

THE LUBBOCK AVALANCHE

VOLUME XXIII. No. 66.

LUBBOCK, LUBBOCK COUNTY, TEXAS, FRIDAY, OCTOBER 13, 1922.

PUBLISHED TWICE A WEEK

LUBBOCK TAKES FIRST PRIZE AT DALLAS

THREE FIRST PRIZES TAKEN BY PANHANDLE AND PLAINS COUNTIES LUBBOCK, POTTER AND CROSBY

Winning Counties Stuck Close to the Score Card Rules and By Having a Fine Lot of Products to Fill the Bill With, They Were Easy Winners—It was an Eye-Opener to the People About the Panhandle and Plains Country.

West Texas is taking her proper place in the minds of the people of the State.

Lubbock county having won first place at the State Fair at Dallas, with Potter and Crosby taking second and third, respectively, brings the Panhandle counties before the public eye in a brighter light than know heretofore, and Lubbock county people have right to feel proud of this achievement. The county which has its site the "Hub of the Plains" is now the center of attraction in agricultural circles wherever the Dallas Fair is known.

The exactness with which the Lubbock county booth was prepared for shipment to Dallas was taken as a keen indication that something was going to be done at the fair this year, and the announcement that Lubbock had taken first place as champion agriculturalists of the State was not a surprise to the many enthusiasts here who had taken much interest in the arrangement of the booth.

An Avalanche reporter interviewed County Agent J. W. Jennings at the courthouse room where the booth was being prepared just a few hours before his departure for the fair, and with a confident air he assured us that the score card had been thoroughly filled, and that it was his opinion that Lubbock county would be recognized.

Lubbock county having won first place at the fair is nothing more or less than the result of the age old fact that the Hub of the Plains, Lubbock county is geographically located in the very center of the greatest agriculture section anywhere.

The climate is just right for the maturity of all crops known to the State of Texas, and the soil is ideal. Everything that grows in the Lone Star State at a profit can be grown at a profit in Lubbock county, and it is altogether appropriate and fitting that Lubbock county be recognized at the State Fair as the champion county in the State in agricultural achievements.

The development of Lubbock county has been steady, continuous and sure. The pioneer was soon made to realize the superiority of the soil of this section, and at once busied himself developing it. He worked hard, and though his methods might now be looked upon as awkward, he worked with the same optimistic spirit which predominates here today, and to his work much of the success this section has enjoyed at the Dallas Fair may be attributed, and in the glory and glamor of triumph he is not his efforts forgotten, but let's look upon the achievement as a matter of time—as time only was necessary for Lubbock and the Plains to take their deserved places in the agricultural life of Texas.

With a keener appreciation of what has been accomplished, and renewed hopes for even greater achievements in the future, Lubbock county citizens are working to the end that the full worth of this section might soon be realized.

In reporting the result of the judging of agricultural booths at the fair, the Dallas News has the following report to make:

Three counties from above the caprock in the Panhandle-Plains country are ranked in the list of winners for 1922 in no far as it is able to determine kings in the agricultural department of the State Fair of Texas. It was a sweeping triumph for West Texas when the list of winners was given out to the News, exclusively, late Monday evening by the judges. Nine West Texas counties and most of them belonging to the Panhandle-Plains group, held undisputed sway at the top of the list before Hill County broke into the winning.

The \$350 first prize goes to Lubbock county with a score of 833 1-2 out of a possible 1,000. Potter was awarded the \$300 second prize with a score of 803 and Crosby dropped below the 800 mark to win third prize, amounting to \$250, with a mark of 787 1-2. Wilbarger county led the group of seven \$200 prize-winning counties with a score of 776 1-2. The other six and their scores were: Childress, 775; Hale 715 1-2; Randall 710 1-2; Collinsworth 685 1-2; Floyd 683; Hill 673 1-2.

The winners of \$150 prizes were: Ellis, 666; Baylor, 660 1-2; Lamb, 657; Hemphill, 656; Brown, 647; Harrison, 635; Johnson 607 1-2; Collin, 560; Dawson 436; Terry 380; Jones 375.

Prizes were provided for thirty winners, but there were no claimants for the \$100 prizes. Twenty-two counties were represented, but El Paso county, because it made no effort to comply with the score card, was not in the competition.

Misinterpret Rules Failure of a good many of the counties to comply with the accepted interpretation of the score card caused some of the counties to lose heavily in the scoring, it was said. There was a general misunderstanding

about the provision requiring the showing of five kinds of fruits and the same five kinds of fruits preserved. Only about three counties complied. The remainder showed five kinds of preserved fruits in jars without regard to those they had shown as raw varieties.

Dawson county, with a magnificent showing of grain sorghums, lost all the points possible in that division, amounting to 250, for failure to make the showing that was required.

Simplification of the rules has been under way for several years and some of the uncertainties will be cleared up when the exhibitors meet late in the week. Rules are made by the exhibitors in conference and then passed on to the Fair Association officials for approval and acceptance.

To Collect West Exhibit Last year's winners were noticeably absent from the top of the list this year. Hunt county, first winner last year, was not represented this year. Haskell county, third place winner last year, dropped out, and Ellis county, second place winner last year, was reduced to eleventh place.

B. M. Whittaker, who had charge of the Haskell county exhibit last year, is attending the show this year as exhibit manager for the West Texas Chamber of Commerce and is collecting a choice representative exhibit for Houston that will be shown at the Houston Fair, the Cotton Palace at Waco, and the Louisiana State Fair at Shreveport.

West Texas county exhibitors were in conference yesterday morning and accepted an invitation of R. B. Ellifritz, manager of the Adolphus Hotel, to attend a banquet for the exhibitors and the executive officers of the West Texas Chamber of Commerce next Saturday night at 7:30 o'clock. Homer D. Wade, assistant general manager of the West Texas Chamber of Commerce, was in conference with the exhibitors and will remain here during the week.

Lamb County Shows All Lamb County was thirteenth in the list of prize winners, but it is offering a tasteful, generally all-round excellent exhibit of agricultural productivity. Instead of relying solely upon cotton or wheat in one-class and corn or grain sorghums in the other main division Lamb County elected to show all four products on an equal basis.

They entered an excellent class of corn and an even more excellent grade of milo maize and kafir corn. Wheat production in Lamb county was below a normal year's average, it was said, but the wheat harvested out sixty-two pounds to the bushel. Lamb county showed a forty-five pound rattlesnake watermelon and was the single county to exhibit the striped melon.

Along with its cotton display Lamb county is showing off the main exhibit a big boll cotton plant bearing 130 bolls of cotton.

The exhibit is in charge of Paul Bohner and Gus Shaw and is one of the outstanding exhibits of the fair for striking designing with two cotton lambs in the back wall of the exhibit against a field of yellow with milo maize heads used for a border design.

The Lamb County exhibit includes an array of vegetables produced on irrigated lands from the Plains country's famous shallow water wells and along with the carefully natured vegetables is a splendid showing of dry land alfalfa. Lamb county in common with its neighbors—and a considerable portion of Texas made its crop against the depressing influence of dry weather.

Potter Has No Cotton Potter county performed an unusual feat when it landed next to the top of the list without showing a lock of cotton in the whole exhibit. It is perhaps the first time that a county from among the first three achieved the high distinction with-

Junior Chamber of Commerce Given Ninety Days In Which to Establish Mail Delivery In Lubbock by Uncle Sam; Action Is Taken

"Old Sam says it's up to us," was the way one of the boys put it at the Junior Chamber of Commerce meeting Thursday morning which meant that if Lubbock would build the sidewalks, the U. S. Postal authorities would establish free mail delivery for Lubbock and that within the next 90 days. More than that. The Inspector secured to go over the situation by Postmaster Deering, carefully went over the town, checked upon the population, secured details as to concrete sidewalks already in from the survey made by the Junior Chamber of Commerce last year, of the street crossings from the Postoffice, designated a section of the city that comes under the postal ruling as to thickness of population, etc.

This proposed section of Lubbock is now being checked over to find just how many sidewalks must be built, and where, how many street crossings must be put in and other detailed information necessary for the completion of our part of the trade.

Percy Spencer, our honorable mayor, stated before the Junior Board Thursday morning that the city, according to preliminary figures, would have to put in 81 street crossings and 40 alley crossings—provided of course that the property owners would put in the sidewalks. A street or alley crossing is worthless unless tied up by sidewalks, consequently the city will put in the crossings only after the sidewalks have been contracted for on the blocks connected by the crossing.

"Free Mail Delivery in 90 Days" That is the slogan adopted by the Junior Chamber of Commerce for the next three months work and you know the reputation that organization has built up for putting things over—or through. Plainview has a free mail delivery. Sweetwater has a free mail delivery—a dozen, a hundred other towns in Texas smaller than Lubbock, with less development, less progressive, less prosperity than Lubbock already enjoy free mail delivery and have been enjoying it for years.

But we have been growing so rapidly, have flung our boundaries out over such a vast territory, have so many vacant lots and non-res-

ident property owners that we have fewer connected sidewalks than any other town of our size and commercial importance in the United States. The inspector stated that he had never been called upon to inspect a city of the size, importance and promise of Lubbock that had so few sidewalks and such a disconnected system of the few sidewalks that already exist in the city.

Of course sidewalks do not necessarily make a town—but any town that amounts to much must build sidewalks. And that is what Lubbock must do within the next ninety days. Eighty-four street crossings will call for more than 100 blocks of sidewalks. Of course there are patches and strips and pieces of sidewalks in front of individual houses and lots over town—but it is a pretty safe bet that it will take several miles of sidewalks to get us into right shape for the free mail privilege.

Lubbock has more miles of sidewalks than many other towns of same population, but we are so scattered that this mileage does not become effective with the many gaps that are left by undeveloped properties.

In Tuesday's paper a list will be published of all the property owners within the free mail territory without sidewalks. In each week thereafter there will be various lists and information as to how this problem is being met. Just who is building sidewalks, where and how that helps to connect up the designated routes and such other information—so we can know just who is helping us to put over the sidewalk and free mail delivery matter and who is laying down on the job.

Although there is a law that will permit the city to build sidewalks wherever needed and assess the cost against the property—it is not believed that such action will be necessary in Lubbock. We believe that we have a different class of folks to deal with.

Complete details will be given next week as to the territory covered, sidewalks needed, cost, etc.—but in the meantime you had better start to figuring—for its "90 days or bust."

Gaines County Murder Trial Is Continued By State

Seminole, Oct. 12.—The October term of District Court convened here Monday of this week, with all members of same present.

Judge Spencer empaneled the grand jury Monday morning, and after holding through to Wednesday afternoon, returned one bill of indictment, that being T. A. Cartwright, indicted for murder in connection with the killing of C. H. Smith at Seagraves, a few weeks ago.

On account of some of the State's most important witnesses being unable to attend court this session, this case was continued until next term of court, which convenes in April, 1923. Cartwright was released on making \$7,500 bond.

The bond for \$500 given by B. Gowen, charged with the illegal transportation and possession of intoxicating liquors was forfeited, as he failed to appear. The disposition of the automobile in which Gowen was transporting the above mentioned load of booze, was also put off, owing to the illness of the attorney representing the supposed owners of the car.

The trial of one or two non-jury cases was disposed of, which constituted the business handled at this term of court.

POST COMES BACK AND BEATS RALLS, 6 TO 0

Post, Texas, Sept. 9.—After suffering a defeat at Ralls early in the season, Post High School showed the result of hard work and good coaching and defeated Ralls at Garza county fair Friday, by a score of 6 to 0.

Both teams have a strong defense and depended on straight football for gains. About 2,000 Garza county fair visitors witnessed the game.

ROWAN AND LUNA CASE MUST STAND, COURT SAYS

Washington, Oct. 9.—The conviction of Albert Rowan and Ben Luna, who with others were indicted in connection with a postoffice mail robbery at Dallas, will stand, the Supreme Court refusing today to review the case.

Rowan and Luna asked review of the case for the purpose of determining whether the indictment was in proper form.

Rev. and Mrs. H. J. Jordan, and Mrs. A. P. Dugan of Littlefield, were here Tuesday shopping.

Panhandle Family Disappeared Mysteriously—Not Located

Foul play is believed responsible for the disappearance of Mr. and Mrs. Frank S. Slay and little girl, formerly of Groom.

They left Wellington in a five passenger Maxwell car September 21 for the Mayo Brothers Hospital, Rochester, Minn. Mrs. Slay wrote her mother, Mrs. Thomas J. Davis of Groom, September 21 from Sharnock and said the next stop would be Canadian.

Nothing was heard from them after the letter of September 21, and several days a telegram was sent to Mayo Brothers inquiring about them, they had not reached Rochester and no trace of them could be found at Canadian, nor in Oklahoma where they were supposed to visit relatives after leaving Canadian.

A large searching party from Groom went over the route as far as Canadian to look for traces of the three people. Groom people telephoned the Daily News last night asking the paper to aid in the search for the family and giving publicity to the fact of their disappearance.

W. J. Slay, father of the missing man, and Thomas J. Davis, father of the missing woman, both live at Groom. Frank J. Slay has a wheat crop in at Groom and was working for an uncle in Wellington before he left for Rochester.

Slay is 30 years old, 5 feet, 8 inches tall, weighs 140 pounds, and has dark hair and blue eyes. His child is 8 years old and weighs 40 pounds.

Groom is greatly stirred up over the mysterious disappearance of the family, and it is believed that a large percent of the countryside will turn out to aid in the search.

WHITEWRIGHT MAN HERE TO IMPROVE FARM

Roy Herd of Whitewright, arrived in Lubbock the first of the week, and immediately started preparations to make improvements on his newly acquired property north of the city.

Mr. Herd is one of the substantial citizens of the Whitewright section, and we are glad to welcome him to the South Plains country.

E. C. Cundiff, of Littlefield, was here Wednesday enroute to Amarillo on business. Mr. Cundiff is one of the best boosters of the Littlefield section, and we are always glad to have him come to Lubbock.

Eye-openers are eye-closers.

MANY VALUABLE EXPERIMENTS BEING MADE AT LOCAL STATION

CROPS THAT WERE MADE THIS YEAR WITH LITTLE RAIN-FALL PROVE ADVANTAGE OF EDUCATIONAL FARMING

WEEDS GREATEST DETRIMENT TO PLANTS

Value of Agricultural Station to Lubbock Is Easily Recognized As One Reviews Work That is Being Done There—Farmers Should Profit by These Experiments.

The possibilities of agricultural achievements in Lubbock county are very readily shown at the Agricultural Experiment Station farm at this harvest season.

Mr. R. E. Karper, who has charge of the farm, has this year made some of the most important tests as regards plant life on the plains that have been made in some time, and while the writer admits a great deal of density on our part hindering our complete understanding of a good many of the specimens as explained by him, we were at once able to see that some wonderful developments have been made which will go far in advancing the cause of the farmer of the plains.

The most alarming thing we learned while on a tour of the place, however, doesn't pertain to plant life one bit, but to community life—that is that a small per cent of our farmers are taking direct advantage of the experiments made there. This in indeed a source of great loss to them, and while Mr. Karper is confident that they will finally get advantage of what is being done by getting seed for planting purposes from the farmers who do take advantage of the planting seed furnished there, that in a round-about way every farmer in the county is profiting by the things that are being done at the farm.

It is interesting indeed to go about over the place and learn of the way the various crops have been cultivated.

It is noticeable that cultivation is necessary indeed, and that the kind of cultivation is not such a great factor, but the amount of work that is done about every acre of land to do with the yield than anything else. Very drastic changes in the appearance of two crops of cotton prove that weeds are the greatest hindrances to plant life on the plains, especially cotton, as two adjoining tracts of seven rows each which were not cultivated at all after planting, other than the use of the hoe in one keeping down all weeds, while the weeds in the other were left to grow, prove that without any cultivation whatever other than chopping down the weeds the crops will grow to some extent, while without the weeds being killed, the field plants are unable to stand the drought season with the weeds absorbing all the moisture from the ground.

It is unnecessary of course to explain to a farmer that weeds are detrimental to the growth of his crop, but it is necessary to prove to what extent the weeds are detrimental. The writer is of the opinion that any farmer who sees the result of that one test alone will be a hundred fold repaid for the effort of getting to and from the experiment station. This and the other tests bring a great deal of light to the farming industry which has not been realized heretofore on the plains.

Just recently the writer passed a cotton crop in which tumble weeds had been allowed to grow so rank that it was impossible to see the cotton further than one-fourth of the distance across the field, and inasmuch as that crop was not in Lubbock county and we do not know of any of such description here, we want to give out farmers credit for using better business judgment, but want to emphasize the fact that we are of the opinion that should have that farmer known the exact amount of damage those weeds were doing on his farm he would have spent a great deal of time and effort ridding his field of them. A trip to the experiment station at most any time the next six weeks would have proven to him conclusively the power of weeds to kill his crop.

Another test which would make anyone take notice is the contrast between broadcast alfalfa and an adjoining tract which is planted in rows. From the broadcast tract two cuttings were made, after which no further growth was made, while that which was planted in rows and was cut at each time the broadcast tract was, is growing very well in spite of dry weather, and will prove to anyone the advantage of the new way of planting.

The most interesting section of the experiment station in our opinion are those tracts devoted to experiments in grain sorghum development, at which Mr. Karper has spent a great deal of time and study, and the splendid specimens developed speak well for his knowledge of the work.

It is distressing to know that there are crops of feed about over Lubbock county, very few however,

on which the farmer will not realize sufficient returns to pay the cost of production, while some of the finest crops to be grown at any time on any land may be seen on the experiment farm, living examples of the value of farm knowledge applied to the farming industry.

Of course it is generally known that an experiment station is a thing to be looked upon as a matter of educational work, and that anywhere else, the ones in charge of the farm would not be so successful in making such splendid crops, but why this erroneous general opinion?

Mr. Karper has one hundred and sixty acres of plains land in cultivation on his place. There are dozens of other one hundred and sixty acre farms all over the plains on which as much and in some instances more rainfall was received, but we bet a Villa jiney that the farmers who are beating that farm for production are few, however we are grateful to Mr. Karper for the information that there are some farms in the county on which just as fine field crops as were ever raised are growing.

Mr. Karper's success in operating the experiment station is nothing more nor less than a matter of education, and we are sure there is not a farmer in Lubbock county but who could receive a great deal of valuable information by spending a few hours a month watching developments on that farm.

Of course it is the ambition of every farmer to excel in crop production, and there are a good many of them in Lubbock county who have accomplished a great deal, but at the same time there are a few who have not received the full advantage of the genuineness of the soil which they work, and we believe that such farmers are doing themselves an injustice if they fail to take advantage of what can be learned in a few minutes spent at the experiment station.

Far be it from us to accuse any plains farmer of being unwilling to expend enough effort on his farm to make a good crop. That is not at all the case. The only weakness that is shown in agricultural circles on the plains is the ambition of too many of our farmers to cultivate entirely too much land, making it impossible to give the soil sufficient attention to receive the maximum production on all crops planted, and the sooner this fact is realized the better for all concerned. Less acreage would enable the farmer to handle each acre with more efficiency, and therefore realize more returns for the work put on that acre.

While the plains country is the greatest agricultural section anywhere, the full advantages of its genuineness will not be realized until each and every acre put into cultivation is so thoroughly worked that every ounce of valuable soil substance is utilized.

To criticize the farmers who have helped to develop this great country is no intention whatsoever of the writer, but having gotten first hand information from one of the best agriculturists in the entire state, as well as from others who are acquainted with the conditions of plains farmers, we feel that our readers would appreciate having it passed on to them.

