andrews circuit was among the early arrivals at the conference Wednesday.
Rev. J. W. Hunt, of Abilene, president of the Northwest Texas conference, was here at the opening of the conference. He is doing special work on the educational program of the Methodist church just now, and was making a tour of all the districts in the Northwest Texas.

"MINERAL RESOURCES OF TEXAS."

Under the title of "Mineral Resources of Texas," our Magazine Section, to be issued October 6th, gives in detail the valuable building materials of Texas, such as red and gray granite, marble, limestone, sandstone, clay, lime, cement, gypsum, sand, gravel, etc.

Many of the best roads in Texas are being built from "impregnated limestone," found in large quantities in Uvalde and Kinney Counties. Keep up with the march of Texas progress and read the Lubbock Avalanche, a newspaper that is alive to the interests of your county and your state.

Governor Neff and Party Back From a Prison Inspection

Austin, Texas, Sept. 24.—After making an inspection of the State penitentiary at Huntsville and the various State farms, with the exception of the Shaw farm, Governor Neff, Attorney General W. A. Keeling and Land Commissioner J. T. Robison, constituting the board created by the last legislature to re-locate the State penitentiary on a site within seventy-five miles of Austin, returned to the capital today. On the tour of inspection the board was accompanied by the State Prison Supervisory Board and the State Prison Commissioners.

The inspection was made for the purpose of gathering data for estimating the valuation of the properties of the prison system, which are to be sold after a site for the new penitentiary has been selected.

Governor Neff said today that no figures on the valuation had yet been prepared and that the board had no report to make at this time. He declared, however, that the board would the latter part of this week, visit the various sites within seventy-five miles of Austin which have been proposed as location for the new penitentiary.

Governor Neff said that the inspection of the properties of the State prison system, which covered a week, was most thorough, and he remarked that conditions at the penitentiary and on the farms visited were satisfactory.

The greatest enemy of child life is the tape worm. It destroys health and vitality. The greatest enemy of the tape worm is White's Cream Vermifuge. One or two doses does the work. Price 35c. Sold by City Drug Store.

TAHOKA

B. F. Montgomery, who has resided in Tahoka the past eight years, has sold his interest in the Tahoka Coal & Grain Company, and also his residence property in Tahoka, and expects to move his family to Carlsbad, N. M., about the first of October. Mr. and Mrs. Montgomery have resided on the plains nearly 22 years, and we regret to see them leave Lynn county. Mr. Montgomery stated that he was not burning any bridges behind him and that he might return to the good old South Plains some day.

Mr. W. E. Hamilton and Miss Edith Jones, prominent young people of the Magnolia Community, were married at the home of the groom's parents, Mr. and Mrs. L. L. Jones, Saturday afternoon, September 16th, Elder W. A. Kircheville, of the Church of Christ in Tahoka performing the ceremony. A wedding supper was given in honor of the newlyweds Saturday evening at the home of Mr. and Mrs. Jesse Eubanks in Tahoka.

The paving contract for the city

of Tahoka was let the past week to the Plains Paving Company of Wichita Falls, Texas and work is to begin within sixty days from date. The paving will be of brick-and will cover an area surrounding the public square and one block each way. It is understood that the county commissioners have as yet refused to accept their portion of the paving. Tahoka has one of the most progressive sets of city officials to be found in the whole west. They are up and doing all the time for the advancement of the town and community and with the exception of the city secretary, they serve without pay. They have accomplished wonders during the past year, installing one of the most modern and up-to-date light-and water systems to be found in this country. Keep your eye on Tahoka. Some day what is now a town of a few hundred people will number her population in the thousands, and a community where it is miles from one farm house to another will multiply the population, the resources become better known until each acre will bring forth an abundant yield, and the Tahoka section will be synonymous with the agricultural prosperity.

A PRONOUNCED SUCCESS

The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically without a rival and as everyone who has used it knows, it is without an equal.

54-4F

GOVERNOR NEFF ISSUES PROCLAMATION OF ELECTION

Austin, Texas, Sept. 25.—Governor Neff today issued a proclamation officially calling the general election to be held in Texas on November 7, and designating the State officials to be elected.

SUMMONS

THE STATE OF TEXAS.

To the Sheriff or any Constable of Hockley County, greeting:

You are hereby commanded to summon W. S. Smith, J. Q. Thompson, R. L. Cox, N. C. Law, M. A. Randolph, L. D. Carter, A. H. Curtis, A. H. Nelson, Mrs. M. A. Randolph, H. Mulkey, M. L. Rendlemen, the unknown heirs of each and all of the above named parties, if they or any of them be dead, their heirs and legal representatives, the unknown heirs of R. D. Browne, deceased, their heirs and legal representatives, the unknown heirs of S. H. Bowers, deceased, their heirs and legal representatives, the unknown heirs of T. L. Sowders, deceased, their heirs and legal representatives, and the unknown heirs of J. B. Sturdivant, deceased, their heirs and legal representatives, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Hockley County, to be held at the courthouse therein in Levelland on the 23rd day of October, 1922, then and there to answer a petition filed in said court on the 14th day of September, A. D. 1922, numbered on the docket of said court, No. 6, wherein W. T. Campbell is plaintiff, and W. S. Smith, J. Q. Thompson, R. L. Cox, N. C. Law, M. A. Randolph, L. D. Carter, A. H. Curtis, A. H. Nelson, Mrs. M. A. Randolph, H. Mulkey, M. L. Rendlemen, G. E. Edwards, H. P. Cook, W. Wilson, W. W. Lane, Rhodia B. Sturdivant, individually and as Executrix of the Estate of J. B. Sturdivant, deceased, and the unknown heirs of each and all of the above named parties, if

they or any of them be dead, their heirs and legal representatives, the unknown heirs of R. D. Browne, deceased, their heirs and legal representatives, the unknown heirs of S. H. Bowers, deceased, their heirs and legal representatives, the unknown heirs of T. L. Sowders, deceased, their heirs and legal representatives, the unknown heirs of J. B. Sturdivant, deceased, their heirs and legal representatives, are defendants, said petition alleging that Plaintiff Campbell is the owner in fee simple of Survey No. Five (5), Block "U," containing 640 acres, and League No. 163, Garza County School Land, containing 3593.3 acres, situated in Cochran County, Texas, and entitled to the possession thereof; and that defendants unlawfully ejected plaintiff from possession on September 12, 1922, and still unlawfully withhold possession, to plaintiff's damage in the sum of \$10,000.00; and plaintiff also pleads title by the Three, Five, and Ten Years Statute of Limitation, and prays for the title to said premises, and a permanent injunction being brought as well to try title as for damages.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and seal of office at Levelland, Texas, this 18th day of September, A. D. 1922.

(Seal) GEO. P. SMITH, clerk of the District Court of Hockley County, Texas. 60-4F

TO OUR THOUSANDS of CUSTOMERS

We extend to you a welcome to YOUR Fair, to our little city and to YOUR bank. May your visit here be both instructive and entertaining—our wish.

The Lubbock State Bank

"The Bank for Everybody"

"Come on, Alice, you know Mother said we are going to have Kellogg's Corn Flakes for lunch. And that's the kind I like to eat about a whole box of, because they ain't tough to eat! Come on, hurry up!"

Kellogg's Corn Flakes

are a taste thrill at meals or any time

That's because Kellogg's Corn Flakes are so deliciously flavored—the Kellogg flavor that is known all over the civilized world! You, as well as the little folks, can eat great bowlfuls of Kellogg's Corn Flakes day after day—and each sunny-brown, crispy, crunchy spoonful thrills the taste as though it was the first!

Put Kellogg's in comparison with imitation corn flakes! Kellogg's Corn Flakes are never tough or leathery or hard to eat! They are all-the-time crisp, all-the-time good! Don't miss such enjoyment!

Insist upon Kellogg's in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! NONE ARE GENUINE WITHOUT IT!

Kellogg's CORN FLAKES

Also makers of KELLOGG'S KRUMBLIES and KELLOGG'S BRAN, cooked and krumbled

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for:

Colds	Headache
Toothache	Lumbago
Earache	Rheumatism
Neuralgia	Pain, pain

Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Drugists also sell bottles of 24 and 100. Aspirin in the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Destruction is getting a good start

Lack of Paint causes more destruction than fire—figures prove it. Wear and weather are everlastingly grinding away at the surfaces of your buildings. When the paint is worn away, deterioration soon begins. It is cheaper to paint than repair or rebuild.

Pee Gee Mastic Paint is your best protection for outside surfaces. It is an absolutely pure paint, containing a high percentage of ZINC Oxide mixed with genuine Linseed Oil.

For more than fifty years it has proved the most efficient protection against the elements. It lasts longest, has greatest covering capacity and is the most economical paint for you to use.

For Roofs and Weatherboarding use **Pee Gee Creostain** a powerful wood preservative and stain combined. It makes your roof weatherproof and adds charm to your home. Comes in 12 colors.

Pee Gee Invincible Spar for exterior woodwork gives a beautiful varnish finish and affords perfect surface protection.

When you are ready to paint or decorate, there is a **Pee Gee Paint, Varnish or Stain** that will beautify your home and give you lasting satisfaction at lowest cost—"Save the Surface and you Save All."

Some Interesting Facts Concerning The United States as Discovered by Geological Surveys Recently Finished

The excitement and elation of the oil producers in Eastland and Stephens counties, Texas, over the discovery of the Ranger and Caddo fields some years ago was followed by depression and gloom as it became apparent that these fields would be short-lived. Companies that had made great investments and prepared elaborate drilling programs had to sustain losses, some of them staggering. Optimism was followed by pessimism. First the operators could see nothing bad in the region; then they could see nothing good in it.

The pessimism was as short-sighted and as destructive of rational judgment as the unrestrained optimism. Operators who persistently stuck to the region and intelligently prospected and developed it found new pools and extended old ones. Obviously the region still has reserves of oil with which to repay those who can learn the secret of their hiding places and who, after finding them, are gifted with the intelligence to develop them rationally. Suicidal rentals, high lease prices, and huge royalties are becoming less and less common, and it is to be hoped that the paying sands of this district will soon be developed entirely as a business and not as a gamble or a pure speculation.

Geologic Studies in the Region. Geology has played its part in the discovery of the fields of central Texas, and will evidently be of high value in their future development, but the country is not one where the geologist can ride out in his car, glance over the landscape, squint at a rock through his magnifying glass, and indicate exactly the spot where a fortune is waiting for the drill,

to discover it. At least, if his work is done in that way it is likely to come to a painful end at the hands of the outraged operators whose "dusters" he has so simply and quickly located. This is a region where the geologist must spend weeks or months in the mesquite scrub, must spend long hours plotting and studying well records, must call upon fact and fancy—or at least scientific imagination—to enable him to visualize the conditions below ground, and must give deep thought to every recommendation that he makes, for the successful development of the region depends largely upon him. Fortunately, the geologist's work is gradually becoming easier with better prospects of success. At first very few geologic facts had been published concerning this region, and geologists working there were compelled to rely entirely upon their own observations. Even now, years after the discovery of the Ranger pool, published descriptions of the geology are scarce, and the newcomer in the field is badly handicapped. Even the United States Geological Survey, that first aid to the commercial geologist, has published comparatively little regarding this region—in fact, only two short bulletins, No. 726-g on the Lucas area, and No. 736-c, on the Wiles area, in Stephens county.

These bulletins discuss regions that are perhaps fully developed as the cost of development and the selling price of oil will at present justify, but the facts they present are applicable to adjacent areas and will furnish a safe foundation for geologic work. Such a foundation is particularly needed by geologists who are new in the region and who have therefore not become acquainted with the conditions.

The geology and oil and gas resources of an area in Osage county, Okla., just west of the Washington County line, in Tps. 26 and 27 N., R. 12 E., are described in Bulletin No. 686-Z of the United States Geological Survey, Department of the Interior, recently published. This report is the last chapter of Bulletin 686, which, together with Bulletins 641 and 691, covers all but eight townships in the south-central part of Osage county.

This chapter of Bulletin 686 deals with one of the parts of Osage county that was first exploited. Oil was discovered at Bartlesville, just east of the area mapped in Bulletin 686-Z, in 1894, but active drilling was not begun there until nearly ten years later. Drilling in Tps. 26 and 27 N., R. 12 E., was started in 1903, and has been continued intermittently ever since, but in spite of this long-continued drilling, the facts presented in the report just published indicate that the oil in these townships is not yet exhausted. Some of the producing fields may still be extended, and in certain areas distinct though probably small pools are sure to be found.

This report is of particular interest to geologists working in Osage county and in the areas adjoining it on the east, for it includes detailed descriptions of the formations that crop out in the townships covered and correlates them definitely with formations in Kansas. It also deals, though somewhat more briefly, with formations not exposed, giving particular attention to those that may yield oil.

The study of the geologic structure of the area considered in this report has shown that the anticlines in the Bartlesville sand do not directly underlie those in the surface beds; they lie north of the anticlines found at the surface. It is also noteworthy that all the most productive pools are associated with definite anticlines, except the Wiser Hill pool, in which the presence of oil is apparently due to faults.

A gambling casino has been opened in Moscow where, the papers say, "the play ranges from 10,000,000 to 100,000,000 rubles." Just the game to tone down after an exciting game of penny-ante.—Nashville Southern Lumberman.

Habitual Constipation Cured in 14 to 21 Days
"LAX-FOS WITH PEPIN" is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to insure regular action. It Stimulates and Refreshes. Very Pleasant to Take. 50¢ per bottle.

COLLEGE STATION EGG LAYING CONTEST RESULTS

The results from the ninth month of the Fifth Annual Egg-Laying Contest being held at the Texas Agricultural and Mechanical College of Texas bring out the following interesting facts:

The total egg production for July was 3128, a decrease of 252 under that of June. July has been a hot, dry month.

The birds consumed for the month 754 pounds of grain and 713 pounds of dry mash, a total of 1567 pounds of feed. It required 6 pounds of feed to produce one dozen eggs.

To date the birds have consumed 8027 pounds of grain and 8964 pounds of dry mash—in all 16,991 pounds producing 31,480 eggs, or 2,623 1-3 dozen.

At this season of the year sorehead, roup and similar troubles may be experienced. Be on the alert and do not allow this trouble to spread through your flock. The young growing stock will be the first to be affected. A very successful vaccine has been developed, that most satisfactorily checks and limits progressive troubles. When the trouble is first detected it is advisable to vaccinate the entire flock. The operation is simple and may be done by any poultry man with little experience. The vaccine is made and supplied by the Veterinary Department of the College and may be obtained at any time. It is sold to poultry raisers of the State at two cents per c. c., which is the dose for one bird. A growing bird requires the same amount as a mature one. Improper feeding, unsanitary surroundings and lack of good succulent green feed will increase the possibilities of this disease so these management factors should not be overlooked.

Entries are coming in daily for the Sixth Contest starting November 1st. Be among the alert, progressive breeders of this part of the country by getting a good pen in the contest before it is too late.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Lubbock.

Whereas, by virtue of an execution issued out of the Justice Court of Precinct No. 1, Lubbock County, Texas, on a judgment rendered in said Court on the 6th day of May, A. D. 1922 in favor of Clevie Smith Lumber Company, and against Mrs. Mollie D. Abernathy, No. 1243 on the Docket of said Court, and to me, as Sheriff, directed and delivered, I did on the 7th day of Sept., A. D. 1922, at 12 o'clock, levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to Mrs. Mollie D. Abernathy, to-wit:

Lots Fourteen (14) and Fifteen (15) in Block One Hundred and Eighteen (118), of the original town of Lubbock, in Lubbock County, Texas, and on the 3rd day of October, A. D. 1922, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on said day, at the Courthouse door of Lubbock County, Texas, in the town of Lubbock, I will offer for sale and sell at public auction, for cash, at the right, title and interest of the said Mrs. Mollie D. Abernathy in and to said property.

Witness my hand, this 7th day of September, A. D. 1922.

C. A. HOLCOMB, Sheriff of Lubbock County, Texas. 56-4F

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 25¢

Most men's idea of a living wage is about two dollars more than they get.—Portland Oregonian.

Opportunity

(NUMBER TWO)

Opportunity No. 1 is now gone, as we have just completed the sale of 6000 acres in Hockley County, and in the securing of Opportunity No. 2 we feel we have a proposition that is as good and for a Homeseeker's Chance—Can't Be Beat.

HERE IS YOUR CHANCE TO GET A HOME OF 177.1 ACRES

PRICE IS \$18.00 PER ACRE, and for the next six years your payments, with interest added, will not exceed one dollar per day.

TERMS AS FOLLOWS:
Amount you pay CASH is \$3.00 per acre.....\$531.30
You assume \$8.40 per acre (due Sept. 17th, 1922, interest payable in advance Sept. 17th each year at 5 1-2 per cent).....\$1487.65

Balance to be paid in Six Notes, (each for \$194.81 at 7 per cent interest payable annually on December 1st).....\$1168.85

The Cost of 177.1 acres at \$18 per acre is.....\$3187.80

LOCATION:—In Bailey County, Texas, Northwest of Lubbock, 15 miles west of Sudan and 10 miles south of Muleshoe, the county seat of Bailey County. The above towns are all on the main line of the Santa Fe Railroad.

DESCRIPTION:—One of the best farming counties on the South Plains, practically level, and 99 per cent tillable. We consider the quality of the SOIL the best on the Plains—peculiarly adapted to the growing of COTTON, Kafir, Milo, Feterrita, Sudan Grass, Cane, Corn, Wheat, Oats, Millet, and is one of the greatest Dairy, Hog and Poultry Countries in the South.

SOIL is a sandy loam, very rich and fertile, drouth resisting and easy to cultivate.

WATER:—An abundance of excellent WATER is available at a depth ranging from 50 to 100 feet. The rain fall here is that of the entire South Plains Country, from 22 to 25-in. annually. We leave LUBBOCK on TUESDAYS and FRIDAYS of each week at 5:35 A. M., on train for SUDAN, Where we have closed cars to take you out to inspect this LAND, and if you buy we pay your Rail Road fare both ways.

—If you are interested in the above LANDS, or other LANDS in this section of the Great South Plains, and want further particulars, and unbiased information about LANDS in this country, see

Only Trying to Be Agreeable

OF INTEREST TO THE FARMER

Corn Culture in Six-Foot Rows With Alternate Row of Peas
Mr. M. A. Leddy of Voca, is opening the eyes of his community by his practice of planting corn and peas in alternate rows, advises Geo. E. Ehlinger, county agent of McCulloch county, in his June report. Voca is in the sandy portion of McCulloch county and is one of the oldest settlements. The land is more or less rolling and naturally the old fields are nearly worn out due to continuous cotton and corn cropping and the effects of heavy rains.

Some seven years ago Mr. Leddy moved into this community from Oklahoma and bought a farm. When a short while later he added a twenty acre field to his holdings he was laughed at and his neighbors wanted to know what he was going to do with that worn out land, as it was almost too poor to sprout peas. However, the land was broken and planted to peas and these hogged off in the fall. This practice was continued for the next two years and the fourth year the field was planted to cotton. A heavy rain ruined the cotton in May which necessitated replanting and the yield was light. The following year the field was planted to corn and peas in alternate six foot rows. Twenty bushels of corn was harvested the following fall per acre, and the hogs harvested the peas. The next year, which was last year, the field was planted to corn and peas in alternate rows and 30 bushels of heavy corn was harvested per acre and the hogs again harvested the peas. This year the field is planted to cotton, and while the excessive rains have necessitated replanting, the cotton is now about knee high and promises a good yield while cotton just across the fence planted the same time, but on land which has been cropped to cotton and corn is less than half as large

and promises very little at present.—Extension Service.
Feeding Grain to Pigs Proves To Be Profitable

The pigs in the county which the club boys are feeding are in splendid condition and making fair growth advises county agent R. O. Dunkle-of-Gray county in his July report. These pigs are being fed a growing ration rather than a ration that will produce fat. It is the intention of each club member to increase the fat production feeds in the ration a short time before fair time in order to put the pigs in better show condition. Each club member and a few farmers who are feeding their grain crops have realized a greater profit through pork production than through marketing the feed on the market as a raw product. In one instance here one farmer has pastured seventy-five head of shoats on alfalfa with a grain ration fed in a self-feeder. These pigs have made an average gain of one and one-half to two pounds per day and the corn which he has been feeding is netting him \$1.25 per bushel which is about three times the present market price of corn. It is the intention of the swine breeders to so organize that they will be able to sell a few fat hogs each month through a shippers' association. Through this method of marketing each farmer will market his hogs co-operatively and it will be a source of income to each farmer every month during the year.—Farm News.

CROSBYTON

From The Review
Henry F. Starrett, that splendid citizen from across the canyon, was in town Wednesday and reported the cotton crop in his community turning out some better than expected. We asked him if he and Commissioner Wooten were still engaged in that "nefarious" business, and he said it got so hot for him several months ago that he was compelled to withdraw from that firm, and that he had not seen Andy in fully two months and did not know whether he was still "operating." A fine eleven and a half pound baby girl came to bless the home of Mr. and Mrs. B. L. Finley last Saturday, and Bert says he skinned both Mr. Dalton and Mr. McClung with a big, fine girl.

Mr. and Mrs. N. H. White returned some day ago from a visit to their son, Holley and family, of Southland. While there the stork came and left a fine little baby boy, which pleased the fond grandparents very much. Charlie O'Neal, one of the rustling young farmers from near old Emma, was here with a bale of cotton Tuesday morning. This was the first cotton he ever brought to Crosbyton. He says his cotton is turning out better than he thought, but that his feed crop is sorry.

Prof. J. K. Wester, superintendent of the Ralls high school, spent several hours in Crosbyton last Saturday on school business. While here he honored the Review with a pleasant call and subscribed for the paper. Prof. Wester has the reputation of being one of the best school men in the State, and he must be, for he is entering his sixth year as superintendent of the Ralls school, and if he was not a fine instructor, we know the wide-awake Ralls people would have fired him long ago. Judge Jake Mabe motored to Lubbock Sunday, and spent the day with his wife and children, who were visiting her sister, Mrs. J. W. Lemond and family.

E. N. McCracken from across the canyon, was in town Monday and had us to get him out some doggers advertising for cotton pickers. He says he now has at least 30 bales open in the field and he is rearing for pickers.

F. F. Gunn, who is farming across the canyon, was in town Monday with the fleecy staple of the Mebane variety which made a record that is hard to beat for a good turn out at the gin. From 1310 pounds of seed cotton he got a 514-pound bale. Good, isn't it?