A farm expert may be just as helpful in solving the problems of your farm work, as a banker would be in solving your financial problems, and with Mr. Karper's knowledge of the art of agriculture at the service of the people of the South Plains, they should take advantage of the opportunity to get his ideas on farm problems.

Though he was very busy when the writer called on him Tuesday, we found that he had ample time to show us over the farm and give us the information desired.

Mr. Karper is one of the most courteous gentlemen we have ever had the opportunity to meet, and we assure our readers that his closest consideration is being given the problems of the agriculturists of today, and anyone acquainted with him will readily realize that we are right in assuring them that their every question as regards the work that is being done on the farm will be given due consideration.

People from all over the South Plains country make regular trips to the farm, and learn many valuable things regarding their work, and after a close consideration of what is being done there the writer is of the opinion that Mr. Karper heads one of the most substantial

(Continued on last page)

LYRIC The South Plains Playhouse

Presents a
PROGRAMME De LUXE
Friday and Saturday
James Oliver Curwood's

"THE BROKEN SILENCE"

Another wonderful picture of the Northland—one you must not miss. Also a good clean comedy.

SAY, LUBBOCK—RALEIGH BROWN, who has been in Dallas for some time playing at the Palace Theatre, is now with the Lyric and his orchestra—well, you just can't afford to stay away!

MONDAY AND TUESDAY

DOROTHY PHILLIPS in

"MAN, WOMAN AND MARRIAGE"

Pagan Courts of Caesar Thronged with Barbaric Beauties. Could you witness for a moment the barbaric beauties of the court of the ancient Rome—do you think you could find comparison anywhere in the world today? Beautiful women, strong men, music and dancing everywhere.

Just as they were then, they are today, for in this picture, Allen Holubar has contrasted the pagan courts of ancient Rome with the fashionable modern world.

—Also—

A DANDY, GOOD, CLEAN COMEDY

Programs you must not miss—Lubbock!

PLAINVIEW

The News
R. H. Sharp and Miss Emma Lambert, from Lubbock, were married here Saturday afternoon, Justice E. A. Young performing the ceremony. J. W. Curry died at his home in Lancaster, Dallas county, last night. He was seventy years of age, and a very prominent citizen of his community. He was the father of Mrs. C. A. Pierce and Sam Curry of Plainview, and they were with him when the end came. He leaves three other children, who live in Dallas county. He visited in Plainview recently. The funeral was held at Lancaster this afternoon, and burial was beside his wife who died some years ago. The Burns & Pierce store in this city was closed this afternoon during the obsequies.

Smith & Townes, Amarillo—architects, have been selected as designers of Lamb County's \$40,000 courthouse to be erected at Olton. They are now finishing up the plans and the work will be pushed to an early completion.

The Herald
Masons of this section will have the opportunity to hear Wilbur Keith, Executive Secretary of the Masonic Service and Education Committee of the Grand Lodge of Texas here on October 6, next Friday. The service here will be an educational meeting. Local Masons are expecting a good attendance of Masons from all over the district.

The Petersburg school was postponed for one week to permit the pupils to work in the cotton fields for one more week. The farmers around that place fear lest a rain come and do much damage to the opening cotton. The school was started yesterday.

The city council last night adopted a new contract with the Texas Utilities Company to do the pumping for the city for the coming year. A new contract had to be made due to the fact that the city is to build a new reservoir and new and larger mains, necessitating more power to handle it.

J. N. Burkett was struck Saturday afternoon by an automobile driven by Mrs. Jim Vaughn. His injuries were not serious, though he suffered minor bruises. The accident happened at the intersection of Sixth Street and Broadway. The car was going slowly, but Mr. Burkett failed to see it coming. The car was stopped before it had time to pass him. It did not run over him, but his fall to the pavement caused his bruises. He is the father of Nathe and Jacob Burkett.

Mrs. Laura Hudgins, wife of Capt. B. A. Hudgins, deceased, died at the home of her son near Hale Center Saturday. She was 82 years old. The funeral services were held at the Baptist church Saturday afternoon at 4 o'clock. She is survived by two daughters, Mrs. Frank Norfleet and Mrs. Payne of Hale Center, and by two sons, Fritz Hudgins who died last year, was her son. She was buried in the Hale Center cemetery, by the side of her husband. Garner Brothers of Plainview, had charge of the funeral arrangements.

The Canyon Normal Yearlings will be here Saturday to give battle to the High School Bulldogs. This is the bunch which went to Amarillo and defeated the Golden Sandstorm recently. The Bulldogs are ready for them. The game will start at Lamar Park at 3 p. m. All the Bulldogs are in good physical shape and expect to go in the game to win. High School has an exceptionally good team this year and a hard game is expected.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. Use as directed.

We can't afford to pay the soldier bonus because we have got to support the new tariff. More than 300 women's clubs agree long skirts are dangerous. Dangerous for women, safe for men.

To remove bilious impurities in the system and be made internally clean and healthy, you need the fine tone and laxative properties of Herbine. It acts quickly and thoroughly. Price 60¢. Sold by City Drug Store.

C. D. SHAMBURGER LUMBER

SOLD ON INSTALLMENTS

We Sell Sherwin-Williams Paints and Varnishes.

INMON GROCERY COMPANY

11th Street Grocers.

Our Business Demands Vision

One who builds for permanency with a view of meeting the demands of the growth of such a section as the people of this community are blessed, must see years ahead; and regardless of the optimistic outlook the builder has, the growth is always greater than anticipated. Thus, with his company, we are equipping to meet your needs by building with a view of abounding future growth.

Overtowering the tallest building in the world, The Woolworth, a monument to nickles and dimes, is a phantom structure of 1¢ pieces which shows the might of pennies, if we will all but pause, think, act.

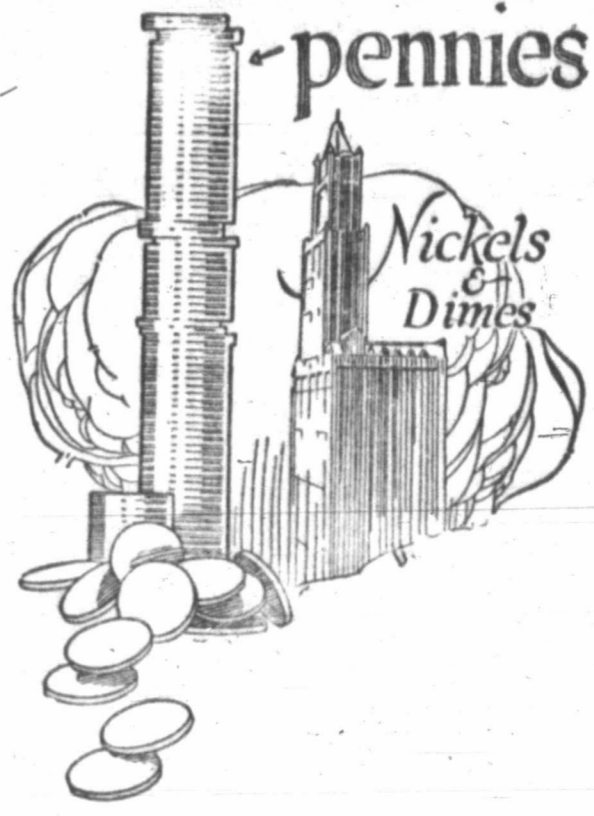

A great international banker estimates that the United States carries fortunes around in its work pockets every day, year in and year out. The average is \$3.50 each for every soul of our 105 million population.

That means 315 million dollars, idle dollars which should be earning \$12,600,000 annually—or 1,260,000,000 pennies, which would pile higher than the Woolworth Building.

That great sum represents only the normal 4 percent earnings of money we carry in our pockets as loose change. Think of the wheels of industry the principal would turn if deposited in banks and put to work.

You owe it to the nation, to your own prosperity, to put all loose change to work.

It will create a reserve fund of surprising strength for you in a very short while; if

you make deposits regularly. Then comes intelligent investment and financial independence. **START TODAY!!**

The Lubbock State Bank

"The Bank for Everybody"

SUMMONS

THE STATE OF TEXAS.

To the Sheriff or any Constable of Hockley County, greeting:

You are hereby commanded to summon W. S. Smith, J. Q. Thompson, R. L. Cox, N. C. Law, M. A. Randolph, L. D. Carter, A. H. Curtis, A. H. Nelson, Mrs. M. A. Randolph, H. Mulkey, M. L. Rendelmen, the unknown heirs of each and all of the above named parties, if they or any of them be dead, their heirs and legal representatives, the unknown heirs of R. D. Browne, deceased, their heirs and legal representatives, the unknown heirs of S. H. Bowers, deceased, their heirs and legal representatives, the unknown heirs of T. L. Sowders, deceased, their heirs and legal representatives, and the unknown heirs of J. B. Sturdivant, deceased, their heirs and legal representatives, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Hockley County, to be held at the courthouse therein in Leveland on the 23rd day of October, 1922, then and there to answer a petition filed in said court on the 18th day of September, A. D. 1922, numbered on the docket of said court, No. 6, wherein W. T. Campbell is plaintiff, and W. S. Smith, J. Q. Thompson, R. L. Cox, N. C. Law, M. A. Randolph, L. D. Carter, A. H. Curtis, A. H. Nelson, Mrs. M. A. Randolph, H. Mulkey, M. L. Rendelmen, G. T. Edwards, H. P. Cook, A. V. Wilson, W. W. Lane, Rhodia B. Sturdivant, individually and as Executrix of the Estate of J. B. Sturdivant, deceased, and the unknown heirs of each and all of the above named parties, if they or any of them be dead, their heirs and legal representatives, the unknown heirs of R. D. Browne, deceased, their heirs and legal representatives, the unknown heirs of S. H. Bowers, deceased, their heirs and legal representatives, the unknown heirs of T. L. Sowders, deceased, their heirs and legal representatives, the unknown heirs of J. B. Sturdivant, deceased, their heirs and legal representatives, are defendants, said petition alleging that Plaintiff Campbell is the owner in fee simple of Survey No. Five (5); Block "E," containing 640 acres, and League No. 163, Garza County School Land, containing 3593.3 acres, situated in Cochran County, Texas, and entitled to the possession thereof; and that defendants unlawfully ejected plaintiff from possession on September 12, 1922, and still unlawfully with hold possession, to plaintiff's damage in the sum of \$10,000.00; and plaintiff also pleads title by the Three, Five, and Ten Years Statute of Limitation, and prays for the title to and possession of said property; said suit being brought as well to try title as for damages.

Kellogg's Corn Flakes touch-the-spot any hour of day or night

"Bobbie dog, guess it makes you hungry, too, to see me eat a great big bowl of Kellogg's for breakfast every morning! But I can't spare any today, Bobbie, honest I can't!"

You can't resist the appeal of Kellogg's Corn Flakes! Pour out a bowl brim full of Kellogg's—big, joyously brown, crisp and crunchy! Was there ever such an appetite treat! And, such a flavor! A breakfast or lunch or supper thrill for big folks as well as little ones.

Get KELLOGG'S Corn Flakes for sure—because Kellogg's are the original Corn Flakes and so deliciously good and so superior in every way that your delight will be boundless. Please understand that Kellogg's are never tough or leathery or hard to eat—they're always crispy!

Kellogg's are sold only in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Toasted Corn Flakes! NONE ARE GENUINE WITHOUT IT! Have Kellogg's for breakfast tomorrow!

A REMARKABLE RECORD

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost a half a century and has constantly grown in favor and popularity as its good qualities become better known. It is the standard and main reliance for these diseases in thousands of homes. The facts that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children.

Difference between classical dancing and taking a bath is you use water in bathing.

The man who won't stop at anything gets further than the man who won't start at anything.

The height of discretion lies some where between the short skirt evil and long skirt peril.

Some Activities of the Prohibition Enforcement Bureau Toward Making The Nation Dry Under Present Law

Special term of U. S. Court was held in Waco, Texas, for the past two weeks under the jurisdiction of Judge Duval West, in which 138 pleas of guilty were entered for violation of the National Prohibition

Act, and the total amount of fines collected in these cases amounted to about \$10,000 and several jail sentences were imposed. Things are beginning to look gloomy for bootleggers.

"HERE ARE THOSE ANTI-PAIN PILLS"

"I don't need them very often, but when I do, I need them quick. One or two and the pain is gone." Dr. Miles' Anti-Pain Pills will relieve you quickly and safely—no unpleasant after effects—no danger of forming a drug habit.

Next time you pass a drug store stop in and get a box. Dr. Miles' Anti-Pain Pills contain no habit forming drugs. Your Druggist Has Them.

The sale of Calumet is over 150% greater than that of any other baking powder.

THE WORLD'S GREATEST BAKING POWDER

Following recent gun battles in the West Virginia hills authorities have decided to equip raiding officers and deputies with machine guns in order that they may be able to cope with bootleggers and moonshiners without fear of injury. "Those gun battles," one sheriff is reported to have stated, "prove that those engaged in the making of moonshine in West Virginia have reached a point of desperation, and we do not wish to take any chances of having officers injured. Officers armed with revolvers can no longer cope with the situation, and whenever we go on raids hereafter we will be fully prepared."

A raid in Harrison County resulted in the confiscation of two wash boiler stills and the arrest of three alleged operators.

Following the receipt of analytical reports from his chemists, on samples of alleged "bonded whiskey" taken by his agents near Huron, S. Dak., Federal Prohibition Director W. O. Knight declares that buyers of illicit "hooch" may be easily deceived by the various mixtures offered for sale as real whiskey, because of the art of bottling, coloring and otherwise substituting which bootleggers have developed. The chemists reported that less than five percent of the liquor seized was real whiskey, the other ninety-five percent being a concoction of various poisons and health-destroying poisons.

Director James R. Davis of Michigan reports to Federal Prohibition Commissioner Haynes that his motor boat patrol continues to function in a very satisfactory manner, a motor boat containing 180 cases of beer and ale ostensibly bound for Cleveland, being captured near Monroe, Michigan; 15-foot launch carrying tea cases of Canadian beer, near Belle Island; and a 33-foot launch, with thirty cases of Canadian beer aboard, off Swanet Island. Director Davis is much pleased with the results obtained by the use of this patrol and prophesies greater progress in future enforcement by this means.

West Virginia stills are being destroyed by fire, according to report received by Commissioner Haynes, together with poisonous product. Unsanitary conditions are thus clarified and the location rendered unfit as a future location for stills.

Federal Prohibition Director Geo. H. Wark of Kansas, reports that his state is in for a general clean-up along enforcement lines, in which campaign he has the promised support of all state and local officials.

"The state laws of Kansas," says Director Wark, "dove-tail into the provisions of the federal statute since there is no penalty provided for a certain form of violation under the federal law that feature is covered by the state law. We can thus get violators in every count. For instance, the federal statute provides no penalty for mere 'possession' of liquor, but the Kansas State law does provide a penalty for this violation; and, on the other hand, where Kansas has no law to punish a man for having a still in his possession, the federal law provides a penalty for that violation and state officials will be required to report such cases to federal officials, while federal authorities are requested to do the same when the situation is reversed.—This procedure gives the federal and state department a cross-fire on the bootleggers and violators of the prohibition law in Kansas, and we feel that the concerted effort of all enforcement officials will result in a general clean-up for this state."

Federal Prohibition Director John T. Davis of Pennsylvania, reports that in the Philadelphia district the federal grand jury has under consideration approximately 250 indictments for violations of the liquor laws, included in which are those charged with using and dealing in forged physicians' certificates and substituting water for whiskey. District Attorney Coles says more cases will be presented than ever before were given a grand jury in this district, and that he will be able to delay hearings to wait for defendants' counsel.

Director Davis reports the exposure of a ring of liquor law violators charged with manipulating whiskey and sacramental wine permits, who make Chicago their headquarters, and states that he is making every effort to run down every dealer in forged or fraudulent permits attempting to operate in Pennsylvania.

Federal Prohibition Director John T. Davis of Pennsylvania and Divisional Chief John Exnicious of the Pittsburgh district, in Washington today, made personal report to Commissioner Haynes of a record-breaking raid in Pittsburgh, approximately 3,000 gallons of moonshine and mash being confiscated and twenty persons arrested. Seventeen places were raided, the Pittsburgh police co-operating.

Director Davis advises Commissioner Haynes that September bids fair to rival August in enforcement results, although August was the banner month.

Chief Exnicious has been concentrating his efforts against redistillation at Pittsburgh of denatured alcohol, and bootleg use of so-called "body-rubs." Thousands of gallons have been seized, he said, and wholesale arrests are contemplated.

Federal Prohibition Director Robert A. Kohloss and United States District Attorney Irvin B. Tucker, of North Carolina, who are in Washington conferring with Prohibition Commissioner R. A. Haynes, in reference to indictments returned in the case of the "Message of Peace," alleged smuggling ship, reported that rum-running operations have slumped materially since the seizure of the boat and conviction of the captain. Referring to North Carolina moonshine, which occasionally reaches the northern bootleg market, Director Kohloss states that he recently gave a public demonstration at which it was revealed that in each of fifty-five gallons of seized liquor there was at least three inches of slime. "Most people of North Carolina know what the stuff is, and will not drink it," he says.

Henry Ford's Order
Editorial, Washington (D. C.) Star: Two aspects are apparent in Henry Ford's order to his employees that all workers in his factories must abstain from the use of liquor, wine, and beer if they would hold their jobs. One is the prevention of accidents in the Ford works, and the other is that of the Eighteenth Amendment is part of the fundamental law of the country and was

DODGE BROTHERS BUSINESS COUPE

The approach of winter emphasizes the all-year usefulness of the car.

Wind and sleet beat in vain against the weather-stripped doors and windows. A floor radiator keeps the interior as warm as a room. The windows are readily adjusted for ventilation.

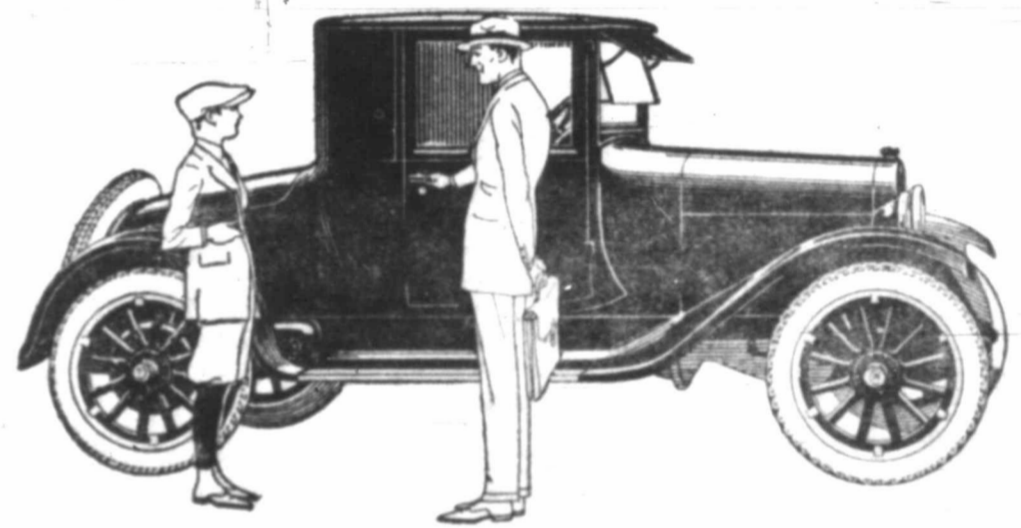

Underlying these seasonal comforts, is the satisfaction owners feel in the car's exceptional sturdiness.