Cashier W. S. McClung of the Citizens National Bank, is as happy as a successful politician this week, and he has a perfect right to be, for Mrs. McClung presented him with a fine little daughter at the Lubbock Sanitarium last week. Mr. McClung says she is all energy and just like her dad, and that she is going to do the cooking this winter.

Hon. Henry E. Webb, a brother of our cotton grader, J. C. Webb, was a visitor to Crosbyton Monday and again Wednesday. He is field man of the State Agricultural Department, and will spend a couple of weeks in the county on official business, with headquarters at Ralls. The Review editor has known Mr. Webb personally for the past ten years, and what we know about him is "a plenty," and it is pretty good, too. In other words, he is a splendid man. This is his first invasion of this part of the Plains and he has fallen in love with our country, as does everybody who is fortunate enough to come and cast their optics upon it.

PROMINENT STAMFORD CITIZEN BURIED LAST MONDAY

Stamford, Sept. 25.—J. L. Jones, 73, well known banker, merchant and ranchman, was buried this afternoon at Haskell. Jones was found dead in his bathroom Sunday with a pistol lying beside him. He was the owner of a number of oil wells. Surviving him are a widow and six children, three sons, L. W. of Westlaco, Chester L. of Colorado, and Oscar L. of Stamford; three daughters, Miss Thelma of Stamford, Mrs. Nell Graff of Dallas, and Mrs. W. L. Hills, Jr., of Rule. Mr. Jones had been in ill health for several months.

RETURN OF TINY KEEN BOOSTS AGGIE PROSPECTS

College Station, Sept. 21.—With the return of "Tiny" Keen to the Aggie lineup this week, Coach D. X. Bible has only one tackle to fill. Keen, who is from Kerens, Texas, has lost quite a bit of weight since last season. He weighs only 195 pounds at present, but will doubtless soon pick up when he swings into regular training.

This season will find Keen bidding far ahead of the average for a place on the Southwestern Conference "all" team. In every game the big boy played last season he threw fear and terror into the ranks of his opponents, it being practically impossible to box him out of a play on his side of the line. Time and again he broke through and downed the backs behind their own line. He possesses all the necessary qualities for a wonderful line man and with his staggering weight ought to outclass anything in the State. Aggie followers are predicting a wonderful season for the youthful giant.—Star Telegram.

Lubbock was fortunate to have the "little fellow" visit his brother here. Curtis A. Keen, editor-manager of the Plains Agricultural Journal, this summer, and many local people are deeply interested in his success in school work this year.

What "Tiny" is to football in A. and M. Curtis is to Lubbock with the boosting forces of the City, and we are sure that the sport lovers who will have the pleasure of seeing the giant in action on the grid will know something of the appreciation Lubbock has for his older brother as a town builder.

We understand that "Tiny" is right tackle on the Aggie team, and the only difference we find in that position and his brother's attitude toward the work of "tackling" the many problems that came up for consideration while he was secretary of the local Chamber of Commerce is that he didn't have any designated place from which to up and at them. Keen, however, must be credited for having gone into the work from the right angle, judging from the success he enjoyed, and again there is a similarity in the both's positions. At any rate the A. & M. football team has nothing on the City of Lubbock insofar as a "Tackler" is concerned, and may the boys enjoy equal success in their work as the wish of their many friends here.

SLIGHT INCREASE IN TEXAS RAILROAD EARNINGS

Net revenue in Texas railroads for the six months ending June 30, 1922, show a total balance of \$12,782,970, an increase of \$834,532, or 6.55 per cent, over the corresponding six months in 1921, according to a statement issued by the Railroad Commission. Operating revenues for the period were \$89,101,775, a decrease of 16.99 per cent, and operating expenses \$76,318,799, a decrease of 20 per cent.

Catarrah Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a local disease greatly influenced by constitutional conditions and in order to cure it you must take an internal remedy. Hall's Catarrah Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrah Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known combined with some of the best sanoc purifiers. The perfect combination of the ingredients in Hall's Catarrah Medicine is what produces such wonderful results in catarrah conditions. Send for testimonials free.

CITATION BY PUBLICATION

To the Sheriff or any Contable of Lubbock County, greeting:

You are hereby commanded to summon P. H. Eddy, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the County Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the third Monday in November, A. D. 1922, the same being the 20th day of November, A. D. 1922, then and there to answer a petition filed in said Court on the 12th day of September, A. D. 1922, in a suit, numbered on the docket of said Court No. 904, wherein, J. B. Earhart is plaintiff, and P. H. Eddy, is defendant, said petition alleging that November 17, 1920, defendant and G. W. Burns executed and delivered to plaintiff their certain note due on or before January 1, 1922, for \$495.00, payable at Lubbock, Texas, with interest from date at 10 per cent per annum, and providing that if same was not paid when due and placed with an attorney for collection, 10 per centum should be added as attorney's fees.

That said note is long past due and wholly unpaid, there being due \$495.00 principal, \$90.58 interest, and that plaintiff was forced to place same with an attorney for collection and that attorney's fees in the sum of \$58.50 are due by reason of the obligation in the note, and that same are reasonable and contracted to be paid.

Wherefore, plaintiff prays for citation in terms of the law, that upon hearing he have judgment for the amount of his note, interest and attorney's fees, and such other relief as in law or equity he may show

AMERICAN LEGION

40-8 Initiation Postponed

On account of preparations for the South Plains Fair and the booster trips sponsored by the Junior Chamber of Commerce last week, the public initiation which was to be put on by La Societe Des 40 Hommes Et 8 Chevaux, has been postponed until after the fair. The initiation was to have been staged on Thursday last, but the trade trip was considered of prime importance, and as most of the Legion men are members of the Junior Chamber of Commerce, it was necessary to call off the ceremony.

It is hoped now that by the sixth of October things will again be in motion for the celebration, and by that time the Society will be in better shape to put over the initiation, for this is the first ceremony of the kind to have been attempted publicly.

Through special efforts of this society in connection with the local American Legion, a French locomotive and box car has been secured for the parade opening the South Plains Fair. This part of the parade has been many months in assembly, and only through special efforts put forth by these boys has such a novelty been secured. Of course there are certain minor parts that the organization has not yet been able to get hold of, but these parts have been substituted through the skill and ingenuity of some of the engineers of the local bunch.

If you are not yet in the organization of La Societe Des 40 Hommes Et 8 Chevaux, and are eligible to membership, your application will be taken by any of the present members of the organization. You can leave the application with Col. Mullohan, Ralph Bedford, Bennett Slagle, or any of the other fifteen members whom you know to be in the organization. However, there are certain requirements that will be made of you before you can be accepted for membership. It is necessary that you be an ex-serviceman, and a member of the American Legion, and must have been a consistent member of this organization for at least three months. The Society is composed solely of American Legion men and is an organization within the Legion. If you are not yet in said society it is to be considered a privilege and is certainly "worth the money."

National Legion Convention To Be Held in New Orleans, Oct. 11th to 13th

The American Legion will hold its next National Convention at New Orleans from the 11th to 13th inclusive, of October. New Orleans is known as the Paris of the U. S. A., and a great time is assured every Legionnaire. Preparations are being made for the greatest and best convention yet held, and every Legion member who can possibly be in attendance is urged to attend. Pleasure, as well as business will be experienced. If you have never attended one of these conventions, you are quite the loser.

Special rates have been put in force by all the railroads leading into the metropolis. One way fare has been secured for the round trip, and identification slips can be gotten from local Adjutant A. B. Slagle, for presentation to local ticket agent. Get in touch with Slagle at once, so we may know how many are going. The reception committee at New Orleans are very urgent in their requests that every man who will be in attendance at the convention have their names sent in, in order that preparations may be made for their accommodation while

HEADACHE? BACKACHE?

A Beautiful Woman is Always a Well Woman.

Bird Song, Ark.—"For nearly two years I suffered fully with feminine trouble, which was caused by lifting heavy things, and seemingly I had five or six other complaints added to it. I suffered with the lower part of my back and had headache nearly all the time. I began to think there was nothing that would do me any good without an operation, but I thought I would try Dr. Pierce's remedies first. I took one bottle of Dr. Pierce's Favorite Prescription and one of 'Golden Medical Discovery', also used a box of Dr. Pierce's Purifying Lotion Tablets and one of the 'Healing Suppositories' and took the little 'Pleasant Pellets' to regulate my bowels and I felt like a new woman."—Mrs. Maggie D. White, Box 7.

Dr. Pierce's famous remedies can be procured from your druggist, tablets or liquid. Write Dr. Pierce, president, Invalids' Hotel in Buffalo, N. Y., for free medical advice.

in the city. Don't delay in this matter, but let the Adjutant have your name at once so that it may be sent in, otherwise it may be a hard matter to get accommodations while there.

Buddy, the Legion is gaining force every day, and you need a hand in this. A few years from now it will be considered a privilege to be a Legion man. Now is the time to start. We need you.

FARM LABOR UNION MEETING TO BE HELD IN ABERNATHY

President W. W. Fritzwater, of the Farm Labor Union of America, and other speakers of importance will be in Abernathy, Texas, on September 30, 1922, and will address the farmers at 2:30 p. m., on the importance of being organized. He will give you the reason that your condition is so bad, and will also tell the farmers how they might better their condition. He is fully able to handle this question from any angle, and will also answer any question that might be asked of him. The Farm Labor Union of Texas is now over 200,000 strong and getting new members every day. Come out and hear this great Labor leader—it is to your interest to do so. If you think you are not getting the right treatment and guess there will be no argument on that question.

We want every farmer, his wife, sons and daughters to come out and hear this able speaker.

MASONIC MEETINGS TO BE HELD IN TEXAS

Dallas, Sept. 22.—The Masonic Education and Service Committee of the Grand Lodge of Texas is presenting to the various lodges of the state a series of programs based on the bulletins issued by the Masonic Service Association of the United States. Approximately one hundred of these programs have been presented in Texas since March.

The committee has announced the following district meetings for the purpose of completing the state organization, at which all Masons are welcome and invited to attend: Masonic Service Meeting Dates: By order of the Grand Master, Brother D. Frank Johnson of Brownwood, the following Masonic Service and Education meetings have been called for the purpose of completing District organizations:

- Wichita Falls, District No. 2, on Tuesday, October 3.
- Amarillo District No. 3, Thursday, October 5.
- Plainview, Friday, October 6.
- Lubbock District No. 4, Saturday, October 7.
- Midland District No. 5, Monday, October 9.
- El Paso District No. 6, Wednesday, October 11.
- Brownwood District No. 7, October 14.
- San Antonio District No. 8, October 27.
- Houston District No. 9, Monday, October 23.
- Galveston District No. 10, Tuesday, October 24.
- Austin District No. 11, October 28.

A representative of the committee will be present to explain the plan of organization.

The committee is composed of Andrew L. Randell, chairman; Judge James W. McClendon, Austin, vice chairman; John T. Howerth, Dallas, secretary-treasurer; Walter T. Smith, Galveston and William W. Evans, El Paso.

THE IDEAL PURGATIVE

As a purgative, Chamberlain's Tablets are the exact things required. Strong enough for the most robust, mild enough for children. They cause an agreeable movement of the bowels without any of that terrible griping. They are easy and pleasant to take and agreeable in effect.

Mr. and Mrs. B. C. Rix left Thursday for a two weeks' visit with Mr. and Mrs. J. A. Rix at Lubbock. They will attend the South Plains Fair to be held at Lubbock September 28-29-30.—Big Spring Herald.

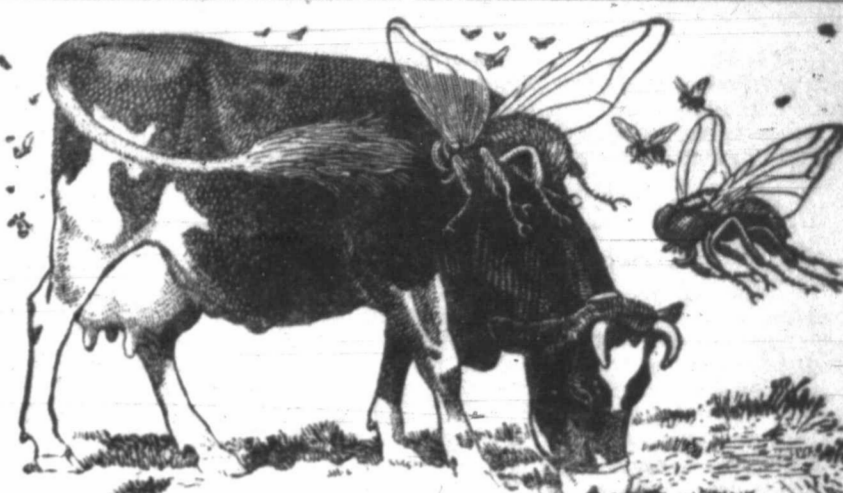

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVES' O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves' O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 50c. Just ask your druggist for HAYES' HEALING HONEY.

Don't fail to read the Avalanche.

The Foes that Attack the Summer Milk Flow

Between flies and drying pasture it is no wonder the milk falls off. Every day the cow robs her own body tissues more and more for enough protein and minerals to make milk. She can't keep this up long. She needs a balanced concentrate.

FEED COW CHOW NOW

Get 3 pounds more milk per day for every pound of Purina Cow Chow needed to balance grass. It will put your cows in good shape for fall and winter production. Try Cow Chow now and let your cows show you.

THINGS TO REMEMBER

Advertisers, contributors and all parties inter-
ested in the Avalanche please remember these
things: We print the Tuesday Avalanche on
Monday, press hour, 3:30 p. m. Friday Avalanche
on Thursdays, press hour 3:30 p. m. Please have
copy for local notices in not later than noon Mon-
days and Thursdays. Ad changes and copy should
not be later than 8:00 a. m., Mondays and Thurs-
days. It takes a schedule like this to get your ads
in the paper in good shape, and helps us give our
readers better service, which means that the paper
will be of better service to you, which we earnestly
desire it to be. We do not want to be exacting
but we must demand some things of you, if you ex-
pect us to come up to the notch.

SLOW DOWN

The other day in New York, just as a ferry-
boat left shore, a man came rushing across the
dock, and despite efforts made to stop him, tried
to leap aboard the craft. He failed in his attempt
and in an instant was floundering in deep water
where he probably would have perished if an avail-
able life-preserver had not been tossed to him.
When asked what important errand urged him to
take such a desperate chance, he said, "Oh, I was
going across to see the Jersey City-Montreal ball
game." In nearly every instance hurried actions
involving risk of loss of life or limbs have no better
excuse than that well-soaked baseball fan had to
offer. A fellow we know says that if he could afford
to buy the lumber and paint he would like to put
up a big notice at every railroad crossing in the
country, reading: "Why Hurry so Much at the
Crossing? You Will Die Soon Enough Anyway.
Better Stop, Look and Listen." Not one of us
folks who read the papers have failed to see dozens
of accounts of automobiles struck at public cross-
ings since the first of the year. You read these
sad narratives with a feeling of horror not unmixed
with a conviction that all this death and bereave-
ment might have been prevented either by less
hurry or more attentiveness. Haste Makes waste.
So great a man as Benjamin Franklin declared that
"Lack of care causes more mischief than lack of
knowledge." Nobody can claim that he is unin-
formed of the danger at the railroad crossings.
There is complete unanimity of opinion that the
danger is of a deadly character. Here then, is an
illustration of the truth of Franklin's statement;
lack of care is the outstanding reason for nearly
every crossing casualty. Why be in a hurry—why
be forgetful of railroad crossings? The victims of
overhurry and lack of care at that place of dan-
ger have been numbered by tens of thousands since
automobiles came into use.

Traveling men, who make a large territory,
and come to Lubbock only about four times a year
tell us that Lubbock is doing more real building
than any other town in West Texas, and possibly
in any other section of the State. This is a pre-
ty good indication that this section is just a little better
situated, and conditions are better than elsewhere.
This South Plains country is about the best there
is anyway. Diversified farming is the solution
of the farming problems, and it is the best and safest
way for the farmers to carry on their business.
The one crop territory is no longer popular, and
the farmers are becoming more and more attracted
by the diversified farming method, and the South
Plains is so well adapted to this that it has many
advantages over the sections that cannot produce
but the one crop.

TRADE WITH YOUR HOME MERCHANTS

Why? Because they are your friends. They
will help you when you are in need of a friend.
They will accommodate you when you are in need
of accommodations. When you spend your mon-
ey with your home merchants the money goes back
to you in some way or another. It is kept at home
and will eventually come back your way to be
spent again. Buying things away from home send-
ing it away where it will not come back, your mer-
chants and your town have lost just that much that
should have been kept at home to help the town
and community. Some people will say, "I just
can't get what I want—the merchants don't keep
things that I've got to have." By spending your
money at home you can create a demand so strong
that your merchants will keep all your wants sup-
plied. When you demand any article that you don't
find in stock, any merchant in Lubbock will be
only too glad to get it for you, and will cost you
less than if you sent for it, and you will have the
satisfaction of knowing that the money spent for
such an article will probably come back to you, or
at any rate is kept in your own home town to do
its bit helping to keep alive its improvements, in-
dustries, etc.

TAX SALE NO JOKE

Some people are inclined to take the matter of
selling property for taxes by the Lubbock Inde-
pendent School District as a huge joke, and that
such sales will not be made, and it will not amount
to anything, but you had better not fool yourself,
for the proceedings will go on, and on the 3rd
day of October there will be sold for taxes sev-
eral hundred tracts of land, town lots and other
property, some of it good residential property, too,
and you will find your home belonging to some
one else after the sale hour if you do not buy it
yourself or make satisfactory adjustments with the
collector before the hour of the sale. Just be-
cause you do not believe that it is right to sell your
property for school tax is no sign that it will not
be done, and the same reason will not hinder you
from having a terrible lot of trouble in getting your
property redeemed. Better straighten that tax up
and if there is any come back, get it later, for there
are no two ways about it the sale will be held, and
your property will be bought by some one and
he will have legal right to take possession of same.

The fellows who were wondering where the
South Plains counties would find anything to bring
to the South Plains this year will be worse
astonished than ever when they see the wonder-
ful exhibit of county, individual and community
farm products. It is just a lot better than the very
most optimistic believed was in the country after
the long dry spell, but such men as the editor of the
Avalanche and a lot more Lubbock boosters are
not surprised in the least. We have seen what was
considered short crop years before, in this section,
and the crops are always just a whole lot better
than the majority of people figure them out to be.
There are lots of farm products in Lubbock county
this year as well as in the fifteen or twenty coun-
ties represented at the fair. This is a wonderful
country, and when that is said the half has not
been told.

Many improvements are going on in the city.
The Santa Fe railroad being one among the heav-
iest investors in permanent improvements at this
time. They are spending a large amount of mon-
ey in the yards here and also greatly enlarging the
passenger station and improving the building.
This company is spending a large sum of money
and the improvement is greatly appreciated by
the people of this city.

Among the special editions that came to our
exchange table last week, were the Abilene Re-
porter with a 48 page special in celebration of the
West Texas fair at that city, and the Amarillo Tri-
bune with a Plains Panhandle Chamber of Com-
merce edition. Both these papers put out splen-
did papers, which were a credit to them and the
towns in which they were published, and we con-
gratulate each of them in the achievement.

Our city could be made much more attractive
by a lot of folks cleaning up their yards and alleys.
Let's do everything we can to make Lubbock
healthful and beautiful.

Save Money!
**By Giving Your Grocery Account
to US**

We will sell you at the very lowest price and personally
see that you get the best and freshest of everything that
you may want.

Give us your entire grocery bill for a few months and
see if your bill isn't less than when you divide your ac-
count between two or three stores.

We usually have everything that is to be had at the
right price.

OUR HOME ROAST COFFEE
"MARTIN'S BEST"

is better than ever. We have purchased a fine lot of
high grade green coffee that roasts well and has real
cup quality.

We will say without fear of successful contradiction, that we have the best coffee
that is sold in Lubbock! Or for that matter on the South Plains, and our price is
only 40c per pound for MARTIN'S BEST as against 50c or 60c for the other brands
and we will prove to you that ours is better if you will come to our store in the af-
ternoon and let Mrs. Martin serve you a cup of our coffee, free. When you are
eating at your favorite eating place, please request MARTIN'S BEST Coffee.
You will thank us for asking you to do this.

Merry Bidders Entertained Friday Afternoon

One of the prettiest and most enjoyed parties of the season was the one given by Mesdames R. B. Hutchinson and W. A. Myrick, Jr., at the lovely home of Mrs. Myrick on last Friday afternoon.

The house was gorgeously and beautifully decorated with a profusion of cut flowers in various colors. Six tables of enthusiastic players enjoyed the game of "42." At the close of the games the club had a business meeting and elected officers for the year, which were as follows: Mrs. Temple Ellis, president; Mrs. Sam T. Davis, vice-president; Mrs. K. Carter, secretary-treasurer. The outgoing officers were: Mrs. Charlie Middleton, president; and Mrs. F. V. Brown, secretary-treasurer. The outgoing officers have filled their office

exceptionally well and the entire club is grateful to them.

At the close of the afternoon the hostesses served delicious cake and ice cream topped with cherries. Those present were: Mesdames Anna Faulk, Bass Arnett, Rufus Rush, J. L. Stinson, Hal Bradley, George Wolfarth, Clifton Lindsey, E. P. Norwood, C. E. Maedgen, Sam T. Davis, F. V. Brown, Sam Cooper, Temple Ellis, Panch Arnett, K. Carter, A. B. Ellis, A. J. Mangledori, O. B. Trinkle, John Leonard, W. C. Rylander, Charles Middleton, J. C. Germany, A. M. Allen, O. F. Sen-sabaugh, and the hostesses, Mesdames R. B. Hutchinson and W. A. Myrick, Jr.

Circle Sixteen Forty-Two Club
Mr. and Mrs. G. H. Montgomery entertained the Circle Sixteen Forty-

Two Club Monday evening. The following played the every fascinating game of "42" until a late hour: Mr. and Mrs. H. W. Sims, Mr. and Mrs. O. B. Trinkle, Mr. and Mrs. W. C. Rylander, Mr. and Mrs. Sam T. Davis, Mr. and Mrs. A. B. Ellis, Mr. and Mrs. H. W. Stanton, Mr. and Mrs. G. H. Montgomery, Mrs. Elwin Wheelock and Dr. Ferguson.

At the close of the evening Mrs. Montgomery served delicious mince meat pie, topped with whipped cream and hot chocolate. The guests departed at a late hour declaring Mr. and Mrs. Montgomery delightful entertainers.

Miss Marie Jones of Dallas, is visiting her mother, Mrs. M. E. Jones at Lubbock.

Mr. J. B. Thomas from Slaton, was in Lubbock Monday, visiting with his mother, Mrs. A. E. Thomas, and sisters, Miss Olive Thomas and Mrs. Goodnight.

Beautiful Art Exhibit
Miss Lula Rushing, assisted by the fifth, sixth and seventh grades, gave a beautiful art exhibit at the Grammar school Saturday afternoon from three to five o'clock for the parents.

The upper hall of the Grammar School was very artistic and beautifully decorated with a profusion of flowers and crepe paper in blue and white, which is the Grammar school colors. Upon entering the hall, the first thing that caught one's attention was a pretty decorated booth where several girls presided over the punch bowl and a table was served. Many beautiful and useful articles were on exhibit such as waste baskets, raffir baskets of many different styles, book covers for kodak, receipt, joke, and scrap books, and many other articles too numerous to mention.

Through the courtesy of Miss Lotie Mae Cowart, there was a number of beautiful hand painted china and lovely hand painted pictures, the work of J. D. Jenkins of the sixth grade. Victrola music was enjoyed throughout the afternoon. Quite a number of parents visited the exhibit and especially the mothers. The art work done by the pupils was indeed a credit to them, and Miss Rushing deserves a lot of praise for the interest she has manifested in her work along this line.

"STOP THAT ITCHING"

Amarillo Ranchman Missing And Foul Play Is Suspected

The mysterious disappearance of Arthur E. Stinson of the Stinson Cattle Company Monday morning, and the finding of his automobile Tuesday morning near the Rock Island crossing east of the Great West Mill & Elevator Company, with considerable blood on the seat cushion, gives rise to the belief that there has been foul play, according to information given out at the Sheriff's department Tuesday afternoon.

Texas Rangers, members of the Sheriff's and Police Departments and citizens of Amarillo are scouring the country in search of the missing man, but up to a late hour Tuesday afternoon, he had not been located.

Mr. Stinson, who is 26 years old, left his home early Monday morning to feed his hogs near the dairy. He did not return Monday night and Tuesday morning the family became alarmed, instituting the immediate search.

Stinson is the son of J. D. Stinson, and has been working at the dairy business for the past few months. He was formerly with the Amarillo Grain Exchange.—Amarillo Tribune.

CENTER NEWS ITEMS OF INTEREST THIS WEEK

Everything is still dry, and the cotton will soon be all picked, if the weather stays favorable.

Mr. P. H. Haney and family returned from Ohio last week. They report a nice trip, with lots of scenery.

Edgar Abney took a bath of cotton to the gin last Wednesday.

Mr. Walter Overton's brother, from East Texas is visiting him. Miss Rena Habbinga and brother River, picked cotton for Mr. W. T. Nelson the past week.

We are very sorry to hear of Miss Erna Goeth being on the sick list. It is reported that she has blood poison. We hope for her early recovery.

Messrs. R. Reiken, Bert Sanford, W. A. Dunn, Ernest Jones and Edgar Abney, were among the Abernathy visitors last Saturday.

Mr. E. A. Abney was transacting business in this locality one day last week.

Mr. Wallace, who has been visiting relatives in East Texas for some time, returned home last Saturday.

Several from this vicinity were present at the party in the E. A. Abney home in the Badger Lake vicinity recently.

Mr. L. L. Reed and family, and brother, Frank, who live south of Idalou, attended church and Sunday school here last Sunday.

Misses Martha, Abney and Rena Habbinga, were visitors in the Dunn home Sunday.

A large crowd of young people gathered at the Rieken home Sunday and held a singing. All report an enjoyable time.

NEWS ITEMS OF INTEREST FROM SHALLOWATER

Everyone is busy getting ready for the big South Plains Fair. Yes, we will all be there one hundred percent strong with our booth, exhibits, baseball team, etc.

The Crump family attended church at Lubbock Sunday.

The farmers are very busy this week gathering the fleecy staple, and we are mighty glad to hear the farmers say "my cotton is going to be better than I thought it was."

Ward Crim of Monroe, was a caller in Shallowater Monday afternoon.

Mr. Southward has gone to Dallas to spend the winter months.

A large crowd was out to hear Rev. Clinton both Sunday morning and evening. Rev. Clinton has been coming here for nearly a year and has been preaching for nearly ten years. He held a two weeks' meeting at this place this last summer with much success. The Ku Klux left him a nice sum of money and the community subscribed over a hundred dollars. Rev. Clinton says this is the largest amount of money he has ever received for holding a meeting, which we think speaks exceedingly well for Shallowater.

A cross, sickly baby suffering from digestive troubles and looseness of the bowels needs McGee's Baby Elixir. It checks the bowels, eases the stomach and restores healthy conditions. Price 35c and 60c. Sold by City Drug Store.

MISS ALTA BURRUS IS YELL LEADER OF A. C. C.

Word was received here that Miss Alta Burrus, a graduate of the Lubbock High School, daughter of Mr. and Mrs. C. H. Burrus, 1216 10th Street, has been elected yell leader of the Abilene Christian College Athletic Association, and as Miss Burrus held that place with the local association last year, we have reason to know that the A. C. C. student body knows leadership at a glance. She has just completed her first week's work in that school, having entered there last Monday, and was given the yell leader's position at a meeting Saturday night.

LINDSEY NUNN OF AMARILLO HERE FOR THE BIG FAIR

Lindsey Nunn, the live, wide-awake business manager of the Amarillo Daily News, is here attending the South Plains Fair, and looking after the interests of his paper in this section of the Plains. Mr. Nunn is a booster for the entire Panhandle-Plains country, and his paper is giving a wonderful lot of good publicity to this section. Lubbock will be well presented to his readers during the fair by his special articles, which will be of great benefit in telling the world about Lubbock, and the wonders of the South Plains Fair.

All that is necessary to settle the railroad strike is for some genius to incite the strike-breakers to strike so that the strikers can have their jobs back as strike-breakers.—Nashville Southern-Lumberman.

INDIGESTION AND DYSPEPSIA OVERCOME

Victims of stomach trouble, indigestion, dyspepsia and their allied complaints find Tanlac an ever-ready source of relief and comfort. Thousands of people have re-found the joys of health by its use after everything else they tried had failed. Mrs. Mag. Schmitt, 3427 Franklin Ave., St. Louis, Mo., says:

"For the past two years I have hardly had any peace or comfort on account of indigestion. At night I had such bad gas pains I could not lie down and would often sit up or walk the floor. I now eat just anything without feeling a touch of indigestion."

Tanlac helps the stomach digest the food properly and eliminate waste. Soon the whole system is built up, the blood is purified and the entire body takes on new tone, vitality and energy. Get a bottle today and start on the road to health. For sale at all good drug-gists.

Dr. Ferguson, in Conley Bldg., is still making those splendid fitting plates at fifteen dollars. Phone 535. 51-1f

Governor of Oklahoma Will Address Business Congress

Tulsa, Okla., Sept. 21.—Announcement of the group of prominent business men, bankers, agriculturalists and captains of principal industries of this section of the country who will address general and group meetings of the Southwestern Business Congress in this city October 18 and 19, was made today by the local Chamber of Commerce. The corps of speakers who have accepted invitations to attend this important business gathering includes men from every section of the United States and thus makes it certain that the broadest possible outlook will be given to the problems discussed.

Governor J. B. A. Robertson of Oklahoma, will deliver the address of welcome on behalf of the Tulsa Chamber of Commerce, Northeastern Oklahoma Chamber of Commerce, and Oklahoma Chamber of Commerce, all of which organizations are co-operating in arranging for the congress.

Senator Robert L. Owen of Oklahoma, who recently returned from Europe where he made a careful survey of European finance, will address both the general conference

and group conferences of bankers. Agriculture will be one of the important subjects discussed at the conference. Among the speakers on this subject will be Colonel Clarence Ousley of Fort Worth, Texas, and assistant secretary of agriculture under Woodrow Wilson, Carl Williams, editor of the Oklahoma Farmer-Stockman.

Among the other prominent men who will address the congress are: Dr. H. J. Waters, editor of the Kansas City Weekly Star; Harry H. Rogers, vice president of the San Antonio Chamber of Commerce; John P. Frey, editor of the International Moulders Journal; David Beecroft, of New York City; John G. Lonsdale, St. Louis banker; Irving Fisher, professor of economics at Yale University, and a number of others.

IDLALOU NEWS ITEMS OF THE PAST WEEK

We are still in need of cotton pickers.

Our two girls are putting out about 85 bales per day.

Mrs. T. B. Walker and children, visited Mrs. Walker's parents, Mr. and Mrs. Warwick of Dickens City, all of last week.

Mr. and Mrs. Bowen of Plainview, are visiting Mrs. Bowen's sister, Mrs. Vanderslice.

Mr. Perry Hill of Canyon, is visiting his brother-in-law, Jess Joyner.

Mr. Earl Pipkin of Matador, came in last week to help Mr. Vanderslice in the barber shop.

Mr. Walrop sold his business house to Mr. Williams, who is putting in a grocery store.

Mr. Coleman of Lubbock, took over Mr. Summers' barber shop and is now ready for business. He is to move his family here next week.

Mr. Glaze traded his home and car for a farm south of Lubbock.

Miss Nora Sawyer, who has been attending school at Abilene, is now at home on a visit.

Mr. and Mrs. Vanderslice entertained at "42" Tuesday evening. Those present were: Misses Nora Sawyer, Margaret Warwick, Pearl Lambert, Viola Lambert; Messrs. Harland Holt, Earl Pipkin and Delbert Sawyer.

Mr. Smallin is having an addition built onto his home.

NEXT DOSE CALOMEL MAY SALIVATE YOU
It is Mercury, Quicksilver, Shocks Liver and Attacks Your Bones

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. Here's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you.

POST

From Post City Post

Scott Stanfield and wife, passed through Post Sunday, enroute to Lubbock, where Mrs. Stanfield goes to enter a Lubbock sanitarium for an operation.

The first annual session of the Garza County Baptist Association was held with the First Baptist Church at Post, Thursday and Friday of last week. The new association had nine churches represented in its first meeting. The officers for the year are as follows: T. J. Head, Southland, Mdr.; Mrs. Williams, Cap Rock, clerk; R. E. Cox, Post, treasurer. Rev. Jeff Davis of Abilene, was with us and represented the state work in the association.

The next annual session will be held at the Southland Baptist church beginning Thursday, before the first Sunday in September, 1923.

Last Thursday just before dark the little baby of Mr. and Mrs. Oscar Brannen in South Post, was bitten by a rattlesnake, and the next afternoon John Babb was bitten also. The baby was playing out on the sidewalk when it was bitten, and John H. was herding cattle when he got on his horse and attempted to kill a rattler which returned the bite and bit him twice in the hand. A doctor was summoned as quickly as possible and he was rushed to the sanitarium. Both baby and John H. are doing nicely and are not much the worse for the bites.

WILLIAM RUSSELL HERE IN "A SELF-MADE MAN"

William Russell, who is among the most popular of film stars, is offered in another Fox production at the R. & R. Lindsey Theatre, today. The film is called "A Self-Made Man," and describes the adventures of a young man who is sole heir to his father's fortune. The son drives a fast car and studies art with a capital A, but has little use for business. He breaks into the newspaper headlines because of his peculiar exploits, and his father in an angry moment disowns him. Then his sweetheart turns him down. The future seems black, but events prove him to be a go-getter, and he comes out at the top of the heap.

Reviews from cities where this photoplay has been shown recommend it very highly. It has many bits of amusing comedy, generally praiseworthy acting, artistic settings and direction of a high order. From all reports it is deserving of public patronage.

SCHOOL BOARD STARTS DRESS REFORM AT STOCKTON

Stockton, Kan.—A "school dress edict" has just been issued by the Stockton school board for boys and girls of the city schools during the coming year. Short skirts, silk dresses and French heels are tabooed for the misses during classes and the boys must not come to school in silk shirts.

The board's regulations were formulated, it was announced, with a view to co-operating with parents to secure a complete uniform for school "without financial hardships to any one."

Following are the regulations laid down:

"All new dresses made for school wear are to be of uniform middy suits with dark skirts and middy of any color.

"All students, boys, as well as girls are to wear lisle, cotton or wool hose.

"Girls are not to wear French heels to school.

"Girls who have gingham dresses or other kinds of wool or cotton frocks on hand are to be permitted to wear them, but all georgette blouses and silk dresses are to be barred from school wear. Boys are not to wear silk shirts.

"The length of school dresses shall be at least four inches below the knee."

Hill City, Logan, Norton, Plainville and Wakeeney are all understood to have adopted dress reform measures similar to those announced here.—The Dalhart Texan.

OCTOBER 9 TO BE NATIONAL FIRE PREVENTION DAY

Washington, D. C.—President Harding today issued a proclamation designating Monday, October 9, as National Fire Prevention Day. The fire waste in the United States year after year, the president declared, reaches appalling figures which are not approached in any other country. There ought to be especial effort, he added, to minimize such losses.

The Chamber of Commerce of the United States at the same time announced that local commercial bodies throughout the United States will take the lead in the observance of fire prevention week from October 2 to 9. The Chamber, it is said, has placed before business associations a suggested program for the week and in a statement said:

"Property valued at about \$7,869,000,000 was destroyed by fire in the United States during the forty years ending with 1922. The loss during the last year of this period was approximately six times as great as that of the first year."

"During the first seven months of the current year property valued at \$230,000,000 was added to the nation's ash heap."

WANTED—Clean cotton rags. Bring them to the Avalanche and get the cash for them. 51-1f

Republican Law-Makers Have Little Hope of Bonus Bill Coming Up Again During Harding's Administration

Washington, Sept. 24.—Republican members of Congress who were firm in their support for the soldier bonus legislation, and voted to override the President's veto, departing for their districts Saturday, admitted they believed the peak of the bonus sentiment had been attained and that the legislation in the future would not again muster the strength recorded in the House and Senate early this week.

Hope of securing approval of any bonus legislation during the Harding administration unless some new means is found for paying the bill may not be said to be generally entertained among the members.

The new means of meeting the expense which the administration would favor is a sales tax, which is accepted by Democrats, opposed to both, as meaning that the administration is willing to sanction the payment of a bonus in order to secure a sales tax. Once the sales tax is in operation the Democratic view is that a complete revision of the revenue would result and lessen the tax requirements upon those of large means.

New Bonus Bill Provisions.
The new bonus bill which is before Congress proposes to place the soldier upon the same basis as civilian employes of the Government during the war, by the payment of \$20 for each month of service, and return of all compulsory allotments and payments on account of Government insurance between April 5, 1917, and July 1, 1919, made by the service men. No plan is advanced for financing it.

The cost of this venture is estimated at \$2,000,000,000, whereas, the defeated measure would have cost in the neighborhood of \$5,000,000,000 or an estimated cost per capita of population of about \$50. At this estimate the defeated bonus would have cost the State of Texas \$233,050,000 for the period of its operation.

An extra session of Congress to consider the appropriation bills for the next fiscal year, and the ship subsidy legislation is expected for Nov. 15. Republicans are anticipating a difficult time in sustaining the administration's program as to the latter, and are leaving Washington convinced that the subsidy is of doubtful standing before the people.

Americans Not Shipminded.
J. Barstow Small, president of the Emergency Fleet Corporation, who recently returned from Europe, said in a statement today that Americans as yet, were not as "shipminded" as the British and that American bankers had not specialized in ship finance. Government aid is necessary, he added, until the general public learns more about ships and shipping.

Mr. Small is quoted as being certain that permanent Government operation is wholly impracticable because of the nature of the shipping business, added, however, that marked strides have been made during the last year toward putting the Government-owned fleet on something near a business basis.

Expect Fewer Republicans.
The administration is looking forward to a heavy reduction in the number of Republican members in the next Congress as an outcome of the November elections. Democrats share much the same view, and the more of the enthusiastic ones are counting upon a Democratic House.

Majority has created anxiety in administration circles, and it is said to have been one of the reasons for deciding an extra session in November as a means of relieving the short session terminating March 4, next, of off that is possible.

President Harding, as well as the Party leaders, is said to be impressed with the thought that the country "is fed up on Congress," and that it would do no harm to give both the Congress and the country a rest during 1923. If the present program is carried out the present Congress at its end in March will have been in session about twenty out of twenty-four months.

How Many People Are Killed Annually At R. R. Crossings?

Among the numerous "Doubting Thomases" who form a part of the population, there are some, here and there, who think that the number of automobile drivers killed or injured at railroad crossings is exaggerated. To all such we make the suggestion that they might keep a record for a month or so and see what the figures will show. Of course, outside of some big disasters the accounts of crossing accidents are not published far from the place where they happen. So you would miss a majority of the cases all over the country. Through the newspaper that you read you will get a lot of information, quite enough to start a record. There are clipping bureaus in the large cities that could furnish you a flood of such items. Seeing it is believing, so make a record and study it. Statistics show that 3,000 automobiles were struck at grade crossings in this country last year. In these accidents, over 2,000 men, women and children, were killed and over 3,000 others were injured. In dozens of instances whole families, numbering from four to six, were wiped out as completely as though a cyclone had struck them. A cyclone comes without warning, from an unexpected quarter. A train of cars always comes along a permanent track, so you will know where to find it. Ever since we were children we have known the fatal result of being struck by a locomotive. Nobody can plead ignorance of consequences. And yet, this very day, more than one driver, somewhere, will heedlessly drive onto the tracks, without looking or listening, and then a rushing train will demolish the car. In company with wife and children he will meet sudden death. A little thought—a little of the serious attention you give to your business affairs, would save you from such a fate. Are you doing anything to assist in the Careful Crossing Campaign? Don't trust to luck. Use common sense if you want to live long.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, invigorating Effect. 60c.

A FOREST BURIED UNDER THE CITY OF WASHINGTON

Evidence of the existence of an ancient swamp in which great trees flourished in the days long past, possibly contemporaneous with earliest man in America, has just been discovered in a deep excavation made for the foundation of a hotel under construction at Washington, D. C. At a depth of about 25 feet below the street level the excavation disclosed a layer of black swamp muck, containing large quantities of wood, tree trunks, and stumps. Some of the stumps are of great size, a few of them reaching a diameter of 9 or 10 feet. Much of the wood is well preserved, showing clearly the woody structure and the external markings of the bark. A preliminary examination indicates that one of the more common trees of this ancient swamp was cypress.

The story of the trees, however, is only a brief chapter of the whole geologic history shown in the excavation, which has just been examined by Chester K. Wentworth for the United States Geological Survey. Ages ago this part of the Atlantic Coast Plain was from time to time covered by the sea, into which streams swept vast quantities of mud, sand, gravel and boulders which formed thick deposits that covered large areas. When the region finally emerged from the sea the Potomac River cut its valley in these deposits, which were carried about here and there by smaller streams. The large boulders are derived from the granite on which the gravel lies, but some of the smaller pebbles come from parts of the Potomac basin beyond the Blue Ridge and others from veins of quartz in the granites of the Piedmont Plateau.

Over the layer of plant debris and muck in this old swamp fine sand and pebbles were laid down by streams of water during the glacial epoch, when the northern part of North America, as far south as northern Pennsylvania, was covered with immense sheets of thick ice, showing that the trees lived in the latter part of the Great Ice Age, which is variously estimated to have ended from 20,000 to 30,000 years ago.

Colds Cause Grip and Influenza
LAKATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine" — C. W. GROVE'S signature on box. 30c.

Announcement

THE FIRM OF COLLIER BROS. ANNOUNCE THE CHANGE IN NAME OF THE LUBBOCK MONUMENT WORKS TO THAT OF

South Plains Monument Company

The latter name will be familiar to many of the out-of-town readers of the Avalanche, as the South Plains Monument Company of Plainview has for many years, supplied the needs of other towns and communities around Lubbock in this line.

This, our third yard, we recently acquired on account of the possibilities of Lubbock as a distributing point, and because we believe that Lubbock is to be the City of the South Plains.

We would have our future customers bear in mind that freight is quite an item in the cost of a monument and as all the better granite and marble comes from Vermont, Massachusetts, or Georgia, we will be able to effect quite a saving as we ship everything in CAR LOTS and all carving, lettering, etc., is done at our yard.

We will be glad to have you call and inspect the work on display or a post card will bring our salesman to your home with no obligation on your part to buy unless you wish to do so.

Ironized Yeast Brings Marvelous Beauty to Skin

Science Now Proves How Complexion is Quickly Beautified Through the Blood

There is nothing in the world today which is producing such a sensation as this simple discovery! Pick out anyone who has healthy rosy cheeks and a ravishingly beautiful complexion, and you have picked out an individual whose blood

"Ironized Yeast Has Cleared My Skin Quickly and Gloriously!"

is rich with vitamins-and-iron. This recipe of Nature, "Ironized Yeast," is now being used by thousands of men and women with startling, yet perfectly natural, results. It gives you yeast-vitamins-ironized, containing iron in the form in which it exists in the human body. It is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Muddiness, that great beauty robber, gives way to a lily-purity which nothing else on earth can produce. Pimples, blackheads, spots, eruptions? They become practically an impossibility! Rosy cheeks, firmer and younger looking skin, rose-petal purity, velvety softness—all natural! Imagine such a skin further beautified by your favorite cream and powder. To think of it is lovely. To have it, a modern miracle! Begin taking Ironized Yeast today. There is only one Ironized Yeast in the world, sold by all druggists at \$1.00 a package. Each package contains 60 tablets, each tablet is sealed. They never lose their power. Get only Ironized Yeast Co., Atlanta, Ga. Get ready to be supremely happy.

Before Any Buick Dealer Can Put Up This Sign—

A Buick dealer must meet these definite qualifications set by the Buick Motor Company, before he is authorized to render Buick service:

1. Mechanics trained as experts on Buick cars.
2. Modern equipment making possible the most exact workmanship in the shortest possible time.
3. A complete stock of genuine Buick parts based on the number of Buick cars in his community.
4. Be in full agreement with the uniform Buick service policy of courtesy and fair dealing with the public.

Wherever you see the authorized Buick service sign—and several thousand do the country—you will know that first-class service for your Buick car is available.

as Quinine That Does Not Affect the Head because of its tonic and laxative effect. LAXATIVE BROMO QUININE is better than ordinary quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE.