The body proper is a hand-welded steel unit. It is now generally known that this novel construction has made possible Dodge Brothers enamel finish (instead of paint) which is baked at high temperature on the surface of the steel.

The trimness and grace of the body lines are enhanced by a non-rumble fabric top and rear quarters fashioned in the present attractive mode.

Genuine Spanish blue leather upholstery, wide snug-fitting doors and roomy luggage quarters heighten the impression you instantly get of the car's distinctive fitness for service, either business or social.

STAR MERCANTILE COMPANY

W. S. HODGES, Prop.

TO GAIN A GOOD REPUTATION

meant to be enforced." Self-interest will dictate observance of the Ford order. The wage scale paid and the privileges granted make vacancies very easy filled. In his reference to the Eighteenth Amendment, Mr. Ford says: "Politics has interfered with enforcement of this law, but so far as our organization is concerned it is going to be enforced to the letter." The greed of another group of people seeking profits out of the illicit traffic has promoted the consumption of liquor, and it would really be fairer to say that avarice rather than politics has in the main interfered with enforcement.

Henry Ford's example should be followed by large employers of labor, not merely on the ground of greater safety and higher efficiency—but on the ground of respect for law. The country owes Mr. Ford a tribute of gratitude for the admirable stand he has taken in this matter.

The way to gain a good reputation is to endeavor to be what you appear. That is precisely the manner in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturer has been fully up to the high standard of excellence claimed for it. People have found that it can be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take.

THINGS TO REMEMBER

Advertisers, contributors and all parties interested in the Avalanche please remember these things: We print the Tuesday Avalanche on Monday, press hour, 3:30 p. m. Friday Avalanche on Thursday, press hour 3:30 p. m. Please have copy for local notices in not later than noon Monday and Thursday. Ad changes and copy should not be later than 3:00 a. m., Mondays and Thursdays. It takes a schedule like this to get your ads in the paper in good shape, and helps us give our readers better service, which means that the paper will be of better service to you, which we earnestly desire it to be. We do not want to be exacting but we must demand some things of you, if you expect us to come up to the notch.

AMARILLO TRIBUNE SAYS A REGIONAL FAIR SHOULD BE HELD

In speaking of the prize awards given Panhandle-Plains counties at the Dallas Fair, the Amarillo Tribune says:

The only regrettable feature of this whole affair is that there has not been provided in the Plains country a regional fair that would enable these progressive and productive counties of the western part of the State to come together in a great all-western agricultural display. There would be nothing like it in all the agricultural exhibits of the country. The fact that the counties which would naturally make exhibits in a great regional fair here carried off the five principal prizes at the Dallas fair in competition with the entire Southwest is sufficient evidence that we could have here on the Plains a fair that would excel in the quality and variety of its agricultural exhibits anything that could be found in any other section of the country. The Dallas Fair is a great State institution and deserves the support of the people of the entire southwest. We could not hope to outrank the Dallas Fair or supplant it as an institution of the Southwest, but there is no good reason why the progressive citizens of Amarillo should not get together and organize a regional fair that would be a great influence in cementing the counties of this western country into a great agricultural commonwealth. It ought to be done and the city of Amarillo is failing in its duty to this section of Texas by refusing to provide this much-needed enterprise. Amarillo's position as a railroad center of the Plains country makes this city the logical location for such a regional fair, and we are overlooking a wonderful opportunity to develop our city as the gathering place of the Panhandle-Plains and in rendering a needed service to the surrounding counties.

In the above article the Tribune has evidently overlooked the fact that right here in Lubbock is a regional fair that has already a mighty good start toward the goal that the Tribune has set in the article above. Lubbock has just held her ninth annual fair. First beginning as a club boys and girls proposition, then spreading to a one-day county fair, each year growing and spreading over more territory until three years ago it was changed from a county proposition to that of a Panhandle South Plains Fair, and all counties on the Plains and in the Panhandle invited to come in and compete for the premiums. Quite a number came the first year, others came the second year, and still more the third year, and in all probability double the number will enter next year. This fair has never skipped a year since its organization. It is incorporated and managed by business men, and the stock is owned by hundreds of individuals, who are not expecting any dividend from their investment and are not in the association for the money to be made from the shares of stock they hold. There is the foundation already laid here for this regional fair, and the Tribune need go no further for a starting point. The proper thing to do is to tie onto the Panhandle-South Plains Fair and bring your exhibits to Lubbock next fall. Here the ideal regional fair will be finally developed, and we go even stronger in the belief that it will not only be the seat of a regional fair, but will rival the State Fair in quality of exhibits. This fair does not owe a penny, and its property is easily worth \$20,000. Additional stock will no doubt be offered next year for the erection of bigger and more buildings which will be needed, and were needed this year. Come on ye peoples from the Panhandle get in line with this great fair already well organized and going, and make this your regional fair. You are welcome to a place with us! Had the Tribune sent a representative here to see the last fair, or had the editor of the paper taken due notice of reports that went out from this place regarding the fair, it would not have been necessary for him to even suggest the need of a fair at Amarillo of the scope he suggested, but it would only have been necessary for him to urge the people to fall in line with the Panhandle-South Plains Fair at Lubbock and make it the big fair that it is going to make in a few years. This is only a matter of time, and the closer cooperation, the quicker the growth will be realized.

Lamb county probably has the best road grades of any county on the Plains. Lynn also has fine road grades and Crosby county has some good roads. This was accomplished by experienced road men being placed in charge of the work. Lubbock county has some stretches of good road, but for the most part the roads are fierce, and while thousands of dollars have been spent on them, the condition is not improved to any great extent.

LUBBOCK CHURCHES NOT IN KEEPING WITH COMMERCIAL LINES

There is a noticeable difference in the church buildings of Lubbock and the buildings used for commercial purposes, and we believe it is not a very good advertisement for the town. Most every denomination is represented in Lubbock, and most all of them have some kind of a building that they worship in, but in a large percent of cases the building is not a creditable one, and far behind the rest of the town. A number of the churches here have commenced their buildings and have the foundations laid for splendid structures and have them up to the first floor, or in other words have completed the basement and are satisfied to make out with this, and no further effort is being made to complete the buildings. This is not true of buildings that are used for other purposes, but they are carried on to completion, and some of them very magnificent and those interested in their construction would not listen to a suggestion that they might get along with the basement for a few months till money was flush, and the people had more of it than they knew what to do with and were willing to use it to complete the building. We boost our city and brag on it, but when visitors come we seldom show the church buildings of Lubbock to them. We like to show them the court house and the fine business houses, the pavement and other buildings, but we just cannot be proud of the showing that our churches make, and if we are not forced through a matter of courtesy to show them the church buildings we do not. It is a well known fact that no matter of what belief one is, or whether they belong to any church denomination, or have any preference whatever, or even claim infidelity, they believe that the standing of the churches in the community has much to do with its progress and general impression on the people who come to town. Lubbock certainly is away behind along this line, and her wonderful growth and development will not continue unless the people of the community turn their attention more to the buildings they provide for worship. We hope to see every church that has made any effort toward building take up the work immediately and go on to completion and those who have not to take hold and provide church buildings that will be a credit to the city rather than something that we must apologize for.

THE PLAINS COUNTRY AND THE STATE FAIR

The Avalanche had something to say about this in the Tuesday paper, but since that time developments have brought about real triumphs that necessitate us speaking again. It has been hurled to the four winds for the nation that all honors—especially those worth while, have been handed to this section of the State by the judges in the Agricultural Department of the State Fair at Dallas. The three first cash prizes coming to counties above the caprock—Lubbock, Potter and Crosby. And it does not stop at that but still other South Plains counties came in for smaller cash prizes heading off the East Texas counties that have heretofore copped the purses.

In commenting on the outcome of the efforts of the Panhandle-Plains country to present the facts concerning this great section of the State, the Amarillo Tribune says:

Lubbock county, one of the best counties in the State, and populated by an aggressive citizenship that goes after things, captured the first prize, Potter county, with probably less land in cultivation than any of her rival exhibitors at the Dallas Fair, came off with second honors. Crosby county, which is known to be one of the most highly developed counties in all the Plains country won third place in the competition. Then down the Denver Road, which traverses some of the best territory in all the Southwest, Wilbarger county came through with fourth place honors, followed by Childress in fifth place. Could there be any better evidence offered than this record made by these five western counties in what some of the poorly informed residents of East and Central Texas delight to describe as "that drought-stricken western country" that the choicest agricultural part of Texas is to be found in the Panhandle-Plains country and its immediately adjacent territory? It is a source of especial pride that the three chief prizes were won by Plains counties—Lubbock, Potter and Crosby.

BETTER ROADS

This was the topic for discussion at the meeting of the Rotary Club last Wednesday noon, and the speakers of the hour seemed to voice the sentiment of the membership of the club in that this county was far behind in the building of roads, and the maintenance of such. The question of good roads has agitated the minds of people all over the world, various plans and schemes have been used in improving the roads, and of course all this will have to be worked out, but this meeting very likely will be the entering wedge, that will start a movement that will culminate in better roads for this county. It was pointed out by the speakers that Lubbock county could have roads and good ones with the amount of money that the owners of automobiles pay out for repairs on their cars, the additional cost of gas each year, and the amount saved to farmers in being able to market their crops, and the additional business that would be brought to town by virtue of having the improved roads. Their argument is no doubt sound, and the Rotary Club thought well enough of the proposition to take definite action on the matter and authorize the president of the club to name a member of the club as a committeeman to act in conjunction with a member from the Kiwanis Club, and the Chamber of Commerce in taking definite action in the matter.

Most people believe that there always has been and always will be a great lot of money wasted on county roads by inexperienced road men undertaking to do the work. This is the case all over the State of Texas. An experienced road builder could save enough to pay his salary and at the same time furnish the traveling public much better highways.

Jim Ferguson is supporting the man who flew the Democratic track, against the nominee. This is what might be expected. We apologize to the latter and merely say "birds of a feather," etc.

WHAT OTHERS SAY ABOUT THE FAIR

The editor of the Beacon attended the Lubbock County District Fair last Friday, and spent the day pleasantly and profitably viewing the splendid exhibits, the fine hogs, cattle and poultry. This was our first visit to the South Plains Fair, and we were agreeably surprised at the magnitude of Lubbock's undertaking. The fair was more than a credit to Lubbock and the South Plains, it ranked second to the Dallas Fair. One feature of the fair which was remarkable, is the fact that the exhibits this year was from a section whose crops were cut short by the continuous drought. The exhibits would have been a credit, even during the best seasons we have on the plains. A number of South Plains counties exhibited at the fair, and the farm products shown were simply fine. Their Agricultural Hall was jammed full of exhibits, some dozen counties exhibited, besides individual exhibits. The hog section was fine and saw the bringing together of quite a number of well bred hogs. The Duroc and Big Bore Poland predominated. The cattle exhibit was splendid, and the horse exhibit demonstrated what was being done on the South Plains in way of raising good stock. The poultry section was well represented, with several hundred pure bred chickens on exhibition. The estimated attendance on Friday was between fifteen and twenty thousand people. The South Plains Fair is a success, and is keeping with the growth of Lubbock. Lubbock has become a giant city of the Plains. The way it has grown the past two years is remarkable. Lubbock people are doing real, big things.—Lockney Beacon.

The South Plains Fair at Lubbock was a great success and all praise is due Judge Klett, president of the Fair Association; L. T. Martin, secretary of the Lubbock Chamber of Commerce; Geo. W. Briggs, all-around booster; Editor James L. Dow; Curtis A. Keen, J. E. Griffith and a host of other enthusiastic boosters of our sister city, whose untiring work resulted in the splendid fair. Here's hoping for a still bigger and better South Plains Fair next year, and we again compliment the wide awake citizenship of Lubbock for their splendid accomplishment this year against such unfavorable conditions, and it stamps them as being a people who know no failure.—Crosbyton Review.

KANSAS CITY MARKET

Kansas City Stock Yards.—A rather sharp decrease in receipts brought more activity to the cattle trade. Plain to fairly good classes which have been showing the greatest weakness were stronger, and the better kinds which have remained relatively strong, remained steady. It will take a few days to develop whether the decrease in receipts means an actual cessation in the movement or is due to the shortage of stock cars. Hogs were in active demand with prices 10 to 15 cents higher than last week's close. Sheep and lambs sold readily at strong to 25 cents higher prices.

Today's Receipts
Receipts today were 29,000 cattle, 11,000 hogs, and 10,000 sheep, compared with 39,500 cattle, 10,000 hogs and 14,000 sheep a week ago, and 37,600 cattle, 7,100 hogs and 15,000 sheep a year ago.
Beef Cattle
Trade in cattle suitable for killing purposes, showed considerable activity at steady prices. Prime grades were scarce. Some yearlings sold up to \$11.75, a new high record price for the year in light weight steers. No prime heavy steers arrived and the good to choice fed steers sold at \$10.50 to \$11.50. Several bunches of short fed steers brought \$9.50 to \$10.25, and wintered steers \$8.50 to \$9.75. Straight grass fat steers sold up to \$9.00. Plain to medium steers at \$5.50 to \$6.75 were strong to 10 cents higher. Cows and heifers were 10 to 15 cents higher with trade active. Veal and butcher calves were stronger.

Stockers and Feeders
Demand for stockers and feeders was active. Early buyers were after quality. A sixteen carload bunch of 620 pound New Mexico stockers brought \$8.00. Fleasby feeders sold up to \$7.90. Stock calves were stronger.

Hogs
Packers were in the pens early and paid 10 to 15 cents higher prices for hogs. The top price was \$9.65 and bulk of sales \$9.25 to \$9.60. Pigs sold at \$8.50 to \$9.00. Receipts were the largest of any Monday for some time past and the improvement in prices is entirely to a better demand. The general market however is not expected to show a much further advance, and will probably decline in the last week of this month. Stock hogs and pigs are in liberal supply.

Sheep and Lambs
Last week's decline in prices brought lighter receipts today and lambs were quoted strong to 25 cents higher. A good many western lambs sold to killers at \$13.50 to \$13.75, and feeding lambs brought \$12.50 to \$13.00.

Horses and Mules
General conditions in the horse and mule market were about the same as a week ago.

POST CITY HAVING A BUILDING BOOM

Post City, Oct. 9.—It looks like a building boom here with one new residence just completed, a new theater receiving its finishing touches, the Dawson Furniture Company will begin work in a few days on their big, new home and the court house and jail are to be under construction soon.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-1t

Texas Delegation Legion Convention Thousand Strong

Dallas, Oct. 11.—Led by John C. Townes of Houston, state commander, and bands from Brownwood, Bowie, Gonzales and San Antonio, Texas, Legionnaires will sweep down on New Orleans October 14 and 15 more than a thousand strong. Special trains from every section of the state will carry the Texas delegation to the national convention of the American Legion.

The "Thundering Thousand" as the Texans have been dubbed is thoroughly organized to sell Texas and the Texas Legion to the veterans from the effete East; from the glowing Pacific and from a dozen or more foreign countries, and to the thousands of visitors, not members of the Legion, who will gather in the Louisiana metropolis for the convention.

The silver star on cap and coat and the swagger canes swinging along New Orleans thoroughfares will distinguish the Texans and set them off from the general assemblage of veterans. The "Ki-yi-yi-i," the call of the plains, will lend a touch of the early cattle days to the convention. It will be the battle-cry of Texas.

Under the direction of Captain R. Wright Armstrong of Brownwood, a band of fifty-two pieces will be gathered—the official Texas Legion band. The nucleus of the band will be the 142nd Infantry, Thirty-Sixth Division band. The Bowie, Gonzales and San Antonio bands, crack musical organizations, are being sent to New Orleans by their own communities.

With but one political move planned—the election of Wayne Davis of Goliad to a national vice-commandership—Texans will have plenty time to "sell" the Lone Star State to the visitors. Street stunts, novel corner entertainments and a show, "Comrades," which will be shown at a New Orleans playhouse during the convention, will be some of the methods of salesmanship. "Comrades," a war play, is the composition of Lawrence Perry, a Legionnaire of Paris, Texas.

The official delegates from Texas will be housed at the De Soto Hotel. The old Y. M. C. A. building has been secured to take care of some 300 of the visiting Texans.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-1t

MIDLAND IS TO HAVE HEREFORD AUCTION OCT. 25

Midland, Oct. 9.—Five hundred head of selected Hereford steer and heifer calves will be sold under the hammer of the auctioneer here Oct. 25 and 26, by the Midland Hereford Breeders Association. They will be judged and sold in lots of 20, according to H. M. Raiff. Dan C. Casement, Manhattan, Kansas, will judge both shows and Col. Fred Repper of Decatur, Illinois, will auction them. Forty of the best and finest registered Herefords in the southwest will be judged and sold at auction.

Advantage pointed out for buyers by the association is the recent I. C. C. ruling which permits stop-over privileges between Midland and marketing centers, so that stock may be finished at feedlots or ranges enroute. Such stock when reloaded will move on original bill at the through rate from Midland to the market point.

Livestock men interested in the auction are expected to come from not only Texas, but Oklahoma and some of the other Middle Western States.

Much interest in the midiron is giving way to the gridiron.

DYE BLOUSE OR BABY'S COAT IN "DIAMOND DYES"

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Coach Marr, assisted by Sensabaugh, proved themselves to be artists in their line when the Lubbock High football squad, although out-

weighed by the Canyon Normal second string aggregation by ten or twelve pounds average, took Monday's exhibition from them, 27 to 7, keeping up their record of no games lost this season. Canyon was playing defensive ball

practically all the time, and but for the interception of a forward pass in the third quarter by Hale of Canyon, who ran the entire length of the field for their only touchdown, would have been a shutout game. On an attempted forward pass from within eight yards of the goal, Lubbock lost the ball to Canyon, who ran the full length of the field.

The Lubbock line was almost invincible, the only gains of the visitors being made on end runs and passes, but at no time was the outcome of the contest in doubt, as seemingly the Canyon boys were outclassed from all sides and angles.

Hard tackling by the locals, and repeated gains through and around the line by Hensley, Ater, Kittrell and Moore, and the long gains on passes completed, kept the ball in Lubbock territory for the greater portion of the time, always keeping the visitors on the defensive.

The game by plays: Lubbock kicks to Canyon. Ball is fumbled and recovered by Lubbock; Hensley stumbles on first play; no gain; Hensley made seven yards thru line, but was called back, both sides offside. Ater loses two yards on end run; Ater fails to make yardage on line plunge; Canyon's ball. Canyon punts, Kittrell returning punt ten yards; forward pass fails; Kittrell 4 yards; Ater 6 yards thru line; Ater fails to gain; Canyon's ball. Canyon makes 7 yards thru line; two yards thru line; two yards around end; Canyon makes first down. On the next play Canyon was thrown for a loss of three yards. Pass fails, Everton breaking the play; Canyon completes pass for 5 yards. Canyon punts on next play and Dupre for Lubbock recovers; Kittrell 2 yards thru line; Ater 4 yards; Ater 2 yards around end; Hensley 2 yards; Hensley 6 yards; Kittrell 12 yards; Kittrell 4 yards; Kittrell 1 yard; Ater 1 yard; Canyon line holds; drop kick for goal fails; Canyon's ball on 20 yard. Everton replaced by Woodbridge at quarter. Canyon loses forward pass and gains 6 yards on the play. Wilson runs in left tackle for Lubbock. Hensley loses on pass; Woodbridge to Hensley nets 35 yards; 1st down and 5 yards for touchdown; Ater lacks 18 inches in buck through line for touchdown; Hensley no gain on next play; Canyon fights desperately; end of first quarter. No scores.