Slaton Chamber of Commerce in Charge of Lubbock County Exhibit At the Abilene West Texas Fair

Lubbock county's agricultural exhibit is here. One of the most comprehensive, well selected county agricultural exhibits ever shown at any county fair in Texas, consisting of almost all of the kaffir family of grain sorghums, such as red and white kaffir, red and white maize, fetterita, orange and red seed ribbon cane, black and red top sorghum cane, all of the above being shown in heads and in bundles, sudan, red and white Indian corn, winter and spring wheat, oats, barley, peanuts, also a stalk of tobacco.

Vegetables, such as beans, garden and field peas, cabbage, red and white onions, tomatoes, cucumbers, beets, radishes, sweet and hot peppers, sweet and Irish potatoes, two varieties of pumpkins, four water-melons, kershaws, gourds, rhubarb, okra and turnips.

Fruits, such as peaches, apples, plums, figs, also twenty-four jars canned fruits and vegetables of different kinds and varieties including grapes, strawberries, etc., also the butter bean which grows a bean more than two feet long, and exhibiting the famous jack-bean stalk with its sword-like pods.

This exhibit was gathered and is shown exclusively by the Slaton chamber of commerce and is under the management of J. T. Overby, of the real estate firm of R. J. Murray & Co., and J. C. Stewart, another real estate broker of Slaton, who are here now decorating, dressing and equipping the Lubbock county booth for the great West Texas Fair, after having hied themselves to the gardens, farms and cellars to accumulate, pack and ship this agricultural exhibit.

Slaton, which is located in the southeast part of Lubbock county just above the cap-rock, is now a city of more than 3,500 people when but 11 years ago it was prairie in the heart of a big ranch, inhabited at that time by prairie dogs, coyotes, and antelopes.

There are more than 30 views of Slaton being shown of street scenes, business houses, churches and residences, also a picture of Slaton in 1911 and a larger one of today which is interesting and illustrative of the rapid but substantial growth of the West Texas town.

Farm Land and Products
Despite the extreme drought this year Slaton territory is making an average of 1-4 bale cotton per acre, and with the increased acreage is producing more cotton than last year. Maize is producing from 3-4 to a ton per acre. The wheat crop this year was good, producing from 15 to 20 bushels per acre, while many farmers threshed from 20 to 25 bushels per acre. The soil is a deep red sandy land to a black sandy land with some deep shinnery sand.

Stock Raising
While much of this territory is now in farms, there is considerable cattle raising, also much interest in hog-raising the last few years and many thousand heads of cattle and hogs are fattened on the grain sorghum and hay crop of these farms.

Progress in Building
Two new gins just completed this year making four gins at Slaton, one of the best cotton compresses in Texas, an 18-ton ice plant now under construction. The Slaton district voted \$25,000 for good roads which will be used immediately for the improvement of Slaton grade territory including two crossings across the Yellowhouse canyon just north of Slaton. There is also under construction a \$50,000 school building. The Slaton scholastic census is 1025 for 1922. The Santa Fe railroad shops are located here and the pay roll is more than \$60,000 per month.

There will be on exhibit each day one quart of liquid corn. It is estimated that Slaton's corn crop is producing at least one barrel per acre.—Abilene Reporter.

THE KEY THAT UNLOCKS THE DOOR OF LONG LIVING

The men of eighty-five and ninety years of age are not the rotund, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.

54-41F

FARMERS MUST BE CAREFUL IN SELECTING WHEAT SEED

Owing to disastrous conditions, making our wheat crop in West Texas practically a failure and particularly in this district, the question of good seed wheat should be interesting the minds of our farmers and they should be looking out for good seed. Of course it has not rained for an age and some are holding back no doubt on that account, but it has always rained, as the Lord said in the beginning that it would rain upon the just and unjust, and in that case rain should reach all of us.

We ought to be looking out for seed wheat suitable to produce the best results. It has been demonstrated to all who tried it out that good seed produce the best yield and the small extra cost for good seed over the ordinary seed will pay big dividends. There is perhaps enough good seed in the country to supply the local requirements and it behooves every farmer to secure or arrange for what seed he will want before it is all shipped out of the country, and in this way eliminate the necessity of paying the freight on the seed if it must be shipped back.

No one is capable of advising what crop will be best to depend on or when to plant it, but it is a fact, that if we get no more than pasturing from the wheat it will be well worth the time and expense of planting a big acreage, at least there should be some on every farm. Conditions are very abnormal and there never was a time as now when there should be thought and precaution in forcing ahead. We cannot afford to give up at this stage of the game. Wheat was short, row crops lack a lot of being normal, range is poor, and lots of the hogs are being rushed on the market but the fellow who will buckle down and do his best will win without a doubt.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule there is more or less stomach disturbance. CHAMBERLAIN'S CASTLEBERRY CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or die the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

PAMPA MAYOR NAMED HIGHWAY REPRESENTATIVE

Pampa, Texas, Sept. 24.—Mayor F. D. Reid of Pampa has been named Panhandle-Plains Representative of the Texas Highway Association. The appointment was made by Secretary W. T. Wheeler.

There is no ignoring the fact that the League of Nations is still vital enough to carry on operations which must involve a considerable expense account.—Washington Star.

"The Store of Quality and Service"

Jennings Confident Lubbock Co. Exhibit Will Win at Dallas

Everything is set for Lubbock County to take the prize at the Dallas Fair this year, and County Agent J. W. Jennings declares that if we do not make a showing it will surprise him.

The exhibits which will be displayed at the fair this year are stored in a room of the courthouse where Mr. Jennings is assorting them, to make the exhibit the most attractive one at the fair.

The fact that the drought has hurt crops in this section does not indicate that crops will not be at its best, for it is proven this year that regardless of dry weather the plains country is in a class to itself as a producer.

An Avalanche reporter was shown through the store room Tuesday morning, and though we have at all times felt that there is a tendency toward discounting our crops this year to a great extent, and have tried to remain along the top list of optimists as regards this feature of our country, we learned on this trip to the exhibit room that we have been a little off as to the real value of Lubbock county lands, and we believe that anyone who will take advantage of an opportunity to witness the things that have been accomplished here in raising prize agricultural products that they will also be awakened to a keener understanding of the great possibilities along those lines here.

The Chamber of Commerce force, home demonstration agent, and the county agent have worked faithfully, and the farmers and truck growers have co-operated with them well in preparing the greatest exhibit to be shown from here, and should the Lubbock county exhibit be realized to be the best at the fair by the judges it will be no surprise to us.

Geo. W. Briggs and Mr. Jennings will take the exhibit to Dallas.

CHILDREN BURNED TO DEATH IN A FIRE NEAR HERMLEIGH

Hermleigh, Texas, Sept. 23.—Thursday about noon two small Mexican children were burned to death on the E. Schattle farm five miles south of here. The parents of the children and some other Mexicans were picking cotton some distance from the wagon where the children were asleep. The wagon had high frame fixed with springs and bedding on top. Under the bed were two trunks which contained clothing and about \$35 in money.

When the fire was first noticed a rush to the wagon by all of the pickers were begun, but too late to save the children. One of them was seen to rise up in the flames and then fall back. It is supposed the children woke up and got off the bed and underneath, where they

Culture of Grapes Proving Profitable On South Plains

C. H. Dyar caused a near-panic and almost broke up the luncheon of the Chamber of Commerce Monday noon. Just before the close of the luncheon Mr. Dyar stated that the ladies of the Music Study Club had asked him to call for volunteers at the table to go to the courthouse and move their piano from the first floor to the basement.

of heavyweights like H. L. Broadwell and F. H. Oberthier, headed for the courthouse. On the way two husky recruits in the persons of C. C. Rockwell and Bill Carroll were signed up. "Rock" looked the volunteers over carefully, then remarked to Carroll: "Come on Bill, it's up to us!" Just who did the real work is still under debate, but that piano was moved for the ladies.

L. F. Landrum, made an excellent talk on the grape as a commercial possibility under irrigation. Mr. Landrum said he had raised nineteen grape crops in this country and seventeen of them fruited nicely. Late frosts in May of two years out of nineteen had prevented crops in those years. He said that grapes were long-lived, there being some vines here now over twenty years of age, and that if neglected they would still live, and though not very productive, while they would come to life quickly and deliver a big profit if watered and well-cared for. Practically all varieties do well here. He estimated conservatively that 688 vines could be set out to the acre and twenty pounds of grapes to the vine would yield about \$700 per acre at the market price of four or five cents. Of course it costs more to harvest and handle a grape crop than a kafir or wheat crop. But the profit is here, Mr. Landrum declared, if water and proper care and cultivation are given the vines. He hoped to see the time come when some enterprising irrigation farmer would plant several acres and test out the commercial possibilities of this country.

Ask Any Carpenter

If there is any real economy in cheap lumber?

Lumber that is uneven in thickness, that is cracked or half seasoned results in loss of carpenters time and proves an extravagance rather than an economy.

Long-Bell trade-marked lumber is of uniform high quality, and is real economy. It can be easily identified by the brand on the end of the board.

LIFE INSURANCE

The man who insures his life against death also insures loved ones against poverty.

It is natural that you should admire the man who looks into the future welfare of loved ones.

NEIL H. WRIGHT

Representing Southland Life Insurance Co.

F. H. Oberthier also made a good grape talk, stating that in his opinion it was the most feasible money crop in prospect. The Chamber of Commerce is now engaged in collecting data on the grape, its cultivation and marketing, etc., which will be given publicity from a local standpoint in the near future.

Gaeston Baer, a new member of the Chamber of Commerce, attended his first weekly dinner and was welcomed.—Hereford Brand.

NO SUBSTITUTE OFFERED

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy, when the best medicine for diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon.

BROWNFIELD

The Terry County Herald Curtis A. Keen, editor of the Plains Agricultural Journal, was here last week in the interest of that splendid journal. He is getting out a special Terry county section this coming month, and many Brownfield firms will have ads in it. He informed the editor that he found a set of splendid business men in Brownfield, and during all his afternoon stay in town did not find a single grouch. He said that was a record that any town should be proud of, and that he was sure the Herald man appreciated doing business with such citizens and business men. We assured Mr. Keen that the Brownfield business men were the salt of the earth in our estimation. Curtis A. Keen has the pep that will make a Plains agricultural paper go.

Rev. J. E. Anderson, former pastor of the Baptist church at this place, notified us this week to

change his Herald from Mt. Vernon, Ill., to Marion, Ill. He has resigned from the pastorate of the former church and has accepted a call from the latter place. He is now located where the mine massacre recently occurred, and says he will write an article on the massacre as he saw it for the Herald before long.

On Sunday, September 17th, at the home of J. A. Miller, the Presbyterian Sunday school of Brownfield gave a dinner in honor of their Superintendent, Mr. W. H. Dallas. Some curious members having discovered that Mr. Dallas was having a birthday at this time, the result was the great ingathering of everything good to eat from chicken down to angel food cake. Mr. Dallas was presented with a very handsome safety razor by the Sunday School members as a token of affection and esteem, and appreciation of his faithful services both in the Sunday School and the church.

Nathaniel W. Broughton, a brother of Judge D. J. Broughton of this city, and Ben Broughton of near Gomez, passed away at the home of Judge Broughton last Thursday at 11 a. m. Mr. Broughton came here sometime ago thinking his health would improve, but he gradually grew weaker until the end came. He was badly afflicted with rheumatism. The body was laid to rest in the Brownfield cemetery last Friday just before noon. Rev. J. W. Baughman, pastor of the Methodist church conducting the funeral, in the absence of the Baptist pastor, of which church he was a member.

Owners of horses and blooded stock are large users of Liquid Borzone. It heals wounds, festering sores, barbed wire cuts by a mild power that leaves no disfiguring scars. Price 30c, 60c, and \$1.20. Sold by City Drug Store.

COTTON CROP AROUND ROSCOE EXCEEDS LAST YEAR

Sweetwater, Sept. 23.—Twenty five hundred bales of cotton, exclusive of that belonging to the Farm Bureau, have been received at Roscoe, seven miles west of Sweetwater, with less than half the crop gathered.

It is estimated that the season's crop will amount to 5,000 bales, which was the amount ginned in 1921. Some of the fields have not been picked the third time. Many fields are making a third of a bale to the acre and some acreage has

even a better staple. Roscoe gins have been working overtime for several days and the heavy run will continue for several days longer.

NO MAGIC GOLD FINDER

There is no instrument that you can use to discover gold supposed to have been in an iron pot or steel safety box, writes the Director of the United States Geological Survey to a correspondent. Iron ore beds extending over large areas have been prospected for with success by

means of the so-called "dip needle" but this instrument would not indicate the presence of a single pot or vessel in a particular spot. Neither is there any instrument that would indicate the presence of gold and silver or their ores. Iron attracts the "needle," but gold and silver, however attractive to man, are not magnetic.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Lubbock county, greeting:

You are hereby commanded to summon J. C. Potter, and Mrs. J. C. Potter, and the heirs and legal representatives of said J. C. Potter, and the heirs and legal representatives of Mrs. J. C. Potter, (the names of all said heirs being unknown), by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in December, A. D. 1922, the same being the 11th day of December, A. D. 1922, then and there to answer a petition filed in said Court on the 20th day of September, A. D. 1922, in a suit, numbered on the docket of said Court No. 1630, wherein E. Gilliland is plaintiff, and J. C. Potter, and Mrs. J. C. Potter, and the heirs and legal representatives of said J. C. Potter, and the heirs and legal representatives of Mrs. J. C. Potter, are defendants, and said petition alleging:

Plaintiff sues in trespass to try title, for title and possession of Lot 7, in Block 150, in the town of Lubbock, Lubbock County, Texas. That F. V. Brown conveyed said land to J. C. Potter on January 5, 1921, retaining a lien securing two notes, one of which matured on July 5, 1922; that default was made in payment thereof, and under provisions in each note, plaintiff as owner of both notes declared the last one due also. That F. V. Brown payee in said notes transferred them to plaintiff; and also conveyed to plaintiff the superior title to said land. Plaintiff has elected to rescind the sale to J. C. Potter, and claim and hold the land.

Herein fail not, but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this 20th day of September, A. D. 1922.

(Seal) LOUIE F. MOORE, Clerk of District Court, Lubbock County, Texas. 60-4F

a day during the conference made a few remarks, which satisfied those who heard him that in the sermons to follow there will be something great to be heard. There were a number of visiting ministers present, and also some lay delegates. Most of the delegates and visitors however, arrived today, and are being entertained in the homes of the Methodist people of this city, as well as some of the families of other denominations.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Lubbock. Whereas, by virtue of an execution Order of Sale issued out of the District Court of Lubbock county, Texas, on a judgment rendered in said Court on the 16th day of August, A. D. 1922, in favor of the Panhandle Construction Company, and against The Continental Commission Company, No. 1528 on the docket of said court, and to me, as Sheriff, directed and delivered, I did, on the 27th day of September, A. D. 1922, at 11:00 o'clock a. m., levy upon the following described tract and parcels of land situated in Lubbock County, Texas, and belonging to The Continental Commission Company, to-wit: Lot No. 19, Block No. 104, original town of Lubbock, Lubbock County, Texas. On the 7th day of November, A. D. 1922, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the Courthouse door of Lubbock County, Texas, I will offer for sale at public auction, for cash, all the right, title and interest of the said Continental Commission Company in and to said property. Witness my hand, this the 27th day of September, A. D. 1922. C. A. HOLCOMB, Sheriff of Lubbock County, Texas. 62-4f

ANNOUNCEMENT

Mr. Alvis O. Thomas, of Fort Worth, musician, singer and composer, will be here at the Baptist Church Sunday, and a program to be carried out under his directions is being made by L. M. Brooks, to be rendered Sunday night in interest of a string class. Mr. Thomas is well known throughout Texas, having composed more gospel songs that are popular than any other man in the State, and to have the opportunity to hear him is indeed a treat. If you fail to attend this program you will miss something which could be of great value to you.—Lubbock Baptist Church. 61-2.

HOWARD GRADUATES ELIGIBLE FOR ARMY

Big Spring, Sept. 26.—Harry Wheelon and E. D. Notestine are eligible for commissions in the United States Army if they desire to accept them. They were included among the 36 who graduated from A. and M. College in the class of 1922 and have been designated honor graduates, making them eligible for appointments as lieutenants in the regular army without examination.

NINTH ANNUAL SOUTH PLAINS FAIR OPENED TODAY

(Continued from first page)

interest in proper care of the livestock about them.

Newman Boles, son of a prominent Hereford breeder, and also a member of the Animal Husbandry class last year, is showing five Hereford registered heifers that he fed, and fitted for this occasion. His father is also showing some of his Herefords, which young Boles was instrumental in putting in such fine shape. Many others also have exhibits in this department.

The livestock exhibits will make anyone sit up and take notice. The three sheep and goats dissolve the theory that good ones cannot be raised profitably here, and the young mules and horses mark this country excellent as the home of fine specimens in those breeds.

The poultry exhibit hall is beyond criticism, and L. C. Ellis, in charge of this department, is to be congratulated on having created such a widespread interest in this department, as practically all principal towns in West Texas are represented by citizens who have made entries in this department. The rabbits are exceptionally fine, and we are glad to know that such interest has been shown in this department. Mr. Jamison of Post City, and S. A. Ribble, of Lubbock are the exhibitors in this department, and deserve much credit for the splendid showings made.

The Industrial Building. Withal Lubbock has made an impression on the minds of those who are here for the fair that will make forgetting the city's part of the great fair almost impossible, as the various businesses of the city have their booths so artistically arranged that they are indeed a credit to the city, and the various businesses are competing for championship in this department.

The Industrial Hall under the directions of L. Earl Hunt, is a success, with the automobile and truck department, under the directions of George Benson making that part of the program exact in every detail. The machinery and implements departments, as well as the automobiles and trucks, are shown under two large tents, which are spacious, and give good display.

L. C. Davis, of Webb City, Mo., was here last week in conference with the management of the Provena Cigar Company, wholesale distributors, having spent the entire week here, looking into the possibilities of the trade territory covered by the new Lubbock firm. There are wonderful possibilities here for any business which is backed by wide awake business men, and we are sure the success of the local business men depends entirely upon the work put back of the tasks that are before them.

A lazy no-account feeling with yawning and sleepiness in the day time is caused by a torpid liver and disordered bowels. Herbine is a splendid remedy for such ailments. It cleanses the system and restores vim and activity. Price 60c. Sold by City Drug Store.

25 CARS OF CALVES SHIPPED AT MIDLAND

Midland, Sept. 25.—A cattle deal of more than usual interest to the Source was consummated in Midland last week when Barrier Brothers shipped out 25 cars of feeder calves to various corn belt feeders.

The remarkable feature of these calves was their unusual size. One lot of steers averaged 510 pounds, one lot of steer and heifer calves averaged 467 pounds, and it is said that the entire shipment will be in fine shape for putting on weight rapidly when they reach their destination.

WANTED—2 men to room and board, if interested call phone No. 673-M. 61-4

WE DELIVER

Wallace Barber, of the Provena Cigar Company, new business institution in Lubbock, devoted entirely to taking care of the wholesale trade, left Wednesday for an extended trip over the West Texas territory, going from here to Wichita Falls from where he will work all towns to the New Mexico line, taking an absolute sweep of the territory, which will, in view of the bigness of the territory, require a great deal of time.

THE LUBBOCK AVALANCHE

VOLUME XXIII. No. 62.

LUBBOCK, LUBBOCK COUNTY, TEXAS, FRIDAY, SEPTEMBER 29, 1922.

PUBLISHED TWICE A WEEK

SECOND DAY OF FAIR BRINGS LARGER ATTENDANCE

JUDGING OF EXHIBITS TODAY HAS TAKEN MUCH TIME--WONDERFUL EXHIBITS ATTRACTING ATTENTION

Crosby County Won Prize For County Exhibit With Terry County Second--Many Blue Ribbons Decorate the Exhibition Booths and the Hog Pens--Competitors Have Made Wonderful Display in Every Department--Ball Games, Rodeo, Airplanes, Etc., Furnish Much Amusement for the People.

Notwithstanding the fact that the big parade which opened the fair yesterday morning was participated in by many local people, who no account of pressing business and home demands, were unable to be at the opening of the second day of the fair this morning, the crowd eclipsed in number the yesterday's crowds, and until noon cars from many adjoining towns were arriving hourly.

The fair attendance exceeded the expectations of the management, and those interested in the South Plains Fair Association, and the many visitors express themselves as being surprised with the many features of the fair, being so far ahead of what they expected to find here, gives rise to the opinion that already a great institution is recognizable in the Association.

The agricultural, industrial and poultry exhibits far exceed in number and appearance those featured at the last year's fair, while the livestock departments are equally advanced.

The judges of the livestock, Ray C. Mowery, of Lubbock and A. L. Ward, of the Extension Department of A. & M. College, were busy yesterday evening and this morning making decisions on hogs, horses, cattle and sheep.

Mr. Nunn, of Amarillo Daily News Attended Fair

Lindsay Nunn, business manager of the Amarillo Daily News, left this morning for his home after spending a great deal of time here gathering information relative to our fair, on which he has written special articles for that well-circulated West Texas daily.

While in Lubbock Mr. Nunn spent some time at the Avalanche office, and we are glad to learn that his opinion of the fair in session here is a good one, and he is optimistic as to its final outcome.

He is hopeful of continued success of the South Plains Fair Association, and complimented the management for the progress made in the work.

Mr. Nunn is a believer in the superiority of the soil of the great South Plains, and a booster for everything designed to further the interests of our agriculturists.

Amaryllis Flour Booth in Agricultural Building

The Great Western Mill & Elevator Company, of Amarillo, makers of Amaryllis flour, is well represented at the great fair here, as the salesman, Mr. S. P. Smith, has a splendid booth in the Agricultural Building, which is attracting much attention.

The Hodges Brothers Mercantile Company, local dealers handling Amaryllis flour, are also interested in the booth, and have souvenirs for the visitors.

Garza County is Well Presented At the Fair

In yesterday's issue of the Avalanche we gave an account of those who were here with the various community, individual and county booths, and in the write-up failed to mention that the Garza county booth was in the showing.

This came out due to the fact that the Garza exhibits were delayed on the road, and the sign above the booth was not put out until we had completed the write-up of the exhibits.

Messrs. George Samson and G. N. Laggart, of Post City, arrived in Lubbock Friday, but were helpless insofar as arranging the booth was concerned on account of a delay in the shipment of the exhibits, but their being last in the showing does not indicate in any means that they are least among the exhibitors, as though the above mentioned gentlemen declare that they are here to boost Post City and Garza County and do not hope to get a prize on account of the haste with which the booth was prepared, they have one of the finest showings on the ground, and give Garza county credit for having the only exhibit of cotton shown in all states of agriculture and manufacture, as from the Post-Tex Mills and the farms of that county they have gathered the fleecy staple in forms from the opened boll to the manufactured cloth, which is indeed a great feature of the fair, and shows something of the industrial as well as the agricultural life of West Texas.

Mr. Samson has also in the poultry building a showing of fine rabbits, four breeds in all, which are a credit to his knowledge of keeping them, and they are a great addition to the exhibits in that building, in that there are specimens shown there not known to a good many of those attending the fair, which naturally adds to the interest shown in that department.

Industrial Building
The industrial building booths this year are bigger, better, more elaborate and attractive than ever, and if we were to be asked to feel the pulse of Lubbock we would most certainly come in contact with that

building, and look over the many displays, which show keen interest in the fair by Lubbock businessmen.

At the northwest corner of the building the Avalanche and Palms Journal booth was arranged for the convenience of those who wish to renew or subscribe for the papers, a subscriber having handed the editor two dollars, and explained that he kept tab on his subscription by paying it the first day of the fair each year, which is not a bad plan by any means, and we were glad to have him again become identified with those who are helping us to continue the publication of this paper.

A profession of leather, incased in a booth walled with mono-colored saddle blankets, with the name "O. W. Jolly" made into a piece of fine leather, proves that that live businessman is eager to have the visitors know that he is willing to spend a little money, time and effort to become associated with those who are making the fair a going annual event for Lubbock and the great South Plains. Mr. Jolly's display of leather is complete, everything that is made of the flexible material is shown in his booth.

Occupying the center space in the north end of the building, the Western Windmill Company is located, with its revolving five-walled hanger of everything that is carried in a shelf hardware stock, which is propelled by a motor of a washing machine, which is also displayed, makes that a very interesting booth, and the rifles topping the hanger makes the hunter think of the days that shall be spent hunting through the winter, and we are sure that at that time the hunter will have something to remember about the booth at the fair.

The Mueller Furnace Company, of Lubbock, occupies a well arranged booth, which demonstrates beautifully the convenience and well appearing design of furnaces, which the dealer has enjoyed good fortune in installing in the homes and public buildings of this section.

The Security State Bank & Trust Company's booth telling the passers-by of the loan department of that strong institution is a balm to those who need money, and it was there that the writer spent a great deal of time, and remembering the well known verse, "There's a Reason," thought that there was a possibility of someone realizing our predicament and passed on to witness the other booths that were so attractive and appealing as to make that building a splendid place to spend a great deal of time.

The Texas Variety Company's booth with its many varieties of useful and toy articles, is beyond criticism, and the management of that store is to be congratulated for having taken such great interest in the display.

Even though we made a visit thru the building late last night, we found Ross Edwards of the Leader Department store, with his booth, and willing to talk fair with anyone who wished to approach that subject. The Leader display is a credit to Lubbock, and we are glad to know that such men as Mr. Edwards have taken sufficient interest in the success of the fair to spend so much time and effort in perfecting the booths to the degree to which that one has reached. Beautiful dress suits for ladies and gentlemen characterized the splendid models handled by that progressive firm, were good to look at, and we are sure that booth is an effective medium through which the many visitors may better acquaint themselves with that already popular West Texas store.

Sam Deuman is of the opinion

(Continued on last page)

WHEN I WALKED YOUR STREETS A STRANGER, OR A TRIBUTE TO WEST TEXAS BUSINESS MEN

Being just an ordinary girl, with ordinary attainments, I have never expected a great amount of courtesy from the busy people of the business world. But like most people, I appreciate courtesy from anyone. That is why I am paying this humble tribute to West Texas business men.

When I arrived in West Texas a short time ago, the first town I tried for work was Lubbock. I was broke (and still am) so I spent a whole day in Lubbock endeavoring to convince some one that I was worthy of a salary.

The first thing that impressed me in Lubbock, after the pleasing impression of the clean streets and attractive plan of the city, was the kindly consideration of the business men. No they didn't need any clerks, bookkeepers, etc., but they had time to lay their work aside for a few minutes to try and help a "fellow pilgrim" to the shrine of success.

I have worked in quite a few towns of Eastern and Central Texas and have applied for work until I can walk into a business house, close my eyes and pick out the manager. I know the cold stare of the hard-boiled, and the effusive smile of the "Ladies man" and now I know the gentlemanly courtesy of the Lubbock business men. Not only at Lubbock but also in the neighboring towns was I shown the utmost consideration.

So I take this opportunity of saying: "I take off my hat (or would if I were a man) to the business men of West Texas. May your courtesy and cheerfulness increase and may God prosper you for your kindness to "The Stranger Within Your Gates."

Business Conditions Are Changing For Better, Says Boston Statistician In Speaking of Changing Conditions

An article recently prepared by Roger W. Babson, statistician of Boston, said to be one of the best informed men on business conditions, and said to have a better understanding of general conditions, declares that the business tide has turned, and people may feel justified in talking optimism.

Mr. Babson declares: "The business tide has turned. For the first time in two years we feel justified in talking optimism. From now on we shall be on the home stretch. Although it will be a year or more before we can have prosperity, yet we are all now justified in preparing for it."

Mr. Babson analyzes the case. He compares the business depression to a case of measles.

"In the first stage the main problem is to get the poison, which is the seat of the trouble, out of the system. The patient will itch and fret, but he cannot get well until this is done. The seat of the trouble is the economic evils which developed during the preceding period of over-expansion. These depressions are the reactions from the extravagance, reckless management, waste and greed which were bred during the periods of so-called prosperity. This is the first problem in every depression, therefore, is to correct the evils which caused it. That is why all the 'boost-business campaigns' attempted during the past two years have failed. They did not strike at the cause of the trouble.

"Now, however, we have reached the turning point in the business outlook. We have passed the half-way mark in the depression period. Experience tells us that by the time this point is reached the worst of the evils which brought on the depression have been corrected. Current fundamental statistics corroborate this view. A few of these are: the sharp reduction in amount of bank loans--the increase of investment buying--widespread house-cleaning and retrenchment in management of business concerns--a better credit situation--extensive deflation in prices of most raw materials--subsidence in number of get-rich-quick schemes, showing that the great majority of people realize that the best way to make a living is to work for it.

"This means that clients now can proceed safely to put into operation their plans for development. The conservative and cautious policy which has served you so well during the past two years can now be reversed to one of more aggressive action. Never mind the threats of coal famine or railroad tie-up. Remember that fundamental conditions determine business. These conditions now justify gradual improvement. The recovery will be slow, but it will be sure. If you are to take advantage of it you must make your plans now."

When we remember that "Thirst knows no season," this review is highly encouraging.

HEREFORD STEERS TOP MARKET LAST WEEK

Hereford, Sept. 27.—The top price was paid here last week when Claude Higgins purchased the entire 1922 calf crop of Jeff Gilbreath at \$36.50 for immediate delivery. This is an unusual price as calves in this section of the country are bringing \$18 to \$20. These calves were fed on alfalfa hay and given the best of attention. A great many cars of stock are being shipped from this place on account of the severe drought and the shortage of pastureage.

TWO CARLOADS OF COTTON DESTROYED

Honey Grove, Sept. 26.—A Santa Fe train which left here this afternoon at 3:45 o'clock caught fire two miles south of this city and two flat cars loaded with cotton were destroyed by fire. It is estimated that there were 200 bales of cotton on the cars.

The fire originated in the fourth car from the engine, which was a flat car. Next were two box cars of cotton, which were saved.

About the only real issue in this campaign, so far as we can see, is that the Democrats claim they wouldn't have done quite so badly as we Republicans claim they'd have done even worse.—Ohio State Journal.

PROGRAM FOR TODAY

- 3:00 p. m. Bucking Horses. Free Attraction.
- 3:30 p. m. Foot Ball, Lubbock vs. Lockney. Pay. (Under Auspices Lubbock High School).
- 5:00 p. m. Airplane Stunts. Free.
- 5:30 p. m. Parachute Jump, 1500 feet. Free.
- 8:00 p. m. Fire Works. Free.
- 8:30 p. m. Gift of Diamond Ring.

Welcome to All Visitors

INTEREST IN CONFERENCE IS INCREASING--MANY DELEGATES ARRIVED TODAY TO STAY TILL CLOSE

Stirring Sermons by Dr. Morrison Attracting Large Crowds at the Methodist Church Both Morning and Evening--Crowds of Visitors are Increasing Each Day--An Extra Large Crowd of Leaguers Will Be Here to Special Services Sunday.

Mayfield Nomination Declared by Republicans to Be Illegal

Austin, Sept. 27.—Formal protest against certification of the name of Earle B. Mayfield as the Democratic candidate for United States Senator, on the grounds that the Democratic primary elections at which Mayfield was nominated, were not held in accordance with the state laws, was filed with the secretary of state today by R. B. Creager, Republican state chairman.

The protest upholds the legality of the nomination of George E. B. Peddy as the Republican nominee.

The protest declares that the Democratic primary elections were not conducted by the duly appointed and constituted election officers, as required by an act of the legislature in 1913. It further stated that the 1912 act providing for primary elections is unconstitutional under the subsequent decisions of the State Supreme court and therefore the provisions upon which the opponents to the Republican nominee base their contentions are barred.

The protest was submitted to the attorney general's department for a ruling.

H. L. WILLEFORD DRAWS DIAMOND RING FIRST DAY

H. L. Willeford, of the local firm of Darby and Willeford, grocers, was the lucky man in the diamond ring contest yesterday, the lucky number drawn being 734.

The Fair Association is giving away absolutely free to the lucky number drawn, as an attendance prize, one ring each day of the fair. The rings are valued at from \$100 to \$150.

Much interest is being shown in the contest, as each entrant through the gate draws a chance at the ring, and just before the gates close each night the coupons are all shuffled, and a number drawn, this number being the winner of the diamond.

The rings are of the best quality that can be secured.

18 MEXICAN REBELS KILLED IN FIGHT WITH FEDERALS

El Paso, Sept. 26.—Eighteen rebels were killed in a battle last week with Federal soldiers near Los Mochis, Sinaloa, Mexico, after 400 men under the command of three disgruntled Mexicans had attacked two small towns in the State of Sinaloa, it was learned here today.

Among the dead rebels are Gabriel Valenzuela and Marciano Cerecia, said to be leaders of the band.

BIG SPRING PLANS TO DRILL POTASH TEST

Big Spring, Sept. 27.—Plans are under way for the drilling of a test for potash in this district. Efforts are being made to get sufficient leases together in south Howard and northern Glasscock counties to justify the sinking of a test.

An analysis of cuttings from a well drilled on the McDowell ranch some time ago showed considerable potash.

SAN ANGELO FOOTBALL CAPTAIN IS BURIED

San Angelo, Sept. 27.—Team-mates were pall bearers this afternoon for Hugh L. "Strawberry" Young, 19, captain of this year's San Angelo High School football eleven who died last night from bronchial pneumonia.

Young was a son of Mr. and Mrs. I. W. Young and would have graduated this mid-term.

INFANT HIT BY TRAIN NEAR CAREY IS DEAD

Amarillo, Sept. 26.—The infant child of Mr. and Mrs. Steve Cawthon, who live near Carey, died within an hour after being struck by a Fort Worth & Denver passenger train today.

Trainmen saw the baby crawl out of the weeds and onto the track before the train could be stopped. The Cawthons live near the railroad right of way. Carey is a few miles west of Childress.

It is easy to imagine the loneliness Germany would show in collecting reparations from France had the result of the war been reversed.—Nashville Southern Lumberman.

The second day of the Conference sees a greatly increased crowd, and new delegates have been arriving all the day. Many of the preachers from over the Lubbock District were not able to get here until today, and their arrival with several delegates each has brought the attendance up to and beyond the number expected by those in charge of the meeting.

Yesterday saw a full program. Rev. J. W. Hunt of Abilene, addressed the conference in the interest of education, and as usual this address was most interesting, and instructive. It showed that wonderful progress is being made along the lines of education, but the need is still very great and the need of funds to carry on the work is very urgent indeed.

Dr. Dickenson delivered a lecture to the members of the conference on the subject of the Program of Christian Religion, which was considered by those who heard it as being one of the best of its kind ever delivered in Lubbock. It was greatly enjoyed and appreciated by those who were fortunate enough to hear him. Dr. Dickenson is one of the most gifted speakers of the Northwest Texas Conference, and his lectures will continue each day through the week.

B. W. Dodson, who is on the program for a lecture each day on the Romance of Preaching, is getting hold of the preachers of the conference, by his stirring discussions of the book, which he is discussing, and while Dr. Hunt of Abilene, was scheduled to take this work, and it was not known that he could not fill the date till near the time for the meeting, Rev. Dodson is certainly making wonderful progress in filling the vacancy, and is doing so to the credit of himself and the entire conference. He is an able speaker and a sound reasoner. He is one of the strongest debaters and church doctrinal preachers in the State, and is thoroughly familiar with everything pertaining to the Methodist church and its doctrines, and the needs of the ministry of the church.

Dr. Morrison preached his first sermon yesterday at eleven o'clock, and again last evening. His sermons were rich and the large congregation listened attentively throughout each hour, and were anxious to hear him again today at noon when he took up the beautitudes and discussed each separately to the delight of his hearers. His approach to these points of his subject and the climax he reached was wonderful, and his hearers were brought to the various stages of deep thought and then in the next few moments they were convulsed with laughter, while in another minute their eyes were floating in tears. He is indeed a wonderful speaker, and when the people of Lubbock fail to avail themselves of this opportunity, they are missing something that they will never be able to get again in their lives.

This afternoon the business session of the conference will be entered into, and the unfinished business that came here from the statador conference in May will be taken up and completed.

Dr. Morrison will again address the big congregation this evening at 7:30, following a song service by the Lubbock choir.

Tomorrow will be a busy day, and Sunday will see a large crowd. Hundreds of delegates to the special Epworth League meeting which will be held here Sunday, and this meeting alone will be one of the greatest ever held in this section of this nature.

CARLISLE TEACHER HELPS FARMERS GATHER COTTON

On account of immediate need of gathering the cotton crop in the Carlisle community, the school was closed here Wednesday of last week and the superintendent of the school hitched himself to a cotton sack, and the three remaining days of that week, Thursday, Friday and Saturday, picked 95, 420, and 430 pounds of cotton per day, respectively, which of course had its part in alleviating the need of pickers in that vicinity.

The professor was at the fair here Thursday, and told an Avalanche reporter that he regretted that the cotton crop is so short as to make a real day's picking hard to accomplish, and gave newspaper clippings from his former home, showing that from six hundred and fifty to eight hundred pounds per day had been gathered by him.

You know about the horn of plenty but the horn of too much is a man always blowing his.

Walter Barner and New Mexico News Paper Man Enter Wholesale Cigar Business Here; Have Large Territory

Mr. Alvin C. White and family, and Mr. and Mrs. J. T. Teague, and Miss Nora, left Tuesday for Lub-

- Fair Prices
- Fair Treatment.
- For Fair Days.
and for all the
days after the
fair.
- You get them at

**INMON
Grocery Co.**
Lubbock, Texas

bock, Texas, where both families will reside in the future. Alvin and Miss Nora will be associated with a company establishing a wholesale cigar business at Lubbock, which will cover New Mexico and Western Texas territory with brands of cigars which will become leaders as experts here who have tested them say they are of high quality and the best they have found on the market for the prices at which they are retailed. Mr. White's friends here will be glad to see the company prosper—as it probably will, as in the past everything that Alvin has taken up has been a financial success, due largely to the energy and push he has put into his business. It has not all been luck, but push and pluck a swell, and we expect his new venture to receive the same energy which speaks accomplishment.—Kenna (N. M.) Record.

We are glad to know that Mr. White is now established with the Provana cigar company here, with Mr. W. L. Barnes, who is well known in Lubbock and West Texas, and the success of the new company is assured.

Mr. White will have charge of city business, and his sister, Miss Nora, will do the office work, while Mr. Barnes will go on the road to work the territory covering all of West Texas and a great deal of New Mexico.

The aggressiveness the new firm management has shown in placing their business on the map throughout West Texas is to be appreciated by all acquainted with them, and we are sure the well known brands of cigars handled by them will become popular throughout their territory.

They have made a trade with Mr. Stanton, of Stanton's Chocolate Shop who has the exclusive right to sell cigars on the fair grounds, to handle no other than the brands wholesaled by them, which will go a long way in acquainting the many users of fine cigars with the ones they sell, thereby creating a market for them in the many towns from which the visitors may come.

Mr. White was for five years owner and editor of the Kenna Record, during which time he made many friends in that thriving New Mexico town, who are eager to learn of his success in the new venture.

Amarillo Dairyman Disappears and is Still a Mystery

Dr. A. W. Hinchman of the firm of Harris & Hinchman, osteopaths, physicians and surgeons, made an examination of the blood stains found in the automobile in which Arthur E. Stinson left his home Monday night, and gave out the following statement to the Tribune Wednesday afternoon:

"An examination according to the electronic reactions of Dr. Albert Abrams of San Francisco, made in the offices of Harris & Hinchman, shows to a reasonable certainty that the blood found on the automobile seat is from a human being, that the human being is dead, and that the same person is the son of J. D. Stinson."

Whereabouts of Arthur E. Stinson, Amarillo dairyman, missing since Monday night remains a mystery, although a dozen posses of searchers, approximating 350 men have scoured the country all day Wednesday. The searchers, late Wednesday afternoon had progressed as far north as the Canadian river, east to Washburn, and south as far as the Burk school house.

Every ravine, creek, draw, field and prairie throughout this territory has been minutely searched.

Stinson left his home Monday night in his automobile, presumably to feed his hogs, penned a few hundred yards from the Stinson dairy, near the Great West Mill & Elevator Company's plant, two miles east of Amarillo. His failure to return Tuesday morning caused an immediate search, and his automobile was located east of the hog pens, near the Rock Island crossing.

Blood stains on the car seat gave rise to the belief that foul play might have resulted, and further evidence of blood on the gates of the stock pens strengthened that opinion.

Many theories have been advanced and the rumor that Stinson had been seen in the business section of Amarillo as late as 11 o'clock Monday night was proven groundless before the searching party left Wednesday morning.

Another report that he was seen Monday night at the Crystal Cafe on Taylor street failed, when it was said that the party was Bert Stinson, a brother of the missing man.

A night watchman at the Great West Mill is said to have heard an automobile engine running Monday night about 7:30 or 8 o'clock near the hog pens. It is said that the engine ran for fifteen or twenty minutes and then the car was seen to leave the pens at an apparent high rate of speed, going to the railroad where it was located the next morning.

One of the most hopeful opinions expressed Wednesday was that he had probably left town of his own accord, and it has been suggested that he might have boarded the circus trains which were leaving Amarillo early Monday night.

Search for the missing man is still in progress, and it will be continued until the surrounding country has been completely covered, the Sheriff's and police department announce.—Amarillo Tribune.

LAMESA

The Journal. Mr. and Mrs. James B. Reed and two children of Lubbock have moved to Lamesa. Mr. Reed has accepted a position as bookkeeper in them to Lamesa.

When the new school building was the First State Bank. We welcome being erected, many of our people thought the building was entirely too large—that for many years to come attendance would not justify so large a building. Look at it today. The attendance rapidly nearing the 600 mark, and the rooms are crowded. We may just as well begin now to make plans for another building. We need it. The interests of our children must not be neglected. District Court has adjourned. The docket was the lightest in the history of the county. Only one criminal case was tried. This was a young man charged with horse theft, and resulted in acquittal. The grand jury is still in session at this writing—Thursday morning.

Public Weigher Bennett reports 1,550 bales weighed up to noon Thursday, with the fleecy staple coming in steadily.

Married—September 20th, at the home of Geo. Cachran, Elmer D. Sipes and Miss Mary Belle Brown, Rev. I. A. Smith officiating. Work is being pushed on—the Nix

building. Mr. Shaw's building will soon be ready for occupancy. Work on the cement building and the one on the east side is progressing rapidly.

F. M. Williams of Sterling City, is here visiting his brother-in-law, L. F. Kennedy and family.

T. A. Kellam has bought the Hutchins' house from Jasper Morrow, and will move as soon as Jasper vacates.

SEPTEMBER

"O sweet September, thy breezes bring
The dry leaf's rustle and the squirrel's laughter.
The cool fresh air whence health and vigor spring.
And promise of exceeding joy hereafter."

September is derived from the Latin word, septem, which means seven. In the old Roman calendar, September was the seventh month of the year, and contained thirty days; when Julius Caesar made his calendar revisions, he changed September the ninth month, with still thirty days. This is the month between summer and autumn, having the characteristics of both seasons. About the twenty-second of the month the sun crosses the equator on its journey toward the Tropic of Cancer, and the days and nights are equal the world over.

September has been an important month in history in regard to the discoveries of new lands and bodies of water, and also from wars between nations and civil strife. It is widely known in literature for the birthdays of such people as Eugene Field, Phoebe Cary, Jane Addams, Queen Elizabeth, Charles W. Gordon (Ralph Connor), James Fenimore Cooper, Alexander the Great, Caesar Augustus, Samuel Adams and Pompey are in the month of September.

One looks upon September as a fading summer and forward to the falling of the leaves and other tokens of autumn, for during this month winged seed ride upon the air like insects, many of them balanced like balloons, the broad top uppermost and armed with hooked grappels, which take fast hold of whatever they light upon. One also sees the network of the spider suspended from leaf to branch. The Hawthorne berries begin to show red in the hedges. Here and there in sunny places the brambleberries begin to blacken. The bee seems to move wearily from flower to flower, for they lie wider asunder now than they did a month ago.

But in no season of the year are the sunsets as beautiful as now, nor is the sunrise as beautiful, while the valleys are covered with a white mist.

Announcement

THE FIRM OF COLLIER BROS. ANNOUNCE THE CHANGE IN NAME OF THE LUBBOCK MONUMENT WORKS TO THAT OF

South Plains Monument Company

The latter name will be familiar to many of the out-of-town readers of the Avalanche, as the South Plains Monument Company of Plainview has for many years, supplied the needs of other towns and communities around Lubbock in this line.

This, our third yard, we recently acquired on account of the possibilities of Lubbock as a distributing point, and because we believe that Lubbock is to be the City of the South Plains.

We would have our future customers bear in mind that freight is quite an item in the cost of a monument and as all the better granite and marble comes from Vermont, Massachusetts, or Georgia, we will be able to effect quite a saving as we ship everything in CAR LOTS and all carving, lettering, etc., is done at our yard.