On the first play at the beginning of second quarter Ater goes over for touchdown. Woodbridge kicks goal for additional point. Lubbock 7, Canyon 0.

Canyon receives and returns half 8 yards; Canyon fumbles on the first play and loses 7 yards; pass fails; Lubbock penalized 5 yards off side; Canyon ball and 1st down; Canyon makes 5 yards thru line; 5 yards around end; 1st down. On the next play Barton breaks thru Canyon's line and throws Canyon for 1 yard loss. Hensley makes a fine tackle, although pass completed and held Canyon to 7 yard gain; Canyon loses one yard on end run; Canyon punts; Dupre fumbles, recovers and fumbles; Ater recovers; Ater loses three yards on end run; Lubbock punts; Canyon fumbles but recovers; Canyon gains 5 yards thru line; Canyon fumbles and Hensley for Lubbock recovers; Hensley then makes 50 yards around end; Ater 7 1-2 yards around end; Woodbridge 4 yards through line; 1st down and 1 yard to go for touchdown; Moore replaces Hensley; Moore plunges thru line for touchdown; Woodbridge makes drop kick for goal; Score, Lubbock 14, Canyon 0.

Canyon receives and returns 10 yards; Canyon attempts a long pass; pass fails; pass completed for 12 yard gain; Canyon makes 2 yards thru line; pass fails; pass fails; Canyon punts out of bounds; Lubbock ball on 35 yard line; Lubbock fumbles on first play and Canyon recovers; Canyon attempts pass which is intercepted without gain; Kittrell one yard; Moore one yard; Moore 35 yards; This was a pretty broken field; Kittrell makes 7 yards thru line. End of half, Lubbock 14, Canyon 0.

Lubbock receives kick-off; Wilson replaces Ater; Everton replaces Dupre; Hawes goes in at left tackle and Barton as left guard. Woodbridge receives and returns 10 yards; Moore makes 2 yards; pass Woodbridge to Everton nets 25 yards; pass fails; Hensley makes 2 yards through line; pass fails; Canyon's ball on 60 yard line; Canyon makes 5 yards around end; pass fails; Hawes breaks through line and throws Canyon for one yard; Canyon punts; Moore returns punt 13 yards; Lubbock is thrown for loss, the ball being fumbled and Canyon recovers; Hawes breaks through Canyon's line and throws Canyon for 4 yard loss; pass fails; Canyon punts and Moore fumbles; Canyon recovers ball; Canyon completes pass for 4 yards; pass fails; pass fails; Lubbock's ball. Lubbock punts and Canyon return punt 18 yards; Canyon makes 2 yards thru line; pass fails; Canyon completes pass for 8 yards and first down; Canyon makes 9 yards through line, Guthrie carrying the ball; Canyon makes 11 yards thru center; pass fails; Canyon makes 9 yards thru line. On the next play Canyon is thrown for loss. Lubbock holds Canyon for downs; pass fails; pass Woodbridge to Hensley nets 25 yards for Lubbock; pass fails; pass fails; Kittrell replaces Moore. Pass fails; pass Woodbridge to Hensley nets 12 yards. End of 3rd quarter. Lubbock 14, Canyon 0.

Reese replaces Barton; Ater replaces Wilson; Rankin replaces Pryor. Lubbock's ball. Hawes makes 6 yards through line; ball is fumbled and Canyon recovers. On the

next play Lubbock tackles Hale of Canyon for loss; Canyon fumbles and Hawes for Lubbock recovers; pass fails; Canyon recovers and punts; Kittrell makes poor catch but recovers fumble; Ater makes 25 yards around end; Hensley no gain to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

second period Morris dropped a field goal through the bars for three points, after the Aggies had worked the ball down to Tulsa's fifteen yard line. Tulsa, however, came right back with a touchdown. A. & M. kicked and a few minutes later J. Wright ran thirty eight yards for a touchdown after receiving Thomas' thirty-five yard pass. Tulsa failed to kick goal.

Then in the third period Stewart pranced across the goal after receiving another thirty-five yard pass from Thomas. Try at goal was successful.

Needley, substitute for the Aggies made their last touchdown in the final period after the Aggies had carried the ball to within a few yards of the goal. Try for goal was successful.

The Aggies missed a beautiful chance for a touchdown in the last few minutes of play by fumbling on Tulsa's ten yard line. The Tulsa crew soon carried the ball out of danger.

The Aggies fought desperately in the last period for a touchdown but the Tulsa defense was too much. The wonderful defensive work of Price for Tulsa stood out prominently. He smeared play after play behind the Aggie line, playing at the end of the defense. Buckner and Gill were the only Aggie players able to gain consistently.

Timely Offerings

Saturday and Monday

You will make a serious mistake if you don't see the Specials we are offering this week.

- Ladies Wool Hose, and Silk and Wool Hose \$3.00 values \$1.98
- Good Heavy Outing 12 1-2c

Ease the pain of a rheumatic attack by rubbing application of Ballard's Snow Liniment. It relieves tenderness and strengthens the joints. Three sizes, 30c, 60c, and \$1.20 per bottle. Sold by City Drug Store.

J. T. Teague, who moved here several weeks ago from Center, New Mexico, is very low at the home of his son-in-law, A. C. White, at 5th Street and Avenue R. Two physicians have been employed during the past several days to revive him, but he has been unconscious since Saturday night.

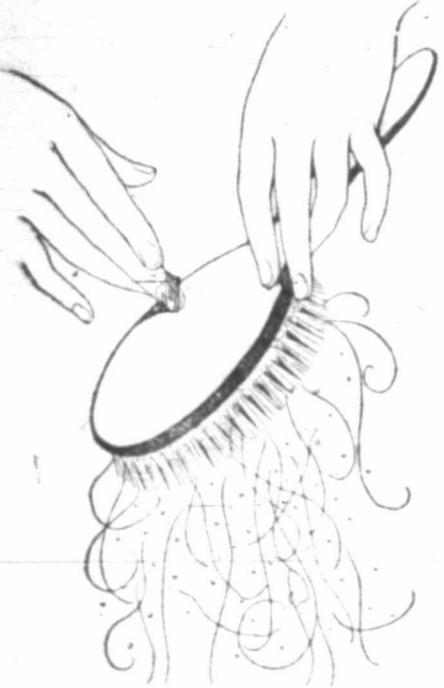

Observations of the Editor

The Bankers are at Loggerheads
 And now the bankers are at loggerheads. It is the old fight, the little fellows against the big fellows—country against city.
 The great financiers would cover the several states with branches of the great banking concerns so that the banking system might be brought into "a more harmonious organization that would be able to

function with greater elasticity." The small town bankers see in such a suggestion their elimination. They sense the fact, too, that the branch bank would mean the presence of the man in the community who is not of the community and that consequently local credits would soon be in a topsy turvey condition.

A PITY TO LOSE ANOTHER HAIR

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Only fools let hair fall out and dandruff stay. Neglect means a bald spot shortly. A little "Danderine" now will save your hair. This delightful tonic cleans the scalp of every particle of dandruff, tightens the hair-root pores, so the hair stops coming out and so the vitalizing oils, which are the very life and strength of the hair, can not ooze away. Danderine is not sticky or greasy. It has made weak, sick, neglected hair strong and healthy for millions of men and women. Your comb or brush is warning you. Hurry to any drugstore and get a bottle now. Don't wait!

It seems a fact that even the most astute financiers may find worthy of consideration that an intimate knowledge of resources and character which is the basis of credit, form a strong bulwark of financial security in the country where more than 60,000,000 of the American people live and have their being.

Eugene Meyer, Jr., undoubtedly a candidate for the Governorship of the Federal Reserve, indirectly makes the plea for the branch system on the ground that a more unified organization would be able to work on a better system of financing the farmer.

There is a need he contends for more gradual marketing of the farmer's product, which is true. This, of course, spells longer term credits to accommodate the slower process of selling.

"Paper, based upon the security of non-perishable commodities," Meyer states, "should be made eligible for rediscount for the length of time necessary to market a season's product before the next harvest."

To which the little fellows reply "Wall Street" has its eye on the profits of agriculture, and would like to concentrate the wealth of the nation in one spot. It is a bitter fight, and it will prove an unfortunate conflict if the farmer is to be caught between the nether millstones.

000,000 in German money since the armistice and the investment today is worth only \$56,000,000. The loss therefore rests at \$904,000,000, with a strong possibility that it will increase.

Disclosures show that America has given to Germany since the end of the war more than twice the amount of gold the German government has paid in war indemnities to the entire combination of the allies up to date.

Surely greed, and the desire to get something for nothing has led the country into dangerous paths. The best country America gets out of the situation is a laugh, because indirectly the whole nation will suffer from the Saturnalia of speculation that has led down the lane of folly.

However, our big city brothers undoubtedly will hesitate before smiling again when the simple, unsuspecting countryman falls a victim to the astute gold brick swindler of the city. Germany has unloaded on the city slickers the most gigantic financial in ignis fatuus in the history of the ages. The Mississippi Bubble is a piker's game compared with it. Such national idiocy, like the wisdom of the Lord, passeth all understanding. Truly can it be said that Germany has lost nothing but the war.

Facts at hand show that the absorption of this printing phantom currency has been brought about chiefly by American citizens of German origin, which serves only to show that "sympathetic interests" in the fatherland did not end with the laying down of arms. But to this has been added greed for gold on the part of city leeches of undoubted American origin and it has created a situation that is deplorable both from a moral and financial standpoint.

RED CROSS

Information received at the headquarters of the Southwestern Division of the American Red Cross in St. Louis yesterday stated that up to the present time a survey conducted by the Red Cross in the Rio Grande Valley has revealed 1,510 families affected by the flood.

Henry M. Baker, director in charge of disaster relief, who is at McAllen, Texas, stated that disaster relief workers have been covering the different areas of the valley and the above report was made by the workers at the close of their work, August 12th.

Eighty-four families have been assisted by the Red Cross, receiving a total of \$5,916.97 in rehabilitation, such as seed, feed, household goods, clothing, necessary medical attention and maintenance. It is estimated by the Red Cross workers that there are two hundred and twenty-five more families that must be assisted.

It is pointed out that only the most emergent cases are receiving attention at the present time, due to the great lack of funds. Each case is carefully investigated to find the family resources, liabilities, damage done by the flood, and the Red Cross worker sits in consultation with the family to discover the actual needs. No awards are made by the Red Cross unless it is shown that the family actually needs assistance.

"The cotton picking situation," said Mr. Baker, "has relieved our disaster relief problems greatly. We have been able to put nearly all the Mexicans and some Americans to work at cotton picking, consequently it has not been necessary to assist many of these families. If the disaster had occurred at another time of the year it would have greatly increased the problem."

Mr. Baker is assisted in his work by the Rio Grande Valley Red Cross advisory committee, composed of a representative from every community in the valley. This committee consults with the director, passing on all difficult cases and establishing policies and procedures. In this way every community is kept in close touch with the work.

Up to the present time receipts total \$11,477.00, of which \$10,000 was donated by the American Red Cross, and \$1,000 by the American Rio Grande Land and Irrigation Co., of Mercedes. "This donation of \$1,000 from the American Rio Grande Land and Irrigation Company," said Baker, "is the most substantial that we have received so far and is greatly appreciated by the American Red Cross."

The total disbursements for relief work amount to \$5,916.97. "We are greatly handicapped," said Baker, "for the lack of funds. If the 225 families which still need assistance are to be properly taken care of we shall have to have an additional fund of close to \$10,000." The Red Cross is conducting its relief work in the Rio Grande Valley at the official request of the Rio Grande Valley Chamber of Commerce.

Many pathetic stories are coming to Red Cross headquarters from families that have been hard hit by the flood.

At the close of the job all the books of the Red Cross Rio Grande Valley Disaster Relief will be audited by a Valley auditing committee and the result of their audit published.

A TONIC

HOW TO PREVENT FIRES

Here are thirty "Safety-First" rules which will stop most fires before they start. Read them and act on them. They will help you and help your town.

1. Keep your house, yard and outbuildings clear of rubbish and inflammable materials.
2. Do not start an open fire near fence, barn or house; never when a wind is blowing.
3. Be sure all chimneys are safe. Have them examined and cleaned each season before fires are built.
4. Never stop flue openings with paper or rags. Use only tight metal caps.
5. Watch the stoves! Do not place close to frame walls, and have a good zinc mat underneath.
6. Screen open fires. Safety of life as well as property demands it.
7. Use only safety matches; and keep matches away from children.
8. Never start a fire with kerosene.
9. Never throw waste paper on an open fireplace or grate.
10. Do not put ashes in wooden receptacles.
11. Do not empty ashes against fences, barns or outbuildings.
12. Keep gasoline out of the house and barn.
13. Never use gasoline or inflammable materials, etc., in the house. Gasoline vapor is more deadly than dynamite.
14. Never fill lamps, oil or gasoline stoves by artificial light.
15. Do not permit matches in pockets of clothing in closets and wardrobes.
16. Do not look for missing articles in attic or closets with matches or open light. Use an electric torch.
17. Do not permit children to play with fire in any manner.
18. Use lamps with a broad base and set only on solid supports.
19. Do not permit swinging gas buckets.
20. Never leave the house with an open fire burning or with oil or gas stove lighted.
21. Never hang clothes or rags close to stove grate or on radiators.
22. Never place kindling or wood against stoves.
23. Do not use paper shades on lamp or electric globes.
24. Beware of the electric iron. Install a red pilot light to the iron connection.
25. Do not use pennies, nails or wire fuses in electric circuits. Fuses are your electric safety valves, and are the only safe kind that should be permitted.
26. Have your wiring carefully gone over each year by a competent electrician.
27. Do not leave oily rags or mops on floor or in closets. They are subject to spontaneous combustion.
28. If you smell gas, open the window and call a gas fitter. If you find the cause, remedy it.
29. A non-combustible roof is the best safeguard against sparks and conflagration.
30. If you see others violating these rules, kindly caution them and remind them of the dangers they are incurring.

REV. ROSS COMPLETED YEAR'S WORK AT SUDAN

Rev. D. C. Ross, Methodist minister, preached to a large congregation at Sudan Sunday, completing the church year at that place. The people of that church were delighted to know that he would serve them another year if it is possible, as he promised them that "I will send you a good preacher if I have to come myself."

Rev. Ross is the youngest old preacher anywhere. He is energetic, faithful to his church and its people, and though several dozens of years have intervened since he started preaching, he still knows how to entertain his audiences, and his sermons are as full of life as in his earlier days.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for Colds, Headache, Toothache, Earache, Rheumatism, Neuralgia, Pain, Pain.

PIONEERS

There are but few cemeteries within two hundred miles of here that do not contain a number of monuments erected by us! That is covering lots of territory, but a fact nevertheless!

Since opening our first store in West Texas our volume of business has steadily grown from year to year. We attribute the fact to several reasons, viz:

FIRST We handle nothing but the best material throughout.

SECOND: We employ none but highly skilled workmen to do all our carving, lettering, etc.

THIRD: We erect all work on concrete foundations and guarantee that a monument set by us will never lean or fall.

FOURTH: The main reason of our success is, we think, we never consider a sale closed until our customer is satisfied.

A firm that is shipping as much work to other points as we are and advertising Lubbock as we are, is worthy of the consideration of the Lubbock people.

Year 'Round Comfort at a Modest Cost

The 1923 Buick Four Sedan—\$1395

The new Buick four cylinder, five-passenger sedan has every convenience and comfort of the finest closed car—and at a price that fits the purse of the average family.

The Fisher-built body is trimmed and upholstered in fine plush with hardware of a handsome pattern. Wide doors with large plate glass windows, adjustable in any position, give easy access to the roomy compartments. Silk shades, a soft dome-light and fine serpeting are all of a quality found only in higher priced closed cars.

The lower body and higher radiator and hood, give this sedan a distinguished appearance that is heightened by the crown fenders, drum type head and parking lamps.

Marked refinements in the chassis and in the famous Buick Valve-in-Head engine increase the riding comfort and add materially to the inherent Buick qualities of dependability and performance.

The Buick Line for 1923 comprises fourteen models: Four—2 Pass. Roadster, \$865; 3 Pass. Touring, \$885; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1395; 5 Pass. Touring Sedan, \$1325; 5 Pass. Roadster, \$1175; 5 Pass. Touring, \$1195; 5 Pass. Touring Sedan, \$1295; 5 Pass. Sedan, \$1285; 5 Pass. Coupe, \$1295; 7 Pass. Touring, \$1525; 7 Pass. Sedan, \$2195; Sport Roadster, \$1625; Sport Touring, \$1675. Prices F. O. B. Buick factories. Ask about the O. M. A. C. Purchase Plan, which provides for Deferred Payments.

THE CHARACTER OF YOUR HOME

Plans and specifications for every building on your city lot or farm determines a great deal the character of your home. But not all. There is also lawn, paint, arrangement—but most vital of all, the quality of lumber or building material used.

"A" grade lumber insures substantial and durable building. Inferior building materials will leave the best of construction perishable and the owner subject to continual care and expense.

Standard lengths of timber have been developed which save both time and money in home building.

Seasoned lumber which is carefully inspected upon arrival at our yard is always included in estimates we gladly make for you when you are thinking of building.

No matter whether it is a house, barn, alteration or repairing, we want to supply you with the materials.

In a few hours your cold is gone, head and nose clear, no feverishness, headache, or stuffed-up feeling. Druggists here guarantee these pleasant tablets to break up a cold or the gripe quicker than nasty quinine. They never make you sick or uncomfortable. Buy a box of "Pape's Cold Compound" for a few cents and get rid of your cold right now.

Bankers Told of Need For The Gradual Marketing of Agricultural Products—Must Market Slowly

By Robert Fuller
New York, Oct. 12.—Bankers of the United States are wide awake to the importance of working out a more liberal platform for agricultural and livestock financing. Already preliminary steps have been taken and a unity of action assured which experienced economists predict are the foundation stones to an era of unprecedented national prosperity.

Summed up, the American farmer played a stellar role in the annual convention of the American Bankers' Association, held here this year and attended by 10,000 of its members. First, Eugene Meyer, Jr., Managing Director of the War Finance Corporation, put the issue squarely up to the bankers in his address, "Financing Agriculture." Then followed the principal fight of the convention over the branch bank issue. Here again agriculture came to the fore, as it was the small town banker, the farmer's banker, opposed to the branch bank idea of the city bankers.

Farmers and stock raisers may expect to see these developments. Longer term financing which will permit a gradual marketing of crops. In other words, loans which can be rediscouted or extended to permit holding of crops until a favorable market is offered.

A supervision of live stock companies in line with that exercised over State and National banks.