We will be glad to have you call and inspect the work on display or a post card will bring our salesman to your home with no obligation on your part to buy unless you wish to do so.

CHARITY BY THE MILLION

The Charity Organization Society of New York has not been slow to make capital out of the recent exposure of the beggar on wheels whose chauffeur's financial troubles led to his exposure as a man who maintained an expensive suite in one of the New York hotels, and who, when the day's work of begging was done, strapped on a pair of aluminum legs, donned his evening clothes, and made merry in the bright lights of Broadway.

It appears for years the man raked in an average of \$100 a day; dropped into his tin can by sympathetic pedestrians who saw him selling pencils.

Now we are told that beggars in the big city take more than \$35,000,000 a year from careless Gothamites and transient visitors, all of which is highly undesirable. However it ill behooves the Charity Organization of the city to break into the picture.

The object of the Society of course is to put an end to the indiscriminate giving of charity and to make itself the sole means of charitable distribution.

The expense of distributing a dollar through the Charity Organization, however, has several times been shown to be preposterously high and its notorious wood yard and laundry still remains a stench in the nostrils of many persons whose memories are acute.

Its secret list, distributed "confidentially" among those who support the organization also has left none too good a taste in the mouths of the people.

It is now being pointed out that the police should put an end to the

begging pest.

It is known there are at least 5,000 beggars in New York, not one of whom takes in less than \$15 a day.

If the police do make a clean up it might not be a bad idea for the courts to sentence some of these loafers to work on the county farm so that they may learn just where an honest living comes from.

YOUTH LESS THAN TWELVE RECORD AS COTTON PICKER

Horace Terrell, son of D. H. Terrell, residing on the R. V. Colbert farm five miles north of Stamford, made a good cotton picking record last Friday when he drew out 302 pounds of the fleecy staple in seven hours and fifteen minutes. The boy yet lacks three months of having reached the age of twelve years and his weight is even sixty-nine pounds. He began picking at 7:30 in the morning, took fifteen minutes at noon for lunch and quit work at three in the afternoon. At this speed a ten hour day would have given the lad in ten hours four hundred pounds in round numbers. This is a mighty good record for a boy of the age and size of this young fellow.—Stamford Leader.

PIONEER OF COLEMAN COUNTY DIED WEDNESDAY

Coleman, Sept. 27.—W. R. McClellan, aged 80, pioneer citizen of Coleman county, died of heart disease at his home last night. He was vice president and director of the Coleman National Bank. The funeral services will be presided over by the Masonic Lodge Thursday afternoon.

Something to Think About!

- Think of what you spend yearly for coal.
- Think of a Range that will save 1/3 to 1/2 of your fuel bill.
- Think of what your saving would amount to in a year with this remarkable Range.
- Think of the saving in ten years service.
- Think of a Range that will pay its own initial cost while serving you.

Big Football Game Between Lubbock and Lockney Elevens Will Be Main Feature at the Fair This Afternoon

Football fans have occasion to be glad today, and we assure them that if a snappy, hard-fighting eleven in action will please them they will be well repaid for going to the game this afternoon, as at 3:30, the Lubbock delegation will go to the grid with the hard fighting kickers from Lockney.

Rumors have it that Lockney has one of the fastest teams in the West Texas district, and demonstrations have proven that as peptomists and go-getters the Lubbock boys are hard to equal, and Sensabaugh is in the game at all times strengthening the wavering places in the line-up, and getting the very most good out of the balance of the line. As a coach he has no equal, and the men realize that his advice about the rough game is well to be heard.

To those who have not been in Lubbock long enough to have seen this team in action, and there on account of are liable to underestimate the value of the afternoon's game, we wish to say that the Coach, Mr. Sensabaugh, has been in footballdom for more than twenty years, active service, and made a statement a few days ago to the writer to the effect that he has the best lot of material from which to select a winning team in the Lubbock High School this year he has ever had placed at his disposal, and has had thirty-five of the huskies in full uniform for some time, selecting the very best line-up possible. He took the team to Ralls last week and defeated that well known team by a score of 34 to 13, Ralls having defeated some of the fastest teams in the district last year with ease, and the Lubbock boys feel that in defeating them to that score with a good many of the last year team on the line-up with Ralls, that they have made a very good start into the season, and Lockney has certainly put all the training possible and the very best line-up they could get to meet our team today.

Football, baseball, basketball and all other sports where skill and energy are co-workers are usually more interesting on the great plains than elsewhere, the fitness of this climate to the health and vigor of the players makes the games out here marked with more enthusiasm, push and go than elsewhere, and you will miss something if you fail to attend.

Sensabaugh claims it takes coin to make a team go, as the uniforms and other equipment has weighed heavy on the purse of the Athletic association, and he is of the opinion that the little four-bits admittance to today's game will be gladly paid. The game is called at the baseball park at 3:30.

Let's go.

DENISON WILL NOT BE FREE OF MARTIAL LAW

Austin, Sept. 28.—Two sanitary inspectors of the State Pure Food Department today were dispatched to Denison by Adjutant General Thomas D. Barton to inspect dairies, restaurants and other food dispensaries. Any irregularities found will be prosecuted by military authorities, Barton said. The inspectors sent were J. L. Mothershead and T. C. Klaus of Austin.

Adjutant General Barton took occasion today to deny reports that plans are under way for lifting martial law at Denison. He said such action had not been considered between himself and Governor Neff.

Well Near Colorado Flowing Big Amount Of Salt Water

Colorado, Texas, Sept. 26.—Bardgett No. 1 of the Mitchell County Oil Corporation, fourteen miles northwest of Colorado, which blew in a salt gusher Sunday afternoon, continues to produce 10,000 barrels of strong salt solution every twenty-four hours. The solution is very thick and is being thrown thirty-five to forty-five feet above the crown block. The roar of the well is heard more than a mile and is plainly seen six miles away. Fifteen acres of land surrounding the well and all vegetation in the vicinity is covered with salt, resembling a huge snowstorm.

Oil men here claim the well is a mystery. It is the first of its kind known to local operators. The salt gusher was drilled in at 1,100 feet. It was producing strong gas at 1,050 feet last week. Several hundred autos drove to the well today.

OVERSON REFUSED TO QUIT EASTLAND COUNTY OFFICE

Eastland, Sept. 27.—County Attorney Ove E. Overson today definitely refused to resign from office as demanded by several hundred citizens signing the resolutions at Sunday's mass-meeting and later in the churches throughout the county.

Sheriff Sam Nolly, also called upon to quit office, cannot be found.

The committee composed of S. W. Bobo of Ranger; P. L. Parker of Eastland; D. J. Neill of Gorman; J. C. Gorman of Carbon, and R. L. Poe of Cisco, in a report made yesterday afternoon, recommended that H. S. Cole, chairman of Sunday's meeting, call another mass meeting at once, that the people may take such action as the fact warrants.

Judge Hill was handed a copy of the resolutions by the committee yesterday afternoon with regard to action sought to removing H. L. Vestal, grand jury foreman, pending an investigation. Judge Hill informed the committee that he would take the matter under advisement and if after an investigation the proof warranted it he would remove the grand jury foreman.

Mr. Overson's decision was made known this morning shortly before noon, the time set by the committee yesterday. P. L. Parker, Eastland member was informed by the county attorney that he "had not violated his oath of office and would not resign." He made no further statement.

ASK BOUNTY UPON COTTON BECAUSE OF NON PROTECTION

Phoenix, Ariz., Sept. 25.—Senator Ralph H. Cameron of Arizona has offered a bill granting a bounty of ten cent a pound on long staple cotton, this to be in lieu of the failure to give protection in the tariff bill. Gov. F. E. Campbell and scores of prominent Arizonians have wired the leading Republican members of the senate and house of representatives that without protection from Egyptian imports the bounty now is a dire necessity if a basic agricultural industry of Arizona is to be saved.

CENTER NEWS

Everyone is still very busy out here trying to harvest their crop and you can hear a constant cry from every farmer who has cotton, for cotton pickers, and it is a truth that they are very badly needed to get the cotton out before it rains and ruins the sample of what little cotton the poor old farmers have made this year.

Mr. Oscar Wylie was in town looking after business Monday afternoon.

Mr. Edgar Abney of the Center vicinity, passed through this community Monday, with a bale of cotton.

Mr. Cotton and family, came in last week. They were very glad to get back to the plains, for this country sure looks good to them. They don't seem to want to leave the plains to go to Missouri any more. Mr. Cotton seems to be a little undecided yet just what he will do this year, but is talking of staying with his son, Walt and family, whose farm is about two and a half miles south of town. We will certainly be glad to welcome them into our midst.

D. W. Williamson visited his brother Tuesday, who is working a few miles northwest of Abernathy.

Rev. J. M. Rankin made a trip to Fort Worth last week, and when he returned home sad news awaited him. He received a telegram stating the death of his younger brother, who lives in East Texas.

Mr. Newt Redman was in town Wednesday, looking after business matters.

Mr. and Mrs. Nelson, of the Center community, passed through this section Wednesday afternoon, enroute to Abernathy.

Everyone is still very busy harvesting. Most everyone is about through with their feed stuff, but are trying very hard to get their cotton out while the weather is favorable. We heard one farmer say that he still believed that he would make a quarter of a bale to the acre. That surely does sound good for such a dry year. What would it have made if the season had been favorable? This should be real encouraging to the newcomers, who are so badly dissatisfied here.

Mr. Ode Holley of the Center community, was transacting business in this vicinity Monday, and also drove into town to do some trading.

Mr. Oscar Wylie happened to quite an exciting accident last Saturday. As he was returning home from Abernathy with a bale of cotton seed on his wagon a truck ran into his wagon, breaking a few spokes out of one wheel. This excited his team, causing them to break the coupling pole and get away from their master. The writer has not learned who was the truck driver or extent of damage done to the truck. This should be a lesson to us all to be a little more careful about our driving.

Mr. Walt Cotton was cutting feed for Mr. Newt Redman, the first part of the week.

Mr. Dewey Farris was taken down with an attack of appendicitis Saturday evening, which gradually turned to grow worse. Dr. McBride was summoned Sunday afternoon, and he was taken to a Lubbock sanitarium, where an operation was performed. It was found that the appendix had burst a few hours before the doctor had been called, but they believe that his case was attended in due time to save his life.

Mr. R. H. Haney of near Center, motored through these parts Monday, enroute to Abernathy.

KU KLUX THREATENS EDITOR WARWICK OF CANYON

Editor Warwick of the Canyon News, of Canyon, Texas, has been threatened by the Ku Klux Klan, as he states in the News of September 21:

"The following letter was received yesterday morning at the News office, written on a typewriter which had badly worn type and ribbon, upon a cheap piece of paper. The operator showed to use the 'hunt and seek' system. The letter was mailed from Amarillo, but evidently was written in Canyon. The following is the letter:

Mr. C. W. Warwick:
"Sir you show by your paper that you are not friendly to the order of the K. K. K. You have been talking entirely too much about the K. K. K. We give you timely warning to stop your talk about something you know nothing about.

"You as well to know it now as later that the K. K. K. is going to 'hunt and seek' all officers in the whole U. S.

"Knights of the K. K. K."
A number of letters were received in the same mail by citizens of Canyon, practically an exact copy of the above letter.

The Canyon editor's answer:
"Slush! Yes, and Piffle, too."
"Mr. Knight of the Bed sheet and pillow case, we point you to the recent primary in Texas. In the four state races only one Klansman won—Earle B. Mayfield—and he won in spite of the Klan. The high god of the Klan—Col. Billie Mayfield—lost by a hundred thousand. That don't look like controlling the whole U. S.—not very fast.

"At any time we get ready to turn our paper over to a secret organization and let it do our thinking, we will call you up, but until that time if we don't like the Klan and the way it is run, we will say what we please about the organization."

CITY OF PLAINVIEW AFTER EASTERN STAR ORPHANAGE

Plainview, Sept. 27.—Plainview will make a campaign for the location of the state orphanage of the Order of the Eastern Star, aided by the woman's auxiliary of the Masonic bodies. The orphanage is to be located by a vote of the members who attend the annual grand convention, which will be held in Dallas

RATES ON GRAIN AND HAY ATTACKED IN MEETING

Kansas City, Mo.—Representatives of state railroad and utilities commissions of Kansas, Missouri, Oklahoma, Iowa, Nebraska, South Dakota, Minnesota, Wisconsin, North Dakota, Arkansas, Texas and Louisiana are in conference here today to discuss ways and means to support the complaint filed by the Kansas public utilities commission recently against freight rates on grain, grain products and hay in western railroad group. The complaint attacks as "unreasonable, unjust and discriminatory" all freight rates on these commodities in the states in the group.

Representatives of chambers of commerce, boards of trade, grain dealers and hay dealers associations of the large cities in these states are meeting with the state commissions. The situation is somewhat similar to what was known as the western grain and hay case, filed before the Interstate Commerce Commission in July, 1921. This complaint also made by the Kansas utilities commission was the first general attack upon freight rates which were established in 1920. In this case 21 states joined Kansas and involved all grain products and hay rates from Chicago to the Pacific Ocean. The states won their case and grain rates were reduced to an amount aggregating \$38,000,000.

On its face, the budget appears to be working in favor of the American pocketbook.

E. L. LAW IS A RADIO ENTHUSIAST; OWNS SET

E. L. Law has the new radio set recently purchased of the Martin Radio Company installed, and we learn that he is spending from ten to twenty-four hours per day over-time taking information directly from the air, and whether he is paying more attention to grand opera or the latest methods of plumbing is not known to his friends, who are hopeful that he will soon be relieved of the radio fever, yet those who have visited his station declare that he is absolutely hopeless.

Says I to myself, says I, the Avalanche is the paper to buy.

house since the 67th congress went to work, in April, 1921. Clerks checking up today found that, of this number, 1057 were passed.

In the 66th Congress 15,492 bills were presented and 734 of these became laws.

"Anybody can throw a bill into the hopper," said a veteran legislator, "but it takes a wise man to put it through the mill."

R. & R. THEATRE

Children's Matinee on Saturday morning at ten o'clock. Every boy and girl should be at the Matinee Saturday morning and see the wonderful spectacular picture, "Ala Babi and the Forty Thieves." This is an Arabian Night picture that every boy and girl should see. The R. & R. Theatre presents this picture under the direction of the Twentieth Century Club. Children under five years, free, others, admission five cents. Everybody come.

MAN KILLED AS HORSE STUMBLES ON A WIRE

Mineral Wells, Sept. 26.—Basel Grimes, a young man living north of Mineral Wells, near Stokes Chapel, was thrown from his horse and instantly killed.

Mr. Grimes, who was 26 years old, was riding down a lane at night with two companions when his horse struck a wire that had been stretched across the road. The horse was thrown and Mr. Grimes was hurled several feet away, striking on his head and fracturing his skull. He died instantly.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone, knowingly and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

THINGS TO REMEMBER

Advertisers, contributors and all parties interested in the Avalanche please remember these things: We print the Tuesday Avalanche on Monday, press hour, 3:30 p. m. Friday Avalanche on Thursdays, press hour 3:30 p. m. Please have copy for local notices in not later than noon Monday and Thursday. Ad changes and copy should not be later than 3:00 a. m. Mondays and Thursdays. It takes a schedule like this to get your ads in the paper in good shape, and helps us give our readers better service, which means that the paper will be of better service to you, which we earnestly desire it to be. We do not want to be exacting but we must demand some things of you, if you expect us to come up to the notch.

UP AND DOING

Are you taking part in the "Careful Crossing" campaign? You have seen the posters and when you looked at the pictures of that motoring party about to be struck by a fast train, you have imagined something of the horrors attendant upon such disasters. Maybe you will ask how you can assist in impressing upon the public the necessity of using greater caution at the railroad crossings. There are several things you can do—all of them quite simple and elementary in character. First of all, if you drive a car, you can be an example of what a careful driver should do. There are times and places where haste is necessary and commendable, but it is important to remember that circumstances alter cases. You may be driving somewhere on an errand that is pressing, but whatever the business may be, the need of hurrying is only zero compared with the safety of yourself and your passengers at the railroad grade crossings. Most times, when you have to cross the track there is no train near enough to make a hazard. Vigilance is necessary—every time, and the very occasion when you relax your vigilance may prove fatal to you. That is the way those crossing casualties happen. Read the papers and inquire of the witnesses of crossing catastrophes and you will find that if there had been reasonable care exercised by drivers, they would have been alive today. Talk about the posters and spread the news that at last people of this country are aroused and determined to make it decidedly unfashionable to risk human lives at railroad crossings. There are drivers, not a small number of them, who are adopting the habit of stopping a safe distance back from the track until the train passes. This is a fine idea and often saves the engineer a lot of worry and anxiety. It takes but a minute to stop and when you do stop and look for approaching trains when you are nearing a grade crossing, you are doing so in the interest of your own life and the lives of those who may be riding with you in the car. Safety first rule should always be applied when approaching the grade crossing. Cross Crossings Cautiously! Play Safe! It Pays.

The same principles that are laid down in the above regarding crossings of railroads should also apply to the people who drive cars on the public streets. There is much danger of smashups on the streets when auto drivers do not use the necessary precautions regarding the way they handle their cars. You are just as much a murderer if you dash through town and run over some one and kill them as you would be to deliberately drive through town and shoot some one down with a rifle or six shooter. Let this soak into your head and be more careful in the future. Keep a clear record of never having hurt anyone by reckless driving, and it will be one worth while.

Lubbock people are certainly enjoying a treat in the messages of Dr. Morrison at the Methodist church twice each day during the Bible-Conference, now in session here. Dr. Morrison is one of the strongest preachers in America, and his addresses are rich from every point of view. Large congregations are hearing him, and before Sunday arrives, the large auditorium and gallery space in the Methodist church will not be sufficient to accommodate the people who will want to hear this noted speaker. The entire program of the conference is interesting and instructive not only to the membership of the Methodist church but to those of other denominations.

Lubbock is getting the strong endorsement of the entire South Plains as the fair city of the South Plains. That the fair continues to grow every year is a sure indication that it is a very live institution.

THOUSANDS SEE THE FAIR

One noticeable feature, as well as a most commendable one, of the fair is the splendid order with which it is being handled. The traffic department is certainly maintaining a splendid system, and keeping things moving in a way that indicates that no mistakes have been made in the selection of men to handle the traffic during the fair. The streets are packed and jammed and the fair grounds is a mass of humanity, automobiles, etc., and still everything is moving about with perfect ease, and not a single accident has been reported to date. The big crowd is orderly, and not a single instance of rowdiness has been seen. The people are here in great numbers, but they are on their very best behavior. They are enjoying their visit to the South Plains Fair, and there is plenty of entertainment for everybody. The fair is indeed a big show. It is growing every year. It seems like it is double that of last year, and there is nothing but praise heard of the manner in which it is being conducted. The old pessimist who sat back and howled "it can't be did" has not been seen since the fair opened, and we are sure will not show his head again till something else comes up that he thinks he might kill by his chilly words. However, he has a dreadful life in Lubbock, and indeed, he has a dreadful life in Lubbock. The South Plains Fair is the greatest success of the Plains this year. It is the biggest one held, and the number of people who will attend will far surpass any previous fair, or any fair in this section.

SOME UNFAIR PUBLICITY

Lubbock, Sept. 25.—Two frame business houses on west side of the square were totally destroyed by fire here Saturday evening, including a loss of several thousand dollars, with only five hundred dollars insurance. The building was occupied by a cafe and general merchandise store. Quick work on the part of the volunteer fire department saved the destruction of the entire block. The above news item has appeared in nearly every daily newspaper in the State, which is absolutely false. There has been no fire in Lubbock, and especially in a frame building on the west side of the square in this city. As a matter of fact there is not a frame building on the west side of the square in Lubbock. They are all good, substantial brick buildings and to people who do not know better this report is received as true and damaging in its nature.

Fellows from the one crop sections of the State are seeing the fair with much interest this week. They see very plainly that the South Plains' style of diversifying is the system, and are either going to find some way of changing things up at home or moving where this is practical. Diversification has made possible the best fair ever seen on the Plains, and it is making possible bank accounts instead of demands for loans to buy supplies for the family and to buy feed for the work stock. The showing that the South Plains Counties are making at the fair is convincing to anyone, and even if a fellow comes here a foot thick with prejudice, he has to admit that this is the most favored section of the State.

The many visitors here to attend the fair and Bible Conference is an indication that when Lubbock opens her doors as hosts the people are anxious to come. This is a reputation that is enviable and priceless. There is nothing like hospitality as an asset to a city. Let it be known that Lubbock is a town that holds a welcome to all good people, and it will be the most popular place on earth. There is never anything lost by being courteous. We heard it said by some visiting people here Monday that they just naturally liked to come to Lubbock, because everyone was so courteous, and seemed glad to see them. Keep up the friendly spirit folks, it pays big dividends.

Lubbock High School football team is lining up for a fine record again this year. They made a fine record last year, and it is stated that the team for this season is even stronger than last, and are in line with a determination to win. They have put in some good practice, and will no doubt be in the front line when the season closes. Watch the Lubbock foot ball team, and boost them at every line. They are winners, we are sure, but will win much easier when they know they have the backing of the home town.

Lubbock is taking care of the double header events in a real metropolitan style. The immense crowds attending the fair is being taken care of and the big lot of delegates and preachers together with the large number of visitors are being made comfortable in the homes of the people of Lubbock, while they attend the District Bible Conference now in session at the Methodist church. Lubbock's bigness is not confined to the number of homes and business concerns, but her hospitality is equal to that found anywhere.

With our gins all running full blast, and with the people of this country producing worlds of poultry, and cream, butter, eggs and pork, there is every indication that the people of this part of the country are going to be on independence street this winter.

are harmful to society. For instance if a youth is arrested on a theft charge, a newspaper does not publish his name. The paper has a heart and want the lad to have every chance to reform and make good. Many persons die in the course of the year. The newspaper is just like the preacher is not wanting to bring out the unpleasant details in time of death. Many persons' lives could not be bared without causing undue sorrow. The newspaper in such instances does not want to give the "whole truth". But your average newspaper is correct despite the errors that creep in.—Amarillo News.

MAKE HUMAN LIFE SAFE HERE

It is time that Fort Worth asserted the majesty of the law and the right of the human being to its protection and the "enjoyment of life, liberty and pursuit of happiness." It is time that the streets and other places of Fort Worth are made unsafe for the killers who do not hesitate to strike down men against whom they have a real or fancied grudge depriving wives and children of their support, and usurping the powers of justice reserved to the people for orderly exercise thru the system of justice provided by the constitution and the laws.