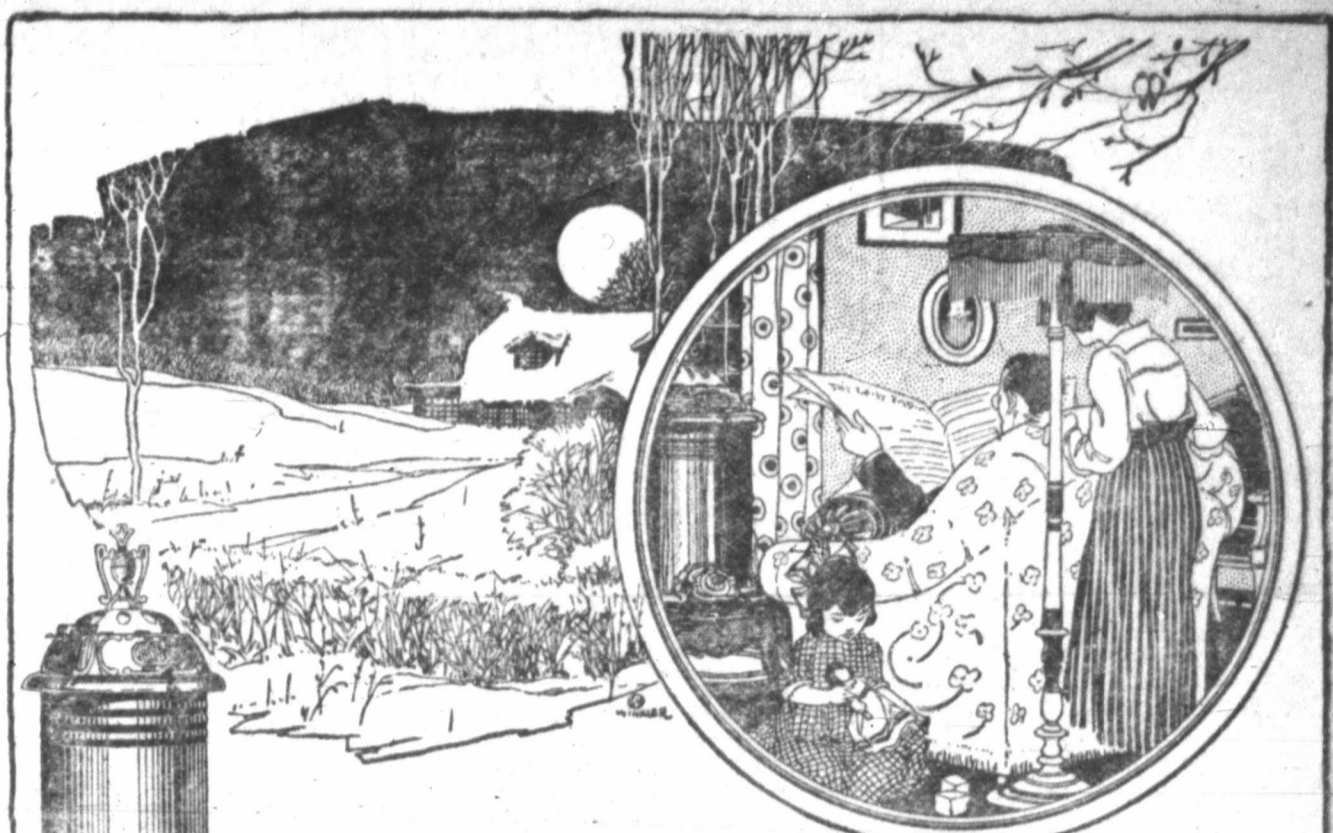

Must Market our Products Slowly
The need for a more gradual marketing of agriculture products through longer term financing as presented to the National Bankers' Association by Eugene Meyer, Jr., received their closest attention.

"Unquestionably," said Mr. Meyer, "it would have been advantageous, even under pre-war conditions, to market our products more gradually. Under present conditions it is more than a matter of advantage—it is an absolute necessity."

"Paper, based upon the security of non-perishable commodities," Mr. Meyer stated, "should be made eligible for rediscout for the length of time necessary to market a season's product before the next harvest. The view seems to prevail in some quarters that paper, in order to be liquid, must have a maturity of sixty to ninety days. But a sharp distinction should be drawn between short-time bank paper and the question of the liquidity of the security that underlies bank paper, long or short."

"Long-time paper may be more liquid as to security than short-time paper. During the past year it was clearly shown that commercial paper depends for its liquidity on the orderly buying of the manufactured goods and that this orderly buying, in turn, depends largely upon a purchasing power based upon the orderly marketing of our basic agricultural products."

Crop Loans Most Desirable
"Indeed, if our late experience established any definite differentiation between the liquidity of commercial paper and of paper based upon staple, non-perishable agricultural commodities, properly warehoused, it established that fact that the latter is decidedly more liquid under adverse conditions than the former. At no time were such commodities so entirely unmarketable as were certain lines of manu-

factured products upon which the so-called liquid commercial paper was based.

"While it is important," continued Mr. Meyer, "to safeguard the Federal Reserve System by proper restrictions regarding eligible paper, it is equally important to safeguard business and agriculture by avoiding discrimination against paper which may be properly considered as eligible."

Branch Banks Weaken Farm Loans
The strongest point accorded by the state bankers as opposed to the National branch bank idea, was the claim that branch banks, if extended to small towns and agricultural districts, would be manned by outsiders unfamiliar with local conditions, thus making loans in many instances unsound and weakening our whole financial structure. The Branch Bank idea was voted down as detrimental to the best interests of the nation.

CALOMEL SALIVATES EVEN WHEN CAREFUL
Treachorous Drug can not be Trusted and Next Dose may Start Trouble

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury; quicksilver.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate. 11-11

CAR REGISTRATIONS MAKE GAINS IN 1922

Austin, Oct. 7.—Motor vehicle registrations in Texas for the first nine months of this year totaled 489,428, an increase of 19,491 over registrations for the entire year of 1921, according to figures compiled by the State Highway Department.

Dallas county leads with 36,773, increase 2,998; Harris county, second, 32,573, increase 3,990; Bexar county, third, 29,360, increase 3,084; Tarrant county, fourth, 22,948, increase 1,948.

Indications are the total registrations for the year will be between 510,000 and 520,000.

How's This?

Why Zinc in paint

ZINC is the backbone of Pee Gee Mastic Paint—50% highest quality ZINC Oxide and 50% pure sublimated white lead, ground in genuine linseed oil. Lead alone is too soft—the paint would chalk. ZINC alone is too hard—the paint would check and crack. COMBINED in a double pigment paint, such as Pee Gee Mastic, Lead and ZINC reinforce each other, eliminating the deficiencies that appear when either pigment is used alone.

Paint with a low ZINC content lacks oil-carrying capacity, and soon goes "flat"—for as you know pure linseed oil is the life of paint. The high gloss finish of every Pee Gee Mastic job is readily explained by the fact that it is ground in pure linseed oil.

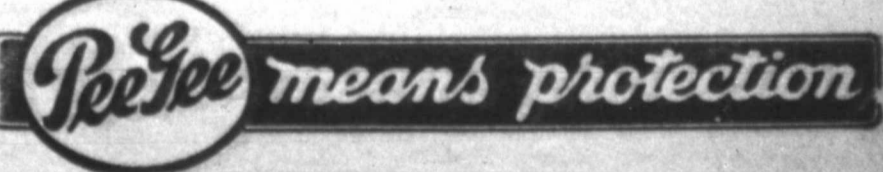

Remember that paint costs less than neglect—that a few dollars spent for Pee Gee Paint NOW will save you a great many dollars in repairs later.

FREE "Homes and How to Paint Them" (new edition), also Pee Gee Mastic Color Card will be sent you upon request. Ask us or write to: Pease-Gaubert Co., INCORPORATED, 414 1/2 THURLEIGH BLDG.

Lubbock, Texas

SEVEN ALLEGED BOOTLEGGERS SEIZED AT HEREFORD

Hereford, Oct. 6.—Seven persons charged with bootlegging were arrested in Hereford this week.

Omer Baker, night watchman, last night caught three men and seized 250 gallons of rye whiskey. The party was apparently enroute to Amarillo. The Buick Six was lined with concealed copper containers.

Sheriff Charles Purcell and Deputies J. E. Hill and W. B. Phillips captured three men and a woman, and after a two-day search found the still in Oldham county.

Some take too much trouble in making pleasure and others too much pleasure in making trouble.

The secret of long skirts is it gives something to lift while crossing the street.

"Cascarets" 10c

Best Bowel Laxative When Bilious, Constipated.

To clean out your bowels without cramping or overacting, take Cascarets. Sick headache, biliousness, gases, indigestion, sour upset stomach, and all such distress gone by morning. Nicest physic on earth for grown-ups and children. 10c a box. Taste like candy.

The coat is on the pumpkin and the shock is in the price.

PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gas, Indigestion or Sour Stomach.

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heart-burn, gas, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

Note to the janitor: "You may fire when ready, Gridley."

Funny things happen. Mexico will pay the interest on her debt.

Lubbock Gridiron Squad Takes Littlefield Here Today—Locals Unbeaten to Date and More Support is Urged by Junior C. of C.

The hard-hitting, plunging, sugging high school squad are to tie up with the Littlefield aggregation today on the local gridiron, and a good interesting exhibition is expected.

Littlefield recently beat out Lamesa by a heavy margin, and in turn Lamesa held Post to a close score, giving Lamesa a whack at the championship of the southern counties.

The local boys have yet to lose a game this season, and have been up against some pretty good stuff. They have certainly shown themselves to have had the best of coaching, and they in turn have showed themselves responsive to this treatment. The work that Coach Marr and O. F. Sensabaugh have been doing for the squad this season certainly

shows that they know what they are doing, and they should have the backing and support of the entire town. For they are turning out a team that is showing the real stuff, and are going to be hard to down.

The exhibition that was seen on the local gridiron last Monday is certainly conclusive evidence that such is going to be the case. Although the boys were outweighed by an average of ten or fifteen pounds, not a weak spot was discovered either in the line or backfield, and when it comes to opening up a line on the offensive—well, you just ought to have been there to have seen it. The Canyon Yearlings were playing on the defensive all the way through, only one time approaching their goal, and that was a run clear across the field on an intercepted pass. Surprised the lad who did it so much he couldn't realize for some time what had happened.

But, listen to some inside dope—The same bunch that we beat out here 37 to 7, beat Amarillo 9 to 6. Also they beat out Pampa, who they say have a stronger team than Amarillo, pouring it on them 3 to 0. There's the way the fight is going, and if you want to see some real class come out and see Friday's exhibition against Littlefield.

The boys are being backed by the Junior Chamber of Commerce financially, and certainly deserve the support of the entire city. Oh, you say, if the game don't make expenses, the Junior Chamber of Commerce will have to dig up the balance. Sure they will, but is that the proper spirit? Is that the way you feel about the matter? We don't think so.

Well, let's see how you feel about this Friday afternoon. Take a few minutes off from your business. It will be an hour and a half as well as a half dollar well spent. You will enjoy it, and likewise will the boys enjoy your moral and financial support.

Friday afternoon at the fair park is the time and place.

HAS NEVER FELT BETTER IN ALL HIS LIFE

Thousands of frail, nervous people and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength, and working efficiency. It seems to quickly invigorate the constitution and is a powerful foe of weakness. William Ripple, 1313 Lynch St., St. Louis, Mo., says:

"For two years stomach trouble, constipation, headaches and dizzy spells had me in pretty bad shape, and I was getting worse right along. Three bottles of Tanlac made a clean sweep of every one of my troubles and I honestly believe it is the best medicine ever sold."

There is not a single portion of the body that is not benefited by the helpful action of Tanlac. It enables the stomach to turn the food into healthy blood, bone and muscle, purifies the system and builds you back to normal weight. Get a bottle today at any good druggist.

BIG CROWD ATTENDED RE-OPENING OF LYRIC

E. McElroy, owner and manager of the Lyric Theatre, enjoyed a splendid patronage at the re-opening of his theatre Wednesday evening, and the large crowd was highly pleased with the program, in which Raleigh Brown and his orchestra was a main feature.

The Lyric is repainted and remodeled throughout, and Mr. McElroy is to be congratulated for the splendid arrangements that have been made.

The Lyric Theatre is one of the main playhouses of this section of West Texas, and Mr. McElroy is showing much consideration for his patrons.

COTTON PICKING RECORDS MADE IN MR. WALLS' CROP

M. B. Wall, farmer on the A. V. Weaver place four miles southeast of Lubbock, has all rights of being proud of his crop this year, as he has already gathered thirty-nine bales from his one hundred and sixty acre crop, and it is making such averages as to make Mr. Wall confident that seventy bales will be gathered this year.

Gathering the large crop of course has been a matter of a whole lot of work, but at the present rate the seventy bales will be gathered before long, as one of Mr. Wall's nine-year-old daughters one day last week picked 256 pounds, another daughter 12 years old picked 276 pounds, and a Mr. Hardy Etheridge, of New Mexico, who is helping to gather the crop, picked 599 pounds in one day, establishing a record for picking cotton in this section.

Mr. Walls came to Eggbok county last fall from Desdemona, and is of course thoroughly sold on the agricultural possibilities of this section, and should be persuaded a good many of his old neighbors to join him in enjoying the comforts of living on the great South Plains near "the hub," we will not be at all surprised.

PHILLIPS CANDY COMPANY IS NEW FIRM IN LUBBOCK

O. R. Phillips, who has for the past ten years been associated with the Manhattan Parlor and Cafe, and who some time ago sold a half interest in that business to F. K. Mitchell, has leased the manufacturing department of the Lubbock Candy Company, and is now in the new place making such candies as are in greatest demand in this section.

The new firm is operating under the name of The Phillips Candy Company, and will do a general wholesale business, which will permit people from all over the West Texas territory to enjoy the delicious candies manufactured by Mr. Phillips. He handles the candy making work with great ease, and is efficient as a salesman, which combination equips him well for the new business.

Mr. Phillips is without parallel insofar as ability to make and keep friends is concerned, and we are sure that the people of Lubbock and the Lubbock trade territory who had occasion to become acquainted with him while he was in the Manhattan Parlor, will be glad to know that though he is no longer associated with that firm, he is still serving the people of this section in another capacity.

Mr. Phillips' location is in a brick building on Avenue I, near the Avalanche office, which is ideal for such business, he has ample room to carry on whatever business he might enjoy, and these advantages coupled with his extraordinary ability in the candy making art, assures his success in the new venture.

WELL KNOWN RANCHMAN MARRIED AT MERKEL TUES.

Douglas Powers, manager of the Cobble Ranch near Littlefield, passed through Lubbock Wednesday enroute home, accompanied by his wife, who until Tuesday was Miss Nioma Gibson, of Merkel, the young couple having been married there at the home of the bride's par-

Red-Cross Laying Plans For Annual Drive for Members

St. Louis, Oct. 8.—The American Red Cross now has 4,000,000 members, according to a count made by national headquarters in Washington recently in preparation for the annual roll call which is to take place this year from November 11 to November 30. Plans for the roll call and the campaign through which it will be conducted will be formed in Washington at the annual Red Cross convention which will be opened today, according to Starr Cadwallader, manager of the southwestern division, in a statement given out from the St. Louis office of that division.

From reports sent in from the six Red Cross divisions, Cadwallader said, the national office believes that widespread revival of war-time enthusiasm for enrollment of members will be manifested this year.

The roll call, which will begin Armistice Day, November 11, and close with Thanksgiving Day, November 30, will be notable this year in the marshalling of forces throughout the world for a straightforward advance toward a set objective, rallying under the slogan "Every American Everywhere a Member of the Red Cross." Under the leadership of John Barton Payne, chairman of the American Red Cross, it is to be an intensive campaign from start to finish that the organization may maintain its strength to carry out the obligations laid upon it by its Congressional charter.

The direct appeal in behalf of a great sustaining membership is to be made for support of the service rendered by the American Red Cross in their homes and in hospitals to disabled ex-service men and their families, for which some \$10,000,000 will be spent this year in work the government is not authorized to do and for which no government funds are available. The work is going on in virtually every community in the United States, through individual and sympathetic contact with the veterans by chapter workers.

Pioneer Cattleman Died at Abilene Last Sunday A. M.

Luther A. Miller, 44 years old, resident of this city for the past 18 years, and a well-known stockman over this entire section of the state, died at his home, North 13th street and Paxton Avenue, Sunday morning at 8:00 o'clock. He was a native of Texas, and was born June 2, 1878.

Mr. Miller was a ranchman and at one time was in the meat market business here. His acquaintance extended over a wide area in this part of the state and he was well known by all the cowmen of the West.

He is survived by his wife and three children, L. A. Miller, Jr., Dorr Miller and Beulah Dorris Miller, all of whom reside in this city. He is also survived by two sisters and five brothers. Funeral services were held at 10 o'clock Monday morning from the residence, with Dr. Ernest Robinson, pastor of St. Paul's Methodist church in charge. The pall-bearers were: R. A. Hodges, Hallond Holt, E. E. King, Lloyd McCarty, J. D. Perry and L. F. Crowder. Burial was made in the local cemetery.

Six members of the Ku Klux Klan attended the funeral of Mr. Miller. The white-robed figures marched around the grave, a prayer was said by one of them, a red cross of flowers was placed on the grave and this concluded their ceremony. The Klansmen departed following the ceremony.

High tribute was paid to the deceased by the ministers who conducted the funeral. The services were in charge of Dr. E. E. Robinson, pastor of St. Paul's Methodist church; Dr. W. Hunt, president of McMurry College, and former pastor of the church, and Dr. Millard A. Jenkins, pastor of the First Baptist church of this city.—Abilene Reporter.

OLD CITIZEN OF HONEY GROVE DIED

Honey Grove, Oct. 7.—J. M. Williamson, 93 years old, Honey Grove's oldest and most respected citizen, died at his home here this afternoon.

Mr. Williamson had been ill for two weeks and his death was the result of dengue fever and other complications.

Mr. Williamson was a pioneer here, having been engaged in the dry goods business for many years. The firm is now being conducted by his son, E. F. Williamson. He is survived by three sons, W. A. and Fred P. Williamson of San Antonio, and T. F. Williamson of Honey Grove, and three daughters, Mrs. J. Parrish and Miss Effie Williamson of Honey Grove, and Mrs. Porter Bywaters of Dallas.

Mr. Williamson had his funeral arrangements planned for some time and had requested that his grandsons be pall-bearers. The funeral will be held at the residence tomorrow afternoon at 3 o'clock, conducted by Mr. Williamson's pastor, the Rev. Ira C. Kiker of the Methodist church.

VETERANS' HOME INMATE AGE 83, WEDS WIDOW, 79

Austin, Oct. 9.—James Nelson, 83, Confederate Home inmate, and Mrs. A. Thompson, 79, of the Confederate Women's Home, were married here yesterday. The newlyweds will start housekeeping in the "married couples" quarters of the Confederate Home.

TWO DEPUTY SHERIFFS INDICTED AT EASTLAND

Eastland, Texas, Oct. 9.—Len Ervin and C. S. Looney, former Eastland county deputy sheriffs, have been indicted on charges of receiving bribes. They were deputies under Sam Nolley. The deputy sheriffs were suspended from office but were not commissioned by the present Sheriff Barton, appointed to officiate.

Ervin, who was stationed at Pioneer while in office, is charged with receiving a bribe of \$12.70, and Looney who was stationed at Cisco, with taking a bribe of \$6.

FARMER COUNTY RECEIVES FIRST BALE OF COTTON

S. J. Williams, a farmer near Wiley Switch, was in town Saturday with the first bale of cotton for this season, as well as the first in the history of the county.

Mr. Williams has in about 100 acres of cotton and stated that he will make about 20 bales. The merchants of the twin city gave a purse of \$50 as a premium for the first bale.

The nearest gin is at Littlefield, or Sudan. There is about 1,000 acres around here and it is good when one considers the unfavorable season this past year.

It now seems that this promises to be an all round farming country.—Farwell News.

SWEETWATER FIRE LOSS IS \$10,000.00

Sweetwater, Oct. 9.—Fire at 3:30 this morning damaged the Nolan Hotel to the extent of \$10,000. Several guests had narrow escapes.

The hotel is owned by the Gurial estate and is leased by B. B. Thomas. This was the second fire in two days, following an estimated \$50,000 loss to the Sweetwater Cotton Oil Company's seedhouse, which was burned Saturday.

The keen north wind hampered the firemen in both fires but Sweetwater's ample water supply proved invaluable.

JUSTICEBURG MERCHANT BOUGHT LAND NEAR HERE

ed on this land putting it into cultivation, and that modern farm buildings will be constructed. Health hint: Whistle.

FLOYDADA

The Hesperian
After the disposal of the suit of the county commissioners and county judge this week, District Court began work on the criminal docket, the first case coming to trial being that of R. M. Broyles, prominent citizen, cattle and sheep raiser, of Lockney, who is charged by indictment with cattle theft. The testimony in the case was started yesterday shortly before noon, and it is expected that the hearing of testimony will continue throughout today.

The Texas Utilities Company has been granted a franchise to furnish electric lights at Ralls and will begin the extension of "high lines" from the Lubbock plant, as soon as material is received, according to advices received from Ralls last week. The company is already furnishing six towns on the South Plains with electricity for light and power.

Mrs. Roy K. Bruner was suddenly taken ill with an acute attack of appendicitis Saturday night of last week at her home in Hereford. Her condition was so serious that an immediate operation was necessary. Plans have been made to have a combined poultry, hog and agricultural show for Floyd county. The date set is October 20-21. The county agent and the Swine Breeders' Association are trying to complete the arrangements so that the show can be held.

Olin Miller attended the Lubbock District Conference of the Methodist church, held at Lubbock Thursday, Friday and Saturday of last week. Mr. Miller returned home Saturday. Willie Wisdom and Miss Thelma White were united in marriage Saturday afternoon by Judge E. C. Nelson, Jr. It was their first time to marry and the judge's first time, as well, but the ceremony was done very nicely indeed, according to the witnesses, the judge, the bride and groom all saying their parts in good style. The couple live in the southeast part of the county.

Mrs. John W. Alexander of Plainview, was painfully but not seriously cut on the forehead yesterday when a car driven by her husband overturned. There were two other parties in the car at the time of the accident, but no one else was injured. Mrs. Alexander was taken to the Childers Sanitarium, where she was given medical attention. The accident occurred one mile north of the Lakeview school house. Mr. Alexander, trying to make a quick turn, struck a culvert turning the car over. Considerable damage was done to the car.

T. L. Brown of the Blanco community, underwent an operation for appendicitis and other troubles, on Tuesday of last week at a sanitarium in Lubbock. Mrs. Brown and children accompanied him, returning home this week. Mrs. E. C. Coleman of Houston, sister of Mrs. Brown,

came to his bedside Saturday. She is now here with Mrs. Brown for an extended visit.

John D. McCall, bond lawyer of Dallas, former state secretary of Texas, left Floydada Thursday, returning home after two days spent here passing on the legality of warrants issued by the Commissioners Court, which have been contracted to refund by the Geo. L. Simpson Company. Mr. McCall passes on the legality of warrant issues for municipal and county bond buyers. It is not known what his report on the refunding issue contracted for from this county by the Simpson Company will be.

SILVERTON

The Silvertown Star
Lon Sweeney of Amarillo, was badly burned Friday at Masterson No. 3 oil well when an explosion occurred and his clothes caught fire. He jumped into a tank of hot water and probably saved himself from being cremated. At last report he was resting some better, but is in a serious condition. Another man by the name of Andree was also badly burned. R. H. McClure, Joe Ed Burleson, C. A. Pyeatt, Mrs. Prentice Richards and Mrs. J. G. Fort went to Amarillo after the accident, and all returned home Monday except Mrs. Richards.

Mrs. J. J. Casey died last Sunday morning about six o'clock, after being sick only thirty minutes. She would have celebrated her eightieth birthday in a few days. Her body was taken to Lockney that afternoon and was laid to rest Monday. The little 16-day-old infant, of Mr. and Mrs. H. S. Crow of Haystack community, died last Friday and was buried in the Silvertown cemetery Saturday.

Last Saturday afternoon the Silvertown football team played Tulla at that place. The score was 26 to 0, in favor of Tulla. It was the first game of the season for both teams, and the score was not a surprise, as it was an untrained, unpracticed team against one that had put in three weeks of hard practice. Both teams played a mediocre game. Brown played a wonderful defensive game, tackling hard and sure. There was nothing spectacular developed, without it was when Burson got loose with the ball and ran half way across the field to get soft ground to fall on. It only makes it a little harder for the boys to be in the finals. It has also proven to the boys that they need training and team work, and we believe it has given the boys more determination to work and win.

LAMESA

The Journal
The big ditcher is making the dirt fly at a lively gait. Lamesa will soon have water works and sewer system.

Married, at the court house County Judge, J. R. Lowrie officiating, Luther Harris and Miss Winnie McNew, both of Dawson county. May success and happiness be theirs.

Our business men are getting lined up for the biggest season Lamesa has ever had. H. E. Williams is now in his new building on the west side. This gives the Clark-McDonald drug store the entire building on the north side, and they are putting in their new fixtures now. Trice & Key will move into the O. K. Jones building during the coming week, and Shelton & Wiley will move into the building vacated by Trice & Key. Mr. Bodzin, of the Reliable Dry Goods Company, will move into the building now occupied by Shelton and Wiley on the south side. This will give Mr. Bodzin more room which he has been needing.

Never did our farmers have such favorable weather conditions for gathering cotton. The staple has been coming in steadily and our gins are running day and night. Up to yesterday noon (Thursday) 4275 bales had been weighed. Local buyers were paying up to 20 cents.

We are glad to state that work has started on the new hotel building for J. S. McWhorter on the block west of the First National Bank. This will be one of Lamesa's greatest needs be supplied.

Dr. Ferguson, in Conley Bldg., is still making those splendid fitting plates at fifteen dollars. Phone 535. 51-4f

PLAINVIEW

The News
John Boswell, secretary of the Chamber of Commerce, is very proud of the county exhibit sent to the Dallas Fair, which opened in Dallas this morning. He says it should win one of the top premiums in the county exhibit section. He says the Hale county exhibits have each year amounted to as much or more than the amount of sending and maintaining the exhibit. Some years the surplus has amounted to as much as \$100.

Mrs. Nancy Yowell, aged 69 years, wife of Moses Yowell, died yesterday from organic disease at the family home near Runningwater. The remains have been prepared for burial by Undertaker Hatchell, and will be shipped this afternoon to Shelbyville, Ky., for burial at the old family home. Mr. Yowell will accompany the remains. The deceased has lived in this country for about twenty-five years, and was a good woman, who had many friends. She leaves several grown children.

The grand jury in Amarillo has indicted Ralph Hull, leader of the railroad shopmen's strike, on a charge of assault with intent to murder. He is alleged to have attacked L. T. Martin, Jr., of Lubbock on July 30, when he came to Amarillo to work for a railroad. Hull is out under a \$1500 bond. Hull has also been indicted on two felony charges for violation of the open port law, and has made \$750 bond in each case.

The city council has signed another contract with the Texas Utilities Company for city lights and the pumping of water for the city. It is more favorable to the city in some ways, but the rates we understand, are the same.

POST

Post City Post
At this writing Tuesday morning, chief driller Parr, and assistants, Ross Parr and Scott Stanfield are in Post waiting for the new beam which is expected on every train and as soon as it arrives drilling will immediately be resumed. The gentlemen are very optimistic and are confident they are going to bring in a well. Here's hoping they find a gusher. Wednesday—the beam has arrived and drilling will start at once.

A real estate deal was put thru last week in which our townsman, W. E. Porterfield became the owner of the Hume building on main street. G. Coury and Son, the postoffice and White House Hotel are located in this building.

Last week we neglected to get in the death of C. H. (Uncle) Babe Smithers, which we wrote and then misplaced. Uncle Babe was an old timer in Garza County and has hosts of friends all over West Texas who are grieved to hear of his unexpected death which occurred at Justiceburg last week from heart failure. He was buried in the Terrace Cemetery at Post.

Mrs. Geo. Samson spent the latter part of last week in Lubbock with Mr. Samson, who was there in charge of the Garza County exhibits for the Lubbock Fair.

Mr. Paul (Polly) Duran and Miss Dessa McElroy were married last Wednesday in South Post. The contracting parties are well known and have a host of friends here who will join us in wishing this couple a long life and prosperity.

The editor sent a pen of his fine Silver Campine chickens to the fair at Lubbock, and got 1st, 2nd and 3rd prizes. That's what we call "going some."

Building activities are looking better in Post right now. Mr. Howard has just completed a residence in West Post. Mr. Lloyd is finishing up a new picture show building on the main street that will be a beauty when completed. Yarbro and Goddeke are remodeling the old Colonial building and putting an up-to-date garage in it which will also add much to the looks of the town when completed. The big Davis-Mason Furniture Store will soon begin work on their business house next door to W. O. Stevens Company, and the courthouse and jail will soon be under construction.

Much interest in the midiron is giving way to the gridiron.

Long-Bell LUMBER

More homes! Yes—but better built homes. That's the important thing.
This is the age of quality. "Not how cheaply can I build, but how well," should be your thought when you pore over home plans, when you consult architects, contractors and lumbermen.
Inferior materials are an extravagance none can afford. For a home, to be a real investment both in money and satisfaction, must last as long as you care to live in it.
Almost everything that goes into the building of a home bears the trade-mark of some manufacturer who has said to himself: "If I am to realize my ambitions in building a permanent business, I must put into what I make the best of my skill and knowledge, must label it with my trade-marked name, must warrant that name an honorable place and must keep it so."
Trade-marks are guides to good merchandise. You have proved it for yourself in buying the food you eat and the clothing you wear.

You can buy Long-Bell Lumber here. Long-Bell Lumber Co. Lubbock, Texas

STOCK SHOW and AUCTION SALE

Strength from Ironized Yeast Simply Glorious!

It Follows a Natural Law Which Never Changes or Fails. The Entire Body Quickly Feels New Power!

"I've just about gone to pieces! Do you know that getting back strength is comparatively easy? But do you realize that it is almost impossible to get back your strength by means of unnatural drugs? Do

Ironized Yeast Will Build You Up Amazingly and Quickly!

You know that about one woman out of every three is exhausted because of nerve and blood starvation? The remarkable power of yeast-vitamins-ironized has been proven. There is now no further excuse for being weak, sick, run-down. Ironized Yeast contains the tremendous natural building forces of vitamins and iron, and it builds and strengthens in half the usual time. Do you know why? Ironized Yeast is not a mere mixture of yeast and iron, but yeast ironized, which is a substance all by itself. That's what makes Ironized Yeast the most powerful, natural builder in the world today. You will find a new strength coming over you, your cheeks will get rosy, your eyes sparkle, your appetite will be sharp, you will digest what you eat, your blood will become rich, your energy will be more than equal to your ambition. Get a package of Ironized Yeast today, and beware of substitutes. Sold at all drug stores at \$1.00 a package. Each package contains 60 tablets, each tablet is sealed. They never lose their power. M.F.A. Ironized Yeast Co., Atlanta, Ga. Health and strength are now up to you.

LUBBOCK DRUG COMPANY

LUBBOCK JEWELERS RETURN FROM SWEETWATER

A. F. Woods, of the Woods Jeweler and Optical Shop, A. E. Helber, of the Gift Shop, and G. K. Watkins, of the Watkins Jewelry Store, returned the first of the week from Sweetwater, where they spent last week undergoing examination before the State Optometric Board.

They all report a pleasant as well as a profitable trip to the Southern city. Examinations along the line of optometry are becoming a little more stringent each year, they say, and before many months have passed it will be impossible for a man to practice that line of business without being fully competent for the work as laid down by the State Board.

At the present there are two classes of examinations, the Limited and the Standard, and the Limited service is gradually being overcome. At this meeting no one was permitted to enter the Limited examination except the man who has been practicing optometry for some time. In other words, a new man entering the service is required to stand the Standard examination or he is not given a license to practice.

This, we think, is very commendable in the State Board, inasmuch as a man has to come up to the requirements laid down by the State which are very strict, or a license will not be issued to him.

The treatment of the eye is a very delicate undertaking, and the general public, not only as a safeguard to themselves, but as an encouragement to the man who is trying to apply himself to the restrictions of the Board, should be very particular in their selection of an optometrist.

"STOP THAT ITCHING"

Avalanche is the paper to buy.

Try New Method Of Testing Seed For Germination

Washington, Oct. 9.—A new method for testing germination of cotton seed is being tried out at various southern experimental stations, it is announced by the United States department of agriculture, with the result, it is expected, that old methods may be superseded. Cotton growers would welcome a test method that would give results as dependable as the method applied to testing corn for germination, as the cotton seed tests in use at the present time are declared to be not very satisfactory on most strains of cotton.

There is always much poor cotton seed for planting, both that in the dealers' hands and that kept by the growers themselves, it was said for that reason alone a good germination test is urgently needed. The reason for the large quantity of bad seed is that very little is known about the effects of various conditions on the vigor of the seed. The old way, according to the department announcement, is to put the seed between strips of cotton flannel, moisten them and then keep them in a temperature alternating between 20 and 30 degrees centigrade. Better results have been obtained in the new plan with some strains of cotton, by planting the seeds in soil in boxes and putting the boxes in incubators where the proper temperature can be maintained.

Turns Out 90 Percent
One sample thus tested by soil methods germinated about 90 percent, while 12 samples from the same lot tested in the usual way to give results varying all the way from 14 per cent to 50 per cent germination.

The department, however, is not yet ready to say that the new method is entirely satisfactory as only a few soil tests have been made. The varying percentages show that the old cloth method is not dependable for all samples. The experiments are still being made at the stations.

Thus far, it was said, a combination of the two methods seems to give results. The germination in soil will show the number of live seeds and the percentage of seeds germinating between the cloths will indicate their vigor.

In addition to its efforts to devise a good germination test, the department is studying the effect of storing seed when too damp and of picking seed at different stages of maturity.

METHODISTS WILL TAKE S. S. CENSUS OF LUBBOCK

At a meeting of Sunday School teachers called by James L. Dow, superintendent of the Sunday School at the Methodist Church Monday afternoon at 4 o'clock, plans for taking a church or Sunday school census of the city were laid out to the teachers, and each one given a section of the city to work over this week, to ascertain the number of Methodists in Lubbock, where they are from, ages, sex, whether or not they are attending Sunday school, and such other information as will make canvassing the town in interest of the school more effective.

Much interest is being shown in the school, and with the teachers to make this visit to all Methodist homes in Lubbock to secure the necessary information, we are sure they will meet with much encouragement, and that the Sunday school will make material advances as a result of their work.

The city was marked off in sections, the block of buildings between two streets being the territory assigned each teacher, with instructions to return an absolute census of the Methodist population of that section, and it was made plain that all available help could be used in taking this census.

Mr. Dow emphasized the necessity of doing this work this week, and in all probability the cards on which the information will be written will be returned to him Sunday morning properly fixed.

Rev. C. N. Ferguson, pastor of the Methodist church, was present, and encouraged the teachers in the work, declaring that in compiling this information and making it possible for the teachers to know the residence of each Methodist that should be in their class, only a little effort would be necessary in expanding the Sunday school attendance wonderfully.

LINCOLN CAR IS NEW ADDITION TO LUBBOCK AUTO CO.

Joe Dick Slaughter, of the Lubbock Auto Company, must evidently believe there is real merit to the old adage that "variety is the spice of life" in that he now has for his personal use and for the consideration of those interested in the larger automobiles, an eight cylinder Lincoln, which is put out by Henry Ford at the Lincoln shops in Detroit.

When the Ford Company purchased the Lincoln plant, arrangements were immediately instituted to make all Ford dealers eligible to handle the Lincoln also, and as the Lincoln is a top notcher in the heavy car class, the Lubbock Auto Company is now handling one of the largest as well as one of the smallest cars made—Fords and Lincolns are a wonderful combination in featuring light and heavy cars.

M. A. CRUM, Friona, Texas.

The real cause of the Turk war is said to be that Lloyd George forgot to meet a crisis.

VETO SHOWS OPPOSITION TO ANY SOLDIER BONUS

President Harding's arguments against the soldiers' bonus bill which he has just vetoed indicate his opposition to any plan of adjusted compensation for the soldiers, sailors and marines who fought in the World War save those who suffered illness or injury as a result of their service.

In many places in the message which accompanied his veto President Harding uses language which leaves no doubt that he will disapprove any future bill of like intent. Although the country is grateful to these former service men, the President says, "it is not to be said that a material bestowal is an obligation to those who emerged from the great conflict not only unharmed but physically, mentally and spiritually richer for the great experience." Elsewhere in his message the President recalls the people's willingness to do anything that would insure victory in the war, but he adds:

"To a war necessity there was but one answer, but a peace bestowal on the former service men as though the supreme offering could be paid for with cash, is a perversion of public funds, a reversal of the policy which exalted patriotic service in the past, and suggests that future defense is to be inspired by compensation rather than by consciousness of duty to flag and country."

The President argues against the granting of a bonus now as a procedure likely to prejudice the care of the service men in the future. On this point he says:

"It is essential to remember that a more than four-billion-dollar pledge to the able-bodied former service men now will not diminish the later obligation which will have to be met when the younger veterans of today shall contribute to the rolls of the aged, indigent and dependent."

Mr. Harding's objections apply not alone to what he considers the expediency of the bill and the methods which he has disapproved but to the whole policy of paying a bonus to "able-bodied former service men" who in his own phrase, "emerged from the great conflict not only unharmed but physically, mentally and spiritually richer for the great experience."

DEMOCRATIC BONUS PROPOSAL REJECTED BY G. O. P.

Democratic members of the Ways and Means Committee of the House of Representatives, in a minority report made on March 20, 1922, recommended that "whatever kind or sort of bonus or adjusted compensation Congress shall deem justly due to the World War veteran" should be paid from taxes levied on excess profits and great wealth. This proposal was rejected by the Republican House, which, with the Republican Senate, had previously voted to repeal excess profits taxes amounting to \$450,000,000 and high surtaxes aggregating \$61,500,000 a year.

Recalling that many big monopolistic corporations which have "profiteered upon the people and the Government since January 1, 1916, to the extent of more than \$400,000,000 of net profits and who are continuing their profiteering" would repeat one legitimate source of revenue for the payment of the bonus, the Democratic minority said:

"For this purpose we favor the reenactment of the surtax on the large incomes of these millionaires and multimillionaires which was repealed by the Republicans in their revenue act of 1921, and a reenactment of the excess profits tax which was also repealed by them in said act."

TRAVELING SALESMEN HERE WILL ORGANIZE

Everybody likes Lubbock. That of course is perfectly natural, but emphasis is being put on the many admirable features of this town by the traveling salesmen residing here, and plans are now on foot to establish an organization of the United Travelers here, which is a national fraternity, with lodges all over the country.

S. P. Smith, traveling salesman for the Great Western Flour Mills of Amarillo, a resident of Lubbock, and Claude McDaniel, of the service department of Martin's Bakery, are working on the organization of the fraternity here, and they report having received much encouragement from the many traveling salesmen who live here.

The plan on which the organization will function as laid out to an Avalanche reporter sounds mighty good, and if put into operation will result in accomplishing much for Lubbock and her enterprises.

Some of the things the new organization will foster is to "use everything that is sold in Lubbock." There are some seventy-five or a hundred traveling salesmen in Lubbock, and the organization will occasion their being together more, which will result in their knowing one another's problems better, and can more readily solve those knotty little problems that a salesman has to deal with.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVES' O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey is made the throat combined with the healing effect of Groves' O-Pen-Trade Salve, through the pores of the skin.

Just ask your druggist for HAYES' HEALING HONEY.

Every now and then Bryan remembers President Harrison was 68 when he was inaugurated.