Murderers and maimers are walking the streets today free men, while citizens who have committed some minor offense are doing time behind the bars or working on the chain gang. It is even alleged, and is common talk, that some of these killers have been out on bail in time enough to stand in the crowd that watched the undertakers move the victim from the sidewalk, where he fell.

The lives of honest citizens are jeopardized, not only by the possibility of mistaken identity, but thru the promiscuous raining of bullets on crowded thoroughfares. The law takes human life only after the most painstaking study of the facts, with witnesses under oath. The killer slays on the unsupported word of some garrulous gossip or on the mere promptings of a jealous or disordered brain.

An investigation of some of the slayings where love or the protection of the home is given as an excuse will reveal a sordid sort of love, indeed, as the basis for the crime. If the slayers devoted their lives to making a home life worth while, no smoking automatic would be need for its protection.

The plea of "self-defense" has been made a mockery by the ease with which it is raised and the flimsy pretexts in which it is invoked. One cure for this is the suppression of unnecessary practice of "gun-toting," another is a revision of public sentiment that will make occasion for such a plea very rare, and a third is to more careful examination of the merits of such a plea by our juries.

The easy bailability of persons accused of the capital crimes is a scandal. In few states outside of Texas is first-degree murder a bailable offense except in circumstances where the guilt of the accused is very unlikely. Revision of laws in this regard is needed and stricter construction of the laws by the courts is essential.

Public indifference on these subjects does not prove that the public has no convictions on the matter, but it has permitted a weakening of standards on the part of a small portion of the bar which, unless checked, will ultimately bring the whole legal profession into disrepute. The Record does not make the charge, but when the conversation of reputable citizens upon the streets declare that in some cases lawyers, if one can so use an honored name, have been retained in advance of slayings to defend the prospective murderers, things have come to an alarming pass.

Unless the epidemic of murder and the disregard of human life and the rights, not only of the victims but of their dependants and of society is checked, the time may come when an enraged people will rise and rend the killers and their accessories who, in the name of the law, bring disrepute upon the law they are sworn to uphold.

The reputable members of the bar, that overwhelming majority of

public-spirited men who serve as real officers of justice, may well take the lead in the movement to scotch the killers and to outlaw those who would debase justice for filthy lucre.—Fort Worth Record.

THAT FAKE CHARITY

The Red Cross work in Lubbock is a work that is most commendable and our people should be liberal in their support of it. Quit wasting so much money by contributing to "fake charity," and give your money through the medium of the Red Cross and it will do more good and not be wasted.—Lubbock Avalanche. The collection hat is going around too often for charity in just about any of these cities. The average person does not object to giving some money for charitable enterprises, but he does like to feel that his contribution will go mostly for the purpose he gave it. Occasionally, one reads about investigations and learns that 40 to 60 per cent of certain gross contributions are given to the collectors and overhead

expenses. Any such system as that is not just to the donor and will have a tendency to make people wary of many other worthy, charitable enterprises. The smaller cities generally have too much duplication of charity work. The overhead expense is too great. When people can be made to believe that 90 to 95 per cent of their contributions will go direct for charity, then they will be more liberal. The lid was turned on some of the charity work at the end of the war. It was an eye-opener to many persons to find that their contributions did not reach the original purposes announced. During the past year there have been charitable campaigns conducted in Amarillo. There have been field directors here and it is doubtful if the receipts were one-half of the overhead cost. The Red Cross is a mighty good local organization and can do charitable work in an efficient manner. Few contributions given to local Red Cross work will be wasted.—Amarillo News.

Don't fail to read the Avalanche.

WHAT OTHERS SAY AND HOW THEY SAY IT

EASY TO BE AN EDITOR

Most any man can be an editor. All the editor has to do is sit at a desk six days a week, four weeks a month and twelve months a year, and edit such stuff as this: "Mrs. Jones, of Cactus Creek, let a can opener slip last week and cut herself in the pantry; While Harold Green was escorting Miss Violet Wise from the church social last Saturday night a savage dog attacked them and bit Mr. Green on the Public square; Mr. Fang, while harnessing a horse last Saturday, was kicked just south of his corn crib." —Yarmouth Light.

WHAT OTHERS SAY AND HOW THEY SAY IT

Newspaper Honesty. Can a newspaper tell the truth? Yes and no! It can if you men will help it, if you will tell its representatives what you believe is the truth; it can if you will support the honest newspaper and not one greedily for sensation and thrills at the expense of reliability; it can if you will write a correction to the editor when a mistake occurs; it can if you will not be so frantic for hot news. You gentlemen have it in your power to make better newspapers by supporting a good newspaper and condemning one that taint and twist the news. The public gets the sort of newspapers it deserves.—Groom Booster. Newspapers are just as truthful as their sources of news. The average newspaper man can write nearly any news story accurately if the source of information is correct. More errors in newspapers are due to reports given them than because of indifference or carelessness on their part. If you go to a meeting and see a newspaper man there, you will notice usually how accurate the report is. But let some one else give the report to a newspaper and frequently facts are confused. Names are forgotten, initials are turned in wrong, motions are confused and many other details are mixed up. The real truth is that the average person cannot see or hear accurately and has a poor memory. That has proved true in court testimony. Two persons see the same event. Their stories are contradictory on the witness stand. Newspapers don't print the whole truth in many stories, sometimes, they suppress stories that

ROUP, COLDS AND SOREHEAD IN POULTRY

(By F. W. Kazmeier, Poultry Husbandman, A. & M. College)

At this time of the year throughout all section of Texas, in nearly all flocks, colds of various forms are making their appearance. In those flocks not now affected, owners can well afford to be on the lookout for this disease. The fall rains and damp weather are sure to develop these troubles and diseases, and for this reason it is well to be on the lookout for them, and to make the necessary preparations.

In connection with any and all poultry diseases it is well to remember that it is much more practical to prevent the disease than to try to cure it. At the same time it is also true that some times it is impossible to do that. Some diseases seem to be so persistent and common that it is extremely difficult to prevent them. Of the difficult diseases to prevent are colds and all allied diseases and troubles.

We do not believe in laying in a large supply of patent medicine and sure cures for all kinds of poultry ailments. We do believe it is wise to keep on hand a few reliable drugs as epsom salts, castor-oil, tincture of iron, potassium permanganate (chemically pure) calomel, quinine, and one or two others. Some of the advertised roup and cold remedies are also very good.

In this article we shall discuss the diseases chiefly that affect the respiratory system and are very common at this time of the year. We would make no mistake if we would call them colds. True roup, colds, core-head and kindred ailments are in some respects different, yet the treatment is more or less alike. They have a good relationship, and the practical poultryman gets after them before they have developed too far. Common colds, not always but frequently develop in roup if allowed to develop unchecked.

Poultry keepers will find it worth while to read this article very carefully, because this disease, at the time this article is being published, is causing a total loss in Texas among chickens of many hundreds of thousands of dollars. Chickens affected with colds, stop laying, do not grow, in other words they are a dead loss, not to say nothing of the mortality.

Common Sense

Fowls affected with lice or bothered with mites are much more apt to contract colds. The lice affect their vitality in such a way that they are not able to throw off the disease. Undernourished fowls are also more subject to the disease. For this reason well fed flocks are not so badly affected, and when they contract the disease they are able to get over it quicker. Feed the fowls liberally of a well balanced ration. Remember that just corn is not a balanced ration.

Crowding is perhaps one of the greatest causes, it is especially so in the case of backyard flocks. Many

backyard flocks at this time of the year are too crowded. Go thru the flock very carefully and remove all culls, such as those that are too old, weak, surplus males, stunted and off-colored individuals. Get rid of all of this stock now, if you have not already done so. Crowding in the houses is very bad, especially in the fall of the year. While they are on the roosts they should have plenty of room. The roosts should be located where the occupants will be sure to have worlds of fresh air. Each fowl should have at least three square feet of floor space and nine inches of roosting space. Crowding on the ground is even more detrimental than crowding in the houses. The more ground space the chickens have the better they will do. The more they are crowded on the ground the more trouble with all kinds of poultry diseases. Backyard flocks should be allowed not less than 30 square feet of yard room per fowl and more is better. Flocks should be allowed about one acre to every 250 hens, although they may be more crowded without very bad results.

Allowing the fowls to roost on the floors of the coop or worse on the ground is a sure cause of colds. It will only be a question of time before they will show signs of the disease.

Filthy quarters are also common causes. The houses and yards should be kept clean. Get in that back yard and clean up the old pieces of boards, wood, empty cans, weeds and other trash. Spade the ground and sprinkle with lime, and if possible keep growing vegetation.

Lack of green food for the chickens is another common cause. Be sure and feed them all they can eat. If all other ways of providing green food fail, resort to sprouting oats. Fowls with plenty of green food are in a healthy condition and hence they are better fitted to withstand the disease.

Improper ventilation is perhaps one of the greatest causes of all kinds of cold and roup. Too few people appreciate the importance of plenty of fresh air for chickens day and night. A lack of fresh air is sure to cause colds. Closing the Louises up too tight at night is very bad and sure to cause serious trouble.

We have found that a lack of fresh air at night will cause trouble in a few days, some times the birds will catch cold over night. To prevent all this we recommend openings for ventilation on all four sides of the hen house. These openings must be large enough so they will answer the purpose. Whenever a hen house smells close and stuffy in the morning it is too poorly ventilated. In the fall and summer drafts are not injurious, but late in the fall and winter or on cold days the opening on the north, east and west ends should be closed to prevent drafts.

The opening in the south should be not less than one-half of the entire front and should be kept open all the year including winter, even on cold days, in any part of Texas.

We have taken considerable space to discuss the cause of the group of diseases affecting the respiratory system more commonly known as colds and roup. Readers are urged to remove any or all of these causes if they exist, before it is too late. The CAUSE is the big factor to get under control if you wish to be successful in controlling poultry diseases. Remember, first locate the cause and then remove it. This is all important.

Treatments

In discussing treatment we shall first devote space to treatment for entire flock both as a cure and as a preventive. We have found that very practical. To cure colds one of the first things to do is to clean out the digestive system, and the best way of doing this is by feeding epsom salts. The dose is one teaspoonful of epsom salts per fowl. It may be given dry in the dry mash mixture or it may be dissolved in water and used to make a moist mixture and fed to the fowls. A good way is to measure out the required amount of epsom salts, dissolve it in a small amount of water, and then mix the water with about the amount of dry mash they will consume in five minutes. Place it on boards or in troughs so all can help themselves. Repeat this about once every three days until they appear to show signs of improvement, but not for more than two weeks. This is a good treatment for colds, roup or sore-head.

For disinfecting the drinking water, dissolve as much potassium permanganate as will remain on the surface of a ten cent piece in one gallon of water. This solution should be used for drinking purposes and should be kept before the fowls for several days.

The inside of house and all drinking vessels and feed dishes should be cleaned, scalded and disinfected with a 5 per cent solution of crude carbolic acid in water, applied with a fine mist sprayer.

We have also found it well to disinfect heads and necks of every fowl with the following mixture: Equal parts of water and kerosene and 10 per cent of some coal tar disinfectant like Kreso or Zenoleum. These may be purchased in any drug store. The mixture must be applied with a fine mist sprayer. Spray their heads and necks, also the entire inside of house and litter. Use it liberally until the odor of the disinfectant is strong inside the house. Spray in the morning, on a sunny day, before the fowls have come off the roosts.

Roup

The first thing to do in any of these diseases is to isolate all infected individuals at once. Place in a dry and well ventilated room with plenty of fresh air. The eyes and mouth should be washed with warm water containing one teaspoonful of common salt to the quart of water. This may be applied with absorbant cotton, at the

same time removing as much of the mucus as possible. Next dip the head in the following solution once a day, until they show signs of improvement: 2 per cent solution of potash permanganate.

Canker

This disease is closely associated with roup, and is some times called diphtheria roup. We have found the following one of the most satisfactory individual treatments: Sprinkle sulphur or chloride of potash on the mouth and throat.

Chicken Pox

Give flock treatment previously described in detail and the following individual treatment: Give local applications of carbolated vaseline after which the crust may be removed and the sores painted with tincture of iodine. Another remedy that has proven very satisfactory is that of mixing 5 pounds of sulphur to each 100 pounds of dry mash.

Special Treatment

In some cases of colds we have found it well to give each affected bird three tablepoons full of castor oil, once a day, about twice a week. We have also given 2 1-2 grains of quinine to break up colds.

WATCH YOUR STEPS—WHY MINCE YOUR WORDS?

What would you say to a man who showed complete willingness to risk the loss of his life? Suppose, for instance, he were one of those misguided folks who think it sportman-like to attempt to beat a train over a railroad crossing. Well, it is possible he might think you were interfering with his personal affairs when you criticised him; but at the same time he could not fail to realize that you had no axe to grind and that you were acting for his benefit. Now, let's suppose another case. If you were out riding with that same person and he took chances at a crossing, you would be strictly within your rights in telling him your opinion of him. Here is a little suggestion of what you might say provided you didn't think of something better:

"Now, Mr. Soandso, I have heard you spoken of as a man who takes big risks at railroad crossings. I noticed you one day running a chance that I wouldn't take for a thousand dollars. I didn't remonstrate with you, for I thought you might retort that it was your own life you risked. You told another man so one day. Now things are different. You asked me to ride in your car. Very kind of you. I accepted with thanks. When we drove near the crossing, I touched your arm and said, 'Wait till that train passes before you try to cross.' You made no reply but stepped on the gas. More by luck than anything else, you got across just in time to save our two lives from destruction. The engineer was leaning out of his window and the fireman was in the gangway. Evidently both thought it a likely case for the coroner. You are foolish to do such things, when alone, but when you have a helpless

passenger in the car with you, I call the act a criminal one. I mean what I say and I won't mince my words just for the sake of being polite. Politeness! Nix, no siree! I'd rather be pushed into a deep river with my overcoat on than to be hustled across a railroad track, right in the face of an approaching train. Watch your step or the grave-digger will be taking some measurements in your cemetery lot.

SHALLOWATER TAKES FIRST GAME FROM ABERNATHY

The Shallowater Swatters took the first afternoon exhibition from the Abernathy Bulldogs in a slugfest yesterday afternoon, 19 to 2.

Gaither for the Swatters, hurled excellent ball, holding the Bulldogs to two lone runs, while Hardesty was ineffective, allowing the Swatters an early lead. Errors were freely made from both divisions, being responsible for many of the runs made. Ten runs were made by the Swatters in the fifth. They play Beeton today in the further elimination contest.

Warren Boyd sustained a broken arm in the contest. The score by innings:
Abernathy 010 001 0—2
Shallowater 330 2(10) 1—19
Batteries—Hardesty and Boyd and Galey; Gaither and A. Miller.

UNION BEATS CARLISLE BY A SCORE OF 10 TO 9

Immediately following the Shallowater-Abernathy contest yesterday afternoon, Union clashed with Carlisle for the second preliminary game of the day, Union taking the fracas by a 10 to 9 score.

Union gained an early lead of eight runs, and looked as though they had cinched the contest, but in the fourth stanza, Carlisle came back for four runs, and again in the sixth by a rally staged a three-run comeback, holding Union to one additional run beyond the third inning. Again in the seventh by a spectacular rally, Carlisle came back for two more counts, enough to tie the count, the agreement being to play seven innings. However, Union nosed out in their half of the last inning, when Johnson set one against the rightfield fence for four sacks.

The score by innings:
Carlisle 000 403 2—9
Union 161 010 1—10
Batteries—Casey and Bond; C. Shipman and L. Johnson.

WARREN BOYD BREAKS ARM THURSDAY AFTERNOON

Warren Boyd of Abernathy, sustained a broken arm just below the elbow Thursday afternoon at the opening of the Shallowater-Abernathy baseball game, when after an attempt to open the contest on the mounds for the Bulldogs, twisted his arm in such a manner as to snap the bone above the elbow. First aid was given the wound at the Red Cross ward located at the

Florsheim style is not "rouge" that a wet day will wash off

fair park, and at this writing the injured member is resting easy. The arm had been broken in the same place one time before.

ABERNATHY MEN HERE TODAY TO ATTEND THE FAIR

W. O. Boyd, W. D. McGee and Editor Redman of the Abernathy Review, all of Abernathy, arrived in Lubbock this morning to attend the fair.

Editor Redman has been a consistent booster of the plains, and we are glad to know that he is on the ground floor to get first hand information of how the fair is conducted, and to see the splendid exhibits that has shown, for through the columns of this live publication Lubbock will receive much constructive boosting, and valuable advertising.

SOME TEXAS HISTORY AND PEOPLE WHO MADE IT

Catholic Church History
The first church established in Texas was in the present county of Houston, where the San Pedro creek empties into the Neches river, northeast of the town of Crockett in 1690, by Father Massanet, a Franciscan monk, and was christened Mission of San Francisco de Tejas. This mission was abandoned after a few years, but re-established by Father Antonio de Margil in 1716 and re-christened Mission San Francisco de los Neches. Father Margil and a number of priests, accompanied the famed expedition of Domingo Ramon, guided by that prince of adventurers, Louis Juchereau de Saint-Dennis, and growing out of this expedition was the founding of five other missions in East Texas, namely, Nuestra Senora de la Nacogdoches, Guadalupe (July 20, 1716), La Purissima Concepcion, San Jose, San Miguel de Linares and Nuestra Senora de los Dolores. All of these missions were established within a radius of fifty miles of the present town of Nacogdoches. The San Antonio missions will form a separate story later in this series.

Protestant Church History
The strongest side-lights on the history of Protestantism in Texas is furnished in the biography of Reverend Littleton Fowler, probably the first duly accredited Methodist missionary to Texas, and its development and growth in the biography of Reverend Rufus C. Burleson, Baptist minister and teacher.

Littleton Fowler was born September 12, 1802, in Smith county, Tenn. The Fowler family claims a succession of preachers from the time of the visit of Wesley and Ashbury to America. He began preaching at the age of 18 and volunteered for missionary work in the Republic of Texas in 1837. Littleton Fowler was self-educated, being denied adequate school training in his youth. January 17th, 1838, at San Augustine, under the supervision of Rev. Fowler the cornerstone of the first Methodist church was laid in the Texas Republic with Masonic ceremonies. (This was probably the first Protestant church erected in Texas). In addition to the sermon of Rev. Fowler, a stirring address was delivered by General J. T. Rusk.

In 1840 or '41 the first Methodist church of Louisville, Ky., the pulpit of which Fowler had occupied, presented the San Augustine church with its first bell. At a session of the East Texas Conference, held in Palestine, in 1837, this bell was presented to the Conference by Columbus Cartwright of San Augustine, as a historic relic of Methodism. The son of Littleton Fowler, Presiding Elder, Littleton M. Fowler, and a grandson, Rev. Ellis Smith, carried the bell to the altar and there rang out its voice in memory of early Methodism in Texas.

On November 21, 1837, Littleton Fowler was elected chaplain of the Senate of the Republic of Texas. He was a delegate to the memorable conference in Philadelphia in 1844, which resulted in a division of the

Northern and Southern Methodism. He was also one of the leading spirits in the establishment of the Texas Conference in 1840.

With his co-worker, Robert Alexander, he aided materially in the establishment of Runtersville College. He founded Wesley College in San Augustine in 1843. Fowler Institute, established at Henderson in 1851, was named in his honor.

This pioneer of protestantism died at his home in Sabine county, January 19, 1846, aged 44 years. His bones rest under the pulpit of McMahon Chapel, twelve miles east of the town of San Augustine. It was here that he organized his first Methodist "Society." A marble slab on the wall bears this inscription: "Sacred to the memory of Reverend Littleton Fowler, Methodist Missionary to the Republic of Texas; Kentucky was his beloved state; Texas was his adopted country; Heaven his eternal home."

On June 21, 1838, Fowler married Mrs. J. J. Porter of Nacogdoches. Mrs. Fowler was a great help to her husband, engaging actively in his missionary labors. She survived him by almost half a century, marrying the Rev. John C. Woolam, a Methodist minister and was known throughout all East Texas as Aunt or Mother Woolam.

First Paper Printed in Texas
The first paper was printed in Texas, September 29, 1829, at San Felipe de Austin, near the present town of Belleville, by Godwin Brown Cotton, and was called "The Cotton Plant." It was a four-page, three-column, nine and a half by twelve inches, subscription price six dollars per year.

David B. Culberson
David B. Culberson was born September 29, 1830, in Troupe county, Ga. Educated at La Grange, Ga. Moved to Alabama and studied law under Chief Justice Chilton. Located at Jefferson, Texas, in 1856. Elected to the Legislature in 1859. He entered the Confederate Army as a private and rose to the rank of colonel in the Eighteenth Texas Infantry. Was appointed Adjutant General of Texas, November 17th, 1863. After the war he resumed the practice of law at Jefferson. Became State Senator in 1873 and was elected to Congress from the Fourth District in 1878, where he served until 1902. "Old Dave," as he was known by his familiars, had a nation-wide reputation as a constitutional lawyer, and at the time of his death at Jefferson in 1903, he was one of the commissioners appointed by President McKinley to revise the United States Criminal Code.

ALPINE NEWSPAPER CHANGED OWNERS LAST WEEK

Alpine, Sept. 27.—W. W. Jenkins of Georgetown, who for three years past has been editor of the Williamson County Sun, has bought the Alpine Avalanche, and has moved to Alpine to take charge as editor and owner.

Texas Interscholastic Makes Ruling On Transfers This Year

Austin, Tex., Sept. 26.—For the purpose of interpreting several important phases of the transfer rule, a meeting of the University of Texas Interscholastic League State Executive Committee has just been held. Rendering of these interpretations at this time has been made necessary by the large number of requests which have been received at the State office. The approval ruling follows:

1. The transfer rule shall not affect the eligibility of any student who transferred before the end of the 1921-22 school year.

2. The transfer rule shall not apply in any case where a student does not leave home to attend school. This interpretation is for the benefit of the student in a rural district who lives close enough to attend two or more schools. In this case he has the right to select the best school and is not forced, in order to be eligible for athletics, to attend the nearest school to his home which might be inferior or actually more inaccessible than another.

3. The term "nearest school" as used in the transfer rule means the nearest school to the home of the student as measured by the public road.

4. "One year's regular attendance" as used in the rule means that the attendance must occur after the transfer has been made and not before.

The transfer rule, to which the above rulings apply, reads as follows: "A student is eligible to represent only the school district in which his parents or guardians reside; provided, (1) a student is not barred under this rule who transfers to the higher class school located nearest his home; (2) one year's regular attendance renders a student eligible to represent the school so attended in contests of the league."