Come to Lubbock.

"I Will Talk it Over With My Wife"

What will you talk over with your wife? I am here to get your signature to an application, to see whether or not you can get insurance.

It is far wiser to get your insurance policy and take it home and show your wife that you are physically sound and have been able to get Life Insurance rather than to go to her now and ask her advice, only to find, perhaps, that you are unable to pass the examination and cannot get insurance, for then you burden her not only with the worry that you are giving her no protection but also the added anxiety concerning your health.

Neil H. Wright

Representing Southland Life Insurance Co.

Every Woman Needs a Tonic at Some Period of Life

Read This

Dallas, Texas.—"I had been in ill health for a long time and then a more serious condition developed. I was under treatment of a doctor, but could not see much improvement. I then began taking Dr. Pierce's Favorite Prescription and now I am a perfectly well woman. I shall always be glad to say a good word for Dr. Pierce's Favorite Prescription." Mrs. W. H. Paschall, 4010 Metropolitan Street.

Health is most important to you. Do not neglect it. Obtain this Prescription of Dr. Pierce's now, in liquid or tablets, from your druggist, or send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo N. Y., or write for free medical advice.

FALL MONTHS BRING BUSY TIMES FOR PRINTERS

The Avalanche department is going at high speed caring for the many orders placed with us daily by businessmen from all over the South Plains who are taking advantage of prosperous times to boost their various businesses.

Circulars, office forms, stationery and catalogue work keeps the job printers on the go from early until late, and the purr of the Kelly Automatic cylinder is heard throughout the days.

The Avalanche job shop was equipped several months ago to take care of any "flock" of business that the times might bring, and the management is realizing the material gain of purchasing the modern machinery to meet the demand that was sure to follow the development of this section.

Real estate men are the big numbers in purchasing circulars, with dry goods firms following close second, and all other lines of industry are represented in the hosts who are making the printers useful and effective aids in pushing their lines.

In all malarial countries the popular remedy is Herbine. People find it is a good medicine for purifying the system and warding off the disease. Price 60c. Sold by City Drug Store.

SIGN MEN ADOPT SLOGAN THAT WILL ADVERTISE THEM

"Signs of the Times," official publication for the sign industry of America in its last issue, announced the adoption of a national slogan for the followers of the sign trade. "Tell the World with Signs" is the new slogan, and is written across a scroll balanced at the top of the wings of the American eagle, with a map across the Western Hemisphere encased in a circle representing the globe.

H. H. Jons, local sign man, who has in all probability added more to the general appearance of Lubbock than any other man insofar as sign work is concerned, has the emblem placed at the top of a large sign in the front of his building on 11th street. "Established 1918, busy every since" are other captivating words on the sign, which have attracted a great deal of attention.

Those acquainted with Jons will admit that he is right in the last statement, as can be further evidenced by a visit to his place where large orders await his attention in spite of the long hours spent in doing the artistic work.

Jons is always a little ahead of the times in the sign world, and is no doubt the first sign man on the South Plains to adopt the new national slogan.

MR. PARSONS PLEASSED WITH SOUTH PLAINS LAND

J. C. Parsons, owner of a fine farm eleven miles southwest of Lubbock, whose home is at Whitewright, Texas, is here looking after business interests.

He reports that the farmer who is working his farm this year is making a fine crop, and that from 230 acres of cotton he will gather something like 75 bales.

He declares that the man who is on his farm this year has worked the land better than the average farm, and that he is well paid for the extra work done, as he is harvesting good crops from all parts of the field.

Mr. Parsons is a booster for Lubbock and the plains.

REAL ESTATE ON SOUTH PLAINS IN GREAT DEMAND

The Chipley and Smith Real Estate Company, has been successful in placing a good many tracts of the Slaughter lands in the hands of farmers recently, and they expect even greater demand for those lands to be realized soon.

E. A. Watson of Lubbock, recently purchased a tract of those lands, and we learn he will put substantial improvements on the tract this fall, and have the land put into cultivation.

C. K. Houston of Memphis, Texas, is among the purchasers, and we are glad to know that he will make his home on the tract in time to prepare the land for the 1923 crop.

Mrs. Eunice Hohmann, of El Paso, purchased two tracts which will be put into one farm.

Other local men to buy lands in that section are J. A. Cunningham and J. P. Hamilton, who purchased one tract each.

LUBBOCK MEN PASSED OPTICAL EXAMINATION

G. K. Watson, A. E. Helber, A. F. Woods and R. C. Shaw, all of Lubbock, went to Sweetwater last week to attend the State examination of Opticians held there Friday and Saturday, and we are glad to report that all of them were successful, and made the examinations with credit to themselves and to Lubbock.

Lubbock's opticians are always looking out for the better interests of the people of this section, and we are glad to know that they represented the "Hub City" so well at the Sweetwater meeting.

The examinations were held by State Examiners, appointed by the Governor.

400,000 SHOT TO GET 7,000

Owing to the fact that Mr. Holubar "shot" over 400,000 feet of film for "Man-Woman-Marriage" it was necessary to allow eight weeks time for the cutting, and five of the most capable film cutters in Hollywood worked night and day at this task. When the picture was ready for the screen, it measured approximately 9,000 feet in length, which means that it now contains but one-fiftieth of its original length.

The original film was long enough to completely unfold the city of Los Angeles three times.

This picture will be shown at the Lyric Theatre in this city Monday and Tuesday.

During the hunting season there is a demand for wireless fences.

"It is Like Having a Made-to-Measure Corset"

—said a woman in our corset department after she had been fitted to a Binner.

And it is even better than having a made-to-measure corset. The corset made to your measure is bound to have the imperfections of your figure, whereas the Binner corset is moulded to the form of a perfect living model of your type and style.

These luxurious corsets may be had in any number of beautiful models, developed in the finest materials.

Come in today and let us show you the many new models we now have on display.

12 ISSUES OF LONE STAR POULTRY JOURNAL FOR ONLY 50c WITH THIS OFFER (Regular Price \$1) Special Price without ordering Sodium Fluorid, 70 Cents for 12 Issues.

KILL LICE AND MITES WITH SODIUM FLUORID

After numerous tests with different materials for destroying lice and mites on poultry, the U. S. Department of Agriculture found nothing so effective as SODIUM FLUORID. The methods of using and the remarkable results obtained are published in Farmer's Bulletin No. 801, a copy of which is furnished FREE with each order from us. Clemson Agricultural College of South Carolina says in Bulletin No. 53: "It is unquestionably the best louse killer we have tried." Twenty odd other State experimental stations support the U. S. Department of Agriculture's statement that SODIUM FLUORID has proven the best lice and mite killer tested by them.

COSTS 1-2 CENT PER FOWL

The LONE STAR brand of Sodium Fluorid is air-floated, fine as flour, unadulterated and of the highest grade obtainable. The cost per treatment is about 1-2 cent per fowl. Sodium Fluorid is also effective against cockroaches, water bugs, ants, plant lice, and lice on livestock. Methods of application are fully set forth in Farmers' Bulletin No. 801, which is furnished free with each order. Fully guaranteed.

PRICE: Two-pound can, \$1; four-pound can, \$1.75; eight-pound can \$3. Postage prepaid.

The LONE STAR POULTRY JOURNAL accepts the findings of the U. S. Department of Agriculture and the many State Agricultural Stations as conclusive proof that Sodium Fluorid is the most practical, economical remedy for the treatment of lice and mites and other uses for which it is recommended. We do not hesitate to recommend it and offer it to the public under a blanket guarantee of money back if not satisfied.

SPECIAL OFFER: Add 50 cents to any of the above prices for 12 issues of the LONE STAR POULTRY JOURNAL, new or renewal subscribers. Make checks payable to

Miss Eloise Jones spent Saturday night with Ona Ray.

Mr. and Mrs. Bush and children, spent Sunday in the Jerden home.
Miss Elsie Mae Ray spent Saturday night with Miss Mittie Lou Hinson.

Misses Laura Frazier of Lubbock, Oeta Ray, Ted Sims, Myrtle Burroughs, and Mr. Tonnie Sims, spent Sunday afternoon in the Coffey home.

Mr. Prentiss Jerden spent Saturday night with Carl Ray.

Mr. B. W. Casey and wife, attended church in Lubbock Sunday.

Mr. and Mrs. George Porter, of Lubbock, spent Sunday afternoon in the T. L. Altman home.

Miss Ona Ray spent Sunday afternoon with Miss Winnie Altman.

Several of our young folks attended the party at Mr. Lawson's Saturday night. They report a nice time.

Several people from Lubbock, attended church here Sunday night.

Mrs. Emmett Moore is in the sanitarium, where she underwent an operation last week. We hope that she will soon be able to return home.

Mrs. Cone, of the Vaughn community, spent Sunday with Prof. and Mrs. W. M. Pevehouse.

Everybody is needing cotton pickers and are unable to get them.

Miss Pearl Ditto spent Sunday with Miss Hazel Price.

Mr. Frazier and family, of Lubbock, spent Sunday in the Harris home.

A number of the Carlisle folks attended the singing at Shallowater Sunday afternoon.

Misses Jewell Wood, Mamie Hughes, Nora Brock and Elizabeth Jones, spent Sunday in the Collins home.

Mr. Fay Collins spent Sunday with Howell Jones.

Miss Esther Hughes spent Sunday with Miss Collene Holland.

Acuff Items

These cool mornings we're having reminds us that Jack Frost is on his way back to the Plains and we wish we had our coal bins full of coal—Winter's coming.

Bro. Shipman and daughter, Miss Clarice, were very pleasant visitors at Church Sunday morning. Bro. Shipman gave us a very interesting talk on the Bible, also about the Orphan's Home they are talking of building at Lubbock. We hope he'll be with us again before long, and we feel sure that he will for Miss Clarice now has the primary division in school and we welcome her into our midst.

J. M. Boyd and family, were Lubbock visitors Saturday.

Little Inez Davis is suffering from a badly bruised knee and leg this week, caused by her running under a wagon just as the team started up.

L. S. Evelt happened to the mis-

fortune of getting his thumb broken Saturday evening, while trying to dor a mule. The mule whirled and kicked him, causing the very painful accident.

Mr. and Mrs. D. Pounds were dinner guests at the home of Mr. J. J. Carroll, Sunday.

Mrs. E. E. Davis and Mrs. D. F. Pounds, were Lubbock visitors Tuesday, and while there attended the lecture given by Mrs. Barry at the Methodist church. They report a very pleasant afternoon.

Several of the Acuff folks attended services at Idalou Sunday evening. Bro. Lemons gave a very able discussion on Christian living, and it was enjoyed by a large audience at the Christian church.

Singing was quite a success at Acuff Sunday afternoon. We certainly appreciate the other communities help and earnestly invite them back again every time.

A. and K. Davis took 3 bales of cotton to Idalou to the gin Tuesday morning.

Mr. and Mrs. Ashley Davis took their little daughter to the doctor Thursday afternoon.

Messrs. Lee and Tom Holland, of New Mexico, who have been picking cotton for E. O. Eritt, are now at Mr. Cannon's, of Idalou.

Shallowater

The box supper that was given by the base ball club was a decided success, \$65 being realized, which puts the club out of debt. The cup was put in the B. E. Needles store and garage for the present. It is the aim of the club to have this cup in each of the business places for a certain length of time the coming year.

School closed Monday for a two weeks vacation on account of cotton picking.

There was a large crowd out to singing Sunday afternoon; also a goodly number attended church and Sunday school Sunday morning.

Emmett Wright has his new house nearly completed.

Mr. John Crump returned home Saturday, after a month's visit with his brother, W. D. Crump.

AGED MOTHER OF LOCAL MAN DIED AT PLAINVIEW

The many friends of J. E. Conner of the Lubbock Battery Company, regret very much to learn of the loss of his mother, Mrs. J. H. Conner, which occurred at the family home there Sunday, October 9.

Mrs. Conner has been a resident of Plainview for the past nine years, and in her passing that city has lost a most valuable citizen. The Conner family is well known in both Plainview and Lubbock, where their friends are numbered by acquaintances, and Mrs. Conner's death is the cause of much grief throughout the two cities.

Mr. J. H. Conner is here with his son, and will continue to make his home with him.

The Avalanche joins the many friends of the grieving relatives in extending heart-felt sympathy to them in the time of their greatest grief. We are glad to welcome the heart-broken husband and father to Lubbock, and assure him that the people of this city realize to some extent the burden placed upon him in sustaining this loss.

The Plainview Evening Herald gives the following account of the funeral:
"The funeral of Mrs. J. H. Conner, who died Sunday night at her home in this city, was held Monday afternoon at 4 o'clock at the Methodist church.

The services were conducted by the pastor, Rev. O. P. Clark, assisted by Rev. Harlan J. Matthews of the Baptist church. Interment was made in the Plainview cemetery with the Plainview Undertaking Company in charge.

"Mrs. Conner had been a resident of Plainview for many years with the exception of a short time spent in Lubbock. She is survived by her husband, J. H. Conner of Plainview, and by the son, J. E. Conner of Lubbock. She was an aunt of Mrs. Will Malone of Plainview."

TEXLINE SELLS \$175,000 WORTH OF BROOM CORN

Texline is making money this year and a great deal of public building has been recorded according to T. J. Fletcher of that city, who was in Amarillo Monday on business.

Mr. Fletcher said 100 cars of broom corn had been shipped from Texline this year and had brought the farmers around \$175,000 at the rate of \$175 a ton. Ten or fifteen cars of pinto beans have also been shipped this year.

A new \$100,000 school house was opened last Monday and a water and light plant costing \$85,000 was recently completed. The Van Noy Hotel was recently completed at a cost of \$60,000 and has 40 rooms.

A new \$20,000 Baptist church is to be built soon and still other improvements are contemplated.

35,000 CATHOLICS MARCH IN PARADE AT WASHINGTON

Washington, Oct. 9.—One of the largest public religious demonstrations in the history of the country was held here yesterday, when 35,000 Catholics, headed by Archbishop Michael J. Curley of Baltimore, marched in celebration of the Golden Jubilee of the Holy Name Society.

Distinguished Catholic prelates from cities of the East attended the demonstration at the base of Washington monument. Archbishop Curley and Bishop Shehan of Catholic University addressed the huge throng in interest of church solidarity.

Patrick J. Waltgan, president of the Baltimore union of the Holy Name Society, read a letter from President Harding commending the work of the society.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-11

If you are a "bargain hunter," you can't afford to miss the Leader's big Saturday Sale! 66-11

"a man doesn't have to be a tailor to buy clothes"

THE average man thinks "clothes" the day before he decides to buy a suit. He gets down early the next morning and buys it.

A faith proposition all the way through.

It's an easy way to buy.

Go to a store that has a brand of demonstrated worth.

The name Griffon Clothes is his assurance that the important details have been looked after.

We are glad to be known as the store that sells Griffon Clothes.

MASONS ORGANIZE DISTRICT SERVICE AND EDUCATION DIST.
R. A. Sowder was elected president, and Roscoe Wilson secretary, of a district Masonic Service and Educational Association, comprising eighteen counties, at a meeting held at the community auditorium here Saturday evening, October 7.

Grand Master, D. Frank Johnson of Brownwood, and Wilbur Keith, of the Dallas News, were among the distinguished out of town Masons at the meeting.

Plans for furthering the progress of our schools in this district were made. This association is an auxiliary to the State Association which is designed to better educational facilities in the State of Texas.

Miss Carrie Wilson returned to Lubbock last week after having been away for about four months, during which time she visited with home folks at Goodnight. She underwent an operation at a local sanitarium before going home, and the vacation, of course was a much needed one and her many friends here are glad to know that she is able to

Bagwell & Smith
Real Estate and Fire Insurance.

be back again. She was bookkeeper for the Cole-Myrick Hardware Co. before going to Goodnight.

A \$20,000 LOSS IN COTTON FIRE

Sweetwater, Oct. 11.—A box car and 45 bales of cotton were destroyed by fire in the Santa Fe yards early this morning. Hobbes were thought to be responsible and four men were arrested on suspicion.

The loss in the cotton and car is approximately \$20,000. The cotton was enroute from Greenville to Kobo, Japan.

If you are a "bargain hunter," you can't afford to miss the Leader's big Saturday Sale! 66-11

Beware of Colds this Fall---

Most everyone is aware of the dangers of changeable weather, but all do not heed it. A little caution now may save you from a sick bed later. Get your cold and sore throat preventives now. When it is not convenient for you to come, just use your Phone.

SOME TEXAS HISTORY AND PEOPLE WHO MADE IT

Stephen F. Austin, Commander-in-Chief.
Following the battle of Gonzales, overtures were made to Stephen F. Austin to leave San Felipe and come to Gonzales immediately, which he did, arriving there on the morning of the 11th of October, 1835, and that day, by a vote of the men, he was elected Commander-in-Chief of the Army of Texas. He was not a military man, making his unanimous election a very signal mark of the high esteem in which he was held and the confidence reposed in him by all Texans at that time. By

courtesy and common understanding, he was given the title of General, and this title was recognized by the provisional government organized a few weeks later. There were about three hundred volunteers assembled in Gonzales at this time and a regiment was formed. John H. Moore was selected Colonel, Edward Burlison, Lieutenant-Colonel, and Alexander Somervell, Major General Austin selected his staff as follows: Warren D. C. Hall, adjutant and inspector general, with David B. Mascomb as assistant; Peter W. Grayson and Wm. T. Austin,

aides-de-camp; Wm. H. Jack, brigade inspector, and William H. Wharton, judge-advocate. Three days later, Colonel Ben Milam arrived and was immediately put in command of a company of scouts.
A very pleasing incident occurred the first night of General Austin's stay in Gonzales. There had been an alienation of feeling between him and Wm. H. Wharton, and thru the efforts of Captain Wm. J. Russell, a cordial reconciliation took place between them and an interrupted friendship cemented that lasted throughout the lives of these men.
This little force of three hundred men, with officers enough for a grand division of three thousand, took up the line of march for San Antonio, and on the 20th, encamped on the Salado creek, fourteen miles from their objective point, to await reinforcements.

Capture of Goliad

A band of colonists under Captain George M. Collinsworth on the night of October 9th, 1835, made a surprise attack that was successful. At about midnight, as they approached the town, they were hailed from the darkness by Colonel Ben Milam. He had just escaped from prison in Mexico and made his way back to Texas, and thinking Collinsworth's party were Mexicans, he hid in a thicket, but on hearing them talking English, he called out to them, and was over-joyed to find himself with old friends. He joined them and they proceeded towards the garrison. The Mexican soldiers fired only a few random shots, so complete was their surprise, and, without the loss of a single colonist, they took possession of the fort and supplies. Two cannon, three hundred muskets and about ten thousand dollars' worth of food and ammunition were captured, which later proved of great value to General Stephen F. Austin and his men, who were at that time at Gonzales, preparing to march upon San Antonio.

Wilbarger County

Wilbarger county was organized October 10th, 1881, with Vernon as the county seat. It was created by the legislature, February 1st, 1888, out of the old municipality of Boxer, and named in memory of Josiah Wilbarger, an early pioneer, who was scalped and left for dead by the Indians at the spring about three miles from where the city of Austin now stands. He was rescued and lived for eleven years.

Sam Houston Normal School

The first session of the Sam Houston Normal Institute was opened at Huntsville, in the former Austin College building, October 10, 1879. The faculty was composed of Bernard Mallon, president; Oscar H. Cooper, Mrs. Isabelle Mallon and Mrs. A. A. Reynolds.

HOW BETTER THAN PILLS?

The question has been asked—In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve the appetite and strengthen the digestion.

Come to Lubbock.

CITATION BY PUBLICATION

THE STATE OF TEXAS, County of Lubbock.

To the Sheriff or any Constable of Lubbock County, greeting:
You are hereby commanded to summons the unknown heirs of S. H. Powers, deceased, their heirs and legal representatives, whose names and places of residence are unknown, and the unknown creditors of the estate of S. H. Powers, deceased, whose names and places of residence are unknown, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, on the 2nd Monday in December, A. D. 1922, the same being the 11th day of December, A. D. 1922, then and there to answer a petition filed in said court on the 27th day of September, A. D. 1922, in a suit, numbered on the docket of said court No. 1631, wherein W. R. Boone is plaintiff, and the unknown heirs of S. H. Powers, deceased, their heirs and legal representatives, whose names and places of residence are unknown to the plaintiff, J. C. Duff, and the unknown creditors of the estate of S. H. Powers, deceased, whose names and places of residence are unknown to plaintiff, are defendants, and said petition alleging that plaintiff is the owner in fee simple of lots Eleven (11), and Twelve (12), Block No. 132, original town of Lubbock, Lubbock county, Texas, and entitled to the possession thereof. Plaintiff also pleads title under the Three and Five Years Statute of Limitation; and further pleads that the unknown creditors of the estate of S. H. Powers, deceased, are asserting some claim or claims against the estate of S. H. Powers, deceased, and lien upon said lots by reason of such pretended claims, but that said claims, if any, are barred by the Two and Four Years Statute of Limitation, and that said claims have not been approved and established as claims against the estate of S. H. Powers, deceased, and in fact are not a lien upon said property; and that action is brought as well to try title as for damages; and plaintiff prays for judgment for the title to and possession of said property against all of the defendants.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.
Given under my hand and the seal of said court, in office in Lubbock, Texas, this 28th day of September, A. D. 1922.
(Seal) LOUIE F. MOORE,
Clerk of District Court, Lubbock County. 64-4F

A NEW Baker-Hemphill Store

Will Shortly Make its Bow to the People of Lubbock and the South Plains

This firm will need no introduction to many people who have known of us at some one of the sixteen different locations where we have businesses. From a humble beginning in Granbury, Texas, some forty years ago we now have grown until we now have stores in most every section of West Texas. This store, the latest link in our organization will be a typical Baker-Hemphill Store, supplying all lines of Dry Goods, Clothing, Ready-to-Wear and Furnishings at prices which are made lower because of our wholesale buying.

THIS WHOLESALE BUYING PLACES US IN A POSITION TO SELL YOU GOODS FOR LESS

Quantity buying means cheaper buying. Our quantity outlet places us in a position to go direct to manufacturers for our needs and effects a saving of the jobbers' profit, which we are able to pass on to you.

- A FEW OF OUR CONNECTIONS ARE AS FOLLOWS:**
Baker-Hemphill Co., Wholesale and Retail, San Angelo, Tex.
Baker-Hanna-Blake Co., Exclusively Wholesale, Oklahoma City, Okla.
Moore-Poston Co., Wholesale and Retail, Amarillo, Texas.
Baker-Poston Co., Wholesale and Retail, Weatherford, Texas.
Hemphill-Fain Co., Retail, Brownwood, Texas.

four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of District Court of Lubbock County, to be held at the Court House

thereof, in Lubbock, Texas, on the 2nd Monday in December, A. D. 1922, the same being the 11th day of December, A. D. 1922, then and there to answer a petition filed in said court on the 20th day of September, A. D. 1922, in a suit, numbered on the docket of said court No. 1630, wherein E. Gilliland is plaintiff, and J. C. Potter, and Mrs. J. C. Potter, and the heirs and legal representatives of said J. C. Potter, and the heirs and legal representatives of Mrs. J. C. Potter, are defendants, and said petition alleging:

Plaintiff sues in trespass to try title, for title and possession of Lot 7, in Block 150, in the town of Lubbock, Lubbock County, Texas. That F. V. Brown conveyed said land to J. C. Potter on January 5, 1921, retaining a lien securing two notes, one of which matured on July 5, 1922; that default was made in payment thereof, and under provisions in each note, plaintiff as owner of both notes declared the last one due also. That F. V. Brown gave in said notes transferred them to plaintiff, and also conveyed to plaintiff the superior title to said land. Plaintiff has elected to rescind the sale to J. C. Potter, and claim and hold the land.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Lubbock, Texas, this 20th day of September, A. D. 1922.

HALE CENTER

The American

Rev. W. R. Underwood, former pastor of Lorenzo Baptist church, has accepted the pastorate of the Baptist church here and took up his duties of same October first. J. F. Norfleet was the recipient

last week of 5 pheasants sent to him by a Mr. Kendrick of Denver. They consist of a trio of Japanese Ringnecks and a pair of the Golden type. They are beautiful and were once up on a time a game of the Plains, but now extinct. We understand Mr. Kendrick is a breeder of these pheasants, having as many as three or four thousand on hand all the time. They are good sellers, bringing the fancy price of \$30 to \$40 per pair. They leave a fancier to enter into the hands of another fancier of game. On Mr. Norfleet's ranch you find squirrels, peacocks, guineas, turkeys, game chickens and also hundreds of white-faced cattle, and thoroughbred sheep. Therefore we are sure they will be appreciated by Mr. Norfleet and at the same time made to be a profitable game.

TAHOKA

The News

Messrs. G. R. Blackburn and A. M. Brennecke, with the Elrod Engineering company of Dallas, have been in Tahoka the past several days surveying the principal business streets of the city preparatory to the paving, which is expected to begin within the next few weeks. Jack Blankenship of Plains, Youkum county, spent Sunday and Monday here visiting with his sister-in-law, Mrs. R. L. Davidson. He brought two of his daughters over to enter the Tahoka high school during the 1922-23 term. Mr. Blankenship reported the range in Youkum as being a little dry at this time, but cattle were in good shape at present. B. F. Montgomery and family, have gone to Carlsbad, to make their future home. The first football game of the season in Tahoka will be played this afternoon when the high school team meets the Lamesa high on the local gridiron. Game called at 3 p. m. Mr. and Mrs. Hensley and family, were among the ones who went to the Lubbock fair. They went Friday, returning Saturday, and reported a splendid time. Among those who have installed radio sets in Tahoka recently, as reported by E. L. Howard local agent, are as follows: G. M. Stewart, J. L. Heare and G. E. Lockhart. Mr. Howard handles the Westinghouse Radio sets, and reports that a number of these sets will be installed in the community at an early date. R. S. Davidson, formerly proprietor of the West Side Cafe before its destruction by fire some two weeks ago, is now in charge of the Lynn Hotel. Mr. Miller, the owner, has moved with his family to his ranch near O'Donnell. Mr. and Mrs. Davidson are experienced hotel people and we are sure they will enjoy a nice patronage at the hands of the public.

CROSBYTON

The Review

Mrs. Lloyd Houser, residing a few miles south of town, was operated upon for appendicitis at a Lubbock Sanitarium some days ago, and for a while was in a very critical condition but is now gradually improving, we are glad to hear. Dan Holleyman and Miss Thyra Gilbert, both of Spur, were married at the Methodist parsonage in Crosbyton Sunday, Rev. H. C. Gordon performing the ceremony. There was a tinge of romance attached to this marriage, in that the bride's parents were sending her off to school and she was on her way to enter Canyon City Normal, when her lover appeared on the scene and she capitulated to Dan Cupid. Uncle John K. Fullingim and family are enjoying a visit from his venerable mother, Mrs. M. E. Fullingim, who arrived last week from Slaton, where she had been visiting her daughter, Mrs. Ernest Murphy, to be here during the fair. She was a visitor on the fair grounds each of the three days of the fair and was greeted by many warm friends among the old timers. Grandma Fullingim came to Crosby County nearly 22 years ago, soon after the

death of her husband, and she has made her home with her children, dividing the time between them. She says that when she first came to Crosby county she would get in the buggy at Estacado and make a bee line for the home of John K. in the chinery about fifteen miles distant, there being no roads or fences to help guide her journey, but she never once got lost. She has been a living witness to the development of this great country, enduring the hardships of pioneer life and deserves all the reverence that should be bestowed upon a noble woman—one of the choicest gifts of God. John Tucker and son, Arthur, came down Saturday from their new home in Bailey County to mingle with old friends at the fair. Mr. Tucker is highly pleased with his new location and says he has made a dandy crop. He is living in the little town of Hurley and is rapidly working himself up to be the "whole cheese," he being postmaster, farmer, merchant and we presume banker of the town, and is contemplating applying for license to practice law and also to preach. This is what you call "going some," but we always thought Mr. Tucker was a goer. Miss Victoria Kiken, daughter of Mr. and Mrs. Milton Kiker of Walke, and a member of the class of 1922 of Crosbyton high school, left Saturday for John Tarleton College at Stephenville, having received a scholarship to this institution upon her graduation last spring. C. L. Hale, who acted as deputy county tax assessor under Uncle Pan Montgomery, and who is teaching school in one of the counties west of us, accompanied by his wife and baby, was a visitor at the fair Saturday. His parents, Mr. and Mrs. J. T. Hale of Lawrence, were also with them.

Don't fail to read the Avalanche

SHERIFF'S SALE

THE STATE OF TEXAS, County of Lubbock.

Whereas, by virtue of an execution Order of Sale issued out of the District Court of Lubbock county, Texas, on a judgment rendered in said Court on the 16th day of August, A. D. 1922, in favor of the Panhandle Construction Company, and against The Continental Commission Company, No. 1528 on the docket of said court, and to me, as Sheriff, directed and delivered, I did, on the 27th day of September, A. D. 1922, at 11:00 o'clock a. m., levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to The Continental Commission Company, to-wit: Lot No. 19, Block No. 104, original town of Lubbock, Lubbock County, Texas. On the 7th day of November, A. D. 1922, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the Courthouse door of Lubbock County, Texas, I will offer for sale at public auction, for cash, all the right, title and interest of the said Continental Commission Company in and to said property. Witness my hand, this 27th day of September, A. D. 1922. C. A. HOLCOMB, Sheriff of Lubbock County, Texas. 62-4P

Manhattan Parlor & Cafe

AGGIES LOSE TO BUFFALOES 104 TO 13
Canyon, Oct. 6.—The Canyon Normal Buffaloes smothered the Junior Oklahomas Aggies from Groves well here today by the heavy score of 104 to 13. Thomas, Aggie quarterback, was the star for the visitors, making two touchdowns on long runs and accounting for all the points made by the Farmers. Stars for the locals were Mitchell, who made three touchdowns; Golden and Hale, the latter making two touchdowns. In the last quarter Yearlings replaced the Buffaloes in the line-up. No. 10. **Worms** have an unhealthful habit of multiplying in the blood, and cause more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take—50c per bottle.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took **Theford's Black-Draught**, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

If it isn't

LUBBOCK TAKES FIRST PRIZE AT DALLAS

(Continued from first page)

out showing cotton in any classification. The exhibit is in charge of O. V. Vernon, secretary of the Board of city development, J. C. Sebastian, his assistant, and Miss Anna Bower, Potter County home demonstration agent.

One hundred and fifty points are allowed on the score card for neatness, attractiveness and arrangement of exhibits and Potter county must have scored well in that regard. In the back wall of the exhibit is a grain fashioned heart, representing the Amarillo slogan, "the heart of an empire," and within the heart are wheat sheafs crossed in the manner of swords. Small bundles of wheat and other small grain products are standing upright in the midst of the exhibit.

In the absence of cotton, wheat displaces the white staple in the scoring list and it is wheat of a high quality scoring sixty-one and sixty-two pounds to the bushel, and oats weighing out thirty-seven pounds to the bushel, both marks above the standard weight.

Potter county also is strong in its fruits and vegetables for this year's show and is one of the counties that exactly duplicated its raw fruits in the glass jars so as to take full advantage of the score allowed.

Although Potter county has counted itself out of the cotton belt, Harman Benton, county agent, is working out a program that includes cotton for next year and Potter may come next year showing cotton, according to Mr. Vernon. The adjoining counties have successfully grown cotton, Mr. Vernon said, and

a considerable number of farmers are ready to give it a trial on their farms.

Crosby County Diversification
Crosby County won third place in the show after a dry crop season that is not reflected in the quality of the agricultural products shown. Crosby county has made great strides in the dairying industry in the last few years and is the home of a famous Jersey herd owned by S. A. Guy. It boasts of its diversified products and that idea is stressed in the collection of agricultural material for the show. The exhibit is in charge of W. T. Dunn and David Aynes. The county will have a surplus of kafir and milo maize this fall, according to Mr. Dunn, and will ship out a large quantity of feedstuff. A 20,000-bale cotton crop is expected for the county from the 90,000 acres devoted to the staple and represents about one-fifth of the farmed land in the county.

Black velvet beans grown on the Guy farm are included in the exhibit and the bean stalk is possessed of a wealth of foliage coupled with huge size. Crosby county is showing quinces along with its fruits and from its field products has collected Japanese cantaloupes, the weight seven and eight pounds and are declared to have a Rocky Ford taste, are included in the exhibit. These melons are declared to last longer than ordinary varieties and ship extraordinarily well.

MANY VALUABLE EXPERIMENTS BEING MADE AT THE LOCAL STATION

(Continued from first page)

and worthy institutions of the entire plains section.

There are farmers in Lubbock county, we understand, who are making such close study of the work that is being done there that their farms have been greatly improved, and such work has made Mr. Karper's experiments worth a great deal more to this section than is being spent in the operation of the farm.

Diversified, educational farming will keep Lubbock county and the great South Plains ahead of all others, and Mr. Karper's work is encouraging and helping to do better farming is to be appreciated.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-1t

Lee Johnson, of the Cicero Smith Lumber Company of Fort Worth, was here the first of the week on business.

If you are a "bargain hunter," you can't afford to miss the Leader's big Saturday Sale! 66-1t

Upon regaining her speech a woman said, "Where is my husband?" This was only natural.

Our next income tax is due ten days before Christmas.

Society

O. E. S. Notice
Members of Jessie Chapter No. 76, are requested to attend the regular meeting at Masonic Hall Tuesday evening, October 17, 1922, at 7:30.

Subject of great importance will be discussed prior to Grand Chapter, which convenes in Dallas October 23-26, 1922.
Mrs. Lon A. Mullican, Sec'y

Circle Sixteen "42" Club

The Circle Sixteen "42" Club met with Mr. and Mrs. Edgar Immon at their beautiful home Monday evening. There were four tables of players and the excitement ran high and the interest increased as the moments flew by. At the close of the evening the guests were served to a tempting salad course consisting of pimento sandwiches, olives, hot coffee with whipped cream, and caramel pie topped with whipped cream. Those present were: Mesdames Sims, Rylander, A. B. Ellis, Trinkle, M. Single, Stanton, Mamie Neal, Willie Pearson, Immon; Misses Hargett, Thurman, and Messrs. Rylander, Sims, A. B. Ellis, Trinkle, Immon and Montgomery.
The club will meet next time with Mr. and Mrs. Sims.

Idle Hour Needle Club

Mrs. W. K. Dickinson, Jr., entertained the Idle Hour Needle Club Wednesday afternoon. The rooms were beautifully decorated with flowers and the afternoon was enjoyed more because the meeting was in compliment to Mrs. Neal A. Douglass. At the close of the afternoon the hostess served a delicious salad course of sandwiches, potato chips, chicken salad, cheese balls and iced tea. Those present were: Mesdames J. J. Adams, B. O. Morgan, Pearson, H. L. Hicks, F. C. McSpadden, H. L. Allen, O. R. Collier, Dickinson, and the honoree, Mrs. Douglass. The club will meet next time with Mrs. B. O. Morgan.

1911 Needle Club

Mesdames W. H. Bledsoe and W. G. Murray entertained the 1911 Needle Club at the beautiful home of Mrs. Bledsoe's. The spacious entertaining suite was beautifully and artistically decorated with a profusion of cut flowers, which lent an individual charm. At the close of the afternoon the hostesses served a tempting salad course of cream chicken in patties, potato chips, queen olives, butter sandwiches, frozen fruit salad and iced tea. Quite a few of the members were absent as they were attending the Fair at Post, Texas, but those present expressed themselves as having a delightful time.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-1t

Mr. and Mrs. L. I. Rouse are making preparations to leave for Mount Vernon, Texas, where they will spend the winter months at the home of their daughter, Mrs. G. W. Rutherford. They have rented their home on Avenue I to Mr. Roundtree, a cotton buyer, who will occupy the place throughout the winter.

If you are a "bargain hunter," you can't afford to miss the Leader's big Saturday Sale! 66-1t

C. H. Barrus, of 1214 Tenth Street, motored out to the Barrus Ranch fifty miles west of Lubbock Wednesday to help get a bunch of cattle together to ship to Eastern markets. He made a trip to the ranch recently and reported that the range cattle were doing mighty well in spite of dry weather. Mr. Barrus is one of the pioneers of the South Plains.

Prescriptions refilled money if PAZO OINTMENT fails to relieve itching, burning or stinging. Instantly relieves itching, burning, and stinging. Sold everywhere.

Near Petaluma, California, jazz music speeds up the hens. So far none have laid scrambled eggs.

A NEW OPTICAL OFFICE

We have just opened up a new and exclusive optical office in the Leader building, where we are prepared to do all kinds of refractive work. The latest, best and most approved instruments will be used in examining and testing the eyes of those who need glasses.

The science of optometry, or measuring the refraction of the eye and accurately adjusting glasses, is now recognized by the State as an exclusive profession—the work of an optical specialist. It is no side line. We have spent fifteen years in the study and practice of optometry, and feel very thoroughly qualified to do the work. Come and see. Our home is in Lubbock and you can depend upon us. We earnestly solicit a share of your patronage.

Respectfully,
J. D. SHAW.

GEORGE STRINGER AND MISS ALTMAN WED SUN.

Mr. George Stringer and Miss Annie Lou Altman were married at the Cumberland Presbyterian church Sunday morning, Oct. 9, by Rev. Baker.

Mr. Elmer Pittman and Miss Bessie Stringer attended the wedding.

If you are a "bargain hunter," you can't afford to miss the Leader's big Saturday Sale! 66-1t

BROTHER BRINGS BROTHER TO JUSTICE

Hairbreath Tale of Justice in The Northwest

A tale that bespeaks volumes for the rock-robbed code to the Royal Northwest Mounted Police, came out of the snow country recently when it was ascertained that Corp. Bob Fitzgerald tracked his own brother and brought him back to justice.

According to reports, the younger Fitzgerald, also of the Royal Northwest Mounted Police fell from grace and after being admonished by Sergt. Georges Mardeaux, proceeded to ignore authority and further entangle himself by coveting the wife of the inspector. When this came to the attention of Mardeaux, he decided to investigate for himself, and coming upon the pair unexpectedly, the sergeant's wrath was kindled and he shield himself from the inspector's wrath, from the peculiar exigency of fate

the duty of tracking the murderer fell upon Corp. Bob Fitzgerald, and then ensued the man hunt with the elder brother in pursuit of the younger. The chase led through the frozen vastnesses of the bleak northwest until brother tracked brother—the ties of blood forgotten in the rigid code of the King's law, and the law of the north—Get Your Man! How by a ruse, the tables are turned, and the murderer finally apprehended is to be seen in "I AM THE LAW," coming to the R. & R. Lindsey Theatre on Monday and Tuesday.

The Leader will have a very special sale on many timely articles Saturday. Don't miss it. 66-1t

Every man is entitled to a living wage except the one who refuses to pay it.