RICHARD LLOYD JONES SAYS WE NEED MORE BURBANKS

The boy in school fifty years ago looking upon the map of the United States in his geography found the vast territory between the Pacific Coast states and the Missouri River designated as the Great American Desert.

Since that time the surveyor has clearly defined the state lines, and into these states hundreds of thousands of brave people have pioneered.

There today great cities stand, skyscrapers pierce the sky, the hammer is heard, business thrives, the parched lands are kissed with irrigation ditches that drain the glaciers' melting flow and spread bounty and prosperity into the lap of an aggressively progressive people.

On that desert land the great Burbank lives. From out that hopeless wilderness he brought forth traits that have been the wonder of the world.

Daniel Webster was a wise man.

"THE HOUSE OF SATISFACTION"
Big Spring Lamesa Lubbock

But amazement would make him wiser were he alive today. On the floor of the United States Senate he opposed the acquisition of the Oregon territory because he said, "You cannot roll a wheel out there."

Soon after Daniel made his declaration a fellow by the name of Whitman rolled a wheel out there. On his wheel Whitman laid a load of apple tree roots. With them he planted out there what have grown to be the greatest apple orchards in the world.

The changed map has taught anew the old lesson that all things are possible to the men who deny defeat to the men who dare.

Twenty years ago we used to speak of undeveloped sections as the "last west." As we have closed in on these unsettled places we found the new east.

While developing ways to fertile fields in what was once the desolate desert we learned much. Now abandoned farms in New York and New England are attracting the college trained agriculturists of the West. The Carolinas and the Southern States about them are revealing farms that lure the lowan, than whom there is no better farmer known. Florida, long looked upon as a tangled mass of semi-tropical verdure, is proving to be a matchless garden spot. Good land is everywhere.

Our agricultural colleges are turning out engineers to irrigate and drain; chemists who teach us how to replenish the soil; agronomists who tell us how to grow better grain and captains of commerce who show us how to make a better product, pack and find a better market. These colleges are changing farming from drudgery to a scientific profession. Lincoln said, "I always plucked the thistle and planted a flower wherever I thought a flower would grow."

more scientifically trained men, and we have land enough in the United States to feed and clothe all the people in the whole wide world.

LOCAL FARM BUREAU BOOSTER WILL ATTEND THE FAIR

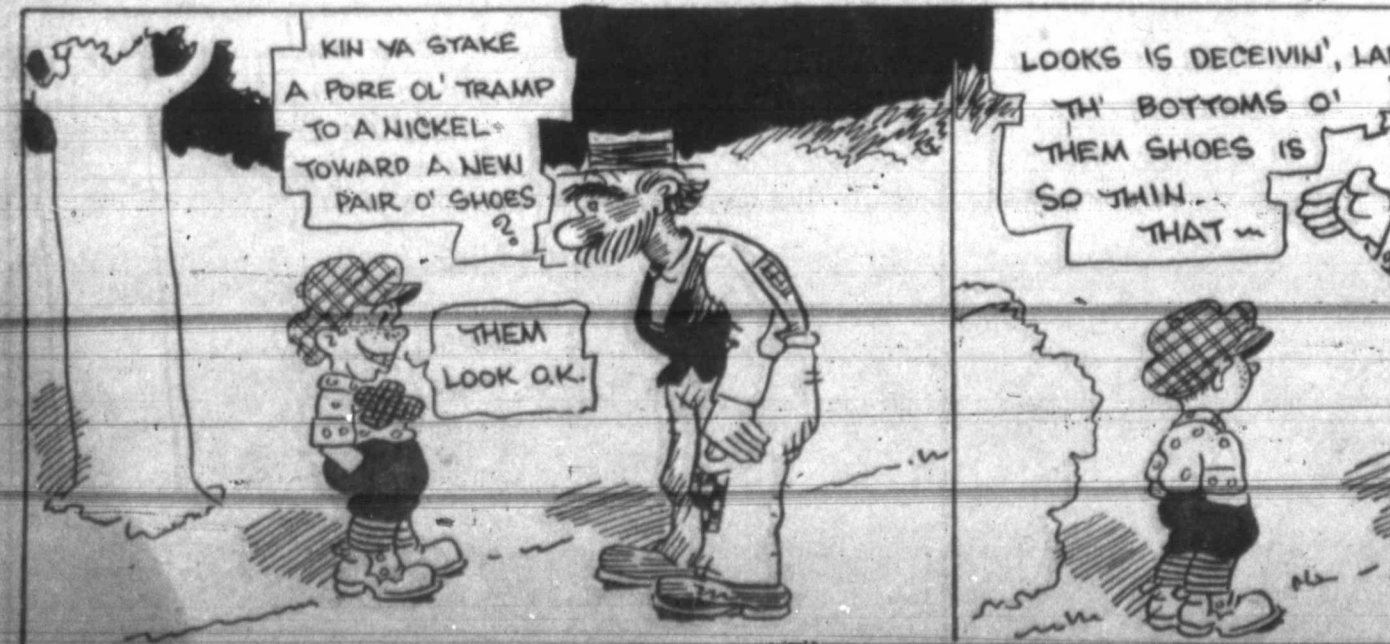

R. E. Overstreet, who has been at Brownwood and Brady for several weeks working in the interest of the Farm Bureau, returned last week, and is counting on being at the fair every day it is going. He is a leader in Farm Bureau work in Lubbock county, and will take advantage of the opportunity to discuss the work with the many farmers who will be here the last three days of this week.

TWO BUILDINGS BURN AT TAHOKA SUN. NIGHT

Tahoka, Sept. 26.—Fire destroyed two wooden buildings on the west side of the square Sunday night. Both were two-story buildings and belonged to J. N. Jones, Tahoka, and H. B. Hurd of Post. One building had a restaurant in the lower story owned by R. S. Davidson, and the upper story was used by the W. O. W. and the Odd Fellows. The other building had a second-hand store below and a family lived above. The fire originated from an oil stove explosion in the upper story. The Odd Fellows and W. O. W. and the restaurant saved all fixtures. The balance was a total loss.

Masons Will Build Chain of Hospitals in the Southwest to Cost More Than Twelve Million Dollars

El Paso, Sept. 25.—Establishment in the Southwest of a chain of sanatoriums for members of the Masonic Order suffering from tuberculosis, the enterprise to involve an estimated expenditure of \$12,500,000, and the care of 5,000 students, will be recommended as a result of the meeting here at the Paso Del Norte Hotel of the tuberculosis sanatorium commission of the Masonic lodges of Texas, Arizona and New Mexico. El Paso will probably be chosen as the site for one of the sanatoriums. The commission will recommend

the building of sanatoriums in West Texas, Arizona and Colorado.

The Texas members of the commission consist of Robert J. Newton of San Antonio, chairman; Dr. Felix P. Miller of El Paso, and Benjamin F. Berkley of Alpine. The Arizona members are Morris Goldwater of Prescott, chairman; Dr. Nelson C. Bledsoe of Bisbee, and Fred O. Goodall of Tucson. The New Mexico members are John W. Turner of Silver City, chairman; Dr. James A. Massie of Santa Fe, and Dr. R. C. Hoffman of Deming. Dr. Bledsoe and Dr. Massie were unable to be present.

To Prepare Surveys

Robert J. Newton of San Antonio was elected as permanent chairman of the commission and Dr. R. C. Hoffman of Deming was named secretary.

Surveys of the actual conditions will be prepared for the Masonic organizations the country over, which are expected to co-operate with and join with the grand lodge bodies of the three States in putting the sanatorium project over.

The commission will recommend the establishment of a chain of sanatoriums around the country with a total of 5,000 beds, included in these will be the institutions to be built in Western Texas, New Mexico, Arizona and Colorado, in order to secure the benefit of the different altitudes and climatic conditions, instead of centering them all at one spot.

There will be one in the Ashe-

ville section of North Carolina and one will be located in the Saranac Lake region in New York, another locality famous for cures. There will also be an institution located in the Middle West, convenient to the large centers of population, and one in either North or South Dakota for the Northwest.

First Hospital for Southwest

The plan is to take care of all tubercular Masons from all over the United States. The first hospital will be built in the Southwest because of the large number of Masons already awaiting treatment there.

The total estimated cost of the institutions, on a bed basis, will be \$12,500,000, or an approximate cost of \$2,500 a bed for the 5,000 beds needed. It is intended to make these hospitals the very best that can be constructed without extravagance, with every feature that enters into the safety, well being and expert care of the patients. The annual cost of operation, it is estimated will be \$1,000 a bed, making the total cost of 5,000 beds, \$5,000,000 a year.

It will take from five to ten years to carry out this program of building. The cost will be advanced by assessments on the membership of Masonic bodies in the United States.

Peddy Makes Klan First Campaign Issue In Opening Speech

Ku Klux Klan supremacy against the supremacy of the Democratic party in Texas was the sole paramount issue injected into the forthcoming November election, when George Peddy, independent Democratic and Republican candidate for United States Senator against Earle B. Mayfield, Democratic nominee, opened his campaign in Fort Worth Monday night. He spoke at the First Baptist Church. In a lengthy speech in which he repeatedly referred to Mayfield as a Klan candidate who received his nomination solely by virtue of the power of the Klan. Peddy only at a few points diverted from that issue. He mentioned prohibition and his lifetime stand on that issue; woman's suffrage for which he led in the fight in the State Legislature; the League of Nations, which he declared the Klan could not approve under its platform of religious intolerance because it would link American Protestants with Italian Catholics; the Esch-Cummins bill which Mayfield made an issue in the primary elections, and a few others which he pronounced for the most part dead issues. He stated that he stood ready at any time to state his position on any question.

In opening his speech he gave a short resume of his life, in which he Shelby county, lost his father when two months old, and continued to live on the farm until 16, when it was necessary for him to leave home in order to finish his high school education, which he did by doing chores for a friend. He then entered the University of Texas, studied two years, returned home, taught school one year, and was elected to the Legislature and then returned to the University.

Resigned to Enter the Army.

He resigned from the Legislature he said, and left college to go to war in 1917 and served 22 months, a large part of the time in France and Germany. He then finished his university course and went to Houston as an attorney. He is a member of the Methodist church, he declared, and has been since 10 years of age, and all his people have been Protestants.

FAIR DISCOUNT!

ACUFF ITEMS OF THE PAST WEEK

Everyone is busy these days and there is not much news, only everyone is making use of this pretty weather and gathering in the grain and cotton. A rain would surely ruin the cotton now.

Mrs. Julia Kelley left Monday afternoon for Canyon Normal, where she will attend school. We will miss her very much as she is a very live wire in this community.

L. S. Evitt took a bale of cotton to the gin Saturday afternoon at Dalou.

W. A. Davis returned from Roswell, Sunday afternoon, where he had been to see about getting some cotton pickers.

Mr. W. C. Grimes' car was out of commission last week.

Miss Cecil Grimes is in the hospital this week. She had a growth cut out of her nose. We hope for her speedy recovery.

Elmer Rush returned from Fort Worth yesterday afternoon, and brought some cotton pickers with him.

W. P. Rush returned Sunday from New Mexico, and brought Mr. and Mrs. Asa Acuff with him.

Mr. and Mrs. L. S. Evitt were dinner guests at the A. M. Evitt home Sunday.

Mr. Roy Moore left Friday morning for Commerce, to be gone for several days.

Elmer Rush and Ashley Davis, were Lubbock visitors Tuesday.

A few of the young people had singing at Mr. Carroll's home Sunday night, and report an enjoyable time.

A good crowd was out to the singing Sunday afternoon.

Lets all go to the fair and have a good time.

TEXAS DEMOCRATS TO RAISE \$50,000 FOR VOTES

Dallas, Sept. 23.—Money contributed by the Democrats of Texas for the national campaign will be expended by the Democratic national committee solely in doubtful states, it was announced here today by John C. Harris, chairman, following receipt of a telegram from Cordell Hull, Democratic national chairman. The question was raised here Tuesday at a conference of senatorial district chairmen when organization was completed to conduct a three week's campaign to raise \$50,000 in Texas.

Two years ago Texas contributed \$82,000 to the national campaign and, though the assessment has been materially reduced this year, the need for funds is said to be acute in close states.

Come to Lubbock.

PAMPA DEFEATED

BY McLEAN 5 TO 4

McLean, Sept. 26.—In the baseball game here this afternoon between Pampa and McLean the score stood 5 to 4 in favor of McLean. The feature of the game was the batting of Bowen and Biggers of McLean, who each made three hits. Biggers struck out eleven men and held Pampa to three hits. Batteries—Pampa, Wilson and Culpepper; McLean, Biggers and Bowen.

AW, WHAT'S THE USE

IT'S A NEW CAR—GOT IT LAST WEEK SO WHEN YOU WASH IT BE EXTRA CAREFUL NOT TO SCRATCH IT.

Try It Yourself, Felix

SECOND DAY OF FAIR BRINGS LARGER ATTENDANCE

(Continued from first page)

that there is a great work to do on the South Plains in property conservation, and as he claims to be the source through which every man owning property in this section can secure adequate protection for that property against storms and fire, he was on the job with a splendid booth, displaying the placards of the many companies he represents through the Lubbock Insurance Agency.

The Pierce Oil Company, local house, realizes that those who attend the fair are those with whom the company would like best to become acquainted, as a result of which a booth displaying the many advertising souvenirs of that well known Pennant Gasoline and Oil is in evidence.

"Say it with Flowers," always has its appeal at any place, but nowhere have we seen that sign so well displayed as at the Lubbock Floral Company's booth, where amid an abundance of autumn brown foliage, the sign to be seen, reflecting upon which an electric light of soft, mellow glow, fitting well with the general appearance of the booth, at once captivates the onlooker. The display of products of floral were well

arranged, and proves to the visitors that an industry of rare beauty is operated here.

The Roche Newton Plumber Co.'s booth was characteristic of the way the workmen of that firm do things, and the modern bath room, heating plant and the beautifully painted walls gave substantially to the entire building, and demonstrates the high quality of the fixtures sold by the Roche Newton Company.

"Our Purpose: West Texas A. & M. Help Us Help You," was a glaring sign in the Kiwanis Club booth, which was artistically arranged, and the significance of that wording is great, in that the Kiwanians have among the ranks some of the most noted schoolmen in the state, and the club is spending every effort to better school conditions throughout West Texas.

E. L. Law, Plumber and Wind-miller, has a substantially fixed booth, which acquainted the visitors with the new and simple methods of hot water equipment, as well as with his ability as a workman.

Raymond Barrier was on the job at his booth at the east end of the building, which is a display of the materials, suits and dresses sold by the Barrier Brothers Dry Goods Company. The many people who passed the booth and expressed themselves as being well pleased with the display was gratifying in-

deed, and those who trade with the alert firm and are acquainted with its manager, found him at the booth ready and willing to offer them every courtesy possible.

The Rotary Club booth is, like the truck in the parade yesterday morning, attractive and neat, and the public-spirited members have chairs for those who would like to rest there.

The Simmons Furniture & Undertaking Company's booth is typical of the way its manager, E. C. Simmons, does things, and the fine furniture that was displayed is a recommendation to that store. A part of the Roche Newton booth was also used to display a kitchen cabinet which is sold by the Simmons company.

Raleigh Martin, famous for his ability as a coffee roaster, has a fine booth arranged for the Martin & Wolcott grocery, the roasting machine being shown, and is set in a background of tinted walls, decorated with autumn leaves that gives the booth a unique appearance second to none anywhere.

If one were to walk the streets of a large American city alongside the show windows of its most fashionable shops, and step therefrom into the booth occupied by the A. E. Conley, Jr. Dry Goods Company, the scene would be changed but little, as the window trimmers of that company have shown great skill in preparing the booth, tending substantially to the already adorable frocks, suits and hats.

Jed Rix, manager of the Rix Furniture & Undertaking Company, was very much on the job, as a result of which two booths are there under the name of the Rix Company, one devoted to De Laval Cream Separators, and another to pianos, both of which are typical Rix designs, which attract much attention. Rix is one of the big boosters of the South Plains Fair Association, and in taking two booths shows that he realizes the opportunity offered to acquaint the many visitors with the goods he handles.

The McAfee Company, exclusive dealers in ladies furnishings, has a booth that appeals especially to the ladies, as the latest styles are shown in the most attractive manner possible. The McAfee Company handles the very best line of goods available, and the booth reflects well upon the ability of members of the firm to display their goods.

Darby and Willeford, grocers, retailers of Chase and Sanborns Coffee, have their booth given entirely to displaying placards, circulars, etc., advertising that brand, cups of which are enjoyed by the visitors.

Nothing is more attractive about the entire grounds than the L. E. Hunt & Company's booth, which is arranged with the same care which Mr. Hunt arranges his windows at his store on Broadway, and the men's clothing are of the most popular and stylish makes.

The Everton-Edwards Music Company, dealer in pianos and Duplex chairs, was successful in arranging

the booth to successfully display the high quality of the piano and chair which make up the furniture of the booth.

E. A. Morgan, manager of the W. C. Bowman Lumber Company, has what is believed to be the most expensive and beautiful booth in the building insofar as wall furnishings are concerned, as in featuring the Sheetrock building material, Mr. Morgan had the booth constructed of the board, and with white enameled woodwork, and many artistic features added. It is in a class to itself. The Sheetrock materials, which are sold by Mr. Morgan's company and the Higginbotham-Bartlett Lumber Company, are used in demonstrating the fire proof features of the material by being placed before a blow torch, which is turned on the material, without doing any damage to the board other than to char the surface coating.

THE TONGUE

Most of us need a "neck yoke" with which to hold up the tongue.

The tongue is a little member but "plumb active."

The tongue is a "skittish" member and hard to get the halter on.

The tongue is one of the concealed members of the body, but an untiring worker.

The harm we do by the wrong use of our tongue is greater than the harm which we do by the act of the life, or the thoughts of the mind, hence the great book warns, "by thy words thou shalt be justified and by thy words thou shalt be condemned."

We all talk too much!

In this day of extravagant speech, wild rumors and multiplied scandals we should not believe one-fifth of what we hear and not half of what we see.

Perpetual motion has never been discovered, anywhere except in the mouth.

Some people break every law of union, organized labor, when it comes to conversation.

Some people talk so much that they are out of "fact" and far into "fiction" before they can slow down.

There is not enough truth in the world to keep some "loquacious" zaddler man or woman—running full tilt day and night.

The average gossip, man or woman, is a liar, for whoever drops to the low level of peddling street gossip, or neighborhood scandal, is putting the "cat's" paws and furbles to what they are repeating before they are conscious of what they are doing.

"He that repeateth a scandal," says the big Guide Book, "is a fool."

Fool in the sense that it is used here, does not denote a lack of sense, but a lack of conscious.

In other words, to translate this old aphorism into United States English it would read, "He who repeats a scandal is a rascal."

Down at the bottom of every neighborhood feud is a long, long, ungodly tongue.

Down at the bottom of every divided home there is a long, ungodly tongue.

The tongue is a little fire, but often the necessary spark in shavings and coal oil and gasoline.

Old Mr. Suspicious launches at sunrise a surmise regarding some man or woman or child, and a thousand "repeaters" take that surmise and roll it through "babble-town," and by sundown it is a "black, ugly, damnable, mountain" of fact, that crushes a man, a woman, a child, or a home. The "tongue-waggers" are like the dogs in the parable of the rich man. They go about "licking the sores" of the race.

The tongue waggers are like the "hell hounds" of which Milton so vividly writes in "Paradise Lost."

When the church baptizes its candidates, some sprinkle the water on, some pour it on, some put the candidate clear under, and some bury him three times, face foremost.

Whoever saw a baptized tongue? Usually the tongue and the pocketbook come out unregenerated and dry.

PLAINVIEW

The News.

Lee Kimble has bought half interest of Gus Otto in the Busy Bee Cafe, and he and the other owner, A. H. Morrison, are now conducting it. Mr. Kimble used to be in the restaurant business here, but several years ago sold out and moved to Missouri. He is well experienced in the business.

The second bale of cotton for this season, received in Plainview, week before last, was brought in by Price and Boswell, the land agents. They are parading around now claiming to be farmers. It is not stated whether they grew it themselves or by proxy.

Federal Grain Inspector, J. B. Wallace, says that there will be very little of the sorghum grains shipped out of the Plainview country this season, due to the shortage of the crop. He emphasizes the need of farmers storing their maize this year and not shipping anticipating a rather rapid increase in price during the winter months.

Last week G. W. Hill of Plainview was seriously injured by the explosion of a gun while visiting his daughter, Mrs. C. W. Giles, at Nocona, in North Texas. The gun was blown to pieces, a piece flying back and striking him in the face, crushing a cheek bone. He was taken to a sanitarium.

G. R. Scott, formerly editor of the Hale Center Record, is now State Inspector of Weights and Measures. Last week he followed a number of drivers of ice wagons, and re-weighed the ice they sold. He found seven of them giving short weights—35 pounds for 50 pounds, 52 for 75 pounds, showing some of the short weights—and he filed complaints against them. They plead guilty and each paid a fine of \$10 and costs.

The E. T. Coleman Co., with a cap-

ital stock of \$20,000, has been chartered by the State, and will do a general coal, lumber and feed business in Plainview, succeeding the present firm of E. T. Coleman coal and grain. A lumber yard will be added. The incorporators are E. T. Coleman, M. R. Coleman and Capt. C. W. Tandy. The latter lived in Plainview for many years, but is now retired and makes his home on the Gulf Coast. Mr. Coleman before coming to Plainview was connected with a lumber company and managed saw mills in East Texas.

In county court yesterday the cases of assault against Guy Speed and Otto Johnson were dismissed "for want of prosecution." These cases grew out of the Ku Klux parade in Plainview the latter part of March. In the case of Robert Nicholson vs. Thos. Gibbs, involving a shipment of sudan seed, the jury

gave a verdict in favor of Gibbs. An interesting case was that of W. H. Rogers vs. E. J. Young. It was a suit for \$125 damages, it being alleged that Young shot and killed a mule belonging to Rogers. Young's defense was that the mule had the bad habit of breaking through fences and trespassing on his land. The jury gave Rogers a judgment for \$117.50.

A very sad death was that of Mrs. Josephine Horstman, wife of Albert Horstman, who died Sunday afternoon at 2:45 from cancer of the stomach and liver. She had been an invalid for eight months, and had undergone two surgical operations.

WANTED—Steady employment, by experienced groceryman. Would consider other lines. Phone this office, No. 14. 63-1p
